ITEM 1. DESCRIPTION OF BUSINESS

Overview

CORPORATE HISTORY

Data Storage Corporation, ("DSC") is the result of several consolidations and is strategically positioned to continue its consolidation strategy. To date, DSC consummated (i) a share exchange with Euro Trend Inc. in October 20, 2008, (ii) an asset acquisition of SafeData, LLC ("SafeData") in June 2010, and (iii) an asset acquisition of Message Logic LLC, ("Message Logic") in October 2012.

On October 20, 2008 we completed a share exchange agreement whereby we acquired all of the outstanding capital stock and ownership interests of DSC. In exchange we issued 13,357,143 shares of our common stock to the shareholders. This transaction was accounted for as a reverse merger for accounting purposes. Accordingly, DSC, the accounting acquirer, is regarded as the predecessor entity.

On June 17, 2010 we entered into an asset purchase agreement with SafeData, a provider of Cloud Storage and Cloud Computing mostly to IBM's mid-range equipment users, under which we acquired all right, title and interest in the end user customer base of SafeData and all related current and fixed assets and contracts including the transfer of all of SafeData's current liabilities arising out of the business or the assets acquired. Pursuant to the Agreement, we paid an aggregate purchase price equal to \$3,000,000. Giving effect to certain holdback and contingency clauses as defined in the agreement, we paid \$1,229,952 in cash and \$850,000 in shares of our common stock as well as assumption of SafeData accounts payable and receivables. In June of 2011 we made a final payment net of holdback of \$482,308 and we issued the remaining balance of \$150,000 in Common Stock. The final settlement resulted in a gain of \$176,497.

On October 31, 2012, DSC purchased the assets of Message Logic including email compliance software all source code to Message Logic's email archival and data analytics software and select fixed assets. In exchange for the assets, at closing, DSC gave 725,960 shares of its common stock and assumed liabilities of \$102,109. The contingent purchase price provides for up to 769,290 additional shares of DSC common stock and \$800,000. This contingent purchase price is based upon the achievement of certain metrics at the end of the 7th, 13th 19th and 25th months as defined in the asset purchase agreement dated October 31, 2012.

In November 2012, DSC entered into a joint venture partnership with an IBM partner, ABC Services Inc. to provide an IBM Infrastructure as a service ("IaaS") offering, marketed under the name Aegis, a New York LLC.

In November 2012, DSC also entered into agreements with Amazon AWS to offer its Message Logic email archiving software through the AWS marketplace and to offer stand-by-server and storage solutions.

In November 2012, DSC also entered into an agreement with Dell for distribution of its Message Logic email archiving solution.

In December 2012, DSC was accepted as an IBM Service provider for cloud solutions.

The result of these acquisitions, joint venture and strategic alliances combined with DSC's legacy disaster recovery and business continuity solutions positions DSC as a potential leader in business to business cloud storage and cloud computing sector specializing in email compliance Software as a Service (SaaS), Windows Infrastructure as a Service (IaaS) and IBM iSeries Platform as a Service (PaaS). DSC will continue to provide our solutions and continue our planned industry consolidations.

OVERVIEW OF DATA STORAGE CORPORATION & INDUSTRY:

DSC, an 11 year veteran in cloud storage and cloud computing solutions, provides data protection, disaster recovery, business continuity and compliance solutions that assist organizations in protecting their data, minimizing downtime and ensuring regulatory compliance. Serving the rapidly emerging business continuity market, DSC's clients save time and money, gain more control and better access to data and enable high level of security for that data. Solutions include: Infrastructure-as-a-Service, data backup, recovery and restore, high availability data replication services; email archive and compliance solutions for e-discovery; continuous data protection; data de-duplication; and virtualized system recovery. DSC has forged relationships for distribution with Dell, Amazon and IBM among others.

Headquartered in Garden City, N.Y., DSC offers its solutions and services to businesses within the healthcare, banking and finance, distribution services, manufacturing, construction, education, and government industries.

Our Continuing Strategy set forth in 2012

DSC derives revenues from long term subscription services and professional services related to implementation of subscription services that provide businesses in the education, government and healthcare industries protection of critical computerized data. In 2009 revenues consisted primarily of offsite data backup, de-duplication, continuous data protection, Cloud Disaster Recovery solutions and Electronic Medical Records, protecting information for our clients. In 2010 we expanded our solutions based on the asset acquisition of SafeData. In 2012 we continued to assimilate organizations, expanded our technology as well as technical group and positioned the new organization for growth. In October 2012 we purchased the software and assets of Message Logic. DSC has equipment for cloud storage and cloud computing in our data centers in Massachusetts, Rhode Island, and New York. We deliver our solutions over highly reliable, redundant and secure fiber optic networks with separate and diverse routes to the Internet. The network and geographical diversity is important to clients seeking storage hosting and disaster recovery solutions, ensuring protection of data and continuity of business in the case of a network interruption.

DSC is in the position today to leverage our infrastructure, data center, equipment capacity and leadership team to grow revenue to significant levels. Positioned for organic growth, although a strategy will be to grow through acquisition of similar solutions such as data vaulting, cloud recovery services, disaster recovery and business continuity solutions, e-discovery and infrastructure-as-a-service (“IaaS”) companies. DSC believes opportunities exist to acquire synergistic service providers to enhance our products and services portfolio, increase our distribution channels, expand our management and increase our cash flow.

Our objective is to reduce costs through economies of scale while increasing market share and consolidating efforts. We believe that through a strategy of increasing our direct sales force and partnership program as well as acquisition of synergistic services providers we can create significant value.

Our Acquisition Strategy

We believe that the opportunity exists today to acquire and consolidate synergetic companies in this fragmented industry. This strategy will enable DSC to create a national presence, and a recognizable premiere brand. The roll up of these technical consulting companies and system integrators will also form a powerful distribution channel for both our current and future service offerings.

The marketplace exists today for technical companies that provide professional services specializing in Disaster Recovery and Business Continuity. These companies are segmented into systems integrators that have added data protection services as an additional product line to their bundle of services and products. These companies focus on smaller clients, less than 1,500 employees. This segment of business amounts to 85% of all businesses in the USA and Canada. A few very large professional services providers such as IBM and SunGard focus on the enterprise level organizations greater than 1,500 employees, therefore leaving small and medium size organizations under-served and positioned for DSC's solutions.

DESCRIPTION OF SERVICES AND SOLUTIONS

DSC delivers and supports a broad range of premium cloud-based solutions focusing on data protection and recovery services utilizing High Availability with Hosted Replication, Data Storage, Data Backup and Data Recovery.

Vaulting: A fully automated service designed to reduce the overall costs associated with backup, recovery and archiving of application and file servers and to centralize and streamline data protection and retention processes.

Disaster Recovery ("DR"): A data recovery solution leveraging electronic vaulting technology and standby servers for businesses with recovery time objectives of 10 hours or less operating on IBM system i platforms.

High Availability ("HA"): A high-availability solution for organizations with recovery time objectives of 15 minutes or less.

SafeData Cloud: A fully managed service, offering "capacity on demand" for IBM Power Systems (AS400/IBM i, AIX) and Windows based applications. This infrastructure as a service is secure and reliable solution for enterprises.

*Voice over Internet Protocol ("VoIP")**: Hosted, high-speed broadband telephony services that offer superior features and access to traditional telephony services.

*Email Archival & Analytics**: Services designed to keep email and message content safe, secure and accessible with powerful, cost-efficient email and IM archiving, monitoring and retrieval that is flexible, scalable and dependable.

OVERVIEW:

DSC provides cloud solutions focused on disaster recovery and business continuity on a subscription basis in the USA and Canada. The solutions assist organizations in protecting their data, minimize downtime, ensure regulatory compliance and recover and restore data within their recovery objectives. Through our multiple data centers and by leveraging leading technologies, DSC delivers and supports a broad range of premium solutions for both Windows and IBM environments that assist clients in saving time and money, gain more control of and better access to data and, enable the highest level of security for their data. DSC's solutions include: offsite data protection and recovery services, high availability ("HA") replication services, email compliance solutions for e-discovery, continuous data protection, data de-duplication, virtualized system recovery and telecom recovery services.

Headquartered in Garden City, N.Y., we provide solutions and services to businesses in the healthcare, banking and finance, distribution services, manufacturing, construction, education, and government industries.

SERVICES AND SOLUTIONS:

DSC has become one of the leading companies in High Availability and Virtual Disaster Recovery of the IBM Mid-Range Power Systems. Our overall core competencies within the cloud are the following: Data Vaulting, Virtual Disaster Recovery and High Availability using Cloud Storage, Recovery and Computing Subscription Solutions.

High Availability ("HA")

Our cloud-based HA services provide businesses with cost-effective access to best-in-class replication technologies for organizations of all sizes, operating in IBM iSeries/AS400, MS Windows, UNIX, Linux and AIX environments. For those companies that have recovery time objectives of 1 hour or less, DSC's HA solution meets the high availability demands of their business. DSC's HA solution is a subscription-based high availability offering. For a monthly subscription fee and long-term contract, DSC creates and maintains a mirror of its clients' mission-critical systems and data at a secure off-site data center ensuring their business is "switch ready." During either planned or unplanned downtime, DSC's HA solution ensures the business will continue to operate, by providing an essential Infrastructure-as-a-service (IaaS), switchable "mirror" of a client's data and applications.

In the event of an outage, the DSC system becomes the client's production system. When the client's production system is again operational, the DSC server updates the client's system with any new data. When downtime is planned, the customer can switch to the DSC server and run its production applications.

Benefits of DSC's HA include:

- data and application availability in one hour or less
- cost-effective
- easy to implement and manage
- reliable backup and recovery

Disaster Recovery (“DR”)

Organizations may not require real-time recovery. For those with recovery time objectives of 10 hours or less, DSC’s DR Standby Server subscription-based service is a viable option requiring little or no initial capital expenditure.

DR is available for the IBM System iSeries, UNIX, AIX and Windows operating systems. DR instantly transfers data off-site to one of DSC’s secure data centers. All data is encrypted prior to transmission and remains encrypted “in-flight” and “at rest” to ensure protection and to meet today’s compliance standards.

Benefits of DR include:

- fast recovery times (in hours, not days)
- no tapes to get lost or damaged
- virtual recovery that fully protects your server investment
- eliminate data recovery burden on IT resources

Vaulting for Backup, Recovery & Archiving (Offsite, Remote, and Local-only)

DSC offers a fully automated service designed to reduce the overall costs associated with backup and recovery of application and file servers that enables organizations to centralize and streamline their data protection process. Business-critical data can be backed up any time, while servers are up and running.

The essence of data backup is simply the scheduled movement of “point-in-time” snapshots of data across a network to a remote location. DSC’s disk-to-disk backup and recovery solution is reliable and easy-to-use. As part of this service, DSC offers Continuous Data Protection (“CDP”), delta block processing, data de-duplication and large volume protection.

DSC’s Vault has significant advantages over traditional backup software:

- immediate off-site backup
- reduced backup windows
- elimination of tape management issues
- minimized costs associated with distributed backups
- elimination of human intervention
- encryption of all backed up data
- optimized bandwidth

BENEFITS AND FEATURES OF DSC SOLUTIONS:

Data Archiving – Lifecycle Management

Backup data must be managed throughout its lifecycle to provide the best data protection, meet compliance regulations and to improve recovery time objectives (“RTO”). DSC offers policy-based file archiving and manages archiving and restoration of data from backup sessions, reducing the cost of inactive files on-line. DSC creates restorable point-in-time copies of backup sets for historical reference to meet compliance objectives and creates Certificates of Destruction. All of an enterprise’s data can be placed into one of two categories. Critical information is that which is needed for day-to-day operations and resides in the system’s primary storage for fast access. Important information is the historical, legal and regulatory information that can safely be archived to secondary storage, lower cost disk or tapes stored offsite

Continuous Data Protection (“CDP”)

What if a database is corrupted in the middle of the workday? As data continually mounts in today’s fast paced business environment, organizations need to protect their systems on an ongoing basis, or risk losing mission-critical data, information, and transactions, as well as associated business revenue. CDP solutions employ sophisticated I/O, CPU, and network throttling to achieve efficiency and reliability. Moreover, to protect against connectivity failures and interruptions, CDP features an auto resume mechanism that sustains replication and adapts according to the environment to achieve optimal and predictable performance.

Our technology will identify and propagate only that sector of data to the DR site, effectively reducing bandwidth and storage consumption. CDP also employs data compression and encryption to maximize network bandwidth utilization and ensure end-to-end security between the primary and DR site.

Microsoft Exchange

Ensure business-critical e-mail data is protected against application or hardware-based corruption or loss, user error, or a natural disaster with our solution. Designed with ease of use in mind, our solution provides Exchange Server 2000/2003/2007 complete protection down to the individual mailbox or even an individual mail message.

Off-Site Backup Services

We provide online backup services that transfer your information over the Internet or on a dedicated private circuit to our secure company owned off-site storage location. Our online backup service provides the most advanced data protection solution for small and medium businesses. Our service turns an ordinary server into a powerful and fully automated network backup device.

COMPETITION

High Availability and Virtual Disaster Recovery Services

The following vendors compete with DSC within the HA and virtual DR services sector: HP Services, IBM Business Continuity and Recovery Services, and SunGard. Recently these companies have expanded into data vaulting to target smaller clients.

Data Vaulting

- **Information Management and Protection Vendors:** Vendors include EMC, i365, Symantec and CommVault.
- **Specialized Vendors:** Venyu, which focuses on SMBs in the US.
- **Technology Providers / Service providers.** OEM-focused vendors may or may not be service providers, but they have access to a large business based on licensing their technology to other vendors. This includes vendors such as CommVault and i365. Symantec acquired online backup provider SwapDrive. i365, A Seagate Company, acquired EVault in January 2007, renaming it i365. Connected Backup has an established enterprise customer base. IBM Global Technology Services acquired Arsenal Digital Solutions in 2007, adding a range of Online backup services to its portfolio and rebranding it IBM Information Protection Services to Managed Data Vault. Venyu offers two online backup and recovery services: AmeriVault-AV and AmeriVault-EV. Its services protect PCs and servers, and while it focuses mostly on SMBs, it can also support Enterprises

DSC services customers from its New York and Rhode Island premises, which consist of modern offices and a technology suite adapted to meet the needs of a technology based business. DSC's mission is to provide a high level of service to organizations that need to ensure that their data is intact and available upon demand.

DSC varies its use of resource, technology and work processes to meet the changing opportunities and challenges presented by the market and the internal customer requirements.

RESULTS OF OPERATION

Year ended December 31, 2012 as compared to December 31, 2011

Net Sales. Net sales for the year ended December 31, 2012 were \$4,018,351 and increase of \$78,028 or 2%, compared to \$3,940,323 for the year ended December 31, 2011. The increase in sales is the result of an increase in recurring sales revenues of \$283,944 to \$3,793,608 for the year ended December 31, 2012 from \$3,509,664 for the year ended December 31, 2011, offset by a decrease of in non-recurring revenue of \$205,916 to \$224,742 for the year ended December 31, 2012 from \$430,658 for the year ended December 31, 2011

Cost of Sales. For the year ended December 31, 2012, cost of sales was \$2,715,060 an increase of \$205,139 from \$2,509,921 for the year ended December 31, 2011. The increase in cost of sales is directly attributable to the increase in recurring sales which have a higher cost of sale than non-recurring sales which are typically generated from fixed labor costs. DSC's gross margin is 32.4 % for the year ended December 31, 2012 as compared to 36.3 % for the year ended December 31, 2011.

Operating Expenses. For the year ended December 31, 2012, operating expenses were \$3,468,423 an increase of \$211,332 as compared to \$3,257,091 for the year ended December 31, 2011. The majority of the increase in operating expenses for the year ended December 31, 2012 is a result of increased salaries. Sales salaries increased \$262,935 to \$750,174 for the year ended December 31, 2012, as compared to \$487,238 for the year ended December 31, 2011. Executive salaries expense increased \$46,650 to \$507,656, as compared to \$461,006 for the year ended December 31, 2012 and 2011. Sales commission expense decreased \$259,419 to \$109,055, as compared to \$368,474 for the year ended December 31, 2012 and 2011. This is a result of more new sales being generated by internal sales force who are paid by salary as opposed to new sales by partners.

Other Expenses. Interest income for the year ended December 31, 2012 decreased \$2,078 to \$166 from \$2,244 for the year ended December 31, 2011. Amortization of debt discount for the year ended December 31, 2012 decreased \$753,935 to \$0 from \$753,935 for the year ended December 31, 2011, due to the conversion of related debt on December 31, 2011. Amortization of deferred financing fees for the year ended December 31, 2012 decreased \$4,294 to \$74 from \$4,368 for the year ended December 31, 2011. Loss on extinguishment of debt for the year ended December 31, 2012 decreased \$142,925 to \$0 from \$142,925 for the year ended December 31, 2011, due to the conversion and settlement of debt on December 31, 2011. Loss on settlement of liabilities for the year ended December 31, 2012 decreased \$8,975 to \$0 from \$8,975 for the year ended December 31, 2011. Interest Expense for the year ended December 31, 2012 decreased \$102,491 to \$143,005 from \$245,496 for the year ended December 31, 2011.

Net Loss. Net loss for the year ended December 31, 2012 was (\$2,308,045) a decrease of \$495,602 as compared to net loss of (\$2,803,647) for the year ended December 31, 2011.

LIQUIDITY AND CAPITAL RESOURCES

The financial statements have been prepared using generally accepted accounting principles in the United States of America (“GAAP”) applicable for a going concern, which assumes that DSC will realize its assets and discharge its liabilities in the ordinary course of business. DSC has been funded by Mr. Charles M Piluso, DSC’s Chief Executive Officer and largest shareholder combined with private placements of DSC’s common stock. DSC has been successful in raising money as needed. Further it is the intention of management to continue to raise money through stock issuances and to fund DSC on an as needed basis. In 2013 we intend to continue to work to increase our presence in the IBM marketplace utilizing our increased technical expertise, capacity for data storage and managed services with our asset acquisition of SafeData.

To the extent we are successful in growing our business, identifying potential acquisition targets and negotiating the terms of such acquisition, and the purchase price includes a cash component, we plan to use our working capital and the proceeds of any financing to finance such acquisition costs. Our opinion concerning our liquidity is based on current information. If this information proves to be inaccurate, or if circumstances change, we may not be able to meet our liquidity needs.

During the year ended December 31, 2012 DSC’s cash decreased \$95,734 to \$72,756 from \$168,490 at December 31, 2011. Net cash of \$806,737 was used in DSC’s operating activities and cash of \$106,053 was used in investing activities, primarily funding capital expenditures. Net cash of \$817,056 was provided by DSC’s financing activities. This is the result of a \$500,000 convertible debt issuance a \$500,000 common stock issuance, \$133,502 in advances from a company shareholder offset by \$220,584 in capital lease payments, payment of preferred dividend and offset by \$92,757 on loan payments.

DSC’s working capital deficit was (\$3,064,207) at December 31, 2012, decreasing \$782,431 from (\$2,281,776) at December 31, 2011. The decrease is primarily due to the decrease in cash and increase in payables resulting from operating losses.

Share Based Compensation

DSC follows the requirements of FASB ASC 718-10-10, Share Based Payments with regard to stock-based compensation issued to employees. DSC has agreements and arrangements that call for stock to be awarded to the employees and consultants at various times as compensation and periodic bonuses. The expense for this stock based compensation is equal to the fair value of the stock price on the day the stock was awarded multiplied by the number of shares awarded.

The valuation methodology used to determine the fair value of the options issued during the year was the Black-Scholes option-pricing model. The Black-Scholes model requires the use of a number of assumptions including volatility of the stock price, the average risk-free interest rate, and the weighted average expected life of the options. The risk-free interest rate assumption is based upon observed interest rates on zero coupon U.S. Treasury bonds whose maturity period is appropriate for the term of the warrants and is calculated by using the average daily historical stock prices through the day preceding the grant date.

Estimated volatility is a measure of the amount by which DSC’s stock price is expected to fluctuate each year during the expected life of the award. DSC’s estimated volatility is an average of the historical volatility of peer entities whose stock prices were publicly available. DSC’s calculation of estimated volatility is based on historical stock prices of these peer entities over a period equal to the expected life of the awards. DSC uses the historical volatility of peer entities due to the lack of sufficient historical data of its stock price.

Off-Balance Sheet Arrangements

DSC does not have any off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as “special purpose entities” (“SPE”s).

CRITICAL ACCOUNTING POLICIES

DSC's financial statements and related public financial information are based on the application of GAAP. GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenue, and expense amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our financial statements.

Our significant accounting policies are summarized in Note 1 of our financial statements. While all these significant accounting policies impact our financial condition and results of operations, we view certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates. Our management believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause effect on our consolidated results of operations, financial position or liquidity for the periods presented in this report.

RECENTLY ISSUED AND NEWLY ADOPTED ACCOUNTING PRONOUNCEMENTS

In July 2012, the Financial Accounting Standards Board ("FASB") issued ASU No. 2012-02, "*Testing Indefinite-Lived Intangible Assets for Impairment*" ("ASU 2012-02"). ASU 2012-02 gives entities an option to first assess qualitative factors to determine whether the existence of events and circumstances indicate that it is more likely than not that the indefinite-lived intangible asset impaired. If based on its qualitative assessment, an entity concludes that it is more likely than not that the fair value of an indefinite-lived intangible asset is less than its carrying amount, quantitative impairment testing is required. However, if an entity concludes otherwise, quantitative impairment testing is not required. ASU 2012-02 is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012, with early adoption permitted. ASU 2012-02 is not expected to have a material impact on DSC's financial position or results of operations.

In December 2011, the FASB issued ASU No. 2011-11, "*Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities*" ("ASU 2011-11"). ASU 2011-11 enhances current disclosures about financial instruments and derivative instruments that are either offset on the statement of financial position or subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are offset on the statement of financial position. Entities are required to provide both net and gross information for these assets and liabilities in order to facilitate comparability between financial statements prepared on the basis of U.S. GAAP and financial statements prepared on the basis of IFRS. ASU 2011-11 is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. ASU 2011-11 is not expected to have a material impact on DSC's financial position or results of operations.

In September 2011, the FASB issued Accounting Standards Update No. 2011-08 (“ASU 2011-08”), which updates the guidance in ASC Topic 350, *Intangibles – Goodwill & Other*. The amendments in ASU 2011-08 permit an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than the carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in ASC Topic 350. The more-likely-than-not threshold is defined as having a likelihood of more than fifty percent. If, after assessing the totality of events or circumstances, an entity determines that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. The amendments in ASU 2011-08 include examples of events and circumstances that an entity should consider in evaluating whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. However, the examples are not intended to be all-inclusive and an entity may identify other relevant events and circumstances to consider in making the determination. The examples in this ASU 2011-08 supersede the previous examples under ASC Topic 350 of events and circumstances an entity should consider in determining whether it should test for impairment between annual tests, and also supersede the examples of events and circumstances that an entity having a reporting unit with a zero or negative carrying amount should consider in determining whether to perform the second step of the impairment test. Under the amendments in ASU 2011-08, an entity is no longer permitted to carry forward its detailed calculation of a reporting unit’s fair value from a prior year as previously permitted under ASC Topic 350. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. The adoption of ASU 2011-08 did not have a material impact on DSC’s financial position or results of operations.

In May 2011, the FASB issued Accounting Standards Update 2011-04 (“ASU 2011-04”), which updated the guidance in ASC Topic 820, *Fair Value Measurement*. The amendments in ASU 2011-04 generally represent clarifications of Topic 820, but also include some instances where a particular principle or requirement for measuring fair value or disclosing information about fair value measurements has changed. ASU 2011-04 results in common principles and requirements for measuring fair value and for disclosing information about fair value measurements in accordance with U.S. GAAP and International Financial Reporting Standards. The amendments in ASU 2011-04 are to be applied prospectively. For public entities, the amendments are effective for interim and annual periods beginning after December 15, 2011. The adoption of ASU 2011-04 did not have a material impact on DSC’s financial position or results of operations.

Management does not believe there would have been a material effect on the accompanying financial statements had any other recently issued, but not yet effective, accounting standards been adopted in the current period.

OFF BALANCE SHEET TRANSACTIONS

DSC has no off-balance sheet arrangements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Sensitivity

Interest due on DSC’s loans is based upon the applicable stated fixed contractual rate with the lender. Interest earned on DSC’s bank accounts is linked to the applicable base interest rate. For the years ended December 31, 2012 and 2011, DSC had interest expense, net of interest income, of approximately \$142,839 and \$243,252, respectively. DSC believes that its results of operations are not materially affected by changes in interest rates.

DSC’s exposure to market risk is confined to its cash and cash equivalents, all of which have maturities of less than three months and bear and pay interest in U.S. dollars. Since DSC invests in highly liquid, relatively low yield investments, we do not believe interest rate changes would have a material impact on us.

DSC does not hold any derivative instruments and does not engage in any hedging activities.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and
Stockholders of DSC

We have audited the accompanying balance sheets of DSC as of December 31, 2012 and 2011, and the related statements of income, stockholders' equity and cash flows for each of the years then ended. DSC's management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of DSC as of December 31, 2012 and 2011, and the results of its operations and its cash flows for each of the years then ended in conformity with accounting principles generally accepted in the United States of America.

**DATA STORAGE CORPORATION AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2012 AND 2011**

Note 1 – Description of business, organization and other matters

Description of Business

Data Storage Corporation, (“DSC”) is the result of several consolidations and is strategically positioned to continue its consolidation strategy. To date, DSC consummated (i) a share exchange with Euro Trend Inc. on October 20, 2008 (ii) an asset acquisition of SafeData, LLC (“SafeData”) in June 2010 and (iii) an asset acquisition of Message Logic LLC, (“Message Logic”) in October 2012.

On October 20, 2008 we completed a Share Exchange Agreement whereby we acquired all of the outstanding capital stock and ownership interests of DSC. In exchange we issued 13,357,143 shares of our common stock to the DSC’s Shareholders. This transaction was accounted for as a reverse merger for accounting purposes. Accordingly, DSC, the accounting acquirer, is regarded as the predecessor entity.

On June 17, 2010 we entered into an Asset Purchase Agreement with SafeData, a provider of Cloud Storage and Cloud Computing mostly to IBM’s Mid-Range Equipment users, under which we acquired all right, title and interest in the end user customer base of SafeData and all related current and fixed assets and contracts including the transfer of all of Safe Data’s current liabilities arising out of the business or the assets acquired. Pursuant to the Agreement, we paid an aggregate purchase price equal to \$3,000,000. Giving effect to certain holdback and contingency clauses as defined in the agreement, we paid \$1,229,952 in cash and \$850,000 in shares of our common stock as well as assumption of SafeData Accounts Payable and Receivables. In June of 2011 DSC made a final payment net of holdback of \$482,308 and we issued the remaining balance of \$150,000 in Common Stock. The final settlement resulted in a gain of \$176,497.

On October 31, 2012 DSC purchased the assets of Message Logic, LLC including email compliance software all source code to Message Logic’s email archival and data analytics software and select fixed assets. In exchange for the assets, at closing, DSC gave 725,960 shares of its common stock and assumed liabilities of \$102,109. The contingent purchase price provides for up to 769,230 additional shares of DSC common stock and \$800,000. This contingent purchase price is based upon the achievement of certain metrics at the end of the 7th, 13th 19th and 25th months as defined in the Asset Purchase Agreement dated October 31, 2012.

Further, on August 2012 DSC has entered into a Joint Venture Partnership with an IBM partner, ABC Solutions to provide an IBM Infrastructure as a service (IaaS) offering, marketed under the name Aegis, a New York LLC. Additionally, on November 12th 2012 DSC entered into an agreement with Amazon AWS; an agreement with IBM for their cloud solutions on December 10th 2012; and, Dell for distribution of our Message Logic email archiving solution on November 1st 2012.

The result of these acquisitions and joint venture combined with DSC's legacy solutions of disaster recovery and business continuity positions DSC as a potential leader in business to business cloud storage and cloud computing sector specializing in providing email compliance Software as a Service (SaaS), Windows Infrastructure as a Service (IaaS) and IBM iSeries Platform as a Service (PaaS).

Liquidity

The financial statements have been prepared using accounting principles generally accepted in the United States of America applicable for a going concern, which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. For the year ended December 31, 2012, DSC has generated revenues of \$4,018,351 but has incurred a net loss of \$2,308,045. Its ability to continue as a going concern is dependent upon achieving sales growth, reduction of operation expenses and ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due, and upon profitable operations. DSC has been funded by Mr. Charles M. Piluso, DSC's Chief Executive Officer and largest shareholder since inception as well as several Directors. It is the intention of Charles Piluso to continue to fund DSC on an as needed basis.

Note 2 - Summary of Significant Accounting Policies

Stock Based Compensation

The Company follows the requirements of FASB ASC 718-10-10, Share Based Payments with regard to stock-based compensation issued to employees. The Company has various employment agreements and consulting arrangements that call for stock to be awarded to the employees and consultants at various times as compensation and periodic bonuses. The expense for this stock based compensation is equal to the fair value of the stock that was determined by using the most recent private placement price on the day the stock was awarded multiplied by the number of shares awarded. The Company records its options at fair value using the Black-Scholes valuation model.

Recently Issued and Newly Adopted Accounting Pronouncements

In July 2012, the Financial Accounting Standards Board ("FASB") issued ASU No. 2012-02, "*Testing Indefinite-Lived Intangible Assets for Impairment*" ("ASU 2012-02"). ASU 2012-02 gives entities an option to first assess qualitative factors to determine whether the existence of events and circumstances indicate that it is more likely than not that the indefinite-lived intangible asset is impaired. If based on its qualitative assessment an entity concludes that it is more likely than not that the fair value of an indefinite-lived intangible asset is less than its carrying amount, quantitative impairment testing is required. However, if an entity concludes otherwise, quantitative impairment testing is not required. ASU 2012-02 is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012, with early adoption permitted. ASU 2012-02 is not expected to have a material impact on the Company's financial position or results of operations.

In December 2011, the Financial Accounting Standards Board ("FASB") issued ASU No. 2011-11, "*Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities*" ("ASU 2011-11"). ASU 2011-11 enhances current disclosures about financial instruments and derivative instruments that are either offset on the statement of financial position or subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are offset on the statement of financial position. Entities are required to provide both net and gross information for these assets and liabilities in order to facilitate comparability between financial statements prepared on the basis of U.S. GAAP and financial statements prepared on the basis of IFRS. ASU 2011-11 is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. ASU 2011-11 is not expected to have a material impact on the Company's financial position or results of operations.

In September 2011, the FASB issued Accounting Standards Update No. 2011-08 (“ASU 2011-08”), which updates the guidance in ASC Topic 350, *Intangibles – Goodwill & Other*. The amendments in ASU 2011-08 permit an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than the carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in ASC Topic 350. The more-likely-than-not threshold is defined as having a likelihood of more than fifty percent. If, after assessing the totality of events or circumstances, an entity determines that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. The amendments in ASU 2011-08 include examples of events and circumstances that an entity should consider in evaluating whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. However, the examples are not intended to be all-inclusive and an entity may identify other relevant events and circumstances to consider in making the determination. The examples in this ASU 2011-08 supersede the previous examples under ASC Topic 350 of events and circumstances an entity should consider in determining whether it should test for impairment between annual tests, and also supersede the examples of events and circumstances that an entity having a reporting unit with a zero or negative carrying amount should consider in determining whether to perform the second step of the impairment test. Under the amendments in ASU 2011-08, an entity is no longer permitted to carry forward its detailed calculation of a reporting unit’s fair value from a prior year as previously permitted under ASC Topic 350. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. The adoption of ASU 2011-08 did not have a material impact on the Company’s financial position or results of operations.

Management does not believe there would have been a material effect on the accompanying financial statements had any other recently issued, but not yet effective, accounting standards been adopted in the current period.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiary, DSC, a Delaware Corporation. All significant inter-company transactions and balances have been eliminated in consolidation.

Cash, cash equivalents and short-term investments

The Company considers all highly liquid investments with an original maturity or remaining maturity at the time of purchase, of three months or less to be cash equivalents.

Concentration of credit risk and other risks and uncertainties

Financial instruments and assets subjecting the Company to concentration of credit risk consist primarily of cash and cash equivalents, short-term investments and trade accounts receivable. The Company’s cash and cash equivalents are maintained at major U.S. financial institutions. Deposits in these institutions may exceed the amount of insurance provided on such deposits.

The Company’s customers are primarily concentrated in the United States.

The Company provides credit in the normal course of business. The Company performs ongoing credit evaluations of its customers and maintains allowances for doubtful accounts on factors surrounding the credit risk of specific customers, historical trends, and other information.

For the years ended December 31, 2012 and 2011 DSC did not have any customer concentrations.

Accounts Receivable/Allowance for Doubtful Accounts

The Company sells its services to customers on an open credit basis. Accounts receivable are uncollateralized, non-interest-bearing customer obligations. Accounts receivables are due within 30 days. The allowance for doubtful accounts reflects the estimated accounts receivable that will not be collected due to credit losses and allowances. Provisions for estimated uncollectible accounts receivable are made for individual accounts based upon specific facts and circumstances including criteria such as their age, amount, and customer standing. Provisions are also made for other accounts receivable not specifically reviewed based upon historical experience. Clients are invoiced in advance for services as reflected in deferred revenue on the company’s balance sheet.

Property and Equipment

Property and equipment is recorded at cost and depreciated over their estimated useful lives or the term of the lease using the straight-line method for financial statement purposes. Estimated useful lives in years for depreciation are 5 to 7 years for property and equipment. Additions, betterments and replacements are capitalized, while expenditures for repairs and maintenance are charged to operations when incurred. As units of property are sold or retired, the related cost and accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income.

Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. At December 31, 2012, the Company had a full valuation allowance against its deferred tax assets.

Estimated Fair Value of Financial Instruments

The Company's financial instruments include cash, accounts receivable and accounts payable, line of credit and due to related parties. Management believes the estimated fair value of these accounts at December 31, 2012 approximate their carrying value as reflected in the balance sheets due to the short-term nature of these instruments or the use of market interest rates for debt instruments. The carrying values of the company's long-term debt approximates their fair values based upon a comparison of the interest rate and terms of such debt to the rates and terms of debt currently available to the company.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

Revenue Recognition

The Company's revenues consist principally of cloud storage and cloud computing revenues, SaaS and IaaS. Storage revenues consist of monthly charges related to the storage of materials or data (generally on a per unit basis). Sales are generally recorded in the month the service is provided. For customers who are billed on an annual basis, deferred revenue is recorded and amortized over the life of the contract. Set up fees charged in connection with storage contracts are deferred and recognized on a straight line basis over the life of the contract.

Advertising Costs

The Company expenses the costs associated with advertising as they are incurred. The Company incurred \$127,756 and \$187,463 for advertising costs for the years ended December 31, 2012 and 2011, respectively.

Net Income (Loss) per Common Share

In accordance with FASB ASC 260-10-5 Earnings per Share, basic income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share is computed by dividing net income (loss) adjusted for income or loss that would result from the assumed conversion of potential common shares from contracts that may be settled in stock or cash by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period. The inclusion of the potential common shares to be issued has an anti-dilutive effect on diluted loss per share and therefore they are not included in the calculation. Potentially dilutive securities at December 31, 2012 include 6,212,992 options and 28,642 warrants. outstanding during each period. The inclusion of the potential common shares to be issued has an anti-dilutive effect on diluted loss per share and therefore they are not included in the calculation. Potentially dilutive securities at December 31, 2011 include 2,563,115 options and 173,427 warrants.

Note 5 – Capital lease obligations

The Company acquired capital leases in the acquisition of SafeData. The economic substance of the leases is that the Company is financing the acquisitions through the leases and accordingly, they are recorded in the Company's assets and liabilities. The leases are payable to Systems Trading, Inc. and IBM with combined monthly installments of \$56,136 through various dates in 2012 and 2011. The leases are secured with the computer equipment. Interest rates on capitalized leases vary from 6%-12% and are imputed based on the lower of the Company's incremental borrowing rate at the inception of each lease or the lessor's implicit rate of return.

Future minimum lease payments under the capital leases are as follows:

As of December 31, 2012	\$ 1,162,453
Less amount representing interest	<u>(64,786)</u>
Total obligations under capital leases	1,097,667

Note 7 – Convertible debt

Related Party

On January 31, 2012 the Company entered into a \$500,000 convertible promissory note with a director of the company. The note is convertible into the Company's common stock at \$0.85 per share and carries interest at 10%. Interest is payable quarterly through the maturity date of January 31, 2015. DSC has accrued interest on this note totaling \$45,890 and is in arrears on its interest payments.

Note 8 - Stockholders' Equity

Capital Stock

During the year ended December 31, 2012 the Company issued Three Million Three Hundred Thirty Three Thousand Three Hundred Thirty-Three (3,333,333) shares of the Company's common stock, \$0.001 par value per share (the "Common Stock) at a price of \$0.15 for an aggregate purchase price of \$500,000. The shares were issued to Charles M. Piluso, Cliff Stein, John Coghlan and Jan Burman four directors and their affiliates, the proceeds were used for general working capital.

The Company has 260,000,000 shares of capital stock authorized, consisting of 250,000,000 shares of Common Stock, par value \$0.001, 10,000,000 shares of Series A Preferred Stock, par value \$0.001 per share.

2008 Equity Incentive Plan

In October 2008, the Company's board of directors (the "Board") adopted, the Euro Trend, Inc. 2008 Equity Incentive Plan (the "2008 Plan"). Under the 2008 Plan, we may grant options (including incentive stock options) to purchase our common stock or restricted stock awards to our employees, consultants or non-employee directors. The 2008 Plan is administered by the Board. Awards may be granted pursuant to the 2008 Plan for 10 years from the date the Board approved the 2008 Plan. Any grant under the 2008 Plan may be repriced, replaced or regranted at the discretion of the Board.

The material terms of options granted under the 2008 Plan (all of which have been nonqualified stock options) are consistent with the terms described in the footnotes to the "Outstanding Equity Awards at Fiscal Year-End December 31, 2011", including 5 year graded vesting schedules and exercise prices equal to the fair market value of our common stock on the date of grant. Stock grants made under the 2008 Plan have not been subject to vesting requirements. The 2008 Plan was terminated with respect to the issuance of new awards as of February 3, 2012. There are 3,075,938 options outstanding under this plan as of December 31, 2012. During the year ended December 31, 2012 DSC issued 570,602 shares under the 2008 Plan.

2010 Incentive Award Plan

The Company has reserved 2,000,000 shares of common stock for issuance under the terms of the DSC 2010 Incentive Award Plan (the "2010 Plan"). The 2010 Plan is intended to promote the interests of the Company by attracting and retaining exceptional employees, consultants, directors, officers and independent contractors (collectively referred to as the "Participants"), and enabling such Participants to participate in the long-term growth and financial success of the Company. Under the 2010 Plan, the Company may grant stock options, which are intended to qualify as "incentive stock options" under Section 422 of the Internal Revenue Code of 1986, as amended, non-qualified stock options, stock appreciation rights and restricted stock awards, which are restricted shares of common stock (collectively referred to as "Incentive Awards"). Incentive Awards may be granted pursuant to the 2010 Plan for 10 years from the Effective Date. From time to time, we may issue Incentive Awards pursuant to the 2010 Plan. Each of the awards will be evidenced by and issued under a written agreement.

On April 23, 2012, the Board of Directors of the Company amended and restated the DSC 2010 Plan. The 2010 Plan, as amended and restated, has been renamed the "Amended and Restated DSC Incentive Award Plan". The new plan provides for flexibility in vesting periods and includes a limit of \$100,000 per employee per year for incentive stock options

There are 3,137,054 options outstanding under this plan as of December 31, 2012. During the year ended December 31, 2012 the Company issued 3,137,054 common stock options under the 2010 Plan which was amended, restated and renamed the "Amended and Restated DSC Incentive Award Plan".

A summary of the Company's option activity and related information follows:

Share-based compensation expense for options totaling \$300,267 was recognized in our results for the year ended December 31, 2012 is based on awards vested. The company also issued options valued at \$443,664. The options were valued at the grant date at \$671,687.

The valuation methodology used to determine the fair value of the options issued during the year was the Black-Scholes option-pricing model, an acceptable model in accordance with FASB ASC 718-10-10 Share Based Payments. The Black-Scholes model requires the use of a number of assumptions including volatility of the stock price, the average risk-free interest rate, and the weighted average expected life of the warrants

The risk-free interest rate assumption is based upon observed interest rates on zero coupon U.S. Treasury bonds whose maturity period is appropriate for the term of the Warrants and is calculated by using the average daily historical stock prices through the day preceding the grant date

Estimated volatility is a measure of the amount by which the Company's stock price is expected to fluctuate each year during the expected life of the award. The Company's estimated volatility is an average of the historical volatility of peer entities whose stock prices were publicly available. The Company's calculation of estimated volatility is based on historical stock prices of these peer entities over a period equal to the expected life of the awards. The Company uses the historical volatility of peer entities due to the lack of sufficient historical data of its stock price.

The weighted average fair value of options granted and the assumptions used in the Black-Scholes model during the year ended December 31, 2012 and 2011 are set forth in the table below.

	2012	2011
Weighted average fair value of options granted	\$ 0.26	\$ 0.37
Risk-free interest rate	1.59%	2.20%
Volatility	98.0%	74.98 %
Expected life (years)	10	10
Dividend yield	0.00%	0.00 %

As of December 31, 2011, there was approximately \$424,768 of total unrecognized compensation expense related to unvested employee options granted under the Company's share based compensation plans that is expected to be recognized over a weighted average period of approximately 2.9 years.

During the year ended December 31, 2012 the company issued 4,109,293 shares of its common stock; 3,333,333 were issued for \$500,000, 50,000 shares were issued in connection with the equity line from Southridge Partners II, LP, 725,960 shares were issued in connection with the acquisition of Message Logic, LLC, and 143,910 under a cashless warrant exercise.

During the year ended December 31, 2011 the company issued 3,940,777 shares of common stock for an aggregate \$255,000 to unrelated independent investors and \$1,500,000 to a Director.

Convertible debt holders exercised their rights which included the conversion of stock and warrant exercise for a total of 5,523,728 shares of common stock. In addition the holders received an inducement of 253,393 shares to convert and accept shares in lieu of past due interest payments. Shares issued for past due interest payments totaled 145,404. The transaction resulted in the recognition of a loss on extinguishment of debt of \$142,925.

During 2011 the company issued 300,000 shares of common stock in settlement of accounts payable and 50,000 shares in connection with a financing.

Note 9 - Related Party Transactions

During the year ended December 31, 2012 the Company issued Three Million Three Hundred Thirty Three Thousand Three Hundred Thirty-Three (3,333,333) shares of the Company's common stock, \$0.001 par value per share (the "Common Stock") at a price of \$0.15 for an aggregate purchase price of \$500,000. The shares were issued to Charles M. Piluso, Cliff Stein, John Coghlan and Jan Burman four directors and their affiliates.

Due to related party represents rent accrued to a partnership controlled by the Chief Executive Officer of the company for the New York Data Center. The rent expense for the data center is \$1,500 per month. As of December 31, 2012, DSC owed \$162,804 under this agreement.

As of December 31, 2012 the Company owed the Chief Executive Officer \$758,320. These advances bear no interest and have no stated terms of repayment.

Note 10 - Income Taxes

The components of the provision (benefit) for income taxes are as follows:

	Years Ended December 31,	
	2012	2011
CURRENT		
Federal	\$ -0-	\$ -0-
State	-0-	-0-
Total current tax provision	<u>-0-</u>	<u>-0-</u>
DEFERRED		
Federal	-0-	-0-
State	-0-	-0-
Total deferred tax provision	<u>-0-</u>	<u>-0-</u>
Total tax provision (benefit)	<u>\$ -0-</u>	<u>\$ -0-</u>

The Components of deferred taxes consists of the following

Deferred Tax Assets:

Net operating loss carry-forward	\$ (1,338,407)	\$ (1,300,983)
Less: valuation allowance	(1,338,407)	(1,300,983)
Deferred tax assets	-0-	-0-
Deferred tax liabilities	-0-	-0-
Net deferred tax asset	<u>\$ -0-</u>	<u>\$ -0-</u>

The Company had federal and state net operating tax loss carry-forwards of approximately \$3,365,381 and \$3,382,777, respectively as of December 31, 2012. The tax loss carry-forwards are available to offset future taxable income with the federal and state carry-forwards beginning to expire in 2028.

In 2010, net deferred tax assets did not change due to the full allowance. The gross amount of the asset is entirely due to the Net operating loss carry forward. The realization of the tax benefits is subject to the sufficiency of taxable income in future years. The combined deferred tax assets represent the amounts expected to be realized before expiration.

The Company periodically assesses the likelihood that it will be able to recover its deferred tax assets. The Company considers all available evidence, both positive and negative, including historical levels of income, expectations and risks associated with estimates of future taxable income and ongoing prudent and feasible profits. As a result of this analysis of all available evidence, both positive and negative, the Company concluded that it is more likely than not that its net deferred tax assets will ultimately not be recovered and, accordingly, a valuation allowance was recorded as of December 31, 2012 and 2011.

The difference between the expected income tax expense (benefit) and the actual tax expense (benefit) computed by using the Federal statutory rate of 34% is as follows:

	Year Ended December 31,	
	2012	2011

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this Annual Report, under the supervision and with the participation of DSC's management, including its principal executive officer and principal financial officer, DSC conducted an evaluation of its disclosure controls and procedures, as such term is defined under Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, DSC's principal executive officer and principal financial officers have concluded that DSC's disclosure controls and procedures are not effective to ensure that information required to be disclosed by DSC in the reports it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's (the "SEC") rules based on the material weakness described below.

Management's Report on Internal Control Over Financial Reporting

DSC's management is responsible for establishing and maintaining effective internal control over financial reporting as defined in Rule 13a-15(f) under the Exchange Act. DSC's internal control over financial reporting is designed to provide reasonable assurance to DSC's management and Board of Directors regarding the preparation and fair presentation of published financial statements in accordance with United States' generally accepted accounting principles ("GAAP"), including those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of DSC, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP and that receipts and expenditures are being made only in accordance with authorizations of DSC's management and directors and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of DSC's assets that could have a material effect on the financial statements.

Management conducted an evaluation of the effectiveness of internal control over financial reporting based on the framework in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Management's assessment included an evaluation of the design of DSC's internal control over financial reporting and testing of the operational effectiveness of our internal control over financial reporting. Based on this evaluation, management has determined that as of December 31, 2012, there were material weaknesses in our internal control over financial reporting. The material weaknesses identified during management's assessment were (i) a lack of sufficient internal accounting expertise to provide reasonable assurance that our financial statements and notes thereto are prepared in accordance with GAAP and (ii) a lack of segregation of duties to ensure adequate review of financial statement preparation. In light of these material weaknesses, management has concluded that, as of December 31, 2012, DSC did not maintain effective internal control over financial reporting. As defined by the Public Company Accounting Oversight Board Auditing Standard No. 5, a material weakness is a deficiency or a combination of deficiencies, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected. In order to ensure the effectiveness of DSC's disclosure controls in the future DSC intends on adding financial staff resources to our accounting and finance department.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

This Annual Report does not include an attestation report of DSC's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by DSC's registered public accounting firm pursuant to rules of the SEC that permit DSC to provide only management's report in this Annual Report.

Changes in Internal Control over Financial Reporting

There have been no significant changes in DSC's internal control over financial reporting during the most recently completed fiscal quarter ended December 31, 2012 that have materially affected, or is reasonably likely to materially affect, DSC's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

Mr. Catanzano brings more than 15 years of executive level experience in high tech market and business development of early and growth stage ventures as well as two years of managing a successful registered broker-dealer firm. Mr. Catanzano's strengths include corporate strategy, business development, and sales organization management. From November 2001 to October 2012, Mr. Catanzano served as President and founder of Safecore, Inc. which later became Message Logic, Inc. Safecore created a unique email archiving and analytics technology delivered as a hardware appliance and VMware Ready application. Mr. Catanzano worked with the developers to design system enhancements, developed sales channels and formed partnerships to improve technology and expand sales channels. Message Logic was acquired by DSC in October 2012. Mr. Catanzano was the co-founder and Senior Vice President of Digital Broadband Communications, Inc. from 1998 to 2001, one of the first Competitive Local Exchange Carriers ("CLEC") in the U.S. focused on delivering DSL services with future plans to offer Voice over IP.

Term of Office

Our directors are appointed for a one-year term to hold office until the next annual general meeting of our shareholders or until removed from office in accordance with our bylaws. Our officers are appointed by our board of directors and hold office until removed by the board.

Audit Committee

During the fiscal year ended December 31, 2012 the Company had an independent audit committee consisting of non-executive directors. The audit committee members include: John Coghlan, Cliff Stein and Chairman Jan Burman. Although the Board of Directors does have an audit committee comprised of independent directors, the audit committee does not have an audit committee financial expert at this time. DSC believes that the financial experience and combined skill set of the members of our audit committee are sophisticated enough for performance of the duties of the audit committee financial expert. In addition, DSC's securities are not listed on a national exchange securities and are not subject to the special corporate governance requirements of any such exchanges. However, DSC does intend to search for a qualified individual to fill the role of the audit committee financial expert.

Family Relationships

No family relationships exist among our directors or executive officers.

Compliance with Section 16(A) Of the Exchange Act.

Section 16(a) of the Exchange Act requires the Company's officers and directors, and persons who beneficially own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the SEC and are required to furnish copies to the Company. To the best of the Company's knowledge, any reports required to be filed were timely filed in fiscal year ended December 31, 2011.

Code of Ethics

DSC has adopted a Code of Ethics applicable to its Chief Executive Officer and Chief Financial Officer. This Code of Ethics is incorporated by reference to DSC's Form 10-K filed on March 31, 2009.

Employment Agreements

Peter Briggs

We entered into an employment agreement with Mr. Briggs on June 11, 2010, that provides for his employment as our Executive Vice President (the “Briggs Employment Agreement”).

The Briggs Employment Agreement has a term of three years and is renewable for subsequent one-year periods unless either party provides at least 90 days prior notice of nonrenewal.

Mr. Briggs annual base salary is \$180,000. Mr. Briggs’ base compensation may increase if he achieves certain objectives described in the Company’s business plan. Mr. Briggs’ base compensation will increase to no less than two hundred fifty thousand dollars (\$250,000) if he achieves at least one hundred percent (100%) of the objectives set forth in the Company’s business plan in any calendar year. Moreover, Mr. Briggs’ maximum annual monetary compensation can reach up to three hundred and fifty thousand dollars (\$350,000) if he exceeds one hundred percent (100%) of the objectives set forth in the Business Plan in any calendar year. In addition to his annual base salary, Mr. Briggs is eligible for additional compensation, a discretionary bonus, the amount of which shall be determined by the Board based on the quality and nature of Mr. Briggs’ services and the performance of the Company. Mr. Briggs is also entitled to an allowance of up to \$1,000 per month for purposes of covering all of his expenses relative to his employment, including but not limited to, automobile and cell phone expenses. Notwithstanding the foregoing sentence, the Company will also reimburse Mr. Briggs for all sufficiently documented or previously-approved business expenses incurred by him for travel in performing services for the Company during his employment term, which expenses shall be reimbursed in accordance with the policies and procedures established by the Board from time to time for the Company’s senior executives.

Either party may terminate Mr. Briggs’ employment and the agreement, with or without cause. Termination without cause requires at least 30 days prior notice from the terminating party. If the Company terminates Mr. Briggs employment for any reason whatsoever (including because of Mr. Briggs’ death or disability), Mr. Briggs and/or his estate or beneficiaries, as the case may be, shall have no further rights or claims against the Company or its affiliates, except that: we will be required to pay Mr. Briggs’ his base salary and benefits through the date of employment termination and, in the case of any termination by the Company not involving for cause, for the lesser of (A) a period of six (6) months thereafter, or (B) the remaining term of Mr. Briggs’ employment.

The Briggs Employment Agreement also includes customary covenants on non-competition, non-solicitation of customers, non-solicitation of employees and non-disclosure of confidential information that apply during Mr. Briggs’ employment and for the one-year period following the termination of his employment.

Stephen Catanzano

We entered into an employment agreement with Mr. Catanzano on October 31, 2012, that provides for his employment as our Executive Vice President (the “Catanzano Employment Agreement”).

The Catanzano Employment Agreement has a term of two years.

Mr. Catanzano annual base salary is \$150,000. Moreover, Mr. Catanzano’s maximum annual monetary compensation can reach up to three hundred and fifty thousand dollars (\$350,000) if he exceeds one hundred percent (100%) of the objectives set forth in the Business Plan in any calendar year. In addition to his annual base salary, Mr. Catanzano is eligible for additional compensation, a discretionary bonus, the amount of which shall be determined by the Board based on the quality and nature of Mr. Catanzano’ services and the performance of the Company. The Company will also reimburse Mr. Catanzano for all sufficiently documented or previously-approved business expenses incurred by him for travel in performing services for the Company during his employment term, which expenses shall be reimbursed in accordance with the policies and procedures established by the Board from time to time for the Company’s senior executives.

Either party may terminate Mr. Catanzano's employment and the agreement, with or without cause. Termination without cause requires at least 30 days prior notice from the terminating party. If the Company terminates Mr. Catanzano employment for any reason whatsoever (including because of Mr. Catanzano's death or disability), Mr. Catanzano and/or his estate or beneficiaries, as the case may be, shall have no further rights or claims against the Company or its affiliates, except that: we will be required to pay Mr. Catanzano's his base salary and benefits through the date of employment termination and, in the case of any termination by the Company not involving for cause, for the lesser of (A) a period of six (6) months thereafter, or (B) the remaining term of Mr. Catanzano's employment.

The Catanzano Employment Agreement also includes customary covenants on non-competition, non-solicitation of customers, non-solicitation of employees and non-disclosure of confidential information that apply during Mr. Catanzano's employment and for the one-year period following the termination of his employment

2008 Equity Incentive Plan

In October 2008, the Board adopted, the Euro Trend, Inc. 2008 Equity Incentive Plan (the "2008 Plan). Under the 2008 Plan, we may grant options (including incentive stock options) to purchase our common stock or restricted stock awards to our employees, consultants or non-employee directors. The 2008 Plan is administered by the Board. Awards may be granted pursuant to the 2008 Plan for 10 years from the date the Board approved the 2008 Plan. Any grant under the 2008 Plan may be repriced, replaced or regranted at the discretion of the Board. From time to time, we may issue awards pursuant to the 2008 Plan.

The material terms of options granted under the 2008 Plan (all of which have been nonqualified stock options) are consistent with the terms described in the footnotes to the "Outstanding Equity Awards at Fiscal Year-End December 31, 2012" table below, including 5 year graded vesting schedules and exercise prices equal to the fair market value of our common stock on the date of grant. Stock grants made under the 2008 Plan have not been subject to vesting requirements. The 2008 Plan was terminated with respect to the issuance of new awards as of February 3, 2012. There are 3,075,938 options outstanding under this plan as of December 31, 2012.

2010 Incentive Award Plan

The 2010 Incentive Award Plan was amended and restated by the Board of Directors of Data Storage Corporation on April 23, 2012 and was renamed the "Amended and Restated Data Storage Corporation Incentive Award Plan"(Restated Plan) The Company has reserved 2,000,000 shares of common stock for issuance under the terms of the Data Storage Corporation Restated Plan. The Restated Plan is intended to promote the interests of the Company by attracting and retaining exceptional employees, consultants, directors, officers and independent contractors (collectively referred to as the "Participants"), and enabling such Participants to participate in the long-term growth and financial success of the Company. Under the Restated Plan, the Company may grant stock options, which are intended to qualify as "incentive stock options" under Section 422 of the Internal Revenue Code of 1986, as amended, non-qualified stock options, stock appreciation rights and restricted stock awards, which are restricted shares of common stock (collectively referred to as "Incentive Awards"). Incentive Awards may be granted pursuant to the Restated Plan for 10 years from the Effective Date. From time to time, we may issue Incentive Awards pursuant to the Restated Plan. Each of the awards will be evidenced by and issued under a written agreement. There are 3,157,054 options outstanding under this plan as of December 31, 2012.

If an incentive award granted under the Restated Plan expires, terminates, is unexercised or is forfeited, or if any shares are surrendered to us in connection with an incentive award, the shares subject to such award and the surrendered shares will become available for future awards under the Restated Plan. The number of shares subject to the Restated Plan, and the number of shares and terms of any Incentive Award may be adjusted in the event of any change in our outstanding common stock by reason of any stock dividend, spin-off, stock split, reverse stock split, recapitalization, reclassification, merger, consolidation, liquidation, business combination or exchange of shares, or similar transaction.

- (1) All of the options to purchase shares of our common stock awarded to Messrs. Piluso, Briggs and Grosso (each a "Participant") under the 2008 Plan were invested on the date of grant. Twenty percent (20%) of the stock options vested after the Participant remained continuously providing services to the Company through the one (1) year anniversary of the date of the grant. Thereafter, an additional one and two-thirds percent (1.67%) of the options vest upon the end of each calendar month thereafter provided that the Participant has been continuously providing services to the Company from the date of the grant through and including such calendar month. Upon the termination of a Participant's engagement with the Company for any reason, the vesting of all options shall immediately cease upon such termination, and all unvested options as of the time of such termination shall immediately expire and be forfeited. Upon the termination of the Participant's engagement with the Company for (A) Participant's failure, neglect or refusal to perform his duties to the Company, (B) any conduct of the Participant constituting fraud, material dishonesty or breach of trust in connection with the Participant's performance of his duties to the Company or any material breach by the Participant of any statutory or common law duty of loyalty to the Company; (C) the commission by the Participant of a felony or of any crime involving theft, dishonesty or moral turpitude, or (D) any other act or omission that, in the reasonable determination of the Board, has caused or is likely to cause detrimental notoriety or other comparable material harm to the Company, all vested options shall expire and be forfeited immediately at the time notice of such termination is given. Upon the termination of the Participant's engagement with the Company due to the Participant's death or disability, all vested options shall expire and be forfeited immediately at the close of business on the ninetieth (90th) day following the date of termination. Upon any termination of the Participant's engagement with the Company other than as provided in the foregoing, all vested options shall expire and be forfeited immediately at the close of business on the first (1st) anniversary of the date of termination. In the event of a "Sale of the Company" (as defined in the 2008 Plan), the Board may modify any grant to provide for the effect of a "Sale of the Company".
- (2) The Company has no unvested shares of restricted stock outstanding.
- (3) The stock grants awarded to Mr. Piluso consists of 571,429 shares of common stock valued at \$200,000, based on the closing bid price of \$0.35 on the issuance date of March 23, 2011. Mr. Piluso received these shares in lieu of a salary for 2010. All of the shares were fully vested on the date of grant. These shares were issued pursuant to the 2008 Plan (described below). This issuance was reversed and replaced with options to purchase 548,780 shares of common stock valued at \$192,073 at an exercise price of \$0.394 per share on June 18, 2012. Mr. Piluso also received options to purchase 337,143 shares of common stock valued at \$118,000 at an exercise price of \$0.394 per share on June 18, 2012.
- (4) These options replace a stock grant of \$50,000 that was approved on December 16, 2010. All of the shares were fully vested on the date of grant. These shares were issued pursuant to the 2008 Plan (described below). This issuance was reversed and replaced with the option to purchase 333,333 shares of common stock at an exercise price of \$0.15 per share on March 6, 2012 returned in 2011 by Mr. Briggs.
- (5) These options replace a stock grant of \$55,000 from August 12, 2010 and a stock grant of \$50,000 from December 16, 2010. All of the shares were fully vested on the date of grant and these shares were issued pursuant to the 2008 Plan (described below). These stock grants were both reversed in 2011. Cliff Stein	\$ 5,000	\$ 5,000

- (1) The only compensation awarded to directors for their service on the Board in respect of fiscal year 2012 included non-qualified stock options, which were granted in 2012. The 2012 stock options were awarded pursuant to the 2010 Incentive Award Plan. It was determined that the Board members would receive \$5,000 each for participating in Board meetings as scheduled and participating on various committees. The stock options were granted on December 11, 2012, with an exercise price of \$0.15 per share.
- (2) The amounts shown in these columns represent the aggregate grant date fair value of stock and option awards computed in accordance with FASB ASC Topic 718. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Share Based Compensation” on page 12 for a discussion of the assumptions made in the valuation of option awards. The \$5,000 option award to the directors in the table above represent 33,333 options to purchase our common stock with a strike price of \$0.15 per share of common stock. All the non-qualified stock options above shall vest in accordance with the following schedule: thirty three point thirty-three percent (33.33%) of the options shall vest if the person remains continuously engaged as a director of the Company from the grant date (which was December 11, 2012) through and including the one (1) month anniversary of the grant date, and an additional thirty-three point thirty-three percent (33.33%) of the options shall vest upon the end of each calendar month thereafter provided that the person has been continuously engaged as a director of the Company from the grant date through and including such calendar month. The vesting of the options may be accelerated upon, among other things, consolidations or mergers of the Company or the sale of all or substantially all of our assets to another entity.

Securities Authorized for Issuance under Equity Compensation Plans

The Company has two share-based equity compensation plans, the 2008 Plan and the 2010 Plan which was amended, restated and renamed the “Amended and Restated Data Storage Corporation Incentive Award Plan”. Neither of these plans have been approved by the security holders of the Company. Descriptions of these plans are presented in “Executive Compensation—2008 Equity Incentive Plan” and “Executive Compensation—2010 Incentive Award Plan” beginning on page 43.

As of the end of fiscal year 2012, we had the following securities authorized for issuance under our equity compensation plans:

Plan Category	Number of securities to be issued upon exercise of outstanding options and warrants (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
AND CHIEF FINANCIAL OFFICER
PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO SECTION 906 OF
THE SARBANES-OXLEY ACT OF 2002**

I, Charles M. Piluso, certify that:

1. I have reviewed this annual report on Form 10-K of Data Storage Corporation (the "Registrant");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods present in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13-a-15(f) and 15d-15(f)) for the Registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the Registrant's internal control over financing reporting that occurred during the Registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The Registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involved management or other employees who have a significant role in the registrant's internal control over financial reporting.
