Directors' Report

30 June 2022

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of Gullewa Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the year ended 30 June 2022.

Directors

The following persons were directors of Gullewa Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Anthony Howland-Rose - Chairman
 David Deitz
 Eddie Lee (deceased 16 June 2022)
 Kevin Howland-Rose (appointed 26 July 2022)

Principal activities

The principal activities of the consolidated entity during the financial year were exploration, mining, investments in equities and property.

Dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Review of operations

The Profit for the consolidated entity after providing for income tax and non-controlling interest amounted to \$1,429,575 (after income tax of \$368,674). (2021 profit: \$1,435,577 after income tax of \$665,661).

Gullewa Limited ('Gullewa')

There has been no significant change in trading activities of the group during the financial year.

Central Iron Ore ('CIO') – Gullewa has 36.1% holding

Red 5 Joint Venture

Settlement

After long negotiations, Darlot Mining Company Pty Ltd (100% owned by Red 5 Limited) and South Darlot Mines Pty Ltd (100% owned by Central Iron Ore Ltd) reached a settlement in which it was agreed that South Darlot Mines Pty Ltd has earned an additional 19% interest in M37/1045, M37/709, M37/631 and M37/552 (taking its interest from 51% to 70%) pursuant to a 2011 farm-in agreement.

It was also agreed that Darlot Mining Company Pty Ltd is holding a 70% interest in a portion of two additional tenements, M37/421 and M37/632, on trust for South Darlot Mines Pty Ltd.

This Settlement allows further development and exploration to recommence on these tenements.

Soil Sampling

A total of 1,695 samples were collected across an area of 1 Km² in April 2022. The main area of focus for this soil sampling campaign was between the Endeavour and Mermaid prospects.

Five areas have been identified as walk-up targets for drill testing. Ranked highest to lowest are Delta, Alpha, Beta, Charlie and Echo.

Delta, Alpha and Beta have elevated Au coincident with high Cu, Pb and other typical Au pathfinder elements (Bi, Co, Cr, As, Ag, Sb, Te). The Charlie and Echo anomalies are in areas which show elevated Au with associated base metals; however, they are on the far west and far east of the sampled areas and are not closed off. Further soil sampling is planned on the eastern and western margins to better understand the geochemical anomalism in these areas.

British King

The British King Mine is now owned 100% beneficially by CIO and is registered at the Department of Mines, Industry Regulation and Safety with an interest of 49%. We have received signed transfer forms from BK Gold Mines Pty Limited to Central Iron Ore Limited for the transfer of 51% as agreed in the Tenement Acquisition Agreement dated 30 October 2014.

Silverstream SE22 a royalty and streaming company which provided funding to BK Gold Mines Pty Limited has refused to remove caveats which prevents registration of the transfers.

We have commenced legal proceeding to have the caveats removed.

Shares

CIO now holds 2,095,830 shares in Kingwest Resources Limited.

Royalty – Silver Lake Resources 1%

The company has a 1% Royalty on the project called Deflector owned by Silver Lake Resources Limited. Gullewa received royalty payments totalling of \$2,428,298 during the financial year. Silver Lake reported sales of 92,545 ounces gold, 31,797 ounces silver and 761 tonnes copper.

Property

During the year the construction of Stage 3 was commenced. The estimated cost will be \$1,993,999 not including the contribution to Maitland Council. There are 16 blocks of which 10 have been exchanged and 2 others are the subject of put and call agreements.

The total funds committed to the Aberglasslyn project are:

	\$
Advance secured by First Mortgage	6,272,205
Joint Venture Contributions	<u>548,276</u>
Total	<u>6,820,481</u>

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the consolidated entity during the financial year.

Matters subsequent to the end of the financial year

There are no matters or circumstances that have arisen since 30 June 2022 that have significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Likely developments and expected results of operations

The consolidated entity has currently reduced the field exploration activities until the confidence has picked up in the coal sector and the market price of coal has recovered to a level where further field exploration becomes viable again.

Environmental regulation

The consolidated entity is subject to and compliant with all aspects of the environmental regulations of its exploration activities. Management are not aware of any environmental law that has not been complied with.

Information on directors

Name:	Anthony Howland-Rose
Title:	Executive Director and Chairman

The number of meetings of the company's Board of Directors ('the Board') held during the year ended 30 June 2022, and the number of meetings attended by each director were:

	Full Board	
	Attended	Held
Anthony Howland-Rose	11	11
David Deitz	11	11
Eddie Lee	11	11
Kevin Howland-Rose *	-	-

* Kevin Howland-Rose was appointed director on 26 July 2022

Held: represents the number of meetings held during the time the director held office.

The roles of the Nomination and Remuneration Committee and Audit Committee were performed by the full Board.

Remuneration report (audited)

The remuneration report, which has been audited, outlines the director and executive remuneration arrangements for the consolidated entity and the company, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share-based compensation
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

The objective of the consolidated entity's and company's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with the achievement of strategic objectives and the creation of value for shareholders and conforms with the market best practice for delivery of reward. The Board of Directors ('the Board') ensures that executive reward satisfies the following key criteria for good reward governance practices:

- competitiveness and reasonableness
- acceptability to shareholders
- performance linkage/ alignment of executive compensation
- transparency

The Nomination and Remuneration Committee is responsible for determining and reviewing remuneration arrangements for its directors and executives. The performance of the consolidated entity and company depends on the quality of its directors and executives. The remuneration philosophy is to attract, motivate and retain high performance and high-quality personnel.

The Nomination and Remuneration Committee has structured an executive remuneration framework that is market competitive and complementary to the reward strategy of the consolidated entity and company. The Nomination and Remuneration Committee may use external remuneration consultants when necessary, see 'Use of remuneration consultants' section in this report.

Alignment to shareholders' interests:

- has economic profit as a core component of plan design
- focuses on sustained growth in shareholder wealth and delivering constant or increasing return on assets
- attracts and retains high calibre executives

Alignment to program participants' interests:

- rewards capability and experience
- reflects competitive reward for contribution to growth in shareholder wealth
- provides a clear structure for earning rewards

In accordance with best practice corporate governance, the structure of non-executive directors and executive remunerations are separate.

Non-executive directors' remuneration

Fees and payments to non-executive directors reflect the demands which are made on, and the responsibilities of, the directors. Non-executive directors' fees and payments are reviewed annually by the Nomination and Remuneration Committee. The Nomination and Remuneration Committee, where necessary, seeks the advice of independent remuneration consultants to ensure non-executive directors' fees and payments are appropriate and in line with the market. The chairman's fees are determined independently to the fees of other non-executive directors based on comparative roles in the external market. The chairman is not present at any discussions relating to determination of his own remuneration.

ASX listing rules requires that the aggregate non-executive directors' remuneration shall be determined periodically by a general meeting. The most recent determination was at the Annual General Meeting held on 16 November 2009, where the shareholders approved an aggregate remuneration of \$300,000.

Executive remuneration

The consolidated entity and company aim to reward their executives with a level and mix of remuneration based on their position and responsibility, which is both fixed and variable.

The executive remuneration and reward framework have been divided into three components:

- base pay and non-monetary benefits
- share-based payments
- other remuneration such as superannuation and long service leave

The combination of these comprises the executive's total remuneration.

Fixed remuneration, consisting of base salary, superannuation and non-monetary benefits, are reviewed annually by the Remuneration Committee, based on individual and business unit performance, the overall performance of the consolidated entity and comparable market remunerations.

Executives can receive their fixed remuneration in the form of cash or other fringe benefits (for example motor vehicle benefits) where it does not create any additional costs to the consolidated entity and adds additional value to the executive.

There are no short-term incentives ('STI').

The long-term incentives ('LTI') includes long service leave and share-based payments.

Consolidated entity performance and link to remuneration

There is no link between the consolidated entity's performance and remuneration.

Use of remuneration consultants

During the financial year ended 30 June 2022, the company did not engage remuneration consultants to review its existing remuneration policies and provide recommendations on how to improve both the short-term incentives ('STI') and long-term incentives ('LTI') programs.

Voting and comments made at the company's 2021 Annual General Meeting ('AGM')

At the last AGM 92% of the shareholders voted to adopt the remuneration report for the year ended 30 June 2021. The company did not receive any specific feedback at the AGM regarding its remuneration practices.

Details of remuneration

Amounts of remuneration

Details of the remuneration of the directors of Gullewa Limited are set out in the following tables. Other than the directors, there are no other key management personnel, defined as those who have the authority and responsibility for planning, directing and controlling the major activities of the consolidated entity.

Cash and cash equivalents at the end of the financial year	8	5,078,599	4,142,693

* The above statement of cash flows should be read in conjunction with the accompanying notes.

Notes to the financial statements

30 June 2022

Note 1. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation

The financial report is a general-purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standards, interpretations and complies with other requirements of the law. The financial statements cover Gullewa Limited as a consolidated entity consisting of Gullewa Limited and its subsidiaries.

The accounting policies detailed below have been consistently applied to all the years presented unless otherwise stated.

The financial report is presented in Australian dollars.

Gullewa Limited is a company limited by shares, incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange. The nature of the operations and principal activities of the Group are mineral exploration and investment.

Adoption of new and revised standards

In the year ended 30 June 2022, the Directors have reviewed all the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group's operations and effective for the current annual reporting period.

It has been determined by the Directors that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Group's business and, therefore, no change is necessary to Group accounting policies.

The Directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the year ended 30 June 2022. As a result of this review, the Directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Group's business and, therefore, no change is necessary to the **Group's accounting policies**.

Statement of Compliance

The financial report was authorised for issue on 14 September 2022.

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the financial report comprising the financial statements and notes thereto, complies with International Financial Reporting Standards (IFRS).

Going concern

The consolidated financial statements have been prepared on a going concern basis.

For the year ended 30 June 2022, the consolidated entity derived a profit from continuing operations after tax of \$1,429,575 (after income tax of \$368,674) (2021 profit: \$1,435,557 after income tax of \$665,661). In the same period the consolidated entity had operating cash inflows of \$1,928,642 (2021: \$2,925,369) and cash outflows from investing activities of \$1,116,366 (2021 outflow: \$2,883,468).

A cash flow forecast for the next 12 months prepared by management has indicated that the consolidated entity will have sufficient cash assets to be able to meet its debts as and when they are due.

No adjustments have been made relating to recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the consolidated entity not continue as a going concern.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note number 2.

Loans and receivables

Trade receivables, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as "loans and receivable". Loans and receivables are measured at an amortised cost using the effective interest method, less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the effect of discounting is immaterial.

Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note number 29.

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all the subsidiaries of Gullewa Limited ('company' or 'parent entity') as at 30 June 2022 and the results of all the subsidiaries for the year that has ended. Gullewa Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and it able to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the consolidated entity. Losses incurred by the consolidated entity are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM are responsible for the allocation of resources to operating segments and assessing their performance.

Revenue recognition

Revenue is recognised when it is probable that the economic benefit will flow to the consolidated entity and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

The company has a 1% royalty in the project called Deflector. The royalty income is recognised when the amount is due and payable.

Interest

Interest revenue is recognised as interest accrued using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled, and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is current when: it is expected to be realised or intended to be sold or consumed in the normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current assets.

A liability is current when: it is expected to be settled in the normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current liabilities.

Deferred tax assets and liabilities are always classified as non-current.

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Trade and other receivables

Other receivables are recognised at the amortised cost, less any provision for impairment.

Associates

Associates are entities over which the consolidated entity has significant influence but not control or joint control. Investments in associates are accounted for using the equity method. Under the equity method, the share of the profits or losses of the associate is recognised in profit or loss and the share of the movements in equity is recognised in the other comprehensive income. Investments in associates are carried in the statement of financial position at cost plus post-acquisition changes in the consolidated entity's share of the net assets of the associate. Goodwill relating to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment. Dividends received or receivable from associates reduce the carrying amount of the investment.

When the consolidated entity's share of losses in an associate is equal to or exceeds its interest in the associate, including any unsecured long-term receivables, the consolidated entity does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

The consolidated entity discontinues the use of the equity method upon the loss of significant influence over the associate and recognises any retained investment at its fair value. Any difference between the associate's carrying amount, fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

Investments and other financial assets

Investments and other financial assets are initially measured at the fair value. Transaction costs are included as part of the initial measurement, except for financial assets at the fair value through profit or loss. They are subsequently measured at either the amortised cost or fair value depending on their classification. Classification is determined based on the purpose of the acquisition and subsequent reclassification to other categories is restricted.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are carried at the amortised cost using the effective interest rate method. Gains and losses are recognised in profit or loss when the asset is derecognised or impaired.

Impairment of financial assets

The consolidated entity assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired. Objective evidence includes significant financial difficulty of the issuer or obligor; a breach of contract such as default or delinquency in payments; the lender granting to a borrower concessions due to economic or legal reasons that the lender would not otherwise do; it becomes probable that the borrower will enter bankruptcy or other financial reorganisation; the disappearance of an active market for the financial asset; or observable data indicating that there is a measurable decrease in the estimated future cash flows.

The amount of the impairment allowance for loans and receivables carried at the amortised cost is the difference between the asset's carrying amount and the present value of the estimated future cash flows, discounted at the original effective interest rate. If there is a reversal of impairment, the reversal cannot exceed the amortised cost that would have been recognised had the impairment have not been made and is reversed to profit or loss.

Property, plant and equipment

Plant and equipment are stated at the historical cost less the accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment over their expected useful lives as follows:

Plant and equipment	5 years
Motor vehicles	5 years

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date. Leasehold improvements and plant and equipment under lease are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated entity. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss.

Leases

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

A distinction is made between the finance leases, which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to ownership of leased assets, and operating leases, under which the lessor effectively retains substantially all such risks and benefits.

Finance leases are capitalised. A lease asset and liability are established at the fair value of the leased assets, or if lower, the present value of the minimum lease payments. Lease payments are allocated between the principal component of the lease liability and the finance costs, to achieve a constant rate of interest on the remaining balance of the liability.

Leased assets acquired under a finance lease are depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the consolidated entity will obtain ownership at the end of the lease term.

Operating lease payments, net of any incentives received from the lessor, are charged to profit or loss on a straight-line basis over the term of the lease.

Exploration and evaluation assets

Exploration and evaluation expenditure in relation to separate areas of interest for which rights of tenure are current is carried forward as an asset in the statement of financial position where it is expected that the expenditure will be recovered through the successful development and exploitation of an area of interest, or by its sale; or exploration activities are continuing in an area and activities have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves. Where a project or an area of interest has been abandoned, the expenditure incurred thereon is written off in the year in which the decision is made.

Trade and other payables

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at the amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred, including:

- interest on short-term and long-term borrowings

Employee benefits*Short-term employee benefits*

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled within 12 months of the reporting date are recognised in the current liabilities in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are recognised in non-current liabilities, provided there is an unconditional right to defer settlement of the liability. The liability is measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Defined contribution superannuation expense

Contributions to defined contribution superannuation plans are expensed in the period in which they are incurred.

Share-based payments

Equity-settled share-based compensation benefits are provided to employees.

Equity-settled transactions are awards of shares, or options over shares, that are provided to employees in exchange for the rendering of services.

The cost of equity-settled transactions is measured at the fair value on grant date. Fair value is independently determined using either the Binomial or Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the consolidated entity receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions is recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less the amounts already recognised in previous periods.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the consolidated entity or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the consolidated entity or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

Fair value measurement

When an asset or liability, financial or non-financial, is measured at the fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interest. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure the fair value, is used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at the fair value are classified, into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed each reporting date and transfers between levels are determined based on a reassessment of the lowest level input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in the fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Business combinations

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued, or liabilities incurred by the acquirer to the former owners of the acquiree and the amount of any non-controlling interest in the acquiree. For each business combination, the non-controlling interest in the acquiree is measured at either the fair value or at the proportionate share of the acquiree's identifiable net assets. All acquisition costs are expensed as incurred to profit or loss.

On the acquisition of a business, the consolidated entity assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the consolidated entity's operating or accounting policies and other pertinent conditions in existence at the acquisition-date.

Where the business combination is achieved in stages, the consolidated entity remeasures its previously held equity interest in the acquiree at the acquisition-date's fair value and the difference between the fair value and the previous carrying amount is recognised in profit or loss.

Contingent consideration to be transferred by the acquirer is recognised at the acquisition-date fair value. Subsequent changes in the fair value of contingent consideration classified as an asset or liability is recognised in profit or loss. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity.

The difference between the acquisition-date fair value of assets acquired, liabilities assumed and any non-controlling interest in the acquiree and the fair value of the consideration transferred and the fair value of any pre-existing investment in the acquiree is recognised as goodwill. If the consideration transferred and the pre-existing fair value is less than the fair value of the identifiable net assets acquired, being a bargain purchase to the acquirer, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition-date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquirer.

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised; recognises additional assets or liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition-date. The measurement period ends on either the earlier of (i) 12 months from the date of the acquisition or (ii) when the acquirer receives all the information possible to determine the fair value.

Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of Gullewa Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in the ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of the basic earnings per share to take into account the after-income tax effect of the interest and the other financing costs associated with the dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to the dilutive potential ordinary shares.

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Share-based payment transactions

The consolidated entity measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model considering the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

Impairment of non-financial assets other than goodwill and other indefinite life intangible assets

The consolidated entity assesses impairment of non-financial assets other than goodwill and other indefinite life intangible assets at each reporting date by evaluating conditions specific to the consolidated entity and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves the fair value less costs of disposal or value-in-use calculations, which incorporate several key estimates and assumptions.

Exploration and evaluation costs

The consolidated entity capitalises expenditure relating to exploration and evaluation where it is considered likely to be recoverable or where the activities have not reached a stage that permits reasonable assessment of the existence of reserves. While there are certain areas of interest from which no reserves have been extracted, the directors are of the continued belief that such expenditure should not be written off since feasibility studies in such areas have not yet concluded. Such capitalised expenditure is carried at the end of the reporting period at cost (refer to note number 16).

Note 3. Operating segments

Identification of reportable operating segments

The consolidated entity is organised into 3 operating segments: exploration and evaluation, property holding and investments. These operating segments are based on the internal reports that are reviewed and used by the executive management team (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

The operating segments are identified by management based on the nature of the type of investment. Discrete financial information about each of these operating segments is reported to the CODM on a monthly basis. The reportable segments are based on the similarity of the investments made and the common regulatory environment applicable to each reportable segment. There is a clear designation of responsibility and accountability by the CODM for the management and performance of these reportable segments.

Types of products and services

The principal products and services of each of these operating segments are as follows:

Exploration and evaluation	The consolidated entity is involved in exploration and evaluation for minerals.
Property holding	The consolidated entity acquires investment properties for capital appreciation and derivation of rental income.
Investments	The consolidated entity invests in shares in listed and unlisted entities.

Intersegment transactions

Intersegment transactions were made at market rates. Intersegment transactions are eliminated on consolidation.

Intersegment receivables, payables and loans

Intersegment loans are initially recognised at the consideration received. Intersegment loans receivable and loans payable that earn or incur non-market interest are not adjusted to the fair value based on market interest rates. Intersegment loans are eliminated on consolidation.

Major customers

The consolidated entity does not generate revenue from customers.

Operating segment information

Note 16. Current liabilities – Provision for income tax

	Consolidated	
	2022	2021
	\$	\$
Provision for income tax	1,099,335	730,661

Note 17. Equity - contributed equity

	Consolidated			
	2022 Shares	2021 Shares	2022 \$	2021 \$
Ordinary shares - fully paid	190,903,100	182,373,100	22,247,307	22,018,527

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back

There is no current on-market share buy-back.

Capital risk management

The consolidated entity's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the consolidated entity may adjust the number of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The consolidated entity would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current parent entity's share price at the time of the investment. The consolidated entity is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses in order to maximise synergies.

The capital risk management policy remains unchanged from the 30 June 2018 Annual Report.

Note 18. Equity - reserves

	Consolidated	
	2022 \$	2021 \$
Capital profits reserve	284,828	284,828
Share-based payments reserve	2,133,066	1,815,606
	<u>2,417,894</u>	<u>2,100,434</u>

Capital profit reserve

The capital profits reserve arose historically and is available for distribution.

Share-based payments reserve

The reserve is used to recognise the value of equity benefits provided to employees and directors as part of their remuneration, and other parties as part of their compensation for services.

During the year the company issue options, have been treated as share-based payments. The grant date fair value of options is calculated under the Black Scholes model and amortised on a straight-line basis over the vesting period.

The model takes account of factors including the exercise price, the current level and volatility of the underlying share price, the risk-free interest rate, expected dividends and current market price of the underlying share and the expected life of the security.

Note 18. Equity – reserves (continued)*Movements in reserves*

Movements in each class of reserve during the current and previous financial year are set out below:

Consolidated	Capital profits \$	Share-based payments \$	Total \$
Balance at 30 June 2020	284,828	1,483,832	1,768,660
Issue of options	-	331,774	331,774
Balance at 30 June 2021	284,828	1,815,606	2,100,434
Issue of options	-	317,460	317,460
Balance at 30 June 2022	284,828	2,133,066	2,417,894

Note 19. Equity - accumulated losses

	Consolidated	
	2022	2021
	\$	\$
Accumulated losses at the beginning of the financial year	(11,131,893)	(12,567,450)
Profit after income tax expense for the year	1,429,575	1,435,557
Accumulated losses at the end of the financial year	<u>(9,702,318)</u>	<u>(11,131,893)</u>

Note 20. Equity - non-controlling interest

	Consolidated	
	2022	2021
	\$	\$
Contributed equity	(101,708)	(101,708)
Accumulated losses for the year	-	-
Accumulated losses at the end of the financial year	<u>(101,708)</u>	<u>(101,708)</u>

Note 21. Equity - dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Note 22. Financial instruments

Financial risk management objectives

The consolidated entity's activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk and interest rate risk), credit risk and liquidity risk. The consolidated entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity. The consolidated entity uses derivative financial instruments such as forward foreign exchange contracts to hedge certain risk exposures. Derivatives are exclusively used for hedging purposes, i.e. not as trading or other speculative instruments. The consolidated entity uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks, ageing analysis for credit risk and beta analysis in respect of investment portfolios to determine market risk.

Risk management is carried out by senior finance executives ('finance') under policies approved by the Board of Directors ('the Board'). These policies include identification and analysis of the risk exposure of the consolidated entity and appropriate procedures, controls and risk limits. Finance identifies, evaluates and hedges financial risks within the consolidated entity's operating units. Finance reports to the Board on a monthly basis.

Market risk

Foreign currency risk

The consolidated entity is not exposed to significant foreign currency risk.

Price risk

The consolidated entity is exposed to equity securities price risk because of the listed investments held, classified as at fair value through profit or loss. The consolidated entity does not hedge its price risks.

At 30 June 2022, if equity prices had been 10% higher or lower and all other variables were held constant the consolidated entity's net assets would increase/decrease by \$282,780 (2021: \$282,263) as a result of the change in the value of financial assets held at fair value through profit or loss and available-for-sale investments.

Interest rate risk

The consolidated entity's main interest rate risk arises from cash and cash equivalents.

The sensitivity analyses have been determined based on the exposure to interest rates and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period.

At reporting date, if interest rates had been 50 basis points (2021: 50 basis points) higher or lower and all other variables were held constant, the consolidated entity's net profit and net assets would increase/decrease by \$10,000 (2021: \$10,000).

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated entity. The consolidated entity has a strict code of credit, including obtaining agency credit information, confirming references and setting appropriate credit limits. The consolidated entity obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The consolidated entity does not hold any collateral.

The consolidated entity's maximum exposure to credit risk at the reporting date in relation to each class of recognised financial assets is the carrying amount as disclosed in the statement of financial position and notes to the financial statements.

Liquidity risk

Vigilant liquidity risk management requires the consolidated entity to maintain sufficient liquid assets (mainly cash and cash equivalents) and available borrowing facilities to be able to pay debts as and when they become due and payable.

The consolidated entity manages liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

Note 22. Financial instruments (continued)*Remaining contractual maturities*

The following tables detail the consolidated entity's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position.

	Weighted average interest rate	1 year or less	Between 1 and 2 years	Between 2 and 5 years	Over 5 years	Remaining contractual maturities
	%	\$	\$	\$	\$	\$
Consolidated - 2022						
Non-derivatives						
<i>Non-interest bearing</i>	-%	-	-	-	-	-
Trade payables	-%	189,884	-	-	-	189,884
Other payables	-%	-	-	-	-	-
<i>Interest-bearing - variable</i>						
Borrowings	-%	-	-	-	-	-
Total non-derivatives	-%	189,884	-	-	-	189,884

	Weighted average interest rate	1 year or less	Between 1 and 2 years	Between 2 and 5 years	Over 5 years	Remaining contractual maturities
	%	\$	\$	\$	\$	\$
Consolidated - 2021						
Non-derivatives						
<i>Non-interest bearing</i>	-%	-	-	-	-	-
Trade payables	-%	189,857	-	-	-	189,857
Other payables	-%	-	-	-	-	-
<i>Interest-bearing - variable</i>						
Borrowings	-%	-	-	-	-	-
Total non-derivatives	-%	189,857	-	-	-	189,857

The cash flows in the maturity analysis above are not expected to occur significantly earlier than contractually disclosed above.

Fair value of financial instruments

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

Note 23. Fair value measurement*Fair value hierarchy*

The following tables detail the consolidated entity's assets and liabilities, measured or disclosed at fair value, using a three-level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date
 Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
 Level 3: Unobservable inputs for the asset or liability

	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Consolidated - 2022				
<i>Assets</i>				
Financial assets at fair value through profit or loss - marketable securities	2,827,801	-	-	2,827,801
Total assets	2,827,801	-	-	2,827,801

	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Consolidated - 2021				
<i>Assets</i>				
Financial assets at fair value through profit or loss - marketable securities	2,822,637	-	-	2,822,637
Total assets	2,822,637	-	-	2,822,637

There were no transfers between levels during the financial year.

The carrying amounts of trade and other receivables and trade and other payables are assumed to approximate their fair values due to their short-term nature.

The fair value of financial liabilities is estimated by discounting the remaining contractual maturities at the current market interest rate that is available for similar financial liabilities.

Note 24. Key management personnel disclosures**Directors**

The following persons were directors of Gullewa Limited during the financial year:

- Mr. Anthony Howland-Rose
 Mr. David Deitz
 Mr. Eddie Lee (deceased 16 June 2022)

Compensation

The aggregate compensation made to directors and other members of key management personnel of the consolidated entity is set out below:

	Consolidated	
	2022 \$	2021 \$
Short-term employee benefits	471,425	333,700
Post-employment benefits	47,142	23,817
Share-based payments	317,460	331,774
	836,027	689,291

Note 25. Remuneration of auditors

During the financial year the following fees were paid or payable for services provided by SCS Audit & Corporate Services Pty Ltd, the auditor of the company:

	Consolidated	
	2022 \$	2021 \$
<i>Audit services – SCS Audit & Corporate Services Pty Ltd</i>	36,464	25,000

Note 26. Contingent liabilities

There were no contingent liabilities at 30 June 2022 or 30 June 2021.

Note 27. Commitments

	Consolidated	
	2022 \$	2021 \$
<i>Capital commitments - exploration and evaluation</i>		
Committed at the reporting date but not recognised as liabilities, payable:		
Within one year	400,000	400,000
One to five years	100,000	100,000
	500,000	500,000
<i>Operating lease</i>		
Within one year	5,000	35,000
One to five years	-	-
	5,000	35,000

An operating lease was entered into as a means of acquiring plant and equipment. The lease was fixed for one year and then moved onto a monthly rolling contract.

Note 28. Related party transactions*Parent entity*

Gullewa Limited is the parent entity.

Subsidiaries

Interests in subsidiaries are set out in note 30.

Associates

Interests in associates are set out in note 31.

Key management personnel

Disclosures relating to key management personnel are set out in note 24 and the remuneration report in the directors' report.

Note 28. Related party transactions (continued)

	Consolidated	
	2022	2021
	\$	\$
Other income:		
Management fees from associate, Central Iron Ore Limited	40,315	41,893

Total assets	19,452,482	16,248,651
Total current liabilities	4,895,609	4,527,559
Total liabilities	4,895,609	4,527,559
Equity		
Contributed equity	22,247,307	22,018,527
Capital profits reserve	284,828	284,828
Share-based payments reserve	2,133,066	1,815,606
Accumulated losses	(10,108,328)	(12,397,869)
Total equity	14,556,873	11,721,092

Guarantees entered into by the parent entity in relation to the debts of its subsidiaries

The parent entity had no guarantees in relation to the debts of its subsidiaries as at 30 June 2022 and 30 June 2021.

Contingent liabilities

The parent entity had no contingent liabilities as at 30 June 2022 and 30 June 2021.

Capital commitments - Property, plant and equipment

The parent entity had no capital commitments for property, plant and equipment as at 30 June 2022 and 30 June 2021.

Significant accounting policies

The accounting policies of the parent entity are consistent with those of the consolidated entity, as disclosed in note 1, except for the following:

- Investments in subsidiaries are accounted for at cost, less any impairment, in the parent entity.
- Investments in associates are accounted for at cost, less any impairment, in the parent entity.
- Dividends received from subsidiaries are recognised as other income by the parent entity and its receipt may be an indicator of an impairment of the investment.

Note 30. Interests in subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in note 1:

Name	Principal place of business / Country of incorporation	Ownership interest	
		2022 %	2021 %
Claymor Resources Pty Limited	Australia	100.00%	100.00%
York Corporate Pty Limited	Australia	100.00%	100.00%
Canton Property Pty Limited	Australia	60.00%	60.00%
Brooklyn Bay Pty Limited	Australia	100.00%	100.00%
Gulprop Pty Limited	Australia	100.00%	100.00%
ACN 603 113 195 Pty Limited	Australia	94.70%	90.00%
Our Field Pty Limited	Australia	50.00%	50.00%
Hunter Valley Solutions Pty Limited	Australia	69.00%	69.00%

Note 31. Interests in associates

Interests in associates are accounted for using the equity method of accounting. Information relating to associates that are material to the consolidated entities are set out below:

Name	Principal place of business / Country of incorporation	Ownership interest	
		2022 %	2021 %
Central Iron Ore Limited	Mineral extraction	36.10%	36.10%

Auditor's independence declaration

LEAD AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001

TO: The Directors of Gullewa Limited

In accordance with section 307C of the *Corporations Act 2001*, I am pleased to provide the following declaration of independence.

As Audit Director for the audit of the financial statements of Gullewa Limited for the year ended 30 June 2022, I declare that to the best of my knowledge and belief, there have been no contravention of:

- (i) The auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (ii) Any applicable code of professional; conduct in relation to the audit.

Yours faithfully

SCS Audit & Corporate Services Pty Ltd
(An Authorised Audit Company)

Independent Auditor's report

30 June 2022

Independent Auditor's Report to the shareholders of Gullewa Limited

Report on the audit of the financial report

Opinion

We have audited the financial report of Gullewa Limited ("the Company") and its subsidiaries ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of comprehensive income, the consolidated statement of cash flows and the consolidated statement of changes in equity for the year ended on that date, notes comprising a statement of accounting policies and selected explanatory notes and the directors' declaration.

In our opinion:

the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the consolidated financial position of the Group as at 30 June 2022 and of its consolidated performance for the year ended on that date; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current year and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on the overall audit strategy, the allocation of resources in the audit, and directing the efforts of the engagement team.

For personal use only

These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial report.

1 Valuation of investments

Why significant	How our audit addressed the key audit matter
<p>This asset on the balance sheet, representing approximately 21% of total assets. There is significant focus on considering whether the underlying investments are valued appropriately. The valuation of financial investments held at fair value is based on a range of inputs. Many of the inputs required can be obtained from readily available liquid market prices and rates.</p>	<p>We performed the following audit procedures over the valuation of investments held by the Group:</p> <p>Assessed the design and performed tests of the implementation and operating effectiveness of the key controls over the investment function carried out by Group Investments, which is responsible for managing the majority of investments for the Group.</p> <p>Assessed the Group's valuation of individual investment holdings. Where readily observable data was available, we sourced that independently and compared it to the company's valuation. We did not identify any material differences from the company's valuations from performing this work.</p>

2 Impairment assessment for Gullewa's equity accounted investment

Why significant	How our audit addressed the key audit matter
<p>Gullewa's equity accounted investment in Hunter Valley Solutions Pty Ltd and Central Iron Ore Limited (\$6.3 million) is a material amount in the Gullewa's consolidated financial statements.</p> <p>We therefore focused on the assessment which was performed by Gullewa to determine whether there was any objective evidence that the equity accounted investment could be impaired as at 30 June 2022.</p>	<ul style="list-style-type: none"> • Obtained an understanding of process by which the impairment indicator assessment was conducted. • Evaluated the Hunter Valley Partnership Pty Ltd.'s computation of Net Present Value of projected profitability forecasts that could indicate that the investment may be impaired. • Assessed the consolidated entity's disclosures of the quantitative and qualitative considerations in relation to the Investment, by comparing these disclosures to our understanding of the matter and the requirements of the accounting standards.

For personal use only

3 Recognition of revenue

Why significant	How our audit addressed the key audit matter
A substantial amount of the Group's revenue is derived from royalties and in particular the Royalty Amended Deed involving Deflector Gold mining Pty Ltd. We focussed on the agreement due to the high level of reliance, the company is placing upon it going forward and complex and judgemental revenue recognition from agreement.	<ul style="list-style-type: none">• Evaluated group management's process regarding accounting for royalty received from Deflector Gold mining contracts.• Evaluated the Group's assessment related to profitability of the contracts and the computation of royalty income.• Evaluated the ASX announcement released.

Information other than the financial statements and auditor's report

The directors of the Company are responsible for the other information. The other information included in the Group's annual report for the year ended 30 June 2022 comprises the Director's Report (but does not include the financial report and our auditor's report thereon), which we obtained prior to the date of this auditor's report.

Our opinion on the financial report does not cover the other information and we do not and will not express any form of assurance conclusion thereon with the exception of the Remuneration Report.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the Company for the financial report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

For personal use only

Auditor's responsibilities for the audit of the financial report

Our responsibility is to express an opinion on the financial report base on our audit. Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement that exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf This description forms part of our auditor's report.

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the Directors' Report for the year ended 30 June 2022.

In our opinion, the Remuneration Report of Gullewa Limited for the year ended 30 June 2022, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
