FORM 10-K**

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE FISCAL YEAR ENDED DECEMBER 31, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

COMMISSION FILE NUMBER 0-20191

Intrusion Inc.

(Exact name of registrant as specified in its charter)

DELAWARE

(State or other jurisdiction of
incorporation or organization)

75-1911917

(I.R.S. Employer
Identification No.)

1101 EAST ARAPAHO ROAD, SUITE 200

RICHARDSON, TEXAS

(Address of principal executive offices)

75081

(Zip Code)

Registrant's telephone number, including area code: **(972) 234-6400**

Securities registered pursuant to Section 12(b) of the Act: **None**

Securities registered pursuant to Section 12(g) of the Act:

Common Stock, \$0.01 par value

(Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Exchange Act.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes No

Indicate by check mark if disclosure of delinquent filers in response to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer
Non-accelerated filer
Emerging growth company

Accelerated filer
Smaller reporting company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

State the aggregate market value of the voting and non-voting common equity held by non-affiliates computed by reference to the price at which the common equity was last sold, or the average bid and asked price of such common equity, as of June 30, 2018: \$15,043,000.

As of February 28, 2019, 13,515,236 shares of the issuer's Common Stock were outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant's definitive Proxy Statement filed in connection with the Registrant's 2018 Annual Meeting of Stockholders are incorporated by reference into Part III of this Annual Report on Form 10-K.

PART I

Item 1. Description of Business.

In addition to the historical information contained herein, the discussion in this Annual Report on Form 10-K contains certain forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, that involve risks and uncertainties, such as statements concerning:

- growth and anticipated operating results;
- developments in our markets and strategic focus;
- new products and product enhancements;
- potential acquisitions and the integration of acquired businesses, products and technologies;
- strategic relationships and future economic and business conditions.

The cautionary statements made in this Form 10-K should be read as being applicable to all related forward-looking statements whenever they appear in this Form 10-K. Our actual results could differ materially from the results discussed in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed under the section captioned “Risk Factors” in Item 1A of this Form 10-K as well as those cautionary statements and other factors set forth elsewhere herein.

General

We develop, market and support a family of entity identification, high speed data mining, cybercrime and advanced persistent threat detection products.

Our product families include:

- TraceCop for entity identification, cybercrime detection and disclosure, and;
- Savant for high speed data mining and analytics, and advanced persistent threat detection.

Intrusion’s products help protect critical information assets by quickly detecting, protecting, analyzing and reporting attacks or misuse of classified, private and regulated information for government and enterprise networks.

We market and distribute our products through a direct sales force to:

- end-users, and
- value-added resellers.

Our end-user customers include:

- U.S. federal government entities,
- state and local government entities,
- large and diverse conglomerates,
- manufacturing entities, and
- other customers.

We were organized in Texas in September 1983 and reincorporated in Delaware in October 1995. Our principal executive offices are located at 1101 East Arapaho Road, Suite 200, Richardson, Texas 75081, and our telephone number is (972) 234-6400. Our website URL is www.intrusion.com. References to the “Company”, “we”, “us”, “our”, “Intrusion” or “Intrusion Inc.” refer to Intrusion Inc. and its subsidiaries. TraceCop and Savant are trademarks of Intrusion Inc.

Government Sales

Sales to U.S. government customers accounted for 83.9% of our revenues for the year ended December 31, 2018, compared to 81.6% of our revenue in 2017. We expect to continue to derive a substantial portion of our revenues from sales to governmental entities in the future as we continue to market our entity identification products and data mining products to the government. Sales to the government present risks in addition to those involved in sales to commercial customers that could adversely affect our revenues, including potential disruption due to irregularities in or interruptions to appropriation and spending patterns, delays in approving a federal budget and the government's reservation of the right to cancel contracts and purchase orders for its convenience.

Generally, we make our sales under purchase orders and contracts. Our customers, including government customers, may cancel their orders or contracts with little or no prior notice and without penalty. Although we transact business with various government entities, we believe that the cancellation of any particular order in itself could have a material adverse effect on our financial results. Because we derive and expect to continue to derive a substantial portion of our revenue from sales to government entities, a large number of cancelled or renegotiated government orders or contracts could have a material adverse effect on our financial results. Currently, we are not aware of any proposed cancellation or renegotiation of any of our existing arrangements with government entities.

Industry Background

We develop, market and support a family of entity identification, data mining and advanced persistent threat detection products. Our product families include:

- The TraceCop™ product line, which includes a number of our proprietary supporting tools, allows our customers and in-house cyber analysts to accurately discover and help identify 'bad actors' associated with cybercrime.
- The Savant™ product is a 'purpose-built', very high-speed network data mining and analytics software package that is easily installed on commercial off the shelf platforms.

Our customers use our products as an integral part of protecting their critical infrastructure and data information assets. By quickly detecting, protecting, analyzing and reporting attacks, along with the potential misuse of classified information, we have become a key component to the daily challenges of cyber security for both government and large enterprises.

Products

TraceCop

Our TraceCop product family includes a database of worldwide IP addresses, registrant information and their associations, along with a plurality of related IP information, some dating back nearly two decades. When combined with Intrusion's multitude of cyber security 'global threat feeds', along with our TraceCop family of proprietary supporting tools, this vast and ever expanding capability is used in conjunction with our customer's data to help identify areas of vulnerability and potential cyber security threats. In addition to its extensive capability, the TraceCop family includes analytical software with a GUI interface to assist the analysts in locating cybercriminals and other potential 'bad actors' or network anomalies. We offer our customers a daily, weekly or monthly enrichment service to assist them in the culling of 'good' data traffic from potential threats.

Intrusion licenses TraceCop to our customers for a yearly fee and offers scheduled updates. Intrusion will either install and update the database at the Intrusion facility or install TraceCop on a customer server onsite. Updates are delivered via secure Internet feed or removable storage devices.

Savant

Savant is a high speed network data mining and analysis product which organizes the data into networks of relationships and associations. Its patented design exceeds performance expectations and ensures 'deep dives' into data-in-motion in order to quickly and accurately detect advanced persistent threats. Savant can operate on networks with data flows of over 20 gigabits per second, and still maintain a 100% inspection rate of all packets.

The Savant solution provides real-time access and insight into a company's own indisputable and quantifiable network data for more effective, unbiased examination of their flows. Uses of the Savant product include data mining, data loss prevention, advanced persistent threat detection and identification of Internet habits of network users. Savant is a software product which we license to our customers for which we sell data updates. We also offer the option to fully implement a server and re-sell to the customer as a turn-key solution.

Third-Party Products

We currently resell standard commercially available computers and servers from various vendors which we integrate with our different software products for implementation into our customer networks. We do not consider any of these third party relationships to be material to the Company's business or results of operations.

Customer Services

Our product sales may include installation and threat data interpretation.

Product Development

The network security industry is characterized by rapidly changing technology standards and customer demands all shaped by the current state of the economy. We believe that our future success depends in large part upon the timely enhancement of existing products as well as the development of new technologically advanced products that meet cybersecurity industry needs and perform successfully and efficiently. We are currently marketing TraceCop and Savant products to meet emerging market requirements and are continuously engaged in testing to ensure that our products interoperate with other manufacturers' products, which comply with industry standards.

During 2018 and 2017, our research and development expenditures were approximately \$1.2 and \$2.2 million, respectively. All of our expenditures for research and development have been expensed as incurred. At December 31, 2018, we had 21 employees engaged in research, product development and engineering. At certain times during the year, research and development labor expense has been shifted to direct labor to support ongoing projects.

Manufacturing and Supplies

Our internal manufacturing operations consist primarily of software, packaging, testing and quality control of finished units. The hardware we sell are standard off-the-shelf products.

Intellectual Property and Licenses

Our success and our ability to compete are dependent, in part, upon our proprietary technology. We principally rely on a combination of contractual rights, trade secrets and copyright laws to establish and protect our proprietary rights in our products. In addition, we have received two patents. We have also entered into non-disclosure agreements with our suppliers, resellers and certain customers to limit access to and disclosure of proprietary information. There can be no assurance that the steps taken by us to protect our intellectual property will be adequate to prevent misappropriation of our technology or that our competitors will not independently develop technologies that are substantially equivalent or superior to our technology.

We have entered into software and product license agreements with various suppliers. These license agreements provide us with additional software and hardware components that add value to our security products. These license agreements do not provide proprietary rights that are unique or exclusive to us and are generally available to other parties on the same or similar terms and conditions, subject to payment of applicable license fees and royalties. We do not consider any of the product license, software or supplier agreements to be material to our business, but rather complementary to our business and product offerings.

Sales, Marketing and Customers

Field Sales Force. Our direct sales organization focuses on major account sales, channel partners including distributors, value added resellers (VARs) and integrators; promotes our products to current and potential customers; and monitors evolving customer requirements. The field sales and technical support force provides training and technical support to our resellers and end users and assists our customers in designing cyber secure data networking solutions. We currently conduct sales and marketing efforts from our principal office in Richardson (Dallas), Texas. In addition, we have sales personnel, sales engineers or sales representatives located in Virginia and California.

Resellers. Resellers such as domestic and international system integrators and VARs sell our products as stand-alone solutions to end users and integrate our products with products sold by other vendors into network security systems that are sold to end users. Our field sales force and technical support organization provide support to these resellers. Our agreements with resellers are non-exclusive, and our resellers generally sell other products that may compete with our products. Resellers may place higher priority on products of other suppliers who are larger and have more name recognition, and there can be no assurance that resellers will continue to sell and support our products.

Foreign Sales. Export sales did not account for any revenue in 2018 and 2017. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in this report for a geographic breakdown of our revenue in 2018 and 2017.

Marketing. We have implemented several methods to market our products, including participation in trade shows and seminars, distribution of sales literature and product specifications and ongoing communication with our resellers and installed base of end-user customers.

Customers. Our end-user customers include U.S. federal government, state and local government entities, large and diversified conglomerates and manufacturing entities. Sales to certain customers and groups of customers can be impacted by seasonal capital expenditure approval cycles, and sales to customers within certain geographic regions can be subject to seasonal fluctuations in demand.

In 2018, 83.9% of our revenue was derived from a variety of U.S. government entities through direct sales and indirectly through system integrators and resellers. These sales are attributable to ten U.S. Government customers through direct and indirect channels; four exceeded 10% of total revenue individually in 2018. Comparatively, sales to the U.S. Government through direct and indirect channels totaled 81.6% of total revenues for 2017. Those sales were attributable to six U.S. Government customers through direct and indirect channels; three exceeded 10% of total revenue individually in 2017. A reduction in our sales to U.S. government entities could have a material adverse effect on our business and operating results if not replaced.

Backlog. We believe that only a small portion of our order backlog is non-cancelable and that the dollar amount associated with the non-cancelable portion is immaterial. We purchase, or contract for the purchase of, our inventory based upon our forecast of customer demand and we maintain inventories in advance of receiving firm orders from customers. Commercial orders are generally fulfilled within two days to two weeks following receipt of an order. Certain orders may be scheduled over several months, generally not exceeding one year.

Customer Support, Service and Warranty. We service, repair and provide technical support for our products. Our field sales and technical support force works closely with resellers and end-user customers on-site and by telephone to assist with pre- and post-sales support services such as network security design, system installation and technical consulting. By working closely with our customers, our employees increase their understanding of end-user requirements and provide input to the product development process.

We warrant all of our products against defects in materials and workmanship for periods ranging from 90 days to 36 months. Before and after expiration of the product warranty period, we offer both on-site and factory-based support, parts replacement and repair services. Extended warranty services are separately invoiced on a time and materials basis or under an annual maintenance contract.

Competition

The market for network and data protection security solutions is intensely competitive and subject to frequent product introductions with new technologies, improved price and performance characteristics. Industry suppliers compete in areas such as conformity to existing and emerging industry standards, interoperability with networking and other security products, management and security capabilities, performance, price, ease of use, scalability, reliability, flexibility, product features and technical support. The market for identity identification and data mining is more fragmented and thus allows more opportunities for small companies to compete in.

There are numerous companies competing in various segments of the data security markets. At this time, we have limited competitors for TraceCop; however, we expect competitors to emerge in the future. These competitors perform only a portion of the functions that we currently perform with TraceCop. Also, we have been collecting the TraceCop data continuously for more than ten years. We believe that none of our current or future competitors have the ability to provide this historical data. In our newest market segment, data mining and advanced persistent threat detection, we compete with several companies including Niksun, NetScout, Fireeye and Palo Alto Networks.

Furthermore, some of our competitors have substantially greater financial, technical, sales and marketing resources, better name recognition and a larger customer base than we do. Even if we do introduce advanced products that meet evolving customer requirements in a timely manner, there can be no assurance that our new products will gain market acceptance.

Certain companies in the network security industry have expanded their product lines or technologies in recent years as a result of acquisitions. Further, more companies have developed products which conform to existing and emerging industry standards and have sought to compete on the basis of price. We anticipate increased competition from large networking equipment vendors, which are expanding their capabilities in the network security market. In addition, we anticipate increased competition from private "start-up" companies that have developed, or are developing, advanced security products. Increased competition in the security industry could result in significant price competition, reduced profit margins or loss of market share, any of which could have a material adverse effect on our business, operating results and financial condition. There can be no assurance that we will be able to compete successfully in the future with current or new competitors.

Employees

As of December 31, 2018, we employed a total of 31 full time persons, including 6 in sales, marketing and technical support, 21 in research, product development and engineering, and 4 in administration and finance.

None of our employees are represented by a labor organization, and we are not a party to any collective bargaining agreement. We have not experienced any work stoppages and consider our relations with our employees to be good.

Competition in the recruiting of personnel in the networking and data security industry is intense. We believe that our future success will depend in part on our continued ability to hire, motivate and retain qualified management, sales, marketing, and technical personnel. To date, we have not experienced significant difficulties in attracting or retaining qualified employees.

Item 1A. Risk Factors

In addition to the other information in this Form 10-K, the following factors should be considered in evaluating Intrusion Inc. and our business.

We may not have sufficient cash to operate our business and may not be able to maintain certain liquidity requirements under our existing debt instruments. Additional debt and equity offerings to fund future operations may not be available and, if available, may significantly dilute the value of our currently outstanding common stock.

As of December 31, 2018, we had cash and cash equivalents of approximately \$1,652,000, up from approximately \$224,000 as of December 31, 2017. We generated a net income of \$2,287,000 for the year ended December 31, 2018 compared to net loss of \$30,000 for the year ended December 31, 2017. The net loss in 2017 included other income of \$928,000, of which \$872,000 came from the sale of certain unused IP addresses and \$56,000 from the sale of an investment. As of February 28, 2019, in addition to cash and cash equivalents, \$885,000 of funding is available from a promissory note to borrow up to \$2.7 million from G. Ward Paxton, the Company's Chief Executive Officer. We are obligated to make payments of accrued dividends on all our outstanding shares of preferred stock that will reduce our available cash resources. Based on projections of growth in revenue and net income in the coming quarters, and the borrowings available previously mentioned, we believe that we will have sufficient cash resources to finance our operations and expected capital expenditures through March 31, 2020. We expect to fund our operations through anticipated Company profits, borrowings from the Company's CEO, and possibly additional investments of private equity and debt, which, if we are able to obtain, could have the effect of diluting our existing common stockholders, perhaps significantly. Any equity or debt financings, if available at all, may be on terms which are not favorable to us and, in the case of equity financings, may result in dilution to our stockholders. If our operations do not generate positive cash flow in the upcoming year, or if we are not able to obtain additional debt or equity financing on terms and conditions acceptable to us, if at all, we may be unable to implement our business plan, fund our liquidity needs or even continue our operations.

We had a net income of \$ 2. 3 million for the year ended December 31, 201 8 and have an accumulated deficit of 59.2 million as of December 31, 201 8 . To continue profitability, we must continue to generate consistent or increased revenue.

For the year ended December 31, 2018, we had a net income of \$2.3 million and had an accumulated deficit of approximately \$59.2 million as of December 31, 2018, compared to a net loss of \$30 thousand and an accumulated deficit of approximately \$61.5 million as of December 31, 2017. We need to continue to generate consistent or greater revenue from the sales of our products and services if we are to continue profitability. If we are unable to generate consistent or greater revenue growth, net losses may occur and we may not be able to generate positive cash flow from operations in the future.

If our products do not achieve market acceptance, our revenue growth may suffer.

Our security products, advanced persistent threat detection and entity identification products have been in the market place for a limited period of time and may have longer sales cycles than our previous products. Accordingly, we may not achieve the meaningful revenue growth needed to sustain operations. We can provide no assurances that sales of our newer products will grow or generate sufficient revenues to sustain our business. If we are unable to recognize revenues due to longer sales cycles or other problems, our results of operations will be adversely affected, perhaps materially.

We have not yet received broad market acceptance for our products. We cannot assure you that our present or future products will achieve market acceptance on a sustained basis. In order to achieve market acceptance and achieve future revenue growth, we must introduce complementary security products, incorporate new technologies into our existing product lines and design, develop and successfully commercialize higher performance products in a timely manner. There is no assurance that we will be able to offer new or complementary products that gain market acceptance quickly enough to avoid decreased revenues during current or future product introductions or transitions.

A large percentage of our revenues are received from U.S. government entities, and the loss of any one of these customers could reduce our revenues and materially harm our business and prospects.

A large percentage of our revenues result from sales to U.S. government entities. If we were to lose one or more of these key relationships, our revenues could decline and our business and prospects may be materially harmed. We expect that even if we are successful in developing relationships with non-governmental customers, our revenues will continue to be concentrated among government entities. For the years ended December 31, 2016, 2017 and 2018, sales to U.S. government entities collectively accounted for 69.3%, 81.6% and 83.9% of our total net revenues, respectively. The loss of any of these key relationships may send a negative message to other U.S. government entities or non-governmental customers concerning our product offering. There is no assurance that U.S. government entities will be customers of ours in future periods or that we will be able to diversify our customer portfolio to adequately mitigate the risk of loss of any of these customers.

Government customers involve unique risks, which could adversely impact our revenues.

We expect to continue to derive a substantial portion of our revenues from U.S. government customers in the future. Sales to the government present risks in addition to those involved in sales to commercial customers, including potential disruption due to appropriation and spending patterns, delays in approving a federal budget and the government's right to cancel contracts and purchase orders for its convenience. General political and economic conditions, which we cannot accurately predict, directly and indirectly may affect the quantity and allocation of expenditures by federal departments. In addition, obtaining government contracts may involve long purchase and payment cycles, competitive bidding, qualification requirements, delays or changes in funding, budgetary constraints, political agendas, extensive specification development and price negotiations and milestone requirements. Each government entity also maintains its own rules and regulations with which we must comply and which can vary significantly among departments. As a result, cutbacks or re-allocations in the federal budget or losses of government sales due to other factors could have a material adverse effect on our revenues and operating results.

We are highly dependent on sales made through indirect channels, the loss of which would materially adversely affect our operations.

For the years ended December 31, 2016, 2017 and 2018, we derived 70.7%, 81.6% and 83.9% of our revenues from sales through indirect sales channels, such as distributors, value-added resellers, system integrators, original equipment manufacturers and managed service providers. We must expand our sales through these indirect channels in order to increase our revenues. We cannot assure you that our products will gain market acceptance in these indirect sales channels or that sales through these indirect sales channels will increase our revenues. Further, many of our competitors are also trying to sell their products through these indirect sales channels, which could result in lower prices and reduced profit margins for sales of our products.

The payment of dividends on our preferred stock may strain our cash resources.

On March 25, 2004, we completed a \$5,000,000 private placement pursuant to which we issued 1,000,000 shares of our 5% Convertible Preferred Stock (the "Series 1 Preferred Stock") and warrants to acquire 556,619 shares of our common stock. The conversion price for the Series 1 Preferred Stock is \$3.144 per share. As of February 28, 2019, there were 200,000 shares of the Series 1 Preferred Stock outstanding, representing approximately 318,065 shares of common stock upon conversion.

On March 28, 2005, we completed a \$2,663,000 private placement pursuant to which we issued 1,065,200 shares of our Series 2 5% Convertible Preferred Stock (the "Series 2 Preferred Stock") and warrants to acquire 532,600 shares of our common stock. The conversion price for the Series 2 Preferred Stock is \$2.50 per share. As of February 28, 2019, there were 460,000 shares of the Series 2 Preferred Stock outstanding, representing 460,000 shares of common stock upon conversion.

On December 2, 2005, we completed a \$1,230,843 private placement pursuant to which we issued 564,607 shares of our Series 3 5% preferred stock (the “Series 3 Preferred Stock”) and warrants to acquire 282,306 shares of our common stock. The conversion price for the Series 3 Preferred Stock is \$2.18 per share. As of February 28, 2019, there were 289,377 shares of Series 3 Preferred Stock outstanding, representing 289,377 shares of common stock upon conversion.

If we are unable to pay scheduled dividends on shares of our preferred stock it could potentially result in additional consequences, some of them material.

Delaware law provides that we may only pay dividends out of our capital surplus or, if no surplus is available, out of our net profits for the fiscal year the dividend is declared and/or the preceding fiscal year. We have become delinquent in our dividend payments that became past due because we did not have a capital surplus or fiscal year net profits. However, in light of our net profits for the fiscal year ended December 31, 2018, we are able to and have paid these past due dividends as of the date of this Annual Report. However, dividends continue to accrue on all our outstanding shares of preferred stock, regardless of whether we are legally able to pay them, and we cannot assure you that our net assets will exceed our stated capital or that we will have sufficient net profits in order to pay these dividends as they continue to accrue in the future. If we are unable to pay dividends on our preferred stock, we are required to accrue an additional late fee penalty of 18% per annum on the unpaid dividends for the Series 2 Preferred Stock and Series 3 Preferred Stock. In addition to this late penalty, the holders of our Series 2 Preferred Stock and Series 3 Preferred Stock could elect to present us with written notice of any failure to pay dividends as scheduled, in which case we would have 45 days to cure such a breach. In the event that we failed to cure the breach, the holders of these shares of preferred stock would then have the right to require us to redeem their shares of preferred stock for a cash amount calculated in accordance with their respective certificates of designation.

During the year ended December 31, 2018, we accrued \$50,000 in dividends to the holders of our 5% Preferred Stock, \$57,000 in dividends to the holders of our Series 2 5% Preferred Stock and \$32,000 in dividends to the holders of our Series 3 5% Preferred Stock. As of December 31, 2018 and 2017, we had \$594,000 and \$447,000 in accrued and unpaid dividends included in other current liabilities. Delaware law provides that we may only pay dividends out of our capital surplus or, if no surplus is available, out of our net profits for the fiscal year the dividend is declared and/or the preceding fiscal year. This has been in effect since December 31, 2014. However, in light of our net profits for the fiscal year ended December 31, 2018, we are able to and have paid these past due dividends as of the date of this Annual Report. However, dividends continue to accrue on all our outstanding shares of preferred stock, regardless of whether we are legally able to pay them, and we cannot assure you that our net assets will exceed our stated capital or that we will have sufficient net profits in order to pay these dividends as they continue to accrue in the future. If we are unable to pay dividends on our preferred stock, we will be required to accrue an additional late fee penalty of 18% per annum on the unpaid dividends for the Series 2 Preferred Stock and Series 3 Preferred Stock.

You will experience substantial dilution upon the conversion or redemption of the shares of preferred stock or in the event we raise additional funds through the issuance of new shares of our common stock or securities convertible or exercisable into shares of common stock.

On February 28, 2019, we had 13,515,236 shares of common stock outstanding. Upon conversion of all outstanding shares of preferred stock, we would have 14,582,679 shares of common stock outstanding, approximately an 7.9% increase in the number of shares of our common stock outstanding.

In addition, management may issue additional shares of common stock or securities exercisable or convertible into shares of common stock in order to finance our continuing operations. Any future issuances of such securities would have additional dilutive effects on the existing holders of our Common Stock.

Further, the occurrence of certain events could entitle holders of our Series 2 Preferred Stock and Series 3 Preferred Stock to require us to redeem their shares for a certain number of shares of our common stock. Assuming (i) we have paid all liquidated damages and other amounts to the holders, (ii) paid all outstanding dividends, (iii) a volume weighted average price of \$4.08, which was the ten-day volume weighted average closing price of our common stock on March 1, 2019, and (iv) our 13,515,236 shares of common stock outstanding on February 28, 2019, upon exercise of their redemption right by the holders of the Series 3 Preferred Stock and the Series 2 Preferred Stock, we would be obligated to issue approximately 107,000 shares of our common stock. This would represent an increase of approximately 0.8% in the number of shares of our common stock as of February 28, 2019.

The conversion of preferred stock we issued in the private placements may cause the price of our common stock to decline.

The holders of the shares of our 5% Preferred Stock may freely convert their shares of preferred stock and sell the underlying shares of common stock pursuant to Rule 144 of the Securities and Exchange Commission. As of February 28, 2019, 800,000 shares of our 5% Preferred Stock had converted into 1,272,263 shares of common stock.

The holders of the shares of Series 2 5% Preferred Stock may freely convert their shares of preferred stock and sell the underlying shares of common stock pursuant to Rule 144 of the Securities and Exchange Commission. As of February 28, 2019, 605,200 shares of Series 2 Preferred Stock had converted into 605,200 shares of common stock.

The holders of the shares of Series 3 5% Preferred Stock may freely convert their shares of Series 3 Preferred Stock and sell the underlying shares of common stock pursuant to Rule 144 of the Securities and Exchange Commission. As of February 28, 2019, 275,230 shares of Series 3 Preferred Stock had converted into 275,230 shares of common stock.

For the four weeks ended on March 1, 2019, the average daily trading volume of our common stock on the OTCQB was 23,134 shares. Consequently, if holders of preferred stock elect to convert their remaining shares and sell a material amount of their underlying shares of common stock on the open market, the increase in selling activity could cause a decline in the market price of our common stock. Furthermore, these sales, or the potential for these sales, could encourage short sales, causing additional downward pressure on the market price of our common stock.

Certain rights of the holders of our preferred stock and the terms of our secured credit line may hinder our ability to raise additional financing.

Under the terms of our preferred stock instruments, we cannot issue shares of capital stock with rights senior to those of our existing 5% Preferred Stock, Series 2 5% Preferred Stock or Series 3 5% Preferred Stock without the approval of at least a majority of the holders of our 5% Preferred Stock, all of the holders of our Series 2 5% Preferred Stock, and holders of at least 75% of our Series 3 5% Preferred Stock voting or acting as separate classes. We also cannot incur certain indebtedness without the approval of at least a majority of the holders of each class of our Preferred Stock.

You will experience substantial dilution upon the exercise of certain stock options currently outstanding.

On February 28, 2019, we had 13,515,236 shares of common stock outstanding. Upon the exercising of current options issued at or below the exercise price of \$2.73, we will have approximately 14,421,000 shares of common stock outstanding, a 6.7% increase in the number of shares of our common stock outstanding.

We resemble a developmental stage company and our business strategy may not be successful.

We depend exclusively on revenues generated from the sale of our network security/advanced persistent threat detection products (Savant), which have received limited market acceptance and our entity identification, data mining and analytic product (TraceCop). We can provide no assurances that our products will ever achieve widespread market acceptance or that an adequate market for these products will ever emerge. Consequently, we resemble a developmental stage company and will face the following inherent risks and uncertainties:

- the need for our entity identification, data mining and advanced persistent threat detection products to achieve market acceptance and produce a sustainable revenue stream;
- our ability to manage costs and expenses;
- our dependence on key personnel;
- our ability to obtain financing on acceptable terms; and
- our ability to offer greater value than our competitors.

Our business strategy may not successfully address these risks. If we fail to recognize significant revenues from the sales of our entity identification, data mining and advanced persistent threat detection products, our business, financial condition and operating results would be materially adversely affected.

If we fail to respond to rapid technological changes in the network security industry, we may lose customers or our products may become obsolete.

The network security industry is characterized by frequent product introductions, rapidly changing technology and continued evolution of new industry standards. We must also introduce upgrades to our products rapidly in response to customer needs such as new computer viruses or other novel external attacks on computer networks. In addition, the nature of the network security industry requires our products to be compatible and interoperable with numerous security products, networking products, workstation and personal computer architectures and computer and network operating systems offered by various vendors, including our competitors. As a result, our success depends upon our ability to develop and introduce in a timely manner new products and enhancements to our existing products that meet changing customer requirements and evolving industry standards. The development of technologically advanced network security products is a complex and uncertain process requiring high levels of innovation, rapid response and accurate anticipation of technological and market trends. We cannot assure you that we will be able to identify, develop, manufacture, market or support new or enhanced products successfully in a timely manner. Further, we or our competitors may introduce new products or product enhancements that shorten the life cycle of our existing products or cause our existing products to become obsolete.

We face intense competition from both start-up and established companies that may have significant advantages over us and our products.

The market for our products is intensely competitive. There are numerous companies competing with us in various segments of the data security markets, and their products may have advantages over our products in areas such as conformity to existing and emerging industry standards, interoperability with networking and other security products, management and security capabilities, performance, price, ease of use, scalability, reliability, flexibility, product features and technical support.

Our principal competitors in the data mining and advanced persistent threat market include Niksun, NetScout, Fireeye (Mandiant) and Palo Alto Networks. Our current and potential competitors may have one or more of the following significant advantages over us:

- greater financial, technical and marketing resources;
- better name recognition;
- more comprehensive security solutions;
- better or more extensive cooperative relationships; and
- larger customer base.

We cannot assure you that we will be able to compete successfully with our existing or new competitors. Some of our competitors may have, in relation to us, one or more of the following: longer operating histories, longer-standing relationships with OEM and end-user customers and greater customer service, public relations and other resources. As a result, these competitors may be able to more quickly develop or adapt to new or emerging technologies and changes in customer requirements, or devote greater resources to the development, promotion and sale of their products. Additionally, it is likely that new competitors or alliances among existing competitors could emerge and rapidly acquire significant market share.

Our management and larger stockholders exercise significant control over our Company and have the ability to approve or take actions that may be in conflict to your interests.

As of February 28, 2019, our executive officers, directors and preferred stockholders beneficially own approximately 31% of our voting power. In addition, other related parties control approximately 27% of our voting power. As a result, these stockholders will be able to exercise significant control over all matters requiring stockholder approval, including the election of directors and approval of significant corporate transactions, which could delay or prevent someone from acquiring or merging with us. These stockholders may use their influence to approve or take actions that may be adverse to the interests of other holders of our Common Stock. Further, we contemplate the possible issuance of shares of our Common Stock or of securities exercisable or convertible into shares of our Common Stock in the future to our Chief Executive Officer and Chief Financial Officer. Any such issuance will increase the percentage of stock our Chief Executive Officer, Chief Financial Officer and our management group beneficially hold.

Our products are highly technical and if they contain undetected errors, our business could be adversely affected and we might have to defend lawsuits or pay damages in connection with any alleged or actual failure of our products and services.

Our products are highly technical and complex, are critical to the operation of many networks and, in the case of our security products, provide and monitor network security and may protect valuable information. Our products have contained and may contain one or more undetected errors, defects or security vulnerabilities. Some errors in our products may only be discovered after a product has been installed and used by end customers. Any errors or security vulnerabilities discovered in our products after commercial release could result in loss of revenues or delay in revenue recognition, loss of customers and increased service and warranty cost, any of which could adversely affect our business and results of operations. In addition, we could face claims for product liability, tort or breach of warranty. Defending a lawsuit, regardless of its merit, is costly and may divert management's attention. In addition, if our business liability insurance coverage is inadequate or future coverage is unavailable on acceptable terms or at all, our financial condition could be harmed.

A breach of network security could harm public perception of our security products, which could cause us to lose revenues.

If an actual or perceived breach of network security occurs in the network of a customer of our security products, regardless of whether the breach is attributable to our products, the market perception of the effectiveness of our products could be harmed. This could cause us to lose current and potential end customers or cause us to lose current and potential value-added resellers and distributors. Because the techniques used by computer hackers to access or sabotage networks change frequently and generally are not recognized until launched against a target, we may be unable to anticipate these techniques.

If our products do not interoperate with our customers' networks, installations will be delayed or cancelled and could harm our business.

Our products are designed to interface with our customers' existing networks, each of which have different specifications and utilize multiple protocol standards and products from other vendors. Many of our customers' networks contain multiple generations of products that have been added over time as these networks have grown and evolved. Our products will be required to interoperate with many or all of the products within these networks as well as future products in order to meet our customers' requirements. If we find errors in the existing software or defects in the hardware used in our customers' networks, we may have to modify our software or hardware to fix or overcome these errors so that our products will interoperate and scale with the existing software and hardware, which could be costly and negatively impact our operating results. In addition, if our products do not interoperate with those of our customers' networks, demand for our products could be adversely affected, orders for our products could be cancelled or our products could be returned. This could hurt our operating results, damage our reputation and seriously harm our business and prospects.

Our products can have long sales and implementation cycles, which may result in us incurring substantial expenses before realizing any associated revenues.

The sale and implementation of our products to large companies and government entities typically involves a lengthy education process and a significant technical evaluation and commitment of capital and other resources. This process is also subject to the risk of delays associated with customers' internal budgeting and other procedures for approving capital expenditures, deploying new technologies within their networks and testing and accepting new technologies that affect key operations. As a result, sales and implementation cycles for our products can be lengthy, and we may expend significant time and resources before we receive any revenues from a customer or potential customer. Our quarterly and annual operating results could be materially harmed if orders forecast for a specific customer and for a particular period are not realized.

Consolidation in the network security industry may limit market acceptance of our products.

Several of our competitors have acquired security companies with complementary technologies in the past. We expect consolidation in the network security industry to continue in the future. These acquisitions may permit our competitors to accelerate the development and commercialization of broader product lines and more comprehensive solutions than we currently offer. Acquisitions of vendors or other companies with which we have a strategic relationship by our competitors may limit our access to commercially significant technologies. Further, business combinations in the network security industry are creating companies with larger market shares, customer bases, sales forces, product offerings and technology and marketing expertise, which may make it more difficult for us to compete.

We must adequately protect our intellectual property in order to prevent loss of valuable proprietary information.

We rely primarily on a combination of patent, copyright, trademark and trade secret laws, confidentiality procedures and non-disclosure agreements to protect our proprietary technology. However, unauthorized parties may attempt to copy or reverse-engineer aspects of our products or to obtain and use information that we regard as proprietary. Policing unauthorized use of our products is difficult, and we cannot be certain that the steps we have taken will prevent misappropriation of our intellectual property. This is particularly true in foreign countries where the laws may not protect proprietary rights to the same extent as the laws of the United States and may not provide us with an effective remedy against unauthorized use. If our protection of our intellectual property proves to be inadequate or unenforceable, others may be able to use our proprietary developments without compensation to us, resulting in potential cost advantages to our competitors.

We may incur substantial expenses defending ourselves against claims of infringement.

There are numerous patents held by many companies relating to the design and manufacture of network security systems. Third parties may claim that our products infringe on their intellectual property rights. Any claim, with or without merit, could consume our management's time, result in costly litigation, cause delays in sales or implementations of our products or require us to enter into royalty or licensing agreements. Royalty and licensing agreements, if required and available, may be on terms unacceptable to us or detrimental to our business. Moreover, a successful claim of product infringement against us or our failure or inability to license the infringed or similar technology on commercially reasonable terms could seriously harm our business.

Fluctuations in our quarterly revenues may cause the price of our common stock to decline.

Our operating results have varied significantly from quarter to quarter in the past, and we expect our operating results to vary from quarter to quarter in the future due to a variety of factors, many of which are outside of our control. Significant portions of our expenses are not variable in the short term and we cannot reduce them quickly to respond to unexpected decreases in revenues. Therefore, if revenues are below our expectations, this shortfall is likely to adversely and disproportionately affect our operating results. Accordingly, we may not attain positive operating margins in future quarters. Any of these factors could cause our operating results to be below the expectations of securities analysts and investors, which likely would negatively affect the price of our common stock.

The price of our common stock has been volatile in the past and may continue to be volatile in the future due to factors outside of our control.

The market price of our common stock has been highly volatile in the past and may continue to be volatile in the future. For example, in fiscal year 2018, the market price of our common stock on the OTCQB Marketplace ("OTCQB") fluctuated between \$0.81 and \$3.91 per share. The market price of our common stock may fluctuate significantly in the future in response to a number of factors, many of which are outside our control, including:

- variations in our quarterly operating results;
- changes in estimates of our financial performance by securities analysts;
- changes in market valuations of our competitors;
- thinly traded common stock;
- announcements by us or our competitors of new products, significant contracts, acquisitions, strategic relationships, joint ventures or capital commitments;
- product or design flaws, product recalls or similar occurrences;
- additions or departures of key personnel;
- sales of common stock in the future; and
- fluctuations in stock market prices and volume, which are relatively typical for high technology companies.

Our acquisition of complementary products or businesses may adversely affect our financial condition.

We have made acquisitions in the past and, in the future we may acquire or invest in additional companies, business units, product lines or technologies to accelerate the development of products and sales channels complementary to our existing products and sales channels. Negotiation of potential acquisitions and integration of acquired products, technologies or businesses could divert our management's time and resources. Future acquisitions could cause us to issue equity securities that would dilute your ownership of us, incur debt or contingent liabilities, amortize intangible assets or write off in-process research and development, goodwill and other acquisition-related expenses that could seriously harm our financial condition and operating results. Further, if we are not able to properly integrate acquired products, technologies or businesses with our existing products and operations, train, retain and motivate personnel from the acquired business or combine potentially different corporate cultures, we may not receive the intended benefits of our acquisitions, which could adversely affect our business, operating results and financial condition.

Compliance with export regulations may hinder our sales to foreign customers.

Certain of our data security products incorporate encryption and other technology that may require clearance and export licenses from the U.S. Department of Commerce under United States export regulations. Any inability to obtain these clearances or licenses or any foreign regulatory approvals, if required, on a timely basis could delay sales and have a material adverse effect on our operating results.

Item 2. Properties.

Our headquarters are located in a two-story building in Richardson, Texas. We occupy approximately 23,000 square feet of floor space in this facility. This facility houses our corporate administration, operations, marketing, research and development, engineering, sales and technical support personnel. The lease for this facility extends through November 2024.

Approximately thirty percent of our security software research and development and engineering staff are located in two separate small facilities in San Diego, California. The leases for these facilities are currently set to expire in March 2020.

We believe that the existing facilities at December 31, 2018, will be adequate to meet our operational requirements through 2019. We believe that all such facilities are adequately covered by appropriate property insurance. See Note 4 to our Consolidated Financial Statements for additional information regarding our obligations under leases.

Item 3. Legal Proceedings.

We are subject to legal proceedings and claims that arise in the ordinary course of business. We do not believe that any claims exist where the outcome of such matters would have a material adverse effect on our consolidated financial position, operating results or cash flows. However, there can be no assurance such legal proceedings will not have a material impact on future results.

PART II

Item 5. Market for Common Equity and Related Stockholder Matters and Business Issuer Purchases of Equity Securities.

Our common stock trades on the OTCQB, where it is currently listed under the symbol “INTZ.” As of February 28, 2019, there were approximately 120 registered holders of record of our common stock. Quotations on the OTCQB reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not represent actual transactions.

Shares of our 5% convertible preferred stock accrue cash dividends equal to \$0.25 per share per annum, payable in arrears on March 31 and September 30 of each year, and shares of our Series 2 5% and Series 3 5% convertible preferred stock accrue cash dividends equal to \$0.125 and \$0.109 per share per annum, respectively, payable in arrears on the first business day of March, June, September and December of each year. During the fiscal year ended December 31, 2018, we accrued \$50,000 in dividends to the holders of our 5% Preferred Stock, \$57,000 in dividends to the holders of our Series 2 5% Preferred Stock and \$32,000 in dividends to the holders of our Series 3 5% Preferred Stock. Delaware law provides that we may only pay dividends out of our capital surplus or, if no surplus is available, out of our net profits for the fiscal year the dividend is declared and/or the preceding fiscal year.

All stock option plans under which our common stock is reserved for issuance have previously been approved by our stockholders. The following table provides summary information as of December 31, 2018 for all of our equity compensation plans (in thousands, except per share data). See Note 9 to our consolidated financial statements for additional discussion.

	Number of shares of common stock to be issued upon exercise of outstanding options	Weighted average exercise price of outstanding options	No. of shares of common stock remaining available for future issuance under equity compensation plans
Equity compensation plans approved by security holders	1,234.6 (1)	\$ 0.83	483.0
Equity compensation plans not approved by security holders	—	—	—
Total	1,234.6	\$ 0.83	483.0

(1) Included in the outstanding options are 1,117,600 from the 2005 Stock Incentive Plan and 117,000 from the 2015 Stock Option Plan.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

“Safe Harbor” Statement under the Private Securities Litigation Reform Act of 1995

This Annual Report on Form 10-K, including the sections entitled “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and “Description of Business,” contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to future events or to our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance, or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by the use of words such as “may,” “could,” “expect,” “intend,” “plan,” “seek,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” “continue,” or the negative of these terms or other comparable terminology. You should not place undue reliance on forward-looking statements since they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond our control and which could materially affect actual results, levels of activity, performance or achievements. Factors that may cause actual results to differ materially from current expectations, which we describe in more detail elsewhere in this Annual Report on Form 10-K under the heading “Risk Factors,” include, but are not limited to:

- failure to respond to rapid technological changes in the network security industry;
- failure of our regulated information compliance, and entity identification products to achieve market acceptance;
- our status as a developmental stage company;

- our need to generate substantially greater revenues from sales in order to achieve profitability;
- intense competition from both start-up and established companies that may have significant advantages over us and our products;
- disruption to our business due to military actions;
- long sales and implementation cycles of our products;
- insufficient cash to operate our business;
- the effect of consolidation in the network security industry;
- risks involved with Government customers;
- our inability to expand our sales;
- failure to adequately protect our intellectual property; or
- the rights of the holders of our preferred stock and the terms of our secured credit line.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary significantly from what we projected. Any forward-looking statement you read in this filing reflects our current views with respect to future events and is subject to these and other risks, uncertainties and assumptions relating to our operations, results of operations, growth strategy and liquidity. We assume no obligation to publicly update or revise these forward-looking statements for any reason, or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future.

Overview

We develop, market and support a family of entity identification products, data mining and advanced persistent threat detection products. Our product families include:

- The TraceCop™ product line, including a plurality of our proprietary supporting tools, allows our customers and in-house cyber analyst to accurately discover and help identify ‘bad actors’ associated with cybercrime. The TraceCop product family is built upon an extensive database based on over 20 years of Internet data, Internet understanding and cyber security analytical experience. Along with a multitude of cyber security ‘global threat feeds’, this vast and ever expanding database is used in conjunction with our customer’s data to help identify areas of vulnerability and potential cyber security threats. We offer our customers a daily, weekly or monthly enrichment service to assist them in the culling of ‘good’ data traffic from potential threats.
- The Savant™ product is a ‘purpose-built’, very high-speed network data mining and analytics software package that is easily installed on COTS (commercial of the shelf) platforms. Its patented design exceeds performance expectations and ensures ‘deep dives’ into data-in-motion in order to quickly and accurately detect advanced persistent threats.

Our customer’s use our products and services as an integral part of protecting their critical infrastructure and data information assets. By quickly detecting, protecting, analyzing and reporting attacks, along with the potential misuse of classified information, we have become a key component to the daily challenges of cybercrime for both government and large enterprises.

Our revenues have been fairly consistent over the past few years due primarily to our focus on our TraceCop and Savant product lines. To date, we have not encountered significant competition in the TraceCop and Savant markets that has caused us to decrease our sales prices when compared to sales prices in previous years. To help keep our operation expenses under control, we held our employee headcount at a reasonable level in 2018 compared to 2017. At December 31, 2017, we employed 31 full time persons and at December 31, 2018, we employed 31 full time persons. Our margins for direct labor only were comparable at 64.0% in 2017, and 63.0% in 2018.

In order for us to operate and grow our business, we must generate and sustain sufficient operating profits and cash flow in future periods. This will require us to continue to generate revenues from sales of our entity identification software, data mining and advanced persistent threat products. In order to obtain these sales, our products must gain acceptance in a competitive industry. We believe our ability to market and sell our TraceCop and Savant products into the marketplace in a timely manner and our efforts to effectively control spending levels will help us achieve these results.

Critical Accounting Policies and Estimates

Management's discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to product returns, bad debts, inventories, income taxes, warranty obligations, maintenance contracts and contingencies. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements.

Revenue Recognition

We generally recognize product revenue upon shipment. These products can include hardware, perpetual software licenses and data sets. Data set updates are the majority of our sales. We do not currently offer software on a subscription basis. Warranty costs and sales returns have not been material.

We recognize sales of our data sets in accordance with FASB ASC Topic 606 whereby revenue from contracts with customers is not recognized until all five of the following have been met:

- i) identify the contract with a customer;
- ii) identify the performance obligations in the contract;
- iii) determine the transaction price;
- iv) allocate the transaction price to the separate performance obligations; and
- v) recognize revenue upon satisfaction of a performance obligation.

Data updates are typically done monthly and revenue will be matched accordingly. Product sales may include maintenance and customer support allocated revenue in an arrangement using estimated selling prices of the delivered goods and services based on a selling price hierarchy using the relative selling price method. All of our product offering and service offering market values are readily determined based on current and prior stand-alone sales. We may defer and recognize maintenance, updates and support revenue over the term of the contract period, which is generally one year.

Service revenue, primarily including maintenance, training and installation, are recognized upon delivery of the service and typically are unrelated to product sales. To date, training and installation revenue has not been material. These revenues are included in net customer support and maintenance revenues in the statement of operations.

Our normal payment terms offered to customers, distributors and resellers are net 30 days domestically and net 45 days internationally. We do not offer payment terms that extend beyond one year and rarely do we extend payment terms beyond our normal terms. If certain customers do not meet our credit standards, we do require payment in advance to limit our credit exposure.

Shipping and handling costs are billed to the customer and included in product revenue. Shipping and handling expenses are included in cost of product revenue.

Allowances for Doubtful Accounts

We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. Our receivables are uncollateralized, and we expect to continue this policy in the future. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, increased allowances may be required. Historically, our estimates for sales returns and doubtful accounts have not differed materially from actual results.

Fair Value of Financial Instruments

We calculate the fair value of our assets and liabilities which qualify as financial instruments and include additional information in the notes to consolidated financial statements when the fair value is different than the carrying value of these financial instruments. The estimated fair value of accounts receivable, accounts payable and accrued expenses, and dividends payable approximate their carrying amounts due to the relatively short maturity of these instruments. Loan payable to officer is with a related party and as a result does not bear market rates of interest. Capital leases approximate fair value as they bear market rates of interest. Management believes based on its current financial position that it could not obtain comparable amounts of third party financing, and as such cannot estimate the fair value of the loans payable to officer. None of these instruments are held for trading purposes.

Results of Operations

The following tables set forth, for the periods indicated, certain financial data as a percentage of net revenue.

	Year Ended December 31,	
	2018	2017
Net product revenue	100.0%	100.0%
Total cost of revenue	37.4	41.2
Gross profit	62.6	58.8
Operating expenses:		
Sales and marketing	15.6	22.3
Research and development	12.1	31.5
General and administrative	10.8	15.9
Operating income (loss)	24.1	(10.9)
Interest expense, net	(1.8)	(3.0)
Other income, net	—	13.5
Income (loss) from operations before income taxes	22.3	(0.4)
Income tax provision	—	—
Net income (loss)	22.3	(0.4)
Preferred stock dividends accrued	(1.4)	(2.1)
Net income (loss) attributable to common stockholders	20.9%	(2.5)%

2018 compared with 2017

Net Revenue

Total revenue increased 49.8% to \$10.3 million in 2018 from \$6.9 million in 2017. The increase in revenue was related to growth in our TraceCop product line. We expect our product revenues to increase in the future as sales to existing customers continue and new customers are added.

There were no export sales in 2018 and 2017 primarily due to our focus on domestic revenue sales. Sales of our products internationally may be subject to currency exchange risk, which may cause our products to effectively increase in price, if the exchange rate moves significantly and the dollar gains value over the foreign currency.

Historically, due to the timing of our sales cycle, a significant portion of our monthly sales occurs in the second half of the month. Accordingly, our receivables increase at the end of each month, which causes a higher accounts receivable balance at month end. This monthly trend also causes an inflated comparative relationship between revenue and accounts receivable. We believe that this monthly trend will continue because monthly sales forecast and planning meetings are held in the first week of every month, the middle of the month is focused on sales calls to customers and the latter half of the month on closing sales.

Gross Profit

Gross profit increased 59.2% to \$6.4 million in 2018 from \$4.0 million in 2017. As a percentage of net revenue, gross profit increased from 58.8% in 2017 to 62.6% in 2018. Gross profit as a percentage of revenue, increased in 2018 compared to 2017 because of higher margin new projects and economies related to increased sales.

Gross profit as a percentage of net revenue is impacted by several factors, including shifts in product mix, changes in channels of distribution, sales volume, fluctuations in manufacturing costs, labor costs, pricing strategies, and fluctuations in sales of integrated third-party products.

Sales and Marketing

Sales and marketing expenses increased to \$1.6 million or 15.6% of net revenue in 2018, compared to \$1.5 million or 22.3% of net revenue in 2017. The increase in sales and marketing expense was due to an increase in sales labor expense. We expect sales and marketing expenses to increase as net revenue levels increase in 2019.

Research and Development

Research and development expenses decreased to \$1.2 million or 12.1% of net revenue in 2018 compared to \$2.2 million or 31.5% of net revenue in 2017. The decrease in research and development expense was due to labor expense shifted to direct labor costs on new projects. Our research and development costs are expensed in the period in which they are incurred. We expect research and development expenses to increase as net revenue levels increase in 2019.

General and Administrative

General and administrative expenses remained constant at \$1.1 million, or 10.8% of net revenue in 2018 compared to \$1.1 million or 15.9% of net revenue in 2017 as a result of continuing efforts to keep spending under control. We expect general and administration expenses to remain fairly constant but increase as net revenue levels increase in 2019.

Interest Expense

Interest expense decreased to \$189 thousand in 2018, compared to \$209 thousand in 2017. Interest expense decreased due to decreased amount of Loan Payable to Officer. Interest expense will vary in the future based on our cash flow and borrowing needs.

Other Income

On July 7, 2017, the Company entered into a sale of certain IP addresses that were not currently being used in the Company's business operations and were not required for the Company's future business plans. The net proceeds from the sale of these intellectual property assets were in the amount of \$872,000 which the Company received on August 9, 2017. In addition, \$56,000 was received on August 3, 2017, from the sale of an investment.

Income Taxes

Our effective income tax rate was 0% in 2018 and 2017 as valuation allowances have been recorded for the entire amount of the net deferred tax assets due to uncertainty of realization. On December 22, 2017, the U.S. enacted the Tax Cuts and Jobs Act ("the Tax Act") which significantly changed U.S. tax law. The Tax Act lowered the Company's statutory federal income tax rate from a maximum of 39% to a rate of 21% effective January 1, 2018.

Liquidity and Capital Resources

Our principal source of liquidity at December 31, 2018 was \$1.7 million of cash and cash equivalents. As of December 31, 2018, we do not hold investments with a stated maturity beyond one year. Working capital at December 31, 2018 was \$0.5 million, while at December 31, 2017, it was \$0.8 million.

Net cash provided by operations for the twelve months ended December 31, 2018, was \$2.6 million due primarily to a net income of \$2.3 million and the following sources of cash and non-cash items: an \$598 thousand increase in deferred revenue, a \$421 thousand increase in accounts payable and accrued expenses, \$68 thousand in depreciation expense, \$65 thousand in amortization expense of capital leases and other assets, a \$64 thousand write-off of the United Kingdom's cumulative translation adjustment, \$47 thousand in waived penalties on dividends, \$20 thousand in stock-based compensation, and a \$15 thousand decrease in inventories. This was partially offset by a \$1.0 million increase in accounts receivable and a \$2 thousand increase in prepaid expenses and other assets. Net cash provided by operations for the twelve months ended December 31, 2017, was \$272 thousand due to the following sources of cash and non-cash items: a \$291 thousand increase in accounts payable and accrued expenses, a \$30 thousand decrease in inventories, an \$11 thousand increase in deferred revenue, \$69 thousand in depreciation expense, \$137 thousand in amortization expense of capital leases and other assets, \$18 thousand in stock-based compensation, and \$33 thousand in waived penalties on dividends. This was partially offset by a net operating loss of \$30 thousand (the net loss in 2017 included other income of 928,000, of which \$872,000 came from the sale of certain unused IP addresses and \$56,000 from the sale of an investment), a \$217 thousand increase in accounts receivable, \$56 thousand gain on sale of investment, and a \$14 thousand increase in prepaid expenses and other assets. Future fluctuations in accounts receivable, inventory balances and accounts payable will be dependent upon several factors, including quarterly sales, timely collection of accounts receivable, and the accuracy of our forecasts of product demand and component requirements.

Net cash provided used in investing activities in 2018 was \$202 thousand for purchases of property and equipment. Net cash provided by investing activities in 2017 was \$36 thousand primarily from the proceeds from the sale of investments of \$56 thousand and offset by using \$20 thousand for purchases of property and equipment.

Net cash used in financing activities in 2018 was \$0.9 million primarily due to payments on the loan by an officer of \$1.2 million with a \$66 thousand payment on principal on capital leases. This was directly offset by the following provisions of cash: proceeds from a loan by an officer of \$150 thousand and \$168 thousand from the exercise of stock options. Net cash used by financing activities in 2017 was \$0.1 million primarily due to payments on the loan by an officer of \$1.89 million with a \$139 thousand payment on principal on capital leases. This was directly offset by the following provisions of cash: proceeds from a loan by an officer of \$1.87 million and \$11 thousand from the exercise of stock options.

At December 31, 2018, we had a commitment of \$128 thousand for future capital lease expenditures. Operating lease commitments of \$2.1 million are detailed in the Contractual Obligations section below. During 2018, we funded our operations through the use of available cash, cash equivalents and investments, our line of credit and loans from our Company's CEO.

As of December 31, 2018, we had cash, cash equivalents, and investments in the amount of approximately \$1,652 thousand, increasing from \$224 thousand as of December 31, 2017.

On February 8, 2018, the Company entered into an unsecured revolving promissory note to borrow up to \$3,700,000 from G. Ward Paxton, the Company's Chief Executive Officer (the "CEO Note"). Under the terms of the CEO Note, the Company may borrow, repay and reborrow on the loan as needed up to an outstanding principal balance due of \$3,700,000 at any given time through March 2020.

On February 7, 2019, the Company amended the unsecured revolving promissory note to borrow up to \$2,700,000 from G. Ward Paxton, the Company's Chief Executive Officer. Under the terms of the note, the Company may borrow, repay and reborrow on the loan as needed up to an outstanding principal balance due of \$2,700,000 at any given time through March 2021.

Amounts borrowed under the CEO Note officer accrue interest at a floating rate per annum equal to Silicon Valley Bank's ("SVB") prime rate plus 1% (6.5% at December 31, 2018). All outstanding borrowings and accrued but unpaid interest is due on March 31, 2021. As of December 31, 2018, the borrowings outstanding totaled \$1,815,000 and accrued interest totaled \$479,000.

As of December 31, 2018, we had cash and cash equivalents of approximately \$1,652,000 up from approximately \$224,000 as of December 31, 2017. We generated a net income of \$2,287,000 for the year ended December 31, 2018 compared to net loss of \$30,000 for the year ended December 31, 2017. The net loss in 2017 included other income of 928,000, of which \$872,000 came from the sale of certain unused IP addresses and \$56,000 from the sale of an investment. As of February 28, 2019, in addition to cash and cash equivalents, \$885,000 of funding is available from a promissory note to borrow up to \$2.7 million from G. Ward Paxton, the Company's Chief Executive Officer. We are obligated to make payments of accrued dividends on all our outstanding shares of preferred stock that will reduce our available cash resources. Based on projections of growth in revenue and net income in the coming quarters, and the borrowings available previously mentioned, we believe that we will have sufficient cash resources to finance our operations and expected capital expenditures through March 31, 2020. We expect to fund our operations through anticipated Company profits, borrowings from the Company's CEO, and possibly additional investments of private equity and debt, which, if we are able to obtain, could have the effect of diluting our existing common stockholders, perhaps significantly. Any equity or debt financings, if available at all, may be on terms which are not favorable to us and, in the case of equity financings, may result in dilution to our stockholders. If our operations do not generate positive cash flow in the upcoming year, or if we are not able to obtain additional debt or equity financing on terms and conditions acceptable to us, if at all, we may be unable to implement our business plan, fund our liquidity needs or even continue our operations.

We may explore the possible acquisitions of businesses, products and technologies that are complementary to our existing business. We are continuing to identify and prioritize additional security technologies, which we may wish to develop, either internally or through the licensing, or acquisition of products from third parties. While we may engage from time to time in discussions with respect to potential acquisitions, there can be no assurances that any such acquisitions will be made or that we will be able to successfully integrate any acquired business. In order to finance such acquisitions and working capital it may be necessary for us to raise additional funds through public or private financings. Any equity or debt financings, if available at all, may be on terms, which are not favorable to us and, in the case of equity financings, may result in dilution to our stockholders.

Contractual Obligations

The following table sets forth certain information concerning the future contractual obligations under our leases at December 31, 2018. We had no other significant contractual obligations at December 31, 2018.

Future minimum lease obligations consisted of the following at December 31, 2018 (in thousands):

Year ending December 31,	Operating Leases	Capital Lease Obligations	Total
2019	\$ 284	\$ 62	\$ 346
2020	354	45	399
2021	358	21	379
2022 and thereafter	1,100		1,100
	<u>\$ 2,096</u>	<u>\$ 128</u>	<u>\$ 2,224</u>

Off-Balance Sheet Arrangements

As of December 31, 2018, we did not have any significant off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K.

Recent Accounting Pronouncements

See Note 2 Consolidated Financial Statements

Item 9A. Controls and Procedures

Evaluation of Effectiveness of Disclosure Controls and Procedures

The Company's management, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and is accumulated and communicated to management, including the Company's principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Management Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of consolidated financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

The Company's management, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the Company's internal control over financial reporting based on criteria established in *2013 Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Management's evaluation included an assessment of elements such as the design and operating effectiveness of key financial reporting controls, process documentation, accounting policies, and the Company's overall control environment. Based on its evaluation, management concluded that the Company's internal control over financial reporting was effective as of the year ended December 31, 2018 to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of consolidated financial statements for external reporting purposes in accordance with U.S. generally accepted accounting principles. The Company reviewed the results of management's assessment with the Audit Committee of the Board of Directors.

This Annual Report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this Annual Report. This report shall not be deemed to be filed for purposes of Section 18 of the Exchange Act or otherwise subject to the liabilities of that section, and is not incorporated by reference into any filing of the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing.

Inherent Limitations on Effectiveness of Controls

The Company's management, including the Chief Executive Officer and Chief Financial Officer, does not expect that the Company's disclosure controls or internal control over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, have been detected. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of the effectiveness of controls to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

Changes in Internal Control over Financial Reporting

During the quarter ended December 31, 2018, there were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART III

Certain information required by Part III is omitted from this Form 10-K because we will file a definitive Proxy Statement for our 2019 annual meeting of stockholders pursuant to Regulation 14A (the "Proxy Statement") no later than 120 days after the end of the fiscal year covered by this Annual Report on Form 10-K, and certain information to be included therein is incorporated herein by reference.

Item 10. Directors, Executive Officers and Corporate Governance.

The information called for by this item is incorporated herein by reference to the Proxy Statement.

Item 16. Form 10-K Summary

None.

ANNUAL REPORT ON FORM 10-K
ITEM 8

FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 201 8 and 201 7
INTRUSION INC.
RICHARDSON, TEXAS

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Shareholders
Intrusion Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Intrusion Inc. and subsidiaries (the "Company") as of December 31, 2018 and 2017, and the related consolidated statements of operations, changes in stockholders' deficit, and cash flows for the years then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2018 and 2017, and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Company's auditor since 2009.

(In thousands)

	Year Ended December 31,	
	2018	2017
Operating Activities:		
Net income (loss)	\$ 2,287	\$ (30)
Adjustments to reconcile net income (loss) to net cash provided by operating activities:		
Depreciation and amortization	133	206
Stock-based compensation	20	18
Penalties and waived penalties on dividends	47	33
Extinguishment of U.K. cumulative translation adjustment	64	—
Gain on sale of investment	—	(56)
Changes in operating assets and liabilities:		
Accounts receivable	(1,005)	(217)
Inventories	15	30
Prepaid expenses and other assets	(2)	(14)
Accounts payable and accrued expenses	421	291
Deferred revenue	598	11
Net cash provided by operating activities	2,578	272
Investing Activities:		
Proceeds from sale of investments	—	56
Purchases of property and equipment	(202)	(20)
Net cash provided by (used in) investing activities	(202)	36
Financing Activities:		
Borrowings on loan from officer	150	1,870
Payments on loans from officer	(1,200)	(1,890)
Principal payments on capital lease equipment	(66)	(139)
Proceeds from stock options exercised	168	11
Net cash used in financing activities	(948)	(148)
Net increase in cash and cash equivalents	1,428	160
Cash and cash equivalents at beginning of year	224	64
Cash and cash equivalents at end of year	\$ 1,652	\$ 224
SUPPLEMENTAL CASH FLOW INFORMATION:		
Interest paid on leased assets	\$ 3	\$ 6
Income taxes paid	\$ —	\$ —
SUPPLEMENTAL DISCLOSURE OF NON CASH FINANCING ACTIVITIES:		
Preferred stock dividends accrued	\$ 139	\$ 139
Purchase of equipment through capital lease	\$ 128	\$ —

See accompanying notes.

INTRUSION INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business

We develop, market, and support a family of entity identification, data mining, regulated information compliance and data privacy protection. Our product families include: TraceCop for identity identification, Savant for data mining and advanced persistent threat detection and Compliance Commander for regulated information and data privacy protection. Intrusion's products help protect critical information assets by quickly detecting, protecting, analyzing and reporting attacks or misuse of classified, private and regulated information for government and enterprise networks.

We market and distribute our products through a direct sales force to end-users, distributors and numerous system integrators, managed service providers and value-added resellers. Our end-user customers include banks, credit unions, other financial institutions, U.S. federal government entities, foreign government entities, hospitals and other healthcare providers. Essentially, our end-users can be defined as end-users requiring network security solutions for protecting their mission critical data.

References to the "Company", "we", "us", "our", "Intrusion" or "Intrusion Inc." refer to Intrusion Inc. and its subsidiaries. Compliance Commander™ and TraceCop™ are registered trademarks of Intrusion Inc.

As of December 31, 2018, we had cash and cash equivalents of approximately \$1,652,000, up from approximately \$224,000 as of December 31, 2017. We generated net income of \$2,287,000 for the year ended December 31, 2018 compared to a net loss of \$30,000 for the year ended December 31, 2017. The net loss in 2017 included other income of 928,000, of which \$872,000 came from the sale of certain unused IP addresses and \$56,000 from the sale of an investment. As of February 28, 2019, in addition to cash and cash equivalents, \$885,000 of funding is available from a promissory note to borrow up to \$2.7 million from G. Ward Paxton, the Company's Chief Executive Officer. We are obligated to make payments of accrued dividends on all our outstanding shares of preferred stock that will reduce our available cash resources. Based on projections of growth in revenue and net income in the coming quarters, and the borrowings available previously mentioned, we believe that we will have sufficient cash resources to finance our operations and expected capital expenditures through March 31, 2020. We expect to fund our operations through anticipated Company profits, borrowings from the Company's CEO, and possibly additional investments of private equity and debt, which, if we are able to obtain, could have the effect of diluting our existing common stockholders, perhaps significantly. Any equity or debt financings, if available at all, may be on terms which are not favorable to us and, in the case of equity financings, may result in dilution to our stockholders. If our operations do not generate positive cash flow in the upcoming year, or if we are not able to obtain additional debt or equity financing on terms and conditions acceptable to us, if at all, we may be unable to implement our business plan, fund our liquidity needs or even continue our operations.

2. Summary of Significant Accounting Policies

Principles of Consolidation

Our consolidated financial statements include our accounts and those of our wholly owned subsidiaries. Intercompany balances and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

Cash and all highly liquid investments purchased with an original maturity of less than three months are considered to be cash and cash equivalents.

Risk Concentration

Financial instruments, which potentially subject us to concentrations of credit risk, are primarily cash and cash equivalents, investments and accounts receivable. Cash and cash equivalent deposits are at risk to the extent that they exceed Federal Deposit Insurance Corporation insured amounts. To minimize risk, we place our investments in U.S. government obligations, corporate securities and money market funds. Substantially all of our cash, cash equivalents and investments are maintained with two major U.S. financial institutions. We do not believe that we are subject to any unusual financial risk with our banking arrangements. We have not experienced any significant losses on our cash and cash equivalents.

We sell our products to customers primarily in the United States. In the future, we may sell our products internationally. Fluctuations in currency exchange rates and adverse economic developments in foreign countries could adversely affect the Company's operating results. We perform ongoing credit evaluations of our customers' financial condition and generally require no collateral. We maintain reserves for potential credit losses, and such losses, in the aggregate, have historically been minimal.

Accounts Receivable and Allowance for Doubtful Accounts

Trade accounts receivable are stated at the amount we expect to collect. We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. Management considers the following factors when determining the collectability of specific customer accounts: customer credit-worthiness, past transaction history with the customer, current economic industry trends, and changes in customer payment terms. If the financial condition of our customers were to deteriorate, adversely affecting their ability to make payments, additional allowances would be required. Based on management's assessment, we provide for estimated uncollectible amounts through a charge to earnings and an increase to a valuation allowance. Balances that remain outstanding after we have used reasonable collection efforts are written off through a charge to the valuation allowance. There was no allowance at December 31, 2018 and 2017.

Property and Equipment

Equipment and furniture and fixtures are stated at cost less accumulated depreciation and depreciated on a straight-line basis over the estimated useful lives of the assets. Such lives vary from 1 to 5 years. Leasehold improvements are stated at cost less accumulated amortization and are amortized on a straight-line basis over the shorter of estimated useful lives of the assets or the remaining terms of the leases. Such lives vary from 2 to 5 years. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized. Repair and maintenance costs are expensed as incurred. Depreciation and amortization expense totaled approximately \$133,000 and \$206,000 for the years ended December 31, 2018 and 2017, respectively.

Long-Lived Assets

We review long-lived assets, including property and equipment for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted cash flows to be generated by the asset. If the carrying value exceeds the future undiscounted cash flows, the assets are written down to fair value. During the years ended December 31, 2018 and 2017, there was no impairment of long-lived assets.

Foreign Currency

All assets and liabilities in the balance sheets of foreign subsidiaries whose functional currency is other than the U.S. dollar are translated at year-end exchange rates. All revenues and expenses in the statement of operations of these foreign subsidiaries are translated at average exchange rates for the year. Translation gains and losses are not included in determining net income but are shown in accumulated other comprehensive loss in the stockholders' deficit section of the consolidated balance sheet. Foreign currency transaction gains and losses are included in determining net loss and were not significant.

Accounting for Stock Options

We account for stock options using the guidance in Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") Topic 718. FASB ASC Topic 718 requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values.

Stock-based compensation expense recognized in the statements of operations for the years ended 2018 and 2017 is based on awards ultimately expected to vest, reduced by estimated forfeitures. FASB ASC Topic 718 requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

Valuation Assumptions

The fair values of option awards were estimated at the date of grant using a Black-Scholes option-pricing model with the following assumptions for fiscal years ended December 31, 2018 and 2017, respectively:

	2018	2017
Weighted average grant date fair value	\$ 0.49	\$ 0.26
Weighted average assumptions used:		
Expected dividend yield	0.00%	0.00%
Risk-free interest rate	0.83%	1.77%
Expected volatility	225.21%	75.46%
Expected life (in years)	4.91	5.00

Expected volatility is based on historical volatility and in part on implied volatility. The expected term considers the contractual term of the option as well as historical exercise and forfeiture behavior. The risk-free interest rate is based on the rates in effect on the grant date for U.S. Treasury instruments with maturities matching the relevant expected term of the award.

Net Loss Per Share

We report two separate net loss per share numbers, basic and diluted. Basic net loss attributable to common stockholders per share is computed by dividing net loss attributable to common stockholders for the year by the weighted average number of common shares outstanding for the year. Diluted net loss attributable to common stockholders per share is computed by dividing the net loss attributable to common stockholders for the year by the weighted average number of common shares and dilutive common stock equivalents outstanding for the year. Our common stock equivalents include all common stock issuable upon conversion of convertible preferred stock and the exercise of outstanding options. Common stock equivalents are included in the diluted loss per share for the years ended December 31, 2018 and 2017 except in cases where the issuance would be anti-dilutive. The aggregate number of common stock equivalents excluded from the diluted loss per share calculation at December 31, 2018 and 2017 totaled zero and 2,941,861, respectively.

Revenue Recognition

On January 1, 2018 we adopted ASU No. 2014-09, *Revenue from Contracts with Customers*, as amended, using the modified retrospective approach. At the date of adoption there was no impact on the balance sheet or statement of operation. ASU No. 2014-09 did not have a material effect on the Company's financial position, results of operations or cash flows for the year ended December 31, 2018.

We generally recognize product revenue upon shipment or after meeting certain performance obligations. These products can include hardware, perpetual software licenses and data sets. Data set updates are the majority of our sales. We do not currently offer software on a subscription basis. Warranty costs and sales returns have not been material.

We recognize sales of our data sets in accordance with FASB ASC Topic 606 whereby revenue from contracts with customers is not recognized until all five of the following have been met:

- i) identify the contract with a customer;
- ii) identify the performance obligations in the contract;
- iii) determine the transaction price;
- iv) allocate the transaction price to the separate performance obligations; and
- v) recognize revenue upon satisfaction of a performance obligation.

Data updates are typically done monthly and revenue will be matched accordingly. Product sales may include maintenance and customer support allocated revenue in an arrangement using estimated selling prices of the delivered goods and services based on a selling price hierarchy using the relative selling price method. All of our product offering and service offering market values are readily determined based on current and prior stand-alone sales. We may defer and recognize maintenance, updates and support revenue over the term of the contract period, which is generally one year.

Service revenue, primarily including maintenance, training and installation are recognized upon delivery of the service and typically are unrelated to product sales. To date, training and installation revenue has not been material. These revenues are included in net customer support and maintenance revenues in the statement of operations.

Our normal payment terms offered to customers, distributors and resellers are net 30 days domestically and net 45 days internationally. We do not offer payment terms that extend beyond one year and rarely do we extend payment terms beyond our normal terms. If certain customers do not meet our credit standards, we do require payment in advance to limit our credit exposure.

Shipping and handling costs are billed to the customer and included in product revenue. Shipping and handling expenses are included in cost of product revenue. We have elected to account for shipping and handling costs as fulfillment costs after the customer obtains control of the goods.

Research and Development Costs

We incur research and development costs that relate primarily to the development of new security software, appliances and integrated solutions, and major enhancements to existing services and products. Research and development costs are comprised primarily of salaries and related benefits expenses, contract labor and prototype and other related expenses.

Software development costs are included in research and development and are expensed as incurred. FASB ASC Topic 350 *Intangibles—Goodwill and Other* requires that software development costs incurred subsequent to reaching technological feasibility be capitalized, if material. If the process of developing a new product or major enhancement does not include a detailed program design, technological feasibility is determined only after completion of a working model. To date, the period between achieving technological feasibility and the general availability of such software has been short, and the software development costs qualifying for capitalization have been insignificant.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Estimates are used for, but not limited to, the accounting for doubtful accounts, sales discounts, sales returns, revenue recognition, warranty costs, inventory obsolescence, depreciation and income taxes. Actual results could differ from these estimates.

Fair Value of Financial Instruments

We calculate the fair value of our assets and liabilities which qualify as financial instruments and include additional information in the notes to consolidated financial statements when the fair value is different than the carrying value of these financial instruments. The estimated fair value of accounts receivable, accounts payable and accrued expenses, and dividends payable approximate their carrying amounts due to the relatively short maturity of these instruments. Loans payable to officer are with a related party and as a result do not bear market rates of interest. Capital leases approximate fair value as they bear market rates of interest. Management believes based on its current financial position that it could not obtain comparable amounts of third party financing, and as such cannot estimate the fair value of the loan payable to officer. None of these instruments are held for trading purposes.

Income Taxes

Deferred income taxes are determined using the liability method in accordance with FASB ASC 740, *Accounting for Income Taxes*. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In addition, a valuation allowance is established to reduce any deferred tax asset for which it is determined that it is more likely than not that some portion of the deferred tax asset will not be realized.

FASB ASC 740 creates a single model to address accounting for uncertainty in tax positions by prescribing a minimum recognition threshold that a tax position is required to meet before being recognized in the financial statements. FASB ASC 740 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. There are no unrecognized tax benefits to disclose in the notes to the consolidated financial statements.

We file income tax returns in the United States federal jurisdiction. At December 31, 2018, tax returns related to fiscal years ended December 31, 2015 through December 31, 2017 remain open to possible examination by the tax authorities. No tax returns are currently under examination by any tax authorities. We did not incur any penalties or interest during the years ended December 31, 2018 and 2017. On December 22, 2017, the U.S. enacted the Tax Cuts and Jobs Act (“the Tax Act”) which significantly changed U.S. tax law. The Tax Act lowered the Company’s statutory federal income tax rate from a maximum of 39% to a rate of 21% effective January 1, 2018.

Recent Accounting Pronouncements

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, *Leases (Topic 842)* (ASU 2016-02), which generally requires companies to recognize operating and financing lease liabilities and corresponding right-of-use assets on the balance sheet. This guidance will be effective for us in the first quarter of 2019 on a modified retrospective basis and early adoption is permitted. We do not believe the adoption of this guidance will have a material impact on our consolidated financial statements and related disclosures.

3. Accrued Expenses (in thousands)

	December 31,	
	2018	2017
Accrued payroll	\$ 154	\$ 131
Accrued vacation	310	284
Rent payable	191	139
Accrued interest, related party	479	348
Other	269	86
	<u>\$ 1,403</u>	<u>\$ 988</u>

4. Commitments and Contingencies

Leases

We lease office space for our corporate headquarters in Richardson, Texas under an operating lease, the base term of which expires in November 2024. We lease office space in San Diego and San Marcos, California for a portion of our security software research and development staff under two separate operating leases. The California leases normally renew for one to two year terms.

The Company’s lease for the headquarters facility contains escalation provisions. The Company records rent expense on facility leases on a straight-line basis. Rent expense totaled approximately \$316,000 and \$350,000 for the years ended December 31, 2018 and 2017, respectively.

Future minimum rental payments under these leases as of December 31, 2018 are as follows (in thousands):

Year ending December 31,	Minimum Lease Payments
2019	\$ 284
2020	354
2021	358
2022 and thereafter	1,100
	<u>\$ 2,096</u>

We have capital lease obligations that consist primarily of computer equipment.

Future minimum payments under these leases as of December 31, 2018 are as follows (in thousands):

Year ending December 31,	Capital Lease Obligations
2019	\$ 62
2020	45
2021	21
2022 and thereafter	—
	128
Less amounts representing interest	(6)
	\$ 122

Legal Proceedings

We are subject to legal proceedings and claims that arise in the ordinary course of business. We do not believe that the outcome of those matters will have a material adverse effect on our consolidated financial position, operating results or cash flows. However, there can be no assurance such legal proceedings will not have a material impact.

We are not aware of any material claims outstanding or pending against Intrusion Inc. at December 31, 2018.

5. Employee Benefit Plan

Employee 401(k) Plan

We have a plan known as the Intrusion Inc. 401(k) Savings Plan (the “Plan”) to provide retirement and incidental benefits for our employees. The Plan covers substantially all employees who meet minimum age and service requirements. As allowed under Section 401(k) of the Internal Revenue Code, the Plan provides tax deferred salary deductions for eligible employees.

Employees may contribute from 1% to 25% of their annual compensation to the Plan, limited to a maximum amount as set by the Internal Revenue Service. Participants who are over the age of 50 may contribute an additional amount of their salary per year, as defined annually by the Internal Revenue Service. We match employee contributions at the rate of \$0.25 per each \$1.00 of contribution on the first 4% of compensation. Matching contributions to the Plan were approximately \$30,000 and \$30,000, respectively, for the years ended December 31, 2018 and 2017.

6 . Borrowings from Officer

On February 9, 2017, the Company entered into an unsecured revolving promissory note to borrow up to \$3,400,000 from G. Ward Paxton, the Company’s Chief Executive Officer (the “CEO Note”). Under the terms of the CEO Note, the Company may borrow, repay and reborrow on the loan as needed up to an outstanding principal balance due of \$3,400,000 at any given time through March 2019.

On March 2, 2017, the Company amended the CEO Note described above on the same terms, with the Company being able to borrow, repay, and re-borrow on the note as needed up to an outstanding principal balance due of \$3,700,000 at any given time through March 2019.

On February 8, 2018, the Company entered into an unsecured revolving promissory note to borrow up to \$3,700,000 from G. Ward Paxton, the Company’s Chief Executive Officer (the “CEO Note”). Under the terms of the CEO Note, the Company may borrow, repay and reborrow on the loan as needed up to an outstanding principal balance due of \$3,700,000 at any given time through March 2020.

On February 7, 2019, the Company amended the unsecured revolving promissory note to borrow up to \$2,700,000 from G. Ward Paxton, the Company’s Chief Executive Officer. Under the terms of the note, the Company may borrow, repay and reborrow on the loan as needed up to an outstanding principal balance due of \$2,700,000 at any given time through March 2021.

Amounts borrowed under the CEO Note officer accrue interest at a floating rate per annum equal to Silicon Valley Bank’s (“SVB”) prime rate plus 1% (6.5% at December 31, 2018). All outstanding borrowings and accrued but unpaid interest is due on March 31, 2021. As of December 31, 2018, the borrowings outstanding totaled \$1,815,000 and accrued interest totaled \$479,000.

7. Income Taxes

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of our deferred tax assets (liabilities) as of December 31, 2018 and 2017 are as follows (in thousands):

	December 31	
	2018	2017
Net operating loss carryforwards	\$ 20,720	\$ 21,175
Net operating loss carryforwards of foreign subsidiaries	374	374
Depreciation expense	4	(14)
Stock-based compensation expense	28	25
Other	78	94
Deferred tax assets	21,204	21,654
Valuation allowance for deferred tax assets	(21,204)	(21,654)
Deferred tax assets, net of allowance	<u>\$ —</u>	<u>\$ —</u>

Deferred tax assets are required to be reduced by a valuation allowance if it is more likely than not that some portion or all of the deferred tax assets will not be realized. Realization of the future benefits related to the deferred tax assets is dependent on many factors, including the Company's ability to generate taxable income within the near to medium term. Management has considered these factors in determining the valuation allowance for 2018 and 2017.

The differences between the provision for income taxes and income taxes computed using the federal statutory rate for the years ended December 31, 2018 and 2017 are as follows (in thousands):

	2018	2017
Reconciliation of income tax benefit to statutory rate:		
Income benefit at statutory rate	\$ 480	\$ (10)
State income taxes (benefit), net of federal income tax benefit	57	1
RTP (ISO expense)	3	—
Permanent differences	(91)	11
Change in valuation allowance	(450)	(11,478)
Remeasurment of Deferrals	—	11,476
Other	1	—
	<u>\$ —</u>	<u>\$ —</u>

At December 31, 2018, we had federal net operating loss carryforwards of approximately \$86.0 million for income tax purposes that begin to expire in 2022 and are subject to the ownership change limitations under Internal Revenue Code Section 382.

8. Stock Options

At December 31, 2018, we had two stock-based compensation plans, which are described below. These plans were developed to retain and attract key employees and directors.

On March 17, 2005, the Board approved the 2005 Stock Incentive Plan (the "2005 Plan"), which was approved by the stockholders on June 14, 2005. The 2005 Plan provided for the issuance of up to 750,000 shares of common stock upon exercise of options granted pursuant to the 2005 Plan. On May 30, 2007, the stockholders approved an Amendment to the 2005 Plan that increased this amount by 750,000 for a total of 1,500,000 shares of common stock that may be issued upon the exercise of options granted pursuant to the 2005 Plan. On May 29, 2008 and May 21, 2009, the stockholders approved an increase of 500,000 shares, respectively, of common stock that may be issued pursuant to the 2005 Plan for a total of 2,500,000 shares. On May 20, 2010, the stockholders approved an additional increase of 500,000 shares of common stock that may be issued pursuant to the 2005 Plan for a total of 3,000,000 shares. On May 19, 2011, the stockholders approved an additional increase of 400,000 shares of common stock that may be issued pursuant to the 2005 Plan for a total of 3,400,000 shares. Finally, on May 17, 2012, the stockholders approved an additional increase of 300,000 shares of common stock that may be issued pursuant to the 2005 Plan for a total of 3,700,000 shares. At December 31, 2018, 1,269,735 had been exercised and options to purchase a total of 1,117,600 shares of common stock were outstanding. A total of 3,892,000 options had been granted under the 2005 Plan, of which 1,504,665 have been cancelled. The 2005 Plan expired on June 14, 2015, and no shares remain for grant.

On March 19, 2015, the Board approved the 2015 Stock Incentive Plan (the “2015 Plan”), which was approved by the stockholders on May 14, 2015. The 2015 Plan serves as a replacement for the 2005 Plan which expired by its terms on June 14, 2015. The approval of the 2015 Plan had no effect on the 2005 Plan or any options granted pursuant to the plan. All options will continue with their existing terms and will be subject to the 2005 Plan. Further, the Company will not be able to re-issue any option which is cancelled or terminated under the 2005 Plan. The 2015 Plan provided for the issuance of up to 600,000 shares of common stock upon exercise of options granted pursuant to the 2015 Plan.

The 2015 Plan consists of three separate equity incentive programs: the Discretionary Option Grant Program; the Stock Issuance Program; and the Automatic Option Grant Program for non-employee Board members. Officers and employees, non-employee Board members and independent contractors are eligible to participate in the Discretionary Option Grant and Stock Issuance Programs. Participation in the Automatic Option Grant Program is limited to non-employee members of the Board. Each non-employee Board member will receive an option grant for 10,000 shares of common stock upon initial election or appointment to the Board, provided that such individual has not previously been employed by the Company in the preceding three (3) months. In addition, on the date of each annual stockholders meeting, each Board member will automatically be granted an option to purchase 8,000 shares of common stock, provided he or she has served as a non-employee Board member for at least three months. At December 31, 2018, no options had been exercised and options to purchase a total of 117,000 shares of common stock were outstanding. A total of 120,000 options had been granted under the 2015 Plan, 3,000 shares have been cancelled, and options for 483,000 shares remained available for future grant. No shares have been issued pursuant to the Stock Issuance Program.

Common shares reserved for future issuance, including conversions of preferred stock, outstanding options and options available for future grant under all of the stock option plans totaled 2,785,042 shares at December 31, 2018 as follows, in thousands:

(In thousands)	Common Shares Reserved for Future Issuance
Preferred Stock	1,067
2015 Plan	600
2005 Plan	1,118
Total	<u>2,785</u>

The Compensation Committee of our Board of Directors determines for all employee options, the term of each option, option exercise price within limits set forth in the plans, number of shares for which each option is granted and the rate at which each option is exercisable (generally ratably over one, three or five years from grant date). However, the exercise price of any incentive stock option may not be less than the fair market value of the shares on the date granted (or less than 110% of the fair market value in the case of optionees holding more than 10% of our voting stock of the Company), and the term cannot exceed ten years (five years for incentive stock options granted to holders of more than 10% of our voting stock).

Stock Incentive Plan Summary

A summary of our stock option activity and related information for the years ended December 31, 2018 and 2017 is as follows:

	<u>2018</u>		<u>2017</u>	
	Number of Options (in thousands)	Weighted Average Exercise Price	Number of Options (in thousands)	Weighted Average Exercise Price
Outstanding at beginning of year	1,746	\$ 0.68	2,254	\$ 0.64
Granted at price = market value	24	1.15	24	0.42
Granted at price > market value	—	—	—	—
Exercised	(451)	0.37	(50)	0.22

Stock Options Outstanding and Exercisable

Information related to stock options outstanding at December 31, 2018, is summarized below:

Range of Exercise Prices	Options Outstanding			Options Exercisable	
	Outstanding at 12/31/18 (in thousands)	Weighted Average Remaining Contractual Life (years)	Weighted Average Exercise Price	Exercisable at 12/31/18 (in thousands)	Weighted Average Exercise Price
\$ 0.28 - \$0.50	572	2.79	\$ 0.39	533	\$ 0.39
\$ 0.51 - \$1.00	361	2.52	\$ 0.68	361	\$ 0.68
\$ 1.01 - \$2.73	302	4.36	\$ 1.86	278	\$ 1.92
	1,235	3.09	\$ 0.83	1,172	\$ 0.84

Summarized information about outstanding stock options as of December 31, 2018, that are fully vested and those that are expected to vest in the future as well as stock options that are fully vested and currently exercisable, are as follows:

As of December 31, 2018	Outstanding Stock Options (Fully Vested and Expected to Vest)*	Options that are Exercisable
	Number of outstanding options (in thousands)	1,229
Weighted average remaining contractual life	3.07	2.80
Weighted average exercise price per share	\$ 0.83	\$ 0.84
Intrinsic value (in thousands)	\$ 3,092	\$ 2,940

* Includes effects of expected forfeitures

As of December 31, 2018, the total unrecognized compensation cost related to non-vested options not yet recognized in the statement of operations totaled approximately \$16 thousand (including expected forfeitures) and the weighted average period over which these awards are expected to vest was 1.01 years.

9. Preferred Stock

5% Preferred Stock

On March 25, 2004, we completed a \$5.0 million private placement of our 5% convertible preferred stock and warrants. In the private placement, we sold 1,000,000 shares of our 5% preferred stock at a price of \$5.00 per share for gross proceeds of \$5.0 million, less \$275,000 of issuance costs. The 5% preferred shares were initially convertible into 1,590,331 shares of common stock at a conversion price of \$3.144 per share. Holders of the 5% convertible preferred stock include 140,000 shares purchased by our CEO and 60,000 shares purchased by a director of the Company.

The 5% dividends related to the 5% preferred stock are paid semi-annually on the last business day in March and September of each year, beginning with September 2004. Preferred stockholders vote together with common stockholders on an as converted to common stock basis. Based on the conversion rate of the preferred stock, holders of our 5% preferred stock will receive 1.5903 votes per share rounded to the nearest whole number. The liquidation preference for the 5% preferred stock is an amount equal to \$5.00 per share plus any accrued and unpaid dividends. Holders of our 5% preferred stock have liquidation preference rights over common stockholders.

All warrants previously issued to 5% convertible preferred stock holders have expired.

We have the right to redeem any or all of the outstanding 5% preferred stock at a price of \$5.00 per share plus accrued dividends at any time if certain conditions are met.

At December 31, 2018, there were 200,000 shares of the Series 1 Preferred Stock outstanding, representing approximately 318,065 shares of common stock upon conversion.

Series 2 5% Preferred Stock

On March 28, 2005, we completed a \$2.7 million private placement of Series 2 5% convertible preferred stock and warrants. In the private placement, we sold 1,065,200 shares of preferred stock at a price of \$2.50 per share for gross proceeds of \$2.7 million, less \$173,000 of issuance costs. The shares of Series 2 5% preferred stock are convertible into 1,065,200 shares of common stock at an initial conversion price of \$2.50 per share. Holders of the Series 2 5% preferred stock include 260,000 shares by our CEO, 100,000 shares by our CFO and 60,000 shares by a director of the Company.

The 5% dividends accruing on the Series 2 5% preferred stock are required to be paid quarterly on the first business day in March, June, September and December of each year, beginning with June 2005. The liquidation preference for the preferred stock is an amount equal to \$2.50 per share plus any accrued and unpaid dividends. Holders of our Series 2 5% preferred stock have liquidation preference rights over our 5% preferred stock holders as well as our common stockholders. The holders of the Series 2 5% preferred stock are not entitled to vote on any matter, except as otherwise required by law or with respect to certain limited matters specified in the certificate of designations.

All warrants previously issued to Series 2 5% convertible preferred stock holders have expired.

Holders of Series 2 5% preferred stock have the right to require us to redeem any or all of their shares upon the occurrence of certain events within the Company's control that are defined in Certificate of Designation at a price equal the sum of (1) the greater of \$3.25 and the product of the volume weighted average price of our common stock on the trading day immediately preceding the event multiplied by \$2.50 divided by the conversion price then in effect plus (2) any accrued but unpaid dividends on the Series 2 5% preferred stock plus (3) all liquidated damages or other amounts payable to the holders of Series 2 5% preferred stock.

At December 31, 2018 there were 460,000 shares of the Series 2 Preferred Stock outstanding, representing 460,000 shares of common stock upon conversion.

Series 3 5% Preferred Stock

On December 2, 2005, we completed a \$1.2 million private placement of Series 3 5% convertible preferred stock and warrants. In the private placement, we sold 564,607 shares of preferred stock at a price of \$2.18 per share for gross proceeds of \$1.2 million, less \$100,000 of issuance costs. The shares of Series 3 5% preferred stock are convertible into 564,607 shares of common stock at an initial conversion price of \$2.18 per share. Holders of the Series 3 5% preferred stock include 123,853 shares by our CEO, 68,808 shares by our CFO and 27,523 shares purchased by a director of the Company.

The 5% dividends accruing on the Series 3 5% preferred stock are required to be paid quarterly on the first business day in March, June, September and December of each year, beginning with March 1, 2006. The liquidation preference for the preferred stock is an amount equal to \$2.18 per share plus any accrued and unpaid dividends. Holders of our Series 3 5% preferred stock have liquidation preference rights over holders of our 5% preferred, Series 2 5% preferred stock and common stock. The holders of the Series 3 5% preferred stock are not entitled to vote on any matter, except as otherwise required by law or with respect to certain limited matters specified in the certificate of designations.

All warrants previously issued to Series 3 5% convertible preferred stock holders have expired.

Holders of Series 3 5% preferred stock have the right to require us to redeem any or all of their shares upon the occurrence of certain events within the Company's control that are defined in the certificate of designation at a price equal the sum of (1) the greater of \$2.834 and the product of the volume weighted average price of our common stock on the trading day immediately preceding the event multiplied by \$2.18 divided by the conversion price then in effect plus (2) any accrued but unpaid dividends on the Series 3 5% preferred stock plus (3) all liquidated damages or other amounts payable to the holders of Series 3 5% preferred stock.

At December 31, 2018 there were 289,377 shares of Series 3 Preferred Stock outstanding, representing 289,377 shares of common stock upon conversion.

Dividends Payable

During the year ended December 31, 2018, we accrued \$50,000 in dividends to the holders of our 5% Preferred Stock, \$57,000 in dividends to the holders of our Series 2 5% Preferred Stock and \$32,000 in dividends to the holders of our Series 3 5% Preferred Stock. As of December 31, 2018 and 2017, we had \$594,000 and \$447,000 in accrued and unpaid dividends included in other current liabilities. Delaware law provides that we may only pay dividends out of our capital surplus or, if no surplus is available, out of our net profits for the fiscal year the dividend is declared and/or the preceding fiscal year. This has been in effect since December 31, 2014. However, in light of our net profits for the fiscal year ended December 31, 2018, we are able to and have paid these past due dividends as of the date of this Annual Report. However, dividends continue to accrue on all our outstanding shares of preferred stock, regardless of whether we are legally able to pay them, and we cannot assure you that our net assets will exceed our stated capital or that we will have sufficient net profits in order to pay these dividends as they continue to accrue in the future. If we are unable to pay dividends on our preferred stock, we will be required to accrue an additional late fee penalty of 18% per annum on the unpaid dividends for the Series 2 Preferred Stock and Series 3 Preferred Stock.

10. Concentrations

Our operations are concentrated in one area—security software/entity identification. Sales to the U.S. Government through direct and indirect channels totaled 83.9% of total revenues for 2018 and 81.6% of total revenues for 2017. During 2018 approximately 61.4% of total revenues were attributable to four government customers. During 2017 approximately 58.8% of total revenues are attributable to three government customers. Four individual government customers at December 31, 2018 and four at December 31, 2017 exceeded 10% of total accounts receivable balance at respective year ends, comprising 48.9% and 65.2% of the respective total accounts receivable balance. During 2018 and 2017 approximately 14.1% of total revenues were attributable to one commercial customer. One individual commercial customer at December 31, 2018 and one at December 31, 2017 exceeded 10% of total accounts receivable balance, comprising 10.1% and 15% of the respective total accounts receivable balance. Our similar product and service offerings are not viewed as individual segments, as our management analyzes the business as a whole and expenses are not allocated to each product offering.

11. Contract Assets and Contract Liabilities

Contract assets represent contract billings for sales per contracts with customers and are classified as current. Our contract assets include our accounts receivables. For the year ended December 31, 2018, the Company had contract assets balance of \$1,967,000, an increase of \$1,005,000 from the prior year due to new contract assets exceeding cash receipts. For the year ended December 31, 2017, the Company had contract assets balance of \$962,000, an increase of \$217,000 from the prior year due to new contract assets exceeding cash receipts.

Contract liabilities consist of cash payments in advance of the Company satisfying performance obligations and recognizing revenue. The Company currently classifies deferred revenue as a contract liability. For the year ended December 31, 2018, the Company had contract liabilities balance of \$1,004,000. For the year ended December 31, 2017, the Company had contract liabilities balance of \$406,000.

12. Other Income

On July 7, 2017, the Company entered into a sale of certain IP addresses that were not currently being used in the Company's business operations and were not required for the Company's future business plans. The net proceeds from the sale of these intellectual property assets were in the amount of \$872,000 which the Company received on August 9, 2017. In addition, \$56,000 was received on August 3, 2017 from the sale of an investment. The receipt of these transactions had an immediate positive impact on the Company's liquidity position.

13. Subsequent Events

On February 7, 2019, the Company amended the unsecured revolving promissory note to borrow up to \$2,700,000 from G. Ward Paxton, the Company's Chief Executive Officer. Under the terms of the note, the Company may borrow, repay and reborrow on the loan as needed up to an outstanding principal balance due of \$2,700,000 at any given time through March 2021.

FOURTH AMENDMENT TO LEASE

This FOURTH AMENDMENT TO LEASE (this “ **Fourth Amendment** ”) is executed effective as of the 27 day of September 2018 between JP-CORPORATE PLACE, LP, a Texas limited partnership (“ **Landlord** ”), and INTRUSION, INC. (“ **Tenant** ”).

RECITALS

- A. Icon 1101 E. Arapaho Owner Pool 2, LLC (the “ **Original Landlord** ”) and Tenant are parties to that certain Lease dated as of January 12, 2004 (the “ **Original Lease** ”), as amended by that certain First Amendment to Lease dated as of September 1, 2009 (the “ **First Amendment** ”), by that certain Second Amendment to Lease dated as of September 21, 2012 (the “ **Second Amendment** ”), and by that certain Third Amendment to Lease dated March 16, 2017 (the “ **Third Amendment** ”). The Original Lease, as amended by the First Amendment, Second Amendment and Third Amendment, is herein referred to as the “ **Lease** .”
- B. Under the terms of the Lease, Landlord leases to Tenant certain premises consisting of approximately 22,590 rentable square feet with an address of 1101 East Arapaho Road, Suite 200, Richardson, Texas 75081, as more particularly described in the Lease and located in the Building commonly known as Corporate Place.
- C. Landlord is the successor in interest to the Original Landlord, having purchased the Building in July 2017.
- D. The Term of the Lease currently expires on April 30, 2021.
- E. Tenant desires to extend the Term of the Lease and Landlord has agreed to such extension on the terms and conditions contained herein.

NOW, THEREFORE, in consideration of the premises, the mutual covenants and agreements contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Landlord and Tenant hereby covenant and agree as follows:

AMENDMENTS

1. **Definitions** . Except as expressly defined in this Fourth Amendment, each defined term used in this Fourth Amendment has the same meaning given to such term in the Lease; provided, however, in the event of a conflict, the definition set forth in this Fourth Amendment shall control.

2. **Premises** . Landlord currently leases to Tenant Suite 200 in the Building, which the parties agree contains an aggregate of 22,590 rentable square feet (the “ **Premises** ”).

3. **Amendment to Lease** . As of October 1, 2018 (the “ **Effective Date** ”), unless otherwise set forth below, Landlord and Tenant hereby amend the Lease as follows:

(a) **Fourth Extended Term** . The Term of Lease as set forth in the Reference Pages of the Lease is hereby extended for a period of forty-three (43) months beginning on May 1, 2021 (the “ **Fourth Extended Term Commencement Date** ”) and expiring on November 30, 2024 (the “ **Fourth Extended Term Termination Date** ”). The portion of the Term commencing on the Fourth Extended Term Commencement Date and ending on the Fourth Extended Term Termination Date shall be referred to herein as the “ **Fourth Extended Term** .”

(b) **Base Rent for the Premises** . Beginning on the Effective Date, the schedule of Base Rent for the Premises is hereby amended to be as follows:

Lease Months	Annual Rate per Rentable Square Foot	Monthly Base Rent
10/1/2018 – 3/31/2019	\$ 0.00 + E	None + E
4/1/2019 – 3/31/2020	\$ 15.00	\$ 28,237.50
4/1/2020 – 4/30/2021	\$ 15.50	\$ 29,178.75
5/1/2021 – 4/30/2022	\$ 16.00 + E	\$ 30,120.00 + E
5/1/2022 – 4/30/2023	\$ 16.50 + E	\$ 31,061.25 + E
5/1/2023 – 4/30/2024	\$ 17.00 + E	\$ 32,002.50 + E
5/1/2024 – 11/30/2024	\$ 17.00 + E	\$ 32,002.50 + E

+ E means plus Tenant’s pro rata share of electricity charges.

(c) **Electrical Expenses** . Tenant shall pay as additional rent Tenant’s Share of an amount (the “ **Electrical Expenses** ”) equal to the sum of Tenant’s Proportionate Share of all electrical service to the Building (“ **EE Additional Rent** ”). Such EE Additional Rent, together with any and all other amounts payable monthly by Tenant to Landlord pursuant to the terms of the Lease and this Amendment, shall be hereinafter collectively referred to as the “ **Additional Rent** .” The Base Rent and EE Additional Rent shall be payable for the same periods and in the same manner, time and place as the Base Rent beginning on the Effective Date.

(d) **Cap on Electricity Expense** . Section 6 of the Third Amendment is deleted in its entirety.

(e) **Outstanding Operating Expenses** . Landlord hereby waives all past due Operating Expenses for 2017.

(f) **Base Year** . As of the Effective Date, (a) the “ **Base Year Expenses** ” shall be Calendar Year 2019, and (b) “ **Base Year (Taxes)** ” shall be Calendar Year 2019.

(g) **AC Systems** . Tenant’s dedicated new AC Systems described under Improvement to Premises shall be separately metered. Tenant agrees to maintain a service contract with a licensed HVAC contractor to service the AC Systems on at least a semi-annual basis. The Tenant shall be responsible for all repairs and maintenance of the AC Systems.

(h) **Renewal Option** . Attached as Exhibit A is a Renewal Option for the Premises. All prior Renewal Options with respect to the Premises are null and void.

4. **Improvements to Premises** . Tenant accepts the Premises “AS IS, WHERE IS” and the Landlord will only be required to re-carpet the Premises using the Landlord’s Standard Building Materials and to fund the Texas Air Systems quote of \$198,775.00 dated July 16, 2018, for turnkey installation of two (2) dedicated Data Aire G Force Split Systems (the “ **AC Systems** ”). In this regard, the Tenant will meet with the Landlord’s representative within twenty (20) days after the execution of this Fourth Amendment and select carpeting from the samples available from the Landlord’s Standard Building Materials. Landlord will order the selected carpeting (if available) and arrange for installation. The Tenant agrees to cooperate with Landlord and Landlord’s contractors with respect to moving of furniture, files, computers, phones and fixtures in order to install the carpet in the Premises. Tenant will coordinate with Landlord on installation of AC Systems. Tenant will be responsible for any roof damage or leaks resulting from improper installation of AC Systems by Texas Air Systems. Texas Air Systems must provide Landlord with proof of insurance and add Landlord as additional insured.

5. **Broker** . Landlord acknowledges that NAI Robert Lynn represents the Tenant in connection with the negotiation of this Fourth Amendment and will be entitled to a real estate commission pursuant to the terms of a separate agreement.

6. **Defaults** . Tenant hereby represents and warrants to Landlord that, as of the date of this Fourth Amendment, Tenant is in compliance with all material terms, covenants and conditions of the Lease and that there are no breaches or defaults under the Lease by Landlord or Tenant, and that Tenant knows of no events or circumstances which, given the passage of time, would constitute a default under the Lease by either Landlord or Tenant.

7. **No Further Modification** . Except as set forth in this Fourth Amendment, all of the terms and provisions of the Lease shall apply with respect to the Premises, as revised by this Fourth Amendment, and shall remain unmodified and in full force and effect. Effective as of the date hereof, all references to the “ **Lease** ” shall refer to the Lease as amended by this Fourth Amendment. In the event of a conflict between the terms of this Fourth Amendment and the original Lease, the terms of this Fourth Amendment shall control as to the subject matter in conflict.

8. **Counterparts and Signatures** . This Fourth Amendment may be executed in counterparts, each of which shall be deemed an original, but such counterparts, when taken together, shall constitute one agreement. This Fourth Amendment may be executed by a party’s signature transmitted by facsimile (“fax”) or by portable document format (“pdf”), and copies of this Fourth Amendment executed and delivered by means of faxed or pdf signatures shall have the same force and effect as copies hereof executed and delivered with original signatures. All parties hereto may rely upon faxed or pdf signatures as if such signatures were originals. All parties hereto agree that a fax or pdf signature page may be introduced into evidence in any proceeding arising out of or related to this Fourth Amendment as if it were an original signature page.

[Signatures are on following page.]

EXHIBIT A

Renewal Option

Option Term. Landlord hereby grants to Tenant an option to extend the Lease Term for a period of three (3) years (an “**Option Term**”), which options shall be exercisable only by written notice (“**Option Notice**”) delivered by Tenant to Landlord as provided in Section 2 below. Tenant shall not have the rights contained in this Exhibit A if, as of the date of the Option Notice or, at Landlord’s option, at any time between the delivery of the Option Notice and the commencement of the Option Term, Tenant is in material default under this Lease after any applicable notice and cure period, Tenant or an Affiliate of Tenant does not physically occupy the entire Premises.

1. **Option Rent.** The Rent payable by Tenant during the Option Term (“**Option Rent**”) shall be equal to the fair market rent for the Premises as of the commencement date of the Option Term. The fair market rent shall be the rental rate, including all escalations, at which tenants, as of the commencement of the Option Term, are leasing non-sublease, non-encumbered space comparable in size, location and quality to the Premises for a term of three (3) years, which comparable space is located in other similar class office buildings in the market area of the Building in Richardson, Texas.

2. **Exercise of Option.** The option contained in this Exhibit A shall be exercised by Tenant, if at all, only in the following manner: (i)

(i) Tenant shall deliver written notice (“**Interest Notice**”) to Landlord between twelve (12) months and nine (9) months prior to the expiration of the Lease Term, stating that Tenant is interested in exercising its option;

(ii) Landlord, after receipt of the Interest Notice, shall deliver written notice (the “**Option Rent Notice**”) to Tenant setting forth Landlord’s good faith determination of the Option Rent within thirty (30) days of receipt of Interest Notice; and

(iii) If Tenant wishes to exercise such option, Tenant shall, within thirty (30) days after Tenant’s receipt of the Option Rent Notice, exercise the option by delivering written notice (the “**Option Notice**”) to Landlord and, upon and concurrent with such exercise, Tenant may, at its option, object to the Option Rent determined by Landlord.

If Tenant exercises the option to extend but objects to the Option Rent contained in the Option Rent Notice, then the Option Rent shall be determined as set forth in Section 3 below. Failure of Tenant to deliver the Interest Notice to Landlord on or before the date specified in (i) above or to deliver the Option Notice to Landlord on or before the date specified in (iii) above shall be deemed to constitute Tenant’s failure to exercise its option to extend. If Tenant timely and properly exercises its option to extend, the Lease Term, subject to Section 3 below, shall be extended for the Option Term upon all of the terms and conditions set forth in this Renewal Option, except that the Rent shall be as indicated in the Option Rent Notice or as determined in accordance with Section 3 below, and all references herein to the Lease Term shall include the Option Term.

3. Determination of Option Rent. In the event Tenant exercises its option to extend but objects to Landlord's determination of the Option Rent in connection with its exercise of the option to extend, Landlord and Tenant shall attempt to agree in good faith upon the Option Rent. If Landlord and Tenant fail to reach agreement within twenty (20) days following Landlord's receipt of the Option Notice (the "**Outside Agreement Date**"), then each party shall make a separate determination of the Option Rent, within five (5) business days after the Outside Agreement Date, and concurrently exchange such determinations and such determinations shall be submitted to arbitration in accordance with Sections 3(i) through 3(vii) below.

(i) Landlord and Tenant shall each appoint one arbitrator who shall by profession be a real estate broker who shall have been active over the five (5) year period ending on the date of such appointment in the leasing of comparable office properties in the area of Richardson, Texas. The determination of the arbitrators shall be limited solely to the issue of whether Landlord's or Tenant's submitted Option Rent is the closest to the actual fair market rent, as determined by the arbitrators, taking into account the requirements of this Renewal Option. Each such arbitrator shall be appointed within fifteen (15) business days after the applicable Outside Agreement Date.

(ii) The two (2) arbitrators so appointed shall within five (5) business days of the date of the appointment of the last appointed arbitrator agree upon and appoint a third arbitrator who shall be qualified under the same criteria set forth hereinabove for qualification of the initial two (2) arbitrators.

(iii) The three (3) arbitrators shall within five (5) business days of the appointment of the third arbitrator reach a decision as to whether the parties shall use Landlord's or Tenant's submitted Option Rent, and shall notify Landlord and Tenant thereof. Should the three (3) arbitrators fail to reach such decision, then the decision shall be made solely by the third such appointed arbitrator.

(iv) The decision as to the amount of the Option Rent, as made by the arbitrators, or the third arbitrator alone as aforesaid, shall be binding upon Landlord and Tenant.

(v) If either Landlord or Tenant fails to appoint an arbitrator within fifteen (15) business days after the applicable Outside Agreement Date, the arbitrator appointed by one of them shall reach a decision, notify Landlord and Tenant thereof, and such arbitrator's decision shall be binding upon Landlord and Tenant.

(vi) If the two (2) arbitrators fail to agree upon and appoint a third arbitrator, or both parties fail to appoint an arbitrator, then the appointment of the third arbitrator or any arbitrator shall be dismissed and the Option Rent to be decided shall be forthwith submitted to arbitration under the provisions of the American Arbitration Association, but subject to the instruction set forth in this Section 3.

(vii) The cost of the third arbitrator shall be paid by Landlord and Tenant equally, and the cost of each of Landlord's and Tenant's arbitrator shall be paid by the party that engages such arbitrator.

INTRUSION INC.

NOTICE OF GRANT OF STOCK OPTION

Notice is hereby given of the following option grant (the "Option") to purchase shares of the Common Stock of Intrusion Inc. (the "Corporation"):

OPTIONEE: _____

GRANT NUMBER: _____

GRANT DATE: _____

EXERCISE PRICE: \$ _____ per share

NUMBER OF OPTION SHARES: _____ shares

EXPIRATION DATE: _____

TYPE OF OPTION: _____ Incentive Stock Option
 _____ Non-Statutory Stock Option

VESTING SCHEDULE: _____

Optionee understands and agrees that the Option is granted subject to and in accordance with the terms of the Intrusion Inc. 2015 Stock Incentive Plan (the "Plan"). Optionee further agrees to be bound by the terms of the Plan and the terms of the Option as set forth in the Stock Option Agreement attached hereto as EXHIBIT A. A copy of the Plan is available upon request made to the Corporate Secretary at the Corporation's principal offices.

REPURCHASE RIGHTS. Optionee hereby agrees that the shares acquired upon the exercise of the Option may be subject to certain repurchase rights set forth in the Stock Option Agreement.

EMPLOYMENT AT WILL. Nothing in this Notice or in the attached Stock Option Agreement or in the Plan shall confer upon Optionee any right to continue in Service for any period of specific duration or interfere with or otherwise restrict in any way the rights of the Corporation (or any Parent or Subsidiary employing or retaining Optionee) or of Optionee, which rights are hereby expressly reserved by each, to terminate Optionee's Service at any time for any reason, with or without cause.

DEFINITIONS. All capitalized terms in this Notice shall have the meaning assigned to them in this Notice or in the attached Stock Option Agreement.

RECITALS

A. The Board has adopted the Plan for the purpose of retaining the services of selected Employees, non-employee members of the Board (or the board of directors of any Parent or Subsidiary) and consultants and other independent advisors who provide services to the Corporation (or any Parent or Subsidiary).

B. Optionee is to render valuable services to the Corporation (or a Parent or Subsidiary), and this Agreement is executed pursuant to, and is intended to carry out the purposes of, the Plan in connection with the Corporation's grant of an option to Optionee.

C. All capitalized terms in this Agreement shall have the meaning assigned to them in the attached Appendix.

NOW, THEREFORE, it is hereby agreed as follows:

1. **GRANT OF OPTION.** The Corporation hereby grants to Optionee, as of the Grant Date, an option to purchase up to the number of Option Shares specified in the Grant Notice. The Option Shares shall be purchasable from time to time during the option term specified in Paragraph 2 at the Exercise Price.

2. **OPTION TERM.** This option shall have a maximum term of ten (10) years measured from the Grant Date and shall accordingly expire at the close of business on the Expiration Date, unless sooner terminated in accordance with Paragraph 5 or 6.

3. **LIMITED TRANSFERABILITY.**

(a) This option shall be neither transferable nor assignable by Optionee other than by will or the laws of inheritance following Optionee's death and may be exercised, during Optionee's lifetime, only by Optionee. However, Optionee may designate one or more persons as the beneficiary or beneficiaries of this option, and this option shall, in accordance with such designation, automatically be transferred to such beneficiary or beneficiaries upon the Optionee's death while holding this option. Such beneficiary or beneficiaries shall take the transferred option subject to all the terms and conditions of this Agreement, including (without limitation) the limited time period during which this option may, pursuant to Paragraph 5, be exercised following Optionee's death.

(b) If this option is designated a Non-Statutory Option in the Grant Notice, then this option may be assigned in whole or in part during Optionee's lifetime to one or more members of Optionee's family or to a trust established for the exclusive benefit of one or more such family members or to Optionee's former spouse, to the extent such assignment is in connection with the Optionee's estate plan or pursuant to a domestic relations order. The assigned portion shall be exercisable only by the person or persons who acquire a proprietary interest in the option pursuant to such assignment. The terms applicable to the assigned portion shall be the same as those in effect for this option immediately prior to such assignment.

4. DATES OF EXERCISE. This option shall become exercisable for the Option Shares in one or more installments as specified in the Grant Notice. As the option becomes exercisable for such installments, those installments shall accumulate, and the option shall remain exercisable for the accumulated installments until the Expiration Date or sooner termination of the option term under Paragraph 5 or 6.

5. CESSATION OF SERVICE. The option term specified in Paragraph 2 shall terminate (and this option shall cease to be outstanding) prior to the Expiration Date should any of the following provisions become applicable:

(a) Should Optionee cease to remain in Service for any reason (other than death or Permanent Disability) while this option is outstanding, then Optionee (or any person or persons to whom this option is transferred pursuant to a permitted transfer under Paragraph 3) shall have a period of three (3) months (commencing with the date of such cessation of Service) during which to exercise this option, but in no event shall this option be exercisable at any time after the Expiration Date.

(b) Should Optionee die while this option is outstanding, then the personal representative of Optionee's estate or the person or persons to whom the option is transferred pursuant to Optionee's will or the laws of inheritance following Optionee's death or to whom the option is transferred during Optionee's lifetime pursuant to a permitted transfer under Paragraph 3 shall have the right to exercise this option. However, if Optionee dies while holding this option and has an effective beneficiary designation in effect for this option at the time of his or her death, then the designated beneficiary or beneficiaries shall have the exclusive right to exercise this option following Optionee's death. Any such right to exercise this option shall lapse, and this option shall cease to be outstanding, upon the *earlier* of (i) the expiration of the twelve (12)-month period measured from the date of Optionee's death or (ii) the Expiration Date.

(c) Should Optionee cease Service by reason of Permanent Disability while this option is outstanding, then Optionee (or any person or persons to whom this option is transferred pursuant to a permitted transfer under Paragraph 3) shall have a period of twelve (12) months (commencing with the date of such cessation of Service) during which to exercise this option. In no event shall this option be exercisable at any time after the Expiration Date.

(d) During the limited period of post-Service exercisability, this option may not be exercised in the aggregate for more than the number of Option Shares for which the option is exercisable at the time of Optionee's cessation of Service. Upon the expiration of such limited exercise period or (if earlier) upon the Expiration Date, this option shall terminate and cease to be outstanding for any exercisable Option Shares for which the option has not been exercised. However, this option shall, immediately upon Optionee's cessation of Service for any reason, terminate and cease to be outstanding with respect to any Option Shares for which this option is not otherwise at that time exercisable.

6. SPECIAL ACCELERATION OF OPTION.

(a) This option, to the extent outstanding at the time of a Change in Control but not otherwise fully exercisable, shall automatically accelerate so that this option shall, immediately prior to the effective date of such Change in Control, become exercisable for all of the Option Shares at the time subject to this option and may be exercised for any or all of those Option Shares as fully vested shares of Common Stock. However, this option shall not become exercisable on such an accelerated basis, if and to the extent: (i) this option is to be assumed by the successor corporation (or parent thereof) or is otherwise to be continued in full force and effect pursuant to the terms of the Change in Control transaction or (ii) this option is to be replaced with a cash incentive program of the successor corporation which preserves the spread existing at the time of the Change in Control on any Option Shares for which this option is not otherwise at that time exercisable (the excess of the Fair Market Value of those Option Shares over the aggregate Exercise Price payable for such shares) and provides for subsequent payout of that spread in accordance with the same option exercise/vesting schedule for those Option Shares set forth in the Grant Notice.

(b) Immediately following the Change in Control, this option shall terminate and cease to be outstanding, except to the extent assumed by the successor corporation (or parent thereof) or otherwise continued in effect pursuant to the terms of the Change in Control transaction.

(c) If this option is assumed in connection with a Change in Control or otherwise continued in effect, then this option shall be appropriately adjusted, immediately after such Change in Control, to apply to the number and class of securities which would have been issuable to Optionee in consummation of such Change in Control had the option been exercised immediately prior to such Change in Control, and appropriate adjustments shall also be made to the Exercise Price, *provided* the aggregate Exercise Price shall remain the same. To the extent the actual holders of the Corporation's outstanding Common Stock receive cash consideration for their Common Stock in consummation of the Change in Control, the successor corporation may, in connection with the assumption of this option, substitute one or more shares of its own common stock with a fair market value equivalent to the cash consideration paid per share of Common Stock in such Change in Control.

(d) This Agreement shall not in any way affect the right of the Corporation to adjust, reclassify, reorganize or otherwise change its capital or business structure or to merge, consolidate, dissolve, liquidate or sell or transfer all or any part of its business or assets.

7. ADJUSTMENT IN OPTION SHARES. Should any change be made to the Common Stock by reason of any stock split, stock dividend, recapitalization, combination of shares, exchange of shares or other change affecting the outstanding Common Stock as a class without the Corporation's receipt of consideration, appropriate adjustments shall be made to (i) the total number and/or class of securities subject to this option and (ii) the Exercise Price in order to reflect such change and thereby preclude a dilution or enlargement of benefits hereunder.

8. STOCKHOLDER RIGHTS. The holder of this option shall not have any stockholder rights with respect to the Option Shares until such person shall have exercised the option, paid the Exercise Price and become a holder of record of the purchased shares.

9. MANNER OF EXERCISING OPTION.

(a) In order to exercise this option with respect to all or any part of the Option Shares for which this option is at the time exercisable, Optionee (or any other person or persons exercising the option) must take the following actions:

(i) Execute and deliver to the Corporation a Notice of Exercise (see attached form) for the Option Shares for which the option is exercised.

(ii) Pay the aggregate Exercise Price for the purchased shares in one or more of the following forms:

(A) cash or check made payable to the Corporation (includes cash paid from Optionee's brokerage pursuant to a presale of shares in a so-called "cashless" exercise);

(B) through a special sale and remittance procedure pursuant to which Optionee (or any other person or persons exercising the option) shall concurrently provide irrevocable instructions (i) to a brokerage firm to effect the immediate sale of the purchased shares and remit to the Corporation, out of the sale proceeds available on the settlement date, sufficient funds to cover the aggregate Exercise Price payable for the purchased shares plus all applicable income and employment taxes required to be withheld by the Corporation by reason of such exercise and (ii) to the Corporation to deliver the certificates for the purchased shares directly to such brokerage firm in order to complete the sale.

(C) Except to the extent the sale and remittance procedure is utilized in connection with the option exercise, payment of the Exercise Price must accompany the Notice of Exercise delivered to the Corporation in connection with the option exercise.

Payment forms (B) and (C) above shall be accepted solely at the option of the Plan Administrator.

(iii) Furnish to the Corporation appropriate documentation that the person or persons exercising the option (if other than Optionee) have the right to exercise this option.

(iv) Make appropriate arrangements with the Corporation (or Parent or Subsidiary employing or retaining Optionee) for the satisfaction of all applicable income and employment tax withholding requirements applicable to the option exercise.

(b) As soon as practical after the Exercise Date, the Corporation shall issue to or on behalf of Optionee (or any other person or persons exercising this option) a certificate for the purchased Option Shares, with the appropriate legends affixed thereto.

(c) In no event may this option be exercised for any fractional shares.

10. COMPLIANCE WITH LAWS AND REGULATIONS.

(a) The exercise of this option and the issuance of the Option Shares upon such exercise shall be subject to compliance by the Corporation and Optionee with all applicable requirements of law relating thereto and with all applicable regulations of any stock exchange or quotation system on which the Common Stock may be listed for trading at the time of such exercise and issuance.

(b) The inability of the Corporation to obtain approval from any regulatory body having authority deemed by the Corporation to be necessary to the lawful issuance and sale of any Common Stock pursuant to this option shall relieve the Corporation of any liability with respect to the non-issuance or sale of the Common Stock as to which such approval shall not have been obtained. The Corporation, however, shall use its best efforts to obtain all such approvals.

11. SUCCESSORS AND ASSIGNS. Except to the extent otherwise provided in Paragraphs 3 and 6, the provisions of this Agreement shall inure to the benefit of, and be binding upon, the Corporation and its successors and assigns and Optionee, Optionee's assigns, the legal representatives, heirs and legatees of Optionee's estate and any beneficiaries of this option designated by Optionee.

12. NOTICES. Any notice required to be given or delivered to the Corporation under the terms of this Agreement shall be in writing and addressed to the Corporation at its principal corporate offices. Any notice required to be given or delivered to Optionee shall be in writing and addressed to Optionee at the address indicated below Optionee's signature line on the Grant Notice. All notices shall be deemed effective upon personal delivery or upon deposit in the U.S. mail, postage prepaid and properly addressed to the party to be notified.

13. CONSTRUCTION. This Agreement and the option evidenced hereby are made and granted pursuant to the Plan and are in all respects limited by and subject to the terms of the Plan. All decisions of the Plan Administrator with respect to any question or issue arising under the Plan or this Agreement shall be conclusive and binding on all persons having an interest in this option.

14. GOVERNING LAW. The interpretation, performance and enforcement of this Agreement shall be governed by the laws of the State of Texas without resort to that State's conflict-of-laws rules.

15. EXCESS SHARES. If the Option Shares covered by this Agreement exceed, as of the Grant Date, the number of shares of Common Stock which may without stockholder approval be issued under the Plan, then this option shall be void with respect to those excess shares, unless stockholder approval of an amendment sufficiently increasing the number of shares of Common Stock issuable under the Plan is obtained in accordance with the provisions of the Plan.

16. ADDITIONAL TERMS APPLICABLE TO AN INCENTIVE OPTION. In the event this option is designated an Incentive Option in the Grant Notice, the following terms and conditions shall also apply to the grant:

(a) This option shall cease to qualify for favorable tax treatment as an Incentive Option if (and to the extent) this option is exercised for one or more Option Shares: (A) more than three (3) months after the date Optionee ceases to be an Employee for any reason other than death or Permanent Disability or (B) more than twelve (12) months after the date Optionee ceases to be an Employee by reason of Permanent Disability.

(b) No installment under this option shall qualify for favorable tax treatment as an Incentive Option if (and to the extent) the aggregate Fair Market Value (determined at the Grant Date) of the Common Stock for which such installment first becomes exercisable hereunder would, when added to the aggregate value (determined as of the respective date or dates of grant) of the Common Stock or other securities for which this option or any other Incentive Options granted to Optionee prior to the Grant Date (whether under the Plan or any other option plan of the Corporation or any Parent or Subsidiary) first become exercisable during the same calendar year, exceed One Hundred Thousand Dollars (\$100,000) in the aggregate. Should such One Hundred Thousand Dollar (\$100,000) limitation be exceeded in any calendar year, this option shall nevertheless become exercisable for the excess shares in such calendar year as a Non-Statutory Option.

(c) Should the exercisability of this option be accelerated upon a Change in Control, then this option shall qualify for favorable tax treatment as an Incentive Option only to the extent the aggregate Fair Market Value (determined at the Grant Date) of the Common Stock for which this option first becomes exercisable in the calendar year in which the Change in Control transaction occurs does not, when added to the aggregate value (determined as of the respective date or dates of grant) of the Common Stock or other securities for which this option or one or more other Incentive Options granted to Optionee prior to the Grant Date (whether under the Plan or any other option plan of the Corporation or any Parent or Subsidiary) first become exercisable during the same calendar year, exceed One Hundred Thousand Dollars (\$100,000) in the aggregate. Should the applicable One Hundred Thousand Dollar (\$100,000) limitation be exceeded in the calendar year of such Change in Control, the option may nevertheless be exercised for the excess shares in such calendar year as a Non-Statutory Option.

(d) Should Optionee hold, in addition to this option, one or more other options to purchase Common Stock which become exercisable for the first time in the same calendar year as this option, then the foregoing limitations on the exercisability of such options as Incentive Options shall be applied on the basis of the order in which such options are granted.

EXHIBIT I

NOTICE OF EXERCISE

I hereby notify Intrusion Inc. (the "Corporation") that I elect to purchase _____ shares of the Corporation's Common Stock (the "Purchased Shares") at the option exercise price of \$_____ per share (the "Exercise Price") pursuant to that certain option (the "Option") granted to me under the Corporation's 2015 Stock Incentive Plan on _____, _____.

Concurrently with the delivery of this Exercise Notice to the Corporation, I shall hereby pay to the Corporation the Exercise Price for the Purchased Shares in accordance with the provisions of my agreement with the Corporation (or other documents) evidencing the Option and shall deliver whatever additional documents may be required by such agreement as a condition for exercise. Alternatively, I may utilize the special broker-dealer sale and remittance procedure specified in my agreement to effect payment of the Exercise Price.

APPENDIX

The following definitions shall be in effect under the Agreement:

A. “**Agreement**” shall mean this Stock Option Agreement.

B. “**Board**” shall mean the Corporation’s Board of Directors.

C. “**Change in Control**” shall mean a change in ownership or control of the Corporation effected through any of the following transactions:

(i) a merger, consolidation or other reorganization approved by the Corporation’s stockholders, *unless* securities representing more than 50% of the total combined voting power of the voting securities of the successor corporation are immediately thereafter beneficially owned, directly or indirectly, by the persons who beneficially owned the Corporation’s outstanding voting securities immediately prior to such transaction;

(ii) the sale, transfer or other disposition of all or substantially all of the Corporation’s assets; or

(iii) the acquisition, directly or indirectly by any person or related group of persons (other than the Corporation or a person that directly or indirectly controls, is controlled by, or is under common control with, the Corporation), of beneficial ownership (within the meaning of Rule 13d-3 of the Exchange Act) of securities possessing more than 50% of the total combined voting power of the Corporation’s outstanding securities pursuant to a tender or exchange offer made directly to the Corporation’s stockholders.

D. “**Code**” shall mean the Internal Revenue Code, as amended.

E. “**Common Stock**” shall mean shares of the Corporation’s common stock, par value \$0.01 per share.

F. “**Corporation**” shall mean Intrusion Inc., a Delaware corporation, and any corporate successor to all or substantially all of the assets or voting stock of Intrusion Inc. which has by appropriate action assumed the Plan.

G. “**Employee**” shall mean an individual who is in the employ of the Corporation (or any Parent or Subsidiary), subject to the control and direction of the employer entity as to both the work to be performed and the manner and method of performance.

H. “**Exchange Act**” shall mean the Securities Exchange Act of 1934, as amended.

I. “**Exercise Date**” shall mean the date on which the option shall have been exercised in accordance with Paragraph 9 of the Agreement.

J. “ **Exercise Price** ” shall mean the exercise price per Option Share as specified in the Grant Notice.

K. “ **Expiration Date** ” shall mean 5:00 p.m. Central Time on the date on which the option expires as specified in the Grant Notice.

L. “ **Fair Market Value** ” per share of Common Stock on any relevant date shall be determined in accordance with the following provisions:

(i) If the Common Stock is at the time traded on the Nasdaq Stock Market, then the Fair Market Value shall be the closing selling price per share of Common Stock on the date in question, as such price is reported by the National Association of Securities Dealers on the Nasdaq Stock Market. If there is no closing selling price for the Common Stock on the date in question, then the Fair Market Value shall be the closing selling price on the last preceding date for which such quotation exists.

(ii) If the Common Stock is at the time listed on any stock exchange, then the Fair Market Value shall be the closing selling price per share of Common Stock on the date in question on the stock exchange determined by the Plan Administrator to be the primary market for the Common Stock, as such price is officially quoted in the composite tape of transactions on such exchange. If there is no closing selling price for the Common Stock on the date in question, then the Fair Market Value shall be the closing selling price on the last preceding date for which such quotation exists.

(iii) If the Common Stock is at the time neither listed on any stock exchange or the Nasdaq Stock Market, then the Fair Market Value shall be determined by the Plan Administrator after taking into account such factors as the Plan Administrator shall deem appropriate.

M. “ **Grant Date** ” shall mean the date of grant of the option as specified in the Grant Notice.

N. “ **Grant Notice** ” shall mean the Notice of Grant of Stock Option accompanying the Agreement, pursuant to which Optionee has been informed of the basic terms of the option evidenced hereby.

O. “ **Incentive Option** ” shall mean an option that satisfies the requirements of Code Section 422.

P. “ **Non-Statutory Option** ” shall mean an option not intended to satisfy the requirements of Code Section 422.

Q. “ **Notice of Exercise** ” shall mean the notice of exercise in the form attached hereto as Exhibit I.

R. “ **Option Shares** ” shall mean the number of shares of Common Stock subject to the option as specified in the Grant Notice.

S. “ **Optionee** ” shall mean the person to whom the option is granted as specified in the Grant Notice.

T. “ **Parent** ” shall mean any corporation (other than the Corporation) in an unbroken chain of corporations ending with the Corporation, provided each corporation in the unbroken chain (other than the Corporation) owns, at the time of the determination, stock possessing 50% or more of the total combined voting power of all classes of stock in one of the other corporations in such chain.

U. “ **Permanent Disability** ” shall mean the inability of Optionee to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which is expected to result in death or has lasted or can be expected to last for a continuous period of twelve (12) months or more.

V. “ **Plan** ” shall mean the Corporation’s 2015 Stock Incentive Plan.

W. “ **Plan Administrator** ” shall mean either the Board or a committee of the Board acting in its capacity as administrator of the Plan.

X. “ **Service** ” shall mean the Optionee’s performance of services for the Corporation (or any Parent or Subsidiary) in the capacity of an Employee, a non-Employee member of the Board or an independent contractor. Service shall not be deemed to cease during a period of military leave, sick leave or other personal leave approved by the Corporation; provided, however, that for a leave which exceeds ninety (90) days, Service shall be deemed to cease, if the Option is designated an Incentive Stock Option in the Grant Notice, on the ninety-first (91st) day of such leave, unless the Optionee’s right to return to Service following such leave is guaranteed by law or statute. Except to the extent otherwise required by law, no Service credit shall be given for vesting purposes hereunder for any period the Optionee is on a leave of absence.

Y. “ **Subsidiary** ” shall mean any corporation (other than the Corporation) in an unbroken chain of corporations beginning with the Corporation, provided each corporation (other than the last corporation) in the unbroken chain owns, at the time of the determination, stock possessing 50% or more of the total combined voting power of all classes of stock in one of the other corporations in such chain.

INTRUSION INC.

NOTICE OF GRANT OF NON-EMPLOYEE DIRECTOR
AUTOMATIC STOCK OPTION

Notice is hereby given of the following option grant (the "Option") to purchase shares of the Common Stock of Intrusion Inc. (the "Corporation"):

OPTIONEE: _____

GRANT DATE: _____

GRANT NUMBER: _____

NUMBER OF OPTION SHARES: 10,000 shares of common stock

EXERCISE PRICE: \$ _____ per share

EXPIRATION DATE: _____

TYPE OF OPTION: Non-Statutory Stock Option

EXERCISE SCHEDULE: The Option shall vest and become exercisable for one-third of the Option Shares upon Optionee's completion of each year of service as a member of the Corporation's Board of Directors (the "Board") over the three-year period measured from the Grant Date. In no event shall the Option become exercisable for any additional Option Shares after Optionee's cessation of Board service.

Optionee understands and agrees that the Option is granted subject to and in accordance with the terms of the automatic option grant program under the Intrusion Inc. 2015 Stock Incentive Plan (the "Plan"). Optionee further agrees to be bound by the terms of the Plan and the terms of the Option as set forth in the Automatic Stock Option Agreement attached hereto as EXHIBIT A. A copy of the Plan is available upon request made to the Corporate Secretary at the Corporation's principal offices.

NO IMPAIRMENT OF RIGHTS. Nothing in this Notice or the attached Automatic Stock Option Agreement or in the Plan shall interfere with or otherwise restrict in any way the rights of the Corporation and the Corporation's stockholders to remove Optionee from the Board at any time in accordance with the provisions of applicable law.

DEFINITIONS. All capitalized terms in this Notice shall have the meaning assigned to them in this Notice or in the attached Automatic Stock Option Agreement.

EXHIBIT A – AUTOMATIC STOCK OPTION AGREEMENT

EXHIBIT A

AUTOMATIC STOCK OPTION AGREEMENT

INTRUSION INC.AUTOMATIC STOCK OPTION AGREEMENT

RECITALS

A. The Corporation has implemented an automatic option grant program under the Plan pursuant to which eligible non-employee members of the Board will automatically receive special option grants at periodic intervals over their period of Board service in order to provide such individuals with a meaningful incentive to continue to serve as members of the Board.

B. Optionee is an eligible non-employee Board member, and this Agreement is executed pursuant to, and is intended to carry out the purposes of, the Plan in connection with the automatic grant of an option to purchase shares of Common Stock under the Plan.

C. All capitalized terms in this Agreement shall have the meaning assigned to them in the attached Appendix.

NOW, THEREFORE, it is hereby agreed as follows:

1. GRANT OF OPTION. The Corporation hereby grants to Optionee, as of the Grant Date, a Non-Statutory Option to purchase up to the number of Option Shares specified in the Grant Notice. The Option Shares shall be purchasable from time to time during the option term specified in Paragraph 2 at the Exercise Price.

2. OPTION TERM. This option shall have a term of ten (10) years measured from the Grant Date and shall accordingly expire at the close of business on the Expiration Date, unless sooner terminated in accordance with Paragraph 5, 6 or 7.

3. LIMITED TRANSFERABILITY.

(a) This option may be assigned in whole or in part during Optionee's lifetime to one or more members of Optionee's family or to a trust established for the exclusive benefit of one or more such family members or to Optionee's former spouse, to the extent such assignment is in connection with the Optionee's estate plan or pursuant to a domestic relations order. The assigned portion shall be exercisable only by the person or persons who acquire a proprietary interest in the option pursuant to such assignment. The terms applicable to the assigned portion shall be the same as those in effect for this option immediately prior to such assignment.

(b) Should the Optionee die while holding this option, then this option shall be transferred in accordance with Optionee's will or the laws of inheritance. However, Optionee may designate one or more persons as the beneficiary or beneficiaries of this option, and this option shall, in accordance with such designation, automatically be transferred to such beneficiary or beneficiaries upon the Optionee's death while holding this option. Such beneficiary or beneficiaries shall take the transferred option subject to all the terms and conditions of this Agreement, including (without limitation) the limited time period during which this option may, pursuant to Paragraph 5, be exercised following Optionee's death.

4. EXERCISABILITY/VESTING. This option shall become vested and exercisable for the Option Shares in one or more installments as specified in the Grant Notice. As the option becomes exercisable for such installments, those installments shall accumulate, and the option shall remain exercisable for the accumulated installments until the Expiration Date or sooner termination of the option term under Paragraph 5, 6 or 7. The Option Shares shall, however, be subject to accelerated vesting pursuant to the provisions of Paragraph 5, 6 or 7, but in no event shall any additional Option Shares vest following Optionee's cessation of service as a Board member.

5. CESSATION OF BOARD SERVICE. Should Optionee's service as a Board member cease while this option remains outstanding, then the option term specified in Paragraph 2 shall terminate (and this option shall cease to be outstanding) prior to the Expiration Date in accordance with the following provisions:

(a) Should Optionee cease to serve as a Board member for any reason while this option is outstanding, then the period during which this option may be exercised shall be reduced to a one-year period measured from the date of such cessation of Board service, but in no event shall this option be exercisable at any time after the Expiration Date. During such limited period of exercisability, Optionee (or the person or persons to whom this option is transferred pursuant to a permitted transfer under Paragraph 3) may not exercise this option in the aggregate for more than the number of Option Shares (if any) in which Optionee is vested on the date of his or her cessation of Board service. Upon the *earlier* of (i) the expiration of such one-year period or (ii) the specified Expiration Date, the option shall terminate and cease to be exercisable with respect to any vested Option Shares for which the option has not been exercised.

(b) Should Optionee cease service as a Board member by reason of death or Permanent Disability, then any Option Shares at the time subject to this option but not otherwise vested shall vest in full so that this option may be exercised for any or all of the Option Shares as fully vested shares of Common Stock at any time prior to the *earlier* of (i) the expiration of the one-year period measured from the date of Optionee's cessation of Board service or (ii) the specified Expiration Date, whereupon this option shall terminate and cease to be outstanding.

(c) Upon Optionee's cessation of Board service for any reason other than death or Permanent Disability, this option shall immediately terminate and cease to be outstanding with respect to any and all Option Shares in which Optionee is not otherwise at that time vested in accordance with the normal Vesting Schedule or the special vesting acceleration provisions of Paragraphs 6 and 7 below.

6. CHANGE IN CONTROL.

(a) In the event of a Change in Control effected during Optionee's period of Board service, any Option Shares at the time subject to this option but not otherwise vested shall automatically vest so that this option shall, immediately prior to the specified effective date for that Change in Control, become exercisable for all of the Option Shares as fully vested shares of Common Stock and may be exercised for any or all of those vested shares. Immediately following the consummation of the Change in Control, this option shall terminate and cease to be outstanding, except to the extent assumed by the successor corporation or its parent company or otherwise continued in effect pursuant to the terms of the Change in Control transaction.

(b) If this option is assumed in connection with a Change in Control or otherwise continued in effect, then this option shall be appropriately adjusted, immediately after such Change in Control, to apply to the number and class of securities which would have been issuable to Optionee in consummation of such Change in Control had the option been exercised immediately prior to such Change in Control, and appropriate adjustments shall also be made to the Exercise Price, *provided* the aggregate Exercise Price shall remain the same. To the extent the actual holders of the Corporation's outstanding Common Stock receive cash consideration for their Common Stock in consummation of the Change in Control transaction, the successor corporation may, in connection with the assumption of this option, substitute one or more shares of its own common stock with a fair market value equivalent to the cash consideration paid per share of Common Stock in such Change in Control transaction.

7. PROXY CONTEST. In the event a Proxy Contest occurs during Optionee's period of Board service, any Option Shares at the time subject to this option but not otherwise vested shall automatically vest so that this option shall, immediately upon the consummation of the Proxy Contest, become exercisable for all of the Option Shares as fully vested shares of Common Stock and may be exercised for any or all of those vested shares. This option shall remain exercisable for such fully vested Option Shares until the *earlier* to occur of (i) the specified Expiration Date, and (ii) the sooner termination of this option in accordance with Paragraph 5 or 6.

8. ADJUSTMENT IN OPTION SHARES. Should any change be made to the Common Stock by reason of any stock split, stock dividend, recapitalization, combination of shares, exchange of shares or other change affecting the outstanding Common Stock as a class without the Corporation's receipt of consideration, appropriate adjustments shall be made to (i) the total number and/or class of securities subject to this option and (ii) the Exercise Price in order to reflect such change and thereby preclude a dilution or enlargement of benefits hereunder.

9. STOCKHOLDER RIGHTS. The holder of this option shall not have any stockholder rights with respect to the Option Shares until such person shall have exercised the option, paid the Exercise Price and become a holder of record of the purchased shares.

10. MANNER OF EXERCISING OPTION.

(a) In order to exercise this option with respect to all or any part of the Option Shares for which this option is at the time exercisable, Optionee (or any other person or persons exercising the option) must take the following actions:

(i) To the extent the option is exercised for vested Option Shares, execute and deliver to the Corporation a Notice of Exercise (see attached form) for the Option Shares for which the option is exercised. To the extent this option is exercised for unvested Option Shares, execute and deliver to the Corporation a Purchase Agreement for those unvested Option Shares.

(ii) Pay the aggregate Exercise Price for the purchased shares in one or more of the following forms:

(A) cash or check made payable to the Corporation (includes cash paid from Optionee's brokerage pursuant to a presale of shares in a so-called "cashless" exercise),

(B) shares of Common Stock held by Optionee (or any other person or persons exercising the option) for the requisite period necessary to avoid a charge to the Corporation's earnings for financial reporting purposes and valued at Fair Market Value on the Exercise Date, or

(C) to the extent the option is exercised for vested Option Shares, through a special sale and remittance procedure pursuant to which Optionee (or any other person or persons exercising the option) shall concurrently provide irrevocable instructions (I) to a brokerage firm to effect the immediate sale of the purchased shares and remit to the Corporation, out of the sale proceeds available on the settlement date, sufficient funds to cover the aggregate Exercise Price payable for the purchased shares plus all applicable income and employment taxes required to be withheld by the Corporation by reason of such exercise and (II) to the Corporation to deliver the certificates for the purchased shares directly to such brokerage firm in order to complete the sale.

Payment forms (B), and (C) above shall be accepted solely at the option of the Plan Administrator.

(iii) Furnish to the Corporation appropriate documentation that the person or persons exercising the option (if other than Optionee) have the right to exercise this option.

(b) Except to the extent the sale and remittance procedure is utilized in connection with the option exercise, payment of the Exercise Price must accompany the Notice of Exercise (or the Purchase Agreement) delivered to the Corporation in connection with the option exercise.

(c) As soon after the Exercise Date as practical, the Corporation shall issue to or on behalf of Optionee (or any other person or persons exercising this option) a certificate for the purchased Option Shares, with the appropriate legends affixed thereto. To the extent any such Option Shares are unvested, the certificates for those Option Shares shall be endorsed with an appropriate legend evidencing the Corporation's repurchase rights and may be held in escrow with the Corporation until such shares vest.

(d) In no event may this option be exercised for any fractional shares.

11. NO IMPAIRMENT OF RIGHTS. This Agreement shall not in any way affect the right of the Corporation to adjust, reclassify, reorganize or otherwise make changes in its capital or business structure or to merge, consolidate, dissolve, liquidate or sell or transfer all or any part of its business or assets. In addition, this Agreement shall not in any way be construed or interpreted so as to affect adversely or otherwise impair the right of the Corporation or the stockholders to remove Optionee from the Board at any time in accordance with the provisions of applicable law.

12. COMPLIANCE WITH LAWS AND REGULATIONS.

(a) The exercise of this option and the issuance of the Option Shares upon such exercise shall be subject to compliance by the Corporation and Optionee with all applicable requirements of law relating thereto and with all applicable regulations of any stock exchange or quotation system on which the Common Stock may be listed for trading at the time of such exercise and issuance.

(b) The inability of the Corporation to obtain approval from any regulatory body having authority deemed by the Corporation to be necessary to the lawful issuance and sale of any Common Stock pursuant to this option shall relieve the Corporation of any liability with respect to the non-issuance or sale of the Common Stock as to which such approval shall not have been obtained. The Corporation, however, shall use its best efforts to obtain all such approvals.

13. SUCCESSORS AND ASSIGNS. Except to the extent otherwise provided in Paragraph 3 or 6, the provisions of this Agreement shall inure to the benefit of, and be binding upon, the Corporation and its successors and assigns and Optionee, Optionee's assigns, the legal representatives, heirs and legatees of Optionee's estate and any beneficiaries of this option designated by Optionee.

14. NOTICES. Any notice required to be given or delivered to the Corporation under the terms of this Agreement shall be in writing and addressed to the Corporation at its principal corporate offices. Any notice required to be given or delivered to Optionee shall be in writing and addressed to Optionee at the address indicated below Optionee's signature line on the Grant Notice. All notices shall be deemed effective upon personal delivery or upon deposit in the U.S. mail, postage prepaid and properly addressed to the party to be notified.

15. CONSTRUCTION. This Agreement and the option evidenced hereby are made and granted pursuant to the Plan and are in all respects limited by and subject to the terms of the Plan.

16. GOVERNING LAW. The interpretation, performance and enforcement of this Agreement shall be governed by the laws of the State of Texas without resort to that State's conflict-of-laws rules.

EXHIBIT I

NOTICE OF EXERCISE

I hereby notify Intrusion Inc. (the "Corporation") that I elect to purchase _____ shares of the Corporation's Common Stock (the "Purchased Shares") at the option exercise price of \$_____ per share (the "Exercise Price") pursuant to that certain option (the "Option") granted to me under the Corporation's 2015 Stock Incentive Plan on _____, _____.

Concurrently with the delivery of this Exercise Notice to the Corporation, I shall hereby pay to the Corporation the Exercise Price for the Purchased Shares in accordance with the provisions of my agreement with the Corporation (or other documents) evidencing the Option and shall deliver whatever additional documents may be required by such agreement as a condition for exercise. Alternatively, I may utilize the special broker-dealer sale and remittance procedure specified in my agreement to effect payment of the Exercise Price for any Purchased Shares in which I am vested at the time of exercise of the Option.

_____, _____
Date

Optionee:

Print Name: _____

Address: _____

Print name in exact manner it is to appear on the stock certificate:

Address to which certificate is to be sent, if different from address above:

Social Security Number:

APPENDIX

The following definitions shall be in effect under the Agreement:

- A. “**Agreement**” shall mean this Automatic Stock Option Agreement.
- B. “**Board**” shall mean the Corporation’s Board of Directors.
- C. “**Change in Control**” shall mean a change in ownership or control of the Corporation effected through any of the following transactions:
- (i) a merger, consolidation or other reorganization approved by the Corporation’s stockholders, *unless* securities representing more than 50% of the total combined voting power of the voting securities of the successor corporation are immediately thereafter beneficially owned, directly or indirectly, by the persons who beneficially owned the Corporation’s outstanding voting securities immediately prior to such transaction;
 - (ii) the sale, transfer or other disposition of all or substantially all of the Corporation’s assets; or
 - (iii) the acquisition, directly or indirectly, by any person or related group of persons (other than the Corporation or a person that directly or indirectly controls, is controlled by, or is under common control with, the Corporation) of beneficial ownership (within the meaning of Rule 13d-3 of the Exchange Act) of securities possessing more than 50% of the total combined voting power of the Corporation’s outstanding securities pursuant to a tender or exchange offer made directly to the Corporation’s stockholders.
- D. “**Common Stock**” shall mean shares of the Corporation’s common stock, par value \$0.01 per share.
- E. “**Code**” shall mean the Internal Revenue Code, as amended.
- F. “**Corporation**” shall mean Intrusion Inc., a Delaware corporation, and any successor corporation to all or substantially all of the assets or voting stock of Intrusion Inc. which has by appropriate action assumed the Plan.
- G. “**Exercise Date**” shall mean the date on which the option shall have been exercised in accordance with Paragraph 10 of the Agreement.
- H. “**Exercise Price**” shall mean the exercise price per share as specified in the Grant Notice.
- I. “**Expiration Date**” shall mean 5:00 p.m. Central Time on the date on which the option expires as specified in the Grant Notice.
-

J. “ **Fair Market Value** ” per share of Common Stock on any relevant date shall be determined in accordance with the following provisions:

(i) If the Common Stock is at the time traded on the Nasdaq Stock Market, then the Fair Market Value shall be the closing selling price per share of Common Stock on the date in question, as such price is reported by the National Association of Securities Dealers on the Nasdaq Stock Market. If there is no closing selling price for the Common Stock on the date in question, then the Fair Market Value shall be the closing selling price on the last preceding date for which such quotation exists.

(ii) If the Common Stock is at the time listed on any stock exchange, then the Fair Market Value shall be the closing selling price per share of Common Stock on the date in question on the stock exchange which serves as the primary market for the Common Stock, as such price is officially quoted in the composite tape of transactions on such exchange. If there is no closing selling price for the Common Stock on the date in question, then the Fair Market Value shall be the closing selling price on the last preceding date for which such quotation exists.

(iii) If the Common Stock is at the time neither listed on any stock exchange or the Nasdaq Stock Market, then the Fair Market Value shall be determined by the Plan Administrator after taking into account such factors as the Plan Administrator shall deem appropriate.

K. “ **Grant Date** ” shall mean the date of grant of the option as specified in the Grant Notice.

L. “ **Grant Notice** ” shall mean the Notice of Grant of Automatic Stock Option accompanying the Agreement, pursuant to which Optionee has been informed of the basic terms of the option evidenced hereby.

M. “ **Non-Statutory Option** ” shall mean an option not intended to satisfy the requirements of Code Section 422.

N. “ **Notice Of Exercise** ” shall mean the notice of exercise in the form of Exhibit I.

O. “ **Option Shares** ” shall mean the number of shares of Common Stock subject to the option.

P. “ **Optionee** ” shall mean the person to whom the option is granted as specified in the Grant Notice.

Q. “ **Permanent Disability** ” shall mean the inability of Optionee to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which is expected to result in death or has lasted or can be expected to last for a continuous period of twelve (12) months or more.

R. “ **Plan** ” shall mean the Corporation’s 2015 Stock Incentive Plan.

S. “ ***Proxy Contest*** ” shall mean a change in ownership or control of the Corporation effected through a change in the composition of the Board over a period of thirty-six consecutive months or less such that a majority of the Board members ceases, by reason of one or more contested elections for Board membership, to be comprised of individuals who either (a) have been Board members continuously since the beginning of such period or (b) have been elected or nominated for election as Board members during such period by at least a majority of the Board members described in clause (a) who were still in office at the time the Board approved such election or nomination.

T. “ ***Purchase Agreement*** ” shall mean the stock purchase agreement (in form and substance satisfactory to the Corporation) which grants the Corporation the right to repurchase, at the Exercise Price, any and all unvested Option Shares held by Optionee at the time of Optionee’s cessation of Board service and which precludes the sale, transfer or other disposition of any purchased Option Shares while those shares are unvested and subject to such repurchase right.

U. “ ***Vesting Schedule*** ” shall mean the vesting schedule specified in the Grant Notice, pursuant to which the Option Shares will vest in one or more installments over the Optionee’s period of Board service, subject to acceleration in accordance with the provisions of the Agreement.

AMENDED AND RESTATED PROMISSORY NOTE
(Revolving Loan)

\$2,700,000.00

Effective February 7, 2019

FOR VALUE RECEIVED, on or before March 31, 2021 (“Maturity Date”), INTRUSION INC., a Delaware corporation (“Borrower”), promises to pay to the order of G. WARD PAXTON, of Richardson, TX (“Payee”), at 1101 E. Arapaho Road, Suite 200, the principal amount of TWO MILLION SEVEN HUNDRED THOUSAND AND NO/100 DOLLARS (\$2,700,000.00), or such lesser amount as may have been advanced by Payee to Borrower pursuant to this Amended and Restated Promissory Note (“Note”), together with interest on the unpaid principal balance of this Note from time to time outstanding at a floating rate per annum equal to one percent (1%) above the Prime Rate (as hereinafter defined), calculated on the basis of actual days elapsed but computed as if each year consisted of 360 days. This Note amends, restates and replaces in full that certain Promissory Note dated February 8, 2018, in the original principal amount of \$3,700,000.00, executed by Borrower and originally payable to the order of Payee on or before March 31, 2020. As used herein, the term “Prime Rate” shall mean the most recently announced “prime rate” of Silicon Valley Bank, even if it is not such bank’s lowest rate. Changes to the interest rate on this Note based upon changes in the Prime Rate shall be effective on the effective date of any changes to the Prime Rate and to the extent of any such change.

The outstanding principal balance of this Note, together with all accrued but unpaid interest, shall be due and payable in full on the Maturity Date.

Subject to the terms and conditions of this Note, Payee has agreed to make advances during the period beginning on the date of this Note and ending on the Maturity Date in an aggregate principal amount of up to \$2,700,000 outstanding at any date upon three (3) Business Days prior written notice. Payee is authorized to endorse on the schedule annexed hereto and made a part hereof amounts advanced to Borrower through the Maturity Date. Borrower and Payee have agreed that Payee shall be obligated to make such advances to Borrower only so long as of the date of each such advance, no Event of Default (as hereinafter defined) exists or would occur by reason of the making of such advance. Subject to the foregoing, amounts repaid may be reborrowed by Borrower.

Borrower may from time to time prepay all or any portion of the principal of this Note without premium or penalty. Unless otherwise agreed to in writing, or otherwise required by applicable law, payments will be applied first to unpaid accrued interest, then to principal, and any remaining amount to any unpaid collection costs; provided, however, upon delinquency or other Event of Default, Payee reserves the right to apply payments among principal, interest and collection cost, at its discretion. All prepayments shall be applied to the indebtedness owing hereunder in such order and manner as Payee may from time to time determine in its sole discretion. All payments and prepayments of principal of or interest on this Note shall be made in lawful money of the United States of America in immediately available funds, at the address of Payee indicated above, or such other place as the holder of this Note shall designate in writing to Borrower. If any payment of principal of or interest on this Note shall become due on a day which is not a Business Day (as hereinafter defined), such payment shall be made on the next succeeding Business Day and any such extension of time shall be included in computing interest in connection with such payment. As used herein, the term “Business Day” shall mean any day other than a Saturday, Sunday or any other day on which national banking associations are authorized to be closed.

Borrower represents and warrants to Payee as follows:

(a) This Note is the legal, valid and binding obligation of Borrower, enforceable against it in accordance with its terms.

(b) The approval, execution, delivery and performance of, and compliance by Borrower with the terms of this Note, will not cause Borrower to be in violation of any applicable law or regulation, or of any order or regulation applicable to it. The approval, execution, delivery and performance of, and compliance by Borrower with the terms of, this Note will not conflict with or result in a breach of any of the terms of any material agreement or instrument to which Borrower is a party or by which it is bound, or constitute a default thereunder.

Borrower agrees that upon the occurrence of any one or more of the following events of default (“Event of Default”):

- (a) failure of Borrower to pay any installment of principal of or interest on this Note or on any other indebtedness of Borrower to Payee when due; or
- (b) any representation or warranty made by Borrower in this Note shall be untrue in any material respect when made; or
- (c) the bankruptcy or insolvency of, the assignment for the benefit of creditors by, or the appointment of a receiver for any of the property of, or the liquidation, termination, dissolution or death or legal incapacity of, any party liable for the payment of this Note, whether as maker, endorser, guarantor, surety or otherwise;

the holder of this Note may, at its option, without further notice or demand, (i) declare the outstanding principal balance of and accrued but unpaid interest on this Note at once due and payable, (ii) refuse to advance any additional amounts under this Note, (iii) pursue any and all other rights, remedies and recourses available to the holder hereof, including but not limited to any such rights, remedies or recourses at law or in equity, or (iv) pursue any combination of the foregoing.

The failure to exercise the option to accelerate the maturity of this Note or any other right, remedy or recourse available to the holder hereof upon the occurrence of an Event of Default hereunder shall not constitute a waiver of the right of the holder of this Note to exercise the same at that time or at any subsequent time with respect to such Event of Default or any other Event of Default. The rights, remedies and recourses of the holder hereof, as provided in this Note, shall be cumulative and concurrent and may be pursued separately, successively or together as often as occasion therefore shall arise, at the sole discretion of the holder hereof. The acceptance by the holder hereof of any payment under this Note which is less than the payment in full of all amounts due and payable at the time of such payment shall not (i) constitute a waiver of or impair, reduce, release or extinguish any right, remedy or recourse of the holder hereof, or nullify any prior exercise of any such right, remedy or recourse, or (ii) impair, reduce, release or extinguish the obligations of any party liable under this Note as originally provided herein.

Notwithstanding anything herein to the contrary, if at any time the interest rate set forth above, together with all fees, charges and other amounts which are treated as interest on the indebtedness evidenced by this Note under applicable law (collectively the “Charges”), shall exceed the maximum lawful rate (the “Maximum Rate”) which may be contracted for, charged, taken, received or reserved by Payee in accordance with applicable law, the rate of interest payable hereunder in respect of such indebtedness, together with all Charges payable in respect thereof, shall be limited to the Maximum Rate.

If this Note is placed in the hands of an attorney for collection, or is collected in whole or in part by suit or through probate, bankruptcy or other legal proceedings of any kind, Borrower agrees to pay, in addition to all other sums payable hereunder, all costs and expenses of collection, including but not limited to reasonable attorneys’ fees.

Borrower and any and all endorsers and guarantors of this Note severally waive presentment for payment, notice of nonpayment, protest, demand, notice of protest, notice of intent to accelerate, notice of acceleration and dishonor, diligence in enforcement and indulgences of every kind and without further notice hereby agree to renewals, extensions, exchanges or releases of collateral, taking of additional collateral, indulgences or partial payments, either before or after maturity.

THIS NOTE HAS BEEN EXECUTED UNDER, AND SHALL BE CONSTRUED AND ENFORCED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF TEXAS.

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We consent to the incorporation by reference in the Registration Statement Nos. 333-125816, 333-167577 and 333-224810 on Form S-8 of our report dated March 28, 2019, with respect to the consolidated financial statements of Intrusion Inc. and subsidiaries included in this Annual Report on Form 10-K for the year ended December 31, 2018.

/s/Whitley Penn LLP

Plano, Texas
March 28, 2019

I, G. Ward Paxton, Chief Executive Officer of Intrusion Inc., certify that:

- (1) I have reviewed this annual report on Form 10-K of Intrusion Inc.:
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- (4) The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or cause such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principals;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- (5) The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
