## **PART I**

#### **ITEM 1. BUSINESS**

## **Description of the Business**

Franklin Electric Co., Inc. ("Franklin Electric" or the "Company") is an Indiana corporation founded in 1944 and incorporated in 1946. Named after America's pioneer electrical engineer, Benjamin Franklin, Franklin Electric manufactured the first water-lubricated submersible motor for water systems and the first submersible motor for fueling systems. With 2021 revenue of about \$1.7 billion, the Company designs, manufactures and distributes water and fuel pumping systems, composed primarily of submersible motors, pumps, electronic controls, water treatment systems and related parts and equipment.

The Company's water pumping systems move fresh and wastewater for the residential, agricultural, and other industrial end markets. The Company also sells various groundwater equipment products to well installation contractors, including water pumping systems, through its distribution branches located in the U.S. With a growing global footprint, the Company has also evolved into a top supplier of submersible fueling systems at gas stations, making pumps, pipes, electronic controls, and monitoring devices.

The Company's products are sold worldwide by its employee sales force and independent manufacturing representatives. The Company offers normal and customary trade terms to its customers, no significant part of which is of an extended nature. Special inventory requirements are not necessary, and customer merchandise return rights do not extend beyond normal warranty provisions.

# Franklin Electric's Key Factors for Success

While maintaining a culture of safety and lean principles, Franklin Electric promises to deliver quality, availability, service, innovation, and cost in every encounter the Company has with stakeholders, including direct or indirect customers, employees, shareholders, and suppliers. These key factors for success are a roadmap for the Company's growth as a global provider of water and fuel systems, through geographic expansion and product line extensions, leveraging its global platform and competency in system design, all while consistently offering the best value to its customer.

#### **Markets and Applications**

The Company's business consists of three reportable segments based on the principal end market served: Water Systems, Fueling Systems, and Distribution segments. The Company includes unallocated corporate expenses in an "Intersegment Eliminations/Other" segment that, together with the Water Systems, Fueling Systems, and Distribution segments, represent the Company. Segment and geographic information appears in Note 15 - Segment and Geographic Information to the consolidated financial statements.

The market for the Company's products is highly competitive and includes diversified accounts by size and type. The Company's Water Systems and Fueling Systems products and related equipment are sold to specialty distributors and some original equipment manufacturers ("OEMs"), as well as industrial and petroleum equipment distributors and major oil and utility companies. The Company's Distribution segment sells products primarily to water well contractors.

## Water Systems Segment

Water Systems is a global leader in the production and marketing of water pumping systems and is a technical leader in submersible motors, pumps, drives, electronic controls, water treatment systems, and monitoring devices. The Water Systems segment designs, manufactures and sells motors, pumps, drives, electronic controls, monitoring devices, and related parts and equipment primarily for use in groundwater, water transfer and wastewater.

Water Systems motors, pumps and controls are used principally for pumping clean water and wastewater in a variety of residential, agricultural, municipal and industrial applications. Water Systems also manufactures electronic drives and controls for the motors which control functionality and provide protection from various hazards, such as electrical surges, over-heating and dry wells or dry tanks. In the last three years, the Company acquired First Sales, LLC; Waterite, Inc.; Puronics, Inc.; New Aqua, LLC; and B&R Industries, Inc. expanding its portfolio to include water treatment systems and acquired Minetuff Dewatering Pumps Australia Pty Ltd expanding its industrial dewatering product line.

Water Systems products are sold in highly competitive markets. Water Systems contributes about 60 percent of the Company's total revenue. Significant portions of segment revenue come from selling groundwater and surface pumps, motors, and controls for residential and commercial buildings, as well as agricultural sales which are more seasonal and subject to commodity price changes. The Water Systems segment generates approximately 30 to 35 percent of its revenue in developing markets, which often lack municipal water systems. As those countries install water systems, the Company views those markets as an

opportunity. The Company has had 6 to 9 percent compounded annual sales growth in developing regions in recent years. Water Systems competes in each of its targeted markets based on product design, quality of products and services, performance, availability, and price. The Company's principal competitors in the specialty water products industry are Grundfos Management A/S, Pentair, Inc. and Xylem, Inc.

2021 Water Systems research and development expenditures were primarily related to the following activities:

- Electronic variable frequency drives and controls for Pump and HVAC applications, including the development of SubDrive Connect and Cerus X-Drive to include support for HES (High Efficiency Systems) motor
- Greywater pumping equipment, including making FPS Non-Clog products explosion proof capable, the development of a 1HP Grinder pump, and development of 60Hz electrical submersible pumps with the recent acquisition of Minetuff
- Submersible and surface pumps for residential, commercial, municipal, and agricultural applications including the development of a standard global 4" pump family, development of new Submersible Turbine products, and upgrading the performance of our recently acquired lineshaft turbine product offerings
- Submersible motor technology and motor protection, including the development of 4 pole motor designs for 8" and 10" diameters and 4" Oil-filled motors
- · Water Treatment products focused on component improvements and IOT enabled sensing systems

## Fueling Systems Segment

Fueling Systems is a global leader in the production and marketing of fuel pumping systems, fuel containment systems, and monitoring and control systems. The Fueling Systems segment designs, manufactures and sells pumps, pipe, sumps, fittings, vapor recovery components, electronic controls, monitoring devices and related parts and equipment primarily for use in fueling system applications.

Fueling Systems offers a complete array of components between the tank and the dispenser, including submersible pumps, station hardware, piping, sumps, vapor recovery, corrosion control systems, and electronic controls. The Fueling Systems segment growth has been sustained by a commitment to protecting human health and the environment while delivering the lowest total cost of ownership. Fueling Systems takes steps to ensure its products are installed and maintained properly through robust global certification tools for their third-party contractors. The segment serves other energy markets such as power reliability systems and includes intelligent electronic devices that are designed for online monitoring for the power utility, hydroelectric, and telecommunication and data center infrastructure.

Fueling Systems products are sold in highly competitive markets. Rising vehicle use is leading to more investment in fueling stations which, in turn, leads to increased demand for the Company's Fueling Systems products. The Company believes there is growth opportunity in developing markets. Fueling Systems competes in each of its targeted markets based on product design, quality of products and services, performance, availability, and value. The Company's principal competitors in the petroleum equipment industry are Vontier Corporation, formerly a part of Fortive Corporation, and Dover Corporation.

2021 Fueling Systems research and development expenditures were primarily related to the following activities:

- Developed and launched new Celltron Advantage Digital battery handheld tester
- Developed and launched new Desiccant Sensor for monitoring desiccant bags in corrosive environments
- Developed and launched new low level float to measure very small amounts of water in Diesel tanks
- Developed new Vapor Flow Meter for Chinese Vapor Recovery Monitoring regulation
- Developed UNITE, server software to collect data from Battery Monitoring and Battery Testers
- Developed Press-Fit Connector for Cabletight electrical conduit
- Continued developing Distribution Transformer Monitor
- · Updated Vapor Recovery equipment to meet safety and performance for Turkey Vapor Recovery regulation

# **Distribution Segment**

The Distribution Segment is operated as a collection of wholly owned leading groundwater distributors known as the Headwater Companies. Headwater Companies deliver quality products and leading brands to the industry, providing contractors with the availability and service they demand to meet their application challenges. The Distribution segment operates within the U.S. professional groundwater market. Highlights of the Distribution Segment geographic growth through acquisitions in the last three years are as follows:

- 2019 Acquired Milan Supply Company, a professional groundwater distributor operating in the mid-west
- 2020 Acquired Gicon Pumps & Equipment, Inc., a professional groundwater distributor operating in the south
- 2021 Acquired Blake Group Holdings, Inc., a professional groundwater distributor operating in the northeast

## **Information Regarding All Reportable Segments**

### Research and Development

The Company incurred research and development expense as follows:

(In millions)	2	.021	2020	2019
Research and development expense	\$	17.3 \$	21.7	\$ 20.8

Expenses incurred were for activities related to the development of new products, improvement of existing products and manufacturing methods, and other applied research and development.

The Company owns a number of patents, trademarks, and licenses. In the aggregate, these patents are of material importance to the operation of the business; however, the Company believes that its operations are not dependent on any single patent or group of patents.

#### Raw Materials

The principal raw materials used in the manufacture of the Company's products are coil and bar steel, stainless steel, copper wire, and aluminum ingot. Major components are electric motors, capacitors, motor protectors, forgings, gray iron castings, plastic resins, and bearings. Most of these raw materials are available from multiple sources in the United States and world markets. Generally, the Company believes that adequate alternative sources are available for the majority of its key raw material and purchased component needs; however, the Company is dependent on a single or limited number of suppliers for certain materials or components. The Company believes that availability of fuel and energy is adequate to satisfy current and projected overall operations unless interrupted by government direction, allocation or other disruption.

# Major Customers

No single customer accounted for over 10 percent of net sales in 2021, 2020, or 2019. No single customer accounted for over 10 percent of gross accounts receivable in 2021 and 2020.

## Backlog

The dollar amount of backlog by segment was as follows:

(In millions)	February 10, 2022		Februar	ry 11, 2021
Water Systems	\$	205.9	\$	69.2
Fueling Systems		58.4		17.4
Distribution		22.1		11.9
Consolidated	\$	286.4	\$	98.5

The backlog is composed of written orders at prices adjustable on a price-at-the-time-of-shipment basis for products, primarily standard catalog items. All backlog orders are expected to be filled in fiscal year 2022. The Company's sales in the first quarter are generally less than its sales in other quarters due to less water well drilling and overall product sales during the winter months in the Northern hemisphere. Beyond that, there is no seasonal pattern to the backlog and the backlog has not proven to be a significant indicator of future sales.

#### **Environmental Matters**

The Company believes that it is in compliance with all applicable federal, state, and local laws concerning the discharge of material into the environment, or otherwise relating to the protection of the environment. The Company has not experienced any material costs in connection with environmental compliance, and does not believe that such compliance will have any material effect upon the financial position, results of operations, cash flows, or competitive position of the Company.

## **Human Capital Resources**

As of December 31, 2021, the Company had approximately 6,400 employees. The Company is committed to providing safe work environments for our employees, prioritizing wellness, health and safety best practices, and requiring ethical compliance with established policies. Further information regarding our human capital details and initiatives can be found in the 2021 Franklin Electric Sustainability Report available for download on the Company's website.

# Available Information

The Company is a U.S. public reporting company under the Exchange Act and files reports, proxy statements, and other information with the SEC, which can be accessed from the SEC's home page on the Internet at <a href="https://www.sec.gov">www.sec.gov</a>. The Company's website address is <a href="https://www.franklin-electric.com">www.franklin-electric.com</a>. The Company makes available free of charge on or through its website its annual

report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments to those reports, as soon as reasonably practicable after such material is electronically filed with or furnished to the Securities and Exchange Commission. Additionally, the Company's website includes the Company's corporate governance guidelines, its Board committee charters, Lead Independent Director charter, and the Company's code of business conduct and ethics. Information contained on the Company's website is not part of this annual report on Form 10-K.

#### ITEM 1A. RISK FACTORS

The following describes the principal risks affecting the Company and its business. Additional risks and uncertainties, not presently known to the Company, could negatively impact the Company's results of operations or financial condition in the future.

## **Risks Related to the Industry**

Reduced housing starts adversely affect demand for the Company's products, thereby reducing revenues and earnings. Demand for certain Company products is affected by housing starts. Variation in housing starts due to economic volatility both within the United States and globally could adversely impact gross margins and operating results.

The Company's results may be adversely affected by global macroeconomic supply and demand conditions related to the energy and mining industries. The energy and mining industries are users of the Company's products, including the coal, iron ore, gold, copper, oil, and natural gas industries. Decisions to purchase the Company's products are dependent upon the performance of the industries in which our customers operate. If demand or output in these industries increases, the demand for our products will generally increase. Likewise, if demand or output in these industries declines, the demand for our products will generally decrease. The energy and mining industries' demand and output are impacted by the prices of commodities in these industries which are frequently volatile and change in response to general economic conditions, economic growth, commodity inventories, and any disruptions in production or distribution. Changes in these conditions could adversely impact sales, gross margin, and operating results.

Volatility in the prices and availability of raw materials, components, finished goods and other commodities could adversely affect operations. The Company purchases most of the raw materials for its products on the open market and relies on third parties for the sourcing of certain finished goods. Accordingly, the cost of its products may be affected by changes in the market price and its ability to successfully obtain raw materials, sourced components, or finished goods. The Company and its suppliers also use natural gas and electricity in manufacturing products both of which have historically been volatile. The Company does not generally engage in commodity hedging for raw materials and energy. Significant increases in the prices or disruptions in the supply chain of commodities, sourced components, finished goods, energy or other commodities could cause product prices to increase, which may reduce demand for products or make the Company more susceptible to competition. Furthermore, in the event the Company is unable to pass along increases in operating costs to its customers, margins and profitability may be adversely affected.

The growth of municipal water systems and increased government restrictions on groundwater pumping could reduce demand for private water wells and the Company's products, thereby reducing revenues and earnings. Demand for certain Company products is affected by rural communities shifting from private and individual water well systems to city or municipal water systems. Many economic and other factors outside the Company's control, including governmental regulations on water quality, and tax credits and incentives, could adversely impact the demand for private and individual water wells. A decline in private and individual water well systems in the United States or other economies in the international markets the Company serves could reduce demand for the Company's products and adversely impact sales, gross margins, and operating results.

Demand for Fueling Systems products is impacted by environmental legislation which may cause significant fluctuations in costs and revenues. Environmental legislation related to air quality and fuel containment may create demand for certain Fueling Systems products which must be supplied in a relatively short time frame to meet the governmental mandate. During periods of increased demand the Company's revenues and profitability could increase significantly, although the Company can also be at risk of not having capacity to meet demand or cost overruns due to inefficiencies during ramp up to the higher production levels. After the Company's customers have met the compliance requirements, the Company's revenues and profitability may decrease significantly as the demand for certain products declines substantially. The risk of not reducing production costs in relation to the decreased demand and reduced revenues could have a material adverse impact on gross margins and the Company's results of operations.

Changes in tax legislation regarding the Company's U.S. or foreign earnings could materially affect future results. Since the Company operates in different countries and is subject to taxation in different jurisdictions, the Company's future effective tax rates could be impacted by changes in such countries' tax laws or their interpretations. Both domestic and international tax laws

are subject to change as a result of changes in fiscal policy, legislation, evolution of regulation and court rulings. The application of these tax laws and related regulations is subject to legal and factual interpretation, judgment, and uncertainty. The Company cannot predict whether any proposed changes in tax laws will be enacted into law or what, if any, changes may be made to any such proposals prior to their being enacted into law. If the tax laws change in a manner that increases the Company's tax obligation, it could have a material adverse impact on the Company's results of operations and financial condition.

## **Risks Related to the Business**

The Company is exposed to political, economic and other risks that arise from operating a multinational business. The Company has significant operations outside the United States, including Europe, South Africa, Brazil, Mexico, India, China, Turkey, Canada and Argentina. Further, the Company obtains raw materials and finished goods from foreign suppliers. Accordingly, the Company's business is subject to political, economic, and other risks that are inherent in operating a multinational business. These risks include, but are not limited to, the following:

- Difficulty in enforcing agreements and collecting receivables through foreign legal systems
- Trade protection measures and import or export licensing requirements
- Inability to obtain raw materials and finished goods in a timely manner from foreign suppliers
- Imposition of tariffs, exchange controls or other restrictions
- Difficulty in staffing and managing widespread operations and the application of foreign labor regulations
- Compliance with foreign laws and regulations
- Changes in general economic and political conditions in countries where the Company operates

Additionally, the Company's operations outside the United States could be negatively impacted by changes in treaties, agreements, policies, and laws implemented by the United States. If the Company does not anticipate and effectively manage these risks, these factors may have a material adverse impact on its international operations or on the business as a whole.

The Company has significant investments in foreign entities and has significant sales and purchases in foreign denominated currencies creating exposure to foreign currency exchange rate fluctuations. The Company has significant investments outside the United States, including Europe, South Africa, Brazil, Mexico, India, China, Turkey, Canada and Argentina. Further, the Company has sales and makes purchases of raw materials and finished goods in foreign denominated currencies. Accordingly, the Company has exposure to fluctuations in foreign currency exchange rates relative to the U.S. dollar. Foreign currency exchange rate risk is partially mitigated through several means: maintenance of local production facilities in the markets served, invoicing of customers in the same currency as the source of the products, prompt settlement of intercompany balances, limited use of foreign currency denominated debt, and application of derivative instruments when appropriate. To the extent that these mitigating strategies are not successful, foreign currency rate fluctuations can have a material adverse impact on the Company's international operations or on the business as a whole.

The Company's acquisition strategy entails expense, integration risks, and other risks that could affect the Company's earnings and financial condition. One of the Company's continuing strategies is to increase revenues and expand market share through acquisitions that will provide complementary Water and Fueling Systems products, add to the Company's global reach, or both. The Company spends significant time and effort expanding existing businesses through identifying, pursuing, completing, and integrating acquisitions, which generate expense whether or not the acquisitions are actually completed. Competition for acquisition candidates may limit the number of opportunities and may result in higher acquisition prices. There is uncertainty related to successfully acquiring, integrating and profitably managing additional businesses without substantial costs, delays or other problems. There can also be no assurance that acquired companies will achieve revenues, profitability or cash flows that justify the investment. Failure to manage or mitigate these risks could adversely affect the Company's results of operations and financial condition.

The Company's products are sold in highly competitive markets, by numerous competitors whose actions could negatively impact sales volume, pricing and profitability. The Company is a global leader in the production and marketing of groundwater and fuel pumping systems. End user demand, distribution relationships, industry consolidation, new product capabilities of the Company's competitors or new competitors, and many other factors contribute to a highly competitive environment. Additionally, some of the Company's competitors have substantially greater financial resources than the Company. The Company believes that consistency of product quality, timeliness of delivery, service, and continued product innovation, as well as price, are principal factors considered by customers in selecting suppliers. Competitive factors previously described may lead to declines in sales or in the prices of the Company's products which could have an adverse impact on its results of operations and financial condition.

*The Company's products are sold to numerous distribution outlets based on market performance.* The Company may, from time to time, change distribution outlets in certain markets based on market share and growth. These changes could adversely impact sales and operating results.

Transferring operations of the Company to lower cost regions may not result in the intended cost benefits. The Company is continuing its rationalization of manufacturing capacity between all existing manufacturing facilities and the manufacturing complexes in lower cost regions. To implement this strategy, the Company must complete the transfer of assets and intellectual property between operations. Each of these transfers involves the risk of disruption to the Company's manufacturing capability, supply chain, and, ultimately, to the Company's ability to service customers and generate revenues and profits and may include significant severance amounts.

Delays in introducing new products or the inability to achieve or maintain market acceptance with existing or new products may cause the Company's revenues to decrease. The industries to which the Company belongs are characterized by intense competition, changes in end-user requirements, and evolving product offerings and introductions. The Company believes future success will depend, in part, on the ability to anticipate and adapt to these factors and offer, on a timely basis, products that meet customer demands. Failure to successfully develop new and innovative products or to enhance existing products could result in the loss of existing customers to competitors or the inability to attract new business, either of which may adversely affect the Company's revenues.

Certain Company products are subject to regulation and government performance requirements in addition to the warranties provided by the Company. The Company's product lines have expanded significantly and certain products are subject to government regulations and standards for manufacture, assembly, and performance in addition to the warranties provided by the Company. The Company's failure to meet all such standards or perform in accordance with warranties could result in significant warranty or repair costs, lost sales and profits, damage to the Company's reputation, fines or penalties from governmental organizations, and increased litigation exposure. Changes to these regulations or standards may require the Company to modify its business objectives and incur additional costs to comply. Any liabilities or penalties actually incurred could have a material adverse effect on the Company's earnings and operating results.

The Company has significant goodwill and intangible assets and future impairment of the value of these assets may adversely affect operating results and financial condition. The Company's total assets reflect substantial intangible assets, primarily goodwill. Goodwill results from the Company's acquisitions, representing the excess of the purchase price paid over the fair value of the net assets acquired. Goodwill and indefinite-lived intangible assets are tested annually for impairment during the fourth quarter or as warranted by triggering events. If future operating performance at one or more of the Company's operating segments were to decline significantly below current levels, the Company could incur a non-cash charge to operating earnings for an impairment. Any future determination requiring the recognition of an impairment of a significant portion of the Company's goodwill or intangible assets could have a material adverse impact on the Company's results of operations and financial condition.

The Company's business may be adversely affected by the seasonality of sales and weather conditions. The Company experiences seasonal demand in a number of markets within the Water Systems segment. End-user demand in primary markets follows warm weather trends and is at seasonal highs from April to August in the Northern Hemisphere. Demand for residential and agricultural water systems are also affected by weather-related disasters including heavy flooding and drought. Changes in these patterns could reduce demand for the Company's products and adversely impact sales, gross margins, and operating results.

The Company depends on certain key suppliers, and any loss of those suppliers or their failure to meet commitments may adversely affect business and results of operations. The Company is dependent on a single or limited number of suppliers for some materials or components required in the manufacture of its products. If any of those suppliers fail to meet their commitments to the Company in terms of delivery or quality, the Company may experience supply shortages that could result in its inability to meet customer requirements, or could otherwise experience an interruption in operations that could negatively impact the Company's business and results of operations.

The Company's operations are dependent on information technology infrastructure and failures could significantly affect its business. The Company depends on information technology infrastructure in order to achieve business objectives. If the Company experiences a problem that impairs this infrastructure, such as a computer virus, a problem with the functioning of an important IT application, or an intentional disruption of IT systems by a third party, the resulting disruptions could impede the Company's ability to record or process orders, manufacture and ship products in a timely manner, or otherwise carry on business in the ordinary course. Any such events could cause the loss of customers or revenue and could cause significant expense to be incurred to eliminate these problems and address related security concerns. The Company is also subject to certain U.S. and international data protection and cybersecurity regulations. Complying with these laws may subject the Company to additional costs or require changes to the Company's business practices. Any inability to adequately address privacy and security concerns or comply with applicable privacy and data security laws, rules and regulations could expose the Company to potentially significant liabilities.

Additional Risks to the Company. The Company is subject to various risks in the normal course of business as well as catastrophic events including severe weather events, earthquakes, fires, acts of war, terrorism, civil unrest, epidemics and pandemics and other unexpected events. Exhibit 99.1 sets forth risks and other factors that may affect future results, including those identified above, and is incorporated herein by reference.

#### ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

#### **ITEM 2. PROPERTIES**

Franklin Electric serves customers worldwide with over 225 manufacturing and distribution facilities located in over 20 countries. The Global Headquarters is located in Fort Wayne, Indiana, United States and houses sales, marketing, and administrative offices along with a state of the art research and engineering facility. Besides the owned corporate facility, the Company considers the following to be principal properties:

Location / Segment	Purpose	Own/Lease
Santa Catarina, Brazil / Water & Fueling	Manufacturing/Distribution/Sales	Own
Sao Paulo, Brazil / Water & Fueling	Manufacturing/Distribution/Sales	Own
Jiangsu Province, China / Water & Fueling	Manufacturing	Own
Brno, Czech Republic / Water	Manufacturing	Own
Vicenza, Italy / Water	Manufacturing	Own
Nuevo Leon, Mexico / Water & Fueling	Manufacturing	Own
Edenvale, South Africa / Water	Manufacturing	Own
Izmir, Turkey / Water	Manufacturing/Distribution/Sales/R&D	Own
Indiana, United States / Water	Manufacturing/Distribution/Sales	Lease
Montana, United States / Distribution	Distribution	Own
North Carolina, United States / Distribution	Distribution	Own
Oklahoma, United States / Water	Manufacturing	Own
Oregon, United States / Water	Manufacturing/Distribution/Sales/R&D	Lease
Wisconsin, United States / Fueling	Manufacturing/Distribution/Sales/R&D	Own

The Company also owns and leases other smaller facilities which serve as manufacturing locations and distribution warehouses. The Company does not consider these facilities to be principal to the business or operations. In the Company's opinion, its facilities are suitable for their intended use, adequate for the Company's business needs, all currently utilized, and in good condition.

## ITEM 3. LEGAL PROCEEDINGS

The Company is defending various claims and legal actions which have arisen in the ordinary course of business. For a description of the Company's material legal proceedings, refer to Note 16 - Commitments and Contingencies, in the Notes to Consolidated Financial Statements included in Part II, Item 8, "Financial Statements and Supplementary Data," of this Annual Report on Form 10-K, which is incorporated into this Item 3 by reference. In the opinion of management, based on current knowledge of the facts and after discussion with counsel, other claims and legal actions can be defended or resolved without a material effect on the Company's financial position, results of operations, and net cash flows.

# INFORMATION ABOUT OUR EXECUTIVE OFFICERS

Current executive officers of the Company, their ages, current position, and business experience during at least the past five years as of December 31, 2021, are as follows:

Name	Age	Position Held	Period Holding Position
Gregg C. Sengstack	63	Chairperson of the Board and Chief Executive Officer	2015 - present
Jeffery L. Taylor	55	Vice President, Chief Financial Officer	2021 - present
		Chief Financial Officer, Blue Bird Corporation	2020 - 2021
		Senior Vice President and Chief Financial Officer, Wabash National Corporation	2014 - 2020
DeLancey W. Davis	56	Vice President and President, Headwater Companies	2017 - present
		Vice President and President, North America Water Systems 20	
Donald P. Kenney	61	Vice President and President, Global Water	2019 - present
		Vice President and President, North America Water Systems	2017 - 2019
		Vice President and President, Energy Systems	2014 - 2017
Jonathan M. Grandon	46	Vice President, Chief Administrative Officer, General Counsel and Corporate Secretary	2016 - present
		Vice President, Integration - Zimmer Biomet	2015 - 2016
Jay J. Walsh	52	Vice President and President, Fueling Systems	2019 - present
		President, Fueling Systems	2017 - 2019
		Executive Vice President, Fueling Systems	2013 - 2017
Dr. Paul N. Chhabra	48	Vice President, Global Product Supply	2018 - present
		Vice President, Global Supply Chain - Applied Materials	2015 - 2018

All executive officers are elected annually by the Board of Directors at the Board meeting held in conjunction with the annual meeting of shareholders. All executive officers hold office until their successors are duly elected or until their death, resignation, or removal by the Board.

## PART II

# ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS, AND ISSUER PURCHASES OF EQUITY SECURITIES

The number of shareholders of record as of February 10, 2022 was 639. The Company's stock is traded on the NASDAQ Global Select Market under the symbol FELE. Broadridge Corporate Issuer Solutions, Inc. 1155 Long Island Avenue, Edgewood, New York, 11717 serves as the registrar, record keeper, and stock transfer agent.

Dividends paid per common share as quoted by the NASDAQ Global Select Market for 2021 and 2020 were as follows:

	Dividends per Share		
		2021	2020
1st Quarter		\$ .1750	\$ .1550
2nd Quarter		.1750	.1550
3rd Quarter		.1750	.1550
4th Quarter		.1750	.1550

The Company has increased dividend payments on an annual basis for 29 consecutive years. The payment of dividends in the future will be determined by the Board of Directors and will depend on business conditions, earnings, and other factors.

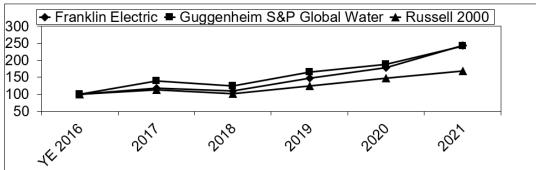

# Issuer Purchases of Equity Securities

In April 2007, the Company's Board of Directors unanimously approved a plan to increase the number of shares remaining for repurchase from 628,692 to 2,300,000 shares. There is no expiration date for this plan. On August 3, 2015, the Company's Board of Directors approved a plan to increase the number of shares remaining for repurchase by an additional 3,000,000 shares. The authorization was in addition to the 535,107 shares that remained available for repurchase as of July 31, 2015. The Company repurchased 959 shares for approximately \$0.1 million under this plan during the fourth quarter of 2021. The maximum number of shares that may still be purchased under this plan as of December 31, 2021 is 741,314.

Period	Total Number of Shares Repurchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares that may yet to be Repurchased
October 1 - October 31	959	\$ 79.86	959	741,314
November 1 - November 30	_	\$ —	_	741,314
December 1 - December 31		\$ —		741,314
Total	959	\$ 79.86	959	741,314

#### Stock Performance Graph

The following graph compares the Company's cumulative total shareholder return (Common Stock price appreciation plus dividends, on a reinvested basis) over the last five fiscal years with the Guggenheim S&P Global Water Index and the Russell 2000 Index.

Hypothetical \$100 invested on December 31, 2016 (fiscal year-end 2016) in Franklin Electric common stock (FELE), Guggenheim S&P Global Water Index, and Russell 2000 Index, assuming reinvestment of dividends:

	YE	2016	2017	2018	2019	2020	2021
FELE	\$	100	\$ 118	\$ 110	\$ 148	\$ 178	\$ 244
Guggenheim S&P Global Water		100	139	125	165	187	243
Russell 2000		100	113	101	125	147	168

# ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Discussion of the year-over-year comparison of changes in the Company's financial condition and results of operation as of and for the fiscal years ended December 31, 2020 and December 31, 2019 can be found in Part II, Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2020.

2021 vs. 2020

#### **OVERVIEW**

Sales in 2021 were up from the prior year. The sales increase was led by increases from volume, price, and acquisitions. The impact of foreign currency translation decreased sales by less than 1 percent. The Company's consolidated gross profit was \$576.1 million for 2021, an increase of \$143.0 million or about 33 percent from 2020. The gross profit as a percent of net sales was changed at 34.7 percent in 2021 and 2020. For 2021, diluted earnings per share were \$3.25, up from 2020 diluted earnings per share of \$2.14.

## RESULTS OF OPERATIONS

#### Net Sales

Net sales in 2021 were \$1,661.9 million, an increase of \$414.6 million or about 33 percent compared to 2020 sales of \$1,247.3 million. The incremental impact of sales from acquired businesses was \$149.8 million. Sales revenue decreased by \$2.3 million or less than 1 percent in 2021 due to foreign currency translation. The sales change in 2021, excluding acquisitions and foreign currency translation, was an increase of about 21 percent. Revenue growth was from volume and price across all three segments.

	_	Net Sales					
(In millions)		202	21		2020	202	21 v 2020
Water Systems	9	\$	963.6	\$	734.7	\$	228.9
Fueling Systems			289.1		245.1		44.0
Distribution			497.6		328.4		169.2
Eliminations/Other	_		(88.4)		(60.9)		(27.5)
Consolidated	9	\$ 1	,661.9	\$	1,247.3	\$	414.6

## Net Sales-Water Systems

Water Systems sales were \$963.6 million in 2021, an increase of \$228.9 million or about 31 percent versus 2020. The incremental impact of sales from acquired businesses was \$96.7 million. Foreign currency translation changes decreased sales \$4.5 million, or about 1 percent, compared to sales in 2020. The Water Systems sales change in 2021, excluding acquisitions and foreign currency translation, was an increase of \$136.7 million or about 19 percent. Revenue growth was from volume and price driven by broad-based demand in all regions and product categories.

Water Systems sales in the U.S. and Canada increased by about 41 percent compared to 2020. The incremental impact of sales from acquired businesses was \$94.3 million. Sales revenue increased by \$4.0 million or about 1 percent in 2021 due to foreign currency translation. In 2021, sales of dewatering equipment increased by about 47 percent due to higher sales in rental channels and in oil production end markets. Sales of groundwater pumping equipment increased by 21 percent versus 2020. Sales of other surface pumping equipment increased by about 9 percent.

Water Systems sales in markets outside the U.S. and Canada increased by about 20 percent compared to 2020. The incremental impact of sales from acquired businesses was \$2.4 million. Sales revenue decreased by \$8.5 million or about 2 percent in 2021 due to foreign currency translation. Sales change in 2021, excluding acquisitions and foreign currency translation, was an increase of about 21 percent. Sales growth was in all geographic markets; Latin America, EMENA and Asia Pacific markets.

# Net Sales-Fueling Systems

Fueling Systems sales were \$289.1 million in 2021, an increase of \$44.0 million or about 18 percent from 2020. Foreign currency translation changes increased sales \$2.2 million or about 1 percent compared to sales in 2020. The Fueling Systems sales change in 2021, excluding foreign currency translation, was an increase of \$41.8 million or about 17 percent. Revenue growth was from volume and price driven primarily by the U.S. and Canada regions.

Fueling Systems sales in the U.S. and Canada increased by about 25 percent during 2021. The growth was broad base across most product lines and due to higher demand from filling stations. Fueling Systems revenues outside the U.S and Canada increased by about 2 percent, driven by higher sales in India, Latin America and most regions in Asia Pacific, partially offset by lower sales in China. China sales were about \$12 million in 2021 compared to 2020 Fueling Systems China sales of about \$18 million.

#### Net Sales-Distribution

Distribution sales were \$497.6 million in 2021, versus 2020 sales of \$328.4 million or about 52 percent from 2020. The incremental impact of sales from acquired businesses was \$53.1 million. Distribution segment organic sales increased \$116.1 million or about 35 percent compared to 2020. Revenue growth was from volume and price driven by broad-based demand in all regions and product categories.

#### Cost of Sales

Cost of sales as a percent of net sales for 2021 and 2020 was 65.3 percent for both years. Correspondingly, the gross profit margin was 34.7 percent, respectively. The Company's consolidated gross profit was \$576.1 million for 2021, up \$143.0 million from the gross profit of \$433.1 million in 2020. The increase in gross profit and gross profit margin was primarily driven by price realization, favorable product and geographic sales mix shifts and cost management which were enough to offset inflation.

## Selling, General and Administrative ("SG&A")

Selling, general, and administrative expenses were \$386.3 million in 2021 and increased by \$86.2 million or 29 percent overall compared to \$300.1 million last year. SG&A expenses from acquired businesses were \$37.0 million, and excluding the acquired entities, the Company's SG&A expenses in 2021 were \$349.3 million, an increase of 16 percent from the prior year. SG&A expenses were higher versus the prior year due to higher variable performance-based compensation expenses and increased spending to support sales growth.

# Restructuring Expenses

Restructuring expenses for 2021 were \$0.6 million. Restructuring expenses were \$0.5 million in the Water segment and \$0.1 million in Distribution segments. Restructuring expenses in Water segment were primarily from Water Treatment realignment activities, and branch closings and consolidations in the Distribution segment. Restructuring expenses for 2020 were \$2.5 million. Restructuring expenses were \$2.3 million in the Water segment and \$0.1 million in each of the Fueling and Distribution segments. Restructuring expenses were primarily from continued miscellaneous manufacturing realignment activities and branch closings and consolidations in the Distribution segment.

# **Operating Income**

Operating income was \$189.2 million in 2021, up \$58.7 million or 45 percent from \$130.5 million in 2020.

	Operating income (loss)					
(In millions)	2	021		2020	2021 v 2020	
Water Systems	\$	139.1	\$	114.4	\$	24.7
Fueling Systems		79.5		63.4		16.1
Distribution		35.9		11.5		24.4
Eliminations/Other		(65.3)		(58.8)		(6.5)
Consolidated	\$	189.2	\$	130.5	\$	58.7

#### **Operating Income-Water Systems**

Water Systems operating income was \$139.1 million in 2021 compared to \$114.4 million in 2020, an increase of 22 percent. The operating income margin was 14.4 percent compared to the 2020 operating income margin of 15.6 percent. Operating income increased in Water Systems primarily due to higher sales volumes. Operating income margin decreased in Water Systems due to the dilution from Water Treatment at lower margins, higher inflation, and selling, general, and administrative costs not entirely offset by price realization.

## **Operating Income-Fueling Systems**

Fueling Systems operating income was \$79.5 million in 2021 compared to \$63.4 million in 2020. The operating income margin was 27.5 percent compared to 25.9 percent of net sales in 2020. Operating income increased in Fueling Systems primarily due to higher sales volumes. The increase in margin was primarily due to leverage on higher sales volumes, favorable product, and geographic sales mix shifts.

## **Operating Income-Distribution**

Distribution operating income was \$35.9 million in 2021 and operating income margin was 7.2 percent. Distribution operating income was \$11.5 million in 2020 and operating income margin was 3.5 percent. Operating income increased in Distribution due to higher sales volumes. The increase in operating income margin was primarily due to revenue growth and operating leverage.

## Operating Income-Eliminations/Other

Operating income-Eliminations/Other is composed primarily of inter-segment sales and profit eliminations and unallocated general and administrative expenses. The inter-segment profit elimination impact in 2021 on operating income was \$0 million. The inter-segment elimination of operating income effectively defers the operating income on sales from Water Systems to Distribution in the consolidated financial results until the transferred product is sold from the Distribution segment to its third-party customer. Unallocated general and administrative expenses were higher by \$6.5 million or about 11 percent to last year, primarily due to higher variable performance-based compensation expenses.

#### Interest Expense

Interest expense for 2021 and 2020 was \$5.2 million and \$4.6 million, respectively, and increased primarily as a result of higher debt levels.

## Other Income or Expense

Other income or expense was a gain of \$8.0 million and a loss of \$0.8 million in 2021 and 2020, respectively. Other income or expense in 2021 included a bargain purchase gain of \$6.5 million and a gain of \$2.5 million related to a settlement of an indirect tax dispute.

# Foreign Exchange

Foreign currency—based transactions produced a loss for 2021 of \$2.3 million, primarily due to changes in the value of the Argentinian Peso relative to the U.S. dollar. Foreign currency—based transactions produced a loss for 2020 of \$1.4 million, primarily due to changes in the value of the Argentinian Peso relative to the U.S. dollar.

#### **Income Taxes**

The provision for income taxes in 2021 and 2020 was \$34.8 million and \$22.5 million, respectively. The effective tax rate for both 2021 and 2020 was about 18 percent and before the impact of discrete events was about 21 percent. The tax rate was lower than the statutory rate of 21 percent primarily due to the recognition of the U.S. deduction for Foreign Derived Intangible Income, and certain incentives and discrete events. Discrete events in 2021 include increased excess tax benefits from share-based compensation compared to 2020. Discrete events in 2020 include a benefit related to a realized foreign currency translation loss on the settlement of an intercompany loan.

Beginning in 2022, the Tax Cuts and Jobs Act of 2017 ("TCJA") eliminates the option to deduct research and development expenditures currently and requires taxpayers to amortize them over five years pursuant to IRC Section 174. Although Congress is considering legislation that would defer the amortization requirement to later years, we have no assurance that the provision will be repealed or otherwise modified. If the requirement is not modified, it will reduce our cash flows beginning in 2022 by an amount that is not significant.

## Net Income

Net income for 2021 was \$155.0 million compared to 2020 net income of \$101.2 million. Net income attributable to Franklin Electric Co., Inc. for 2021 was \$153.9 million, or \$3.25 per diluted share, compared to 2020 net income attributable to Franklin Electric Co., Inc. of \$100.5 million or \$2.14 per diluted share.

## CAPITAL RESOURCES AND LIQUIDITY

## Sources of Liquidity

The Company's primary sources of liquidity are cash on hand, cash flows from operations, revolving credit agreements, and long-term debt funds available. The Company believes its capital resources and liquidity position at December 31, 2021 is adequate to meet projected needs for the foreseeable future. The Company expects that ongoing requirements for operations, capital expenditures, pension obligations, dividends, share repurchases, and debt service will be adequately funded from cash on hand, operations, and existing credit agreements.

As of December 31, 2021, the Company had a \$250.0 million revolving credit facility. The facility is scheduled to mature on May 13, 2026. As of December 31, 2021, the Company had \$149.3 million borrowing capacity under the Credit Agreement as \$4.1 million in letters of commercial and standby letters of credit were outstanding and undrawn and \$96.6 million in revolver borrowings were drawn and outstanding, which were primarily used for funding recent acquisitions.

In addition, the Company maintains an uncommitted and unsecured private shelf agreement with NYL Investors LLC, an affiliate of New York Life, and each of the undersigned holders of Notes (the "New York Life Agreement") with a remaining borrowing capacity of \$125.0 million as of December 31, 2021. The New York Life Agreement matures on July 30, 2024. The Company also has other long-term debt borrowings outstanding as of December 31, 2021. See Note 10 - Debt for additional specifics regarding these obligations and future maturities.

At December 31, 2021, the Company had \$37.4 million of cash and cash equivalents held in foreign jurisdictions, which the Company intends to use to fund foreign operations. There is currently no need to repatriate these funds in order to meet domestic funding obligations or scheduled cash distributions.

#### Cash Flows

The following table summarizes significant sources and uses of cash and cash equivalents:

(in thousands)	2021		2020	2019		
Cash flows from operating activities	\$	129.8	\$ 211.9	\$	177.7	
Cash flows from investing activities	\$	(264.8)	\$ (78.8)	\$	(41.8)	
Cash flows from financing activities	\$	50.9	\$ (66.6)	\$	(126.7)	
Impact of exchange rates on cash and cash equivalents	\$	(6.1)	\$ (0.1)	\$	(4.0)	
Change in cash and cash equivalents	\$	(90.2)	\$ 66.4	\$	5.2	

# Cash Flows from Operating Activities

#### 2021 vs 2020

Net cash provided by operating activities was \$129.8 million for 2021 compared to \$211.9 million for 2020. The decrease in cash provided by operating activities was primarily due to increased working capital requirements in support of higher revenues.

#### Cash Flows from Investing Activities

#### 2021 vs. 2020

Net cash used in investing activities was \$264.8 million in 2021 compared to \$78.8 million in 2020. The increase was primarily attributable to increased acquisition activity in 2021.

# Cash Flows from Financing Activities

# 2021 vs. 2020

Net cash provided by financing activities was \$50.9 million in 2021 compared to \$66.6 million used in financing activities in 2020. The increase in cash provided by financing activities was attributable to increased debt proceeds and issuance of common stock, primarily through stock option exercises, offset by increased dividend payments and common stock repurchases.

# AGGREGATE CONTRACTUAL OBLIGATIONS

The majority of the Company's contractual obligations to third parties relate to debt obligations. In addition, the Company has certain contractual obligations for future lease payments and purchase obligations. The payment schedule for these contractual obligations is as follows:

(In millions)							Mo	ore than
	 Total	2022	20	23-2024	202	25-2026	5	years
Debt	\$ 188.7	\$ 98.0	\$	2.7	\$	77.9	\$	10.1
Debt interest	18.5	5.0		7.8		4.4		1.3
Operating leases	52.4	16.4		20.6		9.2		6.2
Purchase obligations	13.2	13.2		_		_		_
Income Taxes-U.S. Tax Cuts and Jobs Act transition tax	\$ 13.1	\$ 1.5	\$	6.8	\$	4.8	\$	
	\$ 285.9	\$ 134.1	\$	37.9	\$	96.3	\$	17.6

The Company has pension and other post-retirement benefit obligations not included in the table above which will result in estimated future payments of approximately \$0.9 million in 2022. The Company also has unrecognized tax benefits, none of which are included in the table above. The unrecognized tax benefits of approximately \$0.9 million have been recorded as liabilities and the Company is uncertain as to if or when such amounts may be settled. Related to the unrecognized tax benefits, the Company has also recorded a liability for potential penalties and interest of \$0.1 million.

#### ACCOUNTING PRONOUNCEMENTS

For information regarding recent accounting pronouncements, refer to Note 2 - Accounting Pronouncements, in the Notes to Consolidated Financial Statements in the sections entitled ""Adoption of New Accounting Standards" and "Accounting Standards Issued But Not Yet Adopted", included in Part II, Item 8, "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K.

#### CRITICAL ACCOUNTING ESTIMATES

Management's discussion and analysis of its financial condition and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and the related disclosure of contingent assets and liabilities. Management evaluates estimates on an ongoing basis. Estimates are based on historical experience and on other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. There were no material changes to estimates or methodologies used to develop those estimates in 2021. The Company's critical accounting estimates are identified below:

#### **Inventory Valuation**

The Company uses certain estimates and judgments to value inventory. Inventory is recorded at the lower of cost or market. The Company reviews its inventories for excess or obsolete products or components. Based on an analysis of historical usage, management's evaluation of estimated future demand, market conditions, and alternative uses for possible excess or obsolete parts, carrying values are adjusted. The carrying value is reduced regularly to reflect the age and current anticipated product demand. If actual demand differs from the estimates, additional reductions would be necessary in the period such determination is made. Excess and obsolete inventory is periodically disposed of through sale to third parties, scrapping, or other means.

## Business Combinations and Valuation of Acquired Intangible Assets

The Company follows the guidance under FASB Accounting Standards Codification ("ASC") Topic 805, Business Combinations. The acquisition purchase price is allocated to the assets acquired and liabilities assumed based upon their respective fair values. The Company utilizes management estimates and an independent third-party valuation firm to assist in determining the fair values of assets acquired, including intangible assets, and liabilities assumed. The primary intangible assets acquired typically include customer relationships and trade names. Intangible assets are initially valued using a methodology commensurate with the intended use of the asset. The fair value of customer relationships is measured using the multi-period excess earnings method ("MPEEM"). The fair value of trade names is measured using a relief-from-royalty ("RFR") approach, which assumes the value of the trade name is the discounted amount of cash flows that would be paid to third parties had the Company not owned the trade name and instead licensed the trade name from another company. Higher royalty rates are assigned to premium brands within the marketplace based on name recognition and profitability, while other brands receive lower royalty rates. The basis for future sales projections for both the RFR and MPEEM are based on internal revenue forecasts which the Company believes represents reasonable market participant assumptions. The future cash flows are discounted using an applicable discount rate as well as any potential risk premium to reflect the inherent risk of holding a standalone intangible asset. The key uncertainties in the RFR and MPEEM calculations, as applicable, are the selection of an appropriate royalty rate, assumptions used in developing estimates of future cash flows, including revenue growth and expense forecasts, assumed customer attrition rates, as well as the perceived risk associated with those forecasts in determining the discount rate and risk premium. There is inherent uncertainty in forecasted future cash flows and therefore, actual results may differ and could result in subsequent impairment charges of acquired intangibles and/or goodwill.

## Indefinite-Lived Intangible Asset and Goodwill Impairment Evaluation

According to FASB ASC Topic 350, *Intangibles - Goodwill and Other*, intangible assets with indefinite lives must be tested for impairment at least annually or more frequently as warranted by triggering events that indicate potential impairment. The Company uses a variety of methodologies in conducting impairment assessments including income and market approaches. For indefinite-lived assets apart from goodwill, primarily trade names for the Company, if the fair value is less than the carrying amount, an impairment charge is recognized in an amount equal to that excess. The Company has not made any material changes to the method of evaluating impairments during the last three years.

In compliance with FASB ASC Topic 350, goodwill is not amortized. Goodwill is tested at the reporting unit level for impairment annually or more frequently as warranted by triggering events that indicate potential impairment. Reporting units are operating segments or one level below, known as components, which can be aggregated for testing purposes. The Company's goodwill is allocated to the Global Water Systems, Fueling Systems and Distribution reporting units. As the Company's business model evolves, management will continue to evaluate its reporting units and review the aggregation criteria.

In assessing the recoverability of goodwill, the Company determines the fair value of its reporting units by utilizing a combination of both the market value and income approaches. The market value approach compares the reporting units' current and projected financial results to entities of similar size and industry to determine the market value of the reporting unit. The income approach utilizes assumptions regarding estimated future cash flows and other factors to determine the fair value of the respective assets. These cash flows consider factors regarding expected future operating income and historical trends, as well as the effects of demand and competition. The Company may be required to record an impairment if these assumptions and estimates change whereby the fair value of the reporting units is below their associated carrying values. Goodwill included on the balance sheet as of the fiscal year ended 2021 was \$329.6 million.

During the fourth quarter of 2021, the Company completed its annual impairment test of goodwill and trade names and determined the fair value of all intangibles were substantially in excess of the respective carrying values. Significant judgment is required to determine if an indication of impairment has taken place. Factors to be considered include the following: adverse changes in operating results, decline in strategic business plans, significantly lower future cash flows, and sustainable declines in market data such as market capitalization. A 10 percent decrease in the fair value estimates used in the impairment test would not have changed this determination. The sensitivity analysis required the use of numerous subjective assumptions, which, if actual experience varies, could result in material differences in the requirements for impairment charges. Further, an extended downturn in the economy may impact certain components of the operating segments more significantly and could result in changes to the aggregation assumptions and impairment determination.

#### Income Taxes

Under the requirements of FASB ASC Topic 740, *Income Taxes*, the Company records deferred tax assets and liabilities for the future tax consequences attributable to differences between financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The Company analyzes the deferred tax assets and liabilities for their future realization based on the estimated existence of sufficient taxable income. This analysis considers the following sources of taxable income: prior year taxable income, future reversals of existing taxable temporary differences, future taxable income exclusive of reversing temporary differences and tax planning strategies that would generate taxable income in the relevant period. If sufficient taxable income is not projected then the Company will record a valuation allowance against the relevant deferred tax assets.

The Company's operations involve dealing with uncertainties and judgments in the application of complex tax regulations in multiple jurisdictions. These jurisdictions have different tax rates, and the Company determines the allocation of income to each of these jurisdictions based upon various estimates and assumptions. In the normal course of business, the Company will undergo tax audits by various tax jurisdictions. Such audits often require an extended period of time to complete and may result in income tax adjustments if changes to the allocation are required between jurisdictions with different tax rates. The final taxes paid are dependent upon many factors, including negotiations with taxing authorities in the various jurisdictions and resolution of disputes arising from federal, state, and international tax audits. Although the Company has recorded all income tax uncertainties in accordance with FASB ASC Topic 740, these accruals represent estimates that are subject to the inherent uncertainties associated with the tax audit process, and therefore include uncertainties. Management judgment is required in determining the Company's provision for income taxes, deferred tax assets and liabilities, which, if actual experience varies, could result in material adjustments to tax expense and/or deferred tax assets and liabilities.

## Pension and Employee Benefit Obligations

The Company consults with its actuaries to assist with the calculation of discount rates used in its pension and post retirement plans. The discount rates used to determine domestic pension and post-retirement plan liabilities are calculated using a full yield curve approach. Market conditions have caused the weighted-average discount rate to move from 2.31 percent last year to 2.68 percent this year for the domestic pension plans and from 2.12 percent last year to 2.57 percent this year for the postretirement health and life insurance plan. A change in the discount rate selected by the Company of 25 basis points would result in a change of about \$0.1 million to employee benefit expense and a change of about \$4.3 million of liability.

The Company consults with actuaries and investment advisors in making its determination of the expected long-term rate of return on plan assets. Using input from these consultations such as long-term investment sector expected returns, the correlations and standard deviations thereof, and the plan asset allocation, the Company has assumed an expected long-term rate of return on plan assets of 4.50 percent as of the fiscal year ended 2021. Market conditions have caused the expected long-term rate of return to increase from 4.00 percent as of the fiscal year ended 2020. A change in the long-term rate of return selected by the Company of 25 basis points would result in a change of about \$0.4 million of employee benefit expense.

## FACTORS THAT MAY AFFECT FUTURE RESULTS

This annual report on Form 10-K contains certain forward-looking information, such as statements about the Company's financial goals, acquisition strategies, financial expectations including anticipated revenue or expense levels, business prospects, market positioning, product development, manufacturing re-alignment, capital expenditures, tax benefits and expenses, and the effect of contingencies or changes in accounting policies. Forward-looking statements are typically identified by words or phrases such as "believe," "expect," "anticipate," "intend," "estimate," "may increase," "may fluctuate," "plan," "goal," "target," "strategy," and similar expressions or future or conditional verbs such as "may," "will," "should," "would," and "could." While the Company believes that the assumptions underlying such forward-looking statements are reasonable based on present conditions, forward-looking statements made by the Company involve risks and uncertainties and are not guarantees of future performance. Actual results may differ materially from those forward-looking statements as a result of various factors, including general economic and currency conditions, various conditions specific to the Company's business and industry, new housing starts, weather conditions, epidemics and pandemics, market demand, competitive factors, changes in distribution channels, supply constraints, effect of price increases, raw material costs, technology factors, integration of acquisitions, litigation, government and regulatory actions, the Company's accounting policies, and other risks, all as described in Item 1A and Exhibit 99.1 of this Form 10-K. Any forward-looking statements included in this Form 10-K are based upon information presently available. The Company does not assume any obligation to update any forward-looking information, except as required by law.

# ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is subject to market risk associated with changes in foreign currency exchange rates, interest rates, and commodity prices. These exposures are actively monitored by management. Exposure to foreign exchange rate risk is due to certain costs, revenue and borrowings being denominated in currencies other than one of the Company's subsidiaries functional currency. Similarly, the Company is exposed to market risk as the result of changes in interest rates which may affect the cost of financing.

## Foreign Currency Exchange Rate Risk

Foreign currency exchange rate risk is mitigated through several means including maintenance of local production facilities in the markets served, invoicing of customers in the currency which the Company is billed for production inputs, prompt settlement of third party and intercompany balances, limited use of foreign currency denominated debt, maintaining minimal foreign currency denominated cash balances, and application of derivative instruments when appropriate. Based on the 2021 mix of foreign currencies, the Company estimates that a hypothetical strengthening of the US Dollar by about 2 percent would have reduced the Company's 2021 sales by about 1 percent.

## Interest Rate Risk

The results of operations are exposed to changes in interest rates primarily with respect to borrowings under the Company's revolving credit agreement (the "Credit Agreement"). Borrowings under the Credit Agreement may be made either at (i) a Eurocurrency rate based on LIBOR plus an applicable margin or (ii) an alternative base rate as defined in the Credit Agreement. The Company had \$96.6 borrowings at year-end 2021 under the Credit Agreement. The Company estimates that a hypothetical increase of 100 basis points in interest rates would have increased interest expense by \$0.5 million during 2021. The Company also has exposure to changes in interest rates in the form of the fair value of outstanding fixed rate debt fluctuating in response to changing interest rates.

One-week and two-month USD LIBOR tenors, were phased out by the Intercontinental Exchange Benchmark Administration effective December 31, 2021. All other US LIBOR tenors are scheduled to cease after June 30, 2023. The United States, using the analysis performed by the ARRC (Alternative Reference Rates Committee), elected the Secured Overnight Financing Rate ("SOFR") as a broad measure of the cost of borrowing cash overnight collateralized by U.S. Treasury Securities. The New York Fed commenced publishing the SOFR rate daily beginning April 3, 2018. The Company continues to use active USD LIBOR tenors where applicable and will continue assessing SOFR for future draws on the Credit Agreement.

#### Commodity Price Exposures

Portions of the Company's business are exposed to volatility in the prices of certain commodities, such as copper, steel and aluminum, among others. The primary exposure to this volatility resides with the use of these materials in purchased component parts. The Company generally maintain long-term fixed price contracts on raw materials and component parts; however, the Company is prone to exposure as these contracts expire. Based on the 2021 use of commodities, the Company estimates that a hypothetical 10 percent adverse movement in prices for raw metal commodities would result in about a 1 percent decrease of gross margin as a percent of sales.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Company--"Franklin Electric" or the "Company" shall refer to Franklin Electric Co., Inc. and its consolidated subsidiaries.

*Fiscal Year*--The financial statements and accompanying notes are as of and for the years ended December 31, 2021, December 31, 2020, and December 31, 2019, and referred to as 2021, 2020, and 2019, respectively.

**Principles of Consolidation**--The consolidated financial statements include the accounts of Franklin Electric Co., Inc. and its consolidated subsidiaries. All intercompany transactions have been eliminated.

Business Combinations--The Company allocates the purchase price of its acquisitions to the assets acquired, liabilities assumed, and noncontrolling interests based upon their respective fair values at the acquisition date. The Company utilizes management estimates and inputs from an independent third-party valuation firm to assist in determining these fair values. The excess of the acquisition price over estimated fair values is recorded as goodwill. Goodwill is adjusted for any changes to acquisition date fair value amounts made within the measurement period. Any estimated fair values in excess of the acquisition price represents a bargain purchase gain and is recorded in "Accrued expenses and other current liabilities" line on the consolidated balance sheet until the determination of fair values is completed. Once the fair value determination is completed, the bargain purchase gain is recognized on the consolidated statements of income in the "Other income/(expense), net" line. Acquisition-related transaction costs are recognized separately from the business combination and expensed as incurred.

**Revenue Recognition**--Revenue is recognized when promised goods or services are transferred to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. The promise in a contract to transfer goods or services to a customer represents a performance obligation. The Company typically sells its products to customers by purchase order and does not have any additional performance obligations included in contracts to customers other than the shipment of the products. Therefore, the Company allocates the transaction price based on a single performance obligation. The Company typically ships products FOB shipping at which point control of the products passes to the customers. The Company considers the performance obligation satisfied and recognizes revenue at a point in time, the time of shipment.

The Company's products may include routine assurance-type warranties which do not qualify as separate performance obligations. In the event that significant post-shipment obligations were to exist for the Company's products, revenue recognition would be deferred until the performance obligations were satisfied.

The Company records net sales revenues after discounts at the time of sale based on specific discount programs in effect, related historical data, and experience.

**Shipping and Handling Costs**--Shipping and handling costs are considered activities required to fulfill the Company's promise to transfer goods, and do not qualify as a separate performance obligation. Shipping and handling costs are recorded as a component of cost of sales.

**Research and Development Expense**—The Company's research and development activities are charged to expense in the period incurred. The Company incurred expenses of approximately \$17.3 million in 2021, \$21.7 million in 2020, and \$20.8 million in 2019 related to research and development.

*Cash and Cash Equivalents*--The Company considers cash on hand, demand deposits, and highly liquid investments with an original maturity date of three months or less to be cash and cash equivalents.

Fair Value of Financial Instruments--Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, Fair Value Measurements and Disclosures, provides guidance for defining, measuring, and disclosing fair value within an established framework and hierarchy. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The standard established a fair value hierarchy which requires an entity to maximize the use of observable inputs and to minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value within the hierarchy are as follows:

Level 1 – Quoted prices for identical assets and liabilities in active markets;

Level 2 – Quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and

Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable

Accounts Receivable, Earned Discounts, and Allowance for Uncollectible Accounts—Accounts receivable are stated at estimated net realizable value. Accounts receivable are comprised of balances due from customers, net of earned discounts and estimated allowances for uncollectible accounts. Earned discounts are based on specific customer agreement terms. In determining allowances for uncollectible accounts, historical collection experience, current trends, aging of accounts receivable, and periodic credit evaluations of customers' financial condition are reviewed.

*Inventories*—Inventories are stated at the lower of cost or market. The majority of the cost of domestic and foreign inventories is determined using the FIFO method with a portion of inventory costs determined using the average cost method. The Company reviews its inventories for excess or obsolete products or components based on an analysis of historical usage and management's evaluation of estimated future demand, market conditions, and alternative uses for possible excess or obsolete parts.

**Property, Plant, and Equipment-**-Property, plant, and equipment are stated at historical cost. The Company capitalizes certain computer software and software development costs incurred in connection with developing or obtaining computer software for internal use, which are included in property, plant, and equipment. Depreciation of plant and equipment is calculated on a straight line basis over the following estimated useful lives:

Land improvement and buildings	10 - 40 years
Machinery and equipment	5 - 10 years
Software	3 - 7 years
Furniture and fixtures	3 - 7 years

Maintenance, repairs, and renewals of a minor nature are expensed as incurred. Betterments and major renewals which extend the useful lives or add to the productive capacity of buildings, improvements, and equipment are capitalized. The Company reviews its property, plant, and equipment for impairment at the asset group level whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. If an indicator is present, the Company compares carrying values to undiscounted future cash flows; if the undiscounted future cash flows are less than the carrying value, an impairment would be recognized for the difference between the fair value and the carrying value.

The Company's depreciation expense was \$30.2 million, \$27.1 million, and \$27.6 million in 2021, 2020, and 2019, respectively.

Leases--The Company determines if an arrangement is a lease, or contains a lease, at the inception of the arrangement and determines whether it is an operating or financing lease. Operating and financing leases result in the Company recording a right-of-use ("ROU") asset, current lease liability, and long term lease liability on its balance sheet. The Company has elected to not present leases with an initial term of 12 months or less on the balance sheet. The ROU assets and liabilities are initially recognized based on the present value of lease payments over the lease term. Initial direct costs and lease incentives are not material when measuring the ROU asset present value. Lease expense for operating lease payments is recognized on a straight-line basis over the lease term.

In determining the present value, the Company utilizes interest rates from lease agreements unless the lease agreement does not provide a readily determinable rate. In these instances, the Company utilizes its incremental borrowing rate based on the Company's borrowing information available at inception. A portion of the Company's leases include renewal options. The Company excludes these renewal options in the expected lease term unless the Company is reasonably certain that the option will be exercised. In addition, the Company has elected not to separate non-lease components from lease components.

*Goodwill and Other Intangible Assets*--Goodwill is tested at the reporting unit level, which the Company has determined to be the Global Water Systems, Fueling Systems, and Distribution units.

In assessing the recoverability of goodwill, the Company determines the fair value of its reporting units by utilizing a combination of both the income and market valuation approaches. The income approach estimates fair value based upon future revenue, expenses, and cash flows discounted to present value. The market valuation approach estimates fair value using market multipliers of various financial measures compared to a set of comparable public companies. The fair value calculated for each reporting unit is considered a Level 3 measurement within the fair value hierarchy. An indication of impairment exists if the carrying value of the reporting unit is higher than its fair value, as determined by the above approach. The Company will test goodwill for impairment more frequently if warranted by triggering events that indicate potential impairment. The Company completed its annual goodwill impairment test during the fourth quarter, using balances as of October 1.

The Company also tests indefinite lived intangible assets, primarily trade names, for impairment on an annual basis during the fourth quarter of each year, using balances as of October 1, or more frequently as warranted by triggering events that indicate potential impairment. In assessing the recoverability of the trade names, the Company determines the fair value using an income approach. The income approach estimates fair value based upon future revenue and estimated royalty rates. The fair value calculated for indefinite lived intangible assets is considered a Level 3 measurement within the fair value hierarchy. An indication of impairment exists if the carrying value of the trade names is higher than the fair value. The Company would record an impairment charge for the difference.

Amortization is recorded and calculated for definite lived intangible assets on a basis that reflects cash flows over the estimated useful lives. The weighted average number of years over which each intangible class is amortized is as follows:

Customer relationships	13 - 20 years
Patents	17 years
Technology	15 years
Trade names	5 - 20 years
Other	5 - 8 years

Definite lived intangible assets are evaluated for impairment whenever a triggering event, including a significant change in the use of the asset or unexpected change in financial condition, occurs that indicates the carrying value may be impaired. The Company tests for impairment by comparing the carrying value of the definite lived intangible asset to the undiscounted future cash flows. An indication of impairment exists if the carrying value of the definite lived intangible asset is higher than the fair value. The Company would record an impairment charge for the difference.

Warranty Obligations--The Company provides warranties on most of its products. The warranty terms vary but are generally 2 years to 5 years from date of manufacture or 1 year to 5 years from date of installation. Provisions for estimated expenses related to product warranty are made at the time products are sold or when specific warranty issues are identified. These estimates are established using historical information about the nature, frequency, and average cost of warranty claims. The Company actively studies trends of warranty claims and takes actions to improve product quality and minimize warranty claims. The Company believes that the warranty reserve is appropriate; however, actual claims incurred could differ from the original estimates, requiring adjustments to the reserve.

*Income Taxes*--Income taxes are accounted for in accordance with FASB ASC Topic 740, *Income Taxes*. Under this guidance, deferred tax assets and liabilities are determined based on the difference between the financial statement and tax basis of assets and liabilities and net operating loss and credit carry forwards using enacted tax rates in effect for the year in which the differences are expected to reverse. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized. The Company records a liability for uncertain tax positions by establishing a recognition threshold and measurement attribute for recognition and measurement of a tax position taken or expected to be taken in a tax return.

**Defined Benefit Plans**--The Company makes its determination for pension, post retirement, and post employment benefit plans liabilities based on management estimates and consultation with actuaries. The Company incorporates estimates and assumptions of future plan service costs, future interest costs on projected benefit obligations, rates of compensation increases, employee turnover rates, anticipated mortality rates, expected investment returns on plan assets, asset allocation assumptions of plan assets, and other factors.

Earnings Per Common Share--Basic and diluted earnings per share are computed and disclosed in accordance with FASB ASC Topic 260, Earnings Per Share. The Company utilizes the two-class method to compute earnings available to common shareholders. Under the two-class method, earnings are adjusted by accretion amounts to redeemable noncontrolling interests recorded at redemption value. The adjustments represent dividend distributions, in substance, to the noncontrolling interest holder as the holders have contractual rights to receive an amount upon redemption other than the fair value of the applicable shares. As a result, earnings are adjusted to reflect this in substance distribution that is different from other common shareholders. In addition, the Company allocates net earnings to each class of common stock and participating security as if all of the net earnings for the period had been distributed. The Company's participating securities consist of share-based payment awards that contain a non-forfeitable right to receive dividends and therefore are considered to participate in undistributed earnings with common shareholders. Basic earnings per common share excludes dilution and is calculated by dividing net earnings allocated to common shares by the weighted-average number of common shares outstanding for the period. Diluted earnings per common shares outstanding for the period, as adjusted for the potential dilutive effect of non-participating share-based awards.

Translation of Foreign Currency Financial Statements—All assets and liabilities of foreign subsidiaries in functional currency other than the U.S. dollar are translated at year end exchange rates with the exception of the non-monetary assets and liabilities in countries with highly inflationary economies, which are translated at historical exchange rates. All revenue and expense accounts are translated at average rates in effect during the respective period with the exception of expenses related to the non-monetary assets and liabilities, which are translated at historical exchange rates. Adjustments for translating longer term foreign currency assets and liabilities in U.S. dollars are included as a component of other comprehensive income except for hyperinflation accounting adjustments. Transaction gains and losses that arise from shorter term exchange rate fluctuations and hyperinflation accounting adjustments are included in the "Foreign exchange income/(expense)" line within the Company's consolidated statements of income, as incurred.

**Significant Estimates**--The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting periods. Significant estimates and assumptions by management affect inventory valuation, warranty, trade names and goodwill, income taxes, and pension and employee benefit obligations.

Although the Company regularly assesses these estimates, actual results could materially differ. The Company bases its estimates on historical experience and various other assumptions that it believes to be reasonable under the circumstances.

## 2. ACCOUNTING PRONOUNCEMENTS

## Adoption of New Accounting Standards

In August 2021, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2021-06, Presentation of Financial Statements (Topic 205), Financial Services—Depository and Lending (Topic 942), and Financial Services—Investment Companies (Topic 946): Amendments to SEC Paragraphs Pursuant to SEC Final Rule Releases No. 33-10786, Amendments to Financial Disclosures about Acquired and Disposed Businesses, and No. 33-10835, Update of Statistical Disclosures for Bank and Savings and Loan Registrants. This update amends certain SEC disclosure guidance that is included in the accounting standards codification to reflect the SEC's recent issuance of rules intended to modernize and streamline disclosure requirements, including updates to business acquisition and disposition significance tests used, the significance thresholds for proforma statement disclosures, the number of preceding years of financial statements required for disclosure as well as other provisions in the SEC releases. The Company adopted the SEC's guidance on January 1, 2021, the effective date of the release, relating to the amendments to financial disclosures about acquired and disposed businesses, and it did not have a material impact on the Company's consolidated financial position, results of operations, or cash flows.

In March 2020, the FASB issued ASU 2020-04, *Facilitation of the Effects of Reference Rate Reform on Financial Reporting*, which provides optional expedients and exceptions for applying U.S. generally accepted accounting principles to contracts, hedging relationships, and other transactions affected by the discontinuation of the London Interbank Offered Rate ("LIBOR") and other reference rates which are expected to be discontinued due to reference rate reform. ASU 2020-04 is effective on a prospective basis between March 12, 2020 and December 31, 2022. The Company adopted the standard effective January 1, 2021, and it did not have a material impact on the Company's consolidated financial position, results of operations, or cash flows.

In December 2019, the FASB issued ASU 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*, which is expected to reduce cost and complexity related to accounting for income taxes. ASU 2019-12 eliminates the need for the Company to analyze whether certain exceptions apply and improves financial statement preparers' application of income

tax-related guidance. ASU 2019-12 is effective for interim and annual periods beginning after December 15, 2020 with early adoption permitted. Amendments related to franchise taxes that are partially based on income should be applied on either a retrospective or modified retrospective basis. All other amendments should be applied on a prospective basis. The Company adopted the standard effective January 1, 2021, and it did not have a material impact on the Company's consolidated financial position, results of operations, or cash flows.

#### Accounting Standards Issued But Not Yet Adopted

In August 2020, the FASB issued ASU 2020-06, *Debt – Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging – Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity.* ASU 2020-06 reduces the number of accounting models for various convertible instruments and reduces form-over-substance-based accounting conclusions for the derivatives scope exception for contracts in an entity's own equity. The FASB also updated Earnings Per Share ("EPS") guidance under Topic 260 by requiring an entity to consider the potential effect of share settlement in the diluted EPS calculation for instruments that may be settled in cash or shares as well as other amendments. ASU 2020-06 is effective for interim and annual periods beginning after December 15, 2021 with early adoption permitted but no earlier than fiscal years beginning after December 15, 2020. The guidance should be adopted at the beginning of a fiscal year. ASU 2020-06 should be applied on either a retrospective or modified retrospective basis. The Company is planning to adopt on January 1, 2022, but does not expect the ASU to have a material impact on the Company's consolidated financial position, results of operations, or cash flows.

In October 2021, the FASB issued ASU 2021-08, *Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers*. ASU 2021-08 requires entities to recognize and measure contracts on the acquisition date in accordance with ASC 606, *Revenue from Contracts with Customers*, as if it had originated the contracts. This will improve comparability after the business combination by providing consistent recognition and measurement guidance for revenue contracts with customers acquired in a business combination and revenue contracts with customers not acquired in a business combination. ASU 2021-08 is effective for interim and annual periods beginning after December 15, 2022 with early adoption permitted. ASU 2021-08 should be applied on a prospective basis to business combinations that occur after the effective date. The Company is still determining the date of adoption for this ASU, but does not anticipate the adoption to have a material impact on the Company's consolidated financial position, results of operations, or cash flows.

# 3. ACQUISITIONS

#### 2021

During the fourth quarter ended December 31, 2021, the Company acquired 100 percent of the ownership interests of B&R Industries, Inc. ("B&R"), a water treatment equipment provider located in Mesa, Arizona, for a cash purchase price of \$16.2 million after purchase price adjustments based on the level of working capital acquired. B&R will be included as part of the Water Systems segment of the Company. The Company also acquired, in a separate transaction, 100 percent of the ownership interests of Blake Group Holdings, Inc. ("Blake"), a professional groundwater distributor operating in the northeast United States for a cash purchase price of \$28.6 million after purchase price adjustments based on the level of working capital acquired. Blake will be included as part of the Distribution segment of the Company. The fair value of the assets acquired and liabilities assumed for both acquisitions is preliminary as of December 31, 2021.

During the third quarter ended September 30, 2021, the Company acquired 100 percent of the ownership interests of Minetuff Dewatering Pumps Australia Pty Ltd ("Minetuff") for a cash purchase price of \$13.7 million after purchase price adjustments based on the level of working capital acquired. Minetuff manufactures and sells submersible pumps, spare parts, and accessories to the mining industry and will expand the Company's existing product offerings and channel access in the Water Systems segment. The fair value of the assets acquired and liabilities assumed for the acquisition is preliminary as of December 31, 2021.

During the second quarter ended June 30, 2021, the Company acquired, in separate transactions, 100 percent of the ownership interests of Puronics, Inc. and its wholly owned subsidiaries ("Puronics"), headquartered in Livermore, California, and 100 percent of the ownership interests of New Aqua, LLC ("New Aqua") and its wholly owned subsidiaries, headquartered in Indianapolis, Indiana. Both Puronics and New Aqua are water treatment equipment providers and are included as a part of the Water Systems segment of the Company. In a separate transaction during the second quarter ended June 30, 2021, the Company acquired all of the assets of Power Integrity Services, LLC, a North Carolina-based company, which is included in the Fueling Systems segment of the Company.

In another separate transaction during the second quarter ended June 30, 2021, the Company acquired all of the assets of Atlantic Turbine Pump, LLC, a Georgia-based company, which is included in the Distribution segment of the Company. As of December 31, 2021, the Company has recorded estimated fair values that exceed the acquisition price by \$0.4 million,

representing a bargain purchase gain due to favorable market conditions within the "Other income/(expense), net" line in the consolidated statements of income for the year ended December 31, 2021.

The combined, all-cash purchase price for all acquisitions in the second quarter was \$185.5 million after purchase price adjustments based on the level of working capital acquired. The fair value of the assets acquired and liabilities assumed for all acquisitions are preliminary as of December 31, 2021.

The identifiable intangible assets recognized in the separate transactions in 2021, were \$131.9 million and consist primarily of customer relationships and trade names from New Aqua of \$93.7 million. The intangible assets will be amortized using the straight-line method over 12 - 20 years.

The goodwill of \$65.9 million resulting from the acquisitions in 2021 consists primarily of expanded geographical presence and product channel expansion. Goodwill deductible for tax purposes is \$62.1 million from the acquisitions in 2021. Goodwill was recorded in the Water Systems, Fueling Systems, and Distribution segments (see Note 6 - Goodwill and Other Intangible Assets).

The preliminary purchase price assigned to the major identifiable assets and liabilities for all acquisitions in 2021 on an aggregated basis is as follows:

(In millions)

#### Assets:

Inventory	\$ 34.70
Intangible assets	131.9
Goodwill	65.9
Other assets	38.5
Total assets	271.0
Liabilities	26.6
Less: Bargain purchase gain	0.4
Total consideration paid	\$ 244.0

For all acquisitions in 2021, aggregated annual revenue for the full year 2020 was \$191.3 million, which would be incremental to the Company's revenue had the acquisitions occurred on the first day of 2020. Since acquisition in 2021, aggregate revenue was \$72.5 million. The Company has not presented separate results of operations since closing or combined pro forma financial information of the Company and the acquired interest since the beginning of 2020, as the results of operations for all acquisitions is immaterial to the Company's consolidated financials.

## 2020

During the fourth quarter ended December 31, 2020, the Company acquired 100 percent of the ownership interests of Gicon Pumps & Equipment, Inc., a professional groundwater distributor operating seven locations in the state of Texas for a purchase price of \$28.1 million after working capital adjustments. The fair value of the assets acquired and liabilities assumed exceeded the purchase price by \$6.1 million, representing a bargain purchase gain. This gain was attributable to favorable market conditions and is recorded within the "Other income/(expense), net" line in the consolidated statements of income for the year ended December 31, 2021. In a separate transaction during the fourth quarter ended December 31, 2020, the Company acquired 100 percent of the ownership interests in Waterite Inc. and its affiliate Waterite America Inc., headquartered in Winnipeg, Manitoba, Canada, for a purchase price of \$21.9 million after working capital adjustments. The fair value of the assets acquired and liabilities assumed for both acquisitions were considered final as of December 31, 2021. In addition, the Company has not presented separate results of operations since closing or combined pro forma financial information of the Company and the acquired interest since the beginning of 2020, as the results of operations for both acquisitions is immaterial to the Company's consolidated financials.

During the first quarter ended March 31, 2020, the Company acquired all of the assets of a company that manufactures line shaft turbines and other adjacent product lines for a purchase price of \$5.9 million after working capital adjustments. The fair value of the assets acquired and liabilities assumed were considered final as of March 31, 2021. In addition, the Company has not presented separate results of operations since closing or combined pro forma financial information of the Company and the acquired interest since the beginning of 2020, as the results of operations for this acquisition is immaterial.

The identifiable intangible assets recognized in the separate transactions in 2020 were \$14.9 million, and consist primarily of customer relationships, which will be amortized utilizing the straight-line method over 15 years.

The goodwill of \$10.2 million resulting from the separate acquisitions in 2020 consists primarily of the benefits of complementary product offerings and expanded geographical presence. Goodwill was recorded in the Water segment (see Note 6 - Goodwill and Other Intangible Assets), and only a portion (\$1.4 million) is expected to be deductible for tax purposes.

#### 2019

During the third quarter ended September 30, 2019, the Company acquired 100 percent of the ownership interests of First Sales, LLC, an Indiana manufacturer of water treatment and filtration equipment for the residential and commercial markets, which are sold through some of the same channels as other Company products in the Water Systems segment, for a purchase price of approximately \$15.5 million after working capital adjustments. Goodwill resulting from the acquisition consists primarily of complementary product offerings. The Company has not presented separate results of operations since closing or combined pro forma financial information of the Company and the acquired interest since the beginning of 2019, as the results of operations for this acquisition is immaterial to the Company's consolidated financials. The fair value of the assets acquired and liabilities assumed were considered final as of September 30, 2020.

During the second quarter ended June 30, 2019, the Company acquired the remaining interest in Pluga Pumps and Motors Private Limited, India, increasing the Company's ownership to 100 percent. The redemption of this interest was immaterial.

During the first quarter ended March 31, 2019, the Company acquired 100 percent of the ownership interests of Mt. Pleasant, Michigan-based Milan Supply Company ("Milan Supply"), for a purchase price of approximately \$6.1 million after working capital adjustments. Milan Supply is a professional groundwater distributor operating six locations in the State of Michigan. Milan Supply is part of the Company's Distribution Segment, which is a collection of professional groundwater equipment distributors. The Company has not presented separate results of operations since closing or combined pro forma financial information of the Company and the acquired interest since the beginning of 2019, as the results of operations for this acquisition is immaterial to the Company's consolidated financials. The fair value of the assets acquired and the liabilities assumed for the acquisition were considered final as of March 31, 2020.

Transaction costs for all acquisition related activity were expensed as incurred under the guidance of FASB ASC Topic 805, *Business Combinations*. Transaction costs are included in selling, general, and administrative expense in the Company's consolidated statements of income were \$0.9 million, \$0.0 million, and \$0.2 million for the years ended 2021, 2020, and 2019, respectively.

## 4. FAIR VALUE MEASUREMENTS

As of December 31, 2021 and December 31, 2020, the assets measured at fair value on a recurring basis were as set forth in the table below:

(In millions)	Acti		Quoted Prices in ctive Markets for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)			
Cash equivalents	\$	5.3	\$	5.3	\$	_	\$	_	
Share swap transaction	\$	0.6	\$	0.6	\$		\$		
	Decembe	er 31, 2020	A	Quoted Prices in Active Markets for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)	Uno	Significant bservable Inputs (Level 3)	
Cash equivalents	\$	20.2	\$	20.2	\$	_	\$	_	

The Company's Level 1 cash equivalents assets are generally comprised of foreign bank guaranteed certificates of deposit and short term deposits. The share swap transaction is further described in Note 5 - Financial Instruments. The Company has no assets measured on a recurring basis classified as Level 2 or Level 3 excluding the recurring fair value measurements in the Company's pension and other retirement plans as discussed in Note 7 - Employee Benefit Plans.

Total debt, including current maturities, have carrying amounts of \$188.5 million at December 31, 2021 and \$94.6 million at December 31, 2020. The estimated fair value of all debt was \$196.1 million and \$107.3 million at December 31, 2021 and December 31, 2020, respectively. In the absence of quoted prices in active markets, considerable judgment is required in

developing estimates of fair value. Estimates are not necessarily indicative of the amounts the Company could realize in a current market transaction. In determining the fair value of its debt, the Company uses estimates based on rates currently available to the Company for debt with similar terms and remaining maturities. Accordingly, the fair value of debt is classified as Level 2 within the valuation hierarchy.

#### 5. FINANCIAL INSTRUMENTS

The Company's deferred compensation stock program is subject to variable plan accounting and, accordingly, is adjusted for changes in the Company's stock price at the end of each reporting period. The Company has entered into share swap transaction agreements ("the swap") to mitigate the Company's exposure to these fluctuations in the Company's stock price. The swap has not been designated as a hedge for accounting purposes and is cancellable with 30 days written notice by either party. As of December 31, 2021, the swap has a notional value based on 210,000 shares. For the years ended December 31, 2021, December 31, 2020, and December 31, 2019, the swap resulted in gains of \$6.2 million, \$3.2 million, and \$3.4 million, respectively. Gains resulting from the swap were primarily offset by gains on the fair value of the deferred compensation stock liability. All gains and expenses related to the swap are recorded in the Company's consolidated statements of income within the "Selling, general, and administrative expenses" line.

#### 6. GOODWILL AND OTHER INTANGIBLE ASSETS

The carrying amounts of the Company's intangible assets are as follows:

2021			2020				
			Gross Carrying Amount		Accumulated Amortization		
			_			_	
	255.1		(88.8)	165.1		(78.5)	
\$	7.3	\$	(7.3)	\$ 7.5	\$	(7.3)	
	7.5		(7.3)	7.5		(7.2)	
	42.1		(1.5)	3.4		(0.2)	
	2.8		(2.7)	2.9		(2.8)	
\$	314.8	\$	(107.6)	\$ 186.4	\$	(96.0)	
		'					
	42.5			43.4		<u> </u>	
\$	357.3	\$	(107.6)	\$ 229.8	\$	(96.0)	
	A	Gross Carrying Amount  255.1 \$ 7.3 7.5 42.1 2.8 \$ 314.8	Gross Carrying Amount 255.1 \$ 7.3 \$ 7.5 42.1 2.8 \$ 314.8 \$	Gross Carrying Amount         Accumulated Amortization           255.1         (88.8)           \$ 7.3         \$ (7.3)           7.5         (7.3)           42.1         (1.5)           2.8         (2.7)           \$ 314.8         \$ (107.6)	Gross Carrying Amount         Accumulated Amortization         Gross Carrying Amount           255.1         (88.8)         165.1           \$ 7.3         (7.3)         7.5           7.5         (7.3)         7.5           42.1         (1.5)         3.4           2.8         (2.7)         2.9           \$ 314.8         (107.6)         \$ 186.4           42.5         —         43.4	Gross Carrying Amount         Accumulated Amortization         Gross Carrying Amount         Amount           255.1         (88.8)         165.1           \$ 7.3         \$ (7.3)         \$ 7.5           7.5         (7.3)         7.5           42.1         (1.5)         3.4           2.8         (2.7)         2.9           \$ 314.8         \$ (107.6)         \$ 186.4         \$           42.5         —         43.4	

Amortization expense related to intangible assets for fiscal years 2021, 2020, and 2019, was \$14.4 million, \$9.4 million, and \$9.4 million, respectively.

Amortization expense for each of the five succeeding years is projected as follows:

(In millions)	2022	<u> </u>	2023	2024	2025	 2026
	\$	17.0	\$ 17.0	\$ 16.9	\$ 16.1	\$ 15.1

The change in the carrying amount of goodwill by reportable segment for 2021 and 2020, is as follows:

(In millions)	Wa	ter Systems	Fue	eling Systems	Di	stribution	Сс	onsolidated
Balance as of December 31, 2019	\$	151.0	\$	67.6	\$	37.5	\$	256.1
Acquisitions		10.3		_		_		10.3
Foreign currency translation		0.2		0.1		_		0.3
Balance as of December 31, 2020	\$	161.5	\$	67.7	\$	37.5	\$	266.7
Acquisitions		55.4		3.0		7.5		65.9
Adjustments to prior year acquisitions		(0.1)		_		_		(0.1)
Foreign currency translation		(2.9)		_		_		(2.9)
Balance as of December 31, 2021	\$	213.9	\$	70.7		45.0	\$	329.6

#### 7. EMPLOYEE BENEFIT PLANS

**Defined Benefit Plans** - As of December 31, 2021, the Company maintained two domestic pension plans and three German pension plans. The Company used a December 31, 2021 measurement date for these plans. One of the Company's domestic pension plans covers one active management employee, while the other domestic plan covers all eligible employees. Both domestic plans were frozen as of December 31, 2011. The two domestic and three German plans collectively comprise the 'Pension Benefits' disclosure caption.

Other Benefits - The Company's other post-retirement benefit plan provides health and life insurance to domestic employees hired prior to 1992. The Company effectively capped its cost for those benefits through plan amendments made in 1992, freezing Company contributions for insurance benefits at 1991 levels for current and future beneficiaries with actuarially reduced benefits for employees who retire before age 65. The disclosures surrounding this plan are reflected in the "Other Benefits" caption.

The following table sets forth aggregated information related to the Company's pension benefits and other postretirement benefits, including changes in the benefit obligations, changes in plan assets, funded status, amounts recognized in the balance sheet, amounts recognized in accumulated other comprehensive income, and actuarial assumptions that the Company considered in its determination of benefit obligations and plan costs. Benefit obligation balances presented below reflect the projected benefit obligation (PBO) for the Company's pension plans, and accumulated postretirement benefit obligations (APBO) for the Company's other benefit plans.

(In millions)		Pension	Ben	efits	Other Benefits				
		2021		2020	2021			2020	
Accumulated benefit obligation, end of year	\$	171.6	\$	185.4	\$	7.7	\$	8.5

Net actuarial loss		47.8		50.9		0.6		0.9	
Settlement		0.6		0.8				_	
Total recognized in accumulated other comprehensive income/(loss)	\$	48.4	\$	51.7	\$	0.6	\$	0.9	

As of December 31, 2021, the pension benefits' aggregate accumulated benefit obligation and benefit obligation in excess of plan assets was \$33.9 million and \$37.5 million. The aggregate fair value of plan assets related to the accumulated benefit obligation and benefit obligation was \$4.6 million.

The following table sets forth other changes in plan assets and benefit obligation recognized in other comprehensive income for 2021 and 2020:

(In millions)	Pension Benefits					Other E	Benefits		
		2021		2020		2021		2020	
Net actuarial (gain)/loss	\$	(0.1)	\$	6.6	\$	(0.2)	\$	0.8	
Amortization of:

Foreign currency exchange		(0.3)		0.2				_	
Total recognized in other comprehensive income	\$	(3.3)	\$	2.0	\$	(0.3)	\$	0.6	

Weighted-average assumptions used to determine domestic benefit obligations:

	Pension Be	nefits	Other Be	enefits
	2021	2020	2021	2020
Discount rate	2.68 %	2.31 %	2.57 %	2.12 %
Rate of increase in future compensation	%*	%	2.00 - 9.00% (Graded)	2.00 - 9.00% (Graded)

<sup>\*</sup>No rate of increases in future compensation were used in the assumptions for 2021 and 2020, as the cash balance component of the domestic Pension Plan was frozen and the other domestic Pension Plan components do not base benefits on compensation. The weighted-average interest crediting rate of the cash balance component of the domestic Pension Plan was 4.5% for 2021, 2020, and 2019 and is based on the approximate 30-year Treasury rate as of November of the prior year with a minimum of 4.5%.

Assumptions used to determine domestic periodic benefit cost:

	Pen	sion Benefits			Other Benefits	
	2021	2020	2019	2021	2020	2019
Discount rate	2.41 %	3.17 %	4.31 %	2.12 %	2.99 %	4.18 %
Rate of increase in future compensation	%	%*	%*	2.00 - 9.00% (Graded)	2.00 - 9.00% (Graded)	3.00 - 8.00% (Graded)
Expected long-term rate of return on plan assets	4.00 %	4.90 %	5.75 %	%	— %	— %

<sup>\*</sup>No rate of increases in future compensation were used in the assumptions for 2021, 2020, and 2019, as the cash balance component of the domestic Pension Plan was frozen and the other domestic Pension Plan components do not base benefits on compensation..

For the fiscal year ended December 31, 2021, the Company used the PRI-2012 aggregate mortality table, and then projected forward from 2012 using Scale MP-2020 released by the Society of Actuaries during 2020 to estimate future mortality rates based upon current data. For the fiscal year ended December 31, 2020, the Company used the PRI-2012 aggregate mortality table, and then projected forward from 2012 using Scale MP-2019 released by the Society of Actuaries during 2019 to estimate future mortality rates based upon current data.

The following table sets forth the aggregated net periodic benefit cost for all defined benefit plans for 2021, 2020, and 2019:

(In millions)	Pension Benefits Other					er Benefits				
	2	2021		2020		2019	2021		2020	2019
Service cost	\$	0.7	\$	0.7	\$	0.7	\$ _	\$	_	\$ 
Interest cost		2.7		4.3		5.8	0.1		0.2	0.3

Transition obligation				_		_	_		_	
Settlement cost										
Prior service cost				_		_	_		_	
Actuarial loss		4.3		3.7		2.6	0.2		0.1	0.1
Settlement cost							_			
Net periodic benefit cost	\$	2.2	\$	1.9	\$	1.0	\$ 0.3	\$	0.3	\$ 0.4

The largest contributor to the net actuarial losses affecting the benefit obligation for the defined benefit pension plans is due to a decrease in the discount rate.

The Company consults with a third party investment manager for the assets of the funded domestic defined benefit plan. The plan assets are currently invested primarily in pooled funds, where each fund in turn is composed of mutual funds that have at least daily net asset valuations. Thus, the Company's funded domestic defined benefit plan assets are invested in a "fund of funds" approach.

The Company's Board has delegated oversight and guidance to an appointed Employee Benefits Committee. The Committee has the tasks of reviewing plan performance and asset allocation, ensuring plan compliance with applicable laws, establishing plan policies, procedures, and controls, monitoring expenses, and other related activities.

The plan's investment policies and strategies focus on the ability to fund benefit obligations as they come due. Considerations include the plan's current funded level, plan design, benefit payment assumptions, funding regulations, impact of potentially volatile business results on the Company's ability to make certain levels of contributions, and interest rate and asset return volatility among other considerations. The Company currently attempts to maintain plan funded status at approximately 80 percent or greater pursuant to the Pension Protection Act of 2007. Given the plan's current funded status, the Company's cash on hand, cash historically generated from business operations, and cash available under committed credit facilities, the Company sees ample liquidity to achieve this goal.

Risk management and continuous monitoring requirements are met through monthly investment portfolio reports, quarterly Employee Benefits Committee meetings, annual valuations, asset/liability studies, and the annual assumption process focusing primarily on the return on asset assumption and the discount rate assumption. As of December 31, 2021 and December 31, 2020, funds were invested in equity, fixed income, and other investments as follows:

	Target Percentage	Plan Asset Allocation at Year-End					
Asset Category	at Year-End 2021	2021	2020				
Equity securities	18 %	18 %	17 %				
Fixed income securities	78 %	78 %	79 %				
Other	4 %	4 %	4 %				
Total	100 %	100 %	100 %				

The Company does not see any particular concentration of risk within the plans, nor any plan assets that pose difficulties for fair value assessment. The Company currently has no allocation to potentially illiquid or potentially difficult to value assets such as hedge funds, venture capital, private equity, and real estate.

The Company works with actuaries and consultants in making its determination of the asset rate of return assumption and also the discount rate assumption.

Asset class assumptions are set using a combination of empirical and forward-looking analysis for long-term rate of return on plan assets. A variety of models are applied for filtering historical data and isolating the fundamental characteristics of asset classes. These models provide empirical return estimates for each asset class, which are then reviewed and combined with a qualitative assessment of long-term relationships between asset classes before a return estimate is finalized. This provides an additional means for correcting for the effect of unrealistic or unsustainable short-term valuations or trends, opting instead for return levels and behavior that are more likely to prevail over long periods. With that, the Company has assumed an expected long-term rate of return on plan assets of 4.50 percent for the 2022 net periodic benefit cost, up from 4.00 percent in the prior year. This increase in the assumed long-term rate of return is primarily due to higher expected returns on the plan's fixed income assets.

The Company uses the Aon Hewitt AA Above Median curve to determine the discount rate. All cash flow obligations under the plan are matched to bonds in the Aon Hewitt universe of liquid, high-quality, non-callable / non-putable corporate bonds with outliers removed. From that matching exercise, a discount rate is determined.

The Company's German pension plans are funded by insurance contract policies whereby the insurance company guarantees a fixed minimum return. Due to tax legislation, individual pension benefits can only be financed using direct insurance policies up to certain maximums. These maximum amounts in respect of each member are paid into such an arrangement on a yearly basis.

The Company designated all equity and most domestic fixed income plan assets as Level 1, as they are mutual funds with prices that are readily available. The U.S. Treasury securities and German plan assets are designated as Level 2 inputs. The fair value of the German plan assets are measured by the reserve that is supervised by the German Federal Financial Supervisory Authority. The U.S. Treasury securities are administered by the United States government.

The fair values of the Company's pension plan assets for 2021 and 2020 by asset category are as follows:

The Company estimates total contributions to the plans of about \$0.9 million in 2022.

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid in accordance with the following schedule:

(In millions)	Pension	Benefits	Other Benefits
2022	\$	10.8	\$ 0.7
2023	\$	10.4	\$ 0.7
2024	\$	17.5	\$ 0.7
2025	\$	13.5	\$ 0.6
2026	\$	9.8	\$ 0.6
Years 2027 through 2031	\$	46.0	\$ 2.5

**Defined Contribution Plans** - The Company maintained two defined contribution plans during 2021, 2020, and 2019. The Company's cash contributions are allocated to participant's accounts based on investment elections.

The following table sets forth Company contributions to the defined contribution plans:

(In millions)	2021		2020		2019		
Company contributions to the plans	\$	8.9	\$	7.3	\$	7.4	

# 8. ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

Accrued expenses and other current liabilities consist of:

(In millions)	 2021	202	20
Salaries, wages, and commissions	\$ 62.3	\$	36.4
Product warranty costs	10.5		9.7
Insurance	2.3		2.4
Employee benefits	11.9		9.8
Other	 28.4		30.7
	\$ 115.4	\$	89.0

# 9. INCOME TAXES

Income before income taxes consisted of the following:

(In millions)	2021	2020	2019
Domestic	\$ 113.1	\$ 74.1	\$ 55.5
Foreign	76.6	49.6	61.3
	\$ 189.7	\$ 123.7	\$ 116.8

The income tax provision/(benefit) from continuing operations consisted of the following:

(In millions)		2021	2020	 2019
Current:				
Federal	\$	15.9	\$ 11.9	\$ 6.9
Foreign		15.7	12.3	15.1
State	_	3.0	2.6	1.4
Total current		34.6	26.8	23.4
Deferred:				
Federal		(0.7)	(0.2)	(0.6)
Foreign		(0.1)	(4.0)	(2.5)
State		0.9	 (0.1)	 0.5
Total deferred	\$	0.1	\$ (4.3)	\$ (2.6)
	\$	34.7	\$ 22.5	\$ 20.8

A reconciliation of the tax provision for continuing operations at the U.S. statutory rate to the effective income tax expense rate as reported is as follows:

	2021	2020	2019
U.S. Federal statutory rate	21.0 %	21.0 %	21.0 %
State income taxes, net of federal benefit	1.7	1.5	1.1
Foreign operations	0.2	0.3	(1.0)
R&D tax credits	(0.5)	(0.7)	(0.8)
Uncertain tax position adjustments	0.2	0.1	(0.6)
Valuation allowance on state and foreign deferred tax	(0.6)	1.7	0.4
Share-based compensation	(2.3)	(0.8)	(0.8)
Realized foreign currency loss	<del>_</del>	(4.0)	(0.4)
Other items	(0.6)	0.7	0.3
Foreign Derived Intangible Income	(1.9)	(2.6)	(2.0)
Nondeductible officers compensation	1.1	1.0	0.6
Effective tax rate	18.3 %	18.2 %	17.8 %

The effective tax rate continues to be lower than the statutory rate of 21 percent primarily due to the recognition of the U.S. foreign-derived intangible income (FDII) provisions, certain incentives, and discrete events.

The Company recorded discrete excess tax benefits from share-based compensation of \$5 million in the twelve-month period ended December 31, 2021 pursuant to ASU 2016-09. ASU 2016-09 can add variability to the Company's provision for income taxes, mainly due to the timing of stock option exercises, vesting of restricted stock, and the stock price.

During the twelve-month period ended December 31, 2020, the Company realized a foreign currency translation loss on the second quarter settlement of a discrete intercompany loan that was long-term-investment in nature resulting in a tax benefit of \$5.0 million. The Company also recorded net \$0.9 million of expense for valuation allowances on deferred tax assets in foreign jurisdictions to recognize only the portion of the deferred tax assets that are more likely than not to be realized.

Significant components of the Company's deferred tax assets and liabilities were as follows:

(In millions)	2021	2020	)
Deferred tax assets:			
Accrued expenses and reserves	\$ 13.5	\$	13.0
Compensation and employee benefits	19.2		19.8
Net operating losses, tax credit carryforwards, and other	17.0		20.7
Lease liability	12.2		8.0
Valuation allowance on state and foreign deferred tax	(6.5)		(8.3)
Total deferred tax assets	55.4		53.2
Deferred tax liabilities:			
Accelerated depreciation on fixed assets	12.0		12.1
Amortization of intangibles	51.2		49.4
Right-of-use asset, net	12.2		8.0
Other items	0.5		0.5
Total deferred tax liabilities	75.9		70.0
Net deferred tax liabilities	\$ (20.5)	\$	(16.8)

The Company assesses the available positive and negative evidence to estimate whether sufficient future taxable income will be generated to permit use of the existing deferred tax assets. A significant piece of objective negative evidence evaluated was the cumulative loss for certain state and foreign income tax purposes incurred over the 3-year period ended December 31, 2021. Such objective evidence limits the ability to consider other subjective evidence, such as our projections for future growth.

On the basis of this evaluation, as of December 31, 2021, a valuation allowance of \$6.5 million has been recorded to recognize only the portion of the deferred tax assets that are more likely than not to be realized. The Company has foreign income tax net operating loss ("NOL") and credit carryforwards of \$11.0 million and state income tax NOL and credit carryforwards of \$6.0 million, which will expire on various dates as follows:

/T					`
11	n	mi	П	10	nc I
<b>(1</b>	11	1111	IJ	110	யலர

2025-2029	3.5
2030-2034	1.3
2035-2039	0.8
Unlimited	 10.2
	\$

The Company believes that it is more likely than not that the benefit from certain foreign NOL carryforwards as well as certain state credit carryforwards will not be realized. In recognition of this risk, the Company has provided a valuation allowance of \$4.8 million on the deferred tax assets related to these foreign NOL carryforwards and a valuation allowance of \$1.7 million on the deferred tax assets related to these state credit carryforwards.

As of December 31, 2021, the Company has accumulated undistributed earnings generated by our foreign subsidiaries of approximately \$415.8 million. Any taxes due with respect to such earnings or the excess of the amount for financial reporting over the tax basis of our foreign investments would generally be limited to foreign and state taxes. The Company intends, however, to indefinitely reinvest these earnings and expects future U.S. cash generation to be sufficient to meet future U.S. cash needs. The Company, therefore, has not recorded a deferred tax liability of \$6.4 million.

As of the beginning of fiscal year 2021, the Company had gross unrecognized tax benefits of \$0.6 million, excluding accrued interest and penalties. The unrecognized tax benefits increased due to uncertain tax positions identified in the current year based on evaluations made during 2021. The Company had gross unrecognized tax benefits, excluding accrued interest and penalties, of \$0.9 million as of December 31, 2021.

A reconciliation of the beginning and ending amount of gross unrecognized tax benefits for 2021, 2020, and 2019 (excluding interest and penalties) is as follows:

(In millions)	2021	2020	2019
Beginning balance	\$ 0.6	\$ 0.4	\$ 1.1
Additions for tax positions of the current year	0.3	0.6	
Additions for tax positions of prior years	_	_	_
Reductions for tax positions of prior years		<del></del>	(0.4)
Statute expirations	_	(0.4)	(0.3)
Settlements		<u> </u>	
Ending balance	\$ 0.9	\$ 0.6	\$ 0.4

If recognized, each annual effective tax rate would be affected by the net unrecognized tax benefits of \$0.9 million, \$0.6 million, and \$0.4 million as of year-end 2021, 2020, and 2019, respectively.

The Company recognizes interest and penalties related to unrecognized tax benefits as a component of income tax expense. The Company has accrued interest and penalties as of December 31, 2021, December 31, 2020, and December 31, 2019 of approximately \$0.1 million, less than \$0.1 million, and \$0.1 million, respectively.

The Company is subject to taxation in the United States and various state and foreign jurisdictions. With few exceptions, as of December 31, 2021, the Company is no longer subject to U.S. federal income tax examinations by tax authorities for years before 2018 and is no longer subject to foreign or state income tax examinations by tax authorities for years before 2016.

It is reasonably possible that the amounts of unrecognized tax benefits could change in the next twelve months as a result of an audit or due to the expiration of a statute of limitation. Based on the current audits in process and pending statute expirations, the payment of taxes as a result would not be significant.

**10. DEBT** 

Debt consisted of the following:

(In millions)	2021		2020	
New York Life Agreement	\$	75.0 \$	1	75.0
Credit Agreement		96.6		
Tax increment financing debt		16.5		17.6
Financing leases		_		0.1
Foreign subsidiary debt		0.5		1.8
Other		0.1		0.2
Less: unamortized debt issuance costs		(0.2)		(0.1)
		188.5		94.6
Less current maturities		(98.0)		(2.6)
Long-term debt	\$	90.5 \$		92.0

Debt outstanding at December 31, 2021, excluding unamortized debt issuance costs, matures as follows:

(In millions)	 Γotal	2	2022		2023		2024		2025		2026		Thereafter	
Debt	\$ 188.7	\$	98.0	\$	1.3	\$	1.4	\$	76.4	\$	1.5	\$	10.1	

### New York Life Agreement

On May 27, 2015, the Company entered into an uncommitted and unsecured private shelf agreement with NYL Investors LLC, an affiliate of New York Life, and each of the undersigned holders of Notes (the "New York Life Agreement") for \$150.0 million maximum aggregate principal borrowing capacity. On October 28, 2016, the Company entered into the First Amendment to the Note Purchase and Private Shelf Agreement. The Amendment was intended to make the covenants within the New York Life Agreement consistent with the covenants that were modified in the Third Amended and Restated Credit Agreement (the "Credit Agreement"). On September 26, 2018 the Company entered into the Second Amendment to the Note Purchase and Private Shelf Agreement which increased the aggregate borrowing capacity to \$200.0 million and authorized the issuance of \$75.0 million of fixed rate senior noted due September 26, 2025. These senior notes bear an interest rate of 4.04 percent with interest-only payments due semi-annually. The proceeds from the issuance of the notes were used to pay off existing variable rate indebtedness with New York Life. On July 30, 2021, the New York Life agreement was renewed and expires on July 30, 2024. As of December 31, 2021, there was \$125.0 million of remaining borrowing capacity under the New York Life Agreement.

# **Project Bonds**

On December 31, 2012, the Company, Allen County, Indiana and certain institutional investors entered into a Bond Purchase and Loan Agreement. Under the agreement, Allen County, Indiana issued a series of Project Bonds entitled "Taxable Economic Development Bonds, Series 2012 (Franklin Electric Co., Inc. Project)." The aggregate principal amount of the Project Bonds that were issued, authenticated, and are now outstanding thereunder was limited to \$25.0 million. The Company then borrowed the proceeds under the Project Bonds through the issuance of Project Notes to finance the cost of acquisition, construction, installation and equipping of the new Global Corporate Headquarters and Engineering Center. These Project Notes ("Tax increment financing debt") bear interest at 3.6 percent per annum. Interest and principal balance of the Project Notes are due and payable by the Company directly to the institutional investors in aggregate semi-annual installments commencing on July 10, 2013, and concluding on January 10, 2033. The use of the proceeds from the Project Notes was limited to assist the financing of the new Global Corporate Headquarters and Engineering Center. On May 5, 2015, the Company entered into Amendment No. 1 to the Bond Purchase and Loan Agreement. This amendment provided for debt repayment guarantees from certain Company subsidiaries and waived certain non-financial covenants related to subsidiary guarantees.

### **Prudential Agreement**

On April 9, 2007, the Company entered into the Amended and Restated Note Purchase and Private Shelf Agreement (the "Prudential Agreement") in the amount of \$175.0 million. Under the Prudential Agreement, the Company issued notes in an aggregate principal amount of \$110.0 million on April 30, 2007 (the "B-1 Notes") and \$40.0 million on September 7, 2007 (the "B-2 Notes"). The B-1 Notes and B-2 Notes bear a coupon of 5.79 percent and had at issuance an average life of 10 years with a final maturity in 2019. On July 22, 2010, the Company entered into Amendment No. 3 to the Prudential Agreement to increase its borrowing capacity by \$25.0 million. On December 14, 2011, the Company entered into Amendment No. 4 to the Second Amended and Restated Note Purchase and Private Shelf Agreement to redefine the debt to EBITDA ratio covenant in

order to be equivalent to that under the Agreement. On December 31, 2012, the Company and Prudential Insurance Company of America entered into an amendment to the Second Amended and Restated Note Purchase and Private Shelf Agreement to extend the effective date to December 31, 2015. On May 5, 2015, the Company entered into Amendment No. 6 to the Second Amended and Restated Note Purchase and Private Shelf Agreement. This amendment provided for debt repayment guarantees from certain Company subsidiaries and waived certain non-financial covenants related to subsidiary guarantees. On May 28, 2015, the Company entered into a Third Amended and Restated Note Purchase and Private Shelf Agreement with Prudential to increase the total borrowing capacity from \$200.0 million to \$250.0 million. On October 28, 2016, the Company entered into Amendment No. 1 to the Third Amended and Restated Note Purchase and Private Shelf Agreement. This amendment was intended to make the covenants within the Prudential Agreement consistent with the covenants that were modified in the Credit Agreement (below). On July 30, 2021, the Company entered into the Fourth Amended and Restated Note Purchase and Private Shelf Agreement, which reduced the borrowing capacity to \$150.0 million and expires on July 30, 2024. As of December 31, 2021, the Company has \$150.0 million borrowing capacity available under the Prudential Agreement.

# Credit Agreement

On May 13, 2021, the Company entered into the Fourth Amended and Restated Credit Agreement (the "Credit Agreement"). The Credit Agreement extended the maturity date of the Company's previous credit agreement to May 13, 2026 and decreased the commitment amount from \$300.0 million to \$250.0 million. The Credit Agreement provides that the Borrowers may request an increase in the aggregate commitments by up to \$125.0 million (not to exceed a total commitment of \$375.0 million) subject to the conditions contained therein. All of the Company's present and future material domestic subsidiaries unconditionally guaranty all of the Borrowers' obligations under and in connection with the Credit Agreement. Additionally, the Company unconditionally guaranties all of the obligations of Franklin Electric B.V. under the Credit Agreement. Under the Credit Agreement, the Borrowers are required to pay certain fees, including a facility fee of 0.100% to 0.275% (depending on the Company's leverage ratio) of the aggregate commitment, payable quarterly in arrears. Borrowings may be made either at (i) a Eurocurrency rate based on LIBOR plus an applicable margin of 0.85% to 1.88% (depending on the Company's leverage ratio) or (ii) an alternative base rate as defined in the Credit Agreement.

As of December 31, 2021, the Company had \$96.6 million outstanding borrowings, \$4.1 million in letters of credit outstanding, and \$149.3 million of available capacity under the Credit Agreement. As of December 31, 2020, the Company had no outstanding borrowings, \$4.1 million in letters of credit outstanding, and \$295.9 million of available capacity under the Credit Agreement.

The Company also has lines of credit for certain subsidiaries with various expiration dates. The aggregate maximum borrowing capacity of these overdraft lines of credits is \$20.7 million. As of December 31, 2021, there were no outstanding borrowings and \$20.7 million of available capacity under these lines of credit.

## **Covenants**

The Company's credit agreements contain customary financial covenants. The Company's most significant agreements and restrictive covenants are in the New York Life Agreement, the Project Bonds, the Prudential Agreement, and the Credit Agreement; each containing both affirmative and negative covenants. The affirmative covenants relate to financial statements, notices of material events, conduct of business, inspection of property, maintenance of insurance, compliance with laws and most favored lender obligations. The negative covenants include limitations on loans, advances and investments, and the granting of liens by the Company or its subsidiaries, as well as prohibitions on certain consolidations, mergers, sales and transfers of assets. The covenants also include financial requirements including a maximum leverage ratio of 3.50 to 1.00 and a minimum interest coverage ratio of 3.00 to 1.00. Cross default is applicable with the Credit Agreement, the Prudential Agreement, the Project Bonds, and the New York Life Agreement, but only if the Company is defaulting on an obligation exceeding \$10.0 million. The Company was in compliance with all financial covenants as of December 31, 2021.

### 11. SHAREHOLDERS' EQUITY

#### **Authorized Shares**

The Company has the authority to issue 65,000,000, \$.10 par value shares.

### Share Repurchases

During 2021, 2020, and 2019, pursuant to a stock repurchase program authorized by the Company's Board of Directors, the Company repurchased and retired the following amounts and number of shares:

(In millions, except share amounts)	 2021	2020	2019
Repurchases	\$ 15.3	\$ 15.2	\$ 6.6
Shares	192,509	322,147	150,778

The Company retired shares in the amount of 126,332, 79,663, and 82,601 in 2021, 2020, and 2019, respectively, that were received from employees as payment for the exercise price of their stock options and taxes owed upon the exercise of their stock options and release of their restricted awards. The Company also retired shares in the amount of 2,511, 22,438, and 5,345, in 2021, 2020, and 2019, respectively that had been previously granted as stock awards to employees but were forfeited upon not meeting the required restriction criteria or termination.

### 12. ACCUMULATED OTHER COMPREHENSIVE INCOME/(LOSS)

Changes in accumulated other comprehensive income/(loss), net of tax, by component are summarized below:

		Foreign Currency	]	Pension and Post- Retirement		
(In millions)	_	ranslation djustments		Plan Benefit djustments (2)		Total
Balance, December 31, 2018	\$	(134.5)	\$	(48.5)	\$	(183.0)
Other comprehensive income/(loss) before reclassifications		(5.7)		_		(5.7)
Amounts reclassified from accumulated other comprehensive income/(loss) (1)				(1.5)	_	(1.5)
Net other comprehensive income/(loss)		(5.7)		(1.5)		(7.2)
Balance, December 31, 2019	\$	(140.2)	\$	(50.0)	\$	(190.2)
Other comprehensive income/(loss) before reclassifications		(12.0)		_		(12.0)
Amounts reclassified from accumulated other comprehensive income/(loss) (1)				(2.6)	_	(2.6)
Net other comprehensive income/(loss)		(12.0)		(2.6)		(14.6)
Balance, December 31, 2020	\$	(152.2)	\$	(52.6)	\$	(204.8)
Other comprehensive income/(loss) before reclassifications		(27.4)		_		(27.4)
Amounts reclassified from accumulated other comprehensive income/(loss) (1)				3.6	_	3.6
Net other comprehensive income/(loss)		(27.4)		3.6		(23.8)
Balance, December 31, 2021	\$	(179.6)	\$	(49.0)	\$	(228.6)

<sup>(1)</sup> This accumulated other comprehensive income/(loss) component is included in the computation of net periodic pension cost (refer to Note 7 - Employee Benefit Plans for additional details) and is included in the "Selling, general, and administrative expenses" line of the Company's consolidated statements of income.

(2) Net of tax (benefit)/expense of \$1.5 million, \$(1.1) million and \$(0.6) million for 2021, 2020, and 2019, respectively.

Amounts related to noncontrolling interests were not material.

### 13. EARNINGS PER SHARE

The Company calculates basic and diluted earnings per common share using the two-class method. Under the two-class method, net earnings are allocated to each class of common stock and participating security as if all of the net earnings for the period had been distributed. The Company's participating securities consist of share-based payment awards that contain a non-forfeitable right to receive dividends and therefore are considered to participate in undistributed earnings with common shareholders.

Basic earnings per common share excludes dilution and is calculated by dividing net earnings allocable to common shares by the weighted-average number of common shares outstanding for the period. Diluted earnings per common share is calculated by dividing net earnings allocated to common shares by the weighted-average number of common shares outstanding for the period, as adjusted for the potential dilutive effect of non-participating share-based awards.

The following table sets forth the computation of basic and diluted earnings per share:

(In millions, except per share amounts)	 2021	2020	2019		
Numerator:					
Net income attributable to Franklin Electric Co., Inc.	\$ 153.9	\$ 100.5	\$	95.5	
Less: Earnings allocated to participating securities	 0.9	0.7		0.7	
Net income available to common shareholders	\$ 153.0	\$ 99.8	\$	94.8	
Denominator:					
Basic weighted average common shares outstanding	46.4	46.2		46.4	
Effect of dilutive securities:					
Non-participating employee stock options and performance awards	0.6	0.5		0.4	
Diluted weighted average common shares outstanding	47.0	46.7		46.8	
Basic earnings per share	\$ 3.29	\$ 2.16	\$	2.04	
Diluted earnings per share	\$ 3.25	\$ 2.14	\$	2.03	

There were 0.1 million, 0.2 million, and 0.2 million stock options outstanding as of 2021, 2020, and 2019, respectively, that were excluded from the computation of diluted earnings per share, as their inclusion would be anti-dilutive.

#### 14. SHARE-BASED COMPENSATION

The Franklin Electric Co., Inc. 2017 Stock Plan (the "2017 Stock Plan") is a stock-based compensation plan that provides for discretionary grants of stock options, stock awards, stock unit awards, and stock appreciation rights ("SARs") to key employees and non-employee directors. The number of shares that may be issued under the Plan is 1,400,000. Stock options and SARs reduce the number of available shares by one share for each share subject to the option or SAR, and stock awards and stock unit awards settled in shares reduce the number of available shares by 1.5 shares for every one share delivered.

The Company also maintains the Franklin Electric Co., Inc. 2012 Stock Plan (the "2012 Stock Plan"), which is a share-based compensation plan that provides for discretionary grants of stock options, stock awards and stock unit awards to key employees and non-employee directors.

The 2012 Stock Plan authorized 2,400,000 shares for issuance as follows:

2012 Stock Plan	Authorized Shares
Stock Options	1,680,000
Stock/Stock Unit Awards	720,000

The Company also maintains the Amended and Restated Franklin Electric Co., Inc. Stock Plan (the "2009 Stock Plan") which, as amended in 2009, provided for discretionary grants of stock options and stock awards. The 2009 Stock Plan authorized 4,400,000 shares for issuance as follows:

2009 Stock Plan	Authorized Shares
Stock Options	3,200,000
Stock Awards	1,200,000

All options in the 2009 Stock Plan have been awarded and no additional awards are granted out of the plan.

The Company currently issues new shares from its common stock balance to satisfy option exercises and the settlement of stock awards and stock unit awards made under the outstanding stock plans.

The total share-based compensation expense recognized in 2021, 2020, and 2019 was \$11.7 million, \$10.1 million, and \$8.9 million, respectively.

## Stock Options:

Under the above plans, the exercise price of each option equals the market price of the Company's common stock on the date of grant, and the options expire 10 years after the date of the grant. Options granted to employees in 2019 and after vest at 33 percent a year and become fully vested and fully exercisable after 3 years. Options granted prior to 2019 vest at 25 percent a year and become fully vested and fully exercisable after 4 years. Vesting is accelerated upon death or disability. Subject to the terms of the plans, in general, the aggregate option exercise price and any applicable tax withholding may be satisfied in cash or its equivalent, by the plan participant's delivery of shares of the Company's common stock having a fair market value at the time of exercise equal to the aggregate option exercise price and/or the applicable tax withholding or by having shares otherwise subject to the award withheld by the Company or via cashless exercise through a broker-dealer.

The fair value of each option award is estimated on the date of grant using the Black-Scholes option valuation model with a single approach and amortized using a straight-line attribution method over the option's vesting period. Options granted to retirement eligible employees are immediately expensed. The Company uses historical data to estimate the expected volatility of its stock, the weighted average expected life, the period of time options granted are expected to be outstanding, and its dividend yield. The risk-free rates for periods within the contractual life of the option are based on the U.S. Treasury yield curve in effect at the time of the grant.

The table below provides the weighted average grant-date fair values and key assumptions used for the Black-Scholes model to determine the fair value of options granted during 2021, 2020, and 2019:

	 2021	2020	2019
Risk-free interest rate	0.66 %	1.39 %	2.53 %
Dividend yield	0.96 %	1.04 %	1.05 %
Volatility factor	34.98 %	29.45 %	29.38 %
Expected term	5.5 years	5.5 years	5.5 years
Weighted average grant-date fair value of options	\$ 21.70 \$	15.63	\$ 15.61

A summary of the Company's outstanding stock option activity and related information is as follows:

(Shares in thousands)  Stock Options	Shares	Weigl Aver Exercise	age	Weighted- Average Remaining Contractual Term	Aggregate rinsic Value (000's)
Outstanding at beginning of 2021	1,331	\$	41.90		
Granted	152		73.14		
Exercised	(440)		35.33		
Forfeited					
Outstanding at end of 2021	1,043	\$	49.21	5.87 years	\$ 47,323
Expected to vest after applying forfeiture rate	1,042	\$	49.17	5.87 years	\$ 47,277
Vested and exercisable at end of period	707	\$	43.22	4.80 years	\$ 36,306
(In millions)		2021		2020	2019
Intrinsic value of options exercised	\$	20	0.7 \$	3.3 \$	4.6
Cash received from the exercise of options		1:	5.5	3.7	3.2
Fair value of shares vested			3.9	2.9	2.6
Tax benefit of options exercised		:	5.1	0.8	1.1

As of December 31, 2021, there was \$0.9 million of total unrecognized compensation cost related to non-vested stock options granted under the stock plans. That cost is expected to be recognized over a weighted-average period of 1.28 years.

### Stock/Stock Unit Awards:

Under the 2009 Stock Plan, non-employee directors and employees may be granted stock awards. Under the 2012 Stock Plan and the 2017 Stock Plan, non-employee directors and employees may be granted stock awards and stock units.

Stock awards to non-employee directors are generally fully vested when made. Stock/stock unit awards to employees cliff vest over 3 or 4 years (subject to accelerated vesting of a pro rata portion in the case of retirement, death or disability) and may be contingent on the attainment of certain performance goals. Dividends are paid to the recipient prior to vesting, except that dividends on performance-based stock awards under the 2012 Stock Plan and the 2017 Stock Plan will be paid only to the extent the performance goals are met.

Stock/stock unit awards granted to retirement eligible employees are expensed over the vesting period. Compensation cost for the performance stock/stock unit awards is accrued based on the probable outcome of specified performance conditions.

A summary of the Company's restricted stock/stock unit award activity and related information is as follows:

(Shares in thousands) Restricted Stock/Stock Unit Awards	Shares	Weighted-Average Grant- Date Fair Value		
Non-vested at beginning of 2021	403	\$ 49.34		
Awarded	104	74.23		
Vested	(138)	44.39		
Forfeited	(21)	58.27		
Non-vested at end of 2021	348	\$ 58.20		

The weighted-average grant date fair value of restricted stock/stock unit awards granted in 2021, 2020, and 2019, is \$74.23, \$59.28, and \$51.47, respectively.

As of December 31, 2021, there was \$7.8 million of total unrecognized compensation cost related to non-vested stock/stock unit awards granted under the stock plans. That cost is expected to be recognized over a weighted-average period of 0.96 years.

# 15. SEGMENT AND GEOGRAPHIC INFORMATION

The Company's business consists of the Water Systems, Distribution, and Fueling Systems reportable segments, based on the principal end market served. The Company includes unallocated corporate expenses and intercompany eliminations in an "Intersegment Eliminations/Other" segment that together with the Water Systems, Distribution, and Fueling Systems segments, represent the Company.

The Water Systems segment designs, manufactures and sells motors, pumps, electronic controls, water treatment systems and related parts and equipment primarily for use in submersible water or other fluid system applications. The Fueling Systems segment designs, manufactures and sells pumps, electronic controls and related parts and equipment primarily for use in submersible fueling system applications. The Fueling Systems segment integrates and sells motors and electronic controls produced by the Water Systems segment. The Company reports these product transfers between Water and Fueling as inventory transfers since a significant number of the Company's manufacturing facilities are shared across segments for scale and efficiency purposes. The Distribution segment sells to and provides presale support and specifications to the installing contractors. The Distribution segment sells products produced by the Water Systems segment. The Company reports intersegment transfers from Water Systems to Distribution as intersegment revenue at market prices to properly reflect the commercial arrangement of vendor to customer that exists between the Water System and Distribution segments.

Segment operating income is a key financial performance measure. Operating income by segment is based on net sales less identifiable operating expenses and allocations and includes profits recorded on sales to other segments of the Company.

The accounting policies of the Company's reportable segments are the same as those described in Note 1 - Summary of Significant Accounting Policies. Performance is evaluated based on the sales and operating income of the segments and a variety of ratios to measure performance. These results are not necessarily indicative of the results of operations that would have occurred had each segment been an independent, stand-alone entity during the periods presented.

Financial information by reportable business segment is included in the following summary:

(In millions)  Water Systems  External sales  United States & Canada  Latin America  Europe, Middle East & Africa  Asia Pacific  Intersegment sales  United States & Canada  Total sales  Distribution  External sales  United States & Canada  Intersegment sales  Total sales  Fueling Systems  External sales  United States & Canada  All other  Intersegment sales  Total Sales  Total Sales	\$	2021 460.8 139.5 189.8 85.1 88.4 963.6 497.6 —	\$ 327 118 156 70 60 734 328	5 8 9 9 —	2019  367.6 124.2 155.6 81.8  52.3 781.5

Cash and property, plant and equipment are the major asset groups in "Other" of total assets for the fiscal years ended December 31, 2021, December 31, 2020 and December 31, 2019.

Financial information by geographic region is as follows:

		Net sales			Lon	g-lived assets	S	
(In millions)	2021	2020	2019	2021		2020		2019
United States	\$ 1,075.7	\$ 760.6	\$ 776.6	\$ 604.5	\$	405.9	\$	394.7
Foreign	586.2	 486.7	 538.0	238.4		238.3		223.4
Consolidated	\$ 1,661.9	\$ 1,247.3	\$ 1,314.6	\$ 842.9	\$	644.2	\$	618.1

Net sales are attributed to geographic regions based upon the ship to location of the customer. Long-lived assets are attributed to geographic regions based upon the country of domicile.

The Company offers a large array of products and systems to multiple markets and customers. Product sales information is tracked regionally and products are categorized differently between regions based on local needs and reporting requirements. However, net sales by segment are representative of the Company's sales by major product category. The Company sells its products through various distribution channels including wholesale and retail distributors, specialty distributors, industrial and petroleum equipment distributors, as well as major oil and utility companies and original equipment manufacturers.

No single customer accounted for more than 10 percent of the Company's consolidated sales in 2021, 2020, or 2019. No single customer accounted for more than 10 percent of the Company's gross accounts receivable in 2021 or 2020.

# 16. COMMITMENTS AND CONTINGENCIES

In 2011, the Company became aware of a review of alleged issues with certain underground piping connections installed in filling stations in France owned by the French Subsidiary of Exxon Mobile, Esso S.A.F. A French court ordered that a designated, subject-matter expert review 103 filling stations to determine what, if any, damages are present and the cause of those damages. The Company has participated in this investigation since 2011, along with several other third parties including equipment installers, engineering design firms who designed and provided specifications for the stations, and contract manufacturers of some of the installed equipment. The subject-matter expert has issued their preliminary report, which indicates that total damages incurred by Esso amounted to approximately 12 million euro. It is the Company's position that its products were not the cause of any alleged damage. The Company has retained experts to demonstrate that its products did not cause the damage, and in January 2021, submitted its response to the expert's preliminary report for each station. The expert's response to the Company's report is due to the Court in June 2022. The Company cannot predict the ultimate outcome of this matter. Any exposure related to this matter is neither probable nor estimable at this time. If payments result from a resolution of this matter, depending on the amount, they could have a material effect on the Company's financial position, results of operations, or cash flows.

The Company is defending other various claims and legal actions which have arisen in the ordinary course of business. In the opinion of management, based on current knowledge of the facts and after discussion with counsel, these claims and legal actions can be defended or resolved without a material effect on the Company's financial position, results of operations, and net cash flows.

At December 31, 2021, the Company had \$13.2 million of commitments primarily for capital expenditures and the purchase of raw materials to be used in production.

The changes in the carrying amount of the warranty accrual, as recorded in the "Accrued expenses and other current liabilities" line of the Company's consolidated balance sheets for 2021 and 2020, are as follows:

(In millions)	 2021	2020
Beginning balance	\$ 9.7	\$ 9.1
Accruals related to product warranties	9.7	9.4
Additions related to acquisitions	0.1	0.6
Reductions for payments made	 (9.0)	(9.4)
Ending balance	\$ 10.5	\$ 9.7

The Company maintains certain warehouses, distribution centers, office space, and equipment operating leases. The Company also has lease agreements that are classified as financing. However, these financing leases are immaterial to the Company.

The components of the Company's operating lease portfolio as of 2021, 2020, and 2019 are as follows:

Lease Cost (In millions):	_	2021		2020	2019
Operating lease cost	\$	13.6	\$	11.4	\$ 11.7
Short-term lease cost		0.6		0.4	0.5
Other Information:					
Weighted-average remaining lease term		4.2 years		3.9 years	
Weighted-average discount rate		3.9 %	, D	3.7 %	

As of December 31, 2021, the Company has approximately \$1.1 million of additional ROU assets related to lease that have not yet commenced, but create future lease obligations.

The future minimum rental payments for non-cancellable operating leases as of December 31, 2021, are as follows:

(In millions)	7	Γotal	 2022	 2023	2	2024	2	2025	 2026	Th	ereafter
Undiscounted future minimum rental payments	\$	52.4	\$ 16.4	\$ 12.3	\$	8.3	\$	5.3	\$ 3.9	\$	6.2
Less: Imputed Interest		4.1									
Present value of lease liabilities	\$	48.3									

### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of Franklin Electric Co., Inc. Fort Wayne, Indiana

### **Opinion on the Financial Statements**

We have audited the accompanying consolidated balance sheets of Franklin Electric Co., Inc. and subsidiaries (the "Company") as of December 31, 2021 and 2020, the related consolidated statements of income, comprehensive income, equity, and cash flows, for each of the three years in the period ended December 31, 2021, and the related notes and the schedule listed in the Index at Item 15 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2021, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2021, based on criteria established *in Internal Control* — *Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 25, 2022, expressed an unqualified opinion on the Company's internal control over financial reporting.

# **Basis for Opinion**

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

### **Critical Audit Matter**

The critical audit matter communicated below is a matter arising from the current-period audit of the financial statements that was communicated or required to be communicated to the audit committee and that (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

## New Aqua— Intangible Assets — Refer to Notes 1, 3 and 6 to the financial statements

Critical Audit Matter Description

As described in Note 1, 3, and 6 to the consolidated financial statements, the Company completed multiple acquisitions for total cash consideration of \$244.0 million in the year ended December 31, 2021. The Company allocated the purchase price of its acquisitions to the assets acquired, liabilities assumed, and noncontrolling interests based upon their respective fair values at acquisition date utilizing management estimates and inputs from an independent third-party valuation firm to assist in determining these fair values. The purchase price allocation resulted in identifiable intangible asset of \$131.9 million of which \$93.7 million related to the customer relationships and trade names acquired in connection with the acquisition of New Aqua, LLC ("New Aqua"). Management estimated the fair value of the New Aqua trade names using the relief of royalty method and the fair value of the New Aqua customer relationships using the multi-period excess earnings discounted cash flow method. The fair value determination of these intangibles required management to make significant estimates and assumptions related to business and valuation assumptions, including revenue growth rates, profit margins, discount rates, attrition rates, and royalty rates.

We identified management's estimate of the fair value of acquired New Aqua trade names and customer relationships as a critical audit matter because of the significant judgments made by management to estimate the respective fair values. This required a high degree of auditor judgment and an increased extent of effort, including the need to involve our fair value specialists, when performing audit procedures to evaluate the reasonableness of management's projected future cash flows and the selection of valuation assumptions.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to the business and valuation assumptions to estimate the fair value for these intangible assets included the following, among others:

- We tested the effectiveness of controls over management's determination of the fair values of acquired trade names and customer relationships, including those over the projected future cash flows and selection of revenue growth rates, profit margins, discount rates, attrition rates, and royalty rates.
- We assessed the reasonableness of management's selection of revenue growth rates and profit margins by comparing the projections to historical results, internal communications to management, and certain industry and market trends.
- With the assistance of our fair value specialists, we evaluated the reasonableness of the valuation methods and assumptions, including the discount rates, attrition rates, and royalty rates, by:
  - Assessing the appropriateness of the valuation methodology used to determine the valuation assumptions.
  - Testing the source information underlying the determination of the valuation assumptions and testing the mathematical accuracy of the calculations.
  - Developing a range of independent estimates of the valuation assumptions and comparing the valuation assumptions selected by management to the range of independent estimates.

We have served as the Company's auditor since 1988.

# ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

### ITEM 9A. CONTROLS AND PROCEDURES

As of the end of the period covered by this report (the "Evaluation Date"), the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15. Based upon that evaluation, the Company's Chief Executive Officer and the Company's Chief Financial Officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective.

There have been no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by Rules 13a-15 under the Exchange Act during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

### MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for establishing and maintaining an adequate system of internal control over financial reporting of the Company. This system is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting can provide only reasonable assurance with respect to financial statement preparation and may not prevent or detect misstatements. Further, because of changes in conditions, effectiveness of internal controls over financial reporting may vary over time.

Management conducted an evaluation of the effectiveness of the system of internal control over financial reporting based on the framework in the *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Management excluded Puronics, Inc.; New Aqua, LLC; Minetuff Dewatering Pumps Australia Pty Ltd; B&R Industries, Inc.; and Blake Group Holdings, Inc. as well as the asset acquisitions of Power Integrity Services, LLC and Atlantic Turbine Pump, LLC (Note 3 - Acquisitions) from its assessment of internal controls over financial reporting as these acquisitions occurred in 2021. This exclusion is in accordance with the general guidance from the Staff of the Securities and Exchange Commission that an assessment of a recently acquired business may be omitted from the scope of management's assessment of internal control over financial reporting for one year following the acquisition. The net sales and total assets of current year acquisitions represented was approximately 4.4 percent and 17.7 percent of the consolidated financial statement amounts as of and for the year ended December 31, 2021. Based on its evaluation, management concluded that the Company's system of internal control over financial reporting was effective as of December 31, 2021.

Our independent registered public accounting firm has issued an audit report on the effectiveness of the Company's internal control over financial reporting as of December 31, 2021. This report appears on page 53.

### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of Franklin Electric Co., Inc. Fort Wayne, Indiana

### **Opinion on Internal Control over Financial Reporting**

We have audited the internal control over financial reporting of Franklin Electric Co., Inc. and subsidiaries (the "Company") as of December 31, 2021, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2021, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended December 31, 2021, of the Company and our report dated February 25, 2022, expressed an unqualified opinion on those financial statements.

As described in Management's Report on Internal Control over Financial Reporting, management excluded Puronics, Inc., New Aqua, LLC, Minetuff Dewatering Pumps Australia Pty Ltd., B&R Industries, Inc., and Blake Group Holdings, Inc. as well as the asset acquisitions of Power Integrity Services, LLC and Atlantic Turbine Pump, LLC from its assessment of internal control over financial reporting as these acquisitions occurred in the twelve months ended December 31, 2021. The combined net sales and total assets of these acquisitions represented approximately 4.4 percent and 17.7 percent, respectively, of the consolidated financial statement amounts as of and for the year ended December 31, 2021. Accordingly, our audit did not include the internal control over financial reporting at these acquired companies.

### **Basis for Opinion**

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

### **Definition and Limitations of Internal Control over Financial Reporting**

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.
