This combined Form 10-K is separately filed by Entergy Corporation, Entergy Arkansas, Inc., Entergy Gulf States, Inc., Entergy Louisiana, Inc., Entergy Mississippi, Inc., Entergy New Orleans, Inc., and System Energy Resources, Inc. Information contained herein relating to any individual company is filed by such company on its own behalf. Each company makes representations only as to itself and makes no other representations whatsoever as to any other company.

This report should be read in its entirety. No one section of the report deals with all aspects of the subject matter.

FORWARD LOOKING INFORMATION

Investors are cautioned that forward-looking statements contained herein with respect to the revenues, earnings, competitive performance, or other prospects for the business of Entergy Corporation, Entergy Arkansas, Inc., Entergy Gulf States, Inc., Entergy Louisiana, Inc., Entergy Mississippi, Inc., Entergy New Orleans, Inc., and System Energy Resources, Inc. or their affiliated companies may be influenced by factors that could cause actual outcomes to be materially different than anticipated. Such factors include, but are not limited to, the effects of weather, the performance of generating units, the risk of owning and operating nuclear plants, fuel prices and availability, regulatory decisions and the

effects of changes in law, litigation results, capital spending requirements, the evolution of competition, changes in technology, changes in accounting standards, changes in capital structure and ownership of assets, risks associated with the electricity and other energy commodity markets, interest rate changes and changes in financial markets generally, changes in foreign currency exchange rates, and other factors.

PART I

Item 1. Business

BUSINESS OF ENTERGY

General

Entergy Corporation is a Delaware corporation which, through its subsidiaries, engages principally in the following businesses: domestic utility operations, power marketing and trading, global power development, and domestic non-utility nuclear operations. It has no significant assets other than the stock of its subsidiaries. Entergy Corporation is a registered public utility holding company under PUHCA. As such, Entergy Corporation and its subsidiaries generally are subject to the broad regulatory provisions of PUHCA. PUHCA generally limits registered public utility holding company activity to domestic integrated utility businesses, domestic and foreign electric generation ventures, foreign utility ownership, telecommunications and information service businesses, and certain other domestic energy related businesses. Financial information regarding Entergy Corporation's operating segments is contained in Note 14 to the financial statements.

Domestic Utility Operations

Entergy Corporation has five wholly-owned domestic retail electric utility subsidiaries: Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans. As of December 31, 1999, these utility companies provided retail electric service to approximately 2.5 million customers primarily in portions of the states of Arkansas, Louisiana, Mississippi, and Texas. In addition, Entergy Gulf States furnishes natural gas utility service in and around Baton Rouge, Louisiana, and Entergy New Orleans furnishes natural gas utility service in New Orleans, Louisiana. The business of the domestic utility companies is subject to seasonal fluctuations, with the peak sales period normally occurring during the third quarter of each year. During 1999, the domestic utility companies' combined retail electric sales as a percentage of total electric sales were: residential - 27.8%; commercial - 21.6%; and industrial - 39.5%. Retail electric revenues from these sectors as a percentage of total electric revenues were: residential - 35.6%; commercial - 24.0%; and industrial - 30.0%. Sales to governmental and municipal sectors and to nonaffiliated utilities accounted for the balance of energy sales. The major industrial customers of the domestic utility companies are in the chemical, petroleum refining, paper, and food products industries. The retail rates and services of Entergy's domestic retail utility subsidiaries are regulated by state and/or local regulatory authorities.

Entergy Corporation also owns 100% of the voting stock of System Energy, an Arkansas corporation that owns and leases an aggregate 90% undivided interest in Grand Gulf. System Energy sells all of the capacity and energy from its interest in Grand Gulf 1 at wholesale to its only customers, Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans. Management discusses sales from Grand Gulf 1 more thoroughly in "CAPITAL REQUIREMENTS AND FUTURE FINANCING - Certain System Financial and Support Agreements - Unit Power Sales Agreement" below. System Energy's wholesale power sales are subject to the jurisdiction of FERC.

Entergy Services, a Delaware corporation wholly-owned by Entergy Corporation, provides management, administrative, accounting, legal, engineering, and other services primarily to the domestic utility subsidiaries of Entergy Corporation. Entergy Operations, a Delaware corporation, is also wholly-owned by Entergy Corporation and provides nuclear management, operations and maintenance services under contract for ANO, River Bend, Waterford 3, and Grand Gulf 1, subject to the owner oversight of Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy, respectively. Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans own 35%, 33%, 19%, and 13%, respectively, of the common stock of System Fuels, a Louisiana corporation that implements and manages certain programs to procure, deliver, and store fuel supplies for those companies. Entergy Services, Entergy Operations, and System Fuels provide their services to the domestic utility companies and System Energy on an "at cost" basis, pursuant to service agreements approved by the SEC under PUHCA. Information regarding affiliate transactions is contained in Note 13 to the financial statements.

Entergy Gulf States has wholly-owned subsidiaries that (i) own and operate intrastate gas pipelines in Louisiana used primarily to transport fuel to two of Entergy Gulf States' generating stations; (ii) own the Lewis Creek Station, a gas-fired generating plant, which is leased to and operated by Entergy Gulf States; and (iii) own several miles of railroad track constructed in Louisiana primarily for the purpose of transporting coal for use as boiler fuel at Entergy Gulf States' Nelson Unit 6 generating facility.

Power Marketing and Trading

Entergy conducts its power marketing and trading business primarily through three subsidiaries, Entergy Power, EPMC, and ET&M. Entergy Power is a domestic power producer that owns 665 MW of fossil-fueled generation assets located in Arkansas. Entergy Power's capacity and energy is sold at wholesale principally to EPMC and Entergy Arkansas. Entergy Power's wholesale power sales are subject to the jurisdiction of FERC. EPMC engages in the marketing and trading of physical and financial energy commodity products, industrial energy management, and risk management services. It has authority from the SEC to deal in a wide range of energy commodities and related financial products. ET&M is engaged in the marketing and trading of physical and financial energy commodity products in the UK. Entergy has announced its intent to combine the power marketing and trading business with the global power development business beginning in 2000, and the combined businesses will be called Entergy Wholesale Operations.

Global Power Development

Entergy's global power development business is focused on acquiring or developing power generation projects in North America and Western Europe and will evaluate potential opportunities in Latin America. This business owns interests in the following foreign electric generation assets:

Investment	Percent Ownership	Status
Argentina - Costanera, 1,260 MW	6%	operational
Argentina - Costanera expansion, 220 MW	10%	operational
Chile - San Isidro, 375 MW	25%	operational
Pakistan - Hub River, 1,200 MW	5%	operational
Peru - Edegel - 833 MW	24%	operational
United Kingdom - Saltend, 1,200 MW	100%	under construction
United Kingdom - Damhead Creek, 800 MW	100%	under construction

Entergy's global power development business has several other development projects in the planning stages, including projects in Texas, Louisiana, Mississippi, Spain, and Bulgaria. Fairfield is a planned 1,000 MW combined cycle gas turbine merchant power plant to be constructed in Fairfield, Texas, adjacent to Entergy Gulf States' service territory. Riverside is a planned 425 MW combined cycle gas turbine cogeneration plant to be constructed in Lake Charles, Louisiana. Riverside is expected to be owned 50% by Entergy's global power development business and 50% by PPG Industries, an industrial customer of Entergy Gulf States. A 300 MW combined-cycle gas turbine merchant power plant is in the planning stages for construction in Vicksburg, Mississippi. An 800 MW combined cycle gas turbine merchant power plant is in the planning stages for construction near Castelnou, Spain. Entergy plans to work with the National Electric Company of Bulgaria to modernize and upgrade Maritza East III, an 840 MW coal-fired power plant located in Bulgaria. In preparation for its development plans, Entergy has obtained an option to acquire turbines from GE Power Systems. See "CAPITAL REQUIREMENTS AND FUTURE FINANCING" below for further information on the turbines.

Entergy divested the 24 MW Nantong project in China in 1999 and does not intend to pursue further developments in Asia. In June 1999, Entergy sold its 5% interest in Edesur, S.A., which is the retail electric distribution company for the southern part of Buenos Aires, Argentina.

Domestic Non-Utility Nuclear Operations

Entergy's domestic non-utility nuclear power business is focused on acquiring nuclear power plants and providing operations and management services to nuclear power plants owned by other utilities in the United States. Plant acquisitions are made through Entergy's wholly-owned subsidiary, ENHC, and operations and management services, including decommissioning services, are provided by Entergy's wholly-owned subsidiary, Entergy Nuclear. In July 1999, Entergy acquired the 670 MW Pilgrim Nuclear Station located in Plymouth, Massachusetts from Boston Edison. The facility has firm total output power purchase agreements (PPAs) with Boston Edison and other utilities that expire at the end of 2004. One hundred percent of the plant output is committed through 2001, which decreases to 50% by 2003.

Entergy's nuclear business has an outstanding offer to the New York Power Authority (NYPA) for the acquisition of NYPA's 825 MW James A. FitzPatrick nuclear power plant located near Oswego, New York and NYPA's 980 MW Indian Point 3 nuclear power plant located in Westchester County, New York. On February 24, 2000, NYPA received a competing offer for the purchase of these plants. It is anticipated that the NYPA Board of Trustees will meet in mid to late March to consider the offers. If Entergy's offer is accepted, management expects to close the acquisition by the fourth quarter of 2000.

In December 1999, Entergy signed an agreement with Rochester Gas and Electric (RG&E) to lease and operate the Nine Mile Point 1 and 2 nuclear power plants, totaling 1,754 MW, located in Scriba, New York. Nine Mile Point 1 is owned by Niagara Mohawk Power Corporation (Niagara), and Nine Mile Point 2 is co-owned by RG&E, Niagara, New York State Electric & Gas Corporation (NYSEG), Long Island Lighting Company (doing business as LIPA), and Central Hudson Gas & Electric Corporation. The lease and operating agreement is subject to RG&E's ability to close on its exercise of its right of first refusal to acquire Niagara's and NYSEG's ownership interests in the plants and is subject to approval by the New York Public Service Commission (NYPSC). Niagara and NYSEG filed a proceeding with the NYPSC for the sale of their ownership interests to a third party. Entergy's non-utility nuclear business intervened as a party to the NYPSC proceeding. In that proceeding, the staff of the NYPSC has stated that it will explore various alternatives for the future ownership and operation of the Nine Mile plants.

Entergy Nuclear provides services to plants owned by other utilities, including engineering, operations and maintenance, fuel procurement, management and supervision, technical support and training, administrative support, and other managerial or technical services required to

operate, maintain, and decommission nuclear electric power facilities. Currently Entergy is providing decommissioning services for the Maine Yankee and Millstone Unit 1 nuclear power plants. The cost of decommissioning and insuring the plants that Entergy provides decommissioning services for are the responsibility of the plant owners.

Business Sales

In January 1999, Entergy disposed of its security monitoring business which operated primarily in North and South Carolina, Alabama, Florida, Georgia, Mississippi, Louisiana, and Texas. In June 1999, Entergy disposed of its interest in the Hyperion Telecommunications joint ventures, which operate three Competitive Local Exchange Carriers (CLECs) in Little Rock, Arkansas; Jackson, Mississippi; and Baton Rouge, Louisiana. These CLECs provide long distance carrier access and local exchange services.

Domestic and Foreign Generation Investment Restrictions and Risks

Entergy's ability to invest in domestic and foreign generation businesses is subject to the SEC's regulations under PUHCA. Absent SEC approval, these regulations limit Entergy Corporation's aggregate investment in domestic and foreign generation businesses to an amount equal to 50% of consolidated retained earnings at the time an investment is made. Using the proceeds from the sale of electric distribution businesses in the UK and Australia in 1998, Entergy has the ability to make significant additional investments in domestic and foreign generation businesses without the need of further investment by Entergy Corporation.

International operations are subject to the risks inherent in conducting business abroad, including possible nationalization or expropriation, price and currency exchange controls, inflation, limitations on foreign participation in local enterprises, and other restrictions. Changes in the relative value of currencies may favorably or unfavorably affect the financial condition and results of operations of Entergy's non- U.S. businesses. In addition, exchange control restrictions in certain countries may limit or prevent the repatriation of earnings.

Selected Data

Selected domestic utility customers and sales data for 1999 are summarized in the following tables:

1999	Area Served	Customers as of December 31,	
		Electric (In Thousands)	Gas
Entergy Arkansas	Portions of Arkansas and Tennessee	638	-
Entergy Gulf States	Portions of Texas and Louisiana	669	89
Entergy Louisiana	Portions of Louisiana	635	-
Entergy Mississippi	Portions of Mississippi	395	-
Entergy New Orleans	City of New Orleans, except Algiers, which is provided electric service by Entergy Louisiana	185	146
		-----	-----

(a) Includes the effect of intercompany eliminations.

1999 - Selected Natural Gas Sales Data

Entergy New Orleans and Entergy Gulf States sold 15,106,716 and 6,064,879 MCF, respectively, of natural gas to retail customers in 1999. For the periods ended December 31, 1999, 1998, and 1997, revenues from natural gas operations were not material for Entergy Gulf States. Entergy New Orleans' products and services are discussed below in "BUSINESS SEGMENTS."

Refer to "SELECTED FINANCIAL DATA - FIVE-YEAR COMPARISON OF ENTERGY CORPORATION AND SUBSIDIARIES, ENTERGY ARKANSAS, ENTERGY GULF STATES, ENTERGY LOUISIANA, ENTERGY MISSISSIPPI, ENTERGY NEW ORLEANS, and SYSTEM ENERGY" which follow each company's financial statements in this report, for further information with respect to operating statistics.

Employees

As of December 31, 1999, Entergy had 12,375 employees as follows:

Competition

As a result of the actions of federal legislative and regulatory bodies over the period of approximately the past twenty years, wholesale markets have developed in which electricity, gas, and other energy related products and services are purchased and sold at market-based (rather than traditional cost-based) rates. These wholesale markets are continuing to grow and evolve. This has resulted in changes in the ways in which public utilities conduct their business and in the nature of the participants in these wholesale markets, which now include not only public utilities but also power marketers and traders, other energy commodity marketers and traders, wholesale generators of electricity, and a wide range of wholesale customers.

Major changes in the retail utility business are now occurring in some parts of the United States, including states in which Entergy's domestic utility companies operate. Both Texas and Arkansas adopted legislation in 1999 aimed at separating ("unbundling") traditional integrated public utilities into distinct distribution, transmission, generation, and various types of retail marketing businesses and introducing competition into the generation component of utility service. Other jurisdictions in which the Entergy domestic utility businesses operate have yet to decide whether to embrace retail competition and utility unbundling, but each of these other jurisdictions is studying the matter.

It is anticipated that changes in the retail electricity markets in the Entergy system will take place over a number of years, and it is not necessarily the case that regulators or legislators in different jurisdictions will coordinate their changes. In some cases, actions by one jurisdiction may even come into conflict with actions by another, creating mutually incompatible obligations for public utilities and holding companies, including the Entergy system. It is too early to accurately predict all of the effects of the changes that are beginning to take place in the retail energy market. However, it is anticipated that these changes will result in fundamental alterations in the way traditional integrated utilities and holding company systems, like Entergy and its domestic utility companies, conduct their business. Some of these alterations will be positive for Entergy and its affiliates, while others will not be.

These changes will likely result in increased costs associated with utility unbundling and transitioning to new organizational structures and ways of conducting business. It is possible that the new organizational structures that will be required will result in lost economies of scale, less beneficial cost sharing arrangements within utility holding company systems, and, in some cases, greater difficulty and cost in accessing capital.

Utilities, including the domestic utility companies, may be required or encouraged to sell generating plants or interests therein, or the output from such plants. They also may be required or encouraged to sell or turn over operating and management responsibility for some or all of their transmission systems to independent parties. In the case of the domestic utility companies, this would cause a fundamental shift away from the operation of their electric generation and transmission assets as an integrated system supporting utility service throughout their combined service territories.

As a result of restructuring, Entergy's domestic utility companies may no longer be able to apply regulated utility accounting principles to some or all of their operations, and they may be required to write off certain regulatory assets or recognize asset impairments.

There are a number of other changes that may result from retail competition and unbundling, including but not limited to changes in labor relations, management and staffing, environmental compliance responsibility, and other aspects of the utility business.

"MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS - SIGNIFICANT FACTORS AND KNOWN TRENDS" and Note 2 to the financial statements contain detailed discussions of competitive challenges Entergy faces in the utility industry, including the status of the transition to a more competitive utility business environment for the domestic utility companies.

CAPITAL REQUIREMENTS AND FUTURE FINANCING

For the years 2000 through 2004, Entergy plans to spend \$9.8 billion in a capital investment plan focused on improving service at the domestic utility companies and growing its global power development and nuclear operations businesses. The estimated allocation in the plan is \$4.2 billion to the domestic utility companies, \$3.9 billion to the global power development business, and \$1.7 billion to the nuclear operations business. The capital investment plan is subject to modification based on the ongoing effects of transition to competition planning and the ability to recover the regulated utility costs in rates. Additionally, the plan is contingent upon Entergy's ability to access the capital necessary to finance the planned expenditures, and significant borrowings may be necessary for Entergy to implement these capital spending plans. Construction expenditures (including environmental expenditures and AFUDC, but excluding nuclear fuel) for Entergy are estimated at \$1.5 billion in 2000, \$1.7 billion in 2001, and \$1.8 billion in 2002. Included in these totals are estimated construction expenditures for the domestic utility companies and System Energy as follows:

	2000	2001	2002
Total			
		(In Millions)	
Entergy Arkansas \$786	\$350	\$248	\$188
Entergy Gulf States 771	298	269	204
Entergy Louisiana 552	202	188	162
Entergy Mississippi 360	115	122	123
Entergy New Orleans 141	50	46	45
System Energy 71	39	20	12

The domestic utility companies' anticipated spending is focused mainly on (i) distribution and transmission projects that will support continued reliability improvements; (ii) return to service of generation stations that have been held in reserve shutdown status; and (iii) transitioning to a more competitive environment. Projected construction expenditures for the replacement of ANO 2's steam generators, which is scheduled for the third quarter of 2000, are included in Entergy Arkansas' estimated figures above. The replacement of ANO 2's steam generators is discussed in Note 9 to the financial statements. Entergy, in addition to meeting construction expenditure requirements, must meet scheduled long-term debt and preferred stock maturities and cash sinking fund requirements. Entergy's capital and financing requirements and available lines of credit are discussed in Notes 4, 5, 6, 7, 9, and 10 to the financial statements. Actual construction costs may vary from these estimates for a number of reasons, including changes in load growth estimates; environmental regulations; labor, equipment, materials, and capital costs; modifications to generating units to meet regulatory requirements; and the transition to competition.

Entergy's global power development business is currently constructing two combined-cycle gas turbine merchant power plants in the UK. Saltend, a 1,200 MW plant, will provide steam and electricity to BP Chemicals' nearby complex with the remaining electricity to be sold into the UK national power pool. Approximately 75 MW of the capacity will be sold to BP Chemicals under a PPA with a term of 15 years.

Originally scheduled for commercial operation in January 2000, Saltend's completion has been delayed due to construction problems at the site. The construction contractor has submitted a revised construction schedule after substantial analysis, and currently estimates a phased-in completion of the three-unit plant with the full plant in service by June 30, 2000. The total cost of this project is currently estimated to be approximately \$824 million. The second plant is an 800 MW facility known as Damhead Creek. It is expected to begin commercial operation in the fourth quarter of 2000. Management estimates the total cost of this project at approximately \$582 million. The financing of the construction of these two power plants is discussed in Note 7 to the financial statements.

In October 1999, Entergy's global power development business obtained an option to acquire twenty-four GE7FA advanced technology gas turbines, four steam turbines, and eight GE7EA advanced technology gas turbines. Delivery of the turbines is scheduled for 2001 through 2004. The total cost of the turbines, including long-term service agreements with GE Power Systems, is approximately \$2.0 billion. The turbines are expected to be used in future generation projects. Management anticipates that the acquisition of these turbines will be funded by a combination of cash on hand, project financing, and other external financing. Payments scheduled for the acquisition of these turbines are \$273 million in 2000, \$415 million in 2001, and \$311 million in 2002.

Entergy Corporation's primary capital requirements are to invest periodically in, or make loans to, its subsidiaries and to invest in new enterprises. Management discusses Entergy Corporation's current and future planned investments in its subsidiaries and the financial sources for such investments in "MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS - LIQUIDITY AND CAPITAL RESOURCES." The principal sources of funds for Entergy Corporation are dividend distributions from its subsidiaries, funds available under its bank credit facilities, funds received from its dividend reinvestment and stock purchase plan, and funds received from the sale of assets.

Certain System Financial and Support Agreements

Unit Power Sales Agreement (Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

The Unit Power Sales Agreement allocates capacity, energy, and the related costs from System Energy's 90% ownership and leasehold interests in Grand Gulf 1 to Entergy Arkansas (36%), Entergy Louisiana (14%), Entergy Mississippi (33%), and Entergy New Orleans (17%). Each of these companies is obligated to make payments to System Energy for its entitlement of capacity and energy on a full cost-of-service basis regardless of the quantity of energy delivered, so long as Grand Gulf 1 remains in commercial operation. Payments under the Unit Power Sales Agreement are System Energy's only source of operating revenues. The financial condition of System Energy depends upon the continued commercial operation of Grand Gulf 1 and the receipt of such payments. Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans generally recover payments made under the Unit Power Sales Agreement through the rates charged to their customers. In the case of Entergy Arkansas and Entergy Louisiana, payments are also recovered through sales of electricity from their respective retained shares of Grand Gulf 1. The retained shares are discussed in Note 2 to the financial statements under the heading "Grand Gulf 1 Deferrals and Retained Shares."

Availability Agreement (Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

The Availability Agreement among System Energy and Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans was entered into in 1974 in connection with the financing by System Energy of Grand Gulf. The Availability Agreement provided that System Energy would join in the System Agreement on or before the date on which Grand Gulf 1 was placed in commercial operation and would make available to Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans all capacity and energy available from System Energy's share of Grand Gulf.

Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans also agreed severally to pay System Energy monthly for the right to receive capacity and energy from Grand Gulf in amounts that (when added to any amounts received by System Energy under the Unit Power Sales Agreement, or otherwise) would at least equal System Energy's total operating expenses for Grand Gulf (including depreciation at a specified rate) and interest charges. The September 1989 write-off of System Energy's investment in Grand Gulf 2, amounting to approximately \$900 million, is being amortized for Availability Agreement purposes over 27 years.

The allocation percentages under the Availability Agreement are fixed as follows: Entergy Arkansas - 17.1%; Entergy Louisiana - 26.9%; Entergy Mississippi - 31.3%; and Entergy New Orleans - 24.7%. The allocation percentages under the Availability Agreement would remain in effect and would govern payments made under such agreement in the event of a shortfall of funds available to System Energy from other sources, including payments under the Unit Power Sales Agreement.

System Energy has assigned its rights to payments and advances from Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans under the Availability Agreement as security for its first mortgage bonds and reimbursement obligations to certain banks providing the letters of credit in connection with the equity funding of the sale and leaseback transactions described in Note 10 to the financial statements under "Sale and Leaseback Transactions - Grand Gulf 1 Lease Obligations." In these assignments, Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans further agreed that, in the event they were prohibited by governmental action from making payments under the Availability Agreement (for example, if FERC reduced or disallowed such payments as constituting excessive rates), they would then make subordinated advances to System Energy in the same amounts and at the same times as the prohibited payments.

System Energy would not be allowed to repay these subordinated advances so long as it remained in default under the related indebtedness or in other similar circumstances.

Each of the assignment agreements relating to the Availability Agreement provides that Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans will make payments directly to System Energy. However, if there is an event of default, those payments must be made directly to the holders of indebtedness that are the beneficiaries of such assignment agreements. The payments must be made pro rata according to the amount of the respective obligations secured.

The obligations of Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans to make payments under the Availability Agreement are subject to the receipt and continued effectiveness of all necessary regulatory approvals. Sales of capacity and energy under the Availability Agreement would require that the Availability Agreement be submitted to FERC for approval with respect to the terms of such sale. No such filing with FERC has been made because sales of capacity and energy from Grand Gulf are being made pursuant to the Unit Power Sales Agreement. If, for any reason, sales of capacity and energy are made in the future pursuant to the Availability Agreement, the jurisdictional portions of the Availability Agreement would be submitted to FERC for approval. Other aspects of the Availability Agreement are subject to the jurisdiction of the SEC, whose approval has been obtained, under PUHCA.

Since commercial operation of Grand Gulf 1 began, payments under the Unit Power Sales Agreement to System Energy have exceeded the amounts payable under the Availability Agreement. Therefore, no payments under the Availability Agreement have ever been required. If Entergy Arkansas or Entergy Mississippi fails to make its Unit Power Sales Agreement payments, and System Energy is unable to obtain funds from other sources, Entergy Louisiana and Entergy New Orleans could become subject to claims or demands by System Energy or its creditors for payments or advances under the Availability Agreement (or the assignments thereof) equal to the difference between their required Unit Power Sales Agreement payments and their required Availability Agreement payments.

The Availability Agreement may be terminated, amended, or modified by mutual agreement of the parties thereto, without further consent of any assignees or other creditors.

Capital Funds Agreement (Entergy Corporation and System Energy)

System Energy and Entergy Corporation have entered into the Capital Funds Agreement, whereby Entergy Corporation has agreed to supply System Energy with sufficient capital to (i) maintain System Energy's equity capital at an amount equal to a minimum of 35% of its total capitalization (excluding short-term debt) and (ii) permit the continued commercial operation of Grand Gulf 1 and pay in full all indebtedness for borrowed money of System Energy when due.

Entergy Corporation has entered into various supplements to the Capital Funds Agreement. System Energy has assigned its rights under such supplements as security for its first mortgage bonds and for reimbursement obligations to certain banks providing letters of credit in connection with the equity funding of the sale and leaseback transactions described in Note 10 under "Sale and Leaseback Transactions - Grand Gulf 1 Lease Obligations." Each such supplement provides that permitted indebtedness for borrowed money incurred by System Energy in connection with the financing of Grand Gulf may be secured by System Energy's rights under the Capital Funds Agreement on a pro rata basis (except for the Specific Payments, as defined below). In addition, in the supplements to the Capital Funds Agreement relating to the specific indebtedness being secured, Entergy Corporation has agreed to make cash capital contributions directly to System Energy sufficient to enable System Energy to make payments when due on such indebtedness (Specific Payments). However, if there is an event of default, Entergy Corporation must make those payments directly to the holders of indebtedness benefiting from the supplemental agreements. The payments (other than the Specific Payments) must be made pro rata according to the amount of the respective obligations benefiting from the supplemental agreements.

The Capital Funds Agreement may be terminated, amended, or modified by mutual agreement of the parties thereto, upon obtaining the consent, if required, of those holders of System Energy's indebtedness then outstanding who have received the assignments of the Capital Funds Agreement.

RATE MATTERS AND REGULATION

Rate Matters

The retail rates of Entergy's domestic utility companies are regulated by state or local regulatory authorities, as described below. FERC regulates their wholesale rates (including intrasystem sales pursuant to the System Agreement) and interstate transmission of electricity, as well as rates for System Energy's sales of capacity and energy from Grand Gulf 1 to Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans pursuant to the Unit Power Sales Agreement.

Wholesale Rate Matters

System Energy

As described above under "CAPITAL REQUIREMENTS AND FUTURE FINANCING - Certain System Financial and Support Agreements," System Energy recovers costs related to its interest in Grand Gulf 1 through rates charged to Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans for capacity and energy under the Unit Power Sales Agreement.

In December 1995, System Energy implemented a \$65.5 million rate increase, subject to refund. In 1998, FERC approved requests by Entergy Arkansas and Entergy Mississippi to accelerate a portion of their Grand Gulf purchased power obligations. The rate increase request filed by System Energy with FERC and the Grand Gulf accelerated recovery tariffs are discussed in Note 2 to the financial statements.

System Agreement (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

The domestic utility companies have historically engaged in the coordinated planning, construction, and operation of generation and transmission facilities pursuant to the terms of the System Agreement, as described under "PROPERTY - Generating Stations," below. Restructuring in the electric utility industry will affect these coordinated activities in the future.

In connection with the Merger in 1993, FERC approved certain rate schedule changes to integrate Entergy Gulf States into the System Agreement. In approving the Merger, FERC also initiated a new proceeding to consider whether the System Agreement permits certain out-of-service generating units to be included in reserve equalization calculations under Service Schedule MSS-1 of that agreement. The LPSC and the MPSC submitted testimony in this proceeding seeking retroactive refunds for Entergy Louisiana and Entergy Mississippi estimated at \$22.6 million and \$13.2 million plus related interest charges, respectively. In August 1997, the FERC decided that retroactive refunds should not be ordered and that the System Agreement should be amended to allow out-of-service units to be included in reserve equalization. Appeals made by the LPSC and the MPSC were denied in 1999.

In March 1995, the LPSC filed a complaint with FERC alleging that the System Agreement results in unjust and unreasonable rates. The LPSC requested that FERC modify the System Agreement to exclude curtailable load from the cost allocation determination and to permit Entergy's domestic utility companies that engage in real-time pricing at the retail level to be assessed only the marginal cost for energy sold among the domestic utility companies. In August 1996, FERC found that the LPSC's claim that the System Agreement is unjust and unreasonable was without merit and dismissed the LPSC's complaint. The FERC confirmed this finding in a September 1997 order denying the LPSC's request for rehearing. On appeal, the D.C. Circuit remanded the matter to FERC for further consideration, including the taking of evidence. A procedural schedule has not been set by FERC, and no assurance can be given as to the timing or outcome of this proceeding.

Open Access Transmission (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans)

In October 1994, Entergy's domestic utility companies filed revised transmission tariffs. In January 1995, FERC made the transmission tariffs effective, subject to refund, and ordered an investigation of Entergy Power's market pricing authority, thereby making Entergy Power's market price rate schedules subject to refund.

In 1996 FERC issued two orders designed to implement open access transmission for wholesale customers by allowing third party suppliers to transmit energy to customers over transmission facilities owned by other companies. Order No. 888 requires all public utilities regulated by FERC to provide wholesale transmission access to third parties and specifically addresses issues related to nondiscriminatory transmission and stranded costs. Order No. 889 addresses codes of conduct and requires the implementation and maintenance of an open access same-time information system by each public utility. Order Nos. 888 and 889 led to open access transmission and an increase in marketing and trading activities by utilities and power marketers, which intensified competition within the wholesale power market.

In July 1996, in order to comply with FERC Order No. 888, the domestic utility companies filed an open access transmission tariff which superseded the October 1994 tariffs. In January 1997, FERC accepted the non-rate terms and conditions of the July 1996 tariff, subject to limited modifications. In March 1997 FERC issued Order No. 888-A addressing rehearing requests from Order No. 888 and directing public utilities to file revised tariffs to reflect the new requirements established in Order No. 888-A. In July 1997, Entergy Services filed with the FERC its wholesale transmission access compliance tariff incorporating the non-rate terms and conditions of FERC Order No. 888-A.

In October 1998, FERC issued an order addressing the outstanding tariff rate and market power issues. The order stipulated that Entergy's open access transmission tariff mitigated any transmission market power and determined that no further action is needed in the investigation of Entergy Power's market pricing authority. The order also affirmed that transmission service should be priced at a rolled-in, system-wide rate rather than the bifurcated bulk and local transmission pricing proposed by Entergy. The FERC also rejected customers' requests to receive credits for customer-owned facilities, finding that the facilities were not integrated with and did not support Entergy's transmission system. Requests for rehearing or clarification of the October 1998 order are pending before FERC.

FERC policy strongly favors independent control over transmission operations as a means of enhancing competitive wholesale power markets. In response to this policy, Entergy proposed to FERC the formation of a regional transmission company (Transco). The proposed Transco would be:

- o a separate legal entity regulated by FERC;
- o composed of the transmission system transferred to it by the domestic utility companies and other transmission owners in Entergy's region;
- o operated and maintained by employees who would work exclusively for the Transco and would not be employed by Entergy or the domestic utility companies; and
- o passively owned by the domestic utility companies and other members who transfer assets, which will not control or otherwise direct its operation and management.

In July 1999, FERC responded to Entergy's proposal. FERC concluded that passive ownership of a Transco by a generating company or other market participant could meet FERC's current independence and governance requirements, provided the Transco is structured to address certain issues and concerns raised by FERC. The issues and concerns identified by FERC relate to:

- o the selection process for the Transco's board of directors;
- o the Transco board's fiduciary obligations to the member companies;
- o the ability of the Transco to raise additional capital; and
- o restrictions on transactions between the Transco and the member companies.

Management expects to make additional filings with federal, state, and local regulatory authorities addressing these and other issues and seeking necessary approvals for the formation of the Transco. If approved, the Transco would likely become operational in 2001.

In a rulemaking that will affect the Transco, FERC issued Order 2000 in December 1999. Order 2000 calls for owners and operators of transmission lines in the United States to join regional transmission organizations ("RTOs") on a voluntary basis. Order 2000 requires public utilities that own, operate, or control interstate transmission facilities to file by October 15, 2000 a proposal for how they intend to participate in an RTO or, alternatively, to describe the steps they have taken to do so or the reasons why it is not feasible to participate in an RTO. FERC's Order 2000 requires that RTOs be effective no later than December 15, 2001.

FERC is maintaining flexibility as to the structure of RTOs. For example, it appears that RTOs may be for-profit or not-for-profit and may be organized as joint ventures or legal entities of various types. However, RTOs will be required, among other things, to be independent market participants, to have sufficient regional scope to maintain reliability and efficiency, to be non-discriminatory in granting service, and to maintain operational control over their regional transmission systems.

The Transco, an independent, for-profit transmission company which has already been proposed to FERC by the domestic utility companies, is Entergy's preferred approach for complying with FERC's Order 2000. However, Entergy is also exploring other means for complying with Order 2000.

Retail Rate Matters

General (Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans)

Certain costs related to Grand Gulf 1, Waterford 3, and River Bend were phased into retail rates over a period of years in order to avoid the "rate shock" associated with increasing rates to reflect all such costs at once. Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and the portion of Entergy Gulf States regulated by the LPSC have fully recovered such deferred costs associated with one or more of the plants. Entergy New Orleans' phase-in plan expires in 2001.

The retail regulatory philosophy has shifted in some jurisdictions from traditional, exclusively cost-of-service regulation to include performance-based rate elements. Performance-based formula rate plans are designed to encourage efficiencies and productivity while permitting utilities and their customers to share in the benefits. Entergy Mississippi and Entergy Louisiana have implemented performance-based formula rate plans.

The domestic utility companies have initiated proceedings with state and local regulators regarding transition to a more competitive market for electricity. In addition, retail open access laws have been enacted in Arkansas and Texas. These matters are discussed more thoroughly in Note 2 to the financial statements.

Entergy Arkansas

Retail Rate Proceedings

Entergy Arkansas' material retail rate proceedings that were resolved during the past year, are currently pending, or affect current year results are discussed in Note 2 to the financial statements.

Recovery of Grand Gulf 1 Costs

Under the settlement agreement entered into with the APSC in 1985 and amended in 1988, Entergy Arkansas retains 22% of its share of Grand Gulf 1 costs and recovers the remaining 78% of its share through rates. Under the Unit Power Sales Agreement, Entergy Arkansas' share of Grand Gulf 1 costs is 36%. In the event Entergy Arkansas is not able to sell its retained share to third parties, it may sell such energy to its retail customers at a price equal to its avoided energy cost, which is currently less than Entergy Arkansas' cost of energy from the retained share.

Fuel Recovery

Entergy Arkansas' rate schedules include an energy cost recovery rider to recover fuel and purchased energy costs. The rider utilizes projected energy costs for the twelve month period commencing on April 1 of each year to develop an energy cost rate, which is redetermined annually and includes a true-up adjustment reflecting the over-recovery or under-recovery of the energy cost for the prior calendar year.

Rate Freeze

In December 1997, the APSC approved a settlement agreement resolving Entergy Arkansas' transition to competition case. One provision in that settlement was that base rates would remain at the level resulting from that case until July 1, 2001. The terms of the settlement agreement are discussed in Note 2 to the financial statements.

Entergy Gulf States

Retail Rate Proceedings

Entergy Gulf States' material retail rate proceedings that were resolved during the past year, are currently pending, or affect current year results are discussed in Note 2 to the financial statements. In addition, the 1999 agreement that settled Entergy Gulf States' 1996 and 1998 rate proceedings, which is currently under appeal, and various other matters is discussed in Note 2 to the financial statements.

Texas Jurisdiction - River Bend

In March 1998, the PUCT issued an order disallowing recovery of \$1.4 billion of company-wide abeyed River Bend plant costs which have been held in abeyance since 1988. Entergy Gulf States has appealed the PUCT's decision on this matter to a Texas District Court. The settlement agreement mentioned above addresses the treatment of abeyed plant costs, and, as a result, Entergy Gulf States removed the reserve for these costs and reduced the plant asset in 1999. Based on advice of counsel, management believes that it is probable that the matter will be remanded again to the PUCT for a further ruling on the prudence of the abeyed plant costs and it is reasonably possible that some portion of these costs will be included in rate base. The abeyed plant costs are discussed in more detail in Note 2 to the financial statements.

Fuel Recovery

Entergy Gulf States' Texas rate schedules include a fixed fuel factor to recover fuel and purchased power costs not recovered in base rates. The settlement agreement mentioned above established a methodology for semi-annual revisions of the fixed fuel factor in March and September based on the market price of natural gas. This agreement is effective through December 2001 or until otherwise ordered by the PUCT. To the extent actual costs vary from the fixed fuel factor, refunds or surcharges are required or permitted. Fuel costs are also subject to reconciliation proceedings at least every three years.

Entergy Gulf States' Louisiana electric rate schedules include a fuel adjustment clause designed to recover the cost of fuel and purchased power costs in the second prior month, adjusted by a surcharge or credit for deferred fuel expense arising from the monthly reconciliation of actual fuel costs incurred with fuel revenues billed to customers. The LPSC and the PUCT fuel cost reviews that were resolved during the past year or are currently pending are discussed in Note 2 to the financial statements.

Entergy Gulf States' Louisiana gas rates include a purchased gas adjustment based on estimated gas costs for the billing month adjusted by a surcharge or credit for deferred fuel expense arising from the monthly reconciliation of actual fuel costs incurred with fuel cost revenues billed to customers.

Entergy Louisiana

Retail Rate Proceedings

Entergy Louisiana's material retail rate proceedings that were resolved during the past year, are currently pending, or affect current year results are discussed in Note 2 to the financial statements.

Recovery of Grand Gulf 1 Costs

In a series of LPSC orders, court decisions, and agreements from late 1985 to mid-1988, Entergy Louisiana was granted rate relief with respect to costs associated with Entergy Louisiana's share of capacity and energy from Grand Gulf 1, subject to certain terms and conditions. In November 1988, Entergy Louisiana agreed to retain, and not recover from retail ratepayers, 18% of its 14% share of the costs of Grand Gulf 1's capacity and energy. Non-fuel operation and maintenance costs for Grand Gulf 1 are recovered through Entergy Louisiana's base rates. Additionally, Entergy Louisiana is allowed to recover, through the fuel adjustment clause, 4.6 cents per KWH for the energy related to its retained portion of these costs. Alternatively, Entergy Louisiana may sell such energy to nonaffiliated parties at prices above the fuel adjustment clause recovery amount, subject to the LPSC's approval.

Performance-Based Formula Rate Plan

Entergy Louisiana's performance-based formula rate plan filings are discussed in Note 2 to the financial statements.

Fuel Recovery

Entergy Louisiana's rate schedules include a fuel adjustment clause designed to recover the cost of fuel in the second prior month, adjusted by a surcharge or credit for deferred fuel expense arising from the monthly reconciliation of actual fuel costs incurred with fuel cost revenues billed to customers. In May 1999, the LPSC issued an order requiring Entergy Louisiana to realign approximately \$15.9 million of certain fuel costs from the fuel adjustment clause to base rates.

Entergy Mississippi

Retail Rate Proceedings

Entergy Mississippi's material retail rate proceedings that were resolved during the past year, are currently pending, or affect current year results are discussed in Note 2 to the financial statements.

Performance-Based Formula Rate Plan

Under its performance-based formula rate plan, Entergy Mississippi's earned rate of return is calculated automatically every 12 months and compared to and adjusted against a benchmark rate of return. The benchmark is calculated under a separate formula within the formula rate plan. The formula rate plan allows for periodic small adjustments in rates based on a comparison of actual earned returns to benchmark returns and upon certain performance factors. The formula rate plan filing for the 1998 test year is discussed in Note 2 to the financial statements. The formula rate plan filing for the 1999 test year will be submitted in March 2000.

Fuel Recovery

Entergy Mississippi's rate schedules include an energy cost recovery rider to recover fuel and purchased energy costs. The rider utilizes projected energy costs for the coming calendar year to develop an energy cost rate, which is redetermined annually and includes a true-up adjustment reflecting the over-recovery or under-recovery of the energy cost as of September 30 immediately preceding the annual redetermination.

Entergy New Orleans

Retail Rate Proceedings

Entergy New Orleans' material retail rate proceedings that were resolved during the past year, are currently pending, or affect current year results are discussed in Note 2 to the financial statements.

Recovery of Grand Gulf 1 Costs

Under Entergy New Orleans' various rate settlements with the Council in 1986, 1988, and 1991, Entergy New Orleans agreed to absorb and not recover from ratepayers a total of \$96.2 million of its Grand Gulf 1 costs. Entergy New Orleans was permitted to implement annual rate increases in decreasing amounts each year through 1995, and to defer certain costs and related carrying charges for recovery on a schedule extending from 1991 through 2001. As of December 31, 1999, the uncollected balance of Entergy New Orleans' deferred costs was \$35.7 million.

Fuel Recovery

Entergy New Orleans' electric rate schedules include a fuel adjustment clause designed to recover the cost of fuel in the second prior month, adjusted by a surcharge or credit for deferred fuel expense arising from the monthly reconciliation of actual fuel costs incurred with fuel cost revenues billed to customers. The adjustment also includes the difference between non-fuel Grand Gulf 1 costs paid by Entergy New Orleans

and the estimate of such costs, which are included in base rates, as provided in Entergy New Orleans' Grand Gulf 1 rate settlements. Entergy New Orleans' gas rate schedules include an adjustment to reflect estimated gas costs for the billing month, adjusted by a surcharge or credit similar to that included in the electric fuel adjustment clause.

Regulation

Federal Regulation (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

PUHCA

Entergy Corporation and its various direct and indirect subsidiaries (with the exception of its EWG and FUCO subsidiaries) are subject to the broad regulatory provisions of PUHCA. Except with respect to investments in certain domestic power projects and foreign utility company projects, the principal regulatory provisions of PUHCA:

- o limit the operations of a registered holding company system to a single, integrated public utility system, plus certain ancillary and related systems and businesses;
- o regulate certain transactions among affiliates within a holding company system;
- o govern the issuance, acquisition and disposition of securities and assets by registered holding companies and their subsidiaries;
- o limit the entry by registered holding companies and their subsidiaries into businesses other than electric and/or gas utility businesses; and
- o require SEC approval for certain utility mergers and acquisitions.

Entergy Corporation and other electric utility holding companies have supported legislation in the United States Congress to repeal PUHCA and transfer certain aspects of the oversight of public utility holding companies from the SEC to FERC. Entergy believes that PUHCA inhibits its ability to compete in the evolving electric energy marketplace and largely duplicates the oversight activities otherwise performed by FERC and other federal regulators and by state and local regulators. In June 1995, the SEC adopted a report proposing options for the repeal or significant modification of PUHCA.

Federal Power Act

The domestic utility companies, System Energy, Entergy Power, and EPMC are subject to the Federal Power Act as administered by FERC and the DOE. The Federal Power Act provides for regulatory jurisdiction over the transmission and wholesale sale of electric energy in interstate commerce, licensing of certain hydroelectric projects and certain other activities, including accounting policies and practices. Such regulation includes jurisdiction over the rates charged by System Energy for Grand Gulf 1 capacity and energy provided to Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans.

Entergy Arkansas holds a FERC license for two hydroelectric projects (70 MW), which was renewed on July 2, 1980 and expires in February 2003. In February 1998, Entergy Arkansas filed notice of its intent to relicense these hydroelectric projects.

Regulation of the Nuclear Power Industry (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy)

Regulation of Nuclear Power

Under the Atomic Energy Act of 1954 and the Energy Reorganization Act of 1974, the operation of nuclear plants is heavily regulated by the NRC, which has broad power to impose licensing and safety-related requirements. In the event of non-compliance, the NRC has the authority to impose fines or shut down a unit, or both, depending upon its assessment of the severity of the situation, until compliance is achieved. Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy, as owners of all or portions of ANO, River Bend, Waterford 3, and Grand Gulf 1, respectively, and Entergy Operations, as the licensee and operator of these units, are subject to the jurisdiction of the NRC. Additionally, Entergy's non-utility nuclear power business is subject to the NRC's jurisdiction as the owner and operator of Pilgrim. Revised safety requirements promulgated by the NRC have, in the past, necessitated substantial capital expenditures at these nuclear plants, and additional expenditures could be required in the future.

The nuclear power industry faces uncertainties with respect to the cost and long-term availability of sites for disposal of spent nuclear fuel and other radioactive waste, nuclear plant operations, the technological and financial aspects of decommissioning plants at the end of their licensed lives, and requirements relating to nuclear insurance. These matters are briefly discussed below.

Regulation of Spent Fuel and Other High-Level Radioactive Waste

Under the Nuclear Waste Policy Act of 1982, the DOE is required, for a specified fee, to construct storage facilities for, and to dispose of, all spent nuclear fuel and other high-level radioactive waste generated by domestic nuclear power reactors. However, the DOE has not yet

identified a permanent storage repository and, as a result, future expenditures may be required to increase spent fuel storage capacity at Entergy's nuclear plant sites. Information concerning spent fuel disposal contracts with the DOE, current on-site storage capacity, and costs of providing additional on-site storage is presented in Note 9 to the financial statements.

Regulation of Low-Level Radioactive Waste

The availability and cost of disposal facilities for low-level radioactive waste resulting from normal nuclear plant operations are subject to a number of uncertainties. Under the Low-Level Radioactive Waste Policy Act of 1980, as amended, each state is responsible for disposal of waste originating in that state, but states may participate in regional compacts to fulfill their responsibilities jointly. The States of Arkansas and Louisiana participate in the Central Interstate Low-Level Radioactive Waste Compact (Central States Compact), and the State of Mississippi participates in the Southeast Low-Level Radioactive Waste Compact (Southeast Compact). Both the Central States Compact and the Southeast Compact have experienced significant delays in the development of waste storage facilities. Massachusetts, where Pilgrim is located, does not participate in any regional compact and has been slow to fulfill its responsibility. Two disposal sites are currently operating in the United States, but only one site, the Barnwell Disposal Facility (Barnwell) located in South Carolina, is open to out-of-region generators. The availability of Barnwell provides only a temporary solution for Entergy's low-level radioactive waste storage, and does not alleviate the need to develop new disposal capacity.

The Southeast Compact process is currently on hold pending resolution of future funding. In December 1998, the host state for the Central States Compact, Nebraska, denied the license application. In December 1998, Entergy and two other utilities in the Central States Compact filed a lawsuit against the state of Nebraska seeking damages resulting from delays and a faulty license review process. Entergy Arkansas, Entergy Louisiana, and Entergy Gulf States, along with other waste generators, fund the development costs for new disposal facilities relating to the Central States Compact. Development costs to be incurred in the future are difficult to predict. The current schedules for the site development in both the Central States Compact and the Southeast Compact are undetermined at this time. Until long-term disposal facilities are established, Entergy will seek continued access to existing facilities. If such access is unavailable, Entergy will store low-level waste at its nuclear plant sites.

Regulation of Nuclear Plant Decommissioning

Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy are recovering through electric rates the estimated decommissioning costs for ANO, River Bend, Waterford 3, and Grand Gulf 1, respectively. These amounts are deposited in trust funds which, together with the related earnings, can only be used for future decommissioning costs. Estimated decommissioning costs are periodically reviewed and updated to reflect inflation and changes in regulatory requirements and technology. Applications are periodically made to appropriate regulatory authorities to reflect, in rates, the changes in projected decommissioning costs. In conjunction with the Pilgrim acquisition, Entergy received Pilgrim's decommissioning trust fund. Based on cost estimates provided by an outside consultant, Entergy believes that Pilgrim's decommissioning fund will be adequate to cover future decommissioning costs for the plant without any additional deposits to the trust. Additional information with respect to decommissioning costs for ANO, River Bend, Waterford 3, Grand Gulf 1, and Pilgrim is found in Note 9 to the financial statements.

The EPCRA requires all electric utilities (including Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy) that purchased uranium enrichment services from the DOE to contribute up to a total of \$150 million annually over approximately 15 years (adjusted for inflation, up to a total of \$2.25 billion) for decontamination and decommissioning of enrichment facilities. In accordance with the EPCRA, contributions to decontamination and decommissioning funds are recovered through rates in the same manner as other fuel costs. The estimated annual contributions by Entergy for decontamination and decommissioning fees are discussed in Note 9 to the financial statements.

Nuclear Insurance

The Price-Anderson Act limits public liability for a single nuclear incident to approximately \$9.5 billion. Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, System Energy, and Entergy's non-utility nuclear power business have protection with respect to this liability through a combination of private insurance and an industry assessment program, as well as insurance for property damage, costs of replacement power, and other risks relating to nuclear generating units. Insurance applicable to the nuclear programs of Entergy is discussed in Note 9 to the financial statements.

Nuclear Operations

General (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy)

Entergy Operations operates ANO, River Bend, Waterford 3, and Grand Gulf 1, subject to the owner oversight of Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy, respectively. Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy pay directly or reimburse Entergy Operations at cost for its operation of the nuclear units. Entergy's non-utility nuclear power business is the operator of Pilgrim.

ANO Matters (Entergy Corporation and Entergy Arkansas)

The replacement of steam generators at ANO 2 is discussed in Note 9 to the financial statements.

In February 2000, Entergy Arkansas applied to the NRC for an extension of ANO 1's operating license. The current license expires in 2014, and, if granted, the extension would provide the authority to continue operating the plant until 2034. Management expects the NRC consideration process to take two years.

State Regulation (Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans)

General

Entergy Arkansas is subject to regulation by the APSC, which includes the authority to:

- o oversee utility service;
- o set rates;
- o determine reasonable and adequate service;
- o require proper accounting;
- o control leasing;
- o control the acquisition or sale of any public utility plant or property constituting an operating unit or system;
- o set rates of depreciation;
- o issue certificates of convenience and necessity and certificates of environmental compatibility and public need; and
- o regulate the issuance and sale of certain securities.

Entergy Gulf States is subject to the jurisdiction of the municipal authorities of a number of incorporated cities in Texas as to retail rates and service within their boundaries, with appellate jurisdiction over such matters residing in the PUCT. Entergy Gulf States' Texas business is also subject to regulation by the PUCT as to:

- o retail rates and service in rural areas;
- o certification of new generating plants; and
- o extensions of service into new areas.

Entergy Gulf States' Louisiana electric and gas business and Entergy Louisiana are subject to regulation by the LPSC as to:

- o utility service;
- o rates and charges;
- o certification of generating facilities;
- o power or capacity purchase contracts; and
- o depreciation, accounting, and other matters.

Entergy Louisiana is also subject to the jurisdiction of the Council with respect to such matters within Algiers in Orleans Parish.

Entergy Mississippi is subject to regulation by the MPSC as to the following:

- o utility service;
- o service areas;
- o facilities; and
- o retail rates.

Entergy Mississippi is also subject to regulation by the APSC as to the certificate of environmental compatibility and public need for the Independence Station, which is located in Arkansas.

Entergy New Orleans is subject to regulation by the Council as to the following:

- o utility service;
- o rates and charges;
- o standards of service;
- o depreciation, accounting, and issuance of certain securities; and
- o other matters.

Franchises

Entergy Arkansas holds exclusive franchises to provide electric service in approximately 303 incorporated cities and towns in Arkansas. These franchises are unlimited in duration and continue unless the municipalities purchase the utility property. In Arkansas, franchises are considered to be contracts and, therefore, are terminable upon breach of the terms of the franchise.

Entergy Gulf States holds non-exclusive franchises, permits, or certificates of convenience and necessity to provide electric and gas service in approximately 55 incorporated municipalities in Louisiana and approximately 63 incorporated municipalities in Texas. Entergy Gulf States typically is granted 50-year franchises in Texas and 60-year franchises in Louisiana. Entergy Gulf States' current electric franchises will expire during 2007 - 2036 in Texas and during 2015 - 2046 in Louisiana. The natural gas franchise in the City of Baton Rouge will expire in 2015. In addition, Entergy Gulf States holds a certificate of convenience and necessity from the PUCT to provide electric service to areas within 21 counties in eastern Texas.

Entergy Louisiana holds non-exclusive franchises to provide electric service in approximately 116 incorporated Louisiana municipalities. Most of these franchises have 25-year terms, although six of these municipalities have granted 60-year franchises. Entergy Louisiana also supplies electric service in approximately 353 unincorporated communities, all of which are located in Louisiana parishes in which it holds non-exclusive franchises.

Entergy Mississippi has received from the MPSC certificates of public convenience and necessity to provide electric service to areas within 45 counties, including a number of municipalities, in western Mississippi. Under Mississippi statutory law, such certificates are exclusive. Entergy Mississippi may continue to serve in such municipalities upon payment of a statutory franchise fee, regardless of whether an original municipal franchise is still in existence.

Entergy New Orleans provides electric and gas service in the City of New Orleans pursuant to city ordinances (except for in Algiers, which is served by Entergy Louisiana). These ordinances contain a continuing option for the City of New Orleans to purchase Entergy New Orleans' electric and gas utility properties.

The business of System Energy is limited to wholesale power sales. It has no distribution franchises.

Environmental Regulation

General

Entergy's facilities and operations are subject to regulation by various domestic and foreign governmental authorities having jurisdiction over air quality, water quality, control of toxic substances and hazardous and solid wastes, and other environmental matters. Management believes that its affected subsidiaries are in substantial compliance with environmental regulations currently applicable to their facilities and operations. Because environmental regulations are subject to change, future compliance costs cannot be precisely estimated. However, management estimates that future capital expenditures for environmental compliance will not be material for Entergy or any of its reporting subsidiaries.

Clean Air Legislation

The Clean Air Act Amendments of 1990 (the Act) established the following three programs that currently or in the future may affect Entergy's fossil-fueled generation:

- o an acid rain program for control of sulfur dioxide (SO₂) and nitrogen oxides (NO_x);
- o an ozone nonattainment area program for control of NO_x and volatile organic compounds; and
- o an operating permits program for administration and enforcement of these and other Act programs.

Under the acid rain program, Entergy's subsidiaries do not anticipate that they will require additional equipment to control SO₂. The Act provides allowances to most of the affected Entergy generating units for emissions based upon past emission levels and operating characteristics. Each allowance is an entitlement to emit one ton of SO₂ per year. Under the Act, utilities are or will be required to possess allowances for SO₂ emissions from affected generating units. All Entergy fossil-fueled generating units are classified as "Phase II" units under the Act and are subject to SO₂ allowance requirements beginning in the year 2000. Management believes that it will be able to operate the domestic utility companies' generating units efficiently without installing scrubbers or experiencing other significant expenditures.

Additional control equipment was recently installed at certain Entergy Gulf States generating units to achieve NO_x reductions due to the ozone nonattainment status of areas served in and around Beaumont and Houston, Texas. Texas environmental authorities imposed NO_x controls on power plants that had to be in place by November 1999. Entergy Gulf States believes the cost of additional control equipment necessary to maintain this compliance is immaterial. In December 1999, Texas authorities proposed future control strategies for public comment. Depending on the final strategies adopted, additional costs will likely be incurred between 2000 and 2007. Entergy Gulf States has studies underway to estimate the costs that would be incurred based on the proposed strategies. These estimates will be refined during 2000 based on the final adopted strategies approved by the EPA.

As part of legislation passed in Texas in June 1999 to restructure the electric power industry in the state, certain generating units of Entergy Gulf States will be required to obtain operating permits and meet new, lower emission limits for NOx. It is expected that Entergy Gulf States will incur costs of approximately \$6 million between 2000 and 2003 to meet these new standards. These costs may or may not be recoverable in the restructured electric utility environment.

Other Environmental Matters

The Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA), authorizes the EPA and, indirectly, the states, to mandate cleanup, or reimbursement of clean-up costs, by parties that generate or transport hazardous substances released from or at a site. Owners and operators of such sites also are deemed liable by CERCLA. CERCLA has been interpreted to impose joint and several liability on responsible parties. The domestic utility companies have sent waste materials to various disposal sites over the years. In addition, environmental laws now regulate certain of the domestic utility companies' operating procedures and maintenance practices which historically were not subject to regulation. Some of Entergy's disposal sites have been the subject of governmental action under CERCLA, resulting in site clean-up activities. The domestic utility companies have participated to various degrees in accordance with their respective potential liabilities in such site cleanups and have developed experience with clean-up costs. The affected domestic utility companies have established reserves for such environmental clean-up and restoration activities.

Entergy Arkansas

Entergy Arkansas has received notices from the EPA and the Arkansas Department of Environmental Quality (ADEQ) alleging that Entergy Arkansas, along with others, may be a PRP for clean-up costs associated with various sites in Arkansas. Contaminants at the sites include polychlorinated biphenyls (PCBs), lead, and other hazardous substances.

Entergy Arkansas identified PCB contamination at the Little Rock Radio Tower site (formerly Pulaski Heights Substation) during the fall of 1998. Entergy Arkansas performed extensive sampling to determine the extent of contamination and received approval from the EPA on its work plan for remediation. Cleanup of the site was completed in November 1999 at a cost of approximately \$320,000. Entergy Arkansas does not believe that any further liability, if any, with respect to this site will be material.

Entergy Arkansas entered into a Consent Administrative Order with the ADEQ in 1991 that named Entergy Arkansas as a PRP for the initial stabilization associated with contamination at the Utilities Services, Inc. state Superfund site located near Rison, Arkansas. This site is neither owned nor operated by any Entergy-affiliated company. This site was found to have soil contaminated by PCBs and pentachlorophenol (a wood preservative). Containers and drums that contained PCBs and other hazardous substances were found at the site. Entergy Arkansas worked with the ADEQ to identify and notify other PRPs with respect to this site. Approximately twenty PRPs have been identified to date. In December 1999, Entergy Arkansas, along with several other PRPs, met with ADEQ representatives to discuss the cleanup of the site. The PRPs are being encouraged to undertake a voluntary cleanup and have begun discussions regarding the sharing of costs. Entergy Arkansas' share of total remediation costs at this site is estimated at \$2.7 million. As of December 31, 1999, Entergy Arkansas had incurred approximately \$400,000 of these costs.

Entergy Gulf States

Entergy Gulf States has been designated by the EPA as a PRP for the cleanup of certain hazardous waste disposal sites. Entergy Gulf States is negotiating with the EPA and state authorities regarding the cleanup of these sites. Several class action and other suits have been filed in state and federal courts seeking relief from Entergy Gulf States and others for damages caused by the disposal of hazardous waste and for asbestos-related disease allegedly resulting from exposure on Entergy Gulf States' premises (see "Other Regulation and Litigation" below).

In August 1999, Entergy Gulf States received notice from the Texas Natural Resource Conservation Commission (TNRCC) that it is considered to be a PRP for the Spector Salvage Yard in Orange, Texas. The Spector Salvage site operated from approximately 1944 until ceasing operations in 1971. In addition to general salvage, the facility functioned as a repository for military surplus equipment and supplies purchased from military, industrial, and chemical facilities. Soil samples from the site indicate the release of heavy metals and various organics, including PCBs. The TNRCC requested of all PRPs a submission of a good faith offer to fully fund or conduct a remedial investigation. Entergy Gulf States is still developing its submission and has yet to determine the extent of its participation as a PRP. Based on the size of the site, future expenditures for investigation and clean-up are estimated at \$400,000.

Entergy Gulf States is currently involved in a remedial investigation of the Lake Charles Service Center site, located in Lake Charles, Louisiana. A manufactured gas plant (MGP) is believed to have operated at this site from approximately 1916 to 1931. Coal tar, a by-product of the distillation process employed at MGPs, was apparently routed to a portion of the property for disposal. The same area has also been used as a landfill. In 1999, Entergy Gulf States signed a second Administrative Consent Order with the EPA to perform removal action at the site. Entergy Gulf States believes that its ultimate responsibility for this site will not materially exceed its existing clean-up provision of \$19 million.

Entergy Gulf States is currently involved in the second phase of an investigation of contamination of an MGP site, known as the Old Jennings

Ice Plant, located in Jennings, Louisiana. The MGP is believed to have operated from approximately 1909 to 1926. The site is currently used for an electrical substation and storage of transmission and distribution equipment. In July 1996, a petroleum-like substance was discovered on the surface soil, and notification was made to the LDEQ. The LDEQ was aware of this site based upon a survey performed by an environmental consultant for the EPA. Entergy Gulf States obtained the services of an environmental consultant to collect core samples and to perform a search of historical records to determine what activities occurred at Jennings. Results of the core sampling, which found limited amounts of contamination on-site, were submitted to the LDEQ. A plan to determine a cost-effective remediation strategy will be developed upon completion of a review of the sampling report by the LDEQ. Entergy does not expect that its ultimate financial responsibility with respect to this site will be material. The amount of its existing provision for cleanup is \$500,000.

In 1994, Entergy Gulf States performed a site assessment in conjunction with a construction project at the Louisiana Station Generating Plant (Louisiana Station). In 1995, a further assessment confirmed subsurface soil and groundwater impact to three areas on the plant site. After further evaluation, a notification was made to the LDEQ. Remediation of Louisiana Station is expected to continue through 2001. The remediation cost incurred through December 31, 1999 for this site was \$5.6 million. Future costs are not expected to exceed the existing provision of \$1.9 million.

Entergy New Orleans

Entergy New Orleans has completed the stabilization and abatement of asbestos containing material at the A. B. Paterson Generating Plant located in New Orleans, Louisiana. Entergy notified the LDEQ of its intent to repair and remove insulation and machinery gaskets. On-site abatement of gaskets and insulating material was completed during the third quarter of 1999. The cost incurred through December 31, 1999 was approximately \$1.9 million. Future costs are not expected to be material.

Entergy New Orleans is planning a new substation on a parcel of land located adjacent to an existing substation which is in close proximity to the Market Street power plant. During pre-construction activities in January 2000, significant levels of lead were discovered in both soil and groundwater at this site. Entergy New Orleans has notified the LDEQ of the contamination. In addition to soil removal and disposal, installation of groundwater monitoring wells and a long-term monitoring program may be required. Entergy New Orleans believes remediation costs will not exceed \$2 million.

Entergy Louisiana and Entergy New Orleans

Entergy Louisiana and Entergy New Orleans have received notices from the EPA and/or the states of Louisiana and Mississippi that one or more of them may be a PRP for the following disposal sites, which are neither owned nor operated by any Entergy subsidiary:

o In October 1997, the Mississippi Department of Environmental Quality (MDEQ) ordered Entergy Louisiana to implement a remedial action work plan prepared by a PRP committee for Disposal Systems, Inc. sites at Fifth Street (Clay Point) and Lee Street in Biloxi, Mississippi, and at Woolmarket, Mississippi. The MDEQ issued a similar order on the same date to Entergy Louisiana's contractor, Ebasco Services, Inc. (Ebasco), which Entergy Louisiana has agreed to defend and indemnify. A settlement was negotiated for Entergy Louisiana, including Ebasco, for \$289,000. This settlement relieved Entergy Louisiana of future liabilities associated with these sites.

o From 1992 to 1994, Entergy Louisiana performed a site assessment and remedial activities at a retired power plant known as the Thibodaux municipal site, previously owned and operated by a Louisiana municipality. Entergy Louisiana purchased the power plant at this site as part of the acquisition of municipal electric systems. The site assessment indicated some subsurface contamination from fuel oil. Remediation of the Thibodaux site is expected to continue through 2001. The cost incurred through December 31, 1999 for the Thibodaux site was \$502,000. Future costs are not expected to exceed the existing provision of \$318,000.

During 1993, the LDEQ issued new rules for solid waste regulation, including regulation of wastewater impoundments. Entergy Louisiana and Entergy New Orleans have determined that certain of their power plant wastewater impoundments were affected by these regulations and have chosen to upgrade or close them. As a result, a remaining recorded liability in the amount of \$5.9 million for Entergy Louisiana and \$0.5 million for Entergy New Orleans existed at December 31, 1999 for wastewater upgrades and closures. Completion of this work is pending LDEQ approval.

Other Regulation and Litigation

Merger (Entergy Corporation and Entergy Gulf States)

Several parties, including Entergy Services, appealed FERC's approval of the Merger to the D.C. Circuit. Entergy Services sought review of FERC's deletion of a 40% cap on the amount of fuel savings Entergy Gulf States may be required to transfer to other domestic utility companies under a tracking mechanism designed to protect the other companies from certain unexpected increases in fuel costs. The other parties sought to overturn FERC's decisions on various grounds, including issues as to whether FERC appropriately conditioned the Merger to protect various interested parties from alleged harm and FERC's reliance on Entergy's transmission tariff to mitigate any potential anticompetitive impacts of the Merger. The D.C. Circuit has ordered that the cases be held in abeyance pending FERC's issuance of a final order on remand in the

proceedings on Entergy's transmission tariff (see discussion of tariff case in "RATE MATTERS AND REGULATION - Rate Matters - Wholesale Rate Matters - Open Access Transmission" above).

Employment Litigation (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans)

Entergy Corporation and the domestic utility companies are defendants in numerous lawsuits that have been filed by former employees alleging that they were wrongfully terminated and/or discriminated against on the basis of age, race, and/or sex. Entergy Corporation and the domestic utility companies are vigorously defending these suits and deny any liability to the plaintiffs. However, no assurance can be given as to the outcome of these cases.

Asbestos and Hazardous Waste Suits (Entergy Gulf States)

Several lawsuits have been filed on behalf of plaintiffs in state and federal courts in Texas and Louisiana that seek relief from Entergy Gulf States as well as numerous other defendants for damages caused to the plaintiffs or others by the alleged exposure to hazardous waste and asbestos on the defendants' premises. The plaintiffs in some suits are also suing Entergy Gulf States and all other defendants on a conspiracy claim. It will not be known until discovery is complete how many of the plaintiffs in any of the foregoing cases actually worked on Entergy Gulf States' premises. Entergy Gulf States believes that the ultimate resolution of these matters will not be material, in the aggregate, to its financial position or results of operations.

Union Pacific Railroad (Entergy Corporation and Entergy Arkansas)

In October 1997, Entergy Arkansas and Entergy Services filed a civil suit against Union Pacific Railroad Company (Union Pacific) in the United States District Court for the Middle District of Louisiana. This suit seeks damages and the termination of coal shipping contracts with Union Pacific because of Union Pacific's failure to meet its contractual obligations to ship coal to Entergy Arkansas' two coal-fired plants. The lawsuit also alleges that such failure has impaired Entergy Arkansas' ability to generate and sell electricity from these plants. The case has been transferred to the United States District Court for the District of Nebraska. In January 1999, on cross motions for summary judgment, the court ruled that Union Pacific has breached obligations under the contracts. Under the court's ruling, if the breaches of the contracts by Union Pacific are proven at trial to be material, rescission of the contracts is available to Entergy as a remedy, in addition to the monetary damages to be awarded.

Aquila Power Corporation (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans)

In March 1998, Aquila Power Corporation ("Aquila") filed a complaint with FERC against Entergy Services, as agent for the domestic utility companies, alleging that the domestic utility companies improperly reserved transmission capacity on Entergy's transmission system, resulting in the denial of Aquila's request for transmission service. Aquila's complaint seeks compensation for lost profits, an order prohibiting Entergy and/or its affiliates from engaging in similar conduct, and suspension of the domestic utility companies' and EPMC's market-rate authority. In May 1998, Entergy filed its response denying the Aquila allegations. Subsequently, Aquila amended and restated its complaint, alleging additional instances of improper activities by Entergy. In addition to its requests in its original complaint, Aquila's amended complaint seeks a finding by FERC that Entergy is in violation of FERC Orders No. 888 and 889, and an order that Entergy should be required to join or agree to the formation of an independent system operator. Entergy filed its response to the amended and restated complaint in July 1998, denying the alleged improper conduct, and also moved to dismiss Aquila's complaint in September 1998. Aquila has responded, and no hearing date has been set by FERC.

Ratepayer Lawsuits (Entergy Corporation, Entergy Gulf States, Entergy Louisiana, and Entergy New Orleans)

In May 1998, a group of ratepayers filed a complaint against Entergy Corporation, Entergy Power, and Entergy Louisiana in state court in Orleans Parish purportedly on behalf of all Entergy Louisiana ratepayers. The plaintiffs seek treble damages for alleged injuries arising from the defendants' alleged violations of Louisiana's antitrust laws in connection with the costs included in fuel filings with the LPSC and passed through to ratepayers. Among other things, plaintiffs allege that Entergy Louisiana improperly introduced certain costs into the calculation of the fuel charges, including imprudently purchased high-cost electricity from its affiliates and imprudently purchased high-cost gas. Plaintiffs allege that these practices violated Louisiana's antitrust laws. In addition, plaintiffs seek to recover interest and attorney fees. Exceptions have been filed by Entergy, asserting that this dispute should be litigated before the LPSC and FERC. At the appropriate time, if necessary, Entergy will raise its defenses to the antitrust claims. At present, the suit in state court is stayed by stipulation of the parties.

Plaintiffs also filed this complaint with the LPSC to initiate a review by the LPSC of Entergy Louisiana's monthly fuel adjustment charge filings and to force restitution to ratepayers of all costs that the plaintiffs allege were improperly included in those fuel adjustment filings. Marathon Oil Company and Louisiana Energy Users Group have also intervened in the LPSC proceeding. Discovery at the LPSC has been conducted and is expected to continue. Direct testimony was filed with the LPSC by plaintiffs and the intervenors in July 1999. In their testimony for the period 1989 through 1998, plaintiffs purport to quantify many of their claims in an amount totaling \$544 million, plus interest. The plaintiffs

will likely assert additional damages for the period 1974 through 1988. The Entergy companies filed responsive and rebuttal testimony in September 1999. Rebuttal testimony by the plaintiffs and intervenors was filed in November 1999. Direct testimony of the LPSC staff will be filed in April 2000, to which Entergy will be permitted to respond. Hearings before the LPSC are scheduled to begin in September 2000.

Entergy intends to defend this matter vigorously, both in court and at the LPSC. The outcome of the lawsuit and the LPSC proceeding cannot be predicted at this time. Management has provided reserves for this, other litigation, and Entergy Louisiana's formula rate plan proceedings based on its estimate of the outcome of these proceedings. Information on formula rate plan proceedings is given in Note 2 to the financial statements.

In April 1999, a group of ratepayers filed a complaint against Entergy New Orleans, Entergy Corporation, Entergy Services, and Entergy Power in state court in Orleans Parish purportedly on behalf of all Entergy New Orleans ratepayers. The plaintiffs seek treble damages for alleged injuries arising from the defendants' alleged violations of Louisiana's antitrust laws in connection with certain costs passed on to ratepayers in Entergy New Orleans's fuel adjustment filings with the Council. In particular, plaintiffs allege that Entergy New Orleans improperly included certain costs in the calculation of fuel charges and that Entergy New Orleans imprudently purchased high-cost fuel from other Entergy affiliates. Plaintiffs allege that Entergy New Orleans and the other defendant Entergy companies conspired to make these purchases to the detriment of Entergy New Orleans' ratepayers and to the benefit of Entergy's shareholders, in violation of Louisiana's antitrust laws. Plaintiffs also seek to recover interest and attorney fees. Exceptions to the plaintiffs' allegations were filed by Entergy, asserting, among other things, that jurisdiction over these issues rests with the Council and FERC. If necessary, at the appropriate time, Entergy will also raise its defenses to the antitrust claims. At present, the suit in state court is stayed by stipulation of the parties.

Plaintiffs also filed this complaint with the Council in order to initiate a review by the Council of their allegations and to force restitution to ratepayers of all costs they allege were improperly and imprudently included in the fuel adjustment filings. Discovery has begun in the proceedings before the Council. The plaintiffs have not yet stated the amount of damages they claim. Entergy intends to defend this matter vigorously, both in court and before the Council. The ultimate outcome of the lawsuit and the Council proceeding cannot be predicted at this time.

In April 1998, a group of residential and business ratepayers filed a complaint against Entergy New Orleans in state court in Orleans Parish purportedly on behalf of all ratepayers in New Orleans. The plaintiffs allege that Entergy New Orleans has overcharged ratepayers by at least \$300 million since 1975 in violation of limits on Entergy New Orleans' rate of return that the plaintiffs allege were established by ordinances passed by the Council in 1922. The plaintiffs seek, among other things, (i) a declaratory judgment that such franchise ordinances have been violated; and (ii) a remand to the Council for the establishment of the amount of overcharges plus interest. Entergy New Orleans believes the lawsuit is without merit. Entergy New Orleans has charged only those rates authorized by the Council in accordance with applicable law. Entergy New Orleans is vigorously defending itself in the lawsuit.

In May 1998, a group of ratepayers filed a complaint against Entergy Louisiana in state court in East Baton Rouge Parish purportedly on behalf of all Entergy Louisiana ratepayers. The plaintiffs allege that the formula ratemaking plan authorized by the LPSC has allowed Entergy Louisiana to earn amounts in excess of a fair return. The plaintiffs seek, among other things, (i) a declaratory judgment that the formula ratemaking plan is an improper ratemaking practice; and (ii) a refund of the amounts allegedly charged in excess of proper ratemaking practices. Entergy Louisiana believes the lawsuit is without merit and is vigorously defending itself.

On February 28, 2000, a lawsuit was commenced in the Civil District Court for the Parish of Orleans, Louisiana, against Entergy, Entergy Gulf States, Entergy Louisiana, and Entergy New Orleans relating to power outages that occurred in July 1999. The plaintiff, who purports to represent a class of similarly situated persons, claims unspecified damages as a result of these outages, which the plaintiff claims were the result of negligence on the part of the Entergy defendants. Entergy, Entergy Gulf States, Entergy Louisiana, and Entergy New Orleans have not yet filed responsive pleadings in the case. However, they will vigorously contest the plaintiff's allegations, which they believe do not support any liability to the plaintiff for damages.

Cajun - Coal Contracts (Entergy Corporation and Entergy Gulf States)

A discussion of this litigation is included under the caption "Cajun- Coal Contracts" in Note 9 to the financial statements.

Franchise Fee Litigation (Entergy Corporation and Entergy Gulf States)

In September 1998, the City of Nederland filed a petition against Entergy Gulf States and Entergy Services in state court in Jefferson County, Texas, purportedly on behalf of all Texas municipalities that have ordinances or agreements with Entergy Gulf States. The lawsuit alleges that Entergy Gulf States has been underpaying its franchise fees due to failure to properly calculate its gross receipts. The plaintiff seeks a judgment for the allegedly underpaid fees and punitive damages. Entergy Gulf States believes the lawsuit is without merit and is vigorously defending itself.

Fiber Optic Cable Litigation (Entergy Corporation, Entergy Gulf States)

In May 1998, a group of property owners filed a petition against Entergy Corporation, Entergy Gulf States, Entergy Services, and ETHC in state court in Jefferson County, Texas purportedly on behalf of all property owners throughout the Entergy service area who have conveyed easements to the defendants. The lawsuit alleged that Entergy installed fiber optic cable across their property without obtaining appropriate easements. The plaintiffs sought actual damages for the use of the land and a share of the profits made through use of the fiber optic cables and punitive damages. The defendants have dismissed the petition in state court, and the plaintiffs have commenced an identical lawsuit in the United States District Court in Beaumont, Texas. Entergy is vigorously defending itself in the lawsuit and believes that any damages suffered by the plaintiff landowners are negligible and that there is no basis for the claim seeking a share of profits.

Franchise Service Area Litigation (Entergy Gulf States)

In early 1998, Beaumont Power and Light Company (BP&L) unsuccessfully sought a franchise to provide electric service in the City of Beaumont, Texas, where Entergy Gulf States already holds a franchise. In November 1998, BP&L filed a request before the PUCT to obtain a certificate of convenience and necessity (CCN) for those portions of Jefferson County outside the boundaries of any municipality for which Entergy Gulf States provides retail electric service. BP&L's application contemplates using Entergy Gulf States' facilities in their provision of service. In Texas, utilities are required to obtain a CCN prior to providing retail electric service. Jefferson County is currently singly certificated to Entergy Gulf States. If BP&L's application is granted, BP&L would be able to provide retail service to Entergy Gulf States' customers in the area for which the certificate would apply. BP&L has amended its application to add a request for a CCN to provide retail electric service within the City of Beaumont. The amended application acknowledges that the Texas electric utility restructuring law requires BP&L to use its own facilities to connect to its customers if it is granted a CCN. A hearing on the merits was conducted in December 1999, and the ALJ is expected to issue a recommendation in for consideration by the PUCT.

Hindusthan Development Corporation, Ltd. (Entergy Corporation)

In January 1999, Hindusthan Development Corporation (HDC) commenced an arbitration proceeding in India against Entergy Power Asia Ltd. (EPAL), an indirect, wholly owned subsidiary of Entergy Corporation. HDC alleges that EPAL did not fulfill its obligations under a Joint Development Agreement (JDA) to develop a 350 MW cogeneration plant to be built in Bina, India. HDC also alleges that EPAL wrongfully withdrew as lead developer. Entergy's management believes that HDC's allegations are without merit, and that each party to the JDA had an absolute right of withdrawal. HDC is seeking unspecified damages of \$1.1 billion. EPAL is vigorously defending itself in the arbitration proceeding.

Ice Storm Litigation (Entergy Corporation and Entergy Gulf States)

In January 1997, a group of Entergy Gulf States customers in Texas filed a lawsuit against Entergy Corporation, Entergy Gulf States, and other Entergy subsidiaries in state court in Jefferson County, Texas purportedly on behalf of all Entergy Gulf States customers in Texas who sustained outages in a January 1997 ice storm. The lawsuit alleges that Entergy failed to properly maintain its electrical distribution system and respond to the ice storm. The district court certified the class in April 1999. Entergy has appealed the class certification, and arguments on the appeal were heard in February 2000. Entergy believes that the lawsuit is without merit and is vigorously defending itself. A similar lawsuit was filed in Louisiana in 1997, in which class certification was denied.

Litigation Environment (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

The four states in which the domestic utility companies operate, in particular Louisiana, Mississippi, and Texas, have proven to be unusually litigious environments. Judges and juries in Louisiana, Mississippi, and Texas have demonstrated a willingness to grant large verdicts, including punitive damages, to plaintiffs in personal injury, property damage, and business tort cases. Entergy uses legal and appropriate means to contest litigation threatened or filed against it, but the litigation environment in these states poses a significant business risk.

EARNINGS RATIOS OF DOMESTIC UTILITY COMPANIES AND SYSTEM ENERGY

The domestic utility companies' and System Energy's ratios of earnings to fixed charges and ratios of earnings to combined fixed charges and preferred dividends pursuant to Item 503 of SEC Regulation S-K are as follows:

	Ratios of Earnings to Fixed Charges				
	Years Ended December 31,				
	1999	1998	1997	1996	1995
Entergy Arkansas	2.08	2.63	2.54	2.93	2.56
Entergy Gulf States	2.18	1.40	1.42	1.47	1.86
Entergy Louisiana	3.48	3.18	2.74	3.16	3.18
Entergy Mississippi	2.44	3.04	2.98	3.40	2.92
Entergy New Orleans	3.00	2.59	2.70	3.51	3.93
System Energy	1.90	2.52	2.31	2.21	2.07

Fixed	Ratios of Earnings to Combined				
	Charges and Preferred Dividends				
	Years Ended December 31,				
	1999	1998	1997	1996	1995
Entergy Arkansas	1.80	2.28	2.24	2.44	2.12
Entergy Gulf States(a)	1.86	1.20	1.23	1.19	1.54
Entergy Louisiana	3.09	2.75	2.36	2.64	2.60
Entergy Mississippi	2.18	2.73	2.69	2.95	2.51
Entergy New Orleans	2.74	2.36	2.44	3.22	3.56

(a) "Preferred Dividends" in the case of Entergy Gulf States also include dividends on preference stock.

BUSINESS SEGMENTS

Entergy Corporation

Entergy's business segments are discussed in Note 14 to the financial statements.

Entergy New Orleans

As of December 31, 1999, Entergy New Orleans operating revenues and customer data was as follows:

Gas	Electric Operating	Natural
	Revenue	Revenue
Residential	40%	53%
Commercial	37%	20%
Industrial	7%	10%
Governmental/Municipal	16%	17%
Number of Customers	185,000	146,000

Entergy Gulf States

For the year ended December 31, 1999, 98% of Entergy Gulf States' operating revenue was derived from the electric utility business. Of the remaining operating revenues, one percent was derived from the steam business and one percent from the natural gas business.

Financial Information Relating to Products and Services

Financial information relating to Entergy New Orleans' and Entergy Gulf States' products and services is presented in their respective financial statements.

PROPERTY

Generating Stations

Domestic Utility Companies and System Energy

The total capability of the generating stations owned and leased by the domestic utility companies and System Energy as of December 31, 1999, by company and by fuel type, is indicated below:

Owned and Leased Capability MW (1)

Company	Total	Fossil	Nuclear	Gas Turbine and Internal Combustion	
Hydro					
Entergy Arkansas	4,487 (2)	2,681	1,694	42	70
Entergy Gulf States	6,689 (2)	5,753	936	-	-
Entergy Louisiana	5,561 (2)	4,467	1,075	19	-
Entergy Mississippi	3,063 (2)	3,052	-	11	-
Entergy New Orleans	1,077	1,061	-	16	-
System Energy	1,084	-	1,084	-	-
Total	21,961	17,014	4,789	88	70

(1) "Owned and Leased Capability" is the dependable load carrying capability as demonstrated under actual operating conditions based on the primary fuel (assuming no curtailments) that each station was designed to utilize.

(2) Excludes the capacity of fossil-fueled generating stations placed on extended reserve shutdown as follows: Entergy Arkansas - 204 MW; Entergy Gulf States - 405 MW; Entergy Louisiana - 19 MW; and Entergy Mississippi - 73 MW. Generating stations that are not expected to be utilized in the near-term to meet load requirements are placed in extended reserve shutdown in order to minimize operating expenses.

Entergy's load and capacity projections are reviewed periodically to assess the need and timing for additional generating capacity and interconnections in light of the availability of power, the location of new loads, and maximum economy to Entergy. When the domestic utility companies require new generation resources based on load and capability projections and bulk power availability, they do not expect to construct new base load generating capacity. Instead, they expect to meet future capacity needs by, among other things, purchasing power in the wholesale power market and/or removing generating stations from extended reserve shutdown. Currently, plans are being implemented to reactivate several units that are in extended reserve shutdown. The units, once back on line, will provide an additional 417 MW of capacity to serve customers during peak demand.

Under the terms of the System Agreement, generating capacity and other power resources are shared among the domestic utility companies. The System Agreement provides, among other things, that parties having generating reserves greater than their load requirements (long companies) shall receive payments from those parties having deficiencies in generating reserves (short companies). Such payments are at amounts sufficient to cover certain of the long companies' costs, including operating expenses, fixed charges on debt, dividend requirements on preferred and preference stock, and a fair rate of return on common equity investment. Under the System Agreement, these charges are based on costs associated with the long companies' steam electric generating units fueled by oil or gas. In addition, for all energy exchanged among the domestic utility companies under the System Agreement, the short companies are required to pay the cost of fuel consumed in generating such energy plus a charge to cover other associated costs. FERC proceedings relating to the System Agreement are discussed more thoroughly in "RATE MATTERS AND REGULATION - Rate Matters - Wholesale Rate Matters - System Agreement," above.

Entergy's domestic utility business is subject to seasonal fluctuations, with the peak period occurring in the summer months. The 1999 (and

all-time) peak demand of 20,664 MW occurred on August 18, 1999.

Competitive Businesses

Entergy Power owns 665 MW of fossil-fueled capacity at the Ritchie 2 and Independence plants.

In July 1999, Entergy's non-utility nuclear power business purchased from Boston Edison the 670 MW Pilgrim Nuclear Station in Plymouth, Massachusetts. The sale included the Pilgrim generating plant and facilities (including nuclear fuel) and a 1,600-acre site on Cape Cod Bay.

Entergy's global power development business is constructing two combined-cycle gas turbine merchant power plants in the UK. Saltend, a 1,200 MW plant located in northeast England, will provide steam and electricity to BP Chemical's nearby complex with the remaining electricity to be sold into the UK national power pool. Originally scheduled for commercial operation in January 2000, Saltend's completion has been delayed due to construction problems at the site. The construction contractor has submitted a revised construction schedule after substantial analysis, and currently estimates a phased-in completion of the three-unit plant with the full plant in service by June 30, 2000. The second plant, an 800 MW facility known as Damhead Creek, is located in southeast England. It is expected to begin commercial operation in the fourth quarter of 2000.

Interconnections

The electric generating facilities of the domestic utility companies consist principally of steam-electric production facilities. These generating units are interconnected by a transmission system operating at various voltages up to 500 KV. With the exception of a small portion of Entergy Mississippi's capacity, operating facilities or interests therein generally are owned or leased by the domestic utility company serving the area in which the generating facilities are located. All of these generating facilities are centrally dispatched and operated.

The electric generating facilities of Entergy's non-utility nuclear power business consist of the Pilgrim nuclear production facility. The facility has firm total output power purchase agreements with Boston Edison and other utilities that expire at the end of 2004. The Pilgrim plant is dispatched as a part of the New England Power Pool (NEPP). The primary purpose of NEPP is to direct the operations of the major generating and transmission facilities in the New England region.

Entergy's domestic utility companies are interconnected with many neighboring utilities. In addition, the domestic utility companies are members of the Southeastern Electric Reliability Council (SERC). The primary purpose of SERC is to ensure the reliability and adequacy of the electric bulk power supply in the southeast region of the United States. SERC is a member of the North American Electric Reliability Council.

Gas Property

As of December 31, 1999, Entergy New Orleans distributed and transported natural gas for distribution solely within the limits of the City of New Orleans through a total of 1,453 miles of gas distribution mains and 41 miles of gas transmission pipelines.

As of December 31, 1999, the gas properties of Entergy Gulf States, which are located in and around Baton Rouge, Louisiana, were not material to Entergy Gulf States.

Titles

The generating stations and major transmission substations of Entergy's public utility companies are generally located on properties owned in fee simple. The greater portion of the transmission and distribution lines of the domestic utility companies have been constructed on property of private owners pursuant to easements or on public highways and streets pursuant to appropriate franchises. The rights of each company in the property on which its utility facilities are located are considered by such company to be adequate for use in the conduct of its business. Minor defects and irregularities customarily found in properties of like size and character may exist, but such defects and irregularities do not, in the opinion of management, materially impair the use of the properties affected thereby. The domestic utility companies generally have the right of eminent domain, whereby they may, if necessary, perfect or secure titles to, or easements or servitudes on, privately held lands used in or reasonably necessary for their utility operations.

Substantially all of the physical properties and assets owned by Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy are subject to the liens of mortgages securing the first mortgage bonds of such company. The Lewis Creek generating station is owned by GSG&T, Inc., a subsidiary of Entergy Gulf States, and is not subject to the lien of the Entergy Gulf States mortgage securing the first mortgage bonds of Entergy Gulf States, but is leased to and operated by Entergy Gulf States. All of the debt outstanding under the original first mortgages of Entergy Mississippi and Entergy New Orleans has been retired and the original first mortgages were cancelled in 1999 and 1997, respectively. As a result, the general and refunding mortgages of Entergy Mississippi and Entergy New Orleans now also constitute a first mortgage lien on substantially all of the respective physical properties and assets of the respective companies.

FUEL SUPPLY

The sources of generation and average fuel cost per KWH for the domestic utility companies and System Energy for the years 1997-1999 were:

Cents Year	Natural Gas		Fuel Oil		Nuclear Fuel		Coal	
	% of Gen	Cents per KWH	% of Gen	Cents Per KWH	% of Gen	Cents Per KWH	% of Gen	Cents Per KWH
1999 1.59	45	2.75	4	2.06	35	.54	16	
1998 1.67	40	2.50	6	2.37	40	.53	14	
1997 1.73	39	2.97	4	3.11	41	.54	16	

Actual 1999 and projected 2000 sources of generation for the domestic utility companies and System Energy are:

2000	Natural Gas		Fuel Oil		Nuclear		Coal	
	1999	2000	1999	2000	1999	2000	1999	2000
Entergy Arkansas (a) 52%	10%	7%	-	-	56%	40%	33%	-
Entergy Gulf States 14%	66%	68%	-	-	19%	18%	15%	-
Entergy Louisiana	64%	62%	1%	-	35%	38%	-	-
Entergy Mississippi 24%	44%	53%	30%	23%	-	-	26%	-
Entergy New Orleans	91%	100%	9%	-	-	-	-	-
System Energy	-	-	-	-	100% (b)	100% (b)	-	-
Total (a) 22%	45%	42%	4%	2%	35%	33%	16%	-

(a)Hydroelectric power provided an immaterial amount of generation at Entergy Arkansas in 1999 and is expected to provide an immaterial amount of generation in 2000.

(b)In addition to the nuclear capacity given above for the following companies, the Unit Power Sales Agreement allocates capacity and energy from System Energy's interest in Grand Gulf 1 as follows: Entergy Arkansas - 36%; Entergy Louisiana - 14%; Entergy Mississippi - 33%; and Entergy New Orleans - 17%.

Natural Gas

The domestic utility companies have long-term firm and short-term interruptible gas contracts. Long-term firm contracts comprise less than 26% of the domestic utility companies' total requirements but can be called upon, if necessary, to satisfy a significant percentage of the domestic utility companies' needs. Short-term contracts and spot-market purchases satisfy additional gas requirements. Entergy Gulf States has a transportation service agreement with a gas supplier that provides flexible natural gas service to certain generating stations by using such supplier's pipeline and gas storage facility.

Many factors, including wellhead deliverability, storage and pipeline capacity, and demand requirements of end users, influence the availability and price of natural gas supplies for power plants. Demand is tied to weather conditions as well as to the prices of other energy sources. Supplies of natural gas are expected to be adequate in 2000. However, pursuant to federal and state regulations, gas supplies to power plants may be interrupted during periods of shortage. To the extent natural gas supplies may be disrupted, the domestic utility companies will use alternate fuels, such as oil, or rely to a larger extent on coal and nuclear generation.

Coal

Entergy Arkansas has long-term contracts for low-sulfur Wyoming coal for White Bluff and Independence. These contracts, which expire in 2002 and 2011, respectively, provide for approximately 85% of Entergy Arkansas' expected annual coal requirements. Additional requirements are satisfied by spot market purchases. Entergy Gulf States has a contract for the supply of low-sulfur Wyoming coal for Nelson Unit 6, which should be sufficient to satisfy its fuel requirements for that unit through 2010 if all price reopeners are accepted. If both parties cannot agree upon a price, then the contract terminates. Effective April 1, 2000, Louisiana Generating LLC will assume Cajun's 58% ownership interest in the Big Cajun generating facilities and will operate the plant. The management of Louisiana Generating LLC has advised Entergy Gulf States that it has executed coal supply and transportation contracts that should provide an adequate supply of coal for the operation of Big Cajun 2, Unit 3 for the foreseeable future.

Entergy Arkansas has a long-term railroad transportation contract for the delivery of at least 90% of the coal requirements of both White Bluff and Independence. This contract will expire in the year 2014. However, Entergy Arkansas has filed a lawsuit against the railroad claiming breach of contract by the railroad and requesting termination of the contract (see discussion of lawsuit in "RATE MATTERS AND REGULATION - Regulation - Other Regulation and Litigation - Union Pacific Railroad" above).

Entergy Gulf States has a transportation requirements contract with a railroad to deliver coal to Nelson Unit 6 through December 31, 2004. This contract specifies a minimum annual tonnage amounting to approximately one-half of the plant's requirements and provides flexibility for shipping up to all of the plant's requirements.

Nuclear Fuel

The nuclear fuel cycle involves the following:

- o mining and milling of uranium ore to produce a concentrate;
- o conversion of the concentrate to uranium hexafluoride gas;
- o enrichment of the hexafluoride gas;
- o fabrication of nuclear fuel assemblies for use in fueling nuclear reactors; and
- o disposal of spent fuel.

System Fuels is responsible for contracts to acquire nuclear material to be used in fueling Entergy Arkansas', Entergy Louisiana's, and System Energy's nuclear units. System Fuels also maintains inventories of such materials during the various stages of processing. Each of these companies purchases enriched uranium hexafluoride from System Fuels, but contracts separately for the fabrication of its own nuclear fuel. The requirements for River Bend are pursuant to contracts made by Entergy Gulf States. The requirements for Pilgrim are pursuant to contracts made by Entergy's non-utility nuclear power business.

Based upon currently planned fuel cycles, Entergy's nuclear units currently have contracts and inventory that provide adequate materials and services. Existing contracts for uranium concentrate, conversion of the concentrate to uranium hexafluoride, and enrichment of the uranium hexafluoride will provide a significant percentage of these materials and services over the next several years. Additional materials and services required beyond the coverage of these contracts are expected to be available at a reasonable cost for the foreseeable future.

Current fabrication contracts will provide a significant percentage of these materials and services over the next several years. The Nuclear Waste Policy Act of 1982 provides for the disposal of spent nuclear fuel or high level waste by the DOE. There is a discussion of spent nuclear fuel disposal in Note 9 to the financial statements.

It will be necessary for Entergy to enter into additional arrangements to acquire nuclear fuel in the future. It is not possible to predict the ultimate cost of such arrangements.

Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy each have made arrangements to lease nuclear fuel and related equipment and services. The lessors finance the acquisition and ownership of nuclear fuel through credit agreements and the issuance of notes. These arrangements are subject to periodic renewal. There is a discussion of nuclear fuel leases in Note 10 to the financial statements.

Natural Gas Purchased for Resale

Entergy New Orleans has several suppliers of natural gas. Its system is interconnected with three interstate and three intrastate pipelines. Entergy New Orleans' primary suppliers currently are Columbia Energy Services, Inc. (CES), an interstate gas marketer, Bridgeline Gas Distributors, and Pontchartrain Natural Gas via Louisiana Gas Services. Entergy New Orleans has a "no-notice" service gas purchase contract with CES which guarantees Entergy New Orleans gas delivery at any point after the agreed gas volume has been met. The CES gas supply is transported to Entergy New Orleans pursuant to a transportation service agreement with Koch Gateway Pipeline Company (KGPC). This service is subject to FERC- approved rates. Entergy New Orleans has firm contracts with its two intrastate suppliers and also makes interruptible spot market purchases. In recent years, natural gas deliveries to Entergy New Orleans have been subject primarily to weather-related curtailments. However, Entergy New Orleans experienced no such curtailments in 1999.

As a result of the implementation of FERC-mandated interstate pipeline restructuring in 1993, curtailments of interstate gas supply could occur if Entergy New Orleans' suppliers failed to perform their obligations to deliver gas under their supply agreements. KGPC could curtail transportation capacity only in the event of pipeline system constraints. Based on the current supply of natural gas, and absent extreme weather-related curtailments, Entergy New Orleans does not anticipate any interruptions in natural gas deliveries to its customers.

Entergy Gulf States purchases natural gas for resale under an agreement with Mid Louisiana Gas Company. Mid Louisiana Gas Company is not allowed to discontinue providing gas to Entergy Gulf States without obtaining FERC approval.

Research

Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans are members of the Electric Power Research Institute (EPRI). EPRI conducts a broad range of research in major technical fields related to the electric utility industry. Entergy participates in various EPRI projects based on Entergy's needs and available resources. Entergy and its subsidiaries contributed approximately \$6 million in 1999, \$8 million in 1998, and \$9 million in 1997 to EPRI and other research programs.

Item 2. Properties

Information regarding the properties of the registrants is included in Item 1. "Business - PROPERTY," in this report.

Item 3. Legal Proceedings

Details of the registrants' material rate proceedings, environmental regulation and proceedings, and other regulatory proceedings and litigation that are pending or that terminated in the fourth quarter of 1999 are discussed in Item 1. "Business - RATE MATTERS AND REGULATION," in this report.

Item 4. Submission of Matters to a Vote of Security Holders

During the fourth quarter of 1999, no matters were submitted to a vote of the security holders of Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, or System Energy.

DIRECTORS AND EXECUTIVE OFFICERS OF ENTERGY CORPORATION

Directors

Information required by this item concerning directors of Entergy Corporation is set forth under the heading "Proposal 1--Election of Directors" contained in the Proxy Statement of Entergy Corporation, (the "Proxy Statement"), to be filed in connection with its Annual Meeting of Stockholders to be held May 12, 2000, ("Annual Meeting"), and is incorporated herein by reference. Information required by this item concerning officers and directors of the remaining registrants is reported in Part III of this document.

Executive Officers

Name	Age	Position	Period		
J. Wayne Leonard (a)	49	Chief Executive Officer and Director of Entergy Corporation	1999-Present		
		Director of Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy	1998-1999		
		President and Chief Operating Officer of Entergy Corporation	1998		
		Chief Operating Officer of Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans	1998		
		Vice Chairman of Entergy New Orleans	1998		
		President of Energy Commodities Strategic Business Unit	1996-1998		
		President of Cinergy Capital & Trading	1996-1998		
		Group Vice President and Chief Financial Officer of Cinergy Corporation	1994-1996		
		Jerry L. Maulden (a) (b)	63	Vice Chairman of Entergy Corporation	1995-1999
				Vice Chairman of Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans	1993-1999
Chief Operating Officer of Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans	1993-1998				
President and Chief Operating Officer of Entergy Corporation	1993-1995				
Director of Entergy Gulf States	1993-1999				
Director of Entergy Louisiana	1991-1999				
Director of Entergy New Orleans	1991-1998				
Director of Entergy Mississippi	1988-1999				
Director of System Energy	1987-1998				
Director of Entergy Arkansas	1979-1999				
Donald C. Hintz (a)	57	President of Entergy Corporation	1999-Present		
		Executive Vice President and Chief Nuclear Officer of Entergy Arkansas, Entergy Gulf States, and Entergy Louisiana	1998		
		Group President and Chief Nuclear Operating Officer of Entergy Corporation, Entergy Arkansas, Entergy Gulf States, and Entergy Louisiana	1997-1998		
		Executive Vice President and Chief Nuclear Officer of Entergy Corporation	1994-1997		
		Executive Vice President - Nuclear of Entergy Arkansas, Entergy Gulf States, and Entergy Louisiana	1994-1997		
		Chief Executive Officer and President of System Energy	1992-1998		
		Director of Entergy Gulf States	1993-Present		
		Director of Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and System Energy	1992-Present		
		Director of Entergy New Orleans	1999-Present		
		1992-1994			
Jerry D. Jackson (a)	55	Executive Vice President of Entergy Corporation	1999-Present		
		President and Chief Executive Officer of Entergy Louisiana	1999-Present		
		Chief Executive Officer of Entergy Louisiana	1999-Present		

(a) In addition, this officer is an executive officer and/or director of various other wholly owned subsidiaries of Entergy Corporation and its operating companies.

(b) Mr. Maulden retired effective December 31, 1999.

Each officer of Entergy Corporation is elected yearly by the Board of Directors.

PART II

Item 5. Market for Registrants' Common Equity and Related Stockholder Matters

Entergy Corporation

The shares of Entergy Corporation's common stock are listed on the New York Stock, Chicago Stock, and Pacific Exchanges.

The high and low prices of Entergy Corporation's common stock for each quarterly period in 1999 and 1998 were as follows:

	1999		1998	
	High	Low	High	Low
	(In Dollars)			
First 5/16	31 1/8	27 1/2	30 1/8	27
Second	33 1/8	27 3/4	29 5/8	23 1/4
Third 3/16	31 9/16	28 3/16	30 13/16	26
Fourth 1/16	30	23 7/8	32 7/16	28

Consecutive quarterly cash dividends on common stock were paid to stockholders of Entergy Corporation in 1999 and 1998. Quarterly dividends of 30 cents per share were paid in 1999. In 1998, dividends of 45 cents per share were paid in the first and second quarters, and dividends of 30 cents per share were paid in the third and fourth quarters.

As of February 29, 2000, there were 73,619 stockholders of record of Entergy Corporation.

Entergy Corporation's future ability to pay dividends is discussed in Note 8 to the financial statements. In addition to the restrictions described in Note 8, PUHCA provides that, without approval of the SEC, the unrestricted, undistributed retained earnings of any Entergy Corporation subsidiary are not available for distribution to Entergy Corporation's common stockholders until such earnings are made available to Entergy Corporation through the declaration of dividends by such subsidiaries.

Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy

There is no market for the common stock of Entergy Corporation's wholly owned subsidiaries. Cash dividends on common stock paid by the subsidiaries to Entergy Corporation during 1999 and 1998, were as follows:

	1999	1998
	(In Millions)	
Entergy Arkansas	\$ 82.7	\$ 92.6
Entergy Gulf States	\$107.0	\$109.4
Entergy Louisiana	\$197.0	\$138.5
Entergy Mississippi	\$ 34.1	\$ 66.0
Entergy New Orleans	\$ 26.5	\$ 9.7
System Energy	\$ 75.0	\$ 72.3
ETHC	\$ 10.0	-

Information with respect to restrictions that limit the ability of System Energy and the domestic utility companies to pay dividends is presented in Note 8 to the financial statements.

Item 6. Selected Financial Data

Refer to "SELECTED FINANCIAL DATA - FIVE-YEAR COMPARISON OF ENTERGY CORPORATION AND SUBSIDIARIES, ENTERGY ARKANSAS, ENTERGY GULF STATES, ENTERGY LOUISIANA, ENTERGY MISSISSIPPI, ENTERGY NEW ORLEANS, and SYSTEM ENERGY" which follow each company's financial statements in this report, for information with respect to operating statistics.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Refer to "MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS - LIQUIDITY AND CAPITAL RESOURCES," " - SIGNIFICANT FACTORS AND KNOWN TRENDS," and "- RESULTS OF OPERATIONS OF ENTERGY CORPORATION AND SUBSIDIARIES, ENTERGY ARKANSAS, ENTERGY GULF STATES, ENTERGY LOUISIANA, ENTERGY MISSISSIPPI, ENTERGY NEW ORLEANS, and SYSTEM ENERGY."

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Entergy Corporation and Subsidiaries. Refer to information under the heading "ENTERGY CORPORATION AND SUBSIDIARIES MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS - SIGNIFICANT FACTORS AND KNOWN TRENDS."

Item 8. Financial Statements and Supplementary Data.

INDEX TO FINANCIAL STATEMENTS

ENTERGY CORPORATION AND SUBSIDIARIES

REPORT OF MANAGEMENT

Management of Entergy Corporation and its subsidiaries has prepared and is responsible for the financial statements and related financial information included herein. The financial statements are based on generally accepted accounting principles in the United States. Financial information included elsewhere in this report is consistent with the financial statements.

To meet their responsibilities with respect to financial information, management maintains and enforces a system of internal accounting controls designed to provide reasonable assurance, on a cost-effective basis, as to the integrity, objectivity, and reliability of the financial records, and as to the protection of assets. This system includes communication through written policies and procedures, an employee Code of Entegrity, and an organizational structure that provides for appropriate division of responsibility and the training of personnel. This system is also tested by a comprehensive internal audit program.

The Audit Committee of our Board of Directors, composed solely of Directors who are not employees of our company, meets with the independent auditors, management, and internal accountants periodically to discuss internal accounting controls and auditing and financial reporting matters. The Audit Committee appoints the independent accountants, subject to ratification by the shareholders. The Committee reviews with the independent auditors the scope and results of the audit effort. The Committee also meets periodically with the independent auditors and the chief internal auditor without management, providing free access to the Committee.

Independent public accountants provide an objective assessment of the degree to which management meets its responsibility for fairness of financial reporting. They regularly evaluate the system of internal accounting controls and perform such tests and other procedures as they deem necessary to reach and express an opinion on the fairness of the financial statements.

Management believes that these policies and procedures provide reasonable assurance that its operations are carried out with a high standard of business conduct.

Cash Flow

Operations

Net cash flow from operations for Entergy, the domestic utility companies, and System Energy for the years ended December 31, 1999, 1998, and 1997 was:

		1999	1998	1997
		(In Millions)		
\$1,793	Entergy	\$1,307	\$1,753	
435	Entergy Arkansas	\$ 313	\$ 409	\$
484	Entergy Gulf States	\$ 345	\$ 448	\$
315	Entergy Louisiana	\$ 410	\$ 342	\$
156	Entergy Mississippi	\$ 142	\$ 125	\$
54	Entergy New Orleans	\$ 60	\$ 40	\$
286	System Energy	\$ 103	\$ 299	\$

Entergy's consolidated cash flow from operations decreased as compared to 1998 primarily due to less cash provided by competitive businesses. The decrease was also due to the completion of rate phase-in plans for some of the domestic utility companies during 1998.

In 1999, competitive businesses used \$9.3 million of operating cash flow from operations compared with \$151.7 million they contributed in 1998. This change was primarily due to the sales of London Electricity and CitiPower in December 1998. Both businesses contributed operating cash flow in 1998 but did not contribute at all in 1999. Offsetting the decrease in operating cash flow in 1999 are the sales of Efficient Solutions, Inc. in September 1998 and Entergy Security, Inc. in January 1999. These businesses used operating cash flow in 1998 and used none in 1999. Also, the power marketing and trading business used less operating cash flow in 1999 than in 1998.

In prior years, rate phase-in plans for some of the domestic utility companies contributed to cash flow from operations. But Entergy Gulf States' Louisiana retail phase-in plan for River Bend was completed in February 1998, Entergy Mississippi's phase-in plan for Grand Gulf 1 was completed in September 1998, and Entergy Arkansas' phase-in plan for Grand Gulf 1 was completed in November 1998. Therefore, these phase-in plans did not contribute to operating cash flow in 1999. Entergy New Orleans' phase-in plan for Grand Gulf 1 will be completed in 2001.

System Energy's operating cash flow decreased in 1999 primarily due to an increase in receivables from associated companies. The increase in receivables is primarily due to an increase in money pool borrowings for several Entergy affiliates as of December 31, 1999. The money pool is an inter-company borrowing arrangement designed to reduce the domestic utility companies' dependence on external short-term borrowings.

Investing Activities

Net cash provided by investing activities decreased in 1999 due to the sales in 1998 of London Electricity and CitiPower, and higher construction expenditures in 1999. The increased construction expenditures were primarily due to construction of the Saltend and Damhead Creek power plants by Entergy's global power development business, spending on customer service and reliability improvements by the domestic utility companies, and the return to service of generation plants at Entergy Arkansas, Entergy Louisiana, and Entergy New Orleans.

ENTERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

LIQUIDITY AND CAPITAL RESOURCES

The following items partially offset the overall decrease:

- o \$947.4 million of the proceeds from the sale of London Electricity in 1998 was used to purchase notes receivable which matured in August 1999. Upon maturity, \$321.4 million of the proceeds was reinvested in other temporary investments consisting of U.S. dollar denominated commercial paper and bank deposits; and
- o the sales of Entergy Security, Inc. in January 1999 and Entergy Power Edesur Holding, LTD and several telecommunications businesses in June 1999.

Financing Activities

Net cash used in financing activities decreased in 1999 primarily due to:

- o the retirement in 1998 of debt associated with the acquisition of London Electricity and CitiPower;
- o increased borrowings in 1999 under the credit facilities for the construction of the Saltend and Damhead Creek power plants by Entergy's global power development business; and
- o a reduction in dividend payments made by Entergy Corporation in 1999 compared to 1998.

Partially offsetting the overall decrease were the following uses:

- o the 1999 repayment of bank borrowings by Entergy Corporation and ETHC with a portion of the proceeds from the sale of Entergy Security, Inc.;
- o the redemption of preferred stock in 1999 at Entergy Arkansas, Entergy Gulf States, and Entergy Louisiana; and
- o the repurchase of Entergy Corporation common stock.

Capital Resources and Outlays

Entergy requires capital resources for:

- o construction/capital expenditures;
- o debt and preferred stock maturities;
- o capital investments;
- o funding of subsidiaries; and
- o dividend and interest payments.

For the years 2000 through 2004, Entergy plans to spend \$9.8 billion in a capital investment plan focused on improving service at the domestic utility companies and growing its global power development and nuclear operations businesses. The estimated allocation in the plan is \$4.2 billion to the domestic utility companies, \$3.9 billion to the global power development business, and \$1.7 billion to the nuclear operations business. Management provides more information on construction expenditures and long- term debt and preferred stock maturities in Notes 5, 6, 7, and 9 to the financial statements.

ENTERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

LIQUIDITY AND CAPITAL RESOURCES

Entergy's sources to meet the above requirements include:

- o internally generated funds;
- o cash on hand;
- o debt or preferred stock issuances;
- o bank financing under new or existing facilities;
- o short-term borrowings; and
- o sales of assets.

The capital investment plan discussed above is subject to modification based on the ongoing effects of transition to competition planning and the ability to recover the regulated utility costs in rates. Additionally, the plan is contingent upon Entergy's ability to access the capital necessary to finance the planned expenditures, and significant borrowings may be necessary for Entergy to implement these capital spending plans.

The domestic utility companies have plans to issue debt in 2000, the proceeds of which will be used for general corporate purposes, including capital expenditures, the retirement of short-term indebtedness, and, in the case of Entergy Gulf States, the mandatory redemption of preference stock. On February 15, 2000, Entergy Mississippi issued \$120 million of 7.75% Series First Mortgage Bonds due February 15, 2003. On March 9, 2000, Entergy Arkansas issued \$100 million of 7.72% Series First Mortgage Bonds due March 1, 2003. Proceeds of both issuances will be used, in part, for the retirement of short-term indebtedness that was incurred for working capital needs and capital expenditures.

On February 25, 2000, Entergy Corporation obtained a 364-day term loan in the amount of \$120 million, accruing interest at a rate of 6.7%. The proceeds are being used to make an open-account advance to Entergy Louisiana in order to repay maturing debt. Entergy Corporation will use any remaining proceeds for general corporate purposes and working capital needs.

During 1999, cash from operations, the sale of businesses, and cash on hand met substantially all investing and financing requirements of the domestic utility companies and System Energy. Entergy Corporation received \$532.3 million in dividend payments from its subsidiaries in 1999.

All debt and common and preferred stock issuances are subject to regulatory approval. Preferred stock and debt issuances are subject to issuance tests set forth in corporate charters, bond indentures, and other agreements. The domestic utility companies have sufficient capacity under these issuance tests to consummate the financings planned for 2000. The domestic utility companies may also establish special purpose trusts or limited partnerships as financing subsidiaries for the purpose of issuing quarterly income preferred securities.

Management expects the domestic utility companies and System Energy to continue to refinance or redeem higher cost debt and preferred stock prior to maturity, to the extent market conditions and interest and dividend rates are favorable.

Entergy's ability to invest in domestic and foreign generation businesses is subject to the SEC's regulations under PUHCA. These regulations limit to 50% of consolidated retained earnings the total amount that Entergy may invest in domestic and foreign generation businesses at the time an investment is made. Using the proceeds from the sales of London Electricity and CitiPower, Entergy's FUCO and EWG subsidiaries have the ability to make significant additional investments in domestic and foreign generation businesses without the need of further investment by Entergy Corporation.

ENTERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

LIQUIDITY AND CAPITAL RESOURCES

Entergy's global power development business is currently constructing two combined-cycle gas turbine merchant power plants in the UK. Saltend, a 1,200 MW plant in northeast England, will provide steam and electricity to BP Chemicals' nearby industrial complex, with the remaining electricity to be sold into the UK national power pool. Approximately 75 MW of the capacity will be sold to BP Chemicals under a PPA with a term of 15 years. Originally scheduled for commercial operation in January 2000, Saltend's completion has been delayed due to construction problems at the site. The construction contractor has submitted a revised construction schedule after substantial analysis, and currently estimates a phased-in completion of the three-unit plant with the full plant in service by June 30, 2000. The total cost of Saltend is currently estimated to be approximately \$824 million. The second plant, an 800 MW facility known as Damhead Creek, is located in southeast England. It is expected to begin commercial operation in the fourth quarter of 2000. Management estimates the total cost of Damhead Creek at approximately \$582 million. The financing of the construction of these two power plants is discussed in Note 7 to the financial statements.

In October 1999, Entergy's global power development business obtained an option to acquire twenty-four GE7FA advanced technology gas turbines, four steam turbines, and eight GE7EA advanced technology gas turbines. Delivery of the turbines is scheduled for 2001 through 2004. The total cost of the turbines, including long-term service agreements with GE Power Systems, is approximately \$2.0 billion. Management plans to use the turbines in future generation projects of the global power development business, and anticipates that the acquisition of the turbines will be funded by a combination of cash on hand, project financing, and other external financing. Payments scheduled for the acquisition of these turbines are \$273 million in 2000, \$415 million in 2001, and \$311 million in 2002.

On July 13, 1999, Entergy's non-utility nuclear power business bought the 670 MW Pilgrim Nuclear Station located in Plymouth, Massachusetts from Boston Edison. The acquisition included the plant, real estate, materials and supplies, and nuclear fuel for a purchase price of \$81 million. The purchase price was funded with a portion of the proceeds from the sales of non-regulated businesses. As part of the Pilgrim purchase, Boston Edison transferred a \$471 million decommissioning trust fund to Entergy's non-utility nuclear power business. After a favorable tax determination regarding the trust fund, Entergy returned \$43 million of the trust fund to Boston Edison. Based on cost estimates provided by an outside consultant, Entergy believes that Pilgrim's decommissioning fund will be adequate to cover future decommissioning costs for the Pilgrim plant without any additional deposits to the trust.

Entergy's nuclear business has an outstanding offer to NYPA for the acquisition of NYPA's 825 MW James A. FitzPatrick nuclear power plant located near Oswego, New York and NYPA's 980 MW Indian Point 3 nuclear power plant located in Westchester County, New York. On February 24, 2000, NYPA received a competing offer for the purchase of these plants. It is anticipated that the NYPA Board of Trustees will meet in mid to late March to consider the offers. If Entergy's offer is accepted, management expects to close the acquisition by the fourth quarter of 2000. Entergy would pay \$50 million in cash at the closing of the purchase, plus seven annual installments of approximately \$108 million each commencing one year from the date of the closing. Entergy projects that these installments will be paid from the proceeds of the sale of power from the plants and that Entergy will invest an additional \$100 million in the plants.

Entergy has also made investments in energy-related businesses, including power marketing and trading. Under PUHCA, the SEC imposes a limit equal to 15% of consolidated capitalization on the amount that may be invested in such businesses without specific SEC approval. Entergy's capacity to make additional investments at December 31, 1999 was approximately \$2.2 billion.

In 1999, Entergy Corporation paid \$291.5 million in cash dividends on its common stock. Declarations of dividends on Entergy's common stock are made at the discretion of the Board. The Board evaluates the level of Entergy common stock dividends based upon Entergy's earnings and financial strength. Dividend restrictions are discussed in Note 8 to the financial statements.

ENTERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

LIQUIDITY AND CAPITAL RESOURCES

In October 1998, the Board approved a plan for the repurchase of Entergy common stock through December 31, 2001 to fulfill the requirements of various compensation and benefit plans. The stock repurchase plan provides for purchases in the open market of up to 5 million shares, for an aggregate consideration of up to \$250 million. In July 1999, the Board approved the commitment of up to an additional \$750 million toward the repurchase of Entergy common stock through December 31, 2001. Shares are being purchased on a discretionary basis. See Note 5 to the financial statements for stock repurchases and issuances made during 1999.

Entergy's capital and refinancing requirements and available lines of credit are more thoroughly discussed in Notes 4, 5, 6, 7, 9, and 10 to the financial statements.

Entergy Corporation and System Energy

Pursuant to an agreement with certain creditors, Entergy Corporation has agreed to supply System Energy with sufficient capital to:

- o maintain System Energy's equity capital at a minimum of 35% of its total capitalization (excluding short-term debt);
- o permit the continued commercial operation of Grand Gulf 1;
- o pay in full all System Energy indebtedness for borrowed money when due; and
- o enable System Energy to make payments on specific System Energy debt, under supplements to the agreement assigning System Energy's rights in the agreement as security for the specific debt.

The Capital Funds Agreement and other Grand Gulf 1-related agreements are more thoroughly discussed in Note 9 to the financial statements.

ENTERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

SIGNIFICANT FACTORS AND KNOWN TRENDS

Domestic Transition to Competition

The electric utility industry for years has been preparing for the advent of competition in its business, particularly in generation operations. For most electric utilities, the transition from a regulated monopoly to a competitive business is challenging and complex. The new electric utility environment presents opportunities to compete for new customers and creates the risk of loss of existing customers. It presents opportunities to enter into new businesses and to restructure existing businesses.

For Entergy, it is a formidable undertaking, made uniquely difficult because the domestic utility companies operate in five retail regulatory jurisdictions and are subject to the System Agreement, which contemplates the integrated operation of Entergy's electric generation and transmission assets throughout the retail service territories. Entergy is striving to achieve consistent paths to competition in all five retail regulatory jurisdictions. Progress was made in 1999 when the Arkansas and Texas legislatures enacted laws to bring about electric utility competition. More progress is expected in 2000 as Entergy continues to work with regulatory and legislative officials in all jurisdictions in designing the rules surrounding a competitive electricity industry.

State Regulatory and Legislative Activity

Arkansas

In April 1999, the Arkansas legislature enacted a law providing for competition in the electric utility industry through retail open access on January 1, 2002. With retail open access, generation operations will become a competitive business, but transmission and distribution operations will continue to be regulated. The APSC may delay implementation of retail open access, but not beyond June 30, 2003. The provisions of the new law:

- o require utilities to separate (unbundle) their costs into generation, transmission, distribution, and customer service functions;
- o require operation of transmission facilities by an organization independent from the generation, distribution, and retail operations;
- o provide for the determination of and mitigation measures for generation market power, which could require generation asset divestitures;
- o allow for recovery of stranded and transition costs if the costs are approved by the APSC;
- o allow for the securitization of approved stranded costs; and
- o freeze residential and small business customer rates for three years by utilities that will recover stranded costs.

Entergy Arkansas filed separate generation, transmission, distribution, and customer service rates with the APSC in December 1999. The rates were based on the cost-of-service study that formed the basis of the rates included in the 1997 settlement agreement discussed in Note 2 to the financial statements. Hearings on the rate filing are scheduled for September 2000. If approved, these rates will become effective July 1, 2001. Entergy Arkansas also filed notice with the APSC in December 1999 of its intent to recover stranded costs. The APSC and various participants in the industry, including Entergy Arkansas, are currently in the process of implementing the legislation through various rulemaking and other proceedings.

ENERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

SIGNIFICANT FACTORS AND KNOWN TRENDS

Texas

In June 1999, the Texas legislature enacted a law providing for competition in the electric utility industry through retail open access. The law provides for retail open access by most electric utilities, including Entergy Gulf States, on January 1, 2002. With retail open access, generation and a new retail provider operation will be competitive businesses, but transmission and distribution operations will continue to be regulated. The new retail provider function will be the primary point of contact with the customers for most services beyond initiation of electric service and restoration of service following an outage. The provisions of the new law:

- o require a rate freeze through January 1, 2002 with frozen rates beyond that for residential and small commercial customers of incumbent utilities;
- o require utilities to separate (unbundle) their generation, transmission and distribution, and retail electric provider functions. Entergy Gulf States filed its plan in January 2000 with the PUCT to separate its functions. The plan included separate transmission and distribution companies;
- o require operation in a non-discriminatory manner of transmission and distribution facilities by an organization independent from the generation and retail operations by the time competition is implemented;
- o allow for recovery of stranded costs incurred in purchasing power and providing electric generation service if the costs are approved by the PUCT;
- o allow securitization of regulatory assets and stranded costs;
- o provide for the determination of and mitigation measures for generation market power; and
- o require utilities to file separated data and proposed transmission, distribution, and competition tariffs by April 1, 2000.

The market power measures include a limit on the ownership of generation assets by a power generation company within a specified region. The implications of this limit are uncertain for Entergy Gulf States and the Entergy system. However, it is possible that Entergy Gulf States could be required to divest some of its generation assets if Entergy Gulf States is found to have generation market power. The legislation also requires affected utilities to sell at auction, at least 60 days before January 1, 2002, entitlements to at least 15% of their installed generation capacity in Texas. The obligation to auction capacity entitlements continues for up to 60 months after January 1, 2002, or until 40% of customers in the jurisdiction have chosen an alternative supplier, whichever comes first.

The PUCT and various participants in the industry are currently in the process of implementing the legislation through various rulemaking and other proceedings. Two significant rules have been issued by the PUCT:

- o A code of conduct was approved by the PUCT in December 1999 to ensure that utilities do not allow affiliates to have a business advantage over competitors. The rules allow the continuation of shared services affiliates, such as Entergy Operations and Entergy Services. Entergy adopted an internal code of conduct to ensure compliance with the new rules.
- o Rules governing the separated costs filing have been issued. Included is a provision establishing, as an alternative to a market-based return on equity, a presumptively reasonable return on equity for a distribution utility at 200 basis points over its cost of debt. The provision allows the utility to provide evidence that the return should be higher. The rules also provide that the utility may propose a performance-based enhancement to the authorized rate of return, based on distribution and transmission company independence. Management does not agree with the arbitrary level set in the rule, and will seek a higher return in its separated costs filing. A workshop has been held by the PUCT to discuss opportunities to seek a performance-based return.

ENTERGY CORPORATION AND SUBSIDIARIES
MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS
SIGNIFICANT FACTORS AND KNOWN TRENDS

Louisiana

In March 1999, the LPSC deferred making a decision on whether competition in the electric industry is in the public interest. However, the LPSC staff, outside consultants, and counsel were directed to work together to analyze and resolve issues related to competition and then recommend a plan for its implementation to be considered by the LPSC by January 1, 2001. The LPSC staff, outside consultants, counsel, and industry members are working together to develop a plan to be submitted to the LPSC.

Mississippi

The MPSC issued a proposed transition plan in June 1998 and continues to hold periodic hearings and request informational filings regarding various potential effects of retail competition. In February 2000, legislation was introduced in Mississippi to establish a study committee to consider competition and provide a report to the legislature by December 1, 2000. Management does not expect deregulation in Mississippi to occur prior to 2003. See Note 2 to the financial statements for additional information.

New Orleans

In 1997, Entergy New Orleans filed an electric business restructuring plan with the Council. The Council has not established a procedural schedule to consider electricity restructuring or Entergy's plan. The Council is conducting hearings regarding retail gas competition. Entergy New Orleans has filed a plan in that proceeding outlining the conditions under which it could support retail gas competition. The outcome of this proceeding is uncertain.

Federal Regulatory and Legislative Activity

Open Access Transmission and Entergy's Transco Proposal

Competition within the wholesale electric energy market increased with the implementation of open access transmission. Open access allows any supplier to transmit electricity to its customers over transmission facilities owned by a different company. In 1996, FERC required all public utilities that it regulates to provide wholesale transmission access to third parties. FERC also required utilities to implement and maintain an open access same-time information system. Entergy's domestic utility companies made filings with FERC to comply with the FERC requirements.

FERC policy strongly favors independent control of transmission operations to enhance competitive wholesale power markets. In response to this policy, Entergy proposed the formation of a regional transmission company (Transco) and sought guidance from FERC on the proposal. The proposed Transco would be:

- o a separate, independent, incentive-driven transmission company regulated by FERC;
- o governed by an independent board of directors with no ties to Entergy or to any power market participant;
- o composed of the transmission system assets transferred to it by the domestic utility companies and other transmission owners;
- o operated and maintained by employees who would work exclusively for the Transco and would not be employed by Entergy or the domestic utility companies; and
- o passively owned with no voting rights by the domestic utility companies and other members who transfer assets.

ENTERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

SIGNIFICANT FACTORS AND KNOWN TRENDS

In July 1999, FERC responded to Entergy's proposal and stated that passive ownership of a Transco by a generating company or other market participant could meet FERC's current independence and governance requirements under certain circumstances. However, FERC raised concerns about the following issues regarding Entergy's proposal:

- o the selection process for the Transco's board of directors;
- o the Transco board's fiduciary obligations to the member companies;
- o the ability of the Transco to raise additional capital; and
- o restrictions on transactions between the Transco and the member companies.

Management expects to make additional filings during 2000 with federal, state, and local regulatory authorities addressing these and other issues and seeking necessary approvals for the formation of the Transco. If approved, the Transco could become operational in 2001.

In a rulemaking that will affect the Transco, FERC issued Order 2000 in December 1999. Order 2000 calls for owners and operators of transmission lines in the United States to join regional transmission organizations ("RTOs") on a voluntary basis. Order 2000 requires public utilities that own, operate, or control interstate transmission facilities to file by October 15, 2000 a proposal for how they intend to participate in an RTO or, alternatively, to describe the steps they have taken to do so or the reasons why it is not feasible to participate in an RTO. FERC's Order 2000 requires that RTOs be effective no later than December 15, 2001.

FERC is maintaining flexibility as to the structure of RTOs. For example, it appears that RTOs may be for-profit or not-for-profit and may be organized as joint ventures or legal entities of various types. However, RTOs will be required, among other things, to be independent market participants, to have sufficient regional scope to maintain reliability and efficiency, to be non-discriminatory in granting service, and to maintain operational control over their regional transmission systems.

The Transco, an independent, for-profit transmission company which has already been proposed to FERC by the domestic utility companies, is Entergy's preferred approach for complying with FERC's Order 2000. However, Entergy is also exploring other means for complying with Order 2000.

Deregulation legislation

Over the past several years, a number of bills have been introduced in the United States Congress to deregulate the generation function of the electric power industry. The bills generally have provisions that would give retail consumers the ability to choose their own electric service provider. Entergy Corporation has supported some deregulation legislation in Congress that would lead to an orderly transition to competition and would also repeal PUHCA and PURPA. Congressional sentiment appears to be against mandating retail competition by a certain date and in favor of clarifying state authority to order retail choice for consumers. Congress adjourned in 1999 without final action on a deregulation bill by a committee of the House or Senate.

Industrial and Commercial Customers

The domestic utility companies face the risk of losing customers due to competition. Some of their large industrial and commercial customers are exploring ways to reduce their energy costs. In particular, cogeneration is an option available to a significant portion of the domestic utility companies' industrial customer base. The domestic utility companies have responded by working with some industrial and commercial customers and negotiating electric service contracts that provide service at rates lower than would otherwise be charged. Despite these actions, Entergy Gulf States and Entergy Louisiana have lost revenue in recent years from large industrial customers who have completed cogeneration projects. However, material losses to cogeneration are not expected in 2000.

ENTERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

SIGNIFICANT FACTORS AND KNOWN TRENDS

State and Local Rate Regulation

The retail regulatory basis for setting rates for electric service is shifting in some jurisdictions from traditional, exclusively cost-of-service regulation to include performance-based elements. Performance-based formula rate plans are designed to reward increased efficiency and productivity, with utility shareholders and customers sharing in the benefits. Entergy Mississippi and Entergy Louisiana have implemented performance-based rate plans. These companies made the following filings resulting in rate reductions in 1999:

o Entergy Louisiana submitted its formula rate plan filing for the 1998 test year and implemented a rate reduction of approximately \$15.0 million, effective August 1, 1999. Entergy Louisiana's filing is subject to further review by the LPSC, which may result in an additional change in rates.

o Entergy Mississippi implemented a \$13.3 million rate reduction, effective May 1999, based on its formula rate plan filing for the 1998 test year. In June 1999, Entergy Mississippi revised its filing, resulting in an additional rate reduction of approximately \$1.5 million, effective July 1999.

All of the domestic utility companies have recently been ordered to grant base rate reductions and have refunded or credited customers for previous overcollections of rates. The continuing pattern of rate reductions reflects completion of rate phase-in plans, lower costs of service ordered by regulators, and lower authorized returns on common equity. The domestic utility companies' retail and wholesale rate matters and proceedings are discussed more thoroughly in Note 2 to the financial statements.

Other Electric Utility Trends

Utility mergers and joint ventures involving domestic and overseas companies are another continuing trend in the industry. In some areas of the country, utilities have either sold or are attempting to sell all or a substantial portion of their generation assets in order to focus their businesses on transmission and/or distribution services. Entergy, through its global power development and non-utility nuclear power businesses, intends to expand its generation business. While the global power development business is focused on building new power plants or modifying existing plants, the nuclear business expansion plan focuses on acquiring generation assets of other utilities.

In some areas of the United States, municipalities are exploring the possibility of establishing their own electric distribution systems, which would result in both residential and large industrial customers leaving some investor-owned utilities. If the efforts of a municipality are successful, the investor-owned utility may be unable to recover some costs incurred for the purpose of serving those customers.

Continued Application of SFAS 71 and Stranded Cost Exposure

The domestic utility companies' and System Energy's financial statements primarily reflect assets and costs based on existing cost-based ratemaking regulation in accordance with SFAS 71, "Accounting for the Effects of Certain Types of Regulation." Under traditional ratemaking practice, regulated electric utilities are granted exclusive geographic franchises to sell electricity. In return, the utilities are obligated to make investments and incur obligations to serve customers. Prudently incurred costs are recovered from customers along with a return on investment. Regulators may require utilities to defer collecting from customers some operating costs until a future date. These deferred costs are recorded as regulatory assets in the financial statements. In order to continue applying SFAS 71 to its financial statements, a utility's rates must be set by an independent regulator on a cost-of-service basis and the rates must be charged to and collected from customers.

ENTERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

SIGNIFICANT FACTORS AND KNOWN TRENDS

As the generation portion of the utility industry moves toward competition, it is likely that generation rates will no longer be set on a cost-of-service basis. When that occurs, the generation portion of the business could be required to discontinue application of SFAS 71. The result of discontinuing application of SFAS 71 could be the recording of asset impairments and the removal of regulatory assets and liabilities from the balance sheet. Management believes that definitive outcomes have not yet been determined regarding the transition to competition in each of Entergy's jurisdictions. Therefore, the regulated operations of the domestic utility companies and System Energy continue to apply SFAS 71. Arkansas and Texas have enacted retail open access laws as described above, but Entergy believes that significant issues remain to be addressed by Arkansas and Texas regulators, and the enacted laws do not provide sufficient detail to determine definitively the impact on Entergy Arkansas' and Entergy Gulf States' regulated operations.

As Entergy's domestic utility companies move toward competition, there are costs or commitments that have been incurred under a regulated pricing system that might be impaired or not recovered in a competitive market. These costs are referred to as stranded costs. The restructuring laws enacted in Arkansas and Texas provide an opportunity for the recovery of stranded costs following review and approval by the APSC or the PUCT. Nearly all of Entergy's exposure to stranded costs involves commitments that were approved by regulators. These exposures include the following:

- o the allowed cost of constructing its nuclear generating plants (the domestic utility companies' net investment in nuclear generation is provided in Note 1 to the financial statements);
- o long-term contracts to purchase power under the Unit Power Sales Agreement and associated with the Vidalia project, which may require paying above-market prices in a competitive environment (detail concerning these obligations is provided in Note 9 to the financial statements);
- o nuclear power plant decommissioning costs (detail concerning these costs is provided in Note 9 to the financial statements);
- o the construction cost of some fossil-fueled generating plants and related contracts to buy fuel that may be above-market price in a competitive market (detail concerning the domestic utility companies' net investment in generation other than nuclear, which is primarily fossil fueled, is provided in Note 1 to the financial statements, and detail concerning certain fuel contracts is provided in Note 9 to the financial statements); and
- o regulatory assets reflected in the balance sheets.

As of December 31, 1999, the amount of these potentially strandable costs for Entergy reflected in the financial statements is approximately \$1.8 billion at Entergy Arkansas, \$3.3 billion at Entergy Gulf States, \$2.5 billion at Entergy Louisiana, and \$0.3 billion at Entergy Mississippi. The estimated net present value of the obligations described above that are not reflected in the balance sheets for Entergy is approximately \$0.9 billion at Entergy Arkansas, \$0.4 billion at Entergy Gulf States, \$1.5 billion at Entergy Louisiana, \$0.6 billion at Entergy Mississippi, and \$0.3 billion at Entergy New Orleans. In the normal course of business, depreciation, amortization, and payments under the contractual obligations will continue to reduce these amounts. The actual amount of these costs and obligations that will be identified as stranded will be determined in regulatory proceedings. These proceedings will commence in Arkansas and Texas in 2000. The outcome of the proceedings cannot be predicted and will depend upon a number of variables, including the timing of stranded cost determination, the values attributable to certain strandable assets, assumptions concerning future market prices for electricity, and other factors. In addition, because transition legislation or regulation is not in place in Louisiana, Mississippi, or New Orleans, Entergy cannot predict how those jurisdictions will treat stranded costs and whether Entergy will be able to recover all or a part of the costs in those jurisdictions.

ENTERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

SIGNIFICANT FACTORS AND KNOWN TRENDS

Until the proceedings in Arkansas and Texas provide a greater level of certainty, it is anticipated that both Entergy Arkansas and Entergy Gulf States will continue to apply SFAS 71 to their regulated operations. SFAS 71 will continue to be applied in the Louisiana, Mississippi, and New Orleans jurisdictions pending legislative or regulatory developments relating to transition to competition. If SFAS 71 is no longer applied by the respective domestic utility companies and System Energy, and regulation or legislation does not allow for recovery of all or a portion of its stranded costs, there could be a material adverse impact on the respective domestic utility companies' and Entergy's financial statements. However, Entergy believes that the amount of costs that will be stranded without a means of recovery or mitigation for the domestic utility companies will be significantly less than the amounts referred to above. The application of SFAS 71 is discussed more thoroughly in Note 1 to the financial statements.

Year 2000 Issues

Entergy did not experience any significant problems in operations due to the rollover to year 2000, and there were no power outages caused by the rollover. Entergy will continue to monitor additional dates during 2000 that could be affected by the rollover to year 2000, but does not expect material problems based on its testing and the results of the January 1, 2000 rollover.

Management expects to spend approximately \$54 million for maintenance and modification costs related to year 2000 issues between 1998 and mid- 2000. Entergy has incurred approximately \$51 million of this total through December 1999. The maintenance or modification costs associated with year 2000 compliance are expensed as incurred, while the costs of new software are capitalized and amortized over the software's useful life. The costs are being funded through operating cash flows. In certain of Entergy's jurisdictions, the expenses have been deferred and will be recovered from ratepayers into 2002. Total capitalized costs for projects accelerated due to year 2000 were estimated to be \$20 million, which is the amount Entergy has incurred through December 1999.

Market Risks Disclosure

Entergy is exposed to the following market risks:

- o the commodity price risk associated with its power marketing and trading business;
- o the interest rate risk associated with certain of its variable rate credit facilities; and
- o the interest rate and equity price risk associated with its investments in decommissioning trust funds.

Entergy's power marketing and trading business enters into sales and purchases of electricity and natural gas for delivery in the future. Because the market prices of electricity and natural gas can be volatile, Entergy's power marketing and trading business is exposed to risk arising from differences between the fixed prices in its commitments and fluctuating market prices. To mitigate its exposure, Entergy's power marketing and trading business enters into electricity and natural gas futures, swaps, option contracts, and electricity forward agreements. The business also manages its exposure with policies limiting its exposure to market risk and daily monitoring of its potential financial exposure.

Entergy's power marketing and trading business uses a value-at-risk model (VAR) as one measure of market risk for the traded portfolio. VAR acts in conjunction with stress testing, position reporting, and profit and loss reporting in order to measure and control the risk inherent in the traded portfolio. The primary use of VAR is to provide a benchmark for market risk contained in the trading portfolio. VAR does not function as a comprehensive measure of all risks in a portfolio. Furthermore, VAR is only an appropriate risk measure for products traded in relatively liquid markets.

ENTERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

SIGNIFICANT FACTORS AND KNOWN TRENDS

Management's VAR methodology uses a variance/covariance approach to the measurement of market risk. The variance/covariance approach assumes that prices follow a "random-walk" process in which prices are lognormally distributed. This approach requires the following inputs:

- o a one-tailed test with a 95% confidence interval that measures the probability of loss;
- o a 20-day window for measuring volatility;
- o cross-product correlation matrix that measures the tendency of different basis products to move together; and
- o inter-temporal correlation matrix that measures the tendency of commodities with different delivery periods to move together.

Based on these assumptions, this business' VAR was approximately \$3.3 million as of December 31, 1999 and \$6.1 million as of December 31, 1998. During 1999, the average month-end VAR was \$3.7 million, with a high month- end VAR of \$7.1 million and a low month-end VAR of \$2.0 million.

Management's calculation of value-at-risk exposure represents an estimate of reasonably possible net losses that would be recognized on its portfolio of derivative financial instruments, assuming hypothetical movements in prices. It does not represent the maximum possible loss or an expected loss that may occur, because actual future gains and losses will differ from those estimated based upon actual fluctuations in market rates, operating exposures, and the timing thereof, and changes in the portfolio of derivative financial instruments during the year.

Entergy uses interest rate swaps to reduce the impact of interest rate changes on certain variable-rate credit facilities associated with its global power development business. Under the interest rate swap agreements, Entergy receives floating-rate interest payments and pays fixed- rate interest rate payments over the life of the agreements. The floating- rate interest that Entergy receives is approximately equal to the interest it must pay on the variable-rate credit facilities. Therefore, through the use of the swap agreements, Entergy effectively achieves a fixed rate of interest on the credit facilities. These swaps are discussed more thoroughly in Note 7 to the financial statements.

Entergy is exposed to fluctuations in equity prices and interest rates through its nuclear decommissioning trust funds. The NRC requires Entergy to maintain trusts to fund the costs of decommissioning ANO 1, ANO 2, River Bend, Waterford 3, Grand Gulf, and Pilgrim. The funds are invested primarily in equity securities; fixed-rate, fixed-income securities; and cash and cash equivalents. Management believes that its exposure to market fluctuations will not affect results of operations for the ANO, River Bend, Grand Gulf, and Waterford 3 trust funds because of the application of regulatory accounting principles. The Pilgrim trust fund holds approximately \$341 million of fixed-rate, fixed-income securities as of December 31, 1999. These securities have an average coupon rate of 6.67%, an average duration of 6.2 years, and an average maturity of 9.5 years. The Pilgrim trust fund also holds equity securities worth approximately \$81 million as of December 31, 1999. These securities are held in a fund which is designed to approximate the Standard & Poor's 500 Index. The decommissioning trust funds are discussed more thoroughly in Notes 1 and 9 to the financial statements.

Report of Independent Accountants

To the Board of Directors and Shareholders of Entergy Corporation:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, of retained earnings, comprehensive income and paid-in-capital and of cash flows present fairly, in all material respects, the financial position of Entergy Corporation and its subsidiaries at December 31, 1999 and 1998, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 1999 in conformity with accounting principles generally accepted in the United States. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for the opinion expressed above.

PricewaterhouseCoopers LLP

New Orleans, Louisiana

February 17, 2000

ENTERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Entergy's results of operations are discussed in two business categories, "Domestic Utility Companies and System Energy" and "Competitive Businesses." Domestic Utility Companies and System Energy is Entergy's predominant business segment, contributing 73% of Entergy's operating revenue and 93% of its net income in 1999. Competitive Businesses include the following segments detailed in Note 14 to the financial statements:

power marketing and trading, Entergy London, CitiPower, and all other. "All other" principally includes global power development, non-utility nuclear power, and the parent company, Entergy Corporation. The elimination of power marketing and trading mark-to-market profits on intercompany power transactions is also included in all other. Note 14 to the financial statements provides a detailed breakdown of financial information by business segment.

Net income for the year ended December 31, 1998 reflected the results of operations for Entergy London, CitiPower, Efficient Solutions, Inc., Entergy Security, Inc., Entergy Power Edesur Holdings, and several telecommunications businesses. These businesses were sold between late 1998 and mid-1999, and are therefore not included in some or all of 1999's results of operations.

Net Income

Entergy Corporation's consolidated net income in 1999 decreased compared to 1998 primarily due to:

- o the absence of London Electricity's results of operations in 1999 because of the sale of the business in December 1998; and
- o the gains on the sales of London Electricity and CitiPower reflected in 1998 results.

The decrease is partially offset by gains on the sales of other businesses in 1999, the loss on Efficient Solutions reflected in 1998 results, a 5% increase in domestic utility net income, and a reduction in the net loss for the power marketing and trading business.

Entergy Corporation's consolidated net income in 1998 increased compared to 1997 primarily due to the gains on the sales of London Electricity and CitiPower and the UK windfall profits tax reflected in 1997 results.

ENTERGY CORPORATION AND SUBSIDIARIES
MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS
RESULTS OF OPERATIONS

Domestic Utility Companies and System Energy

Revenues and Sales

The changes in electric operating revenues for Entergy's domestic utility companies and System Energy for 1999 and 1998 are as follows:

Description	Increase/(Decrease)	
	1999	1998
	(In Millions)	
Base revenues	\$81.2	
(\$290.3)		
Rate riders	(164.1)	
(108.6)		
Fuel cost recovery	188.7	
(80.6)		
Sales volume/weather	5.3	187.3
Other revenue (including unbilled)	74.3	
(191.0)		
Sales for resale	(50.3)	80.7
	-----	-----
Total	\$135.1	
(\$402.5)		
	=====	=====

Base revenues

In 1999, base revenues increased \$81.2 million primarily due to:

- o a \$93.6 million reversal in June 1999 of regulatory reserves associated with the accelerated amortization of accounting order deferrals in conjunction with the settlement agreement in Entergy Gulf States' Texas November 1996 and 1998 rate filings. The settlement agreement was approved by the PUCT in June 1999. The net income effect of this reversal is largely offset by the amortization of rate deferrals discussed below; and
- o a reduction in the amount of reserves recorded in 1999 at Entergy Gulf States compared to 1998 for the anticipated effects of rate proceedings in Texas.

Partially offsetting these increases were:

- o annual base rate reductions implemented for Entergy Gulf States' Louisiana and Texas retail customers in 1998 and 1999 and Entergy Mississippi customers in 1999; and
- o reserves recorded by Entergy Gulf States' Louisiana jurisdiction, Entergy Louisiana, and Entergy New Orleans in 1999 for potential rate actions or rate refunds.

In 1998, base revenues decreased primarily due to base rate reductions, reserves for refunds, and other regulatory adjustments totaling \$216.5 million (\$129.0 million net of tax) at Entergy Gulf States.

These rate reductions and other pending rate proceedings are discussed in Note 2 to the financial statements.

ENTERGY CORPORATION AND SUBSIDIARIES
MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Rate rider revenues

Rate rider revenues do not affect net income because specific incurred expenses offset them.

In 1999, rate rider revenues decreased \$164.1 million due to a revised Grand Gulf rider implemented at Entergy Arkansas and Entergy Mississippi. The revised rider eliminated revenues attributable to the Grand Gulf phase-in plans, which were completed in 1998, and implemented the Grand Gulf Accelerated Recovery Tariff (GGART), allowing accelerated recovery and payment of a portion of the two companies' Grand Gulf purchased power obligations. The tariffs became effective in January 1999 and October 1998, respectively.

In 1998, rate rider revenues decreased \$108.6 million due to the decline in the Grand Gulf 1 cost recovery rate rider revenues at Entergy Arkansas, reflecting scheduled reductions in the phase-in plan that was completed in November 1998. Rate rider revenues also decreased due to reductions required by the settlement agreement between the APSC and Entergy Arkansas. The settlement agreement with the APSC is discussed in Note 2 to the financial statements.

Fuel cost recovery revenues

Fuel cost recovery revenues do not affect net income because they are an increase to revenues that are offset by specific incurred fuel costs.

In 1999, fuel cost recovery revenues increased \$188.7 million primarily due to:

- o an increased fuel factor and a new fuel surcharge implemented in Entergy Gulf States' Texas jurisdiction in 1999;
- o recovery of higher-priced fuel and purchased power costs at Entergy Louisiana due to nuclear outages at Waterford 3 in 1999; and
- o an increase in the energy cost recovery rate effective April 1999 and the completion of a customer refund obligation in 1998 which lowered 1998 fuel cost recovery at Entergy Arkansas.

In 1998, fuel cost recovery revenues decreased \$80.6 million primarily due to lower pricing at Entergy Louisiana resulting from a change in generation mix.

Sales volume

In 1998, sales volume increased \$187.3 million as a result of significantly warmer weather at all of the domestic utility companies.

Other revenue

In 1999, other revenue increased \$74.3 million primarily due to a change in estimated unbilled revenues for the domestic utility companies. The changed estimate more closely aligns the fuel component of unbilled revenues with regulatory treatment. This change is expected to affect comparisons to applicable prior period amounts through the first quarter of 2000. Comparative impacts are also affected by seasonal variations in demand.

ENTERGY CORPORATION AND SUBSIDIARIES
MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

In 1998, other revenue decreased \$191 million primarily due to the revenue portion of the gain recognized in December 1997 on the settlement by Entergy Gulf States of litigation with Cajun, the effect of which was partially offset by regulatory reserves recorded at Entergy Gulf States in 1997. Other revenue also decreased due to unfavorable pricing of unbilled revenues resulting from rate reductions at Entergy Gulf States.

Sales for resale

In 1999, sales for resale decreased \$50.3 million primarily due to the loss of certain municipal and co-op customer contracts at Entergy Arkansas.

In 1998, sales for resale increased due to increased sales to non-associated companies, particularly at Entergy Arkansas, and increased demand at Entergy Gulf States.

Expenses

Fuel and purchased power expenses

In 1999, fuel and purchased power expenses increased due to:

- o higher gas and purchased power prices as well as increased gas usage at Entergy Arkansas and Entergy Louisiana;
- o higher fuel recovery due to an increased fuel factor and fuel surcharge in Entergy Gulf States' Texas jurisdiction; and
- o an increased energy cost recovery rate in 1999 and the completion of a customer refund obligation in 1998 which lowered 1998 fuel cost recovery at Entergy Arkansas.

These increases were partially offset by decreased fuel expenses at Entergy Mississippi as a result of lower total generation.

Other operation and maintenance expenses

In 1999, other operation and maintenance expenses increased primarily due to increased customer service and reliability improvements throughout the system, increases in storm damage accruals and loss reserves across the system, and increases in maintenance work at Entergy Arkansas and Entergy Mississippi.

In 1998, other operation and maintenance expenses increased primarily due to the 1997 settlement of litigation with Cajun, which resulted in the transfer of the 30% interest in River Bend owned by Cajun to Entergy Gulf States. Entergy Gulf States' operating expenses in 1998 included 100% of River Bend's operation and maintenance expenses, as compared to 70% of such expenses for the year ended December 31, 1997.

This increase was partially offset by decreased non-refueling outage related contract work and maintenance performed at Entergy Louisiana and lower contract labor, materials and supplies expense, and insurance and materials and supplies refunds at System Energy.

ENTERGY CORPORATION AND SUBSIDIARIES
MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Depreciation and amortization expenses

In 1999, depreciation and amortization expenses decreased due to:

- o lower depreciation at Entergy Gulf States as a result of the write-down of the River Bend abeyed plant as required by the Texas rate settlement and a review of plant in-service dates; and
- o reduction in principal payments associated with the sale and leaseback in 1989 of a portion of Grand Gulf 1 at System Energy.

Other regulatory charges

In 1999, other regulatory charges decreased due to:

- o lower accruals for transition costs in 1999 at Entergy Arkansas;
- o a change in the amortization period for deferred River Bend finance charges in the Entergy Gulf States' Texas retail jurisdiction; and
- o deferral of Year 2000 costs at Entergy Gulf States and Entergy Louisiana in accordance with an LPSC order.

These decreases were partially offset by increased charges at System Energy as a result of the implementation of the GGART at Entergy Arkansas and Entergy Mississippi.

In 1998, other regulatory charges increased primarily due to:

- o additional accruals of \$74.0 million (\$45.0 million net of tax) for the transition cost account at Entergy Arkansas; and
- o the decrease in the under-recovery of Grand Gulf 1-related costs at Entergy Mississippi.

The increase was partially offset by the \$15.3 million (\$9.3 million net of tax) reversal of 1997 reserves at Entergy Arkansas for previously deferred radioactive waste facility costs in December 1998.

Entergy Arkansas' settlement agreement with the APSC established the transition cost account to collect earnings in excess of an allowed return on equity for offset against potential stranded costs when retail access is implemented.

Amortization of rate deferrals

In 1999, amortization of rate deferrals decreased due to the completion of Grand Gulf 1 rate phase-in plans at Entergy Arkansas and Entergy Mississippi in 1998. These decreases were partially offset by increased amortization at Entergy Gulf States due to a reduction of accounting order deferrals in June 1999 in accordance with the Texas settlement agreement.

In 1998, amortization of rate deferrals decreased because of the completion of rate phase-in plans at Entergy Arkansas, Entergy Gulf States (Louisiana jurisdiction), and Entergy Mississippi.

ENTERGY CORPORATION AND SUBSIDIARIES
MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS
RESULTS OF OPERATIONS

Other

Other income

In 1999, other income increased primarily due to an increase in AFUDC resulting from an adjustment recorded in the third quarter of 1999 on certain capital projects.

In 1998, other income increased primarily due to lower reserves for regulatory adjustments recorded in 1998 than in 1997 at Entergy Gulf States.

This increase was partially offset by interest income related to the settlement by Entergy Gulf States of litigation with Cajun recorded in December 1997.

Interest charges

In 1999, interest on long-term debt decreased due to retirement and refinancing of long-term debt at the domestic utility companies and System Energy.

Other interest increased in 1999 primarily due to interest on the potential refund of System Energy's proposed rate increase.

In 1998, interest charges decreased due to the retirement of certain long-term debt at the domestic utility companies and System Energy.

Competitive Businesses

Revenues and Sales

Competitive business revenues decreased approximately \$2.8 billion for the year ended December 31, 1999. The decrease was primarily due to the sales of Entergy London and CitiPower in 1998 and decreased sales revenues in the power marketing and trading business. The decreased sales revenues in the power marketing and trading business resulted from decreased electricity trading volume in the peak summer months in 1999 compared to 1998. However, the impact on net income from these decreased revenues was more than offset by decreased fuel and purchased power expenses as discussed below, resulting in a reduction in operating loss for this business for the year ended December 31, 1999. The decrease in revenues was partially offset by an increase for the non-utility nuclear business resulting primarily from acquisition and operation of the Pilgrim plant in 1999.

Competitive business revenues increased \$2.4 billion in 1998 primarily due to increased sales volume in the power marketing and trading business. This business' volume increased dramatically in 1998 due to increased marketing efforts and significantly warmer weather. The impact on net income from these revenues is offset by increased power purchased for resale as discussed below.

ENTERGY CORPORATION AND SUBSIDIARIES
MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS
RESULTS OF OPERATIONS

Expenses

Fuel and purchased power expenses

Fuel and purchased power expenses decreased for the year ended December 31, 1999, primarily due to:

- o the business sales previously discussed;
- o decreased electricity trading volume in the power marketing and trading business; and
- o a \$44 million (\$27 million net of tax) counterparty default incurred in 1998 by the power marketing and trading business.

These decreases are partially offset by increased gas trading volume in the power marketing and trading business.

In 1998, purchased power expenses increased primarily due to significantly increased power trading by the power marketing and trading business. The power marketing and trading business also incurred a \$44 million (\$27 million net of tax) counterparty default in 1998.

Other operation and maintenance expenses

Other operation and maintenance expenses decreased for the year ended December 31, 1999 primarily due to the business sales previously discussed. The decrease was partially offset by:

- o an increase for the power marketing and trading business resulting primarily from increased risk management and back-office support; and
- o an increase for the non-utility nuclear power business resulting primarily from acquisition and operation of the Pilgrim plant in 1999.

In 1998, other operation and maintenance expenses increased primarily due to:

- o acquisition of security companies whose operation and maintenance expenses were included in 1998 but not in 1997; and
- o higher transmission expenses for the power marketing and trading business due to significantly increased power trading sales volume.

Other

Other income

Other income decreased for the year ended December 31, 1999, due primarily to the gains recorded in 1998 on the sales of Entergy London of \$327.3 million (\$246.8 million net of tax) and CitiPower of \$29.8 million (\$19.3 million net of tax). The decrease was partially offset by the following:

- o interest income of \$58.5 million in 1999 on the proceeds of the sales of Entergy London and CitiPower;
- o a \$26.7 million (\$17 million net of tax) gain on the sale of Entergy Power Edesur Holdings in June 1999;
- o a \$12.9 million (\$8.0 million net of tax) gain on the sale of Entergy Hyperion Telecommunications in June 1999;

ENTERGY CORPORATION AND SUBSIDIARIES

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

- o a \$22.0 million (\$6.4 million net of tax) gain on the sale of Entergy Security, Inc. in January 1999, including a true-up recognized in December 1999;
- o a \$7.6 million (\$4.9 million net of tax) favorable adjustment to the final sale price of CitiPower in January 1999;
- o a \$68.6 million (\$35.9 million net of tax) loss on the sale of Efficient Solutions, Inc. (formerly Entergy Integrated Solutions, Inc.) in September 1998;
- o \$32.8 million (\$21.3 million net of tax) of write-downs of Entergy's investments in two Asian projects in 1998; and
- o favorable experience on warranty reserves for the businesses sold during 1998.

In 1998, other income increased primarily due to the gains recorded on the sales of Entergy London of \$327.3 million (\$246.8 million net of tax) and CitiPower of \$29.8 million (\$19.3 million net of tax).

This increase in 1998 was partially offset by:

- o the \$68.6 million (\$35.9 million net of tax) loss on the sale of Efficient Solutions, Inc. in September 1998; and
- o \$32.8 million (\$21.3 million net of tax) of write-downs of Entergy's investments in electric generation projects in Asia, one of which was sold.

Income taxes

The effective income tax rates for 1999, 1998, and 1997 were 37.5%, 25.3%, and 61.0%, respectively. The effective income tax rate increased in 1999 primarily due to the items discussed below that occurred in 1998. The increase was partially offset by the recording of deferred tax benefits in 1999 related to expected utilization of foreign tax credits.

The effective income tax rate decreased in 1998 principally due to:

- o the UK windfall profits tax of \$234.1 million at Entergy London recognized in 1997;
- o the tax effects of the settlement by Entergy Gulf States of litigation with Cajun in 1997;
- o recognition of \$44 million of deferred tax benefits in 1998 related to expected utilization of Entergy's capital loss carryforwards; and
- o a \$31.7 million reduction in taxes because of reductions in the UK corporation tax rate from 31% to 30% in the third quarter of 1998.

These decreases were partially offset by a reduction in the UK corporation tax rate from 33% to 31% in 1997, which lowered taxes in 1997 by \$64.7 million.

ENTERGY CORPORATION AND SUBSIDIARIES
CONSOLIDATED STATEMENTS OF INCOME

	For the Years Ended December 31,

(1)1998 includes the effect of a reserve for rate refund at Entergy Gulf States.

Report of Independent Accountants

To the Board of Directors and Shareholders of Entergy Arkansas, Inc.:

In our opinion, the accompanying balance sheets and the related statements of income, of retained earnings and of cash flows present fairly, in all material respects, the financial position of Entergy Arkansas, Inc. at December 31, 1999 and 1998, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 1999 in conformity with accounting principles generally accepted in the United States. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for the opinion expressed above.

PricewaterhouseCoopers LLP

New Orleans, Louisiana

February 17, 2000

ENTERGY ARKANSAS, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Net Income

Net income decreased in 1999 primarily due to decreased electric operating revenues and increased operation and maintenance expenses, partially offset by lower regulatory charges.

Net income decreased in 1998 primarily due to decreased electric operating revenues which were partially offset by lower operation and maintenance expenses and lower interest charges.

Revenues and Sales

The changes in electric operating revenues for the twelve months ended December 31, 1999 and 1998 are as follows:

Increase/(Decrease) Description	1999	1998
	(In Millions)	
Base revenues	\$4.5	(\$7.0)
Rate riders	(68.2)	(106.0)
Fuel cost recovery	36.4	(21.8)
Sales volume/weather	3.8	55.8
Other revenue (including unbilled)	(25.2)	11.4
Sales for resale	(18.1)	(39.4)
	-----	-----
Total	(\$66.8)	(\$107.0)
	=====	=====

Rate riders

Rate rider revenues have no material effect on net income because specific incurred expenses offset them.

In 1999, rate rider revenues decreased as a result of a revised Grand Gulf rider, which includes the completion of the Grand Gulf 1 phase-in plan in November 1998, partially offset by the Grand Gulf Accelerated Recovery Tariff (GGART). The GGART is designed to allow Entergy Arkansas to pay down a portion of its Grand Gulf purchased power obligation in advance of the implementation of retail access in Arkansas. The rider and GGART became effective with the first billing cycle in January 1999. The GGART is discussed further in Note 2 to the financial statements.

In 1998, rate rider revenues decreased primarily due to a decline in the Grand Gulf 1 cost recovery rate rider revenues. This decline reflects scheduled reductions in the phase-in plan, which was completed in November 1998, and reductions required by the settlement agreement with the APSC. This agreement is discussed in more detail in Note 2 to the financial statements.

Fuel cost recovery

Fuel cost recovery revenues do not affect net income because they are an increase to revenues that are offset by specific incurred fuel costs.

Fuel cost recovery revenues increased in 1999 due to an increase in the energy cost recovery factor, effective in April 1999, and the completion of a customer refund obligation in 1998, which lowered 1998 fuel cost recovery.

ENTERGY ARKANSAS, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

In 1998, fuel cost recovery revenues decreased due to unfavorable pricing resulting from a change to a fixed fuel factor in January 1998, partially offset by an increase in generation.

Other revenue

In 1999, other revenue decreased primarily as a result of a change in estimated unbilled revenues and, to a lesser extent, less favorable weather for the unbilled period of 1999. The changed estimate more closely aligns the fuel component of unbilled revenue with its regulatory treatment. The change in estimate is expected to affect comparisons of revenue applicable to prior period amounts through the first quarter of 2000. Comparative impacts are also affected by seasonal impacts on demand.

In 1998, other revenue, primarily unbilled, increased as a result of significantly warmer weather as compared to 1997.

Sales for resale

In 1999, sales for resale decreased due to the loss of certain municipal and co-op customer contracts.

In 1998, sales for resale decreased primarily due to a decrease in sales to associated companies. The decrease resulted from reduced generation due to outages at both ANO1 and ANO2 and restricted generation due to disruption in coal deliveries during the second quarter of 1998. This decrease was partially offset by an increase in sales revenue from non-associated companies as a result of short-term contracts with certain wholesale customers.

Expenses

Fuel and purchased power expenses

In 1999, fuel expenses increased primarily due to:

- o higher-priced gas generation as a result of refueling outages at ANO1 and ANO2, a mid-cycle maintenance outage at ANO2, limited coal capability at White Bluff during parts of the year, and displacement of higher priced purchased power;
- o increased purchased power costs due to higher market prices in July and August 1999; and
- o an increase in the energy cost recovery rate in April 1999 and the completion of a customer refund obligation in 1998 which lowered 1998 fuel cost recovery.

The increase in the energy cost recovery rate allows Entergy Arkansas to recover previously under-recovered fuel expenses.

In 1998, fuel expenses decreased primarily due to the impact of the under-recovered deferred fuel cost in excess of the fixed fuel factor implemented in January 1998, billed to retail customers.

Other operation and maintenance

Other operation and maintenance expenses increased for 1999 primarily due to increased customer service costs related to tree trimming around power lines, increased employee pension and benefits costs, and increased plant maintenance costs.

ENTERGY ARKANSAS, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Other regulatory charges

In 1999, other regulatory charges decreased primarily as a result of lower accruals for transition costs in 1999, partially offset by the 1998 reversal of the 1997 reserve recorded for the low-level radioactive waste facility.

In 1998, other regulatory charges increased as a result of additional accruals for the transition cost account, partially offset by a small over-recovery of Grand Gulf 1 related costs and the reversal of the 1997 reserve for previously deferred radioactive waste facility costs.

The transition cost account is discussed in more detail in Note 2 to the financial statements.

Amortization of rate deferrals

In 1999, amortization of rate deferrals decreased due to the November 1998 completion of the Grand Gulf 1 rate phase-in plan. These phase-ins had no material effect on net income.

In 1998, the amortization of Grand Gulf 1 rate deferrals decreased due to a decrease in the amortization prescribed in the Grand Gulf 1 rate phase-in plan, which was completed in November 1998.

Other

Other income

Other income decreased in 1999 due to reduced miscellaneous non-operating income, reduced other interest income, and the completion in 1998 of the amortization of Grand Gulf 1 carrying charges, which was partially offset by accruals for equity funds used during construction. Other interest income includes income from intercompany loans. The allowance for equity funds used during construction increased due to capital charges on projects in 1999.

Other income decreased in 1998 due to reduced Grand Gulf 1 carrying charges as a result of a decline in the deferral balance, which does not impact net income.

Interest charges

Interest charges decreased in 1999 due to the retirement of certain long-term debt and decreased borrowings for funds used during construction. These decreases were partially offset by an adjustment for interest expense on an income tax settlement from prior years.

Interest charges decreased in 1998 due to the retirement of certain long-term debt.

Income taxes

The effective income tax rates for 1999, 1998, and 1997 were 43.8 %, 39.1% and 31.6%, respectively.

The effective income tax rate increased in 1999 primarily is due to accelerated tax depreciation deductions, for which deferred taxes have not been normalized, reflecting a shorter tax life on certain assets.

The effective income tax rate increased in 1998 primarily due to the reversal of previously recorded AFUDC amounts included in depreciation.

Report of Independent Accountants

To the Board of Directors and Shareholders of Entergy Gulf States, Inc.:

In our opinion, the accompanying balance sheets and the related statements of income, of retained earnings and of cash flows present fairly, in all material respects, the financial position of Entergy Gulf States, Inc. at December 31, 1999 and 1998, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 1999 in conformity with accounting principles generally accepted in the United States. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for the opinion expressed above.

PricewaterhouseCoopers LLP

New Orleans, Louisiana

February 17, 2000

ENTERGY GULF STATES, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Net Income

Net income increased in 1999 primarily due to increased unbilled revenues, decreased provisions for rate refunds in 1999, decreased depreciation and amortization expenses, and decreased interest expense, partially offset by increased operation and maintenance expenses.

Net income in 1998 would have increased approximately 19% compared to 1997, excluding the following net-of-tax items: rate reserves of \$129.0 million recorded in 1998; rate reserves of \$227.0 million recorded in 1997; the write-off of radioactive waste facilities of \$7.4 million recorded in 1997; and the 1997 recording of \$146.6 million to income relating to the settlement of litigation with Cajun. The increase in 1998, excluding these items, was due to decreased operating expenses, partially offset by increased income taxes.

Revenues and Sales

Electric operating revenues

The changes in electric operating revenues for the twelve months ended December 31, 1999 and 1998 are as follows:

Increase/(Decrease) Description	1999 (In Millions)	1998
Base revenues	\$146.4	(\$228.3)
Fuel cost recovery	104.9	1.6
Sales volume/weather	1.0	61.2
Other revenue (including unbilled)	31.3	(171.5)
Sales for resale	21.2	53.1
	-----	-----
Total	\$304.8	(\$283.9)
	=====	=====

Base revenues

In 1999, base revenues increased due to:

- o a \$93.6 million reversal in June 1999 of regulatory reserves associated with the accelerated amortization of accounting order deferrals in conjunction with the settlement agreement in Entergy Gulf States' Texas November 1996 and 1998 rate filings. The settlement agreement was approved by the PUCT in June 1999. The net income effect of this reversal is largely offset by the amortization of rate deferrals discussed below; and
- o a reduction in the amount of reserves recorded in 1999 compared to 1998 for the anticipated effects of rate proceedings in Texas.

Partially offsetting these increases were:

- o annual base rate reductions of \$87 million and \$18 million that were implemented for Louisiana retail customers in February and August 1998, respectively;
- o annual base rate reductions of \$69 million and \$4.2 million that were implemented for Texas retail customers in December 1998 and March 1999, respectively; and
- o reserves recorded in the Louisiana jurisdiction in 1999 for the estimated outcomes of annual earnings reviews.

ENTERGY GULF STATES, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

In 1998, base revenues decreased due to base rate reductions and reserves for refunds to Louisiana and Texas retail customers totaling \$216.5 million (\$129.0 million net of tax).

The LPSC and PUCT rate issues are discussed in Note 2 to the financial statements.

Fuel cost recovery

Fuel cost recovery revenues do not affect net income because they are an increase to revenues that are offset by specific incurred fuel costs.

In 1999, fuel cost recovery revenues increased due to a higher fuel factor in 1999 and a fuel surcharge implemented in February 1999 in the Texas jurisdiction. This increase was partially offset by reduced fuel recovery in the Louisiana jurisdiction primarily due to lower fuel and purchased power costs in 1999.

Sales volume

In 1998, sales volume increased due to significantly warmer weather and an increase in customer base.

Other revenue

In 1999, other revenue increased primarily due to a change in estimated unbilled revenues. The estimate more closely aligns the fuel component of unbilled revenues with regulatory treatment. This change is expected to affect comparisons of revenue to applicable prior period amounts through the first quarter of 2000. Comparative impacts are also affected by seasonal variations in demand.

In 1998, other revenue decreased primarily due to the revenue recognized on the gain on the settlement of litigation with Cajun in December 1997 for the transfer of Cajun's 30% of River Bend, the effect of which was partially offset by regulatory reserves recorded in 1997. Other revenue also decreased due to unfavorable pricing of unbilled revenues due to rate reductions.

Sales for resale

In 1999, sales for resale increased primarily due to increased sales to associated companies due to higher market prices and outages at affiliate plants in 1999.

In 1998, sales for resale increased primarily due to additional revenues related to the sale of energy from the 30% interest in River Bend transferred by the Cajun bankruptcy trustee to Entergy Gulf States in December 1997. Sales for resale also increased due to increased sales to non-associated utilities as a result of increased demand.

Gas and steam operating revenues

In 1999, gas operating revenues decreased primarily due to lower prices of gas purchased for resale as well as decreased usage as a result of warmer winter weather, particularly in the residential and commercial sectors.

Steam operating revenues decreased in 1999 due to a new lease arrangement for the Louisiana Station 1 generating facility that began in June 1999. Under the terms of this new lease, revenues are now classified as other income rather than steam operating revenues.

ENTERGY GULF STATES, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

It is expected that less revenue will be realized under the new lease arrangement compared to the previous arrangement with the steam customer.

In 1998, gas operating revenues decreased due to a lower unit price for gas purchased for resale.

Expenses

Fuel and purchased power

In 1999, fuel and purchased power expenses increased due to:

- o increased gas expenses resulting from a shift to gas generation during the first six months of 1999 because of the reduced availability of Nelson 6 and an extended refueling outage at River Bend;
- o increased purchased power expenses due to higher market prices; and
- o a higher fuel factor and fuel surcharge in the Texas jurisdiction in 1999.

In 1998, fuel and purchased power expenses decreased primarily due to favorable gas and nuclear fuel prices and a shift in the generation mix as a result of these prices. Continued under-recovery of deferred expenses also contributed to the decrease in fuel expenses.

Other operation and maintenance expenses

In 1999, other operation and maintenance expenses increased due to increased employee benefit expense, casualty reserve accruals, and customer service expenses, such as tree trimming.

In 1998, other operation and maintenance expenses increased as a result of the settlement of litigation with Cajun in December 1997, pursuant to which the 30% interest in River Bend owned by Cajun was transferred by the Cajun bankruptcy trustee to Entergy Gulf States. Entergy Gulf States now includes 100% of River Bend's operation and maintenance expenses in its operating expenses, as compared to 70% of such expenses for the year ended December 31, 1997.

Depreciation and amortization

In 1999, depreciation and amortization decreased due to:

- o lower depreciation as a result of the write-down of the River Bend abeyed plant as required by the Texas rate settlement;
- o reduced amortization of the River Bend Unit 2 cancellation loss as a result of the completion of amortization for the Louisiana portion of the loss and the reduction in amortization of the Texas portion in accordance with a PUCT rate order; and
- o lower depreciation due to a review of plant in-service dates for consistency with regulatory treatment.

Other regulatory credits

In 1999, other regulatory credits increased due to:

- o change in the amortization period for deferred River Bend finance charges for the Texas retail jurisdiction in accordance with the Texas settlement agreement; and

ENERGY GULF STATES, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

o deferral of Year 2000 costs in accordance with an LPSC order. These costs are to be amortized over a five-year period.

Amortization of rate deferrals

In 1999, the amortization of rate deferrals increased due to the reduction of accounting order deferrals in accordance with the June 1999 Texas settlement agreement. This settlement substantially reduced the unamortized balance of rate deferrals, while decreasing the amortization period for the remaining deferrals from a ten-year period to a three-year period.

In 1998, the amortization of rate deferrals decreased due to the completion in February of the Louisiana retail rate phase-in plan for River Bend.

Other

Other income

In 1998, other income increased primarily due to the 1997 reserve for regulatory adjustments of \$311 million (\$185.4 million net of tax). This increase was partially offset by interest income of \$19.6 million (\$11.6 million net of tax) related to the settlement of litigation with Cajun recorded in December 1997.

Interest charges

In 1999, interest charges decreased as a result of the retirement, redemption, and refinancing of certain long-term debt in 1998 and 1999, as well as lower accruals of interest on certain Louisiana fuel and earnings reviews in 1998.

Interest charges remained relatively unchanged in 1998. Total interest expense decreased as a result of the retirement, redemption, and refinancing of certain long-term debt in 1997 and 1998. This decrease was offset by an increase in other interest due to the interest component of the provisions recorded for anticipated rate refunds in Louisiana.

Income taxes

The effective income tax rates for 1999, 1998, and 1997 are 37.6%, 40.6%, and 27.2%, respectively.

The decrease in the effective income tax rate in 1999 is due to accelerated tax depreciation deductions, for which deferred taxes have not been normalized, reflecting a shorter tax life on certain assets.

The increase in the effective income tax rate in 1998 is due to a decrease in the flow-through of tax benefits related to operating reserves and the increased reversal of previously recorded AFUDC amounts included in depreciation.

Report of Independent Accountants

To the Board of Directors and Shareholders of Entergy Louisiana, Inc.:

In our opinion, the accompanying balance sheets and the related statements of income, of retained earnings and of cash flows present fairly, in all material respects, the financial position of Entergy Louisiana, Inc. at December 31, 1999 and 1998, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 1999 in conformity with accounting principles generally accepted in the United States. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for the opinion expressed above.

PricewaterhouseCoopers LLP

New Orleans, Louisiana
February 17, 2000

ENTERGY LOUISIANA, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Net Income

Net income increased in 1999 primarily due to increases in unbilled revenue and other regulatory credits, and decreases in nuclear refueling outage expenses and interest charges, partially offset by increased provisions for rate refunds.

Net income increased in 1998 primarily due to a decrease in operating expenses, partially offset by a decrease in electric operating revenues and higher income taxes.

Revenues and Sales

The changes in electric operating revenues for the twelve months ended December 31, 1999 and 1998 are as follows:

Increase/(Decrease) Description	1999 (In Millions)	1998
Base revenues (\$35.0)	(\$48.7)	
Fuel cost recovery (95.4)	63.6	
Sales volume/weather	(5.3)	30.8
Other revenue (including unbilled) (3.2)	74.5	
Sales for resale	11.6	10.4
Total (\$92.4)	\$95.7	-----
	=====	=====
Base revenues		

In 1999, base revenues decreased primarily due to accruals for potential rate refunds.

In 1998, base revenues decreased due to base rate reductions that became effective in early 1998.

Fuel cost recovery revenues

Fuel cost recovery revenues do not affect net income because they are an increase to revenues that are offset by specific incurred fuel costs.

In 1999, fuel cost recovery revenues increased due to a shift from lower priced nuclear fuel to higher priced gas and purchased power due to nuclear outages at Waterford 3 in 1999.

In 1998, fuel cost recovery revenues decreased due to lower pricing resulting from a change in generation mix.

ENTERGY LOUISIANA, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Sales volume/weather

In 1999, sales volume decreased primarily due to less favorable weather, partially offset by increased usage by residential and industrial customers.

In 1998, sales volume increased primarily due to significantly warmer weather. The increase in sales volume was partially offset by the loss of a large industrial customer as well as substantially lower sales to two other large industrial customers.

Other revenue

In 1999, other revenue increased primarily due to a change in estimated unbilled revenues. The changed estimate more closely aligns the fuel component of unbilled revenues with regulatory treatment. The change in estimate is expected to affect comparisons to applicable prior period amounts through the first quarter of 2000. Comparative impacts are also affected by seasonal variations in demand.

Sales for resale

In 1999, sales for resale increased as a result of increased sales to affiliates due to outages at affiliate plants, in addition to favorable unit prices.

In 1998, sales for resale increased as a result of an increase in sales to associated companies, primarily due to changes in generation requirements and availability among the domestic utility companies.

Expenses

Fuel and purchased power expenses

In 1999, fuel and purchased power expenses increased due to:

- o higher gas prices;
- o higher purchased power market prices; and
- o a shift in generation from lower priced nuclear fuel to higher priced gas as a result of refueling and other outages at Waterford 3.

In 1998, fuel and purchased power expenses decreased due to:

- o lower gas prices;
- o a shift in mix to nuclear fuel; and
- o shifting generation requirements in 1997 as a result of the extended refueling outage at Waterford 3.

Other operation and maintenance expenses

Other operation and maintenance expenses decreased in 1998 primarily due to:

- o non-refueling outage related contract work at Waterford 3 during 1997;
- o maintenance performed at Waterford 3 in 1997;
- o the write-off of previously deferred radioactive waste facility costs in 1997; and
- o expenses related to fire damage sustained at the Little Gypsy fossil plant in September 1997.

ENERGY LOUISIANA, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Nuclear refueling outage expenses

In 1999, nuclear refueling outage expenses decreased as a result of the amortization of higher outage expenses in 1998 due to the extended nuclear refueling outage in 1997.

Other regulatory credits

In 1999, other regulatory credits increased due to the deferral of Year 2000 costs incurred as required by the LPSC. The deferred costs will be recovered over a five-year period.

Other

Interest charges

In 1999, interest on long-term debt decreased primarily due to the redemption and refinancing of certain long-term debt in 1999.

Income taxes

The effective income tax rates for 1999, 1998, and 1997 were 38.9%, 37.8%, and 41.1%, respectively.

The effective income tax rate decreased in 1998 primarily due to accelerated tax depreciation deductions, for which deferred taxes have not been normalized, reflecting a shorter tax life on certain assets.

Report of Independent Accountants

To the Board of Directors and Shareholders of Entergy Mississippi, Inc.:

In our opinion, the accompanying balance sheets and the related statements of income, of retained earnings and of cash flows present fairly, in all material respects, the financial position of Entergy Mississippi, Inc. at December 31, 1999 and 1998, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 1999 in conformity with accounting principles generally accepted in the United States. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for the opinion expressed above.

PricewaterhouseCoopers LLP

New Orleans, Louisiana

February 17, 2000

ENTERGY MISSISSIPPI, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Net Income

Net income decreased in 1999 primarily due to a decrease in unbilled revenues and an increase in other operation and maintenance expenses.

Net income decreased in 1998 primarily due to an increase in operating expenses, partially offset by an increase in electric operating revenues.

Revenues and Sales

The changes in electric operating revenues for the twelve months ended December 31, 1999 and 1998 are as follows:

Increase/(Decrease) Description	1999 (In Millions)	1998
Base revenues (\$10.2)	(\$9.7)	
Grand Gulf rate rider (2.6)	(95.9)	
Fuel cost recovery	(11.6)	20.5
Sales volume/weather	4.1	25.6
Other revenue (including unbilled)	(12.1)	0.6
Sales for resale	(18.3)	5.0
Total	(\$143.5) =====	\$38.9 =====

Base revenues

In 1999 and 1998, base revenues decreased due to the formula rate plan reduction that became effective in 1998. The formula rate plan reduction is discussed in more detail in Note 2 to the financial statements.

Rate riders

Rate rider revenues have no material effect on net income because specific incurred expenses offset them.

In 1999, Grand Gulf rate rider revenue decreased as a result of a new rider which became effective October 1, 1998. This new rider eliminated revenues attributable to the Grand Gulf phase-in plan, which was completed in September 1998. However, this decrease was partially offset by the Grand Gulf Accelerated Recovery Tariff (GGART), which also became effective October 1, 1998. This tariff provides for accelerated recovery of a portion of Entergy Mississippi's Grand Gulf purchased power obligation. The GGART is discussed in more detail in Note 2 to the financial statements.

ENTERGY MISSISSIPPI, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Fuel cost recovery

Fuel cost recovery revenues do not affect net income because they are an increase to revenues that are offset by specific incurred fuel costs.

In 1999, fuel cost recovery revenues decreased due to the MPSC's review and subsequent decrease of Entergy Mississippi's energy cost recovery rider.

In 1998, fuel cost recovery revenues increased primarily due to an increase in sales volume.

Sales volume/weather

In 1999, sales volume increased as a result of sales growth in the residential and commercial sectors, partially offset by unfavorable weather.

In 1998, sales volume increased as a result of significantly warmer weather.

Other revenue

In 1999, other revenue decreased primarily due to a change in estimated unbilled revenues. The changed estimate more closely aligns the fuel component of unbilled revenues with regulatory treatment. The change in estimate is expected to affect comparisons to applicable prior period amounts through the first quarter of 2000. Comparative impacts are also affected by seasonal variations in demand.

Sales for resale

In 1999, sales for resale decreased as a result of decreased oil generation due to plant outages at Entergy Mississippi. The decrease is also due to higher sales to associated companies in 1998 as a result of an outage at Entergy Arkansas.

Expenses

Fuel and purchased power expenses

In 1999, fuel and purchased power expenses decreased primarily due to:

- o a decrease in total energy consumption requirements; and
- o planned and unplanned plant outages during the year.

The decrease in fuel and purchased power expenses was partially offset by:

- o a shift from lower priced oil generation to higher priced gas generation as a result of plant outages in 1999;
- o an increase in the market price of purchased power; and
- o the GGART implemented by System Energy in October 1998 resulting in an increase in the price of System Energy purchased power.

ENTERGY MISSISSIPPI, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

In 1998, fuel and purchased power expenses increased primarily due to:

- o the increased usage as a result of significantly warmer weather; and
- o the impact of the under-recovery of deferred fuel costs in excess of the fixed fuel factor applied in 1997. In January 1998, Entergy Mississippi increased its fixed fuel factor to recover actual fuel expenses more timely.

Other operation and maintenance

In 1999, other operation and maintenance expenses increased primarily due to:

- o planned and unplanned plant outages in 1999;
- o an increase in customer service and reliability improvement spending;
- o an increase in employee benefit expense; and
- o an increase in casualty reserves.

Other regulatory credits

In 1999, other regulatory credits increased due to greater under-recovery of Grand Gulf 1 related costs as a result of the new rider implemented in October 1998.

In 1998, other regulatory credits decreased primarily due to less under-recovery of Grand Gulf related expenses in 1998 as compared to 1997.

Amortization of rate deferrals

In 1999, amortization of rate deferrals decreased due to the completion of the Grand Gulf 1 rate phase-in plan in September 1998. These phase-ins had no material effect on net income.

In 1998, amortization of rate deferrals decreased due to a decrease in the amortization prescribed in the Grand Gulf 1 rate phase-in plan, which was completed in September 1998. These phase-ins had no material effect on net income.

Other

Interest and other charges

Interest on long-term debt decreased in 1999 and 1998 primarily due to the refinancing of certain long-term debt.

Income taxes

The effective income tax rates for 1999, 1998, and 1997 were 29.7%, 30.9%, and 28.6%, respectively.

Report of Independent Accountants

To the Board of Directors and Shareholders of Entergy New Orleans, Inc.:

In our opinion, the accompanying balance sheets and the related statements of income, of retained earnings and of cash flows present fairly, in all material respects, the financial position of Entergy New Orleans, Inc. at December 31, 1999 and 1998, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 1999 in conformity with accounting principles generally accepted in the United States. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for the opinion expressed above.

PricewaterhouseCoopers LLP

New Orleans, Louisiana

February 17, 2000

ENTERGY NEW ORLEANS, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Net Income

Net income increased slightly in 1999 primarily due to an increase in unbilled revenues and sales volume, partially offset by an increase in other operation and maintenance expenses.

Net income increased in 1998 primarily due to an increase in operating revenues and other income and a decrease in income taxes, partially offset by increased operating expenses.

Revenues and Sales

Electric operating revenues

The changes in electric operating revenues for the twelve months ended December 31, 1999 and 1998 are as follows:

Increase/(Decrease) Description	1999	1998
	(In Millions)	
Base revenues (\$9.8)	(\$11.3)	
Fuel cost recovery	(4.6)	14.5
Sales volume/weather	1.7	13.9
Other revenue (including unbilled)	5.5	1.0
Sales for resale	3.7	1.7
	-----	-----
Total	(\$5.0)	\$21.3
	=====	=====

Base revenues

In 1999, base revenues decreased primarily due to base rate reductions effective January 1999 and rate refund provisions accrued for potential rate matters.

In 1998, base revenues decreased primarily due to reductions in residential and commercial rates that went into effect in August 1997.

Fuel cost recovery

Fuel cost recovery revenues do not affect net income because they are an increase to revenues that are offset by specific incurred fuel costs.

In 1999, fuel cost recovery revenues decreased due to an under-recovery of fuel expenses resulting from higher market prices in 1999 compared to the prior year.

In 1998, fuel cost recovery revenues increased due to higher fuel prices and increased generation.

Sales volume/weather

In 1998, sales volume increased primarily due to significantly warmer weather.

ENTERGY NEW ORLEANS, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Other revenue

In 1999, other revenue increased due to a change in estimated unbilled revenues. The changed estimate more closely aligns the fuel component of unbilled revenues with regulatory treatment. The increase was partially offset by less favorable weather in 1999. The change in estimate is expected to affect comparisons of revenue to applicable time period amounts through the first quarter of 2000. Comparative impacts are also affected by seasonal variations in demand.

Sales for resale

In 1999, sales for resale increased due to favorable unit prices resulting from increased purchased power and gas market prices, coupled with an increase in affiliated sales volume.

Gas operating revenues

In 1998, gas operating revenues decreased due to lower gas prices.

Expenses

Fuel and purchased power expenses

In 1998, fuel and purchased power expenses increased primarily due to:

- o an increase in purchased power primarily due to increased generation requirements as a result of significantly warmer weather and an increase in the price of purchased power; and
- o an over-recovery of gas and electric fuel cost in 1998 due to market price fluctuations.

This increase was partially offset by a decrease in the price of gas purchased for resale.

Other operation and maintenance expenses

In 1999 and 1998, other operation and maintenance expenses increased primarily due to:

- o increased environmental provisions;
- o employee benefit expense; and
- o increased spending for customer service and reliability improvements.

Amortization of rate deferrals

In 1999, amortization of rate deferrals decreased due to a scheduled rate change in the amortization of Grand Gulf 1 phase-in expenses.

Other regulatory credits

In 1999, other regulatory credits increased due to a greater under-recovery of Grand Gulf 1 costs in 1999.

ENTERGY NEW ORLEANS, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Other

Other income

Other income increased in 1999 primarily due to:

- o an increase in AFUDC resulting from increased capital charges on projects in 1999; and
- o increased interest related to the Grand Gulf 1 rate deferral plan.

Miscellaneous income increased in 1998 primarily due to Entergy New Orleans' portion of System Fuel's gain on the sale of oil and gas properties and an increase in interest related to the Grand Gulf 1 rate deferral plan.

The Grand Gulf 1 rate deferral plan is discussed in more detail in Note 2 to the financial statements.

Income taxes

The effective income tax rates for 1999, 1998, and 1997 were 40.7%, 38.4%, and 44.0%, respectively.

The increase in the effective income tax rate for 1999 was primarily due to the increase in pre-tax income reducing the impact of permanent differences and flow through items.

The decrease in the effective income tax rate for 1998 was primarily due to a tax benefit recorded in 1998 related to a depreciation adjustment.

Report of Independent Accountants

To the Board of Directors and Shareholder of System Energy Resources, Inc.:

In our opinion, the accompanying balance sheets and the related statements of income, of retained earnings and of cash flows present fairly, in all material respects, the financial position of System Energy Resources, Inc. at December 31, 1999 and 1998, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 1999 in conformity with accounting principles generally accepted in the United States. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for the opinion expressed above.

PricewaterhouseCoopers LLP

New Orleans, Louisiana

February 17, 2000

SYSTEM ENERGY RESOURCES, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Net Income

Net income decreased in 1999 due to the additional reserves and interest recorded for the potential refund of System Energy's proposed rate increase, as well as downtime for unplanned outages.

Net income increased slightly in 1998 primarily due to an increase in other income.

Revenues

Operating revenues recover operating expenses, depreciation, and capital costs attributable to Grand Gulf 1. Capital costs are computed by allowing a return on System Energy's common equity funds allocable to its net investment in Grand Gulf 1 and adding to such amount System Energy's effective interest cost for its debt.

Operating revenues increased in 1999 primarily due to the implementation of the Grand Gulf Accelerated Recovery Tariff (GGART) at Entergy Arkansas and Entergy Mississippi. This increase in revenues is offset by related regulatory charges and does not affect net income. The tariff was designed to allow Entergy Arkansas and Entergy Mississippi to accelerate the payment of a portion of their Grand Gulf purchased power obligation in advance of the implementation of retail access. It became effective on January 1, 1999 and October 1, 1998 for Entergy Arkansas and Entergy Mississippi, respectively. The GGART and System Energy's proposed rate increase, which is subject to refund, are discussed in Note 2 to the financial statements.

Expenses

Fuel expenses

In 1999, fuel expenses decreased primarily due to an extended nuclear refueling outage at Grand Gulf 1 in addition to unplanned outages. Grand Gulf 1 was on-line for 17 fewer days in 1999 compared to 1998.

In 1998, fuel expenses decreased because of lower generation due to a scheduled nuclear refueling outage in April and May. Grand Gulf 1 was on-line for 47 fewer days in 1998 compared to 1997.

Depreciation and amortization

In 1999, depreciation and amortization expenses decreased as a result of the reduction in principal payment associated with the sale and leaseback of a portion of Grand Gulf 1. The depreciation schedule matches the collection of lease principal and revenues with the depreciation of the asset.

Other regulatory charges

In both 1999 and 1998, other regulatory charges increased due to the implementation of the GGART at Entergy Arkansas and Entergy Mississippi, as discussed above.

SYSTEM ENERGY RESOURCES, INC.

MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Other

Other income

Other income increased in both 1999 and 1998 as a result of the interest earned on System Energy's advances to the money pool, an inter-company funding arrangement. The money pool is discussed in Note 4 to the financial statements.

Interest charges

Other interest increased in 1999 due to interest on the potential refund of System Energy's proposed rate increase.

Interest on long-term debt decreased in 1999 and 1998 as a result of the retirement and refinancing of higher-cost long-term debt.

Income taxes

The effective income tax rates in 1999, 1998, and 1997 were 39.5%, 42.1%, and 42.2%, respectively.

The effective income tax rate for 1999 decreased due to decreased pre-tax income partially offset by the amortization of investment tax credits related to Grand Gulf 2.

ENTERGY CORPORATION AND SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

The accompanying consolidated financial statements include the accounts of Entergy Corporation and its direct and indirect subsidiaries, including the domestic utility companies and System Energy, whose separate financial statements are included in this document. The financial statements presented herein result from these companies having registered securities with the SEC.

As required by generally accepted accounting principles, all significant intercompany transactions have been eliminated in the consolidated financial statements. The domestic utility companies and System Energy maintain accounts in accordance with FERC and other regulatory guidelines. Certain previously reported amounts have been reclassified to conform to current classifications, with no effect on net income or shareholders' equity.

Entergy Corporation sold its investments in Entergy London and CitiPower in December 1998. Accordingly, the consolidated balance sheet does not include amounts for these entities as of December 31, 1998. The consolidated statements of income and cash flows for 1998 include amounts for Entergy London and CitiPower through the dates of their respective sales.

Use of Estimates in the Preparation of Financial Statements

The preparation of Entergy Corporation's and its subsidiaries' financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses. Adjustments to the reported amounts of assets and liabilities may be necessary in the future to the extent that future estimates or actual results are different from the estimates used.

Revenues and Fuel Costs

Entergy Arkansas, Entergy Louisiana, and Entergy Mississippi generate, transmit, and distribute electricity primarily to retail customers in Arkansas, Louisiana, and Mississippi, respectively. Entergy Gulf States generates, transmits, and distributes electricity primarily to retail customers in Texas and Louisiana. Entergy Gulf States also distributes gas to retail customers in and around Baton Rouge, Louisiana. Entergy New Orleans sells both electricity and gas to retail customers in the City of New Orleans, except for Algiers, where Entergy Louisiana is the electricity supplier.

System Energy's operating revenues are intended to recover operating expenses and capital costs attributable to Grand Gulf 1 from Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans. Capital costs are computed by allowing a return on System Energy's common equity funds allocable to its net investment in Grand Gulf 1, plus System Energy's effective interest cost for its debt allocable to its investment in Grand Gulf 1. System Energy's proposed rate increase is discussed in Note 2 to the financial statements.

The domestic utility companies accrue estimated revenues for energy delivered since the latest billings. The domestic utility companies' rate schedules include either fuel adjustment clauses or fixed fuel factors, both of which allow either current recovery or deferral of fuel costs until such costs are reflected in the related revenues. Fixed fuel factors remain in effect until changed as part of a general rate case, fuel reconciliation, or fixed fuel factor filing.

Utility Plant

Utility plant is stated at original cost. The original cost of utility plant retired or removed, plus the applicable removal costs, less salvage, is charged to accumulated depreciation. Maintenance, repairs, and minor replacement costs are charged to operating expenses. Substantially all of the utility plant is subject to liens from mortgage bond indentures.

Utility plant includes the portions of Grand Gulf 1 and Waterford 3 that have been sold and leased back. For financial reporting purposes, these sale and leaseback arrangements are reflected as financing transactions.

Net utility plant by company and functional category, as of December 31, 1999, is shown below (in millions):

	Entergy	Entergy Arkansas	Entergy Gulf States	Entergy Louisiana	Entergy Mississippi	Entergy New Orleans	System Energy
Production							
Nuclear	\$6,766	\$ 913	\$1,853	\$1,832	\$ -	\$ -	\$ 2,157
Other	1,396	338	585	201	199	15	-
Transmission	1,597	455	495	311	300	27	9
Distribution	3,225	964	889	742	463	167	-
Other	567	99	152	118	92	17	16
Plant acquisition adjustment - Entergy Gulf States	407	-	-	-	-	-	-
Other	86	-	20	-	-	66	-
Construction work in progress	1,590	267	145	108	67	30	59
Nuclear fuel (leased and owned)	374	95	71	52	-	-	78
Accumulated provision for Decommissioning (1)	(418)	(271)	(64)	(83)	-	-	-
Utility plant - net	\$ 15,590	\$ 2,860	\$ 4,146	\$ 3,281	\$ 1,121	\$ 322	\$ 2,319

(1) The decommissioning liabilities related to Grand Gulf 1, Pilgrim, and the 30% of River Bend previously owned by Cajun are recorded in the applicable Balance Sheets in "Deferred Credits and Other Liabilities - Decommissioning."

Depreciation is computed on the straight-line basis at rates based on the estimated service lives and costs of removal of the various classes of property. Depreciation rates on average depreciable property are shown below:

System	Entergy	Entergy Arkansas	Entergy Gulf States	Entergy Louisiana	Entergy Mississippi	Entergy New Orleans
Energy						
1999	2.9%	3.2%	2.4%	2.9%	2.4%	3.0%
3.3%						
1998	3.0%	3.3%	2.6%	3.0%	2.5%	3.1%
3.3%						
1997	3.2%	3.1%	2.8%	3.0%	2.5%	3.1%
3.4%						

AFUDC represents the approximate net composite interest cost of borrowed funds and a reasonable return on the equity funds used for construction. Although AFUDC increases both utility plant and earnings, it is realized in cash through depreciation provisions included in rates.

Jointly-Owned Generating Stations

Certain Entergy subsidiaries jointly own electric generating facilities with third parties. The investments and expenses associated with these generating stations are recorded by the Entergy subsidiaries to the extent of their respective undivided ownership interests. As of December 31, 1999, the subsidiaries' investment and accumulated depreciation in each of these generating stations were as follows:

Generating Stations		Fuel-Type	Total Megawatt Capability	Ownership	Investment	Accumulated Depreciation (In Millions)
Entergy Arkansas Independence	Unit 1	Coal	836	31.50%	\$ 118	\$ 55
	Common Facilities	Coal		15.75%	30	13
	Units 1 and 2	Coal	1,659	57.00%	404	205
Entergy Gulf States Roy S. Nelson	Unit 6	Coal	550	70.00%	403	199
	Big Cajun 2	Coal	540	42.00%	227	106
Entergy Mississippi - Independence	Units 1 and 2	Coal	1,678	25.00%	227	95
System Energy - Grand Gulf	Unit 1	Nuclear	1,200	90.00%(1)	3,483	1,313
Entergy Power - Independence	Unit 2	Coal	842	14.37%	81	32

(1)Includes an 11.5% leasehold interest held by System Energy. System Energy's Grand Gulf 1 lease obligations are discussed in Note 10 to the financial statements.

Income Taxes

Entergy Corporation and its subsidiaries file a U.S. consolidated federal income tax return. Income taxes are allocated to the subsidiaries in proportion to their contribution to consolidated taxable income. SEC regulations require that no Entergy subsidiary pay more taxes than it would have paid if a separate income tax return had been filed. In accordance with SFAS 109, "Accounting for Income Taxes," deferred income taxes are recorded for all temporary differences between the book and tax basis of assets and liabilities, and for certain credits available for carryforward.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Investment tax credits are deferred and amortized based upon the average useful life of the related property, in accordance with ratemaking treatment.

Reacquired Debt

The premiums and costs associated with reacquired debt of the domestic utility companies and System Energy (except that allocable to the deregulated operations of Entergy Gulf States) are being amortized over the life of the related new issuances, in accordance with ratemaking treatment.

Cash and Cash Equivalents

Entergy considers all unrestricted highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Investments

Entergy applies the provisions of SFAS 115, "Accounting for Investments for Certain Debt and Equity Securities," in accounting for investments in decommissioning trust funds. As a result, Entergy has recorded on the consolidated balance sheet \$136 million of additional value in its decommissioning trust funds. This increase represents the amount by which the fair value of the securities held in such funds exceeds the amounts deposited plus the earnings on the deposits. In accordance with the regulatory treatment for decommissioning trust funds, the domestic utility companies and System Energy have recorded an offsetting amount in unrealized gains on investment securities as a regulatory liability in other deferred credits.

Decommissioning trust funds for Pilgrim do not receive regulatory treatment. Accordingly, unrealized gains recorded on the assets in Pilgrim's trust funds are recognized as a separate component of shareholders' equity because these assets are classified as available for sale.

Foreign Currency Translation

All assets and liabilities of Entergy's foreign subsidiaries are translated into U.S. dollars at the exchange rate in effect at the end of the period. Revenues and expenses are translated at average exchange rates prevailing during the period. The resulting translation adjustments are reflected in a separate component of shareholders' equity. Current exchange rates are used for U.S. dollar disclosures of future obligations denominated in foreign currencies.

Earnings per Share

The average number of common shares outstanding for the presentation of diluted earnings per share were greater by approximately 199,000 shares in 1999, 176,000 shares in 1998, and 140,000 shares in 1997, than the number of such shares for the presentation of basic earnings per share due to Entergy's stock option and other stock compensation plans discussed more thoroughly in Note 5 to the financial statements.

Options to purchase approximately 5,205,000, 149,000, and 225,000 shares of common stock at various prices were outstanding at the end of 1999, 1998, and 1997, respectively, but were not included in the computation of diluted earnings per share because the exercise prices were greater than the average market price of the common shares at the end of each of the years presented.

Application of SFAS 71

The domestic utility companies and System Energy currently account for the effects of regulation pursuant to SFAS 71, "Accounting for the Effects of Certain Types of Regulation." This statement applies to the financial statements of a rate-regulated enterprise that meet three criteria. The enterprise must have rates that (i) are approved by the regulator; (ii) are cost-based; and (iii) can be charged to and collected from customers. These criteria may also be applied to separable portions of a utility's business, such as the generation or transmission functions, or to specific classes of customers. If an enterprise meets these criteria, it may capitalize costs that would otherwise be charged to expense if the rate actions of its regulator make it probable that those costs will be recovered in future revenue. Such capitalized costs are reflected as regulatory assets in the accompanying financial statements. SFAS 71 requires that rate-regulated enterprises assess the probability of recovering their regulatory assets at each balance sheet date. When an enterprise concludes that recovery of a regulatory asset is no longer probable, the regulatory asset must be removed from the entity's balance sheet.

SFAS 101, "Accounting for the Discontinuation of Application of FASB Statement No. 71," specifies how an enterprise that ceases to meet the criteria for application of SFAS 71 for all or part of its operations should report that event in its financial statements. In general, SFAS 101 requires that the enterprise report the discontinuation of the application of SFAS 71 by eliminating from its balance sheet all regulatory assets and liabilities related to the applicable segment. Additionally, if it is determined that a regulated enterprise is no longer recovering all of its costs and therefore no longer qualifies for SFAS 71 accounting, it is possible that an impairment may exist that could require further write-offs of plant assets.

EITF 97-4: "Deregulation of the Pricing of Electricity - Issues Related to the Application of FASB Statements No. 71 and 101" specifies that SFAS 71 should be discontinued at a date no later than when the effects of a transition to competition plan for all or a portion of the entity subject to such plan are reasonably determinable. Additionally, EITF 97-4 promulgates that regulatory assets to be recovered through cash flows derived from another portion of the entity that continues to apply SFAS 71 should not be written off; rather, they should be considered regulatory assets of the segment that will continue to apply SFAS 71.

As described in "MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS - SIGNIFICANT FACTORS AND KNOWN TRENDS," management believes that definitive outcomes have not yet been determined regarding transition to competition in any of Entergy's jurisdictions. Therefore, the regulated operations of the domestic utility companies and System Energy continue to apply SFAS 71. Arkansas and Texas have enacted retail open access laws, but Entergy believes that significant issues remain to be addressed by Arkansas and Texas regulators, and the enacted laws do not provide sufficient detail to reasonably determine the impact on Entergy Arkansas' and Entergy Gulf States' regulated operations.

Transition to Competition Liabilities

In conjunction with the transition to competition of the electric utility industry in certain jurisdictions in which the domestic utility companies operate, regulatory mechanisms have been established to mitigate potential stranded costs. These mechanisms include the transition cost account at Entergy Arkansas, which is discussed further in Note 2 to the financial statements. Also included is a provision in the Texas transition legislation that allows depreciation on transmission and distribution assets to be directed toward generation assets. The liabilities recorded as a result of these mechanisms are classified as "transition to competition" deferred credits.

Domestic Operating Company Deregulated Operations

Entergy Gulf States does not apply regulatory accounting principles to its wholesale jurisdiction, steam department, Louisiana retail deregulated

portion of River Bend, and the 30% interest in River Bend formerly owned by Cajun. The Louisiana retail deregulated portion of River Bend is operated under a deregulated asset plan representing a portion (approximately 24%) of River Bend plant costs, generation, revenues, and expenses established under a 1992 LPSC order. The plan allows Entergy Gulf States to sell the electricity from the deregulated assets to Louisiana retail customers at 4.6 cents per KWH or off-system at higher prices, with certain provisions for sharing such incremental revenue above 4.6 cents per KWH between ratepayers and shareholders.

The results of these deregulated operations before interest charges for the years ended December 31, 1999, 1998, and 1997 are as follows (in thousands):

	1999	1998	1997
Operating revenues	\$ 166,509	\$ 178,303	\$ 155,471
Operating expenses			
Fuel, operating, and maintenance	126,917	137,579	89,987
Depreciation	35,141	39,497	36,351
	-----	-----	-----
Total operating expense	162,058	177,076	126,338
Income tax expense	628	1,154	9,416
	-----	-----	-----
Net income from deregulated utility operations	\$ 3,823	\$ 73	\$ 19,717
	=====	=====	=====

The net investment associated with these deregulated operations as of December 31, 1999 and 1998 was approximately \$835 million and \$864 million, respectively.

Impairment of Long-Lived Assets

Entergy periodically reviews long-lived assets whenever events or changes in circumstances indicate that recoverability of these assets is uncertain. Generally, the determination of recoverability is based on the net cash flows expected to result from such operations and assets. Projected net cash flows depend on the future operating costs associated with the assets, the efficiency and availability of the assets and generating units, and the future market and price for energy over the remaining life of the assets.

Assets regulated under traditional cost-of-service ratemaking, and thereby subject to SFAS 71 accounting, are generally not subject to impairment because this form of regulation assures that all allowed costs are subject to recovery. However, certain deregulated assets and other operations of the domestic utility companies totaling approximately \$1.2 billion (pre-tax) could be affected in the future. Those assets include Entergy Arkansas' and Entergy Louisiana's retained shares of Grand Gulf 1, Entergy Gulf States' Louisiana deregulated asset plan, the Texas jurisdictional abeyed portion of the River Bend plant and the portion of River Bend transferred from Cajun, and wholesale operations. Additionally, as noted above, the discontinuation of SFAS 71 regulatory accounting principles would require that Entergy review the affected assets for impairment.

Derivative Financial Instruments and Commodity Derivatives

As a part of its overall risk management strategy, Entergy uses a variety of derivative financial instruments and commodity derivatives, including interest rate swaps and natural gas and electricity futures, forwards, and options.

Entergy accounts for derivative financial instruments used to mitigate interest rate risk in accordance with hedge accounting. Gains or losses from rate swaps used for such purposes that are sold or terminated are deferred and amortized over the remaining life of the debt instrument being hedged by the interest rate swap. If the debt instrument being hedged by the interest rate swaps is extinguished, any gain or loss attributable to the swap would be recognized in the period of the transaction. Additional information concerning Entergy's interest rate swaps outstanding as of December 31, 1999 is included in Note 7 to the financial statements.

Entergy's power marketing and trading business engages in price risk management activities for trading purposes. To conduct these activities, the business uses futures, forwards, swaps, and options, and uses the mark-to-market method of accounting. Under the mark-to-market method of accounting, forwards, futures, swaps, options, and other financial instruments with third parties are reflected at market value in the balance sheets. Changes in the assets and liabilities from these instruments (resulting primarily from newly originated transactions and the impact of price movements) are recognized currently in the statements of income. The market prices used to value these transactions reflect management's best estimate considering various factors including closing exchange and over-the-counter quotations, time value, and volatility factors underlying the commitments.

New Accounting Pronouncements

In June 1998, the FASB issued SFAS 133, "Accounting for Derivative Instruments and Hedging Activities," which will be effective for Entergy in 2001. This statement requires that all derivatives be recognized in the balance sheet, either as assets or liabilities, and measured at fair value. The statement also requires the designation and reassessment of all hedging relationships. The changes in fair value of derivatives will be recognized in earnings or in comprehensive income, depending on the type of hedge relationship involved. Entergy has not completed its analysis of the effect that the adoption of SFAS 133 will have on its financial position, results of operations, or cash flows.

In February 2000, the FASB issued an SFAS exposure draft which would be effective for fiscal years beginning after June 15, 2001. The proposed SFAS would require initial measurement and recognition of the liability for closure and removal of long-lived assets, including decommissioning, at fair value at the time the SFAS is adopted. Determination of fair value will likely require the estimation and discounting of future cash flows using an expected present value technique. An asset partially offsetting the liability would be determined by further discounting the liability to the time it was first incurred, which is initial contamination of a nuclear plant. This asset and the related accumulated depreciation would be presented with other plant costs on the balance sheet because the cost of decommissioning/closing the plant would be recognized as part of the total cost of the plant asset. Any difference between the liability recognized and the related net asset recognized at the time the proposed SFAS is adopted would be treated as a cumulative effective adjustment in the statement of income, unless it is probable that the difference will ultimately be recoverable from or refundable to customers. In that case, a regulatory asset or liability would be recorded. Decommissioning expense following the effective date of the proposed SFAS would be determined independently of the regulatory treatment of such expense and could be higher than the current level of expense being recognized. Amortization of any regulatory asset or liability recorded at the time of adoption of the SFAS would mitigate any impact on net income.

NOTE 2. RATE AND REGULATORY MATTERS

Electric Industry Restructuring

Arkansas

(Entergy Corporation and Entergy Arkansas)

In April 1999, the Arkansas legislature enacted a law providing for competition in the electric utility industry through retail open access on January 1, 2002. With retail open access, generation operations will become a competitive business, but transmission and distribution operations will continue to be regulated. The APSC may delay implementation of retail open access, but not beyond June 30, 2003. The provisions of the new law:

- o require utilities to separate (unbundle) their costs into generation, transmission, distribution, and customer service functions;
- o require operation of transmission facilities by an organization independent from the generation, distribution, and retail operations;
- o provide for the determination of and mitigation measures for generation market power, which could require generation asset divestitures;
- o allow for recovery of stranded and transition costs if the costs are approved by the APSC;
- o allow for the securitization of approved stranded costs; and
- o freeze residential and small business customer rates for three years by utilities that will recover stranded costs.

Entergy Arkansas filed separate generation, transmission, distribution, and customer service rates with the APSC in December 1999. The rates were based on the cost-of-service study that formed the basis of the rates included in the 1997 settlement agreement. Hearings on the rate filing are scheduled for September 2000. If approved, these rates will become effective July 1, 2001. Entergy Arkansas also filed notice with the APSC in December 1999 of its intent to recover stranded costs. The APSC and various participants in the industry, including Entergy Arkansas, are currently in the process of implementing the legislation through various rulemaking and other proceedings.

Texas

(Entergy Corporation and Entergy Gulf States)

In June 1999, the Texas legislature enacted a law providing for competition in the electric utility industry through retail open access. The law provides for retail open access by most electric utilities, including Entergy Gulf States, on January 1, 2002. With retail open access, generation and a new retail provider operation will be competitive businesses, but transmission and distribution operations will continue to be regulated. The new retail provider function will be the primary point of contact with the customers for most services beyond initiation of electric service and restoration of service following an outage. The provisions of the new law:

- o require a rate freeze through January 1, 2002 with frozen rates beyond that for residential and small commercial customers of incumbent utilities;
- o require utilities to separate (unbundle) their generation, transmission and distribution, and retail electric provider functions. Entergy Gulf States filed its plan in January 2000 with the PUCT to separate its functions. The plan included separate transmission and distribution

companies;

- o require operation in a non-discriminatory manner of transmission and distribution facilities by an organization independent from the generation and retail operations by the time competition is implemented;
- o allow for recovery of stranded costs incurred in purchasing power and providing electric generation service if the costs are approved by the PUCT;
- o allow securitization of regulatory assets and stranded costs;
- o provide for the determination of and mitigation measures for generation market power; and
- o require utilities to file separated data and proposed transmission, distribution, and competition tariffs by April 1, 2000.

The market power measures include a limit on the ownership of generation assets by a power generation company within a specified region. The implications of this limit are uncertain for Entergy Gulf States and the Entergy system. However, it is possible that Entergy Gulf States could be required to divest some of its generation assets if Entergy Gulf States is found to have generation market power. The legislation also requires affected utilities to sell at auction, at least 60 days before January 1, 2002, entitlements to at least 15% of their installed generation capacity in Texas. The obligation to auction capacity entitlements continues for up to 60 months after January 1, 2002, or until 40% of customers in the jurisdiction have chosen an alternative supplier, whichever comes first.

The PUCT and various participants in the industry are currently in the process of implementing the legislation through various rulemaking and other proceedings. Two significant rules have been issued by the PUCT:

- o A code of conduct was approved by the PUCT in December 1999 to ensure that utilities do not allow affiliates to have a business advantage over competitors. The rules allow the continuation of shared services affiliates, such as Entergy Operations and Entergy Services. Entergy adopted an internal code of conduct to ensure compliance with the new rules.
- o Rules governing the separated costs filing have been issued. Included is a provision establishing, as an alternative to a market-based return on equity, a presumptively reasonable return on equity for a distribution utility at 200 basis points over its cost of debt. The provision allows the utility to provide evidence that the return should be higher. The rules also provide that the utility may propose a performance-based enhancement to the authorized rate of return, based on distribution and transmission company independence. Management does not agree with the arbitrary level set in the rule and will seek a higher return in its separated costs filing. A workshop has been held by the PUCT to discuss opportunities to seek a performance-based return.

Louisiana

(Entergy Corporation, Entergy Gulf States, and Entergy Louisiana)

In September 1996, Entergy Gulf States and Entergy Louisiana filed proposals with the LPSC designed to achieve an orderly transition to retail electric competition in Louisiana, while protecting certain classes of ratepayers from bearing the burden of cost shifting. In 1997 and 1998, the LPSC identified areas and issues for consideration in the generic rulemaking docket on competition in the electric utility industry. In March 1999, the LPSC deferred making a decision on whether electric restructuring in Louisiana is in the public interest, but approved the development of a Louisiana specific plan for possible future implementation. The LPSC staff, outside consultants, and counsel were directed to work together to analyze and resolve outstanding issues and recommend a plan for the implementation of retail competition for consideration by the LPSC by January 1, 2001. The LPSC staff, outside consultants, counsel, and industry members are working together to develop a plan to be submitted to the LPSC.

Mississippi

(Entergy Corporation and Entergy Mississippi)

Since 1996, Entergy Mississippi and the MPSC have been addressing issues regarding an orderly transition to a more competitive retail market for electricity. As a result, the MPSC issued, for informational purposes and to spur discussion, a proposed transition plan in June 1998. The plan provided for retail competition in Mississippi to begin January 1, 2001 and for recovery of allowable stranded costs through a non-bypassable charge during a transition period between January 2001 and the end of 2004. In preparing for competition, the MPSC has conducted hearings on:

- o market power and reliability studies filed by the two investor-owned utilities in Mississippi;
- o certification requirements and load dispatch and control rules;
- o cost of service issues;
- o holding company issues;
- o rules and regulations that possibly could be promulgated, after appropriate state legislation, to implement retail electric competition;
- o stranded costs; and
- o rate caps and performance-based rates.

In February 2000, legislation was introduced in Mississippi to establish a study committee to consider retail competition and provide a report to

the legislature by December 1, 2000. If this legislation passes, the transition plan discussed above would be put on hold until this report has been reviewed. Management does not expect deregulation in Mississippi to occur prior to 2003.

New Orleans

(Entergy Corporation and Entergy New Orleans)

Entergy New Orleans filed an electric transition to competition plan in September 1997. This plan is similar to those filed for the other domestic utility companies. No procedural schedule has been established for consideration of that plan by the Council.

In October 1998, the Council established a procedural schedule to determine if natural gas retail competition is in the public interest. In April 1999, Entergy New Orleans filed a plan that would allow for gas retail open access in New Orleans. The plan outlines the conditions under which Entergy New Orleans could support gas retail open access should the Council find it in the public interest. Hearings on retail competition for gas service were held in November 1999. No further action has been taken by the Council.

Retail Rate Proceedings

Filings with the APSC (Entergy Corporation and Entergy Arkansas)

Entergy Arkansas is operating under the terms of a settlement agreement approved by the APSC in December 1997 that provides for the following:

- o accelerated payment of Entergy Arkansas' Grand Gulf purchased power obligation in an amount totaling \$165.3 million over the period from January 1999 to June 2004;
- o collecting earnings in excess of an 11% return on equity in a transition cost account to offset stranded costs when retail access is implemented;
- o a rate freeze until at least July 1, 2001; and
- o rate decreases totaling \$200 million over the two-year period 1998- 1999. The net income effect from the rate reductions was approximately \$22 million.

During 1999, Entergy Arkansas' operating expenses reflected reserves of \$15.4 million (\$9.5 million net of taxes) to record the 1999 accrual of excess earnings and an adjustment of the 1998 accrual. As of December 31, 1999, the transition cost account balance was \$109.9 million. Additional reserves may also be required in 2000 based on earnings reviews.

In March 1999, Entergy Arkansas filed its annually redetermined energy cost rate with the APSC in accordance with the Energy Cost Recovery Rider formula and special circumstances agreement. The filing reflected that an increase was warranted to offset an under-recovery of the energy costs for 1998. The increased energy cost rate is effective April 1999 through March 2000.

Filings with the PUCT and Texas Cities

Rate Proceedings (Entergy Corporation and Entergy Gulf States)

In June 1999, the PUCT approved the settlement agreement that Entergy Gulf States entered into in February 1999. The settlement agreement resolved Entergy Gulf States' 1996 and 1998 rate proceedings and all of the settling parties' pending appeals in other matters, except for the appeal in the River Bend abeyed cost recovery proceeding discussed below. The Office of Public Utility Counsel, an intervenor in the proceeding, has appealed certain aspects of this settlement to Travis County District Court. Entergy Gulf States cannot predict the impact of the appeal.

The settlement agreement provides for the following:

- o an annual \$4.2 million base rate reduction, effective March 1, 1999, which is in addition to the annual \$69 million base rate reduction (net of River Bend accounting order deferrals) in the PUCT's second order on rehearing in October 1998;
- o a methodology for semi-annual revisions of the fixed fuel factor based on the market price of natural gas;
- o a base rate freeze through June 1, 2000. The Texas restructuring law extends the base rate freeze through December 2001;
- o amortization of the remaining River Bend accounting order deferrals as of January 1, 1999, over three years on a straight-line basis, and the accounting order deferrals will not be recognized in any subsequent base rate case or stranded cost calculation;
- o the dismissal of all pending appeals of the settling parties relating to Entergy Gulf States' proceedings with the PUCT, except the River Bend abeyed plant costs appeal discussed below; and
- o the potential recovery in the River Bend appeal is limited to \$115 million net plant in service as of January 1, 2002, less depreciation over the remaining life of the plant beginning January 1, 2002 through the date the plant costs are included in rate base, and any such recovery will not be used to increase rates above the level agreed to in the settlement agreement.

As a result of the settlement agreement, in June 1999, Entergy Gulf States:

- o removed from its balance sheet a \$207.3 million deferred asset and the associated provision recorded for unrecovered purchased power costs and deferred revenue from NISCO, which had no net income impact on Entergy Gulf States;
- o removed the reserve recorded in December 1997 for River Bend plant costs held in abeyance and reduced the plant asset, resulting in other income of \$4.8 million; and
- o removed the \$93.9 million reserve recorded in 1998 for the amortization of River Bend accounting order deferrals to reflect the three-year amortization schedule detailed in the agreement. The income impact of this removal was largely offset by an increase in the rate of amortization of the accounting order deferrals.

In June 1999, the PUCT instituted a proceeding to consider the final adjustment of the rate refunds ordered as a result of Entergy Gulf States' November 1996 rate case. These refunds were required to occur over the fourteen-month period from August 1998 through September 1999. The PUCT issued an order in July 1999 adopting a calculation methodology which required Entergy Gulf States to refund an additional \$25 million. This refund was recorded as a reduction in operating revenues.

In September and October 1999, seven cities in Entergy Gulf States' Texas service territory enacted ordinances purporting to require Entergy Gulf States to "book and hold in a suspense account all revenues from the sale of River Bend power attributable to the 30% share acquired from Cajun pending regulatory determination of the appropriate regulatory treatment of such power." The ordinances had an effective date of December 1997. Entergy Gulf States filed for a review of the ordinances at the PUCT in October 1999. In November 1999, Entergy Gulf States and the cities entered into a settlement agreement under which the parties agreed that the ordinances only required Entergy Gulf States to provide monthly informational reports concerning certain expenses, revenues, and operations associated with the 30% share. Entergy Gulf States treats the 30% share as a non-regulated operation.

Recovery of River Bend Costs (Entergy Corporation and Entergy Gulf States)

In March 1998, the PUCT disallowed recovery of \$1.4 billion of company-wide abeyed River Bend plant costs which have been held in abeyance since 1988. Entergy Gulf States appealed the PUCT's decision on this matter to the Travis County District Court in Texas. In June 1999, subsequent to the settlement agreement discussed above, Entergy Gulf States removed the reserve for River Bend plant costs held in abeyance and reduced the value of the plant asset. The settlement agreement limits potential recovery of the remaining plant asset, less depreciation, to \$115 million, beginning January 1, 2002 through the date the plant costs are included in rate base, and any such recovery will not be used to increase rates above the level as agreed to in the settlement agreement. The settlement agreement also prohibits Entergy Gulf States from acting on its appeal until January 1, 2002. Based on advice of counsel, management believes that it is probable that the matter will be remanded again to the PUCT for a further ruling on the prudence of the abeyed plant costs and it is reasonably possible that some portion of these costs will be included in rate base. However, no assurance can be given that additional reserves or write-offs will not be required in the future.

PUCT Fuel Cost Review (Entergy Corporation and Entergy Gulf States)

In September 1998, Entergy Gulf States filed an application with the PUCT for an increase in its fixed fuel factor and for a surcharge to Texas retail customers for the cumulative under-recovery of fuel and purchased power costs. The PUCT issued an order in December 1998 approving the implementation of a revised fuel factor and fuel and purchased power surcharge that would result in recovery of \$112.1 million of under-recovered fuel costs, inclusive of interest, over a 24-month period. These increases were implemented in the first billing cycle in February 1999. North Star Steel Texas, Inc. has appealed the PUCT's order to the State District Court in Travis County, Texas. Entergy Gulf States cannot predict the outcome of this appeal.

Based on the settlement agreement discussed above, Entergy Gulf States adopted a methodology for calculating its fixed fuel factor based on the market price of natural gas. This calculation and any necessary adjustments began semi-annually as of March 1, 1999 and are scheduled to continue until December 2001. The calculation for the factor to be implemented March 1, 1999 showed that the fuel factor adopted in the December 1998 PUCT order should be reduced. This fuel factor reduction was approved by the PUCT in February 1999. The calculation for the factor to be implemented September 1, 1999 showed, and the PUCT approved on an interim basis, an increase in the fuel factor.

The amounts collected under Entergy Gulf States' fixed fuel factor are, and will continue to be, the subject of fuel reconciliation proceedings before the PUCT, including a fuel reconciliation case filed by Entergy Gulf States in July 1999. In February 2000, Entergy Gulf States reached a unanimous settlement with all parties to the proceeding. Entergy Gulf States is reconciling approximately \$731 million (after excluding approximately \$14 million related to Cajun issues to be handled in a subsequent proceeding) of fuel and purchased power costs. The settlement reduces Entergy Gulf States' requested surcharge in the reconciliation filing from \$14.7 million to \$2.2 million. Although the settlement terms are still being finalized, the parties will ask the PUCT to allow the remaining \$2.2 million surcharge to be recovered beginning with the April 2000 billing cycle and continue until January 2001. In addition, Entergy Gulf States agreed to file a fuel reconciliation case by January 12, 2001 covering the period from March 1, 1999 through August 31, 2000.

In September 1999, Entergy Gulf States filed an application with the PUCT requesting an interim fuel surcharge to collect under-recovered fuel and purchased power expenses incurred from March 1999 through July 1999. In December 1999, the PUCT approved the collection of \$33.9 million over a five-month period beginning January 2000. The fuel and purchased power expenses contained in this surcharge will be subject to future fuel reconciliation proceedings.

Filings with the LPSC

Annual Earnings Reviews (Entergy Corporation and Entergy Gulf States)

In May 1995, Entergy Gulf States filed its second required post-Merger earnings analysis with the LPSC. Hearings on this review were held in December 1995. In October 1996, the LPSC ordered a \$33.3 million annual base rate reduction and a \$9.6 million refund. One component of the rate reduction removes from base rates approximately \$13.4 million annually of costs that will be recovered in the future through the fuel adjustment clause. Subsequently, Entergy Gulf States appealed the LPSC's order and obtained an injunction to stay the order, except insofar as it requires the \$13.4 million reduction, which Entergy Gulf States implemented in November 1996. In addition, pursuant to an October 1996 settlement with the LPSC, Entergy Gulf States will be allowed to recover \$8.1 million annually related to certain gas transportation and storage facilities costs. This amount will be applied as an offset to any refunds required. In April 1999, a Louisiana Supreme Court decision reduced the refund that Entergy Gulf States is required to make from \$9.6 million to \$6.0 million. The case has been remanded to the LPSC and management is continuing to evaluate the implications of this decision.

In May 1996, Entergy Gulf States filed its third required post-Merger earnings analysis with the LPSC. Based on this filing, Entergy Gulf States implemented a \$5.3 million annual rate reduction in June 1996. In September 1998, the LPSC issued an order in the third required post-Merger earnings analysis that required a refund of \$44.8 million for the period June 1996 through May 1997, and a prospective rate reduction of \$54.6 million effective September 20, 1998. The decision is on appeal to the Louisiana Supreme Court.

In May 1997, Entergy Gulf States filed its fourth post-Merger earnings analysis with the LPSC. Hearings were concluded in 1998 and a final decision by the LPSC is expected during the second or third quarter of 2000.

In May 1998, Entergy Gulf States filed its fifth required post-Merger earnings analysis with the LPSC. This filing will be subject to review by the LPSC and may result in a change in rates. Hearings were held in May 1999 and a decision by the LPSC is expected in the fourth quarter of 2000 or the first quarter of 2001. In a bifurcated proceeding, the LPSC investigated transactions between Entergy Gulf States and other Entergy affiliates. Hearings were held in December 1999.

In May 1999, Entergy Gulf States filed its sixth required post-Merger earnings analysis with the LPSC. Hearings were held in February 2000. The timing of a final decision in the proceeding is not certain.

Entergy Gulf States' operating revenues during the fourth quarter of 1998 reflected reserves of \$102.2 million (\$60.9 million net of taxes) based on management's estimates of the probable outcome of the annual earnings reviews as well as the effects of the LPSC fuel cost review discussed below. Additional reserves of \$36.1 million (\$22.2 million net of taxes), including interest, are reflected in operating revenues in 1999. Proceedings on issues in the second, third, fourth, fifth, and sixth post-Merger earnings analyses will continue.

LPSC Fuel Cost Review (Entergy Corporation and Entergy Gulf States)

In September 1996, the LPSC completed the second phase of its review of Entergy Gulf States' fuel costs, which covered the period October 1991 through December 1994. In October 1996, the LPSC ordered a \$34.2 million refund. The refund includes a disallowance of \$14.3 million of capital costs (including interest) related to certain gas transportation and storage facilities, which were recovered through the fuel clause, and which have been refunded pursuant to an October 1996 settlement with the LPSC. Entergy Gulf States will be permitted to recover these costs in the future through base rates. In January 1999, the Louisiana Supreme Court affirmed the LPSC's October 1996 order. In accordance with this decision, Entergy Gulf States refunded \$26.2 million, including interest, in August 1999. Management reserved for this refund in 1998 in connection with estimates of the probable outcome of this proceeding and the annual earnings reviews discussed above.

Formula Rate Plan Filings (Entergy Corporation and Entergy Louisiana)

In May 1997, Entergy Louisiana made its second annual performance-based formula rate plan filing with the LPSC for the 1996 test year. This filing resulted in a total rate reduction of approximately \$54.5 million, which was implemented in July 1997. At the same time, rates were reduced by an additional \$0.7 million and by an additional \$2.9 million effective March 1998. Upon completion of the hearing process in December 1998, the LPSC issued an order requiring an additional rate reduction and refund, although the resulting amounts were not quantified. Entergy Louisiana has appealed this order and obtained a preliminary injunction pending a final decision on appeal.

In September 1998, Entergy Louisiana made its third annual performance-based formula rate plan filing with the LPSC for the 1997 test year. Entergy Louisiana settled this filing with the LPSC in the third quarter of 1999. The settlement required no further change in Entergy Louisiana's base rates. Entergy Louisiana will recover a \$4.3 million excess credit as an offset to future rate reductions.

In April 1999, Entergy Louisiana submitted its fourth annual performance-based formula rate plan filing for the 1998 test year. The filing indicated that a \$20.7 million base rate reduction might be appropriate. An interim rate reduction of \$15.0 million was implemented effective August 1, 1999. Entergy Louisiana's filing will be subject to further review by the LPSC, which may result in an additional change in rates. Entergy Louisiana has provided reserves for the potential of further rate reductions. Hearings are scheduled with the LPSC in May 2000.

Fuel Adjustment Clause Litigation (Entergy Corporation and Entergy Louisiana)

In May 1998, a group of ratepayers filed a complaint against Entergy Corporation, Entergy Power, and Entergy Louisiana in state court in Orleans Parish purportedly on behalf of all Entergy Louisiana ratepayers. The plaintiffs seek treble damages for alleged injuries arising from the defendants' alleged violations of Louisiana's antitrust laws in connection with the costs included in fuel filings with the LPSC and passed through to ratepayers. Among other things, plaintiffs allege that Entergy Louisiana improperly introduced certain costs into the calculation of the fuel charges, including imprudently purchased high-cost electricity from its affiliates and imprudently purchased high-cost gas. Plaintiffs allege that these practices violated Louisiana's antitrust laws. In addition, plaintiffs seek to recover interest and attorney fees. Exceptions have been filed by Entergy, asserting that this dispute should be litigated before the LPSC and FERC. At the appropriate time, if necessary, Entergy will raise its defenses to the antitrust claims. At present, the suit in state court is stayed by stipulation of the parties.

Plaintiffs also filed this complaint with the LPSC to initiate a review by the LPSC of Entergy Louisiana's monthly fuel adjustment charge filings and to force restitution to ratepayers of all costs that the plaintiffs allege were improperly included in those fuel adjustment filings. Marathon Oil Company and Louisiana Energy Users Group have also intervened in the LPSC proceeding. Discovery at the LPSC has been conducted and is expected to continue. Direct testimony was filed with the LPSC by plaintiffs and the intervenors in July 1999. In their testimony for the period 1989 through 1998, plaintiffs purport to quantify many of their claims in an amount totaling \$544 million, plus interest. The plaintiffs will likely assert additional damages for the period 1974 through 1988. The Entergy companies filed responsive and rebuttal testimony in September 1999. Rebuttal testimony by the plaintiffs and intervenors was filed in November 1999. Direct testimony of the LPSC staff will be filed in April 2000, to which Entergy will be permitted to respond. Hearings before the LPSC are scheduled to begin in September 2000. Entergy intends to defend this matter vigorously, both in court and at the LPSC. The outcome of the lawsuit and the LPSC proceeding cannot be predicted at this time. Management has provided reserves for this, other litigation, and Entergy Louisiana's formula rate plan proceedings based on its estimate of the outcome of these proceedings.

Filings with the MPSC (Entergy Corporation and Entergy Mississippi)

In March 1999, Entergy Mississippi submitted its annual performance-based formula rate plan filing for the 1998 test year. In April 1999, the MPSC approved a prospective rate reduction of \$13.3 million. This rate reduction went into effect May 1, 1999. In June 1999, Entergy Mississippi revised its March 1999 filing to include a portion of refinanced long-term debt not included in the original filing. This revision resulted in an additional rate reduction of approximately \$1.5 million, effective July 1999.

Filings with the Council

1997 Settlement (Entergy Corporation and Entergy New Orleans)

Entergy New Orleans submitted its cost of service and revenue requirement filing in September 1997 to the Council. In connection with this filing, Entergy New Orleans filed a settlement agreement with the Council, which was approved in November 1998. The settlement agreement required the following:

- o base rate reductions for Entergy New Orleans' electric customers of \$7.1 million effective January 1, 1999, \$3.2 million effective October 1, 1999, and \$16.1 million effective October 1, 2000;
- o a base rate reduction for Entergy New Orleans' gas customers of \$1.9 million effective January 1999; and
- o no base rate increases prior to October 1, 2001.

Natural Gas (Entergy Corporation and Entergy New Orleans)

The Council held hearings in May 1999 regarding the prudence of Entergy New Orleans' natural gas purchasing practices.

Fuel Adjustment Clause Litigation (Entergy Corporation and Entergy New Orleans)

In April 1999, a group of ratepayers filed a complaint against Entergy New Orleans, Entergy Corporation, Entergy Services, and Entergy Power in state court in Orleans Parish purportedly on behalf of all Entergy New Orleans ratepayers. The plaintiffs seek treble damages for alleged injuries arising from the defendants' alleged violations of Louisiana's antitrust laws in connection with certain costs passed on to ratepayers in Entergy New Orleans' fuel adjustment filings with the Council. In particular, plaintiffs allege that Entergy New Orleans improperly included certain costs in the calculation of fuel charges and that Entergy New Orleans imprudently purchased high-cost fuel from other Entergy affiliates. Plaintiffs allege that Entergy New Orleans and the other defendant Entergy companies conspired to make these purchases to the detriment of

Entergy New Orleans' ratepayers and to the benefit of Entergy's shareholders, in violation of Louisiana's antitrust laws. Plaintiffs also seek to recover interest and attorney fees. Exceptions to the plaintiffs' allegations were filed by Entergy, asserting, among other things, that jurisdiction over these issues rests with the Council and FERC. If necessary, at the appropriate time, Entergy will also raise its defenses to the antitrust claims. At present, the suit in state court is stayed by stipulation of the parties.

Plaintiffs also filed this complaint with the Council in order to initiate a review by the Council of their allegations and to force restitution to ratepayers of all costs they allege were improperly and imprudently included in the fuel adjustment filings. Discovery has begun in the proceedings before the Council. The plaintiffs have not yet stated the amount of damages they claim. Entergy intends to defend this matter vigorously, both in court and before the Council. The ultimate outcome of the lawsuit and the Council proceeding cannot be predicted at this time.

River Bend Cost Deferrals (Entergy Corporation and Entergy Gulf States)

Entergy Gulf States was amortizing \$182 million of River Bend operating and purchased power costs, depreciation, and accrued carrying charges over a 20-year period; however the PUCT recently accelerated the recovery of these deferrals to a three-year recovery period ending May 1999. The settlement agreement discussed above dismissed Entergy Gulf States' appeal regarding these deferrals and allowed Entergy Gulf States to amortize the remainder of the accelerated balance as of January 1, 1999, over three years on a straight-line basis ending December 31, 2001.

Grand Gulf 1 Deferrals and Retained Shares

(Entergy Corporation and Entergy Arkansas)

Under the settlement agreement entered into with the APSC in 1985 and amended in 1988, Entergy Arkansas retains 22% of its 36% share of Grand Gulf 1-related costs and recovers the remaining 78% of its share in rates. In the event that Entergy Arkansas is not able to sell its retained share to third parties, it may sell such energy to its retail customers at a price equal to its avoided energy cost, which is currently less than Entergy Arkansas' cost of energy from its retained share.

(Entergy Corporation and Entergy Louisiana)

In a series of LPSC orders, court decisions, and agreements from late 1985 to mid-1988, Entergy Louisiana was granted rate relief with respect to costs associated with Entergy Louisiana's share of capacity and energy from Grand Gulf 1, subject to certain terms and conditions. Entergy Louisiana retains and does not recover from retail ratepayers, 18% of its 14% share of the costs of Grand Gulf 1 capacity and energy and recovers the remaining 82% of its share in rates. Entergy Louisiana is allowed to recover through the fuel adjustment clause 4.6 cents per KWH for the energy related to its retained portion of these costs. Non-fuel operation and maintenance costs for Grand Gulf 1 are recovered through Entergy Louisiana's base rates. Alternatively, Entergy Louisiana may sell such energy to nonaffiliated parties at prices above the fuel adjustment clause recovery amount, subject to the LPSC's approval.

(Entergy Corporation and Entergy New Orleans)

Under various rate settlements with the Council in 1986, 1988, and 1991, Entergy New Orleans agreed to absorb and not recover from ratepayers a total of \$96.2 million of its Grand Gulf 1 costs. Entergy New Orleans was permitted to implement annual rate increases in decreasing amounts each year through 1995, and to defer certain costs and related carrying charges for recovery on a schedule extending from 1991 through 2001. As of December 31, 1999, the uncollected balance of Entergy New Orleans' deferred costs was \$35.8 million.

FERC Settlement (Entergy Corporation and System Energy)

In November 1994, FERC approved an agreement settling a long-standing dispute involving income tax allocation procedures of System Energy. In accordance with the agreement, System Energy will refund a total of approximately \$62 million, plus interest, to Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans through June 2004. System Energy also reclassified from utility plant to other deferred debits approximately \$81 million of other Grand Gulf 1 costs. Although such costs are excluded from rate base, System Energy is amortizing and recovering these costs over a 10-year period. Interest on the \$62 million refund and the loss of the return on the \$81 million of other Grand Gulf 1 costs will reduce Entergy's and System Energy's net income by approximately \$10 million annually until 2004.

Proposed Rate Increase

(System Energy)

System Energy applied to FERC in May 1995 for a \$65.5 million rate increase. The request seeks changes to System Energy's rate schedule, including increases in the revenue requirement associated with decommissioning costs, the depreciation rate, and the rate of return on common equity. The request also includes a proposed change in the accounting recognition of nuclear refueling outage costs from that of expensing those

costs as incurred to the deferral and amortization method described in Note 1 to the financial statements. In December 1995, System Energy implemented the \$65.5 million rate increase, subject to refund, for which a portion has been reserved. After holding hearings in 1996, a FERC ALJ found that portions of System Energy's request should be rejected, including a proposed increase in return on common equity from 11% to 13% and a requested change in decommissioning cost methodology. The ALJ recommended a decrease in the return on common equity from 11% to 10.86%. Other portions of System Energy's request for a rate increase were approved by the ALJ. All of the ALJ's findings are advisory, and may be accepted, modified, or rejected by FERC in a final order.

If FERC were to approve the ALJ's findings, System Energy would be required to make a refund of money collected under its proposed tariff in the amount of \$228.2 million as of December 31, 1999, together with interest in the amount of \$39.6 million. As of December 31, 1999, System Energy has fully provided reserves for this potential refund. It is not certain when FERC may issue a final order in this rate proceeding or whether FERC will accept, modify, or reject the ALJ's findings. Although management believes that the recorded reserves are adequate to reflect the probable outcome of this proceeding, additional reserves or write-offs could be required in the future.

(Entergy Mississippi)

Entergy Mississippi's allocation of the proposed System Energy wholesale rate increase is \$21.6 million annually. In July 1995, Entergy Mississippi filed a schedule with the MPSC that defers the retail recovery of the System Energy rate increase. The deferral plan, which was approved by the MPSC, began in December 1995, the effective date of the System Energy rate increase, and will end after the issuance of a final order by FERC. Under this plan, the deferral period was anticipated to have ended by September 1998, and the deferred amount would have been amortized over 48 months beginning in October 1998. Although the deferral period under the plan has ended, FERC has not yet issued an order. For that reason, Entergy Mississippi filed a revised deferral plan with the MPSC in August 1998 that provides for recovery, effective with October 1998 billings, of \$11.8 million of the System Energy rate increase that was approved by the FERC ALJ's initial decision in July 1996. The \$11.8 million is being amortized over the original 48-month period, which began in October 1998. The amount of System Energy's proposed increase in excess of the \$11.8 million will continue to be deferred until the issuance of a final order by FERC, or October 2000, whichever occurs first. These deferred amounts, plus carrying charges, will be amortized over a 45-month period beginning in October 2000.

(Entergy New Orleans)

Entergy New Orleans' allocation of the proposed System Energy wholesale rate increase is \$11.1 million annually. In February 1996, Entergy New Orleans filed a plan with the Council to defer 50% of the amount of the System Energy rate increase. The deferral began in February 1996 and will end after the issuance of a final order by FERC.

Grand Gulf Accelerated Recovery Tariff

(Entergy Arkansas)

In April 1998, FERC approved the GGART that Entergy Arkansas filed as part of the settlement agreement that the APSC approved in December 1997. The GGART was designed to allow Entergy Arkansas to pay down a portion of its Grand Gulf purchased power obligation in advance of the implementation of retail access in Arkansas. The GGART provides for the acceleration of \$165.3 million of its obligation over the period January 1, 1999 through June 30, 2004. The settlement agreement with the APSC is discussed above in "Filings with the APSC."

(Entergy Mississippi)

In September 1998, FERC approved the GGART for Entergy Mississippi's allocable portion of Grand Gulf, which was filed with FERC in August 1998. The GGART provides for the acceleration of Entergy Mississippi's Grand Gulf purchased power obligation in an amount totaling \$221.3 million over the period October 1, 1998 through June 30, 2004.

NOTE 3. INCOME TAXES

Income tax expenses for 1999, 1998, and 1997 consist of the following (in thousands):

As of December 31, 1999, Entergy had net operating loss carryforwards of \$24.5 million for state income tax purposes, all related to Entergy Gulf States. If the state net operating loss carryforwards are not utilized against income from its subsidiaries, they will expire between 2000 and 2004. The alternative minimum tax (AMT) credit carryforwards as of December 31, 1999 were \$40.7 million, all related to Entergy Gulf States. This AMT credit can be carried forward indefinitely and may be applied solely against the federal income tax liability of Entergy Gulf States.

The valuation allowance is provided primarily against foreign tax credit carryforwards, which can be utilized against future United States taxes on foreign source income. If these carryforwards are not utilized, they will expire between 2000 and 2004.

At December 31, 1999, unremitted earnings of foreign subsidiaries were approximately \$29.5 million. Since it is Entergy's intention to indefinitely reinvest these earnings, no U.S. taxes have been provided. Upon distribution of these earnings in the form of dividends or otherwise, Entergy could be subject to U.S. income taxes (subject to foreign tax credits) and withholding taxes payable to various foreign countries.

NOTE 4. LINES OF CREDIT AND RELATED SHORT-TERM BORROWINGS (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

The short-term borrowings of the domestic utility companies and System Energy are limited to amounts authorized by the SEC. The current limits authorized are effective through November 30, 2001. In addition to borrowing from commercial banks, Entergy companies are authorized to borrow from the Entergy System Money Pool (money pool). The money pool is an inter-company borrowing arrangement designed to reduce the domestic utility companies' dependence on external short-term borrowings. Borrowings from the money pool and external borrowings combined may not exceed the SEC authorized limits. The following are the SEC-authorized limits and borrowings from the money pool for the domestic utility companies and System Energy as of December 31, 1999 (there were no borrowings outstanding from external sources):

Outstanding	Authorized	
Borrowings	(In Millions)	
Entergy Arkansas	\$ 235	\$40.6
Entergy Gulf States	340	36.1
Entergy Louisiana	225	91.5
Entergy Mississippi	103	50.0
Entergy New Orleans	35	9.7
System Energy	140	-
	-----	-----
Total	\$1,078	\$227.9
	=====	=====

Other Entergy companies have SEC authorization to borrow from Entergy Corporation through the money pool and from external sources in an aggregate principal amount up to \$265 million. These Entergy companies had \$116.6 million outstanding as of December 31, 1999 borrowed from the money pool. Some of these borrowings are restricted as to use and are collateralized by certain assets.

In September 1999, Entergy Corporation amended its \$250 million, 364- day bank credit facility. As of December 31, 1999, \$120 million was outstanding under this facility. The weighted-average interest rate on Entergy's outstanding borrowings as of December 31, 1999 and 1998 was 7.48% and 5.97%, respectively. The commitment fee for this facility is currently .15% of the line amount. Commitment fees and interest rates on loans under the credit facility can fluctuate depending on the senior debt ratings of the domestic utility companies. There is further discussion of commitments for long-term financing arrangements in Note 7 to the financial statements.

On February 25, 2000, Entergy Corporation obtained a 364-day term loan in the amount of \$120 million, accruing interest at a rate of 6.7%. The proceeds are being used to make an open-account advance to Entergy Louisiana in order to repay maturing debt. Entergy Corporation will use any remaining proceeds for general corporate purposes and working capital needs.

NOTE 5. PREFERRED, PREFERENCE, AND COMMON STOCK (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans)

The number of shares authorized and outstanding, and dollar value of preferred and preference stock for Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans as of December 31, 1999, and 1998 were:

Cash sinking fund requirements and mandatory redemptions for the next five years for preferred and preference stock, outstanding as of December 31, 1999, are as follows:

	Entergy Louisiana	Entergy Gulf States	Entergy
		(In Thousands)	
2000	\$153,450	\$153,450	-
2001	38,450	3,450	\$35,000
2002	3,450	3,450	-
2003	3,450	3,450	-
2004	3,450	3,450	-

Entergy Gulf States has the annual non-cumulative option to redeem, at par, additional amounts of certain series of its outstanding preferred stock.

In October 1998, the Board approved a plan for the repurchase of Entergy common stock through December 31, 2001, to fulfill the requirements of various compensation and benefit plans. The stock repurchase plan provides for purchases in the open market of up to five million shares of Entergy common stock, for an aggregate consideration of up to \$250 million. In July 1999, the Board approved the commitment of up to an additional \$750 million toward the repurchase of Entergy common stock through December 31, 2001. In 1999, Entergy Corporation repurchased 8,484,000 shares of its common stock for an aggregate purchase price of approximately \$245 million. Shares are purchased on a discretionary basis.

Entergy Corporation reissues treasury shares to meet the requirements of the Stock Plan for Outside Directors (Directors' Plan), the Equity Ownership Plan of Entergy Corporation and Subsidiaries (Equity Ownership Plan), and certain other stock benefit plans. The Directors' Plan awards to nonemployee directors a portion of their compensation in the form of a fixed number of shares of Entergy Corporation previously repurchased common stock. Shares awarded under the Directors' Plan were 11,400 during 1999; 5,100 during 1998; and 9,104 during 1997.

During 1999, Entergy Corporation issued 350,568 shares of its previously repurchased common stock to satisfy stock options exercised and stock purchases under the Equity Plan. In addition, Entergy Corporation received proceeds of \$7.5 million from the issuance of 253,269 shares of common stock under its dividend reinvestment and stock purchase plan during 1999.

The Equity Ownership Plan grants stock options, equity awards, and incentive awards to key employees of the domestic utility companies. The costs of equity and incentive awards are charged to income over the period of the grant or restricted period, as appropriate. Amounts charged to compensation expense in 1999 were immaterial. Stock options, which comprise 50% of the shares targeted for distribution under the Equity Ownership Plan, are granted at exercise prices not less than market value on the date of grant. The options granted prior to 1999 were generally exercisable six months from the date of grant, with the exception of 40,000 options granted on December 1, 1998, which became exercisable on January 1, 2000. The majority of options granted in 1999 will become exercisable equally over a three-year period. Options are not exercisable beyond ten years from the date of the grant.

Entergy does not recognize compensation expense for stock options issued with exercise prices at market value on the date of grant. The impact on Entergy's net income for each of the years 1999, 1998, and 1997 would have been \$15.5 million, \$278,000, and \$296,000, respectively, had compensation cost for the stock options been recognized based on the fair value of options at the grant date for awards under the option plan.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following stock option weighted-average assumptions:

	1999	1998	1997
Stock price volatility	20.3%	20.9%	
19.3%			
Expected term in years	5	5	5
Risk-free interest rate	4.7%	5.1%	
6.3%			
Dividend yield	4.0%	5.4%	
6.8%			
Dividend payment	\$1.20	\$1.58	
\$1.80			

Nonstatutory stock option transactions are summarized as follows:

	1999		1998		1997	
	Number of Options	Average Option Price	Number of Options	Average Option Price	Number of Options	Average Option Price
Beginning-of-year balance	901,639	\$ 26.21	1,176,308	\$ 25.12	1,053,308	\$ 24.94
Options granted	5,354,189	29.88	125,000	29.46	255,000	25.84
Options exercised	(213,084)	23.69	(350,169)	23.37	(2,500)	23.38
Options forfeited	(411,638)	30.34	(49,500)	28.56	(129,500)	25.10
End-of-year balance	5,631,106	\$ 29.50	901,639	\$ 26.21	1,176,308	\$ 25.12
Options exercisable at year-end	612,531		861,639		421,909	
Weighted average fair value of options granted	\$ 4.72		\$ 4.11		\$ 3.10	

The following table summarizes information about stock options outstanding as of December 31, 1999:

Range of Exercise Prices	Options Outstanding			Options Exercisable	
	As of 12/31/99	Weighted- Avg Remaining Contractual Life-Yrs.	Weighted- Avg. Exercise Price	Number Exercisable at 12/31/99	Weighted- Avg. Exercise Price
\$20 - \$30	5,173,076	8.8	\$29.29	533,312	\$ 24.83
\$30 - \$40	458,030	8.3	\$31.81	79,219	\$ 35.99
\$20 - \$40	5,631,106	8.7	\$29.50	612,531	\$ 26.27

To meet the requirements of the Employee Stock Investment Plan (ESIP), the SEC authorized Entergy Corporation to issue or acquire, through March 31, 2000, up to 2,000,000 shares of its common stock to be held as treasury shares. The ESIP is authorized through the 1999 plan year ending March 31, 2000. Entergy Corporation may issue either treasury shares or previously authorized but unissued shares to satisfy ESIP requirements. Under the terms of the ESIP, employees can choose each year to have up to 10% of their regular annual salary (not to exceed \$25,000) withheld to purchase the Company's common stock at a purchase price equal to 85% of the lower of the market value on the first or last business day of the plan year ending March 31. Under the plan, the number of subscribed shares was 285,505 in 1999; 294,108 in 1998; and 319,457 in 1997.

The fair value of ESIP shares granted was estimated on the date of the grant using the Black-Scholes option-pricing model with expected ESIP weighted-average assumptions:

	1999	1998	1997
Stock price volatility	20.9%	24.1%	
19.3%			
Expected term in years	1	1	1
Risk-free interest rate	4.6%	5.1%	
6.1%			
Dividend yield	4.3%	6.1%	
7.4%			
Dividend payment	\$1.20	\$1.80	
\$1.80			

The weighted-average fair value of those purchase rights granted was \$5.90, \$6.32, and \$4.75 in 1999, 1998, and 1997, respectively. The impact on Entergy's net income would have been (\$3,086), (\$256,000), and \$98,000 in 1999, 1998, and 1997, respectively, had compensation cost for the ESIP been determined based on the fair value at the grant date for awards under the ESIP.

Entergy sponsors the Savings Plan of Entergy Corporation and Subsidiaries (Savings Plan). The Savings Plan is a defined contribution plan covering eligible employees of Entergy and its subsidiaries who have completed certain service requirements. The Savings Plan provides that the employing Entergy subsidiary may make matching contributions to the plan in an amount equal to 50% of the participant's basic contribution, up to 6% of their salary, in shares of Entergy Corporation common stock. Entergy's subsidiaries' contributions to the Savings Plan, and any income thereon, are invested in shares of Entergy Corporation common stock. Entergy's subsidiaries contributed \$14.5 million in 1999, \$13.6 million in 1998, and \$13.2 million in 1997 to the Savings Plan.

NOTE 6. COMPANY-OBLIGATED REDEEMABLE PREFERRED SECURITIES

(Entergy Arkansas, Entergy Louisiana, Entergy Gulf States)

Entergy Arkansas Capital I, Entergy Louisiana Capital I, and Entergy Gulf States Capital I (Trusts) were established as financing subsidiaries of Entergy Arkansas, Entergy Louisiana, and Entergy Gulf States, respectively, for the purpose of issuing common and preferred securities. The Trusts issue Cumulative Quarterly Income Preferred Securities (Preferred Securities) to the public and issue common securities to their parent companies. Proceeds from such issues are used to purchase junior subordinated deferrable interest debentures (Debentures) from the parent company. The Debentures held by each Trust are its only assets. Each Trust uses interest payments received on the Debentures owned by it to make cash distributions on the Preferred Securities.

Trusts	Date Of Issue	Preferred Securities Issued (In Millions)	Common Securities Issued	Interest Rate Securities/ Debentures	Trust's Investment in Debentures (In Millions)	Fair Market Value of Preferred Securities at 12-31-99
Arkansas Capital I	8-14-96	\$60.0	\$1.9	8.50%	\$61.9	\$60.3
Louisiana Capital I	7-16-96	\$70.0	\$2.2	9.00%	\$72.2	\$70.0
Gulf States Capital I	1-28-97	\$85.0	\$2.6	8.75%	\$87.6	\$77.4

The Preferred Securities of the Trusts mature in the years 2045 and 2046. The Preferred Securities are redeemable at 100% of their principal amount at the option of Entergy Arkansas, Entergy Louisiana, and Entergy Gulf States beginning in 2001 and 2002, or earlier under certain limited circumstances, including the loss of the tax deduction arising out of the interest paid on the Debentures. Entergy Arkansas, Entergy Louisiana, and Entergy Gulf States have, pursuant to certain agreements, fully and unconditionally guaranteed payment of distributions on the Preferred Securities issued by their respective trusts. Entergy Arkansas, Entergy Louisiana, and Entergy Gulf States are the owners of all of the common securities of their individual Trusts, which constitute 3% of each Trust's total capital.

NOTE 7. LONG - TERM DEBT (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

Long-term debt as of December 31, 1999 was:

(a) Consists of pollution control bonds, certain series of which are secured by non-interest bearing first mortgage bonds.

(b) The fair value excludes lease obligations, long-term DOE obligations, and other long-term debt and includes debt due within one year. It is determined using bid prices reported by dealer markets and by nationally recognized investment banking firms.

The annual long-term debt maturities (excluding lease obligations) and annual cash sinking fund requirements for debt outstanding as of December 31, 1999, for the next five years are as follows:

	Entergy(a)	Entergy Arkansas(b)	Entergy Gulf States(c)	Entergy Louisiana(d) (In Thousands)	Entergy Mississippi	Entergy New Orleans	System Energy
2000	\$ 181,170	\$ 220	-	\$ 105,950	-	-	\$ 75,000
2001	276,450	-	\$ 122,750	18,700	-	-	135,000
2002	379,745	85	150,000	94,660	\$ 65,000	-	70,000
2003	129,155	155	39,000	-	65,000	\$ 25,000	-
2004	442,000	-	292,000	-	150,000	-	-

(a) Not included are other sinking fund requirements of approximately \$49.6 million annually, which may be satisfied by cash or by certification of property additions at the rate of 167% of such requirements.

(b) Not included are other sinking fund requirements of approximately \$1.8 million annually, which may be satisfied by cash or by certification of property additions at the rate of 167% of such requirements.

(c) Not included are other sinking fund requirements of approximately \$45.7 million annually, which may be satisfied by cash or by certification of property additions at the rate of 167% of such requirements.

(d) Not included are other sinking fund requirements of approximately \$2.1 million annually, which may be satisfied by cash or by certification of property additions at the rate of 167% of such requirements.

On February 15, 2000, Entergy Mississippi issued \$120 million of 7.75% Series First Mortgage Bonds due February 15, 2003. On March 9, 2000, Entergy Arkansas issued \$100 million of 7.72% Series First Mortgage Bonds due March 1, 2003. The proceeds of both issuances will be used for general corporate purposes, including the retirement of short-term indebtedness that was incurred for working capital needs and capital expenditures.

EPDC maintains a credit facility of BPS100 million (\$161.5 million) to finance the acquisition of the Damhead Creek Project, assist in the financing of the Saltend project, and for general corporate purposes in connection with the acquisition and development of power generation, distribution or transmission facilities. As of December 31, 1999, there were no cash advances outstanding under this facility. Approximately BPS6.8 million (\$10.5 million) was outstanding as of December 31, 1998. The interest rate on the outstanding cash advances was 5.88% and 6.97% as of December 31, 1999 and 1998, respectively. The commitment fee is .17% of the undrawn amount. In addition, EPDC has BPS89.7 million (\$144.9 million) of letters of credit under the credit facility to support project commitments on the Saltend and Damhead Creek projects.

Saltend Cogeneration Company Limited (SCCL), an indirect wholly-owned subsidiary of EPDC, maintains a BPS586 million (\$946.4 million) non-recourse senior credit facility providing bridge and term loan facilities, cost overrun and working capital facilities, and contingent letter of credit and guarantee facilities (the Senior Credit Facility) to finance the construction and operation of a 1,200 MW gas-fired power plant in northeast England. Borrowings under the Senior Credit Facility are repayable over a 15-year period beginning December 31, 2000. In addition, SCCL has also entered into a BPS72 million (\$116.3 million) subordinated credit facility (the Subordinated Credit Facility) which is to be drawn down by the earlier of completion of construction or August 31, 2000. The proceeds of borrowings under the Subordinated Credit Facility will be used to repay a portion of the Senior Credit Facility. The Subordinated Credit Facility is repayable over a 10-year period beginning December 31, 2000. All of the assets of SCCL are pledged as collateral under the Senior Credit Facility and the Subordinated Credit Facility.

In February 1998, SCCL entered into 15-year interest rate swap agreements for 85% of the debt outstanding under the bridge and term loan portion of the Senior Credit Facility on an average fixed-rate basis of 6.44%. SCCL is exposed to market risks from movements in interest rates in the unlikely event that the counterparties to the interest rate swap agreements were to default on contractual payments. At December 31, 1999, SCCL had outstanding interest rate swap agreements totalling a notional amount of \$603.2 million. The estimated fair value of the interest rate swap agreements, which represent the estimated amount SCCL would have received to terminate the swaps at December 31, 1999,

was a net asset of \$3.4 million. Under the Senior Credit Facility and the Subordinated Credit Facility, SCCL's ability to make distributions of dividends, loans, or advances to EPDC is restricted by, among other things, the requirement to pay permitted project costs, make debt repayments, and maintain cash reserves.

In December 1998, Damhead Creek Finance Limited (DCFL), an indirect wholly-owned subsidiary of EPDC, entered into a BPS463.4 million (\$748.4 million) non-recourse senior credit facility providing (among other things) bridge and term loan facilities, cost overrun and working capital facilities, and contingent letter of credit and guarantee facilities (the Senior Credit Facility) to finance the construction and operation of an 800 MW gas-fired power plant in southeast England. Borrowings under the Senior Credit Facility are repayable after completion of construction over a fifteen-year period beginning December 31, 2001. DCFL also entered into a BPS36.1 million (\$58.3 million) subordinated credit facility (the Subordinated Credit Facility) which is to be drawn down by the earlier of commercial operation or July 22, 2001. Borrowings under the Subordinated Credit Facility will be used to repay a portion of the Senior Credit Facility. The Subordinated Credit Facility is payable over a ten-year period beginning December 31, 2001. Pursuant to a corporate restructuring in April 1999, Damhead Finance LDC (DFLDC), an indirect wholly-owned subsidiary of EPDC, replaced DCFL as borrower under the Senior Credit Facility and the Subordinated Credit Facility. All of the assets of DFLDC are pledged as collateral under the Senior Credit Facility and the Subordinated Credit Facility. Furthermore, the Senior Credit Facility requires DFLDC to enter into interest rate hedge agreements for a majority of the project debt from the earlier of commercial operation or the date the long term interest rate for the agreed interest rate hedging strategy exceeds 8%. Under the Senior Credit Facility and the Subordinated Credit Facility, DFLDC's ability to make distributions of dividends, loans, or advances to EPDC is restricted by, among other things, the requirement to pay permitted project costs, make debt repayments, and maintain cash reserves.

NOTE 8. DIVIDEND RESTRICTIONS (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, System Energy)

Provisions within the Articles of Incorporation or pertinent indentures and various other agreements relating to the long-term debt and preferred stock of certain of Entergy Corporation's subsidiaries restrict the payment of cash dividends or other distributions on their common and preferred stock. Additionally, PUHCA prohibits Entergy Corporation's subsidiaries from making loans or advances to Entergy Corporation. As of December 31, 1999, Entergy Arkansas and Entergy Mississippi had restricted retained earnings unavailable for distribution to Entergy Corporation of \$199.3 million and \$15.8 million, respectively. During 1999, cash dividends paid to Entergy Corporation by its subsidiaries totaled \$532.3 million.

NOTE 9. COMMITMENTS AND CONTINGENCIES

Capital Requirements and Financing (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

For the years 2000 through 2004, Entergy plans to spend \$9.8 billion in a capital investment plan focused on improving service at the domestic utility companies and growing its global power development and nuclear operations businesses. The estimated allocation in the plan is \$4.2 billion to the domestic utility companies, \$3.9 billion to the global power development business, and \$1.7 billion to the nuclear operations business. This plan is contingent upon Entergy's ability to access the capital necessary to finance the planned expenditures. Construction expenditures (including environmental expenditures and AFUDC, but excluding nuclear fuel) for Entergy are estimated at \$1.5 billion in 2000, \$1.7 billion in 2001, and \$1.8 billion in 2002. Included in these totals are estimated construction expenditures for the domestic utility companies and System Energy as follows:

	2000	2001	2002	Total
	(In Millions)			
Entergy Arkansas	\$350	\$248	\$188	
\$786				
Entergy Gulf States	298	269	204	
771				
Entergy Louisiana	202	188	162	
552				
Entergy Mississippi	115	122	123	
360				
Entergy New Orleans	50	46	45	
141				
System Energy	39	20	12	
71				

The domestic utility companies' anticipated spending is focused mainly on (i) distribution and transmission projects that will support continued

reliability improvements; (ii) return to service of generation stations that have been held in reserve shutdown status; and (iii) transitioning to a more competitive environment. Projected construction expenditures for the replacement of ANO 2's steam generators, which is scheduled for the third quarter of 2000, are included in Entergy Arkansas' estimated figures above. Entergy will also require \$1.0 billion during the period 2000-2002 to meet long-term debt and preferred stock maturities and cash sinking fund requirements. Entergy plans to meet these requirements primarily with internally generated funds and cash on hand, supplemented by proceeds from the issuance of debt, outstanding credit facilities, and project financing. Certain domestic utility companies and System Energy may also continue the reacquisition or refinancing of all or a portion of certain outstanding series of preferred stock and long-term debt. See "MANAGEMENT'S FINANCIAL DISCUSSION AND ANALYSIS - LIQUIDITY AND CAPITAL RESOURCES" for additional discussion of Entergy's capital spending plans.

Sales Warranties and Indemnities (Entergy Corporation)

In the Entergy London and CitiPower sales transactions, Entergy or its subsidiaries made certain warranties to the purchasers. These warranties include representations regarding litigation, accuracy of financial accounts, and the adequacy of existing tax provisions. Notice of a claim on the CitiPower warranties must be given by December 2000, and Entergy's potential liability is limited to A\$100 million (\$66 million). Notice of a claim on the Entergy London warranties had to be given for certain items by December 1999, and for the tax warranties, must be given by June 30, 2001. Entergy's liability is limited to BPS1.4 billion (\$2.3 billion) on certain tax warranties and BPS140 million (\$226 million) on the remaining warranties. No such notices have been received. Entergy has also agreed to maintain the net asset value of the subsidiary that sold Entergy London at \$700 million through June 30, 2001. Management periodically reviews reserve levels for these warranties and believes it has adequately provided for the ultimate resolution of such matters as of December 31, 1999.

Fuel Purchase Agreements

(Entergy Arkansas and Entergy Mississippi)

Entergy Arkansas has long-term contracts for the supply of low-sulfur coal to White Bluff and Independence (which is also 25% owned by Entergy Mississippi). These contracts, which expire in 2002 and 2011, provide for approximately 85% of Entergy Arkansas' expected annual coal requirements. Additional requirements are satisfied by spot market purchases.

(Entergy Gulf States)

Entergy Gulf States has a contract for a supply of low-sulfur coal for Nelson Unit 6, which should be sufficient to satisfy the fuel requirements at Nelson Unit 6 through 2010. Effective April 1, 2000, Louisiana Generating LLC will assume ownership of the Cajun portion of the Big Cajun generating facilities. The management of Louisiana Generating LLC has advised Entergy Gulf States that it has executed coal supply and transportation contracts that should provide an adequate supply of coal for the operation of Big Cajun 2, Unit 3 for the foreseeable future.

(Entergy Louisiana)

In June 1992, Entergy Louisiana agreed to a 20-year natural gas supply contract. Entergy Louisiana agreed to purchase natural gas in annual amounts equal to approximately one-third of its projected annual fuel requirements for certain generating units. Annual demand charges associated with this contract are estimated to be \$7.6 million. Such charges aggregate \$99 million for the years 2000 through 2012.

(Entergy Corporation)

Entergy's global power development business has entered into gas supply contracts at the project level to supply up to 100% of the gas requirements for the Saltend and Damhead Creek power plants located in the UK. Both contracts have 15-year terms and include a take-or-pay obligation for approximately 75% of the gas requirement for each plant. Under the terms of Saltend's contract and based on its current construction schedule, Entergy's global power development business may incur certain liabilities with regard to this gas prior to the project reaching commercial operation. The disposition of the gas will be managed under the terms of the contract, and the financial effect on the Saltend project is expected to be minimal.

Sales Agreements/Power Purchases

(Entergy Gulf States)

In 1988, Entergy Gulf States entered into a joint venture with a primary term of 20 years with Conoco, Inc., Citgo Petroleum Corporation, and Vista Chemical Company (collectively the Industrial Participants), whereby Entergy Gulf States' Nelson Units 1 and 2 were sold to NISCO, a partnership consisting of the Industrial Participants and Entergy Gulf States. The Industrial Participants supply the fuel for the units, while Entergy Gulf States operates the units at the discretion of the Industrial Participants and purchases the electricity produced by the units. Entergy Gulf States purchased electricity from the joint venture totaling \$51.4 million in 1999, \$57.5 million in 1998, and \$70.7 million in 1997.

(Entergy Louisiana)

Entergy Louisiana has an agreement extending through the year 2031 to purchase energy generated by a hydroelectric facility known as the Vidalia project. Entergy Louisiana made payments under the contract of approximately \$70.3 million in 1999, \$77.8 million in 1998, and \$64.6 million in 1997. If the maximum percentage (94%) of the energy is made available to Entergy Louisiana, current production projections would require estimated payments of approximately \$85.2 million in 2000, and a total of \$3.5 billion for the years 2001 through 2031. Entergy Louisiana currently recovers the costs of the purchased energy through its fuel adjustment clause.

System Fuels (Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

The domestic utility companies that are owners of System Fuels have agreed to make loans to System Fuels to finance its fuel procurement, delivery, and storage activities. The following loans outstanding to System Fuels as of December 31, 1999 mature in 2008:

Owner 1999	Ownership Percentage	Loan Outstanding at December 31,
Entergy Arkansas	35%	\$11.0 million
Entergy Louisiana	33%	\$14.2 million
Entergy Mississippi	19%	\$ 5.5 million
Entergy New Orleans	13%	\$ 3.3 million

Nuclear Insurance (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

The Price-Anderson Act limits public liability of a nuclear plant owner for a single nuclear incident to approximately \$9.5 billion. Protection for this liability is provided through a combination of private insurance (currently \$200 million each for Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, System Energy, and Entergy's non-utility nuclear power business) and an industry assessment program. Under the assessment program, the maximum payment requirement for each nuclear incident would be \$88.1 million per reactor, payable at a rate of \$10 million per licensed reactor per incident per year. Entergy has six licensed reactors, including Pilgrim. As a co-licensee of Grand Gulf 1 with System Energy, SMEPA would share 10% of this obligation. In addition, each owner/licensee of Entergy's six nuclear units participates in a private insurance program that provides coverage for worker tort claims filed for bodily injury caused by radiation exposure. The program provides for a maximum assessment of approximately \$18.6 million for the six nuclear units in the event that losses exceed accumulated reserve funds.

Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, System Energy, and Entergy's non-utility nuclear power business are also members of certain insurance programs that provide coverage for property damage, including decontamination and premature decommissioning expense, to members' nuclear generating plants. As of December 31, 1999, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy were each insured against such losses up to \$2.3 billion. Entergy's non-utility nuclear power business is insured for \$1.115 billion in property damages for Pilgrim under these insurance programs. In addition, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and Entergy's non-utility nuclear power business are members of an insurance program that covers certain replacement power and business interruption costs incurred due to prolonged nuclear unit outages. Under the property damage and replacement power/business interruption insurance programs, these Entergy subsidiaries could be subject to assessments if losses exceed the accumulated funds available to the insurers. As of December 31, 1999, the maximum amounts of such possible assessments were: Entergy Arkansas - \$16.6 million; Entergy Gulf States - \$14.1 million; Entergy Louisiana - \$15.3 million; Entergy Mississippi - \$0.5 million; Entergy New Orleans - \$0.3 million; System Energy - \$12.7 million, and Entergy's non-utility nuclear power business - \$7.3 million. Under its agreement with System Energy, SMEPA would share in System Energy's obligation.

The amount of property insurance maintained for each Entergy nuclear unit exceeds the NRC's minimum requirement for nuclear power plant licensees of \$1.06 billion per site. NRC regulations provide that the proceeds of this insurance must be used, first, to render the reactor safe and stable, and second, to complete decontamination operations. Only after proceeds are dedicated for such use and regulatory approval is secured would any remaining proceeds be made available for the benefit of plant owners or their creditors.

Spent Nuclear Fuel and Decommissioning Costs (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy)

Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, System Energy, and Entergy's non-utility nuclear power business provide for estimated future disposal costs for spent nuclear fuel in accordance with the Nuclear Waste Policy Act of 1982. The affected Entergy companies entered into contracts with the DOE, whereby the DOE will furnish disposal service at a cost of one mill per net KWH generated

and sold after April 7, 1983, plus a one-time fee for generation prior to that date. Entergy Arkansas is the only Entergy company that generated electricity with nuclear fuel prior to that date and has recorded a liability as of December 31, 1999 of approximately \$136 million for the one-time fee. The fees payable to the DOE may be adjusted in the future to assure full recovery. Entergy's non-utility nuclear power business has accepted assignment of the Pilgrim spent fuel disposal contract with the DOE previously held by Boston Edison. Boston Edison has paid to the DOE the fees for all generation prior to the July 1999 purchase date. Entergy considers all costs incurred for the disposal of spent nuclear fuel, except accrued interest, to be proper components of nuclear fuel expense. Provisions to recover such costs have been or will be made by the domestic utility companies in applications to regulatory authorities.

Delays have occurred in the DOE's program for the acceptance and disposal of spent nuclear fuel at a permanent repository. Considerable uncertainty exists regarding the time frame under which the DOE will begin to accept spent fuel from Entergy facilities for storage or disposal.

Pending DOE acceptance and disposal of spent nuclear fuel, the owners of nuclear plants are responsible for their own spent fuel storage. Current on-site spent fuel storage capacity at Grand Gulf 1 and River Bend is estimated to be sufficient until approximately 2005 and 2003, respectively. The spent fuel pool at Waterford 3 was recently expanded through the replacement of the existing storage racks with higher density storage racks. This expansion should provide sufficient storage for Waterford 3 until after 2010. An ANO storage facility using dry casks began operation in 1996 and is being expanded in 2000. Current on-site spent fuel storage capacity at ANO, including the current expansion, is estimated to be sufficient until approximately 2002. This facility may be further expanded as required. The spent fuel storage facility at Pilgrim is expected to provide storage capacity until approximately 2003. Entergy plans to modify the facility to provide sufficient spent fuel storage capacity through approximately 2012.

The cost of adding additional spent fuel storage capacity as needed at each site will be reassessed in 2000. In December 1999, Entergy Arkansas, System Energy, and Entergy Gulf States issued requests for proposals for additional dry storage capacity at ANO, Grand Gulf 1, and River Bend, respectively.

Total approved decommissioning costs for rate recovery purposes as of December 31, 1999, for the domestic utility companies' nuclear power plants, excluding the co-owner share of Grand Gulf 1, have been estimated as follows:

	Total Estimated Approved Decommissioning Costs (In Millions)
ANO 1 and ANO 2 (based on a 1998 cost study reflecting 1997 dollars)	\$ 813.1
River Bend (based on a 1996 cost study reflecting 1996 dollars)	419.0
Waterford 3 (based on a 1994 updated study in 1993 dollars)	320.1
Grand Gulf 1 (based on a 1994 cost study using 1993 dollars)	365.9

	\$1,918.1
	=====

Decommissioning cost updates were prepared for Waterford 3 and Grand Gulf in 1999 and produced revised decommissioning cost updates of \$481.5 million and \$540.8 million, respectively. The cost update for Waterford 3 will be included in a filing with the LPSC in the second quarter of 2000. The cost update for Grand Gulf has not yet been filed with FERC.

Entergy Arkansas and Entergy Louisiana are authorized to recover in rates amounts that, when added to estimated investment income, should be sufficient to meet the above approved decommissioning costs for ANO and Waterford 3, respectively.

As part of the Pilgrim purchase, Boston Edison funded a \$471.3 million decommissioning trust fund, which was transferred to Entergy's non-utility nuclear power business. After a favorable tax determination regarding the trust fund, Entergy returned \$43 million of the trust fund to Boston Edison. Based on cost estimates provided by an outside consultant, Entergy believes that Pilgrim's decommissioning fund will be adequate to cover future decommissioning costs for the Pilgrim plant without any additional deposits to the trust.

In the Texas retail jurisdiction, Entergy Gulf States is recovering in rates River Bend decommissioning costs that total \$385.2 million, based on a 1996 cost study. Entergy Gulf States included decommissioning costs of \$513.3 million based on a 1998 cost update amount of \$562.7 million in the PUCT rate review filed in November 1998. The PUCT ordered that Entergy Gulf States continue funding at the level based on the 1996 study. In the Louisiana retail jurisdiction, Entergy Gulf States included decommissioning costs, based on the 1996 study, in the LPSC rate reviews filed in May 1996, 1997, and 1998. In June 1996, a rate change was implemented that included decommissioning revenue requirements based on the 1996 study. In September 1998, the LPSC issued an order accepting the 1996 cost study amount of \$419 million. In the May 1999 rate review, Entergy Gulf States included decommissioning costs based on the 1998 update of \$562.7 million.

System Energy was previously recovering in rates amounts sufficient to fund \$198 million (in 1989 dollars) of its Grand Gulf 1 decommissioning costs. System Energy included updated decommissioning costs (based on the 1994 study) in its pending rate increase filing with FERC. Rates requested in this proceeding were placed into effect in December 1995, subject to refund. FERC has not yet issued an order in the rate case.

Entergy periodically reviews and updates estimated decommissioning costs. Although Entergy is presently under-recovering for Grand Gulf, Waterford 3, and River Bend based on the above estimates, applications have been and will continue to be made to the appropriate regulatory authorities to reflect projected decommissioning costs in rates. The amounts recovered in rates are deposited in trust funds and reported at market value based upon market quotes or as determined by widely used pricing services. These trust fund assets largely offset the accumulated decommissioning liability that is recorded as accumulated depreciation for Entergy Arkansas, Entergy Gulf States, and Entergy Louisiana, and are recorded as deferred credits for System Energy and Entergy's non-utility nuclear power business. The liability associated with the trust funds received from Cajun with the transfer of Cajun's 30% share of River Bend is also recorded as a deferred credit by Entergy Gulf States.

The cumulative liabilities and actual decommissioning expenses recorded in 1999 by Entergy were as follows:

	Cumulative Liabilities as of December 31, 1998	1999 Trust Earnings (In Millions)	1999 Decommissioning Expenses	Other	Cumulative Liabilities as of December 31,
ANO 1 and ANO 2	\$ 253.4	\$ 7.6	\$ 10.7	\$ -	\$ 271.7
River Bend	190.3	5.6	7.6	-	203.5
Waterford 3	71.9	2.3	8.8	-	83.0
Grand Gulf 1	107.3	3.2	18.9	-	129.4
Pilgrim (1)	-	-	6.8	428.0	434.8
	-----	-----	-----	-----	-----
	\$ 622.9	\$ 18.7	\$ 52.8	\$428.0	\$ 1,122.4
	=====	=====	=====	=====	=====

(1) The \$428 million reflected above for Pilgrim represents Entergy's estimate of the present value of Pilgrim's decommissioning liability at the time of Entergy's purchase of Pilgrim. Pilgrim's trust earnings are not shown as an increase to its decommissioning liability because it is not subject to regulatory treatment.

In 1998 and 1997, ANO's decommissioning expense was \$15.6 million and \$17.3 million, respectively; River Bend's decommissioning expense was \$3.4 million and \$8.9 million, respectively; Waterford 3's decommissioning expense was \$8.8 million in both years, and Grand Gulf 1's decommissioning expense was \$18.9 million in both years. The actual decommissioning costs may vary from the estimates because of regulatory requirements, changes in technology, and increased costs of labor, materials, and equipment.

The EPAAct contains a provision that assesses domestic nuclear utilities with fees for the decontamination and decommissioning of the DOE's past uranium enrichment operations. The decontamination and decommissioning assessments are being used to set up a fund into which contributions from utilities and the federal government will be placed. Annual assessments (in 1999 dollars), which will be adjusted annually for inflation, are for 15 years and are approximately \$3.9 million for Entergy Arkansas, \$1.0 million for Entergy Gulf States, \$1.5 million for Entergy Louisiana, and \$1.6 million for System Energy. DOE fees are included in other current liabilities and other noncurrent liabilities and, as of December 31, 1999, recorded liabilities were \$27.0 million for Entergy Arkansas, \$4.7 million for Entergy Gulf States, \$10.3 million for Entergy Louisiana, and \$10.0 million for System Energy. These liabilities were offset in the consolidated financial statements by regulatory assets. FERC requires that utilities treat these assessments as costs of fuel as they are amortized and recover these costs through rates in the same manner as other fuel costs.

ANO Matters (Entergy Corporation and Entergy Arkansas)

Cracks in steam generator tubes at ANO 2 were discovered and repaired during an outage in March 1992. Further inspections and repairs were conducted during subsequent refueling and mid-cycle outages, including the most recent mid-cycle outage in November 1999. Turbine modifications were installed in May 1997 to restore most of the output lost due to steam generator fouling and tube plugging. In October 1996, the Board authorized Entergy Arkansas and Entergy Operations to fabricate and install replacement steam generators at ANO 2. Entergy Operations thereafter entered into contracts for the design, fabrication, and installation of replacement steam generators. In December 1998, the APSC issued an order finding replacement of the ANO 2 steam generators is in the public interest. It is anticipated that the steam generators will be installed during a planned refueling outage in September 2000. Entergy estimates the cost of fabrication and replacement of the steam generators to be approximately \$150 million.

Environmental Issues

(Entergy Gulf States)

Entergy Gulf States has been designated as a PRP for the clean-up of certain hazardous waste disposal sites. Entergy Gulf States is currently negotiating with the EPA and state authorities regarding the clean-up of these sites. Several class action and other suits have been filed in state and federal courts seeking relief from Entergy Gulf States and others for damages caused by the disposal of hazardous waste and for asbestos-related disease allegedly resulting from exposure on Entergy Gulf States' premises. While the amounts at issue in the clean-up efforts and suits may be substantial, Entergy Gulf States believes that its results of operations and financial condition will not be materially adversely affected by the outcome of the suits. As of December 31, 1999, a remaining provision of \$19.1 million existed relating to the clean-up of the remaining sites at which Entergy Gulf States has been designated as a PRP.

(Entergy Louisiana and Entergy New Orleans)

During 1993, the LDEQ issued new rules for solid waste regulation, including regulation of wastewater impoundments. Entergy Louisiana and Entergy New Orleans have determined that certain of their power plant wastewater impoundments were affected by these regulations and have chosen to upgrade or close them. As a result, a remaining recorded liability in the amount of \$5.9 million for Entergy Louisiana and \$0.5 million for Entergy New Orleans existed at December 31, 1999 for wastewater upgrades and closures. Completion of this work is pending LDEQ approval.

City Franchise Ordinances (Entergy New Orleans)

Entergy New Orleans provides electric and gas service in the City of New Orleans pursuant to franchise ordinances. These ordinances contain a continuing option for the city to purchase Entergy New Orleans' electric and gas utility properties.

Waterford 3 Lease Obligations (Entergy Louisiana)

On September 28, 1989, Entergy Louisiana entered into three identical transactions for the sale and leaseback of undivided interests (aggregating approximately 9.3%) in Waterford 3. In July 1997, Entergy Louisiana caused the lessors to issue \$307.6 million aggregate principal amount of Waterford 3 Secured Lease Obligation Bonds, 8.76% Series due 2017, to refinance the outstanding bonds originally issued to finance the purchase of the undivided interests by the lessors. The lease payments were reduced to reflect the lower interest costs. Upon the occurrence of certain events, Entergy Louisiana may be obligated to pay amounts sufficient to permit the termination of the lease transactions and may be required to assume the outstanding bonds issued to finance, in part, the lessors' acquisition of the undivided interests in Waterford 3.

Employment Litigation (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and Entergy New Orleans)

Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and Entergy New Orleans are defendants in numerous lawsuits filed by former employees asserting that they were wrongfully terminated and/or discriminated against on the basis of age, race, and/or sex. Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and Entergy New Orleans are vigorously defending these suits and deny any liability to the plaintiffs. However, no assurance can be given as to the outcome of these cases.

Cajun - Coal Contracts (Entergy Corporation and Entergy Gulf States)

Entergy Gulf States filed declaratory judgment actions in the U.S. Bankruptcy Court in which the Cajun bankruptcy case is pending. These actions were filed to seek rulings declaring that Entergy Gulf States is not liable for damages to certain coal suppliers and the rail and barge companies that transport coal to Big Cajun 2, Unit 3 if their contracts were rejected in the bankruptcy proceeding. Collectively, the coal suppliers and transporters asserted claims in the Cajun bankruptcy case that exceeded \$1.6 billion. In October 1999, the bankruptcy court confirmed a plan of reorganization in the bankruptcy case pursuant to a settlement agreement among the parties. The settlement agreement and plan of reorganization effectively release Entergy Gulf States from any claims asserted by the coal suppliers and transporters for Big Cajun 2. The settlement agreement is subject to regulatory approvals.

Grand Gulf 1-Related Agreements

Capital Funds Agreement (Entergy Corporation and System Energy)

Entergy Corporation has agreed to supply System Energy with sufficient capital to (i) maintain System Energy's equity capital at an amount equal to a minimum of 35% of its total capitalization (excluding short-term debt), and (ii) permit the continued commercial operation of Grand Gulf 1 and pay in full all indebtedness for borrowed money of System Energy when due. In addition, under supplements to the Capital Funds Agreement assigning System Energy's rights as security for specific debt of System Energy, Entergy Corporation has agreed to make cash capital contributions to enable System Energy to make payments on such debt when due.

System Energy has entered into agreements with Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans whereby they are obligated to purchase their respective entitlements of capacity and energy from System Energy's 90% ownership and leasehold interest in Grand Gulf 1, and to make payments that, together with other available funds, are adequate to cover System Energy's operating expenses. System Energy would have to secure funds from other sources, including Entergy Corporation's obligations under the Capital Funds Agreement, to cover any shortfalls from payments received from Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans under these agreements.

Unit Power Sales Agreement (Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

System Energy has agreed to sell all of its 90% owned and leased share of capacity and energy from Grand Gulf 1 to Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans in accordance with specified percentages (Entergy Arkansas-36%, Entergy Louisiana-14%, Entergy Mississippi-33%, and Entergy New Orleans-17%) as ordered by FERC. Charges under this agreement are paid in consideration for the purchasing companies' respective entitlement to receive capacity and energy and are payable irrespective of the quantity of energy delivered so long as the unit remains in commercial operation. The agreement will remain in effect until terminated by the parties and the termination is approved by FERC, most likely upon Grand Gulf 1's retirement from service. Monthly obligations for payments under the agreement are approximately \$21 million for Entergy Arkansas, \$8 million for Entergy Louisiana, \$19 million for Entergy Mississippi, and \$10 million for Entergy New Orleans.

Availability Agreement (Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans are individually obligated to make payments or subordinated advances to System Energy in accordance with stated percentages (Entergy Arkansas-17.1%, Entergy Louisiana-26.9%, Entergy Mississippi-31.3%, and Entergy New Orleans-24.7%) in amounts that, when added to amounts received under the Unit Power Sales Agreement or otherwise, are adequate to cover all of System Energy's operating expenses as defined, including an amount sufficient to amortize the cost of Grand Gulf 2 over 27 years. (See Reallocation Agreement terms below.) System Energy has assigned its rights to payments and advances to certain creditors as security for certain obligations. Since commercial operation of Grand Gulf 1, payments under the Unit Power Sales Agreement have exceeded the amounts payable under the Availability Agreement. Accordingly, no payments under the Availability Agreement have ever been required. If Entergy Arkansas or Entergy Mississippi fails to make its Unit Power Sales Agreement payments, and System Energy is unable to obtain funds from other sources, Entergy Louisiana and Entergy New Orleans could become subject to claims or demands by System Energy or its creditors for payments or advances under the Availability Agreement (or the assignments thereof) equal to the difference between their required Unit Power Sales Agreement payments and their required Availability Agreement payments.

Reallocation Agreement (Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

System Energy, Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans entered into the Reallocation Agreement relating to the sale of capacity and energy from Grand Gulf and the related costs, in which Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans agreed to assume all of Entergy Arkansas' responsibilities and obligations with respect to Grand Gulf under the Availability Agreement. FERC's decision allocating a portion of Grand Gulf 1 capacity and energy to Entergy Arkansas supersedes the Reallocation Agreement as it relates to Grand Gulf 1. Responsibility for any Grand Gulf 2 amortization amounts has been individually allocated (Entergy Louisiana-26.23%, Entergy Mississippi-43.97%, and Entergy New Orleans-29.80%) under the terms of the Reallocation Agreement. However, the Reallocation Agreement does not affect Entergy Arkansas' obligation to System Energy's lenders under the assignments referred to in the preceding paragraph. Entergy Arkansas would be liable for its share of such amounts if Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans were unable to meet their contractual obligations. No payments of any amortization amounts will be required so long as amounts paid to System Energy under the Unit Power Sales Agreement, including other funds available to System Energy, exceed amounts required under the Availability Agreement, which is expected to be the case for the foreseeable future.

Reimbursement Agreement (System Energy)

In December 1988, System Energy entered into two separate, but identical, arrangements for the sale and leaseback of an approximate aggregate 11.5% ownership interest in Grand Gulf 1. In connection with the equity funding of the sale and leaseback arrangements, letters of credit are required to be maintained to secure certain amounts payable for the benefit of the equity investors by System Energy under the leases. The current letters of credit are effective until March 20, 2003.

Under the provisions of a bank letter of credit reimbursement agreement, System Energy has agreed to a number of covenants relating to the maintenance of certain capitalization and fixed charge coverage ratios. System Energy agreed, during the term of the reimbursement agreement, to maintain its equity at not less than 33% of its adjusted capitalization (defined in the reimbursement agreement to include certain amounts not included in capitalization for financial statement purposes). In addition, System Energy must maintain, with respect to each fiscal quarter during the term of the reimbursement agreement, a ratio of adjusted net income to interest expense (calculated, in each case, as specified in the reimbursement agreement) of at least 1.60 times earnings. As of December 31, 1999, System Energy's equity approximated 40.57% of its adjusted capitalization, and its fixed charge coverage ratio for 1999 was 1.92.

In addition to those discussed above, Entergy and the domestic utility companies are involved in a number of legal proceedings and claims in the ordinary course of their business. While management is unable to predict the outcome of such litigation, it is not expected that the ultimate resolution of these matters will have a material adverse effect on results of operations, cash flows, or financial condition of these entities.

NOTE 10. LEASES

General

As of December 31, 1999, Entergy had capital leases and non-cancelable operating leases for equipment, buildings, vehicles, and fuel storage facilities (excluding nuclear fuel leases and the sale and leaseback transactions) with minimum lease payments as follows:

Year	Capital Leases		
	Entergy	Entergy Arkansas (In Thousands)	Entergy Gulf States
2000	\$25,379	\$9,645	\$11,829
2001	23,676	9,645	11,853
2002	19,414	9,645	9,720
2003	19,414	9,645	9,720
2004	19,414	9,645	9,720
Years thereafter	39,882	23,034	16,746
Minimum lease payments	147,179	71,259	69,588
Less: Amount Representing interest	48,570	26,067	21,852
Present value of net minimum lease payments	\$98,609	\$45,192	\$47,736

Year	Operating Leases			
	Entergy	Entergy Arkansas	Entergy Gulf States (In Thousands)	Entergy Louisiana
2000	\$88,978	\$30,228	\$23,322	
\$8,727				
2001	77,761	29,203	20,453	
4,742				
2002	60,338	24,545	16,804	
4,160				
2003	43,422	13,082	14,435	
2,570				
2004	40,173	12,004	14,031	
1,653				
Years thereafter	127,346	33,618	40,073	
1,973				
Minimum lease payments	\$438,018	\$142,680	\$129,118	
\$23,825				

Rental expense for Entergy's leases (excluding nuclear fuel leases and the Grand Gulf 1 and Waterford 3 sale and leaseback transactions) amounted to approximately \$65.2 million, \$69.4 million, and \$70.7 million, in 1999, 1998, and 1997, respectively. These amounts include \$23.9 million, \$19.4 million, and \$19.7 million, respectively, for Entergy Arkansas; \$19.2 million, \$18.1 million, and \$17.6 million, respectively, for Entergy Gulf States; and \$13.1 million, \$13.3 million, and \$12.8 million, respectively, for Entergy Louisiana. In addition to the above rental expense, Entergy Arkansas and Entergy Gulf States railcar operating lease payments, which are recorded in fuel expense, amounted to approximately \$13.7 million and \$2.7 million, respectively, in 1999, 1998, and 1997. The railcar lease payments are recorded as fuel expense in accordance with regulatory treatment.

Nuclear Fuel Leases (Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, System Energy)

As of December 31, 1999, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy each had arrangements to lease nuclear fuel in an aggregate amount up to \$135 million, \$85 million, \$90 million, and \$100 million, respectively. As of December 31, 1999, the unrecovered cost base of Entergy Arkansas', Entergy Gulf States', Entergy Louisiana's, and System Energy's nuclear fuel leases amounted to approximately \$85.7 million, \$70.8 million, \$51.9 million, and \$78 million, respectively. The lessors finance the acquisition and ownership of nuclear fuel through credit agreements and the issuance of intermediate-term notes. The credit agreements for Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, and System Energy have termination dates of December 2000, December 2000, January 2002, and February 2001, respectively. Such termination dates may be extended from time to time with the consent of the lenders. The intermediate-term notes issued pursuant to these fuel lease arrangements have varying maturities through March 15, 2002. It is expected that additional financing under the leases will be arranged as needed to acquire additional fuel, to pay interest, and to pay maturing debt. However, if such additional financing cannot be arranged, the lessee in each case must repurchase sufficient nuclear fuel to allow the lessor to meet its obligations.

Lease payments are based on nuclear fuel use. The table below represents the total nuclear fuel lease payments (principal and interest) as well as the separate interest component charged to operations by the domestic utility companies and System Energy in 1999, 1998, and 1997:

	1999		1998		1997
Interest	Lease Payments	Interest	Lease Payments	Interest	Lease Payments
	(In Millions)				
Entergy Arkansas	\$48.6	\$5.6	\$50.5	\$4.9	\$53.7
\$6.4					
Entergy Gulf States	31.4	1.8	36.1	3.1	25.7
3.2					
Entergy Louisiana	29.7	3.7	36.8	3.9	29.4
3.7					
System Energy	28.1	3.4	35.4	4.7	41.1
5.4					
Total	\$137.8	\$14.5	\$158.8	\$16.6	\$149.9
\$18.7					

Sale and Leaseback Transactions

Waterford 3 Lease Obligations (Entergy Louisiana)

In 1989, Entergy Louisiana sold and leased back 9.3% of its interest in Waterford 3 for the aggregate sum of \$353.6 million. The lease has an approximate term of 28 years. The lessors financed the sale-leaseback through the issuance of Waterford 3 Secured Lease Obligation Bonds. The lease payments made by Entergy Louisiana are sufficient to service the debt.

In 1994, Entergy Louisiana did not exercise its option to repurchase the 9.3% interest in Waterford 3. As a result, Entergy Louisiana issued \$208.2 million of non-interest bearing first mortgage bonds as collateral for the equity portion of certain amounts payable under the lease.

In 1997, the lessors refinanced the outstanding bonds used to finance the purchase of Waterford 3 at lower interest rates which reduced the annual lease payments.

Upon the occurrence of certain events, Entergy Louisiana may be obligated to assume the outstanding bonds used to finance the purchase of the unit and to pay an amount sufficient to withdraw from the lease transaction. Such events include lease events of default, events of loss, deemed loss events, or certain adverse "Financial Events." "Financial Events" include, among other things, failure by Entergy Louisiana, following the expiration of any applicable grace or cure period, to maintain (i) total equity capital (including preferred stock) at least equal to 30% of adjusted capitalization, or (ii) a fixed charge coverage ratio of at least 1.50 computed on a rolling 12 month basis.

As of December 31, 1999, Entergy Louisiana's total equity capital (including preferred stock) was 48.1% of adjusted capitalization and its fixed charge coverage ratio for 1999 was 3.49.

As of December 31, 1999, Entergy Louisiana had future minimum lease payments (reflecting an overall implicit rate of 7.45%) in connection with the Waterford 3 sale and leaseback transactions, which are recorded as long-term debt, as follows (in thousands):

Grand Gulf 1 Lease Obligations (System Energy)

In December 1988, System Energy sold and leased back 11.5% of its undivided ownership interest in Grand Gulf 1 for the aggregate sum of \$500 million. Subsequently, System Energy leased back its interest in the unit for a term of 26 1/2 years. System Energy has the option of terminating the lease and repurchasing the 11.5% interest in the unit at certain intervals during the lease. Furthermore, at the end of the lease term, System Energy has the option of renewing the lease or repurchasing the 11.5% interest in Grand Gulf 1.

System Energy is required to report the sale-leaseback as a financing transaction in its financial statements. For financial reporting purposes, System Energy expenses the interest portion of the lease obligation and the plant depreciation. However, operating revenues include the recovery of the lease payments because the transactions are accounted for as a sale and leaseback for ratemaking purposes. Until 2004, the total of interest and depreciation expense exceeds the corresponding revenues realized. Consistent with a recommendation contained in a FERC audit report, System Energy recorded as a net deferred asset the difference between the recovery of the lease payments and the amounts expensed for interest and depreciation and is recording this difference as a deferred asset on an ongoing basis. The amount of this deferred asset was \$104.5 million and \$85.9 million as of December 31, 1999 and 1998, respectively.

As of December 31, 1999, System Energy had future minimum lease payments (reflecting an implicit rate of 7.02%), which are recorded as long-term debt as follows (in thousands):

NOTE 11. RETIREMENT AND OTHER POSTRETIREMENT BENEFITS (Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

Pension Plans

Entergy has two postretirement benefit plans, "Entergy Corporation Retirement Plan for Non-Bargaining Employees" and "Entergy Corporation Retirement Plan for Bargaining Employees," covering substantially all of its domestic employees. The pension plans are noncontributory and provide pension benefits that are based on employees' credited service and compensation during the final years before retirement. Entergy Corporation and its subsidiaries fund pension costs in accordance with contribution guidelines established by the Employee Retirement Income Security Act of 1974, as amended, and the Internal Revenue Code of 1986, as amended. The assets of the plans include common and preferred stocks, fixed-income securities, interest in a money market fund, and insurance contracts.

Total 1999, 1998, and 1997 pension cost of Entergy Corporation and its subsidiaries, including amounts capitalized, included the following components (in thousands):

1999	Entergy	Entergy Arkansas	Entergy Gulf States
Service cost - benefits earned during the period	\$39,327	\$8,723	\$6,531

* Reflects the disposition of London Electricity and Citpower effective in December 1998.

Other Postretirement Benefits

Entergy also provides health care and life insurance benefits for retired employees. Substantially all domestic employees may become eligible for these benefits if they reach retirement age while still working for Entergy.

Effective January 1, 1993, Entergy adopted SFAS 106, which required a change from a cash method to an accrual method of accounting for postretirement benefits other than pensions. At January 1, 1993, the actuarially determined accumulated postretirement benefit obligation (APBO) earned by retirees and active employees was estimated to be approximately \$241.4 million and \$128 million for Entergy (other than Entergy Gulf States) and for Entergy Gulf States, respectively. Such obligations are being amortized over a 20-year period which began in 1993.

Entergy Arkansas, the portion of Entergy Gulf States regulated by the PUCT, Entergy Mississippi, and Entergy New Orleans have received regulatory approval to recover SFAS 106 costs through rates. Entergy Arkansas began recovery in 1998, pursuant to an APSC order. This order also allowed Entergy Arkansas to amortize a regulatory asset (representing the difference between SFAS 106 costs and cash expenditures for other postretirement benefits incurred for a five-year period that began January 1, 1993) over a period of 15 years beginning in January 1998.

The LPSC ordered the portion of Entergy Gulf States regulated by the LPSC and Entergy Louisiana to continue the use of the pay-as-you-go method for ratemaking purposes for postretirement benefits other than pensions. However, the LPSC retains the flexibility to examine individual companies' accounting for postretirement benefits to determine if special exceptions to this order are warranted.

Pursuant to regulatory directives, Entergy Arkansas, Entergy Mississippi, Entergy New Orleans, the portion of Entergy Gulf States regulated by the PUCT, and System Energy fund postretirement benefit obligations collected in rates. System Energy is funding on behalf of Entergy Operations postretirement benefits associated with Grand Gulf

1. Entergy Louisiana and Entergy Gulf States continue to recover a portion of these benefits regulated by the LPSC and FERC on a pay-as-you-go basis. The assets of the various postretirement benefit plans other than pensions include common stocks, fixed-income securities, and a money market fund.

Total 1999, 1998, and 1997 postretirement benefit costs of Entergy Corporation and its subsidiaries, including amounts capitalized and deferred, included the following components (in thousands):

Employer contributions	52,372	18,151	12,095	4,103	7,611	6,177	1,947
Benefits paid	(27,097)	(7,090)	(7,446)	(4,103)	(2,271)	(3,552)	(347)
Fair value of assets at 12/31/98	\$89,579	\$11,774	\$31,510	\$ -	\$18,759	\$20,380	\$7,156
Funded status	(\$354,930)	(\$90,082)	(\$92,921)	(\$63,449)	(\$13,645)	(\$20,458)	(\$1,931)
Unrecognized transition obligation	160,613	55,344	81,247	41,604	21,027	37,505	3,670
Unrecognized prior service cost	379	-	379	-	-	-	-
Unrecognized net (gain)/loss	24,704	3,403	(14,186)	(7,351)	(4,539)	(12,337)	(3,308)
Prepaid/(accrued) postretirement benefit asset/(liability)	(\$169,234)	(\$31,335)	(\$25,481)	(\$29,196)	\$2,843	\$4,710	(\$1,569)

The assumed health care cost trend rate used in measuring the APBO of Entergy was 5.5% for 2000, gradually decreasing each successive year until it reaches 5.0% in 2005 and beyond. A one percentage-point change in the assumed health care cost trend rate for 1999 would have the following effects (in thousands):

1999	1 Percentage Point Increase		1 Percentage Point Decrease	
	Increase in the APBO	Increase in the sum of service cost and interest cost	Decrease in the APBO	Decrease in the sum of service cost and interest cost
Entergy	\$34,514	\$5,284	(\$29,203)	(\$4,356)
Entergy Arkansas	\$7,379	\$1,156	(\$6,261)	(\$955)
Entergy Gulf States	\$10,041	\$1,281	(\$8,520)	(\$1,064)
Entergy Louisiana	\$4,450	\$657	(\$3,782)	(\$544)
Entergy Mississippi	\$2,284	\$319	(\$1,940)	(\$263)
Entergy New Orleans	\$2,329	\$249	(\$2,012)	(\$211)
System Energy	\$1,021	\$233	(\$845)	(\$189)

The significant actuarial assumptions used in determining the pension PBO and the SFAS 106 APBO for 1999, 1998, and 1997 were as follows:

1997	1999	1998
Weighted-average discount rate 7.25%	7.5%	6.75%
Weighted-average rate of increase in future compensation levels 4.6%	4.6%	4.6%
Expected long-term rate of return on plan assets 9.0%	9.0%	9.0%

Entergy's pension transition assets are being amortized over the greater of the remaining service period of active participants or 15 years and its SFAS 106 transition obligations are being amortized over 20 years.

NOTE 12. DISPOSITIONS AND ACQUISITIONS (Entergy Corporation)

Business Dispositions

As part of the new strategic plan adopted by Entergy in August 1998, Entergy sold several businesses during 1998, including the following:

Business (Loss)	Pre-tax Gain on Sale (In Millions)
London Electricity	\$327
CitiPower (a)	38
Efficient Solutions, Inc.	(69)

(a) The gain on the CitiPower sale reflects a \$7.6 million favorable adjustment to the final sale price in January 1999.

In keeping with this plan, in January 1999, Entergy disposed of its security monitoring subsidiary, Entergy Security, Inc. at a minimal gain. Several telecommunication businesses were sold in June, also at small gains.

The results of operations of these businesses are included in Entergy's Consolidated Statements of Income through their respective dates of sale.

Gains and losses arising from sales of businesses are included in "Other Income (Deductions), Gain on sale of assets - net" in that statement.

Asset Acquisition

On July 13, 1999, Entergy's non-utility nuclear power business acquired the 670 MW Pilgrim Nuclear Station located in Plymouth, Massachusetts from Boston Edison. The acquisition included the plant, real estate, materials and supplies, and nuclear fuel, for a total purchase price of \$81 million. The purchase price was funded with a portion of the proceeds from the sales of non-regulated businesses. As part of the Pilgrim purchase, Boston Edison funded a \$471 million decommissioning trust fund, which was transferred to an Entergy subsidiary. Based on a favorable tax determination regarding the trust fund, Entergy returned \$43 million of the trust fund to Boston Edison.

NOTE 13. TRANSACTIONS WITH AFFILIATES (Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

The domestic utility companies purchase electricity from and/or sell electricity to the other domestic utility companies, System Energy, and Entergy Power (in the case of Entergy Arkansas) under rate schedules filed with FERC. In addition, the domestic utility companies and System Energy purchase fuel from System Fuels; receive management, technical, advisory, operating, and administrative services from Entergy Services; and receive management, technical, and operating services from Entergy Operations. Pursuant to SEC rules under PUHCA, these transactions normally are on an "at cost" basis.

As described in Note 1 to the financial statements, all of System Energy's operating revenues consist of billings to Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans.

The tables below contain the various affiliate transactions among the domestic utility companies and System Energy (in millions).

NOTE 14. BUSINESS SEGMENT INFORMATION (Entergy Corporation and Entergy New Orleans)

In 1998, Entergy adopted SFAS 131, "Disclosures about Segments of an Enterprise and Related Information." Entergy's reportable segments as of December 31, 1999 are domestic utility and power marketing and trading. Entergy's international electric distribution businesses, Entergy London and CitiPower, were sold in December 1998. These businesses would have been a reportable segment had they been held as of December 31, 1998, and financial information regarding them is also provided below.

Domestic utility provides retail electric service in portions of Arkansas, Louisiana, Mississippi, and Texas, and provides natural gas utility service in portions of Louisiana. Entergy's power marketing and trading segment markets wholesale electricity, gas, other generating fuels, and electric capacity, and markets financial instruments to third parties. Entergy's operating segments are strategic business units managed separately due to their different operating and regulatory environments.

Entergy's segment financial information is as follows (in thousands):

	Domestic Utility and System Energy	Power Marketing and Trading*	Entergy London*	CitiPower*	All Other*	Eliminations	Consolidated

Businesses marked with * are referred to as the "competitive businesses," with the exception of the parent company, Entergy Corporation, which is also included in the "All Other" column. The All Other category includes the parent Entergy Corporation, segments below the quantitative threshold for separate disclosure, and other business activities. Other segments principally include global power development and non-utility nuclear power operations and management. Other business activities principally include the gains on the sales of businesses. Reconciling items are principally intersegment activity.

Products and Services

In addition to retail electric service, Entergy New Orleans supplies natural gas services in the City of New Orleans. Revenue from these two services is disclosed in Entergy New Orleans' Income Statements.

Geographic areas

For the years ended December 31, 1999, 1998, and 1997, Entergy did not derive material revenues from outside of the United States, other than from Entergy London and CitiPower, which are noted above.

Long-lived assets as of December 31 were as follows (in thousands):

	1999	1998	1997
Domestic	\$14,590,346	\$14,863,488	
\$15,228,107			
Foreign	910,408	465,094	
2,904,721			

Consolidated	\$15,500,754	\$15,328,582	
\$18,132,828			
=====

NOTE 15. RISK MANAGEMENT AND FAIR VALUES (Entergy Corporation)

Commodity Derivatives

Entergy uses a variety of commodity derivatives, including natural gas and electricity futures, forwards, and options, as a part of its overall risk management strategy.

The power marketing and trading business engages in the trading of commodity instruments and, therefore, experiences net open positions. The business manages open positions with policies that limit its exposure to market risk and require daily reporting to management of potential financial exposure. These policies include statistical risk tolerance limits using historical price movements to calculate a value at risk measurement. The weighted-average life of the business' commodity risk portfolio was less than 18 months at December 31, 1999 and less than 12 months at December 31, 1998.

At December 31, 1999 and 1998, the power marketing and trading business had outstanding absolute notional contract quantities as follows (power volumes in thousands of megawatt hours, natural gas volumes in thousands of British thermal units):

	1999	1998
Energy Commodities:		
Power	9,627	
33,682		
Natural gas	728,560	
1,209,791		

Market risk is the potential loss that Entergy may incur as a result of changes in the market or fair value of a particular instrument or commodity. All financial and commodity-related instruments, including derivatives, are subject to market risk. Entergy's exposure to market risk is determined by a number of factors, including the size, duration, composition, and diversification of positions held, as well as market volatility and liquidity. For instruments such as options, the time period during which the option may be exercised and the relationship between the current market price of the underlying instrument and the option's contractual strike or exercise price also affect the level of market risk. The most significant factor influencing the overall level of market risk to which Entergy is exposed is its use of hedging techniques to mitigate such risk. Entergy manages market risk by actively monitoring compliance with stated risk management policies as well as monitoring the effectiveness of its hedging policies and strategies. Entergy's risk management policies limit the amount of total net exposure and rolling net exposure during the stated periods. These policies, including related risk limits, are regularly assessed to ensure their appropriateness given Entergy's objectives.

The New York Mercantile Exchange (Exchange) guarantees futures and option contracts traded on the Exchange and there is nominal credit risk. On all other transactions described above, Entergy is exposed to credit risk in the event of nonperformance by the counterparties. For each counterparty, Entergy analyzes the financial condition prior to entering into an agreement, establishes credit limits, and monitors the appropriateness of these limits on an ongoing basis. In some circumstances, Entergy requires letters of credit or parental guarantees. Entergy also uses netting arrangements whenever possible to mitigate Entergy's exposure to counterparty risk. Netting arrangements enable Entergy to net certain assets and liabilities by counterparty.

The change in market value of Exchange-traded futures and options contracts requires daily cash settlement in margin accounts with brokers. Swap contracts and most other over-the-counter instruments are generally settled at the expiration of the contract term and may be subject to margin requirements with the counterparty.

Entergy's principal markets for power and natural gas marketing services are utilities and industrial end-users located throughout the United States and the UK. The power marketing and trading business has a concentration of receivables due from those customers. These industry concentrations may affect the power marketing and trading business' overall credit risk, either positively or negatively, in that changes in economic, industry, regulatory, or other conditions may similarly affect certain customers. Trade receivables are generally not collateralized. However, Entergy analyzes customers' credit positions prior to extending credit, establishes credit limits, and monitors the appropriateness of these limits on an ongoing basis.

Fair Values

Commodity Instruments

Fair value estimates of the power marketing and trading business' commodity instruments are made at discrete points in time based on relevant market information. These estimates may be subjective in nature and involve uncertainties and matters of significant judgment; therefore, actual results may differ from these estimates. At December 31, 1999 and 1998, the fair values of the power marketing and trading business' energy-related commodity contracts used for trading purposes were as follows:

	1999		1998	
	Assets	Liabilities	Assets	
Liabilities				
				(In Thousands)
Commodity Instruments:				
Natural Gas	\$43,542	\$39,361	\$150,130	\$150,311
Electricity	\$185,575	\$130,209	\$147,363	\$119,891

Financial Instruments

The estimated fair value of Entergy's financial instruments is determined using bid prices reported by dealer markets and by nationally recognized investment banking firms. The estimated fair value of derivative financial instruments is based on market quotes of the applicable interest rates. Considerable judgment is required in developing the estimates of fair value. Therefore, estimates are not necessarily indicative of the amounts that Entergy could realize in a current market exchange. In addition, gains or losses realized on financial instruments held by regulated businesses may be reflected in future rates and therefore do not accrue to the benefit or detriment of stockholders.

Entergy considers the carrying amounts of financial instruments classified as current assets and liabilities to be a reasonable estimate of their fair value because of the short maturity of these instruments. In addition, Entergy does not expect that performance of its obligations will be required in connection with certain off-balance sheet commitments and guarantees considered financial instruments. For these reasons, and because of the related-party nature of these commitments and guarantees, determination of fair value is not considered practicable. Additional

information regarding financial instruments and their fair values is included in Notes 4, 5, 6, and 7 to the financial statements.

NOTE 16. QUARTERLY FINANCIAL DATA (UNAUDITED) (Entergy Corporation,

Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy)

The business of the domestic utility companies and System Energy is subject to seasonal fluctuations with the peak periods occurring during the third quarter. Operating results for the four quarters of 1999 and 1998 were:

Operating Revenue

	Entergy	Entergy Arkansas	Entergy Gulf States	Entergy Louisiana	Entergy Mississippi	Entergy New Orleans	System Energy
	(In Thousands)						
1999:							
First Quarter	\$1,639,922	\$311,969	\$423,819	\$352,135	\$182,443	\$106,056	\$140,617

ENTERGY GULF STATES, INC.

Directors

Joseph F. Domino	51	President and Chief Executive Officer -Texas Director - Southwest Franchise of Entergy Gulf States	1999-Present 1998-Present 1997-1998
------------------	----	---	---

Each director and officer of the applicable Entergy company is elected yearly to serve by the unanimous consent of the sole stockholder, Entergy Corporation, at its annual meeting.

Section 16(a) Beneficial Ownership Reporting Compliance

Information called for by this item concerning the directors and officers of Entergy Corporation is set forth in the Proxy Statement of Entergy Corporation to be filed in connection with its Annual Meeting of Stockholders to be held on May 12, 2000, under the heading "Section 16(a) Beneficial Ownership Reporting Compliance", which information is incorporated herein by reference.

Item 11. Executive Compensation

ENTERGY CORPORATION

Information called for by this item concerning the directors and officers of Entergy Corporation is set forth in the Proxy Statement under the headings "Executive Compensation Tables", "General Information About Nominees", and "Director Compensation", which information is incorporated herein by reference.

ENTERGY ARKANSAS, ENTERGY GULF STATES, ENTERGY LOUISIANA, ENTERGY MISSISSIPPI, ENTERGY NEW ORLEANS, AND SYSTEM ENERGY

Summary Compensation Table

The following table includes the Chief Executive Officer and the four other most highly compensated executive officers in office as of December 31, 1999 at Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy (collectively, the "Named Executive Officers"). This determination was based on total annual base salary and bonuses from all Entergy sources earned by each officer for the year 1999. See Item 10, "Directors and Executive Officers of the Registrants," for information on the principal positions of the Named Executive Officers in the table below.

Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy

As shown in Item 10, most Named Executive Officers are employed by several Entergy companies. Because it would be impracticable to allocate such officers' salaries among the various companies, the table below includes the aggregate compensation paid by all Entergy companies.

Name	Year	Annual Compensation		Long-Term Compensation Awards		Restricted Stock Awards	Securities Underlying Options	(a) All Other Compensation
		Salary	Bonus	Other Annual Compensation				
C. Gary Clary	1999	\$ 254,080	\$193,423	\$ 0	(b)	28,025 shares	\$ 8,012

	1998	282,410	184,959	22,068	(b)	1,250	8,886	
	1997	227,928	0	19,143	(b)	2,500	6,954	

(a) Includes the following:

(1) 1999 benefit accruals under the Defined Contribution Restoration Plan as follows: Mr. Clary \$3,212; Mr. Cordaro \$638; Mr. Domino \$2,038; Mr. Gallaher \$8,745; Mr. Henderson \$1,866; Mr. Jackson \$10,697; Mr. Keith \$273; Mr. Meiners \$457; Mr. Packer \$1,783; Mr. Thompson \$6,480; Mr. Wilder \$8,832; Mr. Wright \$164; and Mr. Yelverton \$6,486.

(2) 1999 employer contributions to the System Savings Plan as follows: Mr. Clary \$4,800; Mr. Cordaro \$1,471; Mr. Domino \$4,800; Mr. Gallaher \$4,800; Mr. Henderson \$40; Mr. Jackson \$4,800; Mr. Keith \$3,187; Mr. Langston \$4,800; Mr. McNeal \$4,800; Mr. Meiners \$4,263; Mr. Packer \$4,800; Ms. Shanks \$4,800; Mr. Thompson \$4,800; Mr. Wilder \$4,400; Mr. Wright \$5,810; and Mr. Yelverton \$4,800.

(3) 1999 reimbursements for moving expenses as follows: Mr. Henderson \$20,077, Mr. Wilder \$6,803, and Mr. Wright \$26,382.

(4) 1999 payments to retired Named Executive Officers under the executive pension plans were as follows: Mr. Cordaro and Mr. Meiners received lump sum payments under the Post Retirement Plan and Pension Equalization Plan totaling \$1,302,974 and \$1,169,071, respectively. Mr. Meiners also received \$24,713 from the Defined Contribution Restoration Plan. Mr. Keith received payments under the Post Retirement Plan and the Pension Equalization Plan of \$141,341.

(b) There were no restricted stock awards in 1999 under the Equity Ownership Plan. At December 31, 1999, the number and value of the aggregate restricted stock holdings were as follows: Mr. Clary 12,945 shares, \$333,334; Mr. Cordaro 1,626 shares, \$41,870; Mr. Domino 3,002 shares, \$77,302; Mr. Gallaher 7,497 shares, \$193,048; Mr. Henderson 3,948 shares, \$101,661; Mr. Jackson 27,000 shares, \$695,250; Mr. Keith 1,992 shares, \$51,294; Mr. Langston 3,380 shares, \$87,035; Mr. Meiners 2,243 shares, \$57,757; Mr. Packer 4,500 shares, \$115,875; Ms. Shanks 2,382 shares, \$61,337; Mr. Thompson 14,834 shares, \$381,976; Mr. Wilder 39,111 shares, \$1,007,108; Mr. Wright 4,500 shares, \$115,875; and Mr. Yelverton 11,505 shares, \$296,254. Accumulated dividends are paid on restricted stock when vested. No restrictions were lifted in 1999, 1998, and 1997 under the Equity Ownership Plan. The value of restricted stock holdings as of December 31, 1999 is determined by multiplying the total number of shares held by the closing market price of Entergy Corporation common stock on the New York Stock Exchange Composite Transactions on December 31, 1999 (\$25.75 per share).

(c) In addition to the restricted shares granted under the Long Term Incentive Plan Mr. Wilder and Mr. Thompson were granted 26,000 and 2,000 additional restricted shares, respectively. Restricted shares awarded will vest incrementally over a three-year period, beginning in 1999, based on continued service with Entergy Corporation. Restrictions will be lifted annually. The value Mr. Wilder and Mr. Thompson may realize is dependent upon both the number of shares that vest and the future market price of Entergy Corporation common stock. Accumulated dividends will not be paid on 21,000 shares of Mr. Wilder's restricted stock when vested. Accumulated dividends will be paid on 5,000 shares of Mr. Wilder's restricted stock and all of Mr. Thompson's restricted stock when vested.

(d) Mr. Cordaro is the former Chief Executive Officer of Entergy Gulf States, LA and Entergy Louisiana. Mr. Keith is the former Chief Executive Officer of Entergy Arkansas. Mr. Meiners is the former Chief Executive Officer of Entergy Mississippi.

(e) Includes Mr. Packer's living expenses of approximately \$24,000 in 1998 and \$68,000 in 1997, including taxes and housing. Includes approximately \$30,000 in 1999, \$465,000 in 1998, and \$236,000 in 1997 related to various overseas living expenses associated with Mr. Wright's assignments in London and Australia.

(f) Includes approximately \$596,000 of performance bonus for service years 1996-1998. A portion of the bonus was paid during 1999 with the remaining amount to be paid in 2000.

Option Grants in 1999

The following table summarizes option grants during 1999 to the Named Executive Officers. The absence, in the table below, of any Named Executive Officer indicates that no options were granted to such officer.

Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy

Name	Number of Securities Underlying Options Granted (a)	Individual Grants % of Total Options Granted to Employees in 1999		Exercise Price (per share) (a)	Expiration Date	Potential Realizable Value at Assumed Annual Rates of Stock Price Appreciation for Option Term (c)	
						5%	10%
C. Gary Clary	28,025 (a)	0.5%		\$ 29.9375	1/28/09	\$ 527,642	\$1,337,147
Joseph F. Domino	13,487 (a)	0.3%		29.9375	1/28/09	253,928	643,503
Frank F. Gallaher	39,500 (a)	0.7%		29.9375	1/28/09	743,688	1,884,650
Joseph T. Henderson	7,500 (b)	0.1%		28.8750	3/08/09	136,195	345,145
Jerry D. Jackson	94,000 (a)	1.8%		29.9375	1/28/09	1,769,788	4,484,991
R. Drake Keith	16,750 (a)	0.3%		29.9375	1/28/09	315,361	799,187
Nathan E. Langston	15,400 (a)	0.3%		29.9375	1/28/09	289,944	734,775
Steven C. McNeal	5,925 (a)	0.1%		29.9375	1/28/09	111,562	282,719
Donald E. Meiners	16,750 (a)	0.3%		29.9375	1/28/09	315,361	799,187
Daniel F. Packer	16,750 (a)	0.3%		29.9375	1/28/09	315,361	799,187
Carolyn C. Shanks	11,050 (a)	0.2%		29.9375	1/28/09	208,044	527,225
Michael G. Thompson	28,700 (a)	0.5%		29.9375	1/28/09	540,350	1,369,353
C. John Wilder	52,500 (a)	1.0%		29.9375	1/28/09	988,454	2,504,936
Thomas J. Wright	18,999 (a)	0.4%		29.9375	1/28/09	357,706	906,498
Jerry W. Yelverton	49,400 (a)	0.9%		29.9375	1/28/09	930,089	2,357,027

(a) Options were granted on January 28, 1999, pursuant to the Equity Ownership Plan. All options granted on this date have an exercise price equal to the closing price of Entergy Corporation common stock on the New York Stock Exchange Composite Transactions on January 28, 1999. These options will vest incrementally over a three-year period beginning in 2000.

(b) Options were granted on March 8, 1999 and will vest incrementally over a three-year period beginning in 2000.

(c) Calculation based on the market price of the underlying securities assuming the market price increases over a ten-year option period and assuming annual compounding. The column presents estimates of potential values based on simple mathematical assumptions. The actual value, if any, a Named Executive Officer may realize is dependent upon the market price on the date of option exercise.

Aggregated Option Exercises in 1999 and December 31, 1999 Option Values

The following table summarizes the number and value of all unexercised options held by the Named Executive Officers. The absence, in the table below, of any Named Executive Officer indicates that no options are held by such officer. No Named Executive Officer exercised options during 1999.

(a)	Name	Number of Securities Underlying Unexercised Options as of December 31, 1999		Value of Unexercised In-the-Money Options as of December 31, 1999	
		Exercisable	Unexercisable	Exercisable	Unexercisable
	C. Gary Clary	3,750	28,025	\$ -	\$ -
	Joseph F. Domino	1,500	13,487	3,375	-
	Frank F. Gallaher	45,000	39,500	127,813	-
	Joseph T. Henderson	-	7,500	-	-
	Jerry D. Jackson	51,911	94,000	121,875	-
	Nathan E. Langston	1,500	15,400	3,375	-
	Steven C. McNeal	1,500	5,925	3,375	-
	Donald E. Meiners	11,250	16,750	-	-
	Daniel F. Packer	-	16,750	-	-
	Carolyn C. Shanks	-	11,050	-	-
	Michael G. Thompson	20,000	28,700	5,938	-
	C. John Wilder	-	52,500	-	-
	Thomas J. Wright	-	18,999	-	-
	Jerry W. Yelverton	8,250	49,400	4,500	-

(a) Based on the difference between the closing price of Entergy Corporation's common stock on the New York Stock Exchange Composite Transactions on December 31, 1999, and the option exercise price.

498,750					

All of the Named Executive Officers participate in a Retirement Income Plan, a defined benefit plan, that provides a benefit for employees at retirement from Entergy based upon (1) generally all years of service beginning at age 21 through termination, with a forty-year maximum, multiplied by (2) 1.5%, multiplied by (3) the final average compensation. Final average compensation is based on the highest consecutive 60 months of covered compensation in the last 120 months of service. The normal form of benefit for a single employee is a lifetime annuity and for a married employee is a 50% joint and survivor annuity. Other actuarially equivalent options are available to each retiree. Retirement benefits are not subject to any deduction for Social Security or other offset amounts. The amount of the Named Executive Officers' annual compensation covered by the plan as of December 31, 1999, is represented by the salary column in the Summary Compensation Table above.

The credited years of service under the Retirement Income Plan, as of December 31, 1999, for the following Named Executive Officers is as follows: Mr. Domino 29; Mr. Gallaher 30; Mr. Langston 28; Mr. McNeal 17; Mr. Packer 17; Ms. Shanks 16; Mr. Wright 30; and Mr. Yelverton 20. The credited years of service under the Retirement Income Plan, as of December 31, 1999 for the following Named Executive Officers, as a result of entering into supplemental retirement agreements, is as follows: Mr. Clary 26; Mr. Henderson 16; Mr. Jackson 20; Mr. Thompson 23; and Mr. Wilder

16. Mr. Cordaro, Mr. Keith and Mr. Meiners retired during 1999 with 40, 33, and 39 credited years of service, respectively.

The maximum benefit under the Retirement Income Plan is limited by Sections 401 and 415 of the Internal Revenue Code of 1986, as amended; however, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy have elected to participate in the Pension Equalization Plan sponsored by Entergy Corporation. Under this plan, certain executives, including the Named Executive Officers, would receive an additional amount equal to the benefit that would have been payable under the Retirement Income Plan, except for the Sections 401 and 415 limitations discussed above.

In addition to the Retirement Income Plan discussed above, Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy participate in the Supplemental Retirement Plan of Entergy Corporation and Subsidiaries and the Post-Retirement Plan of Entergy Corporation and Subsidiaries. Participation is limited to one of these two plans and is at the invitation of Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy. The participant may receive from the appropriate Entergy company a monthly benefit payment not in excess of .025 (under the Supplemental Retirement Plan) or .0333 (under the Post-Retirement Plan) times the participant's average basic annual salary (as defined in the plans) for a maximum of 120 months. Mr. Packer and Mr. Yelverton have entered into a Supplemental Retirement Plan participation contract, and Mr. Cordaro, Mr. Gallaher, Mr. Jackson, Mr. Keith, Mr. Meiners and Mr. Wright have entered into Post-Retirement Plan participation contracts. Current estimates indicate that the annual payments to each Named Executive Officer under the above plans would be less than the payments to that officer under the System Executive Retirement Plan discussed below.

System Executive Retirement Plan Table (1)

Annual Covered Compensation	Years of Service				
	10	15	20	25	30+
\$ 200,000	\$60,000	\$ 90,000	\$100,000	\$110,000

360,000					
700,000	210,000	315,000	350,000	385,000	
420,000					
1,000,000	300,000	450,000	500,000	550,000	
600,000					

(1)Covered pay includes the average of the highest three years of annual base pay and incentive awards earned by the executive during the ten years immediately preceding his retirement. Benefits shown are based on a target replacement ratio of 50% based on the years of service and covered compensation shown. The benefits for 10, 15, and 20 or more years of service at the 45% and 55% replacement levels would decrease (in the case of 45%) or increase (in the case of 55%) by the following percentages: 3.0%, 4.5%, and 5.0%, respectively.

In 1993, Entergy Corporation adopted the System Executive Retirement Plan (SERP). This plan was amended in 1998. Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy are participating employers in the SERP. The SERP is an unfunded defined benefit plan offered at retirement to certain senior executives, which would currently include all the Named Executive Officers (except for Mr. McNeal). Participating executives choose, at retirement, between the retirement benefits paid under provisions of the SERP or those payable under the Supplemental Retirement Plan or the Post-Retirement Plan discussed above. The plan was amended in 1998 to provide that covered pay is the average of the highest three years annual base pay and incentive awards earned by the executive during the ten years immediately preceding his retirement. Benefits paid under the SERP are calculated by multiplying the covered pay times target pay replacement ratios (45%, 50%, or 55%, dependent on job rating at retirement) that are attained, according to plan design, at 20 years of credited service. The target ratios are increased by 1% for each year of service over 20 years, up to a maximum of 30 years of service. In accordance with the SERP formula, the target ratios are reduced for each year of service below 20 years. The credited years of service under this plan are identical to the years of service for Named Executive Officers (other than Mr. Henderson, Mr. Jackson, Mr. Keith, Mr. Thompson, Mr. Wilder, and Mr. Yelverton) disclosed above in the section entitled "Pension Plan Tables-Retirement Income Plan Table". Mr. Henderson, Mr. Jackson, Mr. Thompson, Mr. Wilder and Mr. Yelverton have 8 months, 26 years, 18 years, 1 year, and 30 years, respectively, of credited service under this plan. Mr. Keith had 16 years of credited service under this plan when he retired.

The amended plan provides that a single employee receives a lifetime annuity and a married employee receives the reduced benefit with a 50% surviving spouse annuity. Other actuarially equivalent options are available to each retiree. SERP benefits are offset by any and all defined benefit plan payments from Entergy. SERP benefits are not subject to Social Security offsets.

Eligibility for and receipt of benefits under any of the executive plans described above are contingent upon several factors. The participant must agree, without the specific consent of the Entergy company for which such participant was last employed, not to take employment after retirement with any entity that is in competition with, or similar in nature to, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy or any affiliate thereof. Eligibility for benefits is forfeitable for various reasons, including violation of an agreement with Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy, certain resignations of employment, or certain terminations of employment without Company permission.

In addition to the Retirement Income Plan discussed above, Entergy Gulf States provides, among other benefits to officers, an Executive Income Security Plan for key managerial personnel. The plan provides participants with certain retirement, disability, termination, and survivors' benefits. To the extent that such benefits are not funded by the employee benefit plans of Entergy Gulf States or by vested benefits payable by the participants' former employers, Entergy Gulf States is obligated to make supplemental payments to participants or their survivors. The plan provides that upon the death or disability of a participant during his employment, he or his designated survivors will receive (i) during the first year following his death or disability an amount not to exceed his annual base salary, and (ii) thereafter for a number of years until the participant attains or would have attained age 65, but not less than nine years, an amount equal to one-half of the participant's annual base salary. The plan also provides supplemental retirement benefits for life for participants retiring after reaching age 65 equal to one-half of the participant's average final compensation rate, with one-half of such benefit upon the death of the participant being payable to a surviving spouse for life.

Entergy Gulf States amended and restated the plan effective March 1, 1991, to provide such benefits for life upon termination of employment of a participating officer or key managerial employee without cause (as defined in the plan) or if the participant separates from employment for good reason (as defined in the plan), with 1/2 of such benefits to be payable to a surviving spouse for life. Further, the plan was amended to provide medical benefits for a participant and his family when the participant separates from service. These medical benefits generally continue until the participant is eligible to receive medical benefits from a subsequent employer; but in the case of a participant who is over 50 at the time of separation and was participating in the plan on March 1, 1991, medical benefits continue for life. By virtue of the 1991 amendment and restatement, benefits for a participant under such plan cannot be modified once he becomes eligible to participate in the plan. Mr. Domino is a participant in this plan.

Compensation of Directors

For information regarding compensation of the directors of Entergy Corporation, see the Proxy Statement under the heading "Director Compensation", which information is incorporated herein by reference. Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy currently have no non-employee directors, and none of the current directors of Entergy Corporation are compensated for their responsibilities as director.

Retired non-employee directors of Entergy Arkansas, Entergy Louisiana, Entergy Mississippi, and Entergy New Orleans with a minimum of five years of service on the respective Boards of Directors are paid \$200 a month for a term of years corresponding to the number of years of active service as directors. Retired non-employee directors with over ten years of service receive a lifetime benefit of \$200 a month. Years of service as an advisory director are included in calculating this benefit. System Energy has no retired non-employee directors.

Retired non-employee directors of Entergy Gulf States receive retirement benefits under a plan in which all directors who served continuously for a period of years will receive a percentage of their retainer fee in effect at the time of their retirement for life. The retirement benefit is 30 percent of the retainer fee for service of not less than five nor more than nine years, 40 percent for service of not less than ten nor more than fourteen years, and 50 percent for fifteen or more years of service. For those directors who retired prior to the retirement age, their benefits are reduced. The plan also provides disability retirement and optional hospital and medical coverage if the director has served at least five years prior to the disability. The retired director pays one-third of the premium for such optional hospital and medical coverage and Entergy Gulf States pays the remaining two-thirds. Years of service as an advisory director are included in calculating this benefit.

Employment Contracts, Termination of Employment Agreements, Retirement Agreements and Change-in-Control Arrangements

Entergy Gulf States

As a result of the Merger, Entergy Gulf States is obligated to pay benefits under the Executive Income Security Plan to those persons who were participants at the time of the Merger and who later terminated their employment under circumstances described in the plan. For additional description of the benefits under the Executive Income Security Plan, see the "Pension Plan Tables-System Executive Retirement Plan Table" section noted above.

Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy

For information regarding employment contracts' of the Named Executive Officers of Entergy Corporation, see the Proxy Statement under the heading "Executive Employment Contracts and Retirement Contracts", which information is incorporated herein by reference.

Upon his employment on July 6, 1998, Mr. Wilder entered into an employment agreement with the Corporation pursuant to which he receives an annual salary of \$400,000 and the potential maximum annual incentive payout of 90%. Mr. Wilder is eligible for a pro-rata share of the performance award for the period 1998-2000. The Corporation granted Mr. Wilder a signing bonus of \$300,000, and 21,000 shares of restricted stock, upon which restrictions have been or will be lifted on 7,000 shares each year beginning on his first employment anniversary. On December 4, 1998 Mr. Wilder was granted 5,000 restricted shares of Entergy stock. Restrictions were lifted on one-third of these 5,000 shares on December 4, 1999 and will be lifted on one-third of these shares on the second and third anniversary dates of this grant. Mr. Wilder was offered participation in the System Executive Retirement Plan and was credited with 15 years of service. If Entergy terminates Mr. Wilder's employment within two years other than for just cause, he will receive his annual base salary and continuation of his health benefits for two years; all remaining earned but unvested stock options and performance shares would immediately vest. Upon a change of control, if Mr. Wilder resigns for "good reason" his executive pension benefits will immediately vest and he will receive a lump sum payment of 2.99 times his average three years base pay.

Personnel Committee Interlocks and Insider Participation

The compensation of Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy executive officers was set by the Personnel Committee of Entergy Corporation's Board of Directors, composed solely of Directors of

Entergy Corporation. Dr. Murrill is the retired Chairman of the Board and Chief Executive Officer of Entergy Gulf States, Inc. and served on the Personnel Committee of Entergy Corporation during 1999.

Item 12. Security Ownership of Certain Beneficial Owners and Management

Entergy Corporation owns 100% of the outstanding common stock of registrants Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy. The information with respect to persons known by Entergy Corporation to be beneficial owners of more than 5% of Entergy Corporation's outstanding common stock is included under the heading "Stockholders Who Own at Least Five Percent" in the Proxy Statement, which information is incorporated herein by reference. The registrants know of no contractual arrangements that may, at a subsequent date, result in a change in control of any of the registrants.

As of December 31, 1999, the directors, the Named Executive Officers, and the directors and officers as a group for Entergy Corporation, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy, respectively, beneficially owned directly or indirectly common stock of Entergy Corporation as indicated:

* Director of the respective Company ** Named Executive Officer of the respective Company *** Director and Named Executive Officer of the respective Company

(a) Based on information furnished by the respective individuals. Except as noted, each individual has sole voting and investment power. The number of shares of Entergy Corporation common stock owned by each individual and by all directors and executive officers as a group does not exceed one percent of the outstanding Entergy Corporation common stock.

(b) Includes, for the Named Executive Officers, shares of Entergy Corporation common stock in the form of unexercised stock options awarded pursuant to the Equity Ownership Plan as follows: C. Gary Clary, 3,750 shares; Joseph F. Domino, 1,500 shares; Frank F. Gallaher, 45,000 shares; Donald C. Hintz, 55,000 shares; Jerry D. Jackson, 51,911 shares; Nathan E. Langston, 1,500 shares; Robert v.d. Luft, 40,000 shares; Jerry L. Maulden, 32,500 shares; Steven C. McNeal, 1,500 shares; Donald E. Meiners, 11,250 shares; Michael G. Thompson, 20,000 shares; and Jerry W. Yelverton, 8,250 shares.

(c) Mr. Cordaro is the former Chief Executive Officer and a former director of Entergy Gulf States, LA and Entergy Louisiana. Mr. Keith is the former Chief Executive Officer and a former director of Entergy Arkansas. Mr. Meiners is the former Chief Executive Officer and a former director of Entergy Mississippi.

Item 13. Certain Relationships and Related Transactions

During 1999, T. Baker Smith & Son, Inc. performed land-surveying services for, and received payments of approximately \$202,996 from Entergy companies. Mr. Wm. Clifford Smith, a director of Entergy Corporation, is President of T. Baker Smith & Son, Inc. Mr. Smith's children own 100% of the voting stock of T. Baker Smith & Son, Inc.

See Item 10, "Directors and Executive Officers of the Registrants," for information on certain relationships and transactions required to be reported under this item.

Other than as provided under applicable corporate laws, Entergy does not have policies whereby transactions involving executive officers and directors are approved by a majority of disinterested directors. However, pursuant to the Entergy Corporation Code of Conduct, transactions involving an Entergy company and its executive officers must have prior approval by the next higher reporting level of that individual, and transactions involving an Entergy company and its directors must be reported to the secretary of the appropriate Entergy company.

PART IV

Item 14. Exhibits, Financial Statement Schedules, and Reports on Form 8-K

(a)1. Financial Statements and Independent Auditors' Reports for Entergy, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy are listed in the Index to Financial Statements (see pages 36 and 37)

(a)2. Financial Statement Schedules

Reports of Independent Accountants on Financial Statement Schedules (see page 199)

Financial Statement Schedules are listed in the Index to Financial Statement Schedules (see page S-1)

(a)3. Exhibits

Exhibits for Entergy, Entergy Arkansas, Entergy Gulf States, Entergy Louisiana, Entergy Mississippi, Entergy New Orleans, and System Energy are listed in the Exhibit Index (see page E-

1). Each management contract or compensatory plan or arrangement required to be filed as an exhibit hereto is identified as such by footnote in the Exhibit Index.

(b) Reports on Form 8-K

March 14, 2000

Report of Independent Accountants on Financial Statement Schedules

To the Board of Directors and Shareholders of Entergy Corporation:

Our audits of the consolidated financial statements of Entergy Corporation and the financial statements of Entergy Arkansas, Inc., Entergy Gulf States, Inc., Entergy Louisiana, Inc., Entergy Mississippi, Inc. and Entergy New Orleans, Inc. (which reports and financial statements are included in this Annual Report on Form 10-K) also included an audit of the financial statement schedules listed in Item 14(a)(2) of this Form 10-K. In our opinion, these financial statement schedules present fairly, in all material respects, the information set forth therein when read in conjunction with the related financial statements.

PricewaterhouseCoopers LLP

New Orleans, Louisiana

Effective November 12, 1999

Exhibit 3(i)(c)1

AMENDED AND RESTATED
ARTICLES OF INCORPORATION
OF

ENTERGY ARKANSAS, INC.

These Amended and Restated Articles of Incorporation, duly adopted pursuant to the authority and provisions of Title 4, Chapter 27 of the Arkansas Code of 1987 Annotated, amend, restate, integrate and supersede the existing Amended and Restated Articles of Incorporation and all amendments thereto.

FIRST: Name. The name of the Corporation is Entergy Arkansas, Inc.

SECOND: Adoption of Arkansas Business Corporation Act. The provisions of Title 4, Chapter 27 of the Arkansas Code of 1987 Annotated, as may be amended or otherwise modified (the "Arkansas Business Corporation Act"), shall apply to the Corporation and to these Amended and Restated Articles of Incorporation.

THIRD: Purposes. The purpose of the Corporation is to engage in any lawful act or activity for which corporations may be organized under the Arkansas Business Corporation Act. The primary purpose for which the Corporation is organized, which is provided for informational purposes-only and shall not limit the purposes provided in the Arkansas Business Corporation Act, is to engage in the business of constructing, holding, operating, and maintaining (i) telephone, telegraph, radio, wireless and other systems, facilities, structures and devices for the receipt and transmission of sounds and signals, (ii) inter-urban, city and street railways, railroads, and bus lines, and (iii) systems, facilities, structures and devices for the manufacture, production, transmission, distribution, control, storage, purchase, sale, supply and application of electricity, gas, water, steam, ice, refrigeration, and power.

FOURTH: Powers. The Corporation shall have and exercise all of the powers conferred upon corporations by virtue of their existence under, and as authorized by, the Arkansas Business Corporation Act, as may be amended or otherwise modified.

FIFTH: Authorized Shares and Rights of Shareholders.

(a) The total number of shares of capital stock which the Corporation shall have authority to issue is 352,730,000, which shall consist of one class of 325,000,000 shares of common stock of the par value of \$0.01 per share ("Common Stock") and three classes of preferred stock consisting of 15,000,000 shares of preferred stock of the par value of \$0.01 per share ("Class A Preferred Stock"), 3,730,000 shares, of preferred stock of the par value of \$100 per share ("100 Preferred Stock"), and 9,000,000 shares of preferred stock of the par value of \$25 per share ("25 Preferred Stock"), which three classes of preferred stock may be collectively referred to as "Preferred Stock."

(b) The Board of Directors of the Corporation is authorized, subject to the limitations prescribed by the Arkansas Business Corporation Act and the provisions of this Article FIFTH, to provide for the issuance of the shares of Preferred Stock in series, and, by filing articles of amendment pursuant to the Arkansas Business Corporation Act, to establish from time to time the number of shares to be included in each such series and to fix the designation, powers, preferences and rights of the shares of each such series and, the qualifications, limitations or restrictions thereof. The authority of the Board of Directors with respect to each such series shall include determination of only the following:

(1) The number of shares constituting that series and the distinctive designation of that series;

(2) The dividend rate, or the method of calculation thereof, on the shares of that series, the dates on which dividends shall be paid in each year or the method of determination thereof, and the date from which such dividends shall commence to accumulate;

(3) Whether that series shall have conversion privileges, and, if so, the terms and conditions of such conversion, including provision for adjustment of the conversion rate in such events as the Board of Directors shall determine;

(4) Whether or not the shares of that series shall be redeemable, and, if so, the terms and conditions of such redemption, including the date or dates upon or after which they shall be redeemable, and the amount per share payable in case of redemption, which amount may vary under different conditions and at different redemption dates;

(5) Whether that series shall have a sinking fund for the redemption or purchase of shares of that series, and, if so, the terms and amount of such sinking fund; and

(6) The amount payable on the shares of that series in the event of voluntary or, in the case of the Class A Preferred stock, involuntary

liquidation, dissolution or winding up of the Corporation.

The Class A Preferred Stock, the \$100 Preferred Stock and the \$25 Preferred Stock shall have the same rank and shall be identical with each other, except as to matters relating to the par values thereof, the variations between the respective series thereof, and the voting entitlement of the respective shares thereof in cases when the shares of two or more classes of Preferred Stock are required to vote together as a voting group or one or more classes of Preferred Stock are required to vote together with the Common Stock as a voting group. The shares of all series within a class of Preferred Stock shall have the same rank, shall be identical with each other, and shall have the same relative rights, except as to those characteristics described in clauses 1 through 6 above.

(c) Subject to the foregoing, the distinguishing characteristics of the Preferred Stock shall be:

(1) Each series of the Preferred Stock, *pari passu* with all shares of Preferred Stock of any class or series then outstanding, shall be entitled, but only when and as declared by the Board of Directors out of funds legally available for the payment of dividends, in preference to the Common Stock, to dividends at the rate stated and expressed with respect to such series by these Amended and Restated Articles of Incorporation or by the articles of amendment creating such series; such dividends to be cumulative from such date and payable on such dates in each year as may be stated and expressed in these Amended and Restated Articles of Incorporation or such articles of amendment to stockholders of record as of a date not to exceed forty (40) days and not less than ten (10) days preceding the dividend payment dates so fixed.

(2) (A) When dividends payable on any shares of the Preferred Stock at any time outstanding shall be in arrears in an amount equal to or greater than the aggregate dividends accumulated on the outstanding Preferred Stock in any period of twelve (12) months, and thereafter until all dividends on any such Preferred Stock in arrears shall have been paid or declared and set apart for payment, the holders of Preferred Stock, voting together as a voting group, to the exclusion of the holders of Common Stock, shall be entitled to elect the smallest number of directors necessary to constitute a majority of the full Board of Directors (the "Preferred Directors"), and except as provided in subparagraph (B) below, the holders of Common Stock, voting together as a voting group, to the exclusion of the holders of Preferred Stock, shall be entitled to elect the remaining directors of the Corporation (the "Remaining Directors"). The terms of office, as directors, of all persons who may be directors of the Corporation at the time shall terminate upon the election of the Preferred Directors, except that if the holders of Common Stock shall not have elected the Remaining Directors then, and only in that event, the directors of the Corporation in office just prior to the election of the Preferred Directors shall elect the Remaining Directors. Thereafter, while such arrearage continues, the Remaining Directors, whether elected by directors, as aforesaid, or whether originally or later elected by holders of the Common Stock, shall continue in office until their successors are elected by holders of the Common Stock and shall qualify.

(B) Accumulations of dividends on any shares of the Preferred Stock shall not bear interest. If and when all dividends in arrears on the Preferred Stock shall be paid in full, or declared and set apart for payment (such dividends to be declared and paid out of any funds legally available therefor as soon as reasonably practicable), the holders of the Preferred Stock shall be divested of any special right with respect to the election of directors, and the voting power of the holders of the Preferred Stock and the holders of the Common Stock shall revert to the status existing before the vesting of such special voting right in the holders of the Preferred Stock, but always subject to the same provisions for vesting such special rights in the holders of the Preferred Stock in case of further like arrearage or arrearages in the payment of dividends thereon as described in subparagraph (A) above. When all dividends in arrears on the Preferred Stock shall have been paid in full, or declared and set apart for payment, the terms of office of all Preferred Directors shall forthwith terminate, and the resulting vacancies shall be filled by the vote of a majority of the Remaining Directors.

(C) Except as provided in Article SEVENTH hereof, in case of any vacancy in the office of a director occurring among the Preferred Directors the remaining Preferred Directors by affirmative vote of a majority thereof, or the remaining Preferred Director, if there be but one, may elect a successor or successors to hold office for the unexpired term or terms of the Preferred Director or Directors whose place or places shall be vacant. Likewise, except as provided in Article SEVENTH hereof, in case of any vacancy in the office of a director occurring among the Remaining Directors the holders of the Common Stock, by affirmative vote of a majority thereof, shall elect a successor or successors to hold office for the unexpired term or terms of the Remaining Director or Director whose place or places shall be vacant.

(D) Whenever the right shall have accrued to the holders of the Preferred Stock to elect directors it shall be the duty of the President, a Vice-President or the Secretary of the Corporation to call and cause notice to be given to the stockholders entitled to vote at a meeting to be held at such time as the Corporation's officers may fix, not less than forty- five (45) nor more than ninety (90) days after the accrual of such right, for the purpose of electing directors. The notice so given shall be mailed to each holder of record of Preferred Stock at his last known address appearing on the books of the Corporation and shall set forth, among other things, (i) that by reason of the fact that dividends payable on any shares of Preferred Stock are in arrears in an amount equal to or greater than the aggregate dividends accumulated on the outstanding Preferred Stock in any period of twelve (12) months, the holders of Preferred Stock, voting together as a voting group, to the exclusion of holders of Common Stock, have the right to elect the smallest number of directors necessary to constitute a majority of the full Board of Directors of the Corporation, (ii) that any holder of the Preferred Stock has the right, at any reasonable time, to inspect, and make copies of, the list or lists of holders of Preferred Stock maintained at the principal office of the Corporation or at the office of any Transfer Agent of the Preferred Stock, and (iii) either the entirety of this paragraph

(2) or the substance thereof with respect to the number of shares of the Preferred Stock required to be represented at any meeting, or adjournment thereof, called for the election of directors of the Corporation. At the first meeting of stockholders held for the purpose of electing

directors during such time as the holders of the Preferred Stock shall have the special right to elect directors ("First Meeting"), the presence in person or by proxy of the holders of a majority of the votes entitled to be cast by the Common Stock shall be required to constitute a quorum of such voting group for the election of directors, and the presence in person or by proxy of the holders of a majority of the votes entitled to be cast by the Preferred Stock shall be required to constitute a quorum of such voting group for the election of directors; provided, however, that in the absence of a quorum of the holders of the Preferred Stock, no election of directors shall be held, but the holders of a majority of the votes entitled to be cast by the Preferred Stock which are represented at the meeting shall have power to adjourn the election of the directors to a date not less than fifteen (15) nor more than fifty (50) days from the giving of the notice of such adjourned meeting hereinafter provided for ("Adjourned Meeting"); and provided, further, that at such Adjourned Meeting the presence in person or by proxy of the holders of thirty-five percent (35%) of the votes entitled to be cast by the Preferred Stock shall be required to constitute a quorum of such voting group for the election of directors. In the event such First Meeting of stockholders shall be so adjourned, it shall be the duty of the President, a Vice President or the Secretary of the Corporation, within ten (10) days from the date on which such First Meeting shall have been adjourned, to cause notice of such Adjourned Meeting to be given to the stockholders entitled to vote thereat, such Adjourned Meeting to be held not less than fifteen (15) days nor more than fifty (50) days from the giving of such second notice. Such second notice shall be given in the form and manner hereinabove provided for with respect to the notice required to be given of such First Meeting of stockholders, and shall further set forth that a quorum was not present at such First Meeting and that the holders of thirty-five percent (35%) of the votes entitled to be cast by the Preferred Stock shall be required to constitute a quorum of such voting group for the election of directors at such Adjourned Meeting. If the requisite quorum of holders of the Preferred Stock shall not be present at such Adjourned Meeting, then the directors of the Corporation then in office shall remain in office until the next Annual Meeting of the Corporation, or special meeting in lieu thereof, and until their successors shall have been, elected and shall qualify. Neither such First Meeting nor such Adjourned Meeting shall be held on a date within ninety (90) days before the date of the next Annual Meeting of the Corporation or special meeting in lieu thereof. At each Annual Meeting of the Corporation, or special meeting in lieu thereof, held during such time as the holders of the Preferred Stock shall have the right to elect Preferred Directors, the foregoing provisions of this paragraph (2) shall govern each Annual Meeting, or special meeting in lieu thereof, as if such Annual Meeting or special meeting were the First Meeting; provided that if at any adjourned annual meeting, or special meeting in lieu thereof, the holders of at least thirty-five percent (35%) of the votes entitled to be cast by the Preferred Stock shall not be represented at the meeting, all the directors shall be elected by a vote of the holders of the Common Stock of the Corporation represented at the meeting.

(3) So long as any shares of the Preferred Stock are outstanding, the Corporation shall not, without the consent (given by vote at a meeting called for that purpose) of the holders of at least two-thirds (2/3) of the votes entitled to be cast by the Preferred Stock, voting together as a voting group:

(A) create, authorize or issue any new stock which after issuance would rank prior to the Preferred Stock as to dividends or distributions or in liquidation, dissolution, or winding up, or create, authorize or issue any security convertible into shares of any such stock except for the purpose of providing funds for the redemption of all of the Preferred Stock then outstanding, such new stock or security not to be issued until such redemption shall have been authorized and notice of such redemption given and the aggregate redemption price deposited as provided in paragraph (7) below; provided, however, that any such new stock or security shall be issued within twelve (12) months after the vote of the Preferred Stock herein provided for authorizing the issuance of such new Stock or security; or

(B) amend, alter or repeal any of the rights, preferences or powers of the holders of the Preferred Stock so as to affect adversely any such rights, preferences or powers; provided, however, that if such amendment, alteration or repeal affects adversely the rights, preferences or powers of one or more, but not all, series of Preferred Stock at the time outstanding, only the consent of the holders of at least two-thirds (2/3) of votes entitled to be cast by the shares of all series so affected, voting together as a voting group, shall be required; and provided, further, that an amendment to increase or decrease the authorized amount of Preferred Stock or to create or authorize or increase or decrease the amount of any class of stock ranking on a parity with the outstanding shares of the Preferred Stock as to dividends or assets shall not be deemed to affect adversely the rights, preferences or powers of the holders of the Preferred Stock or any series thereof.

(4) So long as any shares of the Preferred Stock are outstanding, the Corporation shall not, without the consent (given by vote at a meeting called for that purpose) of the holders of a majority of the votes entitled to be cast by the Preferred Stock, voting together as a voting group:

(A) merge or consolidate with or into any other corporation or sell or otherwise dispose of all or substantially all of its assets unless such merger, consolidation, sale or other disposition or the issuance or assumption of securities in the effectuation thereof shall have been ordered or approved under the Public Utility Holding Company Act of 1935, as amended, or as may be amended ("Public Utility Holding Company Act");

(B) issue or assume any unsecured notes, debentures or other securities representing unsecured debt (other than for the purpose of refunding or renewing outstanding unsecured securities issued or assumed by the Corporation resulting in equal or longer maturities or redeeming or otherwise retiring all outstanding shares of the Preferred Stock) if immediately after such issue or assumption (i) the total outstanding principal amount of all unsecured notes, debentures or other securities representing unsecured debt of the Corporation will thereby exceed twenty percent (20%) of the aggregate of all existing secured debt of the Corporation and the capital stock, premiums thereon, and surplus of the Corporation, as stated on its books, or (ii) the total outstanding principal amount of all unsecured notes, debentures, or other securities representing unsecured debt of the Corporation of maturities of less than ten (10) years will thereby exceed ten percent (10%) of such aggregate. For the purposes of this subparagraph (B), the payment due upon the maturity of unsecured debt having an original single maturity in excess of ten (10) years or the payment due upon the final maturity of any unsecured serial debt which had original maturities in excess of ten (10) years shall not

be regarded as unsecured debt of a maturity of less than ten (10) years until such payment shall be required to be made within three (3) years;

(C) issue, sell, or otherwise dispose of any shares of the Preferred Stock or of any other class of stock ranking on a parity with the Preferred Stock as to dividends or distributions or in liquidation, dissolution, or winding up (other than for the purpose of refinancing an equal par amount of the \$100 or \$25 Preferred Stock or an equal liquidation value amount of the Class A Preferred Stock or of stock ranking prior to or on a parity with the Preferred Stock as to dividends or distributions or in liquidation, dissolution, or winding up) unless the gross income of the Corporation for a period of twelve

(12) consecutive calendar months within a period of fifteen (15) calendar months immediately preceding the calendar month of the issuance, sale or disposition of such stock, determined in accordance with generally accepted accounting principles (but in any event after deducting all taxes and the greater of (i) the amount for said period charged by the Corporation on its books to depreciation expense or (ii) the largest amount then required to be provided therefor by any mortgage indenture of the Corporation), shall have been at least one and one-half times the sum of (a) the annual interest charges on all bonds, debentures, notes and other securities representing indebtedness of the Corporation and (b) the annual dividend requirements on all outstanding shares of the Preferred Stock and of all other classes of stock ranking prior to, or on a parity with, the Preferred Stock as to dividends or distributions, including the shares proposed to be issued computed at the initial rate applicable at the time of issuance; provided, that there shall be excluded from the foregoing computation interest charges on all indebtedness and dividends on all shares of stock which are to be retired in connection with the issue of such additional shares of the Preferred Stock or other class of stock ranking prior to, or on a parity with, the Preferred Stock as to dividends or distributions; and provided, further, that if any such indebtedness or stock bears interest or provides for dividends at a variable rate, then the interest or dividends on such indebtedness or stock shall be computed at the average annual rate in effect for such indebtedness or stock during the period of twelve (12) consecutive calendar months (or any portion thereof in which such indebtedness or stock is outstanding) being used for the calculation of gross income, and if such indebtedness or stock has been issued after the end of such twelve (12) consecutive calendar months, then computed at the initial rate applicable at the time of issuance; and provided, further, that in any case where such additional shares of the Preferred Stock, or other class of stock ranking prior to, or on a parity with, the Preferred Stock as to dividends or distributions, are to be issued in connection with the acquisition of additional property, the gross income of the property to be so acquired, computed on the same basis as the gross income of the Corporation, may be included on a pro forma basis in making the foregoing computation; or

(D) issue, sell, or otherwise dispose of any shares of the Preferred Stock, or of any other class of stock ranking on a parity with the Preferred Stock as to dividends or distributions, unless the aggregate of the capital of the Corporation applicable to the Common Stock and the surplus of the Corporation shall be not less than the aggregate amount payable on the involuntary liquidation, dissolution or winding up of the Corporation in respect of all shares of the Preferred Stock and all shares of stock, if any, ranking prior thereto, or on a parity therewith, as to dividends or distributions, which will be outstanding after the issue of the shares proposed to be issued; provided, that if, for the purposes of meeting the requirements of this subparagraph (D), it becomes necessary to take into consideration any earned surplus of the Corporation, the Corporation shall not thereafter pay any dividends on shares of the Common Stock which would result in reducing the Corporation's Common Stock Equity (as in paragraph (8) hereinafter defined) to an amount less than the aggregate amount payable, on involuntary liquidation, dissolution or winding up of the Corporation, on all shares of the Preferred Stock and of any stock ranking prior to, or on a parity with, the Preferred Stock, as to dividends or other distributions, at the time outstanding.

(5) Each holder of Common Stock of the Corporation shall be entitled to one vote for each share of such stock standing in his name on the books of the Corporation. Except as hereinbefore expressly provided in this Article FIFTH and as may otherwise be required by law, the holders of Preferred Stock shall have no power to vote and shall be entitled to no notice of any meeting of the stockholders of the Corporation. As to those matters upon which holders of Common Stock, the Class A Preferred Stock, the \$100 Preferred Stock and the \$25 Preferred Stock are entitled to vote as separate voting groups, each holder of such stock shall be entitled to one vote for each share of such stock standing in his name on the books of the Corporation. As to those matters upon which holders of the Class A Preferred Stock, the \$100 Preferred Stock, and the \$25 Preferred Stock shall be required to vote as a single voting group, each holder of Class A Preferred Stock shall be entitled to the number of votes per share produced by dividing the liquidation value of such share by \$100, each holder of \$100 Preferred Stock shall be entitled to one vote for each share of such stock standing in his name on the books of the Corporation, and each holder of \$25 Preferred Stock shall be entitled to one-quarter (1/4) vote for each share of such stock standing in his name on the books of the Corporation. As to those matters upon which the holders of Common Stock and the holders of Preferred Stock shall be required to vote together as a single voting group, each holder of Common Stock shall be entitled to one vote for each share of such stock standing in his name on the books of the Corporation, each holder of Class A Preferred Stock shall be entitled to the number of votes per share produced by dividing the liquidation value of such share by \$100, each holder of \$100 Preferred Stock shall be entitled to one vote for each share of such stock standing in his name on the books of the Corporation, and each holder of \$25 Preferred Stock shall be entitled to one-quarter (1/4) vote for each share of such stock standing in his name on the books of the Corporation.

(6) In the event of any voluntary liquidation, dissolution or winding up of the Corporation, the Preferred Stock, all shares of which then outstanding being treated pari passu, shall have a preference over the Common Stock until an amount equal to the then current redemption price shall have been paid. In the event of any involuntary liquidation, dissolution or winding up of the Corporation, which shall include any such liquidation, dissolution or winding up that may arise out of or result from the condemnation or purchase of all or a major portion of the properties of the Corporation by (i) the United States Government or any authority, agency or instrumentality thereof, (ii) a state of the United States or any political subdivision, authority, agency, or instrumentality thereof, or

(iii) a district, cooperative or other association or entity not organized for profit, the Preferred Stock, all shares of which then outstanding being treated pari passu, shall also have a preference over the Common Stock until the full par value thereof, in the case of the \$100 Preferred Stock and the \$25 Preferred Stock, and the full liquidation value thereof, in the case of the Class A Preferred Stock, and an amount equal to all accumulated and unpaid dividends thereon shall have been paid by dividends or distribution.

(7) (A) The Corporation may at any time (except to the extent redemption is restricted herein or in the Articles of Amendment creating a series of the Preferred Stock) redeem all of any series of the Preferred Stock or may from time to time (except to the extent so restricted) redeem any part thereof, by paying in cash the redemption price then applicable thereto as stated and expressed with respect to such series herein or in the articles of amendment providing for the issue of such shares, plus, in each case, an amount equivalent to the accumulated and unpaid dividends, if any, to the date of redemption. Notice of the intention of the Corporation to redeem all or any part of the Preferred Stock shall be mailed not less than thirty (30) days nor more than sixty (60) days before the date of redemption to each holder of record of Preferred Stock to be redeemed, at his last known address as shown by the Corporation's records, and not less than thirty (30) days' nor more than sixty (60) days' notice of such redemption may be published in such manner as may be prescribed by resolution of the Board of Directors of the Corporation; and, in the event of such publication, no defect in the mailing of such notice shall affect the validity of the proceedings for the redemption of any shares of Preferred Stock so to be redeemed. Contemporaneously with the mailing or the publication of such notice as aforesaid or at any time thereafter prior to the date of redemption, the Corporation may deposit the aggregate redemption price (or the portion thereof not already paid in the redemption of such Preferred Stock so to be redeemed) with any bank or trust company in the City of New York, New York, or in the City of Little Rock, Arkansas, or in the City of Pine Bluff, Arkansas, named in such notice, payable to the order of the record holders of the Preferred Stock so to be redeemed, as the case may be, on the endorsement and surrender of their certificates, and thereupon said holders shall cease to be stockholders with respect to such shares; and from and after the making of such deposit such holders shall have no interest in or claim against the Corporation with respect to such shares, but shall be entitled only to receive such moneys from such bank or trust company deposited as in this paragraph (7) provided, on endorsement and surrender of their certificates, as aforesaid. Such moneys may be invested in such securities as are then legal investments for such bank or trust company and the earnings, if any, thereon shall be paid to or at the direction of the Corporation. Any moneys so deposited, plus interest thereon, if any, remaining unclaimed at the end of four (4) years from the date fixed for redemption, if thereafter requested by resolution of the Board of Directors, shall be repaid to the Corporation, and in the event of such repayment to the Corporation, such holders of record of the shares so redeemed as shall not have made claim against such moneys prior to such repayment to the Corporation, shall be deemed to be unsecured creditors of the Corporation for an amount, without interest, equivalent to the amount deposited, as above stated, for the redemption of such shares and so paid to the Corporation. The Corporation shall not be obligated to keep such moneys repaid to the Corporation separate and apart from other funds of the Corporation. Shares of the Preferred Stock which have been redeemed shall not be reissued as part of the same series as originally issued, but shall revert to the status of authorized but unissued shares of Preferred Stock of the same class, which may thereafter be reissued as part of a new series of preferred stock of the same class in accordance with the terms of these Amended and Restated Articles of Incorporation. If less than all of the shares of a series of the Preferred Stock are to be redeemed, the shares thereof to be redeemed, unless otherwise provided in these Amended and Restated Articles of Incorporation or the articles of amendment creating such series, shall be selected by lot, in such manner as the Board of Directors of the Corporation shall determine, by an independent bank or trust company selected for that purpose by the Board of Directors of the Corporation.

(B) Nothing herein contained shall limit any legal right of the Corporation to purchase or otherwise acquire any shares of the Preferred Stock; provided, however, that if at any time it shall have failed to pay dividends in full on any outstanding shares of the Preferred Stock, thereafter and until dividends in full on all shares of the Preferred Stock outstanding shall have been paid, or declared and set aside for payment, for all past quarter-yearly dividend periods, it shall not (i) acquire any shares of the Preferred Stock (except by redemption of all shares of the Preferred Stock) unless approval is obtained under the Public Utility Holding Company Act, or (ii) make any payment or set aside any funds for payment into any sinking fund for the purchase or redemption of any shares of the Preferred Stock unless approval is obtained under the Public Utility Holding Company Act. Any shares of the Preferred Stock so redeemed, purchased or acquired shall not be reissued as part of the same series as originally issue, but shall revert to the status of authorized but unissued shares of Preferred Stock of the same class, which shares may thereafter be reissued as part of a new series of Preferred Stock of the same class in accordance with the terms of these Amended and Restated Articles of Incorporation.

(8) For the purposes of this paragraph (8) and subparagraph (D) of paragraph (4) the term "Common Stock Equity" shall mean the aggregate of (i) the par value of, or stated capital represented by, the outstanding shares (other than shares owned by the Corporation) of stock ranking junior to the Preferred Stock as to dividends and assets, (ii) the premium on such junior stock and (iii) the surplus (including earned surplus, capital surplus and surplus invested in plant) of the Corporation less (unless the amounts or items are being amortized or are being provided for by reserves) (a) any amounts recorded on the books of the Corporation for utility plant and other plant in excess of the original cost thereof, (b) unamortized debt discount and expense, capital stock discount and expense and any other intangible items set forth on the asset side of the balance sheet as a result of accounting convention, (c) the excess, if any, of the aggregate amount payable on involuntary liquidation, dissolution or winding up of the affairs of the Corporation upon all outstanding Preferred Stock of the Corporation over the aggregate par or stated value thereof and any premiums thereon, and (d) the excess, if any for the period beginning with January 1, 1954 to the end of a month within ninety (90) days preceding the date as of which Common Stock Equity is determined, of the cumulative amount computed under requirements contained in the Corporation's mortgage indentures relating to minimum depreciation provisions (this cumulative amount being the aggregate of the largest amounts separately computed for entire periods of differing coexisting mortgage indenture requirements), over the amount charged by the Corporation on its books for depreciation during such period, including the final fraction of a year. For the purpose of this paragraph (8): (i) the term "Total Capitalization" shall mean the sum of the Common Stock Equity plus item (c) in this paragraph (8) plus

the stated capital applicable to, and any premium on, outstanding stock of the Corporation not included in Common Stock Equity, plus the principal amount of all outstanding bonds, debentures, notes and other securities representing indebtedness of the Corporation maturing more than twelve months after the date of the determination of the Total Capitalization; and (ii) the term "dividends on Common Stock" shall include dividends on Common Stock (other than dividends payable only in shares of Common Stock), distributions on, and purchases or other acquisitions for value of, any Common Stock of the Corporation or other stock, if any, subordinate to Preferred Stock as to dividends or other distributions. So long as any shares of the Preferred Stock are outstanding, the Corporation shall not declare or pay any dividends on the Common Stock, except as follows:

(A) If and so long as the Common Stock Equity at the end of the calendar month immediately preceding the date on which a dividend on Common Stock is declared is, or as a result of such dividend would become, less than twenty percent (20%) of Total Capitalization, the Corporation shall not declare such dividend in an amount which, together with all other dividends on Common Stock paid within the year ending with and including the date on which such dividend is payable, exceeds fifty percent (50%) of the net income of the Corporation available for dividends on the Common Stock for the twelve (12) full calendar months immediately preceding the month in which such dividend is declared, except that the Corporation may at any time declare a dividend in an amount not exceeding the aggregate of dividends on Common Stock which under the restrictions set forth above in this subparagraph (A) could have been, and have not been, declared; and

(B) If and so long as the Common Stock Equity at the end of the calendar month immediately preceding the date on which a dividend on Common Stock is declared is, or as a result of such dividend would become, less than twenty-five percent (25%) but not less than twenty percent (20%) of Total Capitalization, the Corporation shall not declare such dividend on the Common Stock in an amount which, together with all other dividends on Common Stock paid within the year ending with and including the date on which such dividend is payable, exceeds seventy-five percent (75%) of the net income of the Corporation available for dividends on the Common Stock for the twelve (12) full calendar months immediately preceding the month in which such dividend is, declared, except that the Corporation may at any time declare dividends in an amount not exceeding the aggregate of dividends on Common Stock which under the restrictions set forth above in subparagraph (A) and in this subparagraph (B) could have been, and have not been, declared; and

(C) At any time when the Common Stock Equity is twenty-five percent (25%) or more of Total Capitalization, the Corporation may not declare dividends on shares of the Common Stock which would reduce the Common Stock Equity below twenty-five percent (25%) of Total Capitalization, except to the extent provided in subparagraphs (A) and (B) above.

At any time when the aggregate of all amounts credited subsequent to January 1, 1954 to the depreciation reserve account of the Corporation through charges to operating revenue deductions or otherwise on the books of the Corporation (other than transfers out of the balance of surplus as of December 31, 1953) shall be less than the amount computed as provided in clause (i) below, under requirements contained in the Corporation's mortgage indentures, then for the purposes of subparagraphs (A) and (B) above, in determining the earnings available for Common Stock dividends during any twelve-month period, the amount to be provided for depreciation in that period shall be (i) the greater of the cumulative amount charged to depreciation expense on the books of the Corporation or the cumulative amount computed under requirements contained in the Corporation's mortgage indentures relating to minimum depreciation provisions (the latter cumulative amount being the aggregate of the largest amounts separately computed for entire periods of differing coexisting mortgage indenture requirements) for the period from January 1, 1954 to and including any such twelve-month period, less (ii) the greater of the cumulative amount charged to depreciation expense on the books of the Corporation or the cumulative amount computed under requirements contained in the Corporation's mortgage indentures relating to minimum depreciation provisions (the latter cumulative amount being the aggregate of the largest amounts separately computed for entire periods of differing coexisting mortgage indenture requirements) from January 1, 1954 up to but excluding any such twelve-month period; provided that in the event any company is merged into the Corporation the "cumulative amount computed under requirements contained in the Corporation's mortgage indentures relating to minimum depreciation provisions" referred to above shall be computed without regard, for the period prior to the merger, of property acquired in the merger, and the "cumulative amount charged to depreciation expense on the books of the Corporation" shall be exclusive of amounts provided for such property prior to the merger.

(9) Dividends may be paid upon the Common Stock only when (i) dividends have been paid or declared and funds set apart for the payment of dividends as aforesaid on the Preferred Stock from the date(s) after which dividends thereon became cumulative, to the beginning of the period then current, with respect to which such dividends on the Preferred Stock are usually declared, and (ii) all payments have been made or funds have been set aside for payments then or theretofore due under the terms of sinking fund requirements (if any) for the purchase or redemption of shares of any series of the Preferred Stock, but whenever (a) there shall have been paid or declared and funds shall have been set apart for the payment of all such dividends upon the Preferred Stock as aforesaid and (b) all payments shall have been made or funds shall have been set aside for payments then or theretofore due under the terms of sinking fund requirements (if any) for the purchase or redemption of shares of any series of the Preferred Stock, then, subject to the limitations above set forth, dividends upon the Common Stock may be declared payable then or thereafter, out of funds legally available for payment of dividends. After the payment of the limited dividends and/or shares in distribution of assets to which the Preferred Stock is expressly entitled in preference to the Common Stock, the Common Stock (subject to the rights of any class of stock hereafter authorized) shall receive all further dividends and shares in distribution.

(10) Subject to the limitations hereinabove set forth, the Corporation, from time to time, may resell any of its own stock, purchased or otherwise acquired by it as hereinafter provided for, at such price as may be fixed by its Board of Directors.

(11) Subject to the limitations hereinabove set forth, the Corporation, in order to acquire funds with which to redeem any outstanding Preferred Stock of any class, may issue and sell stock of any class then authorized but unissued, bonds, notes, evidences of indebtedness, or other securities.

(12) Subject to the limitations hereinabove set forth, and except to the extent that conversions, participations or other special rights are established with respect to any series of Preferred Stock by the Board of Directors as hereinabove provided, the Board of Directors of the Corporation may at any time authorize the conversion or exchange of the whole or any particular part of the outstanding Preferred Stock of any class, with the consent of the holders thereof, into or for stock of any other class at the time of such consent authorized but unissued and may fix the terms and conditions upon which such conversion or exchange may be made; provided that without the consent of the holders of record of two-thirds (2/3) of the votes represented by shares of Common Stock outstanding given at a meeting of the holders of the Common Stock called and held as provided by the Bylaws or given in writing without a meeting, the Board of Directors shall not authorize the conversion or exchange of any Preferred Stock of any class into or for Common Stock or authorize the conversion or exchange of any Preferred Stock of any class into or for Preferred Stock of any other class if by such conversion or exchange the amount which the holders of the shares of stock so converted or exchanged would be entitled to receive either as dividends or shares in distribution of assets in preference to the Common Stock would be increased.

(13) A consolidation, merger or amalgamation of the Corporation with or into any other corporation or corporations shall not be deemed a distribution of assets of the Corporation within the meaning of any provisions of these Amended and Restated Articles of Incorporation.

(14) If any provision in this Article FIFTH shall be in conflict or inconsistent with any other provision of these Amended and Restated Articles of Incorporation, the provisions of this Article FIFTH shall prevail and govern.

(15) No holder of any stock of the Corporation shall be entitled as of right to purchase or subscribe for any part of any stock of the Corporation authorized by these Amended and Restated Articles of Incorporation or of any additional stock of any class to be issued by reason of any increase of the authorized capital stock of the Corporation or of any bonds, certificates of indebtedness, debentures or other securities convertible into stock of the Corporation.

(16) 70,000 shares of the Corporation's \$100 Preferred Stock authorized in paragraph (a) of this Article FIFTH shall consist of a series of the \$100 Preferred Stock of the Corporation which shall:

(A) be designated "4.32% Preferred Stock, Cumulative, \$100 Par Value";

(B) have a dividend rate of \$4.32 per share per annum payable quarterly on January 1, April 1, July 1, and October 1 of each year, the first dividend date to be July 1, 1954 and such dividend date to be July 1, 1954 and such dividends to be cumulative from April 1, 1954; and

(C) be subject to redemption in the manner provided with respect to the Corporation's Preferred Stock, Cumulative, \$100 par value, in said Agreement of Consolidation or Merger, as amended, at the price of \$106.147 per share if redeemed on or before April 1, 1959 and on or before April 1, 1964, and of \$103.647 per share if redeemed after April 1, 1964, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption.

(17) 93,500 shares of the Corporation's \$100 Preferred Stock authorized in paragraph (a) of this Article FIFTH shall consist of a series of the \$100 Preferred Stock of the Corporation which shall:

(A) be designated "4.72% Preferred Stock, Cumulative, \$100 par value";

(B) have a dividend rate of \$4.72 per share per annum payable quarterly on January 1, April 1, July 1 and October 1 of each year, the first dividend date to be July 1, 1955 and such dividends to be cumulative from April 1, 1955;

(C) be subject to redemption in the manner provided with respect to the Corporation's Preferred Stock, Cumulative, \$100 par value, in said Agreement of Consolidation or Merger, as amended, at the price of \$109.50 per share if redeemed on or before April 1, 1960, of \$108.50 per share if redeemed after April 1, 1960 and on or before April 1, 1965, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption; and

(D) be issued for cash or on a share for share basis for shares of the \$7 Preferred Stock and \$6 Preferred Stock of the Corporation which may be converted into or exchanged for such shares of 4.72% Preferred Stock, Cumulative, \$100 par value, with a cash adjustment of \$5.36 per share to be given to the holders of the \$7 Preferred Stock and a cash adjustment of \$5.20 per share to be given to the holders of \$6 Preferred Stock so converting or exchanging.

(18) 75,000 shares of the Corporation's \$100 Preferred Stock authorized in paragraph (a) of this Article FIFTH shall consist of a series of the \$100 Preferred Stock of the Corporation which shall:

(A) be designated "4.56% Preferred Stock, Cumulative, \$100 par value";

(B) have a dividend rate of \$4.56 per share per annum payable quarterly on January 1, April 1, July 1 and October 1 of each year, the first dividend date to be January 1, 1965 and such dividends to be cumulative from October 1, 1964; and

(C) be subject to redemption in the manner provided with respect to the Corporation's Preferred Stock, Cumulative, \$100 par value, in said Agreement of Consolidation or Merger, as amended, at the price of \$105.89 per share if redeemed on or before October 1, 1969, or \$104.33 per share if redeemed after October 1, 1969 and on or before October 1, 1974, and of \$102.83 per share if redeemed after October 1, 1974, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption;

(19) 75,000 shares of the Corporation's \$100 Preferred Stock authorized in paragraph (a) of this Article FIFTH shall consist of a series of the \$100 Preferred Stock of the Corporation which shall:

(A) consist of 75,000 shares to be designated "4.56% Preferred Stock, Cumulative, \$100 par value (1965 Series)";

(B) have a dividend rate of \$4.56 per share per annum payable quarterly on January 1, April 1, July 1 and October 1 of each year, the first dividend date to be July 1, 1965, and such dividends to be cumulative from April 1, 1965; and

(C) be subject to redemption in the manner provided with respect to the Company's Preferred Stock, cumulative, \$100 par value, in said Agreement of Consolidation or Merger, as amended, at the price of \$105.56 per share if redeemed on or before April 1, 1970, of \$104.00 per share if redeemed after April 1, 1970 and on or before April 1, 1975, and of \$102.50 per share if redeemed after April 1, 1975, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption;

(20) 100,000 shares of the Corporation's \$100 Preferred Stock authorized in paragraph (a) of this Article FIFTH shall consist of a series of the \$100 Preferred Stock of the Corporation which shall:

(A) be designated "6.08% Preferred Stock, cumulative, \$100 par value";

(B) have a dividend rate of \$6.08 per share per annum payable quarterly on January 1, April 1, July 1 and October 1 of each year, the first dividend date to be January 1, 1967 and such dividends to be cumulative from October 1, 1966; and

(C) be subject to redemption in the manner provided with respect to the Company's Preferred Stock, cumulative \$100 par value, in said Agreement of Consolidation or Merger, as amended, at the price of \$107.41 per share if redeemed on or before October 1, 1971, of \$104.33 per share if redeemed after October 1, 1971 and on or before October 1, 1976, and of \$102.83 per share if redeemed after October 1, 1976 in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption;

(21) 100,000 shares of the Corporation's \$100 Preferred Stock authorized in paragraph (a) of this Article FIFTH shall consist of a series of the \$100 Preferred Stock of the Corporation which shall:

(A) be designated "7.32% Preferred Stock, cumulative, \$100 par value";

(B) have a dividend rate of \$7.32 per share per annum payable quarterly on January 1, April 1, July 1 and October 1 of each year, the first dividend date to be April 1, 1969 and such dividends to be cumulative from January 1, 1969; and

(C) be subject to redemption in the manner provided with respect to the Company's Preferred Stock, cumulative, \$100 par value, in said Agreement of Consolidation or Merger, as amended, at the price of \$108.99 per share if redeemed on or before January 1, 1974, of \$104.67 per share if redeemed after January 1, 1974 and on or before January 1, 1979, and of \$103.17 per share if redeemed after January 1, 1979, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption;

(22) 150,000 shares of the Corporation's \$100 Preferred Stock authorized in paragraph (a) of this Article FIFTH shall consist of a series of the \$100 Preferred Stock of the Corporation which shall:

(A) be designated "7.80% Preferred Stock, cumulative, \$100 par value";

(B) have a dividend rate of \$7.80 per share per annum payable quarterly on January 1, April 1, July 1 and October 1 of each year, the first dividend date to be July 1, 1972 and such dividends to be cumulative from April 13, 1972; and

(C) be subject to redemption in the manner provided with respect to the Company's Preferred Stock, cumulative, \$100 par value, in said Agreement of Consolidation or Merger, as amended, at the price of \$109.10 per share if redeemed on or before April 1, 1977 (except that no share of the 7.80% Preferred Stock shall be redeemed before April 1, 1977 if such redemption is for the purpose or in anticipation of refunding such share through the use, directly or indirectly, of funds borrowed by the Company or through the use, directly or indirectly, of funds derived

through the issuance by the Company of stock ranking prior to or on a parity with the 7.80% A Preferred Stock as to dividends or assets, if such borrowed funds have an effective interest cost to the Company (computed in accordance with generally accepted financial practice) or such stock has an effective dividend cost to the Company (so computed) of less than 7.785% per annum, of \$107.15 per share if redeemed after April 1, 1977, and on or before April 1, 1982, of \$105.20 per share if redeemed after April 1, 1982, and on or before April 1, 1987, and of \$103.25 per share if redeemed after April 1, 1987, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption;

(23) 200,000 shares of the Corporation's \$100 Preferred Stock authorized in paragraph (a) of this Article FIFTH shall consist of a series of the \$100 Preferred Stock of the Corporation which shall:

(A) consist of 200,000 shares to be designated "7.40% Preferred Stock, cumulative, \$100 par value";

(B) have a dividend rate of \$7.40 per share per annum payable quarterly on January 1, April 1, July 1 and October 1 of each year, the first dividend date to be April 1, 1973, for the period commencing December 14, 1972, to and including March 31, 1973, and such dividends to be cumulative from December 14, 1972; and

(C) be subject to redemption in the manner provided with respect to the Company's Preferred Stock, cumulative, \$100 par value, in said Agreement of Consolidation or Merger, as amended, at the price of \$108.35 per share if redeemed on or before December 1, 1977 (except that no share of the 7.40% Preferred Stock shall be redeemed before December 1, 1977, if such redemption is for the purpose or in anticipation of refunding such share through the use, directly or indirectly, of funds borrowed by the Company or through the use, directly or indirectly, of funds derived through the issuance by the Company of stock ranking prior to or on a parity with the 7.40% Preferred Stock as to dividends or assets, if such borrowed funds have an effective interest cost to the Company (computed in accordance with generally accepted financial practice) or such stock has an effective dividend cost to the Company (so computed) of less than 7.3795% per annum, of \$106.50 per share if redeemed after December 1, 1977 and on or before December 1, 1982 of \$104.65 per share if redeemed after December 1, 1982, and on or before December 1, 1987, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption;

(24) 150,000 shares of the Corporation's \$100 Preferred Stock authorized in paragraph (a) of this Article FIFTH shall consist of a series of the \$100 Preferred Stock of the Corporation which shall:

(A) consist of 150,000 shares to be designated "7.88% Preferred Stock, cumulative, \$100 par value";

(B) have a dividend rate of \$7.88 per share per annum payable quarterly on January 1, April 1, July 1, and October 1 of each year, the first dividend date to be April 1, 1974, for the period commencing December 6, 1973, to and including March 31, 1974, and such dividends to be cumulative from December 6, 1973; and

(C) be subject to redemption in the manner provided with respect to the Company's Preferred Stock, cumulative, \$100 par value, in said Agreement of Consolidation or Merger, as amended, at the price of \$108.91 per share if redeemed on or before December 1, 1978 (except that no share of the 7.88% Preferred Stock shall be redeemed before December 1, 1978, if such redemption is for the purpose or in anticipation of refunding such share through the use, directly or indirectly, of funds borrowed by the Company or through the use, directly or indirectly, of funds derived through the issuance by the Company of stock ranking prior to or on a parity with the 7.88% Preferred Stock as to dividends or assets, if such borrowed funds have an effective interest cost to the Company (computed in accordance with generally accepted financial practice) or such stock has an effective dividend cost to the Company (so computed) of less than 7.853% per annum, of \$106.94 per share if redeemed after December 1, 1978 and on or before December 1, 1983 of \$104.97 per share if redeemed after December 1, 1983, and on or before December 1, 1988, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption;

(25) 1,600,000 shares of the Corporation's \$25 Preferred Stock authorized in paragraph (a) of this Article FIFTH shall consist of a series of the \$25 Preferred Stock of the Corporation which shall:

(A) consist of 1,600,000 shares to be designated "9.92% Preferred Stock, cumulative, \$25 par value" and hereinafter be referred to as "2nd 1979 Series Preferred Stock";

(B) have a dividend rate of \$2.48 per share per annum payable quarterly on January 1, April 1, July 1, and October 1 of each year, the first dividend date to be October 1, 1979, and such dividends to be cumulative from June 28, 1979;

(C) be subject to redemption in the manner provided with respect to the Company's Preferred Stock, cumulative, \$25 par value, in said Agreement of Consolidation or Merger, as amended, at the price of \$28.18 per share if redeemed on or before June 1, 1984 (except that no share of the 2nd 1979 Series Preferred Stock shall be redeemed before June 1, 1984, if such redemption is for the purpose of or in anticipation of refunding such share through the use, directly or indirectly, of funds borrowed by the Company or through the use, directly or indirectly, of funds derived through the issuance by the Company of stock ranking prior to or on a parity with the Preferred Stock as to dividends or assets, if

such borrowed funds have an effective interest cost to the Company (computed in accordance with generally accepted financial practice) or such stock has an effective dividend cost to the Company (so computed) of less than 9.8086 per annum), of \$27.56 per share if redeemed after June 1, 1984, and on or before June 1, 1989, of \$26.94 per share if redeemed after June 1, 1989, and on or before June 1, 1994, and of \$26.32 per share if redeemed after June 1, 1994, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption; and

(D) be subject to redemption as and for a sinking fund as follows:

On June 1, 1984 and on each June 1 thereafter (each such date being hereinafter referred to as a "2nd 1979 Series Sinking Fund Redemption Date"), for so long as any shares of the 2nd 1979 Series Preferred Stock shall remain outstanding, the Company shall redeem, out of funds legally available therefor and otherwise in the manner provided with respect to the Company's Preferred Stock, cumulative, \$25 par value, in said Agreement of Consolidation or Merger, as amended, 80,000 shares of the 2nd 1979 Series Preferred Stock (or the number of shares then outstanding if less than 80,000) at the sinking fund redemption price of \$25 per share plus, as to each share so redeemed, an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date of redemption (the obligation of the Company so to redeem the shares of the 2nd 1979 Series Preferred Stock being hereinafter referred to as the "2nd 1979 Series Sinking Fund Obligation"). The 2nd 1979 Series Sinking Fund Obligation shall be cumulative. If on any 2nd 1979 Series Sinking Fund Redemption Date, the Company shall not have funds legally available therefor sufficient to redeem the full number of shares required to be redeemed on that date, the 2nd 1979 Series Sinking Fund Obligation with respect to the shares not redeemed shall carry forward to each successive 2nd 1979 Series Sinking Fund Redemption Date until such shares shall have been redeemed. Whenever on any 2nd 1979 Series Sinking Fund Redemption Date, the funds of the Company legally available for the satisfaction of the 2nd 1979 Series Sinking Fund Obligation and all other sinking fund and similar obligations then existing with respect to any other class or series of its stock ranking on a parity as to dividends or assets with the 2nd 1979 Series Preferred Stock (such Obligation and obligations collectively being hereinafter referred to as the "Total Sinking Fund Obligation") are insufficient to permit the Company to satisfy fully its Total Sinking Fund Obligation on that date, the Company shall apply to the satisfaction of its 2nd 1979 Series Sinking Fund Obligation on that date that proportion of such legally available funds which is equal to the ratio of such 2nd 1979 Series Sinking Fund Obligation to such Total Sinking Fund Obligation. In addition to the 2nd 1979 Series Sinking Fund Obligation, the Company shall have the option, which shall be non-cumulative, to redeem, upon authorization of the Board of Directors and otherwise in the manner provided with respect to the Company's Preferred Stock, cumulative, \$25 par value, in said Agreement of Consolidation or Merger, as amended, on each 2nd 1979 Series Sinking Fund Redemption Date, at the aforesaid sinking fund redemption price, up to 80,000 additional shares of the 2nd 1979 Series Preferred Stock. The Company shall be entitled, at its election, to credit against its 2nd 1979 Series Sinking Fund Obligation on any 2nd 1979 Series Sinking Fund Redemption Date any shares of the 2nd 1979 Series Preferred Stock (including shares of the 2nd 1979 Series Preferred Stock optionally redeemed pursuant to this paragraph (d)) theretofore redeemed, other than shares of 2nd 1979 Series Preferred Stock redeemed pursuant to the 2nd 1979 Series Sinking Fund Obligation, purchased or otherwise acquired and not previously credited against the 2nd 1979 Series Sinking Fund Obligation;

(26) 500,000 shares of the Corporation's \$100 Preferred Stock authorized in paragraph (a) of this Article FIFTH shall consist of a series of the \$100 Preferred Stock of the Corporation which shall:

(A) consist of 500,000 shares to be designated "8.52% Preferred Stock, cumulative, \$100 par value" and hereinafter to be referred to as the "1986 Series Preferred Stock";

(B) have a dividend rate of \$8.52 per share per annum payable quarterly on January 1, April 1, July 1, and October 1, of each year, the first dividend date to be January 1, 1987, and such dividends to be cumulative from the date of issuance;

(C) be subject to redemption in the manner provided with respect to the Company's Preferred Stock, cumulative, \$100 par value, in said Agreement of Consolidation or Merger, as amended, at the price of \$108.52 per share if redeemed on or before November 1, 1991 (except that no share of the 1986 Series Preferred Stock shall be redeemed before November 1, 1991, if such redemption is for the purpose of or in anticipation of refunding such share through the use, directly or indirectly, of funds borrowed by the Company or through the use, directly or indirectly, of funds derived through the issuance by the Company of stock ranking prior to or on a parity with the 1986 Series Preferred Stock as to dividends or assets, if such borrowed funds have an effective interest cost to the Company (computed in accordance with generally accepted financial practice) or such stock has an effective dividend cost to the Company (so computed) of less than 8.780% per annum), of \$106.39 per share if redeemed after November 1, 1991, and on or before November 1, 1996, of \$104.26 per share if redeemed after November 1, 1996, and on or before November 1, 2001, and of \$102.13 per share if redeemed after November 1, 2001, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemptions and

(D) be subject to redemption as and for a sinking fund as follows: on November 1, 1991 and on each November 1 thereafter (each such date being hereinafter referred to as a 1986 Series Sinking Fund Redemption Date"), for so long as any shares of the 1986 Series Preferred Stock shall remain outstanding, the Company shall redeem, out of funds legally available therefor and otherwise in the manner provided with respect to the Company's Preferred Stock, cumulative, \$100 par value, in said Agreement of Consolidation or Merger, as amended, 25,000 shares of the 1986 Series Preferred Stock (or the number of shares then outstanding if less than 25,000) at the sinking fund redemption price of \$100 per share plus, as to each share so redeemed, an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date of redemption (the obligation of the Company so to redeem such shares of the 1986 Series Preferred Stock being hereinafter referred to as the

"1986 Series Sinking Fund Obligation"); the 1986 Series Sinking Fund Obligation shall be cumulative; if on any 1986 Series Sinking Fund Redemption Date, the Company shall not have funds legally available therefor sufficient to redeem the full number of shares required to be redeemed on that date, the 1986 Series Sinking Fund Obligation with respect to the shares not redeemed shall carry forward to each successive 1986 Series Sinking Fund Redemption Date until such shares shall have been redeemed; whenever on any 1986 Series Sinking Fund Redemption Date, the funds of the Company legally available for the satisfaction of the 1986 Series Sinking Fund Obligation and all other sinking fund and similar obligations then existing with respect to any other class or series of its stock ranking on a parity as to dividends or assets with the 1986 Series Preferred Stock (such obligation and obligations collectively being hereinafter referred to as the "Total Sinking Fund Obligation") are insufficient to permit the Company to satisfy fully its Total Sinking Fund Obligation on that date, the Company shall apply to the satisfaction of its 1986 Series Sinking Fund Obligation on that date that proportion of such legally available funds which is equal to the ratio of such 1986 Series Sinking Fund Obligation to such Total Sinking Fund Obligation; in addition to the 1986 Series Sinking Fund Obligation, the Company shall have the option, which shall be non-cumulative, to redeem, upon authorization of the Board of Directors and otherwise in the manner provided with respect to the Company's Preferred Stock, cumulative, \$100 par value, in said Agreement of Consolidation or Merger, as amended, on each 1986 Series Sinking Fund Redemption Date, at the aforesaid sinking fund redemption price, up to 25,000 additional shares of the 1986 Series Preferred Stock; the Company shall be entitled, at its election, to credit against its 1986 Series Sinking Fund Obligation on any 1986 Series Sinking Fund Redemption Date any shares of the 1986 Series Preferred Stock, (including shares of the 1986 Series Preferred Stock optionally redeemed pursuant to this paragraph (d)), theretofore redeemed (other than shares of the 1986 Series Preferred Stock redeemed pursuant to the 1986 Series Sinking Fund Obligation) purchased or otherwise acquired and not previously credited against the 1986 Series Sinking Fund Obligation; and further

(27) 600,000 shares of the Corporation's Class A Preferred Stock authorized in paragraph (a) of this Article FIFTH shall consist of a series of the Class A Preferred Stock of the Corporation which shall:

(A) be designated "\$1.96 Preferred Stock, Cumulative, \$0.01 Par Value (Involuntary Liquidation Value \$25)" and hereinafter be referred to as the "1992 Series Preferred Stock";

(B) have a price payable on involuntary liquidation, dissolution or winding up of the Corporation of \$25 per share;

(C) have a dividend rate of \$1.96 per share per annum payable quarterly on January 1, April 1, July 1 and October 1 of each year, the first dividend date to be July 1, 1992, and such dividends to be cumulative from June 3, 1992; and

(D) be subject to redemption in the manner provided with respect to the Corporation's Preferred Stock in the Corporation's Amended and Restated Articles Or Incorporation at the price of \$25 per share plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption (except that no share of the 1992 Series Preferred Stock shall be redeemed on or before July 1, 1997; however, such price of \$25 per share is established notwithstanding such limitation on redemption as the current redemption price for the period on or before July 1, 1997 for purposes of subparagraph (6) of paragraph (c) of Article FIFTH).

SIXTH: Director Conflict of Interest.

(a) A conflict of interest transaction is a transaction with the Corporation in which a director of the Corporation has a direct or indirect interest. A conflict of interest transaction is not voidable by the Corporation solely because of the director's interest in the transaction if any one of the following is true:

(1) The material facts of the transaction and the director's interest were disclosed or known to the Board of Directors or a committee of the Board of Directors and the Board of Directors or committee authorized, approved, or ratified the transaction

(2) The material facts of the transaction and the director's interest were disclosed or known to the holders of Common Stock and the transaction was authorized, approved, or ratified by the vote of the holders of a majority of the votes entitled to be cast by the Common Stock; or

(3) The transaction was fair to the Corporation.

(b) For purposes of this Article SIXTH, a director of the Corporation has an indirect interest in a transaction and the transaction should be considered by the Board of Directors of the Corporation if:

(1) Another entity in which the director has a material financial interest or in which the director is a general partner is a party to the transaction; or

(2) Another entity of which the director is a director, officer, or trustee is a party to the transaction.

SEVENTH: Board of Directors.

(a) The affairs and business of the Corporation shall be conducted and controlled by a Board of Directors, and the number of directors which

shall constitute the whole Board shall be such as from time to time shall be fixed by resolution adopted by the holders of Common Stock or by the Board of Directors, but in no case shall the number of directors be less than three (3) nor more than fifteen (15). Directors shall be elected by the holders of Common Stock except as provided in Article FIFTH (c)

(2) at each annual meeting of the stockholders and each director so elected shall hold office until the next annual meeting of the stockholders or until his successor is elected and qualified, except as herein provided. All stockholders entitled to vote for the election of directors may cumulate their votes for directors. Any or all directors elected by the holders of Common Stock may at any time be removed without cause by the vote of the holders of a majority of the votes entitled to be cast by the Common Stock given at a meeting called for the purpose of considering such action, and the successor of any director so removed shall be elected by the holders of Common Stock at such meeting or at a later meeting. Any or all directors elected by the holders of Preferred Stock may at any time be removed without cause by the vote of the holders of a majority of the votes entitled to be cast by the Preferred Stock given at a meeting called for the purpose of considering such action, and the successor of any director so removed shall be elected by the holders of Preferred Stock at such meeting or at a later meeting; provided, however, a director may not be removed without cause if the number of votes sufficient to elect him under cumulative voting is voted against his removal. Except as provided in Article FIFTH (c) (2), vacancies and newly created directorships resulting from any increase in the authorized number of directors may be filled as provided in the By-Laws. If the vacant office was held by a director elected by a voting group of shareholders, only the holders of shares of that voting group shall be entitled to participate in the filling of such vacancy. If the number of directors is decreased then to the extent that the decrease does not exceed the number of vacancies in the Board then existing, such resolution may provide that it shall become effective forthwith, and to the extent that the decrease does exceed such number of vacancies, such resolution shall provide that it shall not become effective until the next election of directors by the stockholders. The Board of Directors shall have power to hold their meetings, to have one or more offices and to keep the corporate books (except such books as are required by law to be kept within the state of Arkansas) outside of the State of Arkansas at such places as may from time to time be designated by them. The Board of Directors shall elect individuals to occupy executive offices as provided in the By-Laws.

(b) The Board of Directors shall have power to authorize and cause to be executed mortgages or deeds of trust which shall cover and create a lien upon, or otherwise encumber, all or any part of the property of the Corporation of whatsoever kind and wheresoever situated whether then owned or thereafter acquired and to provide in any such mortgage or deed of trust that the amount of bonds or other evidences of indebtedness to be issued thereunder and to be secured thereby shall be limited to a definite amount or limited only by the conditions therein specified and to issue or cause to be issued by the Corporation the bonds or other evidences of indebtedness to be secured thereby.

EIGHTH: Limitation of Director Liability.

(a) To the fullest extent permitted by the Arkansas Business Corporation Act, as currently in effect or as hereafter may be amended or modified, or any other applicable law presently or hereafter in effect, no director of the Corporation shall be personally liable to the Corporation or its shareholders for monetary damages for or with respect to any acts or omissions in the performance of his duties.

(b) Any repeal or modification of the foregoing subparagraph by the shareholders of the Corporation shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or modification.

NINTH: Indemnification.

(a) Every person who is or was an officer, director or employee of the Corporation and who also is or was a party or is threatened to be made a party to or is involved in any threatened, pending, or completed action, suit or proceeding, whether civil, criminal, administrative, or investigative or by or in the right of the Corporation, by reason of the fact that he is or was a director, officer or employee of the Corporation or is or was serving at the request of the Corporation as a director or officer of another corporation, or as its representative in a partnership, joint venture, trust, or other enterprise, shall be indemnified and held harmless to the fullest extent legally permissible under and pursuant to the Arkansas Business Corporation Act, as currently in effect or as hereafter may be amended or modified, but in the case of any such amendment, only to the extent that such amendment permits the Corporation to give broader indemnification rights than said law permitted the Corporation to provide prior to such amendment. Such right of indemnification shall be a contract right that may be enforced in any lawful manner by such person. Such right of indemnification shall not be exclusive of any other right which such director, officer or employee may have or hereafter acquire and, without limiting the generality of such statement, he shall be entitled to his rights of indemnification under any agreement, vote of shareholders, provision of law, or otherwise, as well as his rights under this Article NINTH.

(b) Expenses incurred by any person who is or was an officer, director or employee of the Corporation in defending a civil, criminal, administrative, or investigative action, suit or proceeding by reason of the fact that he is or was a director, officer or employee of the Corporation or was serving at the Corporation's request as a director or officer of another corporation or as its representative in a partnership, joint venture, trust or other enterprise shall be paid by the Corporation in advance of the final disposition of such action, suit or proceeding to the fullest extent legally permissible under and pursuant to the Arkansas Business Corporation Act, as currently in effect or as hereafter may be amended or modified, but in the case of any such amendment, only to the extent that such amendment permits the Corporation to provide broader rights to payment of expenses than said law permitted the Corporation to provide prior to such amendment. Such right to payment of expenses shall be a contract right that may be enforced in any lawful manner by such person.

(c) If any provision of this Article NINTH or the application thereof to any person or circumstance is adjudicated invalid, such invalidity shall

not affect other provisions or applications of this Article NINTH which lawfully can be given without the invalid provision or application.

TENTH: Bylaws. The present by-laws of the Corporation shall continue to be the by-laws of the Corporation until changed or amended as therein or herein or by law provided.

ELEVENTH: Incorporators. The names of the incorporators of the Corporation, as set forth in the Agreement of Consolidation or Merger dated October 13, 1926, which information is provided herein for informational purposes only, are as follows:

C. D. Cherry
W. H. Holmes
Ray Gibson

Effective November 17, 1999

Exhibit 3(i)(d)1

RESTATED ARTICLES OF INCORPORATION
of
ENTERGY GULF STATES, INC.

ARTICLE I.

The name of the Corporation is "ENTERGY GULF STATES, INC.".

ARTICLE II.

The purposes for which the Corporation is formed are the generation, manufacture, transportation, distribution, supply and sale of electric current, light and power to the public; the production, manufacture and purchase of gas and the transportation, distribution, sale and supply of gas to the public; the purchase, generation, manufacture, transportation, distribution and sale of steam; the doing of all such things as may be necessary or convenient in carrying out any and all of the foregoing purposes.

The foregoing shall be construed as objects, purposes and powers, and it is hereby expressly provided that neither the foregoing specific enumeration nor anything in these Articles of Incorporation contained shall be deemed to limit or exclude any power, right or privilege not permitted by the laws of the State of Texas, for the purposes for which the Corporation is organized.

ARTICLE III.

The places where the business of the Corporation is to be transacted are in Jefferson County, Texas, and elsewhere within or without the State of Texas and its principal office is to be located in the City of Beaumont, Jefferson County, State of Texas.

The post office address of the registered office of the Corporation is 350 Pine Street, Beaumont, Texas, 77701 and the name of its registered agent at such address is Jerry Wright.

ARTICLE IV.

The period of duration of the Corporation is perpetual.

ARTICLE V.

The number of Directors of the Corporation shall not be less than three (3) and not more than the number fixed from time to time by the Bylaws of the Corporation. The names and addresses of the persons who initially served as Directors from the date of filing of the original Articles of Incorporation on August 25, 1925 until their successors were elected and qualified were: J. G. Holtzclaw and Y. D. Carroll of Beaumont, Jefferson County, Texas, and Palmer Hutcheson of Houston, Harris County, Texas.

ARTICLE VI.

A. The total number of authorized shares of the capital stock of the Corporation shall be as follows:

Authorized	Class	Par Value	Shares
6,000,000	Preferred Stock -- \$100 par value	\$100	
10,000,000	Preferred Stock - without par value	Without par value	
20,000,000	Preference Stock	Without par value	
200,000,000	Common Stock	Without par value	

References in these Articles of Incorporation to "Preferred Stock" shall refer to both classes of Preferred Stock except where otherwise indicated.

B. The Corporation has received for shares issued consideration in excess of \$1,000 consisting of money paid, labor done, or property actually received.

C. Subject to limitations in the Articles of Incorporation, any shares of stock of the Corporation now and hereafter authorized may be issued and disposed of by the Board of Directors of the Corporation at any time or from time to time for such consideration in the form of money paid, labor done, or property actually received as may be fixed at any time or from time to time by the Board of Directors, provided, that as to any of such shares with par value the consideration so to be received shall not be less than the par value thereof; and authority so to fix such consideration is hereby granted by the stockholders to the Board of Directors; and any and all shares so issued and disposed of shall be fully paid and nonassessable.

D. The aggregate number of shares which the Corporation shall have authority to issue may be increased or decreased at any time or times in any manner then prescribed or permitted by existing laws of Texas, subject, however, to the provisions of these Articles of Incorporation.

E. The descriptions of the different classes of capital stock of the Corporation and the preferences, designations, relative rights, privileges and powers of, and the restrictions, limitations or qualifications on, said classes of stock are as follows:

PREFERRED STOCK.

1. Series and Limits of Variations Between Series of the Preferred Stock. Subject to the provisions of this Article VI setting forth the provisions of the established series of Preferred Stock--\$100 Par Value (which said provisions, however, shall not continue effective as to any shares which are redeemed or repurchased and restored to the status of authorized but unissued shares of such class), each class of Preferred Stock may be issued in one series or divided into and issued in more than one series from time to time as herein provided. Series shall be established by the Board of Directors. The authorized number of shares of any such series, the designation of such series, the relative rights and preferences thereof and the terms and characteristics thereof (in those respects in which the shares of one series may vary from the shares of other series as herein provided) shall be fixed and determined at any time prior to the issuance thereof by resolution or resolutions of the Board of Directors of the Corporation. All shares of each series shall be alike in every particular. Preferred Stock of all series within each class shall be of equal rank and shall be identical in all respects, except in the following particulars:

(a) The designation of such series, which may be by distinguishing number, letter or title;

(b) The rate at which dividends are to accrue on the shares of such series, hereinafter referred to as the "fixed dividend rate";

(c) The terms and conditions on which the shares of such series may be redeemed and the amount payable in respect of the shares of such series in case of the redemption thereof at the option of the Corporation, the amount so fixed being hereinafter referred to as the "fixed redemption price", and the amount payable in respect of the shares of such series in case of the redemption thereof for any sinking fund for such series, which amounts in respect of any series may, but need not, vary according to the time or circumstances of such action;

(d) The amount payable in respect of the shares of such series in case of liquidation, dissolution, or winding up of the Corporation, or reduction or decrease of its capital stock resulting in any distribution of its assets to its Common Stockholders, the amount so fixed being hereinafter referred to as the "fixed liquidation price", and the amount payable, if any, in addition to the fixed liquidation price for each series in case such liquidation, dissolution, winding up, reduction or decrease be voluntary, the amount so fixed being hereinafter referred to as the "fixed liquidation premium", which amounts in respect of any series may, but need not, vary according to the time or circumstances of such action;

(e) Any requirement as to any sinking fund or purchase fund for, or the redemption, purchase or other retirement by the Corporation of, the shares of such series;

(f) The right, if any, to convert the shares of such series into shares of any other series of such class of Preferred Stock or into shares of any other class of stock of the Corporation and the rate or basis, time, manner, terms and conditions of conversion or the method by which the same shall be determined; and

(g) With respect to series of Preferred Stock--without par value, and only such class, the voting rights of the shares of such series; provided that the vote per share fixed for the shares of any series of such class on such issues as to which it is given voting rights by these Articles of Incorporation or by law may not exceed one one-hundredth of a vote per dollar of consideration per share fixed by the Board of Directors for such shares upon original issuance of such series which shall constitute the stated capital value of such share. Each share of Preferred Stock--\$100 Par Value shall have one vote per share on such issues as to which it is given voting rights by these Articles of Incorporation or by law.

2. Dividends on the Preferred Stock. Out of the assets of the Corporation available for dividends, the holders of each series of Preferred Stock

at the time outstanding shall be entitled to receive, if and when declared payable by the Board of Directors, dividends in lawful money of the United States of America at, but not exceeding, the fixed dividend rate for the particular series, payable quarterly on March 15, June 15, September 15 and December 15 in each year, before any dividends (other than a dividend payable in Common Stock of the Corporation) shall be paid upon or set apart for the Common Stock; and such dividends on each series of Preferred Stock shall be cumulative, so that, if in any past dividend period or periods full dividends upon each series of outstanding Preferred Stock at the fixed dividend rate or rates therefor shall not have been paid, the deficiency (without interest) shall be paid or declared and set apart for payment before any dividends shall be paid upon or set apart for the Common Stock. Dividends on all shares of Preferred Stock of each series of both classes, other than the shares of the \$4.40 Dividend Preferred Stock-- \$100 Par Value (issued in 1944) and \$4.50 Dividend Preferred Stock-- \$100 Par Value (issued in 1947), shall commence to accrue and be cumulative from the dividend date for such series next preceding the date of issue of the initial shares of such series, or from said date of issue, if that be a dividend date; but in the event of the issue of additional shares of Preferred Stock of any series, subsequent to the date of the initial issue of shares of such series, all dividends paid on Preferred Stock of such series prior to the issue of such additional shares, and all dividends declared payable to the holders of record of Preferred Stock of such series at a date prior to such issue, shall be deemed to have been paid in respect of the additional shares so issued, and in the event any shares of Preferred Stock of any series are issued on any date other than a dividend date, any dividends accrued and cumulated from the dividend date next preceding the date of issue to the date of issue shall be deemed for all purposes to have been paid in respect of all such shares so issued and the dividend payable thereon on the next dividend date shall be reduced by the amount so deemed to have been paid. Any dividends declared or paid on Preferred Stock in an amount less than full cumulative dividends accrued or in arrears upon all Preferred Stock outstanding shall, if more than one series be outstanding, be divided among the different series in both classes then outstanding in proportion to the aggregate amounts which would be distributable to Preferred Stock of each series if full cumulative dividends were declared and paid thereon.

3. Preference of Preferred Stock on Liquidation, etc. In the event of any liquidation, dissolution, or winding up of the Corporation, or reduction or decrease of its capital stock resulting in a distribution of assets to its Common Stockholders other than by way of dividends out of the net profits or out of the surplus of the Corporation, the holders of Preferred Stock of each series in both classes then outstanding shall be entitled to receive, for each share thereof, the fixed liquidation price for such series, plus, in case such liquidation, dissolution, winding up, reduction or decrease shall have been voluntary, the fixed liquidation premium for such series, if any, together in all cases with all dividends accrued or in arrears thereon, before any distribution of the assets shall be made to the holders of the Common Stock; but the holders of Preferred Stock shall be entitled to no further participation in such distribution. If upon any such liquidation, dissolution, winding up, reduction or decrease, the assets distributable among the holders of Preferred Stock shall be insufficient to permit the payment of the full preferential amounts aforesaid, then the entire assets of the Corporation to be distributed shall be distributed among the holders of each series in both classes of Preferred Stock then outstanding, ratably in proportion to the full preferential amounts to which they are respectively entitled. As used in this Article the expression "dividends accrued or in arrears" means, in respect of each share of Preferred Stock of any series, that amount which shall be equal to simple interest upon the par or stated value at an annual rate equal to the percentage that the fixed dividend rate for such series is of the par or stated value, from the date from which cumulative dividends thereon commence to accrue to the date as of which the computation is to be made, less the aggregate amount (without interest thereon) of all dividends theretofore paid (or deemed to have been paid) or declared and set aside for payment in respect thereof. A consolidation or merger of the Corporation, a sale or transfer of substantially all of its assets as an entirety, or the repurchase or redemption of Preferred Stock in accordance with the provisions of Paragraph 4 below, or the purchase of Common Stock in accordance with the provisions of Paragraph 14 below, whether or not the Preferred or Common Stock so redeemed or repurchased shall be retired, shall not be regarded as a "liquidation, dissolution, or winding up of the Corporation, or reduction or decrease of its capital stock resulting in a distribution of assets to its Common Stockholders other than by way of dividends out of the net profits or out of the surplus of the Corporation" within the meaning of this Paragraph 3.

4. Redemption and Repurchase of Preferred Stock. The Corporation may, at its option expressed by vote of its Board of Directors, at any time or from time to time, redeem the whole or any part of either or both classes of Preferred Stock or of any series thereof at the fixed redemption price for such series, together with the amount of any dividends accrued or in arrears thereon to the date of such redemption. Notice of any proposed redemption of any series of Preferred Stock shall be given by publication at least once in a newspaper printed in the English language and customarily published on each business day and of general circulation in each of the City of Beaumont, State of Texas, and the Borough of Manhattan, City and State of New York, the publication in each such newspaper to be at least 30 days, and not more than 60 days, prior to the date fixed for such redemption. As a matter of courtesy, but not a matter of right, the Corporation may mail a copy of such notice to the holders of record of each series of Preferred Stock to be redeemed, at their respective addresses then appearing on the books of the Corporation, to the extent that they may lawfully do so; but neither failure to mail such copy nor any defect therein or in the mailing thereof shall affect the validity of the proceedings for the redemption of any shares of each series of Preferred Stock so to be redeemed. Any such redemption of any series of Preferred Stock shall be in such amount, at such places and by such method, whether by lot or pro rata, as shall from time to time be determined by vote of its Board of Directors. From and after the date fixed in any such notice as the date of redemption, unless default shall be made by the Corporation in providing funds sufficient for such redemption at or before the time and at the place specified for the payment thereof pursuant to said notice, all dividends on the shares called for redemption shall cease to accrue; and from and after the date so fixed, unless default be made as aforesaid, or from and after the date of the earlier deposit by the Corporation in trust, with a bank or trust company having an aggregate capital and surplus of at least \$5,000,000 and doing business in the Borough of Manhattan, City and State of New York, or in the City of Boston, Commonwealth of Massachusetts, of funds sufficient for such redemption (a statement of the intention so to deposit having been included in said notice) all rights of the holders of the shares so called for redemption as stockholders of the Corporation, except only the right to receive, without interest, when due the redemption funds to which they are entitled, shall cease and determine. Any funds so deposited which shall remain unclaimed by the holders of such Preferred Stock at the end of six (6) years after the redemption date, together with any interest

thereon that shall have been allowed by the bank or trust company with which the deposit shall have been made, shall be paid by it to the Corporation to be held by the Corporation for such holders. The Corporation may also from time to time repurchase shares of its Preferred Stock at not exceeding the price at which the same may be redeemed. Shares of Preferred Stock of either class redeemed or repurchased by the Corporation shall be restored to the status of authorized but unissued shares of such class of Preferred Stock without designation thereof and may from time to time be reissued as provided in Paragraph 1 of this Article VI.

5. Restrictions on Certain Corporation Action. So long as any shares of any series of such class of Preferred Stock shall remain outstanding, the Corporation shall not, without the affirmative vote of the holders of two-thirds of the total number of shares of such class of Preferred Stock then outstanding, at a meeting of such class of Preferred Stockholders called for the purposes of approving such action (but upon such vote, and any requisite vote at a meeting of the holders of all classes of stock then outstanding having the privilege to vote to authorize the Board of Directors to take such action, may):

(a) Authorize or issue any stock ranking prior to such class of Preferred Stock in respect of dividends or assets (such stock being hereinafter in this Paragraph 5 referred to as "Senior Stock") or authorize or issue any stock ranking on a parity with such class of Preferred Stock (but not including any series or stock of Preferred Stock--\$100 Par Value or Preferred Stock-- without par value) in respect of dividends or assets (such stock ranking on a parity with but excluding Preferred Stock--\$100 Par Value and Preferred Stock-- without par value being hereinafter in this Paragraph 5 referred to as "Parity Stock"), except (i) the issue of Senior Stock or Parity Stock upon conversion of obligations or securities convertible into, or upon exercise of warrants, rights or options to purchase or subscribe to, Senior Stock or Parity Stock which has been authorized pursuant to (b) below, and (ii) the issue of any stock of any series of either class of Preferred Stock up to the number of shares of such class then authorized hereunder, which issuance may be done by the Board of Directors as provided in these Articles of Incorporation, without any vote by holders of shares of either class of Preferred Stock except as may be required by the provisions of clause (f) below;

(b) Authorize or issue any obligation or security convertible into, or any warrants, rights or options to purchase or subscribe to, shares of Senior Stock or Parity Stock;

(c) Reduce the amount of capital represented by the outstanding Preferred Stock of such class; or reduce below \$11,101,124 the aggregate amount of capital represented by Common Stock, except in a case where any State or Federal regulatory body having jurisdiction shall have required or permitted the Corporation to reduce the book value of any of its assets and, in connection therewith, the amount of capital represented by Common Stock shall be reduced by an amount or amounts not exceeding in the aggregate the amount of such reduction in book value of assets; provided, however, that nothing herein shall require any such vote of the holders of either class of Preferred Stock if the reduction of capital shall be in connection with the retirement of shares of either class of Preferred Stock repurchased or redeemed in accordance with the provisions of this Article VI and shall not be in excess of the capital represented by the repurchased or redeemed shares; references to "capital" in this clause (c) being references to stated capital as defined by law; or

(d) Alter, amend, or repeal the provisions relating to such class of Preferred Stock so as to affect adversely any of the preferences or other rights of such class of Preferred Stock.

So long as any shares of any series of either class of Preferred Stock shall remain outstanding, the Corporation shall not:

(e) Authorize or issue any obligation or security convertible into, or any warrants, rights or options to purchase or subscribe to shares of any series of Preferred Stock or authorize any shares of Preferred Stock in excess of such amount as shall have been permitted from time to time by the affirmative vote, at a meeting called for such purpose, of the holders of shares of each class of Preferred Stock then outstanding having a majority of the votes entitled to be cast, at which meeting the holders of shares of each such class of Preferred Stock then outstanding having one-third or more of the votes entitled to be cast shall not have voted against such permission; or

(f) Issue any shares of Preferred Stock, including any shares which have been redeemed or repurchased and thereby restored to the status of authorized but unissued shares, within the number of shares permitted by action of the holders of Preferred Stock pursuant to clause (e) above (except upon conversion of obligations or securities convertible into, or upon exercise of warrants, rights or options to purchase or subscribe to, Preferred Stock), unless one of the two following conditions shall have been satisfied, namely, that:

(i) The specific issue, sale or disposition proposed shall have been approved by the affirmative vote, at a meeting called for such purpose, of the holders of each class of Preferred Stock then outstanding having a majority of the votes entitled to be cast, at which meeting the holders of shares of each such class of Preferred Stock then outstanding having one-third or more of the votes entitled to be cast shall not have voted against such action; or

(ii) For a period of 12 consecutive calendar months within the 15 calendar months immediately preceding the issuance of such additional shares or the contracting for the issuance and sale thereof, (1) the net income of the Corporation available for dividends as determined in accordance with sound accounting practice is at least 2-1/2 times the annual dividend requirements on all Preferred Stock of all series in both classes, all Parity Stock and all Senior Stock to be outstanding immediately after the issuance of such additional shares; and (2) the balance of earnings of the Corporation available (after taxes and depreciation) for interest, amortization and dividends as determined in accordance with sound accounting practice is at least 1-1/2 times the aggregate of the annual interest requirements on its indebtedness to be outstanding immediately

after the proposed issue of such additional shares and the annual dividend requirements on all Senior Stock, all Parity Stock and Preferred Stock of all series in both classes to be outstanding immediately after the proposed issue of such additional shares. Where the Corporation shall have acquired any property during the period of the computation of such earnings or where the proceeds of the sale of the shares to be issued are proposed to be applied to the purchase of any property, the net income or losses from such property for the whole period of the computation shall be included or reflected therein.

So long as any shares of any series of either class of Preferred Stock shall remain outstanding, the Corporation shall not, without the affirmative vote, at a meeting called for such purpose, of the holders of shares of each class of Preferred Stock then outstanding having a majority of the votes entitled to be cast (but, upon such vote and any requisite vote of the holders of the shares of the Common Stock then outstanding, may):

(g) Merge or consolidate the Corporation with or into any other corporation, or sell substantially all of the assets of the Corporation, unless such merger or consolidation or sale, or the issuance and assumption of all securities to be issued or assumed in connection with any such merger or consolidation or sale, shall have been ordered, approved, or permitted by the Securities and Exchange Commission under the Public Utility Holding Company Act of 1935, or by any successor commission or other regulatory authority of the United States or of any State or governmental subdivision thereof having jurisdiction in the premises, after specific application or other formal presentation; but the provisions of this Clause (g) shall not apply to an acquisition by the Corporation or franchises or assets in any manner which does not involve a merger or consolidation.

Notwithstanding anything elsewhere in this Article VI, if in connection with the accomplishment of any matter whatever provision is to be made for the redemption or retirement of all of Preferred Stock of any series of either class at the time outstanding, nothing in this Article VI shall be construed to confer on the holders of Preferred Stock of such series any power or right to vote in respect of any such matter, and the holders of Preferred Stock of such series shall not have any power or right to vote in respect of any such matter except where, and to the extent that, a right to vote which cannot be waived by the terms hereof is conferred by the then existing laws of the State of Texas.

6. Voting Rights. The holders of shares of Preferred Stock shall not possess voting power for any purpose other than those for which voting power is conferred by Paragraph 5 of this Article VI and by this Paragraph 6. In addition to the voting powers expressly conferred upon Preferred Stock by the provisions of Paragraph 5 of this Article VI and in addition to voting rights granted to Preferred Stock in statutory proceedings as to which their vote may be mandatorily required by the then existing laws of the State of Texas, in case at any time the Corporation shall fail to declare and pay or set aside for payment in full any quarterly dividend on any series of either class of Preferred Stock and shall not on or before the fourth succeeding quarterly dividend payment date declare and pay or set aside for payment in full said dividend in arrears and also all dividends which shall in the meantime have become due and payable on all of the outstanding Preferred Stock of both classes, such holders of all series of both classes of Preferred Stock shall thereupon have and continue to have the right, voting together as a combined class for such purpose by plurality vote, with each share of Preferred Stock--\$100 Par Value having for purposes of the combined class votes provided for in this Paragraph 6 one vote per share and each share of Preferred Stock-- without par value having for such purpose the vote per share fixed for such share pursuant to Paragraph 1(g) above, to elect the smallest number of Directors of the Corporation necessary to constitute a majority of the members of the Board of Directors, until all dividends accrued and payable on both classes of Preferred Stock shall have been fully paid; and, during the continuance of such right of the holders of all series of both classes of Preferred Stock to elect such majority of the Board of Directors, the holders of the Common Stock shall have the right, voting as a class, by plurality vote, to elect the remaining members of the Board of Directors. The terms of office of all persons who may be Directors of the Corporation at any time when such right to elect such majority of the Board of Directors shall accrue to the holders of both classes of Preferred Stock shall terminate upon the election of their successors; and such election may be held at a special meeting of all stockholders of the Corporation which shall be convened at any time after the accrual of such right upon notice similar to that provided in the Bylaws of the Corporation for calling the annual meeting of the stockholders, at the request in writing of the holders of record of at least 2% of the number of shares of both classes of Preferred Stock then outstanding. In default of the calling of said meeting by a proper officer of the Corporation within five days after the making of such request, such meeting may be called on like notice by any holder of record of either class of Preferred Stock, for which purpose any such holder of Preferred Stock shall have the right to have access to the stock books of the Corporation. If such special meeting be not called prior to the next annual meeting, the holders of both classes of Preferred Stock as one combined class for such purpose, and the holders of the Common Stock as a second class, shall, respectively, elect such majority and such minority of the members of the Board of Directors as aforesaid, at such annual meeting, unless previously thereto all such dividend defaults shall have been made good. At all meetings of stockholders held, for the purpose of electing Directors, during the period Preferred Stockholders shall have the right to elect a majority of the members of the Board of Directors, the holders of shares having a majority of the votes entitled to be cast by the then issued and outstanding Preferred Stock as a combined class and of the Common Stock as a class shall constitute a quorum of those classes, respectively, for the purposes of such meetings and lack of a quorum as to either of such classes at any such meeting shall not interfere with the holding of such meeting and the election of Directors by the class having a quorum present; provided that in such election the specific Directors to be succeeded shall be designated. Upon the termination at any time of such right of the holders of both classes of Preferred Stock to elect such majority of the Board of Directors, the term of office of all Directors elected by vote of the holders of both classes of Preferred Stock as a combined class (or elected to fill a vacancy which might have been so filled) shall end upon the election and qualification of their successors; and such election may be held at a special meeting of holders of Common Stock, convened on like notice at the request in writing of the holders of record of at least 2% of the total number of shares of Common Stock then outstanding, or, if such special meeting is not called prior to the next annual meeting, at such annual meeting. In default of the calling of said meeting by a proper officer of the Corporation within five days after the making of such request, such meeting may be called on like notice by any holder of record of the Common Stock of the Corporation, for which purpose any such holder of Common Stock shall

have the right to have access to the stock books of the Corporation. Whenever, by reason of the resignation, death or removal of any Director or Directors or any increase in the number of Directors, at any time while the holders of Preferred Stock are entitled to elect such majority of the Board of Directors as aforesaid, the number of Directors in office who have been elected by either the holders of both classes of Preferred Stock as a combined class or the holders of the Common Stock as a class shall become less than the total number subject to election by such respective classes, the vacancy or vacancies so resulting may be filled by plurality vote of such respective classes of stockholders at a meeting thereof called for the purpose, or, pending such action, by the affirmative vote of a majority of the Directors at the time in office who were elected by the vote of such class of stockholders, although such Directors shall be less than a quorum of the Board of Directors, at a meeting called by any such Director in the manner provided in the Bylaws for the calling of special meetings of the Board of Directors. During the continuance of such voting rights, a Director elected by holders of both classes of Preferred Stock as a combined class or the Common Stock as a class (or elected to fill a vacancy which might have been so filled) shall be subject to removal by majority vote of both classes of Preferred Stock or of the Common Stock at the time outstanding, as appropriate, at a special meeting called for the purpose, but not otherwise. A special meeting of stockholders to fill a vacancy or to remove a Director as last above provided may be called at any time by the holder or holders of record of shares entitled to cast at least 5% of the votes of the class or combined classes of stock entitled to vote thereat or in such other manner as may be provided for in the Bylaws. The term of office of any officer of the Corporation shall terminate upon the election and qualification of his successor; and such election may be held at any meeting of the Board of Directors following any special meeting of stockholders held upon the accrual or termination of the voting rights of the holders of the Preferred Stock to elect such majority of the Board of Directors so that new Directors elected at any such meeting of stockholders shall be empowered to choose new officers of the Corporation or any thereof in their discretion.

DIFFERENT SERIES OF PREFERRED STOCK.

7. \$4.40 Dividend Preferred Stock -- \$100 Par Value. 120,000 shares of the authorized stock classified as Preferred Stock--\$100 Par Value as provided in Paragraph A of this Article VI shall constitute the first series of Preferred Stock--\$100 Par Value and are designated as "\$4.40 Dividend Preferred Stock--\$100 Par Value"; the fixed dividend rate on the shares of such series is \$4.40 per share per annum and such dividends are cumulative from the date of the initial issuance of any shares of such series, with the first dividend payable December 15, 1944 in respect of the period from the date of the initial issuance of any shares of such series to said December 15, 1944; the fixed redemption price on the shares of such series is \$111 per share prior to October 1, 1949, \$109.50 per share on October 1, 1949 and thereafter prior to October 1, 1954, and \$108 per share on October 1, 1954 and thereafter; the fixed liquidation price on the shares of such series is \$100 per share; and the fixed liquidation premium on the shares of such series is \$11 per share prior to October 1, 1949, \$9.50 per share on October 1, 1949 and thereafter prior to October 1, 1954, and \$8 per share on October 1, 1954 and thereafter. The \$4.40 Dividend Preferred Stock--\$100 Par Value has no exchange or conversion rights.

7a. \$4.50 Dividend Preferred Stock -- \$100 Par Value. 50,000 shares of the authorized stock classified as Preferred Stock--\$100 Par Value as provided in Paragraph A of this Article VI shall constitute the second series of Preferred Stock--\$100 Par Value and are designated as "\$4.50 Dividend Preferred Stock--\$100 Par Value"; the fixed dividend rate on the shares of such series is \$4.50 per share per annum and such dividends are cumulative from the date of the original issuance of such series, with the first dividend payable in respect to the period from the date of the original issuance of such series to March 15, 1948; the fixed redemption price on the shares of such series is \$105 per share; the fixed liquidation price on the shares of such series is \$100 per share; and the fixed liquidation premium on the shares of such series is \$5 per share. The \$4.50 Dividend Preferred Stock--\$100 Par Value has no exchange or conversion rights.

7b. \$4.40 Dividend Preferred Stock, 1949 Series -- \$100 Par Value. 60,000 shares of the authorized stock classified as Preferred Stock-- \$100 Par Value as provided in Paragraph A of this Article VI shall constitute the third series of Preferred Stock--\$100 Par Value and are designated as "\$4.40 Dividend Preferred Stock, 1949 Series--\$100 Par Value"; the fixed dividend rate on the shares of such series is \$4.40 per share per annum and such dividends are cumulative from September 15, 1949, with the first dividend payable December 15, 1949; the fixed redemption price on the shares of such series is \$105 per share prior to September 15, 1954, \$104 per share on September 15, 1954 and thereafter prior to September 15, 1959, and \$103 per share on September 15, 1959 and thereafter; the fixed liquidation price on the shares of such series is \$100 per share; and the fixed liquidation premium on the shares of such series is \$5 per share prior to September 15, 1954, \$4 per share on September 15, 1954 and thereafter prior to September 15, 1959, and \$3 per share on September 15, 1959 and thereafter. The \$4.40 Dividend Preferred Stock, 1949 Series--\$100 Par Value has no exchange or conversion rights.

7c. \$4.20 Dividend Preferred Stock -- \$100 Par Value. 70,000 shares of the authorized stock classified, as Preferred Stock--\$100 Par Value as provided in Paragraph A of this Article VI shall constitute the fourth series of Preferred Stock--\$100 Par Value and are designated as "\$4.20 Dividend Preferred Stock--\$100 Par Value"; the fixed dividend rate on the shares of such series is \$4.20 per share per annum and such dividends are cumulative from September 15, 1950, with the first dividend payable December 15, 1950; the fixed redemption price on the shares of such series is \$104.818 per share prior to October 1, 1955, \$103.818 per share on October 1, 1955 and thereafter prior to October 1, 1960, and \$102.818 per share on October 1, 1960 and thereafter; the fixed liquidation price on the shares of such series is \$100 per share; and the fixed liquidation premium on the shares of such series is \$4.818 per share prior to October 1, 1955, \$3.818 per share on October 1, 1955 and thereafter prior to October 1, 1960, and \$2.818 per share on October 1, 1960 and thereafter. The \$4.20 Dividend Preferred Stock-- \$100 Par Value has no exchange or conversion rights.

7d. \$4.44 Dividend Preferred Stock -- \$100 Par Value. 50,000 shares of the authorized stock classified as Preferred Stock--\$100 Par Value as

provided in Paragraph A of this Article VI shall constitute the fifth series of Preferred Stock--\$100 Par Value and are designated as "\$4.44 Dividend Preferred Stock--\$100 Par Value"; the fixed dividend rate on the shares of such series is \$4.44 per share per annum and such dividends are cumulative from June 15, 1952, with the first dividend payable September 15, 1952; the fixed redemption price on the shares of such series is \$105.75 per share prior to July 1, 1957, \$104.75 per share on July 1, 1957, and thereafter prior to July 1, 1962, and \$103.75 per share on July 1, 1962 and thereafter; the fixed liquidation price on the shares of such series is \$100 per share; and the fixed liquidation premium on the shares of such series is \$5.75 per share prior to July 1, 1957, \$4.75 per share on July 1, 1957 and thereafter prior to July 1, 1962, and \$3.75 per share on July 1, 1962 and thereafter. The \$4.44 Dividend Preferred Stock--\$100 Par Value has no exchange or conversion rights.

7e. \$5.00 Dividend Preferred Stock -- \$100 Par Value. 75,000 shares of the authorized stock classified as Preferred Stock--\$100 Par Value as provided in Paragraph A of this Article VI shall constitute the sixth series of Preferred Stock--\$100 Par Value declared designated: "\$500 Dividend Preferred Stock--\$100 Par Value"; the fixed dividend rate on the shares of such series is \$5.00 per share per annum and such dividends are cumulative from December 15, 1957, with the first dividend payable March 15, 1958; the fixed redemption price on the shares of such series is \$108.25 per share prior to February 1, 1963, \$106.25 per share on February 1, 1963 and thereafter prior to February 1, 1968, and \$104.25 per share on February 1, 1968 and thereafter; the fixed liquidation price on the shares of such series is \$100 per share; and the fixed liquidation premium on the shares of such series is \$8.25 per share prior to February 1, 1963, \$6.25 per share on February 1, 1963 and thereafter prior to February 1, 1968, and \$4.25 per share on February 1, 1968 and thereafter. The \$5.00 Dividend Preferred Stock-- \$100 Par Value has no exchange or conversion rights.

7f. \$5.08 Dividend Preferred Stock -- \$100 Par Value. 100,000 shares of the authorized stock classified as Preferred Stock--\$100 Par Value as provided in Paragraph A of this Article VI shall constitute the seventh series of Preferred Stock--\$100 Par Value and are designated as "\$5.08 Dividend Preferred Stock--\$100 Par Value"; the fixed dividend rate on the shares of such series is \$5.08 per share per annum and such dividends are cumulative from December 15, 1958, with the first dividend payable March 15, 1959; the fixed redemption price on the shares of such series is \$108.63 per share if redeemed prior to January 1, 1964; \$106.63 per share if redeemed on January 1, 1964 or thereafter and prior to January 1, 1969; \$104.63 per share if redeemed on January 1, 1969 or thereafter. The fixed liquidation price for the shares of such series is \$100 per share; and the fixed liquidation premium on the shares of such series is \$8.63 per share prior to January 1, 1964, \$6.63 per share on January 1, 1964 and thereafter prior to January 1, 1969, and \$4.63 per share on January 1, 1969 and thereafter. The \$5.08 Dividend Preferred Stock--\$100 Par Value has no exchange or conversion rights.

7g. \$4.52 Dividend Preferred Sock -- \$100 Par Value. 100,000 shares of authorized stock classified as Preferred Stock--\$100 Par Value as provided in Paragraph A of Article VI of the Articles of Incorporation shall constitute the eighth series of Preferred Stock--\$100 Par Value and are designated as "\$4.52 Dividend Preferred Stock--\$100 Par Value"; the fixed dividend rate on the shares of such series is \$4.52 per share per annum and such dividends are cumulative from September 15, 1963, with the first dividend payable December 15, 1963; the fixed redemption price on the shares of such series is \$106.57 per share if redeemed prior to October 1, 1968; \$105.57 per share if redeemed on October 1, 1968 or thereafter and prior to October 1, 1973; \$103.57 per share if redeemed on October 1, 1973 or thereafter. The fixed liquidation price for the shares of such series is \$100 per share; and the fixed liquidation premium on the shares of such series is \$6.57 per share prior to October 1, 1968, \$5.57 per share on October 1, 1968 and thereafter prior to October 1, 1973, and \$3.57 per share on October 1, 1973 and thereafter. The \$4.52 Dividend Preferred Stock--\$100 Par Value has no exchange or conversion rights.

7h. \$6.08 Dividend Preferred Stock -- \$100 Par Value. 200,000 shares of authorized stock classified as Preferred Stock--\$100 Par Value as provided in Paragraph A of Article VI of the Articles of Incorporation shall constitute the ninth series of Preferred Stock-- \$100 Par Value and are designated as "\$6.08 Dividend Preferred Stock-- \$100 Par Value"; the fixed dividend rate on the shares of such series is \$6.08 per share per annum and such dividends are cumulative from June 15, 1967, with the first dividend payable September 15, 1967; the fixed redemption price on the shares of such series is \$107.42 per share if redeemed prior to July 1, 1972; \$105.34 per share if redeemed on July 1, 1972 or thereafter and prior to July 1, 1977; \$103.34 per share if redeemed on July 1, 1977 or thereafter. The fixed liquidation price for the shares of such series is \$100 per share; and the fixed liquidation premium on the shares of such series is \$7.42 per share prior to July 1, 1972, \$5.34 per share on July 1, 1972 and thereafter prior to July 1, 1977, and \$3.34 per share on July 1, 1977 and thereafter. The \$6.08 Dividend Preferred Stock--\$100 Par Value has no exchange or conversion rights.

7i. \$7.56 Dividend Preferred Stock -- \$100 Par Value. 350,000 shares of authorized stock classified as Preferred Stock--\$100 Par Value as provided in Paragraph A of Article VI of the Articles of Incorporation shall constitute the tenth series of Preferred Stock-- \$100 Par Value and are designated as "\$7.56 Dividend Preferred Stock-- \$100 Par Value"; the fixed dividend rate on the shares of such series is \$7.56 per share per annum and such dividends are cumulative from September 15, 1972, with the first dividend payable December 15, 1972; the fixed redemption price on the shares of such series is \$108.36 per share if redeemed prior to September 1, 1977; \$106.80 per share if redeemed on September 1, 1977 or thereafter and prior to September 1, 1982; \$103.80 per share if redeemed on September 1, 1982 or thereafter and prior to September 1, 1987; and \$101.80 per share if redeemed on September 1, 1987 or thereafter; provided, however, that unless all shares of Preferred Stock of each series then outstanding are redeemed or otherwise retired, no shares of the \$7.56 Dividend Preferred Stock-- \$100 Par Value shall be redeemed at the option of the Company prior to September 1, 1977, directly or indirectly out of the proceeds of or in anticipation of any refunding involving the incurring of indebtedness or the issuance of additional shares of Preferred Stock having an effective interest cost or dividend rate (calculated in accordance with generally accepted financial principles) of less than 7.50% per annum. The fixed liquidation price for the shares of such series is \$100 per share; and the fixed liquidation premium on the shares of such series is \$8.36 per share prior to September 1, 1977, \$6.80 per share on September 1, 1977 and thereafter prior to September 1, 1982, \$3.80 per share on September 1, 1982 and

thereafter prior to September 1, 1987, and \$1.80 per share on September 1, 1987 and thereafter. The \$7.56 Dividend Preferred Stock--\$100 Par Value has no exchange or conversion rights.

7j. Adjustable Rate Cumulative Preferred Stock, Series A -- \$100 Par Value. 300,000 shares of authorized stock classified as Preferred Stock--\$100 par value as provided in Paragraph A of Article VI of the Restated Articles of Incorporation, as amended, shall constitute the eighteenth series of Preferred Stock--\$100 par value and are designated as "Adjustable Rate Cumulative Preferred Stock, Series A--\$100 par value"; the fixed dividend rate on the shares of such series for each dividend period shall be the rate determined in accordance with the provisions of these resolutions and such dividends are cumulative from March 15, 1983, (subject to the provision in Article VI E.2 regarding deemed payment prior to the date of issue) with the first and second dividends payable September 15, 1983 and December 15, 1983, at the rate per share (based on par value) of 11-1/2% per annum for the initial dividend period ending September 14, 1983 and second dividend period ending December 14, 1983, and at 0.65 of 1% above the Applicable Rate (as hereinafter defined) from time to time in effect for each subsequent dividend period; however, the dividend rate for any dividend period will in no event be less than 7% per annum or greater than 13% per annum.

Except as provided below in this paragraph, the "Applicable Rate" for any dividend period will be the highest of the Treasury Bill Rate, the Ten Year Constant Maturity Rate and the Twenty Year Constant Maturity Rate (each as hereinafter defined) for such dividend period. In the event the Corporation determines in good faith that for any reason one or more of such rates cannot be determined for any dividend period, then the Applicable Rate for such dividend will be the higher of whichever of such rates can be so determined. In the event the Corporation determines in good faith that none of such rates can be determined for any dividend period, then the Applicable Rate in effect for the preceding dividend period will be continued for such dividend period.

Except as provided below in this paragraph, the "Treasury Bill Rate" for each dividend period will be the arithmetic average of the two most recent weekly per annum market discount rates (or the one weekly per annum market discount rate, if only one such rate is published during the relevant Calendar Period (as defined below)) for three-month U.S. Treasury bills, as published weekly by the Federal Reserve Board during the Calendar Period immediately prior to the ten calendar days immediately preceding the March 15, June 15, September 15, or December 15, as the case may be, prior to the dividend period for which the dividend rate on the eighteenth series of Preferred Stock is being determined. In the event that the Federal Reserve Board does not publish such a weekly per annum market discount rate during any such Calendar Period, then the Treasury Bill Rate for the related dividend period will be the arithmetic average of the two most recent weekly per annum market discount rates (or the one weekly per annum market discount rate, if only one such rate is published during the relevant Calendar Period) for three-month U.S. Treasury bills, as published weekly during such Calendar Period by any Federal Reserve Bank or by any U.S. Government department or agency selected by the Corporation. In the event that a per annum market discount rate for three-month U. S. Treasury bills is not published by the Federal Reserve Board or by any Federal Reserve Bank or by any U.S. Government department or agency during such Calendar Period, then the Treasury Bill Rate for such dividend period will be the arithmetic average of the two most recent weekly per annum market discount rates (or the one weekly per annum market discount rate, if only one such rate is published during the relevant Calendar Period) for all of the U.S. Treasury bills, then having maturities of not less than 80 nor more than 100 days, as published during such Calendar Period by the Federal Reserve Board or, if the Federal Reserve Board does not publish such rates, by any Federal Reserve Bank or by any U.S. Government department or agency selected by the Corporation. In the event the Corporation determines in good faith that for any reason no such U.S. Treasury bill rates are published as provided above during such Calendar Period, then the Treasury Bill Rate for such dividend period will be the arithmetic average of the per annum market discount rates based upon the closing bids during such Calendar Period for each of the issues of marketable non-interest bearing U.S. Treasury securities with a maturity of not less than 80 nor more than 100 days from the date of each such quotation, as quoted daily for each business day in New York City (or less frequently if daily quotations are not generally available) to the Corporation by at least three recognized U.S. Government securities dealers selected by the Corporation. In the event the Corporation determines in good faith that for any reason the Corporation cannot determine the Treasury Bill Rate for any dividend period as provided above in this paragraph, the Treasury Bill Rate for such dividend period will be the arithmetic average of the per annum market discount rates based upon the closing bids during the related Calendar Period for each of the issues of marketable interest bearing U.S. Treasury securities with a maturity of not less than 80 nor more than 100 days from the date of each such quotation, as quoted daily for each business day in New York City (or less frequently if daily quotations are not generally available) to the Corporation by at least three recognized U.S. Government securities dealers selected by the Corporation.

Except as provided below in this paragraph, the "Ten Year Constant Maturity Rate" for each dividend period will be the arithmetic average of the two most recent weekly per annum Ten Year Average Yields (or the one weekly per annum Ten Year Average Yield, if only one such Yield is published during the relevant Calendar Period), as published weekly by the Federal Reserve Board during the Calendar Period immediately prior to the ten calendar days immediately preceding the March 15, June 15, September 15 or December 15, as the case may be, prior to the dividend period for which the dividend rate on the eighteenth series of Preferred Stock is being determined. In the event that the Federal Reserve Board does not publish such a weekly per annum Ten Year Average Yield during such Calendar Period, then the Ten Year Constant Maturity Rate for such dividend period will be the arithmetic average of the two most recent weekly per annum Ten Year Average Yields (or the one weekly per annum Ten Year Average Yield, if only one such Yield is published during the relevant Calendar Period), as published weekly during such Calendar Period by any Federal Reserve Bank or by any U.S. Government department or agency selected by the Corporation. In the event that a per annum Ten Year Average Yield is not published by the Federal Reserve Board or by any Federal Reserve Bank or by any U.S. Government department or agency during such Calendar Period, then the Ten Year Constant Maturity Rate for such dividend period will be the arithmetic average of the two most recent weekly per annum average yields to maturity (or the one weekly average

yield to maturity, if only one such yield is published during the relevant Calendar Period) for all of the actively traded marketable U.S. Treasury fixed interest rate securities (other than Special Securities (as defined below)) then having maturities of not less than eight nor more than twelve years, as published during such Calendar Period by the Federal Reserve Board or, if the Federal Reserve Board does not publish such yields, by any Federal Reserve Bank or by any U.S. Government department or agency selected by the Corporation. In the event the Corporation determines in good faith that for any reason the Corporation cannot determine the Ten Year Constant Maturity Rate for any dividend period as provided above in this paragraph, then the Ten Year Constant Maturity Rate for such dividend period will be the arithmetic average of the per annum average yields to maturity based upon, the closing bids during such Calendar Period for each of the issues of actively traded marketable U.S. Treasury fixed interest rate securities (other than Special Securities) with a final maturity date not less than eight nor more than twelve years from the date of each such quotation, as quoted daily for each business day in New York City (or less frequently if daily quotations are not generally available) to the Corporation by at least three recognized U.S. Government securities dealers selected by the Corporation.

Except as provided below in this paragraph, the "Twenty Year Constant Maturity Rate" for each dividend period will be the arithmetic average of the two most recent weekly per annum Twenty Year Average Yields (or the one weekly per annum Twenty Year Average Yield, if only one such Yield is published during the relevant Calendar Period), as published weekly by the Federal Reserve Board during the Calendar Period immediately prior to the ten calendar days immediately preceding the March 15, June 15, September 15 or December 15, as the case may be, prior to the dividend period for which the dividend rate on the eighteenth series of Preferred Stock is being determined. In the event the Federal Reserve Board does not publish such a weekly per annum Twenty Year Average Yield during such Calendar Period, then the Twenty Year Constant Maturity Rate for such dividend period will be the arithmetic average of the two most recent weekly per annum Twenty Year Average Yields (or the one weekly per annum Twenty Year Average Yield, if only one such Yield is published during the relevant Calendar Period), as published weekly during such Calendar Period by any Federal Reserve Bank or by any U.S. Government department or agency selected by the Corporation. In the event that a per annum Twenty Year Average Yield is not published by the Federal Reserve Board or by any Federal Reserve Bank or by any U.S. Government department or agency during such Calendar Period, then the Twenty Year Constant Maturity Rate for such dividend period will be the arithmetic average of the two most recent weekly per annum average yields to maturity (or the one weekly average yield to maturity, if only one such yield is published during the relevant Calendar Period) for all of the actively traded marketable U.S. Treasury fixed interest rate securities (other than Special Securities) then having maturities of not less than eighteen nor more than twenty-two years, as published during such Calendar Period by the Federal Reserve Board or, if the Federal Reserve Board does not publish such yields, by any Federal Reserve Bank or by any U.S. Government department or agency selected by the Corporation. In the event that the Corporation determines in good faith that for any reason the Corporation cannot determine the Twenty Year Constant Maturity Rate for any dividend period as provided above in this paragraph, then the Twenty Year Constant Maturity Rate for such dividend period will be the arithmetic average of the per annum average yields to maturity based upon the closing bids during such Calendar Period for each of the issues of actively traded marketable U. S. Treasury fixed interest rate securities (other than Special Securities) with a final maturity date not less than eighteen nor more than twenty-two years from the date of each quotation, as quoted daily for each business day in New York City (or less frequently if daily quotations are not generally available) to the Corporation by at least three recognized U.S. Government securities dealers selected by the Corporation.

The Treasury Bill Rate, the Ten Year Constant Maturity Rate and the Twenty Year Constant Maturity Rate will each be rounded to the nearest five hundredths of a percentage point.

The fixed dividend rate per share payable for each dividend period will be computed by dividing the dividend rate for such dividend period (determined in accordance with these resolutions) by four and applying such rate against the par value per share of the eighteenth series of Preferred Stock. The dividend payable for the initial dividend period or any period longer or shorter than a full quarterly dividend period will be computed on the basis of a 360-day year consisting of 30-day months.

The dividend rate with respect to each dividend period will be calculated as promptly as practicable by the Corporation according to the appropriate method described herein. The mathematical accuracy of each such calculation will be confirmed in writing by independent certified public accountants of recognized standing. The Corporation will cause each dividend rate to be published in a newspaper of general circulation in New York City prior to the commencement of the new dividend period to which it applies and will cause notice of such dividend rate to be enclosed with the dividend payment checks next mailed to the holders of the eighteenth series of Preferred Stock.

As used herein, the term "Calendar Period" means a period of fourteen calendar days the term "Special Securities" means securities which can, at the option of the holder, be surrendered at face value in payment of any Federal estate tax or which provide tax benefits to the holder and are priced to reflect such tax benefits or which were originally issued at a deep or substantial discount; the term "Ten Year Average Yield" means the average yield to maturity for actively traded marketable U.S. Treasury fixed interest rate securities (adjusted to constant maturities of ten years); and the term "Twenty Year Average Yield" means the average yield to maturity for actively traded marketable U.S. Treasury fixed interest rate securities (adjusted to constant maturities of twenty years).

The fixed redemption price on the shares of the eighteenth series is \$111.50 per share if redeemed prior to May 15, 1984; \$109.80 per share if redeemed from May 15, 1984 through May 14, 1985; \$108.10 per share if redeemed from May 15, 1985 through May 14, 1986; \$106.40 per share if redeemed from May 15, 1986 through May 14, 1987; \$104.70 per share if redeemed from May 15, 1987 through May 14, 1988; \$103.00 per share if redeemed from May 15, 1988 through May 14, 1993; and \$100.00 per share if redeemed on May 15, 1993, or thereafter; provided, however, that unless all shares of Preferred Stock of each series then outstanding are redeemed or otherwise retired, no shares of the

eighteenth series of Preferred Stock shall be redeemed at the option of the Corporation prior to May 15, 1988, directly or indirectly out of the proceeds of or in anticipation of any refunding involving the incurring of indebtedness or the issuance of additional shares of Preferred Stock having an effective interest cost or dividend rate (calculated in accordance with generally accepted financial practice) of less than 11-1/2% per annum. The fixed redemption price on the shares of such series is \$100 per share plus any accrued and unpaid dividends, if redeemed in satisfaction of the Corporation's Sinking Fund obligation or pursuant to optional redemption right provided below.

Subject to the provision of Article VI of the Restate Articles of Incorporation, as amended, so long as any of this eighteenth series of Preferred Stock shall remain outstanding, on September 15, 1989, and on September 15 in each year thereafter, the Corporation shall redeem as a Sinking Fund obligation, 4% of the number of shares of such eighteenth series of Preferred Stock originally issued and, in addition, the Corporation may, at its option, redeem on each such September 15 additional shares of this eighteenth series of Preferred Stock in a number not exceeding such percentage, but the right to make such optional redemption shall not be cumulative and shall not be applied in reduction of any subsequent mandatory Sinking Fund redemption provided for above; provided that the Corporation shall not declare or pay or set apart for, or make or order any dividend or other distribution in respect of, or purchase or otherwise acquire for value any shares of, the Common Stock of the Corporation, or any class of stock as to which the Preferred Stock of the Corporation has priority as to payments of dividends, unless all redemptions required to be made in satisfaction of the Sinking Fund obligation provided above have been made. The Corporation may elect to reduce its obligation in respect of the redemption of shares so required to be redeemed as a Sinking Fund obligation by making direct purchases in the open market or otherwise of shares of this eighteenth series of Preferred Stock (other than shares previously applied as a credit against the Sinking Fund obligation) and designating such shares to be applied as a credit, in whole or in part, in an amount equal to the aggregate par value of the shares so applied, against the aggregate par value of the shares required to be redeemed in such year pursuant to the Sinking Fund obligation.

In all cases in which redemptions of less than all outstanding shares of this eighteenth series are to be made by the Corporation, the shares to be redeemed shall be selected by lot in accordance with such procedures as may be approved by the Board of Directors of this Corporation.

The fixed liquidation price for the shares of such series is \$100 per share; and the fixed liquidation premium per share on the shares of eighteenth series is the excess over \$100 of the redemption price at the time in effect.

The Adjustable Rate Cumulative Preferred Stock, Series A--\$100 par value has no exchange or conversion rights.

7k. Adjustable Rate Cumulative Preferred Stock, Series B -- \$100 Par Value. 450,000 shares of authorized stock classified as Preferred Stock--\$100 par value as provided in Paragraph A of Article VI of the Restated Articles of Incorporation, as amended, shall constitute the nineteenth series of Preferred Stock--\$100 par value and are designated as "Adjustable Rate Cumulative Preferred Stock, Series B--\$100 par value"; the fixed dividend rate on the shares of such series for each dividend period shall be the rate determined in accordance with the provisions of these resolutions and such dividends are cumulative from December 15, 1983, (subject to the provision in Article VI E.2 regarding deemed payment prior to the date of issue) with the first and second dividends payable March 15, 1984 and June 15, 1984, at the rate per share (based on par value) of 12.50% per annum for the initial dividend period ending March 14, 1984 and second dividend period ending June 14, 1984, and at the rate per share of .70 of 1% above the Applicable Rate per annum (as hereinafter defined) from time to time in effect for each subsequent dividend period; however, the dividend rate for any dividend period will in no event be less than 7.0% per annum or greater than 13.5% per annum.

Except as provided below in this paragraph, the "Applicable Rate" for any dividend period will be the highest of the Treasury Bill Rate, the Ten Year Constant Maturity Rate and the Twenty Year Constant Maturity Rate (each as hereinafter defined) for such dividend period. In the event the Corporation determines in good faith that for any reason one or more of such rates cannot be determined for any dividend period, then the Applicable Rate for such dividend will be the higher of whichever of such rates can be so determined. In the event the Corporation determines in good faith that none of such rates can be determined for any dividend period, then the Applicable Rate in effect for the preceding dividend period will be continued for such dividend period.

Except as provided below in this paragraph, the "Treasury Bill Rate" for each dividend period will be the arithmetic average of the two most recent weekly per annum market discount rates (or the one weekly per annum market discount rate, if only one such rate is published during the relevant Calendar Period (as defined below)) for three-month U.S. Treasury bills, as published weekly by the Federal Reserve Board during the Calendar Period immediately prior to the ten calendar days immediately preceding the March 15, June 15, September 15, or December 15, as the case may be, prior to the dividend period for which the dividend rate on the nineteenth series of Preferred Stock is being determined. In the event that the Federal Reserve Board does not publish such a weekly per annum market discount rate during any such Calendar Period, then the Treasury Bill Rate for the related dividend period will be the arithmetic average of the two most recent weekly per annum market discount rates (or the one weekly per annum market discount rate, if only one such rate is published during the relevant Calendar Period) for three-month U.S. Treasury Bills, as published weekly during such Calendar Period by any Federal Reserve Bank or by any U.S. Government department or agency selected by the Corporation. In the event that a per annum market discount rate for three-month U.S. Treasury bills is not published by the Federal Reserve Board or by any Federal Reserve Bank or by any U.S. Government department or agency during such Calendar Period, then the Treasury Bill Rate for such dividend period will be the arithmetic average of the two most recent weekly per annum market discount rates (or the one weekly per annum market discount rate, if only one such rate is published during the relevant Calendar Period) for all of the

U.S. Treasury bills, then having maturities of not less than 80 nor more than 100 days, as published during such Calendar Period by the Federal Reserve Board or, if the Federal Reserve Board does not publish such rates, by any Federal Reserve Bank or by any U.S. Government department or agency selected by the Corporation. In the event the Corporation determines in good faith that for any reason no such U.S. Treasury bill rates are published as provided above during such Calendar Period, then the Treasury Bill Rate for such dividend period will be the arithmetic average of the per annum market discount rates based upon the closing bids during such Calendar Period for each of the issues of marketable non-interest bearing U.S. Treasury securities with a maturity of not less than 80 nor more than 100 days from the date of each such quotation, as quoted daily for each business day in New York City (or less frequently if daily quotations are not generally available) to the Corporation by at least three recognized U. S. Government securities dealers selected by the Corporation. In the event the Corporation determines in good faith that for any reason the Corporation cannot determine the Treasury Bill Rate for any dividend period as provided above in this paragraph, the Treasury Bill Rate for such dividend period will be the arithmetic average of the per annum market discount rates based upon the closing bids during the related Calendar Period for each of the issues of marketable interest bearing U.S. Treasury securities with a maturity of not less than 80 nor more than 100 days from the date of each such quotation, as quoted daily for each business day in New York City (or less frequently if daily quotations are not generally available) to the Corporation by at least three recognized U.S. Government securities dealers selected by the Corporation.

Except as provided below in this paragraph, the "Ten Year Constant Maturity Rate" for each dividend period will be the arithmetic average of the two most recent weekly per annum Ten Year Average Yields for the one weekly per annum Ten Year Average Yield, if only one such Yield is published during the relevant Calendar Period), as published weekly by the Federal Reserve Board during the Calendar Period immediately prior to the ten calendar days immediately preceding the March 15, June 15, September 15 or December 15, as the case may be, prior to the dividend period for which the dividend rate on the nineteenth series of Preferred Stock is being determined. In the event that the Federal Reserve Board does not publish such a weekly per annum Ten Year Average Yield during such Calendar Period, then the Ten Year Constant Maturity Rate for such dividend period will be the arithmetic average of the two most recent weekly per annum Ten Year Average Yields (or the one weekly per annum Ten Year Average Yield, if only one such Yield is published during the relevant Calendar Period), as published weekly during such Calendar Period by any Federal Reserve Bank or by any U.S. Government department or agency selected by the Corporation. In the event that a per annum Ten Year Average Yield is not published by the Federal Reserve Board or by any Federal Reserve Bank or by any U.S. Government department or agency during such Calendar Period, then the Ten Year Constant Maturity Rate for such dividend period will be the arithmetic average of the two most recent weekly per annum average yields to maturity (or the one weekly average yield to maturity, if only one such yield is published during the relevant Calendar Period) for all of the actively traded marketable U.S. Treasury fixed interest rate securities (other than Special Securities (as defined below)) then having maturities of not less than eight nor more than twelve years, as published during such Calendar Period by the Federal Reserve Board or, if the Federal Reserve Board does not publish such yields, by any Federal Reserve Bank or by any U.S. Government department or agency selected by the Corporation. In the event the Corporation determines in good faith that for any reason the Corporation cannot determine the Ten Year Constant Maturity Rate for any dividend period as provided above in this paragraph, then the Ten Year Constant Maturity Rate for such dividend period will be the arithmetic average of the per annum average yields to maturity based upon the closing bids during such Calendar Period for each of the issues of actively traded marketable U.S. Treasury fixed interest rate securities (other than Special Securities) with a final maturity date not less than eight nor more than twelve years from the date of each such quotation, as quoted daily for each business day in New York City (or less frequently if daily quotations are not generally available) to the Corporation by at least three recognized U.S. Government securities dealers selected by the Corporation.

Except as provided below in this paragraph, the "Twenty Year Constant Maturity Rate" for each dividend period will be the arithmetic average of the two most recent weekly per annum Twenty Year Average Yields (or the one weekly per annum Twenty Year Average Yield, if only one such Yield is published during the relevant Calendar Period), as published weekly by the Federal Reserve Board during the Calendar Period immediately prior to the ten calendar days immediately preceding the March 15, June 15, September 15 or December 15, as the case may be, prior to the dividend period for which the dividend rate on the nineteenth series of Preferred Stock is being determined. In the event the Federal Reserve Board does not publish such a weekly per annum Twenty Year Average Yield during such Calendar Period, then the Twenty Year Constant Maturity Rate for such dividend period will be the arithmetic average of the two most recent weekly per annum Twenty Year Average Yields (or the one weekly per annum Twenty Year Average Yield, if only one such Yield is published during the relevant Calendar Period), as published weekly during such Calendar Period by any Federal Reserve Bank or by any U.S. Government department or agency selected by the Corporation. In the event that a per annum Twenty Year Average Yield is not published by the Federal Reserve Board or by any Federal Reserve Bank or by any U.S. Government department or agency during such Calendar Period, then the Twenty Year Constant Maturity Rate for such dividend period will be the arithmetic average of the two most recent weekly per annum average yields to maturity (or the one weekly average yield to maturity, if only one such yield is published during the relevant Calendar Period) for all of the actively traded marketable U.S. Treasury fixed interest rate securities (other than Special Securities) then having maturities of not less than eighteen nor more then twenty-two years, as published during such Calendar Period by the Federal Reserve Board or, if the Federal Reserve Board does not publish such yields, by any Federal Reserve Bank or by any U.S. Government department or agency selected by the Corporation. In the event that the Corporation determines in good faith that for any reason the Corporation cannot determine the Twenty Year Constant Maturity Rate for any dividend period as provided above in this paragraph, then the Twenty Year Constant Maturity Rate for such dividend period will be the arithmetic average of the per annum average yields to maturity based upon the closing bids during such Calendar Period for each of the issues of actively traded marketable U.S. Treasury fixed interest rate securities (other than Special Securities) with a final maturity date not less than eighteen nor more than twenty-two years from the date of each quotation, as quoted daily for each business day in New York City (or less frequently if daily quotations are not generally available) to the Corporation by at least three recognized U.S. Government securities dealers selected by the Corporation.

The Treasury Bill Rate, the Ten Year Constant Maturity Rate and the Twenty Year Constant Maturity Rate will each be rounded to the nearest five hundredths of a percentage point.

The fixed dividend rate per share payable for each dividend period will be computed by dividing the dividend rate for such dividend period (determined in accordance with these resolutions) by four and applying such rate against the par value per share of the nineteenth series of Preferred Stock. The dividend payable for the initial dividend period or any period longer or shorter than a full quarterly dividend period will be computed on the basis of a 360 day year consisting of 30-day months.

The dividend rate with respect to each dividend period will be calculated as promptly as practicable by the Corporation according to the appropriate method described herein. The mathematical accuracy of each such calculation will be confirmed in writing by independent certified public accountants of recognized standing. The Corporation will cause each dividend rate to be published in a newspaper of general circulation in New York City prior to the commencement of the new dividend period to which it applies and will cause notice of such dividend rate to be enclosed with the dividend payment checks next mailed to the holders of the nineteenth series of Preferred Stock.

As used herein, the term "Calendar Period" means a period of fourteen calendar days the term "Special Securities" means securities which can, at the option of the holder, be surrendered at face value in payment of any Federal estate tax or which provide tax benefits to the holder and are priced to reflect such tax benefits or which were originally issued at a deep or substantial discount; the term "Ten Year Average Yield" means the average yield to maturity for actively traded marketable U.S. Treasury fixed interest rate securities (adjusted to constant maturities of ten years); and the term "Twenty Year Average Yield" means the average yield to maturity for actively traded marketable U.S. Treasury fixed interest rate securities (adjusted to constant maturities of twenty years).

The fixed redemption price on the shares of the nineteenth series is \$112.50 per share if redeemed prior to March 14, 1985; \$110.60 per share if redeemed from March 15, 1985 through March 14, 1986; \$108.70 per share if redeemed from March 15, 1986 through March 14, 1987; \$106.80 per share if redeemed from March 15, 1987 through March 14, 1988; \$104.90 per share if redeemed from March 15, 1988 through March 14, 1989; \$103.00 per share if redeemed from March 15, 1989 through March 14, 1994; and \$100.00 per share if redeemed on March 15, 1994, or thereafter; provided, however, that unless all shares of Preferred Stock of each series then outstanding are redeemed or otherwise retired, no shares of the nineteenth series of Preferred Stock shall be redeemed at the option of the Corporation prior to March 15, 1989, directly or indirectly out of the proceeds of or in anticipation of any refunding involving the incurring of indebtedness or the issuance of additional shares of Preferred Stock having an effective interest cost or dividend rate (calculated in accordance with generally accepted financial practice) of less than 12.50% per annum. The fixed redemption price on the shares of such series is \$100 per share plus any accrued and unpaid dividends, if redeemed in satisfaction of the Corporation's Sinking Fund obligation or pursuant to optional redemption right provided below.

Subject to the provisions of Article VI of the Restated Articles of Incorporation, as amended, so long as any of this nineteenth series of Preferred Stock shall remain outstanding, on March 15, 1990, and on March 15 in each year thereafter, the Corporation shall redeem as a Sinking Fund obligation, 5% of the number of shares of such nineteenth series of Preferred Stock originally issued and, in addition, the Corporation may, at its option, redeem on each such March 15 additional shares of this nineteenth series of Preferred Stock in a number not exceeding such percentage but the right to make such optional redemption shall not be cumulative and shall not be applied in reduction of any subsequent mandatory Sinking Fund redemption provided for above; provided that the Corporation shall not declare or pay or set apart for, or make or order any dividend or other distribution in respect of, or purchase or otherwise acquire for value any shares of, the Common Stock of the Corporation, or any class of stock as to which the Preferred Stock of the Corporation has priority as to payments of dividends, unless all redemptions required to be made in satisfaction of the Sinking Fund obligation provided above have been made. The Corporation may elect to reduce its obligation in respect of the redemption of shares so required to be redeemed as a Sinking Fund obligation by making direct purchases in the open market or otherwise of shares of this nineteenth series of Preferred Stock (other than shares previously applied as a credit against the Sinking Fund obligation) and designating such shares to be applied as a credit, in whole or in part, in an amount equal to the aggregate par value of the shares so applied, against the aggregate par value of the shares required to be redeemed in such year pursuant to the Sinking Fund obligation.

In all cases in which redemptions of less than all outstanding shares of this nineteenth series are to be made by the Corporation, the shares to be redeemed shall be selected by lot in accordance with such procedures as may be approved by the Board of Directors of this Corporation.

The fixed liquidation price for the shares of such series is \$100 per share; and the fixed liquidation premium per share on the shares of nineteenth series is the excess over \$100 of the redemption price at the time in effect.

The Adjustable Rate Cumulative Preferred Stock, Series B--\$100 par value has no exchange or conversion rights.

PREFERENCE STOCK.

8. Series and Limits of Variations Between Series of Preference Stock. Subject to the provisions of this Article VI setting forth the provisions of the established series of Preference Stock (which said provisions, however, shall not continue effective as to any shares which are redeemed or

repurchased and restored to the status of authorized but unissued shares of such class), the Preference Stock may be issued in one series or divided into and issued in more than one series from time to time as herein provided. Series shall be established by the Board of Directors. Subject to the prior rights of holders of Preferred Stock as set forth in this Article VI or in any resolution of the Board of Directors providing for the issuance of any series of Preferred Stock, the authorized number of shares of any such series of Preference Stock, the designation of such series, the relative rights and preferences thereof and the terms and characteristics thereof (in those respects in which the shares of one series may vary from the shares of other series as herein provided) shall be fixed and determined at any time prior to the issuance thereof by resolution or resolutions of the Board of Directors of the Corporation. All shares of each series shall be alike in every particular. Preference Stock of all series shall be of equal rank and shall be identical in all respects, except in the following particulars:

- (a) The designation of such series, which may be by distinguishing number, letter or title;
- (b) The rate at which dividends are to accrue on the shares of such series, hereinafter referred to as the "fixed dividend rate";
- (c) The terms and conditions on which the shares of such series may be redeemed and the amount payable in respect of the shares of such series in case of the redemption thereof at the option of the Corporation, the amount so fixed being hereinafter referred to as the "fixed redemption price", and the amount payable in respect of the shares of such series in case of the redemption thereof for any sinking fund for such series, which amounts in respect of any series may, but need not, vary according to the time or circumstances of such action;
- (d) The amount payable in respect of the shares of such series in case of liquidation, dissolution, or winding up of the Corporation, or reduction or decrease of its capital stock resulting in any distribution of its assets to its Common Stockholders, the amount so fixed being hereinafter referred to as the "fixed liquidation price", and the amount payable, if any, in addition to the fixed liquidation price for each series in case such liquidation, dissolution, winding up, reduction or decrease be voluntary, the amount so fixed being hereinafter referred to as the "fixed liquidation premium", which amounts in respect of any series may, but need not, vary according to the time or circumstances of such action;
- (e) Any requirement as to any sinking fund or purchase fund for, or the redemption, purchase or other retirement by the Corporation of, the shares of such series;
- (f) The right, if any, to convert the shares of such series into shares of any other series of Preference Stock or into shares of Common Stock of the Corporation and the rate or basis, time, manner, terms and conditions of conversion or the method by which the same shall be determined; and
- (g) The voting rights, if any, of the shares of such series; provided that the vote per share fixed for the shares of any series of such class on such issues as to which it is given voting rights by these Articles of Incorporation, by the resolution establishing such series or by law may not exceed one one-hundredth of a vote per dollar of consideration per share fixed by the Board of Directors for such shares upon original issuance of such series which shall constitute the stated capital value of such share.

9. Dividends on the Preference Stock. Out of the assets of the Corporation available for dividends, subject to the prior rights of holders of Preferred Stock as set forth in this Article VI or in any resolution of the Board of Directors providing for the issuance of any series of Preferred Stock, the holders of each series of Preference Stock at the time outstanding shall be entitled to receive, if and when declared payable by the Board of Directors, dividends in lawful money of the United States of America at, but not exceeding, the fixed dividend rate for the particular series, payable quarterly on March 15, June 15, September 15 and December 15 in each year, before any dividends (other than a dividend payable in Common Stock of the Corporation) shall be paid upon or set apart for the Common Stock; and such dividends on each series of Preference Stock shall be cumulative, so that, if in any past dividend period or periods full dividends upon each series of outstanding Preference Stock at the fixed dividend rate or rates therefor shall not have been paid, the deficiency (without interest) shall be paid or declared and set apart for payment before any dividends shall be paid upon or set apart for the Common Stock. Dividends on all shares of Preference Stock of each series shall commence to accrue and be cumulative from the date of issue. Any dividends declared or paid on Preference Stock in an amount less than full cumulative dividends accrued or in arrears upon all Preference Stock outstanding shall, if more than one series be outstanding, be divided among the different series then outstanding in proportion to the aggregate amounts which would be distributable to Preference Stock of each series if full cumulative dividends were declared and paid thereon.

10. Preference of Preference Stock on Liquidation, etc. In the event of any liquidation, dissolution, or winding up of the Corporation, or reduction or decrease of its capital stock resulting in a distribution of assets to its Common Stockholders other than by way of dividends out of the net profit or out of the surplus of the Corporation, subject to the prior rights of holders of Preferred Stock as set forth in this Article VI or in any resolution of the Board of Directors providing for the issuance of any series of Preferred Stock, the holders of Preference Stock of each series then outstanding shall be entitled to receive, for each share thereof, the fixed liquidation price for such series, plus in case such liquidation, dissolution, winding up, reduction or decrease shall have been voluntary, the fixed liquidation premium for such series, if any, together in all cases with all dividends accrued or in arrears thereon, before any distribution of the assets shall be made to the holders of the Common Stock; but the holders of Preference Stock shall be entitled to no further participation in such distribution. If upon any such liquidation, dissolution, winding up, reduction or decrease, the assets distributable among the holders of Preference Stock shall be insufficient to permit the payment of the full preferential amounts aforesaid, then the assets of the Corporation remaining after payment of the full preferential amounts then due to holders of Preferred Stock shall be distributed among the holders of each series of Preference Stock then

outstanding, ratably in proportion to the full preferential amounts to which they are respectively entitled. As used in this Article the expression "dividends accrued or in arrears" means, in respect of each share of Preference Stock of any series, that amount which shall be equal to simple interest upon the stated value at an annual rate equal to the percentage that the fixed dividend rate for such series is of the stated value, from the date from which cumulative dividends thereon commence to accrue to the date as of which the computation is to be made, less the aggregate amount (without interest thereon) of all dividends theretofore paid or declared and set aside for payment in respect thereof. A consolidation or merger of the Corporation, a sale or transfer of substantially all of its assets as an entirety, or the repurchase or redemption of Preferred Stock in accordance with the provisions of Paragraph 4 above, or the repurchase or redemption of Preference Stock in accordance with the provisions of Paragraph 11 below or the purchase of Common Stock in accordance with the provisions of Paragraph 14 below, whether or not the Preferred, Preference or Common Stock so redeemed or repurchased shall be retired, shall not be regarded as a "liquidation, dissolution, or winding up of the Corporation, or reduction or decrease of its capital stock resulting in a distribution of assets to its Common Stockholders other than by way of dividends out of the net profits or out of the surplus of the Corporation" within the meaning of this Paragraph 10.

11. Redemption and Repurchase of Preference Stock. The Corporation may, at its option expressed by vote of its Board of Directors, at any time or from time to time, redeem the whole or any part of the Preference Stock or of any series thereof at the fixed redemption price for such series, together with the amount of any dividends accrued or in arrears thereon to the date of such redemption. Notice of any proposed redemption of any series of Preference Stock shall be given by publication at least once in a newspaper printed in the English language and customarily published on each business day and of general circulation in each of the City of Beaumont, State of Texas, and the Borough of Manhattan, City and State of New York, the publication in each such newspaper to be at least 30 days, and not more than 60 days, prior to the date fixed for such redemption. As a matter of courtesy, but not a matter of right, the Corporation may mail a copy of such notice to the holders of record of each series of Preference Stock to be redeemed, at their respective addresses then appearing on the books of the Corporation, to the extent that they may lawfully do so; but neither failure to mail such copy nor any defect therein or in the mailing thereof shall affect the validity of the proceedings for the redemption of any shares of each series of Preference Stock so to be redeemed. Any such redemption of any series of Preference Stock shall be in such amount, at such places and by such method, whether by lot or pro rata, as shall from time to time be determined by vote of its Board of Directors. From and after the date fixed in any such notice as the date of redemption, unless default shall be made by the Corporation in providing funds sufficient for such redemption at or before the time and at the place specified for the payment thereof pursuant to said notice, all dividends on the shares called for redemption shall cease to accrue; and from and after the date so fixed, unless default be made as aforesaid, or from and after the date of the earlier deposit by the Corporation in trust, with a bank or trust company having an aggregate capital and surplus of at least \$5,000,000 and doing business in the Borough of Manhattan, City and State of New York, or in the City of Boston, Commonwealth of Massachusetts, of funds sufficient for such redemption (a statement of the intention so to deposit having been included in said notice) all rights of the holders of the shares so called for redemption as stockholders of the Corporation, except only the right to receive, without interest, when due the redemption funds to which they are entitled, shall cease and determine. Any funds so deposited which shall remain unclaimed by the holders of such Preference Stock at the end of six (6) years after the redemption date, together with any interest thereon that shall have been allowed by the bank or trust company with which the deposit shall have been made, shall be paid by it to the Corporation to be held by the Corporation for such holders. The Corporation may also from time to time repurchase shares of its Preference Stock at not exceeding the price at which the same may be redeemed. Shares of Preference Stock redeemed or repurchased by the Corporation shall be restored to the status of authorized but unissued shares of Preference Stock and may from time to time be reissued as provided in Paragraph 8 of this Article VI.

12. Restrictions on Certain Corporate Action. So long as any shares of any series of Preference Stock shall remain outstanding, the Corporation shall not, without the affirmative vote of the holders of shares of Preference Stock then outstanding having two-thirds of the votes entitled to be cast by such class, at a meeting of Preference Stockholders called for the purpose of approving such action (but upon such vote, and any requisite vote at a meeting of the holders of all classes of stock then outstanding having the privilege to vote to authorize the Board of Directors to take such action, may):

(a) Create or authorize any additional class of stock (other than the Preferred Stock) ranking prior to the Preference Stock in respect to dividends or liquidation rights (other than stock issuable upon conversion of obligations or securities, or upon the exercise of warrants, rights or options to purchase, authorized pursuant to (b) below);

(b) Create or authorize any obligation or security convertible into, or any warrants, rights or options to purchase or subscribe to, any stock referred to in (a) above ranking prior to the Preference Stock in respect to dividends or liquidation rights; or

(c) Alter, amend or repeal the provisions hereof relative to the Preference Stock, or any series thereof, which would change the express terms and provisions of such stock in any manner prejudicial to the holders thereof, including any change in the provisions of Sections 12 and 13 of this Paragraph E of Article VI; provided, however, that if such prejudicial change appertains to outstanding shares of one or more, but not all, of such series, then for the purposes of this Section 12 such change shall be deemed to be authorized if holders of two-thirds of the shares prejudicially affected shall vote favorably with respect thereto.

Notwithstanding anything elsewhere in this Article VI, if in connection with the accomplishment of any matter whatever, provision is to be made for the redemption or retirement of all of the Preference Stock of any series at the time outstanding, nothing in this Article VI shall be construed to confer on the holders of the Preference Stock of such series any power or right to vote in respect of any such matter except where, and to the extent that, a right to vote which cannot be waived by the terms hereof is conferred by the then existing laws of the State of Texas.

13. Voting Rights. The holders of shares of Preference Stock shall not possess voting power for any purposes other than those for which voting power is conferred by Paragraph 12 of this Paragraph E of Article VI, by this Paragraph 13 or on a series thereof by the resolution of the Board of Directors establishing such series. In addition to the voting powers so expressly conferred upon Preference Stock and in addition to voting rights granted to Preference Stock in statutory proceedings as to which their vote may be mandatorily required by the then existing laws of the State of Texas, in case at any time the Corporation shall fail to declare and pay or set aside for payment in full any quarterly dividend on any series of Preference Stock and shall not on or before the sixth succeeding quarterly dividend payment date declare and pay or set aside for payment in full said dividend in arrears and also all dividends which shall in the meantime have become due and payable on all of the outstanding Preference Stock, such holders of all series of Preference Stock shall thereupon have and continue to have, subject to the rights of the holders of Preferred Stock, the right, voting together as a class for such purpose by plurality vote, with each share of Preference Stock having for purposes of the class votes provided for in this Paragraph 13, the vote per share fixed for such share pursuant to Paragraph 8(g) above, to elect two Directors of the Corporation until all dividends accrued and payable on the Preference Stock shall have been fully paid; and, during the continuance of such right of the holders of all series of Preference Stock to elect such Directors, the holders of the Common Stock shall have, subject to the rights of the holders of Preferred Stock, the right, voting as a class, by plurality vote, to elect the remaining members of the Board of Directors which the holders of the Preferred Stock and Preference Stock are not entitled to elect. The terms of office of all persons who may be Directors of the Corporation at any time when such right to elect such Directors shall accrue to the holders of Preference Stock shall terminate upon the election of their successors; and such election may be held at a special meeting of all stockholders of the Corporation which shall be convened at any time after the accrual of such right upon notice similar to that provided in the Bylaws of the Corporation for calling the annual meeting of the stockholders, at the request in writing of the holders of record of at least 2% of the number of shares of Preference Stock then outstanding. In default of the calling of said meeting by a proper officer of the Corporation within five days after the making of such request, such meeting may be called on like notice by any holder of record of Preference Stock, for which purpose any such holder of Preference Stock shall have the right to have access to the stock books of the Corporation. If such special meeting be not called prior to the next annual meeting, the holders of Preference Stock as one class for such purpose, and the holders of the Common Stock as a second class, subject to the rights of holders of Preferred Stock, shall elect members of the Board of Directors as aforesaid, at such annual meeting, unless previously thereto all such dividend defaults shall have been made good. At all meetings of stockholders held, for the purpose of electing Directors, during the period Preference Stockholders shall have the right to elect two members of the Board of Directors, the holders of shares having a majority of the votes entitled to be cast by the then issued and outstanding Preference Stock as a class and of the Common Stock as a class shall constitute a quorum of those classes, respectively, for the purposes of such meetings and lack of a quorum as to either of such classes at any such meeting shall not interfere with the holding of such meeting and the election of Directors by the class having a quorum present; provided that in such election the specific Directors to be succeeded shall be designated. Upon the termination at any time of such right of the holders of Preference Stock to elect two members of the Board of Directors, the term of office of all Directors elected by vote of the holders of Preference Stock as a class (or elected to fill a vacancy which might have been so filled) shall end upon the election and qualification of their successors; and such election may be held at a special meeting of holders of the Common Stock, convened on like notice at the request in writing of the holders of record of at least 2% of the total number of shares of the Common Stock then outstanding, or, if such special meeting is not called prior to the next annual meeting, at such annual meeting. In default of the calling of said meeting by a proper officer of the Corporation within five days after the making of such request, such meeting may be called on like notice by any holder of record of the Common Stock of the Corporation, for which purpose any such holder of the Common Stock shall have the right to have access to the stock books of the Corporation. Whenever, by reason of the resignation, death or removal of any Director or Directors or any increase in the number of Directors, at any time while the holders of Preference Stock are entitled to elect two members of the Board of Directors as aforesaid, the number of Directors in office who have been elected by either the holders of the Preference Stock as a class or the holders of the Common Stock as a class shall become less than the total number subject to election by such respective classes, the vacancy or vacancies so resulting may be filled by plurality vote of such respective classes of stockholders at a meeting thereof called for the purpose, or pending such action, by the affirmative vote of a majority of the Directors at the time in office who were elected by the vote of such class of stockholders, although such Directors shall be less than a quorum of the Board of Directors, at a meeting called by any such Director in the manner provided in the Bylaws for the calling of special meetings of the Board of Directors. During the continuance of such voting rights, a Director elected by holders of the Preference Stock as a class or the Common Stock as a class (or elected to fill a vacancy which might have been so filled) shall be subject to removal by majority vote of the Preference Stock or of the Common Stock at the time outstanding as appropriate, at a special meeting called for the purpose, but not otherwise. A special meeting of stockholders to fill a vacancy or to remove a Director as last above provided may be called at any time by the holder or holders of record of shares entitled to cast at least 5% of the votes of the class of stock entitled to vote thereat or in such other manner as may be provided for in the Bylaws. The term of office of any officer of the Corporation shall terminate upon the election and qualification of his successor; and such election may be held at any meeting of the Board of Directors following any special meeting of stockholders held upon the accrual or termination of the voting rights of the holders of the Preference Stock to elect two members of the Board of Directors so that new Directors elected at any such special meeting of stockholders shall be empowered to choose new officers of the Corporation or any thereof in their discretion.

On all matters as to which no voting power is conferred on the Preference Stock by this Article VI or by the resolution of the Board of Directors establishing such series as to which a vote of the Preference Stock is mandatorily required by the laws of the State of Texas, the authorization of such matter by the Preference Stock may be granted by the vote of the holders of shares of the Preference Stock then outstanding having a majority of the votes (as fixed pursuant to Paragraph 8(g) above) entitled to be cast by the Preference Stock.

DIFFERENT SERIES OF PREFERENCE STOCK.

13a. \$1.75 Dividend Preference Stock, without par value. 6,000,000 shares of authorized stock classified as Preference Stock, without par value, as provided in Paragraph A of Article VI of the Restated Articles of Incorporation shall constitute a series of Preference Stock, without par value, and are designated as "\$1.75 Dividend Preference Stock, without par value"; the fixed dividend rate on the shares of such series is \$1.75 per share per annum and such dividends are cumulative from the date of original issue with the first dividend payable September 15, 1993; such shares are subject to mandatory redemption in full on June 15, 2000 and the fixed redemption price on the shares of such series for such mandatory redemption, is \$25.00 per share. No shares of the \$1.75 Dividend Preference Stock, without par value, may be redeemed in whole or in part prior to the date for mandatory redemption.

The fixed liquidation-price for the shares of such series is \$25 per share.

The \$1.75 Dividend Preference Stock, without par value, has no exchange or conversion rights.

The amount of consideration received by the Corporation for issuance of the \$1.75 Dividend Preference Stock, without par value, that exceeds \$25.00 per share, if any, shall be allocated to capital surplus, the balance to constitute stated capital. A vote of 25/100ths per share is hereby fixed for each share of \$1.75 Dividend Preference Stock, without par value on such matters, and only such matters as to which the shares of such series are entitled to vote under the Restated Articles of Incorporation.

THE COMMON STOCK.

14. Dividends on Common Stock. Dividends may be paid on the Common Stock to the exclusion of both classes of the Preferred Stock and the class of Preference Stock out of any assets of the Corporation available for dividends on the Common Stock; provided, however, that so long as any shares of either class of Preferred Stock or any shares of the class of Preference Stock shall be outstanding, the Corporation shall not declare or pay any dividend or make any distribution to the holders of the Common Stock (other than a dividend payable in Common Stock of the Corporation), or purchase or acquire or otherwise retire for a consideration (otherwise than from the proceeds of new financing from the issuance and sale of any shares of any class of stock of the Corporation ranking junior to both classes of Preferred Stock and the class of Preference Stock) any shares of its Common Stock (such a dividend, distribution, purchase, acquisition, or retirement being hereinafter referred to as "Common Stock Dividend"), if the aggregate amount of all Common Stock Dividends so paid, distributed and/or applied after May 31, 1958, would exceed in the aggregate either

(a) the net income of the Corporation available for dividends on its Common Stock, or

(b) 75% of the net income of the Corporation available for dividends on its Common Stock if, after giving effect thereto, the aggregate of the following: (1) Common Capital Stock Account, (2) Earned Surplus Account, and (3) Capital Surplus Account, is less than 25% of the aggregate of (a) the principal amount of then outstanding debt, (b) Preferred Capital Stock Account (excluding Premiums and Assessments on Capital Stock Accounts), (c) Preference Capital Stock Account (excluding Premiums and Assessments on Capital Stock Accounts), (d) Common Capital Stock Account, (e) Earned Surplus Account, and (f) Capital Surplus Account, as such Accounts were defined or prescribed by the Federal Power Act or Regulations thereunder in effect on June 30, 1944.

Net income of the Corporation available for dividends on its Common Stock for the purpose of this Paragraph 14 Shall mean the aggregate of \$28,262,987.53 and the sum of operating revenues and nonoperating income--net of the Corporation from May 31, 1958 to and including the second calendar month preceding the date (hereinafter referred to as the "Declaration Date") on which the Directors of the Corporation consider the declaration or making of a Common Stock Dividend, less:

(1) All proper deductions for such period for operating expenses (including maintenance), depreciation (which shall not be less than 15% of the total operating revenues of the Corporation after deducting from such operating revenues the cost of purchased power of the Corporation, less the aggregate of all expenditures made by the Corporation for maintenance and repairs), taxes, interest charges, and other income deductions (including amounts charged against income for amortization of utility plant acquisition adjustments) and such other deductions, if any, as shall be determined in accordance with such system of accounts as may be prescribed by governmental authorities having jurisdiction in the premises or in the absence thereof in accordance with recognized accounting practice applicable to companies engaged in a business similar to that of the Corporation; and

(2) An amount equal to dividends accrued on all Preferred Stock of the Corporation from March 15, 1958 through the current quarterly dividend period during which the Declaration Date occurs; and

(3) An amount equal to dividends accrued on all Preference Stock of the Corporation from June 15, 1980 through the current quarterly dividend period during which the Declaration Date occurs;

provided that in computing the amount of such net income available for dividends no adjustment or deduction shall be made for or on account of

(i) any profits realized or losses sustained in the sale of any investment securities, property or other capital assets, or taxes on or in respect of

any such profits, (ii) any change in the book value of or any appreciation or depreciation in the value of any assets owned by the Corporation for any reason whatsoever (other than depreciation on the books or on the basis stated above, whichever is greater), or (iii) dividends aggregating \$2,511,824.66 paid on Preferred and Common Stocks in June, 1958.

15. Distribution of Assets to the Common Stock. In the event of any liquidation, dissolution or winding up of the Corporation, or any reduction or decrease of its capital stock resulting in a distribution of assets to its Common Stockholders other than by way of dividends out of the net profits or out of the surplus of the Corporation, after there shall have been paid to or set aside for the holders of both classes of Preferred Stock and the holders of the class of Preference Stock the full preferential amounts to which they are respectively entitled under the provisions of Paragraphs 3 and 10 of Section E of this Article VI, the holders of the Common Stock shall be entitled to receive, pro rata, all of the remaining assets of the Corporation available for distribution to its stockholders. The Board of Directors, by vote of a majority of the members thereof, may distribute in kind to the holders of the Common Stock such remaining assets of the Corporation or may sell, transfer or otherwise dispose of all or any of the remaining property and assets of the Corporation to any other corporation and receive payment therefor wholly or partly in cash and/or in stock and/or in obligations of such corporation and may sell all or any part of the consideration received therefor and distribute the balance thereof in kind to the holders of the Common Stock.

16. Voting Rights of the Common Stock. Subject to the voting rights expressly conferred upon (i) Preferred Stock by the provisions of Paragraphs 5 and 6 of this Article VI, (ii) Preference Stock by provisions of Paragraphs 12 and 13 of this Article VI, and (iii) Preferred Stock--without par value pursuant to Paragraph 1(g) and Preference Stock pursuant to Paragraph 8(g), holders of the Common Stock shall exclusively possess voting power for the election of directors and for all other purposes. Such holders are prohibited from cumulative voting for the election of directors so that no holder of Common Stock shall be permitted to cumulate his votes by giving one candidate as many votes as the number of such directors multiplied by his shares shall equal, or by distributing such votes on the same principle among any number of candidates.

PROVISIONS APPLICABLE TO ALL CLASSES OF STOCK.

17. Reserves. The Board of Directors shall have authority from time to time to set apart out of any assets of the Corporation otherwise available for dividends a reserve or reserves as working capital or for any other proper purpose or purposes, and to reduce, abolish or add to any such reserve or reserves from time to time as said Board may deem to be in the interests of the Corporation; and, subject to the provisions hereof, said Board shall likewise have power to determine in its discretion what part of the assets of the Corporation available for dividends in excess of such reserve or reserves shall be declared as dividends and paid to the stockholders of the Corporation.

18. Pre-emptive Rights. No holder of any stock of the Corporation shall be entitled as of right to purchase or subscribe for any part of any unissued or treasury stock of the Corporation, or of any additional stock of any class to be issued by reason of any increase of the authorized capital stock of the Corporation or of bonds, certificates of indebtedness, debentures or other securities convertible into stock of the Corporation or carrying a right to subscribe to or acquire any such stock, but any such unissued or treasury stock or any such additional authorized issue of new stock or of securities convertible into stock or carrying a right to subscribe to or acquire any such stock, may be issued and disposed of by the Board of Directors to such persons, firms, corporation or associations, and upon such terms as the Board of Directors may, in its discretion, determine, without offering to the stockholders then of record, or any class of stockholders, any thereof, on the same terms or on any terms.

19. Votes Per Share, etc. Each holder of record of shares of any class of stock entitled to vote at any meeting of stockholders, or of holders of any class of stock or of one or more series thereof, shall, as to all matters in respect of which such stock has voting power, be entitled to one vote per share, or the vote otherwise fixed therefor pursuant to Paragraph 1(g) or 8(g) above, for each of the shares of such stock standing in his name on the books of the Corporation at the time of the meeting, or if a record of the stockholders shall be taken for the purposes of such meeting, as of the time of the taking of such record; and may cast such vote in person or by written proxy. Except as herein otherwise expressly provided, or as may be mandatorily provided by the laws of Texas, a quorum of any class of stock or of one or more series thereof entitled to vote as a class at any meeting shall consist of shares of such class or such one or more series, as the case may be, entitled to cast a majority of the votes entitled to be cast by such class or series, and a plurality vote of such quorum shall govern.

ARTICLE VII.

The Corporation may sell, lease or exchange all of its property and franchises upon the consent of, and for such consideration and upon such terms as may be approved by, two-thirds of the Board of Directors and the holders of a majority in number of the outstanding shares entitled to vote (or if the consent of and approval by a larger number of such shares shall at the time be required by the laws of the State of Texas or if other consent or approval shall at the time be required, notwithstanding the above agreement of the stockholders of the Corporation to the contrary, then upon such consent and approval so required), expressed in writing or by vote of the stockholders at any annual or special meeting called for that purpose in the manner provided by the Bylaws of the Corporation for such meetings of stockholders.

Upon like vote, that is, the vote specified and defined in the next preceding paragraph of this Article VII, all, or substantially all, the property, franchises, rights and assets of the Corporation may be sold, conveyed, assigned and transferred as an entirety to a new company to be organized under the laws of the United States, the State of Texas or of any other State of the United States for the purpose of so taking over

such property, franchises, rights and assets of the Corporation, with the same or a different authorized number of shares of stock, and with substantially the same preferences, voting powers, restrictions and qualifications thereof as may then attach to the classes and series of stock of the Corporation then outstanding so far as the same shall be consistent with such laws of the United States or of Texas or of such other State provided that the whole or any part of such stock or of any class thereof may be stock with a nominal or par value), the consideration for such sale and conveyance to be the assumption by such new company of all of the then outstanding liabilities of the Corporation and the issuance and delivery by the new company of shares of stock (any or all thereof either with or without nominal or par value) of such new company of the several classes and series into which the stock of the Corporation is then divided equal in number to the number of shares of stock of the Corporation of said several classes and series then outstanding. In the event of such sale each holder of stock of the Corporation agrees, so far as he may be so permitted by the laws of Texas, forthwith to surrender for cancellation his certificate or certificates for shares of stock of the Corporation, properly endorsed, and to receive and accept in exchange therefor, as his full and final distributive share of the proceeds of such sale and conveyance and of the assets of the Corporation, a number of shares of stock of the new company or the class and series corresponding to the class and series of the shares surrendered equal in number to the shares of stock of the Corporation so surrendered, and in such event no holder of any of the stock of the Corporation shall have any rights or interest in or against the Corporation except the right upon surrender of his certificates as aforesaid, properly endorsed, to receive from the Corporation certificates for such shares of said new company as herein provided. Such new company may have all or any of the powers of the Corporation, and the charter and bylaws of such new company may contain all or any of the provisions contained in the Articles of Incorporation and Bylaws of the Corporation.

Upon the like vote, the Corporation shall have power, as the attorney and agent of the holders of all of its outstanding stock, to sell, assign and transfer all such stock to a new company organized under the laws of the United States, the State of Texas, or any other State, and to receive as the consideration therefor shares of stock of such new company of the several classes and series into which the stock of the Corporation is then divided equal in number to the number of shares of stock of the Corporation of said several classes and series then outstanding, such shares of said new company to have substantially the same preferences, voting powers, restrictions and qualifications thereof as may then attach to the classes and series of stock of the Corporation then outstanding so far as the same shall be consistent with such laws of the United States or of Texas, or of such other State, except that the whole or any part of such stock or any class thereof may be stock with or without par value.

In order to make effective such a sale, assignment and transfer, the Corporation shall have the right to transfer all its outstanding stock on its books and to issue and deliver new certificates therefor in such names and amounts as such new company may direct, whether or not it receives for cancellation the certificates for such stock previously issued and then outstanding.

Upon completion of such sale, assignment and transfer, the holders of the stock of the Corporation shall have no rights or interests in or against the Corporation, except the right, upon surrender of certificates for stock of the Corporation, properly endorsed, to receive from the Corporation certificates for shares of stock of such new company of the class and series substantially corresponding to the class and series of the surrendered shares equal in number to the number of shares of stock of the Corporation so surrendered.

ARTICLE VIII

Upon the written consent or the votes of the holders of shares of stock then outstanding which are entitled to cast a majority of the votes entitled to be voted, notwithstanding any contrary provision which may at the time be contained in these Articles of Incorporation, except as otherwise expressly provided in, or by resolution pursuant to, Article VI in respect of Preferred Stock and in respect of Preference Stock, (1) any or every statute of the State of Texas hereafter enacted, whereby the rights, powers or privileges of the stockholders of corporations organized under the general laws of said State are increased, diminished, or in any way affected or whereby effect is given to the action taken by any part less than all of the stockholders of any such corporation, shall apply to the Corporation, and shall be binding not only upon the Corporation but upon every stockholder thereof to the same extent as if such statute had been in force at the date of the making and filing of the Articles of Incorporation, and/or (2) amendments to said Articles of Incorporation, authorized by the then existing laws of Texas, may be made.

ARTICLE IX.

The Corporation shall indemnify Directors, officers, employees, agents, nominees and designees of the Corporation and purchase and maintain liability insurance for them as, and to the extent permitted or required by law and provided for by the Bylaws of the Corporation, general or specific action of the Board of Directors, or contract.

ARTICLE X.

A Director of the Corporation shall not be liable to the Corporation or its shareholders for monetary damages for an act or omission in the Director's capacity as a Director, except for:

1. a breach of a Director's duty of loyalty to the Corporation or its shareholders;
2. an act or omission not in good faith or that involves intentional misconduct or a knowing violation of the law;
3. a transaction from which a Director received an improper benefit, whether or not the benefit resulted from an action taken within the scope of

the Director's office;

4. an act or omission for which the liability of a Director is expressly provided for by statute; or

5. an act related to an unlawful stock repurchase or payment of a dividend.

This Article shall apply with respect to any act or omission occurring on or after August 31, 1987. Any repeal or modification of this Article by the shareholders of the Corporation shall be prospective only, and shall not adversely affect any limitation on the personal liability of a Director of the Corporation existing at the time of such repeal or modification.

If the law of the State of Texas is amended hereafter to authorize the further elimination or limitation of the liability of Directors, then the liability of a Director of the Corporation shall automatically be eliminated or limited to the fullest extent authorized by the law of the State of Texas, as so amended.

Effective November 12, 1999

Exhibit 3(i)(f)1

AMENDED AND RESTATED
ARTICLES OF INCORPORATION
OF

ENTERGY MISSISSIPPI, INC.

Pursuant to the provisions of Mississippi Code of 1972 Annotated, Section 79-4-10.07, the undersigned Corporation adopts the following Amended and Restated Articles of Incorporation:

FIRST: The name of the Corporation is ENTERGY MISSISSIPPI, INC.

SECOND: The period of its duration is perpetual.

THIRD: The purpose or purposes which the Corporation is authorized to pursue are:

To acquire, buy, hold, own, sell, lease, exchange, dispose of, finance, deal in, construct, build, equip, improve, use, operate, maintain and work upon:

(a) Any and all kinds of plants and systems for the manufacture, production, storage, utilization, purchase, sale, supply, transmission, distribution or disposition of electricity, natural or artificial gas, water or steam, or power produced thereby, or of ice and refrigeration of any and every kind;

(b) Any and all kinds of telephone, telegraph, radio, wireless and other systems, facilities and devices for the receipt and transmission of sounds and signals, any and all kinds of interurban, city and street railways and railroads and bus lines for the transportation of passengers and/or freight, transmission lines, systems, appliances, equipment and devices and tracks, stations, buildings and other structures and facilities;

(c) Any and all kinds of works, power plants, manufactories, structures, substations, systems, tracks, machinery, generators, motors, lamps, poles, pipes, wires, cables, conduits, apparatus, devices, equipment, supplies, articles and merchandise of every kind pertaining to or in anywise connected with the construction, operation or maintenance of telephone, telegraph, radio, wireless and other systems, facilities and devices for the receipt and transmission of sounds and signals, or of interurban, city and street railways and railroads and bus lines, or in anywise connected with or pertaining to the manufacture, production, purchase, use, sale, supply, transmission, distribution, regulation, control or application of electricity, natural or artificial gas, water, steam, ice, refrigeration and power or any other purposes;

To acquire, buy, hold, own, sell, lease, exchange, dispose of, transmit, distribute, deal in, use, manufacture, produce, furnish and supply street and interurban railway and bus service, electricity, natural or artificial gas, light, heat, ice, refrigeration, water and steam in any form and for any purposes whatsoever, and any power or force or energy in any form and for any purposes whatsoever;

To buy, sell, manufacture, produce and generally deal in milk, cream and any articles or substances used or usable in or in connection with the manufacture and production of ice cream, ices, beverages and soda fountain supplies; to buy, sell, manufacture, produce and generally deal in ice cream and ices;

To acquire, organize, assemble, develop, build up and operate constructing and operating and other organizations and systems, and to hire, sell, lease, exchange, turn over, deliver and dispose of such organizations and systems in whole or in part and as going organizations and systems and otherwise, and to enter into and perform contracts, agreements and undertakings of any kind in connection with any or all the foregoing powers;

To do a general contracting business;

To purchase, acquire, develop, mine, explore, drill, hold, own and dispose of lands, interests in and rights with respect to lands and waters and fixed and movable property;

To borrow money and contract debts when necessary for the transaction of the business of the Corporation or for the exercise of its corporate rights, privileges or franchises or for any other lawful purpose of its incorporation; to issue bonds, promissory notes, bills of exchange, debentures and other obligations and evidences of indebtedness payable at a specified time or times or payable upon the happening of a specified event or events, whether secured by mortgage, pledge or otherwise or unsecured, for money borrowed or in payment for property purchased or acquired or any other lawful objects;

To guarantee, purchase, hold, sell, assign, transfer, mortgage, pledge or otherwise dispose of the shares of the capital stock of, or any bonds, securities or evidences of indebtedness created by, any other corporation or corporations of the State of Mississippi or any other state or government and, while the owner of such stock, to exercise all the rights, powers and privileges of individual ownership with respect thereto including the right to vote thereon, and to consent and otherwise act with respect thereto;

To aid in any manner any corporation or association, domestic or foreign, or any firm or individual, any shares of stock in which or any bonds, debentures, notes, securities, evidences of indebtedness, contracts or obligations of which are held by or for the Corporation or in which or in the welfare of which the Corporation shall have any interest, and to do any acts designed to protect, preserve, improve or enhance the value of any property at any time held or controlled by the Corporation, or in which it may be at any time interested; and to organize or promote or facilitate the organization of subsidiary companies;

To purchase, hold, sell and transfer shares of its own capital stock, provided that the Corporation shall not purchase its own shares of capital stock except from surplus of its assets over its liabilities including capital; and provided, further, that the shares of its own capital stock owned by the Corporation shall not be voted upon directly or indirectly nor counted as outstanding for the purposes of any stockholders' quorum or vote;

In any manner to acquire, enjoy, utilize and to dispose of patents, copyrights and trade-marks and any licenses or other rights or interests therein and thereunder:

To purchase, acquire, hold, own or dispose of franchises, concessions, consents, privileges and licenses necessary for and in its opinion useful or desirable for or in connection with the foregoing powers;

To do all and everything necessary and proper for the accomplishment of the objects enumerated in these Amended and Restated Articles of Incorporation or any amendment thereof or necessary or incidental to the protection and benefits of the Corporation, and in general to carry on any lawful business necessary or not incidental to the attainment of the objects of the Corporation whether or not such business is similar in nature to the objects set forth in these Amended and Restated Articles of Incorporation or any amendment thereof.

To do any or all things herein set forth, to the same extent and as fully as natural persons might or could do, and in any part of the world, and as principal, agent, contractor or otherwise, and either alone or in conjunction with any other persons, firms, associations or corporations;

To conduct its business in all its branches in the State of Mississippi, other states, the District of Columbia, the territories and colonies of the United States, and any foreign countries, and to have one or more offices out of the State of Mississippi and to hold, purchase, mortgage and convey real and personal property both within and without the State of Mississippi; provided, however, that the Corporation shall not exercise any of the powers set forth herein for the purpose of engaging in business as a street railway, telegraph or telephone company unless prior thereto this Article THIRD shall have been amended to set forth a description of the line and the points it will traverse.

FOURTH: The aggregate number of shares which the Corporation shall have authority to issue is 17,178,808 shares, divided into 2,178,808 shares of Preferred Stock of the par value of \$100 per share and 15,000,000 shares of Common Stock without par value.

The preferences, limitations and relative rights in respect of the shares of each class and the variations in the relative rights and preferences as between series of any preferred or special class in series are as follows:

The Preferred Stock shall be issuable in one or more series from time to time and the shares of each series shall have the same rank and be identical with each other and shall have the same relative rights except with respect to the following:

- (a) The number of shares to constitute each such series and the distinctive designation thereof;
- (b) The annual rate or rates of dividends payable on shares of such series, the dates on which dividends shall be paid in each year and the date from which such dividends shall commence to accumulate;
- (c) The amount or amounts payable upon redemption thereof; and
- (d) The sinking fund provisions, if any, for the redemption or purchase of shares;

which different characteristics of clauses (a), (b), (c) and (d) above may be stated and expressed with respect to each series in the resolution or resolutions providing for the issue of such series adopted by the Board of Directors or in these Amended and Restated Articles of Incorporation or any amendment thereof.

A series of 60,000 shares of Preferred Stock shall:

(a) be designated "4.36% Preferred Stock Cumulative, \$100 Par Value";

(b) have a dividend rate of \$4.36 per share per annum payable quarterly on February 1, May 1, August 1 and November 1 of each year, the first dividend date to be February 1, 1963, and such dividends to be cumulative from the last date to which dividends upon the 4.36% Preferred Stock Cumulative, \$100 Par Value, of Mississippi Power & Light Company, a Florida corporation, are paid;

(c) be subject to redemption in the manner provided herein with respect to the Preferred Stock at the price of \$105.36 per share if redeemed on or before February 1, 1964, and of \$103.88 per share if redeemed after February 1, 1964, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption.

A series of 44,476 shares of the Preferred Stock shall:

(a) be designated "4.56% Preferred Stock, Cumulative, \$100 Par Value";

(b) have a dividend rate of \$4.56 per share per annum payable quarterly on February 1, May 1, August 1 and November 1 of each year, the first dividend date to be February 1, 1963, and such dividends to be cumulative from the last date to which dividends upon the 4.56% Preferred Stock, Cumulative, \$100 Par Value, of Mississippi Power & Light Company, a Florida corporation, are paid; and

(c) be subject to redemption in the manner provided herein with respect to the Preferred Stock at the price of \$108.50 per share if redeemed on or before November 1, 1964, and of \$107.00 per share if redeemed after November 1, 1964, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption.

A series of 100,000 shares of the Preferred Stock shall:

(a) be designated "4.92% Preferred Stock, Cumulative, \$100 Par Value";

(b) have a dividend rate of \$4.92 per share per annum payable quarterly on February 1, May 1, August 1 and November 1 of each year, the first dividend date to be February 1, 1966, and such dividends to be cumulative from the date of issue of said series; and

(c) be subject to redemption at the price of \$106.30 per share if redeemed on or before January 1, 1971, of \$104.38 per share if redeemed after January 1, 1971 and on or before January 1, 1976, and of \$102.88 per share if redeemed after January 1, 1976, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption.

A series of 100,000 shares of the Preferred Stock shall:

(a) be designated "7.44% Preferred Stock, Cumulative, \$100 Par Value";

(b) have a dividend rate of \$7.44 per share per annum payable quarterly on February 1, May 1, August 1 and November 1 of each year, the first dividend date to be May 1, 1973, and such dividends to be cumulative from February 14, 1973; and

(c) be subject to redemption at the price of \$108.39 per share if redeemed on or before February 1, 1978, of \$106.53 per share if redeemed after February 1, 1978 and on or before February 1, 1983, of \$104.67 per share if redeemed after February 1, 1983 and on or before February 1, 1988, and of \$102.81 per share if redeemed after February 1, 1988, in each case plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption; provided, however, that no share of the 7.44% Preferred Stock, Cumulative, \$100 Par Value, shall be redeemed prior to February 1, 1978 if such redemption is for the purpose or in anticipation of refunding such share through the use, directly or indirectly, of funds borrowed by the Corporation, or through the use, directly or indirectly, of funds derived through the issuance by the Corporation of stock ranking prior to or on a parity with the 7.44% Preferred Stock, Cumulative, \$100 Par Value, as to dividends or assets, if such borrowed funds have an effective interest cost to the Corporation (computed in accordance with generally accepted financial practice) or such stock has an effective dividend cost to the Corporation (so computed) of less than the effective dividend cost to the Corporation of the 7.44% Preferred Stock, Cumulative, \$100 Par Value.

A series of 200,000 shares of the Preferred Stock shall:

(a) be designated as the "8.36% Preferred Stock, Cumulative, \$100 Par Value";

(b) have a dividend rate of \$8.36 per share per annum payable quarterly on February 1, May 1, August 1, and November 1 of each year, the first dividend date to be February 1, 1993, and such dividends to be cumulative from the date of issuance; and

(c) be subject to redemption at the price of \$100 par share plus an amount equivalent to the accumulated and unpaid dividends thereon, if any, to the date fixed for redemption (except that no share of the 8.36% Preferred Stock shall be redeemed on or before October 1, 1997).

Subject to the foregoing, the distinguishing characteristics of the Preferred Stock shall be:

(A) Each series of the Preferred Stock, *pari passu* with all shares of preferred stock of any class or series then outstanding, shall be entitled but only when and as declared by the Board of Directors, out of funds legally available for the payment of dividends in preference to the Common Stock, to dividends at the rate stated and expressed with respect to such series herein or by the resolution or resolutions providing for the issue of such series adopted by the Board of Directors; such dividends to be cumulative from such date and payable on such dates in each year as may be stated and expressed in said resolution, to stockholders of record as of a date not to exceed forty (40) days and not less than ten (10) days preceding the dividend payment dates so fixed.

(B) If and when dividends payable on any of the Preferred Stock of the Corporation at any time outstanding shall be in default in an amount equal to four full quarterly payments or more per share, and thereafter until all dividends on any such preferred stock in default shall have been paid, the holders of the Preferred Stock *pari passu* with the holders of other preferred stock then outstanding, voting separately as a class, shall be entitled to elect the smallest number of directors necessary to constitute a majority of the full Board of Directors, and, except as provided in the following paragraph, the holders of the Common Stock, voting separately as a class, shall be entitled to elect the remaining directors of the Corporation. The terms of office, as directors, of all persons who may be directors of the Corporation at the time shall terminate upon the election of a majority of the Board of Directors by the holders of the Preferred Stock except that if the holders of the Common Stock shall not have elected the remaining directors of the Corporation, then, and only in that event, the directors of the Corporation in office just prior to the election of a majority of the Board of Directors by the holders of the Preferred Stock shall elect the remaining directors of the Corporation. Thereafter, while such default continues and the majority of the Board of Directors is being elected by the holders of the Preferred Stock, the remaining directors, whether elected by directors, as aforesaid, or whether originally or later elected by holders of the Common Stock shall continue in office until their successors are elected by holders of the Common Stock and shall qualify.

If and when all dividends then in default on the Preferred Stock; then outstanding shall be paid (such dividends to be declared and paid out of any funds legally available therefor as soon as reasonably practicable), the holders of the Preferred Stock shall be divested of any special right with respect to the election of directors, and the voting power of the holders of the Preferred Stock and the holders of the Common Stock shall revert to the status existing before the first dividend payment date on which dividends on the Preferred Stock were not paid in full, but always subject to the same provisions for vesting such special rights in the holders of the Preferred Stock in case of further like defaults in the payment of dividends thereon as described in the immediately foregoing paragraph. Upon termination of any such special voting right upon payment of all accumulated and unpaid dividends on the Preferred Stock, the terms of office of all persons who may have been elected directors of the Corporation by vote of the holders of the Preferred Stock as a class, pursuant to such special voting right shall forthwith terminate, and the resulting vacancies shall be filled by the vote of a majority of the remaining directors.

In case of any vacancy in the office of a director occurring among the directors elected by the holders of the Preferred Stock, voting separately as a class, the remaining directors elected by the holders of the Preferred Stock, by affirmative vote of a majority thereof, or the remaining director so elected if there be but one, may elect a successor or successors to hold office for the unexpired term or terms of the director or directors whose place or places shall be vacant. Likewise, in case of any vacancy in the office of a director occurring among the directors not elected by the holders of the Preferred Stock, the remaining directors not elected by the holders of the Preferred Stock, by affirmative vote of a majority thereof, or the remaining director so elected if there be but one, may elect a successor or successors to hold office for the unexpired term or terms of the director or directors whose place or places shall be vacant.

Whenever the right shall have accrued to the holders of the Preferred Stock to elect directors, voting separately as a class, it shall be the duty of the President, a Vice-President or the Secretary of the Corporation forthwith to call and cause notice to be given to the shareholders entitled to vote of a meeting to be held at such time as the Corporation's officers may fix, not less than forty-five (45) nor more than sixty (60) days after the accrual of such right, for the purpose of electing directors. The notice so given shall be mailed to each holder of record of preferred stock at his last known address appearing on the books of the Corporation and shall set forth, among other things, (i) that by reason of the fact that dividends payable on preferred stock are in default in an amount equal to four full quarterly payments or more per share, the holders of the Preferred Stock, voting separately as a class, have the right to elect the smallest number of directors necessary to constitute a majority of the full Board of Directors of the Corporation, (ii) that any holder of the Preferred Stock has the right, at any reasonable time, to inspect, and make copies of, the list or lists of holders of the Preferred Stock maintained at the principal office of the Corporation or at the office of any Transfer Agent of the Preferred Stock, and (iii) either the entirety of this paragraph or the substance thereof with respect to the number of shares of the Preferred Stock required to be represented at any meeting, or adjournment thereof, called for the election of directors of the Corporation. At the first meeting of stockholders held for the purpose of electing directors during such time as the holders of the Preferred Stock shall have the special right, voting separately as a class, to elect directors, the presence in person or by proxy of the holders of a majority of the outstanding Common Stock shall be required to constitute a quorum of such class for the election of directors, and the presence in person or by proxy of the holders of a majority of the outstanding Preferred Stock shall be required to constitute a quorum of such class for the election of directors; provided, however, that in the absence of a quorum of the holders of the Preferred Stock, no election of directors shall be held, but a majority of the holders of the Preferred Stock who are present in person or by proxy shall have power to adjourn the election of the directors to a date not less than fifteen (15) nor more than fifty (50) days from the giving of the notice of such adjourned meeting hereinafter provided for; and provided, further, that at such adjourned meeting, the presence in person or by proxy of the holders of 35% of the outstanding Preferred Stock shall be required to constitute a quorum of such class for the election of directors. In the event such first meeting of stockholders shall be so adjourned, it shall be the duty of the President, a Vice-President or the Secretary of the Corporation, within ten (10) days from the date on

which such first meeting shall have been adjourned, to cause notice of such adjourned meeting to be given to the shareholders entitled to vote thereat, such adjourned meeting to be held not less than fifteen (15) days nor more than fifty (50) days from the giving of such second notice. Such second notice shall be given in the form and manner hereinabove provided for with respect to the notice required to be given of such first meeting of stockholders, and shall further set forth that a quorum was not present at such first meeting and that the holders of 35% of the outstanding Preferred Stock shall be required to constitute a quorum of such class for the election of directors at such adjourned meeting. If the requisite quorum of holders of the Preferred Stock shall not be present at said adjourned meeting, then the directors of the Corporation then in office shall remain in office until the next Annual Meeting of the Corporation, or special meeting in lieu thereof and until their successors shall have been elected and shall qualify. Neither such first meeting nor such adjourned meeting shall be held on a date within sixty (60) days of the date of the next Annual Meeting of the Corporation, or special meeting in lieu thereof. At each Annual Meeting of the Corporation, or special meeting in lieu thereof, held during such time as the holders of the Preferred Stock, voting separately as a class, shall have the right to elect a majority of the Board of Directors, the foregoing provisions of this paragraph shall govern each Annual Meeting, or special meeting in lieu thereof, as if said Annual Meeting or special meeting were the first meeting of stockholders held for the purpose of electing directors after the right of the holders of the Preferred Stock, voting separately as a class, to elect a majority of the Board of Directors, should have accrued the exception, that if, at any adjourned annual meeting, or special meeting in lieu thereof, the holders of 35% of the outstanding Preferred Stock are not present in person or by proxy, all the directors shall be elected by a vote of the holders of a majority of the Common Stock of the Corporation present or represented at the meeting.

(C) So long as any shares of the Preferred Stock are outstanding, the Corporation shall not, without the consent (given by vote at a meeting called for that purpose) of at least two-thirds of the total number of shares of the Preferred Stock then outstanding:

(1) create, authorize or issue any new stock which, after issuance would rank prior to the Preferred Stock as to dividends, in liquidation, dissolution, winding up or distribution, or create, authorize or issue any security convertible into shares of any such stock except for the purpose of providing funds for the redemption of all of the Preferred Stock then outstanding, such new stock or security not to be issued until such redemption shall have been authorized and notice of such redemption given and the aggregate redemption price deposited as provided in paragraph (G) below; provided, however, that any such new stock or security shall be issued within twelve months after the vote of the Preferred Stock herein provided for authorizing the issuance of such new stock or security; or

(2) amend, alter, or repeal any of the rights, preferences or powers of the holders of the Preferred Stock so as to affect adversely any such rights, preferences or powers; provided, however, that if such amendment, alteration or repeal affects adversely the rights, preferences or powers of one or more, but not all, series of Preferred Stock at the time outstanding, only the consent of the holders of at least two-thirds of the total number of outstanding shares of all series so affected shall be required; and provided, further, that an amendment to increase or decrease the authorized amount of Preferred Stock or to create or authorize, or increase or decrease the amount of, any class of stock; ranking on a parity with the outstanding shares of the Preferred Stock as to dividends or assets shall not be deemed to affect adversely the rights, preferences or powers of the holders of the Preferred Stock or any series thereof.

(D) So long as any shares of the Preferred Stock are outstanding, the Corporation shall not, without the consent (given by vote at a meeting called for that purpose) of the holders of a majority of the total number of shares of the Preferred Stock then outstanding:

(1) merge or consolidate with or into any other corporation or corporations or sell or otherwise dispose of all or substantially all of the assets of the Corporation, unless such merger or consolidation or sale or other disposition, or the exchange, issuance or assumption of all securities to be issued or assumed in connection with any such merger or consolidation or sale or other disposition, shall have been ordered, approved or permitted under the Public Utility Holding Company Act of 1935; or

(2) issue or assume any unsecured notes, debentures or other securities representing unsecured indebtedness for purposes other than (i) the refunding of outstanding unsecured indebtedness theretofore issued or assumed by the Corporation resulting in equal or longer maturities, or (ii) the reacquisition, redemption or other retirement of all outstanding shares of the Preferred Stock, if immediately after such issue or assumption, the total principal amount of all unsecured notes, debentures or other securities representing unsecured indebtedness issued or assumed by the Corporation, including unsecured indebtedness then to be issued or assumed (but excluding the principal amount then outstanding of any unsecured notes, debentures, or other securities representing unsecured indebtedness having a maturity in excess of ten (10) years and in amount not exceeding 10% of the aggregate of (a) and (b) of this section below) would exceed ten per centum (10%) of the aggregate of (a) the total principal amount of all bonds or other securities representing secured indebtedness issued or assumed by the Corporation and then to be outstanding, and (b) the capital and surplus of the Corporation as then to be stated on the books of account of the Corporation. When unsecured notes, debentures or other securities representing unsecured debt of a maturity in excess of ten (10) years shall become of a maturity of ten (10) years or less, it shall then be regarded as unsecured debt of a maturity of less than ten (10) years and shall be computed with such debt for the purpose of determining the percentage ratio to the sum of (a) and (b) above of unsecured debt of a maturity of less than ten (10) years, and when provision shall have been made, whether through a sinking fund or otherwise, for the retirement, prior to their maturity, of unsecured notes, debentures, or other securities representing unsecured debt of a maturity in excess of ten (10) years, the amount of any such security so required to be retired in less than ten (10) years shall be regarded as unsecured debt of a maturity of less than ten (10) years (and not as unsecured debt of a maturity in excess of ten (10) years) and shall be computed with such debt for the purpose of determining the percentage ratio to the sum of (a) and (b) above of unsecured debt of a maturity of less than ten (10) years, provided, however, that the payment due upon the maturity of unsecured debt having an original single maturity in excess of ten (10) years or the payment due upon the latest maturity of any

serial debt which had original maturities in excess of ten (10) years shall not, for purposes of this provision, be regarded as unsecured debt of a maturity of less than ten (10) years until such payment or payments shall be required to be made within three (3) years; furthermore, when unsecured notes, debentures or other securities representing unsecured debt of a maturity of less than ten (10) years shall exceed 10% of the sum of (a) and (b) above, no additional unsecured notes, debentures or other securities representing unsecured debt shall be issued or assumed (except for the purpose set forth in (i) or

(ii) above) until such ratio is reduced to 10% of the sum of (a) and (b) above; or

(3) issue, sell or otherwise dispose of any shares of the Preferred Stock in addition to the 104,476 shares of the Preferred Stock originally authorized, or of any other class of stock ranking on a parity with the Preferred Stock as to dividends or in liquidation, dissolution, winding up or distribution, unless the gross income of the Corporation and Mississippi Power & Light Company, a Florida corporation, for a period of twelve (12) consecutive calendar months within the fifteen (15) calendar months immediately preceding the issuance, sale or disposition of such stock, determined in accordance with generally accepted accounting practices (but in any event after deducting all taxes and the greater of (a) the amount for said period charged by the Corporation and Mississippi Power & Light Company, a Florida corporation, on their books to depreciation expense or (b) the largest amount required to be provided therefor by any mortgage indenture of the Corporation) to be available for the payment of interest, shall have been at least one and one-half times the sum of (i) the annual interest charges on all interest bearing indebtedness of the Corporation and

(ii) the annual dividend requirements on all outstanding shares of the Preferred Stock and of all other classes of stock ranking prior to, or on a parity with, the Preferred Stock as to dividends or distributions, including the shares proposed to be issued; provided, that there shall be excluded from the foregoing computation interest charges on all indebtedness and dividends on all shares of stock which are to be retired in connection with the issue of such additional shares of the Preferred Stock or other class of stocks ranking prior to, or on a parity with, the Preferred Stock as to dividends or distributions; and provided, further, that in any case where such additional shares of the Preferred Stock, or other class of stock ranking on a parity with the Preferred Stock as to dividends or distributions, are to be issued in connection with the acquisition of additional property, the gross income of the property to be so acquired, computed on the same basis as the gross income of the Corporation, may be included on a pro forma basis in making the foregoing computation; or

(4) issue, sell, or otherwise dispose of any shares of the Preferred Stock, in addition to the 104,476 shares of the Preferred Stock originally authorized, or of any other class of stock ranking on a parity with the Preferred Stock as to dividends or distributions, unless the aggregate of the capital of the Corporation applicable to the Common Stock and the surplus of the Corporation shall be not less than the aggregate amount payable on the involuntary liquidation, dissolution, or winding up of the Corporation, in respect of all shares of the Preferred Stock and all shares of stock, if any, ranking prior thereto, or on a parity therewith, as to dividends or distributions, which will be outstanding after the issue of the shares proposed to be issued; provided, that if, for the purposes of meeting the requirements of this subparagraph (4), it becomes necessary to take into consideration any earned surplus of the Corporation, the Corporation shall not thereafter pay any dividends on shares of the Common Stock which would result in reducing the Corporation's Common Stock equity (as in paragraph (H) hereinafter defined) to an amount less than the aggregate amount payable, on involuntary liquidation, dissolution or winding up the Corporation, on all shares of the Preferred Stock and of any stock ranking prior to, or on a parity with, the Preferred Stock, as to dividends or other distributions, at the time outstanding.

(E) Each holder of Common Stock of the Corporation shall be entitled to one vote, in person or by proxy, for each share of such stock standing in his name on the books of the Corporation. Except as hereinbefore expressly provided in this Section FOURTH, the holders of the Preferred Stock shall have no power to vote and shall be entitled to no notice of any meeting of the stockholders of the Corporation. As to matters upon which holders of the Preferred Stock are entitled to vote as hereinbefore expressly provided, each holder of such Preferred Stock shall be entitled to one vote, in person or by proxy, for each share of such Preferred Stock standing in his name on the books of the Corporation.

(F) In the event of any voluntary liquidation, dissolution or winding up of the Corporation, the Preferred Stock, pari passu with all shares of preferred stock of any class or series then outstanding, shall have a preference over the Common Stock until an amount equal to the then current redemption price shall have been paid. In the event of any involuntary liquidation, dissolution or winding up of the Corporation, which shall include any such liquidation, dissolution or winding up which may arise out of or result from the condemnation or purchase of all or a major portion of the properties of the Corporation, by (i) the United States Government or any authority, agency or instrumentality thereof, (ii) a state of the United States or any political subdivision, authority, agency, or instrumentality thereof, or (iii) a district, cooperative or other association or entity not organized for profit, the Preferred Stock, pari passu with all shares of preferred stock of any class or series then outstanding, shall also have a preference over the Common Stock until the full par value thereof and an amount equal to all accumulated and unpaid dividends thereon shall have been paid by dividends or distribution.

(G) Upon the affirmative vote of a majority of the shares of the issued and outstanding Common Stock at any annual meeting, or any special meeting called for that purpose, the Corporation may at any time redeem all of any series of said Preferred Stock or may from time to time redeem any part thereof, by paying in cash the redemption price then applicable thereto as stated and expressed with respect to such series in the resolution providing for the issue of such shares adopted by the Board of Directors of the Corporation, or in these Amended and Restated Articles of Incorporation or any amendment thereof, plus, in each case, an amount equivalent to the accumulated and unpaid dividends, if any, to the date of redemption. Notice of the intention of the Corporation to redeem all or any part of the Preferred Stock shall be mailed not less than thirty (30) days nor more than sixty (60) days before the date of redemption to each holder of record of Preferred Stock to be redeemed, at his post office address as shown by the Corporation's records, and not less than thirty (30) days' nor more than sixty (60) days' notice of such

redemption may be published in such manner as may be prescribed by resolution of the Board of Directors of the Corporation; and, in the event of such publication, no defect in the mailing of such notice shall affect the validity of the proceedings for the redemption of any shares of Preferred Stock so to be redeemed. Contemporaneously with the mailing or the publication of such notice as aforesaid or at any time thereafter prior to the date of redemption, the Corporation may deposit the aggregate redemption price (or the portion thereof not already paid in the redemption of such Preferred Stock so to be redeemed) with any bank or trust company in the City of New York, New York, or in the City of Jackson, Mississippi, named in such notice, payable to the order of the record holders of the Preferred Stock so to be redeemed, as the case may be, on the endorsement and surrender of their certificates, and thereupon said holders shall cease to be stockholders with respect to such shares; and from and after the making of such deposit such holders shall have no interest in or claim against the Corporation with respect to said shares, but shall be entitled only to receive such moneys from said bank or trust company, with interest, if any, allowed by such bank or trust company on such moneys deposited as in this paragraph provided, on endorsement and surrender of their certificates, as aforesaid. Any moneys so deposited, plus interest thereon, if any, remaining unclaimed at the end of six (6) years from the date fixed for redemption, if thereafter requested by resolution of the Board of Directors, shall be repaid to the Corporation, and in the event of such repayment to the Corporation, such holders of record of the shares so redeemed as shall not have made claim against such moneys prior to such repayment to the Corporation, shall be deemed to be unsecured creditors of the Corporation for an amount, without interest, equivalent to the amount deposited, plus interest thereon, if any, allowed by such bank or trust company, as above stated, for the redemption of such shares and so paid to the Corporation. Shares of the Preferred Stock which have been redeemed shall not be reissued. If less than all of the shares of the Preferred Stock are to be redeemed, the shares thereof to be redeemed shall be selected by lot, in such manner as the Board of Directors of the Corporation shall determine, by an independent bank or trust company selected for that purpose by the Board of Directors of the Corporation. Nothing herein contained shall limit any legal right of the Corporation to purchase or otherwise acquire any shares of the Preferred Stock; provided, however, that, so long as any shares of the Preferred Stock are outstanding, the Corporation shall not redeem, purchase or otherwise acquire less than all of the shares of the Preferred Stock, if, at the time of such redemption, purchase or other acquisition, dividends payable on the Preferred Stock shall be in default in whole or in part, unless, prior to or concurrently with such redemption, purchase or other acquisition, all such defaults shall be cured or unless such redemption, purchase or other acquisition shall have been ordered, approved or permitted under the Public Utility Holding Company Act of 1935; and provided further that, so long as any shares of the Preferred Stock are outstanding, the Corporation shall not make any payment or set aside any funds for payment into any sinking fund for the purchase or redemption of any shares of the Preferred Stock, if, at the time of such payment, or the setting apart of funds for such payment, dividends payable on the Preferred Stock shall be in default in whole or in part, unless, prior to or concurrently with such payment or the setting apart of funds for such payment, all such defaults shall be cured or unless such payment, or the setting apart of funds for such payment, shall have been ordered, approved or permitted under the Public Utility Holding Company Act of 1935. Any shares of the Preferred Stock so redeemed, purchased or acquired shall be retired and cancelled.

(H) For the purposes of this paragraph (H) and subparagraph (4) of paragraph (D) the term "Common Stock Equity" shall mean the aggregate of the par value of, or stated capital represented by, the outstanding shares (other than shares owned by the Corporation) of stock ranking junior to the Preferred Stock as to dividends and assets, of the premium on such junior stock and of the surplus (including earned surplus, capital surplus and surplus invested in plant) of the Corporation less (1) any amounts recorded on the books of the Corporation for utility plant and other plant in excess of the original cost thereof, (2) unamortized debt discount and expense, capital stock discount and expense and any other intangible items set forth on the asset side of the balance sheet as a result of accounting convention, (3) the excess, if any, of the aggregate amount payable on involuntary liquidation, dissolution or winding up of the affairs of the Corporation upon all outstanding preferred stock of the Corporation over the aggregate par or stated value thereof and any premiums thereon and (4) the excess, if any, for the period beginning with January 1, 1954, to the end of the month within ninety (90) days preceding the date as of which Common Stock Equity is determined, of the cumulative amount computed under requirements contained in the Corporation's mortgage indentures relating to minimum depreciation provisions (this cumulative amount being the aggregate of the largest amounts separately computed for entire periods of differing coexisting mortgage indenture requirements), over the amount charged by the Corporation and Mississippi Power & Light Company, a Florida corporation, on their books for depreciation during such period, including the final fraction of a year; provided, however, that no deductions shall be required to be made in respect of items referred to in subdivisions (1) and (2) of this paragraph (H) in cases in which such items are being amortized or are provided for, or are being provided for, by reserves. For the purpose of this paragraph (H): (i) the term "total capitalization" shall mean the sum of the Common Stock Equity plus item three (3) in this paragraph (H) and the stated capital applicable to, and any premium on, outstanding stock of the Corporation not included in Common Stock Equity, and the principal amount of all outstanding debt of the Corporation maturing more than twelve (12) months after the date of issue thereof; and (ii) the term "dividends on Common Stock" shall embrace dividends on Common Stock (other than dividends payable only in shares of Common Stock), distributions on, and purchases or other acquisitions for value of, any Common Stock of the Corporation or other stock if any, subordinate to its Preferred Stock. So long as any shares of the Preferred Stock are outstanding, the Corporation shall not declare or pay any dividends on the Common Stock, except as follows:

(a) If and so long as the Common Stock Equity at the end of the calendar month immediately preceding the date on which a dividend on Common Stock is declared is, or as a result of such dividend would become, less than 20% of total capitalization, the Corporation shall not declare such dividends in an amount which, together with all other dividends on Common Stock paid within the year ending with and including the date on which such dividend is payable, exceeds 50% of the net income of the Corporation available for dividends on the Common Stock for the twelve full calendar months immediately preceding the month in which such dividends are declared, except in an amount not exceeding the aggregate of dividends on Common Stock which under the restrictions set forth above in this subparagraph (a) could have been, and have not been, declared; and

(b) If and so long as the Common Stock Equity at the end of the calendar month immediately preceding the date on which a dividend on Common Stock is declared is, or as a result of such dividend would become, less than 25% but not less than 20% of total capitalization, the Corporation shall not declare dividends on the Common Stock in an amount which, together with all other dividends on Common Stock paid within the year ending with and including the date on which such dividend is payable, exceeds 75% of the net income of the Corporation and Mississippi Power & Light Company, a Florida corporation, available for dividends on the Common Stock for the twelve full calendar months immediately preceding the month in which such dividends are declared, except in an amount not exceeding the aggregate of dividends on Common Stock which under the restrictions set forth above in subparagraph (a) and in this subparagraph (b) could have been and have not been declared; and

(c) If any time when the Common Stock Equity is 25% or more of total capitalization, the Corporation may not declare dividends on shares of the Common Stock which would reduce the Common Stock Equity below 25% of total capitalization, except to the extent provided in subparagraphs (a) and (b) above.

At anytime when the aggregate of all amounts credited subsequent to January 1, 1954, to the depreciation reserve account of the Corporation and Mississippi Power & Light Company, a Florida corporation, through charges to operating revenue deductions or otherwise on the books of the Corporation and Mississippi Power & Light Company, a Florida corporation, shall be less than the amount computed as provided in clause (aa) below, under requirements contained in the Corporation's mortgage indentures, then for the purposes of subparagraphs (a) and (b) above, in determining the earnings available for common stock dividends during any twelve-month period, the amount to be provided for depreciation in that period shall be (aa) the greater of the cumulative amount charged to depreciation expense on the books of the Corporation and Mississippi Power & Light Company, a Florida corporation, or the cumulative amount computed under requirements contained in the Corporation's mortgage indentures relating to minimum depreciation provisions (the latter cumulative amount being the aggregate of the largest amounts separately computed for entire periods of differing co-existing mortgage indenture requirements) for the period from January 1, 1954, to and including said twelve-month period, less (bb) the greater of the cumulative amount charged to depreciation expense on the books of the Corporation and Mississippi Power & Light Company, a Florida corporation, or the cumulative amount computed under requirements contained in the Corporation's mortgage indentures relating to minimum depreciation provisions (the latter cumulative amount being the aggregate of the largest amounts separately computed for entire periods of differing coexisting mortgage indenture requirements) from January 1, 1954, up to but excluding said twelve-month period; provided that in the event any company other than Mississippi Power & Light Company, a Florida corporation, is merged into the Corporation the "cumulative amount computed under requirements contained in the Corporation's mortgage indentures relating to minimum depreciation provisions" referred to above shall be computed without regard, for the period prior to the merger, of property acquired in the merger, and the "cumulative amount charged to depreciation expense on the books of the Corporation" shall be exclusive of amounts provided for such property prior to the merger.

(I) The Board of Directors are hereby expressly authorized by resolution or resolutions to state and express the series and distinctive serial designation of any authorized and unissued shares of Preferred Stock proposed to be issued, the number of shares to constitute each such series, the annual rate or rates of dividends payable on shares of each series together with the dates on which such dividends shall be paid in each year, the date from which such dividends shall commence to accumulate, the amount or amounts payable upon redemption and the sinking fund provisions, if any, for the redemption or purchase of shares.

(J) Dividends may be paid upon the Common Stock only when

(i) dividends have been paid or declared and funds set apart for the payment of dividends as aforesaid on the Preferred Stock from the date(s) after which dividends thereon became cumulative, to the beginning of the period then current, with respect to which such dividends on the Preferred Stock are usually declared, and (ii) all payments have been made or funds have been set aside for payments then or theretofore due under sinking fund provisions, if any, for the redemption or purchase of shares of any series of the Preferred Stock, but whenever (x) there shall have been paid or declared and funds shall have been set apart for the payment of all such dividends upon the Preferred Stock as aforesaid, and (y) all payments shall have been made or funds shall have been set aside for payments then or theretofore due under sinking fund provisions, if any, for the redemption or purchase of shares of any series of the Preferred Stock, then, subject to the limitations above set forth, dividends upon the Common Stock may be declared payable then or thereafter, out of any net earnings or surplus of assets over liabilities, including capital, then remaining. After the payment of the limited dividends and/or shares in distribution of assets to which the Preferred Stock is expressly entitled in preference to the Common Stock, in accordance with the provisions hereinabove set forth, the Common Stock alone (subject to the rights of any class of stock hereafter authorized) shall receive all further dividends and shares in distribution.

(K) Subject to the limitations hereinabove set forth the Corporation from time to time may resell any of its own stock, purchased or otherwise acquired by it as hereinafter provided for, at such price as may be fixed by its Board of Directors or Executive Committee.

(L) Subject to the limitations hereinabove set forth the Corporation in order to acquire funds with which to redeem any outstanding Preferred Stock of any class, may issue and sell stock of any class then authorized but unissued, bonds, notes, evidences of indebtedness, or other securities.

(M) Subject to the limitations hereinabove set forth the Board of Directors of the Corporation may at any time authorize the conversion or exchange of the whole or any particular share of the outstanding preferred stock of any class with the consent of the holder thereof, into or for stock of any other class at the time of such consent authorized but unissued and may fix the terms and conditions upon which such conversion

or exchange may be made; provided that without the consent of the holders of record of two- thirds of the shares of Common Stock outstanding given at a meeting of the holders of the Common Stock called and held as provided by the By-Laws or given in writing without a meeting, the Board of Directors shall not authorize the conversion or exchange of any preferred stock of any class into or for Common Stock or authorize the conversion or exchange of any preferred stock; of any class into or for preferred stock of any other class, if by such conversion or exchange the amount which the holders of the shares of stock so converted or exchanged would be entitled to receive either as dividends or shares in distribution of assets in preference to the Common Stock would be increased.

(N) A consolidation, merger or amalgamation of the Corporation with or into any other corporation or corporations shall not be deemed a distribution of assets of the Corporation within the meaning of any provisions of these Amended and Restated Articles of Incorporation.

(O) The consideration received by the Corporation from the sale of any additional stock without nominal or par value shall be entered in the Corporation's capital stock account.

(P) Subject to the limitations hereinabove set forth upon the vote of a majority of all the Directors of the Corporation and of a majority of the total number of shares of stock then issued and outstanding and entitled to vote, irrespective of class (or if the vote of a larger number or different proportion of shares is required by the laws of the State of Mississippi notwithstanding the above agreement of the stockholders of the Corporation to the contrary, then upon the vote of the larger number or different proportion of shares so required), the Corporation may from time to time create or authorize one or more other classes of stock with such preferences, designations, rights, privileges, powers, restrictions, limitations and qualifications as may be determined by said vote, which may be the same as or different from the preferences, designations, rights, privileges, powers, restrictions, limitations and qualifications of the classes of stock of the Corporation then authorized. Any such vote authorizing the creation of a new class of stock may provide that all moneys payable by the Corporation with respect to any class of stock thereby authorized shall be paid in the money of any foreign country named therein or designated by the Board of Directors, pursuant to authority therein granted, at a fixed rate of exchange with the money of the United States of America therein stated or provided for and all such payments shall be made accordingly. Any such vote may authorize any shares of any class then authorized but unissued to be issued as shares of such new class or classes

(Q) Subject to the limitations hereinabove set forth, either the Preferred Stock or the Common Stock or both of said classes of stock, may be increased at any time upon vote of the holders of a majority of the total number of shares of the Corporation then issued and outstanding and entitled to vote thereon, irrespective of class.

(R) If any provisions in this Section FOURTH shall be in conflict or inconsistent with any other provisions of these Amended and Restated Articles of Incorporation of the Corporation the provisions of this Section FOURTH shall prevail and govern.

FIFTH: The Corporation will not commence business until at least \$1,000 has been received by it as consideration for the issuance of shares.

SIXTH: Existing provisions limiting or denying to shareholders the preemptive right to acquire additional or treasury shares of the Corporation are:

No holder of any stock of the Corporation shall be entitled as of right to purchase or subscribe for any part of any unissued stock of the Corporation, or any additional stock of any class to be issued by reason of any increase of the authorized capital stock of the Corporation or of bonds, certificates of indebtedness, debentures, or other securities convertible into stock of the Corporation, but any such unissued stock or any such additional authorized issue of new stock, or of securities convertible into stock, may be issued and disposed of by the Board of Directors without offering to the stockholders then of record, or to any class of stockholders, any thereof on any terms.

SEVENTH: Existing provisions of the Amended and Restated Articles of Incorporation for the regulation of the internal affairs of the Corporation are:

(a) General authority is hereby conferred upon the Board of Directors to fix the consideration for which shares of stock of the Corporation without nominal or par value may be issued and disposed of, and the shares of stock of the Corporation without nominal or par value, whether authorized by these Amended and Restated Articles of Incorporation or by subsequent increase of the authorized number of shares of stock or by amendment of these Amended and Restated Articles of Incorporation by consolidation or merger or otherwise, and/or any securities convertible into stock of the Corporation without nominal or par value may be issued and disposed of for such consideration and on such terms and in such manner as may be fixed from time to time by the Board of Directors.

(b) The issue of the whole, or any part determined by the Board of Directors, of the shares of stock of the Corporation as partly paid, and subject to calls thereon until the whole thereof shall have been paid, is hereby authorized.

(c) The Board of Directors shall have power to authorize the payment of compensation to the directors for services to the Corporation, including fees for attendance at meetings of the Board of Directors or the Executive Committee and all other committees and to determine the amount of such compensation and fees.

(d) The Corporation may issue a new certificate of stock in the place of any certificate theretofore issued by it, alleged to have been lost or destroyed and the Board of Directors may, in their discretion, require the owner of the lost or destroyed certificate, or his legal representative, to give bond in such sum as they may direct as indemnity against any claim that may be made against the Corporation, its officers, employees or agents by reason thereof; a new certificate may be issued without requiring any bond when, in the judgment of the directors, it is proper so to do.

If the Corporation shall neglect or refuse to issue such a new certificate and it shall appear that the owner thereof has applied to the Corporation for a new certificate in place thereof and has made due proof of the loss or destruction thereof and has given such notice of his application for such new certificate on such newspaper of general circulation, published in the State of Mississippi as reasonably should be approved by the Board of Directors, and in such other newspaper as may be required by the Board of Directors, and has tendered to the Corporation adequate security to indemnify the Corporation, its officers employees, or agents, and any person other than such applicant who shall thereafter appear to be the lawful owner of such alleged lost or destroyed certificate against damage, loss or expense because of the issuance of such new certificate, and the effect thereof as herein provided, then, unless there is adequate cause why such new certificate shall not be issued, the Corporation, upon the receipt of said indemnity, shall issue a new certificate of stock in place of such lost or destroyed certificate. In the event that the Corporation shall nevertheless refuse to issue a new certificate as aforesaid, the applicant may then petition any court of competent jurisdiction for relief against the failure of the Corporation to perform its obligations hereunder. In the event that the Corporation shall issue such new certificate, any person who shall thereafter claim any rights under the certificate in place of which such new certificate is issued, whether such new certificate is issued pursuant to the judgment or decree of such court or voluntarily by the Corporation after the publication of notice and the receipt of proof and indemnity as aforesaid, shall have recourse to such indemnity and the Corporation shall be discharged from all liability to such person by reason of such certificate and the shares represented thereby.

(e) No stockholder shall have any right to inspect any account, book or document of the Corporation, except as conferred by statute or authorized by the directors.

(f) A director of the Corporation shall not be disqualified by his office from dealing or contracting with the Corporation either as a vendor, purchaser or otherwise, nor shall any transaction or contract of the Corporation be void or voidable by reason of the fact that any director or any firm of which any director is a member or any corporation of which any director is a shareholder, officer or director, is in any way interested in such transaction or contract, provided that such transaction or contract is or shall be authorized, ratified or approved either (1) by a vote of a majority of a quorum of the Board of Directors or the Executive Committee, without counting in such majority or quorum any directors so interested or members of a firm so interested or a shareholder, officer or director of a corporation so interested, or (2) by the written consent, or by vote at a stockholders' meeting of the holders of record of a majority in number of all the outstanding shares of stock of the Corporation entitled to vote; nor shall any director be liable to account to the Corporation for any profits realized by or from or through any such transaction or contract of the Corporation, authorized, ratified or approved as aforesaid by reason of the fact that he or any firm of which he is a member or any corporation of which he is a shareholder, officer or director was interested in such transaction or contract. Nothing herein contained shall create any liability in the events above described or prevent the authorization, ratification or approval of such contract in any other manner provided by law.

(g) Any director may be removed, whether cause shall be assigned for his removal or not, and his place filled at any meeting of the stockholders by the vote of a majority of the outstanding stock of the Corporation entitled to vote. Vacancies and newly created directorships resulting from any increase in the authorized number of directors may be filled as provided in the By-Laws.

(h) Any property of the Corporation not essential to the conduct of its corporate business and purposes may be sold, leased, exchanged or otherwise disposed of by authority of its Board of Directors and the Corporation may sell, lease or exchange all of its property and franchises or any of its property, franchises, corporate rights or privileges essential to the conduct of its corporate business and purposes upon the consent of and for such considerations and upon such terms as may be authorized by a majority of the Board of Directors and the holders of a majority of the outstanding shares of stock entitled to vote, expressed in writing or by vote at a meeting called for that purpose in the manner provided by the By-Laws of the Corporation for special meetings of stockholders; and at no time shall any of the plants, properties, easements, franchises (other than corporate franchises) or securities then owned by the Corporation be deemed to be property, franchises, corporate rights or privileges essential to the conduct of the corporate business and purposes of the Corporation.

Upon the vote or consent of the stockholders required to dissolve the Corporation, the Corporation shall have power, as the attorney and agent of the holders of all of its outstanding stock, to sell, assign and transfer all such stock to a new corporation organized under the laws of the United States, the State of Mississippi or any other state, and to receive as the consideration therefor shares of stock of such new corporation of the several classes into which the stock of the Corporation is then divided, equal in number to the number of shares of stock of the Corporation of said several classes then outstanding, such shares of said new corporation to have the same preferences, voting powers, restrictions and qualifications thereof as may then attach to the classes of stock of the Corporation then outstanding so far as the same shall be consistent with such laws of the United States or of the State of Mississippi or of such other state, except that the whole or any part of such stock or any class thereof may be stock with or without nominal or par value. In order to make effective such a sale, assignment and transfer, the Corporation shall have the right to transfer all its outstanding stock on its books and to issue and deliver new certificates therefor in such names and amounts as such new corporation may direct without receiving for cancellation the certificates for such stock previously issued and then outstanding. Upon completion of such sale, assignment and transfer, the holders of the stock of the Corporation shall have no rights or interests in or against the

Corporation except the right, upon surrender of certificates for stock of the Corporation properly endorsed, if required, to receive from the Corporation certificates for shares of stock of such new corporation of the class corresponding to the class of the shares surrendered, equal in number to the number of shares of the stock of the Corporation so surrendered.

(i) Upon the written assent or pursuant to the affirmative vote in person or by proxy of the holders of a majority in number of the shares then outstanding and entitled to vote, irrespective of class, (1) any or every statute of the State of Mississippi hereafter enacted, whereby the rights, powers or privileges of the Corporation are or may be increased, diminished or in any way affected or whereby the rights, powers or privileges of the stockholders of corporations organized under the law under which the Corporation is organized, are increased, diminished or in any way affected or whereby effect is given to the action taken by any part, less than all, of the stockholders of any such corporation, shall, notwithstanding any provisions which may at the time be contained in these Amended and Restated Articles of Incorporation or any law, apply to the Corporation, and shall be binding not only upon the Corporation, but upon every stockholder thereof, to the same extent as if such statute had been in force at the date of the making and filing of these Amended and Restated Articles of Incorporation and/or (2) amendments of these Amended and Restated Articles of Incorporation authorized at the time of the making of such amendments by the laws of the State of Mississippi may be made.

EIGHTH: The Amended and Restated Articles of Incorporation amend, restate, and supersede the original Articles of Incorporation, and all amendments thereto, and any prior Restated Articles of Incorporation and all amendments thereto.

DATED: November 11, 1999

Effective November 26, 1999

Exhibit 3(ii)(c)

**BY-LAWS
OF
ENTERGY ARKANSAS, INC.**

ARTICLE I.

OFFICES

The principal business office of the Corporation shall be in Little Rock, Arkansas, or in such other location as designated by the Board of Directors. The Corporation may also have offices at such other places as the Board of Directors may from time to time designate or the business of the Corporation may require.

ARTICLE II.

MEETINGS OF STOCKHOLDERS

SECTION 1. Place of Meetings. Meetings of stockholders, whether annual or special, shall be held at a location fixed by the Board of Directors or by the stockholders.

SECTION 2. Annual Meeting. The annual meeting of stockholders for the election of Directors and the transaction of such other business as may properly come before the meeting shall be held on such date and at such time of day as shall have been fixed by the Board of Directors or by the stockholders.

SECTION 3. Special Meetings. Special meetings of the stockholders may be held at any time upon the call of (i) a majority of the entire Board of Directors, (ii) the Chairman of the Board, (iii) the person, if any, designated by the Board of Directors as the Chief Executive Officer, or (iv) the holders of not less than a majority of the outstanding stock entitled to vote at the special meeting.

SECTION 4. Organization. The Chief Executive Officer or, in his absence, a person appointed by him or, in default of such appointment, the officer next in seniority of position (as determined by the Secretary or, in the Secretary's absence, the Assistant Secretary), shall call meetings of the stockholders to order and shall act as chairman thereof. The Secretary of the Corporation, if present, shall act as secretary of all meetings of stockholders, and, in his absence, the presiding officer may appoint a secretary.

SECTION 5. Action by Consent. Any action required or permitted to be taken at any meeting of the stockholders, whether annual or special, may be taken without a meeting, if prior to such action a written consent thereto is signed by a sufficient percentage of shareholders to satisfy the minimum requirements of state law.

ARTICLE III.

DIRECTORS

SECTION 1. General Powers. The property, affairs and business of the Corporation shall be managed by the Board of Directors.

SECTION 2. Term of Office. The term of office of each Director shall be until the next annual meeting of stockholders and until his or her successor is duly elected and qualified or until the earlier death, resignation or removal of such Director.

SECTION 3. Number of Directors. The number of Directors which shall constitute the whole Board of Directors shall be not more than fifteen (15) nor less than three (3), with the exact number at any given time to be fixed by a resolution of the Board of Directors or by the stockholders.

SECTION 4. Meetings; Notice. Meetings of the Board of Directors shall be held at such place as may from time to time be fixed by resolution of the Board or by the Chairman of the Board, the Vice Chairman, the President or a Vice President and as may be specified in the notice or waiver of notice of any meeting. Notice may be written, electronic or oral and may be given at any time prior to the meeting. Notice may be waived by a Director either prior to or following a meeting. Directors present at a meeting shall be deemed to have waived notice thereof. Meetings of the Board of Directors, or any committee thereof, may be held by means of a video conference, a telephone conference or similar communications equipment.

SECTION 5. Quorum. A majority of the Board of Directors shall be necessary to constitute a quorum for the transaction of business, and the act of a majority of the Directors present at a meeting at which a quorum is present shall be the act of the Board of Directors. If a quorum is

present when the meeting is convened, the Directors present may continue to conduct the business of the meeting, taking action by vote of a majority of a quorum as fixed above, until adjournment, notwithstanding the withdrawal of enough Directors to leave less than a quorum as fixed above, or the refusal of any Director present to vote.

SECTION 6. Action By Consent. Any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting if, prior to such action, a written consent thereto is signed by all members of the Board of Directors or of such committee, as the case may be, and such written consent is filed with the minutes of proceedings of the Board of Directors or such committee, as the case may be.

SECTION 7. Advisory Directors. The stockholders or the Board of Directors may elect one or more Advisory Directors of the Corporation. Advisory Directors may be called upon individually or as a group by the Board of Directors or Officers of the Corporation to give advice and counsel to the Corporation. Advisory Directors shall receive from the Corporation such remuneration as shall be fixed by the Board of Directors. Terms of Advisory Directors shall expire on the day of the Annual Meeting of the Corporation, provided, however, that Advisory Directors shall serve at the pleasure of the Board of Directors and may be removed at any time with or without cause by a vote of the Board of Directors. For the purpose of Article IX (Indemnification) of these By-Laws, Advisory Directors of the Corporation shall enjoy the same rights and privileges as Directors of the Corporation.

SECTION 8. Vacancies; Removal. Vacancies and newly created directorships resulting from any increase in the authorized number of Directors may be filled by the stockholders or by the Board of Directors, and the Directors so chosen shall hold office until the next annual election. The stockholders may by majority vote remove any Director from his directorship, whether cause shall be assigned for such removal or not.

ARTICLE IV.

EXECUTIVE COMMITTEE AND OTHER COMMITTEES

SECTION 1. Executive Committee. The Board of Directors may, by resolution passed by a majority of the whole Board of Directors, establish an Executive Committee of not less than two or more than five members, to serve at the pleasure of the Board of Directors, which Executive Committee shall consist of such directors as the Board of Directors may from time to time designate.

SECTION 2. Procedure. The Executive Committee shall meet at the call of any of the members of the Executive Committee. A majority of the members shall be necessary to constitute a quorum and action shall be taken by a majority vote of those present.

SECTION 3. Powers and Reports. During the intervals between the meetings of the Board of Directors, the Executive Committee shall possess and may exercise, to the full extent authorized by law, all the powers of the Board of Directors in the management and direction of the business and affairs of the Corporation. The taking of an action by the Executive Committee shall be conclusive evidence that the Board of Directors was not in session when such action was taken. The Executive Committee shall keep regular minutes of its proceedings and all action by the Executive Committee shall be reported to the Board of Directors at its meeting next following the meeting of the Executive Committee and shall be subject to revision or alteration by the Board of Directors; provided, that no rights of third parties shall be affected by such revision or alteration.

SECTION 4. Other Committees. From time to time the Board of Directors, by the affirmative vote of a majority of the whole Board of Directors, may appoint other committees for any purpose or purposes, and such committees shall have such powers as shall be conferred by the resolution of appointment; provided, however, that no such committee shall be authorized to exercise the powers of the Board of Directors. The quorum of any such committee so appointed shall be a majority of the membership of that committee.

ARTICLE V.

OFFICERS

SECTION 1. Required and Discretionary Officers. The Board of Directors shall elect individuals to occupy at least three executive offices: President, Secretary and Treasurer. In its discretion, the Board of Directors may elect individuals to occupy other executive offices, including Chief Executive Officer, Chief Operating Officer, Vice President and such other executive offices as the Board shall designate. Officers shall be elected annually and shall hold office until their respective successors shall have been duly elected and qualified, or until such officer shall have died or resigned or shall have been removed by majority vote of the whole Board of Directors. To the extent permitted by law, individuals may occupy more than one office.

SECTION 2. President. The President shall perform duties incident to the office of the president of a corporation and such other duties as from time to time may be assigned to him or her by the Board of Directors, by the Executive Committee or, if the Board has elected a Chief Executive Officer and if the Chief Executive Officer is not the President, by the Chief Executive Officer.

SECTION 3. Vice Presidents. Each Vice President shall have such powers and shall perform such duties as from time to time may be conferred upon or assigned to him or her by the Board of Directors, the Executive Committee, the President or the Chief Executive Officer.

SECTION 4. Secretary. The Secretary shall keep the minutes of all meetings of the stockholders and of the Board of Directors in books provided for the purpose; shall see that all notices are duly given in accordance with the provisions of law and these By- Laws; shall be custodian of the records and of the corporate seal of the Corporation; shall see that the corporate seal is affixed to all documents the execution of which under the seal is duly authorized, and, when the seal is so affixed, he may attest the same; and, in general, shall perform all duties incident to the office of the secretary of a corporation, and such other duties as from time to time may be assigned to the Secretary by the Chief Executive Officer, the Chairman of the Board, the Vice Chairman, the President, the Board of Directors or the Executive Committee. The Secretary shall also keep, or cause to be kept, a stock book, containing the names, alphabetically arranged, of all persons who are stockholders of the Corporation, showing their addresses of record, the number of shares held by them respectively, and the date when they respectively became the owners of stock of the Corporation.

SECTION 5. Treasurer. The Treasurer shall have charge of and be responsible for all funds, securities, receipts and disbursements of the Corporation, and shall deposit, or cause to be deposited, in the name of the Corporation, all moneys or other valuable effects in such banks, trust companies or other depositories as shall, from time to time, be selected by the Treasurer, by an assistant Treasurer or by any other individual designated by the Board of Directors. The Treasurer may endorse for collection on behalf of the Corporation, checks, notes and other obligations; may sign receipts and vouchers for payments made to the Corporation singly or jointly with another person as the Board of Directors may authorize; may sign checks of the Corporation and pay out and dispose of the proceeds as the Board of Directors may authorize; shall render or cause to be rendered to the Chairman of the Board, the President and the Board of Directors, whenever requested, an account of the financial condition of the Corporation; and, in general, shall perform all the duties incident to the office of a treasurer of a corporation, and such other duties as from time to time may be assigned to him by the Chairman of the Board, the Vice Chairman, the President, the Board of Directors or the Executive Committee.

SECTION 6. Subordinate Officers. The Board of Directors may appoint such assistant secretaries, assistant treasurers and other officers as it may deem desirable. Each such officer shall hold office for such period, have such authority and perform such duties as the Board of Directors may prescribe. The Board of Directors may, from time to time, authorize any officer to appoint and remove such officers and to prescribe the powers and duties thereof.

SECTION 7. Vacancies; Absences. Any vacancy in any of the above offices may be filled by the Board of Directors at any regular or special meeting. Except when the law requires the act of a particular officer, the Board of Directors or the Executive Committee, whenever necessary, may, in the absence of any officer, designate any other officer or properly qualified employee, to perform the duties of the absent officer for the time being, and such designated officer or employee shall have, when so acting, all the powers herein given to such absent officer.

SECTION 8. Resignations. Any officer may resign at any time by giving written notice of such resignation to the Board of Directors, the Chairman of the Board, the Vice Chairman, the President or the Secretary. Unless otherwise specified therein, such resignation shall take effect upon written receipt thereof by the Board of Directors or by such officer.

ARTICLE VI.

CAPITAL STOCK

SECTION 1. Stock Certificates. Every stockholder shall be entitled to have a certificate certifying the number of shares owned by him in the Corporation. Stock certificates shall be signed by the Chairman of the Board, the Vice Chairman of the Board, the President or a Vice President and by the Treasurer or an Assistant Treasurer, or the Secretary or an Assistant Secretary, and shall be sealed with the seal of the Corporation. Such seal may be facsimile, engraved or printed. Where such certificate is signed (1) by a transfer agent or an assistant transfer agent, other than the Corporation itself, or (2) by a transfer clerk acting on behalf of the Corporation and a registrar, the signature of the Chairman of the Board, the Vice Chairman of the Board, the President, Vice President, Treasurer, Secretary, Assistant Treasurer or Assistant Secretary may be facsimile. In case any officer or officers who shall have signed, or whose facsimile signature or signatures shall have been used on any such certificate or certificates shall cease to be such officer or officers of the Corporation, whether because of death, resignation or otherwise, before such certificate or certificates shall have been delivered by the Corporation, such certificate or certificates may nevertheless be adopted by the Corporation and be issued and delivered as though the person or persons who signed such certificate or certificates or whose facsimile signature or signatures shall have been used thereon had not ceased to be such officer or officers of the Corporation.

SECTION 2. Transfer of Shares. The shares of stock of the Corporation shall be transferred on the books of the Corporation by the holder thereof in person or by his attorney lawfully constituted, upon surrender for cancellation of certificates for the same number of shares, with an assignment and power of transfer endorsed thereon or attached thereto, duly executed, with such proof or guaranty of the authenticity of the signature as the Corporation or its agents may reasonably require. The Board of Directors may appoint one or more transfer agents and registrars of the stock of the Corporation. The Corporation shall be entitled to treat the holder of record of any share or shares of stock as the holder in fact and legal owner thereof and accordingly shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of any other person, whether or not it shall have express or other notice thereof, save as expressly provided by law.

SECTION 3. Lost Certificates. The Board of Directors may direct a new certificate or certificates to be issued in place of any certificate or certificates theretofore issued by the Corporation alleged to have been lost, mutilated or destroyed, and may require the making of an affidavit of that fact by the person claiming the certificate of stock to be lost or destroyed. When authorizing such issue of a new certificate or certificates, the Board of Directors may, in its discretion and as a condition precedent to the issuance thereof, require the owner of such lost or destroyed certificate or certificates, or his legal representative, to give the Corporation a bond in such sum as it may direct as indemnity against any claim that may be made against the Corporation with respect to the certificate alleged to have been lost, mutilated or destroyed.

ARTICLE VII.

CHECKS, NOTES, ETC.

SECTION 1. Execution of Checks, Notes, etc. All checks and drafts on the Corporation's bank accounts and all bills of exchange, promissory notes, acceptances, obligations and other instruments for the payment of money, shall be signed by such officer or officers, person or persons, as shall be thereunto authorized by the Board of Directors or as may be designated in a manner authorized by the Board of Directors.

SECTION 2. Execution of Contracts, Assignments, etc. All contracts, agreements, endorsements, assignments, transfers, stock powers, and other instruments shall be signed by such officer or officers, person or persons, as shall be thereunto authorized by the Board of Directors or as may be designated in a manner authorized by the Board of Directors.

SECTION 3. Voting of Stock and Execution of Proxies. The Chairman of the Board, the Vice Chairman, the President or any Vice President or any other officer of the Corporation designated by the Board of Directors, the Chairman of the Board, or the President shall be authorized to attend any meeting of the stockholders of any other corporation in which the Corporation is an owner of stock and to vote such stock upon all matters coming before such meeting. The Chairman of the Board, the Vice Chairman, the President or any Vice President may sign and issue proxies to vote shares of stock of other corporations owned by the Corporation.

ARTICLE VIII.

SEAL

The seal of the Corporation shall show the year of its incorporation and shall be in such form as the Board of Directors shall prescribe. The seal on any corporate obligation for the payment of money may be a facsimile, engraved or printed.

ARTICLE IX.

INDEMNIFICATION

SECTION 1. Mandatory Indemnification - Third Party Actions. The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding ("Action"), whether civil, criminal, administrative or investigative (other than an Action by or in the right of the Corporation) by reason of the fact that such person is or was a director, officer or employee of the Corporation, or is or was serving at the request of the Corporation as a director, officer or employee of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgements, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such Action if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation and, with respect to any criminal Action, had no reasonable cause to believe the conduct was unlawful. The termination of any Action by judgement, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which such person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal Action or proceeding, had reasonable cause to believe that the conduct was unlawful.

SECTION 2. Mandatory Indemnification - Derivative Actions. The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any Action by or in the right of the Corporation to procure a judgement in its favor by reason of the fact that such person is or was a director, officer, or employee of the Corporation or is or was serving at the request of the Corporation as a director, officer or employee of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys' fees and amounts paid in settlement not exceeding the estimated expense of litigating the Action to a conclusion) actually and reasonably incurred by such person in connection with the defense or settlement of such Action if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interest of the Corporation, except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of any person's duty to the Corporation unless and only to the extent that the court in which such Action was brought shall determine upon application that, despite the adjudication of liability but in view of all circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which such court shall deem proper.

SECTION 3. Mandatory Indemnification - Successful Party. To the extent that a director, officer, employee or agent of the Corporation, or any person who is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, has been successful on the merits or otherwise in the defense of any such Action, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.

SECTION 4. Permissive Indemnification. Notwithstanding any limitations of the indemnification provided by Sections 1 and 2, the Corporation may, to the fullest extent authorized by law, indemnify any person who is or was a party or is threatened to be made a party to any Action by reason of the fact that such person is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against all or part of any expenses (including attorneys' fees), judgements, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such Action, if it shall be determined in accordance with the applicable procedures set forth in Section 5 that such person is fairly and reasonably entitled to such indemnification.

SECTION 5. Procedure. Any indemnification under Sections 1, 2 or 4 (unless ordered by a court) shall be made by the Corporation only as authorized by the Board of Directors (which may so act whether or not there is a sufficient number of disinterested directors to constitute a quorum) in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances because such person has met the applicable standards of conduct set forth in Sections 1 and 2 or is entitled to indemnification under Section 4. Such determination, in the case of indemnification made pursuant to Section 1 or Section 2 shall be made (1) by the Board of Directors by a majority vote of a quorum, as defined in the Certificate of Incorporation or the By-Laws, consisting of directors who are not or were not parties to any pending or completed Action giving rise to the proposed indemnification, or (2) if such a quorum is not obtainable or, even if obtainable, a quorum of disinterested directors so directs, by independent legal counsel (who may be, but need not be, outside counsel to the Corporation) in a written opinion, or (3) by the shareholder(s) of the Corporation. Such determination, in the case of indemnification made pursuant to Section 4, shall be made by the Board of Directors by a majority vote of a quorum, as defined in the Certificate of Incorporation or the By-Laws, consisting of directors who are not or were not parties to any pending or completed Action giving rise to the proposed indemnification or by the shareholders.

SECTION 6. Advance Payments. Expenses (including attorneys' fees) incurred or reasonably expected to be incurred by a director, officer or employee of the Corporation in defending against any claim asserted or threatened against such person in such capacity or arising out of such person's status as such shall be paid by the Corporation in advance of the final determination thereof, if authorized by the Board of Directors (which may so act whether or not there is a sufficient number of disinterested directors to constitute a quorum) upon receipt by the Corporation of his written request therefor and such person's written promise to repay such amount if it shall ultimately be determined that such person is not entitled to be indemnified by the Corporation as authorized or required in this article.

SECTION 7. Provisions Not Exclusive. The indemnification provided by this Article shall not be deemed exclusive of any other rights to which any person seeking indemnification may be entitled under any law, Bylaw, agreement, vote of shareholders or disinterested directors or otherwise, and shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

SECTION 8. Miscellaneous. For purposes of this Article, and without any limitation whatsoever upon the generality thereof, the term "fines" as used herein shall be deemed to include (i) penalties imposed by the Nuclear Regulatory Commission (the "NRC") pursuant to Section 206 of the Energy Reorganization Act of 1974 and Part 21 of NRC regulations thereunder, as they may be amended from time to time, and any other penalties, whether similar or dissimilar, imposed by the NRC, and (ii) excise taxes assessed with respect to an employee benefit plan pursuant to the Employee Retirement Income Security Act of 1974, as it may be amended from time to time, ("ERISA"). For purposes of determining the entitlement of a director, officer or employee of the Corporation to indemnification under this Article, the term "other enterprise" shall be deemed to include an employee benefit plan governed by ERISA. The Corporation shall be deemed to have requested such person to serve as a director, officer or employee of such a plan where such person is a trustee of the plan or where the performance by such person of his duties to the Corporation also imposes duties on, or otherwise involves services by, such person to such plan or its participants or beneficiaries, and action taken or permitted by such person in the performance of his duties with respect to such employee benefit plan for which is a purpose reasonably believed by him to be in the interest of the participants and beneficiaries of the plan, shall be deemed to meet the standard of conduct required for indemnification hereunder. Any act, omission, step or conduct taken or had in good faith which is required, authorized or approved by any order or orders issued pursuant to the Public Utility Holding Company Act of 1935 or any other federal statute or any state statute or municipal ordinance shall be deemed to meet the standard of conduct required for indemnification hereunder.

ARTICLE X.

CONFLICTS

In the event that any provisions of these By-Laws conflict with the Articles of Incorporation or with state or federal statutes, the Articles of Incorporation or such statutes shall take precedence over such provisions of these By-Laws.

ARTICLE XI.

AMENDMENTS

Subject to the provisions of applicable law and of the Articles of Incorporation, these By-Laws may be altered, amended or repealed and new By-Laws adopted either by the stockholders or by the Board of Directors.

Effective November 26, 1999

Exhibit 3(ii)d

**BY-LAWS
OF
ENERGY GULF STATES, INC.**

ARTICLE I.

OFFICES

The principal business office of the Corporation shall be in Beaumont, Texas, or in such other location as designated by the Board of Directors. The Corporation may also have offices at such other places as the Board of Directors may from time to time designate or the business of the Corporation may require.

ARTICLE II.

MEETINGS OF STOCKHOLDERS

SECTION 1. Place of Meetings. Meetings of stockholders, whether annual or special, shall be held at a location fixed by the Board of Directors or by the stockholders.

SECTION 2. Annual Meeting. The annual meeting of stockholders for the election of Directors and the transaction of such other business as may properly come before the meeting shall be held on such date and at such time of day as shall have been fixed by the Board of Directors or by the stockholders.

SECTION 3. Special Meetings. Special meetings of the stockholders may be held at any time upon the call of (i) a majority of the entire Board of Directors, (ii) the Chairman of the Board, (iii) the person, if any, designated by the Board of Directors as the Chief Executive Officer, or (iv) the holders of not less than a majority of the outstanding stock entitled to vote at the special meeting.

SECTION 4. Organization. The Chief Executive Officer or, in his absence, a person appointed by him or, in default of such appointment, the officer next in seniority of position (as determined by the Secretary or, in the Secretary's absence, the Assistant Secretary), shall call meetings of the stockholders to order and shall act as chairman thereof. The Secretary of the Corporation, if present, shall act as secretary of all meetings of stockholders, and, in his absence, the presiding officer may appoint a secretary.

SECTION 5. Action by Consent. Any action required or permitted to be taken at any meeting of the stockholders, whether annual or special, may be taken without a meeting, if prior to such action a written consent thereto is signed by a sufficient percentage of shareholders to satisfy the minimum requirements of state law.

ARTICLE III.

DIRECTORS

SECTION 1. General Powers. The property, affairs and business of the Corporation shall be managed by the Board of Directors.

SECTION 2. Term of Office. The term of office of each Director shall be until the next annual meeting of stockholders and until his or her successor is duly elected and qualified or until the earlier death, resignation or removal of such Director.

SECTION 3. Number of Directors. The number of Directors which shall constitute the whole Board of Directors shall be not more than fifteen (15) nor less than three (3), with the exact number at any given time to be fixed by a resolution of the Board of Directors or by the stockholders.

SECTION 4. Meetings; Notice. Meetings of the Board of Directors shall be held at such place as may from time to time be fixed by resolution of the Board or by the Chairman of the Board, the Vice Chairman, the President or a Vice President and as may be specified in the notice or waiver of notice of any meeting. Notice may be written, electronic or oral and may be given at any time prior to the meeting. Notice may be waived by a Director either prior to or following a meeting. Directors present at a meeting shall be deemed to have waived notice thereof. Meetings of the Board of Directors, or any committee thereof, may be held by means of a video conference, a telephone conference or similar communications equipment.

SECTION 5. Quorum. A majority of the Board of Directors shall be necessary to constitute a quorum for the transaction of business, and the act of a majority of the Directors present at a meeting at which a quorum is present shall be the act of the Board of Directors. If a quorum is

present when the meeting is convened, the Directors present may continue to conduct the business of the meeting, taking action by vote of a majority of a quorum as fixed above, until adjournment, notwithstanding the withdrawal of enough Directors to leave less than a quorum as fixed above, or the refusal of any Director present to vote.

SECTION 6. Action By Consent. Any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting if, prior to such action, a written consent thereto is signed by all members of the Board of Directors or of such committee, as the case may be, and such written consent is filed with the minutes of proceedings of the Board of Directors or such committee, as the case may be.

SECTION 7. Advisory Directors. The stockholders or the Board of Directors may elect one or more Advisory Directors of the Corporation. Advisory Directors may be called upon individually or as a group by the Board of Directors or Officers of the Corporation to give advice and counsel to the Corporation. Advisory Directors shall receive from the Corporation such remuneration as shall be fixed by the Board of Directors. Terms of Advisory Directors shall expire on the day of the Annual Meeting of the Corporation, provided, however, that Advisory Directors shall serve at the pleasure of the Board of Directors and may be removed at any time with or without cause by a vote of the Board of Directors. For the purpose of Article IX (Indemnification) of these By-Laws, Advisory Directors of the Corporation shall enjoy the same rights and privileges as Directors of the Corporation.

SECTION 8. Vacancies; Removal. To the extent allowed under Texas law, vacancies and newly created directorships resulting from any increase in the authorized number of Directors may be filled by the stockholders or by the Board of Directors, and the Directors so chosen shall hold office until the next annual election. The stockholders may by majority vote remove any Director from his directorship, whether cause shall be assigned for such removal or not.

ARTICLE IV.

EXECUTIVE COMMITTEE AND OTHER COMMITTEES

SECTION 1. Executive Committee. The Board of Directors may, by resolution passed by a majority of the whole Board of Directors, establish an Executive Committee of not less than two or more than five members, to serve at the pleasure of the Board of Directors, which Executive Committee shall consist of such directors as the Board of Directors may from time to time designate.

SECTION 2. Procedure. The Executive Committee shall meet at the call of any of the members of the Executive Committee. A majority of the members shall be necessary to constitute a quorum and action shall be taken by a majority vote of those present.

SECTION 3. Powers and Reports. During the intervals between the meetings of the Board of Directors, the Executive Committee shall possess and may exercise, to the full extent authorized by law, all the powers of the Board of Directors in the management and direction of the business and affairs of the Corporation. The taking of an action by the Executive Committee shall be conclusive evidence that the Board of Directors was not in session when such action was taken. The Executive Committee shall keep regular minutes of its proceedings and all action by the Executive Committee shall be reported to the Board of Directors at its meeting next following the meeting of the Executive Committee and shall be subject to revision or alteration by the Board of Directors; provided, that no rights of third parties shall be affected by such revision or alteration.

SECTION 4. Other Committees. From time to time the Board of Directors, by the affirmative vote of a majority of the whole Board of Directors, may appoint other committees for any purpose or purposes, and such committees shall have such powers as shall be conferred by the resolution of appointment; provided, however, that no such committee shall be authorized to exercise the powers of the Board of Directors. The quorum of any such committee so appointed shall be a majority of the membership of that committee.

ARTICLE V.

OFFICERS

SECTION 1. Required and Discretionary Officers. The Board of Directors shall elect individuals to occupy at least three executive offices: President, Secretary and Treasurer. In its discretion, the Board of Directors may elect individuals to occupy other executive offices, including Chief Executive Officer, Chief Operating Officer, Vice President and such other executive offices as the Board shall designate. Officers shall be elected annually and shall hold office until their respective successors shall have been duly elected and qualified, or until such officer shall have died or resigned or shall have been removed by majority vote of the whole Board of Directors. To the extent permitted by law, individuals may occupy more than one office.

SECTION 2. President. The President shall perform duties incident to the office of the president of a corporation and such other duties as from time to time may be assigned to him or her by the Board of Directors, by the Executive Committee or, if the Board has elected a Chief Executive Officer and if the Chief Executive Officer is not the President, by the Chief Executive Officer.

SECTION 3. Vice Presidents. Each Vice President shall have such powers and shall perform such duties as from time to time may be conferred upon or assigned to him or her by the Board of Directors, the Executive Committee, the President or the Chief Executive Officer.

SECTION 4. Secretary. The Secretary shall keep the minutes of all meetings of the stockholders and of the Board of Directors in books provided for the purpose; shall see that all notices are duly given in accordance with the provisions of law and these By- Laws; shall be custodian of the records and of the corporate seal of the Corporation; shall see that the corporate seal is affixed to all documents the execution of which under the seal is duly authorized, and, when the seal is so affixed, he may attest the same; and, in general, shall perform all duties incident to the office of the secretary of a corporation, and such other duties as from time to time may be assigned to the Secretary by the Chief Executive Officer, the Chairman of the Board, the Vice Chairman, the President, the Board of Directors or the Executive Committee. The Secretary shall also keep, or cause to be kept, a stock book, containing the names, alphabetically arranged, of all persons who are stockholders of the Corporation, showing their addresses of record, the number of shares held by them respectively, and the date when they respectively became the owners of stock of the Corporation.

SECTION 5. Treasurer. The Treasurer shall have charge of and be responsible for all funds, securities, receipts and disbursements of the Corporation, and shall deposit, or cause to be deposited, in the name of the Corporation, all moneys or other valuable effects in such banks, trust companies or other depositories as shall, from time to time, be selected by the Treasurer, by an assistant Treasurer or by any other individual designated by the Board of Directors. The Treasurer may endorse for collection on behalf of the Corporation, checks, notes and other obligations; may sign receipts and vouchers for payments made to the Corporation singly or jointly with another person as the Board of Directors may authorize; may sign checks of the Corporation and pay out and dispose of the proceeds as the Board of Directors may authorize; shall render or cause to be rendered to the Chairman of the Board, the President and the Board of Directors, whenever requested, an account of the financial condition of the Corporation; and, in general, shall perform all the duties incident to the office of a treasurer of a corporation, and such other duties as from time to time may be assigned to him by the Chairman of the Board, the Vice Chairman, the President, the Board of Directors or the Executive Committee.

SECTION 6. Subordinate Officers. The Board of Directors may appoint such assistant secretaries, assistant treasurers and other officers as it may deem desirable. Each such officer shall hold office for such period, have such authority and perform such duties as the Board of Directors may prescribe. The Board of Directors may, from time to time, authorize any officer to appoint and remove such officers and to prescribe the powers and duties thereof.

SECTION 7. Vacancies; Absences. Any vacancy in any of the above offices may be filled by the Board of Directors at any regular or special meeting. Except when the law requires the act of a particular officer, the Board of Directors or the Executive Committee, whenever necessary, may, in the absence of any officer, designate any other officer or properly qualified employee, to perform the duties of the absent officer for the time being, and such designated officer or employee shall have, when so acting, all the powers herein given to such absent officer.

SECTION 8. Resignations. Any officer may resign at any time by giving written notice of such resignation to the Board of Directors, the Chairman of the Board, the Vice Chairman, the President or the Secretary. Unless otherwise specified therein, such resignation shall take effect upon written receipt thereof by the Board of Directors or by such officer.

ARTICLE VI.

CAPITAL STOCK

SECTION 1. Stock Certificates. Every stockholder shall be entitled to have a certificate certifying the number of shares owned by him in the Corporation. Stock certificates shall be signed by the Chairman of the Board, the Vice Chairman of the Board, the President or a Vice President and by the Treasurer or an Assistant Treasurer, or the Secretary or an Assistant Secretary, and shall be sealed with the seal of the Corporation. Such seal may be facsimile, engraved or printed. Where such certificate is signed (1) by a transfer agent or an assistant transfer agent, other than the Corporation itself, or (2) by a transfer clerk acting on behalf of the Corporation and a registrar, the signature of the Chairman of the Board, the Vice Chairman of the Board, the President, Vice President, Treasurer, Secretary, Assistant Treasurer or Assistant Secretary may be facsimile. In case any officer or officers who shall have signed, or whose facsimile signature or signatures shall have been used on any such certificate or certificates shall cease to be such officer or officers of the Corporation, whether because of death, resignation or otherwise, before such certificate or certificates shall have been delivered by the Corporation, such certificate or certificates may nevertheless be adopted by the Corporation and be issued and delivered as though the person or persons who signed such certificate or certificates or whose facsimile signature or signatures shall have been used thereon had not ceased to be such officer or officers of the Corporation.

SECTION 2. Transfer of Shares. The shares of stock of the Corporation shall be transferred on the books of the Corporation by the holder thereof in person or by his attorney lawfully constituted, upon surrender for cancellation of certificates for the same number of shares, with an assignment and power of transfer endorsed thereon or attached thereto, duly executed, with such proof or guaranty of the authenticity of the signature as the Corporation or its agents may reasonably require. The Board of Directors may appoint one or more transfer agents and registrars of the stock of the Corporation. The Corporation shall be entitled to treat the holder of record of any share or shares of stock as the holder in fact and legal owner thereof and accordingly shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of any other person, whether or not it shall have express or other notice thereof, save as expressly provided by law.

SECTION 3. Lost Certificates. The Board of Directors may direct a new certificate or certificates to be issued in place of any certificate or certificates theretofore issued by the Corporation alleged to have been lost, mutilated or destroyed, and may require the making of an affidavit of that fact by the person claiming the certificate of stock to be lost or destroyed. When authorizing such issue of a new certificate or certificates, the Board of Directors may, in its discretion and as a condition precedent to the issuance thereof, require the owner of such lost or destroyed certificate or certificates, or his legal representative, to give the Corporation a bond in such sum as it may direct as indemnity against any claim that may be made against the Corporation with respect to the certificate alleged to have been lost, mutilated or destroyed.

ARTICLE VII.

CHECKS, NOTES, ETC.

SECTION 1. Execution of Checks, Notes, etc. All checks and drafts on the Corporation's bank accounts and all bills of exchange, promissory notes, acceptances, obligations and other instruments for the payment of money, shall be signed by such officer or officers, person or persons, as shall be thereunto authorized by the Board of Directors or as may be designated in a manner authorized by the Board of Directors.

SECTION 2. Execution of Contracts, Assignments, etc. All contracts, agreements, endorsements, assignments, transfers, stock powers, and other instruments shall be signed by such officer or officers, person or persons, as shall be thereunto authorized by the Board of Directors or as may be designated in a manner authorized by the Board of Directors.

SECTION 3. Voting of Stock and Execution of Proxies. The Chairman of the Board, the Vice Chairman, the President or any Vice President or any other officer of the Corporation designated by the Board of Directors, the Chairman of the Board, or the President shall be authorized to attend any meeting of the stockholders of any other corporation in which the Corporation is an owner of stock and to vote such stock upon all matters coming before such meeting. The Chairman of the Board, the Vice Chairman, the President or any Vice President may sign and issue proxies to vote shares of stock of other corporations owned by the Corporation.

ARTICLE VIII.

SEAL

The seal of the Corporation shall show the year of its incorporation and shall be in such form as the Board of Directors shall prescribe. The seal on any corporate obligation for the payment of money may be a facsimile, engraved or printed.

ARTICLE IX.

INDEMNIFICATION

SECTION 1. Mandatory Indemnification - Third Party Actions. The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding ("Action"), whether civil, criminal, administrative or investigative (other than an Action by or in the right of the Corporation) by reason of the fact that such person is or was a director, officer or employee of the Corporation, or is or was serving at the request of the Corporation as a director, officer or employee of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgements, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such Action if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation and, with respect to any criminal Action, had no reasonable cause to believe the conduct was unlawful. The termination of any Action by judgement, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which such person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal Action or proceeding, had reasonable cause to believe that the conduct was unlawful.

SECTION 2. Mandatory Indemnification - Derivative Actions. The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any Action by or in the right of the Corporation to procure a judgement in its favor by reason of the fact that such person is or was a director, officer, or employee of the Corporation or is or was serving at the request of the Corporation as a director, officer or employee of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys' fees and amounts paid in settlement not exceeding the estimated expense of litigating the Action to a conclusion) actually and reasonably incurred by such person in connection with the defense or settlement of such Action if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interest of the Corporation, except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of any person's duty to the Corporation unless and only to the extent that the court in which such Action was brought shall determine upon application that, despite the adjudication of liability but in view of all circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which such court shall deem proper.

SECTION 3. Mandatory Indemnification - Successful Party. To the extent that a director, officer, employee or agent of the Corporation, or any person who is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, has been successful on the merits or otherwise in the defense of any such Action, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.

SECTION 4. Permissive Indemnification. Notwithstanding any limitations of the indemnification provided by Sections 1 and 2, the Corporation may, to the fullest extent authorized by law, indemnify any person who is or was a party or is threatened to be made a party to any Action by reason of the fact that such person is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against all or part of any expenses (including attorneys' fees), judgements, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such Action, if it shall be determined in accordance with the applicable procedures set forth in Section 5 that such person is fairly and reasonably entitled to such indemnification.

SECTION 5. Procedure. Any indemnification under Sections 1, 2 or 4 (unless ordered by a court) shall be made by the Corporation only as authorized by the Board of Directors (which may so act whether or not there is a sufficient number of disinterested directors to constitute a quorum) in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances because such person has met the applicable standards of conduct set forth in Sections 1 and 2 or is entitled to indemnification under Section 4. Such determination, in the case of indemnification made pursuant to Section 1 or Section 2 shall be made (1) by the Board of Directors by a majority vote of a quorum, as defined in the Certificate of Incorporation or the By-Laws, consisting of directors who are not or were not parties to any pending or completed Action giving rise to the proposed indemnification, or (2) if such a quorum is not obtainable or, even if obtainable, a quorum of disinterested directors so directs, by independent legal counsel (who may be, but need not be, outside counsel to the Corporation) in a written opinion, or (3) by the shareholder(s) of the Corporation. Such determination, in the case of indemnification made pursuant to Section 4, shall be made by the Board of Directors by a majority vote of a quorum, as defined in the Certificate of Incorporation or the By-Laws, consisting of directors who are not or were not parties to any pending or completed Action giving rise to the proposed indemnification or by the shareholders.

SECTION 6. Advance Payments. Expenses (including attorneys' fees) incurred or reasonably expected to be incurred by a director, officer or employee of the Corporation in defending against any claim asserted or threatened against such person in such capacity or arising out of such person's status as such shall be paid by the Corporation in advance of the final determination thereof, if authorized by the Board of Directors (which may so act whether or not there is a sufficient number of disinterested directors to constitute a quorum) upon receipt by the Corporation of his written request therefor and such person's written promise to repay such amount if it shall ultimately be determined that such person is not entitled to be indemnified by the Corporation as authorized or required in this article.

SECTION 7. Provisions Not Exclusive. The indemnification provided by this Article shall not be deemed exclusive of any other rights to which any person seeking indemnification may be entitled under any law, Bylaw, agreement, vote of shareholders or disinterested directors or otherwise, and shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

SECTION 8. Miscellaneous. For purposes of this Article, and without any limitation whatsoever upon the generality thereof, the term "fines" as used herein shall be deemed to include (i) penalties imposed by the Nuclear Regulatory Commission (the "NRC") pursuant to Section 206 of the Energy Reorganization Act of 1974 and Part 21 of NRC regulations thereunder, as they may be amended from time to time, and any other penalties, whether similar or dissimilar, imposed by the NRC, and (ii) excise taxes assessed with respect to an employee benefit plan pursuant to the Employee Retirement Income Security Act of 1974, as it may be amended from time to time, ("ERISA"). For purposes of determining the entitlement of a director, officer or employee of the Corporation to indemnification under this Article, the term "other enterprise" shall be deemed to include an employee benefit plan governed by ERISA. The Corporation shall be deemed to have requested such person to serve as a director, officer or employee of such a plan where such person is a trustee of the plan or where the performance by such person of his duties to the Corporation also imposes duties on, or otherwise involves services by, such person to such plan or its participants or beneficiaries, and action taken or permitted by such person in the performance of his duties with respect to such employee benefit plan for which is a purpose reasonably believed by him to be in the interest of the participants and beneficiaries of the plan, shall be deemed to meet the standard of conduct required for indemnification hereunder. Any act, omission, step or conduct taken or had in good faith which is required, authorized or approved by any order or orders issued pursuant to the Public Utility Holding Company Act of 1935 or any other federal statute or any state statute or municipal ordinance shall be deemed to meet the standard of conduct required for indemnification hereunder.

ARTICLE X.

CONFLICTS

In the event that any provisions of these By-Laws conflict with the Articles of Incorporation or with state or federal statutes, the Articles of Incorporation or such statutes shall take precedence over such provisions of these By-Laws.

ARTICLE XI.

AMENDMENTS

Subject to the provisions of applicable law and of the Articles of Incorporation, these By-Laws may be altered, amended or repealed and new By-Laws adopted either by the stockholders or by the Board of Directors.

Effective November 26, 1999

Exhibit 3(ii)f

**BY-LAWS
OF
ENTERGY MISSISSIPPI, INC.**

ARTICLE I.

OFFICES

The principal business office of the Corporation shall be in Jackson, Mississippi, or in such other location as designated by the Board of Directors. The Corporation may also have offices at such other places as the Board of Directors may from time to time designate or the business of the Corporation may require.

ARTICLE II.

MEETINGS OF STOCKHOLDERS

SECTION 1. Place of Meetings. Meetings of stockholders, whether annual or special, shall be held at a location fixed by the Board of Directors or by the stockholders.

SECTION 2. Annual Meeting. The annual meeting of stockholders for the election of Directors and the transaction of such other business as may properly come before the meeting shall be held on such date and at such time of day as shall have been fixed by the Board of Directors or by the stockholders.

SECTION 3. Special Meetings. Special meetings of the stockholders may be held at any time upon the call of (i) a majority of the entire Board of Directors, (ii) the Chairman of the Board, (iii) the person, if any, designated by the Board of Directors as the Chief Executive Officer, or (iv) the holders of not less than a majority of the outstanding stock entitled to vote at the special meeting.

SECTION 4. Organization. The Chief Executive Officer or, in his absence, a person appointed by him or, in default of such appointment, the officer next in seniority of position (as determined by the Secretary or, in the Secretary's absence, the Assistant Secretary), shall call meetings of the stockholders to order and shall act as chairman thereof. The Secretary of the Corporation, if present, shall act as secretary of all meetings of stockholders, and, in his absence, the presiding officer may appoint a secretary.

SECTION 5. Action by Consent. Any action required or permitted to be taken at any meeting of the stockholders, whether annual or special, may be taken without a meeting, if prior to such action a written consent thereto is signed by a sufficient percentage of shareholders to satisfy the minimum requirements of state law.

ARTICLE III.

DIRECTORS

SECTION 1. General Powers. The property, affairs and business of the Corporation shall be managed by the Board of Directors.

SECTION 2. Term of Office. The term of office of each Director shall be until the next annual meeting of stockholders and until his or her successor is duly elected and qualified or until the earlier death, resignation or removal of such Director.

SECTION 3. Number of Directors. The number of Directors which shall constitute the whole Board of Directors shall be not more than fifteen (15) nor less than three (3), with the exact number at any given time to be fixed by a resolution of the Board of Directors or by the stockholders.

SECTION 4. Meetings; Notice. Meetings of the Board of Directors shall be held at such place as may from time to time be fixed by resolution of the Board or by the Chairman of the Board, the Vice Chairman, the President or a Vice President and as may be specified in the notice or waiver of notice of any meeting. Notice may be written, electronic or oral and may be given at any time prior to the meeting. Notice may be waived by a Director either prior to or following a meeting. Directors present at a meeting shall be deemed to have waived notice thereof. Meetings of the Board of Directors, or any committee thereof, may be held by means of a video conference, a telephone conference or similar communications equipment.

SECTION 5. Quorum. A majority of the Board of Directors shall be necessary to constitute a quorum for the transaction of business, and the act of a majority of the Directors present at a meeting at which a quorum is present shall be the act of the Board of Directors. If a quorum is

present when the meeting is convened, the Directors present may continue to conduct the business of the meeting, taking action by vote of a majority of a quorum as fixed above, until adjournment, notwithstanding the withdrawal of enough Directors to leave less than a quorum as fixed above, or the refusal of any Director present to vote.

SECTION 6. Action By Consent. Any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting if, prior to such action, a written consent thereto is signed by all members of the Board of Directors or of such committee, as the case may be, and such written consent is filed with the minutes of proceedings of the Board of Directors or such committee, as the case may be.

SECTION 7. Advisory Directors. The stockholders or the Board of Directors may elect one or more Advisory Directors of the Corporation. Advisory Directors may be called upon individually or as a group by the Board of Directors or Officers of the Corporation to give advice and counsel to the Corporation. Advisory Directors shall receive from the Corporation such remuneration as shall be fixed by the Board of Directors. Terms of Advisory Directors shall expire on the day of the Annual Meeting of the Corporation, provided, however, that Advisory Directors shall serve at the pleasure of the Board of Directors and may be removed at any time with or without cause by a vote of the Board of Directors. For the purpose of Article IX (Indemnification) of these By-Laws, Advisory Directors of the Corporation shall enjoy the same rights and privileges as Directors of the Corporation.

SECTION 8. Vacancies; Removal. Vacancies and newly created directorships resulting from any increase in the authorized number of Directors may be filled by the stockholders or by the Board of Directors, and the Directors so chosen shall hold office until the next annual election. The stockholders may by majority vote remove any Director from his directorship, whether cause shall be assigned for such removal or not.

ARTICLE IV.

EXECUTIVE COMMITTEE AND OTHER COMMITTEES

SECTION 1. Executive Committee. The Board of Directors may, by resolution passed by a majority of the whole Board of Directors, establish an Executive Committee of not less than two or more than five members, to serve at the pleasure of the Board of Directors, which Executive Committee shall consist of such directors as the Board of Directors may from time to time designate.

SECTION 2. Procedure. The Executive Committee shall meet at the call of any of the members of the Executive Committee. A majority of the members shall be necessary to constitute a quorum and action shall be taken by a majority vote of those present.

SECTION 3. Powers and Reports. During the intervals between the meetings of the Board of Directors, the Executive Committee shall possess and may exercise, to the full extent authorized by law, all the powers of the Board of Directors in the management and direction of the business and affairs of the Corporation. The taking of an action by the Executive Committee shall be conclusive evidence that the Board of Directors was not in session when such action was taken. The Executive Committee shall keep regular minutes of its proceedings and all action by the Executive Committee shall be reported to the Board of Directors at its meeting next following the meeting of the Executive Committee and shall be subject to revision or alteration by the Board of Directors; provided, that no rights of third parties shall be affected by such revision or alteration.

SECTION 4. Other Committees. From time to time the Board of Directors, by the affirmative vote of a majority of the whole Board of Directors, may appoint other committees for any purpose or purposes, and such committees shall have such powers as shall be conferred by the resolution of appointment; provided, however, that no such committee shall be authorized to exercise the powers of the Board of Directors. The quorum of any such committee so appointed shall be a majority of the membership of that committee.

ARTICLE V.

OFFICERS

SECTION 1. Required and Discretionary Officers. The Board of Directors shall elect individuals to occupy at least three executive offices: President, Secretary and Treasurer. In its discretion, the Board of Directors may elect individuals to occupy other executive offices, including Chief Executive Officer, Chief Operating Officer, Vice President and such other executive offices as the Board shall designate. Officers shall be elected annually and shall hold office until their respective successors shall have been duly elected and qualified, or until such officer shall have died or resigned or shall have been removed by majority vote of the whole Board of Directors. To the extent permitted by law, individuals may occupy more than one office.

SECTION 2. President. The President shall perform duties incident to the office of the president of a corporation and such other duties as from time to time may be assigned to him or her by the Board of Directors, by the Executive Committee or, if the Board has elected a Chief Executive Officer and if the Chief Executive Officer is not the President, by the Chief Executive Officer.

SECTION 3. Vice Presidents. Each Vice President shall have such powers and shall perform such duties as from time to time may be conferred upon or assigned to him or her by the Board of Directors, the Executive Committee, the President or the Chief Executive Officer.

SECTION 4. Secretary. The Secretary shall keep the minutes of all meetings of the stockholders and of the Board of Directors in books provided for the purpose; shall see that all notices are duly given in accordance with the provisions of law and these By- Laws; shall be custodian of the records and of the corporate seal of the Corporation; shall see that the corporate seal is affixed to all documents the execution of which under the seal is duly authorized, and, when the seal is so affixed, he may attest the same; and, in general, shall perform all duties incident to the office of the secretary of a corporation, and such other duties as from time to time may be assigned to the Secretary by the Chief Executive Officer, the Chairman of the Board, the Vice Chairman, the President, the Board of Directors or the Executive Committee. The Secretary shall also keep, or cause to be kept, a stock book, containing the names, alphabetically arranged, of all persons who are stockholders of the Corporation, showing their addresses of record, the number of shares held by them respectively, and the date when they respectively became the owners of stock of the Corporation.

SECTION 5. Treasurer. The Treasurer shall have charge of and be responsible for all funds, securities, receipts and disbursements of the Corporation, and shall deposit, or cause to be deposited, in the name of the Corporation, all moneys or other valuable effects in such banks, trust companies or other depositories as shall, from time to time, be selected by the Treasurer, by an assistant Treasurer or by any other individual designated by the Board of Directors. The Treasurer may endorse for collection on behalf of the Corporation, checks, notes and other obligations; may sign receipts and vouchers for payments made to the Corporation singly or jointly with another person as the Board of Directors may authorize; may sign checks of the Corporation and pay out and dispose of the proceeds as the Board of Directors may authorize; shall render or cause to be rendered to the Chairman of the Board, the President and the Board of Directors, whenever requested, an account of the financial condition of the Corporation; and, in general, shall perform all the duties incident to the office of a treasurer of a corporation, and such other duties as from time to time may be assigned to him by the Chairman of the Board, the Vice Chairman, the President, the Board of Directors or the Executive Committee.

SECTION 6. Subordinate Officers. The Board of Directors may appoint such assistant secretaries, assistant treasurers and other officers as it may deem desirable. Each such officer shall hold office for such period, have such authority and perform such duties as the Board of Directors may prescribe. The Board of Directors may, from time to time, authorize any officer to appoint and remove such officers and to prescribe the powers and duties thereof.

SECTION 7. Vacancies; Absences. Any vacancy in any of the above offices may be filled by the Board of Directors at any regular or special meeting. Except when the law requires the act of a particular officer, the Board of Directors or the Executive Committee, whenever necessary, may, in the absence of any officer, designate any other officer or properly qualified employee, to perform the duties of the absent officer for the time being, and such designated officer or employee shall have, when so acting, all the powers herein given to such absent officer.

SECTION 8. Resignations. Any officer may resign at any time by giving written notice of such resignation to the Board of Directors, the Chairman of the Board, the Vice Chairman, the President or the Secretary. Unless otherwise specified therein, such resignation shall take effect upon written receipt thereof by the Board of Directors or by such officer.

ARTICLE VI.

CAPITAL STOCK

SECTION 1. Stock Certificates. Every stockholder shall be entitled to have a certificate certifying the number of shares owned by him in the Corporation. Stock certificates shall be signed by the Chairman of the Board, the Vice Chairman of the Board, the President or a Vice President and by the Treasurer or an Assistant Treasurer, or the Secretary or an Assistant Secretary, and shall be sealed with the seal of the Corporation. Such seal may be facsimile, engraved or printed. Where such certificate is signed (1) by a transfer agent or an assistant transfer agent, other than the Corporation itself, or (2) by a transfer clerk acting on behalf of the Corporation and a registrar, the signature of the Chairman of the Board, the Vice Chairman of the Board, the President, Vice President, Treasurer, Secretary, Assistant Treasurer or Assistant Secretary may be facsimile. In case any officer or officers who shall have signed, or whose facsimile signature or signatures shall have been used on any such certificate or certificates shall cease to be such officer or officers of the Corporation, whether because of death, resignation or otherwise, before such certificate or certificates shall have been delivered by the Corporation, such certificate or certificates may nevertheless be adopted by the Corporation and be issued and delivered as though the person or persons who signed such certificate or certificates or whose facsimile signature or signatures shall have been used thereon had not ceased to be such officer or officers of the Corporation.

SECTION 2. Transfer of Shares. The shares of stock of the Corporation shall be transferred on the books of the Corporation by the holder thereof in person or by his attorney lawfully constituted, upon surrender for cancellation of certificates for the same number of shares, with an assignment and power of transfer endorsed thereon or attached thereto, duly executed, with such proof or guaranty of the authenticity of the signature as the Corporation or its agents may reasonably require. The Board of Directors may appoint one or more transfer agents and registrars of the stock of the Corporation. The Corporation shall be entitled to treat the holder of record of any share or shares of stock as the holder in fact and legal owner thereof and accordingly shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of any other person, whether or not it shall have express or other notice thereof, save as expressly provided by law.

SECTION 3. Lost Certificates. The Board of Directors may direct a new certificate or certificates to be issued in place of any certificate or certificates theretofore issued by the Corporation alleged to have been lost, mutilated or destroyed, and may require the making of an affidavit of that fact by the person claiming the certificate of stock to be lost or destroyed. When authorizing such issue of a new certificate or certificates, the Board of Directors may, in its discretion and as a condition precedent to the issuance thereof, require the owner of such lost or destroyed certificate or certificates, or his legal representative, to give the Corporation a bond in such sum as it may direct as indemnity against any claim that may be made against the Corporation with respect to the certificate alleged to have been lost, mutilated or destroyed.

ARTICLE VII.

CHECKS, NOTES, ETC.

SECTION 1. Execution of Checks, Notes, etc. All checks and drafts on the Corporation's bank accounts and all bills of exchange, promissory notes, acceptances, obligations and other instruments for the payment of money, shall be signed by such officer or officers, person or persons, as shall be thereunto authorized by the Board of Directors or as may be designated in a manner authorized by the Board of Directors.

SECTION 2. Execution of Contracts, Assignments, etc. All contracts, agreements, endorsements, assignments, transfers, stock powers, and other instruments shall be signed by such officer or officers, person or persons, as shall be thereunto authorized by the Board of Directors or as may be designated in a manner authorized by the Board of Directors.

SECTION 3. Voting of Stock and Execution of Proxies. The Chairman of the Board, the Vice Chairman, the President or any Vice President or any other officer of the Corporation designated by the Board of Directors, the Chairman of the Board, or the President shall be authorized to attend any meeting of the stockholders of any other corporation in which the Corporation is an owner of stock and to vote such stock upon all matters coming before such meeting. The Chairman of the Board, the Vice Chairman, the President or any Vice President may sign and issue proxies to vote shares of stock of other corporations owned by the Corporation.

ARTICLE VIII.

SEAL

The seal of the Corporation shall show the year of its incorporation and shall be in such form as the Board of Directors shall prescribe. The seal on any corporate obligation for the payment of money may be a facsimile, engraved or printed.

ARTICLE IX.

INDEMNIFICATION

SECTION 1. Mandatory Indemnification - Third Party Actions. The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding ("Action"), whether civil, criminal, administrative or investigative (other than an Action by or in the right of the Corporation) by reason of the fact that such person is or was a director, officer or employee of the Corporation, or is or was serving at the request of the Corporation as a director, officer or employee of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgements, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such Action if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation and, with respect to any criminal Action, had no reasonable cause to believe the conduct was unlawful. The termination of any Action by judgement, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which such person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal Action or proceeding, had reasonable cause to believe that the conduct was unlawful.

SECTION 2. Mandatory Indemnification - Derivative Actions. The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any Action by or in the right of the Corporation to procure a judgement in its favor by reason of the fact that such person is or was a director, officer, or employee of the Corporation or is or was serving at the request of the Corporation as a director, officer or employee of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys' fees and amounts paid in settlement not exceeding the estimated expense of litigating the Action to a conclusion) actually and reasonably incurred by such person in connection with the defense or settlement of such Action if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interest of the Corporation, except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of any person's duty to the Corporation unless and only to the extent that the court in which such Action was brought shall determine upon application that, despite the adjudication of liability but in view of all circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which such court shall deem proper.

SECTION 3. Mandatory Indemnification - Successful Party. To the extent that a director, officer, employee or agent of the Corporation, or any person who is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, has been successful on the merits or otherwise in the defense of any such Action, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.

SECTION 4. Permissive Indemnification. Notwithstanding any limitations of the indemnification provided by Sections 1 and 2, the Corporation may, to the fullest extent authorized by law, indemnify any person who is or was a party or is threatened to be made a party to any Action by reason of the fact that such person is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against all or part of any expenses (including attorneys' fees), judgements, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such Action, if it shall be determined in accordance with the applicable procedures set forth in Section 5 that such person is fairly and reasonably entitled to such indemnification.

SECTION 5. Procedure. Any indemnification under Sections 1, 2 or 4 (unless ordered by a court) shall be made by the Corporation only as authorized by the Board of Directors (which may so act whether or not there is a sufficient number of disinterested directors to constitute a quorum) in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances because such person has met the applicable standards of conduct set forth in Sections 1 and 2 or is entitled to indemnification under Section 4. Such determination, in the case of indemnification made pursuant to Section 1 or Section 2 shall be made (1) by the Board of Directors by a majority vote of a quorum, as defined in the Certificate of Incorporation or the By-Laws, consisting of directors who are not or were not parties to any pending or completed Action giving rise to the proposed indemnification, or (2) if such a quorum is not obtainable or, even if obtainable, a quorum of disinterested directors so directs, by independent legal counsel (who may be, but need not be, outside counsel to the Corporation) in a written opinion, or (3) by the shareholder(s) of the Corporation. Such determination, in the case of indemnification made pursuant to Section 4, shall be made by the Board of Directors by a majority vote of a quorum, as defined in the Certificate of Incorporation or the By-Laws, consisting of directors who are not or were not parties to any pending or completed Action giving rise to the proposed indemnification or by the shareholders.

SECTION 6. Advance Payments. Expenses (including attorneys' fees) incurred or reasonably expected to be incurred by a director, officer or employee of the Corporation in defending against any claim asserted or threatened against such person in such capacity or arising out of such person's status as such shall be paid by the Corporation in advance of the final determination thereof, if authorized by the Board of Directors (which may so act whether or not there is a sufficient number of disinterested directors to constitute a quorum) upon receipt by the Corporation of his written request therefor and such person's written promise to repay such amount if it shall ultimately be determined that such person is not entitled to be indemnified by the Corporation as authorized or required in this article.

SECTION 7. Provisions Not Exclusive. The indemnification provided by this Article shall not be deemed exclusive of any other rights to which any person seeking indemnification may be entitled under any law, Bylaw, agreement, vote of shareholders or disinterested directors or otherwise, and shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

SECTION 8. Miscellaneous. For purposes of this Article, and without any limitation whatsoever upon the generality thereof, the term "fines" as used herein shall be deemed to include (i) penalties imposed by the Nuclear Regulatory Commission (the "NRC") pursuant to Section 206 of the Energy Reorganization Act of 1974 and Part 21 of NRC regulations thereunder, as they may be amended from time to time, and any other penalties, whether similar or dissimilar, imposed by the NRC, and (ii) excise taxes assessed with respect to an employee benefit plan pursuant to the Employee Retirement Income Security Act of 1974, as it may be amended from time to time, ("ERISA"). For purposes of determining the entitlement of a director, officer or employee of the Corporation to indemnification under this Article, the term "other enterprise" shall be deemed to include an employee benefit plan governed by ERISA. The Corporation shall be deemed to have requested such person to serve as a director, officer or employee of such a plan where such person is a trustee of the plan or where the performance by such person of his duties to the Corporation also imposes duties on, or otherwise involves services by, such person to such plan or its participants or beneficiaries, and action taken or permitted by such person in the performance of his duties with respect to such employee benefit plan for which is a purpose reasonably believed by him to be in the interest of the participants and beneficiaries of the plan, shall be deemed to meet the standard of conduct required for indemnification hereunder. Any act, omission, step or conduct taken or had in good faith which is required, authorized or approved by any order or orders issued pursuant to the Public Utility Holding Company Act of 1935 or any other federal statute or any state statute or municipal ordinance shall be deemed to meet the standard of conduct required for indemnification hereunder.

ARTICLE X.

CONFLICTS

In the event that any provisions of these By-Laws conflict with the Articles of Incorporation or with state or federal statutes, the Articles of Incorporation or such statutes shall take precedence over such provisions of these By-Laws.

ARTICLE XI.

AMENDMENTS

Subject to the provisions of applicable law and of the Articles of Incorporation, these By-Laws may be altered, amended or repealed and new By-Laws adopted either by the stockholders or by the Board of Directors.

EMPLOYMENT AGREEMENT

THIS EMPLOYMENT AGREEMENT ("Agreement"), effective as of the 29th day of July, 1999, is entered into by and between Entergy Corporation ("Company"), a Delaware corporation, and Donald C. Hintz ("Employee"). This Agreement supersedes any prior agreements between Employee and Company, or any companies affiliated or related to Company, except as otherwise provided in this Agreement.

WHEREAS, Company is a "System Company," which for purposes of this Agreement shall mean Company and any other corporation 80% or more of whose stock (based on voting power or value) is owned directly or indirectly by Company and any partnership or trade or business which is 80% or more controlled, directly or indirectly, by Company; and

WHEREAS, Employee is currently employed by Entergy Services, Inc. and serves in the position of President of Company.

NOW THEREFORE, in consideration of the service Employee provides to Company, the employment of Employee by Entergy Services, Inc. or by any other System Company, the intended benefits to the System Companies and Employee as a result thereof, and the mutual covenants and agreements herein contained, Company and Employee agree as follows:

1. Service. Company and Employee agree that the employment contemplated by this Agreement refers to employment by Entergy Services, Inc. or by any other System Company. During the term of employment under this Agreement, Employee will serve in his current position of President of Company or in any other position in which he may be required to serve by the Board of Directors of Company ("Board") and will be responsible for performing all services associated with such position and performing other reasonable services assigned by the Board. Employee agrees to devote substantially all of his full working time, attention, and energy to the services required under this Agreement. Employee shall faithfully render his best efforts with respect to his services under this Agreement and to the promotion, advancement, and conduct of the business of the System Companies.

2. Term. Subject to Section 6 (Termination) of this Agreement, the term of Employee's employment under this Agreement begins on July 29, 1999 and ends on February 1, 2004.

3. Base Salary. Employee shall be paid a base salary of FORTY- FIVE THOUSAND EIGHT HUNDRED THIRTY-THREE AND NO/100 (\$45,833.00) DOLLARS per calendar month, or such greater monthly base salary amount as may be approved from time to time by the System Company then employing Employee, in its sole discretion, while Employee is employed by such System Company in accordance with and during the term of this Agreement (subject to all appropriate withholdings or other deductions required by law or by the System Company's established policies), such salary to be payable in accordance with the System Company's established payroll practices. If Employee should die during the term of this Agreement, the amount of any monthly base salary that was earned by Employee prior to his death but not yet paid to Employee shall be paid to Employee's estate.

4. Supplemental Benefits.

(a) Non-Statutory Stock Options. Subject to the terms and conditions of this Agreement, including but not limited to the forfeiture provisions set forth in Sections 6 and 7 of this Agreement, Employee is granted, under the Equity Ownership Plan of Entergy Corporation and Subsidiaries ("EOP") and as of the effective date of this Agreement, the right ("Options") to purchase TWO HUNDRED THOUSAND (200,000) shares of common stock of Entergy Corporation, \$0.01 par value per share ("Common Stock"), at an exercise price of \$30.4375 per share ("Exercise Price"). Notwithstanding any vesting provisions applicable with respect to other option grants under the EOP, as may be amended from time to time, the Options described under this Section 4(a) that are granted to Employee under the EOP shall vest at the rate of 20% on each Vesting Anniversary Date set forth below and shall not be accelerated in the event of Employee's termination of employment or retirement prior to February 1, 2004, except as the EOP may otherwise allow on account of Employee's permanent disability under a Company-sponsored long term disability plan. Except as otherwise provided in Section 7 (in the event of a Change of Control), if Employee's employment with all System Companies is terminated prior to February 1, 2004, for any reason (including, but not limited to, voluntary or involuntary termination, death, or retirement) or if for any other reason set forth in Section 6 or 7 of this Agreement a forfeiture of benefits occurs, any Options in which Employee has not yet vested at the time of such termination or breach shall be forfeited by Employee.

Number of Options Vested Date	on	Vesting Anniversary Date
40,000		February 1, 2000
40,000		February 1, 2001
40,000		February 1, 2002
40,000		February 1, 2003
40,000		February 1, 2004

The Options granted under the EOP and in accordance with the terms of this Section 4(a) shall have an exercise period that ends 10 years from the date of grant (i.e., July 29, 2009). An Option may not be exercised, however, before the Vesting Anniversary Date on which the Option vests. If Employee should die prior to exercising some or all of the Options in which he became vested prior to his death, such Options shall be exercisable by Employee's legatees or heirs in accordance with the terms and conditions of the EOP.

(b) Supplemental SERP Benefit. If Employee satisfies all of the provisions of the System Executive Retirement Plan of Entergy Corporation and Subsidiaries, as amended and restated effective December 4, 1998 ("SERP") necessary for SERP benefits to be payable to, or on behalf of Employee, then Employee shall be entitled to have his SERP benefits supplemented by this Agreement and this paragraph of this Subsection 4(b) of this Agreement shall govern the calculation of the Supplemental SERP Benefit. The supplemental benefits provided for by this Agreement ("Supplemental SERP Benefit") in combination with (i) the benefits provided under the SERP and (ii) the benefits provided Employee pursuant to the Retirement Agreement entered into between Employee and Entergy Operations, Inc. on May 23, 1997, but effective July 26, 1996, shall provide the benefits (i.e., retirement benefits, survivor benefits, or pre-retirement death benefits) that would have been payable to Employee (or Employee's Joint Annuitant or Beneficiary in the event of Employee's death) from (i) and (ii) above if the terms of the System Executive Retirement Plan of Entergy Corporation and Subsidiaries as in effect immediately prior to March 25, 1998 ("Prior SERP") had remained in effect.

Notwithstanding any other Section or Subsection of this Agreement to the contrary, and unless otherwise specifically set forth in this paragraph 4(b) of this Agreement, the terms of the SERP shall govern all other aspects of the Supplemental SERP Benefit provided under this Agreement, including the forms of Supplemental SERP Benefit payments available to Employee and the forfeiture of such Supplemental SERP Benefits.

The Change of Control provisions set forth in Section 7 of this Agreement, rather than those set forth in the SERP, shall govern the Supplemental SERP Benefit provided under this Agreement.

Employee's Beneficiary for purposes of any Supplemental SERP Benefit payable to a Beneficiary in accordance with the terms of this Agreement shall be Employee's "Beneficiary" under the SERP.

Employee expressly agrees that neither he nor any other person nor entity shall look to any other person nor entity (including the employee benefit plans of Entergy Corporation and its subsidiaries) other than the System Company with which Employee is last employed on or before his retirement, death, disability, or other termination of employment ("Employer") for payment of the Supplemental SERP Benefit. Employee or any other person or entity having or claiming a right to payments hereunder shall rely solely on the unsecured obligation of the Employer set forth herein. Nothing in this Agreement shall be construed to give Employee or any such person or entity a right, title, interest, or claim in or to any specific assets, fund, reserve, account or property of any kind whatsoever, owned by the Employer or in which the Employer may have any right, title or interest now or in the future, or in any contract, asset, reserve, account, property or fund created or maintained to support the employee benefit plans of Entergy Corporation and its subsidiaries. However, Employee or any such person or entity shall have the right to enforce his claim against the Employer in the same manner as any other unsecured creditor of the Employer.

Nothing stated herein shall prohibit Company or the Employer from adopting or establishing a trust or other means as a source for paying any obligations created hereunder provided, however, any and all rights that Employee shall have with respect to any such trust or other fund shall be governed by the terms thereof.

Notwithstanding any provisions of this Section 4(b) to the contrary, within thirty (30) days following the date of a Change of Control, as defined in Section 7 of this Agreement, the Employer shall make a single irrevocable lump sum contribution to the Trust for Deferred Payments of Entergy Corporation and Subsidiaries ("Trust") pursuant to the terms and conditions described in such Trust. Such contribution shall be in an amount equal to the present value of the Employee's Supplemental SERP Benefit calculated in accordance with Section 4(b) of this Agreement as of the date of any such Change of Control, which calculation shall assume that Employee satisfied the employment service requirement of such Section. The present value of Employee's Supplemental SERP Benefit shall be determined using the interest and mortality factors set forth in the Entergy Corporation Retirement Plan for Non-Bargaining Employees. Notwithstanding the foregoing provisions of this Section 4(b) to the contrary, the Employer may make contributions to the Trust prior to a Change of Control in such amounts as it shall determine in its complete discretion. The Trust is intended as a "grantor" trust under the Internal Revenue Code and the establishment and funding of such Trust is not intended to cause Employee to realize current income on amounts contributed thereto, and the Trust shall be so interpreted.

(c) Change of Control Benefit. In the event a Change of Control Period (as described in Section 7) commences during the term of Employee's employment under this Agreement, and during such Change of Control Period Employee either (1) is involuntarily terminated from employment other than for Cause, (2) voluntarily terminates from employment for Good Reason, or (3) loses his status as a full officer of Entergy Corporation or is demoted from the position he held with a System Company immediately prior to the Change of Control Period, Employee shall be entitled to a single-sum payment equal to the lesser of (i) the product of 2.99 times the sum of the Employee's final annual base salary from his Employer plus the Employee's target annual bonus under the Executive Annual Incentive Plan of Entergy Corporation and Subsidiaries (including the amount, if any, Employee defers under any non-qualified deferred compensation arrangement, cash or deferred arrangement qualified under

Section 401(k) of the Code, and under any cafeteria plan under Section 125 of the Code) for the year immediately preceding the year in which the Change in Control occurs, or (ii) the maximum single-sum payment that may be made by the Employer to Employee without triggering the nondeductibility provisions and excise tax provisions of Sections 280G and 4999, respectively, of the Code (after taking into account any other amounts in connection with this Agreement that are required to be considered for purposes of Section 280G of the Code). Notwithstanding anything contained in this Agreement to the contrary, to the extent that any payment pursuant to this Section 4(c) would be subject to the excise tax imposed by Section 4999 of the Code, the payment shall be reduced (but not below zero) if and to the extent necessary so that no payment to be made to Employee under this Agreement shall be subject to the excise tax.

(d) Remaining Benefits. The benefits provided under this Agreement shall in no way alter or affect the terms and conditions of any Company or System Company sponsored employee benefit plans in which Employee may already participate (including any supplemental credited service agreements associated with such plans and to which Employee may already be a party), and Employee's eligibility to participate in any such qualified employee benefit plans, non-qualified employee benefit plans, and welfare benefit plans, shall continue to be determined in accordance with the terms and conditions of such plans, as may be amended from time to time.

5. Withholding. A System Company shall have the right to require Employee to remit to it, or to withhold from other amounts payable to Employee, as compensation or otherwise, an amount sufficient to satisfy all federal, state and local withholding tax requirements.

6. Termination. Employee shall forfeit all remaining compensation and all benefits otherwise payable to Employee under this Agreement, except for Employee's right to exercise any Options under Section 4(a) which have already vested and except as otherwise provided under Section 4(b) with respect to the Supplemental SERP Benefit, if Employee:

(a) voluntarily resigns his employment with Entergy Services, Inc. or other current System Company employer (other than for the purpose of transferring to another System Company) prior to February 1, 2004;

(b) is terminated by a System Company for Cause, which termination shall be immediately effective upon the giving of written notice thereof to Employee, or at such later time as the notice may specify. Termination for Cause shall include, but not be limited to:

(1) a material violation by Employee of any agreement between Employee and any System Company;

(2) a material violation of the employer-employee relationship existing between Employee and a System Company, including without limitation, a violation of Section 8 (Covenant Not to Compete) or Section 9 (Confidentiality), moral turpitude, theft or defalcation; or

(3) a material failure by Employee to perform the services required of him by any agreement between Employee and any System Company, or, if there is no such agreement, a material failure by Employee to perform the reasonable, customary services of an employee holding the type of position he holds prior to any Change of Control Period as defined in Section 7 of this Agreement;

7. Change of Control. Notwithstanding any provision in this Agreement to the contrary, this Section shall apply in the event of a Change of Control, as defined herein:

(a) For purposes of this Agreement, the term "Change of Control" shall mean:

(1) the purchase or other acquisition by any person, entity or group of persons, within the meaning of Sections 13(d) or 14(d) of the Securities Exchange Act of 1934 ("Act"), or any comparable successor provisions, of beneficial ownership (within the meaning of Rule 13d-3 promulgated under the Act) of 50 percent or more of either the outstanding shares of common stock or the combined voting power of Entergy Corporation's then outstanding voting securities entitled to vote generally;

(2) the approval by the stockholders of Entergy Corporation of a reorganization, merger, or consolidation, in each case, with respect to which persons who were stockholders of Entergy Corporation immediately prior to such reorganization, merger or consolidation do not, immediately thereafter, own more than 50 percent of the combined voting power entitled to vote generally in the election of directors of the reorganized, merged or consolidated company's then outstanding securities;

(3) a liquidation or dissolution of Entergy Corporation or of the sale of all or substantially all of its assets; or

(4) any change in the composition of the Board of Directors of Entergy Corporation resulting in a majority of the directors at any given point in time not constituting a majority two years' hence provided, that in making such determination, directors who were elected by or on the recommendation of such present majority shall be excluded.

(b) If there should occur a Change of Control and if, within the period commencing ninety (90) days prior to and ending twenty-four (24) calendar months following such Change of Control ("Change of Control Period"), Employee

(1) is involuntarily terminated from employment other than for Cause as defined in Section 6 of this Agreement,

(2) voluntarily terminates from employment for Good Reason, as defined in Section 7(c) below, or (3) loses his status as a full officer of Entergy Corporation or is demoted from the position he held with a System Company immediately prior to the Change of Control Period ("Demotion"), Employee shall be entitled to immediate payment of the single-sum amount determined under Section 4(c) of this Agreement, and shall also, subject only to the risk of forfeiture set forth below, fully vest in the Options granted under Section 4(a) of this Agreement and the Supplemental SERP Benefit granted under Section 4(b) as of the date of any such termination or Demotion, which calculations shall assume that Employee satisfied the full employment service requirement of this Agreement, and no amendment or termination of this Agreement shall reduce such vested benefit. In the event of any such termination of employment during the Change of Control Period or a termination of employment, including termination as a result of death, after a Demotion during the Change of Control Period, Employee's benefits under Section 4 (b) shall commence as of the first day of the month in which the Employee's SERP benefit commences.

(c) For purposes of this Agreement, the term "Good Reason" means the occurrence, without Employee's express written consent, of any of the following events during the Change of Control Period:

- (1) The assignment of Employee to duties materially inconsistent with Employee's authorities, duties, responsibilities, and status (including offices, titles, and reporting requirements) as an officer of Entergy Corporation, or a reduction or alteration in the nature or status of Employee's authorities, duties, or responsibilities from those in effect as of ninety (90) days prior to a Change of Control, other than an insubstantial and inadvertent act that is remedied by Company or any System Company promptly after receipt of notice thereof given by Employee and other than any such alteration primarily attributable to the fact that Entergy Corporation may no longer be a public company;
- (2) Requiring Employee to be based at a location outside of the continental United States and other than his primary work location as it existed on the date ninety (90) days prior to a Change of Control, except for required travel on business of Company or any System Company to an extent substantially consistent with Employee's present business obligations;
- (3) A reduction in Employee's annual base salary (i.e., Employee's regular annual cash earnings from all System Companies, exclusive of any bonuses, overtime, or other special payments, but including the amount, if any, the Employee elects to defer under: (i) a cash or deferred arrangement qualified under Code Section 401(k); (ii) a cafeteria plan under Code Section 125; (iii) the Executive Deferred Compensation Plan of Entergy Corporation and Subsidiaries, or any successor or replacement plan; and (iv) any other nonqualified deferred compensation plan, agreement, or arrangement in which the Employee may hereafter participate or be a party thereto) from the Employee's annual base salary for the calendar year immediately preceding the calendar year in which occurs the Change of Control;
- (4) The failure of Company or any System Company to continue in effect any of their short- and/or long-term incentive compensation plans, or employee benefit or retirement plans, policies, practices, or arrangements in which Employee participates, or the failure by Company or any System Company to continue the Employee's participation therein on substantially the same basis, both in terms of the amount of benefits provided and the level of the Employee's participation relative to other Employees, as existed immediately prior to a Change of Control;
- (5) The failure of Company or any System Company to obtain a satisfactory agreement from any successor to Company to assume and agree to perform this Agreement; and
- (6) Any purported involuntary termination of Employee's employment that is not affected pursuant to a written notice of termination which acknowledges Employee's rights under this Agreement and reasonable detail setting forth the facts and circumstances claimed to provide the basis upon which Employee's employment is being terminated. Absent such notice, for purposes of this Agreement, no such purported termination shall be effective.

Employee's right to terminate employment for Good Reason shall not be affected by Employee's incapacity due to physical or mental illness. Employee's continued employment shall not constitute consent to, or a waiver of rights with respect to, any circumstance constituting Good Reason herein.

(d) The benefits that become payable or in which Employee vest solely upon a Change of Control shall nonetheless be subject to forfeiture upon the occurrence of any of the following events:

- (1) if Employee engages in any employment (without the prior written consent of the System Company employing him) either individually or with any person, corporation, governmental agency or body, or other entity in competition with, or similar in nature to, any business conducted by any System Company at any time within the ten year period commencing upon termination of employment; or
- (2) if Employee shall divulge, communicate or use to the detriment of any System Company, or use for the benefit of any other person or entity, or misuse in any way, any confidential or proprietary information or trade secrets of any System Company, or engage in any activities that are contrary to the best interests of any System Company.

(e) Notwithstanding anything stated above to the contrary, an amendment to, or termination of, this Agreement following a Change of Control shall not reduce the level of benefits accrued under this Agreement through the date of any such amendment or termination. In no event shall

Employee's benefit accrued under this Agreement following a Change of Control be less than the benefit accrued by Employee under this Agreement immediately prior to the Change of Control Period.

8.Covenant Not to Compete. During the 2-year period following Employee's retirement or other termination of employment with his Employer, Employee agrees that, without the specific written consent of the Chief Executive Officer of Entergy Corporation, he will not take employment nor engage in any business with any person, corporation, governmental agency or body or other entity in competition with, or similar in nature to, any System Company ("Competing Employer"). This restriction shall extend to any Competing Employer located in, or servicing in any way customers located in, those parishes and counties in which any System Company services customers during such 2-year period. The Employee recognizes that irreparable injury will result to the System Companies in the event of any breach by the Employee of this covenant not to compete.

9.Confidentiality. During his employment and for 5 years thereafter, other than as authorized by a System Company or as required by law or as necessary for him to perform his duties, Employee shall not disclose to any person or entity any non- public data or information concerning any System Company. Disclosure of information pursuant to subpoena, judicial process, or request of a governmental authority shall not be deemed a violation of this provision, provided that Employee gives the System Company immediate notice of any such subpoena or request and fully cooperates with any action by System Company to object to, quash, or limit such request.

10.Injunctive Relief. In the event of any breach or threatened breach of Sections 8 or 9 of this Agreement by Employee, Employee shall forfeit all benefits otherwise payable to Employee under this Agreement, and any System Company shall be entitled to an injunction, without bond, restraining Employee from violating the provisions of such Sections, in addition to any other relief to which the System Company may be entitled.

11.Proprietary Rights. Employee agrees to and hereby does assign to any System Company employing him all his rights in and to all inventions, business plans, work models or procedures, whether patentable or not, which are made or conceived solely or jointly by him at any time during his employment or with the use of any System Company time and materials. Employee will disclose to such System Company all facts known to him concerning such matters and, at the System Company's expense, do everything reasonably practicable to aid it in obtaining and enforcing proper legal protection for, and vesting System Company in title to, such matters.

12.Representations and Warranties. Employee represents and warrants that he is under no restriction or obligation inconsistent with the execution of this Agreement or the performance of his obligations hereunder and knows of no reason why his performance under this Agreement should be hindered in any way.

13.Notices. Any notice required under this Agreement shall be in writing and deemed received (a) on the date delivered if hand- delivered, or (b) on the third business day after being deposited in the United States mail, first class, registered or certified, return receipt requested, with proper postage prepaid, and shall be addressed as follows, unless changed otherwise by any party in accordance with the notice provisions of this Section:

If to a System Company, addressed in care of:

Michael G. Thompson, Esq.
General Counsel
639 Loyola Avenue, 26th Floor
New Orleans, LA 70113
Floor

with copy to:

Gary C. Clary
Senior Vice-President, Human
Resources and Administration
639 Loyola Avenue, 14th

New Orleans, LA 70113

If to Employee, addressed as follows:

Donald C. Hintz
112 Suncrest Place
Brandon, Mississippi 39047

14.Binding Agreement. This Agreement is binding upon Employee, Company, and his and its successors, agents, heirs or assigns.

15.Nonassignability. This Agreement or the right to receive benefits hereunder may not be assigned, encumbered or alienated by the Employee in any manner. Any attempt to so assign, encumber or alienate shall constitute a material violation of this Agreement within the meaning of Section 6 of the Agreement, and will be immediate grounds for terminating Employee's employment for Cause.

16.Applicable Law. This Agreement shall be interpreted and enforced in accordance with the laws of the State of Louisiana and the United States of America.

17.Headings. Section headings contained in this Agreement are for reference only and shall not affect in any way the meaning or interpretation of this Agreement.

18.Modifications and Waivers. This Agreement contains the entire understanding between Company and Employee relating to Employee's employment, unless otherwise specifically provided. No provision of this Agreement may be modified, amended or waived except in a writing signed by both parties. The waiver by either party of a breach of any provision of this Agreement shall not operate to waive any subsequent breach of the Agreement.

19.Severability. Should any part of this Agreement be found to be invalid or in violation of law, such part shall be of no force and effect and the rest of this Agreement shall survive as valid and enforceable to the fullest extent permitted by law.

IN WITNESS WHEREOF, the parties hereto have duly executed this Agreement in the presence of the undersigned witnesses.
