## Chairman's Report

Dear Shareholder

I am pleased to present to you the 2013 Annual Report for Anglo Australian Resources NL. 2013 has been a difficult year.

In common with the majority of junior exploration companies, the Anglo Australian share price has suffered as a result of the combination of weakness in mineral commodity prices and low level of investor sentiment generally.

Indeed, with Anglo Australian shares having for much of the year traded at levels less than what the Directors considered to represent fair value, and mindful of wishing to avoid the dilution of existing shareholders unnecessarily, there were sustained periods during the year where Directors were effectively unable to seek new capital, the lifeblood of any junior exploration company.

As such, having entered the year with relatively little capital with which to pursue our business activities, the year was largely about optimising the resource interests we already held. In this context, I believe we made reasonable progress.

In January, we announced that we had entered into an agreement with MMG Exploration Pty Ltd, a wholly owned subsidiary of the Hong Kong Stock Exchange-listed global resources company MMG Limited, concerning the exploration and development of the company's Victoria River Downs project in the Northern Territory. Whilst Anglo Australian had always considered the project to be interesting, the fact is it was always going to be too large in scale for the company to pursue alone and consequently minimal effort had been spent on the project. In recent months, MMG has at its sole cost undertaken a number of activities including the flying of a TEMPEST electromagnetic survey, and the completion of both heritage and flora and fauna surveys.

A further situation where Anglo was able to be opportunistic was in respect of our long held 50% interest in an exploration application in the West Musgrave province of Western Australia. Identifying an upsurge of interest in the region, headlined by the discovery of BHPB's Nebo and Babel nickel-copper-PGE sulphide deposits, during the year Anglo Australian entered into discussions with Paylode Pty Ltd, a wholly owned subsidiary of Silver Lake Resources Limited, in respect of the remaining 50% interest in the project. This culminated in the company entering into an agreement within Paylode in July 2013, just after the financial year concluded, involving Anglo Australian assuming 100% ownership (subject to a 1.5% royalty) of the newly granted exploration License 69/1677.

In due course, Anglo Australian intends to commence work on the West Musgrave project, commencing with the acquisition of aeromagnetic data.

In September 2012, Anglo Australian completed two drill holes at its Leonora Project in Western Australia. Subsequent EM surveying in both holes has led to the detection of several off hole conductors warranting further drilling.

In June, Anglo Australian was advised that its application for co-funding two further drill holes at Leonora under the WA State Government sponsored Exploration Incentive Scheme was successful.

Ongoing work was undertaken during the year at Anglo Australian's Mandilla project in Western Australia, culminating in the identification of a number of drill targets. A program of work for drilling 22 rotary airblast or aircore holes and six reverse circulation percussion holes has since been approved by the Department of Mines and Petroleum.

Although considerable effort was undertaken during the year in respect of the company's Koongie Park project in Western Australia, including reviewing options and holding discussions with various parties, the company has not at this time made any noteworthy progress.

During the first quarter of year ended 30 June 2013, the company raised by way of placement \$503,000 of new capital. Such funds were mainly used to fund the drilling program at Leonora referred to above.

Whilst we finished the financial year with little cash in the bank, I am pleased to advise that a Share Purchase Plan and Placement announced in August 2013 has at the time of writing raised \$430,000.

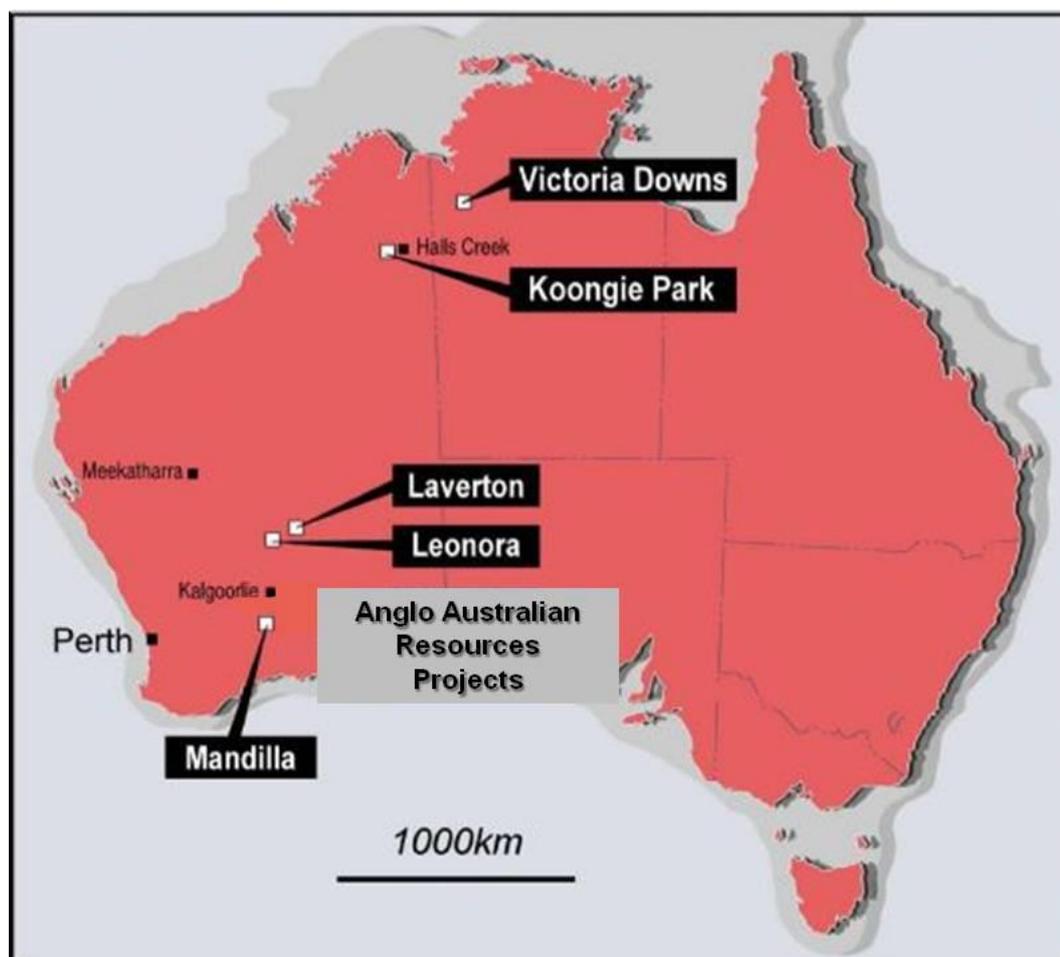

I take this opportunity to sincerely thank Anglo Australian's shareholders for their incredible patience and continued support, and my fellow directors and our consultants for their ongoing efforts under difficult circumstances, and look forward to reporting further developments in coming months.

Yours sincerely

John Jones  
Executive Chairman  
**Anglo Australian Resources NL**

## REVIEW OF OPERATIONS

### CORPORATE

- Agreement entered into with MMG Limited in relation to the Company's Victoria River Downs Project in the Northern Territory involving an option and joint venture, pursuant to which MMG can earn an 80% interest.
- Agreement entered into with Paylode Pty Ltd, a wholly owned subsidiary of Silver Lake Resources Limited, to purchase Paylode's 50 percent interest in newly granted Exploration License 69/1677 in the West Musgrave province of Western Australia. Consideration is a royalty payable on any minerals derived from the tenement.
- During the year, \$853,000 of capital was raised with approximately \$400,000 spent on exploration.

### EXPLORATION

- Leonora Project – Notification received that application for co-funding two drill holes under the WA State Government sponsored Exploration Incentive Scheme was successful.
- West Musgrave Project - Exploration Licence application submitted to bring Anglo Australian's holding to 363 square kilometres in an area highly prospective for nickel, copper, Platinum Group Elements (PGE), gold and iron.
- Victoria River Downs Project - TEMPEST survey totalling 1048 line km successfully flown by Fugro Australia. Drilling planned for late September subject to relevant approvals.
- Mandilla Project – Program of work approval received for RAB/AC and RC drilling of Southeast Mandilla targets.

### Leonora Project – WA

#### *Anglo Australian 100% interest*

The Leonora Project is located approximately 25 kilometres south of the Jaguar and Bentley copper-zinc mines of Independence Group NL. The volcanogenic massive sulphide (VMS) style deposits at Jaguar and Bentley occur near the boundary between mafic and felsic units, with the deposits discovered by drill testing bedrock electromagnetic conductors. Anglo Australian's project area covers a 10 km long zone of felsic volcanic and sedimentary rocks broadly analogous to the geology at Jaguar. In May 2011, a Moving Loop Electromagnetic (MLEM) survey targeting potential massive copper-zinc mineralisation discovered a strong 800m long bedrock conductor, located within favourable stratigraphy, proximal to the contact between felsic and mafic volcanic rocks.

Two diamond core holes designed to test the electromagnetic conductor at depth were completed in October 2012. Both holes intersected a sequence of mafic and felsic volcanic and volcanoclastic rocks with minor non-volcanic units. Trace to minor amounts of disseminated sulphides consisting of chalcopyrite, pyrrhotite and pyrite were observed in the core and narrow zones of stringer chalcopyrite and pyrrhotite were intersected within a foliated mafic intrusive in hole LRCD001. The best intersection comprised a 0.65 metre interval at 2.08% copper from 233.25 metres in hole LRCD001. Narrow zones of black shale containing variable amounts of pyrite and pyrrhotite and minor amounts of chalcopyrite were intersected in both holes.

Downhole electromagnetic (DHEM) surveys were undertaken in each hole to define and confirm the conductive zone exhibited by the surface MLEM survey. Interpretation of the DHEM data by the company's consultant geophysicists concluded that the sulphidic, copper mineralised black shale horizon intersected in both holes represents the large conductor detected in the surface MLEM survey. However, a moderate to strong off hole conductor exhibited in both holes warrants follow-up as possible massive sulphide lenses or stringer sulphide zones. The off hole conductor is located above LRCD002 and below LRCD001.

Following the DHEM survey, aeromagnetic data at a flight line spacing of 100 metres was purchased and processed by Newexco Services. Interpretation of the processed results shows several weak (20 to 30 nanotesla) anomalies along the productive stratigraphic horizon.

Anglo Australian was advised on 13 June 2013 that its submission under the WA Government sponsored Exploration Incentive Scheme (EIS) for co-funding to complete two diamond drill holes was successful. The two holes proposed will test the moderate to strong off hole conductor exhibited in the diamond drill holes completed in October 2012.

The EIS is a State Government initiative that aims to encourage exploration in Western Australia for the long-term sustainability of the State's resources sector. Co-funding is up to 50% of direct drilling costs and in Anglo Australian's case will amount to a maximum of \$90,000.

Both holes will be located in the vicinity of the previous two holes but will target the south plunging, west dipping DHEM conductor offset from the existing holes. As well as testing the conductor, the new holes will provide a better stratigraphic context for the mineralisation already intersected.

Anglo Australian has not yet determined when drilling of these targets will be undertaken.

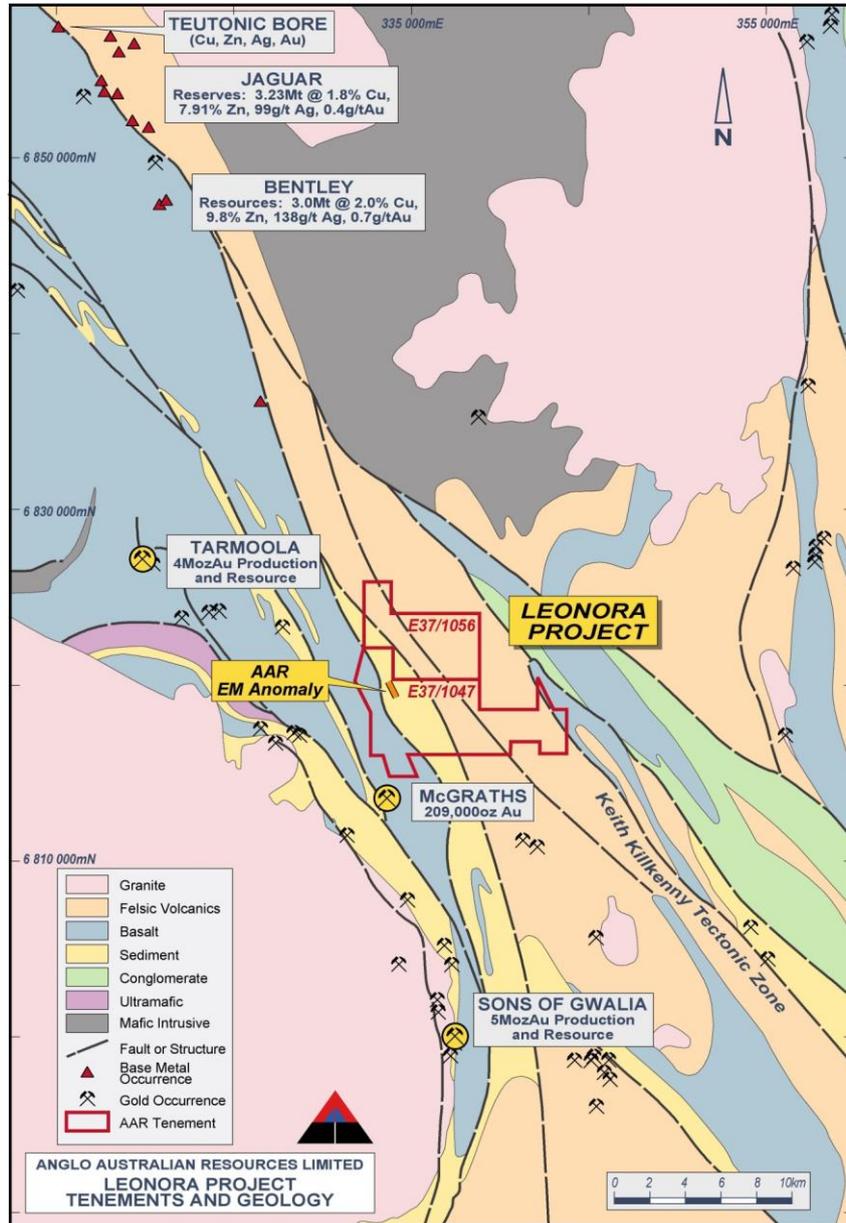

Figure 1. Leonora Geology and Project Location

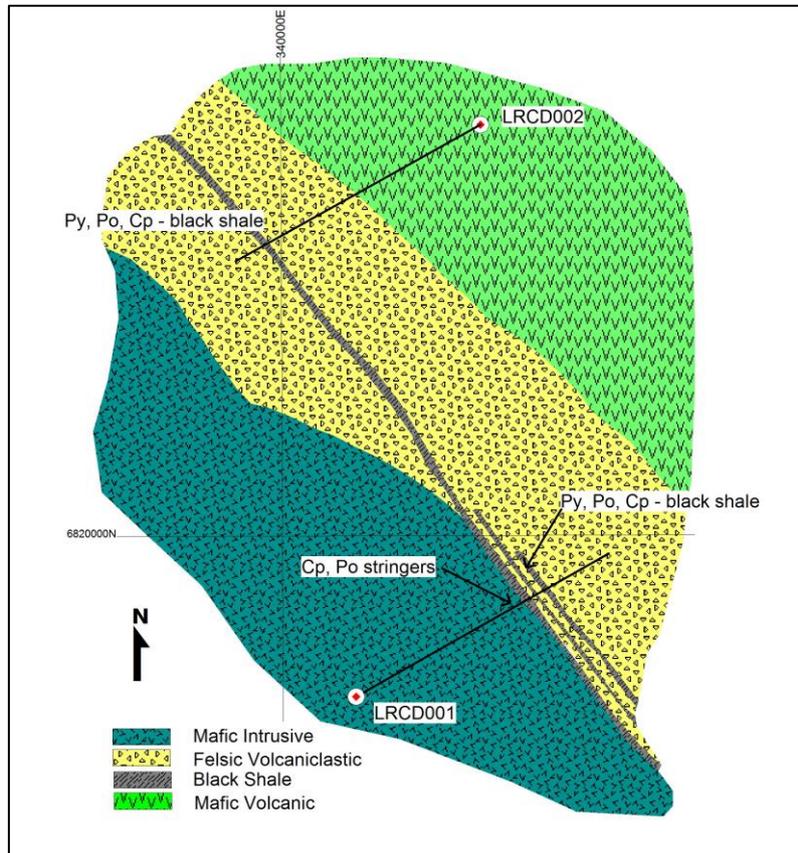

Figure 2. Solid geology in the vicinity of holes LRCD001 and LRCD002

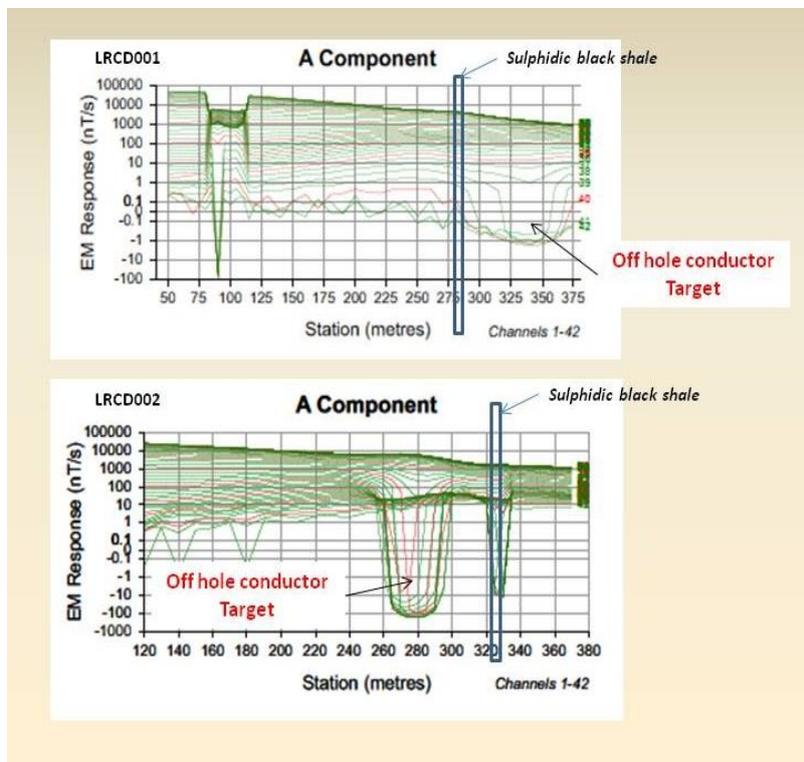

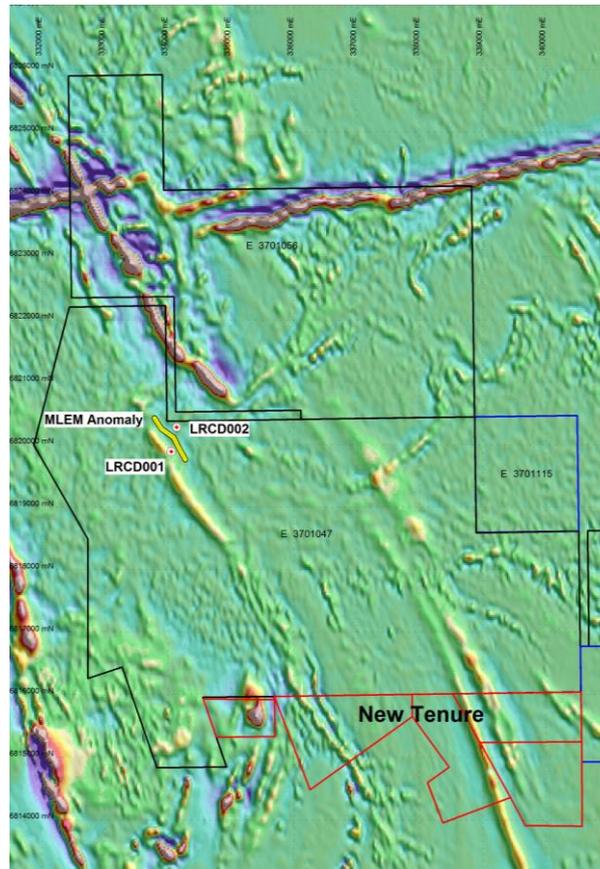

Figure 3. DHEM results showing off hole conductor target.

Five new prospecting licences were pegged over the southern extension of the identified mineralised stratigraphy. As well, the new tenements cover other aeromagnetic anomalies and strike extensions of potentially mineralised lithological trends to the south of the existing project area tenements. The new tenements cover an area of 7.35 square kilometres and extend the strike length coverage of the identified mineralised stratigraphy by 1.32 kilometres.

## Koongie Park - WA

*Anglo Australian 100% interest*

Options for moving the project forward continue to be investigated.

A review of data from previously completed induced polarisation and electromagnetic surveys is currently being undertaken by the company's geophysical consultants.

## West Musgrave - WA

*Anglo Australian 100% interest*

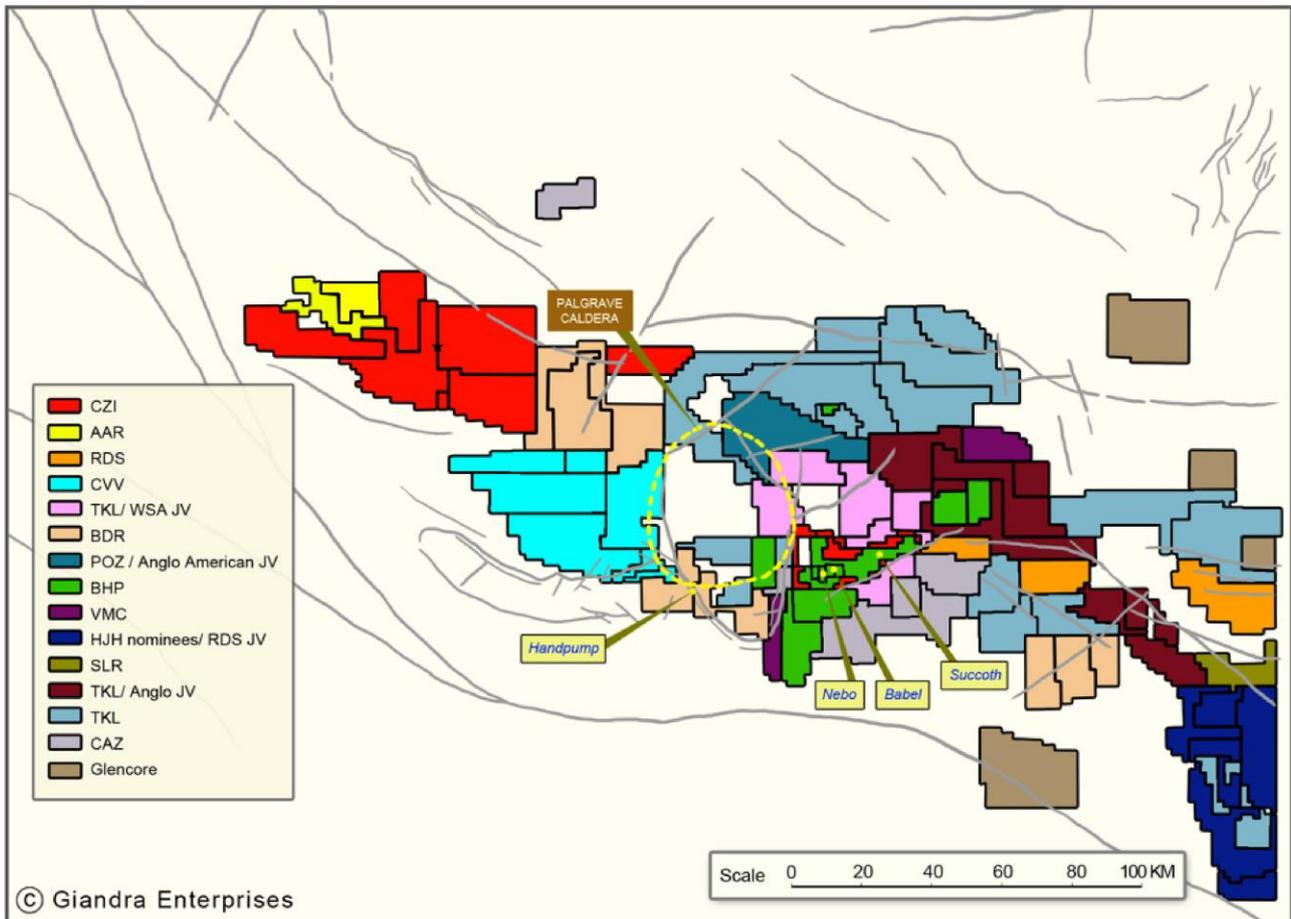

Anglo Australian entered into an agreement with Paylode Pty Ltd, a wholly owned subsidiary of Silver Lake Resources Limited, to purchase Paylode's 50 percent interest in granted Exploration Licence 69/1677 in the West Musgrave province of Western Australia.

The purchase of Paylode's interest in E69/1677 gives Anglo Australian a 100% interest in the licence covering 217 square kilometres of unexplored ground in an area highly prospective for nickel, copper, Platinum Group Element's (PGE), gold and iron. In consideration of the purchase, Anglo Australian has agreed to pay Paylode a royalty of 1.5% of the Net Smelter Return on any minerals derived from the tenement.

E69/1677 was granted on 12 June 2013. In addition, Anglo Australian has recently applied for Exploration Licence E69/3197, an additional 146 square kilometres, which would bring the total holding in the West Musgrave Project to a total of 363 square kilometres.

The Musgrave region is a poorly explored geological province currently experiencing an upsurge in exploration following the discovery of BHPB's Nebo and Babel nickel-copper-PGE sulphide deposits. Beadell Resources' "Handpump" project has seen the first intersections of economic gold mineralisation in the Musgrave. Cassini Resources Limited has been investigating numerous gravity and magnetic anomalies located on its tenement holding, the western end of which adjoins Anglo Australian's property. Recently, Cassini has identified the Pandora Anomaly, a discrete VLEM anomaly located at the margin of a "bulls-eye" magnetic anomaly. Pandora is located 17 kilometres southeast of Anglo Australian's E69/1677. Cassini considers Pandora to be a highly promising target in the West Musgrave. Initial drilling has detected the presence of nickel sulphides.

Anglo Australian's exploration licences cover the western portion of this magnetically responsive, highly prospective geological province. The bedrock geology of Anglo Australian's tenement area is completely obscured by soil deposits, however the nature of the aeromagnetic response suggests bedrock geology compatible with mafic-ultramafic rocks. Anglo Australian intends to acquire detailed aeromagnetic data over its property and commence investigating anomalous areas for follow-up work.

## Victoria River Downs - WA

Anglo Australian 100% interest (MMG Limited earning 80% interest)

AAPA heritage inspections and a Flora and Fauna survey (Coffey) were conducted during the quarter along with site inspections and leaseholder contacts.

A TEMPEST survey was flown successfully by Fugro Australia for 1048 line km. The survey was designed to test for sub-surface conductors in the area and, more particularly, for the presence of any pyritic shales. The survey will also be beneficial in re-constructing the structural framework of the area prior to commencement of drilling.

Drilling is expected to occur in late September; however, this is subject to relevant approvals and availability of earthworks and drilling contractors.

## Mandilla Project - WA

Anglo Australian 100% interest

The Mandilla Gold Project, located 70km south of Kalgoorlie and 20km south east of Kambalda, comprises two mining leases covering 1819.2 ha. Geology in the project area consists of a sequence of mafic and ultramafic rocks in contact with felsic volcanoclastic and sedimentary rocks of the Mandilla Formation. The sedimentary sequence is intruded by the Emu Rocks Granite (a high level stock of porphyritic monzogranite). The western contact of the granite is faulted by an interpreted southern extension of a splay fault off the Zuleika Shear Zone, which hosts 1 million ounce deposits at Raleigh (Kundana) and Mt Marion (Ghost Crab).

From June 2006 to October 2007, Anglo Australian produced 20,619 ounces of gold from the shallow, high-grade West Mandilla palaeochannel deposit. At East Mandilla, bedrock mineralisation, located 20 - 40m below surface hosts an estimated Inferred Resource of 357,000 tonnes @ 3.3g/t Au for a contained total of 38,000oz Au. The gold

mineralisation is associated with a number of very shallow south dipping lodes. In light of the current gold price, the company has examined the potential for additional resources in the project area.

A number of gold intersections in rotary air blast (RAB) and aircore (AC) drill holes previously completed by Anglo Australian contain anomalous gold zones open along strike and down dip. Three drill target areas south east from Mandilla East Gold resource require further evaluation. All these targets lie on or proximal to parallel North West trending regional structures near or on the contact between felsic volcanoclastic sedimentary rocks and demagnetised granitoid rocks.

Transported cover has masked any geochemical response in the surface soil sampling. Relatively shallow (< 55 metres) aircore drilling at a spacing of 400 x 40 metre centres returned a number of gold intersections at the bottom of holes. All holes terminated at blade refusal near the base of oxidation. Six RC drill holes and 22 rotary airblast or aircore holes are planned to test the three prospective areas at Mandilla Southeast.

At West Mandilla, the target area is defined by a 700 metre long soil anomaly defined by a > 20ppb gold contour. Within the >20 ppb gold contour there are four discrete bullseye soil highs defined by a >50 ppb contour. A traverse of RC holes, drilled across the central part of the soil anomaly, did not target the peak soil values and intersected only low grade gold mineralisation with a best value of 2 metres at 1.45 g/t Au from 63 metres depth downhole. The zone, open to the northwest and southeast, lies within the northwest-southeast striking regional fault corridor. A RAB drilling program consisting of at least three lines of holes is planned to test the peak results within the soil anomaly.

Drilling is planned to commence mid October 2013.

All drill core from historical diamond core drilling at Mandilla was removed to the DMP core library at Kalgoorlie in June.

### Attribution

Information in this Report relating to geological data has been compiled by David Otterman who is an independent consultant from DW Otterman Exploration Consultant.

David Otterman:

- is a consultant to Anglo Australian Resources NL;
- has relevant experience in relation to the mineralisation being reported on as to qualify as a Competent Person as defined by the *Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code 2004 Edition)*;
- is a Fellow of the Australasian Institute of Mining and Metallurgy (CP Geo) and is a Member of the Australian Institute of Geoscientists and has had more than thirty years experience in the field of activity reported herein; and
- has consented in writing to the inclusion of this data.

## DIRECTORS' REPORT

The Directors present their report together with the financial report of Anglo Australian Resources NL ("the Company") for the year ended 30 June 2013 and the auditors' report thereon.

### 1. DIRECTORS

The Directors of the Company at any time during or since the end of the financial year are:

**Name, qualifications and Independence status      Experience, special responsibilities and other directorships**

John Load Cecil Jones – *Experience and expertise*  
Executive Chairman      Mr Jones has been a director of the Company since February 1990, is a Kalgoorlie pastoralist and businessman formerly associated with North Kalgurli Mines NL and was a founding director of Jones Mining Limited. Mr Jones is a Non-Executive Director of Troy Resources NL.

Angus Claymore Pilmer – *Experience and expertise*  
Non - Executive Director      Mr Pilmer has been a director of the Company since December 1985 and was engaged in public practice as a chartered accountant from 1971 until 1992 in Perth, Western Australia and Hong Kong. He is experienced in corporate management and financial control.

Peter Andrew Stern – *Experience and expertise*  
Non-Executive Director, appointed 28 November 2011      Mr Stern is a graduate of Monash University with a Bachelor of Science (geology major). Mr Stern's career has been in corporate advisory, spending six years with Macquarie Bank and three years with both UBS and Deutsche Bank. In 2000, Mr Stern established Metropolis Pty Ltd, a corporate advisory firm specializing in M&A and capital raisings. Mr Stern is a Fellow of the Australian Institute of Company Directors.

### 2. COMPANY SECRETARY

Mr Graeme Smith is a finance professional with over 25 years' experience in accounting and company administration. He graduated from Macquarie University with a Bachelor of Economics degree and has since received a Master of Business Administration and a Master of Commercial Law. He is a Fellow of both the Australian Society of Certified Practising Accountants and the Chartered Institute of Secretaries and Administrators.

Mr Smith has held CFO and Company Secretary positions with other Australian mining and mining service companies. Mr Smith is a director of Rubianna Resources Limited and a former director of Genesis Minerals Limited and Buxton Resources Limited within the last 3 years.

### 3. DIRECTORS' MEETINGS

The number of directors' meetings held and number of meetings attended by each of the directors of the Company during the financial year were:

| Director     | Number Held | Number Attended |
|--------------|-------------|-----------------|
| John Jones   | 4           | 4               |
| Angus Pilmer | 4           | 4               |
| Peter Stern  | 4           | 4               |

#### 4. REMUNERATION REPORT - AUDITED

##### 4.1 Principles of compensation

For the purpose of this report Key Management Personnel (“KMP”) are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company, directly or indirectly.

Based on this definition, the officers listed under Key Management Personnel below will be included in the report. The report will also provide an explanation of the Company’s remuneration policy and structure, details of remuneration paid to Key Management, (including directors), an analysis of the relationship between company performance and executive remuneration payments, and the key terms of executive employment contracts.

##### 2013 Key Management Personnel:

|                       |                        |
|-----------------------|------------------------|
| John Load Cecil Jones | Executive Chairman     |
| Peter Stern           | Non-Executive Director |
| Angus Pilmer          | Non-Executive Director |

##### Fixed Remuneration

Fixed remuneration – Fixed remuneration consists of base remuneration and statutory superannuation entitlements. Remuneration levels are set by the Board based on individual performance and the performance of the Company.

##### Performance Linked Remuneration

Due to the nature of the Company’s operations, i.e., mineral exploration, Directors and Executive remuneration do not include performance-based incentives.

##### Options

The Board annually assesses the granting of any options to employees and executive directors based on performance and according to the prevailing industry and market practices. No options were granted during the year.

##### Non-executive Directors

Total remuneration for all non-executive directors during the year was \$180,244 which included options valued at \$114,844. The balance of \$65,400 represents fees due, however, to date, these fees have not been paid by the Company. The maximum shareholder approved remuneration is \$200,000 per annum. Directors’ fees cover all Board activities.

##### Relationship between Company performance and remuneration

The objective of the Company’s remuneration structure is to reward and incentivize the directors and executives so as to ensure alignment with the interests of shareholders. The remuneration structure also seeks to reward directors and executives for their contribution in a manner that is appropriate for a company at this stage of its development. As outlined elsewhere in this Report, the remuneration structure incorporates fixed component and options.

The key drivers of value for the Company: the acquisition and progression of exploration properties to the point of commercial development or realization.

The only relevant financial measure at this point in the Company’s development is share price for which history is presented below:

|                                |       |       |       |       |       |       |
|--------------------------------|-------|-------|-------|-------|-------|-------|
|                                | 2013  | 2012  | 2011  | 2010  | 2009  | 2008  |
| Closing share price at 30 June | 0.003 | 0.006 | 0.015 | 0.043 | 0.026 | 0.035 |

#### 4.1 Principles of compensation (cont.)

##### Use of Remuneration Consultants

The Company did not employ the services of remuneration consultants during the financial year ended 30 June 2013.

##### Voting and Comments Made at the Company's 2012 Annual General Meeting

The Company received approximately 94% of "yes" votes on its remuneration report for the 2012 financial year. The Company did not receive any specific feedback at the AGM on its remuneration practices.

#### 4.2 Key management personnel remuneration

The following table discloses the remuneration of the key management personnel of Anglo Australian Resources NL. At the date of this report, directors had deferred receipt of their directors' fees for the 2013 year.

The key management personnel of Anglo Australian Resources NL includes the directors and the following executive officers:

|   | Short-Term     |                   | Post Employment | Share Based Payments | Total          |
|---|----------------|-------------------|-----------------|----------------------|----------------|
|   | Salary & Fees  | Non-Cash Benefits | Superannuation  | Options              |                |
| <b>2013</b>   | \$             | \$                | \$              | \$                   | \$             |
| <b>Directors</b>  |                |                   |                 |                      |                |
| J L C Jones   | 30,000         | -                 | 2,700           | 64,900               | 97,600         |
| A C Pilmer  | 15,000         | -                 | 1,350           | 24,972               | 41,322         |
| P A Stern   | 15,000         | -                 | 1,350           | 24,972               | 41,322         |
| <b>Total</b>  | <b>60,000</b>  | <b>-</b>          | <b>5,400</b>    | <b>114,844</b>       | <b>180,244</b> |
| <b>2012</b>   | \$             | \$                | \$              | \$                   | \$             |
| <b>Directors</b>  |                |                   |                 |                      |                |
| J L C Jones   | 17,917         | -                 | 1,613           | -                    | 19,530         |
| A C Pilmer  | 15,000         | -                 | 1,350           | -                    | 16,350         |
| P A Stern   | 8,750          | -                 | 788             | -                    | 9,538          |
| C H Fyson (resigned 29/11/11)                                 | 8,333          | -                 | 750             | -                    | 9,083          |
| D E Clarke (resigned 29/11/11)                                | 6,250          | -                 | 563             | -                    | 6,813          |
| <b>Total</b>  | <b>56,250</b>  | <b>-</b>          | <b>5,064</b>    | <b>-</b>             | <b>61,314</b>  |

63 Hay Street  
Subiaco WA 6005

Dear Sirs

In accordance with Section 307C of the Corporations Act 2001 (the "Act") I hereby declare that to the best of my knowledge and belief there have been:

- i) no contraventions of the auditor independence requirements of the Act in relation to the audit of the 30 June 2013 financial statements; and
- ii) no contraventions of any applicable code of professional conduct in relation to the audit.

Graham R Swan (Lead auditor)

Rothsay

Dated 30 September 2013

## **CORPORATE GOVERNANCE STATEMENT**

### ***The Board of Directors***

The constitution of Anglo Australian Resources NL (ASX: AAR or the Company) provides that the number of Directors shall not be less than three (3) and not more than nine (9). There is no requirement for any shareholding qualification.

As and if the Company's activities increase in size, nature and scope the size of the Board will be reviewed periodically, and as circumstances demand. The optimum number of Directors required to supervise adequately the Company's constitution will be determined within the limitations imposed by the constitution.

The membership of the Board, its activities and composition, is subject to periodic review. The criteria for determining the identification and appointment of a suitable candidate for the Board shall include quality of the individual, background of experience and achievement, compatibility with other Board members, credibility within the Company's scope of activities, intellectual ability to contribute to Board's duties and physical ability to undertake Board's duties and responsibilities.

Directors are initially appointed by the full Board subject to election by shareholders at the next general meeting. Under the Company's constitution the tenure of a Director (other than Managing Director, and only one Managing Director where the position is jointly held) is subject to reappointment by shareholders not later than the third anniversary following his or her last appointment. Subject to the requirements of the Corporations Act 2001, the Board does not subscribe to the principle of retirement age and there is no maximum period of service as a Director. A Managing Director may be appointed for any period and on any terms the Directors think fit and, subject to the terms of any agreement entered into, may revoke any appointment.

The Board considers that the Company is not currently of a size, nor are its affairs of such complexity to justify the formation of separate or special committees at this time. The Board as a whole is able to address the governance aspects of the full scope of the Company's activities and to ensure that it adheres to appropriate ethical standards.

### ***Role of the Board***

The Board's primary role is the protection and enhancement of long-term shareholder value.

To fulfil this role, the Board is responsible for oversight of management and the overall Corporate Governance of the Company including its strategic direction, establishing goals for management and monitoring the achievement of these goals.

### ***Appointments to Other Boards***

Directors are required to take into consideration any potential conflicts of interest when accepting appointments to other Boards.

### ***Independent Professional Advice***

The Board has determined that individual Directors have the right in connection with their duties and responsibilities as Directors, to seek independent professional advice at the Company's expense. With the exception of expenses for legal advice in relation to Director's rights and duties, the engagement of an outside adviser is subject to prior approval of the Chair and this will not be withheld unreasonably.

### ***Continuous Review of Corporate Governance***

Directors consider, on an ongoing basis, how management information is presented to them and whether such information is sufficient to enable them to discharge their duties as Directors of the Company. Such information must be sufficient to enable the Directors to determine appropriate operating and financial strategies from time to time in light of changing circumstances and economic conditions. The Directors recognise that mining exploration is an inherently risky business and that operational strategies adopted should, notwithstanding, be directed towards improving or maintaining the net worth of the Company.

### ***ASX Principles of Good Corporate Governance***

To the extent that they are relevant to the organisation, the Company has adopted the Eight Corporate Governance Principles and Recommendations as published by the ASX Corporate Governance Council.

As the Company's activities develop in size, nature and scope, the size of the Board and the implementation of any additional formal Corporate Governance Committees will be given further consideration.

The following table sets out the Company's present position in relation to each of the Principles.

|  | <b>ASX Principle</b>   | <b>Status</b> | <b>Reference/comment</b>   |
|--|--|---------------|--|
| <b>Principle 1: Lay solid foundations for management and oversight</b> |  |               |  |
| 1.1  | Companies should establish the functions reserved to the board and those delegated to senior executives and disclose those functions   | <b>A</b>      | Matters reserved for the Board are included on the Company website in the Corporate Governance Section.  |
| 1.2  | Companies should disclose the process for evaluating the performance of senior executives  | <b>N/A</b>    | At the time of adoption of the Corporate Governance Principles and Recommendations the Company did not employ any full time senior executives  |
| 1.3  | Companies should provide the information indicated in the Guide to reporting on Principle 1  | <b>A</b>      | Matters reserved for the Board can be viewed on the Company website.   |
| <b>Principle 2: Structure the board to add value</b>                   |  |               |  |
| 2.1  | A majority of the board should be independent directors  | <b>A</b>      | Only one director is classified as non-independent   |
| 2.2  | The chair should be an independent director  | <b>A</b>      |  |
| 2.3  | The roles of chair and chief executive officer should not be exercised by the same individual  | <b>N/A</b>    | The Company does not have a CEO or equivalent  |
| 2.4  | The board should establish a nomination committee  | <b>A</b>      | The full Board carries out the duties of the Nomination Committee. Acting in its ordinary capacity from time to time as required, the Board carries out the process of determining the need for screening and appointing new Directors.<br>In view of the size and resources available to the Company it is not considered that a separate Nomination Committee would add any substance to this process.   |
| 2.5  | Companies should disclose the process for evaluating the performance of the board, its committees and individual directors   | <b>A</b>      | Disclosed under the Nomination Committee Charter which is available on the Company's website.  |
| 2.6  | Companies should provide the information indicated in the Guide to reporting on Principle 2  | <b>A</b>      | The skills and experience of the Directors and their period of office are set out in the Company's Annual Report (Directors' Report) and on the Company's website.<br>Independency is assessed following completion of a Directors' Independency Questionnaire which is updated annually by each Director.<br>The independency status is disclosed annually in the Annual Report (Directors Report section) and on the Company's website (Company's Management – Directors Biographies). |
| <b>Principle 3: Promote ethical and responsible decision-making</b>    |  |               |  |
| 3.1  | Companies should establish a code of conduct and disclose the code   | <b>A</b>      | The Company has established a Code of Conduct which can be viewed on its website.  |
| 3.2  | Companies should establish a policy concerning diversity and disclose the policy or a summary of that policy. The policy should include requirements for the Board to establish measurable objectives for achieving gender diversity and for the Board to assess annually both the objectives and progress in achieving them | <b>A</b>      | The Company has adopted a diversity policy which can be viewed on its website.   |
| <p><i>A = Adopted</i><br/> <i>N/A = Not adopted</i></p>                |  |               |  |

|  | <b>ASX Principle</b>  | <b>Status</b> | <b>Reference/comment</b>   |
|--|---|---------------|--|
| 3.3  | Companies should disclose in each annual report the measurable objectives for achieving gender diversity set by the Board in accordance with the diversity policy and progress towards achieving them   | N/A           | The Company has adopted a diversity policy which can be viewed on its website.<br>The Company recognises that a diverse and talented workforce is a competitive advantage and encourages a culture that embraces diversity.<br>However, the policy does not include requirements for the Board to establish measurable objectives for achieving gender diversity. Given the Company's size and stage of development as an exploration company, the Board does not think it is yet appropriate to include measurable objectives in relation to gender.<br>As the Company grows and requires more employees, the Company will review this policy and amend as appropriate. |
| 3.4  | Companies should disclose in each annual report the proportion of women employees in the whole organisation, women in senior executive positions and women on the board.  | A             | The proportion of women employees in the whole organisation is 0%. There are currently no women in Senior Executive positions. There are currently no women on the Board.  |
| 3.5  | Companies should provide the information indicated in the Guide to reporting on Principle 3   | A             |  |
| <b>Principle 4: Safeguard integrity in financial reporting</b> |   |               |  |
| 4.1  | The board should establish an audit committee   | A             | The full board carries out the duties of the Audit Committee.  |
| 4.2  | The audit committee should be structured so that it:  |               |  |
|  | • consists only of non-executive directors  | A             |  |
|  | • consists of a majority of independent directors   | A             |  |
|  | • is chaired by an independent chair, who is not chair of the board   | A             |  |
|  | • has at least three members  | A             |  |
| 4.3  | The audit committee should have a formal charter  | A             | The Audit Committee Charter is available on the Company's website.   |
| 4.4  | Companies should provide the information indicated in the Guide to reporting on Principle 4   | A             |  |
| <b>Principle 5: Make timely and balanced disclosure</b>        |   |               |  |
| 5.1  | Companies should establish written policies designed to ensure compliance with ASX Listing Rule disclosure requirements and to ensure accountability at a senior executive level for that compliance and disclose those policies or a summary of those policies | A             | Directors must obtain the approval of the Chair of the Board and notify the Company Secretary before they buy or sell shares in the Company, and it is subject to Board veto.<br><br>Directors must provide the information required by the Company to ensure Compliance with Listing Rule 3.19A.  |
| 5.2  | Companies should provide the information indicated in the Guide to reporting on Principle 5   | A             | The Board receives monthly reports on the status of the Company's activities and any new proposed activities.<br>Disclosure is reviewed as a routine agenda item at each Board Meeting.<br>The Company's Continuous Disclosure Policy is available on the Company's website.   |

A = Adopted  
N/A = Not adopted

|  | ASX Principle  | Status | Reference/comment  |
|--|--|--------|--|
| <b>Principle 6: Respect the rights of shareholders</b> |  |        |  |
| 6.1  | Companies should design a communications policy for promoting effective communication with shareholders and encouraging their participation at general meetings and disclose their policy or a summary of that policy  | A      | In line with adherence to continuous disclosure requirements of the ASX all shareholders are kept informed of major developments affecting the Company<br>This disclosure is through regular shareholder communications including the Annual Report, Quarterly Reports, the Company website and the distributions of specific releases covering major transactions and events. |
| 6.2  | Companies should provide the information indicated in the Guide to reporting on Principle 6  | A      | The Company has formulated a Communication Policy which is included in its Corporate Governance Statement on the Company Website.  |
| <b>Principle 7: Recognise and manage risk</b>          |  |        |  |
| 7.1  | Companies should establish policies for the oversight and management of material business risks and disclose a summary of those policies   | A      | The Company has formulated a Risk Management Charter which is included in its Corporate Governance Statement on the Company Website.   |
| 7.2  | The board should require management to design and implement the risk management and internal control system to manage the company's material business risks and report to it on whether those risks are being managed effectively. The board should disclose that management has reported to it as to the effectiveness of the company's management of its material business risks   | A      |  |
| 7.3  | The board should disclose whether it has received assurance from the chief executive officer (or equivalent) and the chief financial officer (or equivalent) that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks | A      | Assurances received from Chief Executive Officer (or equivalent) and the Chief Financial Officer (or equivalent) each year.  |
| 7.4  | Companies should provide the information indicated in the Guide to reporting on Principle 7  | A      |  |
| <b>Principle 8: Remunerate fairly and responsibly</b>  |  |        |  |
| 8.1  | The board should establish a remuneration committee  | A      | The Remuneration Committee is comprised of the full Board.   |
| 8.2  | The remuneration committee should be structured so that it:  |        |  |
|  | • consists of a majority of independent directors  | A      |  |
|  | • is chaired by an independent chair   | A      |  |
|  | • has at least three members.  | NA     | Only 2 directors are classified as independent   |
| 8.3  | Companies should clearly distinguish the structure of non-executive directors' remuneration from that of executive directors and senior executives   | A      | The Remuneration Committee Charter includes guidelines for the structure of Non-executive Directors' remuneration and that of Executive Directors and Senior Executives.   |
| 8.4  | Companies should provide the information indicated in the Guide to reporting on Principle 8  | A      | The Executive Directors and Executives receive a superannuation guarantee contribution required by the government, which is currently 9%, and do not receive any other retirement benefits.  |

The above Statement of Cash Flows is to be read in conjunction with the accompanying notes.

**NOTES TO THE FINANCIAL STATEMENTS****For the Year Ended 30 June 2013****1. REPORTING ENTITY**

Anglo Australian Resources NL (the "Company") is a for profit company domiciled in Australia. The address of the Company's registered office is Ground Floor, 63 Hay Street, Subiaco, Western Australia. The Company is involved in the exploration of mineral tenements.

**2. BASIS OF PREPARATION****(a) Statement of compliance**

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards (AASBs) adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The financial report also complies with International Financial Reporting Standards (IFRSs) adopted by the International Accounting Standards Board (IASB).

The financial reports were approved by the Board of Directors on 27 September 2013.

**(b) Basis of measurement**

The financial reports have been prepared on the historical cost basis, except for share based payments measured at fair value.

**(c) Functional and presentation currency**

These financial reports are presented in Australian dollars, which is the Company's functional currency.

**(d) Use of estimates and judgements**

The preparation of financial reports in conformity with AASBs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions in accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

In preparing this financial report, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty are as follows.

*(i) Mine Rehabilitation Provision*

The Company assesses its mine rehabilitation provision half-yearly. Significant judgement is required in determining the provision for mine rehabilitation as there are many transactions and other factors that will affect the ultimate liability payable to rehabilitate the mine site. Factors that will affect this liability include future development, changes in technology, price increases and changes in interest rates. When these factors change or become known in the future, such differences will impact the mine rehabilitation provision in the period in which they change or become known.

*(ii) Measurement of Share Based Payments*

The fair value of services received in return for options granted is based on the fair value of options granted, measured using a Black Scholes model incorporating volatilities in share price.

*(iii) Impairment of exploration and evaluation assets*

The ultimate recoupment of the value of exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale, of the underlying mineral exploration properties. The Company undertakes at least on an annual basis, a comprehensive review for indicators of impairment of these assets. There is significant estimation and judgement in determining the inputs and assumptions used in determining the recoverable amounts.

The key areas of estimation and judgement that are considered in this include:

- recent drilling results and reserves
- environmental issues that may impact the underlying tenements
- the estimated market value of assets at the review date
- independent valuations of underlying assets that may be available
- fundamental economic factors such as gold price, exchange rates and current and anticipated operating costs in the industry
- the Company's market capitalisation compared to its net assets

Information used in the review process is rigorously tested to externally available information as appropriate.

*(iv) Going concern*

A key assumption underlying the preparation of the financial statements is that the Company will continue as a going concern.

A Company is a going concern when it is considered to be able to pay its debts as and when they are due, and to continue in operation without any intention or necessity to liquidate or otherwise wind up its operations. A significant amount of judgment has been required in assessing whether the entity is a going concern as set out in Note 3.

### 3. GOING CONCERN

The financial report has been prepared on the going concern basis that contemplates the continuity of normal business activities and the realisation and extinguishment of liabilities in the ordinary course of business. For the year ended 30 June 2013 the Company incurred a loss of \$1,304,149 (2012: \$7,305,463).

The Company had net cash outflows from operations of \$541,459 (2012: \$564,885), net cash outflows from investing of \$377,006 (2012: \$604,410) and a net working capital deficit of \$378,216 (2012: \$281,285).

The Company is undertaking capital raisings in August & September 2013 to continue the evaluation of its current projects and to provide interim working capital.

The Company will require further funding in order to meet day-to-day obligations as they fall due and to progress its exploration and evaluation projects as budgeted. The Company has a history of successful capital raisings to fund exploration. The Board of Directors is aware, having prepared a cash flow budget, of the Company's working capital requirements and the need to access additional funding. As at the date of signing this financial report, the Company's cash balance totalled approximately \$375,000, necessitating a new capital raising within the next 12 months. The ability of the Company to continue funding its exploration activities is dependent on the Company securing further working capital by the issue of additional equity. The Directors are currently reviewing the Company's funding needs with the intention to raise further equity; however no firm commitments exist at this time.

The Board of Directors have reviewed the business outlook and is of the opinion that the use of the going concern basis of accounting is appropriate as they believe the Company will achieve the matters set out above. Should the Company be unsuccessful in raising equity, there is material uncertainty which may cast significant doubt as to whether the Company will continue as a going concern and therefore, whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

### 4. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

#### (a) Property, Plant and Equipment

*(i) Recognition and measurement*

Items of property, plant and equipment are measured at cost less accumulated depreciation and amortisation (see below), and impairment losses (see accounting policy e).

Cost includes expenditures that are directly attributable to the acquisition of the asset. Where parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

Mine property assets include costs transferred from exploration and evaluation assets, once technical feasibility and commercial viability of an area of interest are demonstrable, and subsequent costs, including deferred stripping costs, to develop the mine to the production phase. Mine property assets are recognised as intangible assets.

*(ii) Subsequent costs*

The Company recognises in the carrying amount of an item of property, plant and equipment the cost of replacing part of such an item when that cost is incurred if it is probable that the future economic benefits embodied within the item will flow to the entity and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other costs are recognised in the statement of comprehensive income as an expense as incurred.

#### 4. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

##### *(iii) Depreciation*

With the exception of mine property, depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment.

Depreciation rates and methods and any residual values are reviewed annually for appropriateness. When changes are made, adjustments are reflected prospectively in current and future periods only. Depreciation is charged to the statement of comprehensive income.

##### **(b) Exploration and Evaluation Expenditure**

Exploration and evaluation costs, including the costs of acquiring licences and directors and management's time are capitalised as exploration and evaluation assets on an area of interest basis. The entity subcontracts equipment on an as required basis and as a result all exploration and evaluation costs incurred are of an intangible nature. Costs incurred before the Company has obtained the legal rights to explore an area are recognised in the income statement.

Exploration and evaluation assets are only recognised if the rights of the area of interest are current and either:

- (i) the expenditures are expected to be recouped through successful development and exploitation of the area of interest; or
- (ii) activities in the area of interest have not at the reporting date, reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active and significant operations in, or in relation to, the area of interest are continuing.

Exploration and evaluation assets are assessed for impairment if (i) sufficient data exists to determine technical feasibility and commercial viability, and (ii) facts and circumstances suggest that the carrying amount exceeds the recoverable amount (see impairment accounting policy e). For the purposes of impairment testing, exploration and evaluation assets are allocated to cash-generating units to which the exploration activity relates. The cash generating unit is never larger than the area of interest.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment. Intangible assets are reclassified to mining property assets within property, plant and equipment.

##### **(c) Cash and Cash Equivalents**

Cash and cash equivalents comprise cash balances, short term bills and call deposits.

##### **(d) Other Receivables**

Other receivables are subsequently measured at their amortised cost less impairment losses (see accounting policy e).

##### **(e) Impairment**

##### *(i) Financial assets*

A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate.

#### 4. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

All impairment losses are recognised in profit or loss.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. For financial assets measured at amortised cost, the reversal is recognised in profit or loss.

##### (ii) *Non-financial assets*

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit"). Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the other assets in the unit (group of units) on a *pro rata* basis.

The recoverable amount has been assessed by directors based on the market of capitalisation of the company.

In respect of assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

##### (f) **Share Capital**

###### Transaction costs

Qualifying transaction costs of an equity transaction, which are incremental and directly attributable to the issue of ordinary shares, are accounted for as a deduction from equity, net of any related income tax benefit.

##### (g) **Employee Benefits**

###### (i) *Wages, Salaries, Annual Leave and Sick Leave*

Liabilities for employee benefits for wages, salaries, annual leave and sick leave represent present obligations resulting from employees' services provided to reporting date, calculated at undiscounted amounts based on remuneration wage and salary rates that the consolidated entity expects to pay as at reporting date including related on-costs, such as workers compensation insurance and payroll tax. The Company has no leave liabilities at the date of this report, as the Company has no employees.

###### (ii) *Long Service Leave*

The provision for employee benefits to long service leave is the amount of future benefit that employees have earned in return for their services in the current and prior periods. The Company has no long service leave liabilities at the date of this report, as the company has no employees.

#### 4. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

The provision is calculated using expected future increases in wage and salary rates including related on-costs and expected settlement dates based on turnover history and is discounted using the rates attaching to Commonwealth government bonds at reporting date which most closely match the terms of maturity of the related liabilities.

*(iii) Defined Contribution Superannuation Funds*

The Company contributes to a defined contribution plan. Contributions are recognised as an expense in the statement of comprehensive income as incurred.

*(iv) Share-based payment transactions*

The grant date fair value of options granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period in which the employees become unconditionally entitled to options. The amount recognised is adjusted to reflect the actual number of share options that vest, except for those that fail to vest due to market conditions not being met. The fair value is measured using the Black Scholes model, taking into account the terms and conditions upon which the options are granted.

#### **(h) Provisions**

A provision is recognised in the balance sheet when the Company has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, when appropriate, the risks specific to the liability.

*(i) Restoration*

Provisions are made for estimated costs relating to the remediation of soil, groundwater and untreated waste when the disturbance or contamination occurs.

#### **(i) Trade and Other Payables**

Trade and other payables are measured at their amortised cost. Trade payables are non-interest bearing and are normally settled on 60-day terms.

#### **(j) Finance income**

Finance income comprises interest income on funds invested. Interest income is recognised as it accrues, using the effective interest method.

#### **(k) Taxation**

Income tax on the statement of comprehensive income for the periods presented comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: the initial recognition of assets or liabilities that affect neither accounting nor taxable profit. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset if income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**4. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

**(l) Goods and Services Tax (GST)**

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Tax Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the balance sheet.

Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the ATO are classified as operating cash flows.

**(m) Earnings Per Share**

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

Diluted EPS is determined by adjusting the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which comprise share options granted to employees.

**(n) Determination and presentation of operating segments**

The Company determines and presents operating segments based on the information that internally is provided to the Directors, who is the Company's chief operating decision maker.

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses. An operating segment's operating results are reviewed regularly by the Directors to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

For management purposes the Company is organised into one operating segment, which involves exploration throughout Australia. The Company's principal activities are interrelated, and the Company has no revenue from operations. Furthermore the Company has no assets or liabilities arising from operations based outside of Australia.

Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment, and intangible assets other than goodwill.

**(o) New standards and Interpretations not yet adopted**

A number of new standards, amendments to standards and interpretations are effective for annual reporting periods beginning after 1 July 2011, and have not been applied in preparing these financial statements. None of these is expected to have a significant effect on the financial statements of the Company, except for AASB 9 *Financial Instruments*, which becomes mandatory for the Company's 2016 financial statements and could change the classification and measurement of financial assets. The Company does not plan to adopt this standard early and the extent of the impact has not been determined.

## 5. DETERMINATION OF FAIR VALUES

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

### Other receivables

The fair value of other receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

## 6. FINANCIAL RISK MANAGEMENT

### Overview

The Company has exposure to the following risks from their use of financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Company's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital. Further quantitative disclosures are included throughout this financial report.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. Management monitors and manages the financial risks relating to the operations of the company through regular reviews of the risks.

### Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables.

### Other receivables

The Company has established an allowance for impairment that represents their estimate of incurred losses in respect of other receivables. The management does not expect any counterparty to fail to meet its obligations. Presently, the Company undertakes exploration and evaluation activities exclusively in Australia. At the balance sheet date there were no significant concentrations of credit risk.

### Cash

The Company limits its exposure to credit risk by only investing in deposit instruments of major Australian banking institutions.

### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company manages liquidity risk by maintaining adequate reserves by continuously monitoring forecast and actual cash flows.

Typically the Company ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. The Directors acknowledge that due to a delay in raising capital as at 30 June 2013 the policy of having significant funds on hand will not be met until receipt of equity funds of in September 2013.

### Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, commodity prices and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

### Currency risk

The Company is at present not exposed to currency risk as it has no operations, investments or payments due in any currency other than those denominated in the Company's functional currency, Australian dollar (AUD).

**6. FINANCIAL RISK MANAGEMENT (cont.)**

**Interest rate risk**

The Company is exposed to interest rate risk on cash balances.

The Company adopts a policy of placing all of its cash not required for immediate cash flow in its operations in a high interest bearing cash management accounts exposed to variable interest rates.

**Capital Management**

Management controls the capital of the Company in order to ensure that it can fund its operations and continue as a going concern in conjunction with the continual assessment as to the underlying market value of its exploration and development projects. The Company has no external debt other than disclosed in the financial statements and there are no externally imposed capital requirements.

Management effectively manages the Company's capital by assessing its financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include share issues. There have been no changes in the strategy adopted by management since the prior year.

**9. EXPLORATION AND EVALUATION ASSETS**

|  |                  |                  |
|--|------------------|------------------|
| Deferred exploration and evaluation assets |                  |                  |
| Balance at 1 July                          | 5,250,000        | 11,508,307       |
| Add:                                       |                  |                  |
| Expenditure during the year                | 467,854          | 409,818          |
| Amounts impaired during the year           | (717,854)        | (6,668,125)      |
| Balance at 30 June                         | <u>5,000,000</u> | <u>5,250,000</u> |

The ultimate recoupment of such expenditure is dependent upon successful development and commercial exploitation, or alternatively sale of the respective areas.

At the end of the year, the Board assessed the carrying value of the Company's exploration and evaluation assets for impairment. It was believed that the carrying value of ~\$5.25 million exceeded the recoverable amount. The recoverable amount has been calculated based on director's assessment of the value of each area of interest. This resulted in an impairment of \$0.7 million to the exploration asset.

The Company's exploration properties may be subjected to claim(s) under native title, or contain sacred sites, or sites of significance to Aboriginal people. As a result, exploration properties or areas within the tenements may be subject to exploration restrictions, mining restrictions and/or claims for compensation. At this time it is not possible to determine whether such claims exist or the quantum of such claims, if any.

**10. TRADE AND OTHER PAYABLES**

|   | <b>2013</b>    | <b>2012</b>    |
|---|----------------|----------------|
|   | \$             | \$             |
| <b>Current</b>                                |                |                |
| Trade payables and accrued operating expenses | <u>345,650</u> | <u>309,579</u> |

## 11. BORROWINGS

### Current

|      |               |          |
|------|---------------|----------|
| Loan | 73,055        | -        |
|      | <u>73,055</u> | <u>-</u> |

The loan was from director Mr John Jones and was originally for \$100,000. \$30,000 was re-paid during the year. The loan is unsecured with interest charged at 6.5% per annum. No interest has been paid during the year, it has been capitalised.

## 12. REHABILITATION PROVISION

A provision has been made to cover costs of rehabilitating the Company's West Mandilla mine. The rehabilitation work is expected to be completed during the 2013 financial year.

| Placement – 23 December 2011            | \$0.012     | -                  | 16,666,667         |
| Placement – 14 March 2012               | \$0.012     | -                  | 8,333,333          |
| At the end of the year                  |             | <u>800,818,001</u> | <u>667,768,000</u> |

The Company does not have authorised capital or par value in respect of its issued shares.

## 14. RESERVES AND ACCUMULATED LOSSES

### (a) Reserves

#### Share-based payments reserve

|  |                |   |
|--|----------------|---|
| Balance at beginning of financial year | -              | - |
| Option expense                         | <u>114,844</u> | - |
| Balance at end of financial year       | <u>114,844</u> | - |

### (b) Accumulated losses

|  |                     |              |
|--|---------------------|--------------|
| Balance at beginning of financial year | <u>(21,389,841)</u> | (14,084,378) |
| Net loss for the year                  | <u>(1,304,149)</u>  | (7,305,463)  |
| Balance at end of financial year       | <u>(22,693,991)</u> | (21,389,841) |

### (c) Nature and purpose of reserves

The share-based payments reserve is used to recognise the fair value of options issued.

## 15. SHARE BASED PAYMENTS

### Unlisted Options

Options over ordinary shares of the Company have been issued for nil consideration. The options cannot be transferred and will not be quoted on the ASX. Therefore no voting rights are attached to the options unless converted into ordinary shares. All options are granted at the discretion of the directors.

The terms and conditions of the grants are as follows:

| Grant date        | Vesting date      | Number of instruments | Vesting conditions | Contractual life of options |
|-------------------|-------------------|-----------------------|--------------------|-----------------------------|
| 31 July 2012      | 31 July 2012      | 19,000,000            | Immediately        | 3 years                     |
| 14 September 2012 | 14 September 2012 | 20,566,669            | Immediately        | 3 years                     |
| 17 September 2012 | 17 September 2012 | 2,333,334             | Immediately        | 3 years                     |
| 27 November 2012  | 27 November 2012  | 36,000,000            | Immediately        | 3 years                     |
| 24 May 2013       | 24 May 2013       | 21,500,000            | Immediately        | 2 years                     |

The number and weighted average exercise prices of share options are as follows:

|                           | Weighted average exercise price 2013 | Number of options 2013 | Weighted average exercise price 2012 | Number of options 2012 |
|---------------------------|--------------------------------------|------------------------|--------------------------------------|------------------------|
| Outstanding at 1 July     |                                      |                        | 3 cents                              | 3,000,000              |
| Forfeited during period   |                                      |                        | 3 cents                              | (3,000,000)            |
| Exercised during period   | \$0.008                              | (6,250,000)            | -                                    | -                      |
| Granted during the period | \$0.01                               | 99,400,003             | -                                    | -                      |
| Outstanding at 30 June    | \$0.01                               | 93,150,003             | -                                    | -                      |
| Exercisable at 30 June    | \$0.01                               | 93,150,003             | -                                    | -                      |

The value of options is recognised as employee expenses immediately on grant date.

## 16. TAXATION

|   | 2013<br>\$  | 2012<br>\$  |
|---|-------------|-------------|
| Current tax expense   | -           | -           |
| Deferred tax expense  | -           | -           |
| a) Numerical reconciliation between tax expense and pre-tax accounting loss |             |             |
| Loss before tax   | (1,304,149) | (7,305,463) |
| Income tax using the corporate tax rate of 30% (2012: 30%)                  | (391,245)   | (2,191,639) |
| Temporary differences relating to impairment                                | 215,356     | 2,000,438   |
| Current year losses for which no deferred tax asset was recognised          | 175,889     | 191,201     |
| Income tax expense  | -           | -           |
| b) Unrecognised Deferred Tax Assets   |             |             |
| Tax losses  | 5,359,878   | 5,359,878   |

The tax losses do not expire under current tax legislation. Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the consolidated entity can use the benefits.

**17. LOSS PER SHARE**

**(i) Basic loss per share**

| Accounting assistance                 | -           | -           |

**20. COMMITMENTS**

**Mineral Tenement Leases**

The Company has minimum expenditure obligations in pursuance of the terms and conditions of tenement licences in the forthcoming year of approximately \$1,073,704 (2012: \$881,915). The aforementioned expenditure obligations can be subject to variation to a lesser amount as a result of: reduction in tenement areas; relinquishment of tenements; and/or farm out of project areas to third party joint venture partners who assume responsibility for the expenditure obligations. These obligations are expected to be fulfilled in the normal course of operations of the Company. If the current status of the tenements is maintained, then for one year or later and not more than five years the total obligations are approximately \$4,294,816 (2012: \$3,527,660) and for later than five years the total obligations are nil (2012: \$Nil).

**Operating Leases**

Non-cancellable operating lease rentals are payable as follows:

|                            | <b>2013</b>    | <b>2012</b>    |
|----------------------------|----------------|----------------|
|                            | \$             | \$             |
| Less than one year         | 103,677        | 99,980         |
| Between one and five years | 152,370        | 146,897        |
| More than five years       | -              | -              |
|                            | <u>256,047</u> | <u>246,877</u> |

The Company leases business office premises under a non-cancellable operating lease, expiring in the 2015 financial year.

**21. FINANCIAL REPORTING BY SEGMENT**

The Company has identified its operating segments based on the internal reports that are reviewed by the Board in assessing performance and determining the allocation of resources. The Company has also had regard to the qualitative thresholds for the determination of operating segments.

For management purposes the Company is organised into one operating segment, which involves exploration throughout Australia. The Company's principal activities are interrelated, and the Company has no revenue from operations. Furthermore the Company has no assets or liabilities arising from operations based outside of Australia.

All significant operation decisions are based upon analysis of the Company as one segment. The financial results from this segment are equivalent to the financial statements of the Company as a whole.

The accounting policies applied for internal reporting purposes are consistent with those applied in preparation of the financial statements.

**22. FINANCIAL INSTRUMENTS**

**Credit risk**

The carrying amount of the Company's financial assets represents the maximum credit exposure. The Company's maximum exposure to credit risk at the balance sheet date was:

|                           |             | <b>Carrying amount</b> |                |
|---------------------------|-------------|------------------------|----------------|
|                           | <i>Note</i> | <b>2013</b>            | <b>2012</b>    |
|                           |             | \$                     | \$             |
| Other Receivables         | 7           | 281,215                | 260,176        |
| Cash and cash equivalents | 17(i)       | 2,622                  | 11,167         |
|                           |             | <u>283,837</u>         | <u>271,343</u> |

**22. FINANCIAL INSTRUMENTS (CONT.)**

None of the Company's other receivables are past due (2011: nil).

**Liquidity Risk**

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

| <i>30 June 2013</i><br><i>Non-derivative financial liabilities</i> | <b>Carrying amount</b> | <b>Contractual cash flows</b> | <b>6 mths or less</b> |
|--|------------------------|-------------------------------|-----------------------|
| Trade and other payables   | <b>345,649</b>         | <b>345,649</b>                | <b>345,649</b>        |

| <i>30 June 2012</i><br><i>Non-derivative financial liabilities</i> | <b>Carrying amount</b> | <b>Contractual cash flows</b> | <b>6 mths or less</b> |
|--|------------------------|-------------------------------|-----------------------|
| Trade and other payables   | <b>309,579</b>         | <b>309,579</b>                | <b>309,579</b>        |

**Currency risk**

The Company is not exposed to foreign currency risk.

**Interest rate risk**

At the reporting date the interest rate profile of the Company's interest bearing financial instruments was:

|                           | <b>Weighted average interest rate</b> | <b>Floating interest rate</b> | <b>Fixed interest rate more than a year</b> | <b>Total</b>   |
|---------------------------|---------------------------------------|-------------------------------|---|----------------|
|                           |                                       | <b>\$</b>                     | <b>\$</b>                                   | <b>\$</b>      |
| <b>2013</b>               |                                       |                               |   |                |
| <b>Financial Assets</b>   |                                       |                               |   |                |
| Cash and cash equivalents | <b>0.05%</b>                          | <b>2,622</b>                  | <b>-</b>                                    | <b>2,622</b>   |
| More than five years      | <b>3.54%</b>                          | <b>-</b>                      | <b>184,000</b>                              | <b>184,000</b> |
|                           |                                       |                               |   |                |
| <b>2012</b>               |                                       |                               |   |                |
| <b>Financial Assets</b>   |                                       |                               |   |                |
| Cash and cash equivalents | 0.10%                                 | 11,167                        | -   | 11,167         |
| More than five years      | 5.10%                                 | -                             | 184,000                                     | 184,000        |
|                           |                                       | 11,167                        | 184,000                                     | 195,167        |

**Fair values**

The fair values of financial assets and liabilities of the Company at the balance date approximate the carrying amounts in the financial statements, except where specifically stated.

**Fair value sensitivity analysis for fixed rate instruments**

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect profit or loss.

**Cash flow sensitivity analysis for variable rate instruments**

A change of 100 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables.

|                             | <b>Profit or loss</b> |                       | <b>Equity</b>         |                       |
|-----------------------------|-----------------------|-----------------------|-----------------------|-----------------------|
|                             | <b>100bp increase</b> | <b>100bp decrease</b> | <b>100bp increase</b> | <b>100bp decrease</b> |

## 22. FINANCIAL INSTRUMENTS (CONT.)

### Fair values

#### Fair values versus carrying amounts

The fair values of financial assets and liabilities are the same as the carrying value.

## 23. RELATED PARTIES

The following were key management personnel of the Company at any time during the reporting period and unless otherwise indicated were key management personnel for the entire period:

John Load Cecil Jones – Executive Chairman  
 Peter Stern - Non-executive director  
 Angus Claymore Pilmer - Non-executive director

### Key management personnel compensation

The key management personnel compensation included in ‘employee benefits’ and directors’ fees are as follows:

|                               | 2013           | 2012           |
|-------------------------------|----------------|----------------|
|                               | \$             | \$             |
| Short-term employee benefits* | 60,000         | 156,651        |
| Post-employment benefits      | 5,400          | 42,968         |
| Share based payment           | 114,844        | -              |
|                               | <u>180,244</u> | <u>199,619</u> |

\* This amount has not been paid.

Out of the total compensation, an amount of \$- (2012: \$137,429) was capitalised to exploration and evaluation assets.

### Individual directors and executive compensation disclosures

Information regarding individual directors and executives compensation is required by the Corporations Regulations 2M.3.03 and 2M.6.04 to be provided in the Remuneration Report Section of the Directors’ report on pages 13 to 14. Apart from the details disclosed in this note, no director has entered into a material contract with the Company since the end of the previous financial year and there were no material contracts involving directors’ interests existing at year end.

### Other key management personnel transactions with Directors and Director-related entities

A number of key management persons, or their related parties, hold positions in other entities that result in them having control or significant influence over the financial or operating policies of those entities.

A number of these entities transacted with the Company or its subsidiaries in the reporting period.

The following fees were incurred on normal commercial terms and conditions to the following Director related entities:

| Related Parties                                       | Transaction  | Transactions value |        | Balance outstanding |      |
|---|--|--------------------|--------|---------------------|------|
|   |  | year ended 30 June |        | as at 30 June       |      |
|   |  | 2013               | 2012   | 2013                | 2012 |
|   |  | \$                 | \$     | \$                  | \$   |
| J L C Jones – Westbury<br>Management Services Pty Ltd | Storage / Admin Services   | 41,054             | 2,831  | 36,767              | 262  |
| J L C Jones   | Loan & interest on loan  | 73,055             | -      | 73,055              | -    |

### 24. SUBSEQUENT EVENTS

In August 2013, the Company announced a Share Placement Plan (SPP) and a Placement to raise \$1 million. The closing date of the SPP was extended to 16 September 2013 and raised over \$430,000. The Placement has not been finalised.

## DIRECTORS' DECLARATION

1. In the opinion of the directors of Anglo Australian Resources NL
  - a) The financial statements and notes, and the Remuneration Report in the Directors' Report, set out on pages 22 to 40 are in accordance with the Corporations Act 2001, including:
    - (i) giving a true and fair view of the financial position of the Company and of its performance, as represented by the results of its operations and its cash flows, for the year ended on that date; and
    - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001;
  - b) the directors draw attention to Note 2(a) to the financial statements, which includes a statement of compliance with International Reporting Standards;
  - c) as set out in Note 3, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
2. The directors have been given the declarations required by Section 295A of the Corporations Act 2001 from the Company Secretary (who performs the Chief Executive Officer's and Chief Financial Officer's function) for the financial year ended 30 June 2013.

Signed in accordance with a resolution of directors:

J L C Jones  
Executive Chairman  
**Anglo Australian Resources NL**

Dated at Perth this 30<sup>th</sup> day of September 2013

Level 1, Lincoln House, 4 Ventnor Avenue, West Perth WA  
6005 P.O. Box 8716, Perth Business Centre WA 6849  
Phone (08) 9486 7094 www.rothsayresources.com.au

## **INDEPENDENT AUDIT REPORT TO THE MEMBERS OF ANGLO AUSTRALIAN RESOURCES NL**

### **Report on the financial report**

We have audited the accompanying financial report of Anglo Australian Resources NL ("the Company") which comprises the statement of financial position as at 30 June 2013 and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration.

### **Directors' Responsibility for the Financial Report**

The Directors of the Company are responsible for the preparation and true and fair presentation of the financial report in accordance with the Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report. The Directors are also responsible for the remuneration disclosures contained in the directors' report.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance as to whether the financial report is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate to the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Independence**

We are independent of the Company, and have met the independence requirements of Australian professional ethical requirements and the *Corporations Act 2001*.

Chartered Accountants

### **Audit opinion**

In our opinion the financial report of Anglo Australian Resources NL is in accordance with the *Corporations Act 2001*, including:

- a) (i) giving a true and fair view of the Company's financial position as at 30 June 2013 and of its performance for the year ended on that date; and  
(ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*; and
- b) the financial report also complies with International Financial Reporting Standards as issued by the International Accounting Standards Board.

### **Emphasis of Matter**

Without qualifying our opinion, we draw attention to Note 3 in the financial report which indicates the basis for preparing the accounts on a going concern basis. We note the Company incurred a net loss of \$1,304,149 and net cash outflows from operating activities of \$541,459 for the year ending 30 June 2013 and at that date had a working capital deficit of \$381,271. In the event the Company is unable to raise additional funding by way of debt or capital raisings, and reduce operational, administrative and exploration expenditure there is material uncertainty as to whether the Company could continue as a going concern and therefore it may be unable to realise its assets and extinguish its liabilities in the normal course of business and for the amounts stated in the financial report.

### **Report on the remuneration report**

We have audited the remuneration report included in the directors' report for the year ended 30 June 2013. The directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

### **Audit opinion**

In our opinion the remuneration report of Anglo Australian Resources NL for the year ended 30 June 2013 complies with section 300A of the *Corporations Act 2001*.
