ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2015

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-32733

RESOURCE CAPITAL CORP.

(Exact name of registrant as specified in its charter)

Maryland

20-2287134

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer
Identification No.)

712 5th Avenue, 12th Floor, New York, New York 10019

(Address of principal executive offices) (Zip Code)

(212) 506-3870

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class

Name of each exchange on which registered

Common Stock, \$.001 par value	New York Stock Exchange
8.50% Series A Cumulative Redeemable Preferred Stock	New York Stock Exchange
8.25% Series B Cumulative Redeemable Preferred Stock	New York Stock Exchange
8.625% Series C Cumulative Redeemable Preferred Stock	New York Stock Exchange

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No R

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No R

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. R

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the voting common equity held by non-affiliates of the registrant, based on the closing price of such stock on the last business day of the registrant's most recently completed second fiscal quarter (June 30, 2015) was approximately \$491,679,835.

The number of outstanding shares of the registrant's common stock on March 1, 2016 was 31,441,991 shares.

FORWARD-LOOKING STATEMENTS

This report contains certain forward-looking statements. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by terms such as “anticipate”, “believe”, “could”, “estimate”, “expects”, “intend”, “may”, “plan”, “potential”, “project”, “should”, “will” and “would” or the negative of these terms or other comparable terminology.

Forward-looking statements contained in this report are based on our beliefs, assumptions and expectations regarding our future performance, taking into account all information currently available to us. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us or are within our control. If a change occurs, our business, financial condition, liquidity and results of operations may vary materially from those expressed in our forward-looking statements. Forward-looking statements we make in this report are subject to various risks and uncertainties that could cause actual results to vary from our forward-looking statements, including:

- the factors described in this report, including those set forth under the sections captioned “Risk Factors”, “Business”, and “Management's Discussion and Analysis of Financial Conditions and Results of Operations”;
- changes in our industry, interest rates, the debt securities markets, real estate markets or the general economy;
- increased rates of default and/or decreased recovery rates on our investments;
- availability, terms and deployment of capital;
- availability of qualified personnel;
- changes in governmental regulations, tax rates and similar matters;
- changes in our business strategy;
- availability of investment opportunities in commercial real estate-related and commercial finance assets;
- the degree and nature of our competition;
- the adequacy of our cash reserves and working capital; and
- the timing of cash flows, if any, from our investments.

We caution you not to place undue reliance on these forward-looking statements which speak only as of the date of this report. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. Except to the extent required by applicable law or regulation, we undertake no obligation to update these forward-looking statements to reflect events or circumstances after the date of this filing or to reflect the occurrence of unanticipated events.

PART I**ITEM I. BUSINESS****General**

We are a diversified real estate finance company that is organized and conducts its operations to qualify as a real estate investment trust, or REIT, for federal income tax purposes under Subchapter M of the Internal Revenue Code of 1986, as amended. Our investment strategy focuses on commercial real estate, commercial real estate-related assets and, to a lesser extent, residential real estate and commercial finance assets.

Our investments target the following asset classes:

Asset Class	Principal Investments
<i>Commercial real estate-related assets</i>	<ul style="list-style-type: none"> • First mortgage loans, which we refer to as whole loans; • First priority interests in first mortgage loans, which we refer to as A notes; • Subordinated interests in first mortgage loans, which we refer to as B notes; • Mezzanine debt related to commercial real estate that is senior to the borrower's equity position but subordinated to other third-party debt; • Commercial mortgage-backed securities, which we refer to as CMBS; and • Commercial real estate, or CRE, primarily multifamily properties.
<i>Residential real estate-related assets</i>	<ul style="list-style-type: none"> • Residential mortgage loans and mortgage-backed securities; and Residential mortgage-backed securities, which we refer to as RMBS, which comprise our available for sale portfolio.
<i>Commercial finance assets</i>	<ul style="list-style-type: none"> • Middle-market secured corporate loans and preferred equity investments; and • Asset-backed securities, which we refer to as ABS, backed by senior secured corporate loans; • Debt tranches of collateralized debt obligations and collateralized loan obligations, which we refer to as CDOs and CLOs, respectively, and sometimes, collectively, as CDOs; • Structured note investments, which comprise our trading securities portfolio; • Senior secured corporate loans, which we refer to as bank loans; • Preferred equity investment in a commercial leasing enterprise which originates and holds small- and middle-ticket commercial direct financing leases and notes.

Our objective is to provide our stockholders with total returns over time, including quarterly distributions and capital appreciation, while seeking to manage the risks associated with our investment strategies. We have financed a substantial portion of our portfolio investments through borrowing strategies seeking to match the maturities and repricing dates of our financings with the maturities and repricing dates of those investments, and have sought to mitigate interest rate and foreign currency risk through derivative instruments.

We are externally managed by Resource Capital Manager, Inc., or the Manager, an indirect wholly-owned subsidiary of Resource America, Inc. (NASDAQ: REXI), or Resource America, a specialized asset management company that uses industry specific expertise to evaluate, originate, service and manage investment opportunities through its commercial real estate, financial fund management and commercial finance operating segments. As of December 31, 2015, Resource America managed approximately \$21.7 billion of assets in these sectors. To provide its services, the Manager draws upon Resource America, its management team and their collective investment experience.

The modest economic recovery in the United States over the last few years had previously enabled us to access public capital markets; this access was essentially closed throughout most of 2015. While we were able to issue and sell \$100.0 million aggregate principal amount of our 8.0% Convertible Senior Notes (due 2020) in January 2015, we have not accessed public capital markets in any meaningful way since that transaction. However, we did have success in expanding our access to credit, which we use to fund our loan origination businesses centered primarily in commercial real estate and, to a lesser extent, in middle market secured corporate lending. In the commercial real estate segment we closed on two CLO's in 2015 which had total collateral of \$659.1 million, all of which was self originated whole loans. We retained equity of \$153.2 million in those securitizations. In addition, we secured a new \$250.0 million commercial real estate three-year term financing facility. We plan to use primarily recycled capital from loan pay-offs and pay downs to augment these existing credit facilities to fund new commercial real estate loan originations in 2016.

In the middle market corporate lending segment, we expanded the lending commitment on our revolving credit facility from \$225.0 million to \$300.0 million and increased our borrowing capacity by \$85.0 million from \$140.0 million to \$225.0 million. We were also able to extend the maturity on that facility to March 31, 2019. We have the ability to use recycled capital from loan payoffs and pay downs to fund new middle market lending; however, in late 2015 we have begun to explore strategic alternatives on how to maximize the value of this business segment, which may include a sale of part or all of the assets or a plan to hold the assets to maturity. We have not concluded on a long-term strategy for this portfolio.

These credit events have helped us continue to modestly grow our primary lending businesses in 2015. We funded \$730.9 million of self-originated commercial real estate whole loans in 2015 as compared to \$689.4 million in 2014. We funded \$179.5 million of new middle market secured corporate loans in 2015 as compared to \$243.3 million in 2014.

We continue to see a reduction in our commercial finance assets, specifically in our bank loan portfolio, as we liquidated one of our CLOs in 2015. This trend has caused our net interest income associated with bank loans to decline further in 2015 and we expect the trend to continue in 2016 until our final bank loan is liquidated, which we expect to occur in the second half of the year. We have been and expect to continue to increase our development of capital into our real estate lending platform as our bank loan portfolio reduces and to offset any declines in middle market lending or sale of that business segment.

Our Business Strategy

The core components of our business strategy are:

Investment in real estate and commercial finance assets. We expect to seek portfolio growth primarily through investments in CRE whole loans and, to a lesser extent, B notes, mezzanine debt and CMBS rated below AAA by Standard & Poor's, or S&P. We have historically invested in commercial finance assets, through directly-originated middle-market loans and bank loan securitizations and in other ABS, structured note investments and debt tranches of CDOs and CLOs. Our middle market lending platform has historically provided credit facilities to private middle market companies where these debt solutions have included first lien, second lien, and unitranche and mezzanine debt. However, as we continue to seek strategic alternatives with respect to our middle-market corporate loan business and have seen a significant decline in our bank loan portfolio, we expect to invest recycled capital as it becomes available from these commercial finance businesses primarily into our commercial real estate lending business, subject to the availability of investment funds and debt financing. Our goal is to have a minimum of 75% of equity invested in CRE assets with a longer-term target of 85-90% with 10-15% invested in commercial finance opportunities, including those with potential for capital appreciation. Our equity at December 31, 2015 was invested 71% in CRE assets, 27% in commercial finance assets and 2% in other investments.

Managing our investment portfolio. As of December 31, 2015, we managed \$2.6 billion of assets, including \$1.5 billion of assets which were financed and held in variable interest entities, or VIEs. The core of our management process is credit analysis which our Manager and Resource America use to actively monitor our existing investments and as a basis for evaluating new investments. Senior management of our Manager and Resource America has extensive experience in underwriting the credit risk associated with our targeted asset classes and conducts detailed due diligence on all credit-sensitive investments, including the use of proprietary credit stratifications and collateral stress analysis. After we make an investment, the Manager and Resource America engage in active monitoring of our investments for early detection of troubled and deteriorating assets. If a default occurs, we will use our senior management team's asset management experience in seeking to mitigate the severity of any losses, and to optimize the recovery from assets collateralizing the investment.

Managing our interest rate and liquidity risk. We generally seek to manage interest rate and liquidity risk so as to reduce the effects of interest rate changes on us. In our long-term financing, we seek to match the maturity and repricing dates of our investments with the maturities and repricing dates of our financing. Historically, we have used CDO and CLO vehicles structured for us by our Manager to achieve this goal, and subject to the markets for CDO and CLO financings remaining open, we expect to increase our use of these vehicles in the future. We engage in a number of business activities that are vulnerable to interest and liquidity risk. Our hedging strategy is intended to take advantage of commonly available derivative instruments to reduce, to the extent possible, interest rate and cash flow risks. We use derivative instruments, such as interest rate swaps and interest rate caps in our effort to reduce this risk.

We manage our interest rate and liquidity risk on our short-term financing, principally repurchase agreements, by limiting the amount of our financial exposure under the facilities to either a stated investment amount or a fixed guaranty amount. At December 31, 2015 with respect to our existing Wells Fargo CMBS facility, we had \$25.7 million of short-term debt, and \$1.1 million of derivative instruments and pledged collateral of \$31.7 million associated with this debt. Our equity at risk was \$6.1 million, including net interest due on the financings. With respect to our Wells Fargo CRE facility, we had a balance of \$123.9 million of short-term debt at year end 2015 and pledged collateral of \$179.2 million associated with this debt. Our equity at risk was \$54.6 million, including net interest due. As of December 31, 2015, we also had a balance of \$57.4 million on short-term 30 day repurchase agreements with various counterparties to finance the purchase of CMBS with pledged collateral of \$79.3 million associated with this debt and equity at risk of \$22.6 million, including net interest as of December 31, 2015. These borrowings were made on a floating rate basis, which matched the underlying asset collateral on the same floating rate basis to mitigate interest rate risk. For more information concerning our credit and repurchase facilities, see "Management's Discussion and Analysis of Financial Condition and Results of Operations-Liquidity and Capital Resources" and Note 13 of the Notes to Consolidated Financial Statements contained in Item 8 of this report.

Diversification of investments. We seek to manage our investment risk by maintaining a diversified portfolio of real estate-related and commercial finance assets. As funds become available for investment or reinvestment, we seek to maintain that diversification while allocating our capital to those sectors that we believe are the most economically attractive. The percentage of assets that we may invest in certain of our targeted asset classes is subject to the federal income tax requirements for REIT qualification and the requirements for exclusion from regulation under the Investment Company Act of 1940, which we refer to as the Investment Company Act.

Our Operating Policies

Investment guidelines. We have established investment policies, procedures and guidelines that are reviewed and approved by our investment committee and board of directors. The investment committee meets regularly to consider and approve proposed specific investments. The board of directors monitors the execution of our overall investment strategies and targeted asset classes. We acquire our investments primarily for income. We do not have a policy that requires us to focus our investments in one or more particular geographic areas or industries.

Financing policies. We have used leverage in order to increase potential returns to our stockholders and for financing our portfolio. We do not speculate on changes in interest rates. While we have identified our leverage targets for each of our targeted asset classes, our investment policies require no minimum or maximum leverage and our investment committee has the discretion, without the need for further approval by our board of directors, to increase the amount of leverage we incur above our targeted range for individual asset classes subject, however, to any leverage constraints that may be imposed by existing financing arrangements.

We have historically used borrowing and securitization strategies, substantially through CDOs, to accomplish our long-term match funding financing strategy. Based upon current conditions in the credit markets for CDOs and CLOs, we expect to modestly increase leverage through new CLO securitizations, and the continued use of our two Wells Fargo facilities in 2016. We may also seek other credit arrangements to finance new investments where we believe we can achieve attractive risk-adjusted returns, subject to availability.

Hedging and interest rate management policies. We use derivative financial instruments to hedge a portion of the interest rate risk associated with our borrowings. Under the federal income tax laws applicable to REITs, we generally will be able to enter into transactions to hedge indebtedness that we may incur, or plan to incur, to acquire or carry real estate assets, provided that our total gross income from such hedges and other non-qualifying sources does not exceed 25% of our total gross income. We generally seek to minimize interest rate risk with a strategy that is expected to result in the least amount of volatility under general accepted accounting principles while still meeting our strategic economic objectives and maintaining adequate liquidity and flexibility. These hedging transactions may include interest rate swaps, collars, caps or floors, puts, calls, options and foreign currency exchange protection.

Credit and risk management policies. Our Manager focuses its attention on credit and risk assessment from the earliest stage of the investment selection process. In addition, the Manager screens and monitors all potential investments to determine their impact on maintaining our REIT qualification under federal income tax laws and our exclusion from investment company status under the Investment Company Act. Portfolio risks, including risks related to credit losses, interest rate volatility, liquidity and counterparty credit are generally managed on a portfolio-by-portfolio basis by each of Resource America's asset management divisions, although there is often interaction and cooperation between divisions in this process.

General

The table below summarizes the amortized cost and net carrying amount of our investment portfolio, classified by asset type. The following table includes both (i) the amortized cost of our investment portfolio and (ii) the net carrying amount of our investment portfolio for the period presented as follows (in thousands, except percentages):

As of December 31, 2015	Amortized cost	Net Carrying Amount	Percent of portfolio	Weighted average coupon
Loans Held for Investment:				
Commercial real estate loans ⁽¹⁾ :				
Whole loans	\$ 1,630,801	\$ 1,627,056	64.02%	5.09%
B notes	15,934	15,919	0.63%	8.68%
Mezzanine loans	45,372	7,293	0.29%	9.01%
Bank loans ⁽⁴⁾	134,517	133,235	5.24%	3.80%
Middle market loans ⁽⁵⁾	379,452	375,513	14.78%	9.72%
Residential mortgage loans ⁽⁶⁾	1,746	1,735	0.07%	4.44%
	2,207,822	2,160,751	85.03%	
Loans held for sale ⁽²⁾:				
Bank loans	1,475	1,475	0.06%	0.84%
Residential mortgage loans	94,471	94,471	3.72%	3.92%
	95,946	95,946	3.78%	
Investments in Available-for-Sale Securities:				
CMBS-private placement	158,584	159,424	6.27%	5.21%
RMBS	2,156	2,190	0.08%	4.87%

RMBS	1,896	—	—%	N/A ⁽³⁾
	30,472	25,550	1.00%	
Other:				
Investment in unconsolidated entities	50,030	50,030	1.97%	N/A ⁽³⁾
Direct financing leases ⁽⁷⁾	1,396	931	0.04%	5.66%
	51,426	50,961	2.01%	
Total Investment Portfolio	\$ 2,590,822	\$ 2,541,296	100.00%	

(1) Net carrying amount includes an allowance for loan losses of \$41.8 million at December 31, 2015, allocated as follows: whole loans \$3.7 million, B notes \$15,000 and mezzanine loans \$38.1 million.

(2) Loans held for sale are carried at the lower of cost or fair market value. Amortized cost is equal to fair value.

(3) There is no stated rate associated with these securities.

(4) Net carrying amount includes allowance for loan losses of \$1.3 million at December 31, 2015.

(5) Net carrying amount includes allowance for loan losses of \$3.9 million at December 31, 2015.

(6) Net carrying amount includes allowance for loan losses of \$11,000 at December 31, 2015.

(7) Net carrying amount includes allowance for loan losses of \$465,000 at December 31, 2015.

Commercial Real Estate-Related Investments

Whole loans. We originate predominantly first mortgage loans, or whole loans, directly to borrowers. The direct origination of whole loans enables us to better control the structure of the loans and to maintain direct lending relationships with the borrowers. We may create senior tranches of a loan we originate, consisting of an A note (described below), B notes (described below), and mezzanine loans or other participations, which we may hold or sell to third parties. We do not obtain ratings on these investments. With respect to our portfolio at December 31, 2015, our whole loan investments have loan to value, or LTV, ratios that typically do not exceed 80%. Typically whole loan mortgages will have terms of three years to five years, and are generally structured with an original term of up to three years, with one-year extensions that bring the loan to a maximum term of five years. We expect to hold our whole loans to their maturity.

Senior interests in whole loans (A notes). Historically, we have invested in senior interests in whole mortgage loans, referred to as A notes, either directly originated or purchased from third parties. We do not obtain ratings on these investments. Our typical A note investment has an LTV ratio not exceeding 70% and we expect to hold our A note investments to their maturity. We did not hold any such investments at December 31, 2015.

Subordinate interests in whole loans (B notes). To a lesser extent we invest in subordinate interests in whole loans, referred to as B notes, which we either directly originate or purchase from third parties. B notes are loans secured by a first mortgage but are subordinated to an A note. The subordination of a B note is generally evidenced by an intercreditor or participation agreement between the holders of the A note and the B note. In some instances, the B note lender may require a security interest in the stock or partnership interests of the borrower as part of the transaction. B note lenders have the same obligations, collateral and borrower as the A note lender, but typically are subordinated in recovery upon a default to the A note lender. B notes share certain credit characteristics with second mortgages in that both are subject to greater credit risk with respect to the underlying mortgage collateral than the corresponding first mortgage or A note. We do not obtain ratings on these investments. With respect to our portfolio at December 31, 2015, at origination, our B note investments had LTV ratios between 55% and 80%. Typical B note investments will have terms of three years to five years, and are generally structured with an original term of up to three years, with one-year extensions that bring the loan to a maximum term of five years. We expect to hold our B note investments to their maturity.

In addition to the interest payable on the B note, we may earn fees charged to the borrower under the note or additional income by receiving principal payments in excess of the discounted price (below par value) we paid to acquire the note. Our ownership of a B note with controlling class rights may, in the event the financing fails to perform according to its terms, cause us to pursue our remedies as owner of the B note, which may include foreclosure on, or modification of, the note. In some cases, the owner of the A note may be able to foreclose or modify the note against our wishes as owner of the B note. As a result, our economic and business interests may diverge from the interests of the owner of the A note.

Mezzanine financing. We also invest in mezzanine loans that are senior to the borrower's equity in, and subordinate to a first mortgage loan on, a property. These loans are secured by pledges of ownership interests, in whole or in part, in entities that directly own the real property. In addition, we may require other collateral to secure mezzanine loans, including letters of credit, personal guarantees of the principals of the borrower, or collateral unrelated to the property. We may structure our mezzanine loans so that we receive a stated fixed or variable interest rate on the loan as well as a percentage of gross revenues and a percentage of the increase in the fair market value of the property securing the loan, payable upon maturity, refinancing or sale of the property. Our mezzanine loans may also have prepayment lockouts, penalties, minimum profit hurdles and other mechanisms to protect and enhance returns in the event of premature repayment. With respect to our portfolio at December 31, 2015, at origination, our mezzanine investments had LTV ratios between 65% and 90%. We expect the stated maturity of our mezzanine financings to range from three to five years. Mezzanine loans typically have maturities that match the maturity of the related mortgage loans but may have shorter or longer terms. We expect to hold these investments to maturity.

The following charts describe the loan type, property type and the geographic breakdown of our CRE loan portfolio as of December 31, 2015 (based on book value):

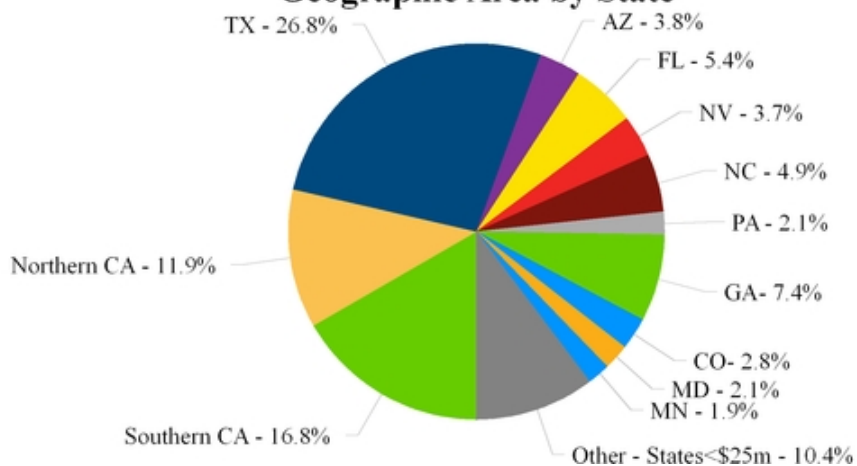

Loan Type

Property Type

Geographic Area by State

As these charts demonstrate, our portfolio contains a diversified mix of property types with all of the portfolio focusing on four types: multifamily – 43%; retail – 22%; office – 22% and hotel – 13%.

Approximately 29% of our portfolio is in California, which we split into Southern (17%) and Northern (12%) regions. Within the Southern California region, we have all of our portfolio in whole loans and in four property types: hotel – 31%, retail – 40%, multifamily – 20% and office – 9%. Within the Northern California region, we have all of our portfolio in whole loans with 94% in two property types: office – 51% and retail – 43%. We also hold 27% of our portfolio in Texas. Within the state of Texas, we have all of our portfolio in whole loans with 90% in two property types: multifamily – 76% and office – 14%. As noted in these statistics, this portfolio is made up primarily of whole loans where we are able to better control the structure of the loan and maintain a direct lending relationship with the borrower. We view the investment and credit strategy as being adequately diversified across property type and loan type across the Southern and Northern California regions and Texas.

CMBS. We invest in CMBS, which are securities that are secured by or evidence interests in a pool of mortgage loans secured by commercial properties. These securities may be senior or subordinate and may be either investment grade or non-investment grade. The majority of our CMBS investments have been rated by at least one nationally recognized rating agency.

The yields on CMBS depend on the timely payment of interest and principal due on the underlying mortgage loans and defaults by the borrowers on such loans may ultimately result in deficiencies and defaults on the CMBS. In the event of a default, the trustee for the benefit of the holders of CMBS has recourse only to the underlying pool of mortgage loans and, if a loan is in default, to the mortgaged property securing such mortgage loan. After the trustee has exercised all of the rights of a lender under a defaulted mortgage loan and the related mortgaged property has been liquidated, no further remedy will be available. However, holders of relatively senior classes of CMBS will be protected to a certain degree by the structural features of the securitization transaction within which such CMBS were issued, such as the subordination of the relatively more junior classes of the CMBS.

Commercial Real Estate Investments

In 2011, we began to invest directly in the ownership of commercial real estate, restructuring two real estate loans to take control of properties where we believed we could protect capital and ultimately generate capital appreciation. We later acquired two multi-family real estate assets, one through a joint venture and the other directly wholly-owned by us, as well as a hotel property. We sold the wholly-owned multi-family property at a substantial gain of \$16.6 million in 2013, and divested the remaining commercial real estate assets during 2014 at a gain of \$6.1 million. As of December 31, 2015 and December 31, 2014, we were not directly invested in the ownership of any commercial real estate assets. We primarily used a related party, Resource Real Estate, a subsidiary of Resource America, to manage these assets on our behalf.

Other Real Estate Investments

We have invested in a joint venture that makes high-yield investments in a broad range of CRE assets through a variety of debt instruments, including mezzanine loans, B notes, preferred equity, and whole loans including bridge financing. Our joint venture investment balance was \$6.5 million at December 31, 2015.

Structured Note Investments and Residential Real Estate-Related Investments, or RMBS

We invest in structured notes and RMBS as part of our trading portfolio. Structured note investments are investments in structured finance vehicles that are typically among the most junior debt, or are equity securities, issued by the vehicle. The majority of our structured notes have not been rated by any nationally recognized rating agencies. These notes and equity securities typically receive quarterly interest payments or distributions only after the more senior debt securities issued by the vehicle have received all amounts contractually then owned to them. We also invest in RMBS, which are securities that are secured or evidenced by interests in a pool of residential mortgage loans. These securities may be issued by government-sponsored agencies or other entities and may or may not be rated investment grade by rating agencies. We expect that our RMBS will include loan pools with home equity loans (loans that are secured by subordinate liens), residential B or C loans (loans where the borrower's FICO score, a measure used to rate the financial strength of the borrower, is low, generally below 625), "Alt-A" loans (where the borrower's FICO score is between 675 and 725) and "high LTV" loans (loans where the LTV is 95% or greater).

Residential Mortgage Origination

Primary Capital Mortgage, LLC, or PCM, is a residential mortgage lender and servicer offering home loans in 41 states as of December 31, 2015 primarily through wholesale and consumer direct channels. PCM primarily originates agency and non-agency mortgage loans for the purpose of selling these loans to the appropriate federal agency and other investors. PCM originated \$1.1 billion of agency mortgage loans and \$156.0 million of prime jumbo loans in 2015. During 2016, PCM expects to continue to expand geographically and increase its non-agency mortgage production. As of December 31, 2015, PCM serviced over \$2.0 billion of residential mortgage loans.

Commercial Finance Investments

Subject to limitations imposed by REIT qualification standards and requirements for exclusion from regulation under the Investment Company Act, we may invest in the following commercial finance assets:

Middle market loans. We make both senior and subordinated, secured and unsecured loans to middle market companies, either through directly originated transactions or purchases from third parties. Our middle market loan portfolio focuses on privately held companies in a broad variety of industries with an EBITDA between \$5.0 million and \$50.0 million and a target investment of \$10.0 million to \$40.0 million. Loans may also include revolving credit facilities, under which the lender is obligated to advance funds to the borrower under the credit facility as requested by the borrower from time to time. We expect that most of these loans will be secured by liens on the assets of, and, to a lesser extent, by mortgages on real properties of the borrowers. Certain loans in our middle market portfolio may have an interest-only payment schedule, with the principal amount remaining outstanding and at risk until the maturity of the loan. Typical middle market loans will have terms between three years and six years. These loans may include restrictive financial and operating covenants. In conjunction with some loans, we may also make minority equity investments. The following chart describes the industry breakdown of our middle market loans as of December 31, 2015 (based on carrying value):

Middle Market Loans

Bank loans. Historically, we have acquired senior and subordinated, secured and unsecured loans made by banks or other financial entities. We may, in the future, make similar investments consistent with our business strategy. Bank loans may also include revolving credit facilities, under which the lender is obligated to advance funds to the borrower under the credit facility as requested by the borrower from time to time. Some of these loans may have an interest-only payment schedule, with the principal amount remaining outstanding and at risk until the maturity of the loan. These loans may include restrictive financial and operating covenants. Our bank loans are in several industry categories including, Automobile – 13.5%, Diversified/Conglomerate Service – 13.0%, Retail – 9.6%, Healthcare, Education and Childcare – 8.3%, Chemicals, Plastics and Rubber – 8.0%. and Hotels, Motels, Inns and Gaming – 7.2%. All other industry categories comprise 40.4% of the portfolio.

Preferred equity. We have a preferred equity investment in a leasing company that invests in small- and middle-ticket full payout lease receivables. Although previously we had maintained a lease receivable portfolio, we transferred that portfolio to the leasing company in return for the preferred equity interest. We do not expect to invest in a directly-held leasing portfolio for the foreseeable future.

Trust preferred securities and other ABS. We do not have any investments in trust preferred securities or other ABS as of December 31, 2015. With certain exceptions relating to smaller banking institutions, the Dodd-Frank Act provided for a phase out of the use of trust preferred securities as primary regulatory capital for financial institutions which has resulted in a lack of new issuances. Accordingly, we do not expect to make trust preferred securities investments in the future.

Competition

See Item 1A "Risk Factors - Risks Related to Our Investments "We may face competition for suitable investments."

Management Agreement

We have a management agreement with the Manager and Resource America under which the Manager provides the day-to-day management of our operations. The agreement has been amended several times over the years. The management agreement requires the Manager to manage our business affairs in conformity with the policies and investment guidelines established by our board of directors. The Manager's role as manager is under the supervision and direction of our board of directors. The Manager is responsible for the selection, purchase and sale of our portfolio investments, our financing activities, and providing us with investment advisory services. The Manager also provides us with a Chairman of the Board, a Chief Financial Officer, Chief Accounting Officer, several accounting and tax professionals and an investor relations officer (on a shared basis). The Manager receives fees and is reimbursed for its expenses as follows:

- A monthly base management fee equal to 1/12th of the amount of our equity multiplied by 1.50%. Under the management agreement, "equity" is equal to the net proceeds from any issuance of shares of common stock less offering-related costs, plus or minus our retained earnings (excluding non-cash equity compensation incurred in current or prior periods) less any amounts we have paid for common stock repurchases. The calculation is adjusted for one-time events due to changes in accounting principles generally accepted in the United States, which we refer to as GAAP, as well as other non-cash charges, upon approval of our independent directors.
- Incentive compensation, calculated as follows: (i) 25% of the dollar amount by which (A) our adjusted operating earnings (before incentive compensation but after the base management fee) for such quarter per common share (based on the weighted average number of common shares outstanding for such quarter) exceeds (B) an amount equal to (1) the weighted average of the price per share of the common stock in our initial offering and the prices per share of the common stock in any of our subsequent offerings, in each case at the time of issuance thereof, multiplied by (2) the greater of (a) 2.00% and (b) 0.50% plus one-fourth of the Ten Year Treasury Rate for such quarter, multiplied by (ii) the weighted average number of shares of common stock outstanding during such quarter subject to adjustment to exclude events pursuant to changes in GAAP or the application of GAAP, as well as non-recurring or unusual transactions or events, after discussion between the Manager and the independent directors and approval by a majority of the independent directors in the case of non-recurring or unusual transactions or events.
- Reimbursement of out-of-pocket expenses and certain other costs incurred by the Manager that relate directly to us and our operations.
- Reimbursement of the Manager for the expense of the wages, salaries and benefits of our Chairman, our Chief Financial Officer, Chief Accounting Officer, several accounting and tax professionals and 50% of the salary and benefits of the director of investor relations.

In November 2013, we amended the management agreement to allow an ancillary operating subsidiary to directly incur and pay all of its own operating costs and expenses, including compensation to employees and reimbursement of any compensation costs incurred by the Manager for the personnel principally devoted to such ancillary operating subsidiary.

Incentive compensation is paid quarterly to the Manager to the extent it is earned. Up to seventy-five percent (75%) of the incentive compensation will be paid in cash and at least twenty-five percent (25%) is paid in the form of an award of common stock. The Manager may elect to receive more than 25% of its incentive compensation in common stock. All shares are fully vested upon issuance. However, the Manager may not sell such shares for one year after the incentive compensation becomes due and payable unless the management agreement is terminated. Shares payable as incentive compensation are valued as follows:

- if such shares are traded on a securities exchange, at the average of the closing prices of the shares on such exchange over the thirty day period ending three days prior to the issuance of such shares;
- if such shares are actively traded over-the-counter, at the average of the closing bid or sales price as applicable over the thirty day period ending three days prior to the issuance of such shares; and
- if there is no active market for such shares, at the fair market value as reasonably determined in good faith by our board of directors.

As amended, the management agreement has a current term ending on March 31, 2016. The agreement provides for automatic one year renewals on each March 31 thereafter until terminated. Our board of directors reviews the Manager's performance annually. The management agreement may be terminated annually upon the affirmative vote of at least two-thirds of our independent directors, or by the affirmative vote of the holders of at least a majority of the outstanding shares of our common stock, based upon unsatisfactory performance that is materially detrimental to us or a determination by our independent directors that the management fees payable to the Manager are not fair, subject to the Manager's right to prevent such a compensation termination by accepting a mutually acceptable reduction of management fees. Our board of directors must provide 180 days' prior notice of any such termination. If we terminate the management agreement, the Manager is entitled to a termination fee equal to four times the sum of the average annual base management fee and the average annual incentive compensation earned by the Manager during the two 12-month periods immediately preceding the date of termination, calculated as of the end of the most recently completed fiscal quarter before the date of termination.

We may also terminate the management agreement for cause with 30 days' prior written notice from our board of directors. No termination fee is payable with respect to a termination for cause. The management agreement defines cause as:

- the Manager's continued material breach of any provision of the management agreement following a period of 30 days after written notice thereof;
- the Manager's fraud, misappropriation of funds, or embezzlement against us;
- the Manager's gross negligence in the performance of its duties under the management agreement;
- the bankruptcy or insolvency of the Manager, or the filing of a voluntary bankruptcy petition by the Manager;
- the dissolution of the Manager; and
- a change of control (as defined in the management agreement) of the Manager if a majority of our independent directors determines, at any point during the 18 months following the change of control, that the change of control was detrimental to the ability of the Manager to perform its duties in substantially the same manner conducted before the change of control.

Cause does not include unsatisfactory performance that is materially detrimental to our business.

The management agreement will terminate at the Manager's option, without payment of the termination fee, if we become regulated as an investment company under the Investment Company Act, with such termination deemed to occur immediately before such event.

Regulatory Aspects of Our Investment Strategy: Exclusion from Regulation Under the Investment Company Act.

We operate our business so as to be excluded from regulation under the Investment Company Act. Because we conduct our business through wholly-owned subsidiaries, we must ensure not only that we qualify for an exclusion from regulation under the Investment Company Act, but also that each of our subsidiaries also qualifies.

We believe that RCC Real Estate, Inc., the subsidiary that as of December 31, 2015, held all of our commercial real estate loan assets, is excluded from Investment Company Act regulation under Sections 3(c)(5)(C) and 3(c)(6), provisions designed for companies that do not issue redeemable securities and are primarily engaged in the business of purchasing or otherwise acquiring mortgages and other liens on and interests in real estate. To qualify for this exclusion, at least 55% of RCC Real Estate's assets must consist of mortgage loans and other assets that are considered the functional equivalent of mortgage loans for purposes of the Investment Company Act, and interests in real properties, which we refer to as "qualifying real estate assets." Moreover, 80% of RCC Real Estate's assets must consist of qualifying real estate assets and other real estate-related assets. RCC Real Estate has not issued, and does not intend to issue, redeemable securities.

We treat our investments in whole mortgage loans, specific types of B notes and specific types of mezzanine loans as qualifying real estate assets for purposes of determining our eligibility for the exclusion provided by Section 3(c)(5)(C) to the extent such treatment is consistent with guidance provided by the Securities and Exchange Commission, or SEC, or its staff. We believe that SEC staff guidance allows us to treat B notes as qualifying real estate assets where we have unilateral rights to instruct the servicer to foreclose upon a defaulted mortgage loan, replace the servicer in the event the servicer, in its discretion, elects not to foreclose on such a loan, and purchase the A note in the event of a default on the mortgage loan. We believe, based upon an analysis of existing SEC staff guidance, that we may treat mezzanine loans as qualifying real estate assets where (i) the borrower is a special purpose bankruptcy-remote entity whose sole purpose is to hold all of the ownership interests in another special purpose entity that owns commercial real property, (ii) both entities are organized as limited liability companies or limited partnerships, (iii) under their organizational documents and the loan documents, neither entity may engage in any other business, (iv) the ownership interests of either entity have no value apart from the underlying real property which is essentially the only asset held by the property-owning entity, (v) the value of the underlying property in excess of the amount of senior obligations is in excess of the amount of the mezzanine loan, (vi) the borrower pledges its entire interest in the property-owning entity to the lender which obtains a perfected security interest in the collateral, and (vii) the relative rights and priorities between the mezzanine lender and the senior lenders with respect to claims on the underlying property is set forth in an intercreditor agreement between the parties which gives the mezzanine lender certain cure and purchase rights in case there is a default on the senior loan. If the SEC staff provides future guidance that these investments are not qualifying real estate assets, we will treat them, for purposes of determining our eligibility for the exclusion provided by Section 3(c)(5)(C), as real estate-related assets or miscellaneous assets, as appropriate. Historically, we have held "whole pool certificates" in mortgage loans, although, at December 31, 2015 and 2014, we had no whole pool certificates in our portfolios. Pursuant to existing SEC staff guidance, we consider whole pool certificates to be qualifying real estate assets. A whole pool certificate is a certificate that represents the entire beneficial interest in an underlying pool of mortgage loans. By contrast, a certificate that represents less than the entire beneficial interest in the underlying mortgage loans is not considered to be a qualifying real estate asset for purposes of the 55% test, but constitutes a real estate-related asset for purposes of the 80% test. We do not expect that investments in CDOs, ABS, bank loans, lease receivables, trust preferred securities and private equity will constitute qualifying real estate assets. Moreover, to the extent that these investments are not backed by mortgage loans or other interests in real estate, they will not constitute real estate-related assets. Instead, they will constitute miscellaneous assets, which can constitute no more than 20% of RCC Real Estate's assets.

To the extent RCC Real Estate holds its commercial real estate loan assets through wholly or majority-owned CDO subsidiaries, RCC Real Estate also intends to conduct its operations so that it will not come within the definition of an investment company set forth in Section 3(a)(1)(C) of the Investment Company Act because less than 40% of the value of its total assets (exclusive of government securities and cash items) on an unconsolidated basis will consist of "investment securities," which we refer to as the 40% test. "Investment securities" exclude U.S. government securities and securities of majority-owned subsidiaries that are not themselves investment companies and are not relying on the exception from the definition of investment company under Section 3(c)(1) or Section 3(c)(7) of the Investment Company Act. Certain of the wholly-owned CDO subsidiaries of RCC Real Estate rely on Section 3(c)(5)(C) for their Investment Company Act exemption, with the result that RCC Real Estate's interests in the CDO subsidiaries do not constitute "investment securities" for the purpose of the 40% test.

Of our other subsidiaries, RCC Commercial, Inc. ("RCC Commercial"), RCC Commercial II, Inc. ("Commercial II"), RCC Commercial III, Inc. ("Commercial III"), Resource TRS, Inc. ("Resource TRS"), Resource TRS II, Inc. ("Resource TRS II"), Resource TRS III, Inc. ("Resource TRS III"), Resource TRS IV, Inc. ("Resource TRS IV"), Resource TRS V, Inc. ("Resource TRS V"), RSO EquityCo, LLC ("RSO Equity"), RCC Residential Portfolio, Inc. ("RCC Resi Portfolio"), RCC Residential Portfolio TRS, Inc. ("RCC Resi TRS") and Long Term Care Conversion, Inc., ("LTCC"), do not qualify for the Section 3(c)(5)(C) exclusion. However, we believe they qualify for exclusion under either Section 3(c)(1) or 3(c)(7). As required by these exclusions, we will not allow any of these entities to make, or propose to make, a public offering of its securities. In addition, with respect to those subsidiaries for which we rely upon the Section 3(c)(1) exclusion, and as required thereby, we limit the number of holders of their securities to not more than 100 persons calculated in accordance with the attribution rules of Section 3(c)(1) and, with respect to those subsidiaries for which we rely on the Section 3(c)(7) exclusion, and as required thereby, we limit ownership of their securities to "qualified purchasers." If we form other subsidiaries, we must ensure that they qualify for an exemption or exclusion from regulation under the Investment Company Act.

Moreover, we must ensure that Resource Capital Corp. itself qualifies for an exclusion from regulation under the Investment Company Act. We will do so by monitoring the value of our interests in our subsidiaries so that we can ensure that Resource Capital Corp. meets the 40% test. Our interest in RCC Real Estate does not constitute an "investment security" for purposes of the 40% test, but our interests in RCC Commercial, Commercial II, Commercial III, Resource TRS, Resource TRS II, Resource TRS III, Resource TRS IV, Resource TRS V, RSO Equity, RCC Resi Portfolio, RCC Resi TRS and LTCC do. Accordingly, we must monitor the value of our interest in these subsidiaries to ensure that the value of our interests in them never exceeds 40% of the value of our total assets.

We have not received, nor have we sought, a no-action letter from the SEC regarding how our investment strategy fits within the exclusions from regulation under the Investment Company Act. To the extent that the SEC provides more specific or different guidance regarding the treatment of assets as qualifying real estate assets or real estate-related assets, we may have to adjust our investment strategy. Any additional guidance from the SEC could further inhibit our ability to pursue our investment strategy.

Employees

We have no direct employees, except for those who work for PCM, our residential mortgage origination company acquired in 2013. Under our management agreement, the Manager provides us with all management and support personnel and services necessary for our day-to-day operations, except for PCM's operations. To provide its services, the Manager draws upon the expertise and experience of Resource America. In April 2012, Resource America and its affiliated entities including (with respect to managing our bank loans and related CLO portfolios) formed a joint venture, CVC Credit Partners, in which Resource America has retained a 24% partnership interest. We continue to rely on the expertise of employees of this venture to manage certain of our assets. As of December 31, 2015, Resource America had 704 full-time employees, including 101 asset management professionals and 603 support personnel. Under our management agreement, the Manager also must provide us with our Chairman, our Chief Financial Officer, Chief Accounting Officer and several accounting and tax professionals, each of whom is exclusively dedicated to our operations, as well as a director of investor relations who is 50% dedicated to our operations. We bear the expense of the wages, salaries and benefits of our Chairman, our Chief Financial Officer, Chief Accounting Officer, the accounting and tax professionals dedicated to us, and 50% of the salary and benefits of the director of investor relations.

Corporate Governance and Internet Address

We emphasize the importance of professional business conduct and ethics through our corporate governance initiatives. Our board of directors consists of a majority of independent directors, as defined in the Securities Exchange Act of 1934, as amended, and relevant New York Stock Exchange, or NYSE, rules. The audit, compensation and nominating and governance committees of our board of directors are composed exclusively of independent directors. We have adopted corporate governance guidelines and a code of business conduct and ethics, which delineate our standards for our officers and directors, and the employees of our Manager who provide us services.

Our internet address is www.resourcecapitalcorp.com. We make available, free of charge through a link on our site, all reports filed with the SEC as soon as reasonably practicable after such filing. Our site also contains our code of business conduct and ethics, corporate governance guidelines and the charters of the audit committee, nominating and governance committee and compensation committee of our board of directors. A complete list of our filings is available on the SEC's website at www.sec.gov. Any of our filings are also available at the Securities and Exchange Commission's Public Reference Room at 100 F Street, N.E., Room 1580, Washington, D.C. 20549. The Public Reference Room may be contacted at telephone number (800) 732-0330 for further information.

ITEM IA. RISK FACTORS

This section describes material risks affecting our business. In connection with the forward-looking statements that appear in this annual report, you should carefully review the factors discussed below and the cautionary statements referred to in “Forward-Looking Statements.”

Impact of Current Economic Conditions

If current economic and market conditions were to deteriorate, our ability to obtain the capital and financing necessary for growth may be limited, which could limit our profitability, ability to make distributions and the market price of our common stock.

We depend upon the availability of adequate debt and equity capital for growth in our operations. Although we have been able to raise both debt and equity capital in the past three years, recent market and economic conditions have made obtaining additional equity capital highly dilutive to existing shareholders and may possibly affect our ability to raise debt capital. If current economic conditions were to deteriorate, our ability to access debt or equity capital on acceptable terms, could be further limited, which could limit our ability to generate growth, our profitability, our ability to make distributions and the market price of our common stock. In addition, as a REIT, we must distribute annually at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gain, to our stockholders and are therefore not able to retain significant amounts of our earnings for new investments. While we may, through our taxable REIT subsidiaries, or TRSs, retain earnings as new capital, we are subject to REIT qualification requirements which limit the value of TRS stock and securities relative to the other assets owned by a REIT.

We cannot predict the effects on us of actions taken by the U.S. government and governmental agencies in response to economic conditions in the United States

In response to economic and market conditions, U.S. and foreign governments and governmental agencies have established or proposed a number of programs designed to improve the financial system and credit markets, and to stimulate economic growth. Many governments, including federal, state and local governments in the U.S., are incurring substantial budget deficits and seeking financing in international and national credit markets as well as proposing or enacting austerity programs that seek to reduce government spending, raise taxes, or both. Many credit providers, including banks, may need to obtain additional capital before they will be able to expand their lending activities. We are unable to evaluate the effects these programs and conditions will have upon our financial condition, income, or ability to make distributions to our stockholders.

Risks Related to Our Financing

Our portfolio has been financed in material part through the use of leverage, which may reduce the return on our investments and cash available for distribution.

Our portfolio has been financed in material part through the use of leverage and, as credit market conditions permit, we will seek such financing in the future. Using leverage subjects us to risks associated with debt financing, including the risks that:

- the cash provided by our operating activities will not be sufficient to meet required payments of principal and interest,
- the cost of financing may increase relative to the income from the assets financed, reducing the income we have available to pay distributions, and
- our investments may have maturities that differ from the maturities of the related financing and, consequently, the risk that the terms of any refinancing we obtain will not be as favorable as the terms of existing financing.

If we are unable to secure refinancing of our currently outstanding financing, when due, on acceptable terms, we may be forced to dispose of some of our assets at disadvantageous terms or to obtain financing at unfavorable terms, either of which may result in losses to us or reduce the cash flow available to meet our debt service obligations or to pay distributions.

Financing that we may obtain, and financing we have obtained through CDO and CLOs, typically requires, or will require, us to maintain a specified ratio of the amount of the financing to the value of the assets financed. A decrease in the value of these assets may lead to margin calls or calls for the pledge of additional assets which we will have to satisfy. We may not have sufficient funds or unpledged assets to satisfy any such calls, which could result in our loss of distributions from and interests in affected CDOs and CLOs, which would reduce our assets, income and ability to make distributions.

Our repurchase agreements, warehouse facilities and other short-term financings have credit risks that could result in losses.

If we accumulate assets for a CDO or CLO on a short-term credit facility and do not complete the CDO financing, or if a default occurs under the facility, the short-term lender will sell the assets and we would be responsible for the amount by which the original purchase price of the assets exceeds their sale price, up to the amount of our investment or guaranty.

We will lose money on our repurchase transactions if the counterparty to the transaction defaults on its obligation to resell the underlying security back to us at the end of the transaction term, or if the value of the underlying security has declined as of the end of the term or if we default on our obligations under the repurchase agreements.

We are exposed to loss if lenders under our repurchase agreements, warehouse facilities, or other short-term lenders liquidate the assets securing those facilities. Moreover, assets acquired by us pursuant to our repurchase agreements, warehouse facilities or other short-term debt may not be suitable for refinancing through long-term arrangements which may require us to liquidate some or all of the related assets.

We have entered into repurchase agreements and warehouse facilities and expect in the future to seek additional debt to finance our growth. Lenders typically have the right to liquidate assets securing or acquired under these facilities upon the occurrence of specified events, such as an event of default. We are exposed to loss if the proceeds received by the lender upon liquidation are insufficient to satisfy our obligation to the lender. We are also subject to the risk that the assets subject to such repurchase agreements, warehouse facilities or other debt might not be suitable for long-term refinancing or securitization transactions. If we are unable to refinance these assets on a long-term basis, or if long-term financing is more expensive than we anticipated at the time of our acquisition of the assets to be financed, we might be required to liquidate assets.

We will incur losses on our repurchase transactions if the counterparty to the transactions defaults on its obligation to resell the underlying assets back to us at the end of the transaction term, or if the value of the underlying assets has declined as of the end of the term or if we default in our obligations to purchase the assets.

When engaged in repurchase transactions, we generally sell assets to the transaction counterparty and receive cash from the counterparty. The counterparty must resell the assets back to us at the end of the term of the transaction. Because the cash we receive from the counterparty when we initially sell the assets is less than the market value of those assets, if the counterparty defaults on its obligation to resell the assets back to us we will incur a loss on the transaction. We will also incur a loss if the value of the underlying assets has declined as of the end of the transaction term, as we will have to repurchase the assets for their initial value but would receive assets worth less than that amount. If we default upon our obligation to repurchase the assets, the counterparty may liquidate them at a loss, which we are obligated to repay. Any losses we incur on our repurchase transactions would reduce our earnings, and thus our cash available for distribution to our stockholders.

Financing our REIT qualifying assets with repurchase agreements and warehouse facilities could adversely affect our ability to qualify as a REIT.

We have entered into and intend to enter into, sale and repurchase agreements under which we nominally sell certain REIT qualifying assets to a counterparty and simultaneously enter into an agreement to repurchase the sold assets. We believe that we will be treated for U.S. federal income tax purposes as the owner of the assets that are the subject of any such agreement notwithstanding that we may transfer record ownership of the assets to the counterparty during the term of the agreement. It is possible, however, that the Internal Revenue Service, or IRS, could assert that we did not own the assets during the term of the sale and repurchase agreement, in which case our ability to qualify as a REIT would be adversely affected. If any of our REIT qualifying assets are subject to a repurchase agreement and are sold by the counterparty in connection with a margin call, the loss of those assets could impair our ability to qualify as a REIT. Accordingly, unlike other REITs, we may be subject to additional risk regarding our ability to qualify and maintain our qualification as a REIT.

Historically, we have financed most of our investments through CDOs and have retained the equity. CDO equity receives distributions from the CDO only if the CDO generates enough income to first pay the holders of its debt securities and its expenses.

Historically, we have financed most of our investments through CDOs (including CLOs) in which we retained the equity interest. Depending on market conditions and credit availability, we intend to use CDOs to finance our investments in the future. The equity interests of a CDO are subordinate in right of payment to all other securities issued by the CDO. The equity is usually entitled to all of the income generated by the CDO after the CDO pays all of the interest due on the debt securities and its other expenses. However, there will be little or no income available to the CDO equity if there are excessive defaults by the issuers of the underlying collateral which would significantly reduce the value of that interest. Reductions in the value of the equity interests we have in a CDO, if we determine that they are other than temporary, will reduce our earnings. In addition, the liquidity of the equity securities of CDOs is constrained and, because they represent a leveraged investment in the CDO's assets, the value of the equity securities will generally have greater fluctuations than the value of the underlying collateral.

If our CDO financings fail to meet their performance tests, including over-collateralization requirements, our net income and cash flow from these CDOs will be eliminated.

Our CDOs generally provide that the principal amount of their assets must exceed the principal balance of the related securities issued by them by a certain amount, commonly referred to as “over-collateralization.” If delinquencies and/or losses exceed specified levels, based on the analysis by the rating agencies (or any financial guaranty insurer) of the characteristics of the assets collateralizing the securities issued by the CDO issuer, the required level of over-collateralization may be increased or may be prevented from decreasing as would otherwise be permitted if losses or delinquencies did not exceed those levels. A failure by a CDO to satisfy an over-collateralization test typically results in accelerated distributions to the holders of the senior debt securities issued by the CDO entity, resulting in reduction or elimination of distributions to more junior securities until the over-collateralization requirements have been met or the senior debt securities have been paid in full.

Our equity holdings and, when we acquire debt interests in CDOs, our debt interests, if any, generally are subordinate in right of payment to the other classes of debt securities issued by the CDO entity. Accordingly, if overcollateralization tests are not met, distributions on the subordinated debt and equity we hold in these CDOs will cease, resulting in a substantial reduction in our cash flow. Other tests (based on delinquency levels, interest coverage or other criteria) may restrict our ability to receive cash distributions from assets collateralizing the securities issued by the CDO entity. Although at December 31, 2015, all of our CDOs met their performance tests, we cannot assure you that our CDOs will satisfy the performance tests in the future. For information concerning compliance by our CDOs with their over-collateralization tests, see “Management's Discussion and Analysis of Financial Condition and Results of Operation - Summary of CDO and CLO Performance Statistics.”

If any of our CDOs fails to meet collateralization or other tests relevant to the most senior debt issued and outstanding by the CDO issuer, an event of default may occur under that CDO. If that occurs, our Manager's ability to manage the CDO likely would be terminated and our ability to attempt to cure any defaults in the CDO would be limited, which would increase the likelihood of a reduction or elimination of cash flow and returns to us in those CDOs for an indefinite time.

If we issue debt securities, the terms may restrict our ability to make cash distributions, require us to obtain approval to sell our assets or otherwise restrict our operations in ways which could make it difficult to execute our investment strategy and achieve our investment objectives.

Any debt securities we may issue in the future will likely be governed by an indenture or other instrument containing covenants restricting our operating flexibility. Holders of senior securities may be granted the right to hold a perfected security interest in certain of our assets, to accelerate payments due under the indenture if we breach financial or other covenants, to restrict distributions, and to require us to obtain their approval to sell assets. These covenants could limit our ability to operate our business or manage our assets effectively. Additionally, any convertible or exchangeable securities that we issue may have rights, preferences and privileges more favorable than those of our common stock. We, and indirectly our stockholders, will bear the cost of issuing and servicing such securities.

Depending upon market conditions, we intend to seek financing through CDOs, which would expose us to risks relating to the accumulation of assets for use in the CDOs.

Historically, we have financed a significant portion of our assets through the use of CDOs and CLOs, and have accumulated assets for these financings through short-term credit facilities, typically repurchase agreements or warehouse facilities. Depending upon market condition, and, consequently, the extent to which such financing is available to us, we expect to seek similar financing arrangements in the future. In addition to risks discussed above, these arrangements could expose us to other credit risks, including the following:

- An event of default under one short-term facility may constitute a default under other credit facilities we may have, potentially resulting in asset sales and losses to us, as well as increasing our financing costs or reducing the amount of investable funds available to us.
- We may be unable to acquire a sufficient amount of eligible assets to maximize the efficiency of a CDO or CLO issuance, which would require us to seek other forms of term financing or liquidate the assets. We may not be able to obtain term financing on acceptable terms, or at all, and liquidation of the assets may be at prices less than those we paid, resulting in losses to us.
- Using short-term financing to accumulate assets for a CDO or CLO issuance may require us to obtain new financing as the short-term financing matures. Residual financing may not be available on acceptable terms, or at all. Moreover, an increase in short-term interest rates at the time that we seek to enter into new borrowings would reduce the spread between the income on our assets and the cost of our borrowings. This would reduce returns on our assets, which would reduce earnings and, in turn, cash available for distribution to our stockholders.

Our hedging transactions may not completely insulate us from interest rate risk and may result in poorer overall investment performance than if we had not engaged in any hedging transactions.

Subject to maintaining our qualification as a REIT, we pursue various hedging strategies to seek to reduce our exposure to losses from adverse changes in interest rates. Our interest rate hedging activity varies in scope depending upon market conditions relating to, among other factors, the level and volatility of interest rates and the type of assets we hold. There are practical limitations on our ability to insulate our portfolio from all of the negative consequences associated with changes in short-term interest rates, including:

- Available interest rate hedges may not correspond directly with the interest rate risk against which we seek protection.
- The duration of the hedge may not match the duration of the related liability.
- Interest rate hedging can be expensive, particularly during periods of rising and volatile interest rates. Hedging costs may include structuring and legal fees and fees payable to hedge counterparties to execute the hedge transaction.
- Losses on a hedge position may reduce the cash available to make distributions to stockholders, and may exceed the amounts invested in the hedge position.
- The amount of income that a REIT may earn from hedging transactions, other than through a TRS, is limited by federal tax provisions governing REITs.
- The credit quality of the party owing money on the hedge may be downgraded to such an extent that it impairs our ability to sell or assign our side of the hedging transaction.
- The party owing money in the hedging transaction may default on its obligation to pay.

We have adopted written policies and procedures governing our hedging activities. Under these policies and procedures, our board of directors is responsible for approving the types of hedging instruments we may use, absolute limits on the notional amount and term of a hedging instrument and parameters for the credit-worthiness of hedge counterparties. The senior managers responsible for each of our targeted asset classes are responsible for executing transactions using the services of independent interest rate risk management consultants, documenting the transactions, monitoring the valuation and effectiveness of the hedges, and providing reports concerning our hedging activities and the valuation and effectiveness of our hedges to the audit committee of our board of directors no less often than quarterly. Our guidelines also require us to engage one or more experienced third-party advisors to provide us with assistance in the identification of interest rate risks, the analysis, selection and timing of risk protection strategies, the administration and negotiation of hedge documentation, settlement or disposition of hedges, compliance with hedge accounting requirements and measurement of hedge effectiveness and valuation.

Hedging against a decline in the values of our portfolio positions does not eliminate the possibility of fluctuations in the values of the positions or prevent losses if the values of the positions decline. Hedging transactions may also limit the opportunity for gain if the values of the portfolio positions should increase. Moreover, we may not be able to hedge against an interest rate fluctuation that is generally anticipated by the market.

The success of our hedging transactions will depend on the Manager's ability to correctly predict movements of interest rates. Therefore, unanticipated changes in interest rates may result in poorer overall investment performance than if we had not engaged in any such hedging transactions. In addition, the degree of correlation between price movements of the instruments used in a hedging strategy and price movements in the portfolio positions being hedged may vary. Moreover, for a variety of reasons, we may not seek to establish a perfect correlation between such hedging instruments and the portfolio holdings being hedged. Any such imperfect correlation may prevent us from achieving the intended hedge and expose us to risk of loss.

Hedging instruments often are not traded on regulated exchanges, guaranteed by an exchange or its clearing house, or regulated by any U.S. or foreign governmental authorities and involve risks of default by the hedging counterparty and illiquidity.

Subject to maintaining our qualification as a REIT, part of our investment strategy involves entering into puts and calls on securities or indices of securities, interest rate swaps, caps and collars, including options and forward contracts, and interest rate lock agreements, principally Treasury lock agreements, to seek to hedge against mismatches between the cash flows from our assets and the interest payments on our liabilities. Currently, many hedging instruments are not traded on regulated exchanges, guaranteed by an exchange or its clearing house, or regulated by any U.S. or foreign governmental authorities. Consequently, there may be no applicable requirements with respect to record keeping, financial responsibility or segregation of customer funds and positions. Furthermore, the enforceability of agreements underlying derivative transactions may depend on compliance with applicable statutory and commodity and other regulatory requirements and, depending on the identity of the counterparty, applicable international requirements. The business failure of a counterparty with whom we enter into a hedging transaction will most likely result in a default. Default by a party with whom we entered into a hedging transaction may result in the loss of unrealized profits and force us to cover our resale commitments, if any, at the then current market price. Although generally we seek to reserve the right to terminate our hedging positions, we may not always be able to dispose of or close out a hedging position without the

consent of the hedging counterparty, and we may not be able to enter into an offsetting contract in order to cover our risk. A liquid secondary market may not exist for hedging instruments purchased or sold, and we may have to maintain a position until exercise or expiration, which could result in losses.

We may enter into hedging instruments that could expose us to unexpected losses in the future.

We have entered and may in the future enter into hedging instruments that require us to fund cash payments under certain circumstances, for example, upon the early termination of the instrument caused by an event of default or other early termination event, or the decision by a counterparty to request additional collateral for margin it is contractually owed under the terms of the instrument. The amount due would be equal to the unrealized loss of the open positions with the counterparty and could also include other fees and charges. These liabilities will be reflected in our consolidated balance sheet, and our ability to fund these obligations will depend on the liquidity of our assets and access to capital at the time, and the need to fund these obligations could adversely impact our financial condition.

Approximately 99% of our interest rate hedging arrangements are with a single counterparty and, as a consequence, our hedging strategy may fail if that counterparty defaults in its obligations.

As of December 31, 2015, approximately 99% of our outstanding interest rate hedges, with a notional amount of \$101.7 million, were with Credit Suisse International, or CS. Were CS to default in its obligations under these hedging arrangements, we would lose the hedge protection for which we had contracted which, depending upon market conditions, could result in significant losses to us. We cannot assure you that we could replace the defaulted hedges or that the terms of any replacement hedges we could obtain would be on similar terms, or as to the cost to us of obtaining replacement hedges.

All of our foreign currency hedging arrangements are with a single counterparty and, as a consequence, our hedging strategy may fail if that counterparty defaults in its obligations.

As of December 31, 2015, all of our outstanding foreign currency hedging arrangements, with a notional amount of \$24.9 million, were with Wells Fargo Bank N.A., or Wells Fargo. Were Wells Fargo to default in its obligations under these hedging arrangements, we would lose the hedge protection for which we had contracted which, depending upon market conditions, could result in significant losses to us. We cannot assure you that we could replace the defaulted hedges or that the terms of any replacement hedges we could obtain would be on similar terms, or as to the cost to us of obtaining replacement hedges.

Risks Related to Our Operations

We may change our investment strategy without stockholder consent, which may result in riskier investments than those currently targeted.

Subject to maintaining our qualification as a REIT and our exclusion from regulation under the Investment Company Act, we may change our investment strategy, including the percentage of assets that may be invested in each asset class, or in the case of securities, in a single issuer, at any time without the consent of our stockholders, which could result in our making investments that are different from, and possibly riskier than, the investments described in this report. A change in our investment strategy may increase our exposure to interest rate, credit market and real estate market fluctuations, all of which may reduce the market price of our common stock and reduce our ability to make distributions to stockholders. Furthermore, a change in our asset allocation could result in our making investments in asset categories different from those described in this report.

We believe AFFO is an appropriate measure of our operating performance; however, in certain instances AFFO may not be reflective of actual economic results.

We utilize AFFO as a measure of our operating performance and believe that it is useful to analysts, investors and other parties in the evaluations of REITS. We utilize AFFO as a measure of our operating performance, and believe it is also useful to investors because it facilitates an understanding of our operating performance after adjustment for certain non-cash expenses, such as real estate depreciation, share-based compensation and non-cash impairment losses resulting from fair value adjustments on financial instruments, non-cash provisions for loan losses, non-economic income related to variable interest entities, or VIEs, accounting, equity-method investments gains and losses, straight-line rental effects, amortization of various deferred items and intangible assets, gains on debt extinguishment, REIT tax planning adjustments considered non-recurring by management and capital expenditures that are related to our real estate owned. Additionally, we believe that AFFO serves as a good measure of our operating performance because it facilitates evaluation of our company without the effects of selected items required in accordance with GAAP that may not necessarily be indicative of current operating performance and that may not accurately compare our operating performance between periods. Nonetheless, in certain instances, AFFO may not necessarily be reflective of our actual economic results.

If we fail to maintain an effective system of internal controls, we may not be able to accurately report our financial results or prevent fraud.

If we fail to maintain an effective system of internal control, fail to correct any flaws in the design or operating effectiveness of internal controls over financial reporting and disclosure, or fail to prevent fraud, our stockholders could lose confidence in our financial and other reporting, which could harm our business and the trading price of our common stock.

Many of our investments may be illiquid, which may result in our realizing less than their recorded value should we need to sell such investments quickly.

If we determine to sell one or more of our investments, we may encounter difficulties in finding buyers in a timely manner as real estate debt and other of our investments generally cannot be disposed of quickly, especially when market conditions are poor. Moreover, some of these assets may be subject to legal and other restrictions on resale. If we are required to liquidate all or a portion of our portfolio quickly, we may realize significantly less than the value at which we have previously recorded our investments. In addition, we may face other restrictions on our ability to liquidate an investment in a business entity to the extent that we, the Manager or Resource America has or could be attributed with material non-public information regarding such business entity. These factors may limit our ability to vary our portfolio promptly in response to changes in economic or other conditions and may also limit our ability to use portfolio sales as a source of liquidity, which could limit our ability to make distributions to our stockholders or repay debt.

We may have to repurchase assets that we have sold in connection with CDOs and other securitizations.

If any of the assets that we originate or acquire and sell or securitize do not comply with representations and warranties that we make about them, we may have to purchase these assets from the CDO or securitization vehicle, or replace them. In addition, we may have to indemnify purchasers for losses or expenses incurred as a result of a breach of a representation or warranty. Any significant repurchases or indemnification payments could materially reduce our liquidity, earnings and ability to make distributions.

We may be exposed to environmental liabilities with respect to properties to which we take title.

In the course of our business, we have taken title to, and expect we will in the future take title to, real estate through foreclosure on collateral underlying real estate debt investments. When we do take title to any property, we could be subject to environmental liabilities with respect to it. In such a circumstance, we may be held liable to a governmental entity or to third parties for property damage, personal injury, investigation, and clean-up costs they incur as a result of environmental contamination, or may have to investigate or clean up hazardous or toxic substances, or chemical releases at a property. The costs associated with investigation or remediation activities could be substantial and could reduce our income and ability to make distributions.

Our residential mortgage origination subsidiary, PCM, could be adversely affected by weakness in residential housing markets and by the availability to it of warehouse credit facilities.

PCM primarily operates in the residential mortgage markets. A contraction of the U.S. housing market and overall economy, the tightening of credit restrictions, the availability of warehouse lines of credit and government regulations may negatively impact the future operations of PCM. PCM is a party to various warehouse lines of credit that expire at various times. PCM's operations depend upon the renewal of its warehouse lines of credit and continued access to permanent investors to continue to originate and sell residential mortgage loans at its current loan volume. Additionally, because of underwriting and other issues, permanent investors have been more aggressive pursuing indemnification or repurchase from loan originators, which may reduce PCM's ability to generate cash or operate profitably.

If our allowance for loan losses is not adequate to cover actual future loan and lease losses, our earnings may decline.

We maintain an allowance for loan losses to provide for loan defaults and non-performance by borrowers of their obligations. Our allowance for loan losses may not be adequate to cover actual future loan losses and future provisions for loan losses could materially reduce our income. We base our allowance for loan losses on prior experience, as well as an evaluation of risks in the current portfolio. However, losses have in the past, and may in the future, exceed our current estimates, and the difference could be substantial. The amount of future losses is susceptible to changes in economic, operating and other conditions that may be beyond our control, including changes in interest rates, changes in borrowers' creditworthiness and the value of collateral securing loans. Additionally, if we seek to expand our loan portfolios, we may need to make additional provisions for loan losses to ensure that the allowance remains at levels deemed appropriate by our management for the size and quality of our portfolios. While we believe that our allowance for loan and lease losses at December 31, 2015 is adequate to cover our anticipated losses, we cannot assure you that it will not increase in the future. Any increase in our allowance for loan losses will reduce our income and, if sufficiently large, could cause us to incur loss.

Our due diligence may not reveal all of an investment's weaknesses.

Before investing in any asset, we will assess the strength and skills of the asset's management and operations, the value of the asset and, for debt investments, the value of any collateral securing the debt, the ability of the asset or underlying collateral to service the debt and other factors that we believe are material to the performance of the investment. In making the assessment and otherwise conducting customary due diligence, we will rely on the resources available to us and, in some cases, an investigation by third parties. This process is particularly important and subjective with respect to investments in newly-organized entities because there may be little or no information publicly available about the entities or, with respect to debt securities, any underlying collateral. Our due diligence processes, however, may not uncover all facts that may be relevant to an investment decision.

Risks Related to Our Investments

Declines in the market values of our investments may reduce periodic reported results, credit availability and our ability to make distributions.

We classify a substantial portion of our assets for accounting purposes as "available-for-sale." As a result, reductions in the market values of those assets are directly charged or credited to accumulated other comprehensive loss and could reduce our stockholders' equity. A decline in these values will reduce the book value of our assets. Moreover, if the decline in value of an available-for-sale asset is other than temporary, we are required by GAAP to record the decline as an asset impairment which will reduce our earnings.

A decline in the market value of our assets may also adversely affect us in instances where we have borrowed money based on the market value of those assets. If the market value of those assets declines, the lender may require us to post additional collateral to support the loan. If we were unable to post the additional collateral, we would have to repay some portion or all of the loan, which may require us to sell assets, which could potentially be under adverse market conditions. As a result, our earnings would be reduced or we could sustain losses, and cash available to make distributions could be reduced or eliminated.

Increases in interest rates and other factors could reduce the value of our investments, result in reduced earnings or losses and reduce our ability to pay distributions.

A significant risk associated with our investment in commercial real estate-related loans, CMBS and other debt instruments is the risk that either or both of long-term and short-term interest rates increase significantly. If long-term rates increase, the market value of our assets would decline. Even if assets underlying investments we may own in the future are guaranteed by one or more persons, including government or government-sponsored agencies, those guarantees do not protect against declines in market value of the related assets caused by interest rate changes. At the same time, with respect to assets that are not match-funded or that have been acquired with variable rate or short-term financing, an increase in short-term interest rates would increase our interest expense, reducing our net interest spread or possibly result in negative cash flow from those assets. This could result in reduced profitability and distributions or losses.

Investing in mezzanine debt and mezzanine or other subordinated tranches of CMBS, bank loans and other ABS involves greater risks of loss than senior secured debt investments.

Subject to maintaining our qualification as a REIT and exclusion from regulation under the Investment Company Act, we invest in mezzanine debt and expect to invest in mezzanine or other subordinated tranches of CMBS, bank loans and other ABS. These types of investments carry a higher degree of risk of loss than senior secured debt investments such as our whole loan investments because, in the event of default and foreclosure, holders of senior liens will be paid in full before mezzanine investors. Depending on the value of the underlying collateral at the time of foreclosure, there may not be sufficient assets to pay all or any part of amounts owed to mezzanine investors. Moreover, our mezzanine and other subordinate debt investments may have higher loan-to-value ratios than conventional senior lien financing, resulting in less equity in the collateral and increasing the risk of loss of principal. If a borrower defaults or declares bankruptcy, we may be subject to agreements restricting or eliminating our rights as a creditor, including rights to call a default, foreclose on collateral, accelerate maturity or control decisions made in bankruptcy proceedings. In addition, the prices of lower credit quality securities are generally less sensitive to interest rate changes than more highly rated investments, but more sensitive to economic downturns or individual issuer developments because the ability of obligors of instruments underlying the securities to make principal and interest payments may be impaired. In such event, existing credit support relating to the securities' structure may not be sufficient to protect us against loss of our principal. For additional risks regarding real estate-related loans, see "Risks Related to Real Estate Investments."

We record some of our portfolio investments at fair value as estimated by our management and, as a result, there will be uncertainty as to the value of these investments.

We currently hold, and expect that we will hold in the future, portfolio investments that are not publicly traded. The fair value of securities and other investments that are not publicly traded may not be readily determinable. We value these investments quarterly at fair value as determined under policies approved by our board of directors. Because such valuations are inherently uncertain, may fluctuate over short periods of time and may be based on estimates, our determinations of fair value may differ materially from the values that would have obtained if a ready market for them existed. The value of our common stock will likely decrease if our determinations regarding the fair value of these investments are materially higher than the values that we ultimately realize upon their disposal.

Our assets include bank loans, ABS and Corporate Bonds which will carry higher risks of loss than our real estate-related portfolio.

Subject to maintaining our qualification as a REIT and exclusion from regulation under the Investment Company Act, we invest in bank loans, ABS and Corporate Bonds. Our bank loan investments, ABS investments or our Corporate Bond investments, which are principally backed by small business and bank loans, may not be secured by mortgages or other liens on assets or may involve higher loan-to-value ratios than our real estate-related investments. Our bank loan investments, ABS investments and our Corporate Bond investments backed by loans, include loans with a par amount of \$141.7 million at December 31, 2015 that have an interest-only payment schedule or a schedule that does not fully amortize principal over the term of the loan, which will make repayment of loans depend upon the borrowers' liquidity or ability to refinance the loans at maturity. Numerous factors affect a borrower's ability to repay or refinance loans at maturity, including national and local economic conditions, a downturn in a borrower's industry, loss of one or more principal customers and conditions in the credit markets. A deterioration in a company's financial condition or prospects may be accompanied by a deterioration in the collateral for the bank loan or any ABS or Corporate Bond backed by such company's loans.

We may face competition for suitable investments.

There are numerous REITs and other financial investors seeking to invest in the types of assets we target. This competition may cause us to forgo particular investments or to accept economic terms or structural features that we would not otherwise have accepted, and it may cause us to seek investments outside of our currently targeted areas. Competition for investment assets may slow our growth or limit our profitability and ability to make distributions to our stockholders.

We may not have control over certain of our loans and investments.

Our ability to manage our portfolio of loans and investments may be limited by the form in which they are made. In certain situations, we may:

- acquire investments subject to rights of senior classes and servicers under inter-creditor or servicing agreements;
- acquire only a minority and/or non-controlling participation in an underlying investment;
- co-invest with third parties through partnerships, joint ventures or other entities, thereby acquiring non-controlling interests; or
- rely on independent third-party management or strategic partners with respect to the management of an asset.

Therefore, we may not be able to exercise control over the loan or investment. Such financial assets may involve risks not present in investments where senior creditors, servicers or third-party controlling investors are not involved. Our rights to control the process following a borrower default may be subject to the rights of senior creditors or servicers whose interests may not be aligned with ours. A third party partner or co-venturer may have financial difficulties resulting in a negative impact on such asset, may have economic or business interest or goals which are inconsistent with ours, or may be in a position to take action contrary to our investment objectives. In addition, we may, in certain circumstances, be liable for the actions of our third-party partners or co-venturers.

Risks Related to Our Manager

We depend on the Manager and Resource America to develop and operate our business and may not find suitable replacements if the management agreement terminates.

Apart from those employed by PCM, our newly-acquired residential mortgage subsidiary, we have no employees. Our officers, portfolio managers, administrative personnel and support personnel are employees of Resource America. We have no separate facilities and, except for PCM's operations, completely rely on the Manager and, because the Manager has no direct employees, Resource America, which has significant discretion as to the implementation of our operating policies and investment strategies. If our management agreement terminates, we may be unable to find a suitable replacement for the Manager. Moreover, we believe that our success depends to a significant extent upon the experience of the portfolio managers and officers of the Manager and Resource America who provide services to us, whose continued service is not guaranteed. The departure of any such persons could harm our investment performance.

We must pay the Manager the base management fee regardless of the performance of our portfolio.

The Manager is entitled to receive a monthly base management fee equal to 1/12 of our equity, as defined in the management agreement, times 1.50%, regardless of the performance of our portfolio. The Manager's entitlement to substantial non-performance based compensation might reduce its incentive to devote its time and effort to seeking profitable opportunities for our portfolio. This in turn could hurt our ability to make distributions to our stockholders.

The incentive fee we pay the Manager may induce it to make riskier investments.

In addition to its base management fee, the Manager is entitled to receive incentive compensation, payable quarterly, equal to 25% of the amount by which our adjusted operating earnings, as defined in the management agreement, exceed the weighted average prices for our common stock in all of our offerings multiplied by the greater of 2.00% or 0.50% plus one-fourth of the average 10-year U.S. Treasury rate for such quarter, multiplied by the weighted average number of common shares outstanding during the quarter. In evaluating investments and other management strategies, the opportunity to earn incentive compensation based on net income may lead the Manager to place undue emphasis on the maximization of net income at the expense of other criteria, such as preservation of capital, in order to achieve higher incentive compensation. Investments with higher yields generally have higher risk of loss than investments with lower yields.

The Manager manages our portfolio pursuant to very broad investment guidelines and our board does not approve each investment decision, which may result in our making riskier investments.

The Manager is authorized to follow very broad investment guidelines. While our directors periodically review our investment guidelines and our investment portfolio, they do not review all of our proposed investments. In addition, in conducting periodic reviews, the directors may rely primarily on information provided to them by the Manager. Furthermore, the Manager may use complex strategies, and transactions entered into by the Manager may be difficult or impossible to unwind by the time they are reviewed by the directors. The Manager has great latitude within the broad investment guidelines in determining the types of investments it makes for us. Poor investment decisions could impair our ability to make distributions to our stockholders.

Our management agreement was not negotiated at arm's-length and, as a result, may not be as favorable to us as if it had been negotiated with a third-party.

At the time the management agreement was negotiated, our officers and two of our directors, Edward E. Cohen and Jonathan Z. Cohen, were also officers or directors of the Manager or Resource America. As a consequence, our management agreement was not the result of arm's-length negotiations and its terms, including fees payable, may not be as favorable to us as if it had been negotiated with an unaffiliated third-party.

Termination of the management agreement by us without cause is difficult and could be costly.

Termination of our management agreement without cause is difficult and could be costly. We may terminate the management agreement without cause only annually upon the affirmative vote of at least two-thirds of our independent directors or by a vote of the holders of at least a majority of our outstanding common stock, based upon unsatisfactory performance by the Manager that is materially detrimental to us or a determination that the management fee payable to the Manager is not fair. Moreover, with respect to a determination that the management fee is not fair, the Manager may prevent termination by accepting a mutually acceptable reduction of management fees. We must give not less than 180 days' prior notice of any termination. Upon any termination without cause, the Manager will be paid a termination fee equal to four times the sum of the average annual base management fee and the average annual incentive compensation earned by it during the two 12-month periods immediately preceding the date of termination, calculated as of the end of the most recently completed fiscal quarter before the date of termination.

The Manager and Resource America may engage in activities that compete with us.

Our management agreement does not prohibit the Manager or Resource America from investing in or managing entities that invest in asset classes that are the same as or similar to our targeted asset classes, except that they may not raise funds for, sponsor or advise any new publicly-traded REIT that invests primarily in mortgage-backed securities, or MBS, in the United States. The Manager's policies regarding resolution of conflicts of interest may be varied by it if economic, market, regulatory or other conditions make their application economically inefficient or otherwise impractical. Moreover, our officers, other than our Chief Financial Officer and several accounting professionals on his staff, and the officers, directors and employees of Resource America who provide services to us are not required to work full time on our affairs, and devote significant time to the affairs of Resource America. As a result, there may be significant conflicts between us, on the one hand, and the Manager and Resource America on the other, regarding allocation of the Manager's and Resource America's resources to the management of our investment portfolio.

We have engaged in transactions with entities affiliated with the Manager. Our policies and procedures may be insufficient to address any conflicts of interest that may arise.

We have established procedures and policies regarding review, approval and ratification of transactions which may give rise to a conflict of interest between us and persons affiliated or associated with the Manager. In the ordinary course of our business, we have ongoing relationships and have engaged in transactions with entities affiliated or associated with the Manager. See Item 13, "Certain Relationships and Related Transactions and Director Independence - Relationships and Related Transactions" in this report. Our procedures may not be sufficient to address any conflicts of interest that arise.

Our Manager's liability is limited under the management agreement, and we have agreed to indemnify our Manager against certain liabilities.

Our Manager does not assume any responsibility other than to render the services called for under the management agreement, and will not be responsible for any action of our board of directors in following or declining to follow its advice or recommendations. Resource America, the Manager, their directors, managers, officers, employees and affiliates will not be liable to us, any subsidiary of ours, our directors, our stockholders or any subsidiary's stockholders for acts performed in accordance with and pursuant to the management agreement, except for acts constituting bad faith, willful misconduct, gross negligence, or reckless disregard of their duties under the management agreement. We have agreed to indemnify the parties for all damages and claims arising from acts not constituting bad faith, willful misconduct, gross negligence, or reckless disregard of duties, performed in good faith in accordance with and pursuant to the management agreement.

We depend upon information systems of our Manager and Resource America to conduct our operations. Systems failures could significantly disrupt our business.

Our business depends on communications and information systems of our Manager and Resource America. Any failure or interruption of their systems could cause delays or other problems in our activities which could harm our operating results, cause the market price of our common stock to decline and reduce our ability to make distributions.

Risks Related to Real Estate Investments

Our investments in commercial mortgage loans and mezzanine loans will be subject to the risks inherent in the real estate securing or underlying those investments which could result in losses to us.

Commercial mortgage loans are secured by, and mezzanine loans depend on, the performance of the underlying property and are subject to risks of delinquency and foreclosure, and risks of loss, that are greater than similar risks associated with loans made on the security of single-family residential properties. The ability of a borrower to repay a loan secured by or dependent upon an income-producing property typically depends primarily upon the successful operation of the property rather than upon the existence of independent income or assets of the borrower. If the net operating income of the property is reduced, the borrower's ability to repay the loan may be impaired. Net operating income of an income producing property can be affected by, among other things:

- tenant mix, success of tenant businesses, tenant bankruptcies and property management decisions;
- property location and condition;
- competition from comparable types of properties;
- changes in laws that increase operating expenses or limit rents that may be charged;
- any need to address environmental contamination at the property;
- the occurrence of any uninsured casualty at the property;

- changes in national, regional or local economic conditions and/or the conditions of specific industry segments in which the lessees may operate;
- declines in regional or local real estate values;
- declines in regional or local rental or occupancy rates;
- increases in interest rates, real estate tax rates and other operating expenses;
- the availability of debt or equity financing;
- increases in costs of construction material;
- changes in governmental rules, regulations and fiscal policies, including environmental legislation and zoning laws; and
- acts of God, terrorism, social unrest and civil disturbances.

We risk loss of principal on defaulted mortgage loans we hold to the extent of any deficiency between the value we can realize from the sale of the collateral securing the loan upon foreclosure, and the loan's principal and accrued interest. Moreover, foreclosure of a mortgage loan can be an expensive and lengthy process which could reduce the net amount we can realize on the foreclosed mortgage loan. In a bankruptcy of a mortgage loan borrower, the mortgage loan will be deemed to be secured only to the extent of the value of the underlying collateral at the time of bankruptcy as determined by the bankruptcy court, and the lien securing the mortgage loan will be subject to the avoidance powers of the bankruptcy trustee or debtor-in-possession to the extent the lien is unenforceable under state law.

For a discussion of additional risks associated with mezzanine loans, see -“Investing in mezzanine debt and mezzanine or other subordinated tranches of CMBS, bank loans and other ABS involves greater risks of loss than senior secured debt investments.”

Our investment portfolio may have material geographic, sector, property-type and sponsor concentrations.

We may have material geographic concentrations related to our direct or indirect investments in real estate loans and properties. We also may have material concentrations in the property types and industry sectors that are in our loan portfolio. Where we have any kind of concentration risk in our investments, we may be affected by sector-specific economic or other problems that are not reflected in the national economy generally or in more diverse portfolios. An adverse development in that area of concentration could reduce the value of our investment and our return on that investment and, if the concentration affects a material amount of our investments, impair our ability to execute our investment strategies successfully, reduce our earnings and reduce our ability to make distributions.

The B notes in which we invest may be subject to additional risks relating to the privately negotiated structure and terms of the transaction, which may result in losses to us.

Historically, we have invested in B notes. A B note is a loan typically secured by a first mortgage on a single large commercial property or group of related properties and subordinated to a senior note secured by the same first mortgage on the same collateral. As a result, if a borrower defaults, there may not be sufficient funds remaining for B note owners after payment to the senior note owners. Since each transaction is privately negotiated, B notes can vary in their structural characteristics and risks. For example, the rights of holders of B notes to control the process following a borrower default may be limited in certain investments. We currently own one B note, with a book value of \$15.9 million, and do not expect that we will make further B note investments during 2016. However, depending upon market and economic conditions, we could resume making B note investments at any time. B notes are less liquid than other forms of commercial real estate debt investments, such as CMBS, and, as a result, we may be able to dispose of underperforming or non-performing B note investments only at a significant discount to book value.

Risks Related to Our Organization and Structure

Our charter and bylaws contain provisions that may inhibit potential acquisition bids that you and other stockholders may consider favorable, and the market price of our common stock may be lower as a result.

Our charter and bylaws contain provisions that may have an anti-takeover effect and inhibit a change in our board of directors. These provisions include the following:

- *There are ownership limits and restrictions on transferability and ownership in our charter.* For purposes of assisting us in maintaining our REIT qualification under the Internal Revenue Code, our charter generally prohibits any person from beneficially or constructively owning more than 9.8% in value or number of shares, whichever is more restrictive, of any class or series of our outstanding capital stock. This restriction may:
 - discourage a tender offer or other transactions or a change in the composition of our board of directors or control that might involve a premium price for our shares or otherwise be in the best interests of our stockholders; or
 - result in shares issued or transferred in violation of such restrictions being automatically transferred to a trust for a charitable beneficiary, resulting in the forfeiture of those shares.
- *Our charter permits our board of directors to issue stock with terms that may discourage a third-party from acquiring us.* Our board of directors may amend our charter without stockholder approval to increase the total number of authorized shares of stock or the number of shares of any class or series and issue common or preferred stock having preferences, conversion or other rights, voting powers, restrictions, limitations as to distributions, qualifications, or terms or conditions of redemption as determined by our board. Thus, our board could authorize the issuance of stock with terms and conditions that could have the effect of discouraging a takeover or other transaction in which holders of some or a majority of our shares might receive a premium for their shares over the then-prevailing market price.
- *Our charter and bylaws contain other possible anti-takeover provisions.* Our charter and bylaws contain other provisions, including advance notice procedures for the introduction of business and the nomination of directors, that may have the effect of delaying or preventing a change in control of us or the removal of existing directors and, as a result, could prevent our stockholders from being paid a premium for their common stock over the then-prevailing market price.

Maryland takeover statutes may prevent a change in control of us, and the market price of our common stock may be lower as a result.

Maryland Control Share Acquisition Act. Maryland law provides that “control shares” of a corporation acquired in a “control share acquisition” will have no voting rights except to the extent approved by a vote of two-thirds of the votes eligible to be cast on the matter under the Maryland Control Share Acquisition Act. The act defines “control shares” as voting shares of stock that, if aggregated with all other shares of stock owned by the acquirer or in respect of which the acquirer is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquirer to exercise voting power in electing directors within one of the following ranges of voting power: one-tenth or more but less than one-third, one-third or more but less than a majority, or a majority or more of all voting power. A “control share acquisition” means the acquisition of control shares, subject to specific exceptions.

If voting rights or control shares acquired in a control share acquisition are not approved at a stockholders' meeting or if the acquiring person does not deliver an acquiring person statement as required by the Maryland Control Share Acquisition Act then, subject to specific conditions and limitations, the issuer may redeem any or all of the control shares for fair value. If voting rights of such control shares are approved at a stockholders' meeting and the acquirer becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights.

Our bylaws contain a provision exempting acquisitions of our shares from the Maryland Control Share Acquisition Act. However, our board of directors may amend our bylaws in the future to repeal this exemption.

Business combinations. Under Maryland law, “business combinations” between a Maryland corporation and an interested stockholder or an affiliate of an interested stockholder are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder. These business combinations include a merger, consolidation, share exchange or, in circumstances specified in the statute, an asset transfer or issuance or reclassification of equity securities. An interested stockholder is defined as:

- any person who beneficially owns ten percent or more of the voting power of the corporation's shares; or
- an affiliate or associate of the corporation who, at any time within the two-year period before the date in question, was the beneficial owner of ten percent or more of the voting power of the then outstanding voting stock of the corporation.

A person is not an interested stockholder under the statute if the board of directors approved in advance the transaction by which such person otherwise would have become an interested stockholder. However, in approving a transaction, the board of directors may provide that its approval is subject to compliance, at or after the time of approval, with any terms and conditions determined by the board.

After the five-year prohibition, any business combination between the Maryland corporation and an interested stockholder generally must be recommended by the board of directors of the corporation and approved by the affirmative vote of at least:

- 80% of the votes entitled to be cast by holders of outstanding shares of voting stock of the corporation; and
- two-thirds of the votes entitled to be cast by holders of voting stock of the corporation other than shares held by the interested stockholder with whom or with whose affiliate the business combination is to be effected or held by an affiliate or associate of the interested stockholder.

These super-majority vote requirements do not apply if the corporation's common stockholders receive a minimum price, as defined under Maryland law, for their shares in the form of cash or other consideration in the same form as previously paid by the interested stockholder for its shares.

The statute permits exemptions from its provisions, including business combinations that are exempted by the board of directors before the time that the interested stockholder becomes an interested stockholder.

Our rights and the rights of our stockholders to take action against our directors and officers are limited, which could limit your recourse in the event of actions not in your best interests.

Our charter limits the liability of our directors and officers to us and our stockholders for money damages, except for liability resulting from:

- actual receipt of an improper benefit or profit in money, property or services; or
- a final judgment based upon a finding of active and deliberate dishonesty by the director or officer that was material to the cause of action adjudicated.

In addition, our charter authorizes us to indemnify our present and former directors and officers for actions taken by them in those capacities to the maximum extent permitted by Maryland law. Our bylaws require us to indemnify each present or former director or officer, to the maximum extent permitted by Maryland law, in the defense of any proceeding to which he or she is made, or threatened to be made, a party by reason of his or her service to us. In addition, we may be obligated to fund the defense costs incurred by our directors and officers.

Our right to take action against the Manager is limited.

The obligation of the Manager under the management agreement is to render its services in good faith. It will not be responsible for any action taken by our board of directors or investment committee in following or declining to follow its advice and recommendations. Furthermore, as discussed above under – “Risks Related to Our Manager,” it will be difficult and costly for us to terminate the management agreement without cause. In addition, we will indemnify the Manager, Resource America and their officers and affiliates for any actions taken by them in good faith.

We have not established a minimum distribution payment level and we cannot assure you of our ability to make distributions in the future. We may in the future use uninvested offering proceeds or borrowed funds to make distributions.

We expect to make quarterly distributions to our stockholders in amounts such that we distribute all or substantially all of our taxable income in each year, subject to certain adjustments. We have not established a minimum distribution payment level, and our ability to make distributions may be impaired by the risk factors described in this report. All distributions will be made at the discretion of our board of directors and will depend on our earnings, our financial condition, maintenance of our REIT qualification and other factors as our board of directors may deem relevant from time to time. We may not be able to make distributions in the future. In addition, some of our distributions may include a return of capital. To the extent that we decide to make distributions in excess of our current and accumulated taxable earnings and profits, such distributions would generally be considered a return of capital for federal income tax purposes. A return of capital is not taxable, but it has the effect of reducing the holder's tax basis in its investment. Although we currently do not expect that we will do so, we have in the past and may in the future also use proceeds from any offering of our securities that we have not invested or borrowed funds to make distributions. If we use uninvested offering proceeds to pay distributions in the future, we will have less funds available for investment and, as a result, our earnings and cash available for distribution would be less than we might otherwise have realized had such funds been invested. Similarly, if we borrow to fund distributions, our future interest costs would increase, thereby reducing our future earnings and cash available for distribution from what they otherwise would have been.

Loss of our exclusion from regulation under the Investment Company Act would require significant changes in our operations and could reduce the market price of our common stock and our ability to make distributions.

We rely on an exclusion from registration as an investment company afforded by Section 3(a)(1)(C) of the Investment Company Act. To qualify for this exclusion, we do not engage in the business of investing, reinvesting, owning, holding, or trading securities and we do not own “investment securities” with a value that exceeds 40% of the value of our total assets (exclusive of government securities and cash items) on an unconsolidated basis. We may not be able to maintain such a mix of assets in the future, and attempts to maintain such an asset mix may impair our ability to pursue otherwise attractive investments. In addition, these rules are subject to change and such changes may have an adverse impact on us. We may need to avail ourselves of alternative exclusions and exemptions which may require a change in the organizational structure of our business.

Furthermore, as it relates to our investment in our real estate subsidiary, RCC Real Estate, we rely on an exclusion from registration as an investment company afforded by Section 3(c)(5)(C) of the Investment Company Act. Given the material size of RCC Real Estate relative to our 3(a)(1)(C) exclusion, we are deemed to be an investment company (other than by application of the Section 3(c)(1) exemption for closely held companies and the Section 3(c)(7) exemption for companies owned by “qualified purchasers”), we would not qualify for our 3(a)(1)(C) exclusion. Under the Section 3(c)(5)(C) exclusion, RCC Real Estate is required to maintain, on the basis of positions taken by the SEC staff in interpretive and no-action letters, a minimum of 55% of the value of the total assets of its portfolio in “mortgages and other liens on and interests in real estate,” which we refer to as Qualifying Interests, and a minimum of 80% in Qualifying Interests and real estate-related assets, with the remainder permitted to be miscellaneous assets. Because registration as an investment company would significantly affect RCC Real Estate's ability to engage in certain transactions or to organize itself in the manner it is currently organized, we intend to maintain its qualification for this exclusion from registration.

We treat our investments in CMBS, B Notes and mezzanine loans as Qualifying Interests for purposes of determining our eligibility for the exclusion provided by Section 3(c)(5) to the extent such treatment is consistent with guidance provided by the SEC or its staff. In the absence of specific guidance or guidance that otherwise supports the treatment of these investments as Qualifying Interests, we will treat them, for purposes of determining our eligibility for the exclusion provided by Section 3(c)(5)(C), as real estate-related assets or miscellaneous assets, as appropriate.

The SEC staff has commenced an advance notice rulemaking initiative, indicating that it is reconsidering its interpretive policy under Section 3(c)(5)(C) and whether to propose rules to define the basis for the exclusion. We cannot predict the outcome or timing of this reconsideration or potential rulemaking initiative and its impact on our ability to rely on the exclusion.

If RCC Real Estate's portfolio does not comply with the requirements of the exclusion we rely upon, it could be forced to alter its portfolio by selling or otherwise disposing of a substantial portion of the assets that are not Qualifying Interests or by acquiring a significant position in assets that are Qualifying Interests. Altering its portfolio in this manner may have an adverse effect on its investments if it is forced to dispose of or acquire assets in an unfavorable market, and may adversely affect our stock price.

If it were established that we were an unregistered investment company, there would be a risk that we would be subject to monetary penalties and injunctive relief in an action brought by the SEC, that we would be unable to enforce contracts with third parties, that third parties could seek to obtain rescission of transactions undertaken during the period it was established that we were an unregistered investment company, and that we would be subject to limitations on corporate leverage that would have an adverse impact on our investment returns.

Rapid changes in the values of our real-estate related investments may make it more difficult for us to maintain our qualification as a REIT or exclusion from regulation under the Investment Company Act.

If the market value or income potential of our real estate-related investments declines as a result of economic conditions, increased interest rates, prepayment rates or other factors, we may need to increase our real estate-related investments and income and/or liquidate our non-qualifying assets in order to maintain our REIT qualification or exclusion from registration under the Investment Company Act. If the decline in real estate asset values and/or income occurs quickly, this may be especially difficult to accomplish. This difficulty may be exacerbated by the illiquid nature of many of our non-real estate assets. We may have to make investment decisions that we otherwise would not make absent REIT qualification and Investment Company Act considerations.

Tax Risks

Complying with REIT requirements may cause us to forgo otherwise attractive opportunities.

To qualify as a REIT for federal income tax purposes, we must continually satisfy various tests regarding the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders and the ownership of our common stock. In order to meet these tests, we may be required to forgo investments we might otherwise make. Thus, compliance with the REIT requirements may hinder our investment performance.

In particular, at least 75% of our assets at the end of each calendar quarter must consist of real estate assets, government securities, cash and cash items. For this purpose, “real estate assets” generally include interests in real property, such as land, buildings, leasehold interests in real property, stock of other entities that qualify as REITs, interests in mortgage loans secured by real property, investments in stock or debt instruments during the one-year period following the receipt of new capital and regular or residual interests in a real estate mortgage investment conduit, or REMIC. In addition, the amount of securities of a single issuer, other than a TRS, that we hold must generally not exceed either 5% of the value of our gross assets or 10% of the vote or value of such issuer’s outstanding securities.

Certain of the assets that we hold or intend to hold, including interests in CDOs or corporate leveraged loans, are not qualified and will not be qualified real estate assets for purposes of the REIT asset tests. ABS-RMBS and CMBS securities should generally qualify as real estate assets. However, to the extent that we own non-REMIC collateralized mortgage obligations or other debt instruments secured by mortgage loans (rather than by real property) or secured by non-real estate assets, or debt securities that are not secured by mortgages on real property, those securities are likely not qualifying real estate assets for purposes of the REIT asset test, and will not produce qualifying real estate income. Further, whether securities held by warehouse lenders or financed using repurchase agreements are treated as qualifying assets or as generating qualifying real estate income for purposes of the REIT asset and income tests depends on the terms of the warehouse or repurchase financing arrangement.

We generally will be treated as the owner of any assets that collateralize CDO transactions to the extent that we retain all of the equity of the securitization vehicle and do not make an election to treat such securitization vehicle as a TRS, as described in further detail below. It may be possible to reduce the impact of the REIT asset and gross income requirements by holding certain assets through our TRSs, subject to certain limitations as described below.

Our qualification as a REIT and exemption from U.S. federal income tax with respect to certain assets may depend on the accuracy of legal opinions or advice rendered or given or statements by the issuers of securities in which we invest, and the inaccuracy of any such opinions, advice or statements may adversely affect our REIT qualification and result in significant corporate level tax.

When purchasing securities, we have relied and may rely on opinions or advice of counsel for the issuer of such securities, or statements, made in related offering documents, for purposes of determining whether such securities represent debt or equity securities for U.S. federal income tax purposes, and also to what extent those securities constitute REIT real estate assets for purposes of the REIT asset tests and produce income which qualifies under the 75% REIT gross income test. In addition, when purchasing CDO equity, we have relied and may rely on opinions or advice of counsel regarding the qualification of interests in the debt of such CDOs for U.S. federal income tax purposes. The inaccuracy of any such opinions, advice or statements may adversely affect our REIT qualification and result in significant corporate-level tax.

We may realize excess inclusion income that would increase our tax liability and that of our stockholders.

If we realize excess inclusion income and allocate it to stockholders, this income cannot be offset by net operating losses of the stockholders. If the stockholder is a tax-exempt entity, then this income would be fully taxable as unrelated business taxable income under Section 512 of the Internal Revenue Code. If the stockholder is a foreign person, it would be subject to federal income tax withholding on this income without reduction or exemption pursuant to any otherwise applicable income tax treaty.

Excess inclusion income could result if we hold a residual interest in a REMIC. Excess inclusion income also could be generated if we issue debt obligations, such as certain CDOs, with two or more maturities and the terms of the payments on these obligations bore a relationship to the payments that we received on our mortgage related securities securing those debt obligations, i.e., if we were to own an interest in a taxable mortgage pool. While we do not expect to acquire significant amounts of residual interests in REMICs, we do own residual interests in taxable mortgage pools, which means that we will likely generate significant amounts of excess inclusion income.

If we realize excess inclusion income, we will be taxed at the highest corporate income tax rate on a portion of such income that is allocable to the percentage of our stock held in record name by “disqualified organizations,” which are generally cooperatives, governmental entities and tax-exempt organizations that are exempt from unrelated business taxable income. To the extent that our stock owned by “disqualified organizations” is held in record name by a broker-dealer or other nominee, the broker/dealer or other nominee would be liable for the corporate level tax on the portion of our excess inclusion income allocable to the stock held by the broker-dealer or other nominee on behalf of “disqualified organizations.” We expect that disqualified organizations will own our stock. Because this tax would be imposed on us, all of our investors, including investors that are not disqualified organizations, would bear a portion of the tax cost associated with the classification of us or a portion of our assets as a taxable mortgage pool. A regulated investment company or other pass through entity owning stock in record name will be subject to tax at the highest corporate rate on any excess inclusion income allocated to its owners that are disqualified organizations. Finally, if we fail to qualify as a REIT, our taxable mortgage pool securitizations will be treated as separate corporations, for federal income tax purposes that cannot be included in any consolidated corporate tax return.

Failure to qualify as a REIT would subject us to federal income tax, which would reduce the cash available for distribution to our stockholders.

We believe that we have been organized and operated in a manner that has enabled us to qualify as a REIT for federal income tax purposes commencing with our taxable year ended on December 31, 2005. However, the federal income tax laws governing REITs are extremely complex, and interpretations of the federal income tax laws governing qualification as a REIT are limited. Qualifying as a REIT requires us to meet various tests regarding the nature of our assets and our income, the ownership of our outstanding stock, and the amount of our distributions on an ongoing basis.

If we fail to qualify as a REIT in any calendar year and we do not qualify for certain statutory relief provisions, we will be subject to federal income tax, including any applicable alternative minimum tax on our taxable income, at regular corporate rates. Distributions to stockholders would not be deductible in computing our taxable income. Corporate tax liability would reduce the amount of cash available for distribution to our stockholders. Under some circumstances, we might need to borrow money or sell assets in order to pay that tax. Furthermore, if we fail to maintain our qualification as a REIT and we do not qualify for the statutory relief provisions, we no longer would be required to distribute substantially all of our REIT taxable income, determined without regard to the dividends paid deduction and not including net capital gains, to our stockholders. Unless our failure to qualify as a REIT was excused under federal tax laws, we could not re-elect to qualify as a REIT until the fifth calendar year following the year in which we failed to qualify. In addition, if we fail to qualify as a REIT, our taxable mortgage pool securitizations will be treated as separate corporations for U.S. federal income tax purposes.

Failure to make required distributions would subject us to tax, which would reduce the cash available for distribution to our stockholders.

In order to qualify as a REIT, in each calendar year we must distribute to our stockholders at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gain. To the extent that we satisfy the 90% distribution requirement, but distribute less than 100% of our taxable income, we will be subject to federal corporate income tax on our undistributed income. In addition, we will incur a 4% nondeductible excise tax on the amount, if any, by which our distributions in any calendar year are less than the sum of:

- 85% of our ordinary income for that year;
- 95% of our capital gain net income for that year; and
- 100% our undistributed taxable income from prior years.

We intend to make distributions to our stockholders in a manner intended to satisfy the 90% distribution requirement and to distribute all or substantially all of our net taxable income to avoid both corporate income tax and the 4% nondeductible excise tax. There is no requirement that a domestic TRS distribute its after-tax net income to its parent REIT or their stockholders and our U.S. TRSs may determine not to make any distributions to us. However, non-U.S. TRSs, such as Apidos CDO I, Apidos CDO III, Apidos Cinco CDO, Apidos CLO VIII, Whitney CLO I, Harvest CLO VII, Moselle CLO, Harvest CLO VIII, Harvest X Investor, Harvest X CLO, and Harvest CLO XV Designated Activity Company, which we discuss in “Management’s Discussion and Analysis of Financial Conditions and Results of Operations,” will generally be deemed to distribute their earnings to us on an annual basis for federal income tax purposes, regardless of whether such TRSs actually distribute their earnings.

Our taxable income may substantially exceed our net income as determined by GAAP because, for example, realized capital losses will be deducted in determining our GAAP net income but may not be deductible in computing our taxable income. In addition, we may invest in assets that generate taxable income in excess of economic income or in advance of the corresponding cash flow from the assets, referred to as phantom income. Although some types of phantom income are excluded to the extent

they exceed 5% of our REIT taxable income in determining the 90% distribution requirement, we will incur corporate income tax and the 4% nondeductible excise tax with respect to any phantom income items if we do not distribute those items on an annual basis. As a result, we may generate less cash flow than taxable income in a particular year. In that event, we may be required to use cash reserves, incur debt, or liquidate non-cash assets at rates or times that we regard as unfavorable in order to satisfy the distribution requirement and to avoid corporate income tax and the 4% nondeductible excise tax in that year.

If we make distributions in excess of our current and accumulated earnings and profits, they will be treated as a return of capital, which will reduce the adjusted basis of your stock. To the extent such distributions exceed your adjusted basis, you may recognize a capital gain.

Unless you are a tax-exempt entity, distributions that we make to you generally will be subject to tax as ordinary income to the extent of our current and accumulated earnings and profits as determined for federal income tax purposes. If the amount we distribute to you exceeds your allocable share of our current and accumulated earnings and profits, the excess will be treated as a return of capital to the extent of your adjusted basis in your stock, which will reduce your basis in your stock but will not be subject to tax. To the extent the amount we distribute to you exceeds both your allocable share of our current and accumulated earnings and profits and your adjusted basis, this excess amount will be treated as a gain from the sale or exchange of a capital asset. For risks related to the use of uninvested offering proceeds or borrowings to fund distributions to stockholders, see “– Risks Related to Our Organization and Structure – We have not established a minimum distribution payment level and we cannot assure you of our ability to make distributions in the future.”

Our ownership of and relationship with our TRSs will be limited and a failure to comply with the limits would jeopardize our REIT qualification and may result in the application of a 100% excise tax.

A REIT may own up to 100% of the securities of one or more TRSs. A TRS may earn specified types of income or hold specified assets that would not be qualifying income or assets if earned or held directly by the parent REIT. Both the subsidiary and the REIT must jointly elect to treat the subsidiary as a TRS. A corporation of which a TRS directly or indirectly owns more than 35% of the voting power or value of the stock will automatically be treated as a TRS. Overall, no more than 25% (20% for year beginning after December 31, 2017) of the value of a REIT's assets may consist of stock or securities of one or more TRSs. A TRS will pay federal, state and local income tax at regular corporate rates on any income that it earns, whether or not it distributes that income to us. In addition, the TRS rules limit the deductibility of interest paid or accrued by a TRS to its parent REIT to assure that the TRS is subject to an appropriate level of corporate taxation. The rules also impose a 100% excise tax on certain transactions between a TRS and its parent REIT that are not conducted on an arm's-length basis.

Resource TRS, Resource TRS II, Resource TRS III, Resource TRS IV, Resource TRS V, LTCC, Resource Residential, Inc., and RCC Resi TRS each will pay federal, state and local income tax on its taxable income, and its after-tax net income is available for distribution to us but is not required to be distributed to us. Income that is not distributed to us by our U.S. TRSs will not be subject to the REIT 90% distribution requirement and therefore will not be available for distributions to our stockholders. We anticipate that the aggregate value of the securities we hold in our TRSs will be less than 25% (20% for year beginning after December 31, 2017) of the value of our total assets, including our TRS securities. We will monitor the compliance of our investments in TRSs with the rules relating to value of assets and transactions not on an arm's-length basis. We cannot assure you, however, that we will be able to comply with such rules.

Complying with REIT requirements may limit our ability to hedge effectively.

The REIT provisions of the Internal Revenue Code substantially limit our ability to hedge MBS and related borrowings. Under these provisions, our annual gross income from qualifying and non-qualifying hedges of our borrowings, together with any other income not generated from qualifying real estate assets, cannot exceed 25% of our gross income. In addition, our aggregate gross income from non-qualifying hedges, fees and certain other non-qualifying sources cannot exceed 5% of our annual gross income determined without regard to income from qualifying hedges. As a result, we might have to limit our use of advantageous hedging techniques or implement those hedges through Resource TRS. This could increase the cost of our hedging activities or expose us to greater risks associated with changes in interest rates than we would otherwise want to bear.

The tax on prohibited transactions will limit our ability to engage in transactions, including certain methods of securitizing mortgage loans, that would be treated as sales for federal income tax purposes.

A REIT's net income from prohibited transactions is subject to a 100% tax. In general, prohibited transactions are sales or other dispositions of property, other than foreclosure property, but including mortgage loans, held primarily for sale to customers in the ordinary course of business. We might be subject to this tax if we were able to sell or securitize loans in a manner that was treated as a sale of the loans for federal income tax purposes. Therefore, in order to avoid the prohibited transactions tax, we may choose not to engage in certain sales of loans and may limit the structures we utilize for our securitization transactions even though such sales or structures might otherwise be beneficial to us.

Tax law changes could depress the market price of our common stock.

The federal income tax laws governing REITs or the administrative interpretations of those laws may be amended at any time. We cannot predict when or if any new federal income tax law or administrative interpretation, or any amendment to any existing federal income tax law or administrative interpretation, will become effective and any such law or interpretation may take effect retroactively. Tax law changes could depress our stock price or restrict our operations.

Dividends paid by REITs do not qualify for the reduced tax rates provided for under current law.

Dividends paid by REITs are generally not eligible for the reduced 15% maximum tax rate for dividends paid to individuals (20% for those with taxable income above \$400,000 (if single) or \$450,000 (if married and filing jointly) under current law. The more favorable rates applicable to regular corporate dividends could cause stockholders who are individuals to perceive investments in REITs to be relatively less attractive than investments in the stock of non-REIT corporations that pay dividends to which more favorable rates apply, which could reduce the value of the stocks of REITs. Dividends from REITs as well as regular corporate dividends will also be subject to a 3.8% Medicare surtax for taxpayers with modified adjusted gross income above \$200,000 (if single) or \$250,000 (if married and filing jointly).

We may lose our REIT qualification or be subject to a penalty tax if the Internal Revenue Service successfully challenges our characterization of income inclusions from our foreign TRSs.

We likely will be required to include in our income, even without the receipt of actual distributions, earnings from our foreign TRSs, including from our current and contemplated equity investments in CDOs, such as our investment in Apidos Cinco CDO, Harvest CLO VII, Harvest CLO VIII, and Harvest CLO XV Designated Activity Company. We intend to treat certain of these income inclusions as qualifying income for purposes of the 95% gross income test applicable to REITs but not for purposes of the REIT 75% gross income test. The provisions that set forth what income is qualifying income for purposes of the 95% gross income test provide that gross income derived from dividends, interest and other enumerated classes of passive income qualify for purposes of the 95% gross income test. Income inclusions from equity investments in our foreign TRSs are technically neither dividends nor any of the other enumerated categories of income specified in the 95% gross income test for U.S. federal income tax purposes, and there is no clear precedent with respect to the qualification of such income for purposes of the REIT gross income tests. However, based on advice of counsel, we intend to treat such income inclusions, to the extent distributed by a foreign TRS in the year accrued, as qualifying income for purposes of the 95% gross income test. In addition, in 2011, the IRS issued a private letter ruling to a REIT reaching a result consistent with our treatment. Nevertheless, because this income does not meet the literal requirements of the REIT provisions, it is possible that the IRS could successfully take the position that it is not qualifying income. In the event that it was determined not to qualify for the 95% gross income test, we would be subject to a penalty tax with respect to the income to the extent it and other nonqualifying income exceeds 5% of our gross income and/or we could fail to qualify as a REIT. See “Federal Income Tax Consequences of Our Qualification as a REIT.” In addition, if such income was determined not to qualify for the 95% gross income test, we would need to invest in sufficient qualifying assets, or sell some of our interests in our foreign TRSs to ensure that the income recognized by us from our foreign TRSs or such other corporations does not exceed 5% of our gross income, or cease to qualify as a REIT.

We may lose our REIT qualification or be subject to a penalty tax if we modify mortgage loans or acquired distressed debt in a way that causes us to fail our REIT gross income or asset tests.

Many of the terms of our mortgage loans, mezzanine loans and B notes and the loans supporting our MBS have been modified and may in the future be modified to avoid foreclosure actions and for other reasons. If the terms of the loan are modified in a manner constituting a “significant modification,” such modification triggers a deemed exchange for tax purposes of the original loan for the modified loan. Under existing Treasury Regulations, if a loan is secured by real property and other property and the highest principal amount of the loan outstanding during a taxable year exceeds the fair market value of the real property securing the loan as of (1) the date we agreed to acquire or originate the loan or (2) in the event of certain significant modifications, the date we modified the loan, then a portion of the interest income from such a loan will not be qualifying income for purposes of the 75% gross income test, but will be qualifying income for purposes of the 95% gross income test. Although the law is not entirely clear, a portion of the loan may not be treated as a qualifying “real estate asset” for purposes of the 75% asset test. The non-qualifying portion of such a loan would be subject to, among other requirements, the 10% value test.

Revenue Procedure 2011-16, as modified and superseded by Revenue Procedure 2014-51, provides a safe harbor pursuant to which we will not be required to redetermine the fair market value of the real property securing a loan for purposes of the REIT gross income and asset tests in connection with a loan modification that is: (1) occasioned by a borrower default; or (2) made at a time when we reasonably believe that the modification to the loan will substantially reduce a significant risk of default on the original loan. We cannot assure you that all of our loan modifications have qualified or will qualify for the safe harbor in Revenue Procedure 2011-16, as modified and superseded by Revenue Procedure 2014-51. To the extent we significantly modify loans in

a manner that does not qualify for that safe harbor, we will be required to redetermine the value of the real property securing the loan at the time it was significantly modified. In determining the value of the real property securing such a loan, we generally will not obtain third party appraisals, but rather will rely on internal valuations. No assurance can be provided that the IRS will not successfully challenge our internal valuations. If the terms of our mortgage loans, mezzanine loans and B notes and loans supporting our mortgage backed securities are significantly modified in a manner that does not qualify for the safe harbor in Revenue Procedure 2011-16, as modified and superseded by Revenue Procedure 2014-51 and the fair market value of the real property securing such loans has decreased significantly, we could fail the 75% gross income test, the 75% asset test and/or the 10% value test. Unless we qualified for relief under certain cure provisions in the Code, such failures could cause us to fail to qualify as a REIT.

We and our subsidiaries have and may invest in future acquire distressed debt, including distressed mortgage loans, mezzanine loans, B notes and MBS. Revenue Procedure 2011-16, as modified and superseded by Revenue Procedure 2014-51, provides that the IRS will treat a distressed mortgage loan acquired by a REIT that is secured by real property and other property as producing in part non-qualifying income for the 75% gross income test. Specifically, Revenue Procedure 2011-16, as modified and superseded by Revenue Procedure 2014-51, indicates that interest income on a loan will be treated as qualifying income based on the ratio of (1) the fair market value of the real property securing the loan determined as of the date the REIT committed to acquire the loan and (2) the face amount of the loan (and not the purchase price or current value of the loan). The face amount of a distressed mortgage loan and other distressed debt will typically exceed the fair market value of the real property securing the debt on the date the REIT commits to acquire the debt. We believe that we will continue to invest in distressed debt in a manner consistent with complying with the 75% gross income test and maintaining our qualification as a REIT.

The failure of a loan subject to a repurchase agreement or a mezzanine loan to qualify as a real estate asset would adversely affect our ability to qualify as a REIT.

We have entered into and we intend to continue to enter into sale and repurchase agreements under which we nominally sell certain of our loan assets to a counterparty and simultaneously enter into an agreement to repurchase the sold assets. We believe that we have been and will be treated for U.S. federal income tax purposes as the owner of the loan assets that are the subject of any such agreement notwithstanding that the agreement may transfer record ownership of the assets to the counterparty during the term of the agreement. It is possible, however, that the IRS could assert that we did not own the loan assets during the term of the sale and repurchase agreement, in which case we could fail to qualify as a REIT.

In addition, we have acquired and will continue to acquire mezzanine loans, which are loans secured by equity interest in a partnership or limited liability company that directly or indirectly owns real property. In Revenue Procedure 2003-65, the IRS provided a safe harbor pursuant to which a mezzanine loan, if it meets each of the requirements contained in the Revenue Procedure, will be treated by the IRS as a real estate asset for purposes of the REIT asset tests, and interest derived from the mezzanine loan will be treated as qualifying mortgage interest for purposes of the REIT 75% income test. Although the Revenue Procedure provides a safe harbor on which taxpayers may rely, it does not prescribe rules of substantive tax law. We have acquired and will continue to acquire mezzanine loans that may not meet all of the requirements for reliance on this safe harbor. In the event we own a mezzanine loan that does not meet the safe harbor, the IRS could challenge the loan's treatment as a real estate asset for purposes of the REIT asset and income tests, and if the challenge were sustained, we could fail to qualify as a REIT.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Inapplicable.

ITEM 2. PROPERTIES

Philadelphia, Pennsylvania:

We maintain offices through our Manager. Our Manager and Resource America maintains executive and corporate offices at One Crescent Drive in the Philadelphia Navy Yard, Philadelphia, Pennsylvania, under a lease for 20,234 square feet that expires in May 2019.

In addition, in October 2012 and amended in May 2013, Resource America signed a ten-year lease which commenced in August 2013 for 34,476 square feet of office space at 1845 Walnut Street, Philadelphia, Pennsylvania, an office building in which Resource America owns a 7% equity interest. The lease expires in September 2023.

New York, New York:

Resource America maintains additional executive offices in a 12,930 square foot location at 712 5th Avenue, New York, New York under a lease agreement that expires in July 2020. A portion of this office space is sublet to The Bancorp, Inc., an affiliated entity of Resource America.

ITEM 3. LEGAL PROCEEDINGS

On September 2015, Daren Levin filed a putative class action in the United States District Court for the Southern District of New York on behalf of all persons who purchased our common stock between March 2, 2015 and August 4, 2015. On November 24, 2015, the Court appointed Douglas Drees as the lead plaintiff in the action, and thereafter entered a stipulation and order directing the lead plaintiff to file an amended complaint. On February 12, 2016, the lead plaintiff filed an amended complaint, alleging that we and certain of our officers and directors materially misrepresented certain risks of our commercial loan portfolio and our processes and controls for assessing the quality of our portfolio. Based on these allegations, the amended complaint asserts claims for violation of the securities laws and seeks a variety of relief, including unspecified monetary damages as well as costs and attorneys' fees. We believe the amended complaint is without merit and intend to defend ourselves vigorously.

In December 2015, Josh Reaves filed a shareholder derivative suit in the Supreme Court of New York alleging that our directors and certain officers breached their fiduciary duties by causing us to misrepresent certain risks of our commercial loan portfolio, by failing to employ adequate internal and financial controls, and by failing to disclose the alleged internal control deficiencies. The Complaint, which has not yet been served on us, purports to seek relief on behalf of us for unspecified damages as well as costs and attorneys' fees. We believe that the Plaintiff, who failed to make a pre-suit demand on the Board, lacks standing to assert claims derivatively on our behalf, and we intend to respond accordingly in the event that it is served.

PCM is a party to various claims and legal proceedings at various times. If they believe that a loss arising from any of these matters is probable and can be reasonably estimated, the loss is recorded. Some of these claims may relate to claims for repurchases or indemnifications on loans that PCM has sold to investors. Such claims are included in the reserve for mortgage repurchases and indemnifications. There was no additional accrual for litigation outcomes at December 31, 2015 and 2014.

On May 13, 2014, ResCap Liquidating Trust ("ResCap") as successor to Residential Funding Company, LLC ("RFC"), filed an adversary proceeding against PCM in United States Bankruptcy Court of the Southern District of New York. ResCap has sued some 90 sellers of residential mortgage loans for alleged breaches of warranty in various loans sold to RFC. RFC contends that such breaches caused it damages from loan losses and liability to other transferees of the loans. The case remains pending and has been consolidated with other cases for discovery and pre-trial purposes. PCM intends to defend the action vigorously.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information

Our common stock has been listed on the NYSE under the symbol "RSO" since our initial public offering in February 2006. The following table sets forth for the indicated periods the high and low prices for our common stock, as reported on the NYSE, and the dividends declared and paid during our past two fiscal years:

	High ⁽²⁾	Low ⁽²⁾	Dividends Declared ⁽²⁾
December 31, 2015			
Fourth Quarter ⁽¹⁾	\$13.72	\$10.15	\$0.42
Third Quarter	\$15.64	\$11.06	\$0.64
Second Quarter	\$18.20	\$15.44	\$0.64
First Quarter	\$20.28	\$18.04	\$0.64
December 31, 2014			
Fourth Quarter	\$21.44	\$19.16	\$0.80
Third Quarter	\$22.52	\$19.48	\$0.80
Second Quarter	\$23.60	\$21.44	\$0.80
First Quarter	\$24.32	\$22.08	\$0.80

(1) We distributed a regular dividend of \$0.42 on January 28, 2016 to stockholders of record as of December 31, 2015.

(2) Effective August 31, 2015, we completed a one-for-four reverse stock split of our outstanding common stock. All amounts stated give retroactive effect to the reverse stock split for all periods presented for comparison purposes.

We are organized and conduct our operations to qualify as a REIT, which requires that we distribute at least 90% of our REIT taxable income. Therefore, we intend to continue to declare quarterly distributions on our common stock. No assurance, however, can be given as to the amounts or timing of future distributions as such distributions are subject to our earnings, financial condition, capital requirements and such other factors as our board of directors deems relevant.

As of March 1, 2016, there were 31,441,991 common shares outstanding held by 443 persons of record.

See Item 12. - "Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters" for information relating to securities authorized for issuance under our equity compensation plans.

Our 8.50% Series A Cumulative Redeemable Preferred Stock, or Series A Preferred Stock, are listed on the NYSE and traded under the symbol "RSOPrA." The Series A Preferred shares were first issued in the second quarter of 2012. We declared a dividend per share of \$0.27153 on the Series A Preferred Stock for the second quarter of 2012, representing a proration of the specified dividend for the quarter and for the period during which the Series A Preferred Stock were outstanding. In each subsequent quarter, we have declared and paid the specified dividend per share of \$0.53125. No dividends are currently in arrears on the Series A Preferred Stock.

Our 8.25% Series B Cumulative Redeemable Preferred Stock, or Series B Preferred Stock, are listed on the NYSE and traded under the symbol "RSOPrB." The Series B Preferred shares were first issued in the third quarter of 2012. We declared a dividend per share of \$0.16042 on the Series B Preferred Stock for the third quarter of 2012, representing a proration of the specified dividend for the quarter and for the period during which the Series B Preferred Stock were outstanding. In each subsequent quarter, we have declared and paid the specified dividend per share of \$0.515625. No dividends are currently in arrears on the Series B Preferred Stock.

Our Series C 8.625% Cumulative Redeemable Preferred Stock, or Series C Preferred Stock, are listed on the NYSE and traded under the symbol "RSOPrC." The Series C Preferred shares were first issued in the second quarter of 2014. We declared a dividend per share of \$0.299479 on the Series C Preferred Stock for the second quarter of 2014, representing a proration of the specified dividend for the quarter and for the period during which the Series C Preferred Stock were outstanding. In each subsequent quarter, we have declared and paid the specified dividend per share of \$0.5390625. No dividends are currently in arrears on the Series C Preferred Stock.

Performance Graph

The following line graph presentation compares cumulative total shareholder returns of our common stock with the Russell 2000 Index and the NAREIT All REIT Index for the period from December 31, 2010 to December 31, 2015. The graph and table assume that \$100 was invested in each of our common stock, the Russell 2000 Index and the NAREIT All REIT Index on December 31, 2010, and that all dividends were reinvested. This data as furnished by the Research Data Group.

*\$100 invested on 12/31/10 in stock or index, including reinvestment of dividends.
Fiscal year ending December 31,

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The following discussion provides information to assist you in understanding our financial condition and results of operations. This discussion should be read in conjunction with our consolidated financial statements and related notes appearing elsewhere in this report. This discussion contains forward-looking statements. Actual results could differ materially from those expressed in or implied by those forward-looking statements. Please see "Forward-Looking Statements" and "Risk Factors" in this report for a discussion of certain risks, uncertainties and assumptions associated with those statements.

We are a diversified real estate investment trust, or REIT, that is primarily focused on originating, holding and managing commercial mortgage loans and other commercial real estate-related debt and equity investments. We also make other commercial finance investments. We are organized and conduct our operations to qualify as a REIT under Subchapter M of the Internal Revenue Code of 1986, as amended. Our objective is to provide our stockholders with total returns over time, including quarterly distributions and capital appreciation, while seeking to manage the risks associated with our investment strategies. We invest in a combination of real estate-related assets and, to a lesser extent, higher-yielding commercial finance assets. We have financed a substantial portion of our portfolio investments through borrowing strategies seeking to match the maturities and repricing dates of our financings with the maturities and repricing dates of those investments, and have sought to mitigate interest rate risk through derivative instruments.

We are externally managed by Resource Capital Manager, Inc., or the Manager, an indirect wholly-owned subsidiary of Resource America, Inc. (NASDAQ: REXI), or Resource America, a specialized asset management company that uses industry-specific expertise to evaluate, originate, service and manage investment opportunities through its commercial real estate, financial fund management and commercial finance operating segments. As of December 31, 2015, Resource America managed or co-managed approximately \$21.7 billion of assets in these sectors. To provide its services, the Manager draws upon Resource America, its management team and their collective investment experience.

We generate our income primarily from the spread between the revenues we receive from our assets and the cost to finance the purchase of those assets, from management of assets and from hedging interest rate risks. We generate revenues from the interest and fees we earn on our whole loans, A notes, B notes, mezzanine debt securities, commercial mortgage-backed securities, or CMBS, bank loans, middle market loans, other asset-backed securities, or ABS, and structured note investments. We also generate revenues from fees we receive for the management of externally originated bank loans, from our residential mortgage origination business and from our investment in an equipment leasing business. Historically, we have used a substantial amount of leverage to enhance our returns and we have financed each of our different asset classes with different degrees of leverage. The cost of borrowings that finance our investments is a significant part of our expenses. Our net income depends on our ability to control these expenses relative to our revenue and our ability to limit loan principal losses. In our bank loan, CMBS and ABS portfolios, we historically have used warehouse facilities as a short-term financing source and collateralized debt obligations, or CDOs, and collateralized loan obligations, or CLOs and, to a lesser extent, other term financing as long-term financing sources. In our commercial real estate loan portfolio, we historically have used repurchase agreements as a short-term financing source, and CDOs and, to a lesser extent, other term financing as long-term financing sources. Our other term financing has consisted of long-term, match-funded financing provided through long-term bank financing and asset-backed financing programs, depending upon market conditions and credit availability.

The current state of moderate growth in the United States economy has allowed us to make new investments, particularly in our primary business of commercial real estate lending. During 2014 and 2015, we have underwritten 72 new commercial real estate loans or CRE, loans for a total of \$1.5 billion. These loans were initially financed in part through our CRE term facilities and then financed longer-term through CRE securitizations. We also purchased 11 newly underwritten CMBS for \$27.9 million during the same time period, all of which were financed through our Wells Fargo facility. In addition, we purchased 13 CMBS bonds for \$74.2 million that were financed by short-term repurchase agreements. As a result of the equity market conditions discussed below, and to maintain our market presence and relationship with our borrower base, we intend to modestly grow our commercial real estate lending program, primarily by using recycled capital coupled with debt financing, principally through the \$74.4 million and \$275.6 million of existing capacity on our Wells Fargo term credit facilities and the \$149.4 million of existing capacity on our Morgan Stanley credit facility.

Although economic conditions in the United States have improved, previous conditions in real estate and credit markets continue to affect both us and a number of our borrowers. In our CRE loan portfolio, during the quarter ended June 30, 2015, we recorded a substantial allowance for loan loss on a subordinated mezzanine loan position that was acquired in 2007. The loan was originally supported by a portfolio of 13 hotel properties, most of which were luxury brand hotels. Ten of these hotels were previously sold and proceeds used to pay down senior debt. The last three hotels are located in or near San Juan, Puerto Rico, one of which was sold in July 2015. Economic and credit disruptions in Puerto Rico culminated in the second quarter by triggering events relating to the loan that caused us to determine that the loan was impaired. The outstanding loan balance of \$38.1 million was fully reserved and associated accrued interest of \$3.0 million was reversed against interest income for a total charge to operations of \$41.1 million. In our bank and middle market loan portfolios, we recorded reserves of approximately \$11.8 million during 2015, which was primarily due to a specific reserve on one bank loan, a realized loss on one middle market loan and an increase in general reserves primarily due to marking the middle market portfolio to lower of cost or market. While we have recognized these losses in 2015, we believe that the credit quality on the balance of our loan portfolio is stable. As of December 31, 2015, excluding the loans referred to above, only one bank loan, or \$1.5 million, is delinquent out of a portfolio of \$136.0 million; none of our middle market loans are currently delinquent out of a portfolio of \$379.5 million; and none of our 90 CRE loans, totaling \$1.7 billion, are delinquent, each with respect to debt service.

We have also experienced a reduction in our commercial finance assets, as one of our bank loan CLOs was liquidated in 2014 and another liquidated during the second quarter of 2015. This trend resulted in a substantial decline in our net interest income from bank loans in 2014, which continued through 2015. We began to mitigate this trend by investing in new CLOs and European structured notes in 2014 and 2015 and may recycle additional capital on a limited basis in similar investments during 2016.

In the latter half of 2013, we provided funds to a middle market lending operation ran by our Manager. We have made additional investments and hold approximately \$379.5 million original principal amount of middle market loans, comprised of \$320.2 million of direct originated loans and \$59.3 million of syndicated loans purchased in the secondary market at December 31, 2015. These investments have helped mitigate the revenues lost from the liquidation and run-off of several bank loan CLOs in which we invested. In September 2014, we closed a syndicated loan facility for our middle market loan business with an original capacity of \$125.0 million and an accordion feature to expand the facility to \$225.0 million. The facility has since been modified to a capacity of \$225.0 million with an accordion feature to expand the facility to \$300.0 million. We had drawn \$190.0 million on this facility as of December 31, 2015. We expect slower growth in this business in 2016 and intend to explore strategic alternatives to maximize value for shareholders in this business segment.

On October 31, 2013, we, through RCC Residential, Inc., a taxable REIT subsidiary, acquired a residential mortgage origination company, Primary Capital Mortgage LLC, or PCM, an Atlanta-based firm. Our acquisition of PCM represented a return to the residential mortgage investment market, by providing us with our first residential mortgage origination platform. On June 30, 2014, we also closed a residential jumbo loan-backed securitization where we retained approximately \$30.0 million of the structure's mezzanine securities, of which we sold approximately \$27.0 million in April 2015. PCM is now licensed in 41 states, up from seven states when we acquired the business. We intend to cautiously expand the volume of our residential mortgages originations, including the residential jumbo loan area, over the coming year while continuing to add technology, staff and infrastructure.

Despite our ability to access equity markets in 2014 and early 2015, during the later half of the year, our common shares began to trade at prices below book value and began to trade well below our book value per share. As a result of these conditions, we have sought to enhance shareholder value by instituting, on August 4, 2015, a \$50.0 million common share repurchase program. Through March 1, 2016, we have repurchased approximately \$30.4 million of our common shares.

In the past, we had at our disposal the use of recycled capital within our CLO and CDO structures to make new investments. However, as of December 31, 2015, our remaining bank loan CLO and two earlier real estate CDOs had ended their reinvestment periods. Additionally, our four most recent securitizations were structured as static pools and, as such, do not have reinvestment periods. Instead, principal payments, for a stipulated period, may be used to purchase funding participations with respect to existing collateral held outside of three of the securitizations. This will allow us to recycle some repaid capital and convert the designated principal for funded companion participation acquisition cash which would otherwise be used to pay down the most senior notes thereby reducing leverage and potential returns within the securitization. If the amount of principal repaid exceeds the available participations for purchase or at the end of the stipulated period, principal would then pay down the notes in accordance with their respective indentures.

As of December 31, 2015, we had allocated our invested equity capital among our targeted asset classes as follows: 71% in CRE assets, 27% in commercial finance assets and 2% in other investments. As of December 31, 2014, we had allocated our invested equity capital among our targeted asset classes as follows: 67% of our portfolio in CRE assets, 29% in commercial finance assets and 4% in other investments. We plan to grow our equity allocation in CRE assets to a minimum 75% level during 2016.

Results of Operations

Our net income (loss) allocable to common shares for the year ended December 31, 2015 was \$(13.9) million, or \$(0.43) per share-basic (\$(0.43) per share-diluted) as compared to net income allocable to common shares of \$44.0 million, or \$1.38 per share-basic (\$1.36 per share-diluted) for the year ended December 31, 2014 and net income allocable to common shares of \$39.2 million, or \$1.32 per share-basic (\$1.31 per share-diluted) for the year ended December 31, 2013. Effective August 31, 2015, we completed a one-for-four reverse stock split of our outstanding common stock. The accompanying notes to the financial statements give retroactive effect to the reverse stock split for all periods presented for comparison purposes.

Interest Income

The following tables set forth information relating to our interest income recognized for the periods presented (in thousands, except percentages):

Year Ended December 31, 2015 as compared to Year Ended December 31, 2014

Aggregate interest income increased \$31.2 million to \$158.1 million for the year ended December 31, 2015 as compared to \$126.9 million for the year ended December 31, 2014. We attribute this increase to the following:

Interest Income from Loans

Commercial real estate loans. Interest income on CRE loans increased \$24.8 million to \$89.4 million for the year ended December 31, 2015 due primarily to an increase in the weighted average balance of loans from \$1.1 billion to \$1.6 billion. This increase is due to our origination of loans for inclusion in our three newest CRE securitizations that closed in July 2014, February 2015 and August 2015. The income derived from the increase in the loans was partially offset by a decrease in the weighted average yield from 5.84% to 5.63%.

Middle market loans. Through focused efforts in 2015 to increase the investment in our middle market lending business, the portfolio grew from a weighted average balance of \$129.3 million for the year ended December 31, 2014 to a weighted average balance of \$317.6 million for the year ended December 31, 2015. The weighted average yield increased from 8.95% at December 31, 2014 to 9.72% as of December 31, 2015.

Bank loans. The weighted average loan balance of our bank loan portfolio decreased by \$294.8 million to \$220.1 million for the year ended December 31, 2015 and the weighted average yield changed from 4.69% to 4.50% for the year ended December 31, 2015. This decrease is principally due to three of our CLOS, Apidos CDO I, Ltd. ("Apidos CDO I"), Moselle CLO S.A. ("Moselle CLO"), and Apidos CDO III, Ltd. ("Apidos CDO III") liquidating in October 2014, December 2014 and June 2015, respectively. Additionally, the remaining CLO, Apidos Cinco CDO, Ltd. ("Apidos Cinco CDO"), has matured and reached the end of its reinvestment period in early 2014, and, as a result, we use any principal collected to pay down notes instead of reinvesting in new assets.

Interest Income from Securities

Asset-Backed Securities. Interest income from ABS increased \$3.0 million to \$7.1 million for the year ended December 31, 2015. This increase is primarily due to the acquisitions of structured asset-backed securities by our consolidated variable interest entities, RCM Global, LLC, or RCM Global, and Pelium Capital Partners, L.P., or Pelium Capital, which significantly contributed to the increase in the weighted average balance of the ABS portfolio from \$45.6 million to \$49.5 million. These purchases also increased the weighted average yield of our ABS portfolio from 8.89% to 14.62% during 2015, as these securities are higher-yielding, foreign-currency denominated CLO mezzanine and equity debt securities purchased at significant discounts to par.

Interest income - other. Interest income - other decreased \$2.5 million to \$4.3 million for the year ended December 31, 2015. The decrease is related to the decline in interest income which resulted from sales of our investment securities available for sale in August and September 2015, partially offset by the income earned on our investment in ZWH4, LLC ("ZAIS") in 2015.

	Years Ended December 31,		Dollar Change	Percent Change

Total interest income	<u>\$ 126,907</u>	<u>\$ 117,976</u>	<u>\$ 8,931</u>	<u>8 %</u>

Year Ended December 31, 2014 as compared to Year Ended December 31, 2013

Aggregate interest income increased \$8.9 million to \$126.9 million for the year ended December 31, 2014. We attribute this increase to the following:

Commercial real estate loans. Interest income on CRE loans increased \$19.5 million to \$64.7 million for the year ended December 31, 2014 due primarily to an increase in the weighted average balance of loans from \$767.3 million to \$1.1 billion and, to a lesser extent, to an increase in the weighted average yield from 5.81% to 5.84%. The increase in the weighted average balance of loans is due to our origination of loans for inclusion in our CRE securitizations that closed in December 2013, July 2104, and February 2015. The increase in the weighted average yield is primarily the result of the recognition of a \$1.6 million exit fee on a legacy loan that paid off in 2014.

Middle market loans. Through focused efforts to increase the investment in our middle market lending business, the portfolio grew from a weighted average balance of \$7.1 million for the year ended December 31, 2013 to a weighted average balance of \$129.3 million for the year ended December 31, 2014. Concurrent with this growth and changes in the general lending market, the weighted average yield on investments increased from 7.64% at December 31, 2013 to 8.95% as of December 31, 2014.

Bank loans. The weighted average loan balance of our bank loan portfolio decreased by \$430.7 million to \$514.9 million principally due to four of CLOs, Apidos CLO I, Moselle CLO, Apidos CLO VIII and Whitney CLO I, liquidating in October 2014, November 2014, September 2013 and October 2013, respectively. Additionally, all remaining CLOS, except for Moselle, had matured and reached the end of their reinvestment periods either in prior years or relatively early in 2014 and, as a result, any principal collected is used to pay down notes instead of being reinvested in new assets. The decrease in the weighted average yield from 5.54% to 4.69% was primarily the result of the recognition of significant discount accretion in 2013 upon the liquidation of Apidos CLO VIII and Whitney CLO.

Interest Income from Securities

Asset-Backed Securities, or ABS. Interest income from ABS increased \$2.7 million to \$4.1 million for the year ended December 31, 2014. This increase is primarily due to the acquisitions of structured asset-backed securities by our consolidated variable interest entities, RCM Global and Moselle CLO, which significantly contributed to the increase in the weighted average balance of the ABS portfolio from \$27.4 million to \$45.6 million. These purchases also increased the weighted average yield of our ABS portfolio from 5.06% to 8.89% during 2014, as these securities are higher-yielding, foreign currency denominated CLO mezzanine and equity debt securities purchased at significant discounts to par.

Interest Income - Other. Interest income-other increased \$2.6 million to \$6.8 million for the year ended December 31, 2014. Substantially all of this increase relates to incremental interest income provided by our investments in European structured notes at the end of 2013 and during 2014.

Interest Expense

The following tables set forth information relating to our interest expense incurred for the periods presented by asset class (in thousands, except percentages):

Year Ended December 31, 2015 as compared to Year Ended December 31, 2014

Aggregate interest expense increased \$20.2 million to \$65.7 million for the year ended December 31, 2015. We attribute this increase to the following:

Commercial real estate loans. Interest expense on commercial real estate loans increased \$9.7 million to \$26.4 million for the year ended December 31, 2015. This increase was related to increased borrowings from the consolidation of our new securitizations that closed in February 2015 and August 2015 and to a lesser extent our securitization that closed in July 2014. Current year interest expense also included an acceleration of deferred debt issuance costs related to the paydown of notes. These increases were partially offset by senior note paydown in Resource Real Estate Funding CDO 2006-1, or RREF CDO 2006-1, Resource Real Estate Funding CDO 2007-1, or RREF CDO 2007-1, and Resource Capital Crop. CRE Notes 2013, Ltd., or RCC CRE Notes 2013 as the underlying collateral paid down or paid off.

Convertible senior notes. Interest expense on convertible senior notes increased \$8.6 million to \$17.4 million for the year ended December 31, 2015. The current year interest expense increase is due to interest expense taken on our \$100.0 million (at par) 8% Convertible Senior Notes, which we issued in January 2015.

Middle market loans. In September 2014, we closed on a senior revolving debt facility for our middle market loan portfolio comprised of direct originations and syndicated loans. Interest expense on middle market loans increased \$4.5 million to \$5.3 million for the year ended December 31, 2015. The facility had a weighted average balance of \$145.9 million with a weighted average cost of funds of 3.59% during the year ended December 31, 2015, as compared to weighted average balance of \$16.3 million with a weighted average cost of funds of 4.49% for the year ended December 31, 2014. The increase in interest expense and weighted average balance is primarily a result of strategic borrowings to fund growth in the middle market lending platform. The decrease in cost of funds is attributable to borrowings at a more favorable London Interbank Offered Rate, or LIBOR, rate compared to a rate tied to the prime lending rate. As of December 31, 2015, we had approximately \$190.0 million outstanding on this facility.

Bank loans. Interest expense on bank loans declined \$4.8 million to \$2.5 million for the year ended December 31, 2015. This was primarily due to a decrease in the weighted average note balance outstanding from \$530.1 million to \$196.2 million in our bank loan CLOs due to the call and liquidation of Apidos CDO I in October 2014, Moselle in December 2014 and Apidos III in June 2015, which resulted in the paydown of all of their outstanding notes. In addition, Apidos Cinco CDO reached the end of its reinvestment period in May 2014 and, as a result, principal received from its collateral is being used to pay down the principal amounts of the notes.

Residential mortgage loans. Interest expense on residential loans increased \$2.2 million to \$3.3 million for the year ended December 31, 2015. The increase is primarily related to an increase in market interest rates on borrowings under our residential term repurchase facility and financing agreements used to finance the acquisition of our residential mortgage loans.

Securitized borrowings. Securitized borrowings expense decreased \$704,000 to \$145,000 for the year ended December 31, 2015. The current year's interest expense is primarily related to Moselle CLO, which was consolidated in 2014 and substantially liquidated in December 2014.

	Years Ended December 31,		Dollar Change	Percent Change
	2014	2013		
Interest expense:				
Commercial real estate loans	\$ 16,694	\$ 9,043	\$ 7,651	85 %
Convertible senior notes	8,780	1,480	7,300	493 %
Middle market loans	806	—	806	100 %
Bank loans	7,334	34,463	(27,129)	(79)%
Residential mortgage loans	1,174	81	1,093	1,349 %
CMBS-private placement	709	831	(122)	(15)%
RMBS	173	—	173	100 %
Hedging	6,555	6,751	(196)	(3)%
Securitized borrowings	849	5,531	(4,682)	(85)%
General	2,399	2,830	(431)	(15)%
Total interest expense	\$ 45,473	\$ 61,010	\$ (15,537)	(25)%

Year Ended December 31, 2014 as compared to Year Ended December 31, 2013

Aggregate interest expense decreased \$15.5 million to \$45.5 million for the year ended December 31, 2014. We attribute this decrease to the following:

Commercial real estate loans. Interest expense on commercial real estate loans increased \$7.7 million to \$16.7 million for the year ended December 31, 2014. This was primarily as a result of the consolidation of RCC CRE Notes 2013, a securitization that closed in December 2013, as well as the consolidation of RCC CRE 2014, a securitization that closed in July 2014 and the warehousing of originated loans to be sold into securitization in February 2015. These increases were partially offset by principal payoffs in Resource Real Estate Funding CDO 2006-1, or RREF CDO 2006-1, Resource Real Estate Funding CDO 2007-1, or RREF CDO 2007-1, and RCC CRE Notes 2013 as the underlying collateral paid down or paid off.

Convertible senior notes. Interest expense on convertible senior notes increased \$7.3 million to \$8.8 million for the year ended December 31, 2014. The current year interest expense represents the first full year of interest expense taken on our 6% convertible notes, as the convertible notes were originally issued in October 2013.

Middle market loans. In September 2014, we closed on a senior revolving debt facility for our new middle market loan portfolio comprised of direct originations and syndicated loans. As of December 31, 2014, we had approximately \$113.5 million outstanding on this facility. As we continue to focus on the growth of the middle market platform and its lending capabilities, we expect to expand the financing capacity of this facility in 2015.

Bank loans. Interest expense on bank loans declined \$27.1 million to \$7.3 million for the year ended December 31, 2015. This was primarily due to a decrease in the weighted average note balance outstanding from \$961.7 million to \$530.1 million in our bank loan CLOs due to the call and liquidation of Apidos CDO I in October 2014 and Apidos CLO VIII and Whitney CLO in September 2013 and October 2013, respectively, which resulted in the paydown of all outstanding notes. In addition, Apidos CDO III and Apidos Cinco CDO reached the ends of their reinvestment periods; and, as a result, cash received from their collateral is being used to pay down the principal amounts of the CLOs' notes. The decrease from 3.54% to 1.33% in the weighted average cost of funds is attributable to the liquidations of both Apidos CLO VIII and Whitney CLO I in 2013, as these vehicles had higher costs of funds.

Securitized borrowings. Securitized borrowings expense decreased \$4.7 million to \$849,000 for the year ended December 31, 2014. This interest expense was related to our subordinated investments in Apidos CLO VIII and Whitney CLO I, which were liquidated in 2013. The current year's interest expense is primarily related to Moselle CLO, which was consolidated in 2014 and substantially liquidated in December 2014.

Revenue

The following table sets forth information relating to our revenue incurred for the periods presented (in thousands):

	Years Ended December 31,		Dollar Change	Percent Change
	2015	2014		
Revenue:				
Fee income	\$ 9,509	\$ 9,385	\$ 124	1 %
Dividend income	66	186	(120)	(65)%
Rental income	—	8,441	(8,441)	(100)%
Total revenue	\$ 9,575	\$ 18,012	\$ (8,437)	(47)%

Year Ended December 31, 2015 as compared to Year Ended December 31, 2014

Fee income. Fee income nominally increased \$124,000 to \$9.5 million for the year ended December 31, 2015. The increase is due to increased revenues and fees earned at PCM related to residential mortgage loan originations as that operation expanded, offset by the increase of amortization of servicing rights. In addition, there was an incentive fee recognized on the redemption of a CLO related to our RCAM portfolio, which holds asset-based, management contracts that entitle us to collect senior, subordinated, and incentive fees related to three CLO issuers.

Rental income. There was no rental income for the year ended December 31, 2015. All of our rental properties were sold during 2014. We did not hold any investments in commercial real estate as of December 31, 2015.

The following table sets forth information relating to our revenue incurred for the periods presented (in thousands):

	Years Ended December 31,		Dollar Change	Percent Change
	2014	2013		
Revenue:				
Fee income	\$ 9,385	\$ 5,821	\$ 3,564	61 %
Rental income	8,441	19,923	(11,482)	(58)%
Dividend income	186	273	(87)	(32)%
Total revenue	\$ 18,012	\$ 26,017	\$ (8,005)	(31)%

Year Ended December 31, 2014 as compared to Year Ended December 31, 2013

Fee income. Fee income increased \$3.6 million to \$9.4 million for the year ended December 31, 2014. The increase is primarily due to increased revenues and fees earned at PCM related to residential mortgage loan originations as that operation expanded. PCM was acquired in October 2013.

Rental income. Rental income decreased \$11.5 million to \$8.4 million for the year ended December 31, 2014. This decrease was primarily related to the April 2014 sale of a hotel property we owned. We did not own any rental properties as of December 31, 2014, as we sold our last two remaining real estate properties--a multi-family property in Tennessee and an office property in California--in November 2014.

Operating Expenses

The following table sets forth information relating to operating expenses we incurred for the periods presented (in thousands):

	Years Ended December 31,		Dollar Change	Percent Change
	2015	2014		
Operating expenses:				
Management fees – related party	\$ 13,306	\$ 13,584	\$ (278)	(2)%
Equity compensation – related party	3,145	6,566	(3,421)	(52)%
Rental operating expense	6	5,443	(5,437)	(100)%
Lease operating	57	—	57	100 %
General and administrative	48,080	34,861	13,219	38 %
Depreciation and amortization	4,858	2,737	2,121	77 %
Impairment losses	372	—	372	100 %
Provision for loan and lease losses	49,889	1,804	48,085	2,665 %
Total operating expenses	\$ 119,713	\$ 64,995	\$ 54,718	84 %

Year Ended December 31, 2015 as compared to the Year Ended December 31, 2014

Management fees – related party. Management fee-related party decreased \$278,000 to \$13.3 million for the year ended December 31, 2015. This expense represents compensation in the form of base management fees and incentive management fees pursuant to our management agreement with our Manager as well as fees to the manager of our structured note portfolio. The changes are described below:

- Base management fees decreased by approximately \$278,000 for the year ended December 31, 2015. This decrease was due to decreased stockholders' equity, a component in the formula by which base management fees are calculated, primarily as a result of our repurchase of approximately 5.9% of our outstanding common shares as part of our Board authorized \$50.0 million repurchase plan during the second half of 2015.
- An oversight management fee is a quarterly fee paid to Resource America for reimbursement of additional costs incurred related to our life care business, Long Term Care Conversion Funding, established for the purpose of originating and acquiring life settlement contracts. The initial agreement, authorized in December 2012, provided for an annual fee of \$550,000, with a two-year term. In March 2015, the agreement was amended to reimburse Resource America for an additional year through 2016. The oversight management fee was \$550,000 for both of the years ended December 31, 2015 and 2014.

Equity compensation - related party. Equity compensation - related party decreased \$3.4 million to \$3.1 million for the year ended December 31, 2015. These expenses relate to the amortization of annual grants of restricted common stock to our non-employee independent directors, and annual and discretionary grants of restricted stock to employees of Resource America who provide investment management services to us through our Manager as well as employees of our recently acquired residential mortgage company subsidiary, PCM. The decrease in equity compensation expense was primarily attributable to a decrease in our stock price, which directly impacts our quarterly measurement of compensation expense, as well as the the result of vestings of restricted stock.

Rental operating expense. Rental operating expense decreased \$5.4 million to \$6,000 for the year ended December 31, 2015. This decrease in expense is due to the sale of all of our remaining properties in 2014. We held no investments in commercial real estate as of December 31, 2015.

General and administrative expense. General and administrative expense increased \$13.2 million to \$48.1 million for the year ended December 31, 2015. The following table presents the break out of general and administrative expenses between corporate general and administrative expenses and residential mortgage lending general and administrative expenses:

	Years Ended December 31,		Dollar Change	Percent Change
	2015	2014		
General and administrative expenses:				
Corporate	\$ 17,746	\$ 15,263	\$ 2,483	16.27%
Residential mortgage lending	30,334	19,598	10,736	54.78%
Total	\$ 48,080	\$ 34,861	\$ 13,219	37.92%

General and administrative expense - corporate. General and administrative expense - corporate increased \$2.5 million to \$17.7 million for the year ended December 31, 2015. The increase is attributable to an increase of approximately \$1.0 million in legal expenses incurred pertaining to sale negotiations with respect to one of our CRE loans and a non-recurring expense related to a proposed restructuring on which we determined not to move forward; an increase of \$926,000 related to discretionary bonuses and overall payroll costs year over year due to increased headcount; \$346,000 of federal and state tax penalties due to the late payments of prior year tax return liabilities; a \$176,000 increase due to the timing of audit services provided and billed; and approximately \$122,000 related to increased costs for valuation services on our portfolio investments year over year.

General and administrative expense - PCM. General and administrative expense - PCM increased \$10.7 million to \$30.3 million for the year ended December 31, 2015. The increase reflects increased professional services and increased compensation costs to support PCM's geographic expansion during the year ended December 31, 2015. In 2015, PCM acquired licenses to operate in four additional states, California, Kansas, New Hampshire and Rhode Island, with a license application currently pending in New York.

Depreciation and amortization. Depreciation and amortization increased \$2.1 million to \$4.9 million for the year ended December 31, 2015. This increase was primarily due to an impairment of \$2.4 million, pre-tax, taken on one of our CLOs in our RCAM portfolio. The CLO was redeemed in January 2016 and impairment was recorded as of December 31, 2015.

Provision for loan and lease losses. Provision for loan and lease losses increased \$48.1 million to \$49.9 million for the year ended December 31, 2015. The following table summarizes the information relating to our loan and lease losses for the periods presented (in thousands):

	Years Ended December 31,		Dollar Change	Percent Change
	2015	2014		
CRE loan portfolio	\$ 37,735	\$ (3,758)	\$ 41,493	(1,104)%
Middle market portfolio	8,901	92	8,809	9,575 %
Bank loan portfolio	2,887	4,173	(1,286)	(31)%
Residential mortgage loans	(99)	—	(99)	(100)%
Direct financing leases	465	—	465	100 %
Loan receivable-related party	—	1,297	(1,297)	(100)%
Total provision for loan and lease losses	\$ 49,889	\$ 1,804	\$ 48,085	2,665 %

CRE loan portfolio provision - The increase is the result of an allowance for loan loss on a subordinated mezzanine loan position that was acquired in 2007. The outstanding loan balance of \$38.1 million was fully reserved and associated accrued interest of \$3.0 million was reversed against interest income, for a total charge to operations of \$41.1 million. See "Overview" for a discussion of this loan.

Middle market portfolio provision - The middle market loan provision increased by \$8.8 million for the year ended December 31, 2015 to \$8.9 million. This provision is related to a specific reserve taken on one position with exposure to the oil and gas industry due to its decline in credit quality as well as an increase of \$3.9 million in general reserves during the fourth quarter of 2015 due to valuing our middle loan portfolio at the lower of cost or market. By adjusting the middle market loan portfolio's balance to the lower of cost or market, this will minimize our future loss exposure due to credit and/or market risk.

Bank loan portfolio provision - The bank loan provision decreased by \$1.3 million for the year ended December 31, 2015 to \$2.9 million. The principal reason for the decreased provision was due to the recognition of losses on positions that were subsequently sold for credit reasons as well as losses recognized due to the liquidation of Apidos CLO I. We record all such losses as an adjustment to the allowance for loan and lease losses, effectively increasing the provision for loan and lease losses.

Direct financing leases provision - During the year ended December 31, 2015, we recorded a provision against the value of the direct financing leases in the amount of \$465,000. As of December 31, 2015, we held \$931,000 of direct financing leases, net of provisions.

Loan receivable related party provision - The loan receivable - related party provision decreased by \$1.3 million for the year ended December 31, 2015. This 2014 provision was recognized on a related party loan before we assumed lease collateral as payment in full of our loan in the fourth quarter of 2014. We have no related party loans as of December 31, 2015.

The following table sets forth information relating to our operating expenses incurred for the periods presented (in thousands):

	Years Ended December 31,		Dollar Change	Percent Change
	2014	2013		
Operating expenses:				
Management fees – related party	\$ 13,584	\$ 14,220	\$ (636)	(4)%
Equity compensation – related party	6,566	10,472	(3,906)	(37)%
Rental operating expense	5,443	14,062	(8,619)	(61)%
General and administrative	34,861	14,507	20,354	140 %
Depreciation and amortization	2,737	3,855	(1,118)	(29)%
Impairment losses	—	863	(863)	(100)%
Provision for loan and lease losses	1,804	3,020	(1,216)	(40)%
Total operating expenses	\$ 64,995	\$ 60,999	\$ 3,996	7 %

Year Ended December 31, 2014 as compared to the Year Ended December 31, 2013

Management fees - related party. Management fees - related party decreased \$636,000 to \$13.6 million for the year ended December 31, 2014. These expenses represent compensation in the form of base management fees and incentive management fees pursuant to our management agreement as well as fees to the manager of our structured note portfolio. The changes are described below:

- Incentive management fees to our Manager decreased \$1.9 million (100%) for the year ended December 31, 2014. The decrease in this fee was primarily the result of realized losses on the charge-off of assets in our CRE and Apidos portfolios.
- Base management fees increased by \$1.5 million (13%) for the year ended December 31, 2014. This increase was due to increased stockholders' equity, a component in the formula by which base management fees are calculated, primarily as a result of the receipt of \$49.5 million of proceeds from sales of common stock through our Dividend Reinvestment and Stock Purchase Plan, or DRIP, from January 1, 2013 through December 31, 2014 as well as the receipt of \$114.5 million from the proceeds of our April 2013 secondary common stock offering. In addition, we issued approximately 393,000 shares, 6.7 million shares and 4.8 million shares of Series A preferred stock, Series B preferred stock, and Series C preferred stock respectively, from January 1, 2013 through December 31, 2014, for which we received \$229.6 million of proceeds.

Equity compensation - related party. Equity compensation - related party decreased \$3.9 million to \$6.6 million for the year ended December 31, 2014. These expenses relate to the amortization of annual grants of restricted common stock to our non-employee independent directors, and annual and discretionary grants of restricted stock to employees of Resource America who provide investment management services to us through our Manager as well as employees through our recently acquired residential mortgage company subsidiary. The decrease in expense was primarily the result of restricted stock vesting as well as a decrease in our stock price and its impact on our quarterly remeasurement of the value of unvested stock of non-employees during the year ended December 31, 2014.

Rental operating expense. Rental operating expense decreased \$8.6 million to \$5.4 million for the year ended December 31, 2014. This decrease is primarily related to the sale in April 2014 of our hotel property and the sale in September 2013 of a multi-family apartment building owned by us.

General and administrative expense. General and administrative expense increased \$20.4 million to \$34.9 million for the year ended December 31, 2015. The following table presents the break out of general and administrative expenses between corporate general and administrative expenses and residential mortgage lending general and administrative expenses:

	Years Ended December 31,		Dollar Change	
	2014	2013		
General and administrative expenses:				
Corporate	\$ 15,263	\$ 12,304	\$ 2,959	24.05%
Residential mortgage lending	19,598	2,203	17,395	789.61%
Total	\$ 34,861	\$ 14,507	\$ 20,354	140.30%

General and administrative expense - corporate. General and administrative expense - corporate increased \$3.0 million to \$15.3 million for the year ended December 31, 2014. This increase is primarily the result of the following: an increase of administrative expenses due to the sale of our hotel property in April 2014, an increase in headcount and a corresponding increase in payroll reimbursed to our manager, and an increase of additional professional services being incurred.

General and administrative expense - PCM. General and administrative expense - PCM increased \$17.4 million to \$19.6 million for the year ended December 31, 2014. The increase principally reflects our ownerships of PCM for a full year in 2014 as compared to two months in 2013. Additionally, the business incurred increased compensation costs to support its strategic growth plan.

Depreciation and amortization. Depreciation and amortization decreased \$1.1 million to \$2.7 million for the year ended December 31, 2014. The decrease was primarily the result of the sale of a multi-family property in September 2013 and the reclassification of a hotel property as of December 31, 2014 and a multifamily property as of March 31, 2014, to property held-for-sale. At the time a property is reclassified from an investment in real estate to a property held-for-sale, we cease depreciation of the asset.

Provision for loan and lease losses. Our provision for loan and lease losses decreased \$1.2 million to \$1.8 million for the year ended December 31, 2014. The following table summarizes the information relating our loan losses for the periods presented (in thousands):

	Years Ended December 31,		Dollar Change	Percent Change
	2014	2013		
CRE loan portfolio	\$ (3,758)	\$ 2,686	\$ (6,444)	(240)%
Bank loan portfolio	4,173	312	3,861	1,238 %
Middle market portfolio	92	22	70	318 %
Loan receivable – related party	1,297	—	1,297	100 %
Total provision for loan losses	\$ 1,804	\$ 3,020	\$ (1,216)	(40)%

CRE loan portfolio provision - The principal reason for the increase in recoveries during the year ended December 31, 2014 as compared to the year ended December 31, 2013 was that we reversed a \$4.5 million allowance on a previously reserved position because the mezzanine loan was paid in full.

Bank Loan Portfolio - The bank loan provision increased by \$3.9 million for the year ended December 31, 2014 to \$4.2 million. The principal reason for the increased provision was due to the recognition of losses on positions that were subsequently sold for credit reasons as well as losses recognized due to the liquidation of Apidos CLO I. We record all such losses as an adjustment to the allowance for loan and lease losses, effectively increasing the provision for loan and lease losses.

Loan receivable – related party provision - The loan receivable - related party provision increased by \$1.3 million for the year ended December 31, 2014 to \$1.3 million due to the recognition of \$936,000 of losses directly related to the leases that serve as collateral for this loan and an additional impairment of \$361,000 recognized upon assumption of the lease collateral as payment in full of the loan on December 31, 2014. The additional impairment of \$361,000 represents the difference between the fair value of the net lease assets assumed and the cost basis of the related-party loan recorded on our books as of December 31, 2014.

Other Income (Expense)

The following table sets forth information relating to our other income (expense) incurred for the periods presented (in thousands):

	Years Ended December 31,		Dollar Change	Percent Change
	2015	2014		
Other Income (Expense):				
Equity in earnings of unconsolidated subsidiaries	\$ 2,388	\$ 4,767	\$ (2,379)	(50)%
Net realized and unrealized gain (loss) on sales of investment securities available-for-sale and loans and derivatives	35,703	15,283	20,420	134 %
Net realized and unrealized (loss) gain on investment securities, trading	(547)	(2,818)	2,271	(81)%
Unrealized gain (loss) and net interest income on linked transactions, net	235	7,850	(7,615)	(97)%
(Loss) on reissuance/gain on extinguishment of debt	(1,403)	(4,442)	3,039	(68)%
Gain on sale of real estate	206	6,127	(5,921)	(97)%
Other income (expense)	60	(1,262)	1,322	(105)%
Total other income (expense)	\$ 36,642	\$ 25,505	\$ 11,137	44 %

Year Ended December 31, 2015 as compared to Year Ended December 31, 2014

Equity in earnings of unconsolidated subsidiaries. Equity in earnings of unconsolidated subsidiaries decreased \$2.4 million to \$2.4 million for the year ended December 31, 2015. This decrease in earnings was primarily related to the sale of properties in which we owned equity interests in a real estate joint venture. We did not recognize any income from this joint venture in 2015 as all properties were sold during 2014. The decrease is also attributable a reduction in income related to our investment in CVC Global Credit Opportunities Fund. We earned \$8,000 for the year ended December 31, 2015 compared to \$2.0 million for the year ended December 31, 2014. We have withdrawn our entire investment in this fund as of December 31, 2015. This decrease was offset by a gain in our investment in LCC Preferred Stock. We recognized \$2.6 million in earnings for the year ended December 31, 2015 as compared to a loss of \$1.5 million for 2014. The additional earnings were the result of an increase in originations year over year and continued growth of the portfolio.

Net realized and unrealized gain (loss) on sales of investment securities available-for-sale and loans and derivatives. Net realized gains on investment securities available-for-sale and loans increased \$20.4 million to \$35.7 million for for the year ended December 31, 2015. This increase is primarily related to the net gain on the sale and settlement of certain securities in the partial liquidation of our RCM Global portfolio, realized and unrealized gains on foreign exchange transactions from the settlement of related derivative contracts, unrealized gains on foreign exchange transactions from the settlement of related derivative contracts, and unrealized gains on interest rate lock commitments on our residential loan portfolio. These gains were offset by additional provisions for temporary impairment on PCM's mortgage servicing rights portfolio caused by a change in market interest rate assumptions compounded by a softer than expected residential mortgage loan funding pipeline.

Net realized and unrealized (loss) gain on investment securities, trading. Net realized and unrealized (loss) gain on investment securities, trading declined \$2.3 million to a loss of \$547,000 during the year ended December 31, 2015. The decline in loss is due to realized gains recognized by Pelium Capital, our consolidated subsidiary that invests in structured securities classified as trading securities, from the sale of securities in the start of the year. This change was offset by a decline in the valuation of other trading securities at year end. We did not make an investment in Pelium Capital until September 2014, and, therefore, had only recognized three full months of income in 2014.

Unrealized gain (loss) and net interest income on linked transactions, net. Unrealized gain (loss) and net interest income on linked transactions, net, decreased \$7.6 million to a \$235,000 for the year ended December 31, 2015. This amount is related to our CMBS securities that are purchased with repurchase agreements with the same counterparty from whom the securities were purchased. These transactions are entered into contemporaneously or in contemplation of each other and are presumed not to meet sale accounting criteria. We account for these transactions on a net basis and record a forward purchase commitment to purchase securities (each, a "linked transaction") at fair value. Due to a change in accounting guidance, as of January 1, 2015, the concept of linked transactions no longer exists.

(Loss) on reissuance/gain on extinguishment of debt. Loss on reissuance of debt was \$1.4 million for the year ended December 31, 2015. The transactions that give rise to the recognition of a loss on the reissuance of debt resulted from the reissuance of previously repurchased senior and junior notes in our consolidated variable interest entities in the open market. These senior and junior notes were originally repurchased at discounts to par and represent an opportunity to provide us strategic financing at beneficial rates upon reissuance. At the date these notes were repurchased, a gain, representative of the difference between the repurchase price and the par value of the note, was recognized. Because these same notes were reissued during the year ended December 31, 2015, at a price less than par, an unrealized loss equal to the difference between the reissued price and the par value of the note was recognized in current earnings.

Gain on sale of real estate. The gain on the sale of real estate decreased \$5.9 million to \$206,000 for the year ended December 31, 2015. All of our investments in commercial real estate were sold as of December 31, 2014. Income recognized in 2015 relates to the liquidation of bank accounts held in the properties names offset by the settlement of any outstanding liabilities owed by the properties following their sales.

Other income (expense). Other income (expense) decreased \$1.3 million to income of \$60,000. During the year ended December 31, 2014, we recorded a loss on the consolidation of Life Care Funding, LLC ("LCF"), our entity which originates and acquires life settlement contracts, as a result of our additional investment in and acquisition of a controlling financial interest in the company.

The following table sets forth information relating to our other income (expense) incurred for the periods presented (in thousands):

	Years Ended December 31,		Dollar Change	Percent Change
	2014	2013		
Other Income (Expense):				
Equity in earnings of unconsolidated subsidiaries	\$ 4,767	\$ 949	\$ 3,818	402 %
Net realized and unrealized gain (loss) on sales of investment securities available-for-sale and loans and derivatives	15,283	9,637	5,646	59 %
Net realized and unrealized (loss) gain on investment securities, trading	(2,818)	(324)	(2,494)	770 %
Unrealized gain (loss) and net interest income on linked transactions, net	7,850	(3,841)	11,691	(304)%
(Loss) on reissuance/gain on extinguishment of debt	(4,442)	—	(4,442)	(100)%
Gain on sale of real estate	6,127	16,616	(10,489)	(63)%
Other income (expense)	(1,262)	391	(1,653)	(423)%
Total other income (expense)	\$ 25,505	\$ 23,428	\$ 2,077	9 %

Year Ended December 31, 2014 as compared to Year Ended December 31, 2013

Equity in earnings of unconsolidated subsidiaries. Equity in earnings of unconsolidated subsidiaries increased \$3.8 million to \$4.8 million for the year ended December 31, 2014. This increase in earnings was primarily related to \$3.5 million of gains on the sale of properties in which we owned equity interests in a real estate joint venture, and we also recognized \$2.0 million of income related to our investment in CVC Global Opportunities Fund, L.P. as compared to \$1.2 million for 2013.

Net realized and unrealized gain (loss) on sales of investment securities available-for-sale and loans and derivatives. Net realized and unrealized gain (loss) on sales of investment securities available-for-sale and loans and derivatives increased \$5.6 million to \$15.3 million for the year ended December 31, 2014. The current year balance is comprised of gains of \$2.9 million related to the liquidation of Apidos CLO I; gains of \$4.2 million recognized on the sale of available-for-sale security positions in our newly acquired investment security portfolio held by our consolidated subsidiary RCM Global, LLC; net gains on sales of loans and servicing income at our residential mortgage loan originator of \$9.3 million and net gains of \$1.3 million on our foreign exchange currency contracts. These gains are partially offset by a realized loss on a TBA (to-be-announced security) hedge contract on a portfolio of jumbo loans held in one of our qualified REIT subsidiaries, realized losses on sales of CMBS securities during the year of \$1.6 million and realized losses on our investments in European structured securities of \$2.2 million.

Net realized and unrealized (loss) gain on investment securities, trading. Net realized and unrealized (loss) gain on investment securities, trading decreased \$2.5 million to a loss of \$2.8 million during the year ended December 31, 2014. The current year balance is comprised of a net loss of \$3.4 million in our trading portfolio offset by a net gain of \$600,000 from Pelium Capital, our consolidated subsidiary that invests in structured securities classified as trading securities.

Unrealized gain (loss) and net interest income on linked transactions, net. Unrealized (loss) gain and net interest income on linked transactions, net increased \$11.7 million to \$7.9 million for the year ended December 31, 2014. The amounts are related to our CMBS securities that are purchased with repurchase agreements with the same counterparty from whom the securities were purchased. These transactions are entered into contemporaneously or in contemplation of each other and are presumed not to meet sale accounting criteria. We account for these transactions on a net basis and record a forward purchase commitment to purchase securities (each, a “linked transaction”) at fair value.

(Loss) on reissuance/gain on extinguishment of debt. Loss on reissuance of debt was \$4.4 million for the year ended December 31, 2014. The transactions that give rise to the recognition of a loss on the reissuance of debt resulted from the reissuance of previously repurchased senior and junior notes in our consolidated variable interest entities in the open market. These senior and junior notes were originally repurchased at discounts to par and represent an opportunity to provide us strategic financing at beneficial rates upon reissuance. At the date these notes were repurchased, a gain, representative of the difference between the repurchase price and the par value of the note, was recognized. Because these same notes were reissued during the year ended December 31, 2014, at a price less than par, an unrealized loss equal to the difference between the reissued price and the par value of the note was recognized in current earnings.

Gain on sale of real estate. Gain on the sale of real estate decreased \$10.5 million to \$6.1 million and is related to the sale of our remaining three properties for a combined gain of \$6.1 million as compared to a gain of \$16.6 million from the sale of a multi-family apartment building in 2013.

Other income (expense). Other income (expense) decreased \$1.7 million to a loss of \$1.3 million primarily related to the consolidation of LCF as a result of our additional investment in and acquisition of a controlling financial interest in the company during the first quarter of 2014.

Financial Condition

Summary.

Our total assets at December 31, 2015 were \$2.8 billion as compared to \$2.7 billion at December 31, 2014. The slight increase in total assets was principally due to the increase in CRE originations and our mortgage servicing rights portfolio, offset by the liquidation of Apidos CDO III and the run-off of assets on Apidos Cinco CDO.

Investment Portfolio

The table below summarizes the amortized cost and net carrying amount of our investment portfolio, classified by asset type. The following table includes both (i) the amortized cost of our investment portfolio and (ii) the net carrying amount of our investment portfolio for the period presented as follows (in thousands, except percentages):

As of December 31, 2015	Amortized cost	Net Carrying Amount	Percent of portfolio	Weighted average coupon

(1) Net carrying amount includes an allowance for loan losses of \$41.8 million at December 31, 2015, allocated as follows: whole loans \$3.7 million, B notes \$15,000 and mezzanine loans \$38.1 million. Net carrying amount includes an allowance for loan losses of \$4.0 million at December 31, 2014, allocated as follows: whole loans \$3.8 million, B notes \$55,000 and mezzanine loans \$230,000.

(2) Loans held for sale are carried at the lower of cost or fair market value. Amortized cost is equal to fair value.

(3) There is no stated rate associated with these securities.

(4) Net carrying amount includes allowance for loan losses of \$1.3 million and \$570,000 at December 31, 2015 and December 31, 2014, respectively.

(5) Net carrying amount includes allowance for loan losses of \$3.9 million and \$0 at December 31, 2015 and December 31, 2014, respectively.

(6) Net carrying amount includes allowance for loan losses of \$11,000 and \$0 at December 31, 2015 and December 31, 2014, respectively.

(7) Net carrying amount includes allowance for loan losses of \$465,000 at December 31, 2015.

Commercial Mortgage-Backed Securities-Private Placement. In the aggregate, we purchased our CMBS-private placement portfolio at a net discount. At December 31, 2015 and 2014, the remaining discount to be accreted into income over the remaining lives of the securities was \$1.7 million and \$3.6 million, respectively. At December 31, 2015 and 2014, the remaining premium to be amortized into income over the remaining lives of the securities was \$710,000 and \$619,000, respectively. These securities are classified as available-for-sale and, as a result, are carried at their fair value.

During the years ended December 31, 2015, 2014, and 2013 we recognized other-than-temporary impairment losses of \$0, \$0 and \$328,000, respectively, on positions that supported our CMBS investments. Securities classified as available-for-sale have decreased on a net basis as of December 31, 2015 as compared to December 31, 2014 primarily due to paydowns in 2015. We perform an on-going review of third-party reports and updated financial data on the underlying property financial information to analyze current and projected loan performance. Rating agency downgrades are considered with respect to our income approach when determining other-than-temporary impairment and, when inputs are stressed, the resulting projected cash flows reflect a full recovery of principal.

The following table summarizes our CMBS-private placement at fair value (in thousands, except percentages):

	Fair Value at December 31, 2014	Net Purchases	Upgrades/Downgrades	Paydowns	MTM Change on Same Ratings	December 31, 2015

The Company sold 19 and nine securities during each of the years ended December 31, 2015 and 2014, for a net realized gain of \$1.4 million and \$3.0 million, respectively. The Company held 56 and 37 investment securities, trading as of December 31, 2015 and 2014, respectively.

Real Estate Loans. The following table is a summary of the loans in our commercial real estate loan portfolio at the dates indicated (in thousands):

Description	Quantity	Amortized Cost	Contracted Interest Rates	Maturity Dates ⁽³⁾
As of December 31, 2015:				
Whole loans, floating rate ^{(1) (4) (5) (6) (7) (10)}	87	\$ 1,630,801	LIBOR plus 1.75% to LIBOR plus 15.00%	February 2016 to February 2019
B notes, fixed rate ⁽¹¹⁾	1	15,934	8.68%	April 2016
Mezzanine loans, fixed rate ⁽⁹⁾	2	45,372	9.01%	September 2016
Total ⁽²⁾	90	\$ 1,692,107		
As of December 31, 2014:				
Whole loans, floating rate ^{(1) (5) (6)}	73	\$ 1,263,592	LIBOR plus 1.75% to LIBOR plus 15.00%	May 2015 to February 2019
B notes, fixed rate	1	16,072	8.68%	April 2016
Mezzanine loans, floating rate	1	12,558	LIBOR plus 15.32%	April 2016
Mezzanine loans, fixed rate ⁽⁸⁾	3	54,808	0.50% to 18.71%	January 2016 to September 2021
Total ⁽²⁾	78	\$ 1,347,030		

(1) Whole loans had \$112.6 million and \$105.1 million in unfunded loan commitments as of December 31, 2015 and 2014, respectively. These unfunded commitments are advanced as the borrowers formally request additional funding as permitted under the loan agreement and any necessary approvals have been obtained.

(2) Total does not include an allowance for loan loss of \$41.8 million and \$4.0 million as of December 31, 2015 and 2014, respectively.

(3) Maturity dates do not include possible extension options that may be available to the borrowers.

(4) Includes two whole loans with a combined \$51.2 million senior component that entered into modifications in 2015 that resulted in a fixed rate of 0.50% as of December 31, 2015. The two loans were previously identified as TDR's.

(5) Includes two whole loans with a combined \$12.0 million mezzanine component that have fixed rates of 12.0%, and two whole loans with a combined \$4.2 million mezzanine component that have fixed rates of 15.0% at December 31, 2015 and 2014, respectively.

(6) Includes a \$799,000 junior mezzanine tranche of a whole loan that has a fixed rate of 10.0% as of December 31, 2015 and 2014.

(7) Contractual interest rate does not include a whole loan with an amortized cost of \$32.5 million that entered into a modification in 2015 which reduced the floating rate spread to 1.00% as of December 31, 2015. The loan was previously identified as a TDR.

(8) Fixed rate mezzanine loans include a mezzanine loan that was modified into two tranches, which both currently pay interest at 0.50%. In addition, the subordinate tranche accrues interest at LIBOR plus 18.50% which is deferred until maturity.

(9) Contractual interest rates and maturity dates do not include rates or maturity dates associated with one loans with an amortized cost of \$38.1 that was fully reserved as of June 30, 2015.

(10) Floating rate whole loans includes a loan with an amortized cost of \$13.0 million which extended to February 2017 from February 2016.

(11) Fixed rate B notes includes a loan with an amortized cost of \$15.9 million which paid off in January 2016.

Bank Loans. At December 31, 2015, our consolidated securitizations, Apidos CDO I, Apidos CDO III and Apidos Cinco CDO held a total of \$132.5 million of bank loans at fair value. The bank loans held by the securitizations secure the CDO notes they issued and are not available to satisfy the claims of our creditors. The aggregate fair value of bank loans held decreased by \$190.7 million over their holdings at December 31, 2014. This decrease was primarily due to the liquidation of Apidos CDO III which occurred in June 2015.

The following table summarizes our bank loan investments (in thousands):

Middle Market Loans. At December 31, 2015, Northport TRS, LLC, or "Northport," our middle market lending platform, held a total of \$376.3 million of middle market loans at fair value. The middle market loans held by Northport serve to collateralize its senior secured revolving credit agreement. The aggregate fair value of bank loans held by Northport increased by \$128.5 million over its holdings at December 31, 2014. This increase was primarily due to increased originations and purchase of production in our middle market lending platform.

The following table summarizes our middle market loans (in thousands):

	December 31, 2015		December 31, 2014

Asset-backed securities. At December 31, 2015, we held a total of \$44.2 million of ABS at fair value through Apidos Cinco CDO, RCM Global, and RCC Commercial II. At December 31, 2014, we held a total of \$72.2 million fair value of ABS through Apidos CDO III, Apidos Cinco CDO, RCM Global, and RCC Commercial II. The decrease in total ABS during 2015 was due to the sale of structured notes by RCM Global as well as the liquidation of Apidos III in June 2015.

The following table summarizes our ABS at fair value (in thousands):

	December 31, 2015		December 31, 2014

Corporate bonds. At December 31, 2015, our consolidated securitization, Apidos Cinco CDO, held a total of \$2.3 million of corporate bonds at fair value, which secure the debt issued by this entity. We record the bonds at fair value, with any unrealized gain or loss reported in the stockholder's equity section of the balance sheet. The aggregate fair value of corporate bonds held decreased by \$147,000 over those held at December 31, 2014. This decrease was primarily due to increased unrealized losses attributable to market pricing during the twelve months ended December 31, 2015.

The following table summarizes our corporate bonds at fair value (in thousands):

	December 31, 2015		December 31, 2014

Total		\$ 50,030	\$ 59,827	\$ (33)	\$ 2,790	\$ (460)

(1) Investment in School Lane House, Investment in RRE VIP Borrower and the Investments in preferred equity were sold or repaid as of December 31, 2014.

(2) In December 2015, we elected a full redemption of their remaining investment from the fund.

(3) In January 2013, LTCC invested \$2.0 million into LCF for the purpose of originating and acquiring life settlement contracts. In February 2014, we invested an additional \$1.4 million which resulted in the consolidation of LCF during the first quarter of 2014. Ownership percentage represents ownership following additional investments and consolidation.

(4) For the years ended December 31, 2015, 2014, and 2013 these amounts are recorded in interest expense on our consolidated statements of operations.

(5) For the years ended December 31, 2015, 2014 and 2013 these amounts are recorded in interest income on loans on our consolidated statements of operations.

(6) We have committed up to \$50.0 million in Pearlmark Mezzanine Realty Partners IV, L.P. The commitment termination date ends when the original commitment is fully funded, or the fifth anniversary of the final closing date, June 24, 2015.

Credit quality indicators**Bank Loans**

Loans are graded at inception and updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1 to 5 with 1 representing our highest rating and 5 representing its lowest rating. Bank loans are first individually evaluated for impairment. To the extent no individual impairment is determined, a general reserve is established.

The characteristics of each rating category are as follows:

1. Loans with a rating of 1 are considered performing within expectations. All interest and principal payments are current, all future payments are anticipated and loss is not probable;
2. Loans with a rating of a 2 are considered to have limited liquidity concerns and are watched closely. Loans identified in this category show remote signs of liquidity concerns, loss is not probable and therefore no reserve is established;
3. Loans with a rating of a 3 are considered to have possible future liquidity concerns. Loans identified in this category show some liquidity concerns, but the ability to estimate potential defaults is not quantifiable and therefore no reserve is established;
4. Loans with a rating of a 4 are considered to have nearer term liquidity concerns. These loans have a reasonable possibility of future default. However, the risk of loss is not assignable to one specific credit. The noted risk of the loans in this category is covered by general reserves; and
5. Loans with a rating of a 5 have defaulted in payment of principal and interest or default is imminent. It is probable that impairment has occurred on these loans based on their payment status and that impairment is estimable. The noted risk of the loans in this category is covered by specific reserves.

Credit risk profiles of bank loans were as follows (in thousands):

	Rating 1	Rating 2	Rating 3	Rating 4	Rating 5	Held for Sale	Total
As of December 31, 2015:							
Bank loans	\$ 113,897	\$ 17,578	\$ 1,498	\$ —	\$ 1,544	\$ 1,475	\$ 135,992
As of December 31, 2014:							
Bank loans	\$ 291,214	\$ 32,660	\$ 5,424	\$ —	\$ 1,350	\$ 282	\$ 330,930

All of our bank loans were current with respect to debt service with the exception of one loan with an amortized cost of \$1.5 million as of December 31, 2015. As of December 31, 2014, all of our bank loans were current with respect to debt service with the exception of two loans with an amortized aggregate cost of \$1.4 million, one of which defaulted as of March 31, 2014 and the other which defaulted as of September 30, 2014.

Middle Market Loans

At inception, all middle market loans are graded at a 2 and updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1 to 5 with 1 representing our highest rating and 5 representing our lowest rating. Middle market loans are only evaluated individually for impairment.

The characteristics of each rating category are as follows:

1. A loan with a rating of a 1 is considered performing above expectations and the likelihood of loss is remote;
2. A loan with a rating of a 2 is considered performing within expectations and the likelihood of loss is remote;
3. A loan with a rating of a 3 is considered performing below expectations and requires close monitoring but no loss of interest or principal is expected. Loans receiving this rating may be out of compliance with financial covenants; however, these loans are current with respect to interest and principal;
4. A loan with a rating of a 4 is considered performing below expectations and some loss of interest or dividend is expected but no loss of principal. In addition to the borrower being generally out of compliance with debt covenants, loan payments may be past due, but generally not more than 180 days past due; and
5. A loan with a rating of a 5 is considered performing substantially below expectations, in default and some loss of principal is expected. Most or all of the debt covenants are out of compliance and payments are substantially delinquent.

Credit risk profiles of middle market loans were as follows (in thousands):

	Rating 1	Rating 2	Rating 3	Rating 4	Rating 5	Held for Sale	Total
As of December 31, 2015:							
Middle market loans	\$ 44,252	\$ 305,578	\$ 29,622	\$ —	\$ —	\$ —	\$ 379,452
As of December 31, 2014:							
Middle market loans	\$ —	\$ 240,245	\$ 9,868	\$ —	\$ —	\$ —	\$ 250,113

All of our middle market loans were current with respect to debt service as of December 31, 2015 and 2014.

Commercial Real Estate Loans

Loans are graded at inception and updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1 to 4 with 1 representing our highest rating and 4 representing its lowest rating. Commercial real estate loans are first individually evaluated for impairment. To the extent no individual impairment is determined, a general reserve is established.

The characteristics of each rating category are as follows:

1. A loan with a rating of a 1 is considered to have satisfactory performance with no issues noted. All interest and principal payments are current and the probability of loss is remote;
2. A loan is graded with a rating of a 2 if a surveillance trigger event has occurred, but loss is not probable at this time. Such trigger events could include but are not limited to a trending decrease in occupancy rates or a flattening of lease revenues; and to a lesser extent, ground lease defaults, ground lease expirations that occur in the next six months or the borrower is delinquent on payment of property taxes or insurance.;
3. A loan with a rating of 3 has experienced an extended decline in operating performance, a significant deviation from its origination plan or the occurrence of one or more surveillance trigger events which create an increased risk for potential default. Loans identified in this category show some liquidity concerns. However, the risk of loss is not specifically assignable to any individual loan. The noted risk of the loans in this category is covered by general reserves;
4. A loan with a rating of a 4 is considered to be in payment default or default is expected, full recovery of the unpaid principal balance is improbable and loss is considered probable. The noted risk of the loans in this category is covered by specific reserves.

During the second quarter of 2015, we recorded an allowance for loan loss on a subordinated mezzanine loan position that was acquired in 2007. The outstanding loan balance of \$38.1 million was fully reserved and associated accrued interest of \$3.0 million was reserved reversed against interest income, for a total charge to operations of \$41.1 million. The loan was originally supported by a portfolio of 13 hotel properties, most of which were luxury brand hotels. As of December 31, 2015, of the original 13 hotel properties securing the loan, two properties remain, both of which are located in or near San Juan, Puerto Rico.

A confluence of several events led to the determination during the quarter that the loan was no longer collectible.

First, the senior mortgage secured by the assets was refinanced in May 2015, and the new financing contained terms and conditions that materially altered the time period over which the borrower had originally planned to complete executing its business plan, which entailed holding the assets in an effort to maximize value. The principal conditions of the new senior loan were that it had a one year term with no extension options, a high interest rate and a forced asset-sale mechanism that assured the new senior loan would be paid in full in 2016.

Second, the Commonwealth of Puerto Rico had been undergoing a very turbulent and volatile period regarding the Commonwealth's debt obligations and has been seeking to restructure its \$73.0 billion of debt. The Puerto Rico debt crisis worsened through and after the second quarter, and within the last month, ultimately culminating in Puerto Rico defaulting on a \$58.0 million payment due to the Public Finance Corporation on August 1, 2015. The significant threats of a default by Puerto Rico have been publicized and the financial crisis there has resulted in significantly reduced tourism and significantly impaired property values.

Likely due, at least in part, to the Puerto Rico debt crisis, one of the three remaining hotel properties went under contract in June 2015 and was sold in July 2015 at an amount that would make it very difficult for the other two remaining properties to generate sufficient proceeds to repay the remaining debt. As a result, we concluded as of June 30, 2015, that the loan should be classified as a troubled-debt-restructuring and, further, that the loan should be fully reserved.

Credit risk profiles of commercial real estate loans were as follows (in thousands):

	Rating 1	Rating 2	Rating 3	Rating 4	Held for Sale	Total
As of December 31, 2015:						
Whole loans	\$ 1,596,099	\$ 32,500	\$ —	\$ 2,202	\$ —	\$ 1,630,801

	<u>\$ 1,292,596</u>	<u>\$ 54,434</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 1,347,030</u>

All of our commercial real estate loans are current with the exception of one mezzanine loan that was defaulted as of December 31, 2015. All of our commercial real estate loans were current as of December 31, 2014.

Residential Mortgage Loans

We review residential mortgage loans periodically for collectability in light of historical experience, the nature and amount of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, and prevailing underlying conditions.

Loans Receivable - Related Party

During the year ended December 31, 2014, we recorded a provision of \$1.3 million before extinguishing the loan and bringing direct financing leases in the amount of \$2.1 million on our books in lieu of cash settlement of the loan receivable.

Direct Financing Leases

During the year ended December 31, 2015, we recorded a provision against the value of the direct financing leases in the amount of \$465,000. As of December 31, 2015, we held \$931,000 of direct financing leases, net of provisions.

Loan Portfolios Aging Analysis

Bank loans	—	—	—
Middle market loans	—	—	—
Loans receivable - related party	—	—	—
Total loans	4	\$ 137,811	\$ 137,811

As of December 31, 2015, one commercial real estate loan troubled-debt restructuring has subsequently defaulted. As of December 31, 2014, no commercial real estate loan troubled-debt restructurings had subsequently defaulted.

Restricted cash.

At December 31, 2015, we had restricted cash of \$40.6 million, which consisted of \$39.0 million of restricted cash within our eight securitizations, \$1.4 million held as margin, and \$195,000 held in various reserve accounts. At December 31, 2014, we had restricted cash of \$122.1 million, which consisted of \$121.2 million of restricted cash within our ten securitizations, \$688,000 held as margin, and \$209,000 held in various reserve accounts. The decrease of \$81.5 million from the prior year is primarily related to the liquidation of Moselle and Apidos CDO III during the twelve months ended with proceeds used to pay down note holders.

Interest Receivable.

At December 31, 2015, we had interest receivable of \$14.0 million, which consisted of \$14.0 million of interest on our securities and loans and \$6,000 of interest earned on escrow and sweep accounts. At December 31, 2014, we had interest receivable of \$16.3 million, which consisted of \$16.3 million of interest on our securities and loans and \$6,000 of interest earned on escrow and sweep accounts. The \$2.3 million decrease was attributable to a decrease in interest receivable on CRE loans of \$2.4 million primarily due to a write off a mezzanine loan in June 2015, a decrease in interest receivable on bank loans of \$522,200 due to the liquidation of Apidos III in June 2015, a decrease of in interest receivable on structured notes of \$417,000, a decrease in interest receivable on RMBS of \$168,000, and a decrease in interest receivable on middle market loans of \$56,000. This decrease was partially offset by an increase in interest receivable on equity investments of \$1.2 million from our February 2015 investment in ZAIS, an increase in interest receivable on PCM of \$52,000, and an increase of \$59,000 in interest receivable on CMBS.

Prepaid Expenses.

The following table summarizes our prepaid expenses as of December 31, 2015 and 2014 (in thousands):

	December 31,		Net Change
	2015	2014	
Prepaid taxes	\$ 1,598	\$ 2,622	\$ (1,024)
Prepaid insurance	224	191	33
Other prepaid expenses	1,358	1,383	(25)
Total	<u>\$ 3,180</u>	<u>\$ 4,196</u>	<u>\$ (1,016)</u>

Prepaid expenses decreased \$1.0 million to \$3.2 million as of December 31, 2015 from \$4.2 million as of December 31, 2014. The decrease of \$1.0 million in prepaid taxes resulted primarily from a decrease in cash taxes paid and by a decrease of \$25,000 in other prepaid expenses, partially offset by an increase of \$33,000 in prepaid insurance due to a new insurance policy taken on one our new entities in 2015.

Other Assets.

The following table summarizes our other assets as of December 31, 2015 and 2014 (in thousands):

	December 31,		Net Change
	2015	2014	
Other Receivables	\$ 12,578	\$ 7,281	\$ 5,297
Fixed assets - non real estate	2,488	1,901	587
Investment in life settlement contracts	4,584	3,361	1,223
Management fees receivable	1,904	1,076	828
Tax receivable	482	623	(141)
Other assets	259	268	(9)
Total	<u>\$ 22,295</u>	<u>\$ 14,510</u>	<u>\$ 7,785</u>

The increase of approximately \$7.8 million in other assets is primarily due to an increase in receivables of \$5.3 million; \$8.6 million of this amount relates to a receivable recorded at December 31, 2015 for the receipt of our return of principal in our investment in CVC Global Credit Opportunities Fund, L.P. This was partially offset by \$3.7 million that related to a middle market loan position that had traded but not settled as of December 31, 2014. Additionally, there was an increase of \$587,000 due to the acquisition of fixed assets at PCM; \$1.2 million in life settlement contracts from the net acquisition of new contracts; and an increase of \$828,000 in management fees receivable due to an incentive management fee earned on an RCAM related CLO. These increases were partially offset by a decrease of \$141,000 in tax receivable and a decrease of \$9,000 in other assets.

Hedging Instruments.

A significant market risk to us is interest rate risk. Interest rates are highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors beyond the Company's control. Changes in the general level of interest rates can affect net interest income, which is the difference between the interest income earned on interest-earning assets and the interest expense incurred in connection with the interest-bearing liabilities, by affecting the spread between the interest-earning assets and interest-bearing liabilities. Changes in the level of interest rates also can affect the value of the our interest-earning assets and our ability to realize gains from the sale of these assets. A decline in the value of our interest-earning assets pledged as collateral for borrowings could result in the counterparties demanding additional collateral pledges or liquidation of some of the existing collateral to reduce borrowing levels.

We are also exposed to foreign currency exchange risk, a form of risk that arises from the change in price of one currency against another. Substantially all of our revenues are transacted in U.S. dollars; however, a portion of our capital is exposed to other currencies, primarily the Euro and, to a lesser extent, the pound sterling. To address this market risk, we generally hedge our foreign currency-denominated exposures (typically investments in debt instruments, including forecasted principal and interest payments) with foreign currency forward contracts. We classify these hedges as fair value hedges, which are hedges that mitigate the risk of changes in the fair values of assets, liabilities, and certain types of firm commitments. We record changes in the fair value of derivatives designated and effective as fair value hedges in earnings offset by corresponding changes in the fair values of the hedged items.

The following tables present the fair value of our derivative financial instruments as well as their classification on our consolidated balance sheets and on the consolidated statements of operations for the years presented:

Fair Value of Derivative Instruments as of December 31, 2015 (in thousands)

	Asset Derivatives		
	Notional Amount	Balance Sheet Location	Fair Value
Interest rate lock agreements ⁽¹⁾	\$ 105,385	Derivatives, at fair value	\$ 1,224
Forward contracts - residential mortgage lending	\$ 92,413	Derivatives, at fair value	\$ 345
Forward contracts - foreign currency, hedging ⁽²⁾⁽³⁾	\$ 24,850	Derivatives, at fair value	\$ 727
Forward contracts - TBA securities	\$ 29,500	Derivatives, at fair value	\$ 99
Warrants ⁽⁴⁾	\$ 553	Derivatives, at fair value	\$ 1,051
	Liability Derivatives		
	Notional Amount	Balance Sheet Location	Fair Value
Interest rate swap contracts, hedging ⁽⁵⁾	\$ 102,799	Derivatives, at fair value	\$ 3,459
Interest rate lock agreements ⁽⁶⁾	\$ 505	Derivatives, at fair value	\$ 3
Forward contracts - residential mortgage lending	\$ 143,553	Derivatives, at fair value	\$ 479
Forward contracts - TBA securities	\$ 1,500	Derivatives, at fair value	\$ —
Interest rate swap contracts, hedging	\$ 102,799	Accumulated other comprehensive income (loss)	\$ (3,471)

(1) The notional amount of our interest rate lock agreements in an asset position is the pass-through weighted total commitments with a weighted average pass-through percentage of 85.9%.

(2) The notional amount is presented on a currency converted basis. The notional amount of our foreign currency hedging forward contracts was €22.9 million as of December 31, 2015.

(3) Foreign currency forward contracts are accounted for as fair value hedges.

(4) The notional amount of our warrants is the calculated number of shares available for purchase.

(5) Interest rate swaps contracts are accounted for as fair value hedges.

(6) The notional amount of our interest rate lock agreements in a liability position is the pass-through weighted total commitments with a weighted average pass-through percentage of 19.5%.

Fair Value of Derivative Instruments as of December 31, 2014 (in thousands)

	Asset Derivatives		
	Notional Amount	Balance Sheet Location	Fair Value
Interest rate lock agreements ⁽¹⁾	\$ 59,467	Derivatives, at fair value	\$ 970
Forward contracts - residential mortgage lending	\$ 5,000	Derivatives, at fair value	\$ 7

Interest rate swap contracts, hedging	Interest expense	\$ 6,751

(1) Negative values indicate a decrease to the associated balance sheets or consolidated statements of operations line items.

With interest rates projected to remain relatively low, the maturity of two hedge contracts during 2015, and the continued amortization of our swaps during 2016, we expect that the fair value of our interest rate swap hedges will continue to modestly improve in 2015. We intend to continue to seek such hedges for our floating rate debt in the future.

Our hedges at December 31, 2015 were as follows (in thousands):

	Benchmark rate	Notional value	Strike rate	Effective date	Maturity date	Fair value
CRE Swaps						
Interest rate swap	1 month LIBOR	\$ 11,234	4.13%	01/10/08	05/25/16	\$ (83)

Totals	<u>\$ 33,397</u>	<u>\$ 48,605</u>		

Residential Investments – Term Repurchase Facility

In June 2014, our wholly-owned subsidiaries, RCC Residential Portfolio, Inc., RCC Resi TRS, and RCC Residential Depositor, LLC, entered into a master repurchase and securities agreement with Wells Fargo Bank, or Wells Fargo, to be used as term repurchase facilities to finance the purchase of highly-rated residential investment assets. The original maximum amount of the facility was \$285.0 million which had an original one year term with a one year extension option, and a maximum interest rate of 1.45% and 3.00% on residential mortgage-backed securities and jumbo mortgage loans, respectively. The facility had an original maturity date of June 22, 2015. Over the course of five amendments, the most recent of which was entered into with Wells Fargo on September, 2015, we extended the facility's termination date to September 20, 2016. Additionally, the amendments reduced the facility's original maximum borrowing amount from a total of \$285.0 million to \$30.0 million with respect to certificates of trust and zero with respect to RMBS. There were no other material changes to the agreement over the course of the five amendments.

CMBS – Term Repurchase Facility

In February 2011, our wholly-owned subsidiaries, RCC Commercial and RCC Real Estate, entered into a master repurchase and securities agreement with Wells Fargo to be used as a term repurchase facility to finance the purchase of highly-rated CMBS. The maximum amount of the facility is \$100.0 million which had an original two year term with a one year option to extend, and an interest rate equal to the one-month LIBOR plus 1.00%. In April 2014, we agreed to a third amendment of the facility, which extended the termination date to January 31, 2016. In May 2015, we agreed to a fourth amendment of the facility, which extended the termination date to January 31, 2017.

CRE – Term Repurchase Facilities

On February 27, 2012, RCC Real Estate's wholly-owned subsidiary, RCC Real Estate SPE 4 LLC, or SPE 4, entered into a master repurchase and securities agreement with Wells Fargo to finance the origination of commercial real estate loans. The facility had an original maximum amount of \$150.0 million and an initial 18 month term. In April 2013, we paid a structuring fee of \$101,000 and an extension fee of \$938,000 and entered into an amendment which increased the size of the facility to \$250.0 million and extended the maturity date to February 27, 2015. The amendment also provided us with two additional one year extension options at our discretion. On October 31, 2014, SPE 4 agreed to a modification of the terms of the facility which increased the maximum borrowing amount to \$400.0 million and extended the maturity date to August 27, 2016. The modification also provided us with two additional one year extension options at our discretion. The modification also increased the facility's maximum single asset concentration limit, reduced the minimum portfolio debt yield tests requirement, and decreased pricing spreads on select portfolio assets. We paid a structuring fee of \$1.6 million to Wells Fargo upon the closing of the modification.

On July 19, 2013, RCC Real Estate's wholly-owned subsidiary, RCC Real Estate SPE 5 LLC, or SPE 5, entered into a master repurchase and securities agreement with Deutsche Bank AG, Cayman Islands Branch to finance the origination of commercial real estate loans. The facility had a maximum amount of \$200.0 million and an initial 12 month term that ended on July 19, 2014. In July 2014, we paid an extension fee of 0.25% of the maximum facility amount to exercise the first of two one year extension options and subject further to the right of SPE 5 to repurchase the assets held in the facility earlier. The facility matured on July 19, 2015.

On September 10, 2015, RCC Real Estate's wholly-owned subsidiary, RCC Real Estate SPE 6, or SPE 6, entered into a master repurchase and securities agreement with Morgan Stanley Bank, NA to finance the origination of commercial real estate loans. The facility has a maximum capacity of \$250.0 million and an initial three year term that expires on September 10, 2018 with annual one year extension options. Morgan Stanley charges an unused facility amount fee of 0.50% if the average daily outstanding borrowings are less than or equal to 50% of the facility amount, and of 0.25% if the amount the average daily outstanding borrowings are greater than 50% but less than 65% of the facility amount. Morgan Stanley has agreed to waive this fee until January 2016.

Trust Certificates - Term Repurchase Facility

On November 20, 2015, RCC Real Estate entered into a repurchase and securities agreement with RSO Repo SPE Trust 2015, or Term Repurchase Trust, a structure that provides financing under a structured sale of trust certificates to qualified institutional buyers through an offering led by Wells Fargo Securities, LLC. The facility sold trust certificates of \$26.6 million with an initial three year term that expires on November 20, 2018. We have the ability to call the facility at any time. If called, we would be subject to an early repurchase fee until the payment date in May 2017. After this date, we would have the option to make pre-payments with no penalties.

Short-Term Repurchase Agreements - CMBS

On March 8, 2005, RCC Real Estate entered into a master repurchase agreement with Deutsche Bank Securities Inc. to finance the purchase of CMBS and the origination of commercial real estate loans. There is no stated maximum amount of the facility and the repurchase agreement has no stated maturity date. There are monthly resets of interest rates.

On February 14, 2012, RCC Real Estate entered into a master repurchase and securities agreement with Wells Fargo Securities, LLC to finance the purchase of CMBS. There is no stated maximum amount of the facility and the repurchase agreement has no stated maturity date. There are monthly resets of interest rates.

Residential Mortgage Financing Agreements

RCC Residential's wholly owned subsidiary, PCM, has a master repurchase agreement with New Century Bank d/b/a Customer's Bank ("New Century") to finance the acquisition of residential mortgage loans. The facility has a maximum amount of \$65.0 million and a termination date of August 29, 2016, which was amended from the original terms over the course of nine amendments. The facility bears interest at a rate of one-month LIBOR plus an applicable rate between 2.63% and 4.875%. We were in compliance with all covenants under the agreement as of December 31, 2015.

In July 2014, PCM entered into a master repurchase agreement with Wells Fargo to finance the acquisition of residential mortgage loans. The facility has a maximum amount of \$100.0 million, a termination date of September 29, 2016, which was amended from the original terms over the course of four amendments, and bears interest at a rate of one-month LIBOR plus an applicable loan margin. The loan margin for jumbo loans that have been purchased and held by Wells Fargo for over 90 days is 3.00%; the loan margin for all other jumbo loans financed is 2.50%. The loan margin for agency loans that have been purchased and held by Wells Fargo is 2.38%. PCM was in compliance with all covenants under the agreement as of December 31, 2015.

Senior Secured Revolving Credit Facility

On September 18, 2014, our wholly-owned subsidiary, Northport, closed a \$110.0 million syndicated senior secured revolving credit facility ("Credit Facility") with JP Morgan, as the agent bank, to finance the origination of middle market and syndicated loans. The availability under the Credit Facility was increased to \$125.0 million as of September 30, 2014 and again to \$140.0 million with an additional commitment from ING Bank early in March 2015. During the second quarter 2015, we entered into the first and second amendments of the Credit Facility which increased the original commitment from \$225.0 million to \$300.0 million and secured \$85.0 million of additional availability, bringing the total available under the Credit Facility to \$225.0 million as of December 31, 2015. As of December 31, 2015, \$190.0 million was outstanding on the Credit Facility. Under the first amendment, both the ability to access draws on the Credit Facility and the maturity date have been extended six months until March 31, 2018 and March 31, 2019 respectively.

Under the terms of the second amendment, the applicable margins increased 25 basis points. Accordingly, the Credit Facility bears interest rates, at our election, on a per annum basis equal to (i) the applicable LIBOR rate plus 2.75% or (ii) the applicable base rate (prime rate of 3.5% as of December 31, 2015) plus 1.75%. During the six month period following September 18, 2014, we were charged a commitment fee on any unused balance of 0.375% per annum if the unused balance was greater than 35% of the total commitment or 0.50% per annum if it was less than 35% of the total commitment. Following that period, the commitment fee on any unused balance became 0.375% per annum if the outstanding balance is greater than 35% of the total commitment or 1.00% per annum if the outstanding balance is 35% or less of the total commitment. At December 31, 2015, there was an unused balance of \$35.0 million on the facility.

Amounts available to borrow under the Credit Facility are subject to compliance with a borrowing base computation that applies different advance rates to different types of assets held by Northport LLC that are pledged as collateral. We have made customary representations and warranties and are required to comply with various covenants, including leverage restrictions, reporting requirements and other customary requirements for similar credit facilities. At December 31, 2015, we were in compliance with all covenants under the agreement. We guarantee Northport's performance of its obligations under this Credit Facility.

Securitizations

As of December 31, 2015, we had executed eleven and currently retain equity in nine of those securitizations as follows:

- In August 2015, we closed RCC 2015-CRE4, a \$312.9 million CRE securitization transaction that provided financing for transitional commercial real estate loans. RCC 2015-CRE4 issued a total of \$223.7 million of senior notes at par to unrelated investors. RCC Real Estate purchased 100% of the Class C senior notes for \$26.6 million. In addition, Resource Real Estate Funding 2015-CRE4 Investor, LLC, a subsidiary of RCC Real Estate purchased a \$62.6 million equity interest representing 100% of the outstanding preference shares. At December 31, 2015, the notes issued to outside investors had a weighted average borrowing rate of 2.06%. There is no reinvestment period for RCC 2015-CRE3 and all of the notes issued mature in August 2032, although we have the right to call the notes anytime after September 2017 until maturity.
- In February 2015, we closed RCC 2015-CRE3, a \$346.2 million CRE securitization transaction that provided financing for transitional commercial real estate loans. RCC 2015-CRE3 issued a total of \$282.1 million of senior notes at par to unrelated investors. RCC Real Estate purchased 100% of the Class E and Class F senior notes for \$20.8 million and \$15.6 million, respectively. In addition, Resource Real Estate Funding 2015-CRE3 Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$27.7 million equity interest representing 100% of the outstanding preference shares. At December 31, 2015, the notes issued to outside investors had a weighted average borrowing rate of 2.25%. There is no reinvestment period for RCC 2015-CRE3 and all of the notes issued mature in March 2032, although we have the right to call the notes anytime after March 2017 until maturity.
- In July 2014, we closed RCC 2014-CRE2, a \$353.9 million CRE securitization transaction that provided financing for transitional commercial real estate loans. RCC 2014-CRE2 issued a total of \$253.3 million of senior notes at par to unrelated investors. RCC Real Estate purchased 100% of the Class C senior notes for \$17.7 million. In addition, Resource Real Estate Funding 2014-CRE2 Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$100.9 million equity interest representing 100% of the outstanding preference shares. At December 31, 2015, the notes issued to outside investors had a weighted average borrowing rate of 1.68%. There is no reinvestment period for RCC 2014-CRE2 and all of the notes issued mature in April 2032, although we have the right to call the notes anytime after July 2016 until maturity. As of December 31, 2015, \$36.8 million of the Class A senior notes had been paid down and \$198.6 million remains outstanding.
- In February 2014, we purchased 100% of the Class 1 Subordinated Notes and 67.9% of the Class 2 Subordinated Notes, which represented 88.6% of the outstanding subordinated notes in the European securitization Moselle CLO

S.A. Due to our economic interest combined with our contractual, unilateral kick-out rights acquired upon our purchase of a majority of the subordinate notes, we determined that we had a controlling financial interest and consolidated Moselle CLO. The notes we purchased are subordinated in right of payment to all other notes issued by Moselle CLO. The balances of the senior notes issued to investors when we acquired a controlling interest in Moselle CLO were as follows: (i) €24.9 million of Class A-1E notes bearing interest at LIBOR plus 0.25%; (ii) \$24.9 million of Class A-1L notes bearing interest at LIBOR plus 0.25%; (iii) €10.3 million of Class A-1LE notes bearing interest at LIBOR plus 0.31%; (iv) \$10.3 million of Class A-1LE notes bearing interest at LIBOR plus 0.31%; (v) €13.8 million of Class A-2E notes bearing interest at LIBOR plus 0.40%; (vi) \$13.8 million of Class A-2L notes bearing interest at LIBOR plus 0.40%; (vii) €6.8 million of Class A-3E notes bearing interest at LIBOR plus 0.70%; (viii) \$6.8 million of Class A-3L notes bearing interest at LIBOR plus 0.75%; (ix) €16.0 million of Class B-1E notes bearing interest at LIBOR plus 1.80%; and (x) \$16.0 million of Class B-1L notes bearing interest at LIBOR plus 1.85%. We have the right to call the notes anytime after January 6, 2010 until maturity. Proceeds from the sale of these assets were used to pay down the senior notes and securities borrowings in full as of December 31, 2015.

- In December 2013, we closed RCC CRE Notes 2013, a \$307.8 million CRE securitization transaction that provided financing for transitional commercial real estate loans. The investments held by RCC CRE Notes 2013 collateralized \$260.8 million of senior notes issued by the securitization, of which RCC Real Estate purchased 100% of the Class D senior notes, Class E senior notes, and Class F senior notes for \$30.0 million at closing. In addition, Resource Real Estate Funding 2013 Notes Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$16.9 million equity interest representing 100% of the outstanding preference shares. At December 31, 2015, the notes issued to outside investors had a weighted average borrowing rate of 3.21%. There is no reinvestment period for RCC CRE Notes 2013, which will result in the sequential pay down of notes as underlying collateral matures and pays down. As of December 31, 2015, \$136.9 million of the Class A senior notes and \$65.4 million of the Class A-S senior notes had been paid down and \$58.5 million remains outstanding.
- In June 2007, we closed RREF CDO 2007-1, a \$500.0 million CDO transaction that provided financing for commercial real estate loans and commercial mortgage-backed securities. The investments held by RREF CDO 2007-1 collateralized \$458.8 million of senior notes issued by the CDO vehicle, of which RCC Real Estate, a subsidiary of ours, purchased 100% of the Class H senior notes, Class K senior notes, Class L senior notes and Class M senior notes for \$68.0 million at closing, \$5.0 million of the Class J senior notes in February 2008, an additional \$2.5 million of the Class J senior notes in November 2009, \$11.9 million of the Class E senior notes, \$11.9 million of the Class F senior notes and \$7.3 million of the Class G senior notes in December 2009, an additional \$250,000 of the Class J senior notes in January 2010, \$5.0 million of the Class A-2 senior notes in August 2011, an additional \$5.0 million of the Class A-2 senior notes in September 2011 and \$50.0 million of the A1-R notes in June 2012. In addition, RREF 2007-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$41.3 million equity interest representing 100% of the outstanding preference shares. At December 31, 2015, the notes issued to outside investors, net of repurchased notes, had a weighted average borrowing rate of 1.65%. The reinvestment period expired in June 2012 and the CDO has begun paying down the senior notes as principal is collected. Through December 31, 2015, \$180.0 million of the Class A-1 senior notes, \$50.0 million of the Class A-1R senior notes, and \$22.0 million of the Class A-2 senior notes had been paid down and \$91.8 million remains outstanding.
- In May 2007, we closed Apidos Cinco CDO, a \$350.0 million CDO transaction that provided financing for bank loans. The investments held by Apidos Cinco CDO collateralized \$322.0 million of senior notes issued by the CDO vehicle. RCC Commercial II, a subsidiary of ours, holds a \$28.0 million equity interest representing 100% of the outstanding preference shares. At December 31, 2015, the notes issued to outside investors had a weighted average borrowing rate of 1.25%. Through December 31, 2015, \$26.9 million of the Class A-1 senior notes and \$159.7 million of Class A-2A senior notes had been paid down and \$135.4 million remains outstanding.
- In August 2006, we closed RREF CDO 2006-1, a \$345.0 million CDO transaction that provided financing for commercial real estate loans. The investments held by RREF CDO 2006-1 collateralized \$308.7 million of senior notes issued by the CDO vehicle. RCC Real Estate purchased 100% of the Class J senior notes and Class K senior notes for \$43.1 million at closing, \$3.5 million of the Class E senior notes and \$11.5 million of the Class F senior notes in September 2009, \$20.0 million of the Class A-1 senior notes in February 2010, an additional \$4.3 million of the Class A-1 senior notes in May 2012 and \$4.0 million of the Class C senior notes in May 2012. In addition, RREF 2006-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$36.3 million equity interest representing 100% of the outstanding preference shares. At December 31, 2015, the notes issued to outside investors, net of repurchased notes, had a weighted average borrowing rate of 2.60%. The reinvestment period expired in September 2011 and the CDO has begun paying down the senior notes as principal is collected. Through December 31, 2015, \$129.4 million of the Class A-1 senior notes, \$5.0 million of Class A-2(FX) senior notes, \$17.4

million of Class A-2 (FL) senior notes, \$13.0 million of Class C senior notes, \$10.0 million of Class D senior notes, and \$5.7 million of Class E senior notes had been paid down and \$52.8 million remains outstanding.

- In May 2006, we closed Apidos CDO III, a \$285.5 million CDO transaction that provided financing for bank loans. The investments held by Apidos CDO III collateralized \$262.5 million of senior notes issued by the CDO vehicle. RCC Commercial purchased a \$23.0 million equity interest representing 100% of the outstanding preference shares. In June 2015, we called Apidos CDO III, substantially liquidating the securitization's assets. Proceeds from the sale of these assets, plus proceeds from previous sales and paydowns in the CDO, were used to pay down the securitization's remaining senior notes.

6.0% Convertible Senior Notes

On October 21, 2013, we issued and sold in a public offering \$115.0 million aggregate in principal amount of our 6.0% Convertible Senior Notes due 2018. After deducting the underwriting discount and the estimated offering costs, we received approximately \$111.1 million of net proceeds. The discount of \$4.9 million on the 6.0% Convertible Senior notes reflects the difference between the stated value of the debt and the fair value of the notes as if they were issued without a conversion feature and at a higher rate of interest that we estimated would have been applicable without the conversion feature. The discount will be amortized on a straight-line basis as additional interest expense through maturity on December 1, 2018. Interest on the 6.0% Convertible Senior Notes is paid semi-annually. Prior to December 1, 2018, the 6.0% Convertible Senior Notes are not redeemable at our option, except to preserve our status as a REIT. On or after December 1, 2018, we may redeem all or a portion of the 6.0% Convertible Senior Notes at a redemption price equal to the principal amount plus accrued and unpaid interest. Holders of 6.0% Convertible Senior Notes may require us to repurchase all or a portion of the 6.0% Convertible Senior Notes at a purchase price equal to the principal amount plus accrued and unpaid interest on December 1, 2018, or upon the occurrence of certain defined fundamental changes. The 6.0% Convertible Senior Notes had an original conversion rate of 150.1502 common shares per \$1,000 principal amount of 6.0% Convertible Senior Notes (equivalent to a current conversion price of \$6.66 per common share). Upon conversion of 6.0% Convertible Senior Notes by a holder, the holder will receive cash, our common shares or a combination of cash and our common shares, at our election. In connection with our one-for-four reverse stock split, the conversion rate for the 6.0% Convertible Senior Notes automatically adjusted from 150.1502 common shares per \$1,000 principal amount of such notes to 37.53755 common shares per \$1,000 principal amount of such notes. The conversion price was adjusted from \$6.66 to \$26.64 as a result of the stock split.

8.0% Convertible Senior Notes

In January 2015, we issued and sold in a public offering \$100.0 million aggregate principal amount of our 8.0% Convertible Senior Notes due 2020. After deducting a \$1.0 million underwriting discount and deferred debt issuance costs totaling \$2.1 million, we received approximately \$97.0 million of net proceeds. In addition, we recorded a discount of \$2.5 million (the offset of which was recorded in additional paid-in capital) on the 8.0% Convertible Senior Notes that reflects the difference between the stated value of the debt and the fair value of the notes as if they were issued without a conversion feature. The aforementioned market discount and the deferred debt issuance costs will be amortized on a straight-line basis as additional interest expense through maturity on January 15, 2020. Interest on the 8.0% Convertible Senior Notes is paid semi-annually. Prior to January 15, 2020, the 8.0% Convertible Senior Notes are not redeemable, except to preserve our status as a REIT. On or after January 15, 2020, we may redeem all or a portion of the 8.0% Convertible Senior Notes at a redemption price equal to the principal amount plus accrued and unpaid interest. Holders of 8.0% Convertible Senior Notes may require us to repurchase all or a portion of the 8.0% Convertible Senior Notes at a purchase price equal to the principal amount plus accrued and unpaid interest on January 15, 2020, or upon the occurrence of certain defined fundamental changes. The 8.0% Convertible Senior Notes had an original conversion rate of 187.4414 common shares per \$1,000 principal amount of 8.0% Convertible Senior Notes (equivalent to an initial conversion price of \$5.34 per common share). Upon conversion of 8.0% Convertible Senior Notes by a holder, the holder will receive cash, our common shares or a combination of cash and our common shares, at our election. In connection with our one-for-four reverse stock split, the conversion rate for the 8.0% Convertible Senior Notes automatically adjusted to 46.86035 shares of common stock per \$1,000 principal amount of such notes. The conversion price was adjusted from \$5.34 to \$21.36 as a result of the stock split.

Unsecured Junior Subordinated Debentures

In May 2006 and September 2006, we formed Resource Capital Trust I, or RCT I, and RCC Trust II, or RCT II, respectively, for the sole purpose of issuing and selling capital securities representing preferred beneficial interests. Although we own \$774,000 of the common securities of RCT I and RCT II, RCT I and RCT II are not consolidated into our consolidated financial statements because we do not deem it to be the primary beneficiary of these entities. In connection with the issuance and sale of the capital securities, we issued junior subordinated debentures to RCT I and RCT II of \$25.8 million each, representing our maximum exposure to loss. The debt issuance costs associated with the junior subordinated debentures for RCT I and RCT II are included

in borrowings and are being amortized into interest expense in the consolidated statements of operations using the effective yield method over a ten year period.

The debt issuance costs associated with the junior subordinated debentures for RCT I and RCT II, at December 31, 2015 were \$54,000 and \$80,000, respectively. The debt issuance costs associated with the junior subordinated debentures for RCT I and RCT II at December 31, 2014, were \$160,000 and \$183,000, respectively. The rates for RCT I and RCT II, at December 31, 2015, were 4.55% and 4.25%, respectively. The rates for RCT I and RCT II, at December 31, 2014, were 4.21% and 4.18%, respectively.

The rights of holders of common securities of RCT I and RCT II are subordinate to the rights of the holders of capital securities only in the event of a default; otherwise, the common securities' economic and voting rights are pari passu with the capital securities. The capital and common securities of RCT I and RCT II are subject to mandatory redemption upon the maturity or call of the junior subordinated debentures held by each. Unless earlier dissolved, RCT I will dissolve on May 25, 2041 and RCT II will dissolve on September 29, 2041. The junior subordinated debentures are the sole assets of RCT I and RCT II, mature on September 30, 2036 and October 30, 2036, respectively, and may be called at par by us at any time after September 30, 2011 and October 30, 2011, respectively. We record our investments in RCT I and RCT II's common securities of \$774,000 each as investments in unconsolidated entities and record dividend income upon declaration by RCT I and RCT II.

Equity

Total equity at December 31, 2015 was \$826.8 million and gave effect to \$3.5 million of unrealized losses on our cash flow hedges and \$611,000 of net unrealized gains on our available-for-sale portfolio, shown as a component of accumulated other comprehensive income. Equity at December 31, 2014 was \$952.1 million and gave effect to \$9.0 million of unrealized losses on cash flow hedges and \$15.4 million of unrealized gains on our available-for-sale portfolio, shown as a component of accumulated other comprehensive loss. The decrease in equity during the year ended December 31, 2015 was principally due to stock repurchases and distributions on our common and preferred stock.

Balance Sheet - Book Value Reconciliation

	Amount	Per Share
Book value at December 31, 2014, allocable to common shares ⁽¹⁾⁽²⁾	\$ 663,849	\$ 20.28
Net loss allocable to common shares ⁽³⁾	(13,882)	(0.43)
Change in other comprehensive income:		
Available-for-sale securities	(14,399)	(0.47)
Derivatives	5,496	0.18
Foreign currency conversion	(63)	—
Common dividends	(75,064)	(2.34)
Common dividends on unvested shares	(1,684)	(0.15)
Discount on borrowings and deferred debt costs paid	2,352	0.08
Accretion from share repurchases during the year ⁽⁴⁾	(25,908)	0.48
Accretion (dilution) from additional shares issued during the year and other ⁽⁵⁾	3,464	—
Total net decrease	(119,688)	(2.65)
Book value at December 31, 2015, allocable to common shares ⁽¹⁾⁽²⁾⁽⁶⁾	\$ 544,161	\$ 17.63

(1) Per share calculations are reflective of the RSO one-for-four reverse stock split of our common stock as of August 31, 2015, and are as adjusted in the per share amounts disclosed as of December 31, 2015 and December 31, 2014, respectively.

(2) Per share calculations exclude unvested restricted stock, as disclosed on the consolidated balance sheet, of 691,369 and 505,910 shares as of December 31, 2015 and December 31, 2014, respectively. The denominator for the calculation is 30,871,355 and 32,737,884 as of December 31, 2015 and December 31, 2014, respectively.

(3) Net loss allocable to common shares includes a \$41.1 million charge recognized on a mezzanine loan, LXR, consisting of a provision for loan loss of \$38.1 million and \$3.0 million write-off of deferred interest receivable through interest income for a per share impact of \$(1.26) during the year ended December 31, 2015.

(4) RSO's board authorized a \$50.0 million share repurchase plan in August 2015. We have purchased 2.0 million shares for \$25.9 million through December 31, 2015 pursuant to the plan.

(5) Includes issuance of common shares from our dividend reinvestment plan of 20,963 and 185,459 net change of unvested shares of restricted stock.

(6) Book value allocable to common shares is calculated as total stockholder's equity of \$818.9 million less preferred stock equity of \$274.7 million.

Funds from Operations

We evaluate our performance based on several performance measures, including funds from operations, or FFO, and adjusted funds from operations, or AFFO, in addition to net income. We compute FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts as net income (computed in accordance with GAAP), excluding gains or losses on the sale of depreciable real estate, the cumulative effect of changes in accounting principles, real estate-related depreciation and amortization, and after adjustments for unconsolidated/uncombined partnerships and joint ventures.

AFFO is a computation made by analysts and investors to measure a real estate company's operating performance. We calculate AFFO by adding or subtracting from FFO the impact of non-cash accounting items as well as the effects of items that we deem to be non-recurring in nature. We deem transactions to be non-recurring if a similar transaction has not occurred in the past two years, and if we do not expect a similar transaction to occur in the next two years. We adjust for these non-cash and nonrecurring items to analyze our ability to produce cash flow from on-going operations, which we use to pay dividends to our shareholders. Non-cash adjustments to FFO include the following: impairment losses resulting from fair value adjustments on financial instruments; provisions for loan losses; equity investment gains and losses; straight-line rental effects; share based compensation expense; amortization of various deferred items and intangible assets; gains on sales of property that are wholly owned or owned through a joint venture; the cash impact of capital expenditures that are related to our real estate owned; and REIT tax planning adjustments, which primarily relate to accruals for owned properties for which we made a foreclosure election and adjustments to tax estimates with respect to the final resolution of foreclosed property when it is listed for sale. In addition, we calculate AFFO by adding and subtracting from FFO the realized cash impacts of the following: extinguishment of debt, reissuances of debt, sales of property and capital expenditures.

Management believes that FFO and AFFO are appropriate measures of our operating performance in that they are frequently used by analysts, investors and other parties in the evaluation of REITs. Management uses FFO and AFFO as measures of its operating performance, and believes they are also useful to investors because they facilitate an understanding of our operating performance apart from non-cash and non-recurring items, that may not necessarily be indicative of current operating performance and that may not allow accurate period to period comparisons of our operating performance.

While our calculations of AFFO may differ from the methodology used for calculating AFFO by other REITs and our FFO and AFFO may not be comparable to FFO and AFFO reported by other REITs, we also believe that FFO and AFFO may provide us and our investors with an additional useful measure to compare our performance with some other REITs. Neither FFO nor AFFO is equivalent to net income or cash generated from operating activities determined in accordance with GAAP. Furthermore, FFO and AFFO do not represent amounts available for management's discretionary use because of needed capital replacement or expansion, debt service obligations or other commitments or uncertainties. Neither FFO nor AFFO should be considered as an alternative to GAAP net income as an indicator of our operating performance or as an alternative to cash flow from operating activities as a measure of its liquidity.

The following table reconciles GAAP net income to FFO and AFFO for the periods presented (in thousands, except per share data):

	Years Ended					
	December 31,					
	2015		2014		2013	
	2015	Per Share Data	2014	Per Share Data	2013	Per Share Data

(1) Amount represents gains/losses on sales of owned real estate as well as sales of a joint venture real estate interest that were recorded by us on an equity basis.

(2) Due to a change in accounting guidance, as of January 1, 2015, the concept of linked transactions no longer exists.

Liquidity and Capital Resources

For the year ended December 31, 2015, our principal sources of liquidity were: net proceeds from our 8.0% convertible notes offering on January 13, 2015, of \$97.0 million, the return of equity at the close of RCC 2015-CRE3 on February 24, 2015 of \$78.0 million, the return of equity at the close of RCC 2015-CRE4 on August 18, 2015 of \$29.7 million, net proceeds of \$26.1 million from our trust certificates term repurchase facility in November 2015, the net proceeds from the liquidation of Moselle returned \$30.0 million (which includes \$1.0 million of proceeds from forward currency contracts), liquidation of Apidos CDO III in June 2015 which returned \$12.8 million of principal, cash flow from operations and \$3.0 million of net proceeds from the sale of our 8.25% Series B Preferred Stock through our at the market, or ATM, program in January 2015. These sources of liquidity are comprised up the \$78.8 million of unrestricted cash we held at December 31, 2015. In addition, we had capital available through a CMBS term facility to help finance the purchase of CMBS securities of \$74.4 million and \$425.0 million combined from two CRE term facilities for the origination of commercial real estate loans.

In June 2014, we entered into a master repurchase and securities agreement with Wells Fargo Bank, NA. The agreement allowed for the transfer of our rights, title and interest in certain residential mortgage backed securities and certificates of trust to Wells Fargo in exchange for the transfer of funds by Wells Fargo to us. The agreement also allows for Wells Fargo to transfer back to us those assets at either a certain date or on demand in exchange for the return of funds from us to Wells Fargo. On August 21, 2015, we amended the agreement with Wells Fargo to extend the facility's termination date to October 20, 2015, and reduced the facility's maximum borrowing amount with respect to certificates of trust from \$165.0 million to \$75.0 million, with no other material changes to the agreement. During the third quarter, Wells Fargo informed us they were no longer able to waive unused fees on the facility, which drove our decision to reduce the facility's maximum capacity. The facility currently charges an unused fee of 25 basis points on the difference between a threshold equal to 40% of the maximum borrowing amount with respect to certificates of trust and the average daily borrowing balance of that month.

On September 20, 2015, we entered into a master repurchase and securities agreement (the "Morgan Stanley Facility") with Morgan Stanley Bank, NA to finance the origination of commercial real estate loans. We paid a commitment fee of 0.65% of the maximum facility amount, as well as other standard closing costs. The Morgan Stanley Facility has a maximum capacity of \$250.0 million and an initial three year term that expires on September 10, 2018 with annual one year extension options, and an interest rate of one month LIBOR plus an applicable spread ranging from 2.25% to 2.75%. Morgan Stanley charges an unused fee of 0.50% if the average daily outstanding borrowings are less than or equal to 50% of the facility amount, and of 0.25% if the amount the average daily outstanding borrowings are greater than 50% but less than 65% of the facility amount. Morgan Stanley has agreed to waive this unused fee until January 2016.

The Morgan Stanley Facility contains events of default (subject to certain materiality thresholds and grace periods) customary for this type of financing arrangement, including but not limited to: payment defaults; breaches of covenants and/or certain representations and warranties; adverse judgments against our business; or a default involving the failure to pay or acceleration of our monetary obligations. The remedies for such events of default are also customary for this type of transaction and include the acceleration of the principal amount outstanding under the Morgan Stanley Facility and the liquidation of assets subject to the facility by Morgan Stanley. We were in compliance with all financial covenants under the terms of the guarantee as of December 31, 2015.

During the second quarter 2015, we entered into the first and second amendments of Northport TRS LLC's Senior Secured Revolving Credit Agreement, or Northport Credit Facility, which increased the original commitment from \$225.0 million to \$300.0 million and secured \$85.0 million of additional availability, bringing the total available under the Northport Credit Facility to \$225.0 million as of December 31, 2015. As of December 31, 2015, \$190.0 million was outstanding on the Northport Credit Facility. Under the first amendment both the ability to access to draws on the Northport Credit Facility and maturity have been extended six months until March 31, 2018 and March 31, 2019 respectively. At December 31, 2015, there was an unused balance of \$35.0 million on the facility.

For the year ended December 31, 2014, our principal sources of liquidity were net proceeds from the June offering of our 8.625% Series C Preferred Stock of \$116.2 million, \$56.6 million net proceeds from the sale of our 8.25% Series B Preferred Stock and 8.50% Series A Preferred Stock through our ATM program. For the year ended December 31, 2014, we also received \$30.3 million of sale proceeds from our common stock DRIP. We ended the year with \$79.9 million of unrestricted cash on hand, availability of \$392.6 million on our CRE term facilities and availability of \$70.1 million on our CMBS term facility as of December 31, 2014.

Our on-going liquidity needs consist principally of funds to make investments, make debt repurchases, make distributions to our stockholders and pay our operating expenses, including our management fees. Our ability to meet our on-going liquidity needs will be subject to our ability to generate cash from operations and, with respect to our investments, our ability to maintain and/or obtain additional debt financing and equity capital together with the funds referred to above.

During the past 17 months, we have been meeting a significant portion of our debt funding requirements for CRE loans through securitizations. In February 2015, we closed a \$346.2 million CRE securitization, our third in the past 20 months, and in August 2015, we closed a \$319.2 million CRE securitization, our fourth in the past 24 months, which brings our total to just in excess of \$1.3 billion of mortgage loans financed during that period. We expect to derive substantial operating cash from our equity investments in the four newest securitizations, which do not have the same asset and interest coverage tests as are required by our existing CDOs. These CRE securitizations do not have a reinvestment periods; however, principal payments, for a stipulated period, may be used to purchase funding participations with respect to existing collateral held outside of the securitizations. This will allow us to recycle some capital repaid and convert the designated principal for funded companion participation acquisition cash which would otherwise be used to pay down the most senior notes and reduce leverage and potential returns within the securitization.

Historically, we have financed a substantial portion of our portfolio investments through CDOs that essentially match the maturity and repricing dates of these financing vehicles with the maturities and repricing dates of our investments. We derive substantial operating cash from our equity investments in our CDOs which, if the CDOs fail to meet certain tests, will cease. Through December 31, 2015, we have not experienced difficulty in maintaining our existing CDO financing and have passed all of the critical tests required by these financings. However, we cannot assure you that we will continue to meet all such critical tests in the future. If we are unable to renew, replace or expand our sources of existing financing on substantially similar terms, we may be unable to implement our investment strategies successfully and may be required to liquidate portfolio investments. If required, sales of portfolio investments could be at prices lower than the carrying value of such assets, which would result in losses and reduced income.

The following table sets forth the distributions made and coverage test summaries for each of our securitizations for the periods presented (in thousands):

Name	Cash Distributions		Annualized Interest Coverage Cushion		Overcollateralization Cushion	
	Years Ended		As of		As of Initial Measurement Date	
	December 31,		December 31,			
	2015 ⁽¹⁾	2014 ⁽¹⁾	2015 ^{(2) (3)}	2015 ⁽⁴⁾		
Apidos III ⁽⁵⁾	\$ 13,995	\$ 3,551	\$ —	\$ —	\$ 11,269	
Apidos Cinco	\$ 6,336	\$ 9,757	\$ 4,505	\$ 21,642	\$ 17,774	
RREF 2006-1	\$ 3,451	\$ 10,172	\$ 4,003	\$ 91,875	\$ 24,941	
RREF 2007-1	\$ 6,102	\$ 7,630	\$ 19,651	\$ 67,149	\$ 26,032	
RCC CRE Notes 2013	\$ 9,129	\$ 11,860	N/A	N/A	N/A	
RCC 2014-CRE2 ⁽⁶⁾	\$ 15,826	\$ 5,463	N/A	\$ 35,946	\$ 20,663	
RCC 2015-CRE3 ⁽⁷⁾	\$ 9,186	N/A	N/A	\$ 20,313	\$ 20,313	
RCC 2015-CRE4 ⁽⁸⁾	\$ 3,291	N/A	N/A	\$ 8,659	\$ 9,397	
Moselle CLO S.A. ⁽⁹⁾	\$ 29,099	\$ 2,891	N/A	N/A	N/A	

* The above table does not include Apidos CLO VIII or Whitney CLO I, as these CLOs were previously called and were substantially liquidated.

- (1) Distributions on retained equity interests in securitizations (comprised of note investments and preference share ownership) and principal paydowns on notes owned includes \$0 and \$4.2 million of paydowns by RREF CDO 2006-1 during the years ended December 31, 2015 and 2014, respectively.
- (2) Interest coverage includes annualized amounts based on the most recent trustee statements.
- (3) Interest coverage cushion represents the amount by which annualized interest income expected exceeds the annualized amount payable on all classes of securitization notes senior to the Company's preference shares.
- (4) Overcollateralization cushion represents the amount by which the collateral held by the securitization issuer exceeds the maximum amount required.
- (5) Apidos III was liquidated on June 12, 2015 and substantially all of its assets were sold. We received a return of principal of \$12.9 million.
- (6) Resource Capital Corp. 2014-CRE2 has no reinvestment period; however, principal repayments, for a period ending in July 2016, may be designated to purchase loans held outside of the securitization that represent the funded commitments of existing collateral in the securitization that were not funded as of the date the securitization was closed. Additionally, the indenture contains no interest coverage test provisions.

- (7) Resource Capital Corp. 2015-CRE3 closed on February 24, 2015; the first distribution was in March 2015. There is no reinvestment period; however, principal repayments, for a period ending in February 2017, may be designated to purchase loans held outside of the securitization that represent the funded commitments of existing collateral in the securitization that were not funded as of the date the securitization was closed. Additionally, the indenture contains no interest coverage test provisions.
- (8) Resource Capital Corp. 2015-CRE4 closed on August 18, 2015; the first distribution was in September 2015. There is no reinvestment period; however, principal repayments, for a period ending in September 2017, may be designated to purchase loans held outside of the securitization that represent the funded commitments of existing collateral in the securitization that were not funded as of the date the securitization was closed. Additionally, the indenture contains no interest coverage test provisions.
- (9) Moselle CLO S.A. was acquired on February 24, 2014 and the reinvestment period for this securitization expired prior to the acquisition. In the fourth quarter of 2014 we began to liquidate Moselle CLO S.A. and, by January 2015, all of the assets had been sold.

At January 31, 2016, after paying our fourth quarter 2015 common stock dividends, our liquidity is derived from three primary sources:

- unrestricted cash and cash equivalents of \$77.7 million and restricted cash of \$1.4 million in margin call accounts;
- capital available for reinvestment in three of our CRE securitizations of \$19.3 million, all of which is designated to finance future funding commitments on CRE loans; and
- loan principal repayments of \$22.0 million that will pay down outstanding CLO note balances as well as interest collections of \$1.6 million.

In addition, we have funds available through two term financing facilities to finance the origination of CRE loans of \$275.6 million and \$149.4 million, and funds available through a term financing facility to finance the purchase of CMBS of \$74.7 million. We also have funds available through a middle market facility to finance the direct origination of middle market loans and purchase of syndicated bank loans of \$47.0 million.

Our leverage ratio may vary as a result of the various funding strategies we use. As of December 31, 2015 and 2014, our leverage ratio was 2.3 and 1.8 times equity, respectively. This leverage ratio increase was driven primarily by the issuance of our two CRE securitizations in 2015, increased advances under our Wells Fargo CRE term financing facility and borrowings under our senior secured revolving credit facility with J.P. Morgan. These debt increases were partially offset by repayments of our existing CDO notes, the liquidation of Apidos CDO III and Moselle CLO S.A., as well as a decrease in our equity base as a result of our share repurchase plan and distributions on common stock being in excess of earnings.

Several of our legacy CDOs and CLOs have been liquidated over the last few years. We expect that trend to continue in 2016. Our two legacy CRE securitizations and one remaining bank loan securitization have seen substantial pay downs of notes issued under their indentures as the underlying collateral has paid down or paid off in full. The table and footnotes below indicate what remains in these legacy securitizations as well as our remaining equity and in the case of our legacy CRE CDOs, our share of notes repurchased and discounted purchase price of those notes. In the case of the CRE CDOs we expect to have loan assets distributed to us once the outstanding notes held by third parties have been paid off. Once the loan assets are distributed we expect to be able to finance the loan assets on existing credit facilities that each have capacity to do so.

The following tables presents the legacy securitizations' remaining equity for the year ended December 31, 2015 :

Name of Securitization	Fair Value of Asset Collateral	Cash	Total Assets	Outstanding Notes Held by Third Parties (at par)	Net Equity Held by RSO
RREF CDO 2006-1 ⁽¹⁾	\$ 76,679	\$ 17,700	\$ 94,379	\$ 52,772	\$ 41,607
RREF CDO 2007-1 ⁽²⁾	\$ 210,904	\$ —	\$ 210,904	\$ 91,752	\$ 119,152
Apidos Cinco CDO	\$ 138,944	\$ 15,640	\$ 154,584	\$ 135,417	\$ 19,167

(1) In subsequent periods, we purchased notes at substantial discounts to par and certain of those notes had either been repaid or cancelled. Of those repurchased notes that have not been repaid or canceled, cash gains on the extinguishment of debt of \$21.4 million has not been recognized in AFFO at December 31, 2015 on \$32.4 million of notes purchased at a weighted average price of \$33.85.

(2) In subsequent periods, we purchased notes at substantial discounts to par and certain of those notes had either been repaid or cancelled. Of those repurchased notes that have not been repaid, cash gains on the extinguishment of debt of \$13.8 million has not been recognized in AFFO at December 31, 2015 on \$20.3 million of notes purchased at a weighted average price of \$31.81. Additionally, of those notes that were not canceled and included in the net equity held by RSO are \$26.0 million of notes purchased at a weighted average price of \$32.40 with \$17.6 million that has not been recognized in AFFO at December 31, 2015.

Distributions

In order to maintain our qualification as a REIT and to avoid corporate-level income tax on the income we distribute to our stockholders, we intend to make regular quarterly distributions of all or substantially all of our net taxable income to holders of our common stock. This requirement can impact our liquidity and capital resources.

The following tables presents dividends declared (on a per share basis) for the years ended December 31,:

Common Stock

Total	\$ 2,072,313	\$ 405,675	\$ 255,668	\$ 462,393	\$ 948,577

(1) Contractual commitments do not include \$16.5 million, \$9.0 million and \$11.7 million of interest expense payable through the stated maturity dates of May 2020, August 2046, and September 2046, respectively, on Apidos Cinco CDO, RREF 2006-1, and RREF 2007-1. The maturity date represent the contractually stated maturity dates of the CDO notes.

(2) Contractual commitments include \$463,000 of interest expense payable through the maturity dates on our repurchase agreements.

- (3) Contractual commitments do not include \$42.3 million and \$43.3 million of estimated interest expense payable through the maturity dates of June 2036 and October 2036, respectively, on our trust preferred securities.
- (4) Contractual commitments do not include \$21.0 million of interest expense payable through the maturity date of December 1, 2018 on our 6.0% convertible senior notes.
- (5) Contractual commitments do not include \$32.8 million of interest expense payable through the maturity date of January 15, 2020 on our 8% convertible senior notes.
- (6) Unfunded commitments on our originated CRE loans generally fall into two categories: (1) pre-approved capital improvement projects; and (2) new or additional construction costs subject, in each case, to the borrower meeting specified criteria. Upon completion of the improvements or construction, we would receive additional interest income on the advanced amount.
- (7) The financing or credit agreements on our originated middle market loans, in some cases, allow for subsequent advances. All advances require compliance with the contractual criteria and terms as specifically described in the individual financing or credit agreement, and therefore are subject to the approval of the appropriate portfolio manager.
- (8) Calculated only for the next 12 months based on our current equity, as defined in our management agreement. Our management agreement also provides for an incentive fee arrangement that is based on operating performance. Because the incentive fee is not a fixed and determinable amount, it is not included in this table.
- (9) Contractual commitments on borrowings are presented net of deferred debt issuance costs.
- (10) We have committed up to \$50.0 million in Pearlmark Mezzanine Realty Partners IV, L.P. The commitment termination date ends when the original commitment is fully funded, or the fifth anniversary of the final closing date, June 24, 2015.

At December 31, 2015, we had nine interest rate swap contracts with a notional value of \$102.8 million. These contracts are fixed-for-floating interest rate swap agreements under which we contracted to pay a fixed rate of interest for the term of the hedge and will receive a floating rate of interest. As of December 31, 2015, the average fixed pay rate of our interest rate hedges was 5.38% and our receive rate was one-month LIBOR, or 0.43%.

Off-Balance Sheet Arrangements

General

As of December 31, 2015, we did not maintain any relationships with unconsolidated entities or financial partnerships that were established for the purpose of facilitating off-balance sheet arrangements or contractually narrow or limited purposes, although we do have interests in unconsolidated entities not established for those purposes. Except as set forth below, as of December 31, 2015, we had not guaranteed obligations of any unconsolidated entities or entered into any commitment or letter of intent to provide additional funding to any such entities.

Unfunded Commercial Real Estate Loan Commitments

In the ordinary course of business, we make commitments to borrowers whose loans are in our commercial real estate loan portfolio to provide additional loan funding in the future. As, set forth in note (6) to the table above, commitments generally fall into two categories: (1) pre-approved capital improvement projects; and (2) new or additional construction costs. Disbursement of funds pursuant to these commitments is subject to the borrower meeting pre-specified criteria. Upon disbursement of funds, we receive loan interest income on any such advanced funds. As of December 31, 2015, we had 48 loans with unfunded commitments totaling \$112.6 million of which \$19.0 million will be funded by restricted cash in RCC 2014 CRE-2, \$1.3 million will be funded by restricted cash in RCC CRE Notes 2013 and \$1.8 million will be funded by restricted cash in RCC 2015 CRE-4; we intend to fund the remaining \$90.5 million through cash flow from normal operating activities and principal repayments on other loans in our portfolio. These commitments are subject to the same underwriting requirements and ongoing portfolio maintenance as are the on-balance sheet financial instruments that we hold. Since these commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements.

Unfunded Middle Market Loan Commitments

During the year ended December 31, 2013, we began originating middle-market loans in RCC Commercial, Inc and Resource TRS, LLC. In September 2014, RCC Commercial and Resource TRS, LLC transferred all loans to a newly formed entity, Northport LLC. Resource America is paid origination fees in connection with our middle-market lending operations, where fees may not exceed 2% of the loan balance for any loan originated. The executed agreements between us and borrowers within our portfolio contain commitments to provide additional loan funding in the future. These commitments generally fall into two categories: (1) revolving credit facility; and (2) additional notes commitments. Disbursement of funds pursuant to these commitments are subject to the borrower meeting pre-specified criteria and in some instances at our discretion. Upon disbursement of funds, we receive loan interest income on any such advanced funds. As of December 31, 2015, we had five loans with unfunded commitments totaling \$9.5 million, all of which would be funded by Northport. We intend to fund these commitments through cash flow from normal operating activities. Since these commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements.

Guarantees and Indemnifications

In the ordinary course of business, we may provide guarantees and indemnifications that contingently obligate us to make payments to the guaranteed or indemnified party based on changes in the value of an asset, liability or equity security of the guaranteed or indemnified party. As such, we may be obligated to make payments to a guaranteed party based on another entity's failure to perform or achieve specified performance criteria, or we may have an indirect guarantee of the indebtedness of others.

Critical Accounting Policies and Estimates

Our consolidated financial statements are prepared by management in accordance with GAAP. The preparation of financial statements in conformity with GAAP requires that we make estimates and assumptions that may affect the value of our assets or liabilities and our financial results. We believe that certain of our policies are critical because they require us to make difficult, subjective and complex judgments about matters that are inherently uncertain. The critical policies summarized below relate to valuation of investment securities, accounting for derivative financial instruments and hedging activities, income taxes, allowance for loan and lease losses and variable interest entities. We have reviewed these accounting policies with our board of directors and believe that all of the decisions and assessments upon which our financial statements are based were reasonable at the time made based upon information available to us at the time. We rely on the Manager's experience and analysis of historical and current market data in order to arrive at what we believe to be reasonable estimates.

Valuation of Investment Securities

We classify our investment portfolio as either available-for-sale investments or trading investments. For a discussion of the basis of fair value analysis, and of the determination of whether an asset's valuation should be characterized as Level 1, Level 2 or Level 3, see Note 21, "Fair Value of Financial Instruments" in the notes to consolidated financial statements.

We report securities available-for-sale at fair value, with unrealized gains and losses reported as a component of accumulated other comprehensive income (loss) in stockholders' equity. We also report investment securities, trading at fair value with unrealized gains and losses reported on the statement of operations as net realized and unrealized gain (loss) on investment securities, trading. As of December 31, 2015 and 2014, we had aggregate unrealized gains on our available-for-sale securities of \$611,000 and unrealized gains of \$15.4 million, respectively. To determine fair value, we use an independent third-party valuation firm. These valuations are validated using a quote from a dealer, which typically will be the dealer who sold us the security. If there is a material difference between the value indicated by the third-party valuation firm and the dealer quote, we will evaluate the difference which could result in an updated valuation from the third-party firm or a revised dealer quote. Based on the market color available for each position, we categorize these investments as either Level 2, or 3 in the fair value hierarchy.

We are required to determine when an investment is considered impaired (i.e., decline in fair value below its amortized cost), evaluate whether the impairment is other than temporary (i.e., the investment value will not be recovered over its remaining life), and, if the impairment is other than temporary, recognize an impairment loss equal to the difference between the investment's cost and its fair value.

We record investment securities transactions on the trade date. We record purchases of newly issued securities when all significant uncertainties regarding the characteristics of the securities are removed, generally shortly before settlement date. We determine realized gains and losses on investment securities on the specific identification method.

Accounting for Derivative Financial Instruments and Hedging Activities

Our policies permit us to enter into derivative contracts, including interest rate swaps and interest rate caps, as a means of mitigating our interest rate risk on forecasted interest expense associated with the benchmark rate on forecasted rollover/reissuance of repurchase agreements or the interest rate repricing of repurchase agreements, or other similar hedged items, for a specified future time period.

As of December 31, 2015, we had engaged in nine interest rate swaps with a notional value of \$102.8 million and a fair value of \$3.5 million to seek to mitigate our interest rate risk for specified future time periods as defined in the terms of the hedge contracts. As of December 31, 2014, we had engaged in 10 interest rate swaps with a notional value of \$124.0 million and a fair value of \$8.7 million to seek to mitigate our interest rate risk for specified future time periods as defined in the terms of the hedge contracts. The contracts we have entered into have been designated as cash flow hedges and are evaluated at inception and on an ongoing basis in order to determine whether they qualify for hedge accounting. The hedge instrument must be highly effective in achieving offsetting changes in the hedged item attributable to the risk being hedged in order to qualify for hedge accounting. A hedge instrument is highly effective if changes in the fair value of the derivative provide an offset to at least 80% and not more than 125% of the changes in fair value or cash flows of the hedged item attributable to the risk being hedged. The interest rate swap contracts are carried on our consolidated balance sheets at fair value. Any ineffectiveness which arises during the hedging relationship must be recognized in interest expense or income during the period in which it arises. Before the end of the specified

[\(Back to Index\)](#)

hedge time period, the effective portion of all contract gains and losses (whether realized or unrealized) is recorded in other comprehensive income or loss. Realized gains and losses on the interest rate hedges are reclassified into earnings as an adjustment to interest expense during the period after the swap repricing date through the remaining maturity of the swap. For taxable income purposes, realized gains and losses on interest rate cap and swap contracts are reclassified into earnings over the term of the hedged transactions as designated for tax.

We are not required to account for derivative contracts using hedge accounting as described above. If we decided not to designate the derivative contracts as hedges and to monitor their effectiveness as hedges, or if we entered into other types of financial instruments that did not meet the criteria to be designated as hedges, changes in the fair values of these instruments would be recorded in our statement of operations, potentially resulting in increased volatility in our earnings. We had no interest rate cap agreements at December 31, 2015 and 2014.

We may also enter into forward contracts for the sale of mortgage-backed securities for the purpose of hedging our closed residential mortgage loans held for sale and our pipeline of residential mortgage loans expected to close. As residential mortgage loans are closed, they are typically sold at prices specified in the forward contracts. Gains or losses may arise if the yields of the loans delivered vary from those specified in the forward contracts. Derivative mortgage loan commitments, or interest rate locks, may also be utilized and relate to the origination of a mortgage that will be held for sale upon funding.

Income Taxes

The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and the future tax consequences of events that have been recognized in our consolidated financial statements or tax returns.

The tax rates we use to determine deferred tax assets or liabilities are the enacted tax rates in effect for the year in which we expect the differences to reverse. We recognize effects of tax rate changes on deferred tax liabilities and deferred tax assets, as well as other changes in income tax laws in net earnings in the period during which such changes are enacted. The future realization of deferred tax assets depends upon the generation of future taxable income during the periods in which those temporary differences become deductible. We continually evaluate our ability to realize the tax benefits associated with deferred tax assets by analyzing forecasted taxable income using both historical and projected future operating results, the reversal of existing temporary differences, taxable income in prior carryback years (if permitted) and the availability of tax planning strategies. We must establish a valuation allowance unless we determine that it is more likely than not that we will ultimately realize the tax benefit associated with a deferred tax asset.

We account for taxes assessed by a governmental authority that is directly imposed on a revenue-producing transaction (e.g., sales, use, value added) on a net (excluded from revenue) basis.

Allowance for Loan Losses

We maintain an allowance for loan losses. Loans held for investment are first individually evaluated for impairment, and then evaluated as a homogeneous pool as loans with substantially similar characteristics for impairment. We perform the reviews at least quarterly.

We consider an individual loan to be impaired when, based on current information and events, management believes it is probable that we will be unable to collect all amounts due according to the contractual terms of the loan agreement. When a loan is impaired, we increase the allowance for loan losses by the amount of the excess of the amortized cost basis of the loan over its fair value. Fair value may be determined based on the present value of estimated cash flows; on market price, if available; or the fair value of the collateral less estimated disposition costs. When we consider a loan, or a portion thereof, uncollectible and pursuit of the collection is not warranted, we will record a charge-off or write-down of the loan against the allowance for credit losses.

Variable Interest Entities

We consolidate entities that are variable interest entities, or VIEs where we have determined that we are the primary beneficiary of such entities. Once it is determined that we hold a variable interest in a VIE, management performs a qualitative analysis to determine (i) if we have the power to direct the matters that most significantly impact the VIE's financial performance; and (ii) if we have the obligation to absorb the losses of the VIE that could potentially be significant to the VIE or the right to receive the benefits of the VIE that could potentially be significant to the VIE. If our variable interest possesses both of these characteristics, we are deemed to be the primary beneficiary and would be required to consolidate the VIE. This assessment must be done on an ongoing basis. As of December 31, 2015, we determined that Apidos CDO I, Apidos CDO III, Apidos Cinco CDO, Apidos CLO VIII, RREF CDO 2006-1, RREF CDO 2007-1, Whitney CLO I, RCC CRE Notes 2013, RCC CRE 2014, RCC 2015-CRE3, RCC 2015-CRE4, Moselle CLO and RCM Global, LLC are VIEs and that we are the primary beneficiary.

Recent Accounting Pronouncements

In January 2016, the Financial Accounting Standards Board ("FASB") issued guidance to address certain aspects of recognition, measurement, presentation and disclosure of financial instruments in order to provide users of financial statements with more decision-useful information. The guidance requires equity investments to be measured at fair value with changes in fair value recognized in net income; simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment; eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet; requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes; requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments; requires separate presentation of financial assets and financial liabilities by measurement category and form of financial assets on the balance sheet or the accompanying notes to the financial statements and clarifies that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets. It is effective for annual reporting periods, and the interim periods within those periods, beginning after December 15, 2017 and early adoption is permitted for certain provisions. We are currently evaluating the effect of adoption.

In September 2015, the FASB issued guidance that simplifies the accounting for adjustments made to provisional amounts recognized in a business combination, which are currently recognized on a retrospective basis. Under the new requirements, adjustments to provisional amounts will be recognized in the reporting period in which the adjustments are determined. The effects of changes in depreciation, amortization, or other income arising from changes to the provisional amounts, if any, are included in earnings of the reporting period in which the adjustments to the provisional amounts are determined. An entity is also required to present separately on the face of the consolidated statement of operations or disclose in the notes the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. It is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015, but early adoption is permitted. We are currently evaluating the effect of adoption.

In April 2015, the FASB issued guidance that simplifies the presentation of debt issuance costs by requiring that debt issuance costs be presented in the balance sheet as a deduction from the carrying amount of the related debt liability, consistent with debt discounts or premiums. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. It is effective for annual reporting periods beginning after December 15, 2015, but early adoption is permitted. We have early adopted the provisions of this guidance. Adoption did not have a material impact on our consolidated financial statements.

In February 2015, the FASB issued guidance that requires an entity to evaluate whether it should consolidate certain legal entities. All legal entities are subject to reevaluation under the revised consolidation model. Specifically, the amendments: (1) modify the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities; (2) eliminate the presumption that a general partner should consolidate a limited partnership; (3) affect the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related-party relationships; and (4) provide a scope exception from consolidation guidance for reporting entities with interests in legal entities that are required to comply with or operate in accordance with requirements that are similar to those in Rule 2a-7 of the Investment Company Act of 1940 for registered money market funds. This guidance is effective for public business entities for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. Early application is permitted. The Company is currently evaluating the effect of adoption.

In November 2014, the FASB issued guidance to eliminate the use of different methods in practice and thereby reduce existing diversity under GAAP in the accounting for hybrid financial instruments issued in the form of shares. An entity that issues or invests in a hybrid financial instrument is required to separate an embedded derivative feature from the host contract (for example, an underlying share) and account for the feature as a derivative according to Accounting Standards Codification ("ASC") Subtopic 815-10 on derivatives and hedging if certain criteria are met. This guidance is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted. We are currently evaluating the effect of adoption.

In August 2014, the FASB issued guidance that clarifies the disclosures management must make in our interim and annual financial statement footnotes when management has determined that conditions exist that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date the financial statements are issued (or within one year after the date the financial statements are available to be issued when applicable). In accordance with this guidance, management's assessment is required to be made each reporting period and should be based on relevant conditions and events that are known

[\(Back to Index\)](#)

and reasonably knowable at the date the financial statements are issued. In all cases, to the extent that substantial doubt about the entity's ability to continue as a going concern is determined to be probable, management must disclose the principal conditions or events that gave rise to the substantial doubt about the entity's ability to continue as a going concern, management's evaluation of the significance of those conditions or events in relation to the entity's ability to meet our obligations, and management's plans that either alleviate or are intended to mitigate the conditions or events that gave rise to the substantial doubt about the entity's ability to continue as a going concern. Additionally, to the extent substantial doubt about the entity's ability to continue as a going concern is not alleviated by management's plans, management must indicate in the footnotes that there is substantial doubt about the entity's ability to continue as a going concern. This guidance is effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early adoption is permitted. We do not expect adoption will have a material impact on our consolidated financial statements.

In August 2014, the FASB issued guidance that provides for the election of a measurement alternative when a reporting entity determines that it is the primary beneficiary of a collateralized financing entity and, hence, is required to consolidate that collateralized financing entity. The measurement alternative allows a qualifying consolidated collateralized financing entity to use the more observable of the fair value of the financial assets or the fair value of the financial liabilities adjusted by the carrying amount of non-financial assets and the fair value of any beneficial interests retained by the reporting entity (including those beneficial interests that represent compensation for services). Alternatively, if the measurement alternative is not elected for a qualifying consolidated collateralized financing entity, this guidance requires that the financial assets and financial liabilities be measured in accordance with ASC Topic 820, and that any difference in the fair value of the financial assets and the fair value of the financial liabilities be reflected in earnings and attributed to the reporting entity in the consolidated statement of operations. This guidance is effective for public business entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted as of the beginning of an annual period. We are currently evaluating the effect of adoption.

In June 2014, the FASB issued guidance that changes the accounting for repurchase-to-maturity transactions to secured borrowing accounting and requires separate accounting for a transfer of a financial asset executed contemporaneously with a repurchase agreement with the same counterparty, which results in secured borrowing accounting for the repurchase arrangements. This amendment also requires additional disclosure for certain transactions comprising a transfer of a financial asset accounted for as a sale and an agreement with the same transferee entered into in contemplation of the initial transfer that results in the transferor retaining substantially all of the exposure to the economic return on the transferred financial asset throughout the term of the transaction. We adopted this accounting standards update on January 1, 2015. Upon adoption, we unlinked our previously linked transactions and disclosed affected asset, liability, income and expense balances at their gross values in our consolidated financial statements.

In April 2014, the FASB issued guidance that changes the requirements for reporting discontinued operations. The amendments in this update require an entity to present, for each comparative period, the assets and liabilities of a disposal group that includes a discontinued operation separately in the asset and liability sections of the statement of financial position. The amendments in this update also require additional disclosures about discontinued operations and new disclosures for disposal transactions of individually significant components of an entity that do not meet the definition of a discontinued operation. Additionally, this guidance both permits and expands the disclosures about an entity's significant continuing involvement with a discontinued operation. This guidance is effective for all disposals, or classifications of assets as held for sale, of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. Early adoption was permitted for disposals that had not been reported in financial statements previously issued or available for issuance. We have early adopted the provisions of this guidance. Adoption did not have a material impact on our consolidated financial statements.

In January 2014, the FASB issued guidance that clarifies when a creditor is considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan. Furthermore, the guidance requires interim and annual disclosure of the amount of foreclosed residential real estate property held by the creditor and the recorded investment in consumer mortgage loans collateralized by residential real estate property that are in the process of foreclosure according to local requirements of the applicable jurisdiction. This guidance was effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. Adoption did not have a material impact on our consolidated financial statements.

Inflation

Virtually all of our assets and liabilities are interest rate sensitive in nature. As a result, interest rates and other factors influence our performance far more than does inflation. Changes in interest rates do not necessarily correlate with inflation rates or changes in inflation rates. Our financial statements are prepared in accordance with GAAP and our distributions are determined by our board of directors based primarily on adjusted funds from operations, a non-GAAP measure; in each case, our activities and balance sheet are measured with reference to historical cost and/or fair market value without considering inflation.

[\(Back to Index\)](#)

ITEM 7A . QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of December 31, 2015, the primary component of our market risk was interest rate risk, as described below. While we do not seek to avoid risk completely, we do seek to assume risk that can be quantified from historical experience, to actively manage that risk, to earn sufficient compensation to justify assuming that risk and to maintain capital levels consistent with the risk we undertake or to which we are exposed.

Effect on Fair Value

A component of interest rate risk is the effect changes in interest rates will have on the fair value of our assets. We face the risk that the fair value of our assets will increase or decrease at different rates than that of our liabilities, including our hedging instruments.

We primarily assess our interest rate risk by estimating the duration of our assets and the duration of our liabilities. Duration essentially measures the market price volatility of financial instruments as interest rates change. We generally calculate duration using various financial models and empirical data. Different models and methodologies can produce different duration numbers for the same securities.

The following sensitivity analysis tables show, at December 31, 2015, the estimated impact on the fair value of our interest rate-sensitive investments and liabilities of changes in interest rates, assuming rates instantaneously fall 100 basis points and raise 100 basis points (dollars in thousands):

	December 31, 2015		
	Interest rates fall 100 basis points	Unchanged	Interest rates rise 100 basis points
CMBS – private placement ⁽¹⁾:			
Fair value	\$ 145,175	\$ 144,178	\$ 143,201
Change in fair value	\$ 997	\$ —	\$ (977)
Change as a percent of fair value	0.69 %	—%	(0.68)%
Hedging instruments:			
Fair value	\$ (4,713)	\$ (3,459)	\$ (1,704)
Change in fair value	\$ (1,254)	\$ —	\$ 1,755
Change as a percent of fair value	(36.25)%	—%	50.74 %

(1) Includes the fair value of available-for-sale investments that are sensitive to interest rate change.

For purposes of the table, we have excluded our investments with variable interest rates that are indexed to LIBOR. Because the variable rates on these instruments are short-term in nature, we are not subject to material exposure to movements in fair value as a result of changes in interest rates.

It is important to note that the impact of changing interest rates on fair value can change significantly when interest rates change beyond 100 basis points from current levels. Therefore, the volatility in the fair value of our assets could increase significantly when interest rates change beyond 100 basis points from current levels. In addition, other factors impact the fair value of our interest rate-sensitive investments and hedging instruments, such as the shape of the yield curve, market expectations as to future interest rate changes and other market conditions. Accordingly, in the event of changes in actual interest rates, the change in the fair value of our assets would likely differ from that shown above and such difference might be material and adverse to our stockholders.

Risk Management

To the extent consistent with maintaining our status as a REIT, we seek to manage our interest rate risk exposure to protect our portfolio of fixed-rate commercial real estate mortgages and CMBS and related debt against the effects of major interest rate changes. We generally seek to manage our interest rate risk by:

- monitoring and adjusting, if necessary, the reset index and interest rate related to our mortgage-backed securities and our borrowings;
- attempting to structure our borrowing agreements for our CMBS to have a range of different maturities, terms, amortizations and interest rate adjustment periods; and
- using derivatives, financial futures, swaps, options, caps, floors and forward sales, to adjust the interest rate sensitivity of our fixed-rate commercial real estate mortgages and CMBS and our borrowing which we discuss in “Financial Condition-Hedging Instruments.”

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders
Resource Capital Corp.

We have audited the accompanying consolidated balance sheets of Resource Capital Corp. (a Maryland corporation) and subsidiaries (the “Company”) as of December 31, 2015 and 2014, and the related consolidated statements of operations, comprehensive income (loss), changes in equity, and cash flows for each of the three years in the period ended December 31, 2015. Our audits of the basic consolidated financial statements included the financial statement schedules listed in the index appearing under Item 15(a)(2). These financial statements and financial statement schedules are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements and financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Resource Capital Corp. and subsidiaries as of December 31, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the related financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company’s internal control over financial reporting as of December 31, 2015, based on criteria established in the 2013 *Internal Control -Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and our report dated March 10, 2016, expressed an unqualified opinion.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE 1 - ORGANIZATION AND BASIS OF PRESENTATION

Resource Capital Corp. and subsidiaries' (collectively the "Company") principal business activity is to originate, purchase and manage a diversified portfolio of commercial real estate-related assets and commercial finance assets. The Company's investment activities are managed by Resource Capital Manager, Inc. ("Manager") pursuant to a management agreement (the "Management Agreement"). The Manager is a wholly-owned indirect subsidiary of Resource America, Inc. ("Resource America") (NASDAQ: REXI). In September 2013, it was determined that the Company is a variable interest entity ("VIE") and that Resource America was the primary beneficiary of the Company. In December 2015, Resource America early adopted the consolidation guidance issued by the Financial Accounting Standards Board ("FASB") (see Note 2) and it was determined that the Company is no longer a VIE. Therefore, the Company's financial statements are no longer consolidated into Resource America's financial statements. The following subsidiaries are consolidated in the Company's financial statements:

- RCC Real Estate, Inc. ("RCC Real Estate") holds real estate investments, including commercial real estate loans, commercial real estate-related securities and direct investments in real estate. RCC Real Estate owns 100% of the equity of the following VIEs:
 - Resource Real Estate Funding CDO 2006-1, Ltd. ("RREF CDO 2006-1"), a Cayman Islands limited liability company and qualified real estate investment trust ("REIT") subsidiary ("QRS"). RREF CDO 2006-1 was established to complete a collateralized debt obligation ("CDO") issuance secured by a portfolio of commercial real estate ("CRE") loans and commercial mortgage-backed securities ("CMBS").
 - Resource Real Estate Funding CDO 2007-1, Ltd. ("RREF CDO 2007-1"), a Cayman Islands limited liability company and QRS. RREF CDO 2007-1 was established to complete a CDO issuance secured by a portfolio of CRE loans and CMBS.
 - Resource Capital Corp. CRE Notes 2013, Ltd. ("RCC CRE Notes 2013"), a Cayman Islands limited liability company and QRS. RCC CRE Notes 2013 was established to complete a CRE securitization issuance secured by a portfolio of CRE loans.
 - Resource Capital Corp. 2014-CRE2, Ltd. ("RCC 2014-CRE2"), a Cayman Islands limited liability company and QRS. RCC 2014-CRE2 was established to complete a CRE securitization issuance secured by a portfolio of CRE loans.
 - Resource Capital Corp. 2015-CRE3, Ltd. ("RCC 2015-CRE3"), a Cayman Islands limited liability company and QRS. RCC 2015-CRE3 was established to complete a CRE securitization issuance secured by a portfolio of CRE loans.
 - Resource Capital Corp. 2015-CRE4, Ltd. ("RCC 2015-CRE4"), a Cayman Islands limited liability company and QRS. RCC 2015-CRE4 was established to complete a CRE securitization issuance secured by a portfolio of CRE loans.
- RCC Commercial, Inc. ("RCC Commercial") holds a 29.6% investment in Northport TRS, LLC ("Northport LLC") and owns 100% of the equity of the following VIE:
 - Apidos CDO III, Ltd. ("Apidos CDO III"), a Cayman Islands limited liability company and taxable REIT subsidiary ("TRS"). Apidos CDO III was established to complete a CDO issuance secured by a portfolio of bank loans and asset-backed securities ("ABS"). On March 31, 2015, the Company issued a notice of redemption to Apidos CDO III's trustee to call the CDO. In June 2015, the Company liquidated Apidos CDO III and, as a result, all of the assets were sold.
- RCC Commercial II, Inc. ("Commercial II") holds structured notes, available-for-sale securities and investments in the subordinated notes of foreign, syndicated bank loan collateralized loan obligation ("CLO") vehicles. Commercial II owns 100%, 68.3%, and 88.6%, respectively, of the equity of the following VIEs:
 - Apidos Cinco CDO, Ltd. ("Apidos Cinco CDO"), a Cayman Islands limited liability company and TRS. Apidos Cinco CDO was established to complete a CDO issuance secured by a portfolio of bank loans, ABS and corporate bonds.
 - Whitney CLO I, Ltd. ("Whitney CLO I"), a Cayman Islands limited liability company and TRS. In September 2013, the Company liquidated Whitney CLO I and, as a result, all of the assets were sold.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

- Moselle CLO S.A. ("Moselle CLO"), incorporated in Luxembourg, is a CLO issuer whose assets consisted of European senior secured loans, U.S. senior secured loans, U.S. senior unsecured loans, U.S. second lien loans, European mezzanine loans, and a limited amount of synthetic securities and other eligible debt obligations. In December 2014, the Company liquidated Moselle CLO and, as a result, all of the assets were sold.
- RCC Commercial III, Inc. ("Commercial III") holds bank loan investments. Commercial III owned 90% of the equity of the following VIE:
 - Apidos CDO I, Ltd. ("Apidos CDO I"), a Cayman Islands limited liability company and TRS. Apidos CDO I was established to complete a CDO issuance secured by a portfolio of bank loans and ABS. In October 2014, the Company liquidated Apidos CLO I, and as a result, substantially all of the assets were sold.
- Resource TRS, Inc. ("Resource TRS"), a TRS directly owned by the Company, holds the Company's equity investment in a leasing company and holds all of its investment securities, trading (through both direct and indirect investments in such securities). Resource TRS also owns equity in the following:
 - Resource TRS, LLC, a Delaware limited liability company, which holds an 25.8% investment in Northport LLC.
 - Northport LLC, a Delaware limited liability company, which holds bank loan investments and the Company's self-originated middle market loans. Resource TRS owns 44.6% of the equity in Northport LLC as of December 31, 2015. The remaining 29.6% of the equity is owned by RCC Commercial.
 - Pelium Capital Partners, L.P., ("Pelium Capital") a Delaware limited partnership, which holds investment securities, trading. Resource TRS owns 80.2% of the equity in Pelium Capital as of December 31, 2015.
- Resource TRS II, Inc. ("Resource TRS II"), a TRS directly owned by the Company, holds the Company's management rights in bank loan CLOs not originated by the Company. Resource TRS II owns 100% of the equity of the following VIE:
 - Resource Capital Asset Management ("RCAM"), a domestic limited liability company, which is entitled to collect senior, subordinated, and incentive fees related to three CLO issuers to which it provides management services through CVC Credit Partners, L.P., formerly Apidos Capital Management ("ACM"), a subsidiary of CVC Capital Partners SICAV-FIS, S.A., a private equity firm ("CVC"). Resource America owns a 24% interest in CVC Credit Partners, L.P., ("CVC Credit Partners").
- Resource TRS III, Inc. ("Resource TRS III"), a TRS directly owned by the Company, holds the Company's interests in a bank loan CDO originated by the Company. Resource TRS III owned 33% of the equity of the following VIE:
 - Apidos CLO VIII, Ltd ("Apidos CLO VIII"), a Cayman Islands limited liability company and TRS. In October 2013, the Company liquidated Apidos CLO VIII, and as a result, all of the assets were sold.
- Resource TRS IV, Inc. ("Resource TRS IV"), a TRS directly owned by the Company, held the Company's equity investment in hotel condominium units acquired in conjunction with a loan foreclosure. The hotel condominium units were sold in April 2014.
- Resource TRS V, Inc. ("Resource TRS V"), a TRS directly owned by the Company, held the Company's equity investment in a held for sale condominium complex. All of the condominiums were sold as of December 31, 2013.
- RSO EquityCo, LLC ("RSO Equity") owned 10% of the equity of Apidos CDO I and 10% of the equity of Apidos CLO VIII.
- Long Term Care Conversion, Inc. ("LTCC"), a TRS directly owned by the Company, is a Delaware corporation that owns 100% of the following entities:
 - Long Term Care Conversion, Funding ("LTCC Funding"), a New York limited liability company, which owns a 70.9% equity interest in Life Care Funding, LLC ("LCF") and provides funding through a financing facility to fund the acquisition of life settlement contracts. LCF, a New York limited liability company, is a joint venture between LTCC and Life Care Funding Group Partners and was established for the purpose of originating and acquiring life settlement contracts.
 - ZWH4, LLC ("ZAIS"), a Delaware limited liability company, owns a beneficial interest in the warehouse of ZAIS CLO 4, Limited, a Cayman Islands exempted limited liability company, in equity form, that will be used to finance the purchase of syndicated bank loans.
- RCC Residential, Inc., ("RCC Residential") a TRS directly owned by the Company, is a Delaware corporation, which owns 100% of the following entities:

 - RCC Residential Acquisition, LLC ("RCC Resi Acquisition"), a Delaware limited liability company, purchases residential mortgage loans from PCM and transfers the assets to RCC Opp Trust.
 - * RCC Opportunities Trust ("RCC Opp Trust"), a Delaware statutory trust, holds a portfolio of residential mortgage loans, available-for-sale.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The consolidated financial statements include the accounts of the Company. All inter-company transactions and balances have been eliminated.

Variable Interest Entities

A VIE is defined as an entity in which equity investors (i) do not have a controlling financial interest and/or (ii) do not have sufficient equity at risk for the entity to finance its activities without additional financial support from other parties. A VIE is required to be consolidated by its primary beneficiary, which is defined as the party that (a) has the power to control the activities that most significantly impact the VIE's economic performance and (b) has the obligation to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE.

The Company considers the following criteria in determining whether an entity is a VIE:

1. The equity investment at risk is not sufficient to permit the entity to finance its activities without additional subordinated financial support provided by any parties, including the equity holders.
2. The equity investors lack one or more of the following essential characteristics of a controlling financial interest.
 - a. The direct ability to make decisions about the entity's activities through voting rights or similar rights.
 - b. The obligation to absorb the expected losses of the entity.
 - c. The right to receive the expected residual returns of the entity.
3. The equity investors have voting rights that are not proportionate to their economic interests, and the activities of the entity involve or are conducted on behalf of an investor with a disproportionately small voting interest.

In determining whether the Company is the primary beneficiary of a VIE, the Company reviews governing contracts, formation documents and any other contractual arrangements for any relevant terms and determines the activities that have the most significant impact on the VIE and who has the power to direct those activities. The Company also looks for kick-out rights, protective rights and participating rights as well as any financial or other support provided to the VIE and the reason for that support, and the terms of any explicit or implicit arrangements that may require the Company to provide future support. The Company then makes a determination based on its power to direct the most significant activities of the VIE and/or a financial interest that is potentially significant. The Company continually reassesses whether it should be deemed to be the primary beneficiary of its VIEs.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

Voting Interest Entities

A voting interest entity is an entity in which the total equity investment at risk is sufficient to enable it to finance its activities independently and the equity holders have the power to direct the activities of the entity that most significantly impact its economic performance, the obligation to absorb the losses of the entity and the right to receive the residual returns of the entity. The usual condition for a controlling financial interest in a voting interest entity is ownership of a majority voting interest. If the Company has a majority voting interest in a voting interest entity, the entity will generally be consolidated. The Company does not consolidate a voting interest entity if there are substantive participating rights by other parties and/or kick-out rights by a single party or through a simple majority vote.

The Company performs on-going reassessments of whether entities previously evaluated under the voting interest framework have become VIEs, based on certain events, and therefore subject to the VIE consolidation framework.

Reverse Stock Split and Amended and Restated Certificate of Incorporation

Effective August 31, 2015, the Company completed a one-for-four reverse stock split of its outstanding common stock. The accompanying financial statements and notes to the financial statements give retroactive effect to the reverse stock split for all periods presented. In addition, the Company adopted an Amended and Restated Certificate of Incorporation, which provides that our authorized capital stock consists of 125,000,000 shares of common stock, \$0.001 par value per share, and 100,000,000 shares of preferred stock, \$0.001 par value per share.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates affecting the accompanying consolidated financial statements include the net realizable and fair values of the Company's investments and derivatives, the estimated life used on investments to calculate depreciation, amortization, and accretion of premiums and discounts, respectively, provisions for loan losses, valuation of servicing assets and the disclosure of contingent liabilities.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and all highly liquid investments with original maturities of three months or less at the time of purchase. Cash, including amounts restricted, may at times exceed the Federal Deposit Insurance Corporation deposit insurance limit of \$250,000 per institution, subjecting the Company to risk related to the uninsured balance. At December 31, 2015 and 2014, the reported cash balances included \$25.9 million and \$31.8 million, respectively, held in a prime brokerage and custody accounts, \$44.5 million and \$32.6 million, respectively, held in money market accounts, \$8.4 million and \$15.4 million, respectively, held in checking accounts, and \$0 and \$100,000, respectively, held in accounts at the Company's investment properties. All of the Company's cash deposits are held at large, established financial institutions.

Investment in Unconsolidated Entities

The Company's non-controlling investments in unconsolidated entities are included in investments in unconsolidated entities on the consolidated balance sheet and may be accounted for under the equity method or the cost method.

Under the equity method, capital contributions, distributions, profits and losses of the entities are allocated in accordance with the terms of the entities' operating agreements. Such allocations may differ from the stated percentage interests, if any, as a result of preferred returns and allocation formulas as described in the entities' operating agreements.

The Company may account for an investment that does not qualify for equity method accounting using the cost method. Under the cost method, the Company records dividend income when declared to the extent it is not considered a return of capital, which is recorded as a reduction of the cost of the investment.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

Investment Securities

The Company classifies its investment portfolio as trading or available-for-sale. The Company, from time to time, may sell any of its investments due to changes in market conditions or in accordance with its investment strategy.

The Company's investment securities, trading and investment securities, available-for-sale are reported at fair value. To determine fair value, the Company uses an independent third-party valuation firm utilizing data available in the market as well as appropriate prepayment, default, and recovery rates. These valuations are validated utilizing dealer quotes or bids or internal models. If there is a material difference between the value indicated by the third-party valuation firm and the dealer quote, bid, or internal models, the Company will evaluate the difference, which could result in an updated valuation from the third-party or a revised dealer quote. Based on a prioritization of inputs used in valuation of each position, the Company categorizes these investments as either Level 2 or Level 3 in the fair value hierarchy. Any changes in fair value to the Company's investment securities, trading are recorded in the Company's consolidated statements of operations as net realized and unrealized (loss) gain on investment securities, trading. Any changes in fair value to the Company's investment securities available-for-sale are recorded in the Company's consolidated balance sheets as a component of accumulated other comprehensive income (loss) in stockholders' equity.

On a quarterly basis, the Company evaluates its available-for-sale investments for other-than-temporary impairment. An available-for-sale investment is impaired when its fair value has declined below its amortized cost basis. An impairment is considered other-than-temporary when the amortized cost basis of the investment or some portion thereof will not be recovered.

The determination of other-than-temporary impairment is a subjective process, and different judgments and assumptions could affect the timing of loss realization. The Company reviews its portfolios and makes other-than-temporary impairment determinations at least quarterly. The Company considers the following factors when determining if there is an other-than-temporary impairment on a security:

- the length of time the market value has been less than amortized cost;
- the severity of the impairment;
- the expected loss of the security as generated by a third-party valuation model;
- original and current credit ratings from the rating agencies;
- underlying credit fundamentals of the collateral backing the securities;
- whether, based upon the Company's intent, it is more likely than not that the Company will sell the security before the recovery of the amortized cost basis; and
- third-party support for default, for recovery, prepayment speed and reinvestment price assumptions.

Where credit quality is believed to be the cause of the other-than-temporary impairment, that component of the impairment is recognized as an impairment loss in the consolidated statements of operations. Where other market components are believed to be the cause of the impairment, that component of the impairment is recognized as other comprehensive loss.

The Company performs an on-going review of third-party reports and updated financial data on the underlying properties in order to analyze current and projected security performance. Rating agency downgrades are considered with respect to the Company's income approach when determining other-than-temporary impairment and, when inputs are subjected to testing for economic changes within possible ranges, the resulting projected cash flows reflect a full recovery of principal and interest indicating no impairment.

Investment security transactions are recorded on the trade date. Realized gains and losses on investment securities are determined on the specific identification method.

Investment Interest Income Recognition

Interest income on the Company's mortgage-backed and other asset-backed securities is accrued using the effective yield method based on the actual coupon rate and the outstanding principal amount of the underlying mortgages or other assets. Premiums and discounts are amortized or accreted into interest income over the lives of the securities also using the effective yield method, adjusted for the effects of estimated prepayments. For an investment purchased at par, the effective yield is the contractual interest rate on the investment. If the investment is purchased at a discount or at a premium, the effective yield is computed based on the contractual interest rate increased for the accretion of a purchase discount or decreased for the amortization of a purchase

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

premium. The effective yield method requires the Company to make estimates of future prepayment rates for its investments that can be contractually prepaid before their contractual maturity date so that the purchase discount can be accreted, or the purchase premium can be amortized, over the estimated remaining life of the investment. The prepayment estimates that the Company uses directly impact the estimated remaining lives of its investments. Actual prepayment estimates are reviewed as of each quarter end or more frequently if the Company becomes aware of any material information that would lead it to believe that an adjustment is necessary. If prepayment estimates are incorrect, the amortization or accretion of premiums and discounts may have to be adjusted, which would have an impact on future income.

To the extent that the Company invests in securities qualifying as beneficial interests in securitized financial assets, the Company will recognize the excess of all cash flows attributable to the beneficial interest estimated at the acquisition/transaction date over the initial investment (the accretable yield) as interest income over the life of the beneficial interest using the effective yield method.

Loans - Other than Residential Mortgage Loans

The Company acquires loans through direct origination, through the acquisition of participations in commercial real estate loans and corporate leveraged loans in the secondary market and through syndications of newly originated loans. Loans are held for investment; therefore, the Company initially records them at their acquisition price, and subsequently, accounts for them based on their outstanding principal plus or minus unamortized premiums or discounts. The Company may sell a loan held for investment where the credit fundamentals underlying a particular loan have changed in such a manner that the Company's expected return on investment may decrease. Once the determination has been made by the Company that it no longer will hold the loan for investment, the Company identifies these loans as "Loans held for sale" and will account for them at the lower of amortized cost or fair value.

Loan Interest Income Recognition

Interest income on loans includes interest at stated rates adjusted for amortization or accretion of premiums and discounts. Premiums and discounts are amortized or accreted into income using the effective yield method. If a loan with a premium or discount is prepaid, the Company immediately recognizes the unamortized portion as a decrease or increase to interest income. In addition, the Company defers loan origination fees and loan origination costs and recognizes them over the life of the related loan against interest income using the effective yield method.

Residential Mortgage Loan Origination

The Company originates residential mortgage loans to be funded by permanent investors. The Company originates loans in 41 states with a focus on the Southeastern United States. The Company may sell or retain the right to service the loans. Servicing fees are recognized as income when the related mortgage payments are collected based on the outstanding balance of the related residential mortgage loans or on an agreed upon rate. Servicing fee income is reduced by amortization of capitalized servicing rights.

The fair value option has been elected for all residential mortgage loans held for sale. As such, residential mortgage loans held for sale are valued at fair value, determined on an individual-loan basis. Additionally, due to such election, origination fees and direct origination costs are immediately recognized in earnings. Market value for conforming, agency loans is determined using sales commitments to permanent investors or on current market rates for loans of similar quality and type (generally Level 2 in the fair value hierarchy). Market value for non-agency, jumbo loans is determined using sales commitments to permanent investors, current market rates for loans of similar quality, or through the use of cash flow models (generally Level 3 in the fair value hierarchy). Residential mortgage loans are included as loans held for sale in the consolidated balance sheets. Conforming, agency loans are generally sold within 15 to 45 days of origination. Non-agency, jumbo loans may either be sold to private investors or held for securitization.

Residential real estate properties acquired through foreclosure to be sold are initially recorded at fair value less selling costs at the date of foreclosure, establishing a new cost basis. Any write down to fair value at the time of foreclosure is charged to the allowance for loan losses. After foreclosure, valuations are periodically performed by management and the real estate is carried at the lower of the carrying amount or fair value less costs to sell. Costs related to holding foreclosed real estate and subsequent adjustments to value are expensed. The fair value of real estate owned is determined using unobservable inputs including estimates of selling costs and marketability of the property (Level 3).

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

The unpaid principal balances of loans serviced by the Company for others are not included in the accompanying consolidated balance sheets.

Sales of Financial Assets

Originated residential mortgage loans are principally sold directly to, or pursuant to programs sponsored by, government-sponsored entities and other investors; however, some residential mortgage loans are sold to private investors.

Each type of loan sale agreement is evaluated for sales treatment through a review that includes both an accounting and a legal analysis to determine whether or not the transferred assets have been isolated from the transferor, the extent of the continuing involvement and the existence of any protection provisions.

To the extent the loan transfer qualifies as a sale, the asset is derecognized and the gain or loss is recorded on the sale date. In the event the transfer of assets does not qualify as a sale, the transfer would be treated as a secured borrowing.

Mortgage Servicing Rights

A mortgage servicing right is the right to receive a portion of the interest coupon and fees collected from the mortgagor for performing specified mortgage servicing activities, which consist of collecting loan payments, remitting principal and interest payments to investors, managing escrow funds for the payment of mortgage-related expenses such as taxes and insurance and otherwise administering the mortgage loan servicing portfolio. Mortgage servicing rights are created through either the direct purchase of servicing from a third party or through the sale of an originated mortgage loan.

The fair value of residential servicing rights included in the consolidated balance sheets was determined using an estimated current market value at the date of loan origination and other assumptions. Capitalized servicing rights are amortized over the life of the loan, assuming certain prepayment and other assumptions and are evaluated at each reporting date for the lower of cost or fair value.

Allowance for Loan Loss

The Company maintains an allowance for loan loss. For the Company's CRE, bank and middle market loan portfolios, loans held for investment are first individually evaluated for impairment to determine whether a specific reserve is required. Loans that are not determined to be impaired individually are then evaluated for impairment as a homogeneous pool of loans with substantially similar characteristics so that a general reserve can be established, if needed. The reviews are performed at least quarterly.

The Company considers a loan to be impaired if one of two conditions exists. The first condition is if, based on current information and events, management believes that a loss event has occurred which makes it probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. The second condition is if the loan is deemed to be a troubled-debt restructuring ("TDR") where a concession has been given to a borrower in financial difficulty. These TDRs may not have an associated specific loan loss allowance if the principal and interest amount is considered recoverable based on current market conditions, expected collateral performance and/or guarantees made by the borrowers.

When a loan is impaired under either of these two conditions, the allowance for loan losses is increased by the amount of the excess of the amortized cost basis of the loan over its fair value. Fair value may be determined based on the present value of estimated cash flows; on market price, if available; or on the fair value of the collateral less estimated disposition costs. When a loan, or a portion thereof, is considered uncollectible and pursuit of collection is not warranted, the Company will record a charge-off or write-down of the loan against the allowance for loan losses.

An impaired loan may remain on accrual status during the period in which the Company is pursuing repayment of the loan; however, the loan would be placed on non-accrual status at such time as (i) management believes that scheduled debt service payments will not be met within the coming 12 months; (ii) the loan becomes 90 days delinquent; (iii) management determines the borrower is incapable of, or has ceased efforts toward, curing the cause of the impairment; or (iv) the net realizable value of the loan's underlying collateral approximates the Company's carrying value for such loan. While on non-accrual status, the Company recognizes interest income only when an actual payment is received. When a loan is placed on non-accrual, previously accrued interest is reversed from interest income.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

For the Company's residential mortgage loans, the allowance is based upon management's periodic review of the collectability of the loans in light of historical experience, the nature and amount of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, and prevailing economic conditions. This evaluation is inherently subjective, as it requires estimates that are susceptible to significant revision as more information becomes available. The allowance consists of specific and general components. The specific component relates to loans that are classified as doubtful, substandard, or special mention. For such loans that are also identified as impaired, an allowance is established when the discounted cash flows (or collateral value or observable market price) of the impaired loan are lower than the carrying value of that loan. A general component is maintained to cover uncertainties that could affect management's estimate of probable losses. The general component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. Impaired loans are carried at fair value and are measured on a quarterly basis. The fair value is determined using unobservable inputs including estimates of selling costs (Level 3).

Long-Lived and Intangible Assets

Long-lived assets and certain identifiable intangibles to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of such assets may not be recoverable. The review of recoverability is based on an estimate of the future undiscounted cash flows (excluding interest charges) expected to result from the long-lived asset's use and eventual disposition. If impairment has occurred, the loss will be measured as the excess of the carrying amount of the asset over the fair value of the asset.

There was an impairment charge of \$2.4 million, on a pre-tax basis, recorded with respect to the Company's intangible assets as of December 31, 2015, recorded in depreciation and amortization on the Company's consolidated statement of operations. There were no impairment charges recorded with respect to the Company's investment in real estate or intangible assets during the years ended December 31, 2014 or 2013.

Comprehensive Income (Loss)

Comprehensive income (loss) for the Company includes net income and the change in net unrealized gains (losses) on available-for-sale securities, derivative instruments used to hedge exposure to interest rate fluctuations and protect against declines in the market value of assets resulting from general market trends as well as translation of currency as a result of the Company's investment in the equity of foreign CDOs.

Income Taxes

The Company operates in such a manner as to qualify as a real estate investment trust ("REIT") under the provisions of the Internal Revenue Code of 1986, as amended (the "Code"); therefore, applicable REIT taxable income is included in the taxable income of its shareholders, to the extent distributed by the Company. To maintain REIT status for federal income tax purposes, the Company is generally required to distribute at least 90% of its REIT taxable income to its shareholders as well as comply with certain other qualification requirements as defined under the Code. As a REIT, the Company is not subject to federal corporate income tax to the extent that it distributes 100% of its REIT taxable income each year.

Taxable income, from non-REIT activities managed through the Company's TRSs, are subject to federal, state and local income taxes. The Company's TRS' income taxes are accounted for under the asset and liability method. Under the asset and liability method, deferred income taxes are recognized for the temporary differences between the financial reporting basis and tax basis of assets and liabilities.

Apidos CDO I, Apidos CDO III, Apidos Cinco CDO, Apidos CLO VIII, Whitney CLO I, Harvest CLO VII, Moselle CLO, Harvest CLO VIII, Harvest X Investor, Harvest CLO X, and Harvest CLO XV Designated Activity Company, the Company's foreign TRSs, are organized as exempted companies incorporated with limited liability under the laws of the Cayman Islands and, with respect to Moselle CLO, Luxembourg and, with respect to Harvest CLO VII, Harvest CLO VIII, Harvest CLO X, and Harvest CLO XV Designated Activity Company, Ireland, and are generally exempt from federal and state income tax at the corporate level

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

because their activities in the United States are limited to trading in stock and securities for their own account. Therefore, despite their status as TRSs, they generally will not be subject to corporate tax on their earnings and no provision for income taxes is required; however, because they are “controlled foreign corporations,” the Company will generally be required to include Apidos CDO I's, Apidos CDO III's, Apidos Cinco CDO's, Apidos CLO VIII's, Whitney CLO I's, Harvest CLO VII's, Moselle CLO's, Harvest CLO VIII's, Harvest X Investor's, Harvest CLO X's, and Harvest CLO XV Designated Activity Company's current taxable income in its calculation of REIT taxable income.

On October 27, 2011 the Company reorganized the ownership structure of Apidos CDO I and Apidos CDO III. As a result, the earnings from Apidos CDO I and Apidos CDO III are excluded from the Company's calculation of REIT taxable income and are subject to corporate tax. On January 24, 2012, the Company again reorganized the ownership structure of Apidos CDO I and Apidos CDO III. As a result, for the period January 1, 2012 through January 23, 2012, the earnings from Apidos CDO I and Apidos CDO III are excluded from the Company's calculation of REIT taxable income and are subject to corporate tax. For the period January 24, 2012 through December 31, 2012 the earnings from Apidos CDO I are included in the Company's calculation of REIT taxable income.

On December 11, 2012, the Company further reorganized the ownership structure of Apidos CDO III. As a result, for the period from January 24, 2012 through December 10, 2012 the earnings from Apidos CDO III are included in the Company's calculation of REIT taxable income. Also as a result of the reorganization on December 11, 2012, for the period December 11, 2012 through December 31, 2012, the earnings from Apidos CDO III are excluded from the Company's calculation of REIT taxable income and are subject to corporate tax.

On November 12, 2012, the Company reorganized the ownership structure of Apidos Cinco CDO and Whitney CLO I. As a result, for the period November 12, 2012 through December 31, 2012, the earnings from Apidos Cinco CDO and Whitney CLO I are excluded from the Company's calculation of REIT taxable income and are subject to corporate tax. Accordingly, a provision for income taxes on the earnings from November 12, 2012 through December 31, 2012 was recorded.

On February 13, 2013, the Company reorganized the ownership structure of Apidos Cinco CDO and Whitney CLO I. As a result, for the period January 1, 2013 through February 12, 2013, the earnings from Apidos Cinco CDO and Whitney CLO I are excluded from the Company's calculation of REIT taxable income and are subject to corporate tax. Accordingly, a provision for income taxes on the earnings from January 1, 2013 through February 12, 2013 has been recorded. Also as a result of the reorganization on February 13, 2013, for the period February 13, 2013 and ending December 31, 2013 the earnings from Apidos Cinco CDO and Whitney CLO I are included in the Company's calculation of REIT taxable income.

On March 8, 2013 the Company reorganized the ownership structure of Apidos CDO III. As a result, the earnings from Apidos CDO III for the period January 1, 2013 through March 7, 2013 are excluded from the Company's calculation of REIT taxable income and are subject to corporate tax. Accordingly, a provision for income taxes on the earnings from January 1, 2013 through March 7, 2013 has been recorded. Also as a result of the reorganization on March 8, 2013, for the period March 8, 2013 and ending December 31, 2013 the earnings from Apidos CDO III are included in the Company's calculation of REIT taxable income.

On September 10, 2013, the Company acquired approximately 9.5% of the equity of Harvest CLO VII, which is a foreign TRS, organized as an exempt company incorporated with limited liability under the laws of Ireland. This equity is directly owned by a domestic QRS (Qualified REIT Subsidiary) of the Company; therefore, its earnings are included in the Company's calculation of REIT taxable income.

On February 24, 2014, the Company acquired approximately 88.6% of the equity of Moselle CLO S.A., which is a foreign TRS, incorporated in Luxembourg. This equity was directly owned by a domestic qualified REIT subsidiary of the Company and, accordingly, its earnings are included in the Company's calculation of REIT taxable income.

On March 27, 2014, the Company acquired approximately 12.6% of the equity of Harvest CLO VIII, which is a foreign TRS, organized as an exempt company incorporated with limited liability under the laws of Ireland. This equity is directly owned by a domestic qualified REIT subsidiary of the Company and, accordingly, its earnings are included in the Company's calculation of REIT taxable income.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

On July 3, 2014, the Company acquired approximately 55.0% of the equity of Harvest X Investor, which is a foreign TRS, organized as an exempt company incorporated with limited liability under the laws of the Cayman Islands. As of November 6, 2014, the Company's investment was returned and the Company no longer has an active ownership interest in Harvest X Investor. For the period July 3, 2014 through November 6, 2014 the equity was directly owned by a domestic qualified REIT subsidiary of the Company and, accordingly, its earnings are included in the Company's calculation of REIT taxable income.

On November 6, 2014, the Company acquired approximately 32.1% of the equity of Harvest CLO X, which is a foreign TRS, organized as an exempt company incorporated with limited liability under the laws of Ireland. This equity is directly owned by a domestic qualified REIT subsidiary of the Company and, accordingly, its earnings are included in the Company's calculation of REIT taxable income.

On September 28, 2015, the Company acquired 100.0% of the equity of Harvest CLO XV Designated Activity Company, which is a foreign TRS, organized as an exempt company incorporated with limited liability under the laws of Ireland. This equity is directly owned by a domestic qualified REIT subsidiary of the Company and, accordingly, its earnings are included in the Company's calculation of REIT taxable income. In December 2015, a third party purchased a piece of the equity, decreasing our ownership to 66.0%

The Company accounts for taxes assessed by a governmental authority that is directly imposed on a revenue-producing transaction (e.g., sales, use, value added) on a net (excluded from revenue) basis.

Stock Based Compensation

Issuances of restricted stock and options are accounted for using the fair value based methodology whereby the fair value of the award is measured on the grant date and expensed monthly to equity compensation expense-related party on the consolidated statements of operations with a corresponding entry to additional paid-in capital. For issuances to the Company's Manager and to non-employees, the unvested stock and options are adjusted quarterly to reflect changes in fair value as performance under the agreement is completed. For issuances to the Company's seven non-employee directors or to any direct employees of the Company's subsidiaries, the amount is not remeasured under the fair value-based method. The compensation for each of these issuances is amortized over the service period and included in equity compensation expense.

Net Income (Loss) Per Share

The Company calculates basic income per share by dividing net income for the period by the weighted-average number of shares of its common stock, including vested restricted stock and participating securities, outstanding for that period. Diluted income per share takes into account the effect of dilutive instruments, such as stock options, unvested restricted stock and convertible debt, but uses the average share price for the period in determining the number of incremental shares that are to be added to the weighted-average number of shares outstanding.

Derivative Instruments

The Company's policies permit it to enter into derivative contracts, including interest rate swaps and interest rate caps, to add stability to its interest expense and to manage its exposure to interest rate movements or other identified risks. The Company has designated these transactions as cash flow hedges. The contracts or hedge instruments are evaluated at inception and at subsequent consolidated balance sheets dates to determine if they qualify for hedge accounting which requires that the Company recognize all derivatives on the consolidated balance sheets at fair value. The Company records changes in the estimated fair value of the derivative in other comprehensive income to the extent that it is effective. Any ineffective portion of a derivative's change in fair value is immediately recognized in earnings.

The Company may also enter into forward currency contracts. Forward contracts represent future commitments to either purchase or to deliver loans, securities or a quantity of a currency at a predetermined future date, at a predetermined rate or price and are used to manage interest rate risk on loan commitments and mortgage loans held for sale as well as currency risk with respect to the Company's long positions in foreign currency-denominated investment securities.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

The Company may also enter into forward contracts for the sale of mortgage-backed securities for the purpose of hedging its closed residential mortgage loans held for sale and its pipeline of residential mortgage loans expected to close. As residential mortgage loans are closed, they are typically sold at prices specified in the forward contracts. Gains or losses may arise if the yields of the loans delivered vary from those specified in the forward contracts. Derivative mortgage loan commitments, or interest rate locks, may also be utilized and relate to the origination of a mortgage that will be held for sale upon funding.

The Company may also hold warrants. Warrants give the holder the right, but not the obligation, to purchase equity in the Company at a specific price within a specified time period. Typically, the warrant contracts include expiration dates well into the future and an exercise price set above the current fair value of the common stock. With the expiration date set into the future, the warrant's value is impacted by the time value of money. Both this factor and the fluctuation in the underlying stock's price impact the value of the warrant, thereby causing the holder to consider this investment as a derivative.

The Company may also hold options on future contracts. Options are contracts sold by one party to another that give the buyer the right, but not the obligation, to buy or sell a financial asset at an agreed-upon price during a certain period of time or on a specific date.

Linked Transactions

Prior to January 1, 2015, if the Company financed the purchase of securities with repurchase agreements with the same counterparty from whom the securities were purchased and both transactions were entered into contemporaneously or in contemplation of each other, the transactions were presumed not to meet sale accounting criteria and the Company accounted for the purchase of such securities and the repurchase agreement on a net basis and recorded a forward purchase commitment to purchase securities (each, a "Linked Transaction") at fair value on the Company's consolidated balance sheets in the line item linked transactions, at fair value. Changes in the fair value of the assets and liabilities underlying the linked transactions and associated interest income and interest expense were reported as unrealized (loss) gain and net interest income on linked transactions, net on the Company's consolidated statements of operations. Due to a change in accounting guidance, as of January 1, 2015, the concept of linked transactions no longer exists.

Recent Accounting Standards

In January 2016, the Financial Accounting Standards Board ("FASB") issued guidance to address certain aspects of recognition, measurement, presentation and disclosure of financial instruments in order to provide users of financial statements with more decision-useful information. The guidance requires equity investments to be measured at fair value with changes in fair value recognized in net income; simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment; eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet; requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes; requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments; requires separate presentation of financial assets and financial liabilities by measurement category and form of financial assets on the balance sheet or the accompanying notes to the financial statements and clarifies that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets. It is effective for annual reporting periods, and the interim periods within those periods, beginning after December 15, 2017 and early adoption is permitted for certain provisions. The Company is currently evaluating the effect of adoption.

In September 2015, the FASB issued guidance that simplifies the accounting for adjustments made to provisional amounts recognized in a business combination, which are currently recognized on a retrospective basis. Under the new requirements, adjustments to provisional amounts will be recognized in the reporting period in which the adjustments are determined. The effects of changes in depreciation, amortization, or other income arising from changes to the provisional amounts, if any, are included in earnings of the reporting period in which the adjustments to the provisional amounts are determined. An entity is also required to present separately on the face of the income statement or disclose in the notes the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. It is effective for annual periods, and interim periods within those annual periods,

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

beginning after December 15, 2015, but early adoption is permitted. The Company is currently evaluating the effect of adoption.

In April 2015, the FASB issued guidance that simplifies the presentation of debt issuance costs by requiring that debt issuance costs be presented in the balance sheet as a deduction from the carrying amount of the related debt liability, consistent with debt discounts or premiums. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. It is effective for annual reporting periods beginning after December 15, 2015, but early adoption is permitted. The Company has early adopted the provisions of this guidance. Note 13, *Borrowings*, reflects the presentation of debt issuance costs as prescribed by this accounting standards update. Adoption did not have a material impact on the Company's consolidated financial statements.

In February 2015, the FASB issued guidance that requires an entity to evaluate whether it should consolidate certain legal entities. All legal entities are subject to reevaluation under the revised consolidation model. Specifically, the amendments: (1) modify the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities; (2) eliminate the presumption that a general partner should consolidate a limited partnership; (3) affect the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related-party relationships; and (4) provide a scope exception from consolidation guidance for reporting entities with interests in legal entities that are required to comply with or operate in accordance with requirements that are similar to those in Rule 2a-7 of the Investment Company Act of 1940 for registered money market funds. This guidance is effective for public business entities for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. Early application is permitted. The Company is currently evaluating the effect of adoption.

In November 2014, the FASB issued guidance to eliminate the use of different methods in practice and thereby reduce existing diversity under GAAP in the accounting for hybrid financial instruments issued in the form of shares. An entity that issues or invests in a hybrid financial instrument is required to separate an embedded derivative feature from the host contract (for example, an underlying share) and account for the feature as a derivative according to Accounting Standards Codification ("ASC") Subtopic 815-10 on derivatives and hedging if certain criteria are met. This guidance is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted. The Company is currently evaluating the effect of adoption.

In August 2014, the FASB issued guidance that clarifies the disclosures management must make in its interim and annual financial statement footnotes when management has determined that conditions exist that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date the financial statements are issued (or within one year after the date the financial statements are available to be issued when applicable). In accordance with this guidance, management's assessment is required to be made each reporting period and should be based on relevant conditions and events that are known and reasonably knowable at the date the financial statements are issued. In all cases, to the extent that substantial doubt about the entity's ability to continue as a going concern is determined to be probable, management must disclose the principal conditions or events that gave rise to the substantial doubt about the entity's ability to continue as a going concern, management's evaluation of the significance of those conditions or events in relation to the entity's ability to meet its obligations, and management's plans that either alleviate or are intended to mitigate the conditions or events that gave rise to the substantial doubt about the entity's ability to continue as a going concern. Additionally, to the extent substantial doubt about the entity's ability to continue as a going concern is not alleviated by management's plans, management must indicate in the footnotes that there is substantial doubt about the entity's ability to continue as a going concern. This guidance is effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early adoption is permitted. The Company does not expect adoption will have a material impact on its consolidated financial statements.

In August 2014, the FASB issued guidance that provides for the election of a measurement alternative when a reporting entity determines that it is the primary beneficiary of a collateralized financing entity and, hence, is required to consolidate that collateralized financing entity. The measurement alternative allows a qualifying consolidated collateralized financing entity to use the more observable of the fair value of the financial assets or the fair value of the financial liabilities adjusted by the carrying amount of non-financial assets and the fair value of any beneficial interests retained by the reporting entity (including those beneficial interests that represent compensation for services). Alternatively, if the measurement alternative is not elected for a qualifying consolidated collateralized financing entity, this guidance requires that the financial assets and financial liabilities be measured in accordance with ASC Topic 820, and that any difference in the fair value of the financial assets and the fair value of the financial liabilities be reflected in earnings and attributed to the reporting entity in the consolidated statement of operations. This guidance is effective for public business entities for annual periods, and interim periods within those annual periods, beginning

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

after December 15, 2015. Early adoption is permitted as of the beginning of an annual period. The Company is currently evaluating the effect of adoption.

In June 2014, the FASB issued guidance that changes the accounting for repurchase-to-maturity transactions to secured borrowing accounting and requires separate accounting for a transfer of a financial asset executed contemporaneously with a repurchase agreement with the same counterparty, which results in secured borrowing accounting for the repurchase arrangements. This amendment also requires additional disclosure for certain transactions comprising a transfer of a financial asset accounted for as a sale and an agreement with the same transferee entered into in contemplation of the initial transfer that results in the transferor retaining substantially all of the exposure to the economic return on the transferred financial asset throughout the term of the transaction. The Company adopted this accounting standards update on January 1, 2015. Upon adoption, the Company unlinked its previously linked transactions and disclosed affected asset, liability, income and expense balances at their gross values in its consolidated financial statements.

In April 2014, the FASB issued guidance that changes the requirements for reporting discontinued operations. The amendments in this update require an entity to present, for each comparative period, the assets and liabilities of a disposal group that includes a discontinued operation separately in the asset and liability sections of the statement of financial position. The amendments in this update also require additional disclosures about discontinued operations and new disclosures for disposal transactions of individually significant components of an entity that do not meet the definition of a discontinued operation. Additionally, this guidance both permits and expands the disclosures about an entity's significant continuing involvement with a discontinued operation. This guidance is effective for all disposals, or classifications of assets as held for sale, of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. Early adoption was permitted for disposals that had not been reported in financial statements previously issued or available for issuance. The Company early adopted the provisions of this guidance. Adoption did not have a material impact on the Company's consolidated financial statements.

In January 2014, the FASB issued guidance that clarifies when a creditor is considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan. Furthermore, the guidance requires interim and annual disclosure of the amount of foreclosed residential real estate property held by the creditor and the recorded investment in consumer mortgage loans collateralized by residential real estate property that are in the process of foreclosure according to local requirements of the applicable jurisdiction. This guidance was effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. Adoption did not have a material impact on the Company's consolidated financial statements.

Reclassifications

Certain reclassifications have been made to the 2013 and 2014 consolidated financial statements to conform to the 2015 presentation.

NOTE 3 - VARIABLE INTEREST ENTITIES

The Company has evaluated its securities, loans, investments in unconsolidated entities, liabilities to subsidiary trusts issuing preferred securities (consisting of unsecured junior subordinated notes) and its securitizations in order to determine if they are variable interests in VIEs. The Company monitors these legal interests and, to the extent it has determined that it has a variable interest, analyzes the entity for potential consolidation. A VIE is required to be consolidated by its primary beneficiary, which, generally, is the entity that has the power to direct the activities that are most significant to the VIE and the right to receive benefits or the obligation to absorb losses that could potentially be significant to the VIE. The Company continuously analyzes entities in which it holds variable interests, including when there is a reconsideration event, to determine whether such entities are VIEs and whether such potential VIEs should be consolidated or deconsolidated. This analysis requires considerable judgment in determining the primary beneficiary of a VIE and could result in the consolidation of an entity that would otherwise not have been consolidated or the non-consolidation of an entity that otherwise would have been consolidated.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

Consolidated VIEs (the Company is the primary beneficiary)

Based on management's analysis, the Company is the primary beneficiary of thirteen VIEs at December 31, 2015: Apidos CDO I, Apidos CDO III, Apidos Cinco CDO, Apidos CLO VIII, RREF CDO 2006-1, RREF CDO 2007-1, Whitney CLO I, RCC CRE Notes 2013, RCC 2014-CRE2, RCC 2015-CRE3, RCC 2015-CRE4, Moselle CLO and RCM Global, LLC. In performing the primary beneficiary analysis for Apidos CDO I, Apidos CDO III, Apidos Cinco CDO, Apidos CLO VIII, RREF CDO 2006-1, RREF CDO 2007-1, RCC CRE Notes 2013, RCC 2014-CRE2, RCC 2015-CRE3, RCC 2015-CRE4 and RCM Global, LLC, it was determined that the parties that have the power to direct the activities that are most significant to each of these VIEs and who have the right to receive benefits and the obligation to absorb losses that could potentially be significant to these VIEs, are a related-party group. It was then determined that the Company was the party within that group that is more closely associated with each such VIE considering the design of the VIE, the principal-agency relationship between the Company and other members of the related-party group, and the relationship and significance of the activities of the VIE to the Company compared to the other members of the related-party group.

Apidos CDO I, Apidos CDO III, Apidos Cinco CDO, Apidos CLO VIII, RREF CDO 2006-1, RREF CDO 2007-1, RCC CRE Notes 2013, RCC 2014-CRE2, RCC 2015-CRE3, RCC 2015-CRE4 and RCM Global, LLC were formed on behalf of the Company to invest in real estate-related securities, CMBS, property available-for-sale, bank loans, corporate bonds and asset-backed securities and were financed by the issuance of debt securities. The Manager manages the commercial real estate-related entities on behalf of the Company, and CVC Credit Partners manages the commercial finance-related entities on behalf of the Company. By financing these assets with long-term borrowings through the issuance of bonds, the Company seeks to generate attractive risk-adjusted equity returns and to match the term of its assets and liabilities. The primary beneficiary determination for each of these VIEs was made at each VIE's inception and is continually assessed.

Moselle CLO was a European securitization in which the Company purchased a \$30.4 million interest in the form of subordinate notes representing 100% of the Class 1 Subordinated Notes and 67.9% of the Class 2 subordinated Notes in February 2014. The CLO was managed by an independent third-party, and such collateral management activities were determined to be the activities that most significantly impacted the economic performance of the CLO. Though neither the Company nor one of its related parties managed the CLO, due to certain unilateral kick-out rights within the collateral management agreement it was determined that the Company had the power to direct the activities that most significantly impacted the economic performance of Moselle CLO. Having both the power to direct the activities that most significantly impact Moselle CLO and a financial interest that was expected to absorb both positive and negative variability in the CLO that could potentially be significant, the Company was determined to be the primary beneficiary of Moselle CLO and, therefore, consolidated the CLO. During the fourth quarter of 2014, the CLO began the liquidation process and all assets were subsequently sold.

Whitney CLO I was a securitization in which the Company acquired rights to manage the collateral assets held by the entity in February 2011. For a discussion on the primary beneficiary analysis for Whitney, see "— Unconsolidated VIEs – Resource Capital Asset Management," below.

On July 9, 2014, RCC Residential together with Resource America and certain Resource America employees acquired through RCM Global a portfolio of securities from JP Morgan for \$23.5 million. The portfolio is managed by Resource America. RCC Residential contributed \$15.0 million for a 63.8% membership interest. Each of the members of RCM Global is allocated revenues and expenses of RCM Global in accordance with his or her membership interest. RCM Global was determined to be a VIE based on the equity holders' inability to direct the activities that are most significant to the entity. The Company was determined to be the the primary beneficiary of RCM Global and, therefore, consolidated the entity. The Company's ownership interest of the portfolio's remaining assets was 30.2% as of December 31, 2015.

In September 2014, the Company contributed \$17.5 million to Pelium Capital for an initial ownership interest of 80.4%. Pelium Capital is a specialized credit opportunity fund managed by Resource America. The Company funded its final commitment of \$2.5 million, as of February 1, 2015. The Company will receive 10% of the carried interest in the partnership for the first five years which can increase its interest to 20% if the Company's capital contributions aggregate \$40.0 million. Resource America contributed cash of \$2.8 million to the formation of Pelium Capital. The portion of the fund that the Company does not own is presented as non-controlling interests as of the dates and for the periods presented in the Company's consolidated financial statements. All intercompany accounts and transactions have been eliminated in consolidation. Pelium Capital was determined not to be a VIE as there was sufficient equity at risk, the Company does not have disproportionate voting rights and Pelium Capital's partners have all of the following characteristics: (1) the power to direct the activities of Pelium; (2) the obligation to absorb losses; and (3) the right to receive residual returns. However, Pelium Capital was consolidated as a result of the Company's majority ownership and the Company's unilateral kick-out rights. The non-controlling interest in Pelium Capital is owned by Resource America and outside

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

investors. All intercompany accounts and transactions have been eliminated in consolidation. The Company's interest in Pelium Capital was 80.2% as of December 31, 2015.

On June 24, 2015, the Company committed up to \$50.0 million in Pearlmark Mezzanine Realty Partners IV, L.P. ("Pearlmark Mezz IV L.P."), a Delaware limited partnership created to acquire and manage financial interests in commercial real estate property. The contractual fund manager of the fund is Pearlmark Real Estate LLC ("Pearlmark"), a Delaware limited liability company that is 50% owned by Resource America. Pearlmark Mezz IV L.P. was determined not to be a VIE as there was sufficient equity at risk to finance its activities independently and the equity holders have the power to direct the activities of the entity that most significantly impact its economic performance, the right to receive the residual returns of the entity and the obligation to absorb the losses of the entity. However, because the Company's equity interest is passive and does not contain substantive participating rights and/or unilateral kick-out rights, Pearlmark Mezz IV L.P. was not consolidated. The Company will pay Pearlmark Mezz IV L.P. management fees of 1.0% on the unfunded committed capital and 1.5% on the invested capital. The Company is entitled to a management fee rebate of 25% for the first year of the fund. As of December 31, 2015, the Company has an investment balance of \$6.5 million and a 47.42% ownership interest in the fund.

For a discussion of the Company's securitizations, see Note 1, and for a discussion of the debt issued through the securitizations, see Note 13.

For consolidated CLOs in which the Company does not own 100% of the subordinated notes, the Company imputes an interest rate using expected cash flows over the life of the CLO and records the third party's share of the cash flows as interest expense on the consolidated statements of operations.

The Company has exposure to losses on its securitizations to the extent of its subordinated debt and preferred equity interests in them. The Company is entitled to receive payments of principal and interest on the debt securities it holds and, to the extent revenues exceed debt service requirements and other expenses of the securitizations, distributions with respect to its preferred equity interests. As a result of consolidation, debt and equity interests the Company holds in these securitizations have been eliminated, and the Company's consolidated balance sheets reflect both the assets held and debt issued by the securitizations to third parties and any accrued expense to third parties. The Company's operating results and cash flows include the gross amounts related to the securitizations' assets and liabilities as opposed to the Company's net economic interests in the securitizations. Assets and liabilities related to the securitizations are disclosed, in the aggregate, on the Company's consolidated balance sheets.

The creditors of the Company's thirteen consolidated VIEs have no recourse to the general credit of the Company. However, in its capacity as manager, the Company has voluntarily supported two credits in one of its commercial real estate CDOs as the credits went through a restructuring in order to maximize their future cash flows. The Company provided no financial support for the year ended December 31, 2015. For the years ended December 31, 2014 and 2013, the Company has provided financial support of \$219,000 and \$166,000, respectively. The Company has provided no other financial support to any other of its VIEs nor does it have any requirement to do so, although it may choose to do so in the future to maximize future cash flows on such investments by the Company. There are no explicit arrangements that obligate the Company to provide financial support to any of its consolidated VIEs.

(1) Includes \$22.0 million designated to fund future commitments on specific commercial real estate loans in certain of the securitizations.

(2) Assets of each of the consolidated VIEs may only be used to settle the obligations of each respective VIE.

(3) In October 2013, the Company liquidated Apidos CLO VIII and all of the assets were sold. However, the Company still owns its share of beneficial interests that caused it to consolidate it.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

Unconsolidated VIEs (the Company is not the primary beneficiary, but has a variable interest)

Based on management's analysis, the Company is not the primary beneficiary of the VIEs discussed below since it does not have both (i) the power to direct the activities that most significantly impact the VIE's economic performance and (ii) the obligation to absorb the losses of the VIE or the right to receive the benefits from the VIE, which could be significant to the VIE. Accordingly, the following VIEs are not consolidated in the Company's financial statements as of December 31, 2015. The Company's maximum exposure to risk for each of these unconsolidated VIEs is set forth in the "Maximum Exposure to Loss" column in the table below.

LEAF Commercial Capital, Inc.

On November 16, 2011, the Company together with LEAF Financial, Inc. ("LEAF Financial"), a subsidiary of Resource America, and LEAF Commercial Capital, Inc. ("LCC"), another subsidiary of Resource America, entered into a stock purchase agreement and related agreements (collectively the "SPA") with Eos Partners, L.P., a private investment firm, and its affiliates ("Eos"). In exchange for its prior interests in its lease related investments, the Company received 31,341 shares of Series A Preferred Stock (the "Series A Preferred Stock"), 4,872 shares of newly issued 8% Series B Redeemable Preferred Stock (the "Series B Preferred Stock") and 2,364 shares of newly issued Series D Redeemable Preferred Stock (the "Series D Preferred Stock"), collectively representing, on a fully-diluted basis assuming conversion, a 26.7% interest in LCC. At the time of investment, the Company's investment in LCC was valued at \$36.3 million based on a third-party valuation at that time. During 2013, the Company entered into a third stock purchase agreement with LCC to purchase 3,682 shares of newly issued Series A-1 Preferred Stock (the "Series A-1 Preferred Stock") for \$3.7 million and 4,445 shares of newly issued Series E Preferred Stock (the "Series E Preferred Stock") for \$4.4 million. The Series E Preferred Stock has priority over all other classes of preferred stock. The Company's fully-diluted interest in LCC assuming conversion is 29.0% as of December 31, 2015. The Company's investment in LCC was recorded at \$42.0 million and \$39.4 million as of December 31, 2015 and 2014, respectively. The Company determined that it is not the primary beneficiary of LCC because it does not participate in any management or portfolio decisions, holds only two of six board positions, and only controls 29.0% of the voting rights in the entity. Furthermore, Eos holds consent rights with respect to significant LCC actions, including incurrence of indebtedness, consummation of a sale of the entity, liquidation or initiating a public offering.

Unsecured Junior Subordinated Debentures

The Company has a 100% interest in the common shares of Resource Capital Trust I ("RCT I") and RCC Trust II ("RCT II"), recorded at a collective cost of \$1.5 million (or 3% of each trust). RCT I and RCT II were formed for the purposes of providing debt financing to the Company, as described below. The Company completed a qualitative analysis to determine whether or not it is the primary beneficiary of each of the trusts and determined that it was not the primary beneficiary of either trust because it does not have the power to direct the activities most significant to the trusts, which include the collection of principal and interest and protection of collateral through servicing rights. Accordingly, neither trust is consolidated into the Company's consolidated financial statements.

The Company records its investments in RCT I and RCT II's common shares as investments in unconsolidated trusts using the cost method and records dividend income when declared by RCT I and RCT II. The trusts each hold subordinated debentures for which the Company is the obligor in the amount of \$25.8 million for RCT I and \$25.8 million for RCT II. The debentures were funded by the issuance of trust preferred securities of RCT I and RCT II. The Company will continuously reassess whether it should be deemed to be the primary beneficiary of the trusts.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

Resource Capital Asset Management CLOs

In February 2011, the Company purchased a company that managed bank loan assets through five CLOs. As a result, the Company became entitled to collect senior, subordinated and incentive management fees from these CLOs. The purchase price of \$22.5 million resulted in an intangible asset that was allocated to each of the five CLOs and is amortized over the expected life of each CLO. The unamortized balance of the intangible asset was \$5.3 million and \$9.4 million at December 31, 2015 and 2014, respectively. The Company recognized fee income of \$3.9 million, \$5.1 million and \$5.3 million for the years ended December 31, 2015, 2014 and 2013, respectively. With respect to four of these CLOs, the Company determined that it does not hold a controlling financial interest and, therefore, is not the primary beneficiary. One of the CLOs was liquidated in February 2013. With respect to the fifth CLO, Whitney CLO I, in October 2012, the Company purchased 66.6% of its preferred equity, which resulted in consolidation. Based upon that purchase, the Company determined that it had an obligation to absorb losses and/or the right to receive benefits that could potentially be significant to Whitney CLO I and that a related party had the power to direct the activities that are most significant to the VIE. As a result, together with the related party, the Company had both the power to direct and the right to receive benefits and the obligation to absorb losses. It was then determined that, between the Company and the related party, the Company was the party within that group that was more closely associated with Whitney CLO I because of its preferred equity interest in Whitney CLO I. The Company, therefore, consolidated Whitney CLO I. In May 2013, the Company purchased additional equity in this CLO which increased its ownership of outstanding preferred equity to 68.3%. In September 2013, the Company liquidated Whitney CLO I, and, as a result, all of the assets were sold. In January 2016 another RCAM-managed CLO was called and \$2.4 million of impairment, on a pre-tax basis, was recorded in depreciation and amortization on the Company's consolidated statements of operations on the related intangible asset, as of December 31, 2015.

Investment in ZAIS

In February 2015, the Company made an investment in ZAIS CLO 4 Limited, an offshore financing vehicle created to acquire and warehouse syndicated bank loans, through its wholly-owned, indirect subsidiary ZAIS and through its consolidated subsidiary Pelium Capital together with a certain Resource America employee. The Company, through ZAIS and Pelium Capital, committed to invest \$10.0 million and \$3.0 million, respectively, during the vehicle's warehousing period. The vehicle is managed by ZAIS Leveraged Loan Manager 4, LLC (the "Collateral Manager"), an entity unrelated to the Company or to Pelium Capital, and such collateral management activities were determined to be the activities that most significantly impacted the economic performance of the entity. The Collateral Manager can be replaced either for cause by the entity's administrative agent if there is an event of default or by a unanimous vote of the entity's equity investors, excluding any preference shares held by the Collateral Manager or its affiliates. Although the Company has an investment in the entity that is potentially significant, because it was determined that the Company did not have the ability to kick out the Collateral Manager, the Company was not determined to be the primary beneficiary and, hence, not required to consolidate ZAIS CLO 4, Limited. As of December 31, 2015, the Company had invested \$10.0 million and \$3.0 million through ZAIS and Pelium Capital, respectively. The Company accounts for its investment in ZAIS as an investment security available-for-sale in its consolidated financial statements.

Investments in the Harvest CLO Securities

In September 2013 and March 2014, the Company made investments in Harvest CLO VII Limited and Harvest CLO VIII Limited (collectively, the "Harvest Securities"), respectively, offshore limited liability companies created to acquire syndicated bank loans and issue collateral loan obligations, through its wholly-owned, direct subsidiary Commercial II. The Harvest Securities are managed by 3i Debt Management Investments Limited (the "Portfolio Manager"), an entity unrelated to the Company, and such collateral management activities were determined to be the activities that most significantly impacted the economic performance of the entity. The Portfolio Manager can be replaced only for cause by the Harvest Securities' trustee. Although the Company has investments in the Harvest Securities that are potentially significant, because it was determined that the Company did not have the ability to unilaterally kick out the Portfolio Manager, the Company was not determined to be the primary beneficiary and, hence, not required to consolidate the Harvest Securities. As of December 31, 2015, the Company had investments of \$3.9 million in Harvest CLO VII Limited and \$4.5 million in Harvest CLO VIII Limited. The Company accounts for its investments in the Harvest Securities as investment securities available-for-sale in its consolidated financial statements.

Investment in Harvest CLO XV Designated Activity Company

In September 2015, the Company made an investment in Harvest CLO XV Designated Activity Company ("Harvest XV"), an offshore financing vehicle created to acquire and warehouse syndicated bank loans, through its wholly-owned, direct subsidiary Commercial II. The vehicle is managed by 3i Debt Management Investments Limited (the "Collateral Manager"), an entity unrelated to the Company, and such collateral management activities were determined to be the activities that most significantly impacted

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

the economic performance of the entity. The Collateral Manager can be replaced only for cause by the entity's administrative agent. Although the Company has an investment in the entity that is potentially significant, because it was determined that the Company did not have the ability to unilaterally kick out the Collateral Manager, the Company was not determined to be the primary beneficiary and, hence, not required to consolidate Harvest XV. As of December 31, 2015, the Company had an investment of \$10.6 million in Harvest XV's warehouse. The Company accounts for its investment in Harvest XV as an investment security available-for-sale in its consolidated financial statements.

The following table shows the classification, carrying value and maximum exposure to loss with respect to the Company's unconsolidated VIEs as of December 31, 2015 (in thousands):

	Unconsolidated Variable Interest Entities					Maximum Exposure to Loss
	LCC	Unsecured Junior Subordinated Debentures	Resource Capital Asset Management CDOs	Investments in ZAIS and Harvest	Total	
Investment in unconsolidated entities	\$ 42,017	\$ 1,548	\$ —	\$ 31,586	\$ 75,151	\$ 75,151
Intangible assets	—	—	5,316	—	5,316	\$ 5,316
Total assets	42,017	1,548	5,316	31,586	80,467	
Borrowings	—	51,413	—	—	51,413	N/A
Total liabilities	—	51,413	—	—	51,413	N/A
Net asset (liability)	\$ 42,017	\$ (49,865)	\$ 5,316	\$ 31,586	\$ 29,054	N/A

As of December 31, 2015, there were no explicit arrangements or implicit variable interests that could require the Company to provide financial support to any of its unconsolidated VIEs.

NOTE 4 - SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental disclosure of cash flow information (in thousands):

	Years Ended December 31,		
	2015	2014	2013
Non-cash operating activities include the following:			
Reclassification of linked transactions, net at fair value to investment securities available-for-sale, pledged as collateral, at fair value and borrowings ⁽¹⁾	\$ 15,367	\$ —	\$ —
Non-cash investing activities include the following:			
Reclassification of linked transactions, net at fair value to investment securities available-for-sale, pledged as collateral, at fair value ⁽¹⁾	\$ 48,764	\$ —	\$ —
Assumption of direct financing leases and other assets ⁽²⁾	\$ —	\$ 2,385	\$ —
Non-cash financing activities include the following:			
Distributions on common stock accrued but not paid	\$ 13,274	\$ 26,563	\$ 25,536
Distribution on preferred stock accrued but not paid	\$ 4,077	\$ 6,044	\$ 2,159
Contribution of security deposits and other liabilities ⁽²⁾	\$ —	\$ 457	\$ —
Reclassification of linked transactions, net at fair value to borrowings ⁽¹⁾	\$ 33,397	\$ —	\$ —

(1) As a result of an accounting standards update adopted on January 1, 2015 (see Note 2), the Company unlinked its previously linked transactions, resulting in non-cash increases in both its investment securities available-for-sale, pledged as collateral, at fair value and related repurchase agreements borrowings balances.

(2) On December 31, 2014, the Company assumed direct financing leases and related assets and liabilities in satisfaction of a loan receivable from a related party.

NOTE 5 - RESTRICTED CASH

The following summarizes the Company's restricted cash (in thousands):

	December 31,	
	2015	2014
Restricted cash:		
Cash held by consolidated securitizations	\$ 39,062	\$ 121,247
Restricted cash pledged with minimum reserve balance requirements	218	209
Cash collateralizing outstanding margin calls on cash flow hedges	500	500
Cash collateralizing margin posted on forward/short positions	855	182
	<u>\$ 40,635</u>	<u>\$ 122,138</u>

NOTE 6 - INVESTMENT SECURITIES, TRADING

Structured notes are CLO debt securities collateralized by syndicated bank loans, and RMBS is a type of mortgage-backed debt obligation whose cash flows come from residential mortgage debt. The following table summarizes the Company's structured notes and RMBS that are classified as investment securities, trading and carried at fair value (in thousands):

	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
As of December 31, 2015:				
Structured notes	\$ 28,576	\$ 1,674	\$ (4,700)	\$ 25,550
RMBS	1,896	—	(1,896)	—
Total	<u>\$ 30,472</u>	<u>\$ 1,674</u>	<u>\$ (6,596)</u>	<u>\$ 25,550</u>
As of December 31, 2014:				
Structured notes	\$ 22,876	\$ 1,098	\$ (3,188)	\$ 20,786
RMBS	1,896	—	(1,896)	—
Total	<u>\$ 24,772</u>	<u>\$ 1,098</u>	<u>\$ (5,084)</u>	<u>\$ 20,786</u>

The Company sold 19 and nine securities during the years ended December 31, 2015 and 2014, for a net realized gain of \$1.4 million and \$3.0 million, respectively. The Company held 56 and 37 investment securities, trading as of December 31, 2015 and 2014, respectively.

Greater than ten years	7,115	6,862	16.85%
Total	<u>\$ 208,088</u>	<u>\$ 205,156</u>	7.03%
As of December 31, 2014:			
Less than one year	\$ 78,095 ⁽¹⁾	\$ 79,649	4.13%
Greater than one year and less than five years	115,302	100,909	4.64%
Greater than five years and less than ten years	20,177	17,516	16.45%
Greater than ten years	62,146	58,441	7.86%
Total	<u>\$ 275,720</u>	<u>\$ 256,515</u>	6.08%

(1) The Company expects that the maturity date of these CMBS and ABS will either be extended or that they will be paid in full.

The contractual maturities of the CMBS investment securities available-for-sale range from January 2016 to December 2022. The contractual maturity date of RMBS investment securities available-for-sale is June 2029. The contractual maturities of the ABS investment securities available-for-sale range from February 2017 to October 2050. The contractual maturities of the corporate bond investment securities available-for-sale range from May 2016 to December 2019.

The following table shows the fair value, gross unrealized losses and number of securities aggregated by investment category and length of time, that individual investment securities available-for-sale have been in a continuous unrealized loss position during the periods specified (in thousands, except number of securities):

	Less than 12 Months			More than 12 Months			Total		
	Fair Value	Unrealized Losses	Number of Securities	Fair Value	Unrealized Losses	Number of Securities	Fair Value	Unrealized Losses	Number of Securities
As of December 31, 2015:									
CMBS	\$ 79,570	\$ (849)	31	\$ 13,783	\$ (942)	15	\$ 93,353	\$ (1,791)	46
RMBS	1,157	(88)	2	—	—	—	1,157	(88)	2

Mezzanine loans, fixed rate ⁽⁸⁾	3	54,808	0.50% to 18.71%	January 2016 to September 2021
Total ⁽²⁾	<u>78</u>	<u>\$ 1,347,030</u>		

(1) Whole loans had \$112.6 million and \$105.1 million in unfunded loan commitments as of December 31, 2015 and 2014, respectively. These unfunded commitments are advanced as the borrowers formally request additional funding as permitted under the loan agreement and any necessary approvals have been obtained.

(2) Totals do not include an allowance for loan loss of \$41.8 million and \$4.0 million as of December 31, 2015 and 2014, respectively.

(3) Maturity dates do not include possible extension options that may be available to the borrowers, or maturity dates associated with loans that are fully reserved.

(4) Includes two whole loans with a combined \$51.2 million senior component that entered into modifications in 2015 that resulted in a fixed rate of 0.50% as of December 31, 2015. The two loans were previously identified as TDR's.

(5) Includes two whole loans with a combined \$12.0 million mezzanine component that have fixed rates of 12.0%, and two whole loans with a combined \$4.2 million mezzanine component that have fixed rates of 15.0% at December 31, 2015 and 2014, respectively.

(6) Includes a \$799,000 junior mezzanine tranche of a whole loan that has a fixed rate of 10.0% as of December 31, 2015 and 2014.

(7) Contractual interest rate does not include a whole loan with an amortized cost of \$32.5 million that entered into a modification in 2015 which reduced the floating rate spread to 1.00% as of December 31, 2015. The loan was previously identified as a TDR.

(8) Fixed rate mezzanine loans include a mezzanine loan that was modified into two tranches, which both currently pay interest at 0.50%. In addition, the subordinate tranche accrues interest at LIBOR plus 18.50% which is deferred until maturity.

(9) Contractual interest rates and maturity dates do not include rates or maturity dates associated with one loan with an amortized cost of \$38.1 million that was fully reserved as of June 30, 2015.

(10) Floating rate whole loans includes a loan with an amortized cost of \$13.0 million which extended to February 2017 from February 2016.

(11) Fixed rate B notes includes a loan with an amortized cost of \$15.9 million which paid off in January 2016.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

Residential Mortgage Loans

The Company originates and services residential mortgage loans through its indirect wholly-owned subsidiary PCM. PCM is an approved seller/servicer for the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, the Government National Mortgage Association and is licensed to originate loans insured by the Federal Housing Administration, the Department of Veterans Affairs and the United States Department of Agriculture and is licensed to transact business in 41 states. In order to maintain its licenses and status as an approved seller/servicer, PCM must meet certain capital requirements. PCM was in compliance with those capital requirements as of December 31, 2015.

Residential mortgage loans held for sale, at fair value, consisted of \$29.2 million and \$65.3 million of agency-conforming and jumbo mortgage loans (net of allowance of \$11,000), respectively, as of December 31, 2015. Residential mortgage loans held for sale, at fair value, consisted of \$28.9 million and \$82.6 million of agency-conforming and jumbo mortgage loans, respectively, as of December 31, 2014.

During the year ended December 31, 2015, approximately 44.9% of the Company's residential mortgage loans were originated in Georgia, 11.2% in Utah, 9.1% in Virginia, 4.4% in Florida, and 4.1% in Colorado. During the year ended December 31, 2014, approximately 56.0% of the Company's residential mortgage loans were originated in Georgia, 8.0% in Utah, 7.0% in Virginia, 5.0% in Alabama and 4.0% in Tennessee.

Allowance for Loan Losses

The following is a summary of the allocation of the allowance for loan loss with respect to the Company's loans (in thousands, except percentages) by asset class:

Description	Allowance for Loan Loss	Percentage of Total Allowance
<u>As of December 31, 2015:</u>		
B notes	\$ 15	0.03%
Mezzanine loans	38,079	80.90%
Whole loans	3,745	7.96%
Bank loans	1,282	2.72%
Middle market loans	3,939	8.37%
Residential mortgage loans	11	0.02%
Total	<u>\$ 47,071</u>	
<u>As of December 31, 2014:</u>		
B notes	\$ 55	1.19%
Mezzanine loans	230	4.99%
Whole loans	3,758	81.46%
Bank loans	570	12.36%
Total	<u>\$ 4,613</u>	

Principal Paydown Receivables

Principal paydown receivables represent the portion of the Company's loan portfolio for which indication has been provided through its various servicers, trustees, or its asset management group that a payoff or paydown of a loan has been received but for which, as of period end, the Company has not received and applied such cash to the outstanding loan balance. At December 31, 2015, principal paydown receivables totaled \$17.9 million, the entirety of which the Company received in cash during January 2016. At December 31, 2014, principal paydown receivables totaled \$40.9 million, the entirety of which the Company received in cash during January 2015.

Total		\$ 50,030	\$ 59,827	\$ (33)	\$ 2,790	\$ (460)

(1) Investment in School Lane House, Investment in RRE VIP Borrower and the Investments in preferred equity were sold or repaid as of December 31, 2014.

(2) In December 2015, the Company elected a full redemption of their remaining investment from the fund.

(3) In January 2013, LTCC invested \$2.0 million into LCF for the purpose of originating and acquiring life settlement contracts. In February 2014, the Company invested an additional \$1.4 million which resulted in the consolidation of LCF during the first quarter of 2014. Ownership percentage represents ownership following additional investments and consolidation.

(4) For the years ended December 31, 2015, 2014, and 2013 these amounts are recorded in interest expense on the Company's consolidated statements of operations.

(5) For the years ended December 31, 2014 and 2013 these amounts are recorded in interest income on loans on the Company's consolidated statements of operations.

(6) The Company has committed up to \$50.0 million in Pearlmark Mezzanine Realty Partners IV, L.P. The commitment termination date ends when the original commitment is fully funded, or the fifth anniversary of the final closing date, June 24, 2015.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

Credit quality indicators**Bank Loans**

Loans are graded at inception and updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1 to 5 with 1 representing the Company's highest rating and 5 representing its lowest rating. Bank loans are first individually evaluated for impairment. To the extent no individual impairment is determined, a general reserve is established.

The characteristics of each rating category are as follows:

1. Loans with a rating of 1 are considered performing within expectations. All interest and principal payments are current, all future payments are anticipated and loss is not probable;
2. Loans with a rating of a 2 are considered to have limited liquidity concerns and are watched closely. Loans identified in this category show remote signs of liquidity concerns, loss is not probable and therefore no reserve is established;
3. Loans with a rating of a 3 are considered to have possible future liquidity concerns. Loans identified in this category show some liquidity concerns, but the ability to estimate potential defaults is not quantifiable and therefore no reserve is established;
4. Loans with a rating of a 4 are considered to have nearer term liquidity concerns. These loans have a reasonable possibility of future default. However, the risk of loss is not assignable to one specific credit. The noted risk of the loans in this category is covered by general reserves; and
5. Loans with a rating of a 5 have defaulted in payment of principal and interest or default is imminent. It is probable that impairment has occurred on these loans based on their payment status and that impairment is estimable. The noted risk of the loans in this category is covered by specific reserves.

Credit risk profiles of bank loans were as follows (in thousands):

	Rating 1	Rating 2	Rating 3	Rating 4	Rating 5	Held for Sale	Total
As of December 31, 2015:							
Bank loans	\$ 113,897	\$ 17,578	\$ 1,498	\$ —	\$ 1,544	\$ 1,475	\$ 135,992
As of December 31, 2014:							
Bank loans	\$ 291,214	\$ 32,660	\$ 5,424	\$ —	\$ 1,350	\$ 282	\$ 330,930

All of the Company's bank loans were current with respect to debt service with the exception of one loans with an amortized cost of \$1.5 million as of December 31, 2015. As of December 31, 2014, all of the Company's bank loans were current with respect to debt services, with the exception of two loans with an amortized aggregate cost of \$1.4 million, one of which defaulted as of March 31, 2014 and the other which defaulted as of September 30, 2014. Both of these loans were sold in 2015.

Middle Market Loans

At inception, all middle market loans are graded at a 2 and updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1 to 5 with 1 representing the Company's highest rating and 5 representing its lowest rating. Middle market loans are only evaluated individually for impairment.

The characteristics of each rating category are as follows:

1. A loan with a rating of a 1 is considered performing above expectations and the likelihood of loss is remote;
2. A loan with a rating of a 2 is considered performing within expectations and the likelihood of loss is remote;
3. A loan with a rating of a 3 is considered performing below expectations and requires close monitoring but no loss of interest or principal is expected. Loans receiving this rating may be out of compliance with financial covenants; however, these loans are current with respect to interest and principal;
4. A loan with a rating of a 4 is considered performing below expectations and some loss of interest or dividend is expected but no loss of principal. In addition to the borrower being generally out of compliance with debt covenants, loan payments may be past due, but generally not more than 180 days past due; and
5. A loan with a rating of a 5 is considered performing substantially below expectations, in default and some loss of principal is expected. Most or all of the debt covenants are out of compliance and payments are substantially delinquent.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

Credit risk profiles of middle market loans were as follows (in thousands):

	Rating 1	Rating 2	Rating 3	Rating 4	Rating 5	Held for Sale	Total
As of December 31, 2015:							
Middle market loans	\$ 44,252	\$ 305,578	\$ 29,622	\$ —	\$ —	\$ —	\$ 379,452
As of December 31, 2014:							
Middle market loans	\$ —	\$ 240,245	\$ 9,868	\$ —	\$ —	\$ —	\$ 250,113

All of the Company's middle market loans were current with respect to debt service as of December 31, 2015 and 2014.

Commercial Real Estate Loans

Loans are graded at inception and updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1 to 4 with 1 representing the Company's highest rating and 4 representing its lowest rating. Commercial real estate loans are first individually evaluated for impairment. To the extent no individual impairment is determined, a general reserve is established.

The characteristics of each rating category are as follows:

1. A loan with a rating of a 1 is considered to have satisfactory performance with no issues noted. All interest and principal payments are current and the probability of loss is remote;
2. A loan is graded with a rating of a 2 if a surveillance trigger event has occurred, but loss is not probable at this time. Such trigger events could include but are not limited to a trending decrease in occupancy rates or a flattening of lease revenues; and to a lesser extent, ground lease defaults, ground lease expirations that occur in the next six months or the borrower is delinquent on payment of property taxes or insurance.;
3. A loan with a rating of 3 has experienced an extended decline in operating performance, a significant deviation from its origination plan or the occurrence of one or more surveillance trigger events which create an increased risk for potential default. Loans identified in this category show some liquidity concerns. However, the risk of loss is not specifically assignable to any individual loan. The noted risk of the loans in this category is covered by general reserves;
4. A loan with a rating of a 4 is considered to be in payment default or default is expected, full recovery of the unpaid principal balance is improbable and loss is considered probable. The noted risk of the loans in this category is covered by specific reserves.

During the second quarter of 2015, the Company recorded an allowance for loan loss on a subordinated mezzanine loan position that was acquired in 2007. The outstanding loan balance of \$38.1 million was fully reserved and associated accrued interest of \$3.0 million was reversed against interest income, for a total charge to operations of \$41.1 million. The loan was originally supported by a portfolio of 13 hotel properties, most of which were luxury brand hotels. An impairment analysis showed that the fair value of the underlying collateral declined from that as of March 31, 2015. Contributing to this decline was a modification of the senior mortgage that accelerated the time horizon for disposing of the remaining properties collateralizing the loan. Compounding this fact, the remaining two luxury brand hotel properties securing the loan are located in or near San Juan, Puerto Rico, and recent economic and credit disruptions in Puerto Rico resulted in events that caused the Company to determine that realizable values had declined rapidly and that the troubled debt restructuring should be fully reserved as of June 30, 2015. This loan remains fully reserved as of December 31, 2015.

All of the Company's commercial real estate loans are current with the exception of one mezzanine loan that was defaulted as of December 31, 2015. All of the Company's commercial real estate loans were current as of December 31, 2014.

Residential Mortgage Loans

Residential mortgage loans are reviewed periodically for collectability in light of historical experience, the nature and amount of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, and prevailing underlying conditions.

Loans Receivable - Related Party

During the year ended December 31, 2014, the Company recorded a provision of \$1.3 million before extinguishing the loan and bringing direct financing leases in the amount of \$2.1 million on the Company's books in lieu of the loan receivable.

Direct Financing Leases

During the year ended December 31, 2015, the Company recorded a provision against the value of the direct financing leases in the amount of \$465,000. As of December 31, 2015, the Company held \$931,000 of direct financing leases, net of provisions.

As of December 31, 2015, one commercial real estate loan troubled-debt restructuring has subsequently defaulted. As of December 31, 2014, no commercial real estate loan troubled-debt restructurings had subsequently defaulted.

NOTE 11 - BUSINESS COMBINATIONS

On February 26, 2014, the Company made an additional capital contribution to LCF which gave the Company majority ownership at 50.2%. As a result, the Company began consolidating the LCF joint venture. The joint venture was established for the purpose of originating and acquiring life settlement contracts through a financing facility. On April 30, 2015, the Company committed to another capital contribution in the amount of \$750,000, increasing its ownership of LCF to 60.7%. The first installment of \$375,000 was funded on April 30, 2015 and the second installment of \$375,000 was funded on July 30, 2015. On December 15, 2015, the Company committed to an additional capital contribution in the amount of \$1,250,000, increasing its ownership of LCF to 70.9%. The first installment of \$750,000 was funded on January 5, 2016 and the second installment of \$500,000 will be funded no later than July 1, 2016.

The Company engaged a third party expert to assist in determining the fair values of the assets acquired and liabilities assumed on this investment. Based on the final valuation, which determined an enterprise value of LCF of approximately \$4.1 million, and in accordance with guidance on business combinations, the Company confirmed that no further adjustments are necessary.

Total before impairment adjustment	5,316	90	20,922	26,328
Temporary impairment adjustment	—	—	(100)	(100)
Balance, December 31, 2015	\$ 5,316	\$ 90	\$ 20,822	\$ 26,228

Management Contracts and Wholesale/Correspondent Relationships

For the years ended December 31, 2015, 2014, and 2013, the Company recognized \$3.9 million, \$5.1 million, and \$5.3 million, respectively, of fee income on management contracts.

For the years ended December 31, 2015, 2014, and 2013, the Company recorded amortization expense of \$4.3 million, \$2.1 million, and \$2.0 million in relation to the Company's management contracts and wholesale/correspondent relationships. In January 2016 a RCAM-managed CLO was called and \$2.4 million of impairment, on a pre-tax basis, was recorded in depreciation and amortization on the Company's consolidated statements of operations on the related management contract, as of December 31, 2015. The Company expects to record amortization expense on its management contracts and wholesale/correspondent relationships of approximately \$1.5 million for the year ending December 31, 2016, \$1.3 million for the year ending December 31, 2017, \$1.2 million for the year ending December 31, 2018, \$514,000 for the year ending December 31, 2019, and \$515,000 for the year ending December 31, 2020. The weighted average amortization period was 5.8 years and 6.6 years at December 31, 2015 and 2014, respectively.

Mortgage Servicing Rights

Through the Company's wholly-owned residential mortgage originator PCM, residential mortgage loans are sold through one of the following methods: (i) sales to or pursuant to programs sponsored by the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation and Government National Mortgage Association, or (ii) sales to private investors. The Company may have continuing involvement in mortgage loans sold by retaining servicing rights and servicing obligations.

The total servicing portfolio consists of loans associated with capitalized mortgage servicing rights ("MSRs") and loans held for sale. In accordance with guidance on servicing assets and liabilities, the Company utilizes the amortization method for the subsequent measurement of its MSRs. The total servicing portfolio was \$2.0 billion and \$894.8 million as of December 31, 2015 and December 31, 2014, respectively. MSRs recorded in the Company's consolidated balance sheets are related to the capitalized servicing portfolio and are created through the sale of originated loans.

For the years ended December 31, 2015, 2014, and 2013, the Company recorded amortization expense of \$4.5 million, \$1.6 million, and \$254,000, respectively, of amortization expense related to mortgage servicing rights. The Company expects to recognize amortization related to its mortgage servicing rights portfolio in the amount of \$4.6 million for the year ending December 31, 2016, \$4.4 million for the year ending December 31, 2017, \$4.3 million for the year ending December 31, 2018, \$3.8 million for the year ending December 31, 2019, and \$2.5 million for the year ending December 31, 2020. The weighted average amortization period was 1.2 years and 1.4 years at December 31, 2015 and December 31, 2014, respectively.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

The activity in the loan servicing portfolio associated with capitalized servicing rights consisted of (in thousands):

	December 31, 2015	December 31, 2014
Balance, beginning of period	\$ 894,767	\$ 433,153
Additions	1,236,145	519,915
Payoffs, sales and curtailments	(132,639)	(58,301)
Balance, end of period	<u>\$ 1,998,273</u>	<u>\$ 894,767</u>

The value of MSR is driven by the net positive, or in some cases net negative, cash flows associated with servicing activities. These cash flows include contractually specified servicing fees, late fees and other ancillary servicing revenue and were recorded within fee income as follows (in thousands):

	Years Ended		
	December 31,		
	2015	2014	2013
Servicing fees from capitalized portfolio	\$ 3,773	\$ 1,649	\$ 178
Late Fees	\$ 106	\$ 81	\$ 7
Other ancillary servicing revenue	\$ 11	\$ 6	\$ 1

NOTE 13 - BORROWINGS

The Company historically has financed the acquisition of its investments, including investment securities and loans, through the use of secured and unsecured borrowings in the form of securitized notes, repurchase agreements, secured term facilities, warehouse facilities, convertible senior notes, senior secured revolving credit agreements and trust preferred securities issuances. Certain information with respect to the Company's borrowings is summarized in the following table (in thousands, except percentages):

	Principal Outstanding	Unamortized Issuance Costs and Discounts	Outstanding Borrowings	Weighted Average Borrowing Rate	Weighted Average Remaining Maturity	Value of Collateral
As of December 31, 2015:

(1) Amount represents junior subordinated debentures issued to RCT I and RCT II in May 2006 and September 2006, respectively.

(2) Amounts also include accrued interest expense of \$315,000 and \$198,000 related to CRE repurchase facilities as of December 31, 2015 and 2014, respectively.

(3) Amounts also include accrued interest expense of \$18,000 and \$12,000 related to CMBS repurchase facilities as of December 31, 2015 and 2014, respectively. Amounts do not reflect CMBS repurchase agreement borrowings that are components of linked transactions as of December 31, 2014.

(4) Amount also includes accrued interest expense of \$61,000 related to trust certificate repurchase facilities as of December 31, 2015.

(5) Amounts also include accrued interest expense of \$30,000 and \$20,000 related to residential investment repurchase facilities as of December 31, 2015 and 2014, respectively.

(6) Amounts also include accrued interest expense of \$40,000 and \$31,000 related to CMBS short term repurchase facilities as of December 31, 2015 and 2014, respectively.

(7) The fair value option was elected for the borrowings associated with Moselle CLO. As such, the outstanding borrowings and principal outstanding amounts are stated at fair value. The unpaid principal amounts of these borrowings were \$63.3 million at December 31, 2014.

(8) The securitized borrowings were collateralized by the same assets as the Moselle CLO Senior Notes.

Securitizations

The following table sets forth certain information with respect to the Company's securitizations:

Securitization	Closing Date	Maturity Date	Reinvestment Period End	Total Note Paydowns as of December 31, 2015
				(in millions)
RREF CDO 2006-1 Senior Notes	August 2006	August 2046	September 2011	\$ 180.5

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

In June 2015, the Company called Apidos CDO III, substantially liquidating the securitization's assets. Proceeds from the sale of these assets, plus proceeds from previous sales and paydowns in the CDO, were used to pay down the securitization's \$262.5 million of Senior Notes in full.

In December 2014, Moselle CLO S.A. was called and liquidated, and as a result, all of the assets were sold.

The investments held by the Company's securitizations collateralize the securitization's borrowings and, as a result, are not available to the Company, its creditors, or stockholders. All senior notes retained at closing or subsequently repurchased by the Company as of December 31, 2015 eliminate in consolidation.

Resource Real Estate Funding CDO 2006-1

In August 2006, the Company closed RREF CDO 2006-1, a \$345.0 million CDO transaction that provided financing for commercial real estate loans. RREF CDO 2006-1 issued a total of \$308.7 million of senior notes at par to investors of which RCC Real Estate purchased 100% of the Class J senior notes (rated BB: Fitch) and Class K senior notes (rated B:Fitch) for \$43.1 million. In addition, Resource Real Estate Funding 2006-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$36.3 million equity interest representing 100% of the outstanding preference shares. The senior notes purchased by RCC Real Estate are subordinated in right of payment to all other senior notes issued by RREF CDO 2006-1 but are senior in right of payment to the preference shares. The equity interest is subordinated in right of payment to all other securities issued by RREF CDO 2006-1.

At closing, the senior notes issued to investors by RREF CDO 2006-1 consisted of the following classes: (i) \$129.4 million of Class A-1 notes bearing interest at one-month LIBOR plus 0.32%; (ii) \$17.4 million of Class A-2 notes bearing interest at one-month LIBOR plus 0.35%; (iii) \$5.0 million of Class A-2 notes bearing interest at a fixed rate of 5.842%; (iv) \$6.9 million of Class B notes bearing interest at one-month LIBOR plus 0.40%; (v) \$20.7 million of Class C notes bearing interest at one-month LIBOR plus 0.62%; (vi) \$15.5 million of Class D notes bearing interest at one-month LIBOR plus 0.80%; (vii) \$20.7 million of Class E notes bearing interest at one-month LIBOR plus 1.30%; (viii) \$19.8 million of Class F notes bearing interest at one-month LIBOR plus 1.60%; (ix) \$17.3 million of Class G notes bearing interest at one-month LIBOR plus 1.90%; (x) \$12.9 million of Class H notes bearing interest at one-month LIBOR plus 3.75%; (xi) \$14.7 million of Class J notes bearing interest at a fixed rate of 6.00%; and (xii) \$28.4 million of Class K notes bearing interest at a fixed rate of 6.00%. All of the notes issued mature in August 2046, although the Company has the right to call the notes anytime after August 2016 until maturity.

During the years ended December 31, 2015, 2014, and 2013, the Company did not repurchase any notes.

During the the year ended December 31, 2015 the Company reissued \$6.3 million of Class F notes at a weighted average price of 96.02% to par which resulted in a \$249,000 loss on the reissuance of debt in the consolidated statements of operations.

During the the year ended December 31, 2014 the Company reissued \$6.7 million of Class A-1 notes at a price of 98.94% to par, and \$12.0 million of Class A-2 notes at a price of 95.56% to par, which resulted in a \$604,000 loss on the reissuance of debt in the consolidated statements of operations.

Resource Real Estate Funding CDO 2007-1

In June 2007, the Company closed RREF CDO 2007-1, a \$500.0 million CDO transaction that provided financing for commercial real estate loans and commercial mortgage-backed securities. RREF CDO 2007-1 issued a total of \$265.6 million of senior notes at par to unrelated investors. RCC Real Estate purchased 100% of the Class H senior notes (rated BBB+:Fitch), Class K senior notes (rated BBB-:Fitch), Class L senior notes (rated BB:Fitch) and Class M senior notes (rated B: Fitch) for \$68.0 million. In addition, Resource Real Estate Funding 2007-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$41.3 million equity interest representing 100% of the outstanding preference shares. The senior notes purchased by RCC Real Estate are subordinated in right of payment to all other senior notes issued by RREF CDO 2007-1 but are senior in right of payment to the preference shares. The equity interest is subordinated in right of payment to all other securities issued by RREF CDO 2007-1.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

At closing, the senior notes issued to investors by RREF CDO 2007-1 consisted of the following classes: (i) \$180.0 million of Class A-1 notes bearing interest at one-month LIBOR plus 0.28%; (ii) \$50.0 million of unissued Class A-1R notes, which allowed the CDO to fund future funding obligations under the existing whole loan participations that had future funding commitments; the undrawn balance of the Class A-1R notes accrued a commitment fee at a rate per annum equal to 0.18%, the drawn balance bore interest at one-month LIBOR plus 0.32%; (iii) \$57.5 million of Class A-2 notes bearing interest at one-month LIBOR plus 0.46%; (iv) \$22.5 million of Class B notes bearing interest at one-month LIBOR plus 0.80%; (v) \$7.0 million of Class C notes bearing interest at a fixed rate of 6.423%; (vi) \$26.8 million of Class D notes bearing interest at one-month LIBOR plus 0.95%; (vii) \$11.9 million of Class E notes bearing interest at one-month LIBOR plus 1.15%; (viii) \$11.9 million of Class F notes bearing interest at one-month LIBOR plus 1.30%; (ix) \$11.3 million of Class G notes bearing interest at one-month LIBOR plus 1.55%; (x) \$11.3 million of Class H notes bearing interest at one-month LIBOR plus 2.30%; (xi) \$11.3 million of Class J notes bearing interest at one-month LIBOR plus 2.95%; (xii) \$10.0 million of Class K notes bearing interest at one-month LIBOR plus 3.25%; (xiii) \$18.8 million of Class L notes bearing interest at a fixed rate of 7.50%; and (xiv) \$28.8 million of Class M notes bearing interest at a fixed rate of 8.50%. The Company has the right to call the notes anytime after July 2017 until maturity.

During the years ended December 31, 2015, 2014, and 2013, the Company did not repurchase any notes.

During the year ended December 31, 2015, the Company reissued \$11.8 million of Class D notes at a weighted average price of 90.18% to par, which resulted in a \$1.2 million loss on the reissuance of debt in the consolidated statements of operations.

During the the year ended December 31, 2014 the Company reissued \$25.0 million of Class A-1 notes at a price of 92.53% to par, and \$15.0 million of Class D notes at a weighted average price of 86.85% to par, which resulted in a \$3.8 million loss on the reissuance of debt in the consolidated statements of operations.

RCC CRE Notes 2013

In December 2013, the Company closed RCC CRE Notes 2013, a \$307.8 million CRE securitization transaction that provided financing for transitional commercial real estate loans. RCC CRE Notes 2013 issued a total of \$260.8 million of senior notes at par to unrelated investors. RCC Real Estate purchased 100% of the Class D senior notes (rated BBB:DBRS), Class E senior notes (rated BB:DBRS) and Class F senior notes (rated B:DBRS) for \$30.0 million. In addition, Resource Real Estate Funding 2013 Notes Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$16.9 million equity interest representing 100% of the outstanding preference shares. The senior notes purchased by RCC Real Estate are subordinated in right of payment to all other senior notes issued by RCC CRE Notes 2013 but are senior in right of payment to the preference shares. The equity interest is subordinated in right of payment to all other securities issued by RCC CRE Notes 2013.

At closing, the senior notes issued to investors by RCC CRE Notes 2013 consisted of the following classes: (i) \$136.9 million of Class A notes bearing interest at one-month LIBOR plus 1.30%; (ii) \$78.5 million of Class A-S notes bearing interest at one-month LIBOR plus 2.15%; (iii) \$30.8 million of Class B notes bearing interest at one-month LIBOR plus 2.85%; (iv) \$14.6 million of Class C notes bearing interest at one-month LIBOR plus 3.50%; (v) \$13.8 million of Class D notes bearing interest at one-month LIBOR plus 4.50%; (vi) \$9.2 million of Class E notes bearing interest at one-month LIBOR plus 5.50%; (vii) and \$6.9 million of Class F notes bearing interest at one-month LIBOR plus 6.50%. All of the notes issued mature in December 2028, although the Company has the right to call the notes anytime after January 2016 until maturity.

RCC 2014-CRE2

In July 2014, the Company closed RCC 2014-CRE2, a \$353.9 million CRE securitization transaction that provided financing for transitional commercial real estate loans. RCC 2014-CRE2 issued a total of \$253.3 million of senior notes at par to unrelated investors. RCC Real Estate purchased 100% of the Class C senior notes (rated B2:Moody's) for \$17.7 million. In addition, Resource Real Estate Funding 2014-CRE2 Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$100.9 million equity interest representing 100% of the outstanding preference shares. The senior notes purchased by RCC Real Estate are subordinated in right of payment to all other senior notes issued by RCC 2014-CRE2, but are senior in right of payment to the preference shares. The equity interest is subordinated in right of payment to all other securities issued by RCC 2014-CRE2.

At closing, the senior notes issued to investors by RCC 2014-CRE2 consisted of the following classes: (i) \$196.4 million of Class A notes bearing interest at one-month LIBOR plus 1.05%; (ii) \$38.9 million of Class B notes bearing interest at one-month LIBOR plus 2.50%; and (iii) \$17.7 million of Class C notes bearing interest at one-month LIBOR plus 4.25%. All of the notes issued mature in April 2032, although the Company has the right to call the notes anytime after July 2016 until maturity.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

RCC 2015-CRE3

In February 2015, the Company closed RCC 2015-CRE3, a \$346.2 million CRE securitization transaction that provided financing for transitional commercial real estate loans. RCC 2015-CRE3 issued a total of \$282.1 million of senior notes at par to unrelated investors. RCC Real Estate purchased 100% of the Class E and Class F senior notes for \$20.8 million and \$15.6 million, respectively. In addition, Resource Real Estate Funding 2015-CRE3 Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$27.7 million equity interest representing 100% of the outstanding preference shares. The senior notes purchased by RCC Real Estate are subordinated in right of payment to all other senior notes issued by RCC 2015-CRE3, but are senior in right of payment to the preference shares. The equity interest is subordinated in right of payment to all other securities issued by RCC 2015-CRE3.

At closing, the senior notes issued to investors by RCC 2015-CRE3 consisted of the following classes: (i) \$193.9 million of Class A notes bearing interest at one-month LIBOR plus 1.40%; (ii) \$17.3 million of Class A-S notes bearing interest at one-month LIBOR plus 1.65%; (iii) \$19.5 million of Class B notes bearing interest at one-month LIBOR plus 2.40%; (iv) \$20.8 million of Class C notes bearing interest at one-month LIBOR plus 3.15%; (v) \$30.7 million of Class D notes bearing interest at one-month LIBOR plus 4.00%; (vi) \$20.8 million of Class E notes bearing interest at one-month LIBOR plus 4.75%; (vii) and \$15.6 million of Class F notes bearing interest at one-month LIBOR plus 5.50%. All of the notes issued mature in March 2032, although the Company has the right to call the notes anytime after March 2017 until maturity. There is no reinvestment period in RCC 2015-CRE3; however, principal repayments, for a period ending in February 2017, may be used to purchase funding participations with respect to existing collateral held outside of the securitization.

RCC 2015-CRE4

In August 2015, the Company closed RCC 2015-CRE4, a \$312.9 million CRE securitization transaction that provided financing for transitional commercial real estate loans. RCC 2015-CRE4 issued a total of \$223.7 million of senior notes at par to unrelated investors. RCC Real Estate purchased 100% of the Class C senior notes for \$26.6 million. In addition, Resource Real Estate Funding 2015-CRE4 Investor, LLC, a subsidiary of RCC Real Estate purchased a \$62.6 million equity interest representing 100% of the outstanding preference shares. The senior notes purchased by RCC Real Estate are subordinated in right of payment to all other senior notes issued by RCC 2015-CRE4, but are senior in right of the payment to the preference shares. The equity interest is subordinated in right of payment to all other securities issued by RCC 2015-CRE4.

At closing, the senior notes issued to investors by RCC 2015-CRE4 consisted of the following classes: (i) \$179.9 million of Class A notes bearing interest at one-month LIBOR plus 1.40%; (ii) \$43.8 million of Class B notes bearing interest at one-month LIBOR plus 3.00%; (iii) \$26.6 million of Class C notes bearing interest at one-month LIBOR plus 4.75%. All of the notes issued mature in August 2032, although the Company has the right to call the notes anytime after September 2017 until maturity. There is no reinvestment period in RCC 2015-CRE4; however, principal repayments, for a period ending in September 2017, may be used to purchase funding participations with respect to existing collateral held outside of the securitization.

Apidos CDO III

In May 2006, the Company closed Apidos CDO III, a \$285.5 million CDO transaction that provided financing for bank loans. Apidos CDO III issued a total of \$262.5 million of senior notes at par to investors and RCC Commercial purchased a \$23.0 million equity interest representing 100% of the outstanding preference shares. The equity interest is subordinated in right of payment to all other securities issued by Apidos CDO III.

At closing, the senior notes issued to investors by Apidos CDO III consist of the following classes: (i) \$212.0 million of Class A-1 notes bearing interest at 3-month LIBOR plus 0.26%; (ii) \$19.0 million of Class A-2 notes bearing interest at 3-month LIBOR plus 0.45%; (iii) \$15.0 million of Class B notes bearing interest at 3-month LIBOR plus 0.75%; (iv) \$10.5 million of Class C notes bearing interest at 3-month LIBOR plus 1.75%; and (v) \$6.0 million of Class D notes bearing interest at 3-month LIBOR plus 4.25%. All of the notes issued mature on September 12, 2020, although the Company has the right to call the notes anytime after September 12, 2011 until maturity.

In June 2015, the Company called Apidos CDO III, substantially liquidating the securitization's assets. Proceeds from the sale of these assets, plus proceeds from previous sales and paydowns in the CDO, were used to pay down the securitization's remaining senior notes.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

Apidos Cinco CDO

In May 2007, the Company closed Apidos Cinco CDO, a \$350.0 million CDO transaction that provided financing for bank loans. Apidos Cinco CDO issued a total of \$322.0 million of senior notes at par to investors and RCC Commercial II purchased a \$28.0 million equity interest representing 100% of the outstanding preference shares. The equity interest is subordinated in right of payment to all other securities issued by Apidos Cinco CDO.

The senior notes issued to investors by Apidos Cinco CDO consist of the following classes: (i) \$37.5 million of Class A-1 notes bearing interest at LIBOR plus 0.24%; (ii) \$200.0 million of Class A-2a notes bearing interest at LIBOR plus 0.23%; (iii) \$22.5 million of Class A-2b notes bearing interest at LIBOR plus 0.32%; (iv) \$19.0 million of Class A-3 notes bearing interest at LIBOR plus 0.42%; (v) \$18.0 million of Class B notes bearing interest at LIBOR plus 0.80%; (vi) \$14.0 million of Class C notes bearing interest at LIBOR plus 2.25%; and (vii) \$11.0 million of Class D notes bearing interest at LIBOR plus 4.25%. The Company has the right to call the notes anytime after May 14, 2011 until maturity.

Moselle CLO S.A.

In February 2014, the Company purchased 100% of the Class 1 Subordinated Notes and 67.9% of the Class 2 Subordinated Notes, which represented 88.6% of the outstanding subordinated notes in the European securitization Moselle CLO S.A. Due to the Company's economic interest combined with its contractual, unilateral kick-out rights acquired upon its purchase of a majority of the subordinate notes, the Company determined that it had a controlling financial interest and consolidated Moselle CLO (see Note 3). The notes purchased by the Company are subordinated in right of payment to all other notes issued by Moselle CLO.

The balances of the senior notes issued to investors when the Company acquired a controlling financial interest in February 2014 were as follows: (i) €24.9 million of Class A-1E notes bearing interest at LIBOR plus 0.25%; (ii) \$24.9 million of Class A-1L notes bearing interest at LIBOR plus 0.25%; (iii) €10.3 million of Class A-1LE notes bearing interest at LIBOR plus 0.31%; (iv) \$10.3 million of Class A-1LE notes bearing interest at LIBOR plus 0.31%; (v) €13.8 million of Class A-2E notes bearing interest at LIBOR plus 0.40%; (vi) \$13.8 million of Class A-2L notes bearing interest at LIBOR plus 0.40%; (vii) €6.8 million of Class A-3E notes bearing interest at LIBOR plus 0.70%; (viii) \$6.8 million of Class A-3L notes bearing interest at LIBOR plus 0.75%; (ix) €16 million of Class B-1E notes bearing interest at LIBOR plus 1.80%; and (x) \$16.0 million of Class B-1L notes bearing interest at LIBOR plus 1.85%.

The Company had the right to call the notes anytime after January 6, 2010 until maturity and in November 2014, the Company exercised this right and substantially liquidated the securitization's assets. Proceeds from the sale of these assets were used to pay down the senior notes and securities borrowings in full as of December 31, 2015.

Unsecured Junior Subordinated Debentures

In May 2006 and September 2006, the Company formed RCT I and RCT II, respectively, for the sole purpose of issuing and selling capital securities representing preferred beneficial interests. Although the Company owns \$774,000 of the common securities of RCT I and RCT II, RCT I and RCT II are not consolidated into the Company's consolidated financial statements because the Company is not deemed to be the primary beneficiary of these entities. In connection with the issuance and sale of the capital securities, the Company issued junior subordinated debentures to RCT I and RCT II of \$25.8 million each, representing the Company's maximum exposure to loss. The debt issuance costs associated with the junior subordinated debentures for RCT I and RCT II are included in borrowings and are being amortized into interest expense in the consolidated statements of operations using the effective yield method over a ten year period.

The debt issuance costs associated with the junior subordinated debentures for RCT I and RCT II at December 31, 2015 were \$54,000 and \$80,000, respectively. The debt issuance costs associated with the junior subordinated debentures for RCT I and RCT II at December 31, 2014 were \$160,000 and \$183,000, respectively. The rates for RCT I and RCT II, at December 31, 2015, were 4.55% and 4.25%, respectively. The rates for RCT I and RCT II, at December 31, 2014, were 4.21% and 4.18%, respectively.

The rights of holders of common securities of RCT I and RCT II are subordinate to the rights of the holders of capital securities only in the event of a default; otherwise, the common securities' economic and voting rights are pari passu with the capital securities. The capital and common securities of RCT I and RCT II are subject to mandatory redemption upon the maturity or call of the junior subordinated debentures held by each. Unless earlier dissolved, RCT I will dissolve on May 25, 2041 and RCT II will dissolve on September 29, 2041. The junior subordinated debentures are the sole assets of RCT I and RCT II, mature on September 30, 2036 and October 30, 2036, respectively, and may be called at par by the Company any time after September 30, 2011 and October 30, 2011,

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

respectively. The Company records its investments in RCT I and RCT II's common securities of \$774,000 each as investments in unconsolidated entities and records dividend income upon declaration by RCT I and RCT II.

6.0% Convertible Senior Notes

On October 21, 2013, the Company issued and sold in a public offering \$115.0 million aggregate principal amount of its 6.0% Convertible Senior Notes due 2018, ("6.0% Convertible Senior Notes"). After deducting the underwriting discount and the estimated offering costs, the Company received approximately \$111.1 million of net proceeds. The discount of \$4.9 million on the 6.0% Convertible Senior Notes reflects the difference between the stated value of the debt and the fair value of the notes as if they were issued without a conversion feature and at a higher rate of interest that the Company estimated would have been applicable without the conversion feature. The discount will be amortized on a straight-line basis as additional interest expense through maturity on December 1, 2018. Interest on the 6.0% Convertible Senior Notes is paid semi-annually. Prior to December 1, 2018, the 6.0% Convertible Senior Notes are not redeemable at the Company's option, except to preserve the Company's status as a REIT. On or after December 1, 2018, the Company may redeem all or a portion of the 6.0% Convertible Senior Notes at a redemption price equal to the principal amount plus accrued and unpaid interest. Holders of 6.0% Convertible Senior Notes may require the Company to repurchase all or a portion of the 6.0% Convertible Senior Notes at a purchase price equal to the principal amount plus accrued and unpaid interest on December 1, 2018, or upon the occurrence of certain defined fundamental changes. The 6.0% Convertible Senior Notes had an original conversion rate of 150.1502 common shares per \$1,000 principal amount of 6.0% Convertible Senior Notes (equivalent to an initial conversion price of \$6.66 per common share). Upon conversion of 6.0% Convertible Senior Notes by a holder, the holder will receive cash, the Company's common shares or a combination of cash and common shares, at the Company's election. In connection with the Company's one-for-four reverse stock split, the 6.0% Convertible Senior Notes automatically adjusted from 150.1502 common shares per \$1,000 principal amount of such notes to 37.5376 common shares per \$1,000 principal amount of such notes. The conversion price was adjusted from \$6.66 to \$26.64 as a result of the stock split.

8.0% Convertible Senior Notes

In January 2015, the Company issued and sold in a public offering \$100.0 million aggregate principal amount of its 8.0% Convertible Senior Notes due 2020, ("8.0% Convertible Senior Notes"). After deducting a \$1.0 million underwriting discount and deferred debt issuance costs totaling \$2.1 million, the Company received approximately \$97.0 million of net proceeds. In addition, the Company recorded a discount of \$2.5 million (the offset of which was recorded in additional paid-in capital) on the 8.0% Convertible Senior Notes that reflects the difference between the stated value of the debt and the fair value of the notes as if they were issued without a conversion feature. The aforementioned market discounts and the deferred debt issuance costs will be amortized on a straight-line basis as additional interest expense through maturity on January 15, 2020. Interest on the 8.0% Convertible Senior Notes is paid semi-annually. Prior to January 15, 2020, the 8.0% Convertible Senior Notes are not redeemable at the Company's option, except to preserve the Company's status as a REIT. On or after January 15, 2020, the Company may redeem all or a portion of the 8.0% Convertible Senior Notes at a redemption price equal to the principal amount plus accrued and unpaid interest. Holders of 8.0% Convertible Senior Notes may require the Company to repurchase all or a portion of the 8.0% Convertible Senior Notes at a purchase price equal to the principal amount plus accrued and unpaid interest on January 15, 2020, or upon the occurrence of certain defined fundamental changes. The 8.0% Convertible Senior Notes had an original conversion rate of 187.4414 common shares per \$1,000 principal amount of 8.0% Convertible Senior Notes (equivalent to an initial conversion price of \$5.34 per common share). Upon conversion of 8.0% Convertible Senior Notes by a holder, the holder will receive cash, the Company's common shares or a combination of cash and common shares, at the Company's election. In connection with the Company's one-for-four reverse stock split, the 8.0% Convertible Senior Notes automatically adjusted from 187.4414 common shares per \$1,000 principal amount of such notes to 46.86035 shares of common stock per \$1,000 principal amount of such notes. The conversion price was adjusted from \$5.34 to \$21.36 as a result of the stock split.

Residential Investments – Term Repurchase Facility

In June 2014, the Company's wholly-owned subsidiaries, RCC Resi Portfolio, RCC Resi TRS, and RCC Resi Depositor (the "Sellers") entered into a master repurchase and securities contract (the "2014 Facility") with Wells Fargo Bank, NA ("Wells Fargo"). Under the 2014 Facility, from time to time, the parties may enter into transactions in which the Sellers and Wells Fargo agree to transfer from the Sellers to Wells Fargo all of their right, title and interest to certain residential mortgage backed securities and other assets against the transfer of funds by Wells Fargo to the Sellers, with a simultaneous agreement by Wells Fargo to transfer back to the Sellers such assets at a date certain or on demand, against the transfer of funds from the Sellers to Wells Fargo. The original maximum amount of the 2014 Facility was \$285.0 million which had an original one year term with a one year extension option, and a maximum interest rate of 1.45% and 3.00% on residential mortgage-backed securities and jumbo mortgage loans, respectively. The 2014 Facility had an original maturity date of June 22, 2015. Over the course of five amendments, the most recent of which was entered into with Wells Fargo on September 20, 2015, the Company extended the 2014 Facility's termination date to September 20, 2016. Additionally, the amendments reduced the 2014 Facility's original maximum borrowing amount from a total of \$285.0 million to \$30.0 million with respect to certificates of trust and zero with respect to residential mortgage backed securities. There were no other material changes to the agreement over the course of the five amendments. The facility currently charges a fee for unused balance of 25 basis points on the difference between a threshold equal to 40% of the maximum borrowing amount with respect to certificates of trust and the average daily borrowing balance of that month.

The 2014 Facility contains customary events of default, including payment defaults, breaches of covenants and/or certain representations and warranties, cross-defaults, guarantor defaults, and the institution of bankruptcy or insolvency proceedings that remain unstayed. The remedies for such events of default are also customary for this type of transaction and include the acceleration of all obligations of the Sellers to repay the purchase price for purchased assets.

The 2014 Facility also contains margin call provisions relating to a decline in the market value of a security. Under these circumstances, Wells Fargo may require the Sellers to transfer cash in an amount sufficient to eliminate any margin deficit resulting from such a decline.

Under the terms of the 2014 Facility and pursuant to a guarantee agreement dated June 20, 2014 (the "2014 Guaranty"), the Company guaranteed the payment and performance of (a) all payment obligations owing by the Sellers to Wells Fargo under or in connection with the 2014 Facility and any other governing agreements and any and all extensions, renewals, modifications, amendments or substitutions of the foregoing; (b) all expenses, including, without limitation, reasonable attorneys' fees and disbursements, that are incurred by Wells Fargo in the enforcement of any of the foregoing or any obligation of the registrant; and (c) any other obligations

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

of the Sellers with respect to Wells Fargo under each of the governing documents. The 2014 Guaranty includes covenants that, among other things, limit the Company's leverage and debt service ratios and require maintenance of certain levels of cash and net worth. Sellers and the Company were in compliance with all financial debt covenants under the 2014 Facility and 2014 Guaranty as of December 31, 2015.

CMBS – Term Repurchase Facility

In February 2011, the Company's wholly-owned subsidiaries, RCC Commercial and RCC Real Estate (collectively, the "RCC Subsidiaries"), entered into a master repurchase and securities contract (the "2011 Facility") with Wells Fargo Bank, National Association ("Wells Fargo"). Under the 2011 Facility, from time to time, the parties may enter into transactions in which the RCC Subsidiaries and Wells Fargo agree to transfer from the RCC Subsidiaries to Wells Fargo all of their right, title and interest to certain commercial mortgage backed securities and other assets (the "Assets") against the transfer of funds by Wells Fargo to the RCC Subsidiaries, with a simultaneous agreement by Wells Fargo to transfer back to the RCC Subsidiaries such Assets at a date certain or on demand, against the transfer of funds from the RCC Subsidiaries to Wells Fargo. The maximum amount of the 2011 Facility is \$100.0 million which had an original two year term with a one year option to extend, and an interest rate equal to the one-month LIBOR plus 1.00% plus a .25% initial structuring fee and a .25% extension fee upon exercise. In April 2014, the Company agreed to a third amendment of the facility, which extended the termination date to January 31, 2016. In May 2015, the Company agreed to a fourth amendment of the facility, which extended the termination date to January 31, 2017. The RCC Subsidiaries may enter into interest rate swaps and cap agreements for securities whose average life exceeds two years to mitigate interest rate risk under the 2011 Facility.

The 2011 Facility contains customary events of default, including payment defaults, breaches of covenants and/or certain representations and warranties, cross-defaults, guarantor defaults, and the institution of bankruptcy or insolvency proceedings that remain unstayed. The remedies for such events of default are also customary for this type of transaction and include the acceleration of all obligations of the RCC Subsidiaries to repay the purchase price for purchased assets.

The 2011 Facility also contains margin call provisions relating to a decline in the market value of a security. Under these circumstances, Wells Fargo may require the RCC Subsidiaries to transfer cash in an amount sufficient to eliminate any margin deficit resulting from such a decline.

Under the terms of the 2011 Facility and pursuant to a guarantee agreement dated February 1, 2011 (the "2011 Guaranty"), the Company guaranteed the payment and performance of (a) all payment obligations owing by the RCC Subsidiaries to Wells Fargo under or in connection with the Facility and any other governing agreements and any and all extensions, renewals, modifications, amendments or substitutions of the foregoing; (b) all expenses, including, without limitation, reasonable attorneys' fees and disbursements, that are incurred by Wells Fargo in the enforcement of any of the foregoing or any obligation of the registrant; and (c) any other obligations of the RCC Subsidiaries with respect to Wells Fargo under each of the governing documents. The 2011 Guaranty includes covenants that, among other things, limit the Company's leverage and debt service ratios and require maintenance of certain levels of cash and net worth. The RCC Subsidiaries were in compliance with all financial debt covenants as of December 31, 2015 and the Company was in compliance with all financial covenants under the 2011 Guaranty as of December 31, 2015.

CRE – Term Repurchase Facilities

On February 27, 2012, the RCC Real Estate's wholly-owned subsidiary, RCC Real Estate SPE 4 LLC ("SPE 4"), entered into a master repurchase and securities agreement (the "2012 Facility") with Wells Fargo to finance the origination of commercial real estate loans. The 2012 Facility had an original maximum amount of \$150.0 million and an initial 18 month term. The Company paid an origination fee of 37.5 basis points (0.375%). On April 2, 2013, the Company entered into an amendment which increased the size to \$250.0 million and extended the current term of the 2012 Facility to February 27, 2015. The amendment also provides two additional one year extension options at the Company's discretion. The Company paid an additional structuring fee of \$101,000 and an extension fee of \$938,000 in connection with the amendment and will amortize the additional fees over the term of the extension.

On October 31, 2014, the Company agreed to a modification of the terms of the 2012 Facility. The modification increases the facility maximum by \$150.0 million to \$400.0 million and extends the 2012 Facility's maturity date to August 27, 2016. The modification also increased the 2012 Facility's maximum single asset concentration limit, reduced the minimum portfolio debt yield tests requirement, and decreased pricing spreads on select portfolio assets. The Company also provides for two additional one year extension options at the Company's discretion. The Company paid a structuring fee of \$1.6 million upon the closing of the modification.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

This 2012 Facility contains customary events of default, including payment defaults, breaches of covenants and/or certain representations and warranties, cross-defaults, guarantor defaults, and the institution of bankruptcy or insolvency proceedings that remain unstayed. The remedies for such events of default are also customary for this type of transaction and include the acceleration of all obligations of the Company to repay the purchase price for purchased assets.

The 2012 Facility also contains margin call provisions relating to a decline in the market value of a security. Under these circumstances, Wells Fargo may require the Company to transfer cash in an amount sufficient to eliminate any margin deficit resulting from such a decline.

Under the terms of the 2012 Facility and pursuant to a guarantee agreement dated February 27, 2012 (the "2012 Guaranty"), the Company guaranteed the payment and performance of (a) all payment obligations owing by the Company to Wells Fargo under or in connection with the 2012 Facility and any other governing agreements and any and all extensions, renewals, modifications, amendments or substitutions of the foregoing; (b) all expenses, including, without limitation, reasonable attorneys' fees and disbursements, that are incurred by Wells Fargo in the enforcement of any of the foregoing or any obligation of the registrant; and (c) any other obligations of the Company with respect to Wells Fargo under each of the governing documents. The 2012 Guaranty includes covenants that, among other things, limit the the Company's leverage and debt service ratios and require maintenance of certain levels of cash and net worth. SPE 4 was in compliance with all financial covenants as of December 31, 2015 and the Company was in compliance with all financial covenants under the 2012 Guaranty as of December 31, 2015.

On July 19, 2013, RCC Real Estate's wholly-owned subsidiary, RCC Real Estate SPE 5 ("SPE 5"), entered into a master repurchase and securities agreement (the "DB Facility") with Deutsche Bank AG, Cayman Islands Branch ("DB") to finance the origination of commercial real estate loans. The Company paid a structuring fee of 0.25% of the maximum facility amount, as well as other reasonable closing costs. The DB Facility had a maximum amount of \$200.0 million and an initial 12 month term that ended on July 19, 2014. The Company paid an extension fee of 0.25% of the maximum facility amount to exercise the first of two one-year extensions at the option of SPE 5 and subject further to the right of SPE 5 to repurchase the assets held in the DB Facility earlier. The Company guaranteed SPE 5's performance of its obligations under the DB Facility. On July 19, 2015, the Company elected to not exercise the extension on the DB Facility and it matured.

On September 10, 2015, RCC Real Estate's wholly-owned subsidiary, RCC Real Estate SPE 6 ("SPE 6"), entered into a master repurchase and securities agreement (the "Morgan Stanley Facility") with Morgan Stanley Bank, NA ("Morgan Stanley") to finance the origination of commercial real estate loans. The Company paid a commitment fee of 0.65% of the maximum facility amount, as well as other standard costs. The Morgan Stanley Facility has a maximum capacity of \$250.0 million and an initial three year term that expires on September 10, 2018 with annual one year extension options, and an interest rate of one-month LIBOR plus an applicable spread ranging from 2.25% to 2.75%. Morgan Stanley charges an unused fee of 0.50% if the average daily outstanding borrowings are less than or equal to 50% of the Morgan Stanley Facility amount, and of 0.25% if the amount the average daily outstanding borrowings are greater than 50% but less than 65% of the Morgan Stanley Facility amount. Morgan Stanley has agreed to waive this unused fee until January 2016.

The Morgan Stanley Facility contains events of default (subject to certain materiality thresholds and grace periods) customary for this type of financing arrangement, including but not limited to: payment defaults; a change of control of SPE 6 or the Company; breaches of covenants and/or certain representations and warranties; a judgment in an amount greater than \$250,000 against SPE 6 or \$15.0 million in the aggregate against the Company; or a default involving the failure to pay or acceleration of a monetary obligation in excess of \$250,000 of SPE 6 or \$15.0 million of the Company. The remedies for such events of default are also customary for this type of transaction and include the acceleration of the principal amount outstanding under the Morgan Stanley Facility and the liquidation of assets subject to the facility by Morgan Stanley. The Company and SPE 6 were in compliance with all financial covenants under the terms of the facility as of December 31, 2015.

Trust Certificates - Term Repurchase Facility

On November 20, 2015, RCC Real Estate entered into a repurchase and securities agreement (the "Term Repurchase Trust Facility") with RSO Repo SPE Trust 2015 (the "Term Repurchase Trust"), a structure that provides financing under a structured sale of trust certificates to qualified institutional buyers through an offering led by Wells Fargo Securities, LLC. The Term Repurchase Trust Facility sold trust certificates of \$26.6 million with an initial three year term that expires on November 20, 2018, and an interest rate of one-month LIBOR plus an applicable spread of 5.50%. The Company has the ability to call the Term Repurchase Trust Facility at any time and in so doing would be subject to an early repurchase fee until the payment date in May 2017, after which it is freely prepayable.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

The Term Repurchase Trust Facility contains events of default, including but not limited to: payment defaults, including the a margin deficit; a change in control of the Company; breaches of covenants and/or certain representations and warranties; or failure to pay indebtedness for borrowed money, or any interest or premium thereon when due in excess of \$2.0 million. The remedies for such events of default include: immediate repayment of the repurchase obligations and retention of all income received on the purchased asset and the pledged collateral. The Company was in compliance with all financial covenants under the terms of the facility as of December 31, 2015.

Short-Term Repurchase Agreements - CMBS

On March 8, 2005, RCC Real Estate entered into a master repurchase and securities agreement with Deutsche Bank Securities Inc. to finance the purchase of CMBS and the origination of commercial real estate loans. There is no stated maximum amount of the facility and the repurchase agreement has no stated maturity date with monthly resets of interest rates. The Company guaranteed RCC Real Estate's performance of its obligations under the repurchase agreement.

On February 14, 2012, RCC Real Estate entered into a master repurchase and securities agreement with Wells Fargo Securities, LLC to finance the purchase of CMBS. There is no stated maximum amount of the facility and the repurchase agreement has no stated maturity date, interest rates reset monthly. The Company guaranteed RCC Real Estate's performance of its obligations under the repurchase agreement.

Residential Mortgage Financing Agreements

PCM has a master repurchase agreement (the "New Century Facility") with New Century Bank d/b/a Customer's Bank ("New Century") to finance the acquisition of residential mortgage loans. The New Century Facility has a maximum amount of \$65.0 million and a termination date of August 29, 2016, which was amended from the original terms over the course of nine amendments. The New Century Facility bears interest at one-month LIBOR plus an applicable rate between 2.63% and 4.875%.

The New Century Facility contains provisions that provide New Century with certain rights if certain credit events have occurred with respect to one or more assets financed on the New Century Facility to either require PCM to repay a portion of the advance on such asset(s) or repay such advance in full (by repurchase of such asset(s)). Depending on the nature of the credit event, such repayment may be required notwithstanding the availability of interest and principal payments from assets financed on the New Century Facility, or may only be required to the extent of the availability of such payments.

The New Century Facility contains events of default (subject to certain materiality thresholds and grace periods) customary for this type of financing arrangement, including but not limited to: payment defaults; bankruptcy or insolvency proceedings; a change in the nature of PCM's business as a mortgage banker as presently conducted or a change in senior management, including the employment of two senior members of PCM's management staff; breaches of covenants and/or certain representations and warranties; performance defaults by PCM; a judgment in an amount greater than \$10,000 against PCM or \$50,000 in the aggregate against PCM. The remedies for such events of default are also customary for this type of transaction and include the acceleration of the principal amount outstanding under the New Century Facility and the liquidation by New Century of assets then subject to the New Century Facility. The agreement requires PCM to maintain a minimum maintenance balance account at all times of \$1.5 million.

In July 2014, PCM entered into a master repurchase agreement (the "Wells Fargo Facility") with Wells Fargo to finance the acquisition of residential mortgage loans. The Wells Fargo Facility contains provisions that provide Wells Fargo with certain rights if certain credit events have occurred with respect to one or more assets financed on the Wells Fargo Facility to either require PCM to repay a portion of the advance on such asset(s) or repay such advance in full (by repurchase of such asset(s)). Depending on the nature of the credit event, such repayment may be required notwithstanding the availability of interest and principal payments from assets financed on the Wells Fargo Facility, or may only be required to the extent of the availability of such payments. The Wells Fargo Facility has a maximum amount of \$100.0 million, a termination date of September 29, 2016, which was amended from the original terms over the course of four amendments, and bears interest at a rate of one-month LIBOR plus an applicable loan margin. The loan margin for jumbo loans that have been purchased and held by Wells Fargo for over 90 days is 3.00%; the loan margin for all other jumbo loans financed is 2.50%. The loan margin for agency loans that have been purchased and held by Wells Fargo is 2.38%.

The Wells Fargo Facility contains events of default (subject to certain materiality thresholds and grace periods) customary for this type of financing arrangement, including but not limited to: payment defaults; bankruptcy or insolvency proceedings; a change in the nature of PCM's business as a mortgage banker as presently conducted; breaches of covenants and/or certain representations and warranties; performance defaults by PCM; and a judgment in an amount greater than \$250,000 against PCM. The remedies for

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

such events of default are also customary for this type of transaction and include the acceleration of the principal amount outstanding under the Wells Fargo Facility and the liquidation by Wells Fargo of assets then subject to the Wells Fargo Facility.

PCM was in compliance with all covenants under the agreement as of December 31, 2015.

Senior Secured Revolving Credit Facility

On September 18, 2014, the Company's wholly-owned subsidiary, Northport LLC, closed a \$110.0 million syndicated senior secured revolving credit facility ("Northport Credit Facility") with JP Morgan as the agent bank to finance the origination of middle market and syndicated loans. The availability under the Northport Credit Facility was increased to \$125.0 million as of September 30, 2014 and again to \$140.0 million with an additional commitment from ING Bank early in March 2015. During the second quarter 2015, the Company entered into the first and second amendments of the Northport Credit Facility which increased the original commitment from \$225.0 million to \$300.0 million and secured \$85.0 million of additional availability, bringing the total available under the Northport Credit Facility to \$225.0 million as of December 31, 2015. As of December 31, 2015, \$190.0 million was outstanding on the Northport Credit Facility. Under the first amendment, both the ability to access draws on the Northport Credit Facility and maturity have been extended six months until March 31, 2018 and March 31, 2019 respectively.

Under the terms of the second amendment, the applicable margins increased 25 basis points. Accordingly, the Northport Credit Facility bears interest rates, at the Company's election, on a per annum basis equal to (i) the applicable LIBOR rate plus 2.75% or (ii) the applicable base rate (prime rate of 3.5% as of December 31, 2015) plus 1.75%. During the six month period following September 18, 2014, the Company was charged a commitment fee on any unused balance of 0.375% per annum if the unused balance was greater than 35% of the total commitment or 0.50% per annum if it was less than 35% of the total commitment. Following that period, the commitment fee on any unused balance became 0.375% per annum if the outstanding balance is greater than 35% of the total commitment or 1.00% per annum if the outstanding balance is 35% or less of the total commitment. At December 31, 2015, there was an unused balance of \$35.0 million on the facility.

Amounts available to borrow under the Northport Credit Facility are subject to compliance with a borrowing base computation that applies different advance rates to different types of assets held by Northport LLC that are pledged as collateral. Under the Northport Credit Facility, the Company has made certain customary representations and warranties and is required to comply with various covenants, including leverage restrictions, reporting requirements and other customary requirements for similar credit facilities. At December 31, 2015, the Company is in compliance with all covenants under the agreement. The Company guarantees Northport LLC's performance of its obligations under the Northport Credit Facility.

Contractual maturity dates of the Company's borrowings by category and year are presented in the table below:

	Total	2016	2017	2018	2019	2020 and Thereafter

NOTE 14 - STOCK INCENTIVE PLANS AND SHARE ISSUANCE AND REPURCHASE

Upon formation of the Company, the 2005 Stock Incentive Plan (the "2005 Plan") was adopted for the purpose of attracting and retaining executive officers, employees, directors and other persons and entities that provide services to the Company. The 2005 Plan authorized the issuance of up to 383,333 shares of common stock in the form of options to purchase common stock, stock awards, performance shares and stock appreciation rights.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

In July 2007, the Company's shareholders approved the 2007 Omnibus Equity Compensation Plan (the "2007 Plan"). The 2007 Plan authorized the issuance of up to 500,000 shares of common stock in the form of options to purchase common stock, stock awards, performance shares and stock appreciation rights. On June 23, 2011, the 2007 Plan was amended to: (i) increase the number of shares authorized for issuance under the Plan from 500,000 shares to 1,350,000 shares; (ii) extend the expiration date of the Plan to June 23, 2021; (iii) provide that the administrator making certain determinations after a change of control, as defined in the 2007 Plan, will be comprised of the same persons who constitute the administrator immediately before the change of control; and (iv) make other clarifying and updating amendments to the Plan.

The following table summarizes the Company's preferred stock:

	Year ended December 31, 2015		Total Outstanding	
	Number of Shares Sold	Weighted Average Offering Price	Number of Shares	Weighted Average Offering Price
8.50% Series A Preferred Stock	—	\$ —	1,069,016	\$ 24.05
8.25% Series B Preferred Stock	139,333	\$ 22.34	5,740,479	\$ 23.81
8.625% Series C Preferred Stock	—	\$ —	4,800,000	\$ 25.00

On or after June 14, 2017, the Company may, at its option, redeem the Series A preferred stock, in whole or part, at any time and from time to time, for cash at \$25.00 per share, plus accrued and unpaid dividends, if any, to the redemption date.

On or after October 2, 2017, the Company may, at its option, redeem the Series B preferred stock, in whole or part, at any time and from time to time, for cash at \$25.00 per share, plus accrued and unpaid dividends, if any, to the redemption date.

On or after July 30, 2024, the Company may, at its option, redeem the Series C preferred stock, in whole or part, at any time and from time to time, for cash at \$25.00 per share, plus accrued and unpaid dividends, if any, to the redemption date.

Under a dividend reinvestment plan authorized by the board of directors on March 21, 2013, the Company is authorized to issue up to 5,000,000 shares of common stock. During the year ended December 31, 2015, the Company sold 20,963 shares of common stock through this program, resulting in proceeds of approximately \$328,000.

Under a share repurchase plan authorized by the board of directors on August 3, 2015, the Company is authorized to repurchase up to \$50.0 million of its outstanding equity and debt securities. Since the inception of the program through December 31, 2015, the Company has repurchased \$25.9 million of its common stock, representing approximately 2.0 million shares or 5.9% of the Company's outstanding balance.

NOTE 15 - SHARE-BASED COMPENSATION

Forfeited	—	(4,665)	(3,716)	(8,381)
Unvested shares as of December 31, 2015	15,267	617,657	58,445	691,369

The Company is required to value any unvested shares of restricted common stock granted to non-employees at the current market price. The estimated fair value of the unvested shares of restricted stock granted during the years ended December 31, 2015, 2014, and 2013, including the grant date fair value of shares issued to the Company's seven non-employee directors, was \$5.1 million, \$4.9 million, and \$3.7 million, respectively. The estimated fair value of the unvested shares of restricted stock granted during the years ended December 31, 2015, 2014, and 2013, including the grant date fair value of shares issued to the Company's employees, was \$737,000, \$132,000, and \$1.5 million, respectively.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

The Company reports any unvested shares of restricted common stock granted to non-employee directors at the fair value on the grant date amortized over the service period. The amortization recognized during the years ended December 31, 2015, 2014, and 2013, was \$257,000 and \$256,000 and \$218,000, respectively.

As of December 31, 2015 the total unrecognized restricted common stock expense for non-employees was \$2.3 million, with a weighted average amortization period remaining of 1.8 years.

The following table summarizes the restricted common stock grants during the year ended December 31, 2015:

Date	Shares	Vesting/Year	Date(s)
February 3, 2015	1,819	100%	2/3/16
February 5, 2015	241,524	33.3%	2/5/16, 2/5/17, 2/5/18
February 5, 2015	28,818	33.3%	2/5/16, 2/5/17, 2/5/18
March 9, 2015	8,047	100%	3/9/16
March 12, 2015	1,906	100%	3/12/16
March 31, 2015	8,841	100%	5/15/16 ⁽¹⁾
June 8, 2015	2,124	100%	6/8/16
August 10, 2015	14,503	100%	3/31/16, 3/31/17, 3/31/18
September 1, 2015 ⁽²⁾	30	various	various

(1) In connection with a grant of restricted common stock made on September 24, 2014, the Company agreed to issue up to 17,682 additional shares of common stock if certain commercial real estate loan origination performance thresholds were achieved by personnel from the Company's commercial real estate loan origination team. The performance criteria are measured at the end of two annual measurement periods which began April 1, 2014. The agreement also provided dividend equivalent rights pursuant to which the dividends that would have been paid on the shares had they been issued on the date of grant were paid at the end of each annual measurement period if the performance criteria were met. If the performance criteria are not met, the accrued dividends are forfeited. As a consequence, the Company did not record the dividend equivalent rights until earned. On March 31, 2015, the first annual measurement period ended and 8,841 shares were earned. These shares will vest over the subsequent 12 months at a rate of one-fourth per quarter. In addition, approximately \$21,000 of accrued dividend equivalent rights were earned and paid. As of December 31, 2015, it was determined that the performance criteria for the final 8,841 shares were earned prior to the end of the measurement period, March 31, 2016. As of December 31, 2015, \$42,000 of accrued dividend equivalent rights were accrued and will be paid in April 2016. These performance shares will vest over the subsequent 12 months at a rate of one-fourth per quarter.

(2) In connection with the Company's one-for-four reverse stock split, 30 shares of unvested shares of common stock were issued on September 1, 2015 due to rounding.

The following table summarizes the status of the Company's vested stock options as of December 31, 2015:

Vested Options	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)
Vested as of January 1, 2015	160,167	\$ 57.80		
Vested	—	\$ —		
Exercised	—	\$ —		
Forfeited	—	\$ —		
Expired	(133,917)	\$ 60.00		
Vested as of December 31, 2015	26,250	\$ 46.60	3.20	\$ —

There were no options granted during the years ended December 31, 2015 or 2014. The outstanding stock options have a weighted average remaining contractual term of ten years.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

The components of equity compensation expense for the periods presented are as follows (in thousands):

	December 31,		
	2015	2014	2013
Options granted to Manager and non-employees	\$ —	\$ (2)	\$ 6
Restricted shares granted to non-employees	2,163	5,679	10,142
Restricted shares granted to employees	725	633	106
Restricted shares granted to non-employee directors	257	256	218
Total equity compensation expense	\$ 3,145	\$ 6,566	\$ 10,472

There were no incentive fees paid to the Manager in shares for the years ended December 31, 2015 and 2014. During the year ended December 31, 2013, the Manager received 47,707 shares as incentive compensation valued at \$1.1 million pursuant to the Management Agreement. The incentive management fee is paid one quarter in arrears.

Apart from incentive compensation payable under the Management Agreement, the Company has established no formal criteria for equity awards as of December 31, 2015. All awards are discretionary in nature and subject to approval by the Compensation Committee of the Company's board of directors.

On October 31, 2013, the Company, through its TRS, RCC Residential, completed a business combination whereby it acquired the assets of PCM, an Atlanta based company that originates and services residential mortgage loans, for approximately \$7.6 million in cash. As part of this transaction, a key employee of PCM was granted approximately \$800,000 of the Company's restricted stock. Any grants for employees of PCM are accounted for as compensation and amortized to equity compensation expense over the vesting period. Dividends declared on the stock while unvested are recorded as a general and administrative expense. Dividends declared after the stock vests are recorded as a distribution. For the years ended December 31, 2015, 2014, and 2013, was \$725,000, \$633,000 and \$106,000 of amortization of the stock grants were recorded to equity compensation expense, respectively. For the years ended December 31, 2015, 2014, and 2013, expenses of \$160,000, \$189,000 and \$48,000 related to the dividends on unvested shares were recorded to general and administrative expense on the Company's consolidated statements of operations, respectively.

NOTE 16 - EARNINGS PER SHARE

The following table presents a reconciliation of basic and diluted earnings per share for the periods presented as follows (in thousands, except share and per share amounts):

	Years Ended December 31,		
	2015	2014	2013
Basic:			
Net income (loss) allocable to common shares	\$ (13,882)	\$ 44,027	\$ 39,232
Weighted average number of shares outstanding	32,280,319	32,007,766	29,619,668
Basic net income (loss) per share	\$ (0.43)	\$ 1.38	\$ 1.32
Diluted:			
Net income (loss) allocable to common shares	\$ (13,882)	\$ 44,027	\$ 39,232
Weighted average number of shares outstanding	32,280,319	32,007,766	29,619,668
Additional shares due to assumed conversion of dilutive instruments	—	307,081	390,075
Adjusted weighted-average number of common shares outstanding	32,280,319	32,314,847	30,009,743
Diluted net income (loss) per share	\$ (0.43)	\$ 1.36	\$ 1.31

Potentially dilutive shares consisting of 691,369 shares of restricted stock are not included in the calculation of diluted net income (loss) per share for the year ended December 31, 2015. Potentially dilutive shares consisting of 9,002,864 shares issuable in connection with the potential conversion of the Company's 6% and 8% Convertible Senior Notes (see Note 13) for the year ended December 31, 2015, were not included in the calculation of diluted net income (loss) per share because the effect was anti-dilutive. Potentially dilutive shares consisting of 4,316,818 shares issuable in connection with the potential conversion of the Company's 6% Convertible Senior Notes for the year ended December 31, 2014 and 999,876 shares and stock options for the year ended December 31, 2013 were not included in the calculation of diluted net income per share because the effect was anti-dilutive.

NOTE 17 - ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The following table, which is presented gross of tax, presents the changes in each component of accumulated other comprehensive income for the year ended December 31, 2015 (dollars in thousands):

	Net unrealized (loss) gain on derivatives	Net unrealized (loss) gain on securities, available-for-sale	Foreign currency translation	Accumulated other comprehensive income (loss)
January 1, 2015	\$ (8,967)	\$ 15,422	\$ (412)	\$ 6,043
Other comprehensive gain (loss) before reclassifications	5,221	(4,781)	349	789
Amounts reclassified from accumulated other comprehensive income	275	(13,435)	—	(13,160)
Net current-period other comprehensive income	5,496	(18,216)	349	(12,371)
Unrealized gains (losses) on available-for-sale securities allocable to non-controlling interests	—	3,405	—	3,405
December 31, 2015	\$ (3,471)	\$ 611	\$ (63)	\$ (2,923)

NOTE 18 - THE MANAGEMENT AGREEMENT

On March 8, 2005, the Company entered into a Management Agreement with the Manager and Resource America pursuant to which the Manager provides the Company investment management, administrative and related services. The agreement has been amended several times over the years. Under the amended and restated agreement, the Manager receives fees and is reimbursed for its expenses as follows:

- A monthly base management fee equal to 1/12th of the amount of the Company's equity multiplied by 1.50%. Under the management agreement, "equity" is equal to the net proceeds from any issuance of shares of capital stock less offering related costs, plus or minus the Company's retained earnings (excluding non-cash equity compensation incurred in current or prior periods) less any amounts the Company has paid for common stock repurchases. The calculation is adjusted for one-time events due to changes in GAAP, as well as other non-cash charges, upon approval of the independent directors of the Company.
- Incentive compensation is calculated as follows: (i) twenty-five percent (25%) of the dollar amount by which (A) the Company's adjusted operating earnings (before incentive compensation but after the base management fee) for such quarter per common share (based on the weighted average number of common shares outstanding for such quarter) exceeds (B) an amount equal to (1) the weighted average of the price per share of the common shares in the initial offering by the Company and the prices per share of the Common Shares in any subsequent offerings by the Company, in each case at the time of issuance thereof, multiplied by (2) the greater of (a) 2.0% and (b) 0.50% plus one-fourth of the Ten Year Treasury Rate for such quarter, multiplied by (ii) the weighted average number of common shares outstanding during such quarter, subject to adjustment, to exclude events pursuant to changes in GAAP or the application of GAAP, as well as non-recurring or unusual transactions or events, after discussion between the Manager and the Independent Directors and approval by a majority of the independent directors in the case of non-recurring or unusual transactions or events. The fees paid by a taxable REIT subsidiary of the Company to employees, agents or affiliates of the Manager with respect to profits of such taxable REIT subsidiary (or any subsidiary thereof) are deducted from the Company's quarterly calculation of incentive compensation payable to the Manager. Additionally, any income taxes payable by a taxable REIT subsidiary of the Company will be excluded from the Company's calculation of operating earnings.
- Reimbursement of out-of-pocket expenses and certain other costs incurred by the Manager that relate directly to the Company and its operations.

Incentive compensation is paid quarterly. Up to 75% of the incentive compensation is paid in cash and at least 25% is paid in the form of an award of common stock. The Manager may elect to receive more than 25% in incentive compensation in common stock. All shares are fully vested upon issuance. However, the Manager may not sell such shares for one year after the incentive compensation becomes due and payable. Shares payable as incentive compensation are valued as follows:

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

- if such shares are traded on a securities exchange, at the average of the closing prices of the shares on such exchange over the thirty day period ending three days prior to the issuance of such shares;
- if such shares are actively traded over-the-counter, at the average of the closing bid or sales price as applicable over the thirty day period ending three days prior to the issuance of such shares; and
- if there is no active market for such shares, the value is the fair market value thereof, as reasonably determined in good faith by the board of directors of the Company.

On February 24, 2011, the Company entered into an amendment to the Management Agreement in where, the Company agreed to pay CVC Credit Partners, LLC, formerly Apidos Capital Management (“ACM”) such fees as are set forth in a Services Agreement dated as of February 24, 2011 among a subsidiary of the Company, RCAM and CVC. The Services Agreement provides that 10% of all base collateral management fees and additional collateral management fees paid to RCAM and 50% of all incentive collateral management fees will be paid by RCAM to CVC. During the years ended December 31, 2015, 2014 and 2013, RCAM paid CVC \$1.4 million, \$1.3 million and \$643,000 respectively in fees.

The Manager provides the Company with a Chairman, a Chief Financial Officer, a Chief Accounting Officer and several accounting and tax professionals, each of whom is exclusively dedicated to the Company's operations. The Manager also provides the Company with a director of investor relations who is 50% dedicated to the Company's operations. The Company bears the expense of the wages, salaries and benefits of the Chief Financial Officer and a sufficient amount of additional accounting and tax professionals, and bears 50% of the salary and benefits of the director of investor relations.

In November 2013, the Company amended the second amended and restated Management Agreement to allow an ancillary operating subsidiary (PCM), that is an operating entity principally engaged in the evaluation, underwriting, origination, servicing, holding, trading and financing of loans, securities, investments and credit products other than commercial real estate loans to directly incur and pay all of its own operating costs and expenses, including compensation of employees and reimbursement of any compensation costs incurred by the Manager for personnel principally devoted to such ancillary operating subsidiary.

As amended, the Management Agreement's initial term ended March 31, 2013, with automatic annual one-year renewals unless at the end of the initial term or any renewal term at least two-thirds of the independent directors or a majority of the outstanding common shares agreed not to renew the Management Agreement. With a two-thirds vote of the independent directors, the independent directors may elect to terminate the Management Agreement because of the following:

- unsatisfactory performance; and/or
- unfair compensation payable to the Manager where fair compensation cannot be agreed upon by the Company (pursuant to a vote of two-thirds of the independent directors) and the Manager.

If the Management Agreement is terminated based on the above provisions, the Company must pay the Manager a termination fee equal to four times the sum of the average annual base management fee and the average annual incentive during the two 12-month periods immediately preceding the date of such termination. The Company is also entitled to terminate the Management Agreement for cause (as defined therein) without payment of any termination fee.

The base management fee for the years ended December 31, 2015, 2014 and 2013 was \$12.6 million, \$13.0 million and \$11.6 million, respectively. There were no incentive management fees earned during the years ended December 31, 2015 and 2014. The Manager earned an incentive management fee of \$2.1 million of which \$1.5 million was paid in cash, which also included \$123,000 related to the Company's investment management agreement with a subsidiary of the Manager, and \$484,000 was paid in stock (20,047 shares) for the period from January 1, 2013 to December 31, 2013.

At December 31, 2015, the Company was indebted to the Manager for base management fees of \$978,000, \$805,000 of fees payable to CVC from RCAM, and expense reimbursements of \$152,000. At December 31, 2014, the Company was indebted to the Manager for base management fees of \$1.2 million, \$63,000 of fees payable to CVC from RCAM, and expense reimbursements of \$121,000.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

NOTE 19 - RELATED PARTY TRANSACTIONS**Relationship with Resource America and Certain of its Subsidiaries**

Relationship with Resource America. On September 19, 2013, the Audit Committee of the Board of Directors of Resource America concluded that Resource America should consolidate the financial statements of the Company, which was previously treated as an unconsolidated VIE. Resource America's Audit Committee reached this conclusion after consultations with the Office of the Chief Accountant of the Securities and Exchange Commission (the "Commission") following comments received from the staff of the Division of Corporation Finance of the Commission and the Audit Committee's discussion with the Company's management and its independent registered public accounting firm. Resource America's Audit Committee noted that consolidation of the Company was not expected to materially affect Resource America's previously reported net income attributable to common shareholders. In December 2015, Resource America elected to early adopt consolidation guidance issued by the FASB in February 2015 (see Note 2) and was required to reevaluate whether or not the Company should be consolidated into Resource America's financial statements. It was determined that the Company is no longer a VIE and Resource America will no longer consolidate the Company's financial statements. At December 31, 2015, Resource America owned 715,396 shares, or 2.3%, of the Company's outstanding common stock. In addition, Resource America held 2,166 options to purchase restricted stock, which expired on March 8, 2015.

The Company is managed by the Manager, which is a wholly-owned subsidiary of Resource America, pursuant to a Management Agreement that provides for both base and incentive management fees. For the years ended December 31, 2015, 2014 and 2013, the Manager earned base management fees of approximately \$12.6 million, \$13.0 million and \$11.6 million, respectively. No incentive management fees were earned for the year ended December 31, 2015 and December 31, 2014. For the year ended December 31, 2013, the Manager earned incentive management fees of \$1.9 million. The Company also reimburses the Manager and Resource America for expenses, including the expenses of employees of Resource America who perform legal, accounting, due diligence and other services that outside professionals or consultants would otherwise perform, and for the wages, salaries and benefits of several Resource America personnel dedicated to the Company's operations. The Company also reimburses Resource America for additional costs incurred related to our life care business, Long Term Care Conversion Funding, established for the purpose of originating and acquiring life settlement contracts. The initial agreement, authorized in December 2012, provided for an annual fee of \$550,000, with a two-year term. In March 2015, the agreement was amended for an additional year through 2016. This fee is paid quarterly. For the years ended December 31, 2015, 2014, and 2013, the Company paid the Manager \$5.5 million, \$5.0 million and \$3.8 million, respectively, as expense reimbursements.

On November 24, 2010, the Company entered into an Investment Management Agreement with Resource Capital Markets, Inc. ("RCM"), a wholly-owned subsidiary of Resource America. The initial agreement provided that: (a) RCM may invest up to \$5.0 million of the Company's funds, with the investable amount being adjusted by portfolio gains (losses) and collections, and offset by expenses, taxes and realized management fees, and (b) RCM can earn a management fee in any year that the net profits earned exceed a preferred return. On June 17, 2011, the Company entered into a revised Investment Management Agreement with RCM which provided an additional \$8.0 million of the Company's funds. The management fee is 20% of the amount by which the net profits exceed the preferred return. During the years ended December 31, 2015 and 2014, RCM earned no management fees. During the year ended December 31, 2013, RCM earned \$123,000 in management fees. The portfolio began a partial liquidation during the year ended December 31, 2013 that has resulted in the outstanding portfolio balance being significantly decreased. The Company holds \$3.7 million in fair market value of trading securities as of December 31, 2015, a slight increase of \$300,000 from \$3.4 million at fair market value as of December 31, 2014. The Company and RCM also established an escrow account that allocates the net profit or net losses of the portfolio on a yearly basis based on the net assets value of the account. During the years ended December 31, 2015 and 2014, RCM earned no profits from this account. During the year ended December 31, 2013 RCM earned \$35,000 as its share of the net profits from this account. The Company also reimburses RCM for expenses paid on the Company's behalf. For the years ended December 31, 2015, 2014 and 2013, the Company paid RCM \$128,000, \$164,000 and \$258,000, respectively, as expense reimbursements.

At December 31, 2015, the Company was indebted to Resource America and the Manager for \$2.5 million, comprised of base management fees of \$978,000 and expense reimbursements of \$1.6 million. At December 31, 2014, the Company was indebted to the Manager for \$1.6 million, comprised of base management fees of \$1.2 million and expense reimbursements of \$480,000. At December 31, 2015, the Company was indebted to RCM, under the Company's Investment Management Agreement for \$152,000, comprised entirely of expense reimbursements. At December 31, 2014, the Company was indebted to RCM for \$121,000, comprised entirely of expense reimbursements. The Company's base management fee payable as well as expense reimbursements payable are recorded in accounts payable and other liabilities on the consolidated balance sheets.

[\(Back to Index\)](#)

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

During the year ended December 31, 2013, the Company, through one of its subsidiaries, began originating middle-market loans. Resource America is paid origination fees in connection with the Company's middle-market lending operations, which fees may not exceed 2% of the loan balance for any loan originated.

On November 7, 2013, the Company, through a wholly-owned subsidiary, purchased all of the membership interests in Elevation Home Loans, LLC, a start-up residential mortgage company, from an employee of Resource America for \$830,000, paid in the form of 34,165 shares of restricted Company common stock. The restricted stock cliff vests in full on November 7, 2016, and includes dividend equivalent rights.

The Company had executed eleven and nine securitizations as of December 31, 2015 and 2014, respectively, which were structured for the Company by the Manager. Under the Management Agreement, the Manager was not separately compensated by the Company for executing these transactions and is not separately compensated for managing the securitization's entities and their assets. The Company has since liquidated three of these securitizations, one in October 2013, one in October 2014, and another in June 2015.

Relationship with LEAF Commercial Capital. LCC originated and managed equipment leases and notes on behalf of the Company. On March 5, 2010, the Company entered into agreements with Lease Equity Appreciation Fund II, L.P. ("LEAF II") (an equipment leasing partnership sponsored by LEAF Financial and of which a LEAF Financial subsidiary is the general partner), pursuant to which the Company provided and funded an \$8.0 million credit facility to LEAF II. The credit facility initially had a one year term with interest at 12% per year, payable quarterly, and was secured by all the assets of LEAF II, including its entire ownership interest in LEAF II Receivables Funding. The Company received a 1% origination fee in connection with establishing the facility. The facility originally matured on March 3, 2011 and was extended until September 3, 2011 with a 1% extension fee paid on the outstanding loan balance. On June 3, 2011, the Company entered into an amendment to extend the maturity to February 15, 2012 and to decrease the interest rate from 12% to 10% per annum resulting in a troubled-debt restructuring under current accounting guidance. On February 15, 2012, the credit facility was further amended to extend the maturity to February 15, 2013 with a 1% extension fee accrued and added to the amount outstanding. On January 11, 2013, the Company entered into another amendment to extend the maturity to February 15, 2014 with an additional 1% extension fee accrued and added to the amount outstanding. On December 17, 2013, the Company entered into another amendment to extend the maturity to February 15, 2015. At the end of 2014, the Company recorded a provision for loan loss on this loan of \$1.3 million before extinguishing the loan and bringing direct financing leases in the amount of \$2.1 million on the Company's books in lieu of the loan receivable. During the year ended December 31, 2015, the Company recorded a provision against the value of the direct financing leases in the amount of \$465,000. As of December 31, 2015, the Company held \$931,000 of direct financing leases.

On November 16, 2011, the Company together with LEAF Financial and LCC entered into the SPA with Eos (see Note 3). The Company's resulting interest is accounted for under the equity method. For the years ended December 31, 2015, 2014 and 2013, the Company recorded a gain of \$2.6 million and losses of \$1.6 million and \$183,000, respectively, which were recorded in equity in net earnings of unconsolidated subsidiaries on the consolidated statement of operations. The Company's investment in LCC had a cost basis of \$42.0 million and \$39.4 million as of December 31, 2015 and 2014, respectively.

Relationship with CVC Credit Partners. On April 17, 2012, ACM, a former subsidiary of Resource America, was sold to CVC Credit Partners, L.P. ("CVC Credit Partners"), a joint venture entity in which Resource America owns a 24% interest. CVC Credit Partners manages internally and externally originated bank loan assets on the Company's behalf. On February 24, 2011, a subsidiary of the Company purchased 100% of the ownership interests in Churchill Pacific Asset Management LLC ("CPAM") from Churchill Financial Holdings LLC for \$22.5 million. CPAM subsequently changed its name to RCAM. Through RCAM, the Company is entitled to collect senior, subordinated and incentive fees related to five CLO issuers holding approximately \$1.9 billion in assets managed by RCAM. RCAM is assisted by CVC Credit Partners in managing these CLOs. CVC Credit Partners is entitled to 10% of all subordinated fees and 50% of the incentive fees received by RCAM. For the years ended December 31, 2015, 2014 and 2013, CVC Credit Partners earned subordinated and incentive fees of \$1.4 million, \$1.3 million and \$643,000, respectively. In October 2012, the Company purchased 66.6% of the preferred equity in one of the RCAM CLOs. In May 2013, the Company purchased additional equity in this CLO, increasing its ownership percentage to 68.3%. In 2013 two of the five CLOs were called and the notes were paid down in full. In January 2016 another RCAM-managed CLO was called and \$2.4 million of impairment, on a pre-tax basis, was recorded in depreciation and amortization on the Company's consolidated statements of operations on the related intangible asset, as of December 31, 2015.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

In May, June and July 2013, the Company invested a total of \$15.0 million in CVC Global Credit Opportunities Fund, L.P. which generally invests in assets through the Master Fund (see Note 3). The fund pays the investment manager a quarterly management fee in advance calculated at the rate of 1.5% annually based on the balance of each limited partner's capital account. The Company's management fee was waived upon entering the agreement since the Company is a related party of CVC Credit Partners. For the years ended December 31, 2015, 2014 and 2013, the Company recorded earnings of \$8,000, \$2.0 million and \$1.2 million, respectively, which was recorded in equity in net earnings of unconsolidated subsidiaries on the consolidated statements of operations. In March 2015, the Company elected to withdraw \$5.0 million from the fund. In July 2015, a \$625,000 withdrawal was requested and received. In October 2015, another \$4.0 million was withdrawn from the fund. In December 2015, the Company elected to withdraw the remaining \$8.6 million from the fund. The Company retained no investment in the fund as of December 31, 2015 as compared to \$18.2 million as of December 31, 2014. The investment is recorded as an investment in unconsolidated subsidiaries on the Company's consolidated balance sheets using the equity method.

Relationship with Resource Real Estate. Resource Real Estate, a subsidiary of Resource America, originates, finances and manages the Company's commercial real estate loan portfolio, including whole loans, B notes, mezzanine loans, and investments in real estate. The Company reimburses Resource Real Estate for loan origination costs associated with all loans originated. The Company had a receivable of \$2,500 and \$100,000 due from Resource Real Estate for loan origination costs in connection with the Company's commercial real estate loan portfolio as of December 31, 2015 and 2014, respectively.

On August 9, 2006, the Company, through its subsidiary, RCC Real Estate, originated a loan to Lynnfield Place, a multi-family apartment property, in the amount of \$22.4 million. The loan was then purchased by RREF CDO 2006-1. The loan, which was set to mature on May 9, 2018, carried an interest rate of LIBOR plus a spread of 3.50% with a LIBOR floor of 2.50%. On June 14, 2011, RCC Real Estate converted this loan collateralized by a multi-family building, to equity. The loan was kept outstanding and was used as collateral in RREF CDO 2006-1. RREM was appointed as the asset manager as of August 1, 2011. RREM performed lease review and approval, debt service collection, loan workout, foreclosure, disposition and/or entitlements and permitting, as applicable. RREM was also responsible for engaging third parties to perform day-to-day property management, property leasing, rent collection, maintenance, and capital improvements. RREM was entitled to a monthly asset management fee equal to 4.0% of the gross receipts generated from the property. The Company incurred fees payable to RREM in the amounts of \$127,000 and \$136,000 during the years ended December 31, 2014 and 2013, respectively. There were no fees incurred during the year ended December 31, 2015 as the property was sold during the last quarter of 2014 for a gain of \$1.9 million.

On December 1, 2009, the Company purchased a membership interest in RRE VIP Borrower, LLC (an unconsolidated VIE that held an interest in a real estate joint venture) from Resource America for \$2.1 million, its book value (see Note 3). RREM was asset manager of the venture and received a monthly asset management fee equal to 1.0% of the combined investment calculated as of the last calendar day of the month. For the years ended December 31, 2014 and 2013, the Company paid RREM management fees of \$6,000 and \$28,000, respectively. There were no fees incurred for the year ended December 31, 2015. For the years ended December 31, 2015, 2014 and 2013, the Company recorded income from RRE VIP Borrower of \$325,000, \$3.5 million and \$278,000, respectively, which was recorded in equity in net earnings of unconsolidated subsidiaries on the consolidated statements of operation. The last property associated with the joint venture was sold in July 2014. The income recorded in 2015 was due to a liquidation of an existing bank account with respect to the sold properties.

On January 15, 2010, the Company loaned \$2.0 million to Resource Capital Partners, Inc. ("RCP"), a wholly-owned subsidiary of Resource America, so that it could acquire a 5.0% limited partnership interest in Resource Real Estate Opportunity Fund, L.P. ("RRE Opportunity Fund"). RCP is the general partner of the RRE Opportunity Fund. The loan was secured by RCP's partnership interest in the RRE Opportunity Fund. The promissory note bore interest at a fixed rate of 8.0% per annum on the unpaid principal balance. In the event of default, interest accrued at a rate of 5.0% in excess of the fixed rate. Interest was payable quarterly. Mandatory principal payments were required to the extent distributable cash or other proceeds from RRE Opportunity Fund represent a return of RCP's capital. The loan had an original maturity date on January 14, 2015 with two one-year extensions. RCP exercised the first option, extending the maturity date to January 14, 2016. The loan balance was \$558,000 at December 31, 2014, which was paid in full in April 2015.

On June 21, 2011, the Company entered into a joint venture with an unaffiliated third party to form CR SLH Partners, L.P. ("SLH Partners") to purchase a defaulted promissory note secured by a mortgage on a multi-family apartment building. The Company purchased a 10% equity interest in the venture and also loaned SLH Partners \$7.0 million to finance the project secured by a first mortgage lien on the property. The loan had a maturity date of September 21, 2012 and bore interest at a fixed rate of 10.0% per annum on the unpaid principal balance, payable monthly. The Company received a commitment fee equal to 1.0% of

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

the loan amount at the origination of the loan and received a \$70,000 exit fee upon repayment. On May 23, 2012, SLH Partners repaid the \$7.0 million loan in its entirety. RREM was appointed as the asset manager of the venture. RREM performed lease review and approval, debt service collection, loan workout, foreclosure, disposition and permitting, as applicable. RREM was also responsible for engaging third parties to perform day-to-day property management, property leasing, rent collection, maintenance, and capital improvements. RREM received an annual asset management fee equal to 2.0% of the gross receipts generated from the property. The Company held a \$975,000 preferred equity investment in SLH Partners as of December 31, 2013. The investment was sold in 2014 for a \$912,000 gain which was recorded on the Company's statements of operations in equity of earnings of unconsolidated subsidiaries.

The Company has closed the following four real estate securitization transactions, which provide financing for commercial real estate loans: RCC CRE Notes 2013, a \$307.8 million securitization in December 2013; RCC 2014-CRE2, a \$353.9 million securitization on July 30, 2014; RCC 2015-CRE3; a \$346.2 million securitization on February 24, 2015; and RCC 2015-CRE4, a \$312.9 million securitization on August 18, 2015. With respect to each specialty service mortgage loan, Resource Real Estate receives an amount equal to the product of (a) the Special Servicing Fee Rate, 0.25% per annum, and (b) the outstanding principal balance of such Specialty Service Mortgage Loan. The servicing fee is payable monthly, on an asset-by-asset basis. Resource Real Estate agreed to waive its rights to receive the Special Servicing Fee to the extent that the Company continues to hold the majority equity of the securitizations. The Company utilizes the brokerage services of Resource Securities, Inc. ("Resource Securities"), a wholly-owned broker-dealer subsidiary of Resource America, on a limited basis to conduct some of its asset trades. The Company paid Resource Securities placement agent fees in connection with each transaction as follows: \$205,000, \$175,000, \$100,000 and \$85,000, respectively.

In July 2014, the Company formed RCM Global Manager to invest in RCM Global, an entity formed to hold a portfolio of structured product securities. The Company contributed \$15.0 million for a 63.8% membership interest in RCM Global. A five member board manages RCM Global, and all actions, including purchases and sales, must be approved by no less than three of the five members of the board. The portion of RCM Global that the Company does not own is presented as non-controlling interests as of the dates and for the periods presented in the Company's consolidated financial statements. All intercompany accounts and transactions have been eliminated in consolidation. In March and June 2015, the Company requested and received a proportional, in-kind distribution in certain securities held by RCM Global. The distribution of and subsequent sale of those securities by the Company through its subsidiary, RCC Residential, resulted in the realization of \$5.0 million of net gains for the year ended December 31, 2015. As a result of these distributions, the Company's ownership interest of the remaining assets decreased to 30.2% as of December 31, 2015.

In September 2014, the Company contributed \$17.5 million to Pelium Capital for an initial ownership interest of 80.4%. Pelium Capital is a specialized credit opportunity fund managed by Resource America. The Company funded its final commitment of \$2.5 million, as of February 1, 2015. The Company will receive 10% of the carried interest in the partnership for the first five years which can increase its interest to 20% if the Company's capital contributions aggregate \$40.0 million. Resource America contributed cash of \$2.8 million to the formation of Pelium Capital. The portion of the fund that the Company does not own is presented as non-controlling interests as of the dates and for the periods presented in the Company's consolidated financial statements. All intercompany accounts and transactions have been eliminated in consolidation. Pelium Capital was determined not to be a VIE as there was sufficient equity at risk, the Company does not have disproportionate voting rights and Pelium Capital's partners have all of the following characteristics: (1) the power to direct the activities of Pelium; (2) the obligation to absorb losses; and (3) the right to receive residual returns. However, Pelium Capital was consolidated as a result of the Company's majority ownership and the Company's unilateral kick-out rights. The non-controlling interest in Pelium Capital is owned by Resource America and outside investors. All intercompany accounts and transactions have been eliminated in consolidation. The Company's interest in Pelium Capital was 80.2% as of December 31, 2015.

On April 10, 2015, the Company entered into two first mortgage bridge loans in the amount of \$2.5 million and \$3.3 million with two funds sponsored by Resource America, Resource Real Estate Investors LP and Resource Real Estate Investors II, LP. Each loan carried an interest rate of LIBOR plus 5.75% with a LIBOR floor of 0.25%. The loans had a maturity date of May 5, 2016, with two consecutive one-year options to extend upon the first maturity date. The loan in the amount of \$2.5 million was repaid in full with interest on April 29, 2015. The second loan in the amount of \$3.3 million was repaid in full with interest on July 31, 2015.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

On June 24, 2015, the Company committed up to \$50.0 million in Pearlmark Mezzanine Realty Partners IV, L.P. ("Pearlmark Mezz IV L.P."), a Delaware limited partnership. The contractual fund manager of the fund is Pearlmark Real Estate LLC ("Pearlmark"), a Delaware limited liability company that is 50% owned by Resource America. The Company will pay Pearlmark Mezz IV L.P. management fees of 1.0% on the unfunded committed capital and 1.5% on the invested capital. The Company is entitled to a management fee rebate of 25% for the first year of the fund. As of December 31, 2015, the Company is indebted for \$94,000 for management fees, net of the rebate. In October, November and December 2015, the Company contributed an aggregate of \$6.9 million in capital to Pearlmark Mezz IV. As of December 31, 2015, the Company has an investment balance of \$6.5 million and a 47.42% ownership interest in the fund. Resource America has agreed that it will credit any such fees paid by the Company to Pearlmark against the base management fee that the Company pays to Resource America.

Relationship with Law Firm. Until 1996, Edward E. Cohen, a director who was the Company's Chairman from its inception until November 2009, was of counsel to Ledgewood, P.C., a law firm. In addition, one of the Company's executive officers, Jeffrey F. Brotman, was employed by Ledgewood until 2007. Mr. E. Cohen receives certain debt service payments from Ledgewood related to the termination of his affiliation with Ledgewood and its redemption of his interest in the firm. Mr. Brotman also receives certain debt service payments from Ledgewood related to the termination of his affiliation with the firm. For the years ended December 31, 2015, 2014 and 2013, the Company paid Ledgewood \$434,000, \$280,000 and \$360,000, respectively, in connection with legal services rendered to the Company.

NOTE 20 - DISTRIBUTIONS

For the years ended December 31, 2015, 2014 and 2013, the Company has declared and paid \$2.34, \$3.20, and \$3.20 dividends per common share, respectively.

In order to qualify as a REIT, the Company must currently distribute at least 90% of its REIT taxable income. In addition, the Company must distribute 100% of its taxable income in order not to be subject to corporate federal income taxes on retained income. The Company anticipates it will distribute substantially all of its taxable income to its stockholders. Because taxable income differs from cash flow from operations due to non-cash revenues or expenses (such as provisions for loan and lease losses and depreciation), in certain circumstances, the Company may generate operating cash flow in excess of its distributions or, alternatively, may be required to borrow to make sufficient distribution payments.

The Company's 2016 dividends will be determined by the Company's board of directors which will also consider the composition of any dividends declared, including the option of paying a portion in cash and the balance in additional common shares.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

NOTE 21 - FAIR VALUE OF FINANCIAL INSTRUMENTS

In analyzing the fair value of its investments accounted for on a fair value basis, the Company uses the fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The Company determines fair value based on quoted prices when available or, if quoted prices are not available, through the use of alternative approaches, such as discounting the expected cash flows using market interest rates commensurate with the credit quality and duration of the investment. The hierarchy followed defines three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets and liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset and liability or can be corroborated with observable market data for substantially the entire contractual term of the asset or liability.

Level 3 - Unobservable inputs that reflect the entity's own assumptions about the assumptions that market participants would use in the pricing of the asset or liability and are consequently not based on market activity, but rather through particular valuation techniques.

The determination of where an asset or liability falls in the hierarchy requires significant judgment. The Company evaluates its hierarchy disclosures each quarter; depending on various factors, it is possible that an asset or liability may be classified differently from quarter to quarter. However, the Company expects that changes in classifications between levels will be rare.

Certain assets and liabilities are measured at fair value on a recurring basis. The following is a discussion of these assets and liabilities as well as the valuation techniques applied to each for fair value measurement.

The Company reports its investment securities, available-for-sale at fair value. To determine fair value, the Company uses an independent third-party valuation firm utilizing data available in the market as well as appropriate prepayment, default, and recovery rates. These valuations are validated utilizing dealer quotes, bids, or internal models. If there is a material difference between the value indicated by the third-party valuation firm and the dealer quote or bid, the Company will evaluate the difference, which could result in an updated valuation from the third party or a revised dealer quote. Any changes in the fair value of investment securities, available-for-sale are recorded in other comprehensive income. Based on a prioritization of inputs used in the valuation of each position, the Company categorizes these investments as either Level 2 or Level 3 in the fair value hierarchy.

The Company reports its investment securities, trading at fair value, based on an independent third-party valuation. The Company evaluates the reasonableness of the valuation it receives by using a dealer quote, bid, or internal model. If there is a material difference between the value indicated by the third party and a quote the Company receives, the Company will evaluate the difference, which could result in an updated valuation from the third party or a revised dealer quote. Any changes in fair value are recorded in the Company's results of operations as net unrealized and unrealized (loss) gain on investment securities, trading. The Company's investments securities, trading are generally classified as Level 2 or Level 3 in the fair value hierarchy.

The CMBS underlying the Company's linked transactions were valued using the same techniques as those used for the Company's other investment securities, available-for-sale and were generally classified as Level 2 or Level 3 in the fair value hierarchy. Due to a change in accounting guidance, as of January 1, 2015, the concept of linked transactions no longer exists.

Derivatives, both assets and liabilities, are reported at fair value, and are valued by a third-party pricing agent using an income approach with models that use, as their primary inputs, readily observable market parameters. This valuation process considers factors including interest rate yield curves, time value, credit factors and volatility factors. Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by the Company and its counterparties. The Company assesses the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and, if material, categorizes those derivatives within Level 3 of the fair value hierarchy.

The following table presents information about the Company's assets and liabilities measured at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value as follows (in thousands):

The Company's residential mortgage loan portfolio included in loans held for sale is comprised of both agency loans and non-agency jumbo loans. The fair values of the Company's agency loan portfolio are generally classified as Level 2 in the fair value hierarchy, as those values are determined based on quoted market prices for similar assets or upon other observable inputs. The fair values of the Company's jumbo loan portfolio are generally classified as Level 3 in the fair value hierarchy, as those values are generally based upon valuation techniques that utilize unobservable inputs that reflect the assumptions that a market participant would use in pricing those assets.

For the year ended December 31, 2014, the Company both acquired and liquidated the assets in Moselle CLO. As of December 31, 2014, all that remained of the Company's investment in Moselle CLO were cash, receivables related to the liquidation of Moselle CLO's assets, and the notes of the securitization (see Note 13 for further discussion of Moselle CLO's notes). At acquisition, the Company recorded \$176.9 million as the fair value of the notes (including the fair value of the securitized borrowing described in Note 13). During the year ended December 31, 2014, paydowns of \$100.3 million were received, and net fair value and foreign currency adjustments of \$7.5 million were recognized through earnings, resulting in a combined fair value of \$68.9 million (\$63.3 million of which was attributable to Moselle CLO's senior notes and \$5.6 million was attributable to Moselle CLO's securitized borrowings). As of December 31, 2015, Moselle CLO paid off all of its outstanding CLO notes.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

The following table summarizes financial assets and liabilities measured at fair value on a nonrecurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value as follows (in thousands):

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
As of December 31, 2015:				
Assets:				
Loans held for sale	\$ —	\$ 1,279	\$ 153	\$ 1,432
Impaired loans	—	262	129,433	129,695
Total assets at fair value	\$ —	\$ 1,541	\$ 129,586	\$ 131,127

As of December 31, 2014:

Assets:				
Loans held for sale	\$ —	\$ 36,956	\$ —	\$ 36,956
Impaired loans	—	1,678	137,811	139,489
Total assets at fair value	\$ —	\$ 38,634	\$ 137,811	\$ 176,445

Loans held for sale consist of bank loans and CRE loans identified for sale due to credit concerns. Interest on loans held for sale is recognized according to the contractual terms of the loan and included in interest income on loans. The fair value of bank loans held for sale and impaired bank loans is based on what secondary markets are currently offering for these loans. As such, the Company classifies these loans as nonrecurring Level 2. For the Company's CRE loans where there is no primary market, fair value is measured using discounted cash flow analysis and other valuation techniques and these loans are classified as nonrecurring Level 3. The amount of nonrecurring fair value losses for specifically impaired loans for the years ended December 31, 2015, 2014 and 2013 was \$39.2 million, \$1.3 million and \$3.1 million respectively. The amounts of nonrecurring fair value losses for loans held for sale for the years ended December 31, 2015, 2014 and 2013 was \$1.3 million, \$680,000, and \$3.9 million.

The Company had \$372,000, \$0 and \$863,000 of losses included in earnings due to the other-than-temporary impairment charges during the years ended December 31, 2015, 2014 and 2013, respectively. These losses were included in the consolidated statements of operations as net impairment losses recognized in earnings.

In accordance with guidance on fair value measurements and disclosures, the Company is not required to disclose quantitative information with respect to unobservable inputs contained in fair value measurements that are not developed by the Company. As a consequence, the Company has not disclosed such information associated with fair values obtained from third-party pricing sources.

For Level 3 assets and liabilities measured at fair value on a recurring or non-recurring basis as of December 31, 2015, for which quantitative information with respect to unobservable inputs was available, the significant unobservable inputs used in the fair value measurements were as follows (in thousands, except where otherwise indicated):

	Fair Value at December 31, 2015	Valuation Technique	Significant Unobservable Inputs	Significant Unobservable Input Value
Interest rate swap agreements	\$ 3,459	Discounted cash flow	Weighted average credit spreads	5.38%
Warrant	\$ 1,051	Option pricing model	Market capitalization (in millions) Volatility	\$ 172.7 50.0%

The Company is required to disclose the fair value of financial instruments for which it is practicable to estimate that value. The fair values of the Company's short-term financial instruments such as cash and cash equivalents, restricted cash, principal paydown receivable, interest receivable, distribution payable and accrued interest expense, repurchase agreements and the secured revolving credit agreement approximate their carrying value on the consolidated balance sheets. The fair values of the Company's investment securities, trading is reported in Note 6. The fair values of the Company's investment securities available-for-sale are reported in Note 7. The fair values of the Company's derivative instruments and linked transactions are reported in Note 22.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

Loans held-for-investment: The fair value of the Company's Level 2 Loans held-for-investment was primarily measured using a third-party pricing service. The fair value of the Company's Level 3 Loans held-for-investment was measured by discounting the expected future cash flows using the current interest rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities.

Loans receivable-related party are estimated by discounting the expected future cash flows using the current interest rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities.

CDO notes are valued using the dealer quotes, typically the dealer who underwrote the CDO in which the notes are held.

Junior subordinated notes are estimated by obtaining quoted prices for similar assets in active markets.

The fair value of the convertible notes was determined using a discounted cash flow model that discounts the expected future cash flows using current interest rates on similar debts that do not have a conversion option. The 6% Convertible Senior Notes are discounted at a rate of 7.00% and the 8% Convertible Senior Notes are discounted at a rate of 8.60%. The fair value of the CRE portfolio was determined using a discounted cash flow model that discounts the expected future cash flows at current rates at which similar loans would be made to borrowers with similar credit rating and with the same remaining maturities. Discount rates used range between 15%-25%.

The fair values of the Company's remaining financial instruments that are not reported at fair value on the consolidated balance sheets are reported below (in thousands):

	Fair Value Measurements				
	Carrying Amount	Fair Value	Quoted Prices in Active Markets for Identical Assets of Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
As of December 31, 2015:

NOTE 22 - MARKET RISK AND DERIVATIVE INSTRUMENTS

The Company is directly and indirectly affected by changes in certain market conditions. These changes in market conditions may adversely impact the Company's financial performance and are referred to as "market risks." When deemed appropriate, the Company uses derivatives as a risk management tool to mitigate the potential impact of certain market risks. The primary market risks managed by the Company through the use of derivative instruments are interest rate risk and foreign currency exchange rate risk.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

The Company may hold various derivatives in the ordinary course of business, including warrants, interest rate swaps, forward contracts, options and interest rate lock commitments. Warrants are securities that give the holder the right, but not the obligation, to purchase securities from an issuer at a specific price within a specified time period. Options are contracts sold by one party to another that give the buyer the right, but not the obligation, to buy or sell a financial asset at an agreed-upon price during a certain period of time or on a specific date. Interest rate swap agreements are contracts between two parties to exchange cash flows based on specified underlying notional amounts, assets and/or indices. Forward contracts represent future commitments to either purchase or to deliver loans, securities or a quantity of a currency at a predetermined future date, at a predetermined rate or price and are used to manage interest rate risk on loan commitments and mortgage loans held for sale as well as currency risk with respect to the Company's long positions in foreign currency-denominated investment securities. Rate lock commitments represent commitments to fund loans at a specific rate and by a specified time and are used to mitigate risk of changes in interest rate in the Company's residential mortgage loan portfolio.

A significant market risk to the Company is interest rate risk. Interest rates are highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors beyond the Company's control. Changes in the general level of interest rates can affect net interest income, which is the difference between the interest income earned on interest-earning assets and the interest expense incurred in connection with the interest-bearing liabilities, by affecting the spread between the interest-earning assets and interest-bearing liabilities. Changes in the level of interest rates also can affect the value of the Company's interest-earning assets and the Company's ability to realize gains from the sale of these assets. A decline in the value of the Company's interest-earning assets pledged as collateral for borrowings could result in the counterparties demanding additional collateral pledges or liquidation of some of the existing collateral to reduce borrowing levels.

The Company seeks to manage the extent to which net income changes as a function of changes in interest rates by matching adjustable-rate assets with variable-rate borrowings. The Company mitigates the potential impact on net income of periodic and lifetime coupon adjustment restrictions in its investment portfolio by entering into interest rate hedging agreements such as interest rate caps and interest rate swaps.

At December 31, 2015, the Company had nine interest rate swap contracts outstanding whereby the Company paid a weighted average fixed rate of 5.38% and received a variable rate equal to one-month LIBOR. The aggregate notional amount of these contracts was \$102.8 million at December 31, 2015. The counterparties for the Company's designated interest rate hedge contracts at such date were Credit Suisse International and Wells Fargo. The Company had master netting agreements with Credit Suisse International and Wells Fargo at December 31, 2015. Regulations promulgated under the Dodd-Frank Act mandate that the Company clear certain new interest rate swap transactions through a central counterparty. Transactions that are centrally cleared result in the Company facing a clearing house, rather than a swap dealer, as counterparty. Central clearing requires the Company to post collateral in the form of initial and variation margin to satisfy potential future obligations. As of December 31, 2015, there were no centrally cleared interest rate swap contracts. The Company classifies these hedges as cash flow hedges, which are hedges that eliminate the risk of changes in the cash flows of a financial asset or liability. The Company records changes in fair value of derivatives designated and effective as cash flow hedges in other comprehensive income, and records changes in fair value of derivatives designated and ineffective as cash flow hedges in earnings.

At December 31, 2014, the Company had 10 interest rate swap contracts outstanding whereby the Company paid a weighted average fixed rate of 5.12% and received a variable rate equal to one-month LIBOR. The aggregate notional amount of these contracts was \$124.0 million at December 31, 2014. The counterparties for the Company's designated interest rate hedge contracts are Credit Suisse International and Wells Fargo with which the Company has master netting agreements.

The estimated fair value of the Company's liability related to interest rate swaps was \$3.5 million and \$8.7 million as of December 31, 2015 and December 31, 2014, respectively. The Company had aggregate unrealized losses of \$3.5 million and \$9.0 million on the interest rate swap agreements as of December 31, 2015 and December 31, 2014, respectively, which is recorded in accumulated other comprehensive income and a portion is recognized through earnings. The amortization is reflected in interest expense in the Company's consolidated statements of operations. In connection with the June 2007 close of RREF CDO 2007-1, the Company realized a swap termination gain of \$2.6 million, which is being amortized over the term of RREF CDO 2007-1. The accretion is reflected as a reduction of interest expense in the Company's consolidated statements of operations. In connection with the termination of a \$53.6 million swap related to RREF CDO 2006-1 during the nine months ended September 30, 2008, the Company realized a swap termination loss of \$4.2 million, which is being amortized over the term of a new \$45.0 million swap. The amortization is reflected in interest expense in the Company's consolidated statements of operations.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

During the years ended December 31, 2006, 2007 and 2008, the Company terminated 18 hedges through accumulated other comprehensive loss, to be amortized through earnings over the life of the remaining debt. During the years ended December 31, 2015, 2014 and 2013, the Company recognized expense of \$275,000, \$282,000 and \$288,000, respectively, into earnings related to the amortization of gains and losses on the 18 terminated hedges. In the next twelve months, the Company expects to reclassify \$57,000 from accumulated other comprehensive loss to earnings.

The Company is also exposed to foreign currency exchange risk, a form of risk that arises from the change in price of one currency against another. Substantially all of the Company's revenues are transacted in U.S. dollars; however, a portion of the Company's capital is exposed to other currencies, primarily the Euro and, to a lesser extent, the pound sterling. To address this market risk, the Company generally hedges foreign currency-denominated exposures (typically investments in debt instruments, including forecasted principal and interest payments) with foreign currency forward contracts. The Company classifies these hedges as fair value hedges, which are hedges that mitigate the risk of changes in the fair values of assets, liabilities, and certain types of firm commitments. The Company records changes in the fair value of derivatives designated and effective as fair value hedges in earnings offset by the corresponding changes in the fair values of the hedged items.

Forward contracts also contain an element of risk in that the counterparties may be unable to meet the terms of such agreements. In the event the parties to deliver commitments are unable to fulfill their obligations, the Company could potentially incur significant additional costs by replacing the positions at then current market rates. The Company manages its risk of exposure by limiting counterparties to those banks and institutions deemed appropriate by management. The Company does not expect any counterparty to default on its obligations and, therefore, the Company does not expect to incur any cost related to counterparty default.

The Company is exposed to interest rate risk on loans held for sale and interest rate lock commitments. As market interest rates increase or decrease, the fair value of mortgage loans held for sale and rate lock commitments will decline or increase accordingly. To offset this interest rate risk, the Company may enter into derivatives such as forward contracts to sell loans. The fair value of these forward sales contracts will change as market interest rates change, and the change in the value of these instruments is expected to largely, though not entirely, offset the change in fair value of loans held for sale and rate lock commitments. The objective of this activity is to minimize the exposure to losses on rate lock commitments and loans held for sale due to market interest rate fluctuations. The net effect of derivatives on earnings will depend on risk management activities and a variety of other factors, including market interest rate volatility, the amount of interest rate lock commitments that close, the ability to fill the forward contracts before expiration, and the time period required to close and sell loans.

During the warehousing phase of the Company's investments in certain structured vehicles, the Company may enter into total return swaps to finance the Company's exposure to assets that will ultimately be securitized. A total return swap is a swap agreement in which one party makes payments based on a set rate, while the other party makes payments based on the return of an underlying asset. Traditionally, the Company pays either an indexed or fixed interest payment to the warehousing lender and receives the net interest income and realized capital gains of the referenced portfolio of assets, generally loans, to be securitized that are owned and held by the warehousing lender. Upon the close of the warehousing period, the Company's invested equity plus net interest and any capital gains realized during the warehousing period are returned to the Company. Additionally, upon the close of the securitization, the Company may purchase beneficial interests in the securitization at fair value.

In March 2014, the Company was issued warrants in connection with the funding of a middle market loan. The warrants give the Company the right, but not the obligation, to purchase up to 0.9% of the total fully diluted common stock of Constellation Health LLC. As amended in September 2014, the warrants have an exercise price equal to the lesser of the Constellation Health's trailing twelve month earnings before interest, taxes, depreciation, and amortization times a multiplier of 6, or \$50.0 million. The warrants also feature a seven-year term, allowances for either cash-based or cashless exercise, standard adjustments for stock splits, full-ratchet anti-dilution adjustments, and beneficial ownership limitations. The value of the warrants was calculated by performing a Black-Scholes analysis.

In December 2014, the Company, through its subsidiary, Pelium, purchased call options on U.S. Treasury futures to act as a hedge against interest rate risk. The options gave the Company the right, but not the obligation, to purchase futures contracts on March 2015 U.S. Treasury notes. The options were sold during the three months ended March 31, 2015.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

The following tables present the fair value of the Company's derivative financial instruments as well as their classification on the Company's consolidated balance sheets and on the consolidated statements of operations for the years presented:

Fair Value of Derivative Instruments as of December 31, 2015 (in thousands)

	Asset Derivatives		
	Notional Amount	Balance Sheet Location	Fair Value
Interest rate lock agreements ⁽¹⁾	\$ 105,385	Derivatives, at fair value	\$ 1,224
Forward contracts - residential mortgage lending	\$ 92,413	Derivatives, at fair value	\$ 345
Forward contracts - foreign currency, hedging ⁽²⁾⁽³⁾	\$ 24,850	Derivatives, at fair value	\$ 727
Forward contracts - TBA securities	\$ 29,500	Derivatives, at fair value	\$ 99
Warrants ⁽⁴⁾	\$ 553	Derivatives, at fair value	\$ 1,051
	Liability Derivatives		
	Notional Amount	Balance Sheet Location	Fair Value
Interest rate swap contracts, hedging ⁽⁵⁾	\$ 102,799	Derivatives, at fair value	\$ 3,459
Interest rate lock agreements ⁽⁶⁾	\$ 505	Derivatives, at fair value	\$ 3
Forward contracts - residential mortgage lending	\$ 143,553	Derivatives, at fair value	\$ 479
Forward contracts - TBA securities	\$ 1,500	Derivatives, at fair value	\$ —
Interest rate swap contracts, hedging	\$ 102,799	Accumulated other comprehensive income (loss)	\$ (3,471)

(1) The notional amount of the Company's interest rate lock agreements in an asset position is the pass-through weighted total commitments with a weighted average pass-through percentage of 85.9%.

(2) The notional amount is presented on a currency converted basis. The notional amount of our foreign currency hedging forward contracts was €22.9 million as of December 31, 2015.

(3) Foreign currency forward contracts are accounted for as fair value hedges.

(4) The notional amount of the Company's warrants is the calculated number of shares available for purchase.

(5) Interest rate swaps contracts are accounted for as fair value hedges.

(6) The notional amount of the Company's interest rate lock agreements in a liability position is the pass-through weighted total commitments with a weighted average pass-through percentage of 19.5%.

Linked Transactions

As the result of an accounting standards update adopted on January 1, 2015 (see Note 2), the Company unlinked its previously linked transactions and disclosed affected asset, liability, income and expense balances at their gross values in its consolidated financial statements. Accordingly, the Company had no financing arrangements being accounted for as linked transactions as of December 31, 2015.

The Company's linked transactions were evaluated on a combined basis, reported as forward (derivative) instruments and presented as assets on the Company's consolidated balance sheets at fair value. The fair value of linked transactions reflected the value of the underlying CMBS, linked repurchase agreement borrowings and accrued interest payable on such instruments. The Company's linked transactions were not designated as hedging instruments and, as a result, the change in the fair value and net interest income from linked transactions was reported in other income on the Company's consolidated statements of operations in prior periods.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

As of December 31, 2014, the Company held non-hedging linked transactions, net at fair value of \$15.4 million. During the years ended December 31, 2014 and 2013, the Company recorded unrealized gain (loss) and net interest income on linked transactions, net of \$7.9 million and \$(3.8) million, respectively.

The following table presents certain information about the components of the unrealized gain (loss) and net interest income from linked transactions, net, included in the Company's consolidated statements of operations for the years ended 2015, 2014 and 2013 (in thousands):

	December 31,		
	2015	2014	2013
Components of Unrealized Net (Losses) Gains and Net Interest Income			
Income from Linked Transactions			
Interest income attributable to CMBS underlying linked transactions	\$ —	\$ 2,879	\$ 2,912
Interest expense attributable to linked repurchase agreement borrowings underlying linked transactions	—	(644)	(735)
Change in fair value of linked transactions included in earnings	—	5,615	(6,018)
Unrealized net (losses) gains and net interest income from linked transactions	<u>\$ —</u>	<u>\$ 7,850</u>	<u>\$ (3,841)</u>

The following table summarizes the Company's investment securities, underlying linked transactions, which were carried at fair value (in thousands):

	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
As of December 31, 2014:				
CMBS linked transactions	\$ 48,138	\$ 539	\$ (72)	\$ 48,605

The following table summarizes the estimated maturities of the Company's CMBS previously linked transactions according to their estimated weighted average life classifications (in thousands, except percentages):

Weighted Average Life	Fair Value	Amortized Cost	Weighted Average Coupon
As of December 31, 2014:			
Less than one year	\$ 7,834	\$ 7,775	5.36%
Greater than one year and less than five years	36,587	36,274	4.65%
Greater than five years and less than ten years	4,184	4,089	4.52%
Greater than ten years	—	—	—%
Total	<u>\$ 48,605</u>	<u>\$ 48,138</u>	4.66%

The following table shows the fair value, gross unrealized losses and the length of time the investment securities available-for-sale have been in a continuous unrealized loss position during the period specified (in thousands):

	Less than 12 Months		More than 12 Months		Total	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
As of December 31, 2014:						
CMBS linked transactions	\$ 7,609	\$ (57)	\$ 777	\$ (15)	\$ 8,386	\$ (72)

NOTE 23 - OFFSETTING OF FINANCIAL ASSETS AND LIABILITIES

As the result of an accounting standards update adopted on January 1, 2015 (see Note 2), the Company unlinked its previously linked transactions and disclosed affected asset, liability, income and expense balances at their gross values in its consolidated financial statements. Accordingly, the Company had no financing arrangements being accounted for as linked transactions as of December 31, 2015.

The following table presents a summary of the Company's offsetting of derivative assets, presented (in thousands):

	(i) Gross Amounts of Recognized Assets	(ii) Gross Amounts Offset in the Consolidated Balance Sheets	(iii) = (i) - (ii) Net Amounts of Assets Presented in the Consolidated Balance Sheets	(iv) Gross Amounts Not Offset in the Consolidated Balance Sheets		(v) = (iii) - (iv) Net Amount
				Financial Instruments	Cash Collateral Pledged	
As of December 31, 2015:						
Derivative hedging instruments, at fair value	\$ 3,446	\$ —	\$ 3,446	\$ —	\$ —	\$ 3,446
Total	\$ 3,446	\$ —	\$ 3,446	\$ —	\$ —	\$ 3,446
As of December 31, 2014:

Linked transactions	48,764	33,397	15,367	—	—	15,367
Total	\$ 53,098	\$ 33,397	\$ 19,701	\$ —	\$ —	\$ 19,701

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

The following table presents a summary of the Company's offsetting of financial liabilities and derivative liabilities for the periods presented as follows (in thousands):

	(i) Gross Amounts of Recognized Liabilities	(ii) Gross Amounts Offset in the Consolidated Balance Sheets	(iii) = (i) - (ii) Net Amounts of Liabilities Presented in the Consolidated Balance Sheets	(iv) Gross Amounts Not Offset in the Consolidated Balance Sheets		(v) = (iii) - (iv) Net Amount
				Financial Instruments ⁽¹⁾	Cash Collateral Pledged ⁽²⁾	
As of December 31, 2015:						
Derivative hedging instruments, at fair value ⁽³⁾	\$ 3,941	\$ —	\$ 3,941	\$ —	\$ 500	\$ 3,441
Repurchase agreements and term facilities ⁽⁴⁾	418,836	—	418,836	418,836	—	—
Total	\$ 422,777	\$ —	\$ 422,777	\$ 418,836	\$ 500	\$ 3,441
As of December 31, 2014:						
Derivative hedging instruments, at fair value ⁽³⁾	\$ 8,466	\$ —	\$ 8,466	\$ —	\$ 500	\$ 7,966
Repurchase agreements and term facilities ⁽⁴⁾	399,662	—	399,662	399,662	—	—
Linked transactions	33,397	33,397	—	—	—	—
Total	\$ 441,525	\$ 33,397	\$ 408,128	\$ 399,662	\$ 500	\$ 7,966

(1) Amounts represent collateral pledged that is available to be offset against liability balances associated with term facilities, repurchase agreements and derivative transactions.

(2) Amounts represent amounts pledged as collateral against derivative transactions.

(3) The fair value of securities and/or cash and cash equivalents pledged against the Company's swaps was \$500,000 and \$2.6 million at December 31, 2015 and 2014, respectively.

(4) The combined fair value of securities and loans pledged against the Company's various term facilities and repurchase agreements was \$643.2 million and \$565.6 million at December 31, 2015 and 2014, respectively.

In the Company's consolidated balance sheets, all balances associated with repurchase agreement and derivatives transactions are presented on a gross basis.

Certain of the Company's repurchase agreement and derivative transactions are governed by underlying agreements that generally provide for a right of offset in the event of default or in the event of a bankruptcy of either party to the transaction.

NOTE 24 - INCOME TAXES

The Company operates in such a manner as to qualify as a REIT, under the provisions of the Internal Revenue Code of 1986, as amended (the "Code"); therefore, applicable REIT taxable income is included in the taxable income of its shareholders, to the extent distributed by the Company. To maintain REIT status for federal income tax purposes, the Company is generally required to distribute at least 90% of its REIT taxable income to its shareholders as well as comply with certain other qualification requirements as defined under the Code. As a REIT, the Company is not subject to federal corporate income tax to the extent that it distributes 100% of its REIT taxable income each year.

Taxable income from non-REIT activities managed primarily through the Company's taxable REIT subsidiaries is subject to federal, state and local income taxes. The Company's taxable REIT subsidiaries' income taxes are accounted for under the asset and liability method. Under the asset and liability method, deferred income taxes are recognized for the temporary differences between the financial reporting basis and tax basis of assets and liabilities.

The following table details the components of income taxes (in thousands):

	Years Ended December 31,		
	2015	2014	2013
Provision (benefit) for income taxes:			
Current:			
Federal	\$ 1,705	\$ 6,819	\$ 4,601
State	430	2,505	1,068
Total current	<u>2,135</u>	<u>9,324</u>	<u>5,669</u>
Deferred:			
Federal	(1,007)	(9,450)	(5,116)
State	617	(2,086)	(1,594)

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

Apidos CDO I, Apidos CDO III, Apidos Cinco CDO, Apidos CLO VIII, Whitney CLO I, Harvest CLO VII, Moselle CLO, Harvest CLO VIII, Harvest X Investor, Harvest CLO X, and Harvest CLO XV Designated Activity Company, the Company's foreign TRSs, are organized as exempted companies incorporated with limited liability under the laws of the Cayman Islands and, with respect to Moselle CLO, Luxembourg and, with respect to Harvest CLO VII, Harvest CLO VIII, Harvest CLO X, and Harvest CLO XV Designated Activity Company, Ireland, and are generally exempt from federal and state income tax at the corporate level because their activities in the United States are limited to trading in stock and securities for their own account. Therefore, despite their status as TRSs, they generally will not be subject to corporate tax on their earnings and no provision for income taxes is required; however, because they are "controlled foreign corporations," the Company will generally be required to include Apidos CDO I's, Apidos CDO III's, Apidos Cinco CDO's, Apidos CLO VIII's, Whitney CLO I's, Harvest CLO VII's, Moselle CLO's, Harvest CLO VIII's, Harvest X Investor's, Harvest X CLO's and Harvest XV Designated Activity Company's current taxable income in its calculation of REIT taxable income.

On October 27, 2011 the Company reorganized the ownership structure of Apidos CDO I and Apidos CDO III. As a result, the earnings from Apidos CDO I and Apidos CDO III are excluded from the Company's calculation of REIT taxable income and are subject to corporate tax. On January 24, 2012, the Company again reorganized the ownership structure of Apidos CDO I and Apidos CDO III. As a result, for the period January 1, 2012 through January 23, 2012, the earnings from Apidos CDO I and Apidos CDO III are excluded from the Company's calculation of REIT taxable income and are subject to corporate tax. For the period January 24, 2012 through December 31, 2012 the earnings from Apidos CDO I are included in the Company's calculation of REIT taxable income. On December 11, 2012, the Company further reorganized the ownership structure of Apidos CDO III. As a result, for the period from January 24, 2012 through December 10, 2012 the earnings from Apidos CDO III are included in the Company's calculation of REIT taxable income. Also as a result of the reorganization on December 11, 2012, for the period December 11, 2012 through December 31, 2012, the earnings from Apidos CDO III are excluded from the Company's calculation of REIT taxable income and are subject to corporate tax.

On November 12, 2012, the Company reorganized the ownership structure of Apidos Cinco CDO and Whitney CLO I. As a result, for the period November 12, 2012 through December 31, 2012, the earnings from Apidos Cinco CDO and Whitney CLO I are excluded from the Company's calculation of REIT taxable income and are subject to corporate tax. Accordingly, a provision for income taxes on the earnings from November 12, 2012 through December 31, 2012 has been recorded.

On February 13, 2013, the Company reorganized the ownership structure of Apidos Cinco CDO and Whitney CLO I. As a result, for the period January 1, 2013 through February 12, 2013, the earnings from Apidos Cinco CDO and Whitney CLO I are excluded from the Company's calculation of REIT taxable income and are subject to corporate tax. Accordingly, a provision for income taxes on the earnings from January 1, 2013 through February 12, 2013 has been recorded. Also as a result of the reorganization on February 13, 2013, for the period February 13, 2013 and ending December 31, 2013 the earnings from Apidos Cinco CDO and Whitney CLO I are included in the Company's calculation of REIT taxable income.

On March 8, 2013 the Company reorganized the ownership structure of Apidos CDO III. As a result, the earnings from Apidos CDO III for the period January 1, 2013 through March 7, 2013 are excluded from the Company's calculation of REIT taxable income and are subject to corporate tax. Accordingly, a provision for income taxes on the earnings from January 1, 2013 through March 7, 2013 has been recorded. Also as a result of the reorganization on March 8, 2013, for the period March 8, 2013 and ending December 31, 2013 the earnings from Apidos CDO III are included in the Company's calculation of REIT taxable income.

On September 10, 2013, the Company acquired approximately 9.5% of the equity of Harvest CLO VII, which is a foreign TRS, organized as an exempt company incorporated with limited liability under the laws of Ireland. This equity is directly owned by a domestic qualified REIT subsidiary of the Company and, accordingly, its earnings are included in the Company's calculation of REIT taxable income.

On February 24, 2014, the Company acquired approximately 88.6% of the equity of Moselle CLO S.A., which is a foreign TRS, incorporated in Luxembourg. This equity is directly owned by a domestic qualified REIT subsidiary of the Company and, accordingly, its earnings are included in the Company's calculation of REIT taxable income.

On March 27, 2014, the Company acquired approximately 12.6% of the equity of Harvest CLO VIII, which is a foreign TRS, organized as an exempt company incorporated with limited liability under the laws of Ireland. This equity is directly owned by a domestic qualified REIT subsidiary of the Company and, accordingly, its earnings are included in the Company's calculation of REIT taxable income.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

On July 3, 2014, the Company acquired approximately 55% of the equity of Harvest X Investor, which is a foreign TRS, organized as an exempt company incorporated with limited liability under the laws of the Cayman Islands. As of November 6, 2014, the Company's investment was returned and the Company no longer has an active ownership interest in Harvest X Investor. For the period July 3, 2014 through November 6, 2014 the equity was directly owned by a domestic qualified REIT subsidiary of the Company and, accordingly, its earnings are included in the Company's calculation of REIT taxable income.

On November 6, 2014, the Company acquired approximately 32.1% of the equity of Harvest CLO X, which is a foreign TRS, organized as an exempt company incorporated with limited liability under the laws of Ireland. This equity is directly owned by a domestic qualified REIT subsidiary of the Company and, accordingly, its earnings are included in the Company's calculation of REIT taxable income.

On September 28, 2015, the Company acquired 100.0% of the equity of Harvest CLO XV Designated Activity Company, which is a foreign TRS, organized as an exempt company incorporated with limited liability under the laws of Ireland. This equity is directly owned by a domestic qualified REIT subsidiary of the Company and, accordingly, its earnings are included in the Company's calculation of REIT taxable income. In December 2015, a third party purchased a piece of the equity, decreasing our ownership to 66.0%.

Effective January 1, 2007, the Company adopted the provisions of FASB's guidance for uncertain tax positions. This implementation did not have an impact on the Company's consolidated balance sheets or consolidated statements of income. The guidance prescribes that a tax position should only be recognized if it is more likely than not that the position will be sustained upon examination by the appropriate taxing authority. A tax position that meets this threshold is measured as the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. The Company is required to disclose its accounting policy for classifying interest and penalties, the amount of interest and penalties charged to expense each period as well as the cumulative amounts recorded in the consolidated balance sheets. The Company will continue to classify any tax penalties as other operating expenses and any interest as interest expense. The Company does not have any unrecognized tax benefits that would affect the Company's financial position.

As of December 31, 2015, the Company had \$29.7 million of gross federal and \$74.7 million of gross state and local net operating tax loss carryforwards ("NOLs"), respectively, or \$104.4 million (deferred tax asset of \$11.2 million) in total that will begin to expire in 2032. Management believes it is more likely than not that the Company will be able to utilize all of these NOLs during the respective loss carry forward periods based on tax planning strategies that will generate future taxable income. As such, a valuation allowance has not been established against these deferred tax assets. Management will continue to assess the need for a valuation allowance in future periods.

As of December 31, 2015, income tax returns for the calendar years 2012 - 2015 remain subject to examination by IRS and/or any state or local taxing jurisdiction. The Company has not executed any agreements with the IRS or any state and/or local taxing jurisdiction to extend a statute of limitations in relation to any previous year.

(1) Certain reclassifications have been made to the 2015 and 2014 consolidated financial statements.

NOTE 26 - COMMITMENTS AND CONTINGENCIES

From time to time, the Company may become involved in litigation on various matters, including disputes arising out of loans in the Company's portfolio and agreements to purchase or sell assets. Given the nature of the Company's business activities, the Company considers these matters to be routine and in the ordinary conduct of its business. The resolution of these matters may result in adverse judgments, fines, penalties, injunctions and other relief against the Company as well as monetary payments or other agreements and obligations. Alternately, the Company may engage in settlement discussions on certain matters in order to avoid the additional costs of engaging in litigation.

In September 2015, Daren Levin filed a putative class action in the United States District Court for the Southern District of New York on behalf of all persons who purchased Company common stock between March 2, 2015 and August 4, 2015. On November 24, 2015, the Court appointed Douglas Drees as the lead plaintiff in the action, and thereafter entered a stipulation and order directing the lead plaintiff to file an amended complaint. On February 12, 2016, the lead plaintiff filed an amended complaint, alleging that the Company and certain of its officers and directors materially misrepresented certain risks of the Company's commercial loan portfolio and its processes and controls for assessing the quality of its portfolio. Based on these allegations, the amended complaint asserts claims for violation of the securities laws and seeks a variety of relief, including unspecified monetary damages as well as costs and attorneys' fees. The Company believes the amended complaint is without merit and intends to defend itself vigorously.

In December 2015, Josh Reaves filed a shareholder derivative suit in the Supreme Court of New York alleging that the directors and certain officers of the Company breached their fiduciary duties by causing the Company to misrepresent certain risks of the Company's commercial loan portfolio, by failing to employ adequate internal and financial controls at the Company, and by failing to disclose and causing the Company to fail to disclose the alleged internal control deficiencies. The Complaint, which has not yet been served on the Company, purports to seek relief on behalf of the Company for unspecified damages as well as

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

costs and attorneys' fees. The Company believes that the Plaintiff, who failed to make a pre-suit demand on the Board, lacks standing to assert claims derivatively on behalf of the Company and intends to respond accordingly in the event that it is served.

PCM is a party to various claims and legal proceedings at various times. If they believe that a loss arising from any of these matters is probable and can be reasonably estimated, the loss is recorded. Some of these claims may relate to claims for repurchases or indemnifications on loans that PCM has sold to investors. Such claims are included in the reserve for mortgage repurchases and indemnifications. There was no additional accrual for litigation outcomes at December 31, 2015 and 2014.

On May 13, 2014, ResCap Liquidating Trust ("ResCap") as successor to Residential Funding Company, LLC ("RFC"), filed an adversary proceeding against PCM in United States Bankruptcy Court of the Southern District of New York. ResCap has sued some 90 sellers of residential mortgage loans for alleged breaches of warranty in various loans sold to RFC. RFC contends that such breaches caused it damages from loan losses and liability to other transferees of the loans. The case remains pending and has been consolidated with other cases for discovery and pre-trial purposes. PCM intends to defend the action vigorously.

Loans on one-to-four family residential mortgages originated by PCM are sold to various financial institutions and governmental entities with representations and warranties that are usual and customary for the industry. In the event of a breach of any of the representations and warranties related to a loan sold, PCM may be required to indemnify the investor against future losses, repurchase the mortgage loan or reimburse the investor for actual losses incurred (referred to as "make whole payments"). The maximum exposure to credit loss in the event of an indemnification or loan repurchase would be the unpaid principal balance of the loan along with any premium paid by the investor when the loan was purchased, accrued but unpaid interest and other minor cost reimbursements. This maximum exposure is at least partially mitigated by the value of the collateral underlying the mortgage loan.

As of December 31, 2015, outstanding demands for indemnification, repurchase or make whole payments totaled approximately \$20.5 million, of which a substantial portion related to loans sold to four investors prior to 2011. Furthermore, a significant portion of these demands are involved in litigation with the investor.

Unfunded commitments on the Company's originated CRE loans generally fall into two categories: (1) pre-approved capital improvement projects; and (2) new or additional construction costs subject, in each case, to the borrower meeting specified criteria. Upon completion of the improvements or construction, the Company would receive additional interest income on the advanced amount.

Except as previously discussed, the Company is unaware of any contingencies arising from such routine litigation that would require accrual or additional disclosure in the consolidated financial statements as of December 31, 2015.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
DECEMBER 31, 2015

NOTE 27 - SEGMENT REPORTING

The Company has five reportable operating segments: Commercial Real Estate Lending, Commercial Finance, Middle Market Lending, Residential Mortgage Lending, and Corporate & Other. The reportable operating segments are business units that offer different products and services. The Commercial Real Estate Lending operating segment includes the Company's activities and operations related to commercial real estate loans, commercial real estate-related securities, and investments in real estate. The Commercial Finance operating segment includes the Company's activities and operations related to bank loans, bank loan-related securities, and direct financing leases. The Middle Market Lending operating segment includes the Company's activities and operations related to the origination and purchase of middle market loans. The Residential Mortgage Lending operating segment includes the Company's activities and operations related to the origination and servicing of residential mortgage loans and the investment in RMBS. The Corporate & Other segment includes corporate level interest income, interest expense, inter-segment eliminations not allocable to any particular operating segment, and general and administrative expense.

The accounting policies of the operating segments are the same as those described in Note 2. The Company accounts for inter-segment sales and transfers as if the sales or transfers were to third parties, that is, at current market prices. Relevant expenses incurred at the Corporate & Other segment are allocated to TRS subsidiaries based on their percentage of adjusted pre-tax net income (loss), which excludes unrealized gains and losses and provisions on loan and lease losses that are specific to the periods presented.

No single customer represents 10% or more of the consolidated revenues. Consequently, management believes that the Company's revenues are appropriately diversified.

NOTE 28 - SUBSEQUENT EVENTS

The Company has evaluated subsequent events through the filing of this report and determined that there have not been any events that have occurred that would require adjustments to or disclosures in the consolidated financial statements, except the following:

For the period January 1, 2016 through March 1, 2016, the Company has repurchased \$4.5 million of its common stock, representing approximately 396,000 shares. The total amount repurchased to date is \$30.4 million, or approximately 7.1% of the Company's outstanding balance.

On February 3, 2016, Lehman Brothers Holdings Inc. (“LBHI”) as Plan Administrator under the Chapter 11 Plan of Lehman Brothers Holdings Inc. (“Lehman”), filed an adversary proceeding against PCM and more than 100 sellers of residential mortgage loans for alleged breaches of warranty in various loans sold to Lehman. LBHI contends that such breaches caused it damages from loan losses and liability to other transferees of the loans. PCM intends to defend the action vigorously.

ITEM 9. CHANGES AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act of 1934 reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Under the supervision of our Chief Executive Officer and Chief Financial Officer, we have carried out an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at the reasonable assurance level.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2015. In making this assessment, management used the criteria set forth in the 2013 version of the *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based upon this assessment, management concluded that our internal control over financial reporting is effective as of December 31, 2015.

Our independent registered public accounting firm, Grant Thornton LLP, audited our internal control over financial reporting as of December 31, 2015. Their report, dated March 10, 2016, expressed an unqualified opinion on our internal control over financial reporting. This report is included in this Item 9A.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended December 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders
Resource Capital Corp.

We have audited the internal control over financial reporting of Resource Capital Corp. (a Maryland Corporation) and subsidiaries (the “Company”) as of December 31, 2015, based on criteria established in the 2013 *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying *Management’s Report on Internal Control over Financial Reporting*. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on criteria established in the 2013 *Internal Control-Integrated Framework* issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of the Company as of and for the year ended December 31, 2015, and our report dated March 10, 2016, expressed an unqualified opinion on those financial statements.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

All members of the board of directors are elected for a term of one year or until their successors are elected and qualified. Information is set forth below regarding the principal occupation of each of our directors. There are no family relationships among the directors and executive officers except that Jonathan Z. Cohen, our Chief Executive Officer, President and a director, is a son of Edward E. Cohen, a director and, until November 2009, our Chairman of the Board.

Names of Directors, Principal Occupation and Other Information

Walter T. Beach, age 49, has been a director since March 2005. Mr. Beach has been Managing Director of Beach Investment Counsel, Inc., an investment management firm, since 1997. From 1993 to 1997, Mr. Beach was a Senior Analyst and Director of Research at Widmann, Siff and Co., Inc., an investment management firm where, beginning in 1994, he was responsible for the firm's investment decisions for its principal equity product. Before that he was an associate and financial analyst at Essex Financial Group, a consulting and merchant banking firm, and an analyst at Industry Analysis Group, an industry and economic consulting firm. Mr. Beach has served as a director of The Bancorp, Inc., a publicly-traded (NASDAQ: TBBK) bank holding company, and its subsidiary bank, The Bancorp Bank, since 1999. Mr. Beach also served as a director of Institutional Financial Markets, Inc. and its predecessor, Cohen & Company, a publicly-traded (NYSE MKT: IFMI) financial services company specializing in credit related fixed income investments, from December 2009 to 2013.

Edward E. Cohen, age 77, has been a director since March 2005 and was our Chairman from March 2005 to November 2009. Mr. Cohen is Chairman of Resource America, the corporate parent of our Manager, a position he has held since 1990. He was Resource America's Chief Executive Officer from 1988 to 2004 and its President from 2000 to 2003. He has been the Chairman of the Board and Chief Executive Officer of Atlas Growth Partners GP, LLC, the general partner of Atlas Growth Partners, L.P., an emerging growth company in the oil and natural gas industry, since its inception in 2013. Mr. Cohen has been the Chief Executive Officer of Atlas Energy Group, LLC (NYSE: ATLS), an oil and gas company, since February 2015 and President from February 2015 to April 2015, and before that was Chairman and Chief Executive Officer since February 2012. Mr. Cohen has been Executive Chairman of Atlas Resource Partners, L.P. (NYSE: ARP), an oil and gas company, since August 2015. Mr. Cohen was the Chairman of the Board of the general partner of Atlas Energy, L.P. ("Atlas Energy"), an oil and gas company, from its formation in January 2006 until February 2011, when he became its Chief Executive Officer and President until its sale to Targa Resources Corp. in February 2015 (the "Atlas Energy Merger"). Mr. Cohen served as the Chief Executive Officer of Atlas Energy's general partner from its formation in January 2006 in February 2009. Mr. Cohen served on the executive committee of Atlas Energy's general partners from 2006 until the Atlas Energy Merger in February 2015. Mr. Cohen also the Chairman of the Board and Chief Executive Officer of Atlas Energy, Inc. (formerly known as Atlas America, Inc.), an oil and gas company, from its organization in 2000 until February 2011, and also served as President from September 2000 to October 2009. Mr. Cohen was the Executive Chair of the managing board of Atlas Pipeline Partners GP, LLC, the general partner of Atlas Pipeline Partners, L.P., a natural gas pipeline company, from its formation in 1999 until February 2015, and was its Chief Executive Officer from 1999 to January 2009. Mr. Cohen was the Chairman of the Board and Chief Executive Officer of Atlas Energy Resources, LLC and its manager, Atlas Energy Management, Inc., from their formation in June 2006 until February 2011.

Jonathan Z. Cohen, age 45, has been our Chief Executive Officer, President and a director since March 2005. Mr. Cohen has been President since 2003, Chief Executive Officer since 2004 and a director since 2002 of Resource America. He was Chief Operating Officer of Resource America from 2002 to 2004, Executive Vice President from 2001 to 2003, and a Senior Vice President from 1999 to 2001. He has been the Executive Vice Chairman of the Board of Directors of Atlas Growth Partners GP, LLC, the general partner of Atlas Growth Partners, L.P., an emerging growth company in the oil and natural gas industry, since its inception in 2013. Mr. Cohen has served as the Executive Chairman of the Board of Directors of Atlas Energy Group, LLC (NYSE: ATLS) since February 2015, and before that was Vice Chairman from February 2012. Mr. Cohen has served as Executive Vice Chairman of Atlas Resource Partners, L.P. (NYSE: ARP) since August 2015. Mr. Cohen served as Executive Chairman of the Board of Atlas Energy, L.P.'s general partner from January 2012 until the Atlas Energy Merger in February 2015. Before that, he served as Chairman of the Board of Atlas Energy's general partner from February 2011 until January 2012 and as Vice Chairman of the Board of its general partner from its formation in January 2006 until February 2011. Mr. Cohen served as chairman of the executive committee of Atlas Energy's general partners from 2006 until the Atlas Merger in February 2015. Mr. Cohen was the Vice Chairman of the Board of Atlas Energy, Inc. from its incorporation in September 2000 until February 2011. Mr. Cohen was the Executive Vice Chair of the managing board of Atlas Pipeline Partners GP, LLC from its formation in 1999 until February 2015.

[\(Back to Index\)](#)

Mr. Cohen was the Vice Chairman of the Board of Atlas Energy Resources, LLC and its manager, Atlas Energy Management, Inc., from their formation in June 2006 until February 2011.

Richard L. Fore, age 70, has been a director since March 2013. Mr. Fore has been Chairman and Chief Executive Officer of Fore Property Company, a national real estate development company that builds, owns and manages multi-family residences throughout the United States, since 1994. Prior to founding Fore Property Company, he was a partner at Lincoln Property Company. Mr. Fore co-founded the National Multi Housing Council, the leading trade association in the apartment industry, in 1978. He was also appointed to the Presidential Housing Commission by President Reagan. Mr. Fore also served in the U.S. Department of Housing and Urban Development during the Nixon and Ford administrations.

William B. Hart, age 72, has been a director since March 2005. Mr. Hart was Chairman of the Board of Trustees of the National Trust for Historic Preservation from 1999 to 2004. He was also a director of Anthem, Inc. (now Wellpoint, Inc.), a publicly-traded (NYSE: WLP) health insurance company, from 2000 to 2004. Mr. Hart was Director of SIS Bancorp from 1995 to 2000. From 1988 to 1999, Mr. Hart served in various positions with Blue Cross/Blue Shield of New Hampshire, ending as Chairman of the Audit Committee and Chairman of the Board of Directors from 1996 to 1999. He also served as President of the Foundation for the National Capital Region, Washington, DC, from 1993 to 1996 and President of The Dunfee Group, a private investment firm, from 1986 to 1998. From 1986 to 1994 he was a director of First NH Banks where he was Chairman of the Audit Committee from 1992 to 1994.

Gary Ickowicz, age 60, has been a director since February 2007. Mr. Ickowicz has been the Managing Partner of IR Capital LLC, a real estate company that owns and operates real estate assets in the New York Metropolitan area since 2008. He was a Managing Principal of Lazard Freres Real Estate Investors, a manager of funds invested in debt and equity securities of North American real estate assets and enterprises, from 2001 to 2011. He was a director of Lazard Freres's real estate investment banking unit from 1989 through 2001. Since 2000 he has been a director of Grant Street Settlement, and since 2002 he has been a director of NCC/Neumann, both not-for-profit developers of senior housing. From 2001 to 2011, he was a director of Commonwealth Atlantic Properties, Inc., a privately-held REIT. From 2001 to 2006 he was a director of Kimsouth, Inc., a joint venture with Kimco Realty Corporation, a publicly-traded (NYSE: KIM) REIT.

Steven J. Kessler, age 72, has been our Chairman since November 2009 and was our Senior Vice President-Finance from September 2005 to November 2009 and, before that, served as our Chief Financial Officer, Chief Accounting Officer and Treasurer from March 2005 to September 2005. Mr. Kessler has been Executive Vice President of Resource America since 2005 and was Chief Financial Officer from 1997 to December 2009 and Senior Vice President from 1997 to 2005. He was a Trustee of GMH Communities Trust, a then publicly-traded specialty housing REIT, from 2004 to 2008 when it was sold. He was Vice President-Finance and Acquisitions at Kravco Company, a shopping center developer and operator, from 1994 to 1997. From 1983 to 1993 he was employed by Strouse Greenberg & Co., a regional full service real estate company, ending as Chief Financial Officer and Chief Operating Officer. Before that, he was a partner at Touche Ross & Co. (now Deloitte & Touche LLP), independent public accountants.

Murray S. Levin, age 73, has been a director since March 2005. Mr. Levin is a senior litigation partner at Pepper Hamilton LLP, a law firm with which he has been associated since 1970. Mr. Levin served as the first American president of the Association Internationale des Jeunes Avocats (Young Lawyers International Association), headquartered in Western Europe. He is a past president of the American Chapter and a member of the board of governors of the Union Internationale des Avocats (International Association of Lawyers), a Paris-based organization that is the world's oldest international lawyers association.

P. Sherrill Neff, age 64, has been a director since March 2005. Mr. Neff is a founding partner of Quaker Partners, a health care venture and growth equity fund manager, with which he has been associated since 2002. From 1994 to 2002 he was President and Chief Financial Officer, and from 1994 to 2003, a director of Neose Technologies, Inc., a then publicly-traded life sciences company. Mr. Neff was also a director of The Bancorp, Inc., a publicly traded (NASDAQ: TBBK) bank holding company, from its formation in 1999 until 2002, and a director of Resource America from 1998 to 2005. Mr. Neff is on the boards of directors of three Quaker Partners' portfolio companies, including Cempra, Inc., a publicly-traded (NASDAQ:CEMP) pharmaceutical company, since 2011 and two other private portfolio companies. Mr. Neff was also a director of Amicus Therapeutics, a publicly-traded (NASDAQ: FOLD) biopharmaceutical company, from 2005 to 2011, and Regado BioSciences, Inc., a publicly traded (NASDAQ: RGDO) biopharmaceutical company, from 2012 until its merger into Tobira BioSciences, a publicly traded (NASDAQ: TBRA) biopharmaceutical company in 2015. Until 2013, he was a member of the board of directors of the National Venture Capital Association.

Stephanie H. Wiggins, age 50, has been a director since June 2013. Ms. Wiggins has been Executive Vice President and Chief Investment Officer for the AFL-CIO Housing Investment Trust since 2000. From 1997 to 2000 she served in various positions at Prudential Mortgage Capital Company (formerly WMF Group), culminating as Director and Senior Investment Officer. She

previously served as a Senior Underwriter and Review Appraiser at Green Park Financial (currently d/b/a Walker & Dunlop). Ms. Wiggins is a member of the Urban Land Institute Council, National Housing Conference and Mortgage Bankers Association.

The board of directors has not adopted specific minimum qualifications for service on our board, but rather seeks a mixture of skills that are relevant to our business as an externally-managed REIT that focuses primarily upon investments in commercial real estate and commercial finance assets, principally loans and interests in loans. The following presents a brief summary of the attributes of each director that led to the conclusion that he or she should serve as such:

Mr. Beach has extensive experience in finance and investment management and a strong financial background.

Mr. E. Cohen has lengthy experience in real estate and real estate finance (a principal business of Resource America), corporate finance (through the formation and funding of public companies such as Atlas Energy, Atlas America, Atlas Pipeline, and Resource America) and operations of both public and private companies, and is affiliated with the Manager.

Mr. J. Cohen has significant real estate, real estate finance and operational experience as an officer (currently Chief Executive Officer and President) and director of Resource America, and is affiliated with the Manager.

Mr. Fore has extensive experience in, and significant knowledge of, the real estate industry as a founder and principal of a national real estate company. Mr. Fore also has significant government experience, having served in government positions with three Presidential administrations.

Mr. Hart has extensive experience in finance and investment management, both as an officer and director of banks and insurance companies, as well as an officer of a private investment firm.

Mr. Ickowicz has broad real estate and real estate finance experience as a principal in the real estate operations of an international investment bank, as a director of a REIT and as a director of several real estate ventures.

Mr. Kessler has a significant financial and accounting background in real estate as the former Chief Financial Officer of Resource America and, previously, as a principal financial officer for a major operator of commercial real estate.

Mr. Levin has a lengthy and diverse legal background and has practiced complex litigation for over forty years.

Mr. Neff has significant experience in investments, operations and finance as a principal or officer of a venture fund and a public company and, prior thereto, as an investment banker.

Ms. Wiggins has extensive real estate finance experience, including underwriting, originating and valuing income-producing real estate, as an officer of several real estate companies.

Non-Director Executive Officers

Eldron C. Blackwell, age 37, has been our Vice President and Chief Accounting Officer since March 2014. Mr. Blackwell was the Assistant Controller for New Penn Financial, LLC, a residential mortgage lender, from March 2013 to March 2014. From September 2001 to March 2013, he was a Senior Manager in the audit practice of the global accounting firm Grant Thornton LLP. Mr. Blackwell serves on the Board of Directors of Freire Charter School in Philadelphia.

Jeffrey D. Blomstrom, age 47, has been our Senior Vice President since March 2005. Mr. Blomstrom has been President of Resource Financial Fund Management, Inc., an asset management subsidiary of Resource America, since 2003. Mr. Blomstrom serves on the Advisory Committee to CVC Credit Partners L.P. and is a member of the credit committees of Northport Capital, LLC and Resource Real Estate Funding, Inc., Resource America's middle market loan origination and commercial real estate loan origination subsidiaries, respectively. From 2001 to 2003 Mr. Blomstrom was a Managing Director at Cohen and Company, an investment bank specializing in the financial services sector. From 2000 to 2001 he was Senior Vice President of iATMglobal.net, Inc., an ATM software development company. Mr. Blomstrom was, from 1999 to 2000, an associate at Covington & Burling, a law firm, where he focused on mergers and acquisitions and corporate governance.

David E. Bloom, age 51, has been our Senior Vice President-Real Estate Investments since March 2005. Mr. Bloom has been Senior Vice President of Resource America since 2001. He has also been President of Resource Real Estate, Inc., a wholly-owned real estate subsidiary of Resource America, since 2004 and was President of Resource Capital Partners, a wholly-owned real estate subsidiary of Resource America, from 2002 to 2006. From 2001 to 2002 he was President of Resource Properties, a former real estate subsidiary of Resource America. Before that he was Senior Vice President at Colony Capital, LLC, an international real estate opportunity fund, from 1999 to 2001. From 1998 to 1999 he was Director at Sonnenblick-Goldman Company, a real estate investment bank. From 1995 to 1998 he was an attorney at the law firm of Willkie Farr & Gallagher, LLP.

Jeffrey F. Brotman, 52, has been our Executive Vice President since June 2009 and Executive Vice President of Resource America since June 2007. He was co-founder of Ledgewood, P.C. (a Philadelphia-based law firm) and affiliated with the firm from 1992 until June 2007, serving as managing partner from 1995 until March 2006. Mr. Brotman is also a non-active certified public accountant and an Adjunct Professor at the University of Pennsylvania Law School. Mr. Brotman was Chairman of the Board of Directors of TRM Corporation, a then publicly-traded consumer services company, from September 2006 until September 2008 and was its President and Chief Executive Officer from March 2006 through June 2007.

David J. Bryant, age 58, has been our Senior Vice President, Chief Financial Officer and Treasurer since June 2006, and was our Chief Accounting Officer from 2006 to 2014. From 2005 to 2006 Mr. Bryant served as Senior Vice-President, Real Estate Services, at Pennsylvania Real Estate Investment Trust, a publicly-traded (NYSE: PEI) REIT principally engaged in owning, managing, developing and leasing malls and strip centers in the eastern United States. From 2000 to 2005, Mr. Bryant served as PEI's Senior Vice President-Finance and Treasurer, and was its principal accounting officer. From 1994 to 2000, Mr. Bryant was Vice President-Finance and Controller at PEI and its predecessor, The Rubin Organization. Mr. Bryant is a non-active certified public accountant.

Other Significant Employees

The following sets forth certain information regarding other significant employees of the Manager and Resource America who provide services to us:

Anthony Coniglio, age 47, has been the President of Resource Residential Mortgage, Resource America's residential mortgage business, since 2013. Mr. Coniglio was the Chief Executive Officer of Elevation Home Loans, LLC, a start-up residential mortgage company, from 2011 to 2013. From 1997 to 2011, he served in various positions at J.P. Morgan, establishing its asset-based conduit platform, running a structured finance business and culminating as co-leader of the specialty finance investment banking group. Prior thereto, Mr. Coniglio worked in operations, treasury and structured finance positions at Canadian Imperial Bank of Canada, or CIBC, from 1993 to 1997. He began his career as a Staff Accountant at Price Waterhouse from 1990 to 1993.

David M. DeSantis, age 39, has been head of middle market lending and Managing Director of Northport Capital, LLC, Resource America's middle market corporate lending platform, since 2013. From 2007 to 2013, Mr. DeSantis held various roles at Medley Capital, LLC, including Managing Director and leader of the New York based investment team, where he originated, underwrote and managed middle market corporate loans. From 1999 to 2007, he served in various positions at General Electric Capital, culminating as Vice President for GE Global Sponsor Finance, focusing on middle market corporate loan origination, underwriting and asset management.

Thomas C. Elliott, age 42, has been our Senior Vice President-Finance and Operations since September 2006 and, prior to that, was our Chief Financial Officer, Chief Accounting Officer and Treasurer from September 2005 to June 2006. He was our Senior Vice President-Assets and Liabilities Management from June 2005 until September 2005 and, before that, served as our Vice President-Finance from March 2005. Mr. Elliott has been Chief Financial Officer of Resource America since December 2009 and Senior Vice President since 2005. He was Senior Vice President-Finance and Operations of Resource America from 2006 to December 2009; Senior Vice President-Finance from 2005 to 2006 and Vice President-Finance from 2001 to 2005. From 1997 to 2001 Mr. Elliott was a Vice President at Fidelity Leasing, Inc., a former equipment leasing subsidiary of Resource America, where he managed all capital market functions, including the negotiation of all securitizations and credit and banking facilities in the U.S. and Canada. Mr. Elliott also oversaw the financial controls and budgeting departments.

Alan F. Feldman, age 52, has been our Senior Vice President-Real Estate Investments since March 2005. Mr. Feldman has been Chief Executive Officer of Resource Real Estate since 2004 and Senior Vice President of Resource America since 2002. Mr. Feldman was President of Resource Properties from 2002 to 2005. From 1998 to 2002, Mr. Feldman was Vice President at Lazard Freres & Co., an investment banking firm, specializing in real estate mergers and acquisitions, asset and portfolio sales and recapitalization. From 1992 through 1998, Mr. Feldman was Executive Vice President of PREIT-RUBIN, Inc. the management subsidiary of Pennsylvania Real Estate Investment Trust and its predecessor, The Rubin Organization. Before that, from 1990 to 1992, he was a Director at Strouse, Greenberg & Co., a regional full service real estate company.

Kyle Geoghegan, age 47, has been our Senior Vice President-Loan Originations since 2007. Mr. Geoghegan has been a Managing Director of Resource Real Estate Funding, Inc., a real estate subsidiary of Resource America, since July 2006. Mr. Geoghegan co-manages the whole loan origination platform for Resource Real Estate Funding and is based in Los Angeles. Mr. Geoghegan worked at Bear Stearns from January 1998 to May 2006, serving as a Managing Director who co-managed the Bear Stearns Commercial Mortgage office in Los Angeles. Prior to joining Bear Stearns, Mr. Geoghegan spent four years as a real estate loan officer at PNC Bank in Philadelphia, PA, primarily originating construction and bridge loans.

David Jansky, age 45, has been President of Resource Capital Markets, Inc., a subsidiary of Resource America, since April 2008. Mr. Jansky was head of Global ABS CDOs in the Structured Credit Products group at J.P. Morgan from 2005 to 2008. Prior thereto, he was an Executive Director at Credit Suisse First Boston from 2002 to 2005. Mr. Jansky was also responsible for structuring CDOs as a Vice President at Deutsche Bank from 1997 to 2000 and as an Associate at Merrill Lynch from 1996 to 1997.

Darryl Myrose, age 42, has been our Senior Vice President-Loan Originations since 2007. Mr. Myrose has been a Managing Director of Resource Real Estate Funding since July 2006. Mr. Myrose co-manages the whole loan origination platform for Resource Real Estate Funding and is based in Los Angeles. Mr. Myrose worked at Bear Stearns from April 1996 to May 2006, serving as a Managing Director who co-managed the Bear Stearns Commercial Mortgage office in Los Angeles. Prior to joining Bear Stearns, Mr. Myrose was employed with Clarion Advisors (formerly Jones Lang Wootton Realty Advisors) where he was an asset management analyst.

Joan M. Sapinsley, age 63, has been our Senior Vice President-CMBS since 2007. Ms. Sapinsley joined Resource Financial Fund Management, Inc. in February 2007 as Managing Director and manages our CMBS portfolio. Prior to joining Resource Financial Fund Management, Ms. Sapinsley was a Managing Director at Teachers Insurance and Annuity Association (TIAA), where she worked from 1992 through 2006 purchasing CMBS. She was responsible for all single borrower and single asset CMBS, as well as subordinate CMBS and B notes. She also directed TIAA's conduit origination and securitization activities. Before TIAA, Ms. Sapinsley was a Director in the Financial Services Group of Cushman & Wakefield, a global commercial real estate company, and a real estate consultant at Laventhol & Horwath, an accounting firm.

Michael S. Yecies, age 48, has been our Chief Legal Officer and Secretary since March 2005, Senior Vice President since July 2007 and was our Vice President from March 2005 to July 2007. Mr. Yecies has been Senior Vice President of Resource America since 2005, Chief Legal Officer and Secretary since 1998 and was Vice President from 1998 to 2005. He was Chief Legal Officer and Secretary of Atlas Energy, Inc. and its predecessors (a publicly-traded energy company formerly owned by Resource America) from 1998 to 2006 and Chief Legal Officer and Secretary of Atlas Pipeline Partners GP, LLC (a publicly-traded energy company formerly owned by Resource America) from its formation in 1999 to 2006. From 1994 to 1998 he was an attorney at the international law firm of Duane Morris LLP.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our officers, directors and persons who own more than 10% of a registered class of our equity securities to file reports of ownership and changes in ownership with the SEC and to furnish us with copies of all such reports. Based solely on our review of the reports received by us, we believe that, during fiscal 2015, our officers, directors and greater than ten percent shareholders complied with all applicable filing requirements.

Code of Ethics

We have adopted a code of business conduct and ethics applicable to all directors, officers and employees. We will provide to any person without charge, upon request, a copy of our code of conduct. Any such request should be directed to us as follows: Resource Capital Corp., 712 Fifth Avenue, New York, NY 10019, Attention: Secretary. Our code of conduct is also available on our website: www.resourcecapitalcorp.com. We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding an amendment to, or waiver from, a provision of this code of conduct by posting such information on our website, unless otherwise required by applicable law or regulation.

Information Concerning the Audit Committee

Our Board of Directors has a standing audit committee. The audit committee reviews the scope and effectiveness of audits by the internal and independent accountants, is responsible for the engagement of independent accountants, and reviews the adequacy of our internal financial controls. Members of the committee are Messrs. Neff (Chairman), Beach, Hart and Ms. Wiggins. The Board has determined that each member of the committee meets the independence standards for audit committee members set forth in the listing standards of the New York Stock Exchange, or NYSE, including those set forth in Rule 10A-3(b)(1) of the Securities Exchange Act of 1934, and that Messrs. Beach and Neff each qualifies as an "audit committee financial expert" as that term is defined in the rules and regulations thereunder.

ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

We are required to provide information regarding the compensation program in place for our Chief Executive Officer, Chief Financial Officer and the three other most highly-compensated executive officers. In the following discussion, we refer to our Chief Executive Officer, Chief Financial Officer and the other three most highly-compensated executive officers whose compensation for fiscal 2015 exceeded \$100,000 as our “Named Executive Officers” or “NEOs.”

Objectives of Our Compensation Program

We are externally managed by our Manager pursuant to a management agreement among our Manager, Resource America and us. All of our NEOs are employees of Resource America or our Manager. We have not paid, and do not intend to pay, any cash compensation to our NEOs. We do reimburse Resource America for the wages, salary and benefits paid to our Chairman, Chief Financial Officer, and Chief Accounting Officer. Our Compensation Committee has, from time to time, granted equity awards in the form of restricted stock, stock options or equity-based performance awards to our NEOs pursuant to our Amended and Restated Omnibus Equity Compensation Plan. These awards are designed to align the interests of our NEOs with those of our stockholders, by correlating their compensation to the performance of our stock and by allowing them to share in the creation of value for our stockholders through stock appreciation and dividends. These equity awards are subject to time-based vesting requirements designed to promote the retention of management, incentivize long term objectives and to achieve strong performance for us. These awards further provide us flexibility in our ability to enable Resource America to attract, motivate and retain talented individuals for our Manager.

Setting Executive Compensation

Our NEOs are employees of Resource America, which determines the base salary, cash incentive compensation and grants of Resource America equity securities that are paid to our NEOs. Since we pay fees to our Manager pursuant to the management agreement, we believe that an unspecified portion of the base salary and cash incentive compensation paid to our NEOs is derived from such fees paid by us. We do not control how such fees are allocated by Resource America. For a description of our management agreement, see Item 1: “Business-Management Agreement.” We disclose the cash amounts paid by Resource America to our Chief Financial Officer (for which we reimburse Resource America), our only NEO who devotes his full business time to our affairs, in the Summary Compensation Table below.

When Resource America makes its determination of the amount of compensation it will award to one of our NEOs, including in particular the amount of Resource America securities that Resource America will grant as equity incentive compensation, Resource America also considers, but does not determine or control, the amount of our securities we propose to grant as equity incentive compensation to that NEO. Similarly, in determining the amount of equity incentive compensation we grant to one of our NEOs, our Compensation Committee considers, but does not determine, the compensation that Resource America proposes to grant to that NEO, including Resource America's grant of Resource America securities as equity incentive compensation. Our respective Compensation Committees base their analyses and determinations upon recommendations submitted by Jonathan Z. Cohen, who is chief executive officer of both companies, for all of our NEOs other than himself. Resource America's Compensation Committee determines the amount of compensation Resource America will award Mr. J. Cohen, while our Compensation Committee determines the amount of any Resource Capital equity incentive compensation we award to Mr. J. Cohen. These analyses and determinations are not based upon any particular compensation matrix or formula, but instead are based upon qualitative evaluations by Mr. J. Cohen and the Compensation Committee. Our Compensation Committee does not make recommendations to Resource America as to the amount of compensation Resource America grants to our NEOs, nor does Resource America's Compensation Committee make recommendations to us regarding the amount of equity incentive compensation awarded by us to our NEOs.

Our Compensation Committee operates under a written charter adopted by our Board of Directors, a copy of which is available on our website at www.resourcecapitalcorp.com. Our Compensation Committee determines compensation amounts after the end of our and Resource America's fiscal year and makes equity awards near or after our and Resource America's fiscal year end. Awards made after our fiscal year end are reflected in our Summary Compensation Table but not our Grants of Plan-Based Awards table until our following fiscal year. Our Compensation Committee has the discretion to issue equity awards at other times during our fiscal year.

Elements of Our Compensation Program

As described above, our NEOs do not receive cash compensation from us, although beginning in October 2009, we agreed to reimburse Resource America for the wages, salary and benefits of our Chief Financial Officer. In addition, we began reimbursing Resource America for the wages, salary and benefits of our Chairman in February 2010. However, our Compensation Committee has, from time to time, granted equity awards in the form of restricted stock, stock options or equity-based performance awards to our NEOs pursuant to our Amended and Restated Omnibus Equity Compensation Plan as follows:

Stock Options. Stock options provide value to the executive only if our stock price increases after the grants are made. Stock options typically vest 33.3% per year. No stock options have been granted to any of our NEOs since 2006.

Restricted Stock. Restricted stock grants reward stockholder value creation slightly differently than stock options: restricted stock units are impacted by all stock price changes, both increases and decreases. Restricted stock generally vests 33.3% per year and includes a right to receive dividends on unvested shares. Effective August 31, 2015, we completed a one-for-four reverse stock split of our outstanding common stock. All share amounts shown give retroactive effect to the reverse stock split for all periods presented for comparison purposes.

How We Determined 2015 Compensation

As discussed above, our Compensation Committee believes that it is important for our NEOs, who are employees of Resource America, to remain significantly aligned with the interests of our shareholders. Accordingly, we have traditionally made grants of restricted stock to such NEOs.

For 2015, such stock awards were generally less than stock awards for 2014. The grants will vest 33.33% per year over three years and included dividend equivalent rights. Our Compensation Committee analyzed the management agreement and reviewed how our operating costs compared to other REITs' operating costs. Our Compensation Committee also considered our growth, complexity and performance. The Committee also considered the amount of our restricted stock that had been granted in recent years. In particular, the Compensation Committee desired to continue to build alignment between key employees of the Manager and our stockholders, provide meaningful incentive for the retention of such key employees and ensure that total compensation paid to the Manager and its employees is consistent with similar companies. For 2015, our Compensation Committee approved the awards discussed below, based upon our performance and the individual performance of our NEOs. Among the factors considered by our Compensation Committee were our growth, distributions to our shareholders and our ability to successfully originate, manage and finance quality investment products. Our Compensation Committee further noted our commercial real estate (CRE) loan originations, completion of two CRE securitizations with outstanding execution, building upon our middle market loan origination platform and positioning us for future growth. Our Compensation Committee considered these stock awards in addition to considering the total compensation that Resource America proposed for our NEOs.

Upon our CEO's recommendation, other than for himself, our Compensation Committee approved the following awards for fiscal 2015:

- Mr. J. Cohen was awarded 19,588 shares of restricted stock for fiscal 2015, as compared to 102,670 shares of restricted stock for fiscal 2014.
- Mr. Blomstrom was awarded 4,897 shares of restricted stock for fiscal 2015, as compared to 7,700 shares of restricted stock for fiscal 2014.
- Mr. Bloom was awarded 17,140 shares of restricted stock for fiscal 2015, as compared to 7,700 shares of restricted stock for fiscal 2014.
- Mr. Brotman was awarded 14,691 shares of restricted stock for fiscal 2015, as compared to 7,700 shares of restricted stock for fiscal 2014.
- Mr. Bryant was awarded 10,515 shares of restricted stock for fiscal 2015, as compared to 5,134 shares of restricted stock for fiscal 2014.

Compensation and Risks

We believe that the risks material to our business are those that derive from broad-based economic trends and specific trends relating to particular loans, assets securing such loans and properties we hold. We do not believe that these risks are materially affected by, or materially arise from our compensation policies, since our compensation is in the form of equity grants which typically vest over time. We believe that this encourages our executives to focus on sustained share price appreciation, rather than short-term results. Moreover, risk behavior is a factor considered in all performance assessments.

Compensation Committee Report

The compensation committee has reviewed and discussed the foregoing Compensation Discussion and Analysis with management and, based on its review and discussions, the compensation committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this filing.

This report has been provided by the Compensation Committee of the Board of Directors of Resource Capital Corp.

Walter T. Beach, Chairman
Murray S. Levin
P. Sherrill Neff

The following table sets forth certain information concerning the compensation earned for the fiscal years ended December 31, 2015, 2014 and 2013 for our NEOs:

SUMMARY COMPENSATION TABLE

Name and Principal Position	Year	Salary	Bonus	Stock Awards⁽²⁾	All Other Compensation⁽³⁾	Total
Jonathan Z. Cohen	2015	—	—	\$ 199,993	—	\$ 199,993

Senior Vice President—	2014	—	—	\$ 149,996	—	\$ 149,996
Real Estate Investments	2013	—	—	\$ 299,997	—	\$ 299,997

(1) Mr. Bryant's salary and bonus were paid by Resource America. We began to reimburse Resource America for Mr. Bryant's salary and bonus in October 2009. Amounts represent salary and bonus earned for the years indicated, but may not have been paid in full in the respective years.

(2) Grant date fair value, valued in accordance with FASB Accounting Standards Codification Topic 718 as the closing price of our common stock on the grant date.

(3) Amount for Mr. Bryant represents an award of Resource America restricted stock earned during 2013. Awards of Resource America restricted stock are valued at the closing price of Resource America common stock on the date of each grant.

GRANTS OF PLAN-BASED AWARDS TABLE

During 2015, we made restricted stock awards to our NEOs. There were no stock options granted during 2015. The following table sets forth information with respect to each of these awards on a grant-by-grant basis. Dividends are payable on awards of our stock, which vest 33% per year over a three year period after the date of grant.

Name	Grant date ⁽¹⁾	All other stock awards: number of shares of stock (#) ⁽²⁾	Grant date fair value of stock awards⁽³⁾
Jonathan Cohen	2/5/2015	102,670	\$ 1,999,997
David J. Bryant	2/5/2015	5,134	\$ 99,996
Jeffrey F. Brotman	2/5/2015	7,700	\$ 149,996
Jeffrey D. Blomstrom	2/5/2015	7,700	\$ 149,996
David E. Bloom	2/5/2015	7,700	\$ 149,996

(1) These restricted stock awards were granted in 2015, but relate to fiscal 2014 compensation and are included in the summary compensation table.

(2) Does not include shares of restricted stock granted in 2016 as compensation earned for fiscal 2015 as follows: Mr. J. Cohen - 19,588 shares; Mr. Bryant - 10,515 shares; Mr. Blomstrom - 4,897 shares; Mr. Bloom - 17,140 shares; and Mr. Brotman - 14,691 shares.

(3) Based on the closing price of our stock on the grant date.

OUTSTANDING EQUITY AWARDS AT FISCAL YEAR-END TABLE

The following equity awards granted to our NEOs were outstanding as of the end of fiscal 2015:

- Restricted stock awards;
- Stock options; and
- Resource America restricted stock awards allocable to services performed for us.

The following table sets forth information with respect to these awards:

Name	Option Awards				Stock Awards	
	Number of securities underlying unexercised options (#) exercisable	Number of securities underlying unexercised options (#) unexercisable	Option exercise price	Option expiration date	Number of shares or units of stock that have not vested (#)	Market value of shares or units of stock that have not vested ⁽⁸⁾

- (1) These shares of restricted stock were a part of a grant made on January 6, 2012 which provided for vesting at the rate of 33% per year on each anniversary of the grant date. On October 23, 2014, vesting for the remaining unvested shares was deferred until January 2, 2016 as follows: Mr. Brotman - 2,955 shares; and Mr. J. Cohen - 5,172 shares. On October 8, 2015 vesting for the remaining unvested shares was further deferred until May 15, 2016 as follows: Mr. Brotman - 2,955 shares; Mr. J. Cohen - 5,172 shares.
- (2) These shares of restricted stock were a part of a grant made on December 20, 2012 which provided for vesting at the rate of 33% per year on each anniversary of the grant date. On October 23, 2014, vesting for the remaining unvested shares was deferred until December 20, 2015 as follows: Mr. Blomstrom - 11,319 shares; Mr. Brotman - 11,319 shares; and Mr. J. Cohen - 19,825 shares, and deferred until January 2, 2016 as follows: Mr. Blomstrom - 11,319 shares; Mr. Brotman - 11,319 shares; and Mr. J. Cohen - 19,824 shares. On October 8, 2015 vesting for the remaining unvested shares was further deferred until May 15, 2016 as follows: Mr. Blomstrom - 22,638 shares; Mr. Brotman - 22,638 shares; Mr. J. Cohen - 39,649 shares.
- (3) These shares of restricted stock were a part of a grant made on January 2, 2013 which provided for vesting at the rate of 33% per year on each anniversary of the grant date. On October 23, 2014, vesting for the remaining unvested shares was deferred until January 2, 2016 as follows: Mr. J. Cohen - 38,167 shares. On October 8, 2015 vesting for the remaining unvested shares was further deferred until May 15, 2016 as follows: Mr. J. Cohen - 38,167 shares.
- (4) These shares of restricted stock were a part of a grant made on January 30, 2014 which provided for vesting at the rate of 33% per year on each anniversary of the grant date. On October 23, 2014, vesting for the remaining unvested shares was deferred until: January 2, 2016 as follows: Mr. Blomstrom - 2,119 shares; Mr. Brotman - 2,119 shares; and Mr. J. Cohen - 17,656 shares, and deferred until January 30, 2016 as follows: Mr. Blomstrom - 2,119 shares; Mr. Brotman - 2,119 shares; and Mr. J. Cohen - 17,655 shares; and deferred until January 30, 2017 as follows: Mr. Blomstrom - 2,118 shares; Mr. Brotman - 2,118 shares; and Mr. J. Cohen - 17,655 shares. On October 8, 2015 vesting for the remaining unvested shares was further deferred until May 15, 2016 as follows: Mr. Blomstrom - 4,238 shares; Mr. Brotman - 4,238 shares; Mr. J. Cohen - 35,311 shares; and deferred until January 30, 2017 as follows: Mr. Blomstrom - 2,118 shares; Mr. Brotman - 2,118 shares; Mr. J. Cohen - 17,655 shares.
- (5) These shares of restricted stock were a part of a grant made on February 5, 2015 which provided for vesting at the rate of 33% per year on each anniversary of the grant date. On October 8, 2015, vesting for the remaining shares was deferred until on May 15, 2016 as follows: Mr. Blomstrom - 2,566 shares; Mr. Brotman - 2,566 shares; and Mr. J. Cohen - 34,223 shares; and deferred until February 5, 2017 as follows: Mr. Blomstrom - 2,567 shares; Mr. Brotman - 2,567 shares; and Mr. J. Cohen - 34,223 shares; and deferred until February 5, 2018 as follows: Mr. Blomstrom - 2,567 shares; Mr. Brotman - 2,567 shares; and Mr. J. Cohen - 34,224 shares.
- (6) These shares of Resource America restricted stock were a part of a grant made on December 17, 2012 which provided for vesting at the rate of 25% per year on each anniversary of the grant date.
- (7) These shares of Resource America restricted stock were a part of a grant made on November 7, 2013 which provided for vesting at the rate of 25% per year on each anniversary of the grant date.
- (8) Based on the closing price of our common stock on December 31, 2015 of \$12.76.
- (9) Based on the closing price of Resource America's common stock on December 31, 2015 of \$6.13.

2015 OPTION EXERCISES AND STOCK VESTED

The following table sets forth information regarding restricted stock awards that vested during 2015 for our NEOs. There were no stock options exercised by such officers during 2015:

Name	Stock Awards	
	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting ⁽¹⁾
Jonathan Z. Cohen	—	—
David J. Bryant	6,366	\$ 88,692
(Resource America stock)	3,090	\$ 17,300
Jeffrey F. Brotman	—	\$ —
Jeffrey D. Blomstrom	1,454	\$ 27,800
David E. Bloom	17,324	\$ 266,709

(1) Represents the per share market value of the respective common stock on the vesting dates multiplied by the number of shares vesting.

Director Compensation

We provide cash compensation only to independent directors for their services as directors. We also reimburse Resource America for all of the wages, salary and benefits established and paid by Resource America to our Chairman of the Board. In fiscal 2015, we reimbursed Resource America \$347,923 for Mr. Kessler's compensation and related business expenses, since Resource America employs Mr. Kessler; Mr. Kessler, however, is dedicated exclusively to us as our Chairman. Mr. Kessler had 2,154 restricted shares vest in 2015 and realized \$33,632 upon vesting. In addition, Mr. E. Cohen, the Chairman of the Board of Resource America, had 4,245 restricted shares vest in 2015 and realized \$56,289 upon vesting.

Our 2015 compensation package for independent directors was comprised of cash (annual retainer) and restricted stock awards. The annual pay package is designed to attract and retain highly-qualified, independent professionals to represent our stockholders. Our compensation package is also designed to create alignment between our directors and our stockholders through the use of equity-based grants. For 2015, the Board approved compensation for each independent director consisting of an annual cash retainer of \$65,000 and an annual restricted stock award valued at approximately \$35,000 on the date of grant, which is the anniversary of the date each independent director became a director. In addition, the members of the investment committee, Messrs. Beach, Ickowicz and Fore, received an additional \$100,000 in cash, members of the audit committee, Messrs. Neff, Beach, Hart and Ms. Wiggins received an additional \$10,000 in cash and members of the compensation committee, Messrs. Beach, Levin and Neff received an additional \$5,000 in cash. In addition, the chairmen of the audit committee and compensation committee, Messrs. Neff and Beach, respectively, received an additional restricted stock award each valued at approximately \$5,000.

The following table sets forth director compensation for each of our independent directors and the Chairman of the Board of Resource America and the Chairman of our Board of Directors for 2015:

Name ⁽¹⁾	Fees Earned or Paid in Cash	Stock Awards⁽²⁾	Total
Walter T. Beach	\$180,000	\$40,001	\$220,001
Richard L. Fore	\$165,000	\$35,013	\$200,013
William B. Hart	\$75,000	\$35,006	\$110,006
Murray S. Levin	\$70,000	\$35,006	\$105,006
P. Sherrill Neff	\$80,000	\$40,001	\$120,001
Gary Ickowicz	\$165,000	\$34,998	\$199,998
Stephanie H. Wiggins	\$75,000	\$35,004	\$110,004
Edward E. Cohen	—	—	—
Steven J. Kessler	\$347,923	—	\$347,923

(1) Table excludes Mr. J. Cohen, an NEO, whose compensation is set forth in the Summary Compensation Table.

(2) On February 2, 2015, Mr. Ickowicz was granted 1,819 restricted shares valued at \$19.24 per share, the closing price on that day. On March 9, 2015, Messrs. Beach and Neff were each granted 2,146 restricted shares and Messrs. Hart and Levin were each granted 1,878 restricted shares valued at \$18.64 per share, the closing price on that day. On March 12, 2015, Mr. Fore was granted 1,907 restricted shares valued at \$18.36, the closing price on that day. On June 8, 2015, Ms. Wiggins was granted 2,124 restricted shares valued at \$16.48 per share, the closing price on that day.

Compensation Committee Interlocks and Insider Participation

The Compensation Committee consisted of Messrs. Beach, Levin and Neff during fiscal 2015. None of such persons was an officer or employee of ours or any of our subsidiaries or affiliated companies during fiscal 2015, or was formerly an officer or employee of ours. None of our executive officers was a director or executive officer of any entity of which any member of the Compensation Committee was a director or executive officer during 2015.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth the number and percentage of shares of common stock owned, as of March 1, 2016, by (a) each person who, to our knowledge, is the beneficial owner of more than 5% of the outstanding shares of common stock, (b) each of our present directors, (c) each of our executive officers and (d) all of our named executive officers and directors as a group. This information is reported in accordance with the beneficial ownership rules of the Securities and Exchange Commission under which a person is deemed to be the beneficial owner of a security if that person has or shares voting power or investment power with respect to such security or has the right to acquire such ownership within 60 days. Shares of common stock issuable pursuant to options or warrants are deemed to be outstanding for purposes of computing the percentage of the person or group holding such options or warrants but are not deemed to be outstanding for purposes of computing the percentage of any other person.

Equity Compensation Plan Information

The following table summarizes certain information about our 2005 Stock Incentive Plan and Amended and Restated Omnibus Equity Compensation Plan as of December 31, 2015:

	(a)	(b)	(c)
Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans excluding securities reflected in column (a)
Equity compensation plans approved by security holders:			
Options	26,250	\$46.60	
Restricted stock	653,060	N/A	
Total	679,310		1,595,545 ⁽¹⁾

(1) We agreed to award certain personnel up to 8,840 shares of restricted stock upon the achievement of certain performance thresholds. The shares, which have been reserved for future issuance under the plans, have not been deducted from the number of securities remaining available for future issuance.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE**Relationships and Related Transactions**

Relationship with Resource America and Certain of its Subsidiaries. Resource America, entities affiliated with it and our executive officers and directors collectively beneficially own 1,973,988 shares of common stock, representing approximately 6.28% of our common stock on a fully-diluted basis. Our executive officers are also officers of our Manager and/or of Resource America or its subsidiaries.

We have entered into a management agreement under which the Manager receives substantial fees. We describe these fees in Item 1: “Business – Management Agreement.” For the year ended December 31, 2015, our Manager, earned base management fees of approximately \$12.6 million. There were no incentive management fees earned in 2015. We reimburse the Manager and Resource America for expenses and employees of Resource America who perform legal, accounting, due diligence and other services that outside professionals or consultants would otherwise perform. The management agreement, as amended, also provides that the Manager must furnish us with a director of investor relations who will be 50% dedicated to our operations. We bear the expense of the wages, salaries and benefits of our Chairman, Chief Financial Officer, Chief Accounting Officer and several accounting and tax professionals and 50% of the salary and benefits of the director of investor relations. On November 7, 2013, we entered into another amendment to include the definition of an “Ancillary Operating Subsidiary” which means one or more subsidiaries, including a TRS and its subsidiaries, that are operating entities principally engaged in the evaluation, underwriting, origination, servicing, holding, trading and financing of loans, securities, investments and credit products other than commercial real estate loans. An Ancillary Operating Subsidiary may, with the approval of a majority of the Independent Directors, directly incur and pay all of its own operating costs and expenses, including without limitation, compensation of employees of such Ancillary Operating Subsidiary and reimbursement of any compensation costs incurred by the Manager for personnel principally devoted to such Ancillary Operating Subsidiary. For the year ended December 31, 2015, we reimbursed the Manager \$5.5 million.

On November 24, 2010, we entered into an Investment Management Agreement with Resource Capital Markets, Inc., or RCM, a wholly-owned subsidiary of Resource America. The initial agreement provides that: (a) RCM may invest up to \$5.0 million of our funds, with the investable amount being adjusted by portfolio gains (losses) and collections, and offset by expenses, taxes and realized management fees, and (b) RCM can earn a management fee in any year that the net profits earned exceed a preferred return. On June 17, 2011, we entered into a revised Investment Management Agreement with RCM which provided an additional \$8.0 million of our funds. The management fee is 20% of the amount by which the net profits exceed the preferred return. During the year ended December 31, 2015, RCM did not earn an incentive management fee. The portfolio began a partial liquidation during 2013. We also reimburse RCM for expenses paid on our behalf. For the year ended December 31, 2015, we paid RCM \$128,000 as expense reimbursements.

[\(Back to Index\)](#)

At December 31, 2015, we were indebted to Resource America and the Manager for \$2.5 million, comprised of base management fees of \$978,000 and expense reimbursements of \$1.6 million. At December 31, 2015, we were indebted to RCM, under our Investment Management Agreement for \$152,000, comprised entirely of expense reimbursements.

During the year ended December 31, 2013, one of our subsidiaries began originating middle market loans, for which Resource America is paid origination fees. These fees may not exceed 2% of the loan balance for any loan originated.

On November 7, 2013, a wholly-owned subsidiary of ours purchased all of the membership interests in Elevation Home Loans, LLC, a start-up residential mortgage company, from an employee of Resource America for \$830,000, paid in the form of 34,165 shares of our restricted common stock. The restricted stock vests in full on November 7, 2016, and includes dividend equivalent rights.

As of December 31, 2015, we had executed eleven securitizations, which were structured for us by the Manager. Under the Management Agreement, the Manager was not separately compensated by us for executing these transactions and is not separately compensated for managing the securitization's entities and their assets. We have since liquidated three of these securitizations, one in October 2013, one in October 2014, and another in June 2015.

Relationship with LEAF Commercial Capital. Leaf Commercial Capital, or LCC, originated and managed equipment leases and notes on our behalf. On March 5, 2010, we entered into agreements with Lease Equity Appreciation Fund II, L.P., or LEAF II, (an equipment leasing partnership sponsored by LEAF Financial and of which a LEAF Financial subsidiary is the general partner), pursuant to which we provided an \$8.0 million credit facility to LEAF II. The credit facility initially had a one year term with interest at 12% per year, payable quarterly, and was secured by all the assets of LEAF II, including its entire ownership interest in LEAF II Receivables Funding. We received a 1% origination fee in connection with establishing the facility. The facility originally matured on March 3, 2011 and was extended until September 3, 2011 with a 1% extension fee paid on the outstanding loan balance. On June 3, 2011, we entered into an amendment to extend the maturity to February 15, 2012 and to decrease the interest rate from 12% to 10% per annum resulting in a troubled-debt restructuring under current accounting guidance. On February 15, 2012, the credit facility was further amended to extend the maturity to February 15, 2013 with a 1% extension fee accrued and added to the amount outstanding. On January 11, 2013, we entered into another amendment to extend the maturity to February 15, 2014 with an additional 1% extension fee accrued and added to the amount outstanding. On December 17, 2013, we entered into another amendment to extend the maturity to February 15, 2015. During the year ended December 31, 2014, we recorded a provision for loan loss on this loan of \$1.3 million before extinguishing the loan and bringing direct financing leases in the amount of \$2.1 million on our books in lieu of the loan receivable. During the year ended December 31, 2015, we recorded a provision against the value of the direct financing leases in the amount of \$465,000. As of December 31, 2015, we held \$931,000 of direct financing leases.

On November 16, 2011, we, together with LEAF Financial and LCC, subsidiaries of Resource America, entered into a securities purchase agreement with Eos Partners, L.P., a private investment firm, and its affiliates. In exchange for our prior interest in LCC, we received 31,341 shares of Series A Preferred Stock, 4,872 shares of newly issued 8% Series B Redeemable Preferred Stock and 2,364 shares of newly issued Series D Redeemable Preferred Stock, collectively representing, on a fully-diluted basis, a 27.5% interest in LCC. On January 18, 2013, we entered into another stock purchase agreement with LCC to purchase 3,682 shares of newly issued Series A-1 Preferred Stock for \$3.7 million. During 2013, we entered into another stock purchase agreement with LCC to purchase 4,445 shares of newly issued Series E Preferred Stock for \$4.4 million. The Series E Preferred Stock has priority over all other classes of preferred stock. For the year ended December 31, 2015, we recorded an equity method allocation of earnings of \$2.6 million which was recorded in equity in net earnings of unconsolidated subsidiaries on the consolidated statement of operations. Our investment in LCC had a cost basis of \$42.0 million as of December 31, 2015.

Relationship with CVC Credit Partners. On April 17, 2012, Apidos Capital Management, or ACM, a former subsidiary of Resource America, was sold to CVC Credit Partners, LLC, a joint venture entity in which Resource America owns a 24% interest. CVC Credit Partners manages internally and externally originated bank loan assets on our behalf. On February 24, 2011, one of our subsidiaries purchased 100% of the ownership interests in Churchill Pacific Asset Management LLC, or CPAM, from Churchill Financial Holdings LLC for \$22.5 million. CPAM subsequently changed its name to RCAM. Through RCAM, we were entitled to collect senior, subordinated and incentive fees related to five CLO issuers, holding approximately \$1.9 billion in assets managed by RCAM. RCAM is assisted by CVC Credit Partners in managing these CLOs. CVC Credit Partners is entitled to 10% of all subordinated fees and 50% of the incentive fees received by RCAM. For the year ended December 31, 2015, CVC Credit Partners earned subordinated fees of \$1.4 million. In October 2012, we purchased 66.6% of the preferred equity in one of the RCAM CDOs. In May 2013, we purchased additional equity in this CLO, increasing our ownership percentage to 68.3%. In 2013 two of the five CLOs were called and the notes were paid down in full. In January 2016 another RCAM-managed CLO was called and \$2.4 million on impairment, on a pre-tax basis, was recorded in depreciation and amortization on our consolidated statements of operations on the related intangible asset, as of December 31, 2015.

In May, June and July 2013, we invested \$15.0 million in CVC Global Credit Opportunities Fund, L.P., a Delaware limited partnership which generally invests in assets through a master-feeder fund structure. The general partner of the feeder partnership and the master partnership is CVC Global Credit Opportunities Fund GP, LLC, an affiliate of CVC Credit Partners. The investment manager of both partnerships is CVC Credit Partners, LLC. CVC Capital Partners SICAV-FIS, S.A., a Luxembourg company, together with its affiliates, and Resource America, own a majority and a significant minority, respectively, of the investment manager. The feeder fund pays the investment manager a quarterly management fee of 1.5% annually based on the balance of each limited partner's capital account. Our management fee was waived upon entering the agreement since we are a related party of CVC Credit Partners. For the year ended December 31, 2015, we recorded earnings of \$8,000. In March 2015, we elected to withdraw \$5.0 million from the fund. In July 2015, a \$625,000 withdrawal was requested and received. In October 2015, another \$4.0 million was withdrawn from the fund. In December 2015, we elected to withdraw the remaining \$8.6 million from the fund. We retained no investment in the fund as of December 31, 2015.

Relationship with Resource Real Estate. Resource Real Estate, a subsidiary of Resource America, originates, finances and manages our commercial real estate loan portfolio, including whole loans, B notes, mezzanine loans, and investments in real estate. We reimburse Resource Real Estate for loan origination costs associated with all loans originated. We had a receivable of \$2,500 due from Resource Real Estate for loan origination costs in connection with our commercial real estate loan portfolio as of December 31, 2015.

On December 1, 2009, we purchased a membership interest in RRE VIP Borrower, LLC (an unconsolidated VIE that holds an interest in a real estate joint venture) from Resource America for \$2.1 million, its book value. RREM was asset manager of the venture and received a monthly asset management fee equal to 1.0% of the combined investment calculated as of the last calendar day of the month. The last property associated with the joint venture was sold in July 2014. The income recorded in 2015 was due to a liquidation of an existing bank account with respect to the sold properties.

On January 15, 2010, we loaned \$2.0 million to Resource Capital Partners, Inc., or RCP, a wholly-owned subsidiary of Resource America, so that it could acquire a 5.0% limited partnership interest in Resource Real Estate Opportunity Fund, L.P., or RRE Opportunity Fund. RCP is the general partner of the RRE Opportunity Fund. The loan is secured by RCP's partnership interest in the RRE Opportunity Fund. The promissory note bears interest at a fixed rate of 8.0% per annum on the unpaid principal balance. In the event of default, interest will accrue and be payable at a rate of 5.0% in excess of the fixed rate. Interest is payable quarterly. Mandatory principal payments must also be made to the extent distributable cash or other proceeds from the partnership represent a return of RCP's capital. The loan was set to mature on January 14, 2015, and RCP elected to extend the loan until January 14, 2016. The loan balance was \$558,000 at December 31, 2014, which was paid in full in April 2015.

We have closed the following four real estate securitization transactions, which provide financing for commercial real estate loans: RCC CRE Notes 2013, a \$307.8 million securitization in December 2013; RCC 2014-CRE2, a \$353.9 million securitization on July 30, 2014; RCC 2015-CRE3; a \$346.2 million securitization on February 24, 2015; and RCC 2015-CRE4, a \$312.9 million securitization on August 18, 2015. With respect to each specialty service mortgage loan, Resource Real Estate receives an amount equal to the product of (a) the Special Servicing Fee Rate, 0.25% per annum, and (b) the outstanding principal balance of such Specialty Service Mortgage Loan. The servicing fee is payable monthly, on an asset-by-asset basis. Resource Real Estate agreed to waive its rights to receive the Special Servicing Fee to the extent that we continue to hold the majority equity of the securitizations. We utilize the brokerage services of Resource Securities, Inc. ("Resource Securities"), a wholly-owned broker-dealer subsidiary of Resource America, on a limited basis to conduct some of its asset trades. We paid Resource Securities placement agent fees in connection with each transaction as follows: \$205,000, \$175,000, \$100,000 and \$85,000, respectively.

In July 2014, we formed RCM Global Manager to invest in RCM Global, an entity formed to hold a portfolio of structured product securities. We contributed \$15.0 million for a 63.8% membership interest in RCM Global. A five member board manages RCM Global, and all actions, including purchases and sales, must be approved by no less than three of the five members of the board. In March and June 2015, we requested and received a proportional, in-kind distribution in certain securities held by RCM Global. The distribution of and subsequent sale of those securities through its subsidiary, RCC Residential, resulted in the realization of \$5.0 million of net gains for the year ended December 31, 2015. As a result of these distributions, our ownership interest of the remaining assets decreased to 30.2% as of December 31, 2015.

In September 2014, we contributed \$17.5 million to Pelium Capital for an initial ownership interest of 80.4%. Pelium Capital is a specialized credit opportunity fund managed by Resource America. We have committed to contributing an additional \$2.5 million into the fund. We will receive 10% of the carried interest in the partnership for the first five years and can increase our interest to 20% if our capital contributions aggregate \$40.0 million. Resource America contributed cash of \$2.8 million to the formation of Pelium Capital. As of December 31, 2015, we held a 80.2% interest in Pelium Capital.

On April 10, 2015, we entered into two first mortgage bridge loans in the amount of \$2.5 million and \$3.3 million with two funds sponsored by Resource America, Resource Real Estate Investors LP and Resource Real Estate Investors II, LP. Each loan carried an interest rate of LIBOR plus 5.75% with a LIBOR floor of 0.25%. The loans had a maturity date of May 5, 2016, with two consecutive one-year options to extend upon the first maturity date. The loan in the amount of \$2.5 million was repaid in full with interest on April 29, 2015. The second loan in the amount of \$3.3 million was repaid in full with interest on July 31, 2015.

On June 24, 2015, we committed up to \$50.0 million in Pearlmark Mezzanine Realty Partners IV, L.P. ("Pearlmark Mezz IV L.P."), a Delaware limited partnership. The contractual fund manager of the fund is Pearlmark Real Estate LLC ("Pearlmark"), a Delaware limited liability company that is 50% owned by Resource America. We will pay Pearlmark Mezz IV L.P. management fees of 1.0% on the unfunded committed capital and 1.5% on the invested capital. We are entitled to a management fee rebate of 25% for the first year of the fund. As of December 31, 2015, we are indebted for \$94,000 for management fees, net of the rebate. In October, November and December 2015, we contributed an aggregate of \$6.9 million in capital to Pearlmark Mezz IV. As of December 31, 2015, we have an investment balance of \$6.5 million and a 47.42% ownership interest in the fund. Resource America has agreed that it will credit any such fees paid by us to Pearlmark against the base management fee that we pay to Resource America.

Relationship with Law Firm. Ledgewood is a law firm that has provided legal services to us since our formation. Mr. E. Cohen, who was of counsel to Ledgewood until April 1996, receives certain debt service payments from Ledgewood related to the termination of his affiliation with Ledgewood and its redemption of his interest in the firm. From 1995 until March 2006, Mr. Jeffrey F. Brotman was the managing member of Ledgewood. Mr. Brotman remained of counsel to Ledgewood through June 2007, at which time he became an Executive Vice President of Resource America. In connection with his separation arrangement, Mr. Brotman receives payments from Ledgewood related to the termination of his affiliation with the firm.

Policies and Procedures Regarding Related Transactions

Under our Management Agreement with the Manager and Resource America, we have established written policies regarding the offer of potential investments to us, our acquisition of those investments and the allocation of those investments among other programs managed by the Manager or Resource America. We have also established written policies regarding investing in investment opportunities in which the Manager or Resource America has an interest and regarding investing in any investment fund or CDO structured, co-structured or managed by the Manager or Resource America.

The Manager and Resource America must offer us the right to consider all investments they identify that are within the parameters of our investment strategies and policies. If the Manager and Resource America identify an investment that is appropriate both for us and for one or more other investment programs managed by them, but the amount available is less than the amount sought by all of their investment programs, they will allocate the investment among us and such other investment programs in proportion to the relative amounts of the investment sought by each. If the portion of the investment allocable to a particular investment program would be too small for it to be appropriate for that investment program, either because of economic or market inefficiency, regulatory constraints (such as REIT qualification or exclusion from regulation under the Investment Company Act) or otherwise, that portion will be reallocated among the other investment programs. Investment programs that do not receive an allocation will have preference in future investments where investment programs are seeking more of the investment than is available so that, on an overall basis, each investment program is treated equitably.

To equitably allocate investments that the Manager or Resource America has acquired at varying prices, the Manager and Resource America will allocate the investment so that each investment program will pay approximately the same average price.

The Manager and Resource America may make exceptions to these general policies when other circumstances make application of the policies inequitable or uneconomic.

The Manager has also instituted policies designed to mitigate potential conflicts of interest between it and us, including:

- We will not be permitted to invest in any investment fund or CDO structured, co-structured or managed by the Manager or Resource America other than those structured, co-structured or managed on our behalf. The Manager and Resource America will not receive duplicate management fees from any such investment fund or CDO to the extent we invest in it.
- We will not be permitted to purchase investments from, or sell investments to, the Manager or Resource America, except that we may purchase investments that have been originated by the Manager or Resource America within 60 days before our investment.
- Any transactions between entities managed by the Manager or Resource America and us must be approved by a majority of our independent directors.

Except as described above or provided for in our management agreement with the Manager and Resource America, we have not adopted a policy that expressly prohibits transactions between us or any of our directors, officers, employees, security-holders or affiliates. However, our code of business conduct and ethics prohibits any transaction that involves an actual or potential conflict except for transactions permitted under guidelines which may be adopted by our Board of Directors. No such guidelines have been adopted as of the date of this report. In addition, our Board of Directors may approve a waiver of the code of ethics and business conduct for a specific transaction, which must be reported to our stockholders to the extent required by applicable law or NYSE rule.

Director Independence

Our common stock is listed on the NYSE under the symbol “RSO” and we are subject to the NYSE's listing standards. The Board has determined that each of Messrs. Beach, Fore, Hart, Ickowicz, Levin, Neff and Ms. Wiggins satisfy the requirement for independence set out in Section 303A.02 of the rules of the NYSE and that each of these directors has no material relationship with us (other than being a director and/or a stockholder). In making its independence determinations, the Board sought to identify and analyze all of the facts and circumstances relating to any relationship between a director, his or her immediate family or affiliates and our company and our affiliates and did not rely on categorical standards other than those contained in the NYSE rules.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Audit Fees. The aggregate fees billed by our independent auditors, Grant Thornton LLP, for professional services rendered for the audit of our annual financial statements for the years ended December 31, 2015 and 2014 (including a review of internal controls for December 31, 2015 and 2014 as required under Section 404 of the Sarbanes-Oxley Act of 2002) and for the reviews of the consolidated financial statements included in our Quarterly Reports on Form 10-Q during each of the years then ended were \$976,000 and \$860,000, respectively.

Audit-Related Fees. The aggregate fees billed by Grant Thornton for audit-related services, principally including consulting on accounting issues, for the years ended December 31, 2015 and 2014 were \$159,000 and \$93,000, respectively.

Tax Fees. There were \$112,000 and \$70,500 fees paid to Grant Thornton LLP for professional services related to tax compliance, tax advice or tax planning for the years ended December 31, 2015 and 2014, respectively.

All Other Fees. We did not incur any fees in 2015 and 2014 for other services not included above.

Audit Committee Pre-Approval Policies and Procedures. The Audit Committee, on at least an annual basis, reviews audit and non-audit services performed by Grant Thornton LLP as well as the fees charged by Grant Thornton LLP for such services. Our policy is that all audit and non-audit services must be pre-approved by the Audit Committee. All of such services and fees were pre-approved during the year ended December 31, 2015.

PART IV**ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES**

(a) The following documents are filed as part of this Annual Report on Form 10-K:

1. Financial Statements

Report of Independent Registered Public Accounting Firm

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have issued our reports dated March 10, 2016, with respect to the consolidated financial statements, schedules, and internal control over financial reporting included in the Annual Report of Resource Capital Corp. and subsidiaries on Form 10-K for the year ended December 31, 2015. We hereby consent to the incorporation by reference of said reports in the Registration Statements of Resource Capital Corp. on Forms S-3 (File No. 333-187390, effective March 29, 2013, File No. 333-187419, effective March 29, 2013 and File No. 333-195844, effective March 31, 2015) and Forms S-8 (File No. 333-151622, effective on June 12, 2008, File No. 333-176448, effective on August 24, 2011 and File No. 333-200133, effective on November 12, 2014).

/s/ GRANT THORNTON LLP

Philadelphia, Pennsylvania

CERTIFICATION

I, Jonathan Z. Cohen, certify that:

1. I have reviewed this report on Form 10-K for the year ended December 31, 2015 of Resource Capital, Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

MATERIAL FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of the material federal income tax considerations relating to Resource Capital Corp.'s qualification and taxation as a real estate investment trust, or REIT, and the acquisition, holding, and disposition of Resource Capital Corp.'s capital stock. For purposes of this Exhibit, references to “we,” “us,” “our” and “company” refer to “Resource Capital Corp.” only and not its subsidiaries or other lower-tier entities, except as otherwise indicated.

This summary is based upon the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code, the Treasury regulations, current administrative interpretations and practices of the Internal Revenue Service, or the IRS, (including administrative interpretations and practices expressed in private letter rulings which are binding on the IRS only with respect to the particular taxpayers who requested and received those rulings) and judicial decisions, all as currently in effect and all of which are subject to differing interpretations or to change, possibly with retroactive effect. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below. No advance ruling has been or will be sought from the IRS regarding any matter discussed in this summary. The summary is also based upon the assumption that the operation of the company, and of its subsidiaries and other lower-tier and affiliated entities, will, in each case, be in accordance with its applicable organizational documents. This summary is for general information only, and does not purport to discuss all aspects of federal income taxation that may be important to a particular stockholder in light of its investment or tax circumstances or to stockholders subject to special tax rules, such as:

- U.S. expatriates;
- persons who mark-to-market shares of our capital stock;
- subchapter S corporations;
- U.S. stockholders (as defined below) whose functional currency is not the U.S. dollar;
- financial institutions;
- insurance companies;
- broker-dealers;
- regulated investment companies;
- trusts and estates;
- holders who receive shares of our capital stock through the exercise of employee shares options or otherwise as compensation;
- persons holding shares of our capital stock as part of a “straddle,” “hedge,” “conversion transaction,” “synthetic security” or other integrated investment;
- persons subject to the alternative minimum tax provisions of the Internal Revenue Code;
- persons holding shares of our capital stock through a partnership or similar pass-through entity;
- persons holding a 10% or more (by vote or value) beneficial interest in the company; and, except to the extent discussed below:
- tax-exempt organizations; and
- non-U.S. stockholders (as defined below).

This summary assumes that stockholders will hold our shares of capital stock as capital assets, which generally means as property held for investment.

THE FEDERAL INCOME TAX TREATMENT OF HOLDERS OF SHARES OF OUR CAPITAL STOCK DEPENDS IN SOME INSTANCES ON DETERMINATIONS OF FACT AND INTERPRETATIONS OF COMPLEX PROVISIONS OF FEDERAL INCOME TAX LAW FOR WHICH NO CLEAR PRECEDENT OR AUTHORITY MAY BE AVAILABLE. IN ADDITION, THE TAX CONSEQUENCES OF HOLDING SHARES OF OUR CAPITAL STOCK FOR ANY PARTICULAR STOCKHOLDER WILL DEPEND ON THE STOCKHOLDER'S PARTICULAR TAX CIRCUMSTANCES. YOU ARE URGED TO CONSULT YOUR TAX ADVISOR REGARDING THE FEDERAL, STATE, LOCAL, AND FOREIGN INCOME AND OTHER TAX CONSEQUENCES TO YOU, IN LIGHT OF YOUR PARTICULAR INVESTMENT OR TAX CIRCUMSTANCES, OF ACQUIRING, HOLDING, AND DISPOSING OF SHARES OF OUR CAPITAL STOCK.

Taxation of Our Company

We elected to be taxed as a REIT under the federal income tax laws effective for our initial taxable year ended on December 31, 2005. We believe that, commencing with such taxable year, we have been organized and operated in such a manner so as to qualify for taxation as a REIT under the federal income tax laws, and we intend to continue to operate in such a manner, but no assurances can be given that we have qualified or will continue to operate in a manner so as to qualify or remain qualified as a REIT. This section discusses the laws governing the federal income tax treatment of a REIT and its stockholders. These laws are highly technical and complex.

We believe that we have been organized and operated in a manner that will allow us to qualify for taxation as a REIT under the Internal Revenue Code, and we intend to continue to be organized and operated in such a manner. Qualification and taxation as a REIT depends on our ability to meet, on a continuing basis, through actual operating results, distribution levels, diversity of stock ownership, and various qualification requirements imposed upon REITs by the Internal Revenue Code and the Treasury regulations issued thereunder, including requirements relating to the nature and composition of our assets and income. Our ability to comply with the REIT asset requirements also depends, in part, upon the fair market values of assets that we own directly or indirectly. Such values may not be susceptible to a precise determination. For a discussion of the federal income tax consequences of our failure to qualify as a REIT, see “-Failure to Qualify.”

If we qualify as a REIT, we generally will not be subject to federal income tax on our net taxable income that we distribute currently to our stockholders, but taxable income generated by all of our domestic “taxable REIT subsidiaries,” or TRSs, will be subject to regular corporate income tax. However, our stockholders will generally be taxed on dividends that they receive at ordinary income rates unless such dividends are designated by us as capital gain dividends, return of capital or qualified dividend income. This differs from non-REIT C corporations, which generally are subject to federal corporate income taxes but whose individual and certain non-corporate trust and estate stockholders are generally taxed on dividends they receive at a rate of 20% in the case of taxpayers whose taxable income exceeds certain thresholds depending on filing status) on qualified dividend income, and whose corporate stockholders generally receive the benefits of a dividends received deduction that substantially reduces the effective rate that they pay on such dividends. In general, income earned by a REIT and distributed to its stockholders will be subject to less federal income taxation than if such income were earned by a non-REIT C corporation, subjected to corporate income tax, and then distributed and taxed to stockholders.

While we generally are not subject to corporate income taxes on income that we distribute currently to our stockholders, we will be subject to federal tax in the following circumstances:

- We will pay federal income tax on taxable income, including net capital gain, that we do not distribute to our stockholders during, or within a specified time period after, the calendar year in which the income is earned.
- We may be subject to the “alternative minimum tax” on any items of tax preference that we do not distribute or allocate to our stockholders.
- We will pay income tax at the highest corporate rate on:
 - net income from the sale or other disposition of property acquired through foreclosure, or foreclosure property, that we hold primarily for sale to customers in the ordinary course of business, and
 - other non-qualifying income from foreclosure property.
- We will pay a 100% tax on net income earned on sales or other dispositions of property, other than foreclosure property, that we hold primarily for sale to customers in the ordinary course of business.

- If we fail to satisfy the 75% gross income test or the 95% gross income test due to reasonable cause and not willful neglect, as described below under “-Requirements for Qualification-Gross Income Tests,” and nonetheless continue to qualify as a REIT, we will pay a 100% tax on the amount by which we fail the 75% gross income test or the 95% gross income test, multiplied, in either case, by a fraction intended to reflect our profitability.
- In the event of a failure of any of the asset tests (other than certain de minimis failures of the 5% and 10% asset tests), as described below under “-Requirements for Qualification-Asset Tests,” as long as the failure was due to reasonable cause and not to willful neglect and we dispose of the assets or otherwise comply with such asset tests within six months after the last day of the quarter, we will pay a tax equal to the greater of (i) \$50,000 or (ii) an amount determined by multiplying the highest federal income tax rate applicable to corporations by the net income from the nonqualifying assets during the period in which we failed to satisfy such asset tests.
- If we fail to satisfy one or more requirements for REIT qualification, other than the gross income tests and the asset tests, and the violation is due to reasonable cause, we may retain our qualification as a REIT but will be required to pay a penalty of \$50,000 for each such failure.
- If we fail to distribute during a calendar year at least the sum of:
 - 85% of our REIT ordinary income for the year,
 - 95% of our REIT capital gain net income for the year, and
 - any undistributed taxable income from earlier periods, we will pay a 4% nondeductible excise tax on the excess of the required distribution over the amount we actually distributed, plus any retained amounts on which income tax has been paid at the corporate level.
- We may elect to retain and pay income tax on our net capital gain. In that case, a U.S. stockholder (as defined below) would be deemed to have paid tax on its proportionate share of our undistributed capital gain and include such proportionate share in income as long-term capital gains (to the extent that we make a timely designation of such gain to the stockholder) and would receive a credit for its proportionate share of the tax we paid or receive a refund to the extent the tax paid by us exceeds the U.S. stockholder's tax liability on the undistributed capital gains.
- We will be subject to a 100% excise tax on transactions between us and a TRS that are not conducted on an arm's-length basis.
- If we acquire any asset from a C corporation, or a corporation that generally is subject to full corporate-level tax, in a merger or other transaction in which we acquire a basis in the asset that is determined by reference either to the C corporation's basis in the asset or to another asset, we will pay tax at the highest regular corporate rate applicable if we recognize gain on the sale or disposition of the asset during the 10-year period after we acquire the asset. The amount of gain on which we will pay tax is the lesser of:
 - the amount of gain that we recognize at the time of the sale or disposition, and
 - the amount of gain that we would have recognized if we had sold the asset at the time we acquired it, assuming that the C corporation will not elect in lieu of this treatment to an immediate tax when the asset is acquired.
- If we own a residual interest in a real estate mortgage investment conduit, or REMIC, we will be taxable at the highest corporate rate on the portion of any excess inclusion income that we derive from the REMIC residual interests allocable to stockholders that are “disqualified organizations.” Similar rules will also apply if we own an equity interest in a taxable mortgage pool. To the extent that we own a REMIC residual interest or a taxable mortgage pool through a TRS, we will not be subject to this tax. For a discussion of “excess inclusion income,” see “-Requirements for Qualification-Taxable Mortgage Pools.” A “disqualified organization” includes:

- the United States;
- any state or political subdivision of the United States;
- any foreign government;
- any international organization;
- any agency or instrumentality of any of the foregoing;
- any other tax-exempt organization, other than a farmer's cooperative described in section 521 of the Internal Revenue Code, that is exempt both from income taxation and from taxation under the unrelated business taxable income provisions of the Internal Revenue Code; and
- any rural electrical or telephone cooperative.

We do not currently hold, or intend to hold, REMIC residual interests but we do own residual interests in taxable mortgage pools.

In addition, notwithstanding our qualification as a REIT, we may also have to pay certain state and local income taxes, because not all states and localities treat REITs in the same manner that they are treated for federal income tax purposes. Moreover, as further described below, any domestic TRS in which we own an interest, will be subject to federal corporate income tax on its taxable income.

Requirements for Qualification

A REIT is a corporation, trust, or association that meets each of the following requirements:

- It is managed by one or more trustees or directors.
- Its beneficial ownership is evidenced by transferable shares, or by transferable certificates of beneficial interest.
- It would be taxable as a domestic corporation, but for the REIT provisions of the federal income tax laws.
- It is neither a financial institution nor an insurance company subject to special provisions of the federal income tax laws.
- At least 100 persons are beneficial owners of its shares or ownership certificates.
- Not more than 50% in value of its outstanding shares or ownership certificates is owned, directly or indirectly, by five or fewer individuals, which the federal income tax laws define to include certain entities, during the last half of any taxable year.
- It elects to be a REIT, or has made such an election for a previous taxable year, which has not been revoked or terminated, and satisfies all relevant filing and other administrative requirements established by the IRS that must be met to elect and maintain REIT status.
- It meets certain other qualification tests, described below, regarding the nature of its income and assets.

We must meet the first four requirements during our entire taxable year and must meet the fifth requirement during at least 335 days of a taxable year of 12 months, or during a proportionate part of a taxable year of less than 12 months. If we comply with regulatory rules pursuant to which we are required to send annual letters to our stockholders requesting information regarding the actual ownership of our stock, and we do not know, or exercising reasonable diligence would not have known, whether we failed to meet the sixth requirement, we will be treated as having met the requirement. For purposes of determining share ownership under the sixth requirement, an "individual" generally includes a supplemental unemployment compensation benefits plan, a private foundation, or a portion of a trust permanently set aside or used exclusively for charitable purposes. An "individual," however, generally does not include a trust that is a qualified employee pension or profit sharing trust under

the federal income tax laws, and beneficiaries of such a trust will be treated as holding our stock in proportion to their actuarial interests in the trust for purposes of the sixth requirement.

We believe that we have issued sufficient common stock with sufficient diversity of ownership to satisfy the fifth and sixth requirements. In addition, our charter restricts the ownership and transfer of our stock so that we should continue to satisfy these requirements. In addition, we must satisfy all relevant filing and other administrative requirements established by the IRS that must be met to elect and maintain our REIT qualification, use a calendar year for federal income tax purposes, and comply with the record keeping requirements of the Internal Revenue Code and regulations promulgated thereunder which we have satisfied or intend to satisfy.

Qualified REIT Subsidiaries. A corporation that is a “qualified REIT subsidiary” is not treated as a corporation separate from its parent REIT. All assets, liabilities, and items of income, deduction and credit of a “qualified REIT subsidiary” are treated as assets, liabilities, and items of income, deduction and credit of the REIT. A “qualified REIT subsidiary” is a corporation, other than a TRS, all of the capital stock of which is owned by the REIT. Thus, in applying the requirements described herein, any “qualified REIT subsidiary” that we own will be ignored, and all assets, liabilities, and items of income, deduction, and credit of such subsidiary will be treated as our assets, liabilities, and items of income, deduction and credit.

Other Disregarded Entities and Partnerships. An unincorporated domestic entity, such as a partnership or limited liability company, that has a single owner, generally is not treated as an entity separate from its parent for federal income tax purposes. An unincorporated domestic entity with two or more owners generally is treated as a partnership for federal income tax purposes. In the case of a REIT that is a partner in a partnership that has other partners, the REIT is treated as owning its proportionate share of the assets of the partnership and as earning its allocable share of the gross income of the partnership for purposes of the applicable REIT qualification tests. For purposes of the 10% value test (described in “-Asset Tests”), our proportionate share is based on our proportionate interest in the equity interests and certain debt securities issued by the partnership. For all of the other asset and income tests, our proportionate share is based on our proportionate interest in the capital interests in the partnership. Our proportionate share of the assets, liabilities and items of income of any partnership, joint venture, or limited liability company that is treated as a partnership for federal income tax purposes in which we acquire an interest, directly or indirectly, will be treated as our assets and gross income for purposes of applying the various REIT qualification requirements.

Taxable REIT Subsidiaries. A REIT is permitted to own up to 100% of the stock of one or more TRS. A TRS is generally a fully taxable corporation that may earn income that would not be qualifying income if earned directly by the parent REIT. The subsidiary and the REIT must jointly elect to treat the subsidiary as a TRS. A corporation of which a TRS directly or indirectly owns more than 35% of the voting power or value of the stock will automatically be treated as a TRS. However, an entity will not qualify as a TRS if it directly or indirectly operates or manages a lodging or health care facility or, generally, provides to another person, under a franchise, license or otherwise, rights to any brand name under which any lodging facility or health care facility is operated. Overall, no more than 25% (20% for years beginning after December 31, 2017) of the value of a REIT's assets may consist of stock or securities of one or more TRSs.

TRSs are subject to federal income tax, and state and local income tax where applicable, on their taxable income. To the extent that a TRS is required to pay taxes, it will have less cash available for distribution to us. If our TRSs pay dividends to us, then the dividends we pay to our stockholders who are taxed as individuals, up to the amount of dividends we receive from such TRSs, will generally be eligible to be taxed at the reduced rate applicable to qualified dividend income. See “-Taxation of Taxable U.S. Stockholders.” The decision as to whether our TRSs will distribute their after-tax income to us will be made on a periodic basis, subject to our compliance with the 25% (20% for years beginning after December 31, 2017) asset test with respect to TRSs.

We have made a TRS election with respect to Apidos CDO I, Ltd., or Apidos CDO I, Apidos CDO III, Ltd., or Apidos CDO III, Apidos Cinco CDO, Ltd., or Apidos Cinco CDO, Apidos CLO VIII, Ltd., or Apidos CLO VIII, Whitney CLO I Ltd, or Whitney, Harvest CLO VII Ltd., or Harvest VII, Resource TRS, Inc., or Resource TRS, Resource TRS II, Inc., Resource TRS III, Inc., Resource TRS IV, Inc., Sportsmen's Preferred SPE, LLC, Westward Look SPE, LLC, Long Term Care Conversion, Inc., RCC Residential Inc., Moselle CLO S.A., or Moselle, Harvest CLO VIII Ltd., or Harvest VIII, RCC Residential Portfolio TRS, Inc., Harvest X Investor, Ltd., or Harvest X Investor, Harvest X CLO, Ltd., or Harvest X CLO, Harvest CLO XV Designated Activity Company, or Harvest XV CLO, and we may in the future make TRS elections with respect to certain entities that issue equity interests to us pursuant to CDO securitizations. The Internal Revenue Code and the Treasury regulations promulgated thereunder provide a specific exemption from federal income tax to non-U.S. corporations that restrict their activities in the United States to trading in stock and securities (or any activity closely related thereto) for their own account, whether such trading (or such other activity) is conducted by the corporation or its employees through a resident broker, commission agent, custodian or other agent. Certain U.S. stockholders of such non-U.S. corporations are required to include in their income currently their proportionate share of the earnings of such a corporation, whether or not such earnings are distributed. Apidos CDO I, Apidos CDO III, Apidos Cinco CDO, Apidos CLO VIII, Whitney, Harvest VII, Moselle, Harvest VIII, Harvest X Investor, Harvest X CLO, Harvest XV CLO and, we expect, certain of the additional CDO vehicles in which we may invest and with which we will jointly make a TRS election, are or will be organized as Cayman Islands companies and either rely on such exemption or otherwise operate in a manner so that are not be subject to federal income tax on their net income. Therefore, despite such contemplated entities' anticipated status as TRSs, such entities generally are not subject to federal corporate income tax on their earnings. However, we are required to include in our income, on a current basis, the earnings of these TRSs. This could affect our ability to comply with the REIT income tests and distribution requirements. See “-Gross Income Tests” and “-Distribution Requirements.”

The TRS rules limit the deductibility of interest paid or accrued by a TRS to its parent REIT to assure that the TRS is subject to an appropriate level of corporate taxation. Further, the rules impose a 100% excise tax on transactions between a TRS and its parent REIT or the REIT's tenants that are not conducted on an arm's-length basis.

Taxable Mortgage Pools. An entity, or a portion of an entity, may be classified as a taxable mortgage pool under the Internal Revenue Code if:

- substantially all of its assets consist of debt obligations or interests in debt obligations;
- more than 50% of those debt obligations are real estate mortgage loans or interests in real estate mortgage loans as of specified testing dates;
- the entity has issued debt obligations that have two or more maturities; and
- the payments required to be made by the entity on its debt obligations “bear a relationship” to the payments to be received by the entity on the debt obligations that it holds as assets.

Under the Treasury regulations, if less than 80% of the assets of an entity (or a portion of an entity) consists of debt obligations, these debt obligations are considered not to comprise “substantially all” of its assets, and therefore the entity would not be treated as a taxable mortgage pool.

We have made and may continue to in the future to make investments or enter into financing and securitization transactions that give rise to us being considered to own an interest in one or more taxable mortgage pools. Where an entity, or a portion of an entity, is classified as a taxable mortgage pool, it is generally treated as a taxable corporation for federal income tax purposes. However, special rules apply to a REIT, a portion of a REIT, or a qualified REIT subsidiary that is a taxable mortgage pool. The portion of the REIT's assets, held directly or through a qualified REIT subsidiary that qualifies as a taxable mortgage pool is treated as a qualified REIT subsidiary that is not subject to corporate income tax, and the taxable mortgage pool classification does not affect the tax qualification of the REIT. Rather, the consequences of the taxable mortgage pool classification are generally, except as described below, limited to the tax liability on the REIT and the REIT's stockholders. The Treasury Department has yet to issue regulations governing the tax treatment of the stockholders of a REIT that owns an interest in a taxable mortgage pool.

A portion of our income from a taxable mortgage pool arrangement, which might be non-cash accrued income, or "phantom" taxable income, could be treated as "excess inclusion income" and allocated to our stockholders. Excess inclusion income is an amount, with respect to any calendar quarter, equal to the excess, if any, of (i) income allocable to the holder of a REMIC residual interest or taxable mortgage pool interest over (ii) the sum of an amount for each day in the calendar quarter equal to its ratable portion of the product of (a) the adjusted issue price of the interest at the beginning of the quarter multiplied by (b) 120% of the long-term federal rate (determined on the basis of compounding at the close of each calendar quarter and properly adjusted for the length of such quarter). This non-cash or "phantom" income would be subject to the distribution requirements that apply to us and could therefore adversely affect our liquidity. See "-Distribution Requirements."

Our excess inclusion income would be allocated among our stockholders in proportion to dividends paid. A stockholder's share of excess inclusion income (i) would not be allowed to be offset by any net operating losses otherwise available to the stockholder, (ii) would be subject to tax as unrelated business taxable income in the hands of most types of stockholders that are otherwise generally exempt from federal income tax, (iii) would result in the application of federal income tax withholding at the maximum rate (30%), without reduction for any otherwise applicable income tax treaty, to the extent allocable to most types of foreign stockholders and (iv) in the case of a stockholder that is a REIT, a regulated investment company or common trust fund, would be considered excess inclusion income of such entity.

Excess inclusion income is taxable (at the highest corporate tax rates) to us, rather than our stockholders, to the extent allocable to our shares held in record name by disqualified organizations (generally, tax-exempt entities not subject to unrelated business income tax, including governmental organizations). Nominees who hold our shares on behalf of disqualified organizations are subject to this tax on the portion of our excess inclusion income allocable to the capital stock held on behalf of disqualified organizations. A regulated investment company or other pass-through entity owning our capital stock in record name will be subject to tax at the highest corporate tax rate on any excess inclusion income allocated to their owners that are disqualified organizations. In addition, we will withhold on dividends paid to non-U.S. stockholders (as defined below) with respect to the excess inclusion portion of dividends paid to such stockholders without regard to any treaty exception or reduction in tax rate.

The manner in which excess inclusion income would be allocated among shares of different classes of stock is not clear under current law. Tax-exempt investors, regulated investment company or REIT investors, foreign investors and taxpayers with net operating losses should consult their tax advisors with respect to excess inclusion income.

If we own less than 100% of the ownership interests in a subsidiary that is a taxable mortgage pool, or if we made a TRS election with respect to a subsidiary that is a taxable mortgage pool, the foregoing rules would not apply. Rather, the subsidiary would be treated as a corporation for federal income tax purposes, and would potentially be subject to corporate income tax. In addition, this characterization would alter our REIT income and asset test calculations and could adversely affect our compliance with those requirements. We currently do not have any subsidiary in which we own some, but less than all, of the ownership interests that is or will become a taxable mortgage pool and for which we have not made TRS elections. We intend to monitor the structure of any taxable mortgage pools in which we have an interest to ensure that they will not adversely affect our qualification as a REIT.

Gross Income Tests

We must satisfy two gross income tests annually to maintain our qualification as a REIT. First, at least 75% of our gross income for each taxable year must consist of defined types of income that we derive, directly or indirectly, from investments relating to real property or mortgage loans on real property or qualified temporary investment income. Qualifying income for purposes of the 75% gross income test generally includes:

- rents from real property;
- interest on debt secured by a mortgage on real property, or on interests in real property;
- dividends or other distributions on, and gain from the sale of, shares in other REITs;
- gain from the sale of real estate assets;
- income derived from a REMIC in proportion to the real estate assets held by the REMIC, unless at least 95% of the REMIC's assets are real estate assets, in which case all of the income derived from the REMIC; and
- income derived from the temporary investment of new capital that is attributable to the issuance of our stock or a public offering of our debt with a maturity date of at least five years and that we receive during the one-year period beginning on the date on which we received such new capital.

Second, in general, at least 95% of our gross income for each taxable year must consist of income that is qualifying income for purposes of the 75% gross income test, other types of interest and dividends, gain from the sale or disposition of stock or securities or any combination of these. Cancellation of indebtedness income and gross income from our sale of property that we hold primarily for sale to customers in the ordinary course of business are excluded from both the numerator and the denominator in both income tests. In addition, income and gain from certain "hedging transactions," as defined in "-Hedging Transactions," that we enter into in the normal course of our business to hedge indebtedness incurred or to be incurred to acquire or carry real estate assets or to manage risk of currency fluctuations with respect to certain items of income or gain and that are clearly and timely identified as such will be excluded from both the numerator and the denominator for purposes of the gross income tests (but for hedges entered into prior to July 30, 2008, the rules applicable to hedging transactions were more restrictive). We will monitor the amount of our non-qualifying income and we will manage our investment portfolio to comply at all times with the gross income tests. The following paragraphs discuss the specific application of the gross income tests to us.

Interest. The term "interest," as defined for purposes of both gross income tests, generally excludes any amount that is based in whole or in part on the income or profits of any person. However, interest generally includes the following:

- an amount that is based on a fixed percentage or percentages of receipts or sales; and
- an amount that is based on the income or profits of a debtor, as long as the debtor derives substantially all of its income from the real property securing the debt from leasing substantially all of its interest in the property, and only to the extent that the amounts received by the debtor would be qualifying, "rents from real property" if received directly by a REIT.

If a loan contains a provision that entitles a REIT to a percentage of the borrower's gain upon the sale of the real property securing the loan or a percentage of the appreciation in the property's value as of a specific date, income attributable to that loan provision will be treated as gain from the sale of the property securing the loan, which generally is qualifying income for purposes of both gross income tests, provided that the property is not held as inventory or dealer property.

Interest on debt secured by a mortgage on real property or on interests in real property, including, for this purpose, discount points, prepayment penalties, loan assumption fees, and late payment charges that are not compensation for services, generally is qualifying income for purposes of the 75% gross income test. However, if the highest principal amount of a loan outstanding during a taxable year exceeds (1) the fair market value of the real property securing the loan as of the date the REIT agreed to originate or acquire the loan or (2) as discussed further below, in the event of a “significant modification,” the date we modified the loan, a portion of the interest income from such loan will not be qualifying income for purposes of the 75% gross income test, but will be qualifying income for purposes of the 95% gross income test. The portion of the interest income that will not be qualifying income for purposes of the 75% gross income test will be equal to the interest income multiplied by the proportion the amount by which the loan exceeds the value of the real estate that is security for the loan bears to the outstanding principal amount of the loan.

The interest, original issue discount, and market discount income that we receive from our mortgage-related assets generally, including B notes, will be qualifying income for purposes of both gross income tests. We expect that some of our loans, which we have called mezzanine loans, will not be secured by a direct interest in real property. Instead, such loans will be secured by ownership interests in a non-corporate entity owning real property. In Revenue Procedure 2003-65, the IRS established a safe harbor under which interest from loans secured by a first priority security interest in ownership interests in a partnership or limited liability company owning real property will be treated as qualifying income for both the 75% and 95% gross income tests, and the loans will be treated as qualifying assets for the purposes of the 75% asset test, provided several requirements are satisfied. Although the Revenue Procedure provides a safe harbor on which taxpayers may rely, it does not prescribe rules of substantive law. In situations where a loan is secured by interests in non-corporate entities but not all of the requirements of the safe harbor are met, the interest income from the loan will be qualifying income for purposes of the 95% gross income test, but potentially will not be qualifying income for purposes of the 75% gross income test. We have not limited ourselves to acquiring mezzanine loans that comply with all requirements of the safe harbor. Based on advice of counsel, we believe that substantially all of our mezzanine loans should be treated as qualifying assets notwithstanding the failures to comply with all of the requirements of the safe harbor and we will not treat any future mezzanine loans as qualifying assets absent such advice. Nevertheless, in light of the sparse guidance regarding mezzanine loans that do not meet with foregoing safe harbor, it is possible that the IRS could disagree and challenge the treatment of these loans as qualifying assets and/or our qualification as a REIT. In addition, certain investments characterized by us as debt for federal income tax purposes could, if successfully challenged and determined to represent equity for federal income tax purposes, result in us failing to meet the REIT gross income tests; the result of which could cause us to fail to qualify as a REIT or be subject to a penalty tax. Finally, some of our loans will not be secured by mortgages on real property or interests in real property. Our interest income from those loans will be qualifying income for purposes of the 95% gross income test, but not the 75% gross income test. Further, as discussed above, if the fair market value of the real estate securing any of our loans is less than the principal amount of the loan, a portion of the income from that loan will be qualifying income for purposes of the 95% gross income test but not the 75% gross income test.

We hold certain participation interests, including B Notes, in mortgage loans and mezzanine loans. Such interests in an underlying loan are created by virtue of a participation or similar agreement to which the originator of the loan is a party, along with one or more participants. The borrower on the underlying loan is typically not a party to the participation agreement. The performance of this investment depends upon the performance of the underlying loan, and if the underlying borrower defaults, the participant typically has no recourse against the originator of the loan. The originator often retains a senior position in the underlying loan, and grants junior participations which absorb losses first in the event of a default by the borrower. We believe that our participation interests qualify as real estate assets for purposes of the REIT asset tests described below, and that the interest that we derive from such investments will be treated as qualifying mortgage interest for purposes of the 75% income test. The appropriate treatment of participation interests for federal income tax purposes is not entirely certain, however, and no assurance can be given that the IRS will not challenge our treatment of our participation interests. In the event of a determination that such participation interests do not qualify as real estate assets, or that the income that we derive from such participation interests does not qualify as mortgage interest for purposes of the REIT asset and income tests, we could be subject to a penalty tax, or could fail to qualify as a REIT. See “-Taxation of Our Company,” “-Requirements for Qualification,” “-Asset Tests” and “-Failure to Qualify.”

We have modified some of our loans by agreement with the borrowers, and especially in light of current economic conditions, we may agree to additional loan modifications. If the amendments to an outstanding loan results in a “significant modifications” under the applicable Treasury regulations, the modified debt is generally treated for federal income tax purposes as a new debt instrument issued in exchange for the original loan. Long-standing REIT regulations might be read to require us to redetermine whether the amount of the loan exceeds the fair market value of the real property securing the loan as of the

date of such a significant modification for purposes of apportioning interest under the gross income tests. Because modifications often occur in distressed scenarios, this retesting of the new debt instrument for REIT qualification purposes may result in a portion of a loan that was a qualifying real estate asset prior to modification to be treated as a non-qualifying security that produces non-qualifying income for the 75% income test, which could result in loss of our REIT qualification. The IRS issued Revenue Procedure 2011-16, which was recently modified and superseded by Revenue Procedure 2014-51, under which we would not be required to revalue the real estate underlying the new debt instrument for purposes of the 75% gross income test and the REIT asset tests if the modification occurred by default or certain other conditions apply.

In addition, although not currently contemplated, in the event that we invest in a mortgage that is secured by both real property and other property, and the loan is not fully secured by real property, we would be required to apportion our annual interest income to the real property security based on a fraction, the numerator of which is the value of the real property securing the loan, determined when we commit to acquire the loan, and the denominator of which is the highest “principal amount” of the loan during the year. Revenue Procedure 2014-51 interprets the “principal amount” of the loan to be the face amount of the loan, despite the Internal Revenue Code requiring taxpayers to treat any market discount, that is the difference between the purchase price of the loan and its face amount, for all purposes (other than certain withholding and information reporting purposes) as interest rather than principal. Any mortgage loan that we invest in that is not fully secured by real property may therefore be subject to the interest apportionment rules and the position taken in Revenue Procedure 2014-51 as described above.

Fee Income. We may receive various fees in connection with our operations. The fees will be qualifying income for purposes of both the 75% and 95% gross income tests if they are received in consideration for entering into an agreement to make a loan secured by mortgages on real property and the fees are not determined by income and profits. Other fees for services are not qualifying income for purposes of either gross income test. Any fees earned by Resource TRS and any other TRS, will not be included in our gross income for purposes of the gross income tests.

Dividends. Our share of any dividends received from any corporation (including any TRS, but excluding any REIT) in which we own an equity interest will qualify for purposes of the 95% gross income test but not for purposes of the 75% gross income test. Our share of any dividends received from any other REIT in which we own an equity interest will be qualifying income for purposes of both gross income tests.

We treat certain income inclusions received with respect to our current and contemplated equity investments in foreign TRSs, such as Apidos CDO I, Apidos CDO III, Apidos Cinco CDO, Apidos CLO VIII, Whitney, Harvest VII, Moselle, Harvest VIII, Harvest X Investor and , Harvest X CLO and Harvest XV CLO as qualifying income for purposes of the 95% gross income test but not the 75% gross income test. The provisions that set forth what income is qualifying income for purposes of the 95% gross income test provide that gross income derived from dividends, interest and certain other enumerated classes of passive income qualify for purposes of the 95% gross income test. Income inclusions from equity investments in our foreign TRSs are technically neither dividends nor any of the other enumerated categories of income specified in the 95% gross income test for federal income tax purposes, and there is no clear precedent with respect to the qualification of such income for purposes of the REIT gross income tests. However, based on advice of counsel, we treat such income inclusions, to the extent distributed by a foreign TRS in the year accrued, as qualifying income for purposes of the 95% gross income test. In 2011, the IRS issued two private letter rulings considering situations in which a REIT had to include income from foreign corporations. The IRS ruled that such income would qualify for the 95% gross income test. Since private letter rulings only protect the recipient of the letter, it is still possible that, because this income does not meet the literal requirements of the REIT provisions, the IRS could successfully take the position that such income is not qualifying income. In the event that such income was determined not to qualify for the 95% gross income test, we would be subject to a penalty tax with respect to such income to the extent it and other nonqualifying income exceeds 5% of our gross income and/or we could fail to qualify as a REIT. In any event, as noted above, such income does not constitute qualifying income satisfying the 75% gross income test. The amount of such income could be substantial, and a decline in the amount of income from qualifying sources relative to income from such TRSs could jeopardize our compliance with the 75% gross income test, and in the event determined to be non-qualifying income for the 95% gross income test such income from TRSs could result in our failing to qualify as a REIT or having to pay a substantial penalty tax.

Rents from Real Property. We have acquired real property through foreclosure and may acquire additional real property or an interest therein in the future. To the extent that we acquire real property or an interest therein, rents we receive will qualify as “rents from real property” in satisfying the gross income requirements for a REIT described above only if the following conditions are met:

- ÿ First, the amount of rent must not be based in whole or in part on the income or profits of any person. However, an amount received or accrued generally will not be excluded from rents from real property solely by reason of being based on fixed percentages of receipts or sales.
- ÿ Second, rents we receive from a “related party tenant” will not qualify as rents from real property in satisfying the gross income tests unless the tenant is a TRS, at least 90% of the property is leased to unrelated tenants and the rent paid by the TRS is substantially comparable to the rent paid by the unrelated tenants for comparable space. A tenant is a related party tenant if the REIT, or an actual or constructive owner of 10% or more of the REIT, actually or constructively owns 10% or more of the tenant.
- ÿ Third, if rent attributable to personal property, leased in connection with a lease of real property, is greater than 15% of the total rent received under the lease, then the portion of rent attributable to the personal property will not qualify as rents from real property.
- ÿ Fourth, we generally must not operate or manage our real property or furnish or render services to our tenants, other than through an “independent contractor” who is adequately compensated and from whom we do not derive revenue. However, we may provide services directly to tenants if the services are “usually or customarily rendered” in connection with the rental of space for occupancy only and are not considered to be provided for the tenants' convenience. In addition, we may provide a minimal amount of “non-customary” services to the tenants of a property, other than through an independent contractor, as long as our income from the services does not exceed 1% of our income from the related property. Furthermore, we may own up to 100% of the stock of a TRS, which may provide customary and non-customary services to tenants without tainting its rental income from the related properties.

Hedging Transactions and Foreign Currency Gains. From time to time, we may enter into hedging transactions with respect to one or more of our assets or liabilities. Income and gain from a “hedging transaction” that is clearly identified as a hedging transaction as specified in the Internal Revenue Code will not constitute gross income and thus will be exempt from the 95% gross income test and, to the extent such hedging transaction was entered into after July 30, 2008, will not constitute gross income and thus will be exempt from the 75% gross income test. Income and gain from a hedging transaction, including gain from the sale or disposition of such a transaction, entered into on or prior to July 30, 2008 will be treated as nonqualifying income for purposes of the 75% gross income test. The term “hedging transaction” as used above generally means any transaction entered into in the normal course of business primarily to manage risk of (1) interest rate changes or fluctuations with respect to borrowings made or to be made, or incurred or to be incurred, to acquire or carry real estate assets, or (2) for hedging transactions entered into after July 30, 2008, currency fluctuations with respect to an item of qualifying income under the 75% or 95% gross income test. We are required to clearly identify any such hedging transaction before the close of the day on which it was acquired, originated, or entered into. To the extent that we do not properly identify such transactions as hedges or hedge with other types of financial instruments, the income from those transactions will likely be treated as nonqualifying income for purposes of the gross income tests. We intend to structure any hedging transactions in a manner that does not jeopardize our qualification as a REIT. In addition, certain foreign currency gains recognized after July 30, 2008 will be excluded from gross income for purposes of one or both of the gross income tests.

Prohibited Transactions. A REIT will incur a 100% tax on the net income derived from any sale or other disposition of property, other than foreclosure property, that the REIT holds primarily for sale to customers in the ordinary course of a trade or business. We believe that none of our assets will be held primarily for sale to customers and that a sale of any of our assets will not be in the ordinary course of our business. Whether a REIT holds an asset “primarily for sale to customers in the ordinary course of a trade or business” depends, however, on the facts and circumstances in effect from time to time, including those related to a particular asset. Nevertheless, we will attempt to comply with the terms of safe-harbor provisions in the federal income tax laws prescribing when a sale of real property will not be characterized as a prohibited transaction. We cannot assure you however, that we can comply with the safe-harbor provisions or that we will avoid owning property that may be characterized as property that we hold “primarily for sale to customers in the ordinary course of a trade or business.” To the extent necessary to avoid the prohibited transactions tax, we will conduct sales of our assets through a TRS.

Foreclosure Property. We will be subject to tax at the maximum corporate rate on any income from foreclosure property, other than income that otherwise would be qualifying income for purposes of the 75% gross income test, less expenses directly connected with the production of that income. However, gross income from foreclosure property will qualify under the 75% and 95% gross income tests. Foreclosure property is any real property, including interests in real property, and any personal property incident to such real property:

- that is acquired by a REIT as the result of the REIT having bid on such property at foreclosure, or having otherwise reduced such property to ownership or possession by agreement or process of law, after there was default or default was imminent on a lease of such property or on indebtedness that such property secured;
- for which the related loan or lease was acquired by the REIT at a time when the default was not imminent or anticipated; and
- for which the REIT makes a proper election to treat the property as foreclosure property.

However, a REIT will not be considered to have foreclosed on a property where the REIT takes control of the property as a mortgagee-in-possession and cannot receive any profit or sustain any loss except as a creditor of the mortgagor. Property generally ceases to be foreclosure property at the end of the third taxable year following the taxable year in which the REIT acquired the property, or longer if an extension is granted by the Secretary of the Treasury. This grace period terminates and foreclosure property ceases to be foreclosure property on the first day:

- on which a lease is entered into for the property that, by its terms, will give rise to income that does not qualify for purposes of the 75% gross income test, or any amount is received or accrued, directly or indirectly, pursuant to a lease entered into on or after such day that will give rise to income that does not qualify for purposes of the 75% gross income test;
- on which any construction takes place on the property, other than completion of a building or any other improvement, where more than 10% of the construction was completed before default became imminent; or
- which is more than 90 days after the day on which the REIT acquired the property and the property is used in a trade or business which is conducted by the REIT, other than through an independent contractor from whom the REIT itself does not derive or receive any income.

Failure to Satisfy Gross Income Tests. If we fail to satisfy one or both of the gross income tests for any taxable year, we nevertheless may qualify as a REIT for that year if we qualify for relief under certain provisions of the federal income tax laws. Those relief provisions generally will be available if:

- our failure to meet such tests is due to reasonable cause and not due to willful neglect; and
- following such failure for any taxable year, a schedule of the sources of our income is filed in accordance with regulations prescribed by the Secretary of the Treasury.

It is not possible, however, to state whether in all circumstances we would be entitled to the benefit of these relief provisions. For example, if the IRS were to determine that we failed the 95% gross income test because income inclusions with respect to our equity investments in foreign TRSs that were distributed by the foreign TRSs during the year such income was accrued are not qualifying income for purposes of the 95% gross income test, or if such income caused us to fail the 75% gross income test, the IRS could conclude that our failure to satisfy the applicable gross income test was not due to reasonable cause. If these relief provisions are inapplicable to such failure, we will fail to qualify as a REIT. See “Failure to Qualify.” In addition, as discussed above in “-Taxation of Our Company,” even if the relief provisions apply, we would incur a 100% tax on the gross income attributable to the amount by which we fail the 75% or 95% gross income test, multiplied, in either case, by a fraction intended to reflect our profitability.

Asset Tests

To qualify as a REIT, we also must satisfy the following asset tests at the end of each quarter of each taxable year. First, at least 75% of the value of our total assets must consist of:

- cash or cash items, including certain receivables;
- government securities;
- interests in real property, including leaseholds and options to acquire real property and leaseholds;
- interests in mortgage loans secured by real property;
- stock in other REITs;
- investments in stock or debt instruments during the one-year period following our receipt of new capital that we raise through equity offerings or public offerings of debt with at least a five-year term; and
- regular or residual interests in a REMIC.

However, if less than 95% of the assets of a REMIC consists of assets that are qualifying real estate-related assets under the federal income tax laws, determined as if we held such assets, we will be treated as holding directly our proportionate share of the assets of such REMIC.

Second, of our investments not included in the 75% asset class, the value of our interest in any one issuer's securities may not exceed 5% of the value of our total assets.

Third, of our investments not included in the 75% asset class, we may not own more than 10% of the voting power or value of any one issuer's outstanding securities.

Fourth, of our investments not included in the 75% asset class, no more than 25% (20% for years beginning after December 31, 2017) of the value of our total assets may consist of the securities of one or more TRSs.

Fifth, of our investments not included in the 75% asset class, no more than 25% of the value of our total assets may consist of securities other than those in the 75% asset class.

For purposes of the second, third and fifth asset tests, the term “securities” does not include stock in another REIT, equity or debt securities of a qualified REIT subsidiary or TRS, mortgage loans that constitute real estate assets, or equity interests in a partnership.

For purposes of the 10% value test, the term “securities” does not include:

- “Straight debt” securities, which is defined as a written unconditional promise to pay on demand or on a specified date a sum certain in money if (i) the debt is not convertible, directly or indirectly, into stock, and (ii) the interest rate and interest payment dates are not contingent on profits, the borrower's discretion, or similar factors. “Straight debt” securities do not include any securities issued by a partnership or a corporation in which we or any controlled TRS (i.e., a TRS in which we own directly or indirectly more than 50% of the voting power or value of the stock) hold non- “straight debt” securities that have an aggregate value of more than 1% of the issuer's outstanding securities. However, “straight debt” securities include debt subject to the following contingencies:
 - a contingency relating to the time of payment of interest or principal, as long as either (i) there is no change to the effective yield of the debt obligation, other than a change to the annual yield that does not exceed the greater of 0.25% or 5% of the annual yield, or (ii) neither the aggregate issue price nor the aggregate face amount of the issuer's debt obligations held by us exceeds \$1 million and no more than 12 months of unaccrued interest on the debt obligations can be required to be prepaid; and
 - a contingency relating to the time or amount of payment upon a default or prepayment of a debt obligation, as long as the contingency is consistent with customary commercial practice.
- Any loan to an individual or an estate.
- Any “section 467 rental agreement,” other than an agreement with a related party tenant.
- Any obligation to pay “rents from real property.”
- Certain securities issued by governmental entities.
- Any security issued by a REIT.
- Any debt instrument issued by an entity treated as a partnership for federal income tax purposes to the extent of our interest as a partner in the partnership.
- Any debt instrument issued by an entity treated as a partnership for federal income tax purposes not described above if at least 75% of the partnership's gross income, excluding income from prohibited transaction, is qualifying income for purposes of the 75% gross income test described above in “-Requirements for Qualification-Gross Income Tests.”

As discussed above under “Gross Income Tests”, we hold and may make additional mezzanine loans that do not comply with the IRS safe harbor, but which we treat as qualifying assets. Although we believe substantially all of our mezzanine loans are qualifying assets, it is possible that the IRS could challenge our characterization of such loans and our qualification as a REIT. If any such IRS challenge was successful, the applicable mezzanine loan would be subject to the second, third and fifth asset tests described above.

We believe that most of the residential mortgage loans (including the B notes) and mortgage-backed securities, or MBS, that we have held and expect to hold have been and will be qualifying assets for purposes of the 75% asset test. For purposes of these rules, however, if the outstanding principal balance of a mortgage loan exceeds the fair market value of the real property securing the loan at the time we commit to acquire the loan, a portion of such loan likely will not be a qualifying real estate asset under the federal income tax laws. Furthermore, we may be required to retest modified loans that we hold to determine if the modified loan is adequately secured by real property if the modification results in a significant modification, as discussed above in “Gross Income Tests-Interest.” Although the law on the matter is not entirely clear, it appears that the non-qualifying portion of that mortgage loan will be equal to the portion of the loan amount that exceeds the value of the associated real property that is security for that loan.

In the event that we invest in a mortgage loan that is secured by both real property and other property, Revenue Procedure 2014-51 may apply to determine what portion of the mortgage loan will be treated as a real estate asset for purposes of the 75% asset test. Pursuant to Revenue Procedure 2014-51, modifying and superseding Revenue Procedure 2011-16, the IRS will not challenge a REIT's treatment of a loan as being, in part, a qualifying real estate asset in an amount equal to the lesser of (1) the fair market value of the loan on the date of the relevant quarterly REIT asset testing date or (2) the greater of (a) the fair market value of the real property securing the loan on the date of the relevant quarterly REIT asset testing date or (b) the fair market value of the real property securing the loan determined as of the date the REIT committed to acquire the loan. Our debt securities issued by other REITs or corporations that are not secured by mortgages on real property will not be qualifying assets for purposes of the 75% asset test. We believe that any stock that we will acquire in other REITs will be qualifying assets for purposes of the 75% asset test. However, if a REIT in which we own stock fails to qualify as a REIT in any year, the stock in such REIT will not be a qualifying asset for purposes of the 75% asset test. Instead, we would be subject to the second, third, and fifth assets tests described above with respect to our investment in such a disqualified REIT. We will also be subject to those assets tests with respect to our investments in any non-REIT C corporations for which we do not make a TRS election. We believe that the value of our investment in Resource TRS, together with the value of our interest in the securities of our TRSs, including our TRS securitizations such as Apidos CDO I, Apidos CDO III, Apidos Cinco CDO, Apidos CLO VIII, Whitney, Harvest VII, Moselle, Harvest VIII, Harvest X Investor and, Harvest X CLO and Harvest XV CLO, has been and will continue to be less than 25% (and less than 20% for years beginning after December 31, 2017) of the value of our total assets.

We will monitor the status of our assets for purposes of the various asset tests and will seek to manage our portfolio to comply at all times with such tests. There can be no assurances, however, that we will be successful in this effort. In this regard, to determine our compliance with these requirements, we will need to estimate the value of the real estate securing our mortgage loans at various times, including at the time of any modification that results in a significant modification to a debt instrument we hold. In addition, we will have to value our investment in our other assets to ensure compliance with the asset tests. Although we will seek to be prudent in making these estimates, there can be no assurances that the IRS might not disagree with these determinations and assert that a different value is applicable, in which case we might not satisfy the 75% and the other asset tests and would fail to qualify as a REIT. If we fail to satisfy the asset tests at the end of a calendar quarter, we will not lose our REIT qualification if:

- we satisfied the asset tests at the end of the preceding calendar quarter; and
- the discrepancy between the value of our assets and the asset test requirements arose from changes in the market values of our assets and was not wholly or partly caused by the acquisition of one or more non-qualifying assets

If we did not satisfy the condition described in the second item, above, we still could avoid disqualification by eliminating any discrepancy within 30 days after the close of the calendar quarter in which it arose.

In the event that we violate the second or third asset tests described above at the end of any calendar quarter, we will not lose our REIT qualification if the failure is de minimis (up to the lesser of 1% of the total value of our assets at the end of the quarter in which the failure occurs or \$10 million) and we dispose of assets or otherwise comply with the asset tests within six months after the last day of the quarter. In the event of a failure of any of the asset tests (other than a de minimis failure of the 5% and 10% asset tests described in the preceding sentence), as long as the failure was due to reasonable cause and not to willful neglect, we will not lose our REIT qualification if we dispose of assets or otherwise comply with the asset tests within six months after the last day of the quarter in which our identification of the failure occurs and pay a tax equal to the greater of \$50,000 or an amount determined by multiplying the highest federal income tax rate applicable to corporations by the net income from the nonqualifying assets during the period in which we failed to satisfy the asset tests.

We currently believe that the mortgage-related assets, securities and other assets that we expect to hold will satisfy the foregoing asset test requirements. However, no independent appraisals will be obtained to support our conclusions as to the value of our assets and securities, or in many cases, the real estate collateral for the mortgage loans that we hold. Moreover, the values of some assets, such as the securities of some of our TRSs, may not be susceptible to a precise determination. As a result, there can be no assurance that the IRS will not contend that our ownership of securities and other assets violates one or more of the asset tests applicable to REITs.

We currently have financing arrangements that are structured as sale and repurchase agreements pursuant to which we sell certain of our assets to a counter party and simultaneously enter into an agreement to repurchase these assets at a later date in exchange for a purchase price. Economically, these agreements are financings which are secured by the assets sold pursuant thereto. We believe that we would be treated for REIT asset and income test purposes as the owner of the assets that are the subject of any such sale and repurchase agreement notwithstanding that such agreements may transfer record ownership of the assets to the counterparty during the term of the agreement. It is possible, however, that the IRS could assert that we did not own the assets during the term of the sale and repurchase agreement, in which case we could fail to qualify as a REIT.

Distribution Requirements

Each taxable year, we must distribute dividends, other than capital gain dividends and deemed distributions of retained capital gain, to our stockholders in an aggregate amount at least equal to:

- the sum of
 - 90% of our “REIT taxable income,” computed without regard to the dividends paid deduction and our net capital gain, and
 - 90% of our after-tax net income, if any, from foreclosure property, minus
 - the sum of certain items of non-cash income.

We must make such distributions in the taxable year to which they relate, or in the following taxable year if either (i) we declare the distribution before we timely file our federal income tax return for the year and pay the distribution on or before the first regular dividend payment date after such declaration or (ii) we declare the distribution in October, November or December of the taxable year, payable to stockholders of record on a specified day in any such month, and we actually make the distribution before the end of January of the following year. The distributions under clause (i) are taxable to the stockholders in the year in which paid, and the distributions in clause (ii) are treated as paid on December 31 of the prior taxable year. In both instances, these distributions relate to our prior taxable year for purposes of the 90% distribution requirement.

We may satisfy the 90% distribution test with taxable distributions of our stock or debt securities. The IRS has issued private letter rulings to other REITs treating certain distributions that are paid partly in cash and partly in stock as dividends that would satisfy the REIT annual distribution requirement and qualify for the dividends paid deduction for federal income tax purposes. Those rulings may be relied upon only by taxpayers to whom they were issued, but we could request a similar ruling from the IRS. Accordingly, it is unclear whether and to what extent we will be able to make taxable dividends payable in cash and stock. We have no current intention to make a taxable dividend payable in our stock.

We will pay federal income tax on taxable income, including net capital gain, that we do not distribute to stockholders. Furthermore, if we fail to distribute during a calendar year, or by the end of January following the calendar year in the case of distributions with declaration and record dates falling in the last three months of the calendar year, at least the sum of:

- 85% of our REIT ordinary income for such year,
- 95% of our REIT capital gain income for such year, and
- any undistributed taxable income from prior periods,

We will incur a 4% nondeductible excise tax on the excess of such required distribution over the amounts we actually distribute. We may elect to retain and pay income tax on the net capital gain we receive in a taxable year. See “-Taxation of Taxable U.S. Stockholders.” If we so elect, we will be treated as having distributed any such retained amount for purposes of the 4% nondeductible excise tax described above. We intend to make timely distributions sufficient to satisfy the annual distribution requirements and to avoid corporate income tax and the 4% nondeductible excise tax.

It is possible that, from time to time, we may experience timing differences between the actual receipt of income and actual payment of deductible expenses and the inclusion of that income and deduction of such expenses in arriving at our REIT taxable income. Possible examples of those timing differences include the following:

- Because we may deduct capital losses only to the extent of our capital gains, we may have taxable income that exceeds our economic income.
- We will recognize taxable income in advance of the related cash flow if any of our MBS are deemed to have original issue discount. We generally must accrue original issue discount based on a constant yield method that takes into account projected prepayments but that defers taking into account credit losses until they are actually incurred.
- We will include in our taxable income for federal income tax purposes, items of income from certain of our CDO entities, such as Apidos CDO I, Apidos CDO III, Apidos Cinco CDO and, Apidos CLO VIII, Whitney, Harvest VII, Moselle, Harvest VIII, Harvest X Investor, Harvest X CLO and Harvest XV CLO, in which we hold an interest, even in the absence of actual cash distributions.
- We may recognize taxable market discount income when we receive the proceeds from the disposition of, or principal payments on, loans that have a stated redemption price at maturity that is greater than our tax basis in those loans, although such proceeds often will be used to make non-deductible principal payments on related borrowings.
- We may recognize phantom taxable income from any residual interests in REMICs or equity interests in taxable mortgage pools not held through a TRS.

Although several types of non-cash income are excluded in determining the annual distribution requirement, we will incur corporate income tax and the 4% nondeductible excise tax with respect to those non-cash income items if we do not distribute those items on a current basis. As a result of the foregoing, we may have less cash than is necessary to distribute all of our taxable income and thereby avoid corporate income tax and the excise tax imposed on certain undistributed income. In such a situation, we may need to borrow funds or issue additional common or preferred stock.

Under certain circumstances, we may be able to correct a failure to meet the distribution requirement for a year by paying “deficiency dividends” to our stockholders in a later year. We may include such deficiency dividends in our deduction for dividends paid for the earlier year. Although we may be able to avoid income tax on amounts distributed as deficiency dividends, we will be required to pay interest to the IRS based upon the amount of any deduction we take for deficiency dividends.

Recordkeeping Requirements

We must maintain certain records in order to qualify as a REIT. In addition, to avoid a monetary penalty, we must request on an annual basis information from our stockholders designed to disclose the actual ownership of our outstanding stock. We intend to comply with these requirements.

Failure to Qualify

If we fail to satisfy one or more requirements for REIT qualification, other than the gross income tests and the asset tests, we could avoid disqualification if our failure is due to reasonable cause and not to willful neglect and we pay a penalty of \$50,000 for each such failure. In addition, there are relief provisions for a failure of the gross income tests and asset tests, as described in “-Gross Income Tests” and “-Asset Tests.”

If we fail to qualify as a REIT in any taxable year, and no relief provision applies, we would be subject to federal income tax and any applicable alternative minimum tax on our taxable income at regular corporate rates. In calculating our taxable income in a year in which we fail to qualify as a REIT, we would not be able to deduct amounts paid out to stockholders. In fact, we would not be required to distribute any amounts to stockholders in that year. In such event, to the extent of our current and accumulated earnings and profits, all distributions to stockholders would be taxable as dividend income. Subject to certain limitations of the federal income tax laws, corporate stockholders might be eligible for the dividends received deduction, and individual and certain non-corporate trust and estate stockholders may be eligible for the reduced federal income tax rate of 15% on such dividends. Unless we qualified for relief under specific statutory provisions, we also would be disqualified from electing to be taxed as a REIT for the four taxable years following the year during which we ceased to qualify as a REIT. We cannot predict whether in all circumstances we would qualify for such statutory relief.

Taxation of Taxable U.S. Stockholders

The term “U.S. stockholder” means a holder of our capital stock that, for federal income tax purposes, is:

- a citizen or resident (as defined in Section 7701(b) of the Internal Revenue Code) of the United States;
- a corporation (including an entity treated as a corporation for federal income tax purposes) created or organized under the laws of the United States, any of its States, or the District of Columbia;
- an estate whose income is subject to federal income taxation regardless of its source; or
- any trust if (i) a U.S. court is able to exercise primary supervision over the administration of such trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (ii) it has a valid election in place to be treated as a U.S. person.

If a partnership, entity or arrangement treated as a partnership for federal income tax purposes holds our capital stock, the federal income tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. If you are a partner in a partnership holding our capital stock, you should consult your tax advisor regarding the consequences of the purchase, ownership and disposition of our capital stock by the partnership. A “non-U.S. stockholder” is a holder of our capital stock that is not a U.S. stockholder, a partnership or an entity classified as a partnership for U.S. federal income tax purposes.

As long as we qualify as a REIT, a taxable “U.S. stockholder” must generally take into account as ordinary income distributions made out of our current or accumulated earnings and profits that we do not designate as capital gain dividends or retained long-term capital gain. For purposes of determining whether a distribution is made out of our current or accumulated earnings and profits, our earnings and profits will be allocated first to our preferred stock, then to our common stock. A U.S. stockholder will not qualify for the dividends received deduction generally available to corporations. In addition, dividends paid to a U.S. stockholder generally will not qualify as “qualified dividend income” for the maximum tax rate accorded to capital gains. Qualified dividend income generally includes dividends paid to individuals, trusts and estates by domestic C corporations and certain qualified foreign corporations. Because we are not generally subject to federal income tax on the portion of our REIT taxable income distributed to our stockholders (see “-Taxation of Our Company” above), our dividends generally will not be eligible for the 20% rate (in the case of taxpayers whose taxable income exceeds certain thresholds depending on filing status) on qualified dividend income. As a result, our ordinary REIT dividends will continue to be taxed at the higher tax rate applicable to ordinary income. Currently, the highest marginal individual income tax rate on ordinary income is 39.6%. However, the maximum 20% tax rate for qualified dividend income will apply to our ordinary REIT dividends attributable to dividends received by us from non-REIT corporations, such as our domestic TRSs (but generally not from our TRSs organized as Cayman organizations), and to the extent attributable to income upon which we have paid corporate income

tax (e.g., to the extent that we distribute less than 100% of our taxable income). In general, to qualify for the reduced tax rate on qualified dividend income, a stockholder must hold our capital stock for more than 60 days during the 121-day period beginning on the date that is 60 days before the date on which our capital stock became ex-dividend. For 2013 and subsequent years, U.S. stockholders other than corporations will also be subject to a 3.8% Medicare surtax on investment income (including both qualified and nonqualified dividends) if certain thresholds of modified adjusted gross income are exceeded.

A U.S. stockholder generally will recognize distributions that we designate as capital gain dividends as long-term capital gain without regard to the period for which the U.S. stockholder has held our capital stock. A corporate U.S. stockholder, however, may be required to treat up to 20% of certain capital gain dividends as ordinary income.

A U.S. stockholder will not incur tax on a distribution in excess of our current and accumulated earnings and profits if the distribution does not exceed the adjusted basis of the U.S. stockholder's capital stock. Instead, the distribution will reduce the adjusted basis of such capital stock. A U.S. stockholder will recognize a distribution in excess of both our current and accumulated earnings and profits and the U.S. stockholder's adjusted basis in his or her capital stock as long-term capital gain, or short-term capital gain if the shares of capital stock have been held for one year or less, assuming the shares of capital stock are a capital asset in the hands of the U.S. stockholder. In addition, if we declare a distribution in October, November, or December of any year that is payable to a U.S. stockholder of record on a specified date in any such month, such distribution will be treated as both paid by us and received by the U.S. stockholder on December 31 of such year, provided that we actually pay the distribution during January of the following calendar year.

Stockholders may not include in their individual income tax returns any of our net operating losses or capital losses. Instead, these losses are generally carried over by us for potential offset against our future income. Taxable distributions from us and gain from the disposition of our capital stock will not be treated as passive activity income and, therefore, stockholders generally will not be able to apply any "passive activity losses," such as losses from certain types of limited partnerships in which the stockholder is a limited partner, against such income. In addition, taxable distributions from us and gain from the disposition of our capital stock generally will be treated as investment income for purposes of the investment interest limitations. We will notify stockholders after the close of our taxable year as to the portions of the distributions attributable to that year that constitute ordinary income, return of capital and capital gain.

We may recognize taxable income in excess of our economic income, known as phantom income, in the first years that we hold certain investments, and experience an offsetting excess of economic income over our taxable income in later years. As a result, stockholders at times may be required to pay federal income tax on distributions that economically represent a return of capital rather than a dividend. These distributions would be offset in later years by distributions representing economic income that would be treated as returns of capital for federal income tax purposes. Taking into account the time value of money, this acceleration of federal income tax liabilities may reduce a stockholder's after-tax return on his or her investment to an amount less than the after-tax return on an investment with an identical before-tax rate of return that did not generate phantom income. For example, if an investor with a 30% tax rate purchases a taxable bond with an annual interest rate of 10% on its face value, the investor's before-tax return on the investment would be 10% and the investor's after-tax return would be 7%. However, if the same investor purchased our capital stock at a time when the before-tax rate of return was 10%, the investor's after-tax rate of return on such stock might be somewhat less than 7% as a result of our phantom income. In general, as the ratio of our phantom income to our total income increases, the after-tax rate of return received by a taxable stockholder will decrease. We will consider the potential effects of phantom income on our taxable stockholders in managing our investments.

Any excess inclusion income (See "-Requirements for Qualification-Taxable Mortgage Pools" for a definition of excess inclusion income) that we recognize generally will be allocated among our stockholders to the extent that it exceeds our undistributed REIT taxable income in a particular year. A stockholder's share of excess inclusion income would not be allowed to be offset by any net operating losses or other deductions otherwise available to the stockholder.

Taxation of U.S. Stockholders on the Disposition of Capital Stock

In general, a U.S. stockholder who is not a dealer in securities must treat any gain or loss realized upon a taxable disposition of our capital stock as long-term capital gain or loss if the U.S. stockholder has held the capital stock for more than one year and otherwise as short-term capital gain or loss. In general, a U.S. stockholder will realize gain or loss in an amount equal to the difference between (i) the sum of the fair market value of any property and the amount of cash received in such disposition and (ii) the U.S. stockholder's adjusted basis in the shares for tax purposes. Such adjusted tax basis will equal the U.S. stockholder's acquisition cost, increased by the excess of net capital gains deemed distributed to the U.S. stockholder (discussed above) less tax deemed paid on it and reduced by any returns of capital. However, a U.S. stockholder must treat any loss upon a sale or exchange of capital stock held by such stockholder for six months or less as a long-term capital loss to the extent of

capital gain dividends and any other actual or deemed distributions from us that such U.S. stockholder treats as long-term capital gain. All or a portion of any loss that a U.S. stockholder realizes upon a taxable disposition of our capital stock may be disallowed if the U.S. stockholder purchases other capital stock within 30 days before or after the disposition.

Conversion of Preferred Stock

Except as provided below, (i) a U.S. stockholder generally will not recognize gain or loss upon a conversion of preferred stock into our common stock, and (ii) a U.S. stockholder's basis and holding period in our common stock received upon conversion generally will be the same as those of the converted preferred stock (but the basis will be reduced by the portion of adjusted tax basis allocated to any fractional share exchanged for cash). Any of our common stock received in a conversion that is attributable to accumulated and unpaid dividends on the converted preferred stock will be treated as a distribution that is potentially taxable as a dividend. Cash received upon conversion in lieu of a fractional share generally will be treated as a payment in a taxable exchange for such fractional share, and gain or loss will be recognized on the receipt of cash in an amount equal to the difference between the amount of cash received and the adjusted tax basis allocable to the fractional share deemed exchanged. This gain or loss will be long-term capital gain or loss if the U.S. stockholder has held the preferred stock for more than one year at the time of conversion. U.S. stockholders are urged to consult with their tax advisors regarding the federal income tax consequences of any transaction by which such holder exchanges common shares received on a conversion of preferred stock for cash or other property.

Redemption of Preferred Stock

Redemption of preferred stock for cash will be treated under Section 302 of the Internal Revenue Code as a distribution taxable as a dividend (to the extent of our current and accumulated earnings and profits) at ordinary income rates, unless the redemption satisfies one of the tests set forth in Section 302(b) of the Internal Revenue Code for the sale or exchange of the redeemable shares. The redemption will be treated as a sale or exchange if it (i) is "substantially disproportionate" with respect to you, (ii) results in a "complete termination" of your share interest in us, or (iii) is "not essentially equivalent to a dividend" with respect to you, all within the meaning of Section 302(b) of the Internal Revenue Code.

In determining whether any of these tests have been met, common stock, all series of preferred stock and any options to acquire the foregoing considered to be owned by you by reason of certain constructive ownership rules set forth in the Internal Revenue Code, as well as common stock, all series of preferred stock and any options to acquire the foregoing actually owned by you, must generally be taken into account. If you do not own (actually or constructively) any of our common stock, or you own an insubstantial percentage of our outstanding common or preferred stock, based upon current law, a redemption of your preferred stock is likely to qualify for sale or exchange treatment because the redemption would not be "essentially equivalent to a dividend." However, because the determination as to whether any of the alternative tests of Section 302(b) of the Internal Revenue Code will be satisfied with respect to your preferred stock depends upon the facts and circumstances at the time the determination must be made, you are advised to consult your own tax advisor to determine such tax treatment.

If a redemption of preferred stock is not treated as a distribution taxable as a dividend to you, it will be treated as a taxable sale or exchange of the stock. As a result, you will recognize gain or loss for federal income tax purposes in an amount equal to the difference between (i) the amount of cash and the fair market value of any property received (less any portion thereof attributable to accumulated and declared but unpaid dividends, which will be taxable as a dividend to the extent of our current and accumulated earnings and profits), and (ii) your adjusted basis in the preferred stock for tax purposes. Such gain or loss will be capital gain or loss if the preferred stock has been held as a capital asset, and will be long-term gain or loss if the preferred stock has been held for more than one year at the time of the redemption. If a redemption of preferred stock is treated as a distribution taxable as a dividend, the amount of the distribution will be measured by the amount of cash and the fair market value of any property received by you. Your adjusted basis in the redeemable preferred stock for tax purposes will be transferred to your remaining shares in us. If you do not own any of our other shares, such basis may, under certain circumstances, be transferred to a related person or it may be lost entirely.

The IRS recently published proposed Treasury regulations that would require a share-by-share determination upon redemption so that a holder with varying tax basis for its shares of preferred stock could have taxable income with respect to some shares, even though the holder's aggregate basis for the shares would be sufficient to absorb the entire redemption distribution. Additionally, these proposed Treasury regulations would not permit the transfer of basis in the redeemed shares to the remaining shares of our stock held (directly or indirectly) by the redeemed holder. Instead, the unrecovered basis in our preferred shares would be treated as a deferred loss to be recognized when certain conditions are satisfied. These proposed Treasury regulations would be effective for transactions that occur after the date the regulations are published as final Treasury regulations.

Capital Gains and Losses

A taxpayer generally must hold a capital asset for more than one year for gain or loss derived from its sale or exchange to be treated as long-term capital gain or loss. The highest marginal individual income tax rate is 39.6%. The maximum tax rate on long-term capital gain applicable to stockholders taxed at individual rates is 20% for sales and exchanges of assets held for more than one year. The maximum tax rate on long-term capital gain from the sale or exchange of "section 1250 property," or depreciable real property, is 25% to the extent that such gain would have been treated as ordinary income if the property were "section 1245 property." With respect to distributions that we designate as capital gain dividends and any retained capital gain that we are deemed to distribute, we generally may designate whether such a distribution is taxable to our stockholders taxed at individual rates at a maximum 20% or 25% rate. Thus, the tax rate differential between capital gain and ordinary income for those taxpayers may be significant. In addition, the characterization of income as capital gain or ordinary income may affect the deductibility of capital losses. A non-corporate taxpayer may deduct capital losses not offset by capital gains against its ordinary income only up to a maximum annual amount of \$3,000. A non-corporate taxpayer may carry forward unused capital losses indefinitely. A corporate taxpayer must pay tax on its net capital gain at ordinary corporate rates. A corporate taxpayer may deduct capital losses only to the extent of capital gains, with unused losses being carried back three years and forward five years. Capital gains (as well as other investment income taxed at ordinary rates) are also subject to the 3.8% Medicare surtax in the case of certain taxpayers whose modified adjusted gross income exceeds certain thresholds depending on filing status.

Information Reporting Requirements and Backup Withholding

We will report to our stockholders and to the IRS the amount of distributions we pay during each calendar year, and the amount of tax we withhold, if any. Under the backup withholding rules, a stockholder may be subject to backup withholding at a current rate of 28% with respect to distributions unless the holder:

- is a corporation or comes within certain other exempt categories and, when required, demonstrates this fact; or
- provides a taxpayer identification number, certifies as to no loss of exemption from backup withholding, and otherwise complies with the applicable requirements of the backup withholding rules.

A stockholder who does not provide us with its correct taxpayer identification number also may be subject to penalties imposed by the IRS. Any amount paid as backup withholding will be creditable against the stockholder's income tax liability. In addition, we may be required to withhold a portion of capital gain distributions to any stockholders who fail to certify their non-foreign status to us. For a discussion of the backup withholding rules as applied to non-U.S. stockholders. See "-Taxation of Non-U.S. Stockholders."

Medicare Tax on Unearned Income

As noted above, U.S. stockholders that are individuals, estates or trusts to pay an additional 3.8% tax on "net investment income" earned directly or indirectly by U.S. Holders that are individuals, trusts and estates whose income exceeds certain thresholds. Among other items, net investment income generally includes interest on debt instruments and dividends on stock and net gain attributable to the disposition of such securities to the extent that such gain would be otherwise included in taxable income. U.S. stockholders should consult their tax advisors regarding the effect, if any, of this legislation on their ownership and disposition of our capital stock.

Taxation of Tax-Exempt Stockholders

Tax-exempt entities, including qualified employee pension and profit sharing trusts and individual retirement accounts, generally are exempt from federal income taxation. However, they are subject to taxation on their unrelated business taxable income, or UBTI. While many investments in real estate generate UBTI, the IRS has issued a ruling that dividend distributions from a REIT to an exempt employee pension trust do not constitute UBTI so long as the exempt employee pension trust does not otherwise use the shares of the REIT in an unrelated trade or business of the pension trust. Based on that ruling, amounts that we distribute to tax-exempt stockholders generally should not constitute UBTI. However, if a tax-exempt stockholder were to finance its acquisition of capital stock with debt, a portion of the income that it receives from us would constitute UBTI pursuant to the “debt-financed property” rules. Moreover, social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts and qualified group legal services plans that are exempt from taxation under special provisions of the federal income tax laws are subject to different UBTI rules, which generally will require them to characterize distributions that they receive from us as UBTI. Furthermore, a tax-exempt stockholder's share of any excess inclusion income that we recognize would be subject to tax as UBTI. Finally, in certain circumstances, a qualified employee pension or profit sharing trust that owns more than 10% of our stock must treat a percentage of the dividends that it receives from us as UBTI. Such percentage is equal to the gross income we derive from an unrelated trade or business, determined as if we were a pension trust, divided by our total gross income for the year in which we pay the dividends. That rule applies to a pension trust holding more than 10% of our stock only if:

- the percentage of our dividends that the tax-exempt trust must treat as UBTI is at least 5%;
- we qualify as a REIT by reason of the modification of the rule requiring that no more than 50% of our stock be owned by five or fewer individuals that allows the beneficiaries of the pension trust to be treated as holding our stock in proportion to their actuarial interests in the pension trust; and
- either:
 - one pension trust owns more than 25% of the value of our stock; or
 - a group of pension trusts individually holding more than 10% of the value of our stock collectively owns more than 50% of the value of our stock.

Taxation of Non-U.S. Stockholders

The rules governing federal income taxation of nonresident alien individuals, foreign corporations, foreign partnerships, and other foreign stockholders are complex. This section is only a summary of such rules. **We urge non-U.S. stockholders to consult their own tax advisors to determine the impact of federal, state, and local income tax laws on ownership of our capital stock, including any reporting requirements.**

Ordinary Dividends. A non-U.S. stockholder that receives a distribution that is not attributable to gain from our sale or exchange of United States real property interests, as defined below, and that we do not designate as a capital gain dividend or retained capital gain will recognize ordinary income to the extent that we pay the distribution out of our current or accumulated earnings and profits. A withholding tax equal to 30% of the gross amount of the distribution ordinarily will apply unless an applicable tax treaty reduces or eliminates the tax. However, if a distribution is treated as effectively connected with the non-U.S. stockholder's conduct of a U.S. trade or business, the non-U.S. stockholder generally will be subject to federal income tax on the distribution at graduated rates, in the same manner as U.S. stockholders are taxed on distributions and also may be subject to the 30% branch profits tax in the case of a corporate non-U.S. stockholder. We plan to withhold federal income tax at the rate of 30% on the gross amount of any distribution paid to a non-U.S. stockholder unless either:

- a lower treaty rate applies and the non-U.S. stockholder files an IRS Form W-8BEN evidencing eligibility for that reduced rate with us, or
- the non-U.S. stockholder files an IRS Form W-8ECI with us claiming that the distribution is effectively connected income.

However, reduced treaty rates are not available to the extent that the income allocated to the non-U.S. stockholder is excess inclusion income. Our excess inclusion income generally will be allocated among our stockholders to the extent that it exceeds our undistributed REIT taxable income in a particular year.

Non-Dividend Distributions. A non-U.S. stockholder will not incur tax on a distribution in excess of our current and accumulated earnings and profits if the excess portion of the distribution does not exceed the adjusted basis of its capital stock. Instead, the excess portion of the distribution will reduce the adjusted basis of that capital stock. A non-U.S. stockholder will be subject to tax on a distribution that exceeds both our current and accumulated earnings and profits and the adjusted basis of the capital stock if the non-U.S. stockholder otherwise would be subject to tax on gain from the sale or exchange of its capital stock, as described below. Because we generally cannot determine at the time we make a distribution whether the distribution will exceed our current and accumulated earnings and profits, we normally will withhold tax on the entire amount of any distribution at the same rate as we would withhold on a dividend. However, a non-U.S. stockholder may obtain a refund from the IRS of amounts that we withhold if we later determine that a distribution in fact exceeded our current and accumulated earnings and profits.

Capital Gain Dividends. A non-U.S. stockholder will incur tax on distributions that are attributable to gain from our sale or exchange of “United States real property interests” under special provisions of the federal income tax laws known as “FIRPTA.” The term “United States real property interests” includes interests in real property, other than interests in real property solely in a capacity as a creditor, and shares in corporations at least 50% of whose assets consist of interests in real property. As a result, we do not anticipate that we will generate material amounts of gain that would be subject to FIRPTA. Nonetheless, we cannot exclude the possibility, for example, if we are able to resell a foreclosure property for an amount higher than the fair market value of such property at the time of foreclosure. Under the FIRPTA rules, a non-U.S. stockholder is taxed on distributions attributable to gain from sales of United States real property interests as if the gain were effectively connected with a U.S. business of the non-U.S. stockholder. A non-U.S. stockholder thus would be taxed on such a distribution at the normal capital gain rates applicable to U.S. stockholders, subject to applicable alternative minimum tax. A non-U.S. corporate stockholder not entitled to treaty relief or exemption also may be subject to the 30% branch profits tax on such a distribution. We must withhold 35% of any such distribution that we could designate as a capital gain dividend. A non-U.S. stockholder may receive a credit against our tax liability for the amount we withhold. However, a non-U.S. stockholder that owns, actually or constructively, no more than 10% (5% for 2015 and prior years) of our capital stock at all times during the one-year period ending on the date of the distribution will not be subject to the 35% FIRPTA withholding tax with respect to distributions that are attributable to gain from our sale or exchange of United States real property interests, provided our capital stock is regularly traded on an established securities market. Instead, non-U.S. stockholders generally would be subject to withholding tax on such capital gain distributions in the same manner as they are subject to withholding tax on ordinary dividends.

Sale of Capital Stock. In the unlikely event that our capital stock constituted a United States real property interest (which generally requires that at least 50% of our assets consist of United States real property interests), gains from the sale of our capital stock by a non-U.S. stockholder could be subject to a FIRPTA tax. However, even if that event were to occur, a non-U.S. stockholder generally would not incur tax under FIRPTA on gain from the sale of our capital stock if we were a “domestically controlled qualified investment entity.” We will be a domestically controlled qualified investment entity if, at all times during a specified testing period, we are a REIT and less than 50% in value of our stock is held directly or indirectly by non-U.S. stockholders. Because our capital stock is publicly traded, no assurance can be given that we will continue to be a domestically controlled qualified investment entity.

Even if we are a domestically controlled qualified investment entity, upon disposition of our capital stock, a non-U.S. stockholder may be treated as having gain from the sale or exchange of a United States real property interest if the non-U.S. stockholder disposes of an interest in our stock and directly or indirectly acquires, enters into a contract or option to acquire or is deemed to acquire, other shares of our stock within a specified period. This rule does not apply if the exception for distributions to 10% (5% for 2015 and prior years) or smaller stockholder of regularly traded classes of stock is satisfied

Even if we do not qualify as a domestically controlled qualified investment entity at the time the non-U.S. stockholder sells or exchanges our capital stock, the gain from such a sale or exchange will not be subject to tax under FIRPTA as a sale of United States real property interests if our capital stock is regularly traded, as defined by the applicable Treasury regulations, on an established securities market, and such non-U.S. stockholder owned, actually or constructively, 5% or less of our capital stock at all times throughout the five-year period ending on the date of the sale or exchange.

If the gain on the sale of the capital stock were taxed under FIRPTA, a non-U.S. stockholder would be taxed on that gain in the same manner as a taxable U.S. stockholder, subject to applicable alternative minimum tax, and the purchaser of the stock could be required to withhold 10% of the purchase price and remit such amount to the IRS. Furthermore, a non-U.S. stockholder generally will incur tax on gain not subject to FIRPTA if:

- the gain is effectively connected with the non-U.S. stockholder's U.S. trade or business, in which case the non-U.S. stockholder will be subject to the same treatment as U.S. stockholders with respect to such gain, or
- the non-U.S. stockholder is a nonresident alien individual who is present in the U.S. for 183 days or more during the taxable year and certain other conditions are met, in which case the non-U.S. stockholder will incur a 30% tax on his or her capital gains.

Recent Legislation Relating to Foreign Accounts

Recently enacted legislation (known as the Foreign Account Tax Compliance Act, or FATCA) imposes withholding taxes on certain types of payments made to “foreign financial institutions” and certain other non-U.S. entities. Under this legislation, the failure to comply with additional certification, information reporting and other specified requirements could result in withholding tax being imposed on payments of dividends and sales proceeds to U.S. stockholders (as defined above) who own shares of our capital stock through foreign accounts or foreign intermediaries and certain non-U.S. stockholders. The legislation imposes a 30% withholding tax on dividends on, and gross proceeds from the sale or other disposition of, our capital stock paid to a foreign financial institution or to a foreign entity other than a financial institution, unless (i) the foreign financial institution undertakes certain diligence and reporting obligations or (ii) the foreign entity that is not a financial institution either certifies it does not have any substantial United States owners or furnishes identifying information regarding each substantial United States owner. If the payee is a foreign financial institution, it must enter into an agreement with the U.S. Treasury Department requiring, among other things, that it undertake to identify accounts held by certain United States persons or United States-owned foreign entities, annually report certain information about such accounts, and withhold 30% on payments to account holders whose actions prevent it from complying with these reporting and other requirements. The IRS has required withholding under FATCA with respect to dividends paid after June 30, 2014 (subject to a “transition period” applicable through the end of 2015 with respect to which the IRS will take into account certain good faith compliance efforts) and is expected to begin to require withholding under FATCA with respect to gross proceeds of a disposition of our capital stock paid after December 31, 2018. In addition, the IRS and the Treasury Department have begun collaborating with foreign governments under bilateral “intergovernmental agreements” to implement the policy objectives of FATCA. Prospective investors should consult their tax advisors regarding this legislation.

Legislative or Other Actions Affecting REITs

The rules dealing with federal income taxation are constantly under review by persons involved in the legislative process by the IRS and the U.S. Treasury Department. No assurance can be given as to whether, when, or in what form, federal income tax laws applicable to us or our stockholders may be enacted, possibly with retroactive effect. Changes to the federal income tax laws and interpretations of federal income tax laws could adversely affect an investment in our shares of capital stock.

State and Local Taxes

We and/or our stockholders may be subject to taxation by various states and localities, including those in which we or a stockholder transacts business, owns property or resides. The state and local tax treatment may differ from the federal income tax treatment described above. Consequently, stockholders should consult their own tax advisors regarding the effect of state and local tax laws upon an investment in our capital stock.
