Symbol	CYRN
SIC Code	7372 - Services-Prepackaged Software
Industry	Software
Sector	Technology
Fiscal Year	12/31

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

FORM 20-F

REGISTRATION STATEMENT PURSUANT TO SECTION 12(b) OR (g) OF THE SECURITIES EXCHANGE ACT OF 1934 OR

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 for the fiscal year ended December 31, 2003

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 000-26495

COMMTOUCH SOFTWARE LTD.

(Exact name of Registrant as specified in its charter and translation of Registrant's name into English)

Israel

(Jurisdiction of incorporation or organization)

1A Hazoran Street
Poleg Industrial Park,
P.O. Box 8511
Netanya 42504, Israel
011-972-9-863-6888

(Address of principal executive offices)

Securities registered or to be registered pursuant to Section 12(b) of the Act.

Title of each class	Name of each exchange on which registered
N/A	None

Securities registered or to be registered pursuant to Section 12(g) of the Act.

Ordinary Shares, par value NIS 0.05 per share
(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act.

None

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report (December 31, 2003).

Ordinary Shares, par value NIS 0.05 37,104,615 (34,278,498 as of 12.31.03, plus shares issued in January 2004 due to exercise of warrants in

late December 2003)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark which financial statement item the registrant has elected to follow. Item 17 Item 18

PART I

Item 1. Identity of Directors, Senior Management and Advisers.

Not applicable.

Item 2. Offer Statistics and Expected Timetable.

Not Applicable

Item 3. Key Information.

Unless otherwise indicated, all references in this document to "CommTouch," "the Company," "we," "us" or "our" are to CommTouch Software Ltd. or its wholly-owned subsidiary, CommTouch Inc., as relating to consolidated financial information contained herein former wholly-owned subsidiaries CommTouch Latin America Inc. (dissolved), CommTouch (UK) Ltd. (dissolved) and Wingra, Inc. (sold), and former majority-owned subsidiary, CommTouch K.K. (Japan) (during 2002 CommTouch divested itself of its majority holdings and retained an equity interest in this company, which is now known as Imatrix Corporation).

The selected consolidated statements of operations data for the years ended December 31, 2001, 2002 and 2003 and the selected consolidated balance sheet data as of December 31, 2002 and 2003 have been derived from the Consolidated Financial Statements of CommTouch included elsewhere in this report. The selected consolidated statements of operations data for the years ended December 31, 1999 and 2000 and the selected consolidated balance sheet data as of December 31, 1999, 2000 and 2001 have been derived from the Consolidated Financial Statements of CommTouch not included elsewhere in this report. Our historical results are not necessarily indicative of results to be expected for any future period. The data set forth below should be read in conjunction with "Item 5. Operating and Financial Review and Prospects" and the Consolidated Financial Statements and the Notes thereto included elsewhere herein:

	Year Ended December 31,				
	1999	2000	2001	2002	2003

FORWARD LOOKING STATEMENTS

This report contains forward-looking statements that involve risks and uncertainties. These statements relate to our future plans, objectives, beliefs, expectations and intentions. In some cases, you can identify forward-looking statements by our use of words such as "expects," "anticipates," "believes," "intends," "plans," "seeks" and "estimates" and similar expressions. Our actual results, levels of activity, performance or achievements may differ materially from those expressed or implied by these forward-looking statements. Factors that could cause or contribute to these differences include those discussed below and elsewhere in this report.

RISK FACTORS

You should carefully consider the following risk factors before you decide to buy our ordinary shares. You should also consider the other information in this report. If any of the following risks actually occur, our business, financial condition, operating results or cash flows could be materially adversely affected. This could cause the trading price of our ordinary shares to decline, and you could lose part or all of your investment. The risks described below are not the only ones facing us. Additional risks not presently known to us, or that we currently deem immaterial, may also impair our business operations.

Business Risks

If the market does not respond favorably to our current and future anti-spam solutions, we will fail to generate revenues.

Our success will depend on the acceptance and use of our anti-spam solutions by enterprise and ISP customers. We cannot estimate the size or growth rate of the potential market for our anti-spam offerings. If the market for anti-spam solutions fails to grow or grows more slowly than we currently anticipate, our business will suffer dramatically. Even if that market grows, our solutions may not achieve broad market acceptance and our business could fail. Since we released our first anti-spam solution for general distribution only in late June 2003, and anti-spam solutions to be released by us in the future remain unproven, we still do not have enough experience to evaluate whether our offerings will achieve broad market acceptance.

Our Business May be Adversely Affected as a Consequence of Legislation Imposing Legal Penalties On Distributors of Unsolicited Email

On December 16, 2003, President Bush signed into law the Controlling the Assault of Non-Solicited Pornography and Marketing Act of 2003 (CAN-SPAM Act), which establishes a framework of administrative, civil, and criminal tools to combat spam. The law establishes both civil and criminal prohibitions to assist in deterring the most offensive forms of spam, including unmarked sexually-oriented messages and e-mails containing fraudulent headers. Under the law, senders of email are required to honor a request by a consumer not to receive any further unsolicited messages.

In addition, various state legislatures have enacted laws aimed at regulating the distribution of unsolicited email.

Companies that send business-related e-mail messages from or to the countries in the European Union should be aware that each member state in the European Union was obligated by October 2003 to implement the Electronic Communications Directive that imposes restrictions on the use of unsolicited e-mail for commercial purposes.

These and similar legal measures may have the effect of reducing the amount of unsolicited email that is distributed and hence diminish the need for our anti-spam solutions. Any such developments would have an adverse impact on our revenues.

Dependence upon resellers and product concentration

The Company expects that it will continue to be dependent upon resellers for a significant portion of its revenues, which will be derived from sales of the Company's anti-spam solutions. Also, the Company is still developing its distribution channels and is currently dependent on a relatively small number of its global resellers/channel partners to close the majority of sales transactions. If anticipated orders from these resellers fail to materialize, or one of the key resellers/distribution channels ceases the promotion of the Company's business, operating results and financial condition will be materially adversely affected.

Our future revenues are difficult to predict and our quarterly operating results may fluctuate which could adversely affect the value of your investment.

Because we have a limited history with our relatively new anti-spam solutions and because of the emerging nature of the markets in which we compete, our revenue is difficult to predict. Our current and future expense levels are to a large extent fixed. We may be unable to adjust spending quickly to compensate for any revenue shortfall, and any significant revenue shortfall would have an immediate negative effect on our results of operations and share price.

A number of factors, many of which are enumerated in this "Risk Factors" section, are likely to cause fluctuations in our operating results and/or cause our share price to decline. Other factors which may cause such fluctuations include:

- o Our ability to successfully develop and market our anti-spam solutions to new markets, both domestic and international;
- o The market acceptance of our new anti-spam solutions;
- o The size, timing and fulfillment of orders for our new anti-spam solutions;
- o Our ability to expand our workforce with qualified personnel, as may be needed;
- o Unanticipated bugs or other problems arising in providing our new anti-spam solutions to customers;
- o The success of our resellers' sales efforts to potential customers;
- o The solvency of our resellers and their ability to allocate sufficient resources towards the marketing of our new anti-spam solutions to their potential customers;
- o The rate of adoption of anti-spam solutions by customers in the current economic environment;
- o The threat of de-listing by the NASDAQ;
- o The receipt or payment of irregular or nonrecurring revenues or expenses;
- o Our ability to successfully develop and market new, modified and/or upgraded solutions, as may be needed;
- o The substantial decrease in information technology spending;

o Pricing of our solutions;

o Our ability to timely collect fees owed by resellers/customers; and

o Effectiveness of our customer support, whether provided by our resellers or directly by Commtouch.

Because of differing operational factors and the material changes to our business model, period-to-period comparisons of our operating results are not a good indication of our future performance. It is likely that our operating results in some quarters will be below market expectations. Because we have been and will be going to market with new solutions and have been marketing our enterprise solution only since late June 2003, it is difficult to evaluate our business and prospects.

We commenced operations in 1991. Up to 1998, we focused on selling, maintaining and servicing stand-alone email client software products for mainframe and personal computers. From 1998 through 2001, we were a provider of outsourced Web-based email services and, during the first half of 2002, we concentrated on marketing our software messaging solution. In mid-2002, we began focusing exclusively on completing development of and selling our new anti-spam solutions. This change required us to once again adjust our business processes and to readjust the workforce at Commtouch (predominantly, the sales force). Therefore, we have little operating history as a provider of our new anti-spam solutions upon which you may be able to evaluate our business and prospects. It is still too early to judge whether this business will succeed.

We have many established competitors who are offering a multitude of solutions to the spam problem

The market for anti-spam solutions is intensely competitive and we expect it to be increasingly competitive. Increased competition could result in pricing pressures, low operating margins and the realization of little or no market share, any of which could cause our business to suffer.

In the market for anti-spam solutions, there are a large number of providers offering "content filtering" solutions (solutions focusing solely on the content of potential spam email). Other providers that offer forms of software (gateway) and/or service based solutions and which may be viewed as direct competitors to Commtouch include Brightmail(R) and Postini(R). There is a great likelihood that, as the market for anti-spam solutions further develops and given the difficult technological hurdles in attempting to create an effective solution, established Internet security players will enter the market, who may be able to leverage their market position and resources to capture a portion of the anti-spam market.

As this market continues to develop, a number of companies with greater resources than ours could attempt to increase their presence in this market by acquiring or forming strategic alliances with our competitors or business partners. Competitors could introduce products with superior features, scalability and functionality at lower prices than our products and could also bundle existing or new products with other more established products that discourage users from purchasing our products. In addition, because there are relatively low barriers to entry for the software market, we expect additional competition from other established and emerging companies. Increased competition is likely to result in price reductions, reduced gross margins and loss of market share, any of which could harm our business.

Also, there are companies that develop and maintain in-house anti-spam solutions, such as Microsoft(R) and Yahoo(R). These and other companies could potentially leverage their existing capabilities and relationships to enter the anti-spam industry.

Our market's level of competition is likely to increase as current competitors increase the sophistication of their offerings and as new participants enter the market. In the future, as we expand our offerings, we may encounter increased competition in the development and distribution of these solutions. Many of our current and potential competitors have longer operating histories, larger customer bases, greater brand recognition and greater financial, technical, sales, marketing and other resources than we do and may enter into strategic or commercial relationships on more favorable terms. Some of these competitors have research and development capabilities that may allow them to develop new or improved products that may compete with product lines we market and distribute. New technologies and the expansion of existing technologies may increase competitive pressures on us. We may not be able to compete successfully against current and future competitors.

(R)Brightmail, Postini, Microsoft and Yahoo are trademarks of Brightmail, Inc., Postini, Inc., Microsoft Corporation and Yahoo! Inc. respectively.

Our ability to increase our revenues will depend on our ability to successfully execute our sales and marketing plan

The complexity of the underlying technological base of our anti-spam solutions and the current landscape of the anti-spam market require highly trained sales and marketing personnel to educate prospective resellers and customers regarding the use and benefits of our solutions. It may take time for our current and future employees and resellers to learn how to most effectively market our solutions. Additionally, we are unable to predict the possibility of success selling newly introduced solutions for which we have little marketing experience and on which we are relying to produce a substantial portion of our revenues in the future. As a result of these factors, our sales and marketing organization may not be able to compete successfully against bigger and more experienced sales and marketing organizations of our competitors.

We have a history of losses and may never achieve profitability

We incurred net losses of approximately \$61.0 million in 2001, \$4.9 million in 2002 and \$6.8 million in 2003. As of December 31, 2003 and March 31, 2004, we had an accumulated deficit of approximately \$158.5 million and approximately \$ 160.1 million, respectively. We entered a new and unstable market due to launching the anti-spam solution, we have not achieved profitability in any period, and we might continue to incur net losses in the future. If we do not achieve profitability, our share price may decline further.

Possible need for additional funds

The Company remains very thinly capitalized. As such, we might become dependent upon raising additional funds to finance our business. Our cash balance at December 31, 2003 and March 31, 2004 was approximately \$4.1 million and approximately \$4.6 million, respectively. In connection with the two private placements that occurred in July 2003, we raised \$3,040,000. In addition, upon the exercise of certain warrants by the previous convertible loan holders and the closing of the new convertible loan transaction entered into by the Company in late November 2003, the Company received an additional amount of approximately \$4,000,000. See "Risk Factors--Investment Risks--We may need additional capital" below. If we are unable to raise additional funds, the Company could fail. There can be no assurance that we will be able to raise necessary funds or that we will be able to do so on terms acceptable to us. If needed, our inability to obtain adequate capital would limit our ability to continue our operations. Any such additional funding may result in significant dilution to existing shareholders.

On May 18, 2004, the Company entered into a definitive agreement for the private placement of ordinary shares of the Company to existing institutional investors for gross proceeds of approximately \$3.9 million. The investment is contingent upon shareholders approval and additional closing conditions. In the past we have received funds for the development of our business from the State of Israel through the Office of the Chief Scientist, or the OCS. Grants received from the OCS through 2002 that the Company potentially will be obligated to repay totaled approximately \$800,000.

Risk of Litigation

Legal proceedings can be expensive, lengthy and disruptive to normal business operations, regardless of their merit. Moreover, the results of complex legal proceedings are difficult to predict and an unfavorable resolution of a lawsuit or proceeding could have a material adverse effect on the Company's business, results of operations or financial condition.

In May 2003, Commtouch settled the shareholder class action lawsuit filed on behalf of shareholders against the company in early 2001. The litigation was initiated against the company and two members of management in response to the company's announcement that it had decided to restate unaudited earnings for the first three quarters of 2000, alleging violations of the antifraud provisions of the Securities Exchange Act of 1934.

Indemnification of Directors and Officers

The Company has agreements with its directors, subject to Israeli law, that provide for the Company to indemnify these directors for any of the following obligations or expenses incurred as a result of an act or omission of such persons in their capacity as directors: (a) any monetary obligation imposed upon them for the benefit of a third party by a judgment, including a settlement or an arbitration decision, confirmed by the court, and (b) reasonable litigation expenses, including legal fees, actually incurred by such a director or imposed upon the director by a court order, in a proceeding brought against him/her by

or on behalf of the Company or by others, or in connection with a criminal proceeding in which he/she was acquitted, or in connection with a criminal action which does not require criminal intent in which he/she was convicted.

Risk due to economic conditions

Should economic conditions fail to improve, our ability to sell our new anti-spam solutions could be negatively impacted. Furthermore, even if we are successful in selling our solutions, our ability to collect outstanding receivables may be significantly impacted by liquidity issues of our resellers' customers and/or OEM partners' customers and/or our resellers/OEM partners themselves, which may negatively affect our ability to recognize future revenue based on sales. As a result, we may experience shortfalls in our future revenues.

The loss of our key employees would adversely affect our ability to manage our business, therefore causing our operating results to suffer and the value of your investment to decline

Our success depends on the skills, experience and performance of our senior management and other key personnel. The loss of the services of any of our senior management or other key personnel, including Gideon Mantel, our Chief Executive Officer and Amir Lev, our President and Chief Technical Officer, could materially and adversely affect our business. The loss of our software developers may also adversely affect our anti-spam solutions, therefore causing our operating results to suffer and the value of your investment to decline. We do not have employment agreements inclusive of set periods of employment with any of these key personnel. We cannot prevent them from leaving at any time. We do not maintain key-person life insurance policies on any of our employees.

Our low head-count of 48 employees (as of March 31, 2004) continues to strain our operational resources, and although the Company added additional sales and support personnel during 2003 and early 2004, the lack of sufficient personnel may compromise our ability to enhance revenues.

Our business and operating results could suffer if we do not successfully address the risks inherent in doing business overseas

At December 31, 2003, we had sales offices in Israel and the United States. We have also begun marketing of our anti-spam solutions in international markets by utilizing appropriate distributorship channels. However, we may not be able to compete effectively in international markets due to various risks inherent in conducting business internationally, such as:

- o differing technology standards;
- o inability of distribution channels to successfully market our anti-spam solutions;
- o export restrictions, including export controls relating to encryption technologies;
- o difficulties in collecting accounts receivable and longer collection periods;
- o unexpected changes in regulatory requirements;
- o political and economic instability;
- o potentially adverse tax consequences;
- o the adoption of new legal penalties which may discourage the distribution of unsolicited email messages; and
- o potentially reduced protection for intellectual property rights.

Any of these factors could adversely affect the Company's prospective international sales and, consequently, business and operating results.

Terrorist attacks such as the attacks that occurred in New York and Washington, D.C. on September 11, 2001 and other attacks or acts of war may adversely affect the markets on which our ordinary shares trade, our financial condition and our results of operations

On September 11, 2001, the United States was the target of terrorist attacks of unprecedented scope. These attacks caused major instability in the U.S. and other financial markets. There could be further acts of terrorism in the United

States or elsewhere that could have a similar impact. Leaders of the U.S. government have announced their intention to actively pursue and take military and other action against those behind the September 11, 2001 attacks and to initiate broader action against national and global terrorism. In this regard, the U.S. recently led a coalition of forces in attacks on Afghanistan and Iraq. The worldwide ramifications of such attacks are unknown at this time. Armed hostilities or further acts of terrorism would cause further instability in financial markets and could directly impact our financial condition and our results of operations.

Technology Risks

We might not have the resources or skills required to adapt to the changing technological requirements and shifting preferences of our customers and their users.

The spam and anti-spam industry is characterized by difficult technological challenges, sophisticated "spammers" and constantly evolving spam practices and targets that could render our anti-spam solutions and proprietary technology ineffective. Our success depends, in part, on our ability to continually enhance our existing anti-spam solutions and to develop new solutions, functions and technology that address the potential needs of prospective customers and their users. The development of proprietary technology and necessary enhancements entails significant technical and business risks and requires substantial expenditures and lead-time. We may not be able to keep pace with the latest technological developments. We may not be able to use new technologies effectively or adapt to customer or end user requirements or emerging industry standards. Also, we must be able to act more quickly than our competition, and may not be able to do so.

Our software may be adversely affected by defects, which could cause our customers or end users to stop using our solutions

Our anti-spam solutions are based in part upon new and complex software. Complex software often contains defects, particularly when first introduced or when new versions are released. Although we conduct extensive testing, we may not discover software defects that affect our new or current solutions or enhancements until after they are delivered. Although we have not experienced any material software defects to date in our anti-spam solutions offering, it is possible that, despite testing by us, defects may exist in the software we license. These defects could cause interruptions in our anti-spam solutions for customers that could damage our reputation, create legal risks, cause us to lose revenue, delay market acceptance or divert our development resources, any of which could cause our business to suffer.

Investment Risks

We may need additional capital

We have invested heavily in technology development. We expect to continue to spend financial and other resources on developing and introducing new offerings and maintaining our corporate organizations and strategic relationships. We also expect to invest resources in research and development projects to develop enhanced anti-spam solutions for enterprises and, possibly, other target markets.

Based on the cash balance at December 31, 2003, the payment in January 2004 of approximately \$1 million on behalf of warrants exercises by previous convertible note holders, current projections of revenues, additional signed financing agreements with investors, related expenses and the ability to further curtail certain discretionary expenses, the Company believes it has sufficient cash to continue operations for at least the next twelve months.

If we cannot satisfy Nasdaq's maintenance requirements, it may delist our ordinary shares from its Smallcap Market and we may not have an active public market for our ordinary shares. The absence of an active trading market would likely make our ordinary shares an illiquid investment.

Our ordinary shares are quoted on the Nasdaq SmallCap Market. To continue to be listed, we are required to maintain shareholders' equity of at least \$2,500,000, or market value of our outstanding shares (excluding shares held by company insiders and principal shareholders) of at least \$35,000,000, or we must have realized at least \$500,000 in net income from continuing operations in our last fiscal year or in two of our last three fiscal years. Since our share price as quoted on the Nasdaq dropped below a price that lowered our market value to below \$35,000,000 and our shareholders' equity was below \$2.5 million, we received a Nasdaq Staff Determination letter on May 10, 2004 indicating that Commtouch had failed to comply with the stockholders' equity, net income and

market value of publicly held shares requirements for continued listing, as set forth in Nasdaq's Marketplace Rule 4320(e)(2)(B), and that its securities were therefore subject to delisting from The Nasdaq SmallCap Market (as noted below, Commtouch's submission of an appeal has automatically delayed the delisting process). The subject rule requires compliance with at least one of the above requirements in order to maintain listing with the Nasdaq.

Commtouch has appealed the Nasdaq Staff Determination and has requested a hearing before a Nasdaq Listing Qualifications Panel to review the Staff Determination. The hearing is set for June 17, 2004. The hearing request has stayed the delisting of Commtouch's securities pending the Panel's decision, which means that in the interim period the Company's shares will continue to be traded on the Nasdaq SmallCap Market. There can be no assurance the Panel will grant Commtouch's request for continued listing although the Company is working on a plan for compliance with the Nasdaq listing rules.

Accordingly, there can be no assurance that we will continue to comply with the Nasdaq listing requirements for listing on the Nasdaq SmallCap Market.

On May 18, 2004, the Company entered into a definitive agreement for the private placement of 5,131,583 ordinary shares of the Company at a purchase price of \$0.76 per share to mostly existing institutional investors for gross proceeds to the Company of approximately \$3.9 million.

If we will not be in compliance with any of these tests in the future, Nasdaq may delist our ordinary shares. If this occurs, trading in our shares may be conducted in the over-the-counter market in the so-called "pink sheets" or, if available, the "OTC Bulletin Board Service." As a result, an investor would likely find it significantly more difficult to dispose of, or to obtain accurate quotations as to the value of, our shares.

Also, Nasdaq may delist our ordinary shares if it deems it necessary to protect investors and the public interest.

If our shares are delisted, they may become subject to the SEC's "penny stock" rules and be more difficult to sell. In addition, it may cause the occurrence of an event of default according to the November Securities Purchase Agreement signed on November 26, 2003, and thus may result in the redemption of the notes by the lenders, and/or penalties to be paid in cash.

SEC rules require brokers to provide information to purchasers of securities traded at less than \$5.00 and not traded on a national securities exchange or quoted on the Nasdaq Stock Market. If our shares become "penny stock" that is not exempt from these SEC rules, these disclosure requirements may have the effect of reducing trading activity in our shares and making it more difficult for investors to sell. The rules require a broker-dealer to deliver a standardized risk disclosure document prepared by the SEC that provides information about penny stocks and the nature and level of risks in the penny stock market. The broker must also give bid and offer quotations and broker and salesperson compensation information to the customer orally or in writing before or with the confirmation. The SEC rules also require a broker to make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction before a transaction in a penny stock.

Our directors, executive officers and principal shareholders will be able to exert significant influence over matters requiring shareholder approval and could delay or prevent a change of control.

Our directors and affiliates of our directors, our executive officers and our shareholders who currently individually beneficially own over five percent of our ordinary shares, beneficially own, in the aggregate, approximately 39.34% of our outstanding ordinary shares as of March 31, 2004 plus warrants and options exercisable within 60 days thereof. If they vote together (especially if they were to convert all beneficial holdings into shares entitled to voting rights in the Company), these shareholders will be able to exercise significant influence over all matters requiring shareholder approval, including the election of directors and approval of significant corporate transactions. This concentration of ownership could also delay or prevent a change in control of Commtouch. The above percentage of beneficial ownership includes warrants and options totaling 2.79% of the outstanding ordinary shares which are underwater as of March 31, 2004.

These significant shareholders will be able to significantly influence and possibly exercise control over most matters requiring approval by our shareholders, including the election of directors and approval of significant corporate transactions. This concentration of ownership may also have the effect of delaying or preventing a change in control. In addition, conflicts of

interest may arise as a consequence of these significant shareholders control relationship with us, including:

- o conflicts between significant shareholders, and our other shareholders whose interests may differ with respect to, among other things, our strategic direction or significant corporate transactions;
- o conflicts related to corporate opportunities that could be pursued by us, on the one hand, or by these shareholders, on the other hand; or
- o conflicts related to existing or new contractual relationships between us, on the one hand, and these shareholders, on the other hand.

Furthermore, InfoSpace holds the right to name one director to our Board as long as it continues to hold at least 620,022 shares, including the shares issuable upon exercise of the InfoSpace warrant. It named Thomas Camp to the Board under this provision, who resigned on August 22, 2001 and was not replaced by Infospace.

Substantial sales of our ordinary shares could adversely affect our share price.

The sale, or availability for sale, of substantial quantities of our ordinary shares may have the effect of further depressing its market price. A large number of our ordinary shares which were previously subject to resale restrictions, are currently eligible for resale. In addition a significant number of shares are eligible for resale in the future, i.e. those shares that may be issued if the lenders in the new convertible loan transaction of November 2003 decide to exercise warrants and/or convert the Company's loan obligations to equity, as well as those shares that will be eligible for resale due to the exercise of other warrants issued during 2003. These shares will dilute existing shareholders.

Risk of failure to honor registration rights for the 2002 and 2003 private placements

According to the agreements with the Selling Securityholders under Registration Statements on Forms F-3 filed with the SEC on May 15, 2002, October 20, 2003 and January 6, 2004, should the Company fail to maintain the effectiveness of those Registration Statements for the periods stated in the respective agreements, the Company risks having imposed on it liquidated damages as defined in those agreements. For details about the penalties for the 2002 private placement, refer to Exhibit 2.8 of the Report on Form 20F filed on April 26, 2002. For details about the penalties for the July 2003 private placements, refer to the Report on Form 6K for the month of July, filed on July 28, 2003, and for the month of August filed on August 15, 2003. For details about the penalties for the November 2003 private placement, refer to Form 6K for the month of November, filed December 2, 2003. For details about the penalties for the May 2004 private placement, refer to Form 6K for the month of May, filed May 19, 2004.

Risk of occurrence of event of default under Securities Purchase Agreement

The Company is required to abide by the terms and provisions of the Securities Purchase Agreement of November 2003. Upon failure to do so, for example, failure to pay principal or interest, we would be in default of the agreement. For details about the events of default, refer to the Report on Form 6K for the month of December, filed on December 2, 2003.

The lenders were granted security interests in all of the Company's assets. If an event of default were not cured by the Company, the loan would accelerate and all amounts due under the loan would immediately become due and payable. If the Company were unable to repay the loan amounts, the lenders, among other things, would have the right to foreclose on their security interests in the Company's assets by seizing and selling all the Company's assets.

Intellectual Property Risks

If we fail to adequately protect our intellectual property rights or face a claim of intellectual property infringement by a third party, we could lose our intellectual property rights or be liable for significant damages.

We regard our patent pending technology, copyrights, service marks, trademarks, trade secrets and similar intellectual property as critical to our success, and rely on patent, trademark and copyright law, trade secret protection and confidentiality or license agreements with our employees and customers to protect our proprietary rights. Third parties may infringe or misappropriate our patent pending technology, trade secrets, copyrights, trademarks and similar proprietary rights. We have recently converted two provisional patent applications into a formal patent application, and we expect to file at least one additional provisional patent application covering certain aspects of our anti-spam technology. We may seek to patent certain additional software or other technology in the future. Any such patent applications might not result in patents issued within the scope of the claims we seek, or at all. We cannot be certain that our software does not infringe issued patents that may relate to

our anti-spam solutions. In addition, because patent applications in the United States are not publicly disclosed until the patent is issued, applications previously may have been filed which relate to our anti-spam solutions.

Other parties may assert infringement claims against us. We may also be subject to legal proceedings and claims from time to time in the ordinary course of our business, including claims of alleged infringement of the patents, trademarks and other intellectual property rights of third parties by ourselves and our licensees. Such claims, even if not meritorious, could result in the expenditure of significant financial and managerial resources.

Despite our precautions, unauthorized third parties may copy certain portions of our technology or reverse engineer or obtain and use information that we regard as proprietary. In addition, the laws of some foreign countries do not protect proprietary rights to the same extent as do the laws of the United States. Our means of protecting our proprietary rights in the United States or abroad may not be adequate and competitors may independently develop similar technology.

We also continue to hold a perpetual mail server license which was previously utilized in our hosted email service offering, and may license other technology as the need arises. We cannot be certain that, apart from the mail server license, other third-party content licenses will be available to us on commercially reasonable terms or that we will be able to successfully integrate the technology into our products. These third-party licenses may expose us to increased risks, including risks associated with the assimilation of new technology, the diversion of resources from the development of our own proprietary technology, and our inability to generate revenues from new technology sufficient to offset associated acquisition and maintenance costs. The inability to obtain any of these licenses could result in delays in product development until equivalent technology can be identified, licensed and integrated. Any such delays could cause our business/financial condition and operating results to suffer.

Governmental regulation and legal uncertainties could impair the growth of the Internet, decrease the distribution of unsolicited bulk (spam) email and decrease demand for our anti-spam solutions or increase our cost of doing business.

While laws aimed at curtailing the spread of spam have been adopted by the U.S. federal government and some states (see above Risk Factors - Business Risks), enforcement has not been widespread and generally there has been a continuing trend of increasing spam traffic. The growth and development of the spam market may prompt calls for more stringent Internet user protection laws that may limit the ability of companies promoting or delivering spam online. Moreover, the applicability to the Internet of existing laws in various jurisdictions governing issues such as property ownership, sales and other taxes, libel and personal privacy is uncertain and may take years to resolve. The adoption of additional laws or regulations, or the application of existing laws or regulations to the Internet, may impair the growth of the Internet or commercial online services. All or some of the above laws could decrease the demand for our anti-spam solutions and increase our cost of doing business, or otherwise harm our business and operating results.

Risks Relating to Operations in Israel

We have important facilities and resources located in Israel, which has historically experienced severe economic instability and military and political unrest.

We are incorporated under the laws of the State of Israel. Our principal research and development facilities are located in Israel. Although the substantial majority of our past sales were made to customers outside Israel, we are nonetheless directly influenced by the political, economic and military conditions affecting Israel. Any major hostilities involving Israel, or the interruption or curtailment of trade between Israel and its present trading partners, could significantly harm our business, operating results and financial condition.

Israel's economy has been subject to numerous destabilizing factors, including a period of rampant inflation in the early to mid-1980's, low foreign exchange reserves, fluctuations in world commodity prices, military conflicts and civil unrest. In addition, Israel and some companies doing business with Israel have been the subject of an economic boycott by Arab countries since Israel's establishment. These restrictive laws and policies may have an adverse impact on our operating results, financial condition or expansion of our business.

Since the establishment of the State of Israel in 1948, a state of hostility has existed between Israel and most of the Arab countries in the region. Peace talks between Israel and the Palestinian Authority began in the early 1990s, but they broke down in mid-2000. Attacks on Israel by Palestinian terrorists, and military responses by Israel, have accelerated considerably since late 2000. We cannot predict whether or when a peace process will resume, whether a full resolution of these problems will be achieved, the nature of any such resolution or any consequences that any of these factors may have on us. Any future armed

conflicts or political instability in the region could negatively affect our business or harm our results of operations.

Our results of operations may be negatively affected by the obligation of key personnel to perform military service.

Certain of our officers and employees are currently obligated to perform annual reserve duty in the Israel Defense Forces and are subject to being called for active military duty at any time. Although Commtouch has operated effectively under these requirements since its inception, we cannot predict the effect of these obligations on Commtouch in the future. Our operations could be disrupted by the absence, for a significant period, of one or more of our officers or key employees due to military service.

Because a substantial portion of our revenues historically have been generated in U.S. dollars and a portion of our expenses have been incurred in New Israeli Shekels, our results of operations may be adversely affected by inflation and currency fluctuations.

We have generated a substantial portion of our revenues in U.S. dollars and incurred a portion of our expenses, principally salaries and related personnel expenses in Israel, in New Israeli Shekels, commonly referred to as NIS. As a result, we have been exposed to the risk that the rate of inflation in Israel will exceed the rate of devaluation of the NIS in relation to the dollar or that the timing of any devaluation may lag behind inflation in Israel. In 2002 and for a number of years prior to 1999, the rate of devaluation of the NIS against the dollar exceeded the rate of inflation. This trend was reversed in 2003. We cannot predict the trend for future years. If the dollar cost of our operations in Israel increases, our dollar-measured results of operations will be adversely affected. Our operations also could be adversely affected if we are unable to guard against currency fluctuations in the future. Accordingly, we may enter into currency hedging transactions to decrease the risk of financial exposure from fluctuations in the exchange rate of the dollar against the NIS. These measures, however, may not adequately protect us from material adverse effects due to the impact of inflation in Israel.

The government programs and benefits which we currently receive require us to meet several conditions and may be terminated or reduced in the future.

Prior to 1998, we received grants from the Government of Israel, through the Office of the Chief Scientist (OCS), for the financing of a significant portion of our research and development expenditures in Israel. In 2001 and 2002, we applied for additional grants and we may apply for additional grants in the future. In 1999 and 2000, we did not receive any grants from the OCS. In 2001 we received \$0.6 million and in 2002 we received \$0.2 million. While we submitted an application for an additional grant in 2003, we decided not to draw any funds thereunder during 2003. The OCS budget has been subject to reductions which may affect the availability of funds for this prospective grant and other grants in the future. Therefore, we cannot be certain that we will continue to receive grants at the same rate, or at all. In addition, the terms of any future OCS grants may be less favorable than our past grants.

In connection with research and development grants received from the OCS, we must pay royalties to the OCS on the revenue derived from the sale of products, technologies and services developed with grants from the OCS. We account for these royalties by recording an accrual in our financial statements. Because we determined that no revenue is expected from some of these projects, as of December 31, 2001 we decided to write down the related \$0.4 million accrual we recorded in past years. The OCS subsequently confirmed the status of these projects as being non-royalty-bearing. The OCS would be entitled to revisit the status of these projects in the future if the Company were to commence utilizing technology developed under these projects.

The terms of the OCS grants and the law pursuant to which the grants are made restrict our ability to manufacture products or transfer technologies developed using OCS grants outside of Israel. This restriction may limit our ability to enter into agreements for those products or technologies, without OCS approval. We cannot be certain that the approvals of the OCS will be obtained on terms that are acceptable to us, or at all. In connection with our grant applications, we have made representations and covenants to the OCS. The funding from the OCS is subject to the accuracy of these representations and covenants and to our compliance with the conditions and restrictions imposed by the OCS. If we fail to comply with any of these conditions or restrictions, we could be required to repay any grants previously received, together with linkage adjustment to the Israeli consumer price index and interest, and would likely be ineligible to receive OCS grants in the future.

Grants received from the OCS through 2002 that the Company potentially will be obligated to repay totaled approximately \$800,000.

The tax benefits we are currently entitled to from the Government of Israel may be reduced or terminated in the future.

Pursuant to the Law for the Encouragement of Capital Investments, the Government of Israel through the Investment Center has granted "approved enterprise" status to a portion of our capital investment programs. The portion of our income derived from our approved enterprise program will be exempt from tax for a limited period of two years commencing in the first year in which we have taxable income, and will be subject to a reduced tax for an additional period of five to eight years dependent on the percentage of holdings of our shares by foreign shareholders. The benefits available to an approved enterprise are conditioned upon the fulfillment of specified conditions, including a required amount of investments in fixed assets and a portion of these investments being made with net proceeds of equity capital raised by us as stipulated in applicable law and in the specific certificates of approval. If we fail to comply with these conditions, in whole or in part, we may be required to pay additional taxes (together with linkage adjustment to the Israeli consumer price index and interest) for the period in which we benefited from the tax exemption or reduced tax rates and would likely be denied these benefits in the future. In addition, the law and regulations prescribing the benefits provide for an expiration date for the grant of new benefits. The expiration date has been extended several times in the past. The expiration date currently in effect is June 30, 2004 (which may be extended by ministerial decision until December 31, 2004), and no new benefits will be granted after that date unless the expiration date is extended. We cannot assure you that new benefits will be available after June 30, 2004 or that benefits will be continued in the future at their current levels or at all.

Israeli courts might not enforce judgments rendered outside of Israel and it might therefore be difficult for an investor to recover any judgment against any of our officers or directors resident in Israel.

We are organized under the laws of Israel, and we maintain significant operations in Israel. Certain of our officers and directors named in this report reside outside of the United States. Therefore, you might not be able to enforce any judgment obtained in the U.S. against us or any of such persons. You might not be able to bring civil actions under U.S. securities laws if you file a lawsuit in Israel. However, we have been advised by our Israeli counsel that, subject to several limitations, Israeli courts may enforce a final judgment of a U.S. court for liquidated amounts in civil matters after a hearing in Israel. We have appointed Commtouch Inc., our U.S. subsidiary, as our agent to receive service of process in any action against us arising from this report. We have not given our consent for our agent to accept service of process in connection with any other claim and it may therefore be difficult for an investor to effect service of process against us or any of our non-U.S. officers, directors and experts relating to any other claims. If a foreign judgment is enforced by an Israeli court, it may be payable in Israeli currency.

Provisions of Israeli law may delay, prevent or make difficult an acquisition of Commtouch, which could prevent a change of control and therefore depress the price of our shares.

Israeli corporate law regulates mergers, votes required to approve mergers and acquisitions of shares through tender offers, requires special approvals for transactions involving significant shareholders and regulates other matters that may be relevant to these types of transactions. Furthermore, Israel tax considerations may make potential transactions unappealing to us or to some of our shareholders and tax reform in Israel can reduce potential tax benefits, and limit our potential profitability.

Item 4. Information on the Company.

Overview

We are a provider of anti-spam solutions to enterprise customers. The Company offers its enterprise anti-spam solution to small, medium and large enterprises through a variety of distribution channels, namely various reseller channels. The solutions are also available for integration with security, content filtering, anti-virus and other filtering solutions through alliances and strategic partnerships, including OEM (Original Equipment Manufacturer) arrangements. In the middle of 2004, the Company is expected to release a first version of its ISP (Internet Service Provider) anti-spam solution. The solutions are marketed worldwide through the Company's internal sales force and external distribution channels.

In its previous capacity as a dedicated email service provider to millions of users, the Company found it necessary to design an effective strategy to eliminate millions of unsolicited commercial email messages daily. It is this strategy that has led the Company to develop and deliver its current anti-spam solutions, which are positioned to tackle sophisticated spam attacks. A combination of proprietary and patent-pending technologies makes it possible for Commtouch to detect, alert and block most spam attacks as they are distributed over the Internet.

Commtouch Offerings

We offer a comprehensive enterprise class anti-spam solution (known as "Commtouch Anti-Spam Enterprise Gateway"), consisting of both a software element (the "Enterprise Gateway") and a service component (the "Detection Center"). At the Enterprise Gateway, messages are filtered at the organization's entry point, before being distributed to recipients, with added user-level controls and a top level of secure spam detection services from the Detection Center, all allowing for real-time reaction to worldwide spam attacks. At the heart of the solution, however, is the Detection Center, which detects new spam attacks as soon as they are launched and distributed over the Internet. The Detection Center provides real-time spam detection services to enterprise customers by maintaining constant communication with Enterprise Gateways that are locally installed at customer premises in different locations worldwide. The Detection Center collects information from multiple sources about new spam attacks, analyzes the input using Commtouch patent-pending technology, identifies and detects spam, classifies the data, matches its stored information against outstanding queries for spam detection from Enterprise Gateways and replies in real-time back to the Enterprise Gateways with a prioritized and accurate resolution. The whole process takes no more than 300ms. Enterprise privacy is kept at a maximum because the content of incoming email messages is not seen by the Detection Center.

In particular, enterprise anti-spam solution operates to help eliminate spam as follows:

Inbound email enters the Enterprise Gateway, a software add-on to the enterprise SMTP server.

The Enterprise Gateway matches key characteristics of the message with predefined spam policies created by IT managers or end-users.

If the Enterprise Gateway does not match the message to a known source, either spam or not spam, it compares characteristics of the incoming message against the Enterprise Gateway database of recently identified spam.

If the message remains suspicious, the Enterprise Gateway queries the Detection Center for remote spam detection and classification services.

The outgoing query consists of encrypted digital signatures taken from e-mail information to ensure enterprise security and confidentiality.

The Detection Center weighs the values of the outstanding query against its vast database of real-time information about known spam messages and sources of spam, and replies to the Enterprise Gateway with a unique and up-to-date classification.

The Enterprise Gateway applies a locally predefined action to the message and may store the information internally to match against new incoming messages bearing similar characteristics.

In addition to working with Microsoft Exchange server platforms, during the first half of 2004 Commtouch will be releasing an enterprise class anti-spam solution that will work with a Lotus Notes server platform.

We also offer an anti-spam solution by way of a Software Development Kit ("SDK"). The SDK enables third-party vendors to integrate the Commtouch anti-spam solution advantages into their existing offerings, providing them with full spam identification and spam classification services from the Detection Center. These vendors benefit from Commtouch expertise in blocking spam and other unwanted email traffic without the need to develop and dedicate a service department in-house. The SDK enables full communication with the remote Detection Center, receiving results to queries about suspicious messages. Each such vendor has the flexibility to determine how best to integrate the SDK into their solution. For example, if the Detection Center classifies a specific message as spam, the vendor's application may respond by either quarantining the message, rejecting it completely or sending a bounce-back message to its sender or any other option provided by the vendor's specific application.

The SDK consists of a set of APIs, which receive incoming messages as input from the vendor's application, returning the status of the message as output from the SDK. Each vendor can implement its solution differently, making the unique advantages of SDK flexible to match particular needs.

Products that may benefit from integration of the SDK solution include:

- o Anti-virus applications
- o Content filtering solutions

- o Firewall systems
- o Security servers
- o Telco and cellular phone systems
- o Internet Service Provider services
- o Anti-spam applications
- o Other network appliances

Further, we are in the infancy stage of marketing an Internet Solution Provider anti-spam solution ("ISP Solution"). ISPs purchasing this solution will install Commtouch software ("engine") on a front end server (in front of the ISP's messaging server), which will initially receive and classify email, in conjunction with the detection capabilities of the Commtouch Detection Center. ISPs will be allowed the flexibility of defining which Internet protocols (IPs) will be banned from delivering messages to their messaging system, and those messages that are allowed to enter but are suspected of being spam will be delivered to end users with a special tag identifying them as suspected spam.

Competitive Landscape

The markets in which Commtouch competes are intensely competitive and rapidly changing. We believe there is no single competitor that offers the complete package of anti-spam protection that Commtouch provides. We are aware of competitors that provide anti-spam products either alone or as part of a complete messaging system or email security system.

Commtouch's principal competition is from companies that offer various e-mail content filtering products. Companies that sell products that compete with some of the features within our products include Brightmail, Postini, Tumbleweed, CipherTrust, SurfControl, Clearswift Technologies, and Trend Micro Incorporated.

The principal competitive factors in our industry include price, product functionality, product integration, platform coverage and ability to scale, worldwide sales infrastructure and global technical support. Some of our competitors have greater financial, technical, sales, marketing and other resources than we do, as well as greater name recognition and a larger installed customer base. Additionally, some of these competitors have research and development capabilities that may allow them to develop new or improved products that may compete with product lines we market and distribute.

We expect that the market for anti-spam solutions will become more consolidated with larger companies being better positioned to compete in such an environment in the long term. As this market continues to develop, a number of companies with greater resources than ours could attempt to increase their presence in this market by acquiring or forming strategic alliances with our competitors or business partners. Our success will depend on our ability to adapt to these competing forces, to develop more advanced products more rapidly and less expensively than our competitors, and to educate potential customers as to the benefits of licensing our products rather than developing their own products. Competitors could introduce products with superior features, scalability and functionality at lower prices than our products and could also bundle existing or new products with other more established products that discourage users from purchasing our products. Increased competition is likely to result in price reductions, reduced gross margins and loss of market share, any of which could harm our business.

See also disclosure under "Item 3. Key Information- RISK FACTORS--Business Risks--We have many established competitors who are offering solutions to the spam problem."

Financing Transactions During 2003

To enhance the Company's overall financial position, the Company entered into the following financing transactions during 2003:

- a. On January 29, 2003, Commtouch entered into a Convertible Loan Agreement ("the January Loan"), with certain lenders. The Company received the total loan amount of \$1,250 thousand from the lenders, which bore interest at a rate of ten percent per annum, and convertible into ordinary shares of the Company at the price of \$0.25 per share. In connection with the January Loan, the Company also issued warrants exercisable for purchase of up to 5,000,000 of the Company's

ordinary shares, each one-third of the warrants exercisable within five years at prices per ordinary share of \$0.25, \$0.33 and \$0.50 respectively.

A more complete description of this convertible loan transaction may be found in the Company's Form 6-K filed with the SEC for the month of April 2003, which is incorporated herein by reference under Exhibit 2.9 to this Form 20-F. This description is qualified in its entirety by reference to the text of the Convertible Loan Agreement, as amended, which is listed in this Form 20-F under Exhibits 2.9.1 through 2.9.11.

b. On July 10, 2003, Commtouch entered into an ordinary shares and Warrants Purchase Agreement with certain investors named therein. Under this agreement, the company received an investment of \$1,440 thousand, and issued to the investors 2,880,000 ordinary shares and warrants to purchase within five years 1,440,000 ordinary shares at an exercise price of \$0.50. Warrants totaling 325,000 shares were exercised in 2003, leaving 1,115,000 warrants outstanding as at December 31, 2003. These warrants remain exercisable and expire on August 11, 2008.

A more complete description of this equity purchase transaction may be found in the Company's Form 6-K filed with the SEC for the month of July 2003, which is incorporated herein by reference under Exhibit 4.10 to this Form 20-F. This description is qualified in its entirety by reference to the text of the Ordinary Shares and Warrants Purchase Agreement, which is listed in this Form 20-F under Exhibit 4.10.1.

c. On July 29, 2003, Commtouch entered into two identical ordinary shares and Warrants Purchase Agreements with certain investors named therein. Under these agreements, the company received investments totaling \$1,600 thousand, and issued to the investors 2,666,667 ordinary shares and warrants to purchase within five years 1,600,000 ordinary shares at an exercise price of \$0.65. These warrants remain exercisable and expire on August 11, 2008.

A more complete description of these equity purchase transactions may be found in the Company's Form 6-K filed with the SEC for the month of August 2003 (August 15), which is incorporated herein by reference under Exhibit 4.11 to this Form 20-F. This description is qualified in its entirety by reference to the text of the Ordinary Shares and Warrants Purchase Agreements, which are listed in this Form 20-F under Exhibits 4.11.1 and 4.11.2.

d. On November 26, 2003, the Company signed an agreement (the "November Notes Agreement") for a private placement of \$3,000 thousand in senior convertible notes (the "November Notes") and related warrants (the "November Warrants") with a group of institutional investors. The notes mature in three years and bear interest at a rate of 8% per annum. The notes are convertible at any time, at the lenders' option, into the Company's ordinary shares at a fixed conversion price of \$1.153. The lenders also received warrants to purchase 600,000 shares of the Company, exercisable within three year at an exercise price of \$1.153 per share. The issuance of the November Notes was contingent on the conversion of the January Loan and the exercise of the January Warrants into equity. The lenders retain the option to invest an additional \$3 million on similar terms to those of the original loan, with such option open for six months as from January 20, 2004 (the date that a registration statement covering the initial loan was declared effective by the SEC).

A more complete description of this convertible loan transaction may be found in the Company's Form 6-K filed with the SEC for the month of November 2003 (filed December 2, 2003), which is incorporated herein by reference under Exhibit 2.10 to this Form 20-F. This description is qualified in its entirety by reference to the text of the Securities Purchase Agreement, which is listed in this Form 20-F under Exhibits 2.10.1 through 2.10.7.

Intellectual Property

We regard our patent pending anti-spam technology, copyrights, service marks, trademarks, trade secrets and similar intellectual property as critical to our success, and rely on patent, trademark and copyright law, trade secret protection and confidentiality and/or license agreements with our employees, customers, partners and others to protect our proprietary rights. We are only actively maintaining our registered trademark for "COMMTOUCH", which is currently registered in the U.S., Canada, India, Israel, European Union, China, Mexico, Norway, Taiwan, Russian Federation, South Korea and Australia. While previous registrations of PRONTO (Canada and South Korea); COMMTOUCH SOFTWARE (Australia and New Zealand); PRONTO MAIL (New Zealand) may still be in force, we are not currently actively maintaining these trademarks. The Company may decide to actively maintain some or all of these trademarks in the future, as circumstances may justify. We also have a pending trademark application for COMMTOUCH in Brazil. We are also claiming trademark rights in "RPD" (Recurrent Pattern Detection), as applicable to our anti-spam solutions, as from at least September 2003.

It may be possible for unauthorized third parties to copy or reverse engineer certain portions of our products or obtain and use information that we regard as proprietary. In addition, the laws of some foreign countries do not protect proprietary rights to the same extent as do the laws of the United States. There can be no assurance that our means of protecting our proprietary rights in the United States or abroad will be adequate or that competing companies will not independently develop similar technology.

Other parties may assert infringement claims against us. We may also be subject to legal proceedings and claims from time to time in the ordinary course of our business, including claims of alleged infringement by us and/or our licensees of the trademarks and other intellectual property rights of third parties. Such claims, even if not meritorious, could result in the expenditure of significant financial and managerial resources.

We also continue to hold a perpetual mail server license which was utilized in our hosted email service offering, and may license other technology as the need arises. We cannot be certain that, apart from the mail server license, other third-party content licenses will be available to us on commercially reasonable terms or that we will be able to successfully integrate the technology into our products. These third-party licenses may expose us to increased risks, including risks associated with the assimilation of new technology, the diversion of resources from the development of our own proprietary technology, and our inability to generate revenues from new technology sufficient to offset associated acquisition and maintenance costs. The inability to obtain any of these licenses could result in delays in product development until equivalent technology can be identified, licensed and integrated. Any such delays could cause our business/financial condition and operating results to suffer.

Government Regulation

Laws aimed at curtailing the spread of spam have been adopted by the federal government, i.e. CAN-SPAM Act, and some states, with the CAN-SPAM Act superseding some state laws or certain elements thereof. See also disclosure under "Item 3. Key Information- RISK FACTORS--Business Risks-- "Our Business May be Adversely Affected as a Consequence of Legislation Imposing Legal Penalties On Distributors of Unsolicited Email". Despite this legislation, we have not seen an abatement in the amount of spam traffic on the Internet.

The growth and development of the spam market may prompt calls for more stringent Internet user protection laws that may limit the ability of companies promoting or delivering spam online. Moreover, the applicability to the Internet of existing laws in various jurisdictions governing issues such as property ownership, sales and other taxes, libel and personal privacy is uncertain and may take years to resolve. The adoption of additional laws or regulations, or the application of existing laws or regulations to the Internet, may impair the growth of the Internet or commercial online services. All or some of the above laws could decrease the demand for our anti-spam solutions and increase our cost of doing business, or otherwise harm our business and operating results.

Employees

As of December 31, 2003, 2002 and 2001, we had 40, 22 and 92 full-time employees, respectively. None of our U.S. employees are covered by a collective bargaining agreement. As of March 31, 2004, we had 48 employees. We believe that our relations with our employees are good.

Israeli law and certain provisions of the nationwide collective bargaining agreements between the Histadrut (General Federation of Labor in Israel) and the Coordinating Bureau of Economic Organizations (the Israeli federation of employers' organizations) apply to Commtouch's Israeli employees. These provisions principally concern the maximum length of the workday and workweek, minimum wages, contributions to a pension fund, insurance for work-related accidents, procedures for dismissing employees, determination of severance pay and other conditions of employment. Furthermore, pursuant to such provisions, the wages of most of Commtouch's Israeli employees are subject to cost of living adjustments, based on changes in the Israeli Consumer Price Index. The amounts and frequency of such adjustments are modified from time to time. Israeli law generally requires the payment of severance pay upon the retirement or death of an employee or upon termination of employment by the employer or, in certain circumstances, by the employee. We currently fund our ongoing severance obligations by making monthly payments for insurance policies and by an accrual. A general practice in Israel followed by Commtouch, although not legally required, is the contribution of funds on behalf of certain employees to an individual insurance policy known as "Managers' Insurance." This policy provides a combination of savings plan, insurance and severance pay benefits to the insured employee. It provides for payments to the employee upon retirement or death and secures a substantial portion of the severance pay, if any, to which the employee is legally entitled upon termination of employment. Each participating employee contributes an amount equal to 5% of such employee's base salary, and the employer contributes between 13.3% and 15.8% of the employee's base salary. Full-time employees who are not insured in this way are entitled to a savings account, to which each of the employee and the employer makes a monthly contribution of 5% of the employee's base salary. We also provide

certain Israeli employees with an Education Fund, to which each participating employee contributes an amount equal to 2.5% of such employee's base salary, and the employer contributes an amount equal to 7.5% of the employee's base salary, up to a certain maximum base salary.

Description of Property

The legal name of the Company is Commtouch Software Ltd., and its principal executive offices are located at 1A Hazoran Street, Poleg Industrial Park, P.O.Box 8511, Netanya 42504, Israel, where our telephone number is 011-972-9-863-6888. The Company's wholly owned subsidiary, Commtouch Inc., is located at 1300 Crittenden Lane, Suite 103, Mountain View, California 94043, where our telephone number is (650) 864-2000. All of our facilities are leased. We were incorporated as a limited liability company in Israel under the laws of Israel on February 5, 1991. Our Articles of Association are on file in Israel with the office of the Israeli Registrar of Companies and available for public inspection from the Registrar.

Revenues for Last Three Financial Years

See Item 5. Operating and Financial Review and Prospects-"Revenue Sources" and the F pages to this Form 20-F below.

Capital Expenditures and Divestitures for Last Three Financial Years

Commtouch divested itself of four subsidiary companies during the last three financial years: 1) Commtouch (UK) Ltd, which was dissolved during 2003, 2) Commtouch Latin America Inc., which was dissolved during 2002, 3) Wingra, Inc. ("Wingra"), which was sold during 2002 and 4) Commtouch K.K. (Japan) (now known as Imatrix Corporation), which we previously owned a majority of and, during 2002, reduced such holdings to a 32% interest and is being accounted for under the equity method.

Item 5. Operating and Financial Review and Prospects.

The following discussion should be read in conjunction with the Consolidated Financial Statements and the Notes thereto included elsewhere in this report. This discussion contains forward-looking statements based upon current expectations that involve risks and uncertainties. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. For example, the words "expects," "anticipates," "believes," "intends," "plans," "seeks" and "estimates" and similar expressions are intended to identify forward-looking statements. Commtouch's actual results and the timing of certain events may differ significantly from those projected in the forward-looking statements. Factors that might cause future results to differ materially from those projected in the forward-looking statements include, but are not limited to, those set forth under "Item 3. Key Information." and in the Company's other filings with the Securities and Exchange Commission.

Overview

During 2003, our business was to develop and sell, through a reseller program, anti-spam solutions to enterprise class customers. During 2002, we outsourced integrated Web-based email and messaging solutions to a few businesses that remained as customers following the transfer of our consumer outsource web-based email business and sale of our Hosted Exchange email business during late 2001 and early 2002 in transactions with MailCentro Inc. and Telecomputing, Inc. respectively. During early 2002, concurrent with the divestiture of the Company's above-stated businesses, the Company began marketing to service providers its messaging software platform ("CMP"), which had been in development by the Company prior to that time. Following a concerted effort to penetrate the email server market and a determination that the continuing unfavorable economic conditions would hamper potential sales of CMP, and given the Company's inherent knowledge of anti-spam solutions based on its many years as an ASP in the outsourced email market and the growing worldwide attention that has been directed to the problem of spam, the Company transitioned its focus to the anti-spam market in mid-2002. While no uniform definition of spam exists, the Company generally defines "spam" as the sending of unsolicited bulk email for commercial and non-commercial purposes.

In February 2002, the Company sold off its migration service business, Wingra, to Wingra's senior management. The operations of Wingra were eliminated from the operations of the entity as a result of the disposal transaction. The Company ceased its activity in the migration service business. The results of operations including revenue, operating expenses and other income and expense, of Wingra for 2001, have been reclassified in the accompanying statements of operations as discontinued operations.

Critical Accounting Policies and Estimates

Operating and Financial Review and Prospects are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. Management believes the critical accounting policies and areas that require the most significant judgments and estimates to be used in the preparation of the consolidated financial statements are revenue recognition and commitments and contingencies.

Revenue recognition

Revenue is recognized when the earnings process is complete, as evidenced by an agreement between the customer and the company, when delivery has occurred or services have been rendered, when the fee is fixed or determinable and when collection is probable. The company's revenue recognition policy is discussed in Note 2 of Notes to Consolidated Financial Statements. The recognition of revenue in conformity with accounting principles generally accepted in the United States requires the company to make estimates and assumptions that affect the reported amounts of revenue. Estimates related to the recognition of revenue include the accumulated provision for revenues subject to refund and other. As additional information becomes available, or actual amounts are determinable, the recorded estimates are revised. Consequently, current operating results can be affected by revisions to prior accounting estimates.

Contingencies

CommTouch periodically records the estimated impacts of various conditions, situations or circumstances involving uncertain outcomes. These events are called "contingencies", and CommTouch's accounting for such events is prescribed by Statement of Financial Accounting Standards No. 5, "Accounting for Contingencies" ("SFAS No. 5") SFAS No. 5 defines a contingency as "an existing condition, situation, or set of circumstances involving uncertainty as to possible gain or loss to an enterprise that will ultimately be resolved when one or more future events occur or fail to occur."

SFAS No. 5 does not permit the accrual of gain contingencies under any circumstances. For loss contingencies, the loss must be accrued if (1) information is available that indicates it is probable that the loss has been incurred, given the likelihood of the uncertain future events; and (2) that the amount of the loss can be reasonably estimated.

The accrual of a contingency involves considerable judgment on the part of management. CommTouch uses its internal expertise, and outside experts (such as lawyers, tax specialists and engineers), as necessary, to help estimate the probability that a loss has been incurred and the amount (or range) of the loss. The Company has recorded contingencies in situations where management determined it was probable a loss had been incurred and the amount could be reasonably estimated.

Revenue Sources

Service Fees.

We started to recognize revenues from anti-spam solutions during the third quarter of 2003. Revenues associated with the sale of anti-spam solutions are recognized ratably over the period in which services are provided, which is usually one to two years.

During 2000 - 2002, most of our email service revenues resulted from contracts that required our customers to pay us a monthly per mailbox price subject to a minimum commitment fee and fees for direct marketing and communications services. In addition, the Company recognized revenue from sales of software licenses to end users. During that time, we recognized no revenues from our new anti-spam offering.

Direct E-marketing. During 2002, we did not recognize any revenues from this type of activity, as our business model had changed (see above discussion under "Overview"). Prior to 2002, because of our installed user base and our

agreements with our customers, we could assist e-commerce companies (those seeking marketing channels) in distributing their services to our customers' end users who opted to receive offers by email. We shared with our customers the revenues from this direct e-marketing, which were earned either on a per-message basis, a referral basis, or as a commission on products sold. In 2001 and 2000, no direct e-marketing customer provided more than 10% of revenues.

Results of Operations

The following table sets forth financial data for the years ended December 31, 2001, 2002 and 2003 (in thousands):

	Year Ended December 31,		
	2001	2002	2003
Revenues:			
Email services	\$ 13,318	\$ 3,238	\$ 329
Software license revenues	270	200	--
Total revenues	13,588	3,438	329
Cost of revenues	13,962	1,675	581
Gross profit (loss)	(374)	1,763	(252)
Operating expenses:			
Research and development, net	5,884	2,246	1,476
Sales and marketing	12,894	1,176	1,875
General and administrative	10,337	2,588	1,308
Amortization of stock-based employee deferred compensation	2,204	551	247
Write-off of property and equipment and other	10,166	750	--
Total operating expenses	41,485	7,311	4,906
Operating loss	(41,859)	(5,548)	(5,158)
Interest and other income, net	583	(60)	(1,967)
Equity in earnings (losses) of affiliate	--	(56)	291
Write-off impaired long-term investments	(2,000)	--	--
Minority interest	285	74	--
Loss from continuing operations	(42,991)	(5,590)	(6,834)
Gain on disposal of Wingra	--	1,014	--
Discontinued Operations - Wingra	(18,016)	(335)	--
Income (Loss) from sale of discontinued operations	(18,016)	679	--
Net loss	\$ (61,007)	\$ (4,911)	\$ (6,834)

Comparison of Years Ended December 31, 2003 and 2002

Revenues. Due to the sale of its migration (Wingra Inc.) and hosted exchange services, as well as its consumer class business in 2001, the Company's revenues for 2003 had decreased significantly comparing to 2002, mainly because of the Company's change of focus during 2003.

Revenues decreased \$3.1 million from \$3.4 million in 2002 to \$0.3 million in 2003. 2003 revenues represent royalty income from email services and from sales of anti-spam solutions (see Note 2h to the Notes to Consolidated Financial Statements). We are expecting revenues to rise from \$0.3 million in 2003, as the anti-spam solutions will be available for the full year and as we gain market share. In 2003 and 2002, we had three and two customers, respectively, whose revenue exceeded 10% of the Company's revenues, representing 70% and 57% of the 2003 and 2002 revenues, respectively.

Cost of Revenues. Cost of revenues decreased 65% from \$1.7 million in 2002 to \$0.6 million in 2003. Cost of revenues is not expected to increase at the same rate as revenues from the anti-spam solution increases. The cost includes costs

of running the anti-spam detection center, which are not as labor intensive as when we were providing hosted email services.

Research and Development, Net. Research and development expenses decreased 32% from \$2.2 million in 2002 to \$1.5 million in 2003 due to the decrease in personnel and other related costs. In 2003 and 2002, we received royalty-bearing grants totaling zero and \$0.2 million, respectively, from the Israeli government, which were recorded as a reduction of research and development costs. The Israeli government requires beneficiaries of such grants to pay royalties to the Israeli government based on the revenues derived from the sale of products, technologies and services developed with such grants. It is possible that an obligation to pay royalties in 2004 and future years may be imposed on the Company, as we started to generate revenues from our anti-spam solutions in the middle of 2003, although it is the Company's position that no royalty bearing technologies are utilized in relation to its anti-spam solutions. The ultimate liability is subject to review by the OCS.

Sales and Marketing. Sales and marketing expenses increased 59% from \$1.2 million in 2002 to \$1.9 million in 2003, due to the increase in personnel in connection with the launch of our new product in the middle of 2003.

General and Administrative. General and administrative expenses decreased 49% from \$2.6 million in 2002 to \$1.3 million in 2003, due primarily to curtailment of costs. These expenses include net income from the recovery of notes receivables totaling \$0.3 million related to notes granted to former employees during 1999, for which a valuation allowance was recorded in 2002.

Amortization of Stock-Based Employee Deferred Compensation. Our stock-based employee deferred compensation expenses decreased 55% from \$0.6 million for 2002 to \$0.2 million for 2003. The deferred compensation is being amortized using the sum-of-digits method over the vesting schedule, generally four years. Amortization of these amounts concluded during the third quarter of 2003. Deferred compensation expenses also included \$0.2 million in each of the years in 2003 and 2002, respectively, relating to the repricing of stock options during 2001. The total amortization charge of \$1.0 million related to the repricing is amortized using the straight-line method over a three year vesting schedule, which will conclude by the middle of 2004.

Interest and Other Income, Net. Our interest and other income, net, increased from a net loss of \$0.1 million for 2002 to \$2 million for 2003, due primarily to a non-cash charge of \$1.9 million in 2003 relating to the issuance of convertible loans and warrants.

Minority Interest. At December 31, 2002, the Company owned 32% of the equity and voting rights of Imatrix (formerly Commtouch, K.K. (Japan)). During 2002, the Company's investment in Imatrix changed from a consolidated subsidiary to an equity investment; as such we ceased to have minority interest in 2003.

Income Taxes. As of December 31, 2003, we had approximately \$31.5 million of Israeli net operating loss carry-forwards. We also had U.S. federal net operating loss carry-forwards available to offset future taxable income. The Israeli net operating loss carry-forwards have no expiration date. The U.S. net operating loss carry-forwards will expire in various amounts in the years 2009 to 2023. Utilization of U.S. net operating losses may be subject to the substantial annual limitation due to the "change in ownership" provisions of the Internal Revenue Code of 1986 and similar state provisions. The annual limitation may result in the expiration of net operating losses before utilization.

Comparison of Years Ended December 31, 2002 and 2001

Revenues. Email service revenues decreased 74% from \$13.3 million in 2001 to \$3.2 million in 2002. We recognized revenue of \$0.3 million, from the sale of licenses in 2001 and \$0.2 million in 2002. In 2002 we had two customers whose revenue exceeded 10%, representing 57% of the 2002 revenues. No customer accounted for more than 10% of revenues in 2001.

Cost of Revenues. Cost of revenues decreased 88% from \$14.0 million in 2001 to \$1.7 million in 2002. We have decreased our hosting infrastructure costs due to the agreement with MailCentro and sale of the Hosted Exchange business.

Research and Development, Net. Research and development expenses decreased 62% from \$5.9 million in 2001 to \$2.2 million in 2002 due to the decrease in personnel and other related costs. In 2002 and 2001, we received royalty-bearing grants totaling \$0.2 and \$0.6 million, respectively, from the Israeli government, which were recorded as a reduction of research and development costs. During 2001, we reduced research and development personnel by eliminating certain projects, while only maintaining a core project aligned with our strategic direction.

Sales and Marketing. Sales and marketing expenses decreased 91% from \$12.9 million in 2001 to \$1.2 million in 2002, due to the agreement with MailCentro and sale of the Hosted Exchange business, as well as the change in business strategy.

General and Administrative. General and administrative expenses decreased 75% from \$10.3 million in 2001 to \$2.6 million in 2002, due primarily to curtailment of costs.

Amortization of Stock-Based Employee Deferred Compensation. Our stock-based employee deferred compensation expenses decreased 75% from \$2.2 million for 2001 to \$0.6 million for 2002. The deferred compensation is being amortized using the sum-of-digits method over the vesting schedule, generally four years. Amortization of these amounts concluded during the third quarter of 2003. Deferred compensation expenses also included \$0.2 million and \$0.3 million in 2002 and 2001, respectively, relating to the repricing of stock options during 2001. The total amortization charge of \$1.0 million related to the repricing is amortized using the straight-line method over a three year vesting schedule.

Write-off of Impaired Intangibles and Other Assets. Impairment and other charges consist of costs and/or charges that are not directly associated with other expense classification or ongoing operations. The Company periodically assesses the recoverability of the carrying amount of intangible assets, property and equipment and provides for any possible impairment loss based upon the difference between the carrying amount and fair value of such assets. In 2002, the company had written off \$0.8 million regarding unused property and equipment. In 2001, impairment and other charges of \$23.4 million included a \$13.3 million impairment of goodwill and other intangibles related to our acquisition of Wingra, Inc., \$4.4 million impairment of leasehold improvements at unused leased facilities, \$3.6 million impairment of computer hardware which is idle and not being used, an accrual of \$1.0 million for costs related to early termination of these unused facilities and a \$1.1 million write-off of a customer relationship module (a software tool for managing customer relations), which portion will no longer be utilized. The impairment charges of the goodwill and other intangible assets were classified to discontinued operation due to the divestiture of Wingra in 2002.

Interest and Other Income, Net. Our interest and other income, net, decreased from a net income of \$.6 million for 2001 to a net loss of \$0.1 million for 2002, due primarily to decreased interest income earned from cash equivalents, as the funds depleted in 2002.

Write-Off of Impaired Long-term Investments. The Company invested \$7 million in the first nine months of 2000 in certain Internet centric companies in which the Company believed it had a significant ongoing strategic interest. However, due to the economic slowdown and the significant decline in capital available to and valuations of these privately funded Internet centric companies, the Company believed that these investments were fully impaired. Accordingly, the Company recorded a charge of \$2.0 million in 2001 to reflect impairment of these assets.

Minority Interest. At December 31, 2001 and 2002, the Company owned 70.6% and 32%, respectively, of the equity and voting rights of Commtouch, K.K. (Japan).

Income Taxes. As of December 31, 2002, we had approximately \$28.0 million of Israeli net operating loss carry-forwards. We also had U.S. federal net operating loss carry-forwards available to offset future taxable income. The Israeli net operating loss carry-forwards have no expiration date. The U.S. net operating loss carry-forwards will expire in various amounts in the years 2008 to 2022. Utilization of U.S. net operating losses may be subject to the substantial annual limitation due to the "change in ownership" provisions of the Internal Revenue Code of 1986 and similar state provisions. The annual limitation may result in the expiration of net operating losses before utilization.

Quarterly Results of Operations (Unaudited)

The following table sets forth certain unaudited quarterly statements of operations data for the eight quarters ended December 31, 2003. This information has been derived from the Company's consolidated unaudited financial statements, which, in management's opinion, have been prepared on the same basis as the audited consolidated financial statements, and include all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the information for the quarters presented. This information should be read in conjunction with our audited consolidated financial statements and the notes thereto included elsewhere in this report. The operating results for any quarter are not necessarily indicative of the operating results for any future period.

Fluctuations in Quarterly Results

We have incurred operating losses since inception, and we cannot be certain that we will achieve profitability on a quarterly or annual basis in the future. Our results of operations have fluctuated and are likely to continue to fluctuate significantly from quarter to quarter as a result of a variety of factors, many of which are outside of our control including entering a new and unstable market due to launching the anti-spam product. A relatively large expense in a quarter could have a negative effect on our financial performance in that quarter. Additionally, as a strategic response to a changing competitive environment, we may elect from time to time to make certain pricing, service, marketing or acquisition decisions that could have a negative effect on our quarterly financial performance. Other factors that may cause our future operating results to fluctuate include, but are not limited to:

- o continued growth of the Internet, email usage and the spread of spam email;
- o demand for anti-spam solutions;
- o our ability to attract and retain customers and maintain customer satisfaction;
- o our ability to upgrade, develop and maintain our systems and infrastructure;
- o the amount and timing of operating costs and capital expenditures relating to expansion of our business and infrastructure;
- o the size, timing and fulfillment of orders for our anti-spam solutions;
- o the receipt or payment of irregular or nonrecurring revenues or expenses;
- o technical difficulties or system outages;

- o foreign exchange rate fluctuations;
- o the announcement or introduction of new or enhanced solutions by our competitors;
- o our ability to attract and retain qualified personnel with Internet industry expertise, particularly sales and marketing personnel;
- o the pricing policies of our competitors;
- o failure to increase our sales; and
- o governmental regulation relating to the Internet, and spam practices in particular.

In addition to the factors set forth above, our operating results will be impacted by the extent to which we incur non-cash charges associated with stock-based arrangements with employees and non-employees.

Liquidity and Capital Resources

We have financed our operations principally from the issuance of equity securities and, to a lesser extent from private loans, bank loans and research and development grants from the Israeli government.

As of December 31, 2003 and March 31, 2004 respectively, we had approximately \$4.1 million and approximately \$ 4.5 million of cash to fund operations in 2004. In 2003 we utilized \$4.5 million of cash to fund operating losses. Net cash provided by financing activities were approximately \$7.2 million mainly due to proceeds from the issuance of shares, and receipt of two convertible loans (one convertible loan was converted into equity). Net cash utilized from investing activities was insignificant.

As of December 31, 2003 and March 31, 2004, we had working capital of \$4.0 million and \$2.9 million, respectively.

According to the November Notes Agreement, any delay in registration and/or effectiveness of the November Notes according to the registration requirements, can cause the occurrence of an event of default and redemption of the notes by the lenders, and/or penalties to be paid in cash.

On May 18, 2004, the Company entered into a definitive agreement for the private placement of ordinary shares of the Company to existing institutional investors for gross proceeds of approximately \$3.9 million. The investment is contingent upon shareholders approval and additional closing conditions.

Based on the cash balance at December 31, 2003, current projections of revenues, related expenses, and the completion of the convertible loan transaction, the Company believes it has sufficient cash to continue operations for at least the next twelve months through December 31, 2004.

Effective Corporate Tax Rates

Our tax rate will reflect a mix of the U.S. statutory tax rate on our U.S. income and the Israeli tax rate discussed below. We expect that most of our taxable income will be generated in Israel. Israeli companies are generally subject to corporate tax at the rate of 36% of taxable income. A part of our income, however, is derived from the Company's capital investment program with Approved Enterprise status under the Law for the Encouragement of Capital Investments in three separate plans, and is therefore eligible for certain tax benefits. The Company has three approved programs, out of which two were cancelled in prior years. Pursuant to these benefits, we will enjoy a tax exemption on income derived during the first two years in which such investment plans produce taxable income (provided that we do not distribute such income as a dividend) and a reduced tax rate of 10% to 25% for an additional period of five to eight years depending on the level of foreign investment in Commtouch. All of these tax benefits are subject to various conditions and restrictions. There can be no assurance that we will obtain approval for additional Approved Enterprise programs, or that the provisions of the law will not change. The period of tax benefits is subject to limits of 12 years from the year of commencement of production, or 14 years from the grant of approval, whichever is earlier. Moreover, notwithstanding our Approved Enterprise status in Israel, we may be required to pay income or withholding taxes in other countries. Since we have incurred tax losses in every year through 2003, we have not yet used the tax benefits for which we are eligible. See Item 10 below for a discussion on tax reform.

Impact of Inflation and Currency Fluctuations

Most of our sales are in U.S. dollars. However, a portion of our costs relates to our operations in Israel. A substantial portion of our operating expenses in Israel, primarily our research and development expenses, is denominated in NIS. Costs not denominated in U.S. dollars are translated to U.S. dollars, when recorded, at prevailing rates of exchange. This is done for the purposes of our financial statements and reporting. Costs not denominated in U.S. dollars will increase if the rate of inflation in Israel exceeds the devaluation of the Israeli currency as compared to the U.S. dollar or if the timing of such devaluation lags considerably behind inflation. Consequently, we are and will be affected by changes in the prevailing NIS/U.S. dollar exchange rate.

The annual rate of inflation in Israel was -1.9% in 2003, 6.5% in 2002 and 1.4% in 2001. The NIS was devalued against the U.S. dollar by approximately -6.4% in 2003, 7.3% in 2002 and 9.3% in 2001. The representative dollar exchange rate for converting the NIS to U.S. dollars, as reported by the Bank of Israel, was NIS 4.379 for one U.S. dollar on December 31, 2003. Note that the representative dollar exchange rate was NIS 4.528 at March 31, 2004.

Because exchange rates between the NIS and the dollar fluctuate continuously, exchange rate fluctuations and especially larger periodic devaluations will have an impact on our operating results and period-to-period comparisons of our results. The effects of foreign currency re-measurements are reported in the consolidated financial statements for relevant periods in the statement of operations.

The Company's affiliates (Imatrix's) functional currency is the Japanese Yen. Consequently Imatrix's results of operations are translated into USD. Because exchange rates between the Yen and the dollar fluctuate continuously, exchange rate fluctuations will have an impact on the Company's equity in earnings and losses of affiliate.

Item 6. Directors, Senior Management and Employees

The following table sets forth certain information regarding our directors at March 31, 2004:

Name	Age	Beneficial Ownership >1%(3)	Position
Amir Lev.....	43	2.8%	Director
Carolyn Chin(1).....	56	1.1%	Chairman of the Board of Directors
Gideon Mantel(1).....	44	5.9%	Director
Nahum Sharfman(1).....	55	3.8%	Director
Lloyd E. Shefsky(2)(4).....	63	1.8%	Director
Richard Sorkin.....	42	--	Director
Udi Netzer (2).....	48	--	Director (Outside Director)
Ofer Segev(1)(2).....	44	--	Director (Outside Director)

(1) Member of the Compensation Committee

(2) Member of the Audit Committee

(3) For purposes of this table, a person or group of persons is deemed to have beneficial ownership of shares of the Company's common stock which such person or group has the right to acquire on or within 60 days after March 31, 2004. Unless otherwise indicated, to the Company's knowledge the person named has sole voting and investment power and the right to receive the economic benefits, or share such power and rights with such person's spouse, with respect to all shares held by that person. Warrants and options that were underwater as of March 31, 2004 were included in the calculation of beneficial ownership.

(4) This percentage represents Mr. Shefsky's individual holdings and holdings of LENE L.P., for which he acts as General Partner.

Other Management Employees:

The following table sets forth the names and positions of our management employees at March 31, 2004:

Name	Age	Ownership >1%	Position
Gideon Mantel.....	44	See table above	CEO
Amir Lev.....	43	See table above	President and Chief Technical Officer
Devyani Patel.....	43	--	Vice President, Finance
Avner Amram.....	42	--	Executive Vice President, Commtouch Inc.
Gary Davis.....	42	--	General Counsel and Corporate Secretary
Udi Trugman.....	33	--	Vice President, Research and Development, Commtouch Software Ltd.
Ronni Zehavi.....	38	--	Vice President, Operations, Commtouch Software Ltd.
Haggai Carmon.....	45	--	Vice President, Marketing, Commtouch Software Ltd.
Timothy Straight.....	49	--	Vice President, Sales, Commtouch Inc.
Mark Uicker.....	40	--	Vice President, Business Development, Commtouch Inc.

Amir Lev is a co-founder of Commtouch and has served as its Chief Technology Officer and as a Director since its inception in 1991. Mr. Lev was also the General Manager of Commtouch from January 1997 through April 2000, and in May 2000 became President. Mr. Lev received a B.A. in Computer Science and Economics from Hebrew University, Jerusalem.

Carolyn Chin has served as the Chairman of the Board of Directors since May 2001. Ms. Chin has served as a Director of Commtouch since August 2000. Ms. Chin has 30 years of experience in information technology, marketing, media, telecommunications, retailing, health care, education and small business market segments. She has held a number of senior executive positions including at: Reuters, Market XT, IBM, Citibank, AT&T, Macy's and in the US Government. She has served on over 30 boards and committees. Ms. Chin has also received numerous honors including selection as a White House Fellow and the Committee of 100 (prominent Chinese-Americans). She graduated with an MBA from the Harvard Business School and a BS in Management Engineering from Rensselaer Polytechnic Institute.

Gideon Mantel is a co-founder of Commtouch and served as its Chief Financial Officer from its inception in February 1991 until October 1995, when he became Commtouch's Chief Operating Officer. In November 1997, he became Commtouch's Chief Executive Officer. He has also served as a director of Commtouch since inception. Mr. Mantel received a B.A. in Political Science and an M.B.A from Tel Aviv University.

Nahum Sharfman rejoined the Board in March 2000. Mr. Sharfman is a co-founder of Commtouch and served as its Chief Executive Officer and Chairman of the Board from its inception in February 1991. In November 1997 Mr. Sharfman resigned as Chief Executive Officer to become a founder of Dealttime.com. Mr. Sharfman remained Chairman of the Board of Commtouch and a Director until January 1999. Prior to founding Commtouch, Mr. Sharfman spent eleven years with National Semiconductor Corporation in various development and management roles. Mr. Sharfman received a Ph.D. in High Energy Nuclear Physics from Carnegie Mellon University and M.S. and B.S. degrees in Physics from the Technion- Israel Institute of Technology, Haifa.

Richard Sorkin has served as a Director of Commtouch since July 1999. Since June 1998, Mr. Sorkin has served as an advisor to several early-stage Internet companies and is a director of several private companies. From June 1998 to April 1999 he was the Chairman of the Board of Directors of ZIP2, an Internet media company which was sold to Compaq. From May 1996 to June 1998, he was Chief Executive Officer of ZIP2 and from May 1993 to March 1996 he held various executive positions with Creative Technology, Ltd., a leading provider of multi-media hardware. Mr. Sorkin received a B.A. with honors in Economics from Yale University and an M.B.A. from Stanford University.

Udi Netzer has served as a Director of Commtouch since February 2002. Mr. Netzer is also currently the active Chairman of Eyeblaster, Inc., a rich media ad management system that allows publishers, agencies and advertisers to independently create and manage out-of-banner advertising campaigns. Mr. Netzer has over 15 years' experience in various sales, marketing and executive positions with companies such as 3Com, Netmanage, and VCON. As a partner in Evergreen, Mr. Netzer was one of the first venture capitalists in Israel.

Ofer Segev has served as a Director of Commtouch since February 2002. Mr. Segev has been CEO of Teleknowledge since January 2002 and its CFO from May 2001. From May 2000 to April 2001 served as CFO for Tundo. Prior to his position at Tundo, Segev spent 15 years with Ernst & Young. Segev has a BA in economics and accounting from Bar Ilan University in Israel, and has studied at the Kellogg Graduate School of Management at Northwestern University.

Lloyd E. Shefsky has served as a Director of Commtouch since October 2003. He is a Clinical Professor of Entrepreneurship and Co-Director of the Center for Family Enterprises at the Kellogg School of Management and has taught in several countries. In 1970, he founded the Chicago law firm, Shefsky & Froelich Ltd., where he is Of Counsel since 1996. Since 1981 he has represented the Government of Israel throughout the Midwestern U.S. For nearly forty years he has represented hundreds of entrepreneurs and their companies, and during the past twenty-five years, such representation has included numerous Israeli companies with U.S. operations. Mr. Shefsky authored *Entrepreneurs Are Made Not Born*, which was translated into five foreign languages. He received his J.D. from the University of Chicago Law School, a B.S.C. from De Paul University (accounting), is a member of the Illinois and Florida Bars, and has a CPA certificate in Illinois.

Avner Amram joined Commtouch in 1996 and currently serves as Executive Vice President. Mr. Amram has over 15 years of experience in the areas of technology, operational management and leadership, and is also a founder of CVDO. Before 2002, Mr. Amram served as COO of Commtouch and was responsible for worldwide operations. Mr. Amram also held a number of positions at Commtouch prior to being appointed COO. From 1995 to 1996, Mr. Amram served as project manager for Medatech, a leading provider of customer relationship management (CRM) solutions, developing and managing complex installations at large organizations. Prior to Medatech, Mr. Amram acted as General Manager of Fuga Nursery in Israel, where he was responsible for operations, production, marketing and distribution. Mr. Amram holds a Bachelors of Science (BSC), in Computer Engineering and graduated Cum Laude from the Technion, Israel Institute of Technology.

Devyani Patel joined Commtouch in 1996 as a consultant and became a full-time employee in early 1999. She served as Corporate Controller for Commtouch until November 2001 when she was appointed as the Vice President of Finance. Ms. Patel has over 20 years of accounting and finance experience, including technology industry experience. Ms. Patel graduated from the University of Kent, Canterbury, England in Accounting and Law.

Gary Davis joined Commtouch in September 1999 and serves as General Counsel and Corporate Secretary. Mr. Davis has over 18 years of legal experience in both private law firm and corporate practices. Mr. Davis is certified to practice law in both the State of Israel and California. Prior to September 1999, Mr. Davis was in-house counsel to Israel Military Industries and Elta Electronics Industries. He received a B.A. in Political Economy of Industrial Societies from U.C. Berkeley and a J.D. in law from Golden Gate University.

Udi Trugman joined Commtouch in December 1996 and serves as Vice President of Research and Development. Prior to 2002, Mr. Trugman was Senior Director of Systems in the R&D group. Mr. Trugman has over 15 years of software development and management experience. Prior to working at Commtouch, Mr. Trugman specialized in development of commercial applications.

Ronni Zehavi joined Commtouch in June 1999 and serves as Vice President of Operations. Prior to joining Commtouch, Mr. Zehavi was Human Resources and Training Manager for "Mondex - each", a subsidiary company of International Mastercard from 1997 to 1999. From 1994 to 1997, Mr. Zehavi was an Organizational Consultant in a counseling firm. Mr. Zehavi received his M.A. degree in Organizational Sociology from Bar-Ilan University and his B.A. degree in History and Educational Psychology from Tel-Aviv University.

Haggai Carmon joined Commtouch in January 2002 and serves as Vice President of Marketing. From 1998 to 2002, Mr. Carmon was Vice President of Corporate Marketing and of Sales in Asia-Pacific for VCON Telecommunications, a public vendor of corporate videoconferencing solutions, and was also responsible for international pre-sales and technical support. Prior to that, Mr. Carmon was at NetManage Ltd., a public software company of TCP/IP applications for Windows, a founder and CEO of Applico, a Computer-aided Design for Architecture service firm and managed a college of Fine Arts. Mr. Carmon has over 15 years of experience in technology and international management.

Tim Straight joined Commtouch in July 2003 and serves as Vice President of Sales. Mr Straight is a 20-year veteran of technology sales, and was most recently Western Region Director at NetScreen Technologies. He is responsible for Commtouch's North American sales objectives, continuing the development of the channel operations as well as building existing and future OEM relationships. Prior to joining Netscreen, Mr Straight held domestic and international sales and business development positions with Mirapoint, Gadzoox Networks, Vitalsigns Software, CheckPoint Software Technologies, and

Synoptics/Bay Networks. He has a Bachelors degree in Journalism from the University of Rhode Island.

Mark Uicker was appointed Vice President of Business Development in December of 2003. He is responsible for managing all of Commtouch's relationships with OEM partners, identifying and pursuing new business opportunities as well as negotiating agreements to embed and license Commtouch's anti-spam detection engine in OEM enterprise, service provider and consumer software applications and messaging and security appliances. Mr. Uicker brings 14 years experience in the software business to Commtouch, his most recent position having been vice president of business development, in charge of channel sales at Kaon Interactive. Uicker previously served as vice president of OEM sales and business development at anti-spam vendor Elron Software (acquired by Zix Corporation in fall 2003).

Election of Directors

Directors (other than outside directors, as explained below) are elected by shareholders at the annual general meeting of the shareholders and hold office until the next annual general meeting following the general meeting at which such Director is elected and until his successor is elected, or until he is removed. An annual general meeting must be held at least once in every calendar year, but not more than fifteen months after the preceding annual general meeting. Directors may be removed and other directors may be elected in their place or to fill vacancies in the Board of Directors at any time by the holders of a majority of the voting power at a general meeting of the shareholders. Until a vacancy is filled by the shareholders, the Board of Directors may appoint new directors temporarily to fill vacancies on the Board of Directors. The Articles of Association of Commtouch authorize the shareholders to determine, from time to time, the number of directors. The number was most recently fixed at nine directors. There are no family relationships among any of the directors, officers or key employees of Commtouch.

Alternate Directors

The Articles of Association of Commtouch provide that any director may appoint another person to serve as an alternate director and may remove such alternate. Any alternate director possesses all the rights and obligations of the director who appointed him, except that the alternate has no standing at any meeting while the appointing director is present, the alternate may not in turn appoint an alternate for himself (unless the instrument appointing him otherwise expressly provides) and the alternate is not entitled to remuneration. A person who is not qualified to be appointed as a director, or a person who already serves as a director or an alternate director, may not be appointed as an alternate director. Unless the appointing director limits the time or scope of the appointment, the appointment is effective for all purposes until the appointing director ceases to be a director or terminates the appointment. The appointment of an alternate director does not in itself diminish the responsibility of the appointing director as a director.

Independent and Outside Directors

The Israel Companies Law requires Israeli companies with shares that have been offered to the public in or outside of Israel to appoint at least two outside directors. No person may be appointed as an outside director if the person or the person's relative, partner, employer or any entity under the person's control has or had, on or within the two years preceding the date of the person's appointment to serve as outside director, any affiliation with the company or any entity controlling, controlled by or under common control with the company. The term affiliation includes:

- o an employment relationship;
- o a business or professional relationship maintained on a regular basis;
- o control; and
- o service as an office holder.

No person may serve as an outside director if the person's position or other business activities create, or may create, a conflict of interest with the person's responsibilities as an outside director or may otherwise interfere with the person's ability to serve as an outside director. If, at the time outside directors are to be appointed, all current members of the Board of Directors are of the same gender, then at least one outside director must be of the other gender.

Outside directors are to be elected by a majority vote at a shareholders' meeting, provided that either:

o such majority includes at least one-third of the shares held by non-controlling shareholders who are present and voting at the meeting; or

o the total number of shares held by non-controlling shareholders voting against the election of the director at the meeting does not exceed one percent of the aggregate voting rights in the company.

The initial term of an outside director is three years and may be extended for an additional three years. Outside directors may be removed only by the same percentage of shareholders as is required for their election, or by a court, and then only if the outside director ceases to meet the statutory qualifications for their appointment or if they violate their fiduciary duty to the company. Each committee of a company's Board of Directors must include at least one outside director and the audit committee must include both outside directors. An outside director is entitled to compensation as provided in the regulations adopted under the Companies Law and is otherwise prohibited from receiving any other compensation, directly or indirectly, in connection with service provided as an outside director.

In addition, the Nasdaq SmallCap Market currently requires Commtouch to have at least two independent directors on the Board of Directors and to maintain an audit committee, at least a majority of whose members are independent of management.

However, recent Nasdaq corporate governance Marketplace Rule changes require that, by July 31, 2005 (representing an extended compliance period due to the Company's status as a foreign private issuer), the Company have a majority of independent directors, as defined under Marketplace Rule 4200(a)(15), unless the Company has cause to request and receives an exemption under the rules from this requirement, and an audit committee of three members, each of whom must:

(i) be independent as defined under Marketplace Rule 4200(a)(15);

(ii) meet the criteria for independence set forth in Exchange Act Rule 10A-3(b)(1) (subject to the exemptions provided in Exchange Act Rule 10A-3(c);

(iii) not have participated in the preparation of the financial statements of the Company or any current subsidiary of the Company at any time during the past three years; and

(iv) be able to read and understand fundamental financial statements, including a company's balance sheet, income statement, and cash flow statement.

Under limited circumstances, the Company may have one audit committee member not independent in accordance with the above, but such a member would only be able to serve for a maximum of two years.

Additionally, pursuant to Exchange Act Rule 10A-3(b)(1), by July 31, 2005, members of the audit committee must meet that rule's definition of independence, which requires that an audit committee member may not, except in his or her capacity as a director or committee member, (i) accept directly or indirectly any consulting, advisory, or other compensatory fee from the Company or any of its subsidiaries (except for fixed amounts of compensation under a retirement plan for prior service with the Company, provided that such compensation is not contingent in any way on continued service), and (ii) be an "affiliated person" of the Company or any of its subsidiaries.

The new Nasdaq rules also require that the Company (by July 31, 2005) certify that it has, and will continue to have, at least one member of the audit committee who has past employment experience in finance or accounting, requisite professional certification in accounting, or any other comparable experience or background which results in the individual's financial sophistication, including being or having been a chief executive officer, chief financial officer or other senior officer with financial oversight responsibilities. Also, under Item 401(h) of Regulation S-K, the Company is currently obligated to disclose whether or not it has a "financial expert" on its audit committee, as defined under this regulation (See Item 16A. Audit Committee Financial Expert).

Currently, we have appointed three directors to the audit committee who qualify as independent directors under the current Nasdaq SmallCap Market requirements, and we believe that these directors will also meet the definition of independence under the new rules, when they become applicable to the Company (assuming said directors continue to serve until such time). Furthermore, two out of the three directors on the audit committee meet the qualification requirements for outside directors, as required under the Israel Companies Law.

Audit Committee

As noted above, the Israel Companies Law and Nasdaq Marketplace Rules require public companies to appoint an audit committee. The responsibilities of the audit committee include identifying irregularities in the management of the Company's business, approving management compensation and approving related party transactions as required by law. An audit committee must consist of at least three directors meeting the independence and outside director standards under the Nasdaq Marketplace Rules, Exchange Act Rules and Israel Companies Law, as described above under "Independent and Outside Directors." Furthermore, the Israel Companies Law specifically prohibits the chairman of the Board of Directors, any director employed by or otherwise providing services to a company, and a controlling shareholder or any relative of a controlling shareholder from being a member of the audit committee.

Internal Auditor

Under the Companies Law, the Board of Directors must appoint an internal auditor, nominated by the audit committee. The role of the internal auditor is to examine, among other matters, whether a company's actions comply with relevant law and orderly business procedure. Under the Companies Law, the internal auditor may be an employee of the company but not an interested party or office holder, or a relative of an interested party or office holder, and he or she may not be the company's independent accountant or its representative. The Company appointed a qualified internal auditor during 2003.

Approval of Certain Transactions; Obligations of Directors, Officers and Shareholders

The Israel Companies Law codifies the fiduciary duties that office holders, including directors and executive officers, owe to a company. An office holder's fiduciary duties consist of a duty of care and a duty of loyalty. The duty of loyalty includes avoiding any conflict of interest between the office holder's position in the company and such person's personal affairs, avoiding any competition with the company, avoiding exploiting any corporate opportunity of the company in order to receive personal advantage for such person or others, and revealing to the company any information or documents relating to the company's affairs which the office holder has received due to his or her position as an office holder. Each person listed in the first table that appears above at the beginning of this Item 6 is an office holder.

Under the Israel Companies Law, all arrangements as to compensation of office holders who are not directors require approval of the Board of Directors unless the Articles of Association provide otherwise. Arrangements regarding the compensation of directors also require audit committee and shareholder approval. The Israel Companies Law requires that an office holder promptly disclose any personal interest that he or she may have and all related material information known to him or her, in connection with any existing or proposed transaction by the company. In addition, if the transaction is an extraordinary transaction, the office holder must also disclose any personal interest held by the office holder's spouse, siblings, parents, grandparents, descendants, spouse's descendants and the spouses of any of the foregoing, or by any corporation in which the office holder is a five percent or greater shareholder, director or general manager or in which he or she has the right to appoint at least one director or the general manager. An extraordinary transaction is defined as a transaction not in the ordinary course of business, a transaction that is not on market terms, or a transaction that is likely to have a material impact on the company's profitability, assets or liabilities.

In the case of a transaction that is not an extraordinary transaction, after the office holder complies with the above disclosure requirement, only Board approval is required unless the Articles of Association of the company provide otherwise. Such approval must determine that the transaction is not adverse to the company's interest. If the transaction is an extraordinary transaction, then in addition to any approval required by the Articles of Association, it also must be approved by the audit committee and by the Board and, under specified circumstances, by a meeting of the shareholders. An Israeli company whose shares are publicly traded shall not be entitled to approve such a transaction unless, at the time the approval was granted, two members of the audit committee were outside directors and at least one of them was present at the meeting at which the audit committee decided to grant the approval. An office holder who has a personal interest in a matter that is considered at a meeting of the Board of Directors or the audit committee generally may not be present at this meeting or vote on this matter.

The Israel Companies Law applies the same disclosure requirements to a controlling shareholder of a public company, which includes a shareholder that holds 25% or more of the voting rights if no other shareholder owns more than 50% of the voting rights in the company. Extraordinary transactions with a controlling shareholder or in which a controlling shareholder has a personal interest, and the terms of compensation of a controlling shareholder who is an office holder, require the approval of the audit committee, the Board of Directors and the shareholders of the company. The shareholder approval must

either include at least one-third of the disinterested shareholders who are present, in person or by proxy, at the meeting or, alternatively, the total shareholdings of the disinterested shareholders who vote against the transaction must not represent more than one percent of the voting rights in the company.

Under the Israel Companies Law, a shareholder has a duty to act in good faith towards the company and other shareholders and refrain from abusing his or her power in the company, including, among other things, in respect to his or her voting at the general meeting of shareholders on the following matters:

- o any amendment to the Articles of Association;
- o an increase of the company's authorized share capital;
- o a merger; or
- o approval of interested party transactions that require shareholder approval.

In addition, any controlling shareholder, any shareholder who can determine the outcome of a shareholder vote and any shareholder who, under the company's Articles of Association, can appoint or prevent the appointment of an office holder, is under a duty to act with fairness towards the company. The Israel Companies Law does not describe the substance of this duty.

Compensation Committee Interlocks

The Compensation Committee, which was established by the Board in January 1996, is responsible for determining salaries, incentives and other forms of compensation for Commtouch's directors, officers and other employees and for administering various incentive compensation and benefit plans. The Compensation Committee consists of the Chief Executive Officer and three other Directors. Ofer Segev, as an outside director, Carolyn Chin and Nahum Sharfman are currently the three other directors on the Compensation Committee.

Indemnification of Directors and Officers; Limitations on Liability

Israeli law permits a company to insure an office holder in respect of liabilities incurred by him or her as a result of the breach of his or her duty of care to the company or to another person, or as a result of the breach of his or her fiduciary duty to the company, to the extent that he or she acted in good faith and had reasonable cause to believe that the act would not prejudice the company. A company can also insure an office holder for monetary liabilities as a result of an act or omission that he or she committed in connection with his or her serving as an office holder. Moreover, a company can indemnify an office holder for (a) monetary liability imposed upon him or her in favor of other persons pursuant to a court judgment, including a settlement or an arbitrator's decision confirmed by the court, and (b) reasonable litigation expenses, including legal fees, actually incurred by such a director or imposed upon the director by a court order, in an action, suit or proceeding brought against him or her by or on behalf of the company or by others, or in connection with a criminal proceeding in which he or she was acquitted, or in connection with a criminal action which does not require criminal intent in which he or she was convicted, in each case in connection with his or her activities as an office holder. Our Articles of Association allow us to insure and indemnify office holders to the fullest extent permitted by law provided such insurance or indemnification is approved in accordance with the Israel Companies Law. The Company has acquired directors' and officers' liability insurance covering the officers and directors of the Company and its subsidiaries for certain claims. In addition, the Company entered into an undertaking to indemnify the directors of the Company in connection with the shareholder-instigated class action lawsuit, subject to certain limitations, and this undertaking was ratified by shareholders (as this lawsuit has been settled, it is not anticipated that this undertaking will result in any liability to the Company). Further, at the annual meeting of shareholders held on November 18, 2002, the shareholders approved a form of indemnification, exculpation and insurance agreement that is applicable to all directors serving the Company.

Compensation of Directors and Officers.

The directors of Commtouch can be remunerated by Commtouch for their services as directors to the extent such remuneration is approved by Commtouch's audit committee, Board of Directors and shareholders. Directors currently do not receive cash compensation for their services as directors but are reimbursed for their expenses for each Board of Directors meeting attended. However, see Item 10 "Amended and Restated 1999 Non-Employee Directors Stock Option Plan".

The aggregate direct remuneration paid by Commtouch to all directors and executive officers (8 persons) in 2003 was approximately \$0.6million. During the same period Commtouch accrued or set aside approximately \$30,000 for the same

group to provide pension, retirement or similar benefits. As of December 31, 2003, directors and executive officers of Commtouch (8 persons) held stock options to purchase an aggregate of 3,931,227 ordinary shares.

Options to Purchase Securities from Registrant or Subsidiaries.

As of December 31, 2003, 7,066,635 stock options to purchase ordinary shares had been granted to employees, consultants, executive officers and non-employee directors under the Company's stock option plans, net of cancelled options. Of that number 6,249,108 had not been exercised and had exercise prices ranging from \$0.01 to \$35 per share and a weighted average per share exercise price of \$0.31, and were held by 35 persons; these options have termination dates ranging from February 2006 to December 2013. At December 31, 2003, the persons named in Item 6 as a group (8 persons - executive officers and directors only) held vested options to acquire 3,931,227 ordinary shares. Reference is also made to the information contained in Item 7 below.

Employees

See Item 4: Employees

Item 7. Major Shareholders and Related Party Transactions.

The following table presents information with respect to beneficial ownership of our ordinary shares as of March 31, 2004, including:

- o each person or entity known to Commtouch to own beneficially more than five percent of Commtouch's ordinary shares, and
- o all executive officers and directors as a group.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and includes voting or investment power, or the right to receive the economic benefits of ownership, with respect to shares. To our knowledge, except under applicable community property laws or as otherwise indicated, the persons named in the table have sole voting and sole investment control and rights to receive economic benefits with respect to all shares beneficially owned. The applicable percentage of ownership for each shareholder is based on 37,319,562 ordinary shares outstanding as of March 31, 2004. Ordinary shares issuable upon exercise of options and other rights held and exercisable on or within sixty days of March 31, 2004 are deemed outstanding for the purpose of computing the percentage ownership of the person holding those options and other rights and for all directors and officers as a group, but are not deemed outstanding for computing the percentage ownership of any other person. Major shareholders in the Company have the same voting rights as all other shareholders.

	Amount Owned	Percent of Class
	-----	-----
Israel Seed IV, L.P.	3,747,088	9.5%
Gideon Mantel	2,262,960	5.9%
OZF Ltd.	3,206,138	8.4%
KKB Ventures LLC	2,423,457	6.4%
XDL Capital Corp.	1,940,704	5.1%
All directors and officers as a group (8 persons)	6,202,497	14.3%

(1) The above percentage includes warrants and options which are underwater as of March 31, 2004: 2.7% of class

Significant Changes in Percentage Ownership During the Past Three Years

o The percentage beneficial ownership of Israel Seed IV, L.P., at December 31, 2003 is 9.5%. This investor was a significant participant in the July 29, 2003 and November 26, 2003 private placements.

o The percentage beneficial ownership of InfoSpace (formerly Go2Net), which at December 31, 2002 was 8.7%, has dropped well below the five percent threshold, due to InfoSpace's sale of 896,057 shares and the increase in the outstanding shares of the Company during 2003. To the best of the Company's knowledge, InfoSpace is no longer a major shareholder in the Company. InfoSpace still possesses a warrant to purchase 1,136,000 ordinary shares at an original exercise price of \$12.80 per share (subject to adjustment as described below). The

warrant is non-forfeitable, fully vested and immediately exercisable, and will expire five years from the date of the original email service agreement (July 16, 2004). If Infospace does not exercise this warrant and continue to hold an amount of warrant shares representing twenty-five percent of its and Vulcan Ventures original shareholdings purchased in 1999, they will lose the right to appoint one director to the Board of the Company. At InfoSpace's option, the warrant is exercisable pursuant to a cashless exercise based on the average closing price of the ordinary shares for the five days preceding the exercise. The holder of the warrant is required to avoid becoming a 10% or greater shareholder of the Company as a result of any exercise of the warrant. The holder of the warrant is given the opportunity to profit from a rise in the market price of the ordinary shares and the warrant. The warrant includes provisions which adjust the exercise price upon the occurrence of certain events which might otherwise dilute the value of the warrant, and the Company believes that following certain of the Company's recent and prospective future financing activities, the exercise price is projected to be approximately \$4.91.

o Nahum Sharfman, who at December 31, 2002, owned beneficially 6.05% of the Company, is no longer a major shareholder in the Company, due to the increase in outstanding shares of the Company during 2003.

o Jan Eddy, who at December 31, 2001, owned beneficially 5% in the Company, is no longer a major shareholder due both to her sale of shares in the Company and the increase in the outstanding shares of the Company during 2002 and 2003.

Interest of Management in Certain Transactions.

Lloyd Shefsky became a Director of Commtouch in October 2003. Prior to that time, Lene L.P., for which Mr. Shefsky acts as a General Partner, undertook to loan the Company \$50,000 under the Convertible Loan Agreement of January 29, 2004. On May 15, 2003, pursuant to Addendum 2 to the Convertible Loan Agreement, Mr. Shefsky personally committed to loan the Company \$25,000. As a result of these two investments, and pursuant to Addendum 3 to the Convertible Loan Agreement of November 18, 2003 under which the various lenders committed to converting their loan into equity in the Company, the combined beneficial shareholdings of Mr. Shefsky and Lene L.P. as of December 31, 2003 amounted to 677,438 ordinary shares, or approximately 2% of the Company's outstanding shares at that date.

Option Exercises and Purchases of Shares By Certain Officers

Gideon Mantel is the Chief Executive Officer and a Director of Commtouch. On March 17, 1999, Mr. Mantel exercised certain options granted to him by Commtouch. In consideration for the Ordinary Shares purchased pursuant to the exercise of the options, he provided Commtouch with a full-recourse promissory note dated March 17, 1999 in the original principal amount of \$341,272. The promissory note bears interest at 4.83% annually, with payments of interest only due on March 17 of each year and with the balance due and payable on the fourth anniversary of the date of the promissory note. This loan was used by Mr. Mantel to purchase 286,120 ordinary shares of Commtouch at a weighted average purchase price of \$1.19 per share. The promissory note is collateralized by a pledge of the stock purchased. The outstanding principal amount of the note as of December 31, 2003 is approximately \$102,000.

Item 8. Financial Information.

See Item 18: Financial Statements If the Company decides to distribute a cash dividend out of income that has been tax exempt due to an "Approved Enterprise" status under the Law for the Encouragement of Capital Investments, 1959, the amount of cash dividend will be subject to corporate tax at the rate then in effect under Israeli law. The Company has never declared or paid cash dividends on its ordinary shares and does not anticipate paying any cash dividends in the foreseeable future. The Company intends to retain future earnings to finance the development of its business.

Item 9. The Offer and Listing.

The Company's Ordinary Shares have traded publicly on The Nasdaq Stock Market under the symbol "CTCH" since July 13, 1999.

The following table lists the high and low closing sales prices for the Company's Ordinary Shares, for the periods indicated, as reported by The Nasdaq Stock Market:

	High -----	Low -----
1999(beginning July 13, 1999):	\$49.12	\$11.0625
2000:	\$66.50	\$ 7.44
2001:	\$ 3.81	\$ 0.20
2002:	\$ 0.42	\$ 0.06
2003:	\$ 1.47	\$ 0.10
2002:		
First Quarter	\$ 0.42	\$ 0.23
Second Quarter	\$ 0.25	\$ 0.11
Third Quarter	\$ 0.15	\$ 0.08
Fourth Quarter	\$ 0.22	\$ 0.06
2003:		
First Quarter	\$ 0.16	\$ 0.10
Second Quarter	\$ 0.69	\$ 0.16
Third Quarter	\$ 0.96	\$ 0.55
Fourth Quarter	\$ 1.47	\$ 0.79
2004:		
First Quarter	\$ 1.24	\$ 0.83
Most Recent Six Months:		
December 2003	\$ 1.15	\$ 0.79
January 2004	1.24	0.84
February 2004	1.15	0.91
March 2004	1.06	0.83
April 2004	1.09	0.85
May 2004	0.92	0.57

Item 10. Additional Information.

Under current Israeli regulations, any dividends or other distributions paid in respect of ordinary shares purchased by non-residents of Israel with certain non-Israeli currencies (including dollars) will be freely repatriable in such non-Israeli currencies at the rate of exchange prevailing at the time of conversion, provided that Israeli income tax has been paid on, or withheld from, such payments.

Neither the Articles of Association of the Company nor the laws of the State of Israel restrict in any way the ownership or voting of ordinary shares by non-residents of Israel, except with respect to subjects of countries which are at a state of war with Israel.

DESCRIPTION OF SHARES

Set forth below is a summary of the material provisions governing our share capital. This summary is not complete and should be read together with our Memorandum of Association and Restated and Amended Articles of Association, copies of which have been filed as exhibits to this and our prior Annual Reports on Form 20-F, as amended (subject to further amendment of our Articles of Association from time to time).

As of December 31, 2003, our authorized share capital consisted of 75,000,000 ordinary shares, NIS 0.05 par value. As of December 31, 2003, there were 37,104,615 ordinary shares issued and outstanding.

DESCRIPTION OF ORDINARY SHARES

All issued and outstanding ordinary shares of Commtouch are duly authorized and validly issued, fully paid and nonassessable. The ordinary shares do not have preemptive rights. Our Memorandum of Association, Articles of Association and the laws of the State of Israel do not restrict in any way the ownership or voting of ordinary shares by non-residents of Israel, except with respect to subjects of countries which are in a state of war with Israel.

DIVIDEND AND LIQUIDATION RIGHTS

The ordinary shares are entitled to their full proportion of any cash or share dividend declared.

Subject to the rights of the holders of shares with preferential or other special rights that may be authorized, the holders of ordinary shares are entitled to receive dividends in proportion to the sums paid up or credited as paid up on account of the nominal value of their respective holdings of the shares in respect of which the dividend is being paid (without taking into account the premium paid up on the shares) out of assets legally available therefor and, in the event of our winding up, to share ratably in all assets remaining after payment of liabilities in proportion to the nominal value of their respective holdings of the shares in respect of which such distribution is being made, subject to applicable law. Declaration of a dividend requires Board of Director approval.

SPECIAL PROVISIONS IN ARTICLES/MEMORANDUM OF ASSOCIATION RELATING TO DIRECTORS

The discussion regarding approval of director compensation and transactions with the Company under "Item 6. Directors, Senior Management and Employees - Approval of Certain Transactions; Obligations of Directors, Officers and Shareholders" is incorporated herein by reference.

VOTING, SHAREHOLDER MEETINGS AND RESOLUTIONS

Holders of ordinary shares have one vote for each ordinary share held on all matters submitted to a vote of shareholders. Such rights may be affected by the future grant of any special voting rights to the holders of a class of shares with preferential rights. Once the creation of a class of shares with preference rights has been approved, the Board of Directors may issue preferred shares, unless the Board is limited from doing so by the Articles of Association or a contractual provision.

An annual general meeting must be held once every calendar year at such time (not more than 15 months after the last preceding annual general meeting) and at such place, either within or outside the State of Israel, as may be determined by the Board of Directors. The quorum required for a general meeting of shareholders consists of at least two shareholders present in person or by proxy and holding at least one-quarter of the voting rights of the issued share capital. A meeting adjourned for lack of a quorum may be adjourned to the same day in the next week at the same time and place, or to such time and place as the Board of Directors may determine in a notice to shareholders. At such reconvened meeting any two shareholders entitled to vote and present in person or by proxy will constitute a quorum. Shareholder resolutions will be deemed adopted if approved by the holders of a majority of the voting power represented at the meeting, in person or by proxy, and voting thereon.

ANTI-TAKEOVER PROVISIONS UNDER ISRAELI LAW

Under the Companies Law, a merger is generally required to be approved by the shareholders and board of directors of each of the merging companies. If the share capital of the company that will not be the surviving company is divided into different classes of shares, the approval of each class is also required. In addition, a merger can be completed only after all approvals have been submitted to the Israeli Registrar of Companies and at least seventy days have passed from the time that a proposal for approval of the merger was filed with the Registrar.

The Companies Law provides that an acquisition of shares in a public company must be made by means of a tender offer if as a result of the acquisition the purchaser would become a 25% shareholder of the company. This rule does not apply if there is already another 25% shareholder of the company. Similarly, the Companies Law provides that an acquisition of shares in a public company must be

made by means of tender offer if as a result of the acquisition the purchaser would become a 45% shareholder of the company, unless someone else already holds a majority of the voting power of the company. These rules do not apply if the acquisition is made by way of a merger. Regulations promulgated under the Companies Law provide that these tender offer requirements do not apply to companies whose shares are listed for trading outside of Israel if, according to the law in the country in which the shares are traded, including the rules and regulations of the stock exchange on which the shares are traded, either:

- o there is a limitation on acquisition of any level of control of the company; or
- o the acquisition of any level of control requires the purchaser to do so by means of a tender offer to the public.

Finally, Israeli tax law treats specified acquisitions, including a stock-for-stock swap between an Israeli company and a foreign company, less favorably than does U.S. tax law. For example, Israeli tax law may subject a shareholder who exchanges his ordinary shares for shares in a foreign corporation to taxation before it would become taxable in the United States, and even though the investment has not become liquid.

TRANSFER OF SHARES AND NOTICES

Fully paid ordinary shares that are issued and not subject to any legal restrictions on transference may be transferred freely. Each shareholder of record is entitled to receive at least twenty-one days' prior notice of shareholder meetings. For purposes of determining the shareholders entitled to notice and to vote at such meeting, the Board of Directors may fix a record date not exceeding 40 days prior to the date of any shareholder meeting.

MODIFICATION OF CLASS RIGHTS

If at any time the share capital is divided into different classes of shares, then, unless the conditions of allotment of such class provide otherwise, the rights, additional rights, advantages, restrictions and conditions attached or not attached to any class, at any given time, may be modified, enhanced, added or abrogated by resolution at a meeting of the holders of the shares of such class.

DESCRIPTION OF INVESTOR AND SERVICE PROVIDERS OPTIONS AND WARRANTS

INFOSPACE WARRANT

The discussion regarding the Infospace warrant under Item 5. Operating and Financial Review and Prospects--Strategic Transaction with Go2Net (InfoSpace) and Item 7. "Major Shareholders and Related Party Transactions-- Significant Changes in Percentage Ownership During the Past Three Years" is incorporated herein by reference.

EQUITY OFFICE PROPERTIES WARRANT

The discussion regarding the Equity Office Properties warrant under Item 18, Note 10 to the Notes to Consolidated Financial Statements - Shareholders' Equity is incorporated herein by reference.

COMPAQ WARRANT

The discussion regarding the Compaq warrant under Item 18, Note 10 to the Notes to Consolidated Financial Statements - Shareholders' Equity is incorporated herein by reference.

FEBRUARY 2002 INVESTMENT ROUND WARRANTS

The discussion regarding the February 2002 investment round warrants under Item 18, Note 10 to the Notes to Consolidated Financial Statements - Shareholders' Equity is incorporated herein by reference.

JANUARY 2003 CONVERTIBLE LOAN WARRANTS

The discussion regarding the January 2003 convertible loan warrants under Item 18, Note 10 to the Notes to Consolidated Financial Statements - Shareholders' Equity is incorporated herein by reference.

JULY 2003 INVESTMENT ROUNDS WARRANTS

The discussion regarding the two July 2003 investment rounds warrants under Item 18, Note 10 to the Notes to Consolidated Financial Statements - Shareholders' Equity is incorporated herein by reference.

NOVEMBER 2003 CONVERTIBLE LOAN WARRANTS

The discussion regarding the November 2003 convertible loan warrants under Item 18, Note 10 to the Notes to Consolidated Financial Statements - Shareholders' Equity is incorporated herein by reference.

AGRON WARRANT

The discussion regarding the Agron warrant under Item 18, Note 10 to the Notes to Consolidated Financial Statements - Shareholders' Equity is incorporated herein by reference.

REGISTRATION RIGHTS

The holders of convertible preferred shares which were converted into 7,109,800 ordinary shares (the "Registrable Securities") upon effectiveness of the initial public offering, have certain rights to register those shares under the Securities Act. If requested by holders of a majority of the Registrable Securities after the second anniversary of the date of the initial public offering, Commtouch must file a registration statement under the Securities Act covering all Registrable Securities requested to be included by all holders of such Registrable Securities. Commtouch may be required to effect up to two such registrations. Commtouch has the right to delay any such registration for up to 120 days under certain circumstances, but not more than once during any 12-month period.

In addition, if Commtouch proposes to register any of its ordinary shares under the Securities Act other than in connection with a company employee benefit plan or a corporate reorganization pursuant to Rule 145 under the Securities Act, or a registration on any registration form that does not permit secondary sales or does not include substantially the same information as would be required to be included in a registration statement covering the sale of Registrable Securities, the holders of Registrable Securities may require Commtouch to include all or a portion of their shares in such registration, although the managing underwriter of any such offering has certain rights to limit the number of shares in such registration. Further, a majority of the holders of Registrable Securities may require Commtouch to register all or any portion of their Registrable Securities on Form F-3, subject to certain conditions and limitations. All expenses incurred in connection with all registrations (other than fees, expenses and disbursements of counsel retained by the holders of the Registrable Shares, and underwriters' and brokers' discounts and commissions) will be borne by Commtouch.

The registration rights described in the preceding two paragraphs expire five years after the closing date of our initial public offering (July 16, 2004).

In addition, the Company granted registration rights as follows:

- a. to InfoSpace, Vulcan Ventures and Microsoft, pursuant to which their holdings in the Company (including the warrant issued to InfoSpace) were registered on January 7, 2000;
- b. under the terms of the Wingra acquisition agreement, we were required to register the 1,568,869 shares issuable to the Wingra investors and employees, including shares issuable under options and warrants described above. The registration statements were filed to fulfill this requirement and became effective, respectively, on September 6, 2001 and July 20, 2001;
- c. to investors under the private placement of February 27, 2002, whereby Commtouch issued approximately 4.4 million ordinary shares against the investment of approximately \$1.3 million. The investors in the private placement also received five-year warrants to purchase up to an additional 2.66 million ordinary shares (approximately). The shares issued under this private placement, including shares to be issued upon the exercise of the warrants, were registered on May 28, 2002;
- d. to lenders under the Convertible Loan Agreement of January 29, 2003, as amended, whereby a loan amount of \$1,250,000 was provided to the Company and subsequently converted into equity in the Company. Following conversion, on January 20, 2004, the Company registered 11,304,432 ordinary shares on behalf of the lenders, with 5,652,216 representing shares issuable upon exercise of warrants (with a term of five years).

e. to investors under the two private placements of July 10, 2003 and July 29, 2003, whereby Commtouch issued 5,546,667 ordinary shares against the investment of \$3,040,000. The investors in the private placement also received five-year warrants to purchase up to an additional 3,040,000 ordinary shares. The shares issued under these private placements, including shares to be issued upon the exercise of the warrants, were registered on November 3, 2003; however, given a delay in the registration process, additional "liquidated damages" shares totaling 40,926 ordinary shares were issued to the investors and registered on January 20, 2004;

f. to lenders under the Securities Purchase Agreement of November 26, 2004, as amended, whereby a loan amount of \$3,000,000 was provided to the Company. Under this agreement, the Company (i) granted rights to convert the loan into equity at a conversion price of \$1.153 per Ordinary Share, and (ii) issued warrants exercisable for purchase of up to 600,000 of the Company's Ordinary Shares, exercisable within three years at a price per Ordinary Share of \$1.153. Pursuant to the agreement, the Company registered 4,162,479 ordinary shares with the SEC on January 20, 2004. For six months as from January 20, 2004, the lenders retain the option to invest an additional \$3 million on similar terms to those of the original loan, including those relating to the registration of additional shares and shares underlying warrants; and

g. piggy-back registration rights were included in all warrants detailed above in this Item 10.

ACCESS TO INFORMATION

We file reports with the Israeli Registrar of Companies regarding our registered address, our registered capital, our shareholders of record and the number of shares held by each, the identity of the directors and details regarding security interests on our assets. In addition, Commtouch must file with the Israeli Registrar of Companies its Articles of Association and any amendments thereto. The information filed with the Registrar of Companies is available to the public. In addition to the information available to the public, our shareholders are entitled, upon request, to review and receive copies of all minutes of meetings of our shareholders.

TRANSFER AGENT AND REGISTRAR

The transfer agent and registrar for our ordinary shares is Wells Fargo Bank Minnesota N.A.

MATERIAL CONTRACTS DURING PAST TWO YEARS.

Consulting and Fundraising Agreements

On September 1, 2002, Commtouch entered into two agreements with AxxessNet Ltd., one for the providing of consulting services to Commtouch ("agreement 1") and the other for the facilitating of fundraising and strategic commercial transactions ("agreement 2"). Under agreement 1, AxxessNet is to receive a payment of \$140,000 in cash and some warrants. Agreement 1 was due to expire on August 31, 2003, but was extended twice, once until December 31, 2003, with AxxessNet receiving \$15,000 per month during this extended period, and again for an additional year commencing January 1, 2004, with AxxessNet receiving \$10,000 per month during this extended period (unless terminated earlier, at the Company's discretion). Under agreement 2, as amended on December 1, 2002, AxxessNet is entitled to receive 5% of proceeds received by Commtouch from fundraising activities (and in the case of a business combination, a minimum fee of \$100,000), as well as from commercial transactions entered into by Commtouch through the efforts of AxxessNet. The compensation to be paid under agreement 2 is payable in either cash or warrants, at AxxessNet's discretion, but if the warrants are to exceed 250,000, Commtouch has the right to pay any excess in cash. Furthermore, in the event that Commtouch is acquired by a third party, any continuing payment obligations of Commtouch to AxxessNet under agreement 2 at the time of such acquisition may be fully liquidated by a payment of the lesser of twenty four months worth of payments or the number of months remaining under Commtouch's obligations to AxxessNet. During their relationship under agreement 1 and agreement 2, Commtouch and AxxessNet have been working together closely in furtherance of the Company's business, and are in constant communications with one another. AxxessNet was also a lender under the Convertible Loan Agreement of January 29, 2003 (see Exhibits 2.9.1 - 2.9.11), with its interest converting to equity in the Company on December 26, 2003.

Lease Termination Agreement between Young Woo & Assoc., LLC and Commtouch Inc. and Commtouch Software Ltd. (as guarantor) dated September 6, 2002

Pursuant to the agreement with Young Woo, Commtouch and Young Woo agreed to terminate the New York facilities lease agreement. Within the framework of this agreement Commtouch made certain payments to Young Woo and transferred ownership to certain furniture, and Young Woo released Commtouch from the remainder (approximately two years) of the lease term under the original agreement and the related guarantee.

Surrender Agreement between Omni South Beach, L.P. and Commtouch Latin America Inc. dated August 31, 2002

Pursuant to the agreement with Omni, Commtouch and Omni agreed to terminate the Miami facilities lease agreement. Within the framework of this agreement Commtouch made certain payments to Omni, terminated a sublease agreement with a third party sublessee of Commtouch and transferred ownership to certain furniture to Omni, and Omni released Commtouch from the remainder (approximately five years) of the lease term under the original agreement.

Convertible Loan Agreement of January 2003

See "Item 4. Information on the Company - Financing Transactions During 2003".

Two Private Placements of July 2003

See "Item 4. Information on the Company - Financing Transactions During 2003".

Securities Purchase Agreement of November 2003

See "Item 4. Information on the Company - Financing Transactions During 2003".

Amended and Restated 1999 Non-Employee Directors Stock Option Plan

The allotment of shares under the original 1999 Non-Employee Directors Stock Option Plan was in the amount of 180,000 ordinary shares, with an additional allotment in 2000 bringing the plan's total allotment to 500,000 shares, an allotment in 2001 bringing the plan's total to 750,000 ordinary shares, two allotments during 2002 totaling 700,000 ordinary shares bringing the plan's total to 1,450,000 and a further allotment in December 2003 of 840,000, bringing the plan's total to 2,290,000. During 1999, each individual who first joined the Board of Directors as a non-employee director on or after the effective date of the initial public offering received an option grant for 10,000 options. Subsequent to July 2000, individuals who joined the Board received an initial grant of 30,000 options, and pursuant to an amendment to the plan approved by shareholders on December 26, 2003, new directors are entitled to an initial grant of 150,000 options. As from December 26, 2003, directors who are reelected at the annual meeting of shareholders are entitled to additional grants of 50,000 options. Prior to that time, directors reelected at the August 10, 2000 annual meeting of shareholders were entitled to a grant of 10,000 options, directors reelected at the August 22, 2001 annual meeting of shareholders were entitled to a grant of 33,750 options, those directors in office immediately after the extraordinary general meeting of shareholders on February 25, 2002 were granted a one-time option grant of 150,000 options and those directors in office immediately after the annual meeting of shareholders on November 18, 2002 were granted a one-time option grant of 50,000 options. Also, in addition to the grant of shares for her reelection as a director in August 2001, Carolyn Chin, in recognition of her activities as Chairman of the Board, received an additional grant of 221,250 options.

Each option granted under the Non-Employee Directors Plan originally was to have become exercisable with respect to one-fourth of the number of shares covered by such option three months after the date of grant and with respect to one-third of the remaining shares subject to the option every three months thereafter; however, this changed pursuant to an amendment to the plan approved by shareholders at the August 10, 2000 annual meeting of shareholders, such that options become exercisable at a rate of 1/16th of the shares every three months. Each option has an exercise price equal to the fair market value of the ordinary shares on the grant date of such option. However, certain options outstanding and unexercised at the time of the effective date of the Tender Offer Statement of July 20, 2001, as amended, were repriced in accordance with the terms of the Tender Offer Statement, as amended. Each option has a maximum term of ten years, but will terminate earlier if the optionee ceases to be a member of the Board of Directors.

Amended and Restated Articles of Association

See the discussion under Item 4 "Information on the Company - Description of Property" for an indication of where the Company's Amended and Restated Articles of Association may be inspected. In addition, the Articles are attached as an exhibit to this Form 20-F.

ISRAELI TAXATION AND INVESTMENT PROGRAMS

The following discussion summarizes the material Israeli tax consequences relating to Commtouch, its shareholders and ownership and disposition of its ordinary shares. This summary does not discuss all aspects of Israeli tax law that may be relevant to a particular investor in light of his personal investment circumstances or to certain types of investors subject to special treatment under Israeli law (for example, traders in securities or persons that own, directly or indirectly, 10% or more of Commtouch's outstanding voting shares). The following also includes a discussion of certain Israeli government programs benefiting various Israeli businesses such as Commtouch. To the extent that the discussion is based on new legislation yet to be subject to judicial or administrative interpretation, there can be no assurance that the views expressed herein will accord with any such interpretation in the future. This discussion does not cover all possible tax consequences or situations, and investors should consult their tax advisors regarding the tax consequences unique to their situation.

Tax Reform

On January 1, 2003 a comprehensive tax reform took effect in Israel. Pursuant to the reform, resident companies are subject to Israeli tax on income accrued or derived in Israel or abroad. In addition, the concept of controlled foreign corporation was introduced according to which an Israeli company may become subject to Israeli taxes on certain income of a non-Israeli subsidiary if the subsidiary's primary source of income is passive income (such as interest, dividends, royalties, rental income or capital gains). The tax reform also substantially changed the system of taxation of capital gains.

General Corporate Tax Structure

Israeli companies are generally subject to company tax at the rate of 36% of taxable income. However, the effective tax rate payable by a company which derives income from an approved enterprise may be considerably less, as further discussed below.

Special Provisions Relating to Taxation under Inflationary Conditions

The Income Tax Law (Inflationary Adjustments), 1985, generally referred to as the Inflationary Adjustments Law, represents an attempt to overcome the problems presented to a traditional tax system by an economy undergoing rapid inflation. The Inflationary Adjustments Law is highly complex. Its features, which are material to us, can be described as follows:

- o there is a special tax adjustment for the preservation of equity which classifies corporate assets into fixed assets and non-fixed assets. Where a company's equity, as defined in the law, exceeds the depreciated cost of fixed assets, a deduction from taxable income that takes into account the effect of the applicable annual rate of inflation on the excess is allowed up to a ceiling of 70% of taxable income in any single tax year, with the unused portion permitted to be carried forward on a linked basis. If the depreciated cost of fixed assets exceeds a company's equity, then the excess multiplied by the applicable annual rate of inflation is added to taxable income;

- o subject to specified limitations, depreciation deductions on fixed assets and losses carried forward are adjusted for inflation based on the increase in the consumer price index; and

- o in specified circumstances, gains on traded securities, which might otherwise be eligible for reduced rates of tax, will be liable to company tax at the rate of 36%.

Law for the Encouragement of Industry (Taxes), 5729-1969

The Law for the Encouragement of Industry (Taxes), 1969, generally referred to as the Industry Encouragement Law, provides several tax benefits for industrial companies. An industrial company is defined as a company resident in Israel, at least 90% of the income of which in a given tax year exclusive of income from specified government loans, capital gains, interest and dividends, is derived from an industrial enterprise owned by it. An industrial enterprise is defined as an enterprise whose major activity in a given tax year is industrial production activity.

Under the Industry Encouragement Law, industrial companies are entitled to a number of corporate tax benefits, including:

- o deduction of purchase of know-how and patents over an eight-year period; and

- o the right to elect, under specified conditions, to file a consolidated tax return with additional related Israeli industrial companies and an industrial holding company.

Under some tax laws and regulations, an industrial enterprise may be eligible for special depreciation rates for machinery, equipment and buildings. These rates differ based on various factors, including the date the operations begin and the number of work shifts. An industrial company owning an approved enterprise may choose between these special depreciation rates and the depreciation rates available to the approved enterprise.

Eligibility for benefits under the Industry Encouragement Law is not subject to receipt of prior approval from any governmental authority.

We believe that we currently qualify as an industrial company within the definition of the Industry Encouragement Law. We cannot assure you that the Israeli tax authorities will agree that we qualify, or, if we qualify, that we will continue to qualify as an industrial company or that the benefits described above will be available to us in the future.

Law for the Encouragement of Capital Investments, 5719-1959

The Law for the Encouragement of Capital Investments, 5719-1959, as amended (the "Investment Law"), provides that a capital investment in production facilities (or other eligible facilities) may, upon application to the Israel Investment Center of the Ministry of Industry, Trade and Labor, be designated as an Approved Enterprise. Each certificate of approval for an Approved Enterprise relates to a specific capital investment program delineated both by its financial scope, including its capital sources, and its physical characteristics, such as the equipment to be purchased and utilized pursuant to the program. The tax benefits under the Investment Law are not available for income derived from products manufactured outside of Israel.

A company owning an Approved Enterprise may elect to receive either governmental grants or an alternative package of tax benefits. Commtouch's three investment plans have been granted the status of an Approved Enterprise under the Investment Law, in three separate investment programs, in 1992, 1996 and 2000, respectively, the second and third programs cancelled in early 2002 and in 2001. With regard to the first program, Commtouch received long-term loans guaranteed by the State of Israel. Under the terms of Commtouch's Approved Enterprise program pursuant to the alternative package of tax benefits, income earned by Commtouch from its Approved Enterprises will be tax exempt for a period of two years, commencing with the year in which it first earns taxable income, and subject to a reduced corporate tax rate of 10% to 25% for an additional period of five to eight years, depending on the extent of foreign investments in the Company. The benefits period is limited to twelve years from the year of completion of the investment under the approved plan, or fourteen years from the date of approval, whichever is earlier. The reduced corporate tax rate, to which Commtouch's Approved Enterprise program will be subject, is dependent on the level of foreign investment in Commtouch. A Foreign Investors Company ("FIC"), as defined in the Investment Law, may enjoy benefits for an extended period of up to ten years. A FIC is a company of which more than 25% of its shareholders are non-Israeli residents.

In the event a company operates under more than one approval or only part of its capital investments are approved (a "Mixed Enterprise"), its effective corporate tax rate is the result of a weighted combination of the various applicable rates. Notwithstanding our Approved Enterprise status in Israel, we may be required to pay income or withhold taxes in other countries.

All dividends are considered to be attributable to the entire enterprise and their effective tax rate is the result of a weighted combination of the applicable tax rates. A company that has elected the alternative package of tax benefits and pays a dividend out of income derived from the Approved Enterprise during the exemption period will be subject to tax on the amount distributed, at the rate that would have been applicable had it not elected the alternative package of benefits (generally, 10%-25% depending on the extent of foreign investment in the company). The Company currently intends to reinvest the amount of its tax-exempt income and not to distribute such income as a dividend. Dividends from Approved Enterprises are generally taxed at a rate of 15% (which is withheld and paid by the company paying the dividend) if such dividend is distributed during the benefits period or within twelve 12 years thereafter. The twelve-year limitation does not apply to a FIC.

The Investment Law also provides that a company with an Approved Enterprise is entitled to accelerated depreciation on its property and equipment included in an approved investment program.

Future applications to the Investment Center will be reviewed separately, and decisions as to whether to approve or reject an application for designation as an Approved Enterprise will be based, among other things, on the then prevailing criteria set forth in the Investment Law, on the specific objectives of the applicant company set forth in such application and on certain financial criteria of the applicant company. Accordingly, there can be no assurance that any such applications will be approved. In addition, the benefits available to an Approved Enterprise are conditional upon the fulfillment of certain conditions stipulated in the Investment Law and related regulations and the criteria set forth in the specific certificate of approval, as described above. In the event that these conditions are violated, in whole or in part, the Company would be required to refund the amount of tax benefits, with the addition of linkage adjustment to the Israeli consumer price index and interest.

Capital Gains Tax on Sale of our Ordinary Shares by both residents and non-residents of Israel.

Israeli law generally imposes a capital gains tax on the sale of capital assets located in Israel, including shares in Israeli resident companies, by both residents and non-residents of Israel, unless a specific exemption is available or unless a treaty between Israel and the country of the non-resident provides otherwise. Regulations promulgated under the Israeli Income Tax Ordinance provided for an exemption from Israeli capital gains tax for gains accrued before January 1, 2003 and derived from the sale of shares of an "Industrial Company", as defined by the Industry Encouragement Law, that are traded on specified non-Israeli markets, including The NASDAQ National Market, provided that the sellers purchased their shares either in the company's initial public offering or in public market transactions thereafter.

This exemption does not apply to shareholders who are in the business of trading securities, or to shareholders that are Israeli resident companies subject to the Income Tax (Adjustments for Inflation) Law- 1985, or to shareholders who acquired their shares prior to an initial public offering. The Company believes that it is currently an Industrial Company, as defined by the Industry Encouragement Law. The status of a company as an Industrial Company may be reviewed by the tax authorities from time to time. There can be no assurance that the Israeli tax authorities will not deny the Company's status as an Industrial Company, possibly with retroactive effect.

On January 1, 2003, the Law for Amendment of the Income Tax Ordinance (Amendment No.132), 5762-2002, known as the tax reform, came into effect thus imposing capital gains tax at a rate of 15% on gains accrued on or after January 1, 2003 from the sale of shares in Israeli companies publicly traded on a recognized stock exchange outside of Israel. This tax rate does not apply to: (1) dealers in securities; (2) shareholders that report in accordance with the Income Tax Law (Inflationary Adjustment) - 1985; or (3) shareholders who acquired their shares prior to an initial public offering. The tax basis of shares acquired prior to January 1, 2003 will be determined in accordance with the average closing share price in the three trading days preceding January 1, 2003. Non-Israeli residents shall be exempt from Israeli capital gains tax on any gains derived from the sale of shares publicly traded on a stock exchange recognized by the Israeli Ministry of Finance, provided such shareholders did not acquire their shares prior to an initial public offering. In any event, the provisions of the tax reform shall not affect the exemption from capital gains tax for gains accrued before January 1, 2003, as described in the previous paragraph.

In addition, pursuant to the Convention Between the Government of the United States of America and the Government of Israel with Respect to Taxes on Income, as amended (the "United States- Israel Tax Treaty"), the sale, exchange or disposition of ordinary shares by a person who qualifies as a resident of the United States within the meaning of the United States-Israel Tax Treaty and who is entitled to claim the benefits afforded to such person by the United States- Israel Tax Treaty (a "Treaty United States Resident") generally will not be subject to the Israeli capital gains tax unless such "Treaty United States Resident" holds, directly or indirectly, shares representing 10% or more of the Company's voting power during any part of the twelve- month period preceding such sale, exchange or disposition, subject to certain conditions. However, under the United States-Israel Tax Treaty, such "Treaty United States Resident" would be permitted to claim a credit for such taxes against the United States federal income tax imposed with respect to such sale, exchange or disposition, subject to the limitations in United States laws applicable to foreign tax credits. The United States-Israel Tax Treaty does not relate to United States state or local taxes.

Non-residents of Israel are subject to income tax on income accrued or derived from sources in Israel. These sources of income include passive income, including dividends, royalties and interest, as well as non-passive income from services rendered in Israel. On distribution of dividends other than bonus shares or stock dividends, income tax is withheld at source, at the rate of 25%, or 12.5% for dividends not generated by an approved enterprise if the non-resident is a U.S. corporation and holds at least 10% of our voting power, and 15% for dividends generated by an approved enterprise, unless in each case a different rate is provided in a treaty between Israel and shareholder's country of residence. Under the U.S.-Israel tax treaty, the maximum tax on dividends paid to a holder of ordinary shares who is a U.S. resident will be 25%. However, under the Investment Law, dividends generated by an approved enterprise are taxed at the rate of 15%.

Taxation of Non-Resident Shareholders

Non-residents of Israel are subject to Israeli income tax on income accrued or derived from sources in Israel, including passive income such as dividends, royalties and interest. On distributions of dividends, other than bonus shares and stock dividends, income tax at the rate of 25% is withheld at the source, unless a different rate is provided in a treaty between Israel and the shareholder's country of residence. If the dividends are distributed out of Approved Enterprise earnings, the applicable tax rate would be 15%. Under the United States- Israel Tax Treaty, the maximum tax on dividends paid to a holder of ordinary shares who is a Treaty United States Resident will be 25%, however the tax rate is reduced to 12.5% for dividends not generated by an Approved Enterprise to a corporation which holds 10% or more of the Company's voting power during a certain period preceding the distribution of the dividend. Dividends derived from an Approved Enterprise will still be subject to 15% tax withholding.

A non-resident of Israel who has had dividend income derived or accrued in Israel from which the applicable tax was withheld at source is currently exempt from the duty to file an annual Israeli tax return with respect to such income, provided such income was not derived from a business carried on in Israel by such non-resident and that such non-resident does not derive other non-passive income from sources in Israel.

Tax Benefits for Research and Development

Israeli tax law allows under certain conditions a tax deduction in the year incurred for expenditures in scientific research and development projects, if the expenditures are approved by the relevant Israeli Government Ministry (determined by the field of research) and the research and development is for the promotion of the enterprise. Expenditures not so approved are deductible over a three-year period. However, expenditures made out of the proceeds of government grants are not deductible, i.e. Commtouch will be able to deduct the unfunded portion of the research and development expenditures and not the gross amount.

Law for the Encouragement of Industrial Research and Development, 5744-1984

Under the Law for the Encouragement of Industrial Research and Development, 5744-1984 (the "Research Law") and the Instructions of the Director General of the Ministry of Industry, Trade and Labor, research and development programs and the plans for the intermediate stage between research and development, and manufacturing and sales approved by a governmental committee of the Office of Chief Scientist (OCS) (the "Research Committee") are eligible for grants of up to 50% of the project's expenditures if they meet certain criteria. These grants are issued in return for the payment of royalties from the revenues derived from the sale of the product developed in accordance with the program, as follows: 3% of revenues during the first three years, 4% of revenues during the following three years, and 5% of revenues in the seventh year and thereafter, with the total royalties not to exceed 100% of the dollar value of the OCS grant (or in some cases up to 300%). Following the full payment of such royalties, there is no further liability for payment.

The Israeli government further requires that products developed with governmental grants be manufactured in Israel. However, in the event that any portion of the manufacturing is not conducted in Israel, if approval is received from the OCS, the Company would be required to pay royalties that are adjusted in proportion to manufacturing outside of Israel as follows: when the manufacturing is performed outside of Israel by the Company or an affiliate company, the royalties are to be paid as described above with the addition of 1%, and when the manufacturing outside of Israel is not performed by the Company or an affiliate the royalties paid shall be equal to the ratio of the amount of grant received from the OCS divided by the amount of grant received from the OCS

and the investment(s) made by the Company in the project. The payback will also be adjusted to 120%, 150% or 300% of the grant if the portion of manufacturing that is performed outside of Israel is up to 50%, between 50% and 90%, or more than 90%, respectively. The technology developed pursuant to the terms of these grants may not be transferred to third parties without the prior approval of the Research Committee. Such approval is not required for the export of any products resulting from such research or development. Approval of the transfer of technology may be granted only if the recipient abides by all the provisions of the Research Law and regulations promulgated thereunder, including the restrictions on the transfer of know-how and the obligation to pay royalties in an amount that may be increased. The Company is subject to various provisions of the Research Law and regulations.

In order to meet certain conditions in connection with the grants and programs of the OCS, the Company has made certain representations to the Israel government about the Company's future plans for its Israeli operations. From time to time the extent of the Company's Israeli operations has differed and may in the future differ, from the Company's representations. If, after receiving grants under certain of such programs, the Company fails to meet certain conditions to those benefits, including, with respect to grants received from the OCS, the maintenance of a material presence in Israel, or if there is any material deviation from the representations made by the Company to the Israeli government, the Company could be required to refund to the State of Israel taxes or other benefits previously received (together with linkage adjustment to the Israeli consumer price index) and would likely be ineligible to receive OCS grants in the future.

The Company has participated in programs sponsored by the OCS for the support of research and development activities. Through December 31, 2002, the Company had recorded grants from OCS aggregating approximately \$1.4 million for certain of the Company's research and development projects. These grants were recorded as a reduction of research and development costs. The Company submitted an application for an additional grant in 2003, but decided not to draw any funds thereunder during 2003. As noted, the Israeli government requires beneficiaries of such grants to pay royalties to the Israeli government based on the revenues derived from the sale of products, technologies and services developed with such grants. We believe that we have no obligation for royalties in 2002 or 2003, related to the 2002 grants totaling \$0.2 million, since we did not generate revenue from the product developed with such grants, and for the same reason we do not anticipate generating revenue that will trigger a repayment obligation to the OCS during 2004. It is possible that an obligation to pay royalties in 2004 and future years may be imposed on the Company, as we started to generate revenues from our anti-spam solutions in the middle of 2003, although it is the Company's position that no royalty bearing technologies are utilized in relation to its anti-spam solutions. The ultimate liability is subject to review by the OCS. With regard to grants before 2002, the Company claims that all of these programs, which were funded at a total of \$1.2 million, had failed and therefore it will not be obligated to pay royalties. In March 2002, the Company submitted an application for project failure with regard to projects from 2001 and prior years. This application was accepted by the OCS in August 2002. Accordingly, the Company has determined that as of December 31, 2002 there are no contingent liabilities for royalties under those projects. The OCS would be entitled to revisit the status of these projects in the future if the Company were to commence utilizing technology developed under these projects.

Each application to the OCS is reviewed separately, and grants are based on the program approved by the Research Committee. Expenditures supported under other incentive programs of the State of Israel are not eligible for OCS grants. As a result, there can be no assurance that applications to the OCS will be approved or, if approved, what the amounts of the grants will be.

Fund for the Encouragement of Marketing Activities

The Company has received grants relating to its overseas marketing expenses from the Marketing Fund. These grants are awarded for specific expenses incurred by the Company for overseas marketing and are based upon the expenses reported by the Company to the Marketing Fund. All marketing grants recorded from the Marketing Fund until 1997 are linked to the dollar and are repayable as royalties at the rate of 3% of the amount of increases in export sales realized by the Company from the Marketing Fund. Grants recorded beginning January 1, 1998 bear royalties of 4% plus interest at LIBOR rates. The Company will face royalty obligations on grants from the Marketing Fund only to the extent it actually achieves increases in export sales. The proceeds of these grants are presented in the Company's consolidated Financial Statements as offsets to marketing expenses. Through December 31, 2000, the Company had received grants from the Marketing Fund in the amount of approximately \$279,000.

U.S. TAX CONSIDERATIONS REGARDING ORDINARY SHARES ACQUIRED BY U.S. TAXPAYERS

The following discussion summarizes the material U.S. federal income tax consequences arising from the purchase, ownership and sale of the ordinary shares. This summary is based on the provisions of the Internal Revenue Code of 1986, as amended (the "Code"), final, temporary and proposed U.S. Treasury Regulations promulgated thereunder, and administrative and judicial interpretations thereof, in effect as of the date of this report, all of which are subject to change, possibly with retroactive effect. Commtouch will not seek a ruling from the Internal Revenue Service with regard to the United States federal income tax treatment relating to investment in the ordinary shares and, therefore, no assurance exists that the Internal Revenue Service will agree with the conclusions set forth below. The summary below does not purport to address all federal income tax consequences that may be relevant to particular investors. This summary does not address the consequences that may be applicable to particular classes of taxpayers, including investors that hold ordinary shares as part of a hedge, straddle or conversion transaction, insurance companies, banks or other financial institutions, broker-dealers, tax-exempt organizations and investors who own (directly, indirectly or through attribution) 10% or more of Commtouch's outstanding voting stock. Further, it does not address the alternative minimum tax consequences of an investment in ordinary shares or the indirect consequences to U.S. Holders, as defined below, of equity interests in investors in ordinary shares. This summary is addressed only to holders that hold ordinary shares as a capital asset within the meaning of Section 1221 of the Code, are U.S. citizens, individuals resident in the United States for purposes of U.S. federal income tax, domestic corporations or partnerships and estates or trusts treated as "United States persons" under Section 7701 of the Code ("U.S. Holders").

EACH INVESTOR SHOULD CONSULT WITH HIS OR HER OWN TAX ADVISOR AS TO THE PARTICULAR U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND SALE OF ORDINARY SHARES, INCLUDING THE EFFECTS OF APPLICABLE STATE, LOCAL, FOREIGN OR OTHER TAX LAWS AND POSSIBLE CHANGES IN THE TAX LAWS.

Tax Basis of Ordinary Shares

A U.S. Holder's tax basis in his or her ordinary shares will be the purchase price paid therefore by such U.S. Holder. The holding period of each ordinary share owned by a U.S. Holder will commence on the day following the date of the U.S. Holder's purchase of such ordinary share and will include the day on which such U.S. Holder sells the ordinary share.

Sale or Exchange of Ordinary Shares

A U.S. Holder's sale or exchange of ordinary shares will result in the recognition of gain or loss by such U.S. Holder in an amount equal to the difference between the amount realized and the U.S. Holder's basis in the ordinary shares sold. Subject to the following discussion of the consequences of Commtouch being treated as a Passive Foreign Investment Company or a Foreign Investment Company, such gain or loss will be capital gain or loss if such ordinary shares are a capital asset in the hands of the U.S. Holder. Gain or loss realized on the sale of ordinary shares will be long-term capital gain or loss if the ordinary shares sold had been held for more than one year at the time of their sale. Long-term capital gains recognized by certain taxpayers generally are subject to a reduced rate of federal tax (currently a maximum of 15%). If the U.S. Holder's holding period on the date of the sale or exchange was one year or less, such gain or loss will be short-term capital gain or loss. Short-term capital gains generally are subject to tax at the same rates as ordinary income. In general, any capital gain recognized by a U.S. Holder upon the sale or exchange of ordinary shares will be treated as U.S.-source income for U.S. foreign tax credit purposes.

See discussion under this Item 10 "Israeli Taxation and Investment Programs--Capital Gains and Income Taxes Applicable to Non-Israeli Shareholders" for a discussion of taxation by Israel of capital gains realized on sales of capital assets.

Taxation of Dividends Paid On Ordinary Shares

A U.S. Holder will be required to include in gross income as ordinary income the amount of any distribution paid on ordinary shares, including any Israeli taxes withheld from the amount paid, to the extent the distribution is paid out of our current or accumulated earnings and profits as determined for United States federal income tax purposes. Distributions in excess of these earnings and profits will be applied against and will reduce the U.S. Holder's basis in the ordinary shares and, to the extent in excess of this basis, will be treated as gain from the sale or exchange of ordinary shares.

Recently enacted amendments to the Code, as amended, provide that dividend income may be eligible for a reduced rate of taxation. Dividend income will be taxed at the applicable long-term capital gains rate if the dividend is received from a "qualified foreign corporation," and the shareholder of such foreign corporation holds such stock for more than 60 days during the 120 day period that begins on the date that is 60 days before the ex-dividend date for the stock. The holding period is tolled for any days on which the shareholder has reduced his risk of loss. A "qualified foreign corporation" is one that is eligible for the benefits of a comprehensive income tax treaty with the United States. A foreign corporation will be treated as qualified with respect to any dividend paid, if its stock is readily tradable on an established securities market. However, a foreign corporation will not be treated as qualified if it is a Passive Foreign Investment Company (as discussed below) for the year in which the dividend was paid or the preceding year.

Distributions of current or accumulated earnings and profits paid in foreign currency to a U.S. Holder will be includible in the income of a U.S. Holder in a U.S. dollar amount calculated by reference to the exchange rate on the day the distribution is received. A U.S. Holder that receives a foreign currency distribution and converts the foreign currency into U.S. dollars subsequent to receipt will have foreign exchange gain or loss based on any appreciation or depreciation in the value of the foreign currency against the U.S. dollar, which will generally be U.S. source ordinary income or loss.

As described above, we will generally be required to withhold Israeli income tax from any dividends paid to holders who are not resident in Israel. See "Israeli Tax Considerations -- Taxation of Non-Resident Holders of Shares." If a U.S. Holder receives a dividend from Commtouch that is subject to Israeli withholding, the following would apply:

- o You must include the gross amount of the dividend, not reduced by the amount of Israeli tax withheld, in your U.S. taxable income.
- o You may be able to claim the Israeli tax withheld as a foreign tax credit against your U.S. income tax liability.
- o The foreign tax credit is subject to significant and complex limitations. Generally, the credit can offset only the part of your U.S. tax attributable to your net foreign source passive income. Additional special rules apply to taxpayers predominantly engaged in the active conduct of a banking, insurance, financing or similar business. Additionally, if we pay dividends at a time when 50% or more of our stock is owned by U.S. persons, you may be required to treat the part of the dividend attributable to U.S. source earnings and profits as U.S. source income, possibly reducing the allowable credit, unless you elect to calculate your foreign tax credit separately with respect to Commtouch dividends.
- o A U.S. Holder will be denied a foreign tax credit with respect to Israeli income tax withheld from dividends received on the ordinary shares to the extent the U.S. Holder has not held the ordinary shares for at least 16 days of the 30-day period beginning on the date which is 15 days before the ex-dividend date or to the extent the U.S. Holder is under an obligation to make related payments with respect to substantially similar or related property. Any days during which a U.S. Holder has substantially diminished its risk of loss on the ordinary shares are not counted toward meeting the 16-day holding period required by the statute.
- o If you do not elect to claim foreign taxes as a credit, you will be entitled to deduct the Israeli income tax withheld from your Commtouch dividends in determining your taxable income. Individuals who do not claim itemized deductions, but instead utilize the standard deduction, may not claim a deduction for the amount of the Israeli income taxes withheld.
- o If you are a U.S. corporation holding our stock, you cannot claim the dividends-received deduction with respect to our dividends.

Special rules, described below, apply if Commtouch is a passive foreign investment company.

Information Reporting and Backup Withholding

U.S. Holders generally are subject to information reporting requirements with respect to dividends paid in the United States on ordinary shares. Existing regulations impose back-up withholding on dividends paid in the United States on ordinary shares unless the U.S. Holder provides IRS Form W-9 or otherwise establishes an exemption. U.S. Holders are subject to information reporting and back-up withholding at a rate of 28% on proceeds paid from the disposition of ordinary shares unless the U.S. Holder provides IRS Form W-9 or otherwise establishes an exemption.

Non-U.S. Holders generally are not subject to information reporting or back-up withholding with respect to dividends paid on, or upon the disposition of, ordinary shares, provided that the non-U.S. Holder provides a taxpayer identification number, certifies to its foreign status, or otherwise establishes an exemption.

Prospective investors should consult their tax advisors concerning the effect, if any, of these Treasury regulations on an investment in ordinary shares. The amount of any back-up withholding will be allowed as a credit against a U.S. or Non-U.S. Holder's United States federal income tax liability and may entitle the Holder to a refund, provided that specified required information is furnished to the IRS.

Tax Consequences If We Are a Passive Foreign Investment Company

Generally, a foreign corporation is treated as a passive foreign investment company ("PFIC") for United States federal income tax purposes for any tax year if, in such tax year, either (i) 75% or more of its gross income is passive in nature (the "Income Test"), or (ii) the average percentage of its assets during such tax year that produce, or are held for the production of, passive income (determined by averaging the percentage of the fair market value of its total assets which are passive assets as of the end of each quarter of such year) is 50% or more (the "Asset Test").

Because less than 75% of our gross income in 2003 and in prior years constituted passive income, as defined for purposes of the Income Test, we do not believe that application of the Income Test would have resulted in our classification as a PFIC for any of such years.

For 2001, 2002 and 2003, however, it is possible that we could be classified as a PFIC under the Asset Test principally because a significant portion of our assets continued to consist of the cash raised in connection with both a public offering and a private offering of our ordinary shares in 2000, coupled with the decline in the public market value of our ordinary shares during 2001, 2002 and through the beginning of 2003 and the timing of the required valuations, although there is no definitive method prescribed in the Code, United States Treasury Regulations or administrative or judicial interpretations thereof for determining the value of a foreign corporation's assets for purposes of the Asset Test. While the legislative history of the United States Taxpayer Relief Act of 1997 indicates that "the total value of a publicly-traded foreign corporation's assets generally will be treated as equal to the sum of the aggregate value of its outstanding stock plus its liabilities", there remains substantial uncertainty regarding the valuation of a publicly-traded foreign corporation's assets for purposes of the Asset Test, and it is arguable that under alternative valuation methodologies, the value of our total assets as of the relevant valuation dates in 2001, 2002 and/or 2003 would not result in our classification as a PFIC during any or all of such years.

In view of the uncertainty regarding the valuation of our assets for purposes of the Asset Test and the complexity of the issues regarding our treatment as a PFIC, U.S. Shareholders are urged to consult their own tax advisors for guidance as to our status as a PFIC. For those U.S. Shareholders who determine that we were a PFIC and notify us in writing of their request for the information required in order to effectuate the QEF Election described below, we will promptly make such information available to them.

If we are treated as a PFIC for United States federal income tax purposes for any year during a U.S. Shareholder's holding period of ordinary shares and the U.S. Shareholder does not make a QEF Election or a "mark-to-market" election (both as described below), any gain recognized by the U.S. Shareholder upon the sale of ordinary shares (or the receipt of certain distributions) would be treated as ordinary income. This income would be allocated over the U.S. Shareholder's holding period with respect to his ordinary shares and an interest charge would be imposed on the amount of deferred tax on the income allocated to prior taxable years.

Although we generally will be treated as a PFIC as to any U.S. Shareholder if we are a PFIC for any year during the U.S. Shareholder's holding period, if we cease to satisfy the requirements for PFIC classification, then under such circumstances, the U.S. Shareholder may avoid the consequences of PFIC classification for subsequent years if he elects to recognize gain based on the unrealized appreciation in the ordinary shares through the close of the tax year in which we cease to be a PFIC. Additionally, if we are treated as a PFIC, a U.S. Shareholder who acquires ordinary shares from a decedent would be denied the normally available step-up in tax basis for these ordinary shares to fair market value at the date of death and instead would have a tax basis equal to the decedent's tax basis in these ordinary shares.

For any tax year in which we are treated as a PFIC, a U.S. Shareholder may elect to treat his ordinary shares as an interest in a qualified electing fund (a "QEF Election"), in which case, the U.S. Shareholder would be required to include in income currently his proportionate share of our earnings and profits in years in which we are a PFIC regardless of whether distributions of our earnings and profits are actually distributed to the U.S. Shareholder. Any gain subsequently recognized upon the sale by the U.S. Shareholder of his ordinary shares, however, generally would be taxed as capital gain.

As an alternative to a QEF Election, a U.S. Shareholder may elect to mark his ordinary shares to market annually, recognizing ordinary income or loss (subject to certain limitations) equal to the difference between the fair market value of his ordinary shares and the adjusted tax basis of his ordinary shares. Losses would be allowed only to the extent of net mark-to-market gain accrued under the election.

We cannot assure you that we will avoid becoming a PFIC. U.S. holders who hold ordinary shares during a period when we are a PFIC will be subject to the foregoing rules, even if we cease to be a PFIC. U.S. Holders are urged to consult their tax advisors about the PFIC rules, including QEF elections.

CONDITIONS IN ISRAEL

Commtouch is incorporated under the laws of the State of Israel, and substantially all of our research and development and significant executive facilities are located in Israel. Accordingly, Commtouch is directly affected by political, economic and military conditions in Israel. Our operations would be materially adversely affected if major hostilities involving Israel should occur or if trade between Israel and its present trading partners should be curtailed.

Political Conditions

Since the establishment of the State of Israel in 1948, a number of armed conflicts have taken place between Israel and its Arab neighbors. A state of hostility, varying from time to time in intensity and degree, has led to security and economic problems for Israel. Despite a peace agreement between Israel and Egypt signed in 1979, a peace agreement between Israel and Jordan signed in 1994 and, since 1993, several agreements between Israel and Palestinian Authority, Israel continues to face hostile actions and threats from various elements in the region. Further, Israel has not entered into any peace agreement with Syria or Lebanon, and there have been major difficulties accompanied by violence in the negotiations with the Palestinians. We cannot be certain as to how the current hostilities affecting the region will develop or what effect they may have upon Commtouch.

Certain countries, companies and organizations continue to participate in a boycott of Israeli firms. Commtouch does not believe that the boycott has had a material adverse effect on Commtouch, but restrictive laws, policies or practices directed towards Israel or Israeli businesses may have an adverse impact on the expansion of Commtouch's business.

Generally, all male adult citizens and permanent residents of Israel under the age of 51 are obligated to perform annual military reserve duty of up to 39 days, or longer under certain circumstances. Additionally, all such residents are subject to being called to active duty at any time under emergency circumstances. Currently, a majority of our officers and employees are obligated to perform annual reserve duty. While we have operated effectively under these requirements since we began operations, no assessment can be made as to the full impact of such requirements on our workforce or business if conditions should change, and no prediction can be made as to the effect on us of any expansion or reduction of such obligations.

Economic Conditions

Israel's economy has been subject to numerous destabilizing factors, including a period of rampant inflation in the early to mid-1980s, low foreign exchange reserves, fluctuations in world commodity prices, military conflicts and civil unrest. The Israeli government has, for these and other reasons, intervened in various sectors of the economy, employing, among other means, fiscal and monetary policies, import duties, foreign currency restrictions and controls of wages, prices and foreign currency exchange rates. The Israeli government has periodically changed its policies in all these areas.

Until May 1998, Israel imposed extensive restrictions on transactions in foreign currency. These restrictions were largely lifted in May 1998, and since January 1, 2003, all exchange control restrictions have been removed, although there are still reporting requirements for foreign currency transactions. However, legislation remains in effect pursuant to which currency controls can be imposed by administrative action at any time. Nonresidents of Israel who purchase our ordinary shares are able to repatriate in non-Israeli currency both dividends (after deduction of withholding tax) and the proceeds from the sale of the shares.

Trade Agreements

Israel is a member of the United Nations, the International Monetary Fund, the International Bank for Reconstruction and Development and the International Finance Corporation. Israel is also a signatory to the General Agreement on Tariffs and Trade, which provides for reciprocal lowering of trade barriers among its members. In addition, Israel has been granted preferences under the Generalized System of Preferences from Australia, Canada and Japan. These preferences allow Israel to export the products covered by such programs either duty-free or at reduced tariffs.

Israel has entered into preferential trade agreements with the European Union, the United States and the European Free Trade Association. In recent years, Israel has established commercial and trade relations with a number of the other nations, including Russia, China and India, with which Israel had not previously had such relations.

Assistance from the United States

Israel receives significant amounts of economic and military assistance from the United States. There is no assurance that foreign aid from the United States will continue at or near amounts received in the past. If the grants for economic and military assistance are eliminated or reduced significantly, the Israeli economy could suffer material adverse consequences.

Item 11. Qualitative and Quantitative Disclosure about Market Risk.

We develop our technology in Israel and seek to provide our software products worldwide. As a result, our financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets. As most of our sales are currently made in U.S. dollars, a strengthening of the dollar could make our anti-spam solutions less competitive in foreign markets. Due to the nature and level of our debts, we have concluded that there is currently no material market risk exposure. Therefore, no quantitative tabular disclosures are required.

Interest Rate Risks

Our exposure to market risk for changes in interest rates in the U.S. relates primarily to our long-term convertible loan. The fair value of our long-term convertible loan is based upon their market values. Changes in U.S. interest rates, could affect our financial results.

Item 12. Description of Securities Other than Equity Securities.

Not applicable.

PART II

Item 13. Defaults, Dividend Arrearages and Delinquencies.

Not applicable.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds.

Not applicable.

Item 15. Controls and Procedures

(a) Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Exchange Act, as of the end of 2003. Based on their evaluation, our principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective.

(b) There have been no significant changes (including corrective actions with regard to significant deficiencies or material weaknesses) in our internal controls or in other factors that could significantly affect these controls subsequent to the date of the evaluation referenced in paragraph (a) above, including any corrective actions with regard to significant deficiencies and material weaknesses.

Item 16. Reserved

Item 16A. Audit Committee Financial Expert

The Board of Directors of the Company has determined that Mr. Ofer Segev is a financial expert serving on the Audit Committee, and Mr. Segev is independent of management pursuant to the independence standards set forth in Nasdaq Marketplace Rule 4200(a)(15) and SEC Rule 10A-3(b)(1).

Item 16B. Code of Ethics

The Company, by way of Board of Director resolution, has adopted a Code of Ethics applicable to its senior financial officers, including its principal executive, financial and accounting officers. The Code of Ethics is posted on the Company's website at www.commtouch.com, under the link to "investor relations".

Item 16C. Fees to Auditors

Kost, Forer, Gabbay & Kasierer, a member of Ernst & Young International Ltd. or Ernst & Young, has served as our Independent Public Accountants for each of the fiscal years in the three-year period ended December 31, 2003, for which audited financial statements appear in this annual report on Form 20-F. The following table presents the aggregate fees for professional and other services rendered by Kost, Forer , Gabbay & Kasierer for 2003 and 2002:

	Year ended December 31,	
	2003	2002
Audit fees (1)	\$ 59,500	\$137,352
Tax (2)	3,000	7,500
All other fees (3)	4,080	22,268
Total	\$ 66,580	\$167,120

(1) Audit fees consist of fees billed for the annual audit services engagement and other audit services, which are those services that only the external auditor can reasonably provide, and include the group audit; statutory audits; consents; attest services; and assistance with and review of documents filed with the SEC.

(2) Tax fees include fees billed for tax compliance services, including the preparation of original and amended tax returns and claims for refund; tax consultations, such as assistance and representation in connection with tax audits and appeals, tax advice related to mergers and acquisitions, transfer pricing, and requests for rulings or technical advice from taxing authority; tax planning services; and expatriate tax planning and services.

(3) All other fees include fees billed for training; advisory services related to government applications and process improvement and advice.

Audit Committee Pre-approval Policies and Procedures

Below is a summary of the current Policies and Procedures:

The main role of the Company's audit committee is to assist the Board of Directors in fulfilling its responsibility for oversight of the quality and integrity of the accounting, auditing and reporting practices of the Company. The Audit Committee oversees the appointment, compensation, and oversight of the public accounting firm engaged to prepare or issue an audit report on the financial statements of the Company. The audit committee's specific responsibilities in carrying out its oversight role include the approval of all audit and non-audit services to be provided by the external auditor and the quarterly review of the firm's non-audit services and related fees. These services may include audit services, audit-related services, tax services and other services, as described above. It is the policy of the audit committee to approve in advance the particular services or categories of services to be provided to the Company periodically. Additional services may be pre-approved by the audit committee on an individual basis during the year.

PART III

Item 17. Financial Statements.

The Company has responded to Item 18.

Item 18. Financial Statements

(b) Financial Statement Schedule:

The following financial statement schedule of Commtouch Software Ltd. for each of the three years in the period ended December 31, 2003 is filed as part of the Annual Report and should be read in conjunction with the consolidated financial statements of Commtouch Software Ltd.

Schedule II --Valuation and Qualifying Accounts

Schedules not listed above have been omitted because the information required to be set forth therein is not applicable or is shown in the consolidated financial statements or notes thereto.

Item 19 Exhibits

The list of exhibits required by this Item is incorporated by reference to the Exhibit Index which precedes the exhibits to this report.

REPORT OF INDEPENDENT AUDITORS

To the Shareholders of COMMTOUCH SOFTWARE LTD.

We have audited the accompanying consolidated balance sheets of Commtouch Software Ltd. ("the Company") and subsidiaries as of December 31, 2002 and 2003, and the related consolidated statements of operations, changes in shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2003. Our audits also included the financial statement schedule listed in the Index at item 18 (b). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with generally accepted auditing standards, in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Company's management, as well as evaluating the overall financial statements presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above, present fairly, in all material respects, the consolidated financial position of Commtouch Software Ltd. and subsidiaries as of December 31, 2002 and 2003, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2003, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, present fairly in all material respect the information set forth therein.

Tel-Aviv, Israel

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 1: GENERAL

a. Commtouch Software Ltd. ("Commtouch", "the Company") was incorporated under the laws of Israel in 1991. The Company and its subsidiary (Commtouch Inc.) develop and provide email anti-spam solutions to enterprises. During 2002, the Company's main business was providing outsourced integrated Web-based email and messaging solutions to a few businesses that remained as customers following the transfer of the consumer outsource web-based email business and sale of the Hosted Exchange email business during late 2001 and early 2002. During early 2002, concurrent with the divestiture of the Company's above-stated businesses, the Company began marketing to service providers its messaging software platform ("CMP"), which had been in development by the Company prior to that time. Following a concerted effort to penetrate the email server market and a determination that the continuing unfavorable economic conditions would hamper potential sales of CMP, and given the Company's inherent knowledge of anti-spam solutions based on its many years as an ASP in the outsourced email market and the growing worldwide attention was directed to the problem of spam, the Company transitioned its focus to the anti-spam market in mid-2002. While no uniform definition of spam exists, the Company generally defines "spam" as the sending of unsolicited bulk email for commercial and non-commercial purposes. During 2003, approximately 70% of the revenues were derived from three customers (33% from customer A, 25% from customer B, and 12% from customer C). During 2002, approximately 57% of the revenues were derived from two customers (39% from customer D and 18% from customer E). During 2001, no single customer accounted for more than 10% of the revenues.

The Company expects that it will continue to be dependent upon resellers for a significant portion of its revenues, which will be derived from sales of the Company's anti-spam solutions. Also, the Company is still developing its distribution channels and is currently dependent on a relatively small number of its global resellers/channel partners to generate the majority of sales transactions. If anticipated orders from these resellers fail to materialize, or one of the key resellers/distribution channels ceases the promotion of the Company's business, operating results and financial condition will be materially adversely affected.

b. Discontinued operations

In November 2000, the Company acquired Wingra, Inc. ("Wingra"), a provider of messaging integration and migration solutions for large enterprises.

In February 2002, the Company sold off its migration service business, Wingra, to Wingra's senior management. The operations of Wingra were eliminated from the operations of the entity as a result of this transaction. The Company has no intent to continue its activity in the migration service. The results of operations, including revenue, operating expenses and other income and expense of Wingra for 2001 and 2002, have been reclassified in the accompanying statements of operations as discontinued operations.

The proceeds from the sale of Wingra for the year ended December 31, 2002 were as follows:

Tangible assets:	\$ 314
Liabilities transferred	(1,521)

Net liabilities transferred:	(1,207)
Cash transferred:	193

Gain from sale of Wingra	\$ (1,014)
	=====

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

Summary operating results from the discontinued operation for the years ended December 31, 2001 and 2002 are as follows:

	Year Ended December 31,	
	2001	2002
Revenues	\$ 1,730	\$ 157
Cost of revenues	643	76
Gross profit	1,087	81
Operating expenses	3,029	416
Amortization and impairment of goodwill and other intangible assets	16,074	--
Operating loss	\$ (18,016)	\$ (335)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP").

a. Use of Estimates:

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

b. Financial Statements in U. S. Dollars:

A majority of the revenues of the Company and its subsidiaries is made in United States dollars ("dollars"). In addition, a substantial portion of their costs is incurred or determined in dollars. The Company's management believes that the dollar is the primary currency of the economic environment in which the Company and its subsidiary operates. Thus the dollar is their functional and reporting currency. Accordingly, monetary accounts maintained in currencies other than the dollar are remeasured into U.S. dollars, in accordance with Statement of Financial Accounting Standard No. 52 "Foreign Currency Translation" ("SFAS No. 52"). All transaction gains and losses of the remeasured monetary balance sheet items are reflected in the statements of operations as financial income or expenses, as appropriate.

The financial statements of the Company's affiliate, Imatrix ("Imatrix"), reported using the equity method of accounting, whose functional currency is not the dollar, have been translated into dollars, in accordance with SFAS No. 52. All balance sheet accounts have been translated using the exchange rates in effect at the balance sheet date. Statement of income amounts have been translated using the average exchange rate for the year. The resulting aggregate translation adjustments are reported as Foreign currency translation adjustment under accumulated other comprehensive income in shareholders' equity.

c. Principles of Consolidation:

The consolidated financial statements include the accounts of the Company, its wholly-owned subsidiary and majority-owned subsidiary. All inter-company balances and transactions have been eliminated in consolidation.

d. Cash and Cash Equivalents:

Cash equivalents are short-term highly liquid investments that are readily convertible to cash with original maturities of three months or less.

e. Investment in affiliate:

For the purposes of these financial statements, an affiliated company is a company held to the extent of 20% or more, or a company less than 20% held, which the Company can exercise significant influence over operating and financial policy of the affiliate. The investment in an affiliated company is accounted for under the equity method. Profits on inter-company sales not realized outside the group were eliminated.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

The Company's investment is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of investment may not be recoverable. During 2003, the Company recognized \$291 as "Equity in earnings (losses) of affiliate."

As of December 31, 2003, no impairment losses have been identified.

f. Property and Equipment:

Property and equipment are stated at cost net of accumulated depreciation. Depreciation is calculated using the straight line method over the estimated useful lives of the assets at the following annual rates:

	%
Computers and peripheral equipment	33.33
Office furniture and equipment	7 - 20
Motor vehicles	15 - 25
Leasehold improvements	Over the term of the lease or the life of the assets, by the shorter of

The Company and its subsidiary's long-lived assets are reviewed for impairment in accordance with Statement of Financial Accounting Standard No.144 "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS No.144") whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the future undiscounted cash flows expected to be generated by the assets. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. For the year ended December 31, 2002 the Company had impairment losses totaling \$ 750, which were recorded as operating expenses. No impairment losses were recorded in 2003.

During 2001, due to the economic slowdown, the reduction of the employee headcount and the transfer into new facilities, the Company assesses the recoverability of the carrying amount of property and equipment and provides for any possible impairment loss based upon the difference between the carrying amount and fair value of such assets in accordance with Statement of Financial Accounting Standard No. 121 "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of". As a result of the evaluation, the Company recorded impairment losses totaling \$10,166, which were recorded as operating expenses.

g. Investments in other companies:

The investment in other companies is stated at lower of cost or estimated fair value according to Accounting Principle Board Opinion No. 18 "The Equity Method of Accounting for Investments in Common Stocks", since the Company does not have the ability to exercise significant influence over operating and financial policies of the investee. The Company's investments in other companies are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of such investments may not be recoverable. Measurements of an impairment loss for investments in other companies that management expects to hold are based on the fair value of the investment.

The Company invested \$7,000 in the first nine months of 2000 in three Internet centric companies in which the Company believed it had a significant ongoing strategic interest.

Due to the economic slowdown and the significant decline in capital available to and in valuations of its investment in privately funded Internet centric companies, the Company believes all of these investments are impaired. During 2000 and 2001, based on a comprehensive review of the Company's investments, the Company recorded a non-cash charge of \$5,000 and \$1,700, respectively, to write-down the recorded investment values.

h. Revenue Recognition:

During 2001 and through the first half of 2003, the Company derived its revenues from providing hosted email services, royalties for the sale of its hosted Email services and from software license agreements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

During the second half of 2003, the Company launched its first anti-spam solution and began generating revenues therefrom.

Revenues from anti-spam and email services were recognized in accordance with Staff Accounting Bulletin No. 104 "Revenue Recognition in Financial Statements" ("SAB No. 104") when delivery occurred, persuasive evidence of an agreement existed, the vendor's fee was fixed and determinable and collectibility was probable. Revenues from contracts that were not dependent upon the number of mailboxes and provided non-refundable fixed payments were recognized ratably over the contract term. Revenues from contracts specifying a contractual rate per mailbox per month were recognized on a monthly basis for mailboxes covered by the respective contracts. Revenues from contracts based on a share of advertising revenues earned by business partners were recognized when such revenues were earned. Deferred revenue includes unearned amounts received under anti-spam and email service contracts, and amounts received by customers but not recognized as revenues.

Royalties for the sale of the hosted email services were recognized when persuasive evidence of an arrangement existed, services were provided, no significant obligation with regard to the implementation remained, the fee was fixed and determinable and collectibility was probable.

The Company accounts for software license revenue in accordance with Statement of Position 97-2, "Software Revenue Recognition", as amended ("SOP 97-2"). SOP 97-2 generally requires revenue earned on software arrangements involving multiple elements to be allocated to each element based on the relative fair value of the elements. The Company has also adopted SOP 98-9, "Modification of SOP 97-2, Software Revenue Recognition with Respect to Certain Transactions" ("SOP 98-9"), for all multiple elements transactions entered into after January 1, 2000. SOP 98-9 requires that revenue be recognized under the "Residual Method" when "Vendor Specific Objective Evidence" ("VSOE") of fair value exists for all undelivered elements and no VSOE exists for the delivered elements. Revenue from software licenses fees to end users are recognized when persuasive evidence of an arrangement exists, delivery of the software has occurred, no significant obligation with regard to the implementation remains, the fee is fixed and determinable and collectibility is probable.

i. Research and Development Costs:

Research and development costs are charged to the statement of operations as incurred. Statement of Financial Accounting Standards No. 86 "Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed" requires capitalization of certain software development costs subsequent to the establishment of technological feasibility.

Based on the Company's product development process, technological feasibility is established upon completion of a working model. The Company did not incur any material costs between the completion of its working models and the points at which its products were ready for general release. Therefore, through December 31, 2003, the Company charged all software development costs to research and development expense in the period incurred.

j. Minority Interest:

Minority interest represents other shareholders' proportionate ownership of Commtouch, K.K. (Japan) (now known as Imatrix). At December 31, 2001 the Company owned 70.6%, and at December 31, 2002 and 2003, the Company owned 32% of the equity and voting rights of Commtouch, K.K. (Japan).

During 2001, the Company's strategic partner in Japan, CSK, invested approximately \$800 in Commtouch, K.K. (Japan). According to Staff Accounting Bulletin No. 84 "Accounting for Sales of Stock by a Subsidiary", the Company did not recognize gains from this issuance of shares since it was considered to be an early stage company and thus classified the issuance to the Shareholders' Equity section of the balance sheet under Additional paid-in capital. In April 2002, as part of the Company's focus change, the Japanese subsidiary's employees purchased 38% of Commtouch, K.K. (Japan) shares from the Company for the par value of the shares. Consequently the Company's holdings decreased from 70% to approximately 32%. The sale of the shares resulted in a loss of \$153 that was recorded as part of the equity in losses of an affiliate.

k. Concentrations of Credit Risk:

SFAS No. 105, "Disclosure of Information About Financial Instruments with off-Balance-Sheet Risk and Financial Instruments with Concentration of Credit Risk" requires disclosure of any significant off-balance-sheet and credit risk

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

concentrations. The Company and its subsidiaries have no significant off-balance-sheet concentration of credit risk such as foreign exchange contracts, option contracts or other foreign hedging arrangements.

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of trade receivables, receivables on account of shares and cash and cash equivalents. The majority of the Company's cash and cash equivalents are invested in dollar and dollars linked investments and are deposited in major banks in the United States and Israel. Such investments in the United States may be in excess of insured limits and are not insured in other jurisdictions. Management believes that the financial institutions that hold the Company's investments are financially sound and, accordingly, minimal credit risk exists with respect to these investments.

The trade receivables of the Company are derived from transactions with companies located primarily in North America, Europe, Israel and the Far East. An allowance for doubtful accounts is determined with respect to those amounts that the Company and its subsidiaries have determined to be doubtful of collection. The allowance for doubtful accounts is composed of specific debts that are doubtful of collection amounting to \$41 and \$0 at December 31, 2002 and 2003, respectively. Bad debt expense (recovery) for the years-ended December 31, 2001, 2002 and 2003 was \$260, \$(40) and zero, respectively.

I. Accounting for Stock-Based Compensation:

The Company has elected to follow Accounting Principles Board Opinion No. 25 ("APB 25") "Accounting for Stock Issued to Employees" and FASB Interpretation No. 44 "Accounting for Certain Transactions Involving Stock Compensation," ("FIN 44") in accounting for its employee stock option plans. Under APB 25, when the exercise price of the Company's stock options equals or is above the market value of the underlying stock on the date of grant, no compensation expense is recognized.

The Company has adopted the disclosure provisions of Financial Accounting Standards Board Statement no. 148, "Accounting for Stock Based Compensation Transition and Disclosure" ("SFAS 148") which amended certain provisions of SFAS 123 to provide alternative methods of translation for an entity that voluntarily changes to the fair value based method of accounting for stock-based employee compensation, effective as the beginning of the year. The Company continues to apply the provisions of APB No. 25, in accounting for stock based compensation.

Pro forma information regarding the Company's net loss and net loss per share is required by SFAS No. 123 and has been determined as if the Company has accounted for its employee stock options under the fair value method prescribed by SFAS No. 123.

Pro forma information under SFAS 123 is as follows:

	2001	2002	2003
	-----	-----	-----
Net loss as reported	\$(61,007)	\$ (4,911)	\$ (6,834)
Add - stock-based employee compensation - intrinsic value	2,204	551	247
Deduct - stock-based employee compensation - fair value	(6,931)	(4,267)	(4,172)
Pro forma net loss	\$ (65,734)	\$ (8,627)	\$ (10,759)
	=====	=====	=====
Basic and diluted net loss per share - as reported	\$ (3.56)	\$ (0.24)	\$ (0.28)
	=====	=====	=====
Basic and diluted net loss per share - pro forma	\$ (3.83)	\$ (0.41)	\$ (0.44)
	-----	-----	-----

The Company applies SFAS 123 and Emerging Issues Task Force 96-18 "Accounting for Equity Instruments that are Issued to Other than Employees for Acquiring, or in Conjunction with Selling, Goods or Services" ("EITF 96-18") with respect to options issued to non-employees. SFAS 123 requires use of an option valuation model to measure the fair value of these options at the grant date. In accounting for warrants granted to those other than employees, the Company applied the provisions of SFAS No. 123, and EITF 96-18. The fair value of these warrants was estimated at the grant date, using the Black-Scholes option-pricing model.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

m. Royalty-bearing Grants;

Royalty-bearing grants from the Government of Israel for funding approved research and development projects are recognized at the time the Company is entitled to such grants, on the basis of the costs incurred and such grants are included as a deduction of research and development costs. Research and development grants amounted to \$600, \$200 and zero in 2001, 2002 and 2003, respectively.

n. Basic and Diluted Net Loss Per Share:

Basic and diluted net loss per share is presented in accordance with Statement of Financial Accounting Standard No. 128, "Earnings per Share", for all periods presented.

Basic net loss per share has been computed using the weighted-average number of ordinary shares outstanding during the year. Diluted net loss per share is computed based on the weighted average number of ordinary shares outstanding during each year, plus the weighted average number of dilutive potential ordinary shares considered outstanding during the year.

All outstanding stock options and warrants have been excluded from the calculation of the diluted loss per share because all such securities are anti-dilutive for all periods presented. The total number of shares related to outstanding options and warrants excluded from the calculations of diluted net loss per share were 4,990,673, 8,525,460 and 12,266,874 for 2001, 2002 and 2003, respectively.

o. Severance Pay:

The Company's liability for severance pay in Israel is calculated pursuant to Israeli severance pay law based on the most recent salary of the employees multiplied by the number of years of employment as of the balance sheet date. Employees are entitled to one month's salary for each year of employment or a portion thereof. The Company's liability for all of its Israeli employees is fully provided by monthly deposits with severance pay fund's insurance policies and by an accrual. The value of those funds and policies is recorded as an asset in the Company's balance sheet.

The deposited funds include profits accumulated up to the balance sheet date. The deposited funds may be withdrawn only upon the fulfillment of the obligation pursuant to Israeli severance pay law or labor agreements. The value of the deposited funds is based on the cash surrender value of these policies, and includes immaterial profits.

Severance expenses for 2001, 2002 and 2003 were approximately \$754, \$58 and \$20, respectively.

p. Fair Value of Financial Instruments:

The carrying amounts of cash and cash equivalents, trade receivables, receivables on account of shares, prepaid expenses, other accounts receivable and accounts payable, approximate their fair values due to the short-term maturities of financial instruments.

The carrying amount of the Company's convertible loan approximates its fair value. The fair value was estimated using discounted cash flow analysis based on the current interest rate of similar terms and maturities.

q. Reclassification:

Certain amounts from prior years have been reclassified to conform to the 2003 presentation. The reclassification had no effect on previously reported net loss, shareholder's equity or cash flows.

r. Recently Issued Accounting Pronouncements:

In January 2003, the FASB issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities" (FIN 46). This interpretation of Accounting Research Bulletin No. 51, "Consolidated Financial Statements", addresses consolidation of variable interest entities. FIN 46 requires certain variable interest entities ("VIE's") to be consolidated by the primary beneficiary if the entity does not effectively disperse risks among the parties involved. The provisions of FIN 46 are effective immediately for those variable interest entities created after January 31, 2003. The provisions, as amended, are effective for the first interim or annual period ending after March 15, 2004 for those variable interests held prior to February 1, 2003. While the Company believes this Interpretation will not have a material effect on its financial position or results of operations, it is continuing to evaluate the effect of adoption of this Interpretation. The effective date for SPE is December 31, 2003.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

In May 2003, the FASB issued SFAS No. 150 "Accounting for Certain Financial Instruments which Characteristics as both Liabilities and Equity" which establishes standards for how an issuer of financial instruments classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances) if, at inception, the monetary value of the obligation is based solely or predominantly on a fixed monetary amount known at inception, variation in something other than the fair value of the issuer's equity shares or variations inversely related to changes in the fair value of the issuer's equity shares. This statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 30, 2003. The adoption of SFAS No. 150 is not expected to have a material impact on the Company's financial position of results of operations.

NOTE 3: RECEIVABLES ON ACCOUNT OF SHARES

According to EITF 85-1 "Classifying Notes Received for Capital Stock" ("EITF 85-1"), in the event that an enterprise receives a note, rather than cash, as a contribution to its equity, such note may be recorded as an asset if collected in cash prior to issuance of the financial statements.

As of December 31, 2003, in accordance with EITF 85-1, the Company recorded receivables on account shares, which were classified as an asset, at a total amount of \$955 related to the exercise of the warrants (see note 7a), due to the fact the amount has not yet been received as of December 31, 2003. The Company received the total amount in January 2004.

NOTE 4: DEFERRED EXPENSES

During the last quarter of 2003, the Company paid issuance costs relating to Convertible Notes (see note 7b), at a total amount of \$353, consisting mainly of legal costs. In accordance with APB 21, these costs were recorded as deferred expenses and are recognized over 36 months, the contractual term of the Notes.

NOTE 5: PROPERTY AND EQUIPMENT, NET

	December 31,	
	2002	2003
	-----	-----
Cost:		
Computers and peripheral equipment	\$ 5,222	\$ 5,243
Office furniture and equipment	477	477
Motor vehicles	88	88
Leasehold improvements	694	704
	-----	-----
	6,481	6,512
Less accumulated depreciation	(5,452)	(6,060)
	-----	-----
Property and equipment, net	\$ 1,029	\$ 452
	=====	=====

Depreciation expenses amounted to approximately \$7,432, \$1,988 and \$608 for 2001, 2002 and 2003, respectively.

See Note 2 f for impairment charges during 2001 and 2002.

NOTE 6: COMMITMENTS AND CONTINGENCIES

a. Operating Leases:

The Company leases its facility in Israel under an operating lease agreement expiring on November 30, 2004. 2004 minimum lease payments under this non-cancelable lease are \$147.

The Company leases its facility in the US under operating lease agreement expiring on October 31, 2004. 2004 minimum lease payments under this non-cancelable lease are \$38.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

Rent expenses for 2001, 2002 and 2003 were approximately \$2,800, \$400 and \$199, respectively. The above rent expense is net of sub-lease rental income from the Company's unused premises totaling approximately \$54, \$700, and \$100 in 2003, 2002 and 2001, respectively.

b. Royalties:

The Company is committed to pay royalties of 3% to 5% to the government of Israel on proceeds from sales of products resulting from the government funded research and development projects, up to an amount equal to 100% of the grants received by the Company, linked to the dollar and bearing interest at an annual rate of LIBOR. As of December 31, 2003, the Company had a contingent liability to pay royalties of approximately \$800.

c. November 2003 Notes Agreement

Under the November Notes Agreement (see note 7b), the occurrence of certain defined events of default, may result, among other things, in the acceleration of repayment of the \$3,000 loan (plus accrued interest), penalties to be paid in cash, and the lenders will be entitled to exercise their first priority secured rights in assets of the Company.

According to the Nasdaq Listing Qualification Staff, the Company is required to comply with certain minimum terms in order to remain as a listed security in the Nasdaq SmallCap Market. Should the Company's securities be de-listed, the effectiveness of all registered shares would become null. According to the November Notes Agreement, the Company is required to maintain the effectiveness of the registered shares for the forthcoming periods. Not maintaining the effectiveness, can cause the occurrence of an event of default and consequently redemption of the notes by the lenders, and/or penalties to be paid in cash.

d. Class Action Litigation

Following the restatement of revenues for the first three quarters of 2000, several class action lawsuits were filed in the United States District Court for the Northern District of California against the Company and certain of its officers and a director, alleging violations of the antifraud provisions of the Securities Exchange Act of 1934 arising from the Company's financial statements. These lawsuits were consolidated into one action in late 2001. Thereafter, the Company filed a Motion to Dismiss, which was granted. The plaintiffs then filed a second amended and consolidated complaint, and the Company's second motion to dismiss was only partially accepted, with the end result being that the plaintiff's filed a third amended and consolidated complaint.

In May 2003, Commtouch settled the shareholder class action lawsuit filed on behalf of shareholders against the company in early 2001. The litigation was initiated against the company and two members of management in response to the company's announcement that it had decided to restate unaudited earnings for the first three quarters of 2000, alleging violations of the antifraud provisions of the Securities Exchange Act of 1934.

The settlement is being fully funded by the Company's Directors and Officers insurance policy.

NOTE 7: CONVERTIBLE LOAN

a. On January 29, 2003, Commtouch entered into a Convertible Loan Agreement ("the January 2003 Loan"), with certain lenders. The Company received the total loan amount of \$1,250 from the lenders, which bore interest at a rate of ten percent per annum, and convertible into ordinary shares of the Company at the price of \$0.25 per share. In connection with the January Loan, the Company also issued warrants (the "January 2003 warrants") exercisable for purchase of up to 5,000,000 of the Company's ordinary shares, each one-third of the warrants exercisable within five years at prices per ordinary share of \$0.25, \$0.33 and \$0.50 respectively.

In accordance with APB No. 14 "Accounting for Convertible Debt and Debt Issued with Stock Purchase Warrants" ("APB 14"), the Company allocated a portion of the proceeds to the warrants, based on their applicable fair values. Amounts allocated to the warrants totaling \$1,045, were recorded as additional paid in capital.

The fair value of the warrants was estimated at the grant date using a Black-Scholes option pricing model with the following assumptions: risk-free interest rate of 3.7%, dividend yield of 0%, volatility factors of the expected market price of the Commtouch ordinary shares of 1.384 and an expected life of five years.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

In accordance with EITF 98-5, "Accounting for Convertible Securities with Beneficial Conversion Features or Contingent Adjustable Conversion Ratios" ("EITF 98-5"), the Company recorded as additional paid in capital \$39 as the beneficial conversion feature of the January 2003 Loan. Amounts reflecting the fair value of the warrants and the beneficial conversion feature of the Loan have been recorded as discounts on the Loan. The discount related to the warrants and the beneficial conversion feature are amortized as financial expenses over the term of the January 2003 Loan.

In November 2003, the Company signed a new agreement (the "New Agreement") with the lenders of the January 2003 Loan, to early convert their loan into equity of the Company, and to exercise half of the related warrants previously granted. According the New Agreement, the Company granted an inducement to the lenders, of an additional 375,000 shares and 375,000 warrants.

On December 26, 2003, the lenders converted the loan and accrued interest into 5,652,216 Ordinary Shares of the Company and, in accordance with the New Agreement, exercised warrants to purchase 187,518 shares, in consideration for approximately \$1,017, received in full by January 2004.

The Company treats the modification and exchange of its debt as an inducement of conversion in accordance with Statement of Financial Accounting Standard 84 "Induced Conversions of Convertible Debt, an amendment of APB Opinion No. 26" ("FAS 84"). As such, the Company recognized expenses in a total amount of \$526, upon conversion of an amount equal to the fair value of all securities and other consideration transferred in the transaction in excess of the fair value of securities issuable pursuant to the original conversion terms.

In accordance with EITF 00-27, upon conversion of the January Loan and the exercise of January warrants into Ordinary shares of the Company, the beneficial conversion features and the discount related to the fair value of the warrants measured upon issuance and amortized through the maturity of the loan, were fully amortized and are recorded as financial expenses totaling \$1,084.

b. On November 26, 2003, the Company signed an agreement (the "November 2003 Notes Agreement") for a private placement of \$3,000 in senior convertible notes (the "November 2003 Notes") and related warrants (the "November 2003 Warrants") with a group of institutional investors. The notes mature in three years and bear interest at a rate of 8% per annum. The notes are convertible at any time, at the lenders' option, into the Company's ordinary shares at a fixed conversion price of \$1.153. The lenders also received warrants to purchase 600,000 shares of the Company, exercisable within three year at an exercise price of \$1.153 per share. The issuance of the November 2003 Notes was contingent on the conversion of the January 2003 Loan and the exercise of the January 2003 warrants into equity. The total amount was received in full by January 2004.

According to the New Agreement, any delay in registration and/or effectiveness of the November 2003 Notes according to the registration requirements, can cause the occurrence of an event of default and redemption of the notes by the lenders, and/or penalties to be paid in cash. The Company classified the warrants fair value as liabilities according to EITF 00-19 "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock" ("EITF 00-19").

NOTE 8: RESTRUCTURING CHARGES

During 2002, the Company continued implementing strategic initiatives intended to further reduce costs. In connection with the strategic initiatives, and in accordance with SFAS 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets To Be Disposed Of", SAB 100 "Restructuring and Impairment Charges" and EITF 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (Including Certain Costs in a Restructuring)" (EITF 94-3), the Company recorded restructuring and other non-recurring charges of approximately \$1,125. The restructure included curtailing expenses and reducing the number of employees. The following table summarizes the restructuring accruals status as of December 31, 2002:

	Restructuring charge	Utilized		Balance at December 31, 2002
		Cash	Non-cash	
Lease deposits and termination fees	\$ 128	\$ 128	\$ --	\$--
Impairment of property and equipment	750	--	750	--
Loss on sale of assets	247	--	247	--
	-----	-----	-----	---
	\$1,125	\$ 128	\$ 997	\$--
	=====	=====	=====	===

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 9: INCOME TAXES**Israeli Income Tax:**

The Company's production facilities in Israel have been granted "Approved Enterprise" status for three separate investment programs in 1992, 1996 and 2000 by the Israeli Investment Center under the Law for Encouragement of Capital Investments, 1959 ("the Law"). The Company's first program was approved in 1995. The Company's second and third programs (which were later cancelled) received a letter of approval in April 1996 and in December 2000, respectively.

During 2001, the "Approved Enterprise" status for the 1996 investment program was cancelled. During 2002, the "Approved Enterprise" status for the 2000 investment program was cancelled.

The law and regulations prescribing the benefits provide for an expiration date for the grant of new benefits. The expiration date has been extended several times in the past. The expiration date currently in effect is June 30, 2004 (which may be extended by ministerial decision until December 31, 2004), and no new benefits will be granted after that date unless the expiration date is extended. We cannot be assured that new benefits will be available after June 30, 2004 or that benefits will continue in the future at their current levels or at all. Undistributed Israeli income derived from each of its "Approved Enterprise" programs entitle the Company to a tax-exemption for a period of two years commencing with the first year it will earn taxable income (which has yet to occur) and to a reduced tax rate of 10%-25% for an additional period of five to eight years (depending on the level of foreign investment in the Company). These tax benefits cannot continue beyond the earlier of twelve years from commencement of operations, or fourteen years from receipt of approval. Thereafter, the Company's income will be subject to the regular income tax rate of 36%. Income that is not derived from "Approved Enterprise" during the benefits period is taxed at the regular rate of 36%. As currently only a part of the Company's capital investments are approved (a "Mixed Enterprise"), its effective corporate tax rate (once it earns taxable income) will be determined by the weighted combination of the various applicable rates.

As of December 31, 2003, the tax benefits period for the outstanding valid program had not yet commenced.

The tax exempt income attributable to the "Approved Enterprise" can be distributed to shareholders without subjecting the Company to taxes only upon the complete liquidation of the Company.

Distribution of cash dividends from income that was tax exempt due to the "Approved Enterprise" status is subject to corporate tax at the rate that would have been applicable to the income of the Company had the Company not been tax exempt. In addition, these dividends will generally be subject to a 15% withholding tax.

Distribution of cash dividends from income that was not derived from "Approved Enterprise" generally is subject to 25% withholding tax.

The entitlement to the above benefits is conditional upon the Company's fulfilling the conditions stipulated by the above law, regulations published thereunder and the instruments of approval for the specific investments in "Approved Enterprises". In the event of failure to comply with these conditions, the benefits may be canceled and the Company may be required to refund the amount of the benefits, in whole or in part, including interest.

The Company is currently viewed as qualifying as an "industrial company" under the Law for the Encouragement of Industry (Taxation), 1969 and as such is entitled to certain tax benefits, mainly accelerated rates of depreciation and the right to deduct public issuance expenses.

Results for tax purposes are measured in terms of earnings in NIS after certain adjustments for increases in the Israeli Consumer Price Index "CPI". As explained in Note 2b, the financial statements are measured in U.S. dollars. The difference between the annual change in the Israeli CPI and in the NIS/dollar exchange rate causes a further difference between taxable income and the income before taxes shown in the financial statements. In accordance with paragraph 9(f) of SFAS No. 109, the Company has not provided deferred income taxes on the difference between the functional currency and the tax bases of assets and liabilities.

Commtouch Software Ltd.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

On January 1, 2003, a comprehensive tax reform took effect in Israel. Pursuant to the reform, resident companies are subject to Israeli tax on income accrued or derived in Israel or abroad. In addition, the concept of "controlled foreign corporation" was introduced, according to which an Israeli company may become subject to Israeli taxes on certain income of a non-Israeli subsidiary if the subsidiary's primary source of income is passive income (such as interest, dividends, royalties, rental income or capital gains). The tax reform also substantially changed the system of taxation of capital gains.

As of December 31, 2003, Israeli net operating loss and capital losses carry-forwards amounted to \$31,525. Such net operating loss may be carried forward indefinitely and offset against future taxable income. The Company expects that during the period these tax losses are utilized its income will be substantially tax exempted. Accordingly, there will be no tax benefit from such losses and no deferred income taxes have been included in these financial statements.

U.S. Income Tax:

Commtouch Inc. is taxed based upon tax laws in the U.S.

As of December 31, 2003, Commtouch Inc. had U.S. federal net operating loss carry-forwards.. The net operating loss expires in various amounts between the years 2009 and 2024. Utilization of U.S. net operating losses may be subject to the substantial annual limitation due to the "change in ownership" provisions of the Internal Revenue Code of 1986 and similar state provisions. The annual limitation may result in the expiration of net operating losses before utilization.

Deferred Income Taxes:

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred tax liabilities and assets are as follows:

	December 31,	
	2002	2003
	-----	-----
Deferred tax assets are as follows:		
U.S. operating loss carry-forwards	\$ 27,699	\$ 28,589
Reserves and allowances not currently deductible	496	1,320
	-----	-----
Net deferred tax asset before valuation allowance	28,195	29,909
Valuation allowance	(28,195)	(29,909)
	-----	-----
Net deferred tax asset	\$--	\$--
	=====	=====

As of December 31, 2003, the Company has provided a 100% valuation allowance with respect to deferred tax assets resulting from tax loss carry-forwards. Management currently believes that since the Company and Commtouch Inc. have a history of losses it is more likely than not that the deferred tax regarding the loss carry-forwards and other temporary differences will not be realized in the foreseeable future.

Pretax loss:

Pretax losses from continuing operations are as follows:

	2001	2002	2003
	-----	-----	-----
Israel	\$26,951	\$ 4,320	\$ 4,214
U.S.	15,403	2,619	2,620
Other	637	(1,349)	--
	-----	-----	-----
	\$42,991	\$ 5,590	\$ 6,834
	=====	=====	=====

NOTE 10: SHAREHOLDERS' EQUITY

The ordinary shares of the Company have been traded on the NASDAQ National Market and SmallCap Market, since July 1999 and 2002, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

As of December 31, 2003, CommTouch outstanding warrants issued to various parties, were as follows:

Issuance Date	Warrants for ordinary shares	Exercise price per share	Warrants exercisable	Exercisable through
July 1999	1,136,000	\$ 12.80*	1,136,000	July 2004

Total	13,490,925		10,014,835	

* Subject to adjustments (see "Warrants Issued to Strategic Partners and Consultants" below).

Warrants to Private Placement Investors and lenders.

On February 27, 2002, CommTouch entered into a private placement agreement, whereby CommTouch issued approximately 4,400,000 ordinary shares against the investment of approximately \$1,343 in a private placement to private investors. The purchasers in the private placement also received five-year warrants to purchase up to an additional 2,660,955 ordinary shares. The exercise price for one-third of the warrants is \$0.37 per share, the exercise price for an additional one-third of the warrants is \$1.00 per share and the exercise price for the final one-third of the warrants is \$2.00 per share. These warrants remain exercisable and expire on April 15, 2007.

For January 29, 2003 details refer to Note 7a herein.

On July 10, 2003, CommTouch entered into an ordinary shares and Warrants Purchase Agreement with certain investors. Under this agreement, the Company received an investment of \$1,440, and issued to the investors 2,880,000 ordinary shares and warrants to purchase within five years 1,440,000 ordinary shares at an exercise price of \$0.50. Warrants totaling 325,000 shares were exercised in 2003, leaving 1,115,000 warrants outstanding as at December 31, 2003. These warrants remain exercisable and expire on August 11, 2008.

On July 29, 2003, CommTouch entered into two identical ordinary shares and Warrants Purchase Agreements with certain investors. Under these agreements, the company received investments totaling \$1,600, and issued to the investors 2,666,667 ordinary shares and warrants to purchase within five years 1,600,000 ordinary shares at an exercise price of \$0.65. These warrants remain exercisable and expire on August 11, 2008.

For November 26, 2003 details refer to Note 7b herein.

Warrants Issued to Strategic Partners and Consultants.

Concurrent with the closing of the IPO, the Company entered into a customary commercial email service agreement with InfoSpace (Formerly, Go2Net), a related party. Under this agreement, the Company provided email services to the end users of InfoSpace's various email properties. In connection with this agreement, the Company issued a warrant expiring in July 2004 to purchase 1,136,000 ordinary shares at an exercise price of \$12.80 per share (subject to adjustment as described below). As of December 31, 2003, this warrant had not been exercised. The warrant is non-forfeitable, fully vested and immediately exercisable, and will expire five years from the date of the original email service agreement (July 16, 2004). If Infospace does not exercise this warrant and continue to hold an amount of warrant shares representing twenty-five percent of its and Vulcan Ventures original shareholdings purchased in 1999, they will lose the right to appoint one director to the Board of the Company. At InfoSpace's option, the warrant is exercisable pursuant to a cashless exercise based on the average closing price of the ordinary shares for the five days preceding the exercise. The holder of the warrant is required to avoid becoming a 10% or greater shareholder of the Company as a result of any exercise of the warrant. The holder of the warrant is given the opportunity to profit from a

rise in the market price of the ordinary shares and the warrant. The warrant includes provisions which adjust the exercise price upon the occurrence of certain events which might otherwise dilute the value of the warrant, and the Company believes that following certain of the Company's recent and upcoming financing activities, the exercise price is projected to be approximately \$4.91. At the grant date, the fair value of this warrant was estimated as \$5,800 and was amortized to operating expenses over the minimum term of the contract (twelve months through July 2000).

Warrants to service providers in connection with Settlement Agreements.

As part of the settlement of significant outstanding and future lease obligations to Commtouch Inc.'s Mountain View facility lessor, Equity Office Properties ("EOP"), as well as Commtouch Inc.'s equipment vendor, Compaq Financial Services, the Company issued warrants to these services providers. The EOP fully vested warrant was issued in December 2001 and allows for purchase of up to 175,000 ordinary shares at a price of \$0.26, and the Compaq fully vested warrant was issued in January 2002 and allows for purchase of up to 200,000 ordinary shares at a price of \$0.29 per share. These warrants expire in December 2006 and January 2007, respectively.

The fair value for the EOP and Compaq warrants were estimated at the date of grant using a Black-Scholes Option Pricing Model with the following weighted-average assumptions: risk-free interest rates of 4.0%, dividend yields of 0%, volatility factors of the expected market price of the Company's ordinary shares of 1.482 and a contractual life of the warrant of 5 years after the warrant is vested. Accordingly, the Company recorded approximately \$113 as compensation expense and included the amount in operating expenses.

Warrants to AccessNet Resources LLC.

As consideration for consulting services, on September 1, 2002 the Company issued a fully vested warrant to AccessNet Resources LLC for purchase of up to 206,897 of the Company's ordinary shares at a price of \$0.01 per share. The warrant was exercised in 2003.

The fair value for the warrant was estimated at the date of grant using a Black-Scholes Option Pricing Model with the following weighted-average assumptions: risk-free interest rates of 3.7%, dividend yields of 0%, volatility factors of the expected market price of the Company's ordinary shares of 1.482 and a contractual life of the warrant of 5 years. The fair value of the warrant was immaterial.

Warrants to service provider.

As consideration for consulting services, on October 1, 2002 the Company issued a fully vested warrant to a service provider to purchase of up to 26,754 of the Company's ordinary shares at a price of \$0.01 per share. The warrant expires on October 1, 2007.

The fair value for the warrant was estimated at the date of grant using a Black-Scholes Option Pricing Model with the following weighted-average assumptions: risk-free interest rates of 3.7%, dividend yields of 0%, volatility factors of the expected market price of the Company's ordinary shares of 1.482 and a contractual life of the warrant of 5 years. The fair value of the warrant was immaterial.

c. Issuance of Ordinary Shares Against Promissory Notes:

During 1999, several employees and officers early exercised 670,180 options previously granted to them by Commtouch. In consideration for the ordinary shares purchased pursuant to the early exercise of the options, they provided Commtouch with full recourse promissory notes in the original principal amount of approximately \$1,060. The promissory notes bear interest at 4.83%, with interest payment due at the end of each calendar year, with the principal due on the fourth anniversary of the date of the promissory notes.

During 2001, the Company had forgiven a promissory notes of \$143 for one of its employees and demanded the then current value of the shares (\$7 relating to the 7,500 shares) and the full interest on the original note. Both interest and the adjusted note were repaid in March 2001. The Company accounted for this note in accordance with EITF 00-23 "Issues Related to the Accounting for Stock Compensation under APB 25 and FASB Interpretation No. 44" and EITF 95-16 "Accounting for Stock Compensation Arrangements with Employer Loan Features under APB Opinion No. 25". During 2001, a note for \$137 was repaid by another employee for 94,560 shares.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

As of December 31, 2003, only one note pertaining to a current executive officer remains outstanding. Under this note, \$263 was repaid in 2003, and the Company believes that the loan will be fully repaid during 2004. During 2003, the Company collected additional \$318 from two former employees covering most of the principal amounts due under the applicable notes, and the balance of \$67 was forgiven. Consequently based on the collection of the notes, the Company reversed the valuation allowance originally recorded in 2002 at an amount of \$385. Accordingly, the Company recorded a recovery in the statement of operations for \$318.

d. Employee Stock Purchase Plan:

Commtouch reserved a total of 1,229,156 shares for issuance under the plan. Eligible employees were able to purchase ordinary shares at 85% of the lower of the market value of the Company's Ordinary shares on the first day of the applicable offering period or the last day of the applicable purchase period. The total shares issued under the plan in 2001 were 136,782. This Plan was terminated in late 2001.

e. Repricing

On April 30, 2001, the Company's Board of Directors approved the "repricing" of options previously granted to employees according to the criteria stated below. Accordingly, the Company filed a Tender Offer, which expired on September 14, 2001, and Commtouch accepted for exchange options to purchase 1,273,513 Ordinary Shares. Previously granted options were cancelled and new options were issued with an exercise price equal to the par value of the shares. In order to enjoy the repricing mechanism, previously granted stock options were required to meet the following conditions:

- o The exercise price of the original options exceeds \$10
- o The option is issued but not exercised

The repriced stock options vest over three years with 1/3 vesting on February 15, 2002 and the remaining 2/3 vesting every six months for the following two years. In connection with this repricing, the Company charged approximately \$300 as compensation expense in 2001 and approximately \$234 as compensation expense in 2002 and 2003, respectively.

During October 2001, the Company decided that 1/3 of the options granted on September 14, 2001 to employees dismissed during October 2001 will not expire upon termination of employment. The Company decided that this portion of the options will vest according to the original grant terms on February 15, 2002 and will be exercisable until August 15, 2002. This modification of the terms of vesting was accounted for under APB 25 and FIN 44 and had no effect on the Company's statement of operations.

f. Stock Options:

In 1996, the Company adopted the 1996 CI Stock Option Plan for granting options to its U.S. employees and consultants to purchase ordinary shares of the Company. Until 1999, the Company issued options to purchase ordinary shares to its Israeli employees pursuant to individual agreements. In 1999 the Company approved the 1999 Section 3(i) Share Option Plan for its Israeli employees and consultants, which was amended in 2001 to include Section 102 applicability (the sections relate to code sections under the Israel tax law). This plan was further amended in 2003 to take advantage of changes made by the Israeli legislature under Section 102 of the Israeli tax code.

The Company has reserved 11,460,000 ordinary shares for issuance under employee stock option plans and agreements. As of December 31, 2003, an aggregate of 5,110,633 ordinary shares of the Company are still available for future grant. Options granted under such plans and agreements expire generally after 10 years from the date of grant and terminate upon termination of the optionee's employment or other relationship with the Company. The options generally vest ratably over a 4-year period. Certain repriced stock options offered to employees in a Tender Offer Statement of July 20, 2001, as amended, vest over a three year period. The exercise price of the options granted under the individual agreements may not be less than the nominal value of the shares into which such options are exercisable. Any options that are canceled or not exercised within the options period become available for future grant.

CommTouch Software Ltd.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

A summary of the Company's share option activity under the plans is as follows:

	Number of Shares			Weighted Average Exercise Price		
	2001	2002	2003	2001	2002	2003
Outstanding at beginning of period	2,650,455	2,915,689	2,733,545	\$ 19.91	\$ 0.46	\$ 0.17
Granted	3,009,388*	2,058,521	2,093,948	0.2	0.16	0.39
Exercised	(119,268)	(261,490)	(253,605)	0.39	0.02	0.14
Canceled	(2,624,886)	(1,979,175)	(203,380)	19.68	0.60	0.15
Outstanding at end of period	2,915,689	2,733,545	4,370,508	\$ 0.46	\$ 0.17	\$ 0.29
Exercisable at end of period	281,830	716,407	1,675,734	\$ 2.70	\$ 0.21	\$ 0.18

* - Includes 1,273,513 options repriced to par value during 2001.

The options outstanding as of December 31, 2003, have been separated into ranges of exercise price, as follows:

Exercise Price	Options Outstanding as of December 31, 2003	Weighted Average Remaining Contractual Life (years)	Weighted Average Exercise Price	Options Exercisable as of December 31, 2003	Weighted Average Price of Exercisable Options
\$0.01-\$0.11	1,688,423	7.80	\$ 0.06	1,080,922	\$ 0.06
\$0.12-\$1.45	2,681,085	8.08	\$ 0.42	593,937	\$ 0.34
\$35	1,000	6.48	\$ 35	875	\$ 35.00
\$ 0.01-\$35	4,370,508	7.92	\$ 0.29	1,675,734	\$ 0.18

Weighted average fair values and weighted average exercise prices of options whose exercise price is less or equals market price of the shares at date of grant are as follows:

	For exercise prices on the date of grant that:					
	Equals market price Year ended December 31,			Are less than market price Year ended December 31,		
	2001	2002	2003	2001	2002	2003
Weighted average exercise prices	\$ 0.27	\$ 0.16	\$ 0.40	\$ 0.01	\$ 0.01	\$ 0.19
Weighted average fair values on date of grant	\$ 0.10	\$ 0.16	\$ 0.40	\$ 0.44	\$ 0.16	\$ 0.40

Under SFAS 123, pro forma information regarding net income (loss) and earnings (loss) per share is required and has been determined as if the Company had accounted for its employee stock options under the fair value method of that Statement. The fair value for these options was estimated at the date of grant using a Black-Scholes option valuation model with the following weighted-average assumptions for 2001, 2002 and 2003: risk-free interest rates of 4.0% for 2001, 3.7% for 2002, and 3.7% for 2003, dividend yields of 0%, volatility factors of the expected market price of the Company's ordinary shares of 1.482 for 2001, 1.416 for 2002, and 1.384 for 2003 and a contractual life of the option of 6 months after the option is vested for 2001, 2002 and 2003.

The Company recorded deferred compensation representing the difference between the exercise price and the deemed fair value of the Company's ordinary shares at the date of grant. Such amount is being amortized using the sum-of-digits or the straight-line method over the vesting period of the options, generally four years.

Deferred stock based compensation is as follows:

Balance as of January 1, 2003.....	\$ 277
Less amortization of deferred stock based compensation.....	(247)
Balance as of December 31, 2003.....	\$ 30

g. Amended and Restated Non-Employee Directors Stock Option Plan:

The Company adopted the 1999 Non-Employee Directors Stock Option Plan. The original allotment of shares in this plan was in the amount of 180,000 ordinary shares. The Company, with shareholder approval, has amended this allotment over the past few years as follows:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

- a. In 2001, an increase was approved bringing the plan's total allotment to 750,000 ordinary shares;
- b. In 2002, two increases were approved bringing the plan's total allotment to 1,450,000; and
- c. In 2002, two increases were approved bringing the plan's total allotment to 1,450,000.
- d. In 2003, an increase was approved bringing the plan's total allotment to 2,290,000.

Prior to August 2001, directors who were reelected at each annual meeting of shareholders were generally entitled to additional grants of 10,000 shares. However, this amount has been increased over the past few years pursuant to shareholder approvals, such that:

- a. Directors reelected at the August 22, 2001 annual meeting of shareholders were entitled to a grant of 33,750;
- b. Directors in office immediately after the extraordinary general meeting of shareholders on February 25, 2002 were granted a one-time option grant of 150,000 ordinary shares; and
- c. Directors in office immediately after the annual meeting of shareholders on November 18, 2002 were granted a one-time option grant of 50,000 ordinary shares.
- d. Directors reelected at the annual general meeting in 2003 and thereafter are entitled to an option grant of 50,000 ordinary shares.

As from the annual meeting of shareholders in 2003, new directors joining the board are entitled to an option grant of 150,000 ordinary shares.

Also, in addition to the grant of shares for her reelection as a director in August 2001, Carolyn Chin, on behalf of her activities as Chairman of the Board, received an additional grant of 221,250 ordinary shares.

Each option granted under the Non-Employee Directors Plan originally was to have become exercisable with respect to one-fourth of the number of shares covered by such option three months after the date of grant and with respect to one-third of the remaining shares subject to the option every three months thereafter; however, this changed pursuant to an amendment to the plan approved by shareholders at the August 10, 2000 annual meeting of shareholders, such that options under subsequent grants become exercisable at a rate of 1/16th of the shares every three months. Each option has an exercise price equal to the fair market value of the ordinary shares on the grant date of such option. However, certain options outstanding and unexercised at the time of the effective date of the Tender Offer Statement of July 20, 2001, as amended, were repriced in accordance with the terms of the Tender Offer Statement, as amended. Each option has a maximum term of ten years, but will terminate earlier if the optionee ceases to be a member of the Board of Directors.

During 2003, the Company granted 425,000 options to non-employee directors at a weighted average exercise price of \$0.82 per share. As of December 31, 2003, 636,249 options were vested and 1,769,850 were outstanding under the Amended and Restated 1999 Non-Employee Directors Stock Option Plan.

Due to changes in the Israeli tax code, grants to Israeli resident directors as from the annual general meeting of shareholders will be made pursuant to the Amended and Restated Israeli Share Option Plan, though the grant amounts and vesting schedule will remain in accordance with the Non-Employee Directors Plan.

NOTE 10: GEOGRAPHIC INFORMATION

The Company conducts its business on the basis of one reportable segment (see Note 1 for brief description of the Company's business). The Company has adopted Statement of Financial Accounting Standard No. 131, "Disclosures About Segments of an Enterprise and Related Information".

NOTE 11: SUBSEQUENT EVENT (Unaudited)

On May 18, 2004, the Company entered into a definitive agreement for the private placement of 5,131,580 ordinary shares of the Company at a purchase price of \$0.76 per share to existing institutional investors for gross proceeds to the Company of approximately \$3.9 million.

The investors also received five year warrants to purchase up to an additional 2,565,790 ordinary shares, with an exercise price of \$0.83 per share. In addition, the Company had granted the investors additional investment rights to purchase up to an additional 5,131,580 ordinary shares at \$0.83 per share, together with additional warrants to purchase up to an additional 2,565,790 ordinary shares with an exercise price of \$0.83 per share, for a period of one year following the effectiveness of the registration statement covering the resale of the ordinary shares underlying these rights.

The Company agreed to reduce the conversion and exercise prices of the notes and warrants issued to the investors in the November 26, 2003 transaction between those investors and the Company. The conversion price previously set at \$1.153 shall be reduced so that the initial notes in the aggregate amount of \$3,000,000 shall have a conversion price of \$0.83 and the initial warrants issued in that transaction shall have an exercise price of \$0.83 per share. The conversion price of the additional notes and exercise price of the additional warrants issuable in connection with that transaction [if and when the investors' option to loan additional funds is exercised] shall be reduced to \$0.90. In addition, the exercise period for the additional loan shall be extended for a period 18 months from the effectiveness of the registration statement (January 20, 2004) covering the resale of the ordinary shares relating to the initial loan under the November 2003 transaction.

The closing of the financing is subject to certain closing conditions, including receipt of shareholder approval of an increase in the authorized share capital of the Company and the terms of this transaction. The Company is scheduled to hold an extraordinary meeting of its shareholders on June 28, 2004.

- (40) Incorporated by reference to Exhibit 6 to Report on Form 6-K for the month of November 2003, filed December 2, 2003.
- (41) Incorporated by reference to Exhibit 7 to Report on Form 6-K for the month of November 2003, filed December 2, 2003.

THE COMPANIES LAW
A COMPANY LIMITED BY SHARES
AMENDED AND RESTATED ARTICLES OF ASSOCIATION

of

COMMTOUCH SOFTWARE LTD.

1. PRELIMINARY

1.1. Construction. In these Articles, each of the following terms shall have the respective meaning appearing next to it, if not inconsistent with the subject or context:

1.1.1. "Articles" - These Articles of Association, as amended from time to time.

1.1.2. "Board" - the board of directors appointed under these Articles.

1.1.3. "Company" - Commtouch Software Ltd.

1.1.4. "Companies Law" - The Companies Law, 5759-1999 and any regulations promulgated thereunder.

1.1.5. "General Meeting" - an Annual Meeting or a Special Meeting as defined in Article 10.2.1.

1.1.6. "New Securities" - any shares of the Company and all rights, options or warrants to purchase capital shares and securities of any type whatsoever that are, or may become, convertible into shares, except for shares, rights, options, warrants or other securities issued upon conversion of any New Securities into shares of the Company, or upon the exchange of any shares exchangeable into shares of another class.

1.1.7. "Shareholder" -

- (a) A holder of one or more of the shares of the Company; or
- (b) a person registered as such in the Register of Shareholders; or
- (c) a person who holds a share certificate.

1.1.8. "Register of Shareholders" - The Register of Shareholders pursuant to Article 13.

1.1.9. "Year and Month" - A Gregorian month or year.

1.2. Any capitalized term used but not otherwise defined in these Articles shall have the meaning ascribed to it in the Companies Law.

3. PUBLIC COMPANY

The Company is a public company as such term is defined in the companies law.

4. SHARE CAPITAL

4.1. The authorized share capital of the Company is NIS 3,750,000 divided into seventy-five million (75,000,000) Ordinary Shares of nominal value NIS 0.05 per share.

4.2. The Ordinary Shares shall have all the rights, powers and authorities associated with the shares of the Company, including the power to appoint directors, to receive notice of, and to vote in, General Meetings of the Company, and to receive dividends and any surplus upon the liquidation of the Company.

4.3. If at any time the share capital is divided into different classes of shares, then, unless the conditions of allotment of such class provide otherwise, the rights, additional rights, advantages, restrictions and conditions attached or not attached to any class, at any given time, may be modified, enhanced, added or abrogated by the Company by resolution at a meeting of the holders of the shares of such class.

5. ISSUANCE OF SECURITIES

5.1. The unissued shares of the Company shall be under the control of the Board.

5.2. The Board shall have the power to allot, issue or otherwise dispose of shares to such persons, at such times, on such terms and conditions, and either at par or less than par, at a premium, for cash or other consideration, in whole or in part, at a discount or with payment of commission, with such preferred or deferred rights, restrictions or conditions, all in accordance with the provisions of the Companies Law and as the Board shall deem fit from time to time, provided that such shares do not exceed the registered share capital of the Company. The Board of Directors shall also have the power to give any person the option to acquire from the Company any shares, either at par or less than par, at a premium, for cash or other consideration, in whole or in part, at a discount or with payment of commission, all in accordance with the provisions of the Companies Law and as the Board shall deem fit from time to time.

5.3. The Board may resolve to issue one or more series of debentures; however, such borrowing power shall be limited to actions that do not unreasonably jeopardize the Company's ability to pay its debt or to conduct its business as an entity that seeks to maximize profits.

5.4. The Company may, subject to applicable law, issue redeemable shares and redeem the same.

6. REORGANIZATION OF CAPITAL

6.1. Increase of Capital

6.1.1. The Company may, from time to time, by resolution of the Shareholders, whether or not all the shares then authorized have been issued, and whether or not all the shares issued have been called for payment, increase its authorized share capital. Any such increase shall be in such amount and shall be divided into shares of such nominal amounts, with such rights and preferences and subject to such restrictions, as such resolution shall provide.

6.1.2. Except to the extent otherwise provided in such resolution, any new shares included in the authorized share capital increased under Article 6.1.1 shall be subject to all the provisions of these Articles which are applicable to shares included in the existing share capital, without regard to class (and, if such new shares are of the same class as a class of shares included in the existing share capital, to all of the provisions that are applicable to shares of such class included in the existing share capital).

6.2. Consolidation, Subdivision, Cancellation and Reduction of Capital.

The Company may, from time to time, by resolution of the Shareholders (subject to applicable law):

6.2.1. consolidate all or any part of its issued or unissued share capital into shares of a per share nominal value that is greater than the per share nominal value of its existing shares;

6.2.2. subdivide its shares (issued or unissued) or any of them into shares of lesser nominal value than is fixed by these Articles;

6.2.3. cancel any shares that have not been issued or subscribed for, and decrease the amount of its authorized share capital by the amount of the shares so canceled, subject to any commitment (including a conditional commitment) given by the Company in respect of such shares.

6.2.4. reduce its share capital in any manner, and with and subject to any consent required by law.

6.3. With respect to any action that may result in fractional shares, the Board may settle any difficulty that may arise with regard thereto as it deems fit, and in connection with any such consolidation or other action that may result in fractional shares may, without limitation:

6.3.1. determine, as to the holder of the shares so consolidated, which issued shares shall be consolidated into a share of a larger nominal value per share;

6.3.2. allot, in contemplation of or subsequent to such consolidation or other action, shares or fractional shares sufficient to preclude or remove fractional share holdings;

6.3.3. redeem, in the case of redeemable shares and subject to the Companies Law, such shares or fractional shares sufficient to preclude or remove fractional share holdings; or

6.3.4. cause the transfer of fractional shares by certain Shareholders to other Shareholders so as most expediently to preclude or remove any fractional share holdings, and cause the transferees of such fractional shares to pay the transferors of such fractional shares the fair value thereof, and the Board is hereby authorized to act in connection with such transfer as agent for the transferors and transferees of any such fractional shares, with full power of substitution, for the purpose of implementing the provisions of this Article 6.3.

7. TRANSFER OF SHARES

7.1. Registration of Transfer

7.1.1. No transfer of shares shall be registered in the Register of Shareholders unless one of the following conditions has been met:

7.1.1.1. a proper writing or instrument of transfer (in any customary form or any other form satisfactory to the Board) signed by the transferee and the transferor, together with the share certificate(s) and such other evidence of title as the Board may reasonably require, were submitted to the Company, and the relevant provisions in these Articles to effect a transfer of shares have been fully complied with. Until the transferee has been registered in the Register of Shareholders in respect of the shares so transferred, the Company may continue to regard the transferor as the owner thereof.

7.1.1.2. The Company received a court order requiring the change in the Register of Shareholders.

7.1.1.3. The Company received proof that the legal requirements for the assignment of rights to any Shares were fulfilled.

7.1.1.4. The occurrence of a condition that is sufficient, under these Articles, to effect the change in the Register of Shareholders.

7.2. Decedent's Shares

7.2.1. In case of a share registered in the names of two or more holders, the Company may recognize the survivor(s) as the sole owner(s) thereof unless and until the provisions of Article 7.2.2 have been effectively invoked.

7.2.2. Any person becoming entitled to a share in consequence of the death of any person, upon producing evidence of the grant of probate or letters of administration or order of inheritance (or such other evidence as the Board may reasonably deem sufficient), shall be registered as a Shareholder in respect of such share, or may, subject to the regulations as to transfer herein contained, transfer such share.

7.3. Receivers and Liquidators

7.3.1. The Company may recognize any receiver, liquidator or similar official appointed to wind up, dissolve or otherwise liquidate a corporate Shareholder, and a trustee, manager, receiver, liquidator or similar official appointed in bankruptcy or in connection with the reorganization of, or similar proceeding with respect to a Shareholder or its properties, as being entitled to the shares registered in the name of such Shareholder.

7.3.2. Such receiver, liquidator or similar official appointed to wind up, dissolve or otherwise liquidate a corporate Shareholder, and such trustee, manager, receiver, liquidator or similar official appointed in bankruptcy or in connection with the reorganization of, or similar proceeding with respect to, a Shareholder or its properties, upon producing such evidence as the Board may deem sufficient as to his authority to act in such capacity or under this Article, shall with the consent of the Board (which the Board may grant or refuse in its absolute discretion) be registered as a Shareholder in respect of such shares, or may, subject to the regulations as to transfer contained in these Articles, transfer such shares.

8. LIMITATION OF LIABILITY

The liability of each Shareholder shall be limited to at least the payment of the nominal value of its shares, unless the Company issues shares for consideration that is less than the nominal value of such shares, in accordance with, and subject to, the terms and conditions set forth in Section 304 of the Companies Law.

9. AMENDMENTS TO THE ARTICLES

The Company may amend these Articles by resolution of the shareholders.

The Company shall not amend the Articles in a manner that adversely affects the rights of a shareholder without obtaining the consent of all shareholders that are adversely affected by such modification. For the avoidance of doubt, any amendment that affects all the shareholders in the same manner shall not be deemed to constitute a modification of rights associated with specific shares.

10. GENERAL MEETINGS

10.1. The Powers of the General Meeting

The following matters of the Company shall be decided in a General Meeting of Shareholders:

10.1.1. Amendment of these Articles.

10.1.2. Exercise of the powers vested in the Board in the event that the Board is unable to exercise such powers, as provided in Section 52(a) of the Companies Law.

10.1.3. Appointment and termination of the Company's auditors.

10.1.4. Approval of actions and transactions that are required pursuant to Sections 254 and 255, and 270 through 275, of the Companies Law.

10.1.5. Increase and reduction of the authorized share capital of the Company in accordance with Sections 286 and 287 of the Companies Law.

10.1.6. Approval of a merger in accordance with Section 320(a) of the Companies Law.

10.1.7. Discussion of the financial statements at an Annual Meeting (as defined below).

10.1.8. Appointment of Outside Directors in accordance with Section 239(b) of the Companies Law.

10.2. Annual Meetings and Special Meetings

10.2.1. An Annual General Meeting shall be held at least once in every calendar year (within a period of not more than 15 months after the last preceding Annual General Meeting), at such time and at such place as determined by the Board. Such Annual General Meetings shall be referred to as "Annual Meetings". Any other Shareholders meetings shall be referred to as "Special Meetings".

10.2.2. The agenda at an Annual Meeting shall include a discussion of the annual financial statements of the Company and of the report submitted by the Board that shall include explanations concerning the various events that had an influence on the financial statements.

10.3. Convening a General Meeting

10.3.1. The Board may, whenever it thinks fit, convene a Special Meeting, at such time and place as may be determined by the Board, and shall be obliged to do so upon the receipt of a written request from (i) either 2 directors or 25% of the directors then in office, (ii) a Shareholder or group of Shareholders that holds at least 5% of the issued and outstanding shares of the Company and at least 1% of the voting rights in the Company, or a Shareholder or group of Shareholders that holds at least 5% of the voting rights in the Company, as provided in Section 63 of the Companies Law.

10.3.2. Subject to the provisions of Companies Law and any regulations promulgated thereunder, a notice of a General Meeting need not be delivered to each Shareholder. A resolution may be proposed and adopted at a General Meeting even though the notice prescribed in this Article has not been given, subject to the consent of all of the Shareholders entitled to vote thereon.

10.3.3. The accidental omission to give notice of a meeting to any Shareholder or Shareholders, or the non-receipt of notice sent to such Shareholder, shall not invalidate the proceedings at such meeting.

10.4. Proceedings at a General Meeting

10.4.1. The Agenda: The agenda for a General Meeting shall be determined by the Board, and shall include (i) in the case of a Special Meeting, the matters for which the Special Meeting was convened pursuant to Section 63 of the Companies Law, and (ii) matters requested by a Shareholder or Shareholders holding not less than (1%) of the voting rights in the General Meeting, provided that such proposed matter is appropriate for discussion in a General Meeting. Only resolutions on matters that are specified in the agenda shall be adopted at such Special Meeting.

10.4.2. Quorum:

10.4.2.1. No business shall be transacted at a General Meeting unless a legal quorum is present, and no resolution may be passed unless a legal quorum is present at the time such resolution is voted upon.

10.4.2.2. In the absence of a contrary provision in these Articles or in the Companies Law, two or more Shareholders, present in person or by

proxy and holding shares conferring in the aggregate at least 25% of the outstanding voting power of the Company shall constitute a legal quorum at General Meetings.

10.4.2.3. If within half an hour from the time scheduled for a General Meeting a legal quorum is not present, the meeting shall be adjourned to the same day in the next week, at the same time and place, or to such other day and at such other time and other place as the Board may determine in a notice to the Shareholders. If within half an hour from the time scheduled for the adjourned meeting a legal quorum is not present, then any two Shareholders entitled to vote, present in person or by proxy, shall constitute a legal quorum for such adjourned meeting and shall be entitled to resolve any matters on the agenda of the meeting.

10.4.3. Chairman: The Chairman of the Board shall preside at every General Meeting of the Company and shall be appointed as the Chairman of the General Meeting. If a Chairman of the Board was not appointed, or if the Chairman of the Board is not present within 15 minutes after the time scheduled for the meeting or is unwilling to take the chair, the Shareholders present shall choose someone of their number to be the chairman of such meeting. The office of Chairman of a General Meeting shall not, by itself, entitle the holder to vote at any General Meeting nor shall it grant him a second or casting vote (without derogating, however, from the right of such Chairman to vote as a shareholder or proxy of a shareholder if, in fact, he is also a shareholder or such proxy).

10.4.4. Power to Adjourn: The Chairman of a General Meeting at which a quorum is present may, with the consent of the holders of a majority of the voting power represented in person or by proxy and voting on the question of adjournment, and shall if so directed by the meeting, adjourn the meeting from time to time and from place to place, but no business shall be transacted at any adjourned meeting except business that might lawfully have been transacted at the meeting as originally called.

10.4.5. Voting Power: Every matter submitted to the General Meeting shall be decided by a vote. Any vote in a General Meeting shall be conducted in accordance with the voting rights that each Shareholder is entitled to in accordance with the number of shares granting voting rights that are held by such Shareholder.

10.4.6. Adoption of Resolutions at General Meetings: Subject to the provisions of the Companies Law, a resolution proposed at any General Meeting shall be deemed adopted if approved by a majority of the voting shares represented at such meeting in person or by proxy. A declaration by the Chairman of the General Meeting that a resolution has been carried unanimously, or carried by a particular majority, or defeated, and an entry to that effect in the minute book of the Company shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favor of or against such resolution.

10.5. Resolutions in Writing.

A resolution in writing signed by the Shareholders holding at such time all the issued shares having the right to vote at General Meetings, or to which all such Shareholders had agreed to in writing (by letter, telegram, email, telex, facsimile or otherwise), shall have the same force, for any purpose whatsoever, as if unanimously adopted by a General Meeting duly convened and held.

10.6. Voting Rights and Proxies

10.6.1. No Shareholder shall be entitled to vote in any General Meeting (or be counted as a part of the quorum) unless he fully paid any amounts due, whether with or without any demand for payment for his shares.

10.6.2. In the absence of contrary provisions in these Articles or in any condition or term annexed to any shares of any class, each Shareholder participating in a General Meeting shall have one vote for each share giving a right to vote in a General Meeting that is held by such Shareholder.

10.6.3. If two or more persons are registered as joint holders of any share, the vote of the person first registered in the Register of Shareholders shall be accepted to the exclusion of the vote(s) of the other joint holder(s).

10.6.4. A company or other corporate body being a Shareholder of the Company may duly authorize any person to be its representative at any General Meeting or to authorize or deliver a proxy on its behalf. Any person so authorized shall be entitled to exercise on behalf of such Shareholder all the power that the latter could have exercised if it were a natural person. Upon the request of the Chairman of the meeting, written evidence of such authorization (in form acceptable to the Chairman of the meeting) shall be delivered to him.

10.6.5. Any Shareholder entitled to vote may vote either in person or by ballot, as provided in Sections 87 to 89 of the Companies Law or by proxy (and the proxy need not be a Shareholder) or, if the Shareholder is a company or other corporate body, by a representative authorized pursuant to Article 10.6.4.

10.6.6. Instrument of Appointment: An instrument appointing a proxy shall be in writing and shall be substantially in the following form:

"I _____ of _____

(Name of Shareholder) (Address of Shareholder)

being a Shareholder of Commtouch Software Ltd. hereby appoint

_____ of _____

(Name of Proxy) (Address of Proxy)

as my proxy to vote for me and on my behalf at the General Meeting of the Company to be held on the ____ day of _____, _____ and at any adjournment(s) thereof.

Signed this _____ day of _____, _____,

(Signature of Appointor)"

or in any usual or common form or in such other form as may be approved by the Board. Such proxy shall be duly signed by the appointor or such person's duly authorized attorney or, if such appointor is a company or other corporate body, under its common seal or stamp or the hand of its duly authorized agent(s) or attorney(s) in accordance with its constitutional documents.

10.6.7. The instrument appointing a proxy (and the power of attorney or other authority, if any, under which such instrument has been signed) shall either be delivered to the Company (at its principal place of business or at the offices of its registrar or transfer agent, or at such place as the Board may specify) not less than 24 hours before the time fixed for the meeting at which the person named in the instrument proposes to vote, or presented to the Chairman at such General Meeting. An instrument appointing a proxy that is not limited in time shall expire 12 months after the date of its execution. If the appointment shall be for a specified period, whether in excess of 12 months or not, the instrument shall be valid for the period stated therein.

10.6.8. A vote cast in accordance with an instrument appointing a proxy shall be valid despite the prior death or bankruptcy of the appointing Shareholder (or of his attorney-in-fact, if any, who signed such instrument), or the transfer of the share in respect of which the vote is cast, unless written notice of such matters shall have been received by the Company or by the Chairman of such General Meeting prior to such vote being cast.

10.6.9. An instrument appointing a proxy shall be deemed revoked (i) upon receipt by the Company of an instrument or written notice signed by the person who signed such instrument or by the Shareholder appointing such proxy canceling the appointment thereunder (or the authority pursuant to which such instrument was signed) or of an instrument appointing a different proxy, provided such notice of cancellation or instrument appointing a different proxy were so received at the place and within the time for delivery of the instrument revoked thereby as referred to in Article 10.6.7, or (ii) if the appointing Shareholder is present in person at the meeting for which such instrument of proxy was delivered, upon receipt by the Chairman of such meeting of written notice from such Shareholder of the revocation of such appointment, or if and when such Shareholder votes at such meeting. A vote cast in accordance with an instrument appointing a proxy shall be valid despite the revocation or purported cancellation of the appointment, or the presence in person or vote of the appointing Shareholder at a meeting for which it was rendered, unless such instrument of appointment was deemed revoked in accordance with the foregoing provisions of this Article 10.6.9 at or prior to the time such vote was cast.

11. THE BOARD OF DIRECTORS

11.1. Number of Directors

The number of Directors shall be fixed by the General Meeting by resolution of the Shareholders. Until otherwise resolved in a General Meeting, the Board shall initially consist of 10 directors.

11.2. Election and Removal of Directors

Directors shall be elected at the Annual General Meeting by the vote of the holders of a majority of the voting power represented at such meeting in person or by proxy and voting on the election of directors, and each Director shall serve, subject to Article 11.8 hereof, and with respect to a Director appointed pursuant to Article 11.4 hereof subject to such Article, until the Annual General Meeting next following the Annual General Meeting or General Meeting at which such Director was elected pursuant to this Article or Article 11.4 hereof and until his successor is elected, or until his earlier removal pursuant to this Article 11.2. The holders of a majority of the voting power represented at a General Meeting in person or by proxy and voting thereon at such meeting shall be entitled to remove any Director(s) from office, to elect Directors instead of Directors so removed or to fill any vacancy, however created (including any position to which a director was not elected), in the Board. In the case of an outside director or any other director for whom the Companies Law prescribes a different method of election or removal from that specified above, the provisions of the Companies Law shall govern.

11.3. Qualification of Directors

No person or entity shall be disqualified to serve as a director or an Alternate Director by reason of his not holding shares in the Company or by reason of his having served as a director in the past.

11.4. Continuing Directors in the Event of Vacancies

In the event of one or more vacancies in the Board of Directors, the remaining Directors may continue to act in every matter and, pending the filling of any vacancy pursuant to the provisions of Article 11.2, may appoint Directors to fill any such vacancy temporarily; provided, however, that if they number less than a majority of the number determined pursuant to Article 11.1 of these Articles, they may act only in an emergency or to fill the office of Director that has become vacant up to the minimum number or in order to call a General Meeting of the Company for the purpose of electing Directors to fill any or all vacancies, so that at least a majority of the number of Directors determined pursuant to Article 11.1 are in office as a result of such meeting.

11.5. Remuneration of Directors

A Director shall be paid remuneration by the Company for his services as a Director, to the extent such remuneration shall have been approved by a General Meeting of the Company.

11.6. Conflict of Interests

Subject to the provisions of the Companies Law, no Director shall be disqualified by virtue of his office from holding any office or relationship of profit with the Company or with any company in which the Company shall be a shareholder or have another interest, or from contracting with the Company as vendor, purchaser or otherwise, nor shall any such contract, or any contract or arrangement entered into by or on behalf of the Company in which any Director shall in any way be interested, be avoided, nor, other than as required under the Companies Law, shall any Director be liable to account to the Company for any profit arising from any such office or relationship of profit or realized from such contract or arrangement by reason only of such Director's holding that office or of the fiduciary relations thereby established, but the nature of his interest, as well as any material fact or document, must be disclosed by him at the meeting of the Board of Directors at which the contract or arrangement is first considered, if his interest then exists, or in any other case no later than the first meeting of the Board of Directors after the acquisition of his interest.

11.7. Alternate Directors

11.7.1. A Director may, by written notice to the Company given in the manner set forth in Article 11.7.2 below, appoint any individual (whether or not such person is then a member of the Board of Directors) as an alternate for himself (in these Articles referred to as an "Alternate Director"), remove such Alternate Director and appoint another Alternate Director in place of any Alternate Director appointed by him whose office has been vacated for any reason. Unless the appointing Director, by the instrument appointing an Alternate Director or by written notice to the Company, limits such appointment to a specified period of time or restricts it to a specified meeting or action of the Board of Directors, or otherwise restricts its scope, the appointment shall be for all purposes, and for a period of time, concurrent with the term of the appointing Director.

11.7.2. Any notice to the Company pursuant to Article 11.7.1 shall be given in person to, or by sending the same by mail to the attention of, the Chairman of the Board of the Company at the principal office of the Company or to such other person or place as the Board shall have determined for such purpose, and shall become effective on the date fixed therein, or upon the receipt thereof by the Company at the place specified above, whichever is later.

11.7.3. An Alternate Director shall have all the rights and obligations of a director; provided, however, that (i) an Alternate Director shall have no standing at any meeting of the Board or any Committee of the Board while the director for whom such Alternate Director was appointed is present; (ii) he may not in turn appoint an alternate for himself (unless the instrument appointing him otherwise expressly provides); and (iii) the Alternate Director is not entitled to remuneration.

11.7.4. The office of an Alternate Director shall be vacated under the circumstances, mutatis mutandis, set forth in Article 11.8, and such office shall ipso facto be vacated if the director for whom the Alternate Director was appointed ceases to be a director.

11.8. Termination of Office

Without derogating from any law, the office of a director shall automatically be vacated, ipso facto, prior the end of the term of his appointment upon the following:

11.8.1. Upon resignation, which shall become effective on the date a written notice of such resignation is delivered to the Company, or a later date specified in the notice.

11.8.2. If convicted of a felony, as provided in Section 232 of the Companies Law.

11.8.3. Pursuant to a court's decision, as provided in Section 233 of the Companies Law.

11.8.4. Upon death or when declared bankrupt.

11.8.5. If he be found lunatic or becomes of unsound mind.

11.9. No Corporate Director

11.9.1. A corporation will not be qualified to act as a director.

11.10. Chairman of the Board of Directors

The Board may from time to time elect one of its members to be Chairman of the Board, remove such Chairman from office, and appoint another in his place. The Chairman of the Board shall preside at every meeting of the Board, but if there is no such Chairman, or if at any meeting the Chairman is not present within 15 minutes after the time fixed for holding the meeting or is unwilling to act as Chairman, the Directors present shall choose someone of their number to be chairman of such meeting. The Chairman will not have any casting or additional vote by reason of his position as Chairman of the Board.

11.11. Powers of the Board and Delegation of Powers

11.11.1 The determination of the policy of the business of the Company and the supervision on the performance of the General Manager of the Company shall be vested in the Board, which may exercise all such powers and do all such acts and things as the Company is authorized to exercise and do and which are not required by law or these Articles to be done by the Company by action of its Shareholders at a General Meeting. The authority conferred on the Board by this Article shall be subject to the provisions of the Companies Law, these Articles and any resolution consistent with these Articles adopted from time to time by the Company at a General Meeting; provided, however, that no such resolution shall invalidate any prior act done by or pursuant to a decision of the Board that would have been valid if such resolution had not been adopted.

11.11.2 Subject to the provisions of the Companies Law, the Board may from time to time, by power of attorney or otherwise, appoint any person, company, firm or body of persons to be the attorney or attorneys of the Company at law or in fact for such purpose(s) and with such powers, authorities and discretions, and for such period and subject to such conditions, as it deems fit, and any such power of attorney or other appointment may contain such provisions for the protection and convenience of persons dealing with any such attorney as the Board deems fit, and may also authorize any such attorney to delegate all or any of the powers, authorities and discretions vested in him.

11.12. Proceedings of the Board

11.12.1. Meetings

11.12.1.1. The Board may meet and adjourn its meetings and otherwise regulate such meetings and proceedings in accordance with the Company's needs; provided, however, that the Board must meet at least once every 3 months.

11.12.1.2. The Chairman of the Board may convene a meeting of the Board at any time, and shall be required to convene a meeting to be held not later than 14 days following a request by any Director of the Company; provided, that in the event that a meeting is convened under the circumstances described in Section 122(d), 169 or 257 of the Companies Law, the meeting of the Board shall be convened without delay.

Notice of any such meeting shall be given by telephone or by mail, email, telex, telegram or facsimile or other form of electronic communication, a reasonable time before the meeting.

11.12.2. Failure to Deliver Notices: Despite anything to the contrary in these Articles, failure to deliver notice to a Director of any such meeting may be waived by such Director, and a meeting shall be deemed to have been duly convened despite such defective notice if such failure or defect is waived prior to action being taken at such meeting by all Directors entitled to participate and vote in such meeting to whom notice was not duly given.

11.12.3. Board Meetings by Means of Telecommunication: A meeting of the Board may be conducted by using any communication device, provided that all directors participating in such meeting can simultaneously hear each other.

11.12.4. Quorum: No business shall be transacted at a meeting of the Board unless the requisite legal quorum is present (by means provided under Articles 11.12.3) when the meeting proceeds to business. Until otherwise decided by the Board, a legal quorum at a meeting of the Board shall be constituted by the presence (by means provided under Article 11.12.4) of a majority of the number of directors then in office.

11.12.5. Exercise of Powers of the Board: A resolution proposed at any meeting of the Board shall be deemed adopted if approved by a majority of the Directors present when such resolution is put to a vote and voting thereon.

11.12.6. The Agenda: The agenda for a meeting of the Board shall be determined by the Chairman of the Board, and shall include matters determined by the Chairman of the Board, matters for which a meeting of the Board was convened pursuant to Article 11.12.1.2, and any matter requested by a director or the General Manager at least 3 days before the meeting.

11.13. Resolutions in Writing

A resolution in writing signed all the directors then in office and lawfully entitled to vote thereon, or to which all the directors have given their written consent (by letter, email, telegram, telex, facsimile or otherwise) shall be deemed to have been unanimously adopted by a meeting of the Board duly convened and held.

11.14. Audit Committee

11.14.1. The Board shall appoint an Audit Committee that shall be composed of three members of the Board. The Chairman of the Board, any director that is employed by the Company or who provides the Company with services on a regular basis, and any controlling shareholder (or a relative of a controlling shareholder) may not be members of the Audit Committee.

11.14.2. The Audit Committee shall have the duties set forth in Section 117 of the Companies Law.

11.14.3. Approval by the majority of the members of the Audit Committee shall be deemed approval of the Audit Committee.

11.15. Committees of the Board

11.15.1. Subject to the provisions of the Companies Law, the Board may delegate any or all of its powers to committees, each consisting of one or more persons who are directors, and it may from time to time revoke such delegation or alter the composition of any such committee. Any committee so formed (in these Articles referred to as a "Committee of the Board") shall, in the exercise of the powers so delegated, conform to any regulations imposed on it by the Board. The meetings and proceedings of any such Committee of the Board shall, mutatis mutandis, be governed by the provisions of these Articles that regulate the meetings of the Board. Unless otherwise expressly provided by the Board in delegating powers to a Committee of the Board, such Committee shall not be empowered to further delegate such powers.

11.15.2. The Board may revoke any resolution of any Committee of the Board; provided, however, that any such revocation shall not detract from the validity of any transaction entered into with a person that did not know of such revocation.

11.16. Validity of Acts Despite Defects

Subject to the provisions of the Companies Law, all acts done bona fide at any meeting of the Board, or of a Committee of the Board, or by any person(s) acting as Director(s), shall, even if it is subsequently discovered that there was some defect in the appointment of the participants in such meeting or any of them or any person(s) acting as aforesaid, or that they or any of them were disqualified, be as valid as if there were no such defect or disqualification.

12. GENERAL MANAGER

12.1. The Board shall from time to time appoint one or more persons, whether or not Directors, as General Manager or General Managers, and may confer upon such person(s), and from time to time modify, or revoke such title(s) and such duties and authorities as the Board may deem fit, subject to such limitations and restrictions as the Board may from time to time prescribe. Such appointment(s) may be either for a fixed term or without any limitation of time, and the Board may from time to time (subject to the provisions of the Companies Law and of any contract between any such person and the Company) fix his, her or their salaries and emoluments, remove or dismiss such persons from office and appoint another or others in their place.

12.2. Unless otherwise determined by the Board, the General Manager shall have the authority with respect to the day to day management of the Company in the ordinary course of business, in the framework of, and subject to, the policy, guidelines and instructions of the Board from time to time.

12.3. The General Manager shall have all the management and implementation authorities that are not expressly delegated in the Articles or by the Companies Law, to another organ of the Company, and will be subject to the supervision of the Board.

12.4. The General Manager may, with the consent of the Board, delegate certain of his duties to another person who is subject to his supervision.

12.5. The General Manager shall notify the Chairman of the Board of any unusual event that is material to the Company; if the office of Chairman of the Board is vacant, or the Chairman of the Board refuses or is unable to act, such notification shall be made to all the Directors then in office.

12.6. The General Manager shall periodically furnish the Board with reports in matters, times and format determined by the Board from time to time. When a notification or report of the General Manager require the performance of an action by the Board, then a Board meeting shall be convened without delay.

12.7. The remuneration payable to the General Manager for his services shall be fixed from time to time (subject to any contract between the General Manager and the Company) by the Board, and may be fixed as a regular salary, commission on dividends, profits or revenues of the Company or of any other company in which the Company has an interest, or by participation in the Company's profits, combined or separately.

13. REGISTER OF SHAREHOLDERS

13.1. The Company shall maintain a Register of Shareholders in which the following shall be recorded:

13.1.1. the name, identification card number (if any) and address of every Shareholder, as such details were provided to the Company;

13.1.2. The number of shares and the particular class of Shares owned by each Shareholder, noting the nominal value of such shares, if applicable, and in case the payment for any shares was not fully satisfied, the unpaid amount.

13.1.3. The date on which the shares were issued or transferred to any Shareholder, as the case may be.

13.1.4. If the shares were serially numbered, the Company will note next to the name of each Shareholder the serial numbers of the shares held by such Shareholder.

13.1.5. As for "Dormant Shares" (as defined in Section 308 of the Companies Law), if any, the Register of Shareholders shall state the exact number of Dormant Shares and the date on which such shares became "Dormant Shares".

13.1.6. A Shareholder holding shares as a trustee shall be recorded in the Register of Shareholder with a note of the trusteeship, and the Company shall be entitled to treat such person as the Shareholder in all respects.

14. AUDITORS

14.1. The Company shall appoint one or more certified public accountants to audit, and provide a report on, the annual financial statements of the Company (the "Auditors").

14.2. The appointment, authorities, duties, responsibilities, rights, remuneration and powers of the Auditors shall be fixed by applicable law and under these Articles. The General Meeting shall have the power to appoint the Auditors for the maximum time period provided under the Companies Law.

14.3. The Board shall cause accurate books of account to be kept in accordance with the provisions of any applicable law. Such books of account shall be kept at the principal office of the Company, or at such other place or places as the Board may deem fit, and they shall always be open to inspection by all Directors.

15. SHARE CERTIFICATES

15.1. Share certificates shall be issued under the corporate seal of the Company (or facsimile thereof) and shall bear the signature (or facsimile thereof) of two Directors, or the signatures of a Director and the secretary of the Company, specifically authorized by the Board for this purpose.

15.2. Each Shareholder shall be entitled to one numbered certificate for all the shares of any class registered in his name, and if the Board so approves, to several certificates, each for one or more of such shares. Each certificate shall specify the serial numbers of the shares represented thereby and may also specify the amount paid up thereon.

15.3. A share certificate registered in the names of two or more persons shall be delivered to the person first named in the Register of Shareholders in respect of such co-ownership.

15.4. A share certificate that has been defaced, lost or destroyed may be replaced, and the Company shall issue a new certificate to replace such defaced, lost or destroyed certificate upon payment of such fee, and upon the furnishing of such evidence of ownership and such indemnity, as the Board in its discretion deems fit.

16. REGISTERED HOLDER

Except as otherwise provided in these Articles, the Company shall be entitled to treat the registered holder of each share as the absolute owner thereof, and accordingly shall not, except as ordered by a court of competent jurisdiction or as required by statute, be obligated to recognize any equitable or other claim to, or interest in, such share on the part of any other person.

17. CALLS ON SHARES

17.1. The Board may, from time to time, as it in its discretion deems fit, make calls for payment upon Shareholders in respect of any sum that has not been paid up in respect of shares held by such Shareholder and which is not, pursuant to the terms of allotment or issuance of such shares or otherwise, payable at a fixed time. Each Shareholder shall pay the amount of every call so made upon him (and of each installment thereof if the same is payable in installments), to the person(s) and at the time(s) designated by the Board, as any such time(s) may subsequently be extended or such person(s) or place(s) changed. Unless otherwise stipulated in the resolution of the Board (and in the notice referred to below), each payment in response to a call shall be deemed to constitute a pro rata payment on account of all the shares of the Shareholder making payment in respect of which such call was made.

17.2. Notice of any call for payment by a Shareholder shall be given in writing to such Shareholder not less than 14 days prior to the time of payment fixed in such notice, and shall specify the time and place of payment, and the person to whom such payment is to be made. Prior to the time for any such payment fixed in a notice of a call given to a member, the Board may in its absolute discretion, by notice in writing to such Shareholder, revoke such call in whole or in part, extend the time fixed for payment of such call or designate a different place of payment or person to whom payment is to be made. In the event of a call payable in installments, only one notice thereof need be given.

17.3. If pursuant to the terms of allotment or issuance of a share, or otherwise, an amount is made payable at a fixed time (whether on account of such share or by way of premium), such amount shall be payable at such time as if it were payable by virtue of a call made by the Board of Directors and for which notice was given in accordance with this Article, and the provisions of these Articles with regard to calls (and the non-payment thereof) shall be applicable to such amount (and the non-payment thereof).

17.4. Joint holders of a share shall be jointly and severally liable to pay all calls for payment in respect of such share and all interest payable thereon.

17.5. Any amount called for payment that is not paid when due shall bear interest from the date fixed for payment until actual payment, at such rate (not exceeding the legal rate under any applicable law) and payable at such time(s) as the Board may prescribe. The Board may waive any payment of such interest under this Article.

17.6. With the consent of the Board, any Shareholder may pay to the Company any amount not yet payable in respect of his shares, and the Board may approve the payment by the Company of interest on any such amount until the same would be payable if it had not been paid in advance, at such rate and time(s) as may be approved by the Board. The Board may at any time cause the Company to repay all or any part of the money so advanced, without premium or penalty. Nothing in this Article shall derogate from the right of the Board to make any call for payment before or after receipt by the Company of any such advance.

18. FORFEITURE AND SURRENDER

18.1. If any Shareholder fails to pay an amount payable by virtue of a call, or interest thereon as provided for in accordance with these Articles, on or before the day fixed for payment of the same, the Board may at any time after the day fixed for such payment, so long as such amount or any portion thereof remains unpaid, forfeit all or any of the shares in respect of which such payment was called for. All expenses incurred by the Company in attempting to collect any such amount or interest thereon, including without limitation attorney's fees and costs of legal proceedings, shall be added to, and shall for all purposes (including the accrual of interest thereon) constitute a part of, the amount payable to the Company in respect of such call.

18.2. Upon the adoption of a resolution as to the forfeiture of a Shareholder's shares, the Board shall cause notice thereof to be given to such Shareholder, which notice shall state that, in the event of the failure to pay the entire amount so payable by a date specified in the notice (which date shall be not less than 14 days after the date such notice is given and which may be extended by the Board), such shares shall ipso facto be forfeited; provided, however that prior to such date the Board may nullify such resolution of forfeiture, but no such nullification shall estop the Board from adopting a further resolution of forfeiture in respect of the non-payment of the same amount.

18.3. Without derogating from any of the provisions of this Article 18, whenever shares are forfeited as herein provided, all dividends, if any, theretofore declared in respect thereof and not actually paid, shall be deemed to have been forfeited at the same time.

18.4. Any share forfeited or surrendered as provided herein shall become the property of the Company, and the same, subject to the provisions of these Articles, may be sold, re-allotted or otherwise disposed of as the Board deems fit. From the date of forfeiture until the date such forfeited shares are sold, re-allotted or otherwise disposed of, such forfeited shares shall be deemed "Dormant Shares" as defined in Section 308 of the Companies Law.

18.5. Any Shareholder whose shares have been forfeited or surrendered shall cease to be a Shareholder in respect of the forfeited or surrendered

shares, but shall nonetheless be liable to pay, and shall promptly pay, to the Company all calls, interest and expenses owing upon or in respect of such shares at the time of forfeiture or surrender, together with interest thereon from the time of forfeiture or surrender until actual payment at the rate prescribed in this Article 18, and the Board, in its discretion, may enforce the payment of such moneys or any part thereof. In the event of such forfeiture or surrender, the Company, by resolution of the Board, may accelerate the date(s) of payment of any or all amounts then owing to the Company by the Shareholder in question (but not yet due) in respect of all shares owned by such Shareholder, solely or jointly with another.

18.6. The Board may at any time, before any share so forfeited or surrendered shall have been sold, re-allotted or otherwise disposed of, nullify the forfeiture or surrender on such conditions as it deems fit, but no such nullification shall estop the Board from re-exercising its powers of forfeiture pursuant to this Article 18.

18.7. If pursuant to the terms of allotment or issuance of a share, or otherwise, an amount is made payable at a fixed time (whether on account of such share or by way of premium), such amount shall be payable at such time as if it were payable by virtue of a call made by the Board and for which notice was given in accordance with this Article, and the provisions of these Article shall be applicable to such amount as if a call was given at the date fixed for payment.

18.8. Except to the extent that the same may be waived or subordinated in writing, the Company shall have a first and paramount lien upon all the shares registered in the name of each Shareholder (without regard to any equitable or other claim or interest in such shares on the part of any other person), and upon the proceeds of the sale thereof, for his debts, liabilities and obligations to the Company arising from any amount payable by such Shareholder in respect of any unpaid or partly paid share, whether or not such debt, liability or obligation has matured. Such lien shall extend to all dividends from time to time declared or paid in respect of such share. Unless otherwise provided, the registration by the Company of a transfer of shares shall be deemed to be a waiver on the part of the Company of any lien existing on such shares immediately prior to such transfer.

18.9. The Board may cause the Company to sell a share subject to such a lien when the debt, liability or obligation giving rise to such lien has matured, in such manner as the Board deems fit, but no such sale shall be made unless such debt, liability or obligation has not been satisfied within 14 days after written notice of the intention to sell shall have been served on such Shareholder, his executors or administrators.

18.10. The net proceeds of any such sale, after payment of the costs thereof, shall be applied in or toward satisfaction of the debts, liabilities or obligations of such Shareholder in respect of such share (whether or not the same have matured), and any residue shall be paid to the Shareholder, his executors, administrators or assigns.

18.11. Upon any sale of a share after forfeiture or surrender or for enforcing a lien, the Board may appoint any person to execute an instrument of transfer of the share so sold and cause the purchaser's name to be entered in the Register of Shareholders in respect of such share. The purchaser shall be registered as the shareholder and shall not be bound to see to the regularity of the sale proceedings or to the application of the proceeds of such sale, and after his name has been entered in the Register of Shareholders in respect of such share, the validity of the sale shall not be impeached by any person, and the remedy of any person aggrieved by the sale shall be in damages only and against the Company exclusively.

19. INDEMNITY AND INSURANCE

19.1. Subject to the provisions of the Companies Law, the Company may enter into a contract for the insurance of its Office Holders, for actions or omissions done in capacity as Office Holders, in whole or in part, against any of the following: 19.1.1. breach of the duty of care owed to the Company or a third party;

19.1.2. breach of the fiduciary duty owed to the Company, provided that the Office Holder acted in good faith and had a reasonable grounds to believe that his action would not harm the Company's interests; and

19.1.3. monetary liability imposed on him in favor of a third party.

19.2. Subject to the provisions of the Companies Law, the Company is entitled retroactively to indemnify any Office Holder, or provide a prior undertaking to indemnify an Office Holder, where such prior undertaking is limited to categories of events that the Board believes are foreseeable and to a reasonable sum determined by the Board in the circumstances, for any of the following events:

19.2.1. monetary liability imposed on an Office Holder in favor of a third party in a judgment, including a settlement or an arbitral award confirmed by a court, for an act that such Office Holder performed by virtue of his being an Office Holder of the Company; and

19.2.2. reasonable costs of litigation, including attorney's fees, expended by an Office Holder or for which an Office Holder has been charged by a court, in an action brought against him by or on behalf of the Company or a third party, or in a criminal action in which an Office Holder was found innocent, or in a criminal offense in which an Office Holder was convicted and in which a proof of criminal intent is not required.

19.3. Subject to the provisions of the Companies Law, the Company may exculpate an Office Holder in advance from liability, or any part of liability, for damages sustained by a breach of duty of care to the Company.

20. DIVIDENDS

20.1. No dividend shall be paid otherwise than in accordance with Chapter 2 of Part 7 of the Companies Law.

20.2. Subject to the rights of Shareholders as to dividends, any dividend paid by the Company shall be allocated among the Shareholders entitled thereto, in proportion to the sums paid up or credited as paid up on account of the nominal value of their respective holdings of the shares in respect of which such dividend is being paid without taking into account the premium paid up for the shares. The amount paid up on account of a share that has not yet been called for payment or fallen due for payment and upon which the Company pays interest to the shareholder shall not be deemed, for the purposes of this Article, to be a sum paid on account of the share.

20.3. Subject to the provisions of Section 303 of the Companies Law, no dividend shall be paid otherwise than out of the Profits of the Company, as defined in Section 302(b) of the Companies Law.

20.4. No dividend shall carry interest as against the Company.

20.5. Subject to the provisions of these Articles and the Companies Law, the Company may cause any moneys, investments or other assets forming part of the undivided distributable profits of the Company to be capitalized and distributed among such of the Shareholders as would be entitled to receive the same if distributed by way of dividend and in the same proportion.

20.6. For the purpose of giving full effect to any resolution under this Article 20, the Board may settle any difficulty that may arise in regard to the distribution as it deems expedient, and in particular may issue fractional certificates, and may fix the value for distribution of any specific assets, and may determine that cash payments shall be made to any Shareholders upon the basis of the value so fixed, or that fractions of less value than the nominal value of one share may be disregarded in order to adjust the rights of all parties, and may vest any such cash, shares, debentures, debenture stock or specific assets in trustees upon such trusts for the persons entitled to the dividend or capitalized fund as may seem expedient to the Board.

20.7. Without derogating from this Article 20, the Board may give an instruction that shall prevent the distribution of a dividend to the holders of shares on which the full nominal amount has not been paid up.

20.8. The Board may retain any dividend or other moneys payable or property distributable in respect of shares on which the Company has a lien, and may apply the same in or toward satisfaction of the debts, liabilities or obligations in respect of which the lien exists.

20.9. The Board may retain any dividend or other moneys payable or property distributable in respect of a share in respect of which any person is,

under Article 7.2 or Article 7.3, entitled to become a Shareholder, or which any person is, under such Articles, entitled to transfer, until such person shall become a Shareholder in respect of such share or shall transfer the same.

21. MINUTES

21.1. Minutes of each General Meeting, of each meeting of the Board and of each meeting of a Committee of the Board shall be recorded and duly entered in books provided for that purpose, and shall be maintained by the Company at its principal office or such other place as shall be determined by the Board. Such minutes shall, in all events, set forth the name of the persons at the meeting and all resolutions adopted at the meeting.

21.2. Any such minutes, if purporting to be signed by the chairman of the meeting or by the chairman of the next succeeding meeting, shall constitute prima facie evidence of the matters recorded therein.

22. CHARITABLE CONTRIBUTIONS

To the extent permitted by the Companies Law, the Company may elect to contribute reasonable amounts to worthy causes.

23. NOTICES

23.1. Any written notice or other document may be served by the Company upon any Shareholder either personally or by sending it by prepaid mail (airmail if sent internationally) addressed to such Shareholder's address as it appears in the Register of Shareholders or such other address as he may have designated in writing for the receipt of notices and other documents, provided however that the Board may resolve that any such address must be located within the State of Israel.

23.2. Notwithstanding anything to the contrary contained herein, notice by the Company of a General Meeting which is published in at least two daily newspapers in the State of Israel within the time otherwise required for giving notice of such meeting under Article 10.3.2 hereof and containing the information required to be set forth in such notice under such Article shall be deemed to be a notice of such meeting duly given, for purposes of these Articles, to any Shareholder whose address as registered in the Register of Shareholders is located in the State of Israel.

23.3. Any written notice or other document may be served by any Shareholder upon the Company by tendering the same in person to the Secretary or the General Manager of the Company at the principal office of the Company or by sending it by prepaid registered mail (airmail if posted internationally) to the Company at its principal office. Any such notice or other document shall be deemed to have been served when actually tendered if hand delivered, or 48 hours (7 business days if sent internationally) after it has been posted (or when actually received by the addressee if sooner). Notice sent by telegram, telex, facsimile or e-mail shall be deemed to have been served when actually received by the addressee. A notice that is defectively addressed or that otherwise fails to comply with the provisions of this Article 23.3 shall nevertheless be deemed to have been served if and when actually received by the addressee.

23.4. All notices to be given to the Shareholders shall, with respect to any share to which such persons are jointly entitled, be given to whichever of such persons is named first in the Register of Shareholders, and any notice so given shall be sufficient notice to all the holders of such share.

23.5. Any Shareholder whose address is not listed in the Register of Shareholders, and who shall not have designated in writing an address for the delivery of notices, shall not be entitled to receive any notice from the Company.

23.6. Notwithstanding any other contrary provision of these Articles, the Board may fix a date, not exceeding ninety (90) days prior to the date of any General Meeting, as the date as of which shareholders entitled to notice of and to vote at such meetings shall be determined, and all persons who were holders of record of voting shares on such date shall be entitled to notice of and to vote at such meeting.

ADDENDUM 3 TO CONVERTIBLE LOAN AGREEMENT

THIS ADDENDUM 3 TO CONVERTIBLE LOAN AGREEMENT (this "Addendum") dated as of November 18, 2003 ("Effective Date"), is by and between Commtouch Software Ltd., an Israeli corporation ("Commtouch"), and the lenders signing below (each, a "Lender", and collectively, the "Lenders").

WHEREAS, Commtouch and the Lenders previously executed the Convertible Loan Agreement on January 29, 2003 and amended the agreement on March 28, 2003 and May 15, 2003 by way of Addendum 1 and Addendum 2, respectively ("Agreement"); and

WHEREAS, the parties are interested at this time in effecting a Conversion of the Loan;

NOW, THEREFORE, in consideration of the foregoing premises and the representations, warranties, covenants and agreements herein contained, and intending to be legally bound hereby, the parties agree as follows:

1. Conversion

Provided shareholders approve this transaction as set out in the proxy statement for the December 26, 2003 annual general meeting, then pursuant to Section 3 of each Promissory Note held by each of the undersigned Lenders (hereinafter "Converting Lenders"), the Converting Lenders, constituting a Lender Majority, on the Effective Date of this Addendum will be deemed to have effected a Conversion of the Loan plus interest accumulated on the Loan up to the Effective Date. This Addendum shall be deemed a Conversion Notice, as defined under the Agreement. As a result thereof, Commtouch shall (i) cause its transfer agent to issue the Ordinary Shares listed in Column A next to each Converting Lender's name on Appendix "A" hereto and (ii) issue Warrants on the accumulated interest, in accordance with the terms of the Agreement, being 100% warrant coverage, with 1/3 exercisable at each of \$0.25, \$0.33 and \$0.50, in the amounts and at the prices set forth in Column C next to each Converting Lender's name on Appendix "A".

2. Warrants Exercise

Provided shareholders approve this transaction as set out in the proxy statement for the December 26, 2003 annual general meeting, the Converting Lenders agree to exercise the number of warrants at the exercise price(s) set forth in Column E next to each Converting Lender's name on Appendix "A" hereto by providing a warrant exercise notice and payment of the exercise price to Commtouch within five (5) business days following the shareholder approval.

3. Additional Interest Payment

a) In consideration of Converting Lenders actions described in Sections 1 and 2 above, Commtouch agrees to pay additional interest equal to 7.5% of the Loan Amount by way of a share issuance based on a Conversion as described in Section 1 above. In particular, Commtouch shall (i) cause its transfer agent to issue the Ordinary Shares listed in Column B next to each Converting Lender's name on Appendix "A" hereto and (ii) issue Warrants on the aforementioned additional interest, being 100% warrant coverage, with 1/3 exercisable at each of \$0.25, \$0.33 and \$0.50, in accordance with the terms of the Agreement, in the amounts and at the prices set forth in Column D next to each Converting Lender's name on Appendix "A".

b) For certainty, the Agreement contemplated 100% warrant coverage for principal and interest. The increase in interest payable, contemplated by this Addendum will result in an increased number of shares available on conversion, and therefore an equally increased number of warrants, as set out in Column B and Column D of Appendix "A".

4. Registration Statement

- a) With the execution of this Addendum by Commtouch and a Lender Majority, Commtouch shall immediately begin preparing a registration statement covering the Ordinary Shares and Ordinary Shares underlying Warrants listed in Appendix "A" hereto plus all shares that may be issued upon future exercise of remaining Warrants held by Converting Lenders, and will work diligently to have the registration statement filed with the SEC and declared effective, all in accordance with Section 7 of the Agreement. Commtouch shall be entitled to aggregate in one registration statement the Converting Lenders' shareholding interests described above with those of investors under the agreements entered into by Commtouch with certain investors on July 10, 2003 and July 29, 2003, as well as with shareholding interests in Commtouch held by any other parties that may require registration. Once the registration statement becomes effective, the lenders may at any time resell their shares registered thereunder on the open market.
- b) The registration will register the total number of warrants lenders possess, not just those exercised pursuant to this Addendum, so investors will be free thereafter to exercise and sell at their discretion.
- c) If (a) the Registration Statement is not filed by the Company within 60 days from the date of signing by the Lender Majority, (b) the Registration Statement is not declared effective by the Commission within 120 days from the date of signing by the Lender Majority, (c) such Registration Statement is not maintained as effective by the Company for 36 months as from the date of signing by the Lender Majority, or (d) NASDAQ approval (if required) is not obtained, (each a "Registration Default"), and the reason for any one of the above occurrences is not an event of Force Majeure, then the Company will pay each Investor (pro-rata on a monthly basis), for each Registration Default then in effect, as liquidated damages and not as a penalty, during any period in which a Registration Default is occurring, 5% (five percent) per calendar month or portion thereof of (i) the aggregate principal plus interest owed to the Investor for the Securities, and (ii) the value of any outstanding Warrants (valued at the difference between the average volume weighted average price [based on a trading day from 9:30 a.m. to 4:00 p.m.] on the NASDAQ SmallCap Market as reported by Bloomberg Financial LP using the AQR function [i.e. volume weighted average quote recap] for the Ordinary Shares for each Trading Day (the "VWAP") during the applicable month and the exercise price multiplied by the number of Warrant Shares the Warrants are exercisable into, but in no case less than zero), held by such Investor until such corresponding Registration Default no longer exists ("Liquidated Damages"). Such payment of the Liquidated Damages shall be made to the Investor upon 5 Trading Days' irrevocable notice to the Investor, in cash or registered Ordinary Shares (based on the average of the closing sale prices of an Ordinary Share during the 5 Trading Days immediately following such irrevocable notice by the Company of such issuance), on the last day of each month during which a Registration Default occurred or was continuing, without demand therefor by the Investor; provided, however, that the payment of the Liquidated Damages shall not relieve the Company from its obligations to register the Securities pursuant to this Section. Provided however that in no event shall the amount of Liquidated Damages payable hereunder to any Investor exceed 45% (forty-five percent) of the Purchase Price paid by that Investor. And provided however that the Company retains the discretion whether to pay such Liquidated Damages in cash or registered Ordinary Shares. To the extent that the issuance of Ordinary Shares that are registered as Liquidated Damages is subject to the same delay, notwithstanding the above monthly requirement for payment, the Company may deliver to the Investor such shares as soon as they become registered.

5. General

- a. Terms used herein shall have the same meaning as ascribed to such terms in the Agreement.
- b. Subject to s.4(a), this Addendum and the performance hereunder is conditioned on receipt of shareholder approval at the upcoming annual meeting of December 26, 2003.
- c. Except to the extent amended hereby, the terms and conditions of the Agreement shall remain in full force and effect as between the parties hereto throughout the term of the Agreement.

IN WITNESS WHEREOF, the parties have caused this Addendum to be executed as of the Effective Date by their respective authorized representatives.

CERTIFICATIONS PURSUANT TO EXCHANGE ACT RULE 13a-14a or 15d-14a

I, Gideon Mantel, certify that:

1. I have reviewed this annual report on Form 20-F of Commtouch Software Ltd.;
2. Based on my knowledge, this annual report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this annual report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The Company's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the Company and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Evaluated the effectiveness of the Company's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation report; and
 - c) Disclosed in this report any change in the Company's internal control over financial reporting that occurred during the period covered by the annual report that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting; and
5. The Company's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Company's auditors and the audit committee of the Company's board of directors (or persons performing the equivalent function):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Company's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Company's internal control over financial reporting; and
6. The registrant's other certifying officer and I have indicated in this annual report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
