

Intelligent Systems

LETTER TO SHAREHOLDERS

**NOTICE OF MEETING AND PROXY STATEMENT
FOR THE 2019 ANNUAL MEETING OF SHAREHOLDERS**

2018 ANNUAL REPORT ON FORM 10-K

INTELLIGENT SYSTEMS CORPORATION

To Fellow Shareholders of Intelligent Systems,

Intelligent Systems enjoyed a very good year in 2018 as results were driven by the successes of our wholly owned subsidiary, CoreCard Software. For all practical purposes, Intelligent Systems *IS* CoreCard Software - the only remaining business we have in the parent company are a few minority investments in small FinTech related companies. These investments are immaterial in relation to the current performance of CoreCard.

As I write this letter in early April, I have almost *forgotten* about 2018 as we are well into 2019 and I have a good view of the first quarter that will soon end (results of which are very good in comparison to the 2018 first quarter that was also good). By the time you read this, the results will be ready to be publicly reported. Forgive me for not waxing nostalgically in this letter on the good 2018 year as we focus and work feverishly in the *now* to execute and continue with the progress made during the past year.

Considering this letter should be about 2018, I will travel back in the past to briefly talk about some of last year's achievements realizing that every shareholder may not *follow* the company closely on a quarter-to-quarter basis. However, I would encourage those of you who do not or have not read the transcripts of our past two earnings releases and conference calls to take the time to do so – I suggest you get these from our website www.intelsys.com as some of the automated voice-to-text transcriptions often modify my actual words (I suppose that's from my southern accent). The quarterly conference calls give me the opportunity to explain the business in common vernacular and I think you will learn a lot about what we are really doing (which is easier than reading the 10-Qs and 10-Ks that are long and laboriously filled and vetted with necessary legal jargon).

The big news from 2018 is we began working with a very large corporate customer to help them install a customized version of our software under license that would enable them to become a processor. They are a sophisticated and knowledgeable tech savvy customer but a lot of training was needed, which came with a heavy use of our resources to stand up with a new, hardened, high availability processing environment. Lots of code customizations were required to handle an innovative card program for our large customer *that had its own separate customer*.

As reported in our 10-K, this one customer represented 40% of our revenue in 2018 displacing in the *largest customer* category a different license customer that in 2017 represented 27% of our revenue. I point this out as a reminder that on-going our *largest customer* in any one year can easily move around.

With the growth we had in 2018, it would be easy to congratulate ourselves and pat ourselves on the back. Truth be told, we got 'lucky' when a big opportunity arose that CoreCard was uniquely positioned to handle. We did not go seek the customer (still no sales staff onboard). BUT, and this is a big but, you have to be home when opportunity knocks and be ready to deliver to get lucky – it is not just *chance*. Getting *ready* is what we have been doing year after year as we slowly but systematically

built, what we believe, is the best real-time platform for financial applications on the planet! We do not believe any other platform can handle complex loans as well as the CoreCard platform.

Over many years, a very loyal, dedicated and talented team of people have worked with our great customer base in a continuous process (it never ends – we are never ‘there’) to expand and optimize our parameter based software system. The new customer pushed us even further! We have been steadily focused on that goal and would have had a good year in 2018 without getting ‘lucky’ just based on the hard work of previous years. But getting lucky is pretty darn nice and we are happy that it moved us quicker than if we had just maintained our steady progress.

The newly increased business did create other issues for us as the CoreCard team had to work many extended hours to deliver the extraordinary growth required for our customer and I am personally indebted to the great employees and management group that make up the CoreCard team. I am sure you as a shareholder will say ‘amen’ to that.

It is reassuring to know that coming out of 2018 and going into 2019 we also have other different and new customers that we feel will also add to our continued growth. We had to slow down working with some of them in 2018 in order to meet tough, time sensitive, goals for the new licensee. In 2019, we will renew focus on some of the new business. This business is not licensed business, so you will not see the same numbers showing up quickly but over the long haul, it will be growing and recurring revenue.

In all candor, CoreCard needs more growth to be where we want to be as a processor. We are good – we are very good – but certainly not perfect and there are areas where we need to strengthen. My goal is to proclaim we are a world class processor by the end of 2019. It is possible that new business may get in the way (I know that sounds crazy but it is accurate) in that we do not have the extra time to focus on certain areas as we are getting too much demand from customer activity.

As a conclusion, business is good and moving forward at *your* company and we appreciate your continued support.

President and Chief Executive Officer

Intelligent Systems

4355 Shackleford Road
Norcross, Georgia 30093

NOTICE OF ANNUAL MEETING OF SHAREHOLDERS

YOU ARE INVITED TO attend the Annual Meeting of Shareholders of Intelligent Systems Corporation on Thursday, May 23, 2019 at 4:00 p.m., local time, at our principal executive offices located at 4355 Shackleford Road, Norcross, Georgia 30093. At the Annual Meeting, shareholders will consider and vote on:

1. The election of one director to the Board of Directors to serve until the 2022 Annual Meeting;
2. Approval, by a non-binding, advisory vote, of the compensation of our named executive officers; and
3. Other matters that may properly come before the meeting or any adjournment thereof.

Only shareholders of record at the close of business on April 5, 2019 will receive notice of and be entitled to vote at the meeting or any adjournment thereof.

A Proxy Statement and a proxy solicited by the Board of Directors are enclosed with this mailing. **To ensure a quorum for the meeting and that your vote may be recorded, please sign, date and return the proxy promptly in the enclosed business reply envelope. If you attend the meeting, you may revoke your proxy and vote in person.** Our 2018 Annual Report to Shareholders is enclosed in the same document as the Proxy Statement.

By order of the Board of Directors,

MATTHEW A. WHITE
Secretary

April 12, 2019

Please complete and return the enclosed proxy promptly so that your vote may be recorded

**PROXY STATEMENT
FOR THE ANNUAL MEETING OF SHAREHOLDERS TO BE HELD MAY 23, 2019**

We are sending this Proxy Statement to the shareholders of Intelligent Systems Corporation (the “company”) in connection with the solicitation of proxies by the Board of Directors to be voted at the 2019 Annual Meeting of Shareholders (the “Annual Meeting”) of Intelligent Systems Corporation and any adjournment thereof. The Annual Meeting will be held on May 23, 2019 at our principal executive offices located at 4355 Shackleford Road, Norcross, Georgia 30093 at 4:00 p.m. local time. We expect to mail this Proxy Statement and the accompanying proxy to shareholders on or about April 12, 2019.

VOTING

General

The securities that can be voted at the Annual Meeting consist of common stock of Intelligent Systems Corporation, \$.01 par value per share. Each share entitles its owner to one vote on each matter submitted to the shareholders. There are no cumulative voting rights. The record of shareholders entitled to vote at the Annual Meeting was taken as of the close of business on April 5, 2019. On that date, we had outstanding and entitled to vote 8,850,988 shares of common stock with each share entitled to one vote.

Quorum

A majority of the outstanding shares of our common stock must be present, in person or by proxy, to constitute a quorum at the Annual Meeting. We will treat shares subject to abstentions or broker non-votes as present at the Annual Meeting for purposes of determining a quorum. Abstentions and broker non-votes occur when a bank, broker, or other nominee of shares held in street name is not permitted to vote without instructions from the shareholder and such instructions have not been given.

Proxies

At the Annual Meeting, the persons named as proxies will vote all properly executed proxy cards delivered in connection with this solicitation and not revoked in accordance with the directions given. Shareholders should specify their choices with regard to each proposal to be voted upon on the accompanying proxy card. **If no specific instructions are given with regard to a proposal to be voted upon, then the shares represented by a signed proxy card will be voted “FOR” such proposal.** If any other matters properly come before the Annual Meeting, the persons named as proxies will vote upon such matters according to their judgment.

Some of our shareholders hold their shares through a broker, bank, custodian or other nominee, rather than directly in their own name. This is commonly referred to as holding shares in “street name.” If you hold shares in street name, these proxy materials are being forwarded to you by your broker, bank, custodian or other nominee, which is considered, with respect to such shares, to be the shareholder of record. As the beneficial owner of shares held in street name, you have the right to direct the nominee how such shares should be voted. You also have the right to attend the Annual Meeting. However, since you are not the shareholder of record, you must first obtain a signed proxy from the shareholder of record giving you the right to vote the shares at the Annual Meeting. Your broker, bank, custodian or other nominee has enclosed or provided you voting instructions for you to use in directing the nominee how to vote your shares or obtain a proxy from the nominee.

You may revoke your proxy in connection with this solicitation at any time prior to voting at the Annual Meeting by:

- giving written notice to the Secretary of the company at 4355 Shackleford Road, Norcross, Georgia 30093, or
- executing and delivering to the Secretary a later dated proxy, or
- voting in person at the Annual Meeting.

You cannot revoke your proxy or voting instructions as to any matter upon which, prior to such revocation, a vote has been cast in accordance with the authority conferred by such proxy or voting instructions.

We will pay all expenses incurred in connection with the solicitation of proxies. Such costs include charges by brokers, fiduciaries and custodians for forwarding proxy materials to beneficial owners of stock held in their names. We may solicit proxies by mail, telephone and personal contact by directors, officers, and employees of the company without additional compensation.

Dissenters’ Rights of Appraisal

There are no dissenters’ rights of appraisal with respect to the matters being acted upon at the Annual Meeting.

Security Ownership of Certain Beneficial Owners and Management

The following table contains information concerning the persons who are known to us to be beneficial owners of more than 5 percent of our common stock as of March 15, 2019, and the ownership of our common stock as of that date by each director, each executive officer named in the Summary Compensation Table and by all directors and named executive officers as a group. There are no arrangements known to us which may result in change of control of the company.

Beneficial Owner	Address	Shares Beneficially Owned ^{a, f}	Percent of Class ^a
J. Leland Strange ^b <i>Chairman of the Board, President, CEO</i>	4355 Shackelford Road Norcross, GA 30093	2,065,300	23.3%
Wallace R. Weitz & Company ^c	1125 South 103rd St. Suite 200 Omaha, NE 68124	2,270,000	25.8%
Clifford N. Burnstein ^d	729 7 th Avenue New York, NY 10019	835,445	9.5%
James C. Kieffer ^e	Five Concourse Pkwy Suite 2200 Atlanta, GA 30328	460,443	5.2%
A. Russell Chandler, III, <i>Director</i>		27,500	*
Philip H. Moise, <i>Director</i>		20,000	*
Parker H. Petit, <i>Director</i>		85,315	*
Karen J. Reynolds <i>Chief Financial Officer and Corporate Secretary</i>		20,000	*
All Directors and Named Executive Officers as a Group (5 persons)		2,218,115	24.9%

- a. Except as otherwise noted, beneficial ownership is determined on the basis of 8,797,988 shares of common stock issued and outstanding plus securities deemed outstanding pursuant to Rule 13d-3(d)(1) of the Securities Exchange Act of 1934, as amended. Pursuant to the rules of the Securities and Exchange Commission (the "SEC"), a person is deemed to beneficially own shares of the company's common stock if that person has or shares "voting power", which includes the power to vote or to direct the voting of a security, or "investment power", which includes the power to dispose of or to direct the disposition of a security. An asterisk indicates beneficial ownership of less than 1 percent. In computing the number of shares of common stock beneficially owned by a person or entity and the percentage ownership of that person or entity, we deemed to be outstanding all shares of common stock subject to options or other convertible securities held by that person or entity that are currently exercisable or that will become exercisable within 60 days of March 15, 2019. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person or entity.
- b. Includes 293,906 shares owned by Jane H. Strange, Mr. Strange's wife. Mr. Strange disclaims any beneficial interest in the shares.
- c. Based on information set forth in a Schedule 13G filed on January 11, 2019, in which Wallace R. Weitz and Company, an investment adviser registered under Section 203 of the Investment Advisers Act of 1940, reported beneficial ownership of 2,270,000 shares of common stock, of which Wallace R. Weitz and Company has the sole power to vote and to dispose.
- d. Based on information set forth in a Schedule 13D filed on August 3, 2009, in which Clifford N. Burnstein, an individual, reported beneficial ownership of 835,445 shares of common stock, of which Clifford N. Burnstein has the sole power to vote and to dispose.
- e. Based on information set forth in a Schedule 13G filed on February 14, 2019, in which James C. Kieffer, an individual, reported beneficial ownership of 460,443 shares of common stock, of which James C. Kieffer has the sole power to vote and to dispose.
- f. Includes 126,500 shares reserved for issuance to officers and directors pursuant to stock options that were exercisable at March 15, 2019 or within sixty days of such date which are deemed beneficially owned by such person pursuant to Rule 13d-3(d)(1) of the Exchange Act. The amounts reported above for Mr. Petit include 34,000 shares for shares underlying stock options exercisable at March 15, 2019 or within sixty days of such date. The amounts reported above for Mr. Strange include 67,500 shares, for shares underlying stock options exercisable at March 15, 2019 or within sixty days of such date. The amount reported for Mr. Moise includes 19,000 shares for shares underlying stock options exercisable at March 15, 2019, or within sixty days of such date. The amount reported for Mr. Chandler includes 2,500 shares for shares underlying stock options exercisable at March 15, 2019, or within sixty days of such date.

PROPOSAL 1 – THE ELECTION OF ONE DIRECTOR

Nominee

At the Annual Meeting of Shareholders, shareholders will elect one director to the Board to serve a three-year term until the 2022 Annual Meeting of Shareholders. The other directors' terms expire at the Annual Meeting of Shareholders listed in the following table for each category of directors, or upon their earlier death, resignation or removal from office. Directors are elected by a plurality of the shares present and voting at the meeting. A "plurality" means that the individuals who receive the largest number of votes cast are elected as directors up to the maximum number of directors to be chosen at the meeting. Therefore, shares that are withheld or abstain from voting and broker non-votes will have no effect on the outcome of the vote. Unless contrary instructions are given, the persons named as proxies will vote the shares represented by a signed proxy card "FOR" the nominee.

If the nominee withdraws for any reason or is not able to continue to serve as a director, the proxy will be voted for another person designated by the Board as substitute nominee, but in no event will the proxy be voted for more than one nominee. The Board has no reason to believe that the nominee will not serve if elected.

The Board has nominated the person named in the following table to serve as a director of the company. The nominee and other directors gave us the following information concerning their current age, other directorships, positions with the company, principal employment and shares of our common stock beneficially owned as of March 1, 2018.

THE BOARD OF DIRECTORS RECOMMENDS THAT SHAREHOLDERS VOTE "FOR" PROPOSAL 1 TO ELECT ONE NOMINEE TO SERVE AS DIRECTOR OF THE COMPANY.

Name	Age	Position / Principal Occupation
<i>Current director and nominee to serve until the 2022 Annual Meeting</i>		
Philip H. Moise ^{1&2}	69	Director, Retired Executive Vice President and General Counsel of Immucor, Inc.
<i>Incumbent director elected to serve until the 2020 Annual Meeting</i>		
A. Russell Chandler, III ^{1&2}	74	Director, Retired, Chairman of Whitehall Group, Ltd.
Parker H. Petit ^{1&2}	79	President of The Petit Group
<i>Incumbent directors elected to serve until the 2020 Annual Meeting</i>		
J. Leland Strange	77	Director, Chairman of the Board, President and Chief Executive Officer

1. Audit Committee
2. Compensation Committee

A. Russell Chandler, III, has served as a director since 2017. Mr. Chandler has served as a director of Miller Industries, Inc., a publicly traded manufacturer of towing and recovery equipment, since April 1994. He is founder and Chairman of Whitehall Group Ltd., a private investment firm based in Atlanta, Georgia. Mr. Chandler served as Chairman of Precyse Technologies Inc. in 2010 and as its Chief Executive Officer through May 2013. Mr. Chandler served as Chairman of Datapath, Inc., a company that built mobile communications trailers for military applications, from October 2004 until June 2006 and he served as the Mayor of the Olympic Village for the Atlanta Committee for the Olympic Games from 1990 through August 1996. From 1987 to 1993, he served as Chairman of United Plastic Films, Inc., a manufacturer and distributor of plastic bags. He founded Qualicare, Inc., a hospital management company, in 1972 and served as its President and Chief Executive Officer until its sale in 1983. The Board considered Mr. Chandler's extensive experience as an executive and long-term tenure as a member of the board of directors of a publicly traded company, as well as his operational and strategic insight in determining that he should serve as a director of the company. The Board has determined that Mr. Chandler qualifies as an independent director under the applicable rules of NYSE American.

Philip H. Moise has served as a director since 2013. He is being nominated for re-election to the Board for a three year term ending in 2022. Mr. Moise served as Executive Vice President, General Counsel and Secretary of Immucor, Inc. from 2007 until 2012. Immucor manufactures and sells instruments and reagents used to classify components of human blood prior to blood therapies and transfusions. Previously a publicly-held company, Immucor was acquired and taken private in 2011. Before joining Immucor, Mr. Moise was in the private practice of law for almost 30 years, where he represented public and private companies in the technology and life sciences industries. He represented Intelligent Systems for approximately 25 years before joining Immucor in 2007. The Board

considered Mr. Moise's familiarity with the company's business and history; his business experience as an executive with a publicly traded company; his extensive legal background and experience in corporate transactions and corporate governance; and his familiarity with board and regulatory matters impacting publicly traded companies in determining that he should serve as a director of the company. The Board has determined that Mr. Moise qualifies as an independent director under the applicable rules of NYSE American.

Parker (Pete) H. Petit has served as a director since 1996. Mr. Petit is the President of The Petit Group, a private investment company. Mr. Petit was previously the CEO of MiMedx Group, Inc., an integrated developer, manufacturer and marketer of bio-material based products. Mr. Petit served as Chairman of the Board and Chief Executive Officer of Matria Healthcare, Inc., a comprehensive disease management services company from 1996 to 2008. The Board considered Mr. Petit's extensive experience as a successful entrepreneur and as an executive and member of the board of directors of several publicly traded technology and healthcare companies, as well as his familiarity with the company since 1996 in determining that he should serve as a director of the company. The Board has determined that Mr. Petit is an independent director under the applicable rules of NYSE American.

J. Leland Strange has served as our President since 1983 and our Chief Executive Officer and Chairman of the Board since 1985. The Board considered Mr. Strange's many years of experience as the company's CEO, his familiarity with the industries and customers which our operating companies serve, and his past experience on several boards of directors and audit and compensation committees of other publicly traded companies in determining that he should serve as a director of the company.

There are no family relationships among any of the company's directors or executive officers.

There have been no events under any bankruptcy act, no criminal proceedings and no judgments or injunctions material to an evaluation of the ability and integrity of any director, executive officer or control person of the company during the past ten years. There are no proceedings to which any director, officer, affiliate, any owner of record or beneficially of more than 5 percent of our common stock, or any security holder of the company is an adverse party to the company or has a material interest adverse to the company.

Three of the directors and all of the members of the Audit Committee are independent, as such term is defined in the listing standards of the NYSE American and the rules of the SEC. The Audit Committee meets the composition requirements of NYSE American's listing standards for Small Business Issuers (as defined by the rules of NYSE American).

Board Leadership Structure and Role in Risk Oversight

The Chief Executive Officer serves as Chairman of the Board of Directors of the company. Given the small size and limited geographic and industry scope of the company's operations, the company believes that the leadership structure of the Board, consisting of four directors of which three are independent, is appropriate. There is no lead independent director because there has been no need for such a role based on the continuity resulting from the tenure of the directors and the small size of the Board. Given the character, size and limited scope of the company's operations and the stability and long tenure of its workforce and management team, there is limited exposure to external risks other than general business, product and market risks. The company has limited, if any, exposure related to financial instruments, environmental issues, off balance sheet entities and such external risks. The Audit Committee, which consists of the independent directors, provides risk oversight as part of the company's internal controls process and regularly reviews reports from management and external auditors on risk analysis and tests of the design and effectiveness of the company's internal controls. The Board considered and has determined that risks arising from its compensation policies and practices are not reasonably likely to have a material adverse effect on the company. This determination was based on the limited nature of the company's compensation program.

Meetings and Committees of the Board of Directors

The Board met four times during the year ended December 31, 2018 and acted by unanimous consent on one occasion. The Board has established an Audit Committee and a Compensation Committee but has no nominating committee. The Audit Committee of the Board met four times in 2018. During 2018, the Audit Committee consisted of Mr. Chandler (chair) and Messrs. Petit and Moise. In 2018, the Audit Committee appointed the company's independent auditor to review its report on the 2017 audit and the 2018 quarterly reviews, and carried out a number of other responsibilities, as outlined in the Audit Committee Charter.

All members of the Audit Committee currently meet the applicable independence and qualifications standards of the NYSE American. The Board has determined that Mr. Petit is a financial expert as defined by the rules of the SEC, and is financially sophisticated as

defined in the listing standards of NYSE American. The Board based this determination, in part, on Mr. Petit's experience in actively supervising senior financial and accounting personnel and in overseeing the preparation of financial statements as the chief executive officer and chairman of publicly-traded companies.

The Board has a Compensation Committee consisting of three independent directors, Messrs. Chandler, Moise (chair) and Petit. The Compensation Committee met once in 2018. The Compensation Committee reviews, makes recommendations and approves the appropriate compensation level for the officers of the company and any changes in the company's various benefit plans covering executive officers or directors as well as administering the company's option plans. The Compensation Committee does not have a charter. Neither the Compensation Committee nor management has engaged a compensation consultant to provide advice or recommendations on the form or amount of executive or director compensation. From time to time, the Compensation Committee has sought input from publicly available data compiled by executive officers of the company relating to compensation paid to executive officers and directors in similar size, publicly traded companies in the same geographic area as the company is located. The Compensation Committee has also solicited input from the CEO with respect to compensation of non-CEO executive officers.

In 2018, each director attended all meetings of the Board and Committee meetings on which he or she served, with the exception of Mr. Petit, who attended 75% of the Board and 75% of the Committee meetings.

The company does not currently have a standing nominating committee. Please see "Nominations Process" for information regarding the company's policies and procedures for director nominations.

Executive Officers

The following information is provided about our non-director executive officer:

Name	Age	Position / Principal Occupation
Matthew A. White	37	Chief Financial Officer and Secretary

Matthew A. White was elected to succeed Karen J. Reynolds following the resignation of Ms. Reynolds on January 22, 2019, Matthew A. White was elected to succeed Ms. Reynolds as Chief Financial Officer and Corporate Secretary. Mr. White was previously serving as VP Finance and CFO of CoreCard Software, the main operating subsidiary of Intelligent Systems and he will continue to serve in that role. Prior to joining CoreCard Software Mr. White held various accounting and financial reporting positions at Humana and, most recently, Equifax. Prior to that he was a Senior Manager in the audit practice at Deloitte and is a licensed CPA.

The Board of Directors elects the executive officers to serve until they are removed, replaced or resign.

Executive Compensation

Summary Compensation Table

Name and Principal Position	Year	Salary \$	Bonus \$	Option Awards \$	Other Annual Compensation \$	Total \$
J. Leland Strange <i>President & Chief Executive Officer</i>	2018	300,000	245,000	--	4,125	549,125
	2017	300,000	--	--	4,050	304,050
Karen J. Reynolds ¹ <i>Chief Financial Officer & Secretary</i>	2018	180,000	--	--	2,181	182,181
	2017	180,000	--	--	2,700	182,700

1. Ms. Reynolds was appointed CFO and Secretary on June 22, 2016. She resigned on January 22, 2019.

The table above sets forth information regarding compensation awarded to, earned by or paid to the company's CEO and the company's most highly compensated person serving as an executive officer during the fiscal year other than the CEO (the "Named Executive Officers"). The Compensation Committee endeavors to provide compensation arrangements that are reasonable given the company's size, the nature of its business and the executive's duties; align pay with creating shareholder value; minimize risky behavior; and reward the executive for his/her contribution to achieving our business goals. Given the nature of our business, the small number of executives and the significant ownership held by Mr. Strange, the Compensation Committee believes that a straight-forward compensation plan that is economical to administer and that consists of a reasonable base salary, as well as occasional bonuses and option grants, is appropriate for the company. None of the Named Executive Officers has an employment agreement with the company and the company does not have any corporate non-equity incentive plans or nonqualified deferred compensation plans. From time to time, officers may be awarded bonuses to recognize achievement of corporate or subsidiary goals or other accomplishments. Mr. Strange was awarded a bonus in 2018 in recognition of the growth of the company in 2018. No bonuses were awarded in 2017. No options were re-priced in the two year period ended December 31, 2018. All Other Annual Compensation shown above includes matching contributions by the company to the respective accounts of the executive officers pursuant to the terms of our Tax-Deferred Savings and Protection Plan (the "401(k) Plan"). Such amounts are fully vested. It is our policy to provide executives with the same benefits provided to other employees with respect to medical, dental, life insurance and 401(k) plans.

Outstanding Equity Awards at Fiscal Year End

Option Awards

Name	Number of Securities Underlying Unexercised Options		Option Exercise Price	Option Expiration Date
	Exercisable (#)	Unexercisable (#)		
J. Leland Strange	22,500 ¹	0	\$1.72	02/28/2021
	45,000 ²	0	\$1.52	08/01/2021
Karen J. Reynolds	--	10,000 ³	\$3.89	08/03/2026

1. Stock options were issued on March 1, 2011 and vested in one third increments on the first, second and third anniversaries of the grant date.
2. Stock options were issued on August 2, 2011 and vested in one third increments on the first, second and third anniversaries of the grant date.
3. Stock options were issued on August 4, 2016 and vest in one third increments on the first, second and third anniversaries of the grant date.

The company does not have any Stock Award Plans and does not have any plans for executive officers that provide for the payment of retirement benefits.

Securities Authorized for Issuance Under Equity Compensation Plans

The following table gives information as of December 31, 2018 about the company's common stock that may be issued under the Non-Employee Directors' Stock Option Plan, the 2011 Non-Employee Directors' Stock Option Plan, the 2003 Stock Incentive Plan, as amended in 2011, and the 2015 Stock Incentive Plan. All plans were approved by shareholders except the Non-Employees Directors' Stock Option Plan.

Plan category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights	(c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders ¹	199,500	\$ 2.38	805,000
Equity compensation plans not approved by security holders ²	8,000	\$ 0.94	0
Total	207,500	\$ 2.33	805,000

1. Information pertains to the 2003 Stock Incentive Plan, the 2011 Non-Employee Directors' Stock Option Plan and the 2015 Stock Incentive Plan.
2. Information pertains to the Non-Employee Directors' Stock Option Plan.

Director Compensation

The table below sets forth all compensation earned by non-executive directors in the year ended December 31, 2018. The company does not have a stock award plan or non-equity incentive plan for directors. The company has a Non-Employee Directors' Stock Option Plan which expired in 2010. It was replaced by the 2011 Non-Employee Directors' Stock Option Plan, approved by shareholders in 2011.

Name	Fees Earned or Paid in Cash \$	Option Awards ¹ \$	Total \$
A. Russell Chandler, III	16,000	19,457	35,457
Philip H. Moise	16,000	19,457	35,457
Parker H. Petit	10,000	19,457	29,457

1. Messrs. Moise, Chandler and Petit, were awarded 4,000 stock options at fair market value on the date of grant pursuant to the terms of the 2011 Non-Employee Directors' Stock Option Plan. The amount reported is the aggregate grant date fair value computed in accordance with FASB ASC Topic 718. At December 31, 2018, Mr. Chandler has an aggregate of 9,000 stock options outstanding of which 2,500 are fully vested; Mr. Petit has an aggregate of 44,000 stock options outstanding, of which 38,000 are exercisable; and Mr. Moise has a total of 25,000 options, 19,000 of which are exercisable.

All non-employee directors have the same compensation plan. Non-employee directors earn \$8,000 per year plus a fee of \$2,000 per meeting of the Board of Directors. There is no additional compensation for serving on a committee of the Board of Directors. Total cash compensation for annual board service is capped at \$16,000 annually. Effective January 1, 1992, the company adopted the Outside Directors' Retirement Plan which provided for each non-employee director, upon resignation from the Board after reaching the age of 65, to receive a lump sum cash payment equal to \$5,000 for each full year of service as a director of the company (and its predecessors and successors) up to \$50,000. Effective March 1, 2011, the company terminated the Outside Directors' Retirement Plan and provided that the outside directors then serving would receive the retirement benefits to which they were entitled under the plan before it was terminated. At December 31, 2018 and 2017, we have accrued \$50,000 for future payments under the Outside Directors' Retirement Plan. Effective August 22, 2000, the company adopted a Non-Employee Directors' Stock Option Plan which provided for an initial grant to each director of 5,000 options to purchase common stock of the company and annual grants of 4,000 options on the date of each subsequent Annual Meeting. Options are granted at fair market value on the date of grant. The Non-Employee Directors' Stock Option Plan has expired and was replaced by the 2011 Non-Employee Directors' Stock Option Plan, the terms of which are identical in all material respects to the expired plan and which was approved by shareholders in 2011. In 2018, three directors received a grant of 4,000 options each on May 24, 2018, the date of the Annual Meeting of Shareholders.

Audit Committee Report

The Audit Committee Charter, which is reviewed annually, includes organization and membership requirements, a statement of policy and the Committee's authority and responsibilities.

Management is responsible for our company's internal controls and the financial reporting process. The independent auditors are responsible for performing an independent audit of the company's consolidated financial statements in accordance with auditing standards of the Public Company Accounting Oversight Board (United States) ("PCAOB") and for issuing a report thereon. As outlined in more detail in the Audit Committee Charter, the Audit Committee's responsibility is generally to approve all services provided by and compensation paid to the independent auditors; review the adequacy of the company's internal and disclosure controls and risk management practices; review and monitor the annual audit of the financial statements including the financial statements produced and notes thereto; review SEC filings containing the company's financial statements; regularly meet with the independent auditors and management in separate sessions; and authorize investigations into any matter within the scope of their responsibilities. During fiscal year 2018 and through March 15, 2019, among its other activities, the Audit Committee:

- engaged the independent auditors and established their compensation;
- reviewed and discussed with management and the independent auditors the audited financial statements of the company as of December 31, 2018 and 2017 and for the years then ended;
- discussed with the independent auditors their reviews of the quarterly unaudited financial statements of the company for fiscal 2018;
- discussed with the independent auditors the matters required to be discussed by PCAOB standards (SAS No.'s 61, 89 and 90); and
- received from the independent auditors the written disclosures and written affirmation of their independence required by PCAOB Rule 3526 and discussed with the auditors the firm's independence.

Based upon the reviews and discussions summarized above, the Audit Committee recommended to the Board (and the Board has approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2018 for filing with the Securities and Exchange Commission.

AUDIT COMMITTEE

A. Russell Chandler, III (Chair)
Philip H. Moise
Parker H. Petit

Nominations Process

The Board has not appointed a standing nominating committee or adopted a formal nominating committee charter because the Board has determined that due to the size, make-up, independence, long tenure and relatively low turnover of the current Board, there would be limited benefit to the company or its shareholders to do so. Currently, A. Russell Chandler, III, Parker H. Petit and Philip H. Moise, all of whom meet the applicable NYSE American independence requirements, participate in the consideration of director nominees. The same individuals also nominate the officers of the company for election by the Board.

The Board has not previously formed a policy with respect to consideration of candidates nominated by shareholders since there have been no such nominations. However, it is the Board's intent to consider any security holder nominees that may be properly and timely put forth in the future. The Board has not identified any specific, minimum qualifications or skills that it believes must be met by a nominee for director. The company does not have a specific policy with respect to diversity in identifying nominees for director. In considering nominations for the 2019 Annual Meeting, the Board reviewed the appropriate size of the Board and the skills and characteristics of directors in the context of the current make-up, background and experience of the Board and the requirements and needs of the company in the foreseeable future. Security holders wishing to nominate a candidate for consideration at the Annual Meeting of Shareholders in 2020 should submit the nominee's name, affiliation and other pertinent information along with a statement as to why such person should be considered for nomination. Such nominations should be addressed to the Board in care of the Secretary of the company and be received no later than 14 days before the date of the Annual Meeting of Shareholders. The Board will evaluate any such nominees in a manner similar to that for all director nominees.

Communication Between Security Holders and the Board of Directors

Security holders wishing to communicate with members of the Board should send a letter to the Secretary of the company with instructions as to which director(s) is to receive the communication. The Secretary will forward the written communication to each member of the Board identified by the security holder or, if no individual director is identified, to all members of the Board. The company has not in the past required members of the Board to attend each Annual Meeting of Shareholders because the formal meetings have been attended by very few shareholders and have generally been very brief and procedural in nature. The Board will continue to monitor shareholder interest and attendance at future meetings and reevaluate this policy as appropriate.

PROPOSAL 2 – TO APPROVE, BY A NON-BINDING, ADVISORY VOTE, THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

We are asking our shareholders to provide advisory approval of the compensation of our Named Executive Officers, as described in the Executive Compensation section of this Proxy Statement. While this vote is advisory and non-binding on the company, it will provide information to our Compensation Committee regarding investor sentiment about our executive compensation philosophies, policies and practices which the Compensation Committee will be able to consider for the remainder of 2019 and beyond. The compensation of our Named Executive Officers and our compensation philosophies and practices are described in the Executive Compensation discussion and accompanying tables.

The Compensation Committee endeavors to provide compensation arrangements that are reasonable given the company's size, the nature of its business and the executive's duties and that align pay with creating shareholder value, minimize risky behavior, and reward the executive for his/her contribution to achieving our business goals. Given the nature of our business, the small number of our executives, and the significant ownership held by Mr. Strange, the Compensation Committee believes that a straight-forward compensation plan that is economical to administer and that consists of a reasonable base salary and option grants, as well as an occasional bonus, is appropriate for the company.

Neither the approval nor the disapproval of this proposal will be binding on us or the Board or will be construed as overruling decisions by us or the Board.

THE BOARD OF DIRECTORS RECOMMENDS THAT SHAREHOLDERS VOTE "FOR" PROPOSAL 2 APPROVING THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS.

CODE OF ETHICS

The company has adopted a Code of Ethics that applies to all directors, officers, and employees. The Code of Ethics is posted on our website at www.intelsys.com. The company discloses on its website, within the time required by the rules of the SEC, any waivers of, or amendments to, the Code of Ethics for the benefit of an executive officer.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, and regulations of the Securities and Exchange Commission thereunder require our executive officers and directors and persons who own more than ten percent of our common stock, as well as certain affiliates of these persons, to file initial reports of ownership of our common stock and changes in such ownership with the Securities and Exchange Commission. The Securities and Exchange Commission also requires executive officers, directors and persons owning more than ten percent of our common stock to furnish us with copies of all Section 16(a) forms they file. Based solely on our review of the copies of such forms received by us, we believe that, during the fiscal year ended December 31, 2018, the executive officers, directors, and persons owning more than ten percent of our common stock and affiliates of these persons have complied with all applicable filing requirements in a timely manner.

INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

Nichols, Cauley & Associates, LLC (“Nichols Cauley”) acted as our independent registered public accounting firm for the fiscal years ended December 31, 2018 and 2017. We expect that representatives of Nichols Cauley will be present at the Annual Meeting. They will have the opportunity to make a statement if they desire to do so and to respond to appropriate questions. The Audit Committee has not yet selected auditors for the audit for the fiscal year 2019 because historically this decision is made in the second half of the year. The following is a summary of fees and expenses billed to the company by Nichols Cauley for services during 2018 and 2017:

Audit Fees - We were billed aggregate fees of \$83,000 and \$84,000 for review and audit services by Nichols Cauley in the years ended December 31, 2018 and 2017, respectively.

All Other Fees - We were billed fees of \$27,000 and \$33,000 in other fees by Nichols Cauley in the years ended December 31, 2018 and 2017, respectively. Such fees were for services provided to a subsidiary of the company related to SSAE-18 Type II reports for the subsidiary’s processing services.

It is the policy of the Audit Committee to approve in advance, either verbally or in writing, all audit services and permitted non-audit services provided to the company by the independent accountants. All such services were pre-approved by the Audit Committee in the two years ended December 31, 2018.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The lease on our headquarters and primary facility at 4355 Shackelford Road, Norcross, Georgia is held by ISC Properties, LLC, an entity controlled by our Chairman and Chief Executive Officer, J. Leland Strange. Mr. Strange holds a 100% ownership interest in ISC Properties, LLC. In both years ended December 31, 2018 and 2017, we paid \$210,000 in rent to ISC Properties, LLC, which the company believes to be market rate.

SHAREHOLDERS’ PROPOSALS FOR THE ANNUAL MEETING IN 2020

Shareholders who wish to submit a proposal for inclusion in our proxy statement for the 2020 Annual Meeting of Shareholders must submit such proposals so that they are received by the company no later than December 14, 2019. Such proposals must comply with Exchange Act Rule 14a-8 and all other applicable proxy rules and requirements contained in our Bylaws relating to shareholder proposals to be included in our proxy materials. Shareholders intending to present proposals at the Annual Meeting of Shareholders in 2020 but who do not wish to submit the proposal for inclusion in our proxy statement pursuant to Rule 14a-8 should submit these proposals to the Secretary of the company by certified mail, return receipt requested, at our offices in Norcross, Georgia on or before December 16, 2019. Our bylaws contain an advance notice provision that states that, among other things, in order for business to be brought properly before an annual meeting of shareholders by a shareholder, the shareholder must have given timely notice of the business in writing to the Secretary of the company. To be timely under the Bylaws, a shareholder’s notice must be received at our principal offices by December 16, 2019.

OTHER MATTERS WHICH MAY COME BEFORE THE MEETING

The Board is not aware of any matter other than those stated above that are to be brought before the meeting. However, if any other matter should be presented for consideration and voting, the persons named in the enclosed form of proxy intend to vote the proxy in accordance with their judgment of what is in the best interest of the company.

ADDITIONAL INFORMATION

Any record or beneficial owner of our common stock as of April 5, 2019 may request a copy of our Annual Report on Form 10-K filed with the Securities and Exchange Commission for the fiscal year ended December 31, 2018, including financial statements, schedules and exhibits. Shareholders may also view and download a free copy of our Annual Report on Form 10-K from our web site at www.intelsys.com. Any request for the Form 10-K should be in writing addressed to: Matthew A. White, Intelligent Systems Corporation, 4355 Shackleford Road, Norcross, Georgia 30093. We will provide copies of any exhibits to the Form 10-K upon request and upon the payment of our reasonable expenses in furnishing such exhibits.

IMPORTANT NOTICE CONCERNING THE AVAILABILITY OF PROXY MATERIALS

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number: **(770) 381-2900**

Securities registered pursuant to Section 12(b) of the Act:

Title of each class
Common Stock, \$.01 par value

Name of each exchange on which registered
NYSE American

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer" "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use to the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the registrant's common stock held by non-affiliates on June 30, 2018 was \$38,641,089 (computed using the closing price of the common stock on June 30, 2018 as reported by the NYSE American).

As of February 28, 2019, 8,850,988 shares of common stock of the registrant were outstanding.

DOCUMENTS INCORPORATED BY REFERENCE: Portions of the registrant's Proxy Statement for the Annual Meeting of Shareholders to be held May 23, 2019 are incorporated by reference in Part III hereof.

Forward-Looking Statements

In addition to historical information, this Form 10-K may contain forward-looking statements relating to Intelligent Systems Corporation ("ISC"). All statements, trend analyses and other information contained in the following discussion relative to markets for our products and trends in revenue, gross margins and anticipated expense levels, as well as other statements including words such as "may", "will", "anticipate", "believe", "intend", "plan", "estimate", "expect", "strategy" and "likely", and other similar expressions constitute forward-looking statements. Prospective investors and current shareholders are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements. A number of the factors that we believe could impact our future operations are discussed in Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 7 of this Form 10-K. ISC undertakes no obligation to update or revise its forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes in future operating results except as required by law.

ITEM 1. BUSINESS

Overview

Intelligent Systems Corporation, a Georgia corporation, and its predecessor companies have operated since 1973 and its securities have been publicly traded since 1981. In this report, sometimes we use the terms "company", "us", "ours", "we", "Registrant" and similar words to refer to Intelligent Systems Corporation and subsidiaries. Our executive offices are located at 4355 Shackelford Road, Norcross, Georgia 30093 and our telephone number is (770) 381-2900. Our Internet address is www.intelsys.com. We publish our Securities and Exchange Commission ("SEC") reports on our website as soon as reasonably practicable after we file them with or furnish them to the SEC, and shareholders may access and download these reports free of charge.

We are primarily engaged in the business of providing technology solutions and processing services to the financial technology and services market, commonly referred to as the FinTech industry. Our FinTech operations are conducted through our wholly owned CoreCard Software, Inc. ("CoreCard") subsidiary and its affiliate companies in Romania and India, as well as the corporate office which provides significant administrative, human resources and executive management support to CoreCard. We also have two other wholly owned subsidiaries, CoreCard SRL in Romania and ISC Software in India, that perform software development and testing as well as processing operations support for CoreCard.

For further information about trends and risks likely to impact our business, please refer to Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 7 of this Form 10-K.

CoreCard Software, Inc. – We conduct our business primarily through CoreCard. CoreCard SRL and ISC Software in Romania and India, respectively, perform software development, software testing, business analysis, operations and support for CoreCard but have not to date sold products or services directly to third parties. Accordingly, this discussion describes the CoreCard business involving the three entities as a single business unit. CoreCard designs, develops, and markets a comprehensive suite of software solutions to accounts receivable businesses, financial institutions, retailers and processors to manage their credit and debit cards, prepaid cards, private label cards, fleet cards, loyalty programs, and accounts receivable and loan transactions. CoreCard utilizes the same core software solution in its processing operations as it sells to licensees, although licensees typically request a variety of customizations which may or may not deviate from the core software solution offering.

The CoreCard® software solutions allow companies to offer various types of debit and credit cards as well as installment and revolving loans, to set up and maintain account data, to record advances and payments, to assess fees, interest and other charges, to resolve disputes and chargebacks, to manage collections of accounts receivable, to generate reports and to settle transactions with financial institutions and network associations.

The CoreCard® proprietary software applications are based on CoreCard's core financial transaction processing platform (CoreENGINE™) and address the unique requirements of customers and program managers that issue or process:

- Credit Cards/Loans – revolving or non-revolving credit issued to consumer or business accounts (with or without a physical card) that typically involve interest, fees, settlement, collections, etc. Within this market, CoreCard offers software specifically tailored to handle private label cards, network branded (i.e. MasterCard or VISA) bank cards, fleet cards, short-term consumer loans and any other type of “system of record” accounts receivable.
- Prepaid/Debit Cards – pre-loaded funds drawn down for purchase or cash withdrawal typically involving a variety of fees but no interest. Numerous examples exist including gift cards, loyalty/reward cards, health benefit cards, payroll and benefits disbursement, student aid disbursement, government assistance payments, corporate expense cards, transit cards and any other type of “system of record” stored value accounts.

The CoreCard® software solutions allow customers to optimize their card account management systems, improve customer retention, lower operating costs and create greater market differentiation. The CoreCard® solutions are feature-rich, have web interfaces and contain financial transaction processing solutions that allow customers to automate, streamline and optimize business processes associated with the set-up, administration, management and settlement of credit, prepaid and loan accounts, to process transactions, and to generate reports and statements for these accounts. In addition, because the CoreCard products are designed to run on lower cost, scalable PC-based servers, rather than expensive legacy mainframe computers, customers may benefit from lower overall costs since the solution provides scalability by adding additional servers as card volume grows. The CoreCard product functionality includes embedded multi-lingual, multi-currency support, web-based interface, real-time processing, complex rules-based authorizations, account hierarchies, documented APIs for easy integration to the backend functionality and robust fee libraries. These features support customer-defined pricing and payment terms and allow CoreCard's customers to create new and innovative card programs to differentiate themselves in the marketplace and improve customer retention.

We believe CoreCard is unique among software companies because it offers a full array of card and account management software solutions, available either for in-house license or outsourced processing by CoreCard's processing business (“Processing Services”) at the customer's option. CoreCard also provides customers with a unique option to license the same CoreCard software that is used in the CoreCard processing environment and transfer it in-house for customer controlled processing at a later date.

- License – CoreCard sells a software license to a customer who then runs the CoreCard software system, configured for the customer's unique requirements, at a customer controlled location. It usually requires substantial additional resources from CoreCard to customize or operate the licensed software and CoreCard is de-emphasizing the license option.
- Processing Services – CoreCard offers processing services that allow customers to outsource their card processing requirements to CoreCard. CoreCard manages all aspects of the processing functions using its proprietary software configured for each processing customer.

We continue to add resources to expand upon our infrastructure investment to support CoreCard's Processing Services line of business. CoreCard processes prepaid cards and credit financing (private label and open loop/network) for a number of customers and anticipates steadily growing this business further in 2019. CoreCard has multiple secure processing data centers at third party locations, is certified as compliant with the Payment Card Industry (PCI) Data Security Standards and has an SSAE-18 SOC 1 independent audit report that can be relied on by its prepaid and credit processing customers. It has obtained certification from the Discover, MasterCard, Star and Pulse networks and expects to complete current projects for circuits, connectivity and certification related to direct connection on Visa equipment in early 2019.

CoreCard added a significant new license customer in 2018, which represented 40% of our consolidated revenues for the twelve months ended December 31, 2018. We expect future professional services, maintenance, and license revenue from this customer in 2019 and future years, however the amount and timing will be dependent on various factors not in our control such as the number of accounts on file and the level of customization needed by the customer.

CoreCard has relationships with several financial institutions that are important for network certification, referrals for processing or program managers, and sponsoring prospective card programs.

CoreCard has Program Manager capabilities in addition to processing services, which has allowed us to gain additional experience adding the potential for increased revenue, although we do not expect any significant revenue impact as a Program Manager near term.

CoreCard's principal target markets include consumer revolving credit portfolios, accounts receivable businesses, prepaid card issuers, retail and private-label issuers (large and small), small third-party processors, and small, mid-size and large financial institutions in the United States. It has customers in international markets as well. CoreCard competes with third-party card processors that allow customers to outsource their account transaction processing rather than acquire software to manage their transactions in-house. CoreCard competes with several larger and more established software processors. Many of CoreCard's competitors, especially certain processors, have significantly more financial, marketing and development resources than does CoreCard and have large, established customer bases often tied to long-term contracts. CoreCard believes it can compete successfully in its selected markets by providing to its licensed software customers and processing customers a robust technology platform, lower overall cost per account fees, greater system flexibility, and more customer-driven marketing options. Probably even more importantly, the size and flexibility of CoreCard makes it possible to get to market more quickly with customized, flexible programs. Under our Processing Services option, customers can contract with CoreCard to provide processing services for their accounts using CoreCard software configured to the customer's preferences, with an option to license the same software and bring it in-house when and if the customer decides to become its own processor in the future. We believe this transition path for customers is unique in the industry.

The CoreCard® software platform and modules include CoreENGINE™, CoreISSUE™, CoreFRAUD™, CoreCOLLECT™, CoreAPP™, CoreMONEY™ and CoreACQUIRE™. Using a proprietary, base transaction processing platform called CoreENGINE, the CoreCard application modules have been further enhanced to meet the specific requirements of different market segments; for instance, CoreISSUE is available in different versions tailored to the requirements for issuing prepaid cards, fleet cards, bank cards or private label cards/accounts as well as accounts receivable management. In addition, CoreCard configures and/or customizes its robust base modules with additional or specific functionality to meet each customer's requirements. The company has developed and licensed such products to customers in the prepaid, fleet, private label, retail and credit markets. As is typical of most software companies, CoreCard expects to continually enhance and upgrade its existing software solutions and to develop additional modules to meet changing customer and market requirements. To date, CoreCard has focused its extensive development and limited sales activities on building a base of customers in each of its target markets, as well as putting in place the infrastructure and processes to be able to scale the business successfully, particularly for the Processing Services business.

Historically, most of the company's sales have resulted from prospects contacting CoreCard based on an online search. CoreCard typically sells its products directly to customers, often in competitive situations, with relatively long sales and implementation cycles.

We have several revenue streams. We receive software license fees that vary depending upon the number of licensed users, number of accounts on the system, and the number of software modules licensed. We also derive service revenue from implementation, customization, and annual maintenance and support contracts for our licensed software. Processing customers pay an implementation and setup fee plus monthly service fees, primarily based on number of accounts, under a contract with a term of generally three or more years. Depending on factors such as contract terms, customer implementation and testing schedule, and extent of customization or configuration required and whether we are licensing or processing, the timing of revenue recognition on contracts may lead to considerable fluctuation in revenue and profitability. There are often delays in implementation cycles, especially for processing customers, due to third party approvals or processes that are outside of CoreCard's control and thus it is not possible to predict with certainty when we will be able to begin recognizing revenue on new contracts.

CoreCard's licensed software products are used by its customers to manage and process various credit, debit and prepaid card programs and there are a number of federal and state regulations governing the issuance of and the processing of financial transactions associated with such cards. CoreCard's customers are required to comply with such regulations and, to the extent that customers depend on their licensed CoreCard software to manage and process their card accounts, the CoreCard software features and functionality must allow customers to comply with the various governmental regulations. CoreCard continually evaluates applicable regulations and regularly upgrades and enhances its software to help its customers meet their obligations to comply with current and anticipated governmental regulations. As part of CoreCard's processing business, CoreCard provides compliance-related services, including data and network security, customer identification screening and regular reporting, which enable its customers to be in compliance with applicable governmental regulations including but not limited to the Bank Secrecy Act and Anti-Money Laundering regulations with final responsibility for compliance resting with the customer. Depending on the extent of changes and new governmental regulations, CoreCard will regularly incur additional costs to modify its software and services to be compliant. CoreCard has no costs related to compliance with environmental laws.

Our business is not considered seasonal although the use of certain of our products may grow with higher end-of-year spending patterns and possibly cause a small revenue increase during this period.

Incubator Program

For more than twenty-five years, we have been associated with an incubator program (the Gwinnett Innovation Park) at our corporate facility in Norcross, a suburb of Atlanta, Georgia. In exchange for a monthly facility fee, incubator companies have access to office space, conference facilities, telecommunication and network infrastructure, business advice, and a network of peers. We view this program as a way to stay abreast of new business opportunities and trends which may benefit our company while simultaneously contributing to our local community in a positive way by supporting entrepreneurship and start-ups, with minimal financial outlay or management time. We believe our incubator program is the longest running privately-held program in the United States.

Non-consolidated Companies

We are primarily engaged in the FinTech industry through CoreCard's operations; however, from time to time, we have invested in entrepreneurial companies that we believe are bringing new applications or technologies to business markets and may continue to do so. Typically, these companies are privately held, early stage companies in technology-related fields. From time to time, we may increase our investment in a company or write down the value of an investment if we determine that it is impaired or there may be a liquidation event in which we participate. Typically, the timing and amounts of such events are not predictable. Please refer to Note 4 to our Consolidated Financial Statements for more information.

Research and Development

We spent \$3.4 million and \$4.4 million in the years ended December 31, 2018 and 2017, respectively, on company sponsored research and development. All of our consolidated research and development expense is related to our FinTech business. We maintain a workforce of approximately 400 employees in our offshore operations in India and Romania for software development and testing, as well as operations support for processing services. We continuously add new features and functionality to our financial technology software in response to market requirements and trends and expect to continue to do so.

Patents, Trademarks and Trade Secrets

We have one U.S. patent covering aspects of CoreCard's core software platform. It may be possible for competitors to duplicate certain aspects of our products and processes even though we regard such aspects as proprietary. We have registered with the U.S. Patent and Trademark Office and several foreign jurisdictions various trademarks and service marks for our products. We believe that an active trade secret, trade name, trademark, and copyright protection program is one element in developing and maintaining brand recognition and protecting our intellectual property. We presently market our products under trademarks and service marks such as CoreCard®, CoreENGINE™, CoreISSUE™, CoreCOLLECT™, CoreMONEY™ and others.

Personnel

As of February 15, 2019, we had approximately 430 full-time equivalent employees (including our subsidiaries in the United States and foreign countries). Of these, over 400 are involved in CoreCard's software development, testing and operations, and 6 in corporate functions. Our employees are not represented by a labor union, we have not had any work stoppages or strikes and we believe our employee relations are good.

Financial Information About Geographic Areas

See Note 13 to the Consolidated Financial Statements. Except for the risk associated with fluctuations in currency, we do not believe there are any specific risks attendant to our foreign operations that are significantly different than the general business risks discussed elsewhere in this Annual Report.

ITEM 2. PROPERTIES

We have a lease covering approximately 15,000 square feet in Norcross, Georgia to house our product development, sales, service and administration operations for our domestic operations. Our Norcross lease was renewed March 31, 2018 for a three year term. We also lease a small office in Timisoara, Romania. We own a 6,350 square foot office facility in Bhopal, India, to house the software development and testing activities of our offshore subsidiaries; we lease approximately 4,700 square feet of additional office space in the same facility in Bhopal, India; and we lease approximately 5,500 square feet in Mumbai, India to house additional staff for our offshore software development activities. We believe our facilities are adequate for the foreseeable future.

ITEM 3. LEGAL PROCEEDINGS

We are not a party to any material pending legal proceedings.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information

Our common stock is listed and traded on the NYSE American ("NYSE") under the symbol INS. The following table sets forth, for the periods indicated, the range of high and low sales prices for our common stock as reported by the NYSE.

Year Ended December 31,	2018		2017	
	<i>High</i>	<i>Low</i>	<i>High</i>	<i>Low</i>
1st Quarter	\$ 5.15	\$ 4.36	\$ 4.75	\$ 3.85
2nd Quarter	9.44	4.89	4.72	3.50
3rd Quarter	14.65	8.90	4.45	3.58
4th Quarter	14.40	9.40	4.60	3.77

We had 204 shareholders of record as of February 15, 2019. This number does not include beneficial owners of our common stock whose shares are held in the names of various dealers, clearing agencies, banks, brokers and other fiduciaries. The company has not paid regular dividends in the past and does not intend to pay dividends in the foreseeable future.

Equity Compensation Plan Information

See Item 12 for information regarding securities authorized for issuance under equity compensation plans, which is incorporated herein by reference.

Recent Sales of Unregistered Securities

There have been no sales of unregistered securities by the company during the period covered by this Form 10-K.

Repurchases of Securities

The company did not repurchase any of its shares of common stock during 2018.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations is based upon our Consolidated Financial Statements which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amount of assets, liabilities, revenues and expenses. We consider certain accounting policies related to revenue recognition and valuation of investments to be critical policies due to the estimation processes involved in each. For a detailed description on the application of these and other accounting policies, see Note 1 to the Consolidated Financial Statements.

Revenue Recognition – Product revenue consists of fees from software licenses. Service revenue consists of fees for processing services; professional services for software customization, consulting, and training; reimbursable expenses; and software maintenance and customer support.

Our software license arrangements generally fall into one of the following four categories:

- an initial contract with the customer to license certain software modules, to provide services to get the customer live on the software (such as training and customization) and to provide post contract support ("PCS") for a specified period of time thereafter,
- purchase of additional licenses for new modules or for tier upgrades for a higher volume of licensed accounts after the initial contract,
- other optional standalone contracts, usually performed after the customer is live on the software, for services such as new interfaces or custom features requested by the customer, additional training and problem resolution not covered in annual maintenance contracts, and
- contracts for certain licensed software products that involve an initial fee plus recurring monthly fees during the contract life.

At contract inception, we assess the products and services promised in our contracts with customers and identify a performance obligation for each promise to transfer to the customer a product or service (or bundle of products or services) that is distinct. If a product or service is separately identifiable from other items in the bundled package and if a customer can benefit from it on its own or with other resources that are readily available to the customer. To identify our performance obligations, we consider all of the products or services promised in the contract regardless of whether they are explicitly stated or are implied by customary business practices. We recognize revenue when or as we satisfy a performance obligation by transferring control of a product or service to a customer. Our revenue recognition policies for each of the situations described above are discussed below.

Our software licenses generally have significant stand-alone functionality to the customer upon delivery and are considered to be functional intellectual property. Additionally, the purpose in granting these software licenses to a customer is typically to provide the customer a right to use our intellectual property. Our software licenses are generally considered distinct performance obligations, and revenue allocated to the software license is typically recognized at a point in time upon delivery of the license. Initial implementation fees do not meet the criteria for separate accounting because the software usually requires significant modification or customization that is essential to its functionality. We recognize revenue related to implementations over the life of the customer once the implementation is complete.

We account for the PCS element contained in the initial contract based on relative standalone selling price, which is annual renewal fees for such services, and PCS is recognized ratably on a straight-line basis over the period specified in the contract as we generally satisfy these performance obligations evenly using a time-elapsed output method over the contract term given there is no discernible pattern of performance. Upon renewal of the PCS contract by the customer, we recognize revenues ratably on a

straight-line basis over the period specified in the PCS contract. All of our software customers purchase software maintenance and support contracts and renew such contracts annually.

Certain initial software contracts contain specified future service elements for scheduled completion following the implementation, and related recognition, of the initial license. In these instances, after the initial license recognition, where distinct future performance obligations are identified in the contract and we could reliably measure the completion of each identified performance obligation, we have recognized revenue at the time the individual performance obligation was completed.

Purchases of additional licenses for tier upgrades or additional modules are generally recognized as license revenue in the period in which the purchase is made for perpetual licenses or ratably over the remaining contract term for non-perpetual licenses.

Services provided under standalone contracts that are optional to the customer and are outside of the scope of the initial contract are single element services contracts. These standalone services contracts are not essential to the functionality of the software contained in the initial contract and generally do not include acceptance clauses or refund rights as may be included in the initial software contracts, as described above. Revenues from these services contracts, which are generally performed within a relatively short period of time, are recognized when the services are complete. These revenues generally re-occur as contracts are renewed. Payment terms for professional services may be based on an upfront fixed fee with the remainder due upon completion or on a time and materials basis.

For contracts for licensed software which include an initial fee plus recurring monthly fees for software usage, maintenance and support, we recognize the total fees ratably on a straight-line basis over the estimated life of the contract as services revenue.

Revenues from processing services are typically volume- or activity-based depending on factors such as the number of accounts processed, number of accounts on the system, number of hours of services or computer resources used. For processing services which include an initial fee plus recurring monthly fees for services, we recognize the initial fees ratably on a straight-line basis over the estimated life of the contract as services revenue. The payment terms may include tiered pricing structures with the base tier representing a minimum monthly usage fee. For processing services revenues, we stand ready to provide continuous access to our processing platforms and perform an unspecified quantity of outsourced and transaction-processing services for a specified term or terms. Accordingly, processing services are generally viewed as a stand-ready performance obligation comprised of a series of distinct daily services. We typically satisfy our processing services performance obligations over time as the services are provided.

Technology or service components from third parties are frequently embedded in or combined with our products or service offerings. We are often responsible for billing the client in these arrangements and transmitting the applicable fees to the third party. We determine whether we are responsible for providing the actual product or service as a principal, or for arranging for the solution or service to be provided by the third party as an agent. Judgment is applied to determine whether we are the principal or the agent by evaluating whether we have control of the product or service prior to it being transferred to the customer. The principal versus agent assessment is performed at the performance obligation level. Indicators that we consider in determining if we have control include whether we are primarily responsible for fulfilling the promise to provide the specified product or service to the customer, whether we have inventory risk and discretion in establishing the price the customer ultimately pays for the product or service. Depending upon the level of our contractual responsibilities and obligations for delivering solutions to end customers, we have arrangements where we are the principal and recognize the gross amount billed to the customer and other arrangements where we are the agent and recognize the net amount retained.

Revenue is recorded net of applicable sales tax.

Deferred revenue consists of advance payments by software customers for annual or quarterly PCS, advance payments from customers for software licenses and professional services not yet delivered, and initial implementation payments for processing services or bundled license and support services in multi-year contracts. Deferred revenue is classified as long-term until such time that it becomes likely that the services or products will be provided within 12 months of the balance sheet date.

Valuation of Investments – We hold minority interests in non-publicly traded companies whose values are difficult to determine and are based on management’s estimate of realizability of the value of the investment. Future adverse changes in market conditions, poor operating results, lack of progress of the investee company or its inability to raise capital to support its business plan could result in investment losses or an inability to recover the current carrying value of the investment. Our policy with respect to minority interests is to record an impairment charge when we conclude an investment has experienced a decline in value that is other than temporary.

At least quarterly, we review our investments to determine any impairment in their carrying value and we write-down any impaired asset at quarter-end to our best estimate of its current realizable value. In the second quarter of 2017, we recorded an impairment charge of \$90,000 to reduce the carrying value of an investee company, a privately-held technology company in the FinTech industry. The investee closed on a Series A preferred stock financing resulting in substantial dilution to our investment. Subsequently, in the fourth quarter of 2017, the investee sold its intellectual property and is in process of winding down its operations. As a result, we recorded an additional impairment charge of \$10,000 to fully write-down our minority ownership in the investee company. In the third quarter of 2017, we recorded a gain of \$372,000, as funds held in escrow from a prior investee company sale were released. In the same quarter we sold shares in a tender offer for stock of one of our investee companies, a privately-held technology company in the Fintech industry, resulting in a gain of \$1,466,000. In the second quarter of 2018, we recorded an impairment charge of \$250,000 to reduce the carrying value of an investee company.

Executive Summary

Our consolidated operations consist of our CoreCard Software subsidiary and its affiliate companies in Romania and India, as well as the corporate office which provides significant administrative, human resources and executive management support to CoreCard.

We provide technology solutions and processing services to the financial services market, commonly referred to as the FinTech industry. We derive our product revenue from licensing our comprehensive suite of financial transaction management software to accounts receivable businesses, financial institutions, retailers and processors to manage their credit and debit cards, prepaid cards, private label cards, fleet cards, loyalty programs, and accounts receivable and loan transactions. Our service revenue consists of fees for software maintenance and support for licensed software products, fees for processing services that we provide to companies that outsource their financial transaction processing functions to us, and professional services primarily for software customizations provided to both license and processing customers.

Our results vary in part depending on the size and number of software licenses recognized as well as the value and number of professional services contracts recognized in a particular period. As we continue to grow our Processing Services business, we continue to gain economies of scale on the investment we have made in the infrastructure, resources, processes and software features developed over the past number of years to support this growing side of our business. We are adding new processing customers at a faster pace than we are adding new license customers, resulting in steady growth in the processing revenue stream. However, we are also experiencing growth in our license revenue and associated professional services due to the addition of a large new customer in 2018. In total, this customer represented 40% of our consolidated revenues in 2018. We expect future professional services, maintenance, and license revenue from this customer in 2019 and future years, however the amount and timing will be dependent on various factors not in our control such as the number of accounts on file and the level of customization needed by the customer. The infrastructure of our multi customer environment is scalable for the future. A significant portion of our expense is related to personnel, including approximately 400 employees located in India and Romania. In the fourth quarter of 2017, we opened a second office in India, located near Mumbai, to enable us to attract the level of talent required for our software development and testing. Our ability to hire and train employees on our processes and software impacts our ability to onboard new customers and deliver professional services for software customizations. In addition, we have certain corporate office expenses associated with being a public company that impact our operating results.

Our revenue fluctuates from period to period and our results are not necessarily indicative of the results to be expected in future periods. It is difficult to predict the level of consolidated revenue on a quarterly or annual basis for a number of reasons, including the following:

- Software license revenue in a given period may consist of a relatively small number of contracts and contract values can vary considerably depending on the software product and scope of the license sold. Consequently, even minor delays in delivery under a software contract (which may be out of our control) could have a significant and unpredictable impact on the consolidated revenue that we recognize in a given quarterly or annual period.
- Customers may decide to postpone or cancel a planned implementation of our software for any number of reasons, which may be unrelated to our software or contract performance, but which may affect the amount, timing and characterization of our deferred and/or recognized revenue.
- Customers typically require our professional services to modify or enhance their CoreCard software implementation based on their specific business strategy and operational requirements, which vary from customer to customer and period to period.
- The timing of new processing customer implementations is often dependent on third party approvals or processes which are typically not under our direct control.

We continue to maintain a strong cash position. In the latter part of December 2017, we purchased additional hardware and software for our processing environment in anticipation of a contract then being negotiated with a potential customer, as noted above, that was signed in October 2018 and we believe will result in increased revenue over the next few years. We made additional related equipment purchases in early 2018. We intend to use cash balances to support the domestic and international operations associated with our CoreCard business and to expand our operations in the FinTech industry through financing the growth of CoreCard and, if appropriate opportunities become available, through acquisitions of businesses in this industry. Additionally, in November 2018, our Board of Directors authorized a share repurchase program of \$5 million. We did not make any share repurchases in 2018.

Results of Operations

The following discussion should be read in conjunction with the Consolidated Financial Statements and the Notes to Consolidated Financial Statements presented in this Annual Report.

Revenue – Total revenue for the year ended December 31, 2018 was \$20,100,000 which represents a 119 percent increase over 2017.

- Revenue from products, which includes software license fees was \$1,349,000 in 2018, compared to \$90,000 in 2017, primarily due to revenues recognized in the fourth quarter related to a large new license customer, as discussed above.
- Revenue from services was \$18,751,000 in 2018, which represents a 106 percent increase from 2017 revenue of \$9,089,000. The increase is primarily due to higher professional services revenue from a large new customer in 2018, as discussed above, and higher professional services revenue from existing customers. Additionally, revenue from transaction processing services and maintenance support services were higher in 2018 as compared to 2017. Processing services benefited from an increase in the number of customers and accounts on file while maintenance revenue increased due to additional revenue associated with an increase in our license customer base. We expect that processing services will continue to grow as our customer base increases; however, the time required to implement new customer programs could be delayed due to third party integration and approval processes. It is not possible to accurately predict the number and value of professional services contracts that CoreCard's customers will require in a given period. Customers typically request our professional services to modify or enhance their CoreCard software implementation based on their specific business strategy and operational requirements, which vary from customer to customer and period to period.

Cost of Revenue – Total cost of revenue was 42 percent of total revenue for the twelve months ended December 31, 2018, compared to 49 percent for the twelve months ended December 31, 2017. The decrease in cost of revenue as a percentage of revenue is primarily driven by increased product sales with low associated costs, increased professional services rates for some customers and decreased reliance on higher cost third party contractors to supplement our own development team. Cost of revenue includes costs to provide annual maintenance and support services to our installed base of licensed customers, costs to provide professional services, and costs to provide our financial transaction processing services. The cost and gross margins on such revenues can vary considerably from period to period depending on the customer mix, customer requirements and project complexity as well as the mix of our U.S. and offshore employees working on the various aspects of services provided. In addition, we continue to devote the resources necessary to support our growing processing business, including direct costs for regulatory compliance, infrastructure, network certifications, and customer support. However, we are continuing to experience economies of scale in our processing environment and did experience a decrease year over year for our cost of financial transaction processing services as a percentage of transaction processing services revenue. This may be subject to change in the future if new regulations or processing standards are implemented causing us to incur additional costs to comply.

Operating Expenses – For the twelve months ended December 31, 2018, total operating expenses from consolidated operations were lower than in the corresponding period in 2017 primarily as the result of decreased research and development expenses. Research and development expenses were \$3,353,000 in 2018 compared to \$4,367,000 in 2017, primarily due to re-allocating R&D resources from our base product offering development efforts to customizations reflected in cost of revenue. In addition, we expanded our hiring capabilities of technical resources by opening a second office located near Mumbai, India. General and administrative expenses were higher in 2018 than in 2017, due to higher legal professional fees associated with the review of a new customer contract executed in October. Marketing expenses remain relatively consistent, from a total cost standpoint, compared to the prior year. Our client base increased in 2018 and 2017 with minimal marketing efforts as we continue to have

prospects contact us via online searches; however, we will continue to re-evaluate our marketing expenditures as needed to competitively position the Processing Services business.

Investment Income (Loss) – In 2018, we recorded \$363,000 of investment losses, which was comprised of a \$250,000 impairment loss on our minority equity ownership in one of our investee companies, a privately held technology company and program manager in the FinTech industry, and \$113,000 of unrealized losses on marketable securities. In 2017, we recorded \$1,738,000 of investment income, which was comprised of a gain of \$1,466,000 on the sale of our investment in a privately-held technology company in the third quarter of 2017, and the gain of \$372,000 on a final payment after the escrow period on a prior minority investment sale, as described in more detail in Note 4 to the Consolidated Financial Statements. This was offset in part by an impairment charge of \$100,000 in 2017 to write down the carrying value of another investee company, as explained in more detail in Note 4 to the Consolidated Financial Statements.

Other Income, net – Other income, net was \$469,000 in 2018 and \$166,000 in 2017. The increase results from one-time interest income of \$171,000 related to finance charges on the sale of equipment purchased for a new license customer as well as higher interest rates on higher cash balances.

Income Taxes – We recorded \$284,000 in 2018 for state income tax expense, offset by a deferred tax benefit of \$280,000 for net tax expense of \$4,000. The deferred tax benefit primarily relates to the release of a valuation allowance on our deferred tax assets due to utilization of operating loss carryforwards and expected future profitability. We expect our future effective tax rate to be within the range of 25-27%.

Liquidity and Capital Resources

Our cash balance at December 31, 2018 was \$18,919,000 compared to \$14,024,000 at December 31, 2017. During the year ended December 31, 2018, cash provided by operations was \$6,656,000 compared to cash used in operations of \$2,467,000 for the year ended December 31, 2017. The increase is primarily due to higher operating income and the receipt, net of equipment purchases, of approximately \$1,745,000, plus associated finance carrying charges, for processing equipment, software and related licenses purchased in 2018 and 2017 on behalf of a new license customer. These increases were partially offset by higher net working capital balances, primarily higher accounts receivable.

We advanced \$1,035,000 on various Promissory Notes, as described in more detail in Note 6 to the Consolidated Financial Statements. We used \$865,000 of cash to acquire computer equipment and related software primarily to enhance our existing processing environment in the U.S. as well for computer equipment for the technical resources added in our India office during 2018.

Although we paid a special cash dividend to shareholders in 2016, we do not expect to pay any regular or special dividends in the foreseeable future. We expect to have sufficient liquidity from cash on hand as well as projected customer payments to support our operations and capital equipment purchases in the foreseeable future. Currently we expect to use cash in excess of what is required for our current operations for opportunities we believe will expand our FinTech business, as exemplified in transactions described in Notes 4 and 6, although there can be no assurance that appropriate opportunities will arise. Additionally, in November 2018, our Board of Directors authorized a share repurchase program of \$5 million. We did not make any share repurchases in 2018.

Off-Balance Sheet Arrangements

We do not currently have any off-balance sheet arrangements that are reasonably likely to have a current or future material adverse effect on our financial condition, liquidity or results of operations.

Factors That May Affect Future Operations

Future operations are subject to risks and uncertainties that may negatively impact our future results of operations or projected cash requirements. It is difficult to predict future quarterly and annual results with certainty.

Among the numerous factors that may affect our consolidated results of operations or financial condition are the following:

- Weakness or instability in the global financial markets could have a negative impact due to potential customers (most of whom perform some type of financial services) delaying decisions to purchase software or initiate processing services.

- Increased federal and state regulations and reluctance by financial institutions to act as sponsor banks for prospective customers could result in losses and additional cash requirements.
- In 2018, we added a large new license customer that represented 40% of our consolidated revenues for the twelve months ended December 31, 2018. Failure to meet our responsibilities under the related contract could result in breach of contract and loss of the customer and related future revenues.
- Delays in software development projects could cause our customers to postpone implementations or delay payments, which would increase our costs and reduce our revenue and cash.
- We could fail to deliver software products which meet the business and technology requirements of our target markets within a reasonable time frame and at a price point that supports a profitable, sustainable business model.
- Our processing business is impacted, directly or indirectly, by more regulations than our licensed software business. If we fail to provide services that comply with (or allow our customers to comply with) applicable regulations or processing standards, we could be subject to financial or other penalties that could negatively impact our business.
- Software errors or poor quality control may delay product releases, increase our costs, result in non-acceptance of our software by customers or delay revenue recognition.
- We could fail to expand our base of customers as quickly as anticipated, resulting in lower revenue and profits and increased cash needs.
- We could fail to retain key software developers and managers who have accumulated years of know-how in our target markets and company products, or fail to attract and train a sufficient number of new software developers and testers to support our product development plans and customer requirements at projected cost levels.
- Increasing and changing government regulations in the United States and foreign countries related to such issues as data privacy, financial and credit transactions could require changes to our products and services which could increase our costs and could affect our existing customer relationships or prevent us from getting new customers.
- Delays in anticipated customer payments for any reason would increase our cash requirements and could adversely impact our profits.
- Competitive pressures (including pricing, changes in customer requirements and preferences, and competitor product offerings) may cause prospective customers to choose an alternative product solution, resulting in lower revenue and profits (or losses).
- Our future capital needs are uncertain and depend on a number of factors; additional capital may not be available on acceptable terms, if at all.
- Other general economic and political conditions could cause customers to delay or cancel purchases.

Recent Accounting Pronouncements – Refer to Note 1 of the Notes to the Consolidated Financial Statements.

ITEM 8. FINANCIAL STATEMENTS

The following Consolidated Financial Statements and related report of independent registered public accounting firm are included in this report and are incorporated by reference in Part II, Item 8 hereof. See Index to Financial Statements on page F-1 hereof.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

(a) *Evaluation of disclosure controls and procedures*

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives. As of the end of the period covered by this Annual Report, we carried out an evaluation, under the supervision and with the participation of the company's management, including the company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the company's disclosure controls and procedures pursuant to Rule 13a-15(b) under the Exchange Act. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the company's disclosure controls and procedures are effective at that reasonable assurance level.

(b) *Changes in internal control over financial reporting*

We regularly review our system of internal control over financial reporting and make changes to our processes and systems to improve controls and increase efficiency, while ensuring that we maintain an effective internal control environment.

There were no significant changes in the company's internal control over financial reporting or in other factors identified in connection with this evaluation that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

(c) *Management's report on internal control over financial reporting*

The management of Intelligent Systems Corporation is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a – 15(f) under the Securities Exchange Act of 1934. The company maintains accounting and internal control systems which are intended to provide reasonable assurance that the assets are safeguarded against loss from unauthorized use or disposition, transactions are executed in accordance with management's authorization and accounting records are reliable for preparing financial statements in accordance with accounting principles generally accepted in the United States of America.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, risk.

The company's management evaluated the effectiveness of the company's internal control over financial reporting as of December 31, 2018. In making this evaluation, management used the criteria set forth by the Committee of Sponsoring Organizations ("COSO") of the Treadway Commission in *Internal Control – Integrated Framework*. Based on our evaluation management believes that, as of December 31, 2018, the company's internal control over financial reporting is effective based on those criteria.

This Annual Report does not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the company's registered public accounting firm pursuant to the rules of the Securities and Exchange Commission that permit smaller reporting companies such as our company to provide only management's report in the Annual Report.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Please refer to the subsection entitled “Proposal 1 - The Election of One Director - Nominee” and “Proposal 1 – The Election of One Director – Executive Officers” in our Proxy Statement for the 2019 Annual Meeting of Shareholders (the “Proxy Statement”) for information about the individual nominated as director and about the directors and executive officers of the company. This information is incorporated into this Item 10 by reference. Information regarding compliance by directors and executive officers of the company and owners of more than 10 percent of our common stock with the reporting requirements of Section 16(a) of the Securities Exchange Act of 1934, as amended, is contained under the caption “Section 16(a) Beneficial Ownership Reporting Compliance” in the Proxy Statement. This information is incorporated into this Item 10 by reference. Information regarding the company’s Audit Committee and its composition is contained under the caption “Proposal 1 – The Election of One Director - Nominee” and “Proposal 1 – The Election of One Director – Meetings and Committees of the Board of Directors” in the Proxy Statement. This information is incorporated into this Item 10 by reference.

There have been no material changes to the procedures by which shareholders may recommend nominees to the company’s Board of Directors.

We have a Code of Ethics that applies to all directors, officers, and employees. The Code of Ethics is posted on our website at www.intelsys.com. We also disclose on our website, within the time required by the rules of the SEC, any waivers of, or amendments to, the Code of Ethics for the benefit of an executive officer.

ITEM 11. EXECUTIVE COMPENSATION

Please refer to the subsection entitled “Proposal 1 - The Election of One Director - Executive Compensation” in the Proxy Statement for information about management compensation. This information is incorporated into this Item 11 by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth the amount of securities authorized for issuance under our equity compensation plans as of December 31, 2018.

Securities Authorized for Issuance Under Equity Compensation Plans

Plan category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights	(c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders	199,500	\$ 2.38	805,000
Equity compensation plans not approved by security holders	8,000	\$ 0.94	--
Total	207,500	\$ 2.33	805,000

Effective August 22, 2000, the company adopted the Non-Employee Director Stock Option Plan (the “Director Plan”). The Director Plan expired in 2010 and was replaced by the 2011 Non-Employee Director Stock Option Plan (the “2011 Director Plan”), with essentially the same terms and conditions as the expired Director Plan. Up to 200,000 shares of common stock were authorized for issuance under the Director Plan and 2011 Director Plan to non-employee directors with each director receiving an initial grant of 5,000 options followed by annual grants of 4,000 options on the date of each subsequent Annual Meeting. In the years ended December 31, 2018 and 2017, 12,000 options and 17,000 options were granted in each year, respectively, under the 2011 Director

Plan, and 4,000 options and 12,000 options, respectively, expired unexercised. In 2018, under the Directors Plans, 20,000 options were exercised and 4,000 options were canceled. The company instituted the 2003 Stock Incentive Plan (the "2003 Plan") in March 2003 and the 2003 Plan expired in 2013. The 2003 Plan authorized the issuance of up to 450,000 options to purchase shares of common stock to officers and key employees. In 2015, shareholders approved the Intelligent Systems Corporation Stock Incentive Plan (the "2015 Plan") that provides for the issuance of up to 750,000 shares of common stock to employees and key consultants and advisors. No grants were made in 2018 under the 2015 Plan. In 2018, 20,000 options were exercised under the 2015 Plan. Stock options are granted under the company's equity compensation plans at fair market value on the date of grant and vest ratably over two or three year periods after the date of grant.

Please refer to the subsection entitled "Voting – Security Ownership of Certain Beneficial Owners and Management" in the Proxy Statement for information about the ownership of our common stock by certain persons. This information is incorporated into this Item 12 by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The lease on our headquarters and primary facility at 4355 Shackleford Road, Norcross, Georgia is held by ISC Properties, LLC, an entity controlled by J. Leland Strange, our Chairman and Chief Executive Officer. Mr. Strange holds a 100% ownership interest in ISC Properties, LLC. We paid ISC Properties, LLC \$210,000 in both years ending December 31, 2018 and 2017.

Please refer to the subsection entitled "Proposal 1 - The Election of One Director - Nominee" in the Proxy Statement referred to in Item 10 for information regarding the independence of the company's directors. This information is incorporated into this Item 13 by reference.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Please refer to the subsection entitled "Independent Registered Public Accountants" in the Proxy Statement for information about the fees paid to and services performed by our independent public accountants. This information is incorporated into this Item 14 by reference.

PART IV

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and Board of Directors of Intelligent Systems Corporation

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Intelligent Systems Corporation and subsidiaries (the "Company") as of December 31, 2018 and 2017, and the related consolidated statements of operations, comprehensive income (loss), stockholders' equity and cash flows for each of the two years in the period ended December 31, 2018, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the consolidated financial position of the Company at December 31, 2018 and 2017, and the consolidated results of its operations and its cash flows for each of the two years in the period ended December 31, 2018, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Nichols, Cauley and Associates, LLC

We have served as the Company's auditor since 2015.

The accompanying notes are an integral part of these consolidated financial statements.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization – In this document, terms such as the “company”, “we”, “us”, “our” and “ISC” refer to Intelligent Systems Corporation, a Georgia corporation, and its consolidated subsidiaries.

Consolidation – The financial statements include the accounts of Intelligent Systems Corporation and its majority owned and controlled U.S. and non-U.S. subsidiary companies after elimination of material inter-company accounts and transactions.

Nature of Operations – Our operations consist primarily of our CoreCard Software, Inc. (“CoreCard”) subsidiary and its affiliate companies in Romania and India, as well as the corporate office which provides significant administrative, human resources and executive management support to CoreCard. CoreCard provides technology solutions and processing services to the financial technology and services market, commonly referred to as the FinTech industry.

Use of Estimates – In preparing the financial statements in conformity with accounting principles generally accepted in the United States, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. These estimates and assumptions also affect amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates. Areas where we use estimates and make assumptions are to determine our allowance for doubtful accounts, valuation of our investments, depreciation and amortization expense, accrued expenses and deferred income taxes.

Translation of Foreign Currencies – We consider that the respective local currencies are the functional currencies for our foreign operations. We translate assets and liabilities to U.S. dollars at period-end exchange rates. We translate income and expense items at average rates of exchange prevailing during the period. Translation adjustments are recorded as accumulated other comprehensive gain or loss as a separate component of stockholders’ equity. Upon sale of an investment in a foreign operation, the currency translation adjustment component attributable to that operation is removed from accumulated other comprehensive loss and is reported as part of gain or loss on sale of discontinued operations.

Accounts Receivable and Allowance for Doubtful Accounts – Accounts receivable are customer obligations due under normal trade terms. They are stated at the amount management expects to collect. We sell our software products and transaction processing services to companies involved in a variety of industries that provide some form of credit or prepaid financing options or perform financial services. We perform continuing credit evaluations of our customers’ financial condition and we do not require collateral. The amount of accounting loss for which we are at risk in these unsecured receivables is limited to their carrying value.

Senior management reviews accounts receivable on a regular basis to determine if any receivables will potentially be uncollectible. We include any accounts receivable balances that are estimated to be uncollectible in our overall allowance for doubtful accounts. After all attempts to collect a receivable have failed, the receivable is written off against the allowance. Based on the information available to us, we believe our allowance for doubtful accounts as of December 31, 2018 is adequate. However, actual write-offs might exceed the recorded allowance. Refer to Note 5 for additional information.

Marketable Securities – Our marketable securities are stated at fair value and primarily consist of investments in exchange traded funds comprised of dividend paying companies. The fair value of the marketable securities is \$349,000 at December 31, 2018; an unrealized loss of \$113,000 is included in other income, net due to the adoption of new accounting guidance during 2018 as discussed below. The fair value of the marketable securities was \$438,000 at December 31, 2017; an unrealized gain of \$23,000 was included in other comprehensive loss.

Property and Equipment – Property and equipment are recorded at cost and depreciated over their estimated useful lives using the straight-line method. Leasehold improvements are amortized over the shorter of the lease term or the estimated useful life of the related asset. Upon retirement or sale, the cost of assets disposed of and the related accumulated depreciation are removed from the accounts and any resulting gain or loss is credited or charged to income. Repairs and maintenance costs are expensed as incurred. We continually evaluate whether events and circumstances have occurred that indicate the remaining estimated useful life of property and equipment may warrant revision, or that the remaining balance of these assets may not be recoverable. An asset is considered to be impaired when its carrying amount exceeds the sum of the undiscounted future net cash flows expected to result from the use of the asset and its eventual disposition. The amount of the impairment loss, if any, which is equal to the amount by which the carrying value exceeds its fair value, is charged to current operations.

Classification	Useful life in years
Machinery and equipment	3 - 5
Furniture and fixtures	5 - 7
Building	39

The cost of each major class of property and equipment at December 31, 2018 and 2017 is as follows:

<i>(in thousands)</i>	2018	2017
Machinery and equipment	\$ 3,321	\$ 2,519
Furniture and fixtures	194	153
Building	313	308
Subtotal	3,828	2,980
Accumulated depreciation	(2,315)	(1,718)
Property and equipment, net	\$ 1,513	\$ 1,262

Depreciation expense for continuing operations was \$614,000 and \$330,000 in 2018 and 2017, respectively. These expenses are included in general and administrative expenses or, for assets associated with our processing data centers, are included in cost of services.

Investments – For entities in which we have a 20 to 50 percent ownership interest and over which we exercise significant influence, but do not have control, we account for investments in privately-held companies under the equity method, whereby we record our proportional share of the investee's net income or net loss as an adjustment to the carrying value of the investment. We account for investments of less than 20 percent in non-marketable equity securities of corporations at the lower of cost or market. Our policy with respect to investments is to record an impairment charge when we conclude that an investment has experienced a decline in value that is other than temporary. At least quarterly, we review our investments to determine any impairment in their carrying value and we write-down any impaired asset at quarter-end to our best estimate of its current realizable value. Any such charges could have a material adverse impact on our financial condition or results of operations and are generally not predictable in advance. During the year ended December 31, 2018, we recognized an impairment loss of \$250,000 on our minority equity ownership in one of our investee companies, a privately held technology company and program manager in the FinTech industry. During the year ended December 31, 2017, we recognized \$1,738,000 of investment income, net, principally related to a gain of \$1,466,000 on the sale of shares in a tender offer for stock of one our investee companies, a privately-held technology company in the FinTech industry, and a gain of \$372,000 on a final payment after the escrow period on the sale of one of our prior investee companies. This was offset, to a lesser degree, by a \$100,000 write-down on a cost method investment. At December 31, 2018 and 2017, the aggregate value of investments was \$760,000 and \$1,035,000, respectively.

Fair Value of Financial Instruments – The carrying value of cash, accounts receivable, notes receivable, accounts payable and certain other financial instruments (such as accrued expenses and other current assets and liabilities) included in the accompanying consolidated balance sheets approximates their fair value principally due to the short-term maturity of these instruments.

Financial instruments that potentially subject us to concentrations of credit risk consist principally of cash, trade accounts, and notes receivable. Our available cash is held in accounts managed by third-party financial institutions. Cash may exceed the Federal Deposit Insurance Corporation, or FDIC, insurance limits. While we monitor cash balances on a regular basis and adjust the balances as appropriate, these balances could be impacted if the underlying financial institutions fail. To date, we have experienced no loss or lack of access to our cash; however, we can provide no assurances that access to our cash will not be impacted by adverse conditions in the financial markets.

A concentration of credit risk may exist with respect to trade receivables, as a substantial portion of our customers are concentrated in the financial services industry.

We perform ongoing credit evaluations of customers worldwide and do not require collateral from our customers. Historically, we have not experienced significant losses related to receivables from individual customers or groups of customers in any particular industry or geographic area.

Fair Value Measurements – In determining fair value, we use quoted market prices in active markets. Generally accepted accounting principles (“GAAP”) establishes a fair value measurement framework, provides a single definition of fair value, and requires expanded disclosure summarizing fair value measurements. GAAP emphasizes that fair value is a market-based measurement, not an entity specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing an asset or liability.

GAAP establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable input be used when available. Observable inputs are based on data obtained from sources independent of the company that market participants would use in pricing the asset or liability. Unobservable inputs are inputs that reflect the company’s assumptions about the estimates market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The hierarchy is measured in three levels based on the reliability of inputs:

- Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the company has the ability to access. Valuation adjustments and block discounts are not applied to Level 1 instruments.
- Level 2 - Valuations based on quoted prices in less active, dealer or broker markets. Fair values are primarily obtained from third party pricing services for identical or comparable assets or liabilities.
- Level 3 - Valuations derived from other valuation methodologies, including pricing models, discounted cash flow models and similar techniques, and not based on market, exchange, dealer, or broker-traded transactions. Level 3 valuations incorporate certain assumptions and projections that are not observable in the market and significant professional judgment is needed in determining the fair value assigned to such assets or liabilities.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Our marketable securities investments are classified within level 1 of the valuation hierarchy.

The fair value of equity method and cost method investments has not been determined as it is impracticable to do so due to the fact that the investee companies are relatively small, early stage private companies for which there is no comparable valuation data available without unreasonable time and expense.

Revenue Recognition – Product revenue consists of fees from software licenses. Service revenue consists of fees for processing services; professional services for software customization, consulting, training; reimbursable expenses; and software maintenance and customer support.

Our software license arrangements generally fall into one of the following four categories:

- an initial contract with the customer to license certain software modules, to provide services to get the customer live on the software (such as training and customization) and to provide post contract support (“PCS”) for a specified period of time thereafter,
- purchase of additional licenses for new modules or for tier upgrades for a higher volume of licensed accounts,
- other optional standalone contracts, usually performed after the customer is live on the software, for services such as new interfaces or custom features requested by the customer, additional training and problem resolution not covered in annual maintenance contracts, and
- contracts for certain licensed software products that involve an initial fee plus recurring monthly fees during the contract life.

At contract inception, we assess the products and services promised in our contracts with customers and identify a performance obligation for each promise to transfer to the customer a product or service (or bundle of products or services) that is distinct. A performance obligation is distinct if a product or service is separately identifiable from other items in the bundled package and if a

customer can benefit from it on its own or with other resources that are readily available to the customer. To identify our performance obligations, we consider all of the products or services promised in the contract regardless of whether they are explicitly stated or are implied by customary business practices. We recognize revenue when or as we satisfy a performance obligation by transferring control of a product or service to a customer. Our revenue recognition policies for each of the situations described above are discussed below.

Our software licenses generally have significant stand-alone functionality to the customer upon delivery and are considered to be functional intellectual property. Additionally, the purpose in granting these software licenses to a customer is typically to provide the customer a right to use our intellectual property. Our software licenses are generally considered distinct performance obligations, and revenue allocated to the software license is typically recognized at a point in time upon delivery of the license. Initial implementation fees do not meet the criteria for separate accounting because the software usually requires significant modification or customization that is essential to its functionality. We recognize revenue related to implementations over the life of the customer once the implementation is complete.

We account for the PCS element contained in the initial contract based on relative standalone selling price, which is annual renewal fees for such services, and PCS is recognized ratably on a straight-line basis over the period specified in the contract as we generally satisfy these performance obligations evenly using a time-elapsed output method over the contract term given there is no discernible pattern of performance. Upon renewal of the PCS contract by the customer, we recognize revenues ratably on a straight-line basis over the period specified in the PCS contract. All of our software customers purchase software maintenance and support contracts and renew such contracts annually.

Certain initial software contracts contain specified future service elements for scheduled completion following the implementation, and related recognition, of the initial license. In these instances, after the initial license recognition, where distinct future performance obligations are identified in the contract and we could reliably measure the completion of each identified performance obligation, we have recognized revenue at the time the individual performance obligation was completed.

Purchases of additional licenses for tier upgrades or additional modules are generally recognized as license revenue in the period in which the purchase is made for perpetual licenses or ratably over the remaining contract term for non-perpetual licenses.

Services provided under standalone contracts that are optional to the customer and are outside of the scope of the initial contract are single element services contracts. These standalone services contracts are not essential to the functionality of the software contained in the initial contract and generally do not include acceptance clauses or refund rights as may be included in the initial software contracts, as described above. Revenues from these services contracts, which are generally performed within a relatively short period of time, are recognized when the services are complete or in some cases as the services are provided. These revenues generally re-occur as contracts are renewed. Payment terms for professional services may be based on an upfront fixed fee with the remainder due upon completion or on a time and materials basis.

For contracts for licensed software which include an initial fee plus recurring monthly fees for software usage, maintenance and support, we recognize the total fees ratably on a straight-line basis over the estimated life of the contract as services revenue.

Revenues from processing services are typically volume- or activity-based depending on factors such as the number of accounts processed, number of accounts on the system, number of hours of services or computer resources used. For processing services which include an initial fee plus recurring monthly fees for services, we recognize the initial fees ratably on a straight-line basis over the estimated life of the contract as services revenue. The payment terms may include tiered pricing structures with the base tier representing a minimum monthly usage fee. For processing services revenues, we stand ready to provide continuous access to our processing platforms and perform an unspecified quantity of outsourced and transaction-processing services for a specified term or terms. Accordingly, processing services are generally viewed as a stand-ready performance obligation comprised of a series of distinct daily services. We typically satisfy our processing services performance obligations over time as the services are provided.

Technology or service components from third parties are frequently embedded in or combined with our products or service offerings. We are often responsible for billing the client in these arrangements and transmitting the applicable fees to the third party. We determine whether we are responsible for providing the actual product or service as a principal, or for arranging for the solution or service to be provided by the third party as an agent. Judgment is applied to determine whether we are the principal or the agent by evaluating whether we have control of the product or service prior to it being transferred to the customer. The principal versus agent assessment is performed at the performance obligation level. Indicators that we consider in determining if we have control include whether we are primarily responsible for fulfilling the promise to provide the specified product or service to the

customer, whether we have inventory risk and discretion in establishing the price the customer ultimately pays for the product or service. Depending upon the level of our contractual responsibilities and obligations for delivering solutions to end customers, we have arrangements where we are the principal and recognize the gross amount billed to the customer and other arrangements where we are the agent and recognize the net amount retained.

Revenue is recorded net of applicable sales tax.

Deferred Revenue – Deferred revenue consists of advance payments by software customers for annual or quarterly PCS, advance payments from customers for software licenses and professional services not yet delivered, and initial implementation payments for processing services or bundled license and support services in multi-year contracts. We do not anticipate any loss under these arrangements. Deferred revenue is classified as long-term until such time that it becomes likely that the services or products will be provided within 12 months of the balance sheet date.

Cost of Revenue – For cost of revenue for software contracts, we capitalize the contract specific direct costs, which are included in other current assets and other long-term assets on the Consolidated Balance Sheets, and recognize the costs when the associated revenue is recognized. Cost of revenue for services includes direct cost of services rendered, including reimbursed expenses, pass-through third party costs, and data center, network association and compliance costs for processing services. We also capitalize the initial implementation fees for processing services contracts and recognize the costs over the life of the contract, when the corresponding revenue is recognized.

Software Development Expense – Research and development costs are expensed in the period in which they are incurred. Contract specific software development costs are capitalized and recognized when the related contract revenue is recognized.

Warranty Costs – The warranty related to software license contracts consists of a defined number of months (usually three) of PCS after the go-live date, which is accrued as of the go-live date and recognized over the warranty period.

Legal Expense – Legal expenses for continuing operations are recorded as a component of general and administrative expense in the period in which such expenses are incurred.

Research and Development – Research and development costs consist principally of compensation and benefits paid to certain company employees and certain other direct costs. All research and development costs are expensed as incurred.

Stock Based Compensation – We record compensation cost related to unvested stock-based awards by recognizing the unamortized grant date fair value on a straight line basis over the vesting periods of each award. We have estimated forfeiture rates based on our historical experience. Stock option compensation expense for the years ended December 31, 2018 and 2017 has been recognized as a component of general and administrative expenses in the accompanying Consolidated Financial Statements. We recorded \$62,000 and \$52,000 of stock-based compensation expense for the years ended December 31, 2018 and 2017, respectively.

A total of 12,000 options and 17,000 options were granted in the years ended December 31, 2018 and 2017, respectively, pursuant to the 2011 Non-employee Directors Stock Option Plan. The fair value of each option granted in 2018 and 2017 has been estimated as of the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions:

Year ended December 31,	2018	2017
Risk free interest rate	1.91%	0.98%
Expected life of option in years	10	10
Expected dividend yield rate	0%	0%
Expected volatility	52%	52%

Under these assumptions, the weighted average fair value of options granted in 2018 and 2017 was \$4.86 and \$2.34 per share, respectively. The fair value of the grants is being amortized over the vesting period for the options. All of the company's stock-based compensation expense relates to stock options. The total remaining unrecognized compensation cost at December 31, 2018 related to unvested options was \$73,000 and is expected to be recognized in 2019 and 2020.

Income Taxes – We account for income taxes under the liability method. We record deferred income taxes using enacted tax laws and rates for the years in which the taxes are expected to be paid. Deferred income tax assets and liabilities are recorded based

on the differences between the financial reporting and income tax bases of assets and liabilities. We assess whether it is more likely than not that we will generate sufficient taxable income to realize our deferred tax assets. We record a valuation allowance, as necessary, to reduce our deferred tax assets to the amount of future tax benefit that we estimate is more likely than not to be realized.

We record tax benefits for positions that we believe are more likely than not of being sustained under audit examinations. We assess the potential outcome of such examinations to determine the adequacy of our income tax accruals. We recognize interest and penalties accrued related to unrecognized tax benefits in the provision for income taxes on our Consolidated Statements of Operations. We adjust our income tax provision during the period in which we determine that the actual results of the examinations may differ from our estimates or when statutory terms expire. Changes in tax laws and rates are reflected in our income tax provision in the period in which they occur.

Comprehensive Income (Loss) – Comprehensive income (loss) represents net income adjusted for the results of certain stockholders' equity changes not reflected in the Consolidated Statements of Operations. These items are accumulated over time as "accumulated other comprehensive loss" on the Consolidated Balance Sheet and consist primarily of net earnings/loss and foreign currency translation adjustments associated with foreign operations that use the local currency as their functional currency.

Accounting Pronouncements Adopted

Revenue Recognition. In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606) which amended the existing accounting standards for revenue recognition. ASU 2014-09 establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. The Company adopted ASU 2014-09 in the first quarter of 2018 using the full retrospective approach. Because the Company's primary source of revenues is from monthly transaction processing services and software maintenance and support services which are recognized monthly as incurred, as well as professional services which are performance obligation based, the impact on its consolidated financial statements is not material. For the twelve months ended December 31, 2017, the Company restated approximately \$123,000 in revenue and \$24,000 in cost of revenue for a net \$99,000 restatement to retained earnings. Additionally, we reclassified \$636,000 of products revenue to service revenue and \$209,000 of related cost of revenue from products cost of revenue to services cost of revenue based upon the associated performance obligations. The impact to the year ended December 31, 2017 was as follows:

<i>(in thousands)</i>	Dec. 31, 2017
Revenue	
Services	\$ 636
Products	(759)
Total net revenue	(123)
Cost of Revenue	
Services	209
Products	(233)
Total cost of revenue	(24)
Net Income (loss)	\$ (99)

Financial Instruments-Overall: Recognition and Measurement of Financial Assets and Financial Liabilities. In January 2016, the FASB issued ASU 2016-01 "Financial Instruments-Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities." The guidance requires equity investments in unconsolidated entities (other than those accounted for using the equity method of accounting) to be measured at fair value with changes in fair value recognized in net income. The amendments in this update also simplify the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment, eliminate the requirement for public business entities to disclose the method and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet and require these entities to use the exit price notion when measuring fair value of financial instruments for disclosure purposes. The adoption of ASU 2016-01 increases the volatility of our other income

(expense), net, as a result of the unrealized gain or loss from the remeasurement of our equity securities. For more information on our cost method investments, see Note 3, which we have concluded do not have a readily determinable fair value. We have elected to use the measurement alternative for our non-marketable equity securities, defined as cost adjusted for changes from observable transactions for identical or similar investments of the same issuer, less impairment.

Recent Accounting Pronouncements Not Yet Adopted:

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842) related to the accounting for leases. This pronouncement requires lessees to record most leases on their balance sheet, while expense recognition on the income statement remains similar to current lease accounting guidance. The guidance also eliminates real estate-specific provisions and modifies certain aspects of lessor accounting. Under the new guidance, lease classification as either a finance lease or an operating lease will determine how lease-related revenue and expense are recognized. The pronouncement is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2018. As of December 31, 2018, the Company's total lease commitments are approximately \$1,400,000. The adoption of this standard is not expected to have a material effect on the Company's operating results or financial condition.

2. OPTION AGREEMENT

On March 20, 2012, Intelligent Systems Corporation entered into an Option Agreement (the "Option Agreement") with Central National Bank, a national banking association ("CNB") granting to CNB the option to acquire from ISC five percent of ISC's equity ownership in CoreCard at an exercise price of one million dollars. The option expired, unexercised, on December 31, 2017. We entered into the Option Agreement in recognition of CNB's cooperation and contribution to building CoreCard's card processing business. During the year ended December 31, 2012, we recorded an expense of \$18,000 in the marketing category and carried a long-term liability of \$18,000 to recognize the financial impact of the Option Agreement. Upon expiration of the option at December 31, 2017, the liability of \$18,000 was reversed as income in the marketing category and the liability recorded at December 31, 2017 is \$0.

3. REVENUE

Disaggregation of Revenue

In the following table, revenue is disaggregated by type of revenue for the years ended December 31, 2018 and 2017:

Year ended December 31, (in thousands)	2018	2017
License	\$ 1,349	\$ 90
Professional services	11,041	3,509
Processing and maintenance	6,394	5,082
Third party	1,316	498
Total	\$ 20,100	\$ 9,179

Foreign revenues are based on the location of the customer. Revenues from customers by geographic areas for the years ended December 31, 2018 and 2017 are as follows:

Year ended December 31, (in thousands)	2018	2017
European Union	\$ 2,745	\$ 2,535
United States	17,355	6,644
Total	\$ 20,100	\$ 9,179

4. INVESTMENTS

At December 31, 2018 and 2017, our ownership interest in NKD Enterprises, LLC was 25.5 percent. We account for our investment by the equity method of accounting. The carrying value of NKD Enterprises, LLC is included in long-term investments and was \$0 as of December 31, 2018 due to losses incurred to date.

At December 31, (in thousands)	Carrying Value	
	2018	2017
NKD Enterprises, LLC	\$ --	\$ 25

In 2015, one of our investee companies in which we held a small equity stake, was sold to Cisco, Inc. We recognized a gain of \$2,034,000 against our carrying value of \$214,000 in 2015. Cash from the sale of \$2,248,000 was received in early January 2016. A portion of the sale proceeds was held in escrow for eighteen months for claims that the buyer may assert against the investee company. In the third quarter of 2017, the remaining cash held in escrow was released. Since we had no reasonable way to estimate the amount of escrow, if any, to be released to us at the initial time of the sale, no provision was previously recorded in the financial statements. We received cash of \$372,000, which was recognized as a gain in the third quarter of 2017.

On December 30, 2016 we signed an agreement to invest \$1,000,000 in a privately held technology company and program manager in the FinTech industry, with \$500,000 of the investment held in escrow to pay future fees to CoreCard pursuant to a Processing Agreement entered into by the parties. The investment was funded on January 4, 2017. In the quarter ended June 30, 2018, we recorded an impairment charge of \$250,000 to reduce the carrying value due to the investee's limited funding to support its operation and sales and marketing efforts. CoreCard remains in an ongoing business relationship with the company pursuant to a Processing Agreement and a Program Management Services Agreement. CoreCard is positioned to assume the program management aspects of the investee company if the need should arise to ensure their program(s) ongoing viability and the completion of the Processing Agreement with CoreCard.

In the quarter ended June 30, 2017, we recorded an impairment charge of \$90,000 to reduce the carrying value of our minority equity ownership in an investee company, a privately-held technology company in the FinTech industry. During the quarter ended June 30, 2017, the investee closed on a Series A preferred stock financing with higher preference to our Series Seed preferred stock which resulted in substantial dilution to our investment. Subsequently, in the quarter ended December 31, 2017, the investee sold its intellectual property and is winding down its operations. As such, we recorded an additional impairment charge of \$10,000 to fully write-down our minority equity ownership in the investee company to zero. Given the operational and contractual wind-down costs of the investee coupled with the Series A preferred stock preference to our Series Seed preferred stock, we concluded that a full write-down was warranted. CoreCard remains in an ongoing contractual business relationship with the company through the wind-down period pursuant to a Processing Agreement and anticipates receiving liquidated damages as contractually allowed per the Processing Agreement. CoreCard has recognized processing services revenue from the investee company greater than our investment.

In the quarter ended September 30, 2017, we sold shares in a tender offer for stock of one of our investee companies, a privately-held technology company in the FinTech industry. We sold approximately ninety-one percent of our shares. We recognized a gain of \$1,466,000 over our carrying value of \$98,000. We retained a small equity stake in the investee and CoreCard remains in an ongoing business relationship with the company pursuant to a Processing Agreement previously entered into by the parties.

5. ACCOUNTS RECEIVABLE AND CUSTOMER CONCENTRATIONS

At December 31, 2018 and 2017, our allowance for doubtful accounts was \$0. There were no charges against the allowance for doubtful accounts were in 2018 or 2017.

The following table indicates the percentage of consolidated revenue from continuing operations and year-end accounts receivable represented by each customer that represented more than 10 percent of consolidated revenue from continuing operations or year-end accounts receivable.

	Revenue		Accounts Receivable	
	2018	2017	2018	2017
Customer A	4.9%	9.3%	4.8%	15.2%
Customer B	13.2%	26.6%	13.9%	25.8%
Customer C	7.2%	11.9%	4.0%	9.0%
Customer D	3.8%	11.3%	0.1%	7.6%
Customer E	40.1%	--%	52.6%	--%

6. NOTES RECEIVABLE

On September 18, 2017, we entered into a Loan Agreement with a privately-held identity and professional services company with ties to the FinTech industry. We committed to lend up to \$1,500,000 and have advanced \$1,500,000 and \$1,250,000 as of December 31, 2018 and 2017, respectively. The loan bears interest at the rate of 6.0 percent annually with the maturity date for each Promissory Note on the fourth anniversary of funding of such Promissory Note, extendable by one additional year at the borrower's election. We are entitled to purchase, at a nominal price, certain Warrant Units in conjunction with each advance. In addition, during 2018, we advanced an additional \$550,000, on three separate simple Promissory Note(s) each bearing interest at the rate of 6.0 percent annually with the maturity date six months from the date of funding the Note. During the third and fourth quarter of 2018, we extended the maturity date by six months on a \$250,000 loan and \$225,000 loan.

In the quarter ended March 31, 2018, we entered into a Convertible Loan Agreement with a private limited India based company in the FinTech industry. We committed to lend up to \$435,000 with an initial advance of \$235,000. The loan bears interest at the rate of 5.0 percent annually with the maturity date on the third anniversary of funding of such Promissory Note. We are entitled to convert the principal on the initial note for up to ten percent ownership of shares of the company.

7. INCOME TAXES

The income tax provision from operations consists of the following:

Year ended December 31, (in thousands)	2018	2017
Current	\$ 284	\$ 28
Deferred	(280)	--
Total	\$ 4	\$ 28

Following is a reconciliation of estimated income taxes at the statutory rate from operations to estimated tax expense (benefit) as reported:

Year ended December 31,	2018	2017
Statutory rate	21%	35%
Change in valuation allowance	(21%)	(29%)
Effective rate	--%	6%

Net deferred tax assets consist of the following at December 31:

<i>(in thousands)</i>	2018	2017
Deferred tax assets:		
Federal, state and foreign loss carryforwards	\$ --	\$ 794
Deferred revenue	23	11
Federal and state tax credits	294	757
Other	438	402
Total deferred tax asset	755	1,964
Less valuation allowance	(475)	(1,964)
Net deferred tax asset	\$ 280	\$ --

Federal and state tax credits of \$294,000 included in the above table expire at various dates between 2033 and 2035.

On December 22, 2017, the U.S. federal government enacted the Tax Cuts and Jobs Act of 2017, which, among other provisions, decreases the maximum federal corporate income tax rate from 35% to 21% beginning January 1, 2018. ASC 740, Income Taxes, requires all deferred tax liabilities and assets to be adjusted for the effect of a change in tax rates by including such effect in income from continuing operations in the reporting period that includes the enactment date. In accordance with this guidance, the Company included a charge to tax expense to decrease the deferred tax asset for the year ended December 31, 2017 of approximately \$805,000 related to the decrease in the federal corporate income tax rate for future periods. This charge was offset with a change in the valuation allowance recorded related to deferred taxes.

We had a deferred tax asset of approximately \$0.8 million and \$2.0 million at December 31, 2018 and December 31, 2017, respectively. The deferred tax asset has been offset by a valuation allowance in 2018 and 2017 of \$0.5 million and \$2.0 million, respectively, because the company believes that it is more likely than not that the amount will not be realized. Due to utilization of net operating loss carryforwards and expected future profitability, we concluded that a valuation allowance was no longer needed on certain components of our deferred tax assets. However, we have maintained a valuation allowance on deferred tax assets resulting from unrealized capital losses as we are not able to conclude that it is more likely than not that these will be realized due to the unpredictability of future capital gains. No deferred taxes have been provided on temporary differences related to investments in foreign subsidiaries because these investments are considered to be permanent.

We have recognized tax benefits from all tax positions we have taken, and there has been no adjustment to any carry forwards (net operating loss or research and development credits) in the past two years. There were no unrecognized tax benefits as of December 31, 2018 and 2017. Our policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. There were no accrued interest or penalties associated with any unrecognized tax benefits, nor was any interest expense recognized during the periods presented. We have determined we have no uncertain tax positions.

We file a consolidated U.S. federal income tax return for all subsidiaries in which our ownership equals or exceeds 80%, as well as individual subsidiary returns in various states and foreign jurisdictions.

8. COMMITMENTS AND CONTINGENCIES

Leases – We have noncancellable operating leases for offices and data centers expiring at various dates through June 2022. Future minimum lease payments are as follows:

Year ended December 31, (in thousands)	
2019	\$ 552
2020	500
2021	284
2022	64
Total minimum lease payments	\$ 1,400

The above future minimum lease payments include a total of \$484,000 payable to a related party. See Note 12 for further discussion.

The above future minimum lease payments include \$199,000 for operating leases for our offshore subsidiaries located in Bhopal, India and Mumbai, India. The rental expense for these facilities is classified as Research and Development expense as the facilities are utilized to house the software development and testing activities of our offshore subsidiaries, and as such, are not included in rental expense in general and administrative expenses.

Rental expense for leased facilities related to domestic operations amounted to \$382,000 and \$383,000 in the years ended December 31, 2018 and 2017, respectively.

Legal Matters – There are no pending or threatened legal proceedings. However, in the ordinary course of business, from time to time we may be involved in various pending or threatened legal actions. The litigation process is inherently uncertain and it is possible that the resolution of such matters might have a material adverse effect upon our financial condition and/or results of operations. We accrue for unpaid legal fees for services performed to date.

9. POST-RETIREMENT BENEFITS

Effective January 1, 1992, we adopted the Outside Directors' Retirement Plan which provides that each non-employee director, upon resignation from the Board of Directors after reaching the age of 65, will receive a cash payment equal to \$5,000 for each full year of service as a director of the Company (and its predecessors and successors) up to \$50,000. The plan was terminated in 2011. At December 31, 2018 and 2017, we have accrued \$50,000, which is included in other current liabilities in the Consolidated Balance Sheets, for future payments that were earned under the plan before it was terminated.

10. DEFINED CONTRIBUTION PLANS

We maintain a 401(k) defined contribution plan covering all U.S. employees. Our matching contributions, net of forfeitures, under the plan, which are optional and based on the level of individual participant's contributions, amounted to \$38,000 and \$37,000 in 2018 and 2017, respectively.

11. RELATED PARTY TRANSACTION

The lease on our headquarters and primary facility in Norcross, Georgia is held by ISC Properties, LLC, an entity controlled by our Chairman and Chief Executive Officer, J. Leland Strange. Mr. Strange holds a 100% ownership interest in ISC Properties, LLC. We paid rent of \$210,000 to ISC Properties, LLC in both years ended December 31, 2018 and 2017. We have determined that ISC Properties, LLC is not a variable interest entity.

12. STOCK OPTION PLANS

We instituted the 2003 Incentive Stock Plan (the "2003 Plan") in March 2003. The 2003 Plan authorized the issuance of up to 450,000 options to purchase shares of common stock to officers and key employees, with vesting of such options occurring equally over a 3-year time period. In 2013, the 2003 Plan expired with 197,500 options ungranted. In the year ended December 31, 2017, 60,000 options were exercised under the 2003 Plan. In June 2015, shareholders approved the 2015 Incentive Stock Plan (the "2015 Plan") which authorizes the issuance of up to 750,000 options to purchase shares of common stock to employees and key consultant and advisors. In 2018, 20,000 shares were exercised under the 2015 Plan. No grants were made in 2018 or 2017 under the 2015 Plan.

In August 2000, we instituted a Non-Employee Directors' Stock Option Plan (the "Directors Plan") that authorized the issuance of up to 200,000 shares of common stock to non-employee directors. Upon adoption of the Directors Plan, each non-employee director was granted an option to acquire 5,000 shares. At each Annual Meeting, each director receives a grant of 4,000 options, which vest in 50% increments on the first and second anniversary. The Directors Plan expired in 2011, with 60,000 options ungranted. The shareholders approved a new plan, the 2011 Non-Employee Directors Stock Plan (the "2011 Directors Plan"), in May 2011, with essentially the same terms and conditions as the Directors Plan. In the year ended December 31, 2018, 12,000 options were granted to non-employee members of our board of directors at the 2018 Annual Meeting pursuant to the 2011 Directors Plan. Additionally, in 2018, 12,000 shares were exercised under the Directors Plan and 8,000 shares were exercised under the 2011 Directors Plan.

Stock options under all plans are granted at an exercise price equal to fair value on the date of grant and vest over 2-3 years. As of December 31, 2018, a total of 1,314,500 options under all plans have been granted, 840,320 have been exercised, 266,680 have been cancelled, 179,000 are fully vested and exercisable and 28,500 are not vested. All options expire ten years from their respective dates of grant.

As of December 31, 2018, there was \$73,000 unrecognized compensation cost related to stock options granted under the plans, which is expected to be a recognized over a period of 1.5 years.

Stock option activity during the years ended December 31, 2018 and 2017 was as follows:

	2018	2017
Options outstanding at January 1	243,500	304,500
Options cancelled	(8,000)	(18,000)
Options exercised	(40,000)	(60,000)
Options granted	12,000	17,000
Options outstanding at December 31	207,500	243,500
Options available for grant at December 31	805,000	817,000
Options exercisable at December 31	179,000	206,500
Exercise price ranges per share:		
Granted	\$ 7.80	\$ 3.86
Exercised	\$ 0.69 - \$ 3.89	\$ 1.52 - \$ 1.72
Outstanding	\$ 0.69 - \$ 7.80	\$ 0.69 - \$ 3.89
Weighted average exercise price per share:		
Granted	\$ 7.80	\$ 3.86
Exercised	\$ 2.79	\$ 1.63
Outstanding at December 31	\$ 2.33	\$ 2.17
Exercisable at December 31	\$ 1.82	\$ 1.87

The following tables summarize information about the stock options outstanding under the company's option plans as of December 31, 2018.

Options Outstanding:				
Range of Exercise Price	Number Outstanding	Wgt. Avg. Contractual Life Remaining	Wgt. Avg. Exercise Price	Aggregate Intrinsic Value
\$0.69 - \$1.72	150,500	3.0 yrs	\$ 1.53	\$ 1,714,670
\$2.97 - \$7.80	57,000	7.9 yrs	\$ 4.44	\$ 483,120
\$0.69 - \$7.80	207,500	4.4 yrs	\$ 2.33	\$ 2,197,790
Options Exercisable:				
Range of Exercise Price	Number Exercisable	Wgt. Avg. Contractual Life Remaining	Wgt. Avg. Exercise Price	Aggregate Intrinsic Value
\$0.69 - \$1.72	150,500	3.0 yrs	\$ 1.53	\$ 1,714,670
\$2.97 - \$7.80	28,500	7.3 yrs	\$ 3.36	\$ 272,490
\$0.69 - \$7.80	179,000	3.7 yrs	\$ 1.82	\$ 1,987,160

Aggregate intrinsic value represents the total pre-tax intrinsic value (the difference between the company's closing stock price on the last trading day of the year ended December 31, 2018 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on December 31, 2018. The amount of aggregate intrinsic value will change based on the fair value of the company's common stock.

13. FOREIGN OPERATIONS

In 2003, we established a subsidiary of CoreCard Software in Romania for software development and testing activities. In 2006, we established a subsidiary in India for additional software development and testing activities as well as support for processing operations. With the exception of a facility in India which was acquired in 2007 to house our India-based employees and which had a net book value of \$175,000 and \$176,000 at December 31, 2018 and 2017, respectively, substantially all long-lived assets are in the United States.

At December 31, 2018 and 2017, continuing operations of foreign subsidiaries had assets of \$1,094,000 and \$589,000, respectively, and total liabilities of \$711,000 and \$675,000, respectively. The majority of these assets and liabilities are in India. There are no currency exchange restrictions related to our foreign subsidiaries that would affect our financial position or results of operations. Refer to Note 1 for a discussion regarding how we account for translation of non-U.S. currency amounts.

14. INDUSTRY SEGMENTS

Management considers our subsidiaries, consisting of CoreCard and its affiliate companies, to be one operating segment. Historically, we have described this industry segment as Information Technology Products and Services but as our company and the financial software and services industries have evolved, we now consider the financial transaction solutions and services (“FinTech”) industry segment to be more appropriate.

15. EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income attributable to Intelligent Systems Corporation (numerator) by the weighted average number of common shares outstanding (denominator) during the period and excludes the dilutive effect of stock options. Diluted earnings per share gives effect to all dilutive potential common shares outstanding during a period. In computing diluted income per share, the average stock price for the period is used in determining the number of shares assumed to be reacquired under the treasury stock method for the hypothetical exercise of stock options.

The following tables represent required disclosure of the reconciliation of the income (loss) and the shares used in the basic and diluted income (loss) per share computation:

Year ended December 31, (in thousands, except per share data)	2018	2017
Basic		
Net income attributable to Intelligent Systems Corporation	\$ 6,244	\$ 374
Weighted average common shares outstanding	8,796	8,766
Earnings per share	\$ 0.71	\$ 0.04
Diluted		
Net income (loss) attributable to Intelligent Systems Corporation	\$ 6,244	\$ 374
Weighted average common shares outstanding	8,796	8,766
Effect of dilutive potential common shares: stock options	152	116
Total	8,948	8,882
Earnings per share	\$ 0.70	\$ 0.04

At December 31, 2018 and 2017, respectively, there were 152,000 and 116,000 dilutive stock options exercisable.
