FINANCE DIRECTOR'S REPORT

NET ASSET VALUE ('NAV')

The reported NAV as at 31 December 2013 is presented below:

			Variation since 31 December 2012 (pro forma)[1]		Variation since 30 June 2013	
	€	GBP	€	GBP	€	GBP
Total NAV before DITL (millions)	604	504	(6.0)%	(4.0)%	(1.5)%	(3.8)%
Total NAV after DITL (millions)	524	437	(9.0)%	(7.1)%	(2.2)%	(4.5)%
NAV per share before DITL	0.94	0.78	(6.0)%	(4.0)%	(1.5)%	(3.8)%
NAV per share after DITL	0.82	0.68	(9.0)%	(7.1)%	(2.2)%	(4.5)%

Notes:

1. Total NAV variation percentages have been calculated using the pro forma consolidated balance sheet as at 31 December 2012 (adjusted to reflect Venus Rock fair value equal to the sales price agreed with CGIG).

- Euro/GBP rate 0.83478 as at 31 December 2013, 0.81737 as at 31 December 2012 and 0.85482 as at 30 June 2013.
- Euro/USD rate 1.3766 as at 31 December 2013, 1.3215 as at 31 December 2012 and 1.3007 as at 30 June 2013.
- NAV per share has been calculated on the basis of 642,440,167 issued shares as at 31 December 2013, 31 December 2012 and as at 30 June 2013.
- NAV before DITL includes the 49.8% DITL of Aristo.

Consistent with the Company's valuation policy, the entire portfolio was revalued as at 31 December 2013, which resulted in a net increase in the overall portfolio valuation. More specifically, there were revaluation gains in The Porto Heli Collection components, Playa Grande Club & Reserve, Pearl Island, Scorpio Bay, Apollo Heights Polo Resort and Lavender Bay Resort. Another factor that contributed to NAV growth was the gain from the acquisition of an additional 31% stake in Plaka Bay Resort. NAV decline during 2013 was broadly driven by a valuation markdown in Sitia Bay Golf Resort, a small reduction in the Aristo portfolio, as well as the regular Dolphin operational and corporate expenses and the depreciation of the Americas properties in Euro terms due to devaluation of the United States Dollar against the Euro by 4.3%. NAV after DITL further decreased due to the increase of income tax rates in Greece (26% from 20%) and Cyprus (12.5% from 10%).

Sterling NAV per share before DITL as at 31 December 2013 decreased by 4.0% to 78p, compared to the pro forma 31 December 2012, as the effect of the above factors was partially counterbalanced by c. 2.1% Sterling devaluation versus the Euro, during the period.

The reduction in the NAV after DITL resulted in an accounting loss of €112 million, for the year ended 31 December 2013, implying a loss per share of €0.17. The pro forma loss per share, adjusted to reflect Venus Rock fair value equal to the sales price agreed with CGIG, is reduced to €0.09.

The 31 December 2013 reported NAV is primarily based on new valuations conducted by Colliers International for Playa Grande Club & Reserve, Pearl Island, Port Kundu Resort, La Vanta Resort and Livka Bay Resort. The valuations on the Company's portfolio in Greece and Cyprus were conducted by American Appraisal (www.american-appraisal.com).

FINANCIAL POSITION

Pro forma condensed consolidated statement of financial position

	31 December 2013 €'000	Pro forma 31 December 2012* €'000	31 December 2012 €'000
ASSETS			
Real estate assets (investment and trading properties)	631,920	579,609	579,609
Equity accounted investees	204,346**	219,392**	285,560**
Other assets	38,908	50,046	50,046
Cash and cash equivalents	7,100	22,181	22,181
Total assets	882,274	871,228	937,396
EQUITY			
Equity attributable to Dolphin shareholders before DITL	603,765**	642,432**	708,600**
Non-controlling interests	24,504	32,293	32,293

LIABILITIES			
Interest-bearing loans and finance lease obligations	177,245	140,351	140,351
Other liabilities	76,760	56,152	56,152
Total liabilities	254,005	196,503	196,503
Total equity and liabilities	882,274	871,228	937,396

Note:
* Consolidated statement of financial position has been adjusted to reflect Venus Rock sale price.
** Amounts include the 49.8% DITL of Aristo.

The Company's NAV before DITL, after deducting from total consolidated assets, non-controlling interests of €25 million, other liabilities of €77 million and total debt of €177 million, is set at €604 million as at 31 December 2013.

The Company's consolidated assets total €882 million and include €632 million of real estate assets, €204 million of investments in equity accounted investees and €46 million of other assets and cash. The €632 million figure represents the fair market valuation of Dolphin's real estate portfolio (both freehold and leasehold interests) as at 31 December 2013, assuming 100% ownership. The €204 million figure represents the 49.8% investment in Aristo and the 25% stake in Nikki Beach. The €39 million of other assets comprise mainly €8 million of VAT receivable, €4 million of deferred income tax assets and €4 million other receivables from customers and JV partners.

The Company's consolidated liabilities total €254 million and comprise €77 million of other liabilities as well as €177 million of interest-bearing loans and finance lease obligations, out of which €50 million and US$9.17 million convertible bonds are held at Company level. The remaining loans are held by Group subsidiaries and are non-recourse to Dolphin (except for the US$31 million Playa Grande convertible Bond and the US$19 million Playa Grande construction loan, which are guaranteed by the Company). The €77 million of other payables comprise mainly €24 million of option contracts to acquire land, €7.6 million deferred income from government grants and €5.1 million advances from villa sales.

The consolidated financial statements have been audited by KPMG.

Panos Katsavos
Finance Director
Dolphin Capital Partners
26 March 2014

BOARD OF DIRECTORS

ROLE

Dolphin's Board of Directors (the 'Board') is the Company's absolute decision-making body approving and disapproving all investment activity proposed by the Investment Manager. The Board is responsible for acquisitions and divestments, major capital expenditures and focuses upon the Company's long-term objectives, strategic direction and dividend policy.

COMPOSITION

The Board of Directors of the Company comprises five independent Non-Executive Directors, Miltos Kambourides and David B. Heller. The biographical details of all the Directors are given here.

ANDREAS PAPAGEORGHIOU
Non-executive Chairman, aged 81

A practising lawyer and the managing partner of A. N. Papageorghiou and Associates Law Offices in Nicosia, Cyprus. Mr. Papageorghiou was called to the English Bar in 1959 (Gray's Inn) and he subsequently practised law from 1959 to 1963. From 1963 to 1978, Mr. Papageorghiou was internal legal adviser and subsequently senior manager of Legal & Trustee Services of the Bank of Cyprus group of companies. From 1978 to 1980, he was the Minister of Commerce & Industry of the Republic of Cyprus and from 1981 to 1993, he was the general manager of the Cyprus Housing Finance Corporation.

ANTONIOS ACHILLEOUDIS
Non-executive Director, aged 45

Antonios Achilleoudis is a Founding Partner, Director and member of the Executive Committee of Axia Ventures Group with over 17 years of experience on Wall Street with capital markets and alternative investments expertise. Prior to Axia Ventures Group, Antonios was a Director of Axia Ventures Ltd, an alternative investment and corporate finance advisory boutique focusing on global institutions, corporate clients and family offices. Prior to Axia Ventures Ltd, Antonios was a Vice President of Investments at Gruntal & Co in New York overlooking portfolio investments for institutions and family offices. Antonios is a member of the board of Directors of Dolphin Capital Investors and Aisi Realty Public, both London Stock Exchange listed companies. He is a graduate of New York University, Stern School of business, with a BSc in Accounting and Finance.

CEM DUNA
Non-executive Director, aged 67

The president of AB Consultancy and Investment Services, a leading Turkish consultancy company. Mr. Duna was previously Ambassador and Permanent Delegate of Turkey to the European Union between 1991 and 1995. During this period, he led the negotiations for the formation of the Customs Union. Mr. Duna was also the Ambassador and Permanent Delegate of Turkey to the United Nations Offices in Geneva and the Chief Negotiator in the GATT Uruguay Round Multilateral Trade negotiations. He also spent four years as the late President Turgut Ozal's Foreign Policy Adviser between the years 1985 and 1988 when Mr. Ozal was the Prime Minister of Turkey. Mr. Duna served at various diplomatic levels in capitals that included Copenhagen, The Hague, Jeddah and London through his career in the Foreign Ministry. He was the Director General of the Turkish Radio and Television between 1988 and 1989. Mr. Duna is also the Vice Chairman of WWF Turkey and Chairman of the External Relations Committee of the Turkish Football Federation.

ROGER LANE-SMITH
Non-executive Director, aged 69

A non-executive director of a number of UK quoted companies including the chairmanship of JJB Sports Plc. Until April 2005, Mr. Lane-Smith was executive chairman and senior partner of DLA Piper LLP, a major global Professional Services firm, which under his leadership grew through acquisition and geographical expansion to global revenues exceeding US$1.5 billion.

CHRISTOPHER PISSARIDES
Non-executive Director, aged 65

A Professor of Economics at the London School of Economics and holder of the Norman Sosnow Chair in Economics. He received the 2010 Nobel Prize in Economics, jointly with Peter A. Diamond and Dale Mortensen. Professor Pissarides was elected President of the European Economic Association in 2011 and is an elected Fellow of the British Academy, the Econometric Society, the European Economics Association and the Society of Labor Economists. He has served on the European Employment Task Force (2003) and has been a consultant on employment policy and other labour issues for the World Bank, the European Commission, the Bank of England and the OECD. He is currently an Independent non-executive Director of Russian Commercial Bank (Cyprus) and Russian Commercial Bank (Jersey).

DAVID B. HELLER
Non-independent Director, aged 46

Mr David B. Heller is a private investor whose holdings include stakes in the Philadelphia 76ers and the Standard East Village hotel. He is a former Co-Head of the Goldman Sachs Global Securities Division where he sat on the firm's Management Committee, Risk Committee, Business Practices Committee and Finance Committee. David joined Goldman in 1989 in New York as an equity derivatives trader. He worked for Goldman in Japan from 1993 to 1998, initially as an equity derivatives trader and latterly as the co-head of Goldman's Japanese equity business. David transferred to London in 1999 to become the global head of equity derivatives trading and returned to New York in 2002. In 2006 he was named global head of equity trading. He retired from Goldman in March, 2012.

MILTOS KAMBOURIDES
Non-independent Director, aged 41

The Founder and Managing Partner of Dolphin Capital Partners ('DCP'). Miltos was previously a founding member of Soros Real Estate Partners ('SREP'). A global real estate private equity business, SREP was formed in 1999 by George Soros. During Miltos' tenure, the company raised a US$1 billion fund and executed a number of complex real estate transactions in Western Europe and Japan, including a significant investment in several masterplanned leisure-integrated residential community developments in Spain.

He was the deal leader and a founder of Mapeley Ltd, which went on to become the second largest real estate outsourcing company in the UK after winning two major 20-year multi-billion GBP contracts: one with the Inland Revenue and Customs & Excise Departments of the UK and one with the Abbey National bank.

Before joining Soros, Miltos spent two years at Goldman Sachs working on real estate private equity transactions in the UK, France and Spain. In 1998, he received a Goldman Sachs Global Innovation award for his work on creating Trillium, the largest real estate outsourcing company in the UK.

Miltos graduated from the Massachusetts Institute of Technology with a BS and MS in Mechanical Engineering and a BS in Mathematics. He has received several academic honours and participated twice in the International Math Olympiad (Beijing 1990, Moscow 1992) and once in the Balkan Math Olympiad (Sofia 1990) where he received a bronze medal.

Miltos is a member of the World Travel & Tourism Council. Since 2008 he sponsors the Kambourides Graduate Fellowship in the Center for Computational Engineering at MIT.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF DOLPHIN CAPITAL INVESTORS LIMITED

REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

We have audited the consolidated financial statements of Dolphin Capital Investors Limited (the 'Company') and its subsidiaries (together with the Company, the 'Group') on pages 5 to 44, which comprise the consolidated statement of financial position as at 31 December 2013, and the consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

BOARD OF DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Board of Directors is responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards ('IFRS') as adopted by the European Union ('EU'), and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the financial position of Dolphin Capital Investors Limited and its subsidiaries as at 31 December 2013, and of their financial performance and their cash flows for the year then ended in accordance with IFRS as adopted by the EU. This report, including the opinion, has been prepared for and only for the Company's members as a body and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whose knowledge this report may come to.

CONSOLIDATED STATEMENT OF CASH FLOWS

FOR THE YEAR ENDED 31 DECEMBER 2013

	31 December 2013 €'000	31 December 2012 €'000
CASH FLOWS FROM OPERATING ACTIVITIES		
Loss for the year	(112,874)	(42,715)
Adjustments for:		
Valuation (gain)/loss on investment property	(22,605)	11,751
Impairment loss on trading properties	970	2,684
Reversal of impairment loss on trading properties	(778)	(1,158)
Impairment loss on property, plant and equipment	342	15,401
Reversal of impairment loss on property, plant and equipment	(117)	(4,794)
Depreciation charge	2,447	1,758
Interest income	(417)	(700)
Fair value adjustment on investments at fair value through profit or loss	–	(5)
Interest expense	12,308	20,661
Exchange difference	5,278	298
Gain on disposal of investment in subsidiaries	–	(44,675)
Share of losses on equity accounted investees, net of tax	77,239	9,484
Taxation	11,256	(1,936)
	(26,951)	(33,946)
Changes in:		
Receivables	14,247	(4,552)
Payables	20,595	(2,266)
Cash used in operating activities	7,891	(40,764)
Tax paid	(276)	(166)
Net cash from/(used in) operating activities	**7,615**	**(40,930)**
CASH FLOWS FROM INVESTING ACTIVITIES		
Proceeds from disposal of subsidiaries, net of cash disposed of	–	36,961
Net acquisitions of investment property	(343)	(2,327)
Net acquisitions of property, plant and equipment	(25,598)	(16,726)
Acquisitions of available-for-sale financial assets	(1,944)	–
Net change in trading properties	(16,869)	3,727
Net change in equity accounted investees	–	(289)
Interest received	417	700
Net cash (used in)/from investing activities	**(44,337)**	**22,046**
CASH FLOWS FROM FINANCING ACTIVITIES		
Proceeds from issue of share capital	–	48,339
Funds received from non-controlling interests	254	953
Acquisition of non-controlling interests without a change in control	(3,400)	(512)
Change in loans and borrowings	36,955	15,043
Change in finance lease obligations	(113)	(543)
Interest paid	(12,308)	(20,661)
Net cash from financing activities	**21,388**	**42,619**
Net (decrease)/increase in cash and cash equivalents	**(15,334)**	**23,735**
Cash and cash equivalents at the beginning of the year	19,993	(3,607)
Effect of exchange rate fluctuations on cash held	202	(135)
Cash and cash equivalents at the end of the year	**4,861**	**19,993**
For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of the following:		
Cash in hand and at bank (see note 18)	7,100	22,181
Bank overdrafts (see note 20)	(2,239)	(2,188)
Cash and cash equivalents at the end of the year	**4,861**	**19,993**

The notes on pages 10 to 44 are an integral part of these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. REPORTING ENTITY

Dolphin Capital Investors Limited (the 'Company') was incorporated and registered in the British Virgin Islands ('BVIs') on 7 June 2005. The Company is a real estate investment company focused on early-stage, large-scale leisure-integrated residential resorts in south-east Europe and the Americas, and managed by Dolphin Capital Partners Limited (the 'Investment Manager'), an independent private equity management firm that specialises in real estate investments, primarily in south-east Europe. The shares of the Company were admitted to trading on the AIM market of the London Stock Exchange ('AIM') on 8 December 2005.

The consolidated financial statements of the Company as at 31 December 2013 comprise the financial statements of the Company and its subsidiaries (together referred to as the 'Group') and the Group's interests in associates and jointly controlled entities.

The consolidated financial statements of the Group as at and for the year ended 31 December 2013 are available at www.dolphinci.com.

2. BASIS OF PREPARATION

a. Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ('IFRS') as adopted by the European Union ('EU').

The consolidated financial statements were authorised for issue by the Board of Directors on 24 March 2014.

b. Basis of measurement

The consolidated financial statements have been prepared under the historical cost convention, with the exception of property (trading properties, only on a business combination) and available-for-sale financial assets, which are stated at their fair values and investments in associates and jointly controlled entities, which are accounted for in accordance with the equity method of accounting.

c. Adoption of new and revised standards and interpretations

As from 1 January 2013, the Group adopted all changes to IFRS which are relevant to its operations. This adoption did not have a material effect on the consolidated financial statements of the Company other than the disclosures effect explained below:

(a) IFRS 13 fair value measurement

IFRS 13 establishes a single framework for measuring fair value and making disclosures about fair value measurements when such measurements are required or permitted by other IFRS. It unifies the definition of fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It replaces and expands the disclosure requirements about fair value measurements in other IFRS, including IFRS 7. As a result, the Group has included additional disclosures in this regard.

In accordance with the transitional provisions of IFRS 13, the Group has applied the new fair value measurement guidance prospectively and has not provided any comparative information for new disclosures. Notwithstanding the above, the change had no significant impact on the measurements of the Group's assets and liabilities.

(b) Presentation of items of other comprehensive income (amendments to IAS 1)

As a result of the amendments to IAS 1, the Group has modified the presentation of items of other comprehensive income in its statement of profit or loss and other comprehensive income, to present separately items that would be reclassified to profit or loss from those that would never be. Comparative information has been re-presented accordingly.

The following standards, amendments to standards and interpretations have been issued but are not yet effective for annual periods beginning on 1 January 2013. Those which may be relevant to the Group are set out below. The Group does not plan to adopt these standards early. The Board of Directors expects that their adoption in future periods will not have a significant effect on the consolidated financial statements of the Company.

(i) Standards and interpretations adopted by the EU

- IFRS 10 'Consolidated Financial Statements' (effective for annual periods beginning on or after 1 January 2014).
- IFRS 11 'Joint Arrangements' (effective for annual periods beginning on or after 1 January 2014).
- IFRS 12 'Disclosure of Interests in Other Entities' (effective for annual periods beginning on or after 1 January 2014).
- Transition Guidance – Amendments to IFRS 10, 11 and 12 (effective for annual periods beginning on or after 1 January 2014).
- Investment Entities – Amendments to IFRS 10, 12 and IAS 27 (effective for annual periods beginning on or after 1 January 2014).
- IAS 28 (Revised) 'Investments in Associates and Joint Ventures' (effective for annual periods beginning on or after 1 January 2014).
- IAS 32 (Amendments) 'Offsetting Financial Assets and Financial Liabilities' (effective for annual periods beginning on or after 1 January 2014).
- IAS 36 (Amendments) 'Recoverable Amount Disclosures for Non-Financial Assets' (effective for annual periods beginning on or after 1 January 2014).
- IAS 39 (Amendments) 'Novation of Derivatives and Continuation of Hedge Accounting' (effective for annual periods beginning on or after 1 January 2014).

2. BASIS OF PREPARATION CONTINUED

(ii) Standards and interpretations not adopted by the EU

- IFRS 7 (Amendments) 'Financial Instruments: Disclosures' – 'Disclosures on transition to IFRS 9' (effective for annual periods beginning on or after 1 January 2015).
- IFRS 9 'Financial Instruments' (effective for annual periods beginning on or after 1 January 2015).
- IFRS 9 'Financial Instruments: Hedge accounting and Amendments to IFRS 9, IFRS 7 and IAS 39)' (effective for annual periods beginning on or after 1 January 2015).
- IFRS 14 'Regulatory Deferral Accounts' (effective for annual periods beginning on or after 1 January 2016).
- Improvements to IFRSs 2010-2012 (effective for annual periods beginning on or after 1 July 2014).
- Improvements to IFRSs 2011-2013 (effective for annual periods beginning on or after 1 July 2014).
- IFRIC 21 'Bank Levies' (effective for annual periods beginning on or after 1 January 2014).

d. Use of estimates and judgements

The preparation of consolidated financial statements in accordance with IFRS requires from Management the exercise of judgement, to make estimates and assumptions that influence the application of accounting principles and the related amounts of assets and liabilities, income and expenses. The estimates and underlying assumptions are based on historical experience and various other factors that are deemed to be reasonable based on knowledge available at that time. Actual results may deviate from such estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are described below:

Work in progress

Work in progress is stated at cost plus any attributable profit less any foreseeable losses and less amounts received or receivable as progress payments. The cost of work in progress includes materials, labour and direct expenses plus attributable overheads based on a normal level of activity. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at each statement of financial position date.

Revenue recognition

The Group applies the provisions of IAS 18 for accounting for revenue from sale of developed property, under which income and cost of sales are recognised upon delivery and when substantially all risks have been transferred to the buyer.

Provision for bad and doubtful debts

The Group reviews its trade and other receivables for evidence of their recoverability. Such evidence includes the customer's payment record and the customer's overall financial position. If indications of irrecoverability exist, the recoverable amount is estimated and a respective provision for bad and doubtful debts is made. The amount of the provision is charged through the consolidated statement of comprehensive income. The review of credit risk is continuous and the methodology and assumptions used for estimating the provision are reviewed regularly and adjusted accordingly.

Income taxes

Significant judgement is required in determining the provision for income taxes. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Fair value measurement

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Significant unobservable inputs and valuation adjustments are regularly reviewed and changes in fair value measurements from period to period are analysed.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

2. BASIS OF PREPARATION CONTINUED

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

When applicable, further information about the assumptions made in measuring fair values is included in the notes specific to that asset or liability.

e. Functional and presentation currency

The consolidated financial statements are presented in euro (€), which is the functional currency of the Group, rounded to the nearest thousand.

3. DETERMINATION OF FAIR VALUES

Properties

The fair value of investment property and land and buildings classified as property, plant and equipment is determined at the end of each reporting period. External, independent valuation companies, having appropriate recognised professional qualifications and recent experience in the location and category of the properties being valued, value the Group's properties at the end of each year and where necessary, semi-annually and quarterly.

The Directors have appointed Colliers International and American Appraisal (Hellas), two internationally recognised firms of surveyors, to conduct valuations of the Group's acquired properties to determine their fair value. These valuations are prepared in accordance with generally accepted appraisal standards, as set out by the American Society of Appraisers (the 'ASA'), and in conformity with the Uniform Standards of Professional Appraisal Practice of the Appraisal Foundation and the Principles of Appraisal Practice and Code of Ethics of the ASA and the Royal Institute of Chartered Surveyors ('RICS'). Furthermore, the valuations are conducted on an 'as is condition' and on an open market comparative basis.

The valuation analysis of properties is based on all the pertinent market factors that relate both to the real estate market and, more specifically, to the subject properties. The valuation analysis of a property typically uses four approaches: the cost approach, the direct sales comparison approach, the income approach and the residual value approach. The cost approach measures value by estimating the Replacement Cost New or the Reproduction Cost New of property and then determining the deductions for accrued depreciation that should be made to reflect the age, condition and situation of the asset during its past and proposed future economic working life. The direct sales comparison approach is based on the premise that persons in the marketplace buy by comparison. It involves acquiring market sales/offerings data on properties similar to the subject property. The prices of the comparables are then adjusted for any dissimilar characteristics as compared to the subject's characteristics. Once the sales prices are adjusted, they can be reconciled to estimate the fair value for the subject property. Based on the income approach, an estimate is made of prospective economic benefits of ownership. These amounts are discounted and/or capitalised at appropriate rates of return in order to provide an indication of value. The residual value approach is used for the valuation of the land and depends on two basic factors: the location and the total value of the buildings developed on a site. Under this approach, the residual value of the land is calculated by subtracting from the estimated sales value of the completed development, the development cost.

Each of the above-mentioned valuation techniques results in a separate valuation indication for the subject property. Then a reconciliation process is performed to weigh the merits and limiting conditions of each approach. Once this is accomplished, a value conclusion is reached by placing primary weight on the technique, or techniques, that are considered to be the most reliable, given all factors.

Financial assets

The fair value of financial assets that are listed on a stock exchange is determined by reference to their quoted bid price at the reporting date. If the market for a financial asset is not active (and for unlisted securities), the Group establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same and discounted cash flow analysis, making maximum use of market inputs and relying as little as possible on entity specific inputs. Equity investments for which fair values cannot be measured reliably are recognised at cost less impairment.

Trade and other receivables

The fair value of trade and other receivables, excluding construction work in process, is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. For finance leases, the market rate of interest is determined by reference to similar lease agreements.

4. SIGNIFICANT SUBSIDIARIES

As at 31 December 2013, the Group's most significant subsidiaries were the following:

Name	Country of incorporation	Shareholding interest
Scorpio Bay Holdings Limited	Cyprus	100%
Scorpio Bay Resorts S.A.	Greece	100%
Latirus Enterprises Limited	Cyprus	80%
Iktinos Techniki Touristiki S.A. ('Iktinos')	Greece	78%
Xscape Limited	Cyprus	100%
Golfing Developments S.A.	Greece	100%
MindCompass Overseas Limited	Cyprus	100%
MindCompass Overseas S.A.	Greece	100%
MindCompass Overseas Two S.A.	Greece	100%
MindCompass Parks S.A.	Greece	100%
Ergotex Services Co. Limited	Cyprus	100%
D.C. Apollo Heights Polo and Country Resort Limited	Cyprus	100%
Symboula Estates Limited	Cyprus	100%
DolphinCI Fourteen Limited	Cyprus	86%
Eidikou Skopou Dekatessera S.A.	Greece	86%
Eidikou Skopou Dekaokto S.A.	Greece	86%
Portoheli Hotel and Marina S.A.	Greece	25%**
DCI Holdings Two Limited ('DCI H2')	BVIs	50%*
Dolphin Capital Atlantis Limited	Cyprus	50%*
Aristo Developers Limited ('Aristo')	Cyprus	50%*
Single Purpose Vehicle Twelve Limited	Cyprus	50%*
Azurna Uvala D.o.o. ('Azurna')	Croatia	100%
Eastern Crete Development Company S.A.	Greece	91%
DolphinLux 1 S.a.r.l.	Luxembourg	100%
DolphinLux 2 S.a.r.l.	Luxembourg	100%
Pasakoy Yapi ve Turizm A.S.	Turkey	100%
Kalkan Yapi ve Turizm A.S.	Turkey	100%
Dolphin Capital Americas Limited	BVIs	100%
DCI Holdings Seven Limited ('DCI H7')	BVIs	100%
Playa Grande Holdings Inc. ('PGH')	Dominican Republic	100%
Single Purpose Vehicle Eight Limited	Cyprus	100%
Eidikou Skopou Dekapente S.A.	Greece	100%
Single Purpose Vehicle Ten Limited ('SPV 10')	Cyprus	67%
Eidikou Skopou Eikosi Tessera S.A.	Greece	67%
Pearl Island Limited S.A.	Panama Republic	60%
Zoniro (Panama) S.A.	Panama Republic	60%

* On 22 June 2012, the Company exchanged 50% of its holding in these companies for the acquisition of 227 million own shares, under the Aristo Exchange agreement (see note 25.4).
** On 24 September 2012, the Company disposed of its 75% holding in Portoheli Hotel and Marina S.A. via the disposal of its 75% holding in Single Purpose Vehicle Five Limited ('SPV 5') (see note 25.4).

The above shareholding interest percentages are rounded to the nearest integer.

5. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all periods presented in these consolidated financial statements unless otherwise stated.

5.1 Subsidiaries

Subsidiaries are those entities, including special purpose entities, controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

5.2 Transactions eliminated on consolidation

Intra-group balances and any unrealised gains and losses arising from intra-group transactions are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with associates are eliminated to the extent of the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

5.3 Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, the Group takes into consideration potential voting rights that currently are exercisable.

The Group measures goodwill at the acquisition date as the fair value of the consideration transferred, plus the recognised amount of any non-controlling interests in the acquiree, plus if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree, less the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss. The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss. Costs related to the acquisition, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred. Any contingent consideration payable is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent consideration are recognised in profit or loss. The interest of non-controlling shareholders in the acquiree is initially measured at the non-controlling shareholders' proportion of the net fair value of the assets, liabilities and contingent liabilities recognised.

5.4 Associates and jointly controlled entities

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Significant influence is presumed to exist when the Group holds between 20% and 50% of the voting power of another entity. Joint ventures are those entities over whose activities the Group has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions. Associates and jointly controlled entities are accounted for using the equity method (equity accounted investees) and are initially recognised at cost. The Group's investment includes goodwill identified on acquisition, net of any accumulated impairment losses. The consolidated financial statements include the Group's share of the income and expenses and equity movements of equity accounted investees, after adjustments to align the accounting policies with those of the Group, from the date that significant influence or joint control commences until the date that significant influence or joint control ceases. When the Group's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest (including any long-term investments) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee.

5.5 Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of the business, use in the production or supply of goods or services or for administration purposes. Investment property is initially measured at cost and subsequently at fair value with any change therein recognised in profit or loss.

Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed investment property includes the cost of materials and direct labour, any other costs directly attributable to bringing the investment property to a working condition for their intended use and capitalised borrowing costs.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss. When an investment property that was previously classified as property, plant and equipment is sold, any related amount included in the revaluation reserve is transferred to retained earnings.

When the use of property changes such that it is reclassified as property, plant and equipment, its fair value at the date of reclassification becomes its cost for subsequent accounting.

A property interest under an operating lease is classified and accounted for as an investment property on a property-by-property basis when the Group holds it to earn rentals or for capital appreciation or both. Any such property interest under an operating lease classified as an investment property is carried at fair value. Lease payments are accounted for as described in accounting policy 5.9.

5. SIGNIFICANT ACCOUNTING POLICIES CONTINUED

5.6 Property, plant and equipment

Land and buildings are carried at fair value, based on valuations by external independent valuers, less subsequent depreciation for buildings. Revaluations are carried out with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the statement of financial position date. All other property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

Increases in the carrying amount arising on revaluation of property, plant and equipment are credited to fair value reserve in shareholders' equity. Decreases that offset previous increases of the same asset are charged against that reserve; all other decreases are recognised in profit or loss.

The cost of self-constructed assets includes the cost of materials, direct labour, the initial estimate, where relevant, of the costs of dismantling and removing the items and restoring the site on which they are located, and appropriate proportion of production overheads.

Depreciation charge is recognised in profit or loss on a straight-line basis over the estimated useful lives of items of property, plant and equipment, unless it constitutes part of the cost of another asset in which case is included in this asset's carrying amount. Freehold land is not depreciated.

The annual rates of depreciation are as follows:

Buildings	3%
Machinery and equipment	10% – 33.33%
Motor vehicles and other	10% – 20%

The Group recognises in the carrying amount of an item of property, plant and equipment the cost of replacing part of such an item when that cost is incurred if it is probable that the future economic benefits embodied with the item will flow to the Group and the cost of the item can be measured reliably. All other costs are recognised in profit or loss as incurred.

5.7 Trading properties

Trading properties (inventory) are shown at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of the business less the estimated costs of completion and the estimated costs necessary to make the sale. Cost of trading properties is determined on the basis of specific identification of their individual costs and represents the fair value paid at the date that the land was acquired by the Group.

5.8 Work in progress

Work in progress is stated at cost plus any attributable profit less any foreseeable losses and less amounts received or receivable as progress payments. The cost of work in progress includes materials, labour and direct expenses plus attributable overheads based on a normal level of activity.

5.9 Leased assets

Leases under the terms of which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Property held under operating leases that would otherwise meet the definition of investment property may be classified as investment property on a property-by-property basis. Such property is accounted for as if it were a finance lease and the fair value model is used for the asset recognised. Minimum lease payments on finance leases are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

5.10 Trade and other receivables

Trade and other receivables are stated at their cost less impairment losses (see accounting policy 5.21).

5.11 Financial assets

The classification of the Group's investments in equity securities depends on the purpose for which the investments were acquired. Management determines the classification of investments at initial recognition and re-evaluates this designation at every statement of financial position date.

(i) Financial assets at fair value through profit or loss

This category has two sub-categories: financial assets held for trading and those designated at fair value through profit or loss at inception. A financial asset is classified in the held for trading category if acquired principally for the purpose of generating a profit from short-term fluctuations in price. Assets in this category are classified as current assets if they are either held for trading or are expected to be realised within 12 months of the statement of financial position date. Realised and unrealised gains and losses arising from changes in the fair value of financial assets at fair value through profit or loss are included in the profit or loss in the period in which they arise.

5. SIGNIFICANT ACCOUNTING POLICIES CONTINUED

5.11 Financial assets continued

(ii) Available-for-sale financial assets

Investments intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, are classified as available for sale. These are included in non-current assets unless management has the express intention of holding the investment for less than 12 months from the reporting date or unless they will need to be sold to raise operating capital, in which case they are included in current assets. Unrealised gains and losses arising from changes in the fair value of available-for-sale financial assets are recognised in other comprehensive income and then in equity. When available-for-sale financial assets are sold or impaired, the accumulated fair value adjustments are included in profit or loss. In respect of available-for-sale equity securities, impairment losses previously recognised in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognised in other comprehensive income and accumulated under the heading of fair value reserve.

5.12 Cash and cash equivalents

Cash and cash equivalents comprise cash deposited with banks and bank overdrafts repayable on demand. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows.

5.13 Share capital and premium

Share capital represents the issued amount of shares outstanding at their par value. Any excess amount of capital raised is included in share premium. External costs directly attributable to the issue of new shares, other than on a business combination, are shown as a deduction, net of tax, in share premium from the proceeds. Share issue costs incurred directly in connection with a business combination are included in the cost of acquisition.

5.14 Own shares

When share capital recognised as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, net of any tax effects, is recognised as a reduction from equity. Repurchased shares are classified as own shares and are presented as a reduction from total equity. When own shares are sold or reissued subsequently, the amount received is recognised as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to share premium.

5.15 Dividends

Dividends are recognised as a liability in the period in which they are declared and approved and are subtracted directly from retained earnings.

5.16 Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value, less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in profit or loss over the period of the borrowings on an effective interest basis.

5.17 Trade and other payables

Trade and other payables are stated at their cost.

5.18 Prepayments from clients

Payments received in advance on development contracts for which no revenue has been recognised yet, are recorded as prepayments from clients as at the statement of financial position date and carried under creditors. Payments received in advance on development contracts for which revenue has been recognised, are recorded as prepayments from clients to the extent that they exceed revenue that was recognised in profit or loss as at the statement of financial position date.

5.19 Provisions

A provision is recognised in the consolidated statement of financial position when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

5.20 Expenses

Investment Manager fees, management incentive fees, professional fees, selling, administration and other expenses are accounted for on an accrual basis. Expenses are charged to profit or loss, except for expenses incurred on the acquisition of an investment property, which are included within the cost of that investment. Expenses arising on the disposal of an investment property are deducted from the disposal proceeds.

5. SIGNIFICANT ACCOUNTING POLICIES CONTINUED

5.21 Impairment

The carrying amounts of the Group's assets, other than investment property (see accounting policy 5.5) and deferred tax assets (see accounting policy 5.29), are reviewed at each statement of financial position date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amount is estimated. The recoverable amount is the greater of the net selling price and value in use of an asset. In assessing value in use of an asset, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to cash-generating units, and then to reduce the carrying amount of the other assets in the unit on a pro rata basis.

5.22 Revenue recognition

Revenue comprises the invoiced amount for the sale of goods and services net of value added tax, rebates and discounts. Revenues earned by the Group are recognised on the following bases:

Income from land and buildings under development

The Group applies IAS 18 'Revenue' for income from land and buildings under development, according to which revenue and the related costs are recognised in profit or loss when the building has been completed and delivered and all associated risks have been transferred to the buyer.

Construction contracts

Where the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the statement of financial position date, as measured by the proportion of contract costs incurred for work performed to date compared to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer.

Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

5.23 Finance income and costs

Finance income comprises interest income on funds invested, dividend income and gains on the disposal of and increase in the fair value of financial assets at fair value through profit or loss. Interest income is recognised as it accrues in profit or loss, using the effective interest method.

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions and losses on the disposal of and reduction in the fair value of financial assets at fair value through profit or loss.

The interest expense component of finance lease payments is recognised in profit or loss using the effective interest method.

5.24 Foreign currency translation

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the period. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognised in profit or loss.

5.25 Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to euro at exchange rates at the reporting date. The income and expenses of foreign operations, excluding foreign operations in hyperinflationary economies, are translated to euro at exchange rates at the dates of the transactions.

The income and expenses of foreign operations in hyperinflationary economies are translated to euro at the exchange rate at the reporting date. Prior to translating the financial statements of foreign operations in hyperinflationary economies, their financial statements for the current period are restated to account for changes in the general purchasing power of the local currency. The restatement is based on relevant price indices at the reporting date.

Foreign currency differences are recognised directly in equity in the foreign currency translation reserve. When a foreign operation is disposed of, in part or in full, the relevant amount in the foreign currency translation reserve is transferred to profit or loss.

5. SIGNIFICANT ACCOUNTING POLICIES CONTINUED

5.26 Segment reporting

A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. Segment results that are reported to Group's chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

5.27 Earnings per share

The Group presents basic and diluted (if applicable) earnings per share ('EPS') data for its shares. Basic EPS is calculated by dividing the profit or loss attributable to shareholders of the Company by the weighted average number of shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to shareholders and the weighted average number of shares outstanding for the effects of all dilutive potential shares.

5.28 NAV per share

The Group presents NAV per share by dividing the total equity attributable to owners of the Company by the number of shares outstanding as at the statement of financial position date.

5.29 Income tax

Income tax expense comprises current and deferred tax. Income tax expense is recognised in profit or loss, except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the statement of financial position date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised using the statement of financial position method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit, and differences relating to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future. In addition, deferred tax is not recognised for taxable temporary differences arising on the initial recognition of goodwill. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

In determining the amount of current and deferred tax, the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Group to change its judgement regarding the adequacy of existing tax liabilities; such changes to the tax liabilities will impact tax expense in the period that such a determination is made.

5.30 Government grants

Government grants are recognised when there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received. Government grants related to non-current assets are recognised as deferred income that is recognised in profit or loss on a systematic basis over the useful life of the asset. Government grants that relate to expenses are recognised in profit or loss as revenue.

5.31 Comparatives

Where necessary, comparative figures have been adjusted to conform to changes in presentation in the current year.

6. SEGMENT REPORTING

The Group has one operation, investing in real estate, and three reportable segments as shown below, which represent the geographical regions in which the Group operates.

	Americas[1] €'000	South-East Europe[2] €'000	Other[3] €'000	Reportable segment totals €'000	Adjustments[4] €'000	Consolidated totals €'000

Country risk developments

The general economic environment prevailing in the south-east Europe area and internationally may affect the Group's operations. Concepts such as inflation, unemployment, and development of the gross domestic product are directly linked to the economic course of every country and variation in these and the economic environment in general might affect the Group to a certain extent.

The global fundamentals of the sector remained strong during 2013, with both international tourism and wealth continuing to grow, even though economic activity in two of the Group's primary markets, Greece and Cyprus, continued to face significant challenges, with the most notable effect on the Group's businesses being the scarcity of senior bank debt to finance the construction of the development portfolio. However, the business climate is slowly but steadily improving in both regions, assisted by the legislative reforms implemented during the past year by both the Greek and the Cypriot governments.

After the escalation of the sovereign debt crisis in Greece in mid-2012 and the international media speculation involving scenarios of default and/or Greece's exit from the Eurozone, the country's economic conditions have significantly stabilised. Greek tourism has witnessed impressive growth during 2013 and, according to the Tourism Research Institute, reached 17.9 million in 2013, representing a historical record and an increase of almost 15.4% compared to 2012. 2014 is expected to set a new record according to pre-bookings and sentiment expressed by tour operators. The debt crisis has also been a catalyst in adopting a faster entitlement process for development projects in Greece. In particular, the introduction of the Strategic Investment incentive legislation in Greece, which should be applicable to most of the Group's local projects due to their quality, size and potential impact on the local economy, speeds up and improves zoning entitlements and building permits for Group residential resort projects in the country.

6. SEGMENT REPORTING CONTINUED

The crisis of sovereign debt affected the Cypriot economy with a time lag, causing negative effects not only on public finances but also in the banking system. Despite the fact that the Government tried to react promptly and effectively by preparing a fiscal consolidation programme, the country captured the world's attention earlier in 2013 as it fought hard to bounce back from the brink of bankruptcy through intense negotiations with international lenders. The so called 'bail in' decision of the Eurozone included imposing losses on depositors with amounts exceeding €100,000, a closed banking system for two weeks and extensive capital controls. The decision of the Eurozone was then followed by the resolution of Cyprus Popular Bank and the recapitalisation of the Bank of Cyprus. The recent decision by the Ministerial Council to reduce the investment amount requirements and accelerate Cypriot citizenship awards to buyers of real estate is expected to significantly increase sales momentum and margins at Aristo and increase the value and saleability of its larger projects. Significant value will also be unlocked through the expected zoning of the Apollo Heights Resort, following the agreement reached by the Cypriot and UK governments to permit for development such projects falling within the Sovereign British Areas.

7. OTHER OPERATING PROFITS

	From 1 January 2013 to 31 December 2013 €'000	From 1 January 2012 to 31 December 2012 €'000
Sale of trading and investment properties	219	28,003
Income from hotel operation	6,571	1,409
Income from operation of golf courses	112	241
Income from construction contracts	6,474	447
Rental income	367	385
Other profits	2,382	3,674
Cost of sales	(3,379)	(25,856)
Total	**12,746**	**8,303**

8. PERSONNEL EXPENSES

	From 1 January 2013 to 31 December 2013		From 1 January 2012 to 31 December 2012	
	Operating expenses €'000	Construction in progress €'000	Operating expenses €'000	Construction in progress €'000
Wages and salaries	5,204	99	6,295	946
Compulsory social security contributions	1,292	13	565	90
Contributions to defined contribution plans	1	–	173	19
Other personnel costs	477	13	870	39
Total	**6,974**	**125**	**7,903**	**1,094**

Personnel expenses in relation to operating expenses are expensed as incurred in profit or loss. Personnel expenses in relation to construction in progress are capitalised on the specific projects and transferred to profit or loss through cost of sales when the specific property is disposed of.

The average number of employees employed by the Group during the year was 317 (2012: 361 employees).

9. FINANCE INCOME AND FINANCE COSTS

	From 1 January 2013 to 31 December 2013 €'000	From 1 January 2012 to 31 December 2012 €'000
RECOGNISED IN PROFIT OR LOSS

10. TAXATION

	From 1 January 2013 to 31 December 2013 €'000	From 1 January 2012 to 31 December 2012 €'000
RECOGNISED IN PROFIT OR LOSS		
Income tax	290	217
Net deferred tax (see note 21)	10,966	(2,153)
Taxation recognised in profit or loss	**11,256**	**(1,936)**
RECOGNISED IN OTHER COMPREHENSIVE INCOME		
Revaluation of property, plant and equipment (see note 21)	(1,118)	1,735
Taxation recognised in other comprehensive income	**(1,118)**	**1,735**

Reconciliation of taxation based on tax loss and taxation based on Group's accounting loss

	From 1 January 2013 to 31 December 2013 €'000	From 1 January 2012 to 31 December 2012 €'000
Loss before taxation	(101,618)	(44,651)
Taxation using domestic tax rates	(600)	(983)
Non-deductible expenses and tax-exempt income	(442)	640
Effect of tax losses utilised	155	(48)
Effect of tax rate changes	5,592	–
Other	6,551	(1,545)
Total	**11,256**	**(1,936)**

As a company incorporated under the BVI International Business Companies Act (Cap. 291), the Company is exempt from taxes on profits, income or dividends. Each company incorporated in BVIs is required to pay an annual government fee, which is determined by reference to the amount of the company's authorised share capital.

The profits of the Cypriot companies of the Group are subject to a corporation tax rate of 12.50% (2012: 10%) on their total taxable profits. Tax losses of Cypriot companies are carried forward to reduce future profits for a period of five years. In addition, the Cypriot companies of the Group are subject to a 3% special contribution on rental income. Under certain conditions, interest income may be subject to special contribution at the rate of 30% (15% up to 28 April 2013). In such cases, this interest is exempt from corporation tax.

In Greece, the corporation tax rate applicable to profits is 26% (2012: 20%). Tax losses of Greek companies are carried forward to reduce future profits for a period of five years. In Turkey, the corporation tax rate is 20%. Tax losses of Turkish companies are carried forward to reduce future profits for a period of five years. In Croatia, the corporation tax rate is 20%. Tax losses of Croatian companies are carried forward to reduce future profits for a period of five years.

The Group's subsidiary in the Dominican Republic has been granted a 100% exemption on local and municipal taxes by the Dominican Republic's CONFOTUR (Tourism Promotion Council) for a period of 10 years, effective from the commencement of the construction of the project. In the Republic of Panama, the corporation tax rate is 25% and the capital gains tax rate is 10%. The Panamanian tax legislation further contemplates a method of taxation which involves a 3% advance on the tax, which is not calculated on the actual gain, but on the total value of the transfer or on the registered value of the property (whichever may be higher). In some instances, this 3% may be considered by the taxpayer as the final tax payable. Tax losses of companies in the Republic of Panama are carried forward to reduce future profits for a period of five years.

11. LOSS PER SHARE

Basic loss per share

Basic loss per share is calculated by dividing the loss attributable to owners of the Company by the weighted average number of common shares outstanding during the year.

	From 1 January 2013 to 31 December 2013 '000	From 1 January 2012 to 31 December 2012 '000
Loss attributable to owners of the Company (€)	(111,910)	(41,220)
Number of weighted average common shares outstanding	642,440	583,306
Basic loss per share (€)	**(0.17)**	**(0.07)**

Weighted average number of common shares outstanding

	From 1 January 2013 to 31 December 2013 '000	From 1 January 2012 to 31 December 2012 '000
Outstanding common shares at the beginning of the year	642,440	665,048
Effect of acquisition and cancellation of own shares	–	(119,725)
Effect of shares issued during the year	–	37,983
Weighted average number of common shares outstanding	**642,440**	**583,306**

Diluted loss per share

Diluted loss per share is calculated by adjusting the loss attributable to owners and the number of common shares outstanding to assume conversion of all dilutive potential shares. During the year, the Company has one category of dilutive potential common shares: warrants. The number of shares calculated above is compared with the number of shares that would have been issued assuming the exercise of the warrants.

	From 1 January 2013 to 31 December 2013 '000	From 1 January 2012 to 31 December 2012 '000
Loss attributable to owners of the Company (€)	(111,910)	(41,220)
Weighted average number of common shares outstanding	642,440	583,306
Effect of potential conversion of warrants	5,585	–
Weighted average number of common shares outstanding for diluted loss per share	648,025	583,306
Diluted loss per share (€)	**(0.17)**	**(0.07)**

The convertible bonds issued by the Company, are excluded from the calculation of diluted loss per share for the years ended 31 December 2013 and 2012 because of their anti-dilutive effect.

The average market value of the Company's shares for the purpose of calculating the dilutive effect of warrants and convertible loans was based on quoted market prices.

12. INVESTMENT PROPERTY

	31 December 2013 €'000	31 December 2012 €'000
At beginning of year	422,204	1,201,933
Direct acquisitions	351	3,257
Transfers to property, plant and equipment (see note 13)	(7,232)	(151,093)
Transfers to trading properties (see note 14)	(9,115)	(2,306)
Transfers to equity accounted investees (see note 16)	–	(691)
Disposals through disposal of subsidiary companies (see note 26)	–	(605,925)
Direct disposals	(8)	(9,289)
Exchange difference	(5,014)	(1,931)
	401,186	433,955
Fair value adjustment	22,605	(11,751)
At end of year	**423,791**	**422,204**

As at 31 December 2013 and 31 December 2012, part of the Group's immovable property is held as security for bank loans (see note 20).

Fair value hierarchy

The fair value of investment property, amounted to €423,791 thousand has been categorised as a Level 3 fair value based on the inputs to the valuation techniques used.

12. INVESTMENT PROPERTY CONTINUED

The following table shows a reconciliation from opening to closing balances of Level 3 fair value.

	31 December 2013 €'000
At beginning of year	422,204
Direct acquisitions	351
Direct disposals	(8)
Transfers to other assets	(16,347)
Gains/losses recognised in profit or loss	
Unrealised exchange difference in 'Finance costs'	(5,014)
Unrealised fair value adjustment in 'Valuation gain/(loss) on investment property'	22,605
At end of year	423,791

Valuation techniques and significant unobservable inputs

The following table shows the valuation techniques used in measuring the fair value of investment property, as well as the significant unobservable inputs used.

Property location	Valuation technique (see note 3)	Significant unobservable inputs		Inter-relationship between key unobservable inputs and fair value measurement
Property in Greece – Commercial Buildings	Income approach	Expected market rental growth:	1.5%	The estimated fair value would increase/(decrease) if:
		Void period (months):	3	• Expected market rental growth was higher/(lower)
		Occupancy rate:	95%	• Void period was shorter/(longer)
		Risk-adjusted discount rate:	8%	• Occupancy rate was higher/(lower)
				• Risk-adjusted discount rate was lower/(higher).
Property in Greece	Combined approach (Market and Income)	Market approach (50%/60% weight)		The estimated fair value would increase/(decrease) if:
		Premiums/(discounts) on the following:		• Premiums were higher/(lower)
		• Location:	from -20% to +30%	• Discounts were lower/(higher)
		• Site size:	from -20% to +10%	• Weights on comparables with premiums were higher/(lower)
		• Asking vs transaction:	from -25% to 0%	• Weights on comparables with discounts were lower/(higher)
		• Frontage sea view:	from -5% to +40%	• Quantity of villas was higher/(lower)
		• Maturity/development potential:	from -35% to +75%	• Selling price per m² was higher/(lower)
		• Weight allocation:	from +5% to +25%	• Expected annual growth in selling price was higher/(lower)
		• Buildings value per m²:	€960	• Cash flow velocity was shorter/(longer)
		Income approach (50%/40% weight)		• Risk-adjusted discount rate was lower/(higher).
		Quantity of villas:	102-536	
		Selling price per m²:	from €2,600 to €3,000	
		Expected annual growth in selling price:	3%	
		Cash flow velocity (years):	7	
		Risk-adjusted discount rate:	from 14% to 16%	
	Market approach	Premiums/(discounts) on the following:		The estimated fair value would increase/(decrease) if:
		• Location:	from -50% to +50%	• Premiums were higher/(lower)
		• Site size:	from -40% to +40%	• Discounts were lower/(higher)
		• Asking vs transaction:	from -30% to 0%	• Weights on comparables with premiums were higher/(lower)
		• Frontage sea view:	from -20% to +40%	• Weights on comparables with discounts were lower/(higher).
		• Maturity/development potential:	from -40% to +50%	
		• Zoning status:	from -50% to +40%	
		• Strategic investment approval:	15%	
		• Weight allocation:	from +5% to +40%	

12. INVESTMENT PROPERTY CONTINUED

Balance as at 31 December 2012	**256,150**	**1,722**	**24**	**–**	**–**	**–**	**–**	**257,896**

The details of the above investments are as follows:

Name	Country of incorporation	Principal activities	Shareholding interest 2013	Shareholding interest 2012
DCI H2	BVIs	Acquisition and holding of investments	50%	50%
SPV 5	Cyprus	Construction and management of resort	25%	25%
Progressive Business Advisors S.A. (ex. Aristo Accounting S.A.)	Greece	Provision of professional services	20%	20%

The above shareholding interest percentages are rounded to the nearest integer.

During 2012, the Company reduced its participation in DCI H2 and SPV 5 from 100% to 49.8% and 25%, respectively (see note 25.4).

As of 31 December 2013, Aristo, DCI H2's largest subsidiary, had a total of €2.4 million (2012: €6.7 million) contractual capital commitments on property, plant and equipment and a total of €45 million (2012: €51 million) bank guarantees arising in the ordinary course of business. Aristo's management does not anticipate any material liability to arise from these contingent liabilities. In addition, 1,500 shares out of 4,975 shares that the Company holds in DCI H2 are pledged as a security against Group's bank loans (see note 20).

SPV 5 had a total of €5.1 million (2012: nil) contractual capital commitments on property, plant and equipment.

16. EQUITY ACCOUNTED INVESTEES CONTINUED

Summary of financial information for equity accounted investees as at and for the years ended 31 December 2013 and 31 December 2012, not adjusted for the percentage ownership held by the Group:

Movement in share capital and premium

	Shares in '000	Share capital €'000	Share premium €'000
Capital at 1 January 2012	665,048	6,650	825,671
Cancellation of own shares	(227,044)	(2,270)	(373,033)
Shares issued on 25 October 2012	204,436	2,044	47,956
Placement costs	–	–	(1,661)
Capital at 31 December 2012	642,440	6,424	498,933
Capital at 1 January 2013 and 31 December 2013	642,440	6,424	498,933

On 25 October 2012, the Company issued 204,435,897 new common shares at GBP 0.195 per share, for a total value of €50 million. The new shares rank pari passu with the existing common shares of the Company.

Warrants

In December 2011, the Company raised €8,500,000 through the issue of new shares at GBP 0.27 per share (with warrants attached to subscribe for additional Company shares equal to 25% of the aggregate value of the new shares at the price of GBP 0.317 per share, subject to anti-dilution adjustments pursuant to the warrants' terms and conditions – initial price of GBP 0.35 per share). The warrant holders can exercise their subscription rights within five years from the admission date. The number of shares to be issued on exercise of their rights will be determined based on the subscription price on the exercise date.

19. CAPITAL AND RESERVES CONTINUED

Reserves

Reserve for own shares

The reserve for the Company's own shares comprises the cost of the Company's shares held by the Group.

On 22 June 2012, the Company exchanged Mr. Theodoros Aristodemou's ('TA') shareholding of 34.14% in the Company (227,044,080 shares) for a direct 50.25% participation of TA in DCI H2 (see note 25.4). On 6 July 2012, the Company proceeded with the cancellation of 227,044,080 own shares that had been received through the Aristo Exchange.

Following the above transaction, the Company does not hold any own shares as at 31 December 2013 and 31 December 2012.

Translation reserve

Translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations.

Fair value reserve

Fair value reserve comprises the cumulative net change in fair value of available-for-sale financial assets until the assets are derecognised or impaired and the revaluation of property, plant and equipment from both subsidiaries and equity accounted investees, net of any deferred tax.

20. LOANS AND BORROWINGS

	Total		Within one year		Within two to five years		More than five years	
	2013 €'000	2012 €'000	2013 €'000	2012 €'000	2013 €'000	2012 €'000	2013 €'000	2012 €'000

20. LOANS AND BORROWINGS CONTINUED

Securities

As at 31 December 2013, the Group's loans and borrowings were secured as follows:

- Mortgage against immovable property of the subsidiary in Dominican Republic, PGH, with a carrying amount of €27.3 million (2012: €33.9 million).
- Mortgage against immovable property of the Croatian subsidiary, Azurna, with a carrying amount of €34 million (2012: €35.5 million), two promissory notes and a debenture note.
- Mortgage against immovable property of the Turkish subsidiary, Pasakoy Yapi ve Turizm A.S., with a carrying amount of €11.4 million (2012: €12.2 million).
- Mortgage against immovable property of the Turkish subsidiary, Kalkan Yapi ve Turizm A.S., with a carrying amount of €9.8 million (2012: €9.6 million).
- Mortgage against immovable property of the Cypriot subsidiary, Symboula Estates Limited, with a carrying amount of €43.6 million (2012: €37.7 million).
- Mortgage against immovable property of the Cypriot associate, Aristo, amounting to €2.8 million (2012: €2.8 million).
- First and second prenotations of mortgage against immovable property of the Greek subsidiary, Aristo Developers S.A., with a carrying amount of €1.5 million (2012: €1.5 million).
- Prenotation of mortgage against immovable property of the Greek subsidiary, Aristo Developers S.A., with a carrying amount of €7.8 million (2012: €7.8 million).
- Lien up to €41.6 million on immovable properties of the Greek subsidiaries of The Porto Heli project with a carrying amount of €176 million (2012: €155 million).
- Pledge of 1,500 shares of DCI H2 for Symboula Estates Limited bank loans (see note 16).
- Corporate guarantees by DCI Holdings One Limited for the serving of the bank loans of Cypriot subsidiary, Symboula Estates Limited, amounting to €21.3 million (2012: €21.3 million).
- Corporate guarantee by the Company on PGH bank loan and convertible bonds issued in 2011.

Convertible bonds payable

On 5 April 2013, the Company issued 5,000 bonds (the 'Euro Bonds') at €10 thousand each, bearing interest of 5.5% per annum, payable semi-annually, and maturing on 5 April 2018.

On 23 April 2013, the Company issued 917 bonds (the 'US$ Bonds') at US$10 thousand each, bearing interest of 7% per annum, payable semi-annually, and maturing on 23 April 2018.

The Euro Bonds and the US$ Bonds may be converted prior to maturity (unless earlier redeemed or repurchased) at the option of the holder into common shares of €0.01 each. The initial conversion price is €0.5737 (representing GBP 0.50 per share converted into euro at the fixed exchange rate of GBP 1.00:€1.1474) and US$0.6717 (representing GBP 0.45 per share converted into United States dollars at the fixed exchange rate of GBP 1.00:US$1.4928) per share for the Euro Bonds and the US$ Bonds, respectively.

The Euro Bonds and the US$ Bonds are not publicly traded.

Part of the bonds, amounting to €41,004 thousand, was subscribed by Third Point LLC, a significant shareholder of the Company (see note 25.5).

On 29 March 2011, DCI H7 issued 4,000 bonds at US$10 thousand each, bearing interest of 7% per annum, payable semi-annually, and maturing on 29 March 2016. The bonds are trading on the Open Market of the Frankfurt Stock Exchange (the freiverkehr market) under the symbol 12DD. On 23 April 2013, the Company purchased 891 bonds at a consideration of US$10 thousand each (representing their par value) plus corresponding accrued interest of approximately US$200 thousand using the funds received from the issue of the US$ Bonds.

Bonds may be converted prior to maturity (unless earlier redeemed or repurchased) at the option of the holder into Company's common shares of €0.01 each for a conversion price of US$0.7239, equivalent of GBP 0.453, subject to anti-dilution adjustments pursuant to the bond's terms and conditions (initial conversion price GBP 0.50). The number of shares to be issued on exercise of a conversion right shall be determined by dividing the principal amount of the bonds to be converted by the conversion price in effect on the relevant conversion date.

At the option of bondholders:

(i) some or all of the principal amount of the bonds held by a bondholder may be repurchased by the issuer; and

(ii) the consideration for such repurchase shall be the transfer by the Company to the bondholder of land plot(s) at the issuer's Playa Grande Aman development in the Dominican Republic.

21. DEFERRED TAX ASSETS AND LIABILITIES

	31 December 2013		31 December 2012

25. RELATED PARTY TRANSACTIONS

25.1 Directors of the Company

Miltos Kambourides is the founder and managing partner of the Investment Manager.

The interests of the Directors, all of which are beneficial, in the issued share capital of the Company as at 31 December 2013 were as follows:

	Shares '000
Miltos Kambourides (indirect holding)	65,081
Roger Lane-Smith	60
Andreas Papageorghiou	5

Save as disclosed, none of the Directors had any interest during the period in any material contract for the provision of services which was significant to the business of the Group.

On 30 May 2013, David B. Heller acquired convertible Euro Bonds of €2,050 thousand par value that may be converted prior to maturity into 3,573,296 common Company shares of €0.01 each.

25.2 Investment Manager fees

Annual fees

The Investment Manager is entitled to an annual management fee of 2% of the equity funds defined as follows:

- €890 million; plus
- The gross proceeds of further equity issues, other than the funds raised in respect of the proceeds of the equity issues as at 25 October 2012 and 30 December 2011; plus
- Realised net profits less any amounts distributed to shareholders.

The equity funds as at 31 December 2013 comprised €689 million.

In addition, the Company shall reimburse the Investment Manager for any professional fees or other costs incurred on behalf of the Company at its request for services or advice.

Management fees for the years ended 31 December 2013 and 31 December 2012 amounted to €13,780 thousand and €15,769 thousand, respectively.

Performance fees

The Investment Manager is entitled to a performance fee based on the net profits made by the Company, subject to the Company receiving the 'Relevant Investment Amount' which is defined as an amount equal to:

i the total cost of the investment reduced on a pro rated basis by an amount of €167 million; plus

ii a hurdle amount equal to an annualised percentage return equal to the average one-month Euribor rate applicable in the period commencing from the month when the relevant cost is incurred compounded for each year or fraction of a year during which such investment is held (the 'Hurdle'); plus

iii a sum equal to the amount of any realised losses and/or write-downs in respect of any other investment which has not already been taken into account in determining the Investment Manager's entitlement to a performance fee.

In the event that the Company has received distributions from an investment equal to the Relevant Investment Amount, any subsequent net profits arising shall be distributed in the following order or priority:

i 60% to the Investment Manager and 40% to the Company until the Investment Manager shall have received an amount equal to 20% of such profits; and

ii 80% to the Company and 20% to the Investment Manager, such that the Investment Manager shall receive a total performance fee equivalent to 20% of the net profits.

25. RELATED PARTY TRANSACTIONS CONTINUED

25.2 Investment Manager fees continued

The performance fee payment is subject to the following escrow and clawback provisions:

Escrow

The following table displays the current escrow arrangements:

Escrow	Terms
Up to €109 million returned	50% of overall performance fee held in escrow
Up to €109 million plus the cumulative hurdle returned	25% of any performance fee held in escrow
After the return of €409 million post-hurdle, plus the return of €225 million post-hurdle	All performance fees released from escrow

Clawback

If on the earlier of (i) disposal of the Company's interest in a relevant investment or (ii) 1 August 2020, the proceeds realised from that investment are less than the Relevant Investment Amount, the Investment Manager shall pay to the Company an amount equivalent to the difference between the proceeds realised and the Relevant Investment Amount. The payment of the clawback is subject to the maximum amount payable by the Investment Manager not exceeding the aggregate performance fees (net of tax) previously received by the Investment Manager in relation to other investments.

No performance fees were charged to the Company for the years ended 31 December 2013 and 31 December 2012. As at 31 December 2013 and 31 December 2012, funds held in escrow, including accrued interest, amounted to €467 thousand.

25.3 Directors' remuneration

The Directors' remuneration for the years ended 31 December 2013 and 31 December 2012 was as follows:

	From 1 January 2013 to 31 December 2013 €'000	From 1 January 2012 to 31 December 2012 €'000
Andreas Papageorghiou	15.0	15.0
Cem Duna	15.0	15.0
Roger Lane-Smith	45.0	45.0
Antonios Achilleoudis	15.0	15.0
Christopher Pissarides	50.0	50.0
David B.Heller*	14.2	–
Total	**154.2**	**140.0**

* On 14 March 2013, Mr. David B.Heller was appointed as non-executive Director.

Mr. Miltos Kambourides has waived his fees.

25.4 Shareholder and development agreements

Shareholder agreements

DolphinCI Twenty Two Limited, a subsidiary of the Group, had signed a shareholder agreement with the non-controlling shareholder of Eastern Crete Development Company S.A., under which it had acquired 60% of the shares of Plaka Bay project by paying the former majority shareholder a sum upon closing and a conditional amount in the event the non-controlling shareholder was successful in, among others, acquiring additional specific plots and obtaining construction permits. On 23 August 2013, the parties signed a new agreement for the purchase of the remaining 40% stake of the entity. The base consideration for the purchase was €4.4 million payable in three instalments: €2.4 million by 10 September 2013, €1 million by 30 September 2013 and €1 million by 31 October 2013. The last instalment of €1 million was transferred within February 2014. Consideration might be increased by the transfer of plots of land in the project, to the seller, of total market value equal to €4 million, subject to the project receiving permits for building 40,000m^2, of freehold residential properties. The conditional deferred consideration will be adjusted pro rata in case the buildable properties are less than 40,000m^2 but is also subject to a 5% annual increase commencing from the second anniversary from the signing of the agreement and until implementation from the Company.

DolphinCI Thirteen Limited, a subsidiary of the Group, has signed a shareholder agreement with the non-controlling shareholder of Iktinos. Under its current terms, DolphinCI Thirteen Limited has acquired approximately 80% of the shares of Latirus Enterprises Limited (Sitia Bay project) by paying the non-controlling shareholder an initial sum upon closing and a conditional amount in the event the non-controlling shareholder will be successful in, among others, acquiring additional specific plots and obtaining construction permits.

25. RELATED PARTY TRANSACTIONS CONTINUED

25.4 Shareholder and development agreements continued

On 20 September 2010, the Group signed an agreement with Archimedia controlled by John Hunt, for the sale of a 14.29% stake in Amanzoe for a consideration of €11 million. The agreement also granted Archimedia the right to partially or wholly convert this shareholding stake into up to three predefined Aman Villas (the 'Conversion Villas') for a predetermined value and percentage per Villa. The first €1 million of the consideration was received at signing, while the completion of the transaction and the payment of the €10 million balance was subject to customary due diligence on the project and the issuance of the construction permits for the Conversion Villas prior to a longstop date set at 1 April 2011. On 28 March 2011, the Company reached an agreement with Archimedia to vary the original terms of the sale agreement, which was followed by the Company and Archimedia entering into an amended sale agreement on 13 March 2012. The Company has already received US$12,422 thousand and €1,300 thousand, while US$978 thousand and €800 thousand, plus any additional consideration that may be due depending on the exact size and features of the Conversion Villas, will be received upon completion of the Conversion Villas. The total receivable amount of €1,509 thousand (31 December 2012: €1,541 thousand) is included in receivables and other assets (see note 17). On 3 August 2012, the Company received a Conversion Notice from Archimedia to convert 6.43% of its shares in Amanzoe in exchange for an Aman Villa and on 27 December 2012 a further Notice for the conversion of the remaining 7.86% of its shares for two other Aman Villas. The Company is in the process of finalising the relevant documentation for the completion of the conversions in question. Following the conversions, Archimedia will not hold any shareholding interest in Amanzoe.

On 22 June 2012, the Company and TA agreed to the exchange of TA's 34.14% shareholding in Dolphin for a direct 50.25% participation in DCI H2. The Aristo Exchange took place on a NAV-for-NAV basis before deferred income tax liabilities and, as such, was valued at approximately €375 million. Under the same shareholder agreement, neither party may sell or transfer the beneficial ownership of any shares of Aristo to third parties without first making an offer in writing to sell the same to the other party while each party retains tag along rights in the event of a sale of the shares by the other party.

On 6 August 2012, the Company signed an agreement for the sale of eight out of the nine remaining Seafront Villas, part of the Mindcompass Overseas Limited group of entities. The total base net consideration agreed for this sale was €10 million with the Company also entitled to the maximum amount between 35% profit participation on the sales generated by the purchaser from the further sale of four villas or €2 million. It was also agreed that the Company would undertake the construction contract for the completion of the Villas and a €1 million deposit was paid upon signing. On 6 December 2012, the Company and the purchasers agreed an amendment to the Sale of Shares Agreement to provide that an amount of €1 million would be payable in January 2013, the remaining €8 million would become payable in five interest-bearing instalments (at 6% per annum) starting from June 2013 (€990 thousand received as of 31 December 2013), and that the Company's profit participation in the sale of five Villas will be set at 50% with no minimum profit participation.

On 5 September 2012, the Company signed a sales agreement with a regional investor group led by Mr. Alberto Vallarino for the sale of its 60% shareholding in Peninsula Resort Holdings Limited, the entity that indirectly holds the land for Pearl Island's Founders' Phase of the Pearl Island Project. The consideration for the sale was a cash payment of US$6 million (50% paid at closing on 14 September 2012 and 50% one year from closing, collected on 17 September 2013) and a commitment to invest an additional circa US$35 million of development capital within a maximum period of two years in order to complete the aforementioned phase of the project. Out of those funds, approximately US$13 million shall be incurred on development of components owned by Pearl Island Limited S.A., with US$7,171 thousand already invested by 31 December 2013.

On 24 September 2012, the Company signed an agreement with an affiliate of the Swiss Development Group for the sale of a 75% stake in the Nikki Beach Resort & Spa at Porto Heli together with a contract for the management and construction of the project for a minimum consideration of €3.15 million, that will increase depending on the size of the loan facility obtained, the returns realised and the final construction cost. An amount of €1.23 million had been received by the Company as of 31 December 2012, and the remaining balance of the minimum consideration was received in early 2013.

25. RELATED PARTY TRANSACTIONS CONTINUED

25.4 Shareholder and development agreements continued

Development agreements

Eastern Crete Development Company S.A., a subsidiary of the Group, has signed a development management agreement with a company related to the non-controlling shareholder of Plaka Bay Resort under the terms of which this company undertakes to assist Eastern Crete Development Company S.A. to obtain all permits required to enable the development of the project as well as to select advisers, consultants, etc., during the pre-construction phases. The development manager receives an annual fee.

Pursuant to the original Sale and Purchase Agreement of 10 December 2007, DCI H7 was obliged to make payments for the construction of infrastructure on the land retained by DR Beachfront Real Estate LLC ('DRB'), the former majority shareholder of PGH. Pursuant to a restructuring agreement dated 5 November 2012, those obligations have been restructured with the material provisions of that agreement already fulfilled. As at 31 December 2013, following cash payments of US$7.6 million and transfers of land parcels valued at approximately US$11 million, the total provision outstanding is US$0.7 million (€498 thousand) (31 December 2012: US$5.9 million or €4,503 thousand) which is included in trade and other payables (see note 23).

Pedro Gonzalez Holdings II Limited, a subsidiary of the Group, has signed a Development Management agreement with DCI Holdings Twelve Limited ('DCI H12') in which the Group has a stake of 60%. Under its terms, DCI H12 undertakes, among others, the management of permitting, construction, sale and marketing of the Pearl Island project.

25.5 Other related parties

During the years ended 31 December 2013 and 31 December 2012, the Group incurred the following related party transactions with the following parties:

2013

Related party name	€'000	Nature of transaction
Iktinos Hellas S.A.	48	Project management services in relation to Sitia Project and rent payment
J&P Development S.A.	60	Project management services in relation to Cape Plaka Project
John Heah, non-controlling shareholder of SPV 10	73	Design fees in relation to Kea Resort project and Playa Grande project
Progressive Business Advisors S.A.*	292	Accounting fees
Third Point LLC, shareholder of the Company	41,004	Subscription to bonds (see note 20)
Third Point LLC, shareholder of the Company	1,695	Bond interest for the year

2012

Related party name	€'000	Nature of transaction
Iktinos Hellas S.A.	49	Project management services in relation to Sitia Project and rent payment
J&P Development S.A.	60	Project management services in relation to Cape Plaka Project
John Heah, non-controlling shareholder of SPV 10	28	Design fees in relation to Kea Resort project and Playa Grande project
Aristo Accounting S.A.*	337	Accounting fees

* During the year, Aristo Accounting S.A. was merged into Progressive Business Advisors S.A.

26. BUSINESS COMBINATIONS

During the year ended 31 December 2013, the Group increased its ownership interest without any change in control in Bourne Holdings (Cyprus) Limited (holding company of Eastern Crete Development Company S.A.) by 30.91% to 90.91% as follows:

	Eastern Crete Development Company S.A. €'000
Non-controlling interests acquired	5,291
Consideration transferred	(3,400)
Acquisition effect recognised in equity	**1,891**

During the year ended 31 December 2012, the Group, under the Aristo Exchange agreement (see note 25.4) reduced its participation in DCI H2 from 100% to 49.8%. In addition, the Group also reduced its participation in Nikki Beach Resort & Spa at Porto Heli, through SPV 5 from 100% to 25%, as follows:

	DCI H2 €'000	SPV 5 €'000	Total €'000
Investment property (see note 12)	(594,098)	–	(594,098)
Property, plant and equipment (see note 13)	(143,362)	(7,800)	(151,162)
Equity accounted investees (see note 16)	(8,757)	–	(8,757)
Deferred tax assets (see note 21)	(509)	–	(509)
Trading properties (see note 14)	(247,749)	–	(247,749)

Cash and cash equivalents	(1,141)	(7)	(1,148)
Loans and borrowings	303,956	317	304,273
Deferred tax liabilities (see note 21)	58,222	1,016	59,238
Bank overdrafts	33,242	–	33,242
Trade and other payables	26,568	–	26,568
Net assets on which control was lost	(596,201)	(6,682)	(602,883)
Equity accounted investees (see note 16)	265,566	1,670	267,236
Net assets disposed of	(330,635)	(5,012)	(335,647)
Own shares exchanged	375,303	–	375,303
Proceeds on disposal	–	3,150	3,150
Gain on exchange/disposal recognised in profit or loss	**44,668**	**(1,862)**	**42,806**
Cash effect on exchange/disposal:			
Proceeds on exchange/disposal	–	3,150	3,150
Consideration to be received	–	(1,925)	(1,925)
Cash and cash equivalents	(1,141)	(7)	(1,148)
Bank overdrafts	33,242	–	33,242
Net cash inflow on exchange/disposal	**32,101**	**1,218**	**33,319**

The consideration to be received in relation to the Group's reduction in its participation to the Nikki Beach Resort & Spa at Porto Heli, will increase depending on the size of the construction loan facility obtained, the returns realised and the final construction cost, as the Group also signed a contract for the management and construction of the project.

26. BUSINESS COMBINATIONS CONTINUED

During the year ended 31 December 2012, the Group disposed of its entire stake of 60% and 100% in Peninsula Resort S.A. at Pearl Island (Panama) and eight Seafront Villas at the Porto Heli Collection (Greece), respectively, as follows:

	Peninsula Resort S.A. €'000	Eight Seafront Villas entities €'000	Total €'000
Investment property (see note 12)	(11,827)	–	(11,827)
Property, plant and equipment (see note 13)	(31)	–	(31)
Trading properties (see note 14)	–	(11,131)	(11,131)
Cash and cash equivalents	(4)	(1)	(5)
Other net liabilities/(assets)	2,564	(6)	2,558
Deferred tax liabilities (see note 21)	1	–	1
Net assets	(9,297)	(11,138)	(20,435)
Net assets disposed of	(5,578)	(11,138)	(16,716)
Assignment of loan receivable	(1,705)	–	(1,705)
Proceeds on disposals	10,290	10,000	20,290
Gain on disposal recognised in profit or loss	**3,007**	**(1,138)**	**1,869**
Cash effect on disposal:			
Proceeds on disposal	10,290	10,000	20,290
Cash and cash equivalents	(4)	(1)	(5)
Consideration to be received	(7,643)	(9,000)	(16,643)
Net cash inflow on disposal	**2,643**	**999**	**3,642**

As of 31 December 2012, the amount of consideration to be received in relation to Peninsula Resort S.A. disposal was reduced to €7,490 thousand as a result of the US$ exchange rate fluctuation.

The eight Seafront Villas entities are: Infatran Company Limited, Ntekar Company Limited, Normatron Company Limited, Detalex Company Limited, Trekma Company Limited, Myconian Company Limited, Smartrek Company Limited and Leftran Co. Limited.

During the year ended 31 December 2012, the Group increased its ownership interest without any change in control in PGH (holding company of Playa Grande Club & Reserve) by 1.29% to 100% as follows:

	PGH €'000
Non-controlling interests acquired	333
Consideration transferred	(512)
Acquisition effect recognised in equity	**(179)**

27. FINANCIAL RISK MANAGEMENT

Financial risk factors

The Group is exposed to credit risk, liquidity risk and market risk from its use of financial instruments. The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group's overall strategy remains unchanged from last year.

(i) Credit risk

Credit risk arises when a failure by counter parties to discharge their obligations could reduce the amount of future cash inflows from financial assets on hand at the statement of financial position date. The Group has policies in place to ensure that sales are made to customers with an appropriate credit history and monitors on a continuous basis the ageing profile of its receivables. The Group's trade receivables are secured with the property sold. Cash balances are mainly held with high credit quality financial institutions and the Group has policies to limit the amount of credit exposure to any financial institution.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the end of the reporting year was as follows:

	Carrying amount	
	31 December 2013 €'000	31 December 2012 €'000
Trade and other receivables (see note 17)	20,556	41,364
Cash and cash equivalents (see note 18)	7,075	22,165
Total	**27,631**	**63,529**

Trade and other receivables

Exposure to credit risk

The maximum exposure to credit risk for trade and other receivables at the end of the reporting year by geographic region was as follows:

	Carrying amount	
	31 December 2013 €'000	31 December 2012 €'000
Europe	16,087	31,908
Turkey	703	825
Americas	3,766	8,631
Total trade and other receivables	**20,556**	**41,364**

Credit quality of trade and other receivables

The Group's trade and other receivables that relate mainly to business combinations and to VAT receivables are neither past nor due. The amount of VAT receivables is primarily receivable from the Greek government.

Cash and cash equivalents

Exposure to credit risk

The table below shows an analysis of the Group's bank deposits by the credit rating of the bank in which they are held:

	No. of Banks	31 December 2013 €'000	31 December 2012 €'000
Bank group based on credit ratings by Moody's			
Rating Aaa to A	6	1,866	17,023
Rating Baa to B	7	641	3,616
Rating Caa to C	5	1,173	1,391
Bank group based on credit ratings by Fitch's			
Rating AAA to A-	1	399	-
Rating BBB to B-	4	2,996	135
Total bank balances		**7,075**	**22,165**

At the date of approval of these financial statements, the above bank rates were the same with those as at the reporting date, except for a bank downgrading, by Moody's, from A3 to Baa1.

27. FINANCIAL RISK MANAGEMENT CONTINUED

(ii) Liquidity risk

Liquidity risk is the risk that arises when the maturity of assets and liabilities does not match. An unmatched position potentially enhances profitability, but can also increase the risk of losses. The Group has procedures with the object of minimising such losses such as maintaining sufficient cash and other highly liquid current assets and by having available an adequate amount of committed credit facilities.

The following tables present the contractual maturities of financial liabilities. The tables have been prepared on the basis of contractual undiscounted cash flows of financial liabilities, and on the basis of the earliest date on which the Group might be forced to pay.

	Carrying amounts €'000	Contractual cash flows €'000	Within one year €'000	One to two years €'000	Three to five years €'000	Over five years €'000
31 December 2013						
Loans and borrowings	168,804	(213,604)	(25,392)	(27,177)	(119,804)	(41,231)
Finance lease obligations	8,441	(13,940)	(502)	(443)	(1,329)	(11,666)
Land creditors	24,251	(24,251)	(24,251)	–	–	–
Trade and other payables	52,400	(52,400)	(29,000)	(1,726)	(123)	(21,551)
	253,896	**(304,195)**	**(79,145)**	**(29,346)**	**(121,256)**	**(74,448)**
31 December 2012						
Loans and borrowings	131,798	(170,470)	(42,684)	(14,498)	(63,575)	(49,713)
Finance lease obligations	8,554	(15,322)	(516)	(439)	(1,318)	(13,049)
Land creditors	23,663	(23,663)	(23,663)	–	–	–
Trade and other payables	32,393	(32,393)	(15,420)	(2,958)	–	(14,015)
	196,408	**(241,848)**	**(82,283)**	**(17,895)**	**(64,893)**	**(76,777)**

The Group, as at the date of financial position, had secured individual financing facilities for its individual active projects, which are monitored on an on-going basis.

(iii) Market risk

Market risk is the risk that changes in market prices, such as interest rates, equity prices and foreign exchange rates, will affect the Group's income or the value of its holdings of financial instruments.

Interest rate risk

Interest rate risk is the risk that the value of financial instruments will fluctuate due to changes in market interest rates. The Group's income and operating cash flows are substantially independent of changes in market interest rates as the Group has no significant interest-bearing assets. Borrowings issued at variable rates expose the Group to cash flow interest rate risk. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. The Group's management monitors the interest rate fluctuations on a continuous basis and acts accordingly.

Sensitivity analysis

An increase of 100 basis points in interest rates at 31 December would have decreased equity and profit or loss by €1,503 thousand (2012: €2,927 thousand). This analysis assumes that all other variables, in particular foreign currency rates, remain constant. For a decrease of 100 basis points there would be an equal and opposite impact on the profit and other equity.

Equity price risk

The Group is exposed to equity price risk, which arises from available-for-sale equity securities acquired primarily for strategic purposes (see note 15).

Sensitivity analysis

An increase by 5% in equity prices at 31 December would have increased equity by €113 thousand. A decrease of 5% would have had an equal and opposite impact on the equity.

Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not the Group's measurement currency. The Group is exposed to foreign exchange risk arising from various currency exposures primarily with respect to the United States dollar. The Group's management monitors the exchange rate fluctuations on a continuous basis and acts accordingly.

27. FINANCIAL RISK MANAGEMENT CONTINUED

(iii) Market risk continued

The Group's exposure to foreign currency risk for its use of financial instruments was as follows:

	31 December 2013					31 December 2012				
	Euro '000	USD '000	TRY '000	HRK '000	GBP '000	Euro '000	USD '000	TRY '000	HRK '000	GBP '000
Trade and other receivables	16,018	6,123	288	–	–	30,999	13,421	454	–	–
Cash and cash equivalents	2,240	5,541	41	4,563	192	1,576	17,526	4,492	1,224	4,274
Loans and borrowings	(128,629)	(55,406)	–	–	–	(87,296)	(58,715)	–	–	–
Finance lease obligations	(8,284)	(217)	–	–	–	(8,312)	(311)	–	(47)	–
Land creditors	(23,571)	(938)	–	–	–	(22,953)	(938)	–	–	–
Trade and other payables	(43,923)	(9,310)	(2,241)	(7,394)	–	(25,660)	(7,019)	(1,078)	(7,205)	–
Net statement of financial position exposure	**(186,149)**	**(54,207)**	**(1,912)**	**(2,831)**	**192**	**(111,646)**	**(36,036)**	**3,868**	**(6,028)**	**4,274**

The following exchange rates applied at the date of financial position:

	31 December 2013	31 December 2012
USD1	1.38	1.32
TRY1	2.96	2.35
HRK1	7.63	7.56
GBP1	0.83	0.82

Sensitivity analysis

A 10% strengthening of the euro against the following currencies at 31 December would affected the measurement of financial instruments denominated in a foreign currency and increased/(decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. For a 10% weakening of the euro against the relevant currency, there would be an equal and opposite impact on the profit and other equity.

	Equity		Profit or loss	
	2013 €'000	2012 €'000	2013 €'000	2012 €'000
USD	3,573	2,483	3,573	2,483
TRY	59	(149)	59	(149)
HRK	34	73	34	73
GBP	(21)	(476)	(21)	(476)

Capital management

The Group manages its capital to ensure that it will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from last year.

28. COMMITMENTS

As of 31 December 2013, the Group had a total of €16,499 thousand contractual capital commitments on property, plant and equipment (2012: €7,131 thousand).

Non-cancellable operating lease rentals are payable as follows:

	31 December 2013 €'000	31 December 2012 €'000
Less than one year	19	19
Between two and five years	50	71
Total	**69**	**90**

29. CONTINGENT LIABILITIES

Companies of the Group are involved in pending litigations. Such litigations principally relate to day-to-day operations as a developer of second-home residences and largely derive from certain clients and suppliers. Based on the Group's legal advisers, the Investment Manager believes that there is sufficient defence against any claim and they do not expect that the Group will suffer any material loss. All provisions in relation to this matter which are considered necessary have been recorded in these consolidated financial statements.

If investment properties, trading properties and property, plant and equipment were sold at their fair market value, this would have given rise to a payable performance fee to the Investment Manager of approximately €48 million (2012: €59 million), subject always to the escrow and clawback provisions mentioned in note 25.2.

In addition to the tax liabilities that have already been provided for in the consolidated financial statements based on existing evidence, there is a possibility that additional tax liabilities may arise after the examination of the tax and other matters of the companies of the Group.

The Group, under its normal course of business, guaranteed the development of properties in line with agreed specifications and time limits in favour of other parties.

30. SUBSEQUENT EVENTS

On 28 January 2014, the Company signed an agreement which granted Archimedia an option to acquire a 50% profit share from future sales of Amanzoe Villas. Under the terms of the agreement, by making a refundable deposit of €10 million, Archimedia was given the option to acquire a 50% entitlement in the net profits to be realised from the sales of the unsold and unreserved Amanzoe Villas, which will be constructed in the current and future development phases of the project, for a total upfront consideration of €26 million in cash. Archimedia will also be contributing 50% to the expected cost for acquiring further land for the future phase villas. The Company will retain 100% of the receivables generated from the 10 Amanzoe Villa reservations or sales concluded to date. On 4 March 2014 Archimedia informed the Company of its intention to exercise its investment option and the respective definitive documentation for the 50% profit sharing agreement is currently under preparation by the parties. Under the terms of the profit participation agreement, Archimedia also has a call option to acquire 100% ownership of the Amanzoe leisure facilities, including the Amanzoe hotel and beach club, as well as the project land bank, exercisable within five years after the second anniversary from closing. The Company retains a call option to redeem Archimedia's investment during the first two years from closing at a 30% premium p.a.

On 7 February 2014, Dolphin Capital Holdings Fifty Ltd ('Lender'), a subsidiary of the Company, signed a loan facility agreement for the amount of €5.1 million with SPV 5 ('Borrower'), the holding company of the Nikki Beach Resort & Spa at Porto Heli. SPV 5 is an affiliate of the Company (25% stake), that is controlled by an affiliate of the Swiss Development Group after the purchase of 75% stake in September of 2012. According to terms of the agreement, the Lender has agreed to advance to the Borrower up to €5.1 million for financing its overall activities in connection with the development of the project. Any advance shall bear interest at a rate of 11% with the accrued interest becoming payable along with any outstanding balance upon maturity of the facility, one year after the signing of the agreement (on 7 February 2015). All shares of the Borrower have been pledged free of any other encumbrance towards the repayment and discharge of the loan facility.

Re: Certificate of Value as of 31 December 2013

Miami Florida, USA, 05 March 2014

Dear Sirs:

In accordance with the terms of our appointment as independent appraisers, we have conducted a valuation of your real estate assets, including land and buildings (the "Assets") belonging to **Dolphin Capital Investors Limited (AIM: DCI.L)** and certain subsidiaries (here after the "Company") in Turkey, Croatia, Dominican Republic and Panama. Colliers Latin America LLC, Colliers International Croatia and Colliers International Property Consultants (Turkey) have been instructed by Dolphin Capital Investors Limited ('DCI'), to offer an opinion of the "Fair Value" of the real estate assets[1] owned by the Company and/or its subsidiaries in the following locations:

Location	Property	Location	Property
Croatia	Livka Bay Resort	**Dominican Republic**	Playa Grande Club & Reserve
Turkey	Port Kundu	**Panama**	Pearl Island
	La Vanta		

The properties are held for investment and/or held for development or are in the course of development.

The purpose of our valuation analysis was to provide the Board of DCI with information about the Fair Value of the subject assets in order to support their decision-making process in relation to the compliance with the requirements of the International Accounting Standards ("IAS") and the International Financial Reporting Standards ("IFRS").

The value estimates apply as of 31 December 2013 and are subject to the Disclaimers, Certifications and Limiting Conditions in addition to the assumptions contained in our valuation reports and that were addressed to the management of DCI. In the process of preparing this appraisal we have:

- Inspected all the subject properties;
- Relied on information provided by the Company;
- Verified current land use and land use regulations;
- Conducted market research into sales and listing data on comparable properties;
- Interviewed market participants; and
- Examined local market conditions and analyzed their potential effect on the properties.

Our valuations assume that the properties have good and marketable titles and are free of any undisclosed onerous burdens, outgoings or restrictions.

The valuation reports have been prepared at the request of Dolphin Capital Partners and for their exclusive (and confidential) use, and for the specific purpose and function as stated in the reports. All copyright is reserved to the author and the reports are considered confidential by the author and Dolphin Capital Partners.

1 The properties in Croatia and Turkey have been valued by the respective Colliers offices.

The result of our valuation consulting services does not constitute an investment advice and should not be interpreted as such. Our valuation report is not intended for the benefit of a Bank or Developer (other than the client) or any other third party and should not be taken to supplant other inquiries and procedures that a Bank or any other third party should undertake for the purpose of considering a transaction with DCI and its subsidiaries. Accordingly our work product is not to be used for any other purpose or distributed to third parties.

Our real estate valuation analysis is based on the premise that the Company is and will continue as a going-concern business enterprise.

Our valuation services are performed in accordance with generally accepted appraisal standards and in conformance with the professional appraisal societies.

We confirm that we do not have any material interest in any of the properties and that we have undertaken these valuations as independent valuers.

The date of valuation has been established as of 31 December 2013.

The basis of value is "Fair Value".

The expression Market Value and the term Fair Value as it commonly appears in accounting standards are generally compatible, if not in every instance exactly equivalent concepts. Fair Value, an accounting concept, is defined in IFRS and other accounting standards as the amount for which an asset could be exchanged, or a liability could be settled, between knowledgeable, willing parties in an arm's-length transaction. Fair Value is generally used for reporting both Market and Non-Market Values in financial statements. Where the Market Value of an asset can be established, this value will equate to Fair Value.

For reporting purposes, we have adopted Royal Institution of Chartered Surveyors ("RICS") and International Valuation Standards Committee ("IVSC") definition of "Fair Value" as "the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had acted knowledgeably, prudently and without compulsion".

Before any valuation analysis can be made, the appropriate premise of value should be established. The general concept of value can be separated into two categories: value-in-exchange on a piecemeal basis and value-in-use. Value-in-exchange represents the action of buyers, sellers, and investors, and implies the value at which the property would sell on a piecemeal basis in the open market. Value-in-use is the value of special purpose property and assets as part of an integrated facility and reflects the extent to which the assets contribute to the profitability of the operation of that facility or going concern. These two premises can have a significant effect on the results of a valuation analysis. For purposes of the valuation of the selected assets, we have used the premise of Value-in-Exchange.

We have performed no test of earnings and cash flows to verify whether there is a sufficient return on and return of investment in the Assets.

The aggregate fair value figure makes no allowance for any effect that placing the whole portfolio on the market contemporaneously may have on the overall realization. The Fair Value of the portfolio sold as single entity would not necessarily be the same as the aggregate figure reported.

Property values may change significantly over a relatively short period. Consequently our valuations are only valid on the date of valuation. On the basis of our research, study, inspection, investigation and analysis, it is our opinion that the subject Assets have an estimated "Fair Value" as of December 31, 2013.

Our Appraisal Reports comply with the reporting requirements set forth under the generally accepted appraisal standards and principles. The valuation reports were prepared in conformity with the International Valuation Standards, the RICS and the Appraisal Institute of Canada. As such, all relevant material was provided in the reports including the discussion of appropriate data, reasoning, and analyses that were used in the appraisal process to develop the appraiser's opinion of value. Additional supporting documentation concerning the data, reasoning, and analyses are retained in the appraiser's file. The depth of discussion contained in the reports is specific to the needs of the client and for the intended use stated therein.

Respectfully submitted,

Gary Laughton

Athens, 01 April 2014

Dear Sirs,

In accordance with the terms of our agreement and as independent appraisers, American Appraisal (Hellas) Limited, have conducted a valuation of the real estate assets, including land and buildings (the "Assets") belonging to Dolphin Capital Investors Limited, hereafter referred to as "DCI" or "Company" and certain subsidiaries, hereafter referred to as the "Company", in Greece and Cyprus.

Specifically, we provided our independent opinion as to the "Fair Value" of the real estate assets owned by the "Company" and/or its subsidiaries. The properties are best presented in the table below:

Location	Property	Location	Property
Porto Heli, Argolis	Amanzoe	**Sitia, Lasithi**	Sitia Bay Golf Resort
Kilada, Argolis	Kilada Hills Golf Resort		Plaka Bay Resort
	Lepitsa Sunset	**Triopetra, Rethimno**	Triopetra
Porto Heli, Argolis	Nikki Beach Resort & Spa at Porto Heli	**Cyprus**	Aristo Developers – Cyprus
Kea, Cyclades	Kea Resort	**Athens, Ilia, Syros**	Aristo Developers – Greece
Scorponeria, Voiotia	Scorpio Bay Resort	**Paramali, Limassol, Cyprus**	Apollo Heights Polo Resort
Nies, Volos, Magnesia	Lavender Bay Resort		

The properties are held for investment and/or held for development or are in the course of development.

The purpose of our valuation exercise was to provide the Board of "DCI" with information about the Fair Value of the subject assets in order to assist in relation to the compliance with the requirements of the International Financial Reporting Standards – IFRS, the International Accounting Standards, and specifically according to the IAS 40 – Investment Properties and IAS 16 – Property, Plant and Equipment.

The value estimates apply as of 31 December 2013 and are subject to the Standard Assumptions and Limiting Conditions attached to our valuation reports and are based on the reasonable assumptions contained in our valuation reports.

In the process of preparing these appraisals we have:

- Undertaken inspection to the majority of the subject properties;
- Collected relevant data regarding the prevailing market conditions and trends that can affect the value of the properties;
- Collected relevant data about the availability of comparable properties in the areas examined;
- Investigated prevailing prices and asking values of similar properties in the areas examined;
- We made the appropriate adjustments, if necessary, in order to proceed with the estimation of the Fair Value of the properties under investigation.
- Relied on information provided by the "Company";

Our valuations assume that the properties have good and marketable titles and are free of any undisclosed legal burdens, outgoings or restrictions.

The valuation reports are not intended for a benefit of a Bank or Developer (other than the "Client"), have been prepared at the request of the management of Dolphin Capital Investors Ltd for their exclusive (and confidential) use, and for the specific purpose and use stated in the reports. Any other purpose or use of the reports is not valid. Our reports should not be distributed to any third party.

All copyright is reserved to the author and the reports are considered confidential by the author and Dolphin Capital Partners.

Our valuation consulting services do not constitute and/or include investment advice and should not be interpreted as such.

American Appraisal (Hellas) Limited's valuation services, are performed in conformity with the RICS (Royal Institution of Chartered Surveyors) Appraisal and Valuation Standards (March 2012)[1] and the relevant code of ethics, the International Valuation Standards (IVS[2]) and the IFRS framework. As such, all relevant material was provided in the reports including the discussion of appropriate data, reasoning, and analyses that were used in the appraisal process to develop the appraiser's opinion of value. Additional supporting documentation concerning the data, reasoning, and analyses are retained in the appraiser's file. The depth of discussion contained in the reports is specific to the needs of the client and for the intended use stated therein.

Our Appraisal Reports comply with the reporting requirements set forth under the generally accepted appraisal standards and principles.

The basis of value is "Fair Value". For reporting purposes, we have adopted the Royal Institution of Chartered Surveyors ("RICS") and the International Valuation Standards Committee ("IVSC") definition of "Fair Value" as "the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had acted knowledgeably, prudently and without compulsion[3].".

According to the International Valuation Standards, **Fair Value** is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.[4]

According to IVS[5], the **Fair Value** under IFRS is generally consistent with the concept of Market Value as defined in the IVS Framework.

American Appraisal (Hellas) Limited has no present or prospective interest in or bias with respect to the properties that are the subject of the reports and has no personal interest or bias with respect to the parties involved and has undertaken these valuations as independent valuer. American Appraisal (Hellas) Limited and its Qualified Valuers, do not have any conflict of interest in respect to the scope and content of work executed.

It is furthermore noted that we have not performed, for the properties in reference a test of earnings and cash flows to verify if they provide sufficient return on the invested capital. Property values may change significantly over a relatively short period. Consequently our valuations are only valid on the date of valuation.

Sincerely yours,

On behalf of American Appraisal (Hellas) Limited
