THAT STANDS THE TEST OF TIME.

Innovation is part of our founder's legacy and over our 135 year history, the Company has continually expanded its line of products. Our product portfolio now encompasses laser and vision measurement systems to material test equipment, in addition to our traditional measuring tools and saw blades. Our success is based on the foundation built by L.S. Starrett and the legions of our personnel who have perpetuated his ideals and made our Company a leader in its field.

Starrett has a rich history and our commitment to precision, quality and innovation has earned the trust of toolmakers and tradesmen the world over.

INNOVATION

Jobsite and Workshop

Starrett has a diverse selection of tapes, levels, protractors, utility knives, hand saw blades and other construction products, Starrett makes its mark in the jobsite and workshop trades.

Power Tool Accessories

With tools such as diamond edge holes saws, Dual-Cut® jig saw blades and a variety of reciprocating blades, Starrett has become a global leader in power tool industries.

Gage Blocks and Granite Surface Plates

A complete range of Steel, Ceramic and Chromium Carbide gage blocks are available along with a variety of granite surface plates designed specifically for quality control labs globally.

Vision and Optical

With the unbeatable combination of precision mechanics, powerful and intuitive software, Starrett Vision and Optical Systems take video-based and multi-sensor measuring systems to the next level.

THAT STANDS THE TEST OF TIME.

Test Equipment

Material testing and force measurement systems are available in capacities up to 50kN (11,200lbf). These systems are used in the lab or on the production floor.

Laser Measurement

An in-line, real-time, non-contact measurement system for continuously monitoring key profile dimensions in complex shapes such as rubber, ceramic, plastic, and wood-plastic composite extrusions, roll-formed metal profiles and profiled wire.

Band Saw Blades

A range of innovative new technologies and blades with measurable productivity advantages push the Starrett brand to the forefront of the saw industries.

Custom Solutions

Our Engineers will create a custom tool to fit your specifications.

Precision Hand Tools

Generations of craftsmen and toolmakers have relied on Starrett precision tools. With proven quality and expert technical support, Starrett is the name chosen by serious professionals to guarantee repeatability and accuracy in their precision hand tools.

^ COMPANY

PRESIDENT'S LETTER

TO STARRETT STOCKHOLDERS AND ALL STARRETT PERSONNEL:

Our Company celebrated its 135th anniversary in what was a challenging and volatile global marketplace in fiscal 2015. As a multinational business, we benefited from stability and moderate economic growth in North America and suffered from the opposite paradigm in Latin America, Europe and Asia. Strategically, we view our global footprint and geographic market diversity as strength and this was again the case this year. The storyline for nine months was a strong U.S. performance helping offset a difficult global economy. That trend did not continue in our fourth quarter, as lower sales and higher costs hurt our financial performance in comparison to last year's strong finish. Despite these economic headwinds, metrology sales and margins continued to grow in North America, led by new customers for precision measuring tools and new product introductions that contributed to greater market penetration for the Company's high end metrology products. Our focus on high end measuring systems and custom solutions paid dividends in fiscal 2015. The Company has invested in internal research and development and targeted acquisitions to grow this portfolio of products to 28% of domestic sales. Saw and hand tool sales rose 5% in international markets in local constant currency; but, declined 12% after converting to U.S. dollars due to the strong dollar. Our strategic objective to grow precision tool sales domestically

through new distribution channels resulted in 6% growth in fiscal 2015.

The strong dollar negatively impacted all international divisions, in particular Brazil, the Company's largest international market, which was also hurt by accelerating inflation and a deepening recession. Unfavorable currency issues due to the strong dollar not only affect consolidated sales, it also puts us at a competitive price disadvantage and negatively effects profit. The majority of international sales relates to products manufactured and sold in the local currency, which mitigates the impact on profit locally; however, the international group's purchases of Starrett metrology products and other third party vendors in U.S. dollars result in pricing and margin pressures for our international locations.

Over the past several years, the Company has recognized the need for a better communication structure to address the financial, economic and competitive challenges facing a global company operating nine manufacturing plants and six distribution centers. We continue to believe empowering local management decision making based upon their geographic sector is a critical management philosophy. Technology, logistics and industrial requirements have changed how the Company manages its manufacturing, sales

THAT STANDS THE TEST OF TIME.

and distribution model. To facilitate these changes, the Company's global management teams meet regularly to implement both tactical and strategic initiatives.

As I mentioned last year, workforce development should be a national priority as the skills gap threatens our competitive position. The Company was invited by the National Coalition of Certification Centers (NC3) to develop a metrology curriculum for technical schools and community colleges in the United States. NC3 is a network of education providers and corporations that supports advances and validates emerging technology skill in industry sectors. We welcomed the opportunity and formed a cross functional team to develop a curriculum that provides students with both an academic and practical learning experience of how precision measurement is an integral component of the manufacturing process. The Company also developed a toolbox of over 100 tools to be used in conjunction with the curriculum. The program was presented at the NC3 National Leadership Conference in July and was well received by both the academic and corporate communities.

FINANCIAL HIGHLIGHTS

In fiscal 2015, sales revenues were \$246.1 million, a decrease of \$5.6 million or 2.2%. Eliminating the negative effect of foreign currency exchange rates, sales increased 3.4%. North America was our strongest market, with sales increasing \$7.9 million or

approximately 6.0%. International sales declined \$13.4 million as the result of a net \$14.0 million exchange loss related to the Brazilian Real, Euro and Canadian Dollar. On a consolidated basis, gross margins decreased \$4.4 million or 5.4% and operating income decreased \$3.3 million.

DIVIDENDS

We paid a quarterly dividend of \$0.10 per share in fiscal 2015. Our philosophy has been to set the dividend at a level that we can maintain while having adequate cash to improve our plant, equipment, and invest in the future through acquisitions and new development. We take a long-term view of this policy; however, the Board of Directors evaluates the merits of dividend distribution each quarter.

FINANCIAL CONDITION

Our financial condition remains strong with a current ratio of 4.1 to 1 and net working capital of \$109.8 million. Book value decreased \$21.9 million or \$3.26 per share to \$16.32 at the end of this year, compared to \$19.58 last year. In addition to dividends and normal earnings retained in the business, fluctuations in foreign currency and pension contributed \$2.70 and \$0.88, respectively, to the per share decline in book value. The Company's cash and investments decreased \$6.0 million to \$19.0 million. Total debt decreased \$1.2 million.

PLANT ADDITIONS

Capital expenditures for plant and equipment were \$5.1 million in 2015, compared to \$8.5 million in 2014. Depreciation for the year was \$7.4 million in 2015, compared to \$8.2 million in 2014.

EMPLOYEE STOCKHOLDERS

During fiscal 2015, options for 30,718 shares were exercised by employees through the Employee Stock Purchase Plan (ESPP). As of June 30, 2015, employees of the Company hold options under the ESPP for 54,307 shares that can be exercised over the next two years. Our experience over the years has been that employee stock ownership contributes to the success of a company, which is good for all stockholders and employees. Present and former employees hold a significant portion of the Company's outstanding stock.

TREASURY STOCK

Consistent with cash needs, the Company may acquire additional shares from time to time, both on the New York Stock Exchange and in private transactions. The plan is to have stock available for miscellaneous corporate purposes and to reduce the dilutive effect on existing stockholders of the issuance of shares under the various employee stock ownership plans.

LOOKING FORWARD

As the Company begins fiscal 2016, there is little evidence that suggests a robust global economy; however, domestically, we believe we can leverage some upside in the automotive and medical sector that has maintained momentum to help offset the recent softening we have experienced relative to industries tied to the oil patch.

The major question mark is whether the Federal Reserve increases the interest rates, as this will affect both our domestic and international markets. Here at home, if interest rates go up, the U.S. dollar will continue to grow stronger hurting exports and investment. Internationally, a stronger dollar will reduce local currency sales and margins in U.S. dollars and put further pressure on product pricing in our export markets.

In Brazil, to help mitigate an economy in recession, we are focused on export markets to leverage their currency advantage and have invested in raw material and saw capacity to lower costs and pursue new business internationally.

The European economy will remain fragile and susceptible to the volatility of geo-politics and the financial markets. Eurozone economies may benefit from the strong dollar, boosting exports and stimulating increased demand for European produced goods

A COMPANY

and services. Our Company continues to forge new distribution relationships in Europe, which may not be impactful in this year, but will bolster our growth efforts in the future.

We still see China as a growth market, despite the significant economic deceleration. The Company will continue to prudently invest in manufacturing capability and sales assets to grow our brand presence in China. My primary concern is the government's political influence on currency and financial markets effecting the business environment for multinational companies.

With little global growth in the cards in the next twelve months, we expect that our strategic and tactical plans will provide the basis for improved financial performance. One of our main priorities is to enhance our organizational capabilities. This encompasses a broad range of ongoing initiatives, including talent development; expanding our research and development capabilities; introduction of new products and marketing strategies; and implementation of new supply chain and planning processes and systems to reduce cost and monitor progress.

CLOSING THOUGHTS

I have had the privilege of working with an outstanding team during my tenure and I would like to recognize Steve Walsh, our recently retired Senior Vice President of

Operations, for his many contributions to the Company's success and his personal support. Steve will continue to bring his considerable talents and expertise to our Board of Directors.

The L. S. Starrett Company's 135th milestone anniversary is one of pride for all of our global associates. I would like to thank all of our former and current teammates for making Starrett one of the most respected brands in industry. Our global teams look forward to delivering improved long-term financial performance for our stakeholders.

NOTICE OF ANNUAL MEETING OF STOCKHOLDERS

OCTOBER 14, 2015

NOTICE IS HEREBY GIVEN that the Annual Meeting of the stockholders of The L.S. Starrett Company (the "Company") will be held at the Company's offices at 121 Crescent Street, Athol, Massachusetts 01331, on Wednesday, October 14, 2015, at 2:00 p.m. for the following purposes:

1. To elect a class of two directors, each to hold office for a term of three years and until his successor is chosen and qualified;
2. To ratify the appointment of Grant Thornton LLP as the Company's independent registered public accounting firm for fiscal year 2016; and
3. To consider and act upon any other matter that may properly come before the meeting or any adjournment or adjournments thereof.

The Board of Directors has fixed August 28, 2015 as the record date for the determination of stockholders entitled to vote at the Annual Meeting, or any adjournments thereof, and to receive notice thereof. The transfer books of the Company will not be closed.

You are requested to execute and return the enclosed proxy, which is solicited by the management of the Company.

/s/ STEVEN A. WILCOX, Clerk

Athol, Massachusetts
August 31, 2015

WHETHER OR NOT YOU EXPECT TO BE PRESENT AT THE ANNUAL MEETING, PLEASE DATE, SIGN AND PROMPTLY RETURN THE ENCLOSED FORM OF PROXY IN THE ENCLOSED STAMPED AND ADDRESSED ENVELOPE OR, ALTERNATIVELY, COMPLETE YOUR PROXY BY TELEPHONE OR OVER THE INTERNET AS DESCRIBED IN THE ENCLOSED INSTRUCTIONS. IF YOU DESIRE TO VOTE YOUR SHARES IN PERSON AT THE ANNUAL MEETING, YOUR PROXY WILL BE RETURNED TO YOU.

Important Notice Regarding the Availability of Proxy Materials for the Stockholders' Meeting to be held on October 14, 2015. The Notice of Annual Meeting, Proxy Statement and Annual Report are available at:

Proxy: <http://www.starrett.com/u?Proxy>
Annual Report: http://www.starrett.com/u?Annual_Report

If your shares are held in "street name" in a stock brokerage account or by a bank or other nominee, you must provide your broker with instructions on how to vote your shares in order for your shares to be voted on important matters presented at the Annual Meeting. If you do not instruct your broker on how to vote, your shares will not be voted on these matters.

PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS
OF
THE L.S. STARRETT COMPANY
121 CRESCENT STREET
ATHOL, MASSACHUSETTS 01331

The enclosed form of proxy and this Proxy Statement have been mailed to stockholders on or about September 2, 2015 in connection with the solicitation by the Board of Directors of The L.S. Starrett Company (the “Company”) of proxies for use at the Annual Meeting of Stockholders to be held at the Company’s offices at 121 Crescent Street, Athol, Massachusetts 01331, on Wednesday, October 14, 2015, at 2:00 p.m., or at any adjournments thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders.

It is the intention of the persons named as proxies to vote shares represented by duly executed proxies for the proposals described in this Proxy Statement unless contrary specification is made. Any such proxy may be revoked by a stockholder at any time prior to the voting of the proxy by a written revocation received by the Clerk of the Company, by properly executing and delivering a later-dated proxy, or by attending the meeting, requesting return of the proxy and voting in person. **A proxy, when executed and not so revoked, will be voted at the meeting, including any adjournments thereof; and if it contains any specifications, it will be voted in accordance therewith. If no choice is specified, proxies will be voted in favor of the proposals described in this Proxy Statement.**

Stockholders of record at the close of business on August 28, 2015 are entitled to vote at this meeting. On that date, the Company had outstanding and entitled to vote 6,231,894 shares of Class A Common Stock (the “Class A Stock”) and 781,918 shares of Class B Common Stock (the “Class B Stock”) and together with the Class A Stock, the “Common Stock”). Each outstanding share of Class A Stock entitles the record holder thereof to one vote and each outstanding share of Class B Stock entitles the record holder thereof to ten votes. The holders of Class A Stock are entitled to elect 25% of the Company’s directors to be elected at each meeting and such holders voting together with the holders of Class B Stock as a single class are entitled to elect the remaining directors to be elected at the meeting. Except for the foregoing and except as provided by law, all actions submitted to a vote of stockholders will be voted on by the holders of Class A Stock and Class B Stock voting together as a single class. The Company’s Board of Directors is divided into three classes with one class to be elected at each annual meeting of stockholders.

I. ELECTION OF DIRECTORS

The Board of Directors has fixed the number of directors at seven and designated Ralph G. Lawrence, Salvador de Camargo, Jr. and Stephen F. Walsh to serve as Class I Directors; Douglas A. Starrett and David A. Lemoine to serve as Class II Directors; and Richard B. Kennedy and Terry A. Piper to serve as Class III Directors; and, in the case of each director, until his successor is chosen and qualified.

It is the intention of the persons named in the proxy to vote for the election of the two persons named below as Class II Directors, each to hold office for a term of three years and until his successor is chosen and qualified.

The names and ages as of August 28, 2015 of the nominees for director proposed by the Board of Directors, their principal occupations, the significant business directorships they hold, and the years in which they first became directors of the Company are as follows:

Name (Age)	Principal Occupation During Last Five Years and Directorships	Director Since
Class II— Director to be elected by Class A Stockholders:		
David A. Lemoine (67).....	Until retirement in 2010, Audit Partner, Deloitte & Touche LLP (“D&T”), Boston, MA (1985-2010), Partner-in-charge of D&T’s audit Boston practice (1995-2000). From 1980-1985, Senior Vice President, Finance & Administration, Briox Technologies, Inc., Worcester, MA. As a former partner of a large multi-national audit practice he brings to the Board extensive knowledge and experience in accounting and auditing matters, financial reporting and internal controls and Securities and Exchange Commission (the “SEC”) matters. We believe Mr. Lemoine’s financial acumen makes him well suited to lead our audit committee and qualifies him to serve on the Board.	2010
Class II Director to be elected by Class A & B Stockholders		
Douglas A. Starrett (63).....	Since 2001, President and Chief Executive Officer of the Company; prior to 2001, President of the Company. Mr. Starrett started his career with the Company in 1976 as an apprentice toolmaker and has been promoted to positions of increasing responsibility in engineering, operations and management. We believe Mr. Starrett’s broad exposure to both domestic and international operations and markets provides an in-depth understanding of our business and its culture and qualifies him to serve on the Board.	1984

The following table sets forth the names and ages as of August 28, 2015 of the Class I and Class III Directors, their positions and offices with the Company, if applicable, their principal occupations, the significant business directorships they hold, the years in which they first became directors of the Company and the years that their current term in office expires:

Name (Age)	Principal Occupation During Last Five Years and Directorships	Director Since	Term Expires
Class I Directors:			
Ralph G. Lawrence (72)	Until retirement in 2003, President and Chief Operating Officer, Hyde Manufacturing Company, a producer of hand tools and specialty machine blades. With his experience at Hyde Manufacturing, Mr. Lawrence brings a deep understanding of the retail, construction and hardware trades to the Board. We believe his diverse working career spanning both sales and operations qualifies him to serve on the Board.	2003	2017
Salvador de Camargo, Jr. (69)	President, Starrett Industria e Comercio Ltda, (Brazil), a wholly-owned subsidiary of the Company. Mr. de Camargo is a respected leader who began his career with the Company's Brazilian subsidiary in 1963. He has participated in the emergence of Brazil from a developing to a developed economy while rising through the ranks of the Company's Brazilian subsidiary to the position of President in 2006. We believe his breadth of international experience and knowledge qualifies him to serve on the Board.	2007	2017
Stephen F. Walsh (69)	Since 2005, until his retirement in June 2015, Senior Vice President Operations of the Company; From 2001-2005, Vice President Operations of the Company; Mr. Walsh retired from his management position with the Company effective June 30, 2015; however, he will remain on the Board of Directors through fiscal 2017. Prior to 2001, Mr. Walsh was President of the Silicon Carbide Division of Saint-Gobain Industrial Ceramics, a producer of ceramic and abrasive products. Mr. Walsh holds a Master's level professional director certification from the American College of Corporate Directors. Mr. Walsh is a strong leader with a deep understanding of manufacturing operations and the industrial markets that the Company serves. We believe his strategic experience dealing with issues facing a multi-national business qualifies him to serve on the Board.	2005	2017

Name (Age)	Principal Occupation During Last Five Years and Directorships	Director Since	Term Expires
Class III— Directors:			
Richard B. Kennedy (72)	From 2004 until retirement in June 2013, President and Chief Executive Officer, Worcester Regional Chamber of Commerce, Worcester, Massachusetts. From 2002 to 2004, Associate Principal and Market Strategy Consultant, Frank Lynn & Associates, Chicago, Illinois. From 2000 to 2001, Executive Vice President and Director of GlobalBA.com, a start-up serving the chemical industry. Until 1999, Vice President Marketing, Saint-Gobain Abrasives, Worcester, Massachusetts, a producer of abrasive products. Mr. Kennedy’s career at Saint Gobain spanned sales and marketing in both domestic and international markets. We believe his deep understanding of distribution channels and his geo-political savvy qualifies him to serve on the Board.	1996	2016
Terry A. Piper (70)	Chairman, President and Chief Executive Officer of Precision Steel Warehouse, Inc., Franklin Park, Illinois, a wholesale steel service center. Mr. Piper began his career at Precision Steel Warehouse in 1961 and has served in a series of progressively more responsible positions culminating in the position of CEO in 1999. We believe that, as a head of a subsidiary of the Berkshire Hathaway Co., his practical experience and best-in-practice expertise qualifies him to serve on the Board.	2003	2016

The Board of Directors has determined that Messrs. Kennedy, Lawrence, Lemoine and Piper are “independent” directors, as defined by the applicable New York Stock Exchange rules.

Director’s Competency

Our directors play a critical role in overseeing the strategic direction and management of the Company. Board candidates are considered based on a broad breadth of professional skills, experiences, and financial acumen. They must possess a global perspective, personal integrity, sound judgment, and social and community awareness. However, in selecting qualified and competent directors, it is important to understand that our Company is a manufacturing business. Therefore, we look for candidates that have expertise and in-depth knowledge in the manufacturing field and our distribution channels. As a small public company, we also look for Board members who possess specific work experiences that augment areas where we may have limited expertise.

Collectively our current members of the Board meet all the above criteria. The Board of Directors believes that the composition of the Board provides a good balance between the business expertise and the appropriate social perspective to ensure that the business is operating with concern for the long-term interest of our stockholders, employees, and the community. Our directors have demonstrated that they have the time to devote to Board activities and to execute their fiduciary duties to the Company and its stockholders.

GENERAL INFORMATION RELATING TO THE BOARD OF DIRECTORS AND ITS COMMITTEES

The Board of Directors held five regular meetings during the fiscal year ended June 30, 2015 (“fiscal 2015”). Each of the Company’s directors attended at least 75% of the aggregate of all meetings of the Board and of all committees on which he was a member. In addition, the Company’s non-management directors met in executive session without management participation four times during fiscal 2015. As described in the Company’s Corporate Governance Policy, the Board of Directors has not formally selected a director to preside over the executive sessions of the non-management directors. Instead, at each executive session, the non-management directors designate a presiding director, or chair, for the session. A regular Board meeting is traditionally held immediately following the Annual Meeting but the Board does not have a policy requiring the attendance by the directors at the Annual Meeting. All of the directors attended the 2014 Annual Meeting, which was held on October 15, 2014.

Douglas A. Starrett currently serves as Chief Executive Officer and Chairman of the Board of Directors. Mr. Starrett has worked for the Company for the past thirty-nine years. The Board believes that Mr. Starrett’s breadth of experience and unique understanding of the corporate culture are important assets in executing the duties of Chief Executive Officer and Chairman. The advantage of the combined duties contributes to more effective and streamlined implementation of strategy and creates direct accountability. The Board believes that Mr. Starrett’s in-depth knowledge of manufacturing and the industrial markets, combined with his international experience, allow Mr. Starrett to provide strong leadership and direction for the Company. Whether the same leadership structure will be selected when our Chief Executive Officer’s tenure with the Company ends is a matter that the Board feels should be evaluated at the time in light of the skills and experience of the Chief Executive Officer and other relevant considerations.

The role of the Board in managing risk at the Company is to have ultimate oversight for the risk management process. Management has day-to-day responsibility for the identification and control of risk facing the Company including timely identifying, monitoring, mitigating and managing those risks that could have a material effect on the Company. Further, management has the responsibility to report these risks as they arise to the Board and its committees and the Company’s auditors. The Board has delegated certain risk assessment responsibilities to its audit committee (the “Audit Committee”), its compensation committee (the “Compensation Committee”), its corporate governance and nominating committee (the “Corporate Governance and Nominating Committee”) and its executive committee (the “Executive Committee”). The responsibilities of each of these committees are described below.

During fiscal 2015, the members of the Audit Committee were Messrs. Kennedy, Lemoine (Chair), and Lawrence. The Board of Directors has determined that each member of the Audit Committee is independent, as defined by the applicable New York Stock Exchange rules. In general, the Audit Committee recommends to the Board the independent auditors to be selected and confers with the Company’s independent auditors to review the audit scope, the Company’s internal controls, financial reporting issues, results of the audit and the range of non-audit services. Also see section “IV. Relationship with Independent Auditors” below. The Audit Committee also oversees the Company’s internal audit function. The Board has adopted a written charter for the Audit Committee, which is available on the Company’s website at www.starrett.com.

The members of the Compensation Committee during fiscal 2015 were Messrs. Kennedy (Chair), Piper and Lawrence. The Board of Directors has determined that each member of the Committee is independent, as defined by the applicable New York Stock Exchange rules. The function of the Compensation Committee is to review the compensation of key management personnel and to set the Chief Executive Officer’s compensation. The Board has adopted a written charter for the Compensation Committee, which is available on the Company’s website at www.starrett.com.

The members of the Corporate Governance and Nominating Committee during fiscal 2015 were Messrs. Kennedy, Lawrence (Chair), Lemoine and Piper. The Board of Directors has determined that each member of the Corporate Governance and Nominating Committee is independent, as defined by the applicable New York Stock Exchange rules. The Corporate Governance and Nominating Committee is responsible for recommending to the Board nominees for director and for the Company’s corporate governance practices. The Corporate Governance and Nominating Committee recommends to the Board individuals as director nominees who, in the opinion of the Committee, have high personal and professional integrity, have experience that is of particular relevance to the Company, have sufficient time available to devote to the affairs of the Company, and who will be effective, in conjunction with the other nominees and members of the Board, in collectively serving the long-term best interests of the stockholders. The Board has adopted a written charter for the Corporate Governance and Nominating Committee, which is available on the Company’s website at www.starrett.com.

The Corporate Governance and Nominating Committee’s process for identifying and evaluating director candidates, including candidates recommended by stockholders, includes actively seeking to identify qualified individuals by reviewing lists of possible candidates, such as executive officers of public companies, considering proposals from a number of sources, such as the Board of Directors, management, employees, stockholders, industry contacts and outside search firms. The Committee has adopted a policy

with respect to submission by stockholders of candidates for director nominees, which is available on the Company's website at www.starrett.com. The Committee will consider up to two candidates each year recommended by stockholders under this policy. Any stockholder or group of stockholders (referred to in either case as a "Nominating Stockholder") that, individually or as a group, have beneficially owned at least 5% of the Company's voting power for at least one year prior to the date the Nominating Stockholder submits a candidate for nomination as a director may submit in writing one candidate to the Committee for consideration at each stockholder meeting at which directors are to be elected but not later than the 120th calendar day before the first anniversary of the date that the Company released its proxy statement to stockholders in connection with the previous year's annual meeting. Recommendations should be sent to The L.S. Starrett Company, Attention: Clerk, 121 Crescent Street, Athol, Massachusetts 01331. The recommendation must include specified information about and the consent and agreement of the candidate. There are no differences in the manner in which the Committee evaluates candidates for director whether an individual is recommended by a stockholder or otherwise. The Committee will determine whether to interview any candidates and may seek additional information about candidates from third-party sources. In addition, stockholders may nominate individuals for election as director at the Company's next annual meeting in accordance with the procedures described in Section 3.11 of the Company's By-laws.

The members of the Executive Committee during fiscal 2015 were Messrs. Starrett, Kennedy and Walsh. The Executive Committee may exercise most Board powers during the period between Board meetings.

Beginning in fiscal 2013, annual compensation for outside directors on committees changed from an activity-based to a role-based retainer. The annual retainer for each outside director for fiscal 2014 was as follows: David A. Lemoine \$40,000; Richard B. Kennedy \$38,000; Ralph G. Lawrence \$37,000; and Terry A. Piper \$35,000. Non-management directors are paid a retention fee of \$35,000. Non-management directors who serve as committee chairpersons receive additional amounts for their service as chairpersons. In fiscal 2015, Mr. Lemoine, the Audit Committee chair, Mr. Kennedy, the Compensation Committee chair, and Mr. Lawrence, the Corporate Governance and Nominating Committee chair, were paid an additional \$5,000, \$3,000, and \$2,000, respectively, for serving as chairperson of a committee. Non-management directors may elect to defer part or all of their director's compensation, in which event such deferred compensation and interest thereon will generally be payable in four equal installments after they cease to be a director.

The Board of Directors as a whole evaluates and approves any transactions with related parties. The Company has not adopted a written policy or procedure used to evaluate and approve transactions with related parties. Instead, transactions are considered by the Board of Directors at meetings or through written consents.

There have not been any transactions, or proposed transactions, during the last two fiscal years, to which the Company was or is to be a party, in which any director or executive officer of the Company, any nominee for election as a director, any security holder owning beneficially more than 5% of the Common Stock of the Company, or any member of the immediate family of the aforementioned persons had or is to have a direct or indirect material interest.

A. Audit Committee Report

The Audit Committee operates in accordance with a written charter adopted by the Board and reviewed annually by the Audit Committee. The Audit Committee is responsible for overseeing the quality and integrity of the Company's accounting, auditing and financial reporting practices. It is composed solely of members who are independent, as defined by the applicable rules of the New York Stock Exchange and under Rule 10A-3 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Further, Mr. Lemoine is an "audit committee financial expert" as defined by the rules of the Securities and Exchange Commission (the "SEC"). The Audit Committee is chaired by Mr. Lemoine, who is a certified public accountant and is a retired partner of a large public accounting firm.

Management has the primary responsibility for the financial statements and the financial reporting process. Management is also responsible for assessing and maintaining the effectiveness of internal controls over the financial reporting process in compliance with Sarbanes-Oxley Section 404 requirements. The Audit Committee oversees the Company's financial reporting process and internal controls on behalf of the Board. In this regard, the Audit Committee helps to ensure the independence of the Company's auditors, its internal audit function, and the integrity of management and the adequacy of disclosure to stockholders. Representatives of the Company's independent auditors, Grant Thornton LLP, and financial management and other management personnel have unrestricted access to the Audit Committee.

The Company's independent auditors are responsible for auditing the Company's annual financial statements and expressing an opinion as to whether the statements are fairly stated in conformity with accounting principles generally accepted in the United States. In addition, the Company's independent auditors are responsible for auditing the Company's internal controls over financial reporting. The Company's independent auditors perform their responsibilities in accordance with the standards of the Public Company Accounting Oversight Board.

For fiscal 2015, management, Grant Thornton LLP and the Audit Committee met nine times including meetings to discuss the Company's annual and quarterly earnings reports and financial statements prior to each public release of such reports or statements.

With respect to fiscal 2015, the Audit Committee met prior to the issuance of the Company's Annual Report on Form 10-K, to:

- review and discuss the audited financial statements with the Company's management;
- discuss with Grant Thornton LLP the matters required to be discussed by Auditing Standard No. 16, *Communications with Audit Committees*, as adopted by the Public Company Accounting Oversight Board.
- discuss with Grant Thornton LLP its independence and receive from Grant Thornton LLP the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding Grant Thornton LLP's communications with the Audit Committee concerning independence.

Based upon these reviews and discussions, the Audit Committee recommended that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2015 for filing with the SEC.

The Audit Committee has considered and determined that the provision of the non-audit services provided by Grant Thornton LLP is compatible with maintaining the auditor's independence and in accordance with Company policy to limit non-audit service fees to be no more than the total audit fee.

The Audit Committee has appointed Grant Thornton LLP as the independent registered public accounting firm of the Company for fiscal 2016 and intends to submit such recommendation to the Company's stockholders for ratification (but not for approval) at the Company's 2015 Annual Meeting.

Audit Committee

David A. Lemoine, Chairman
Richard B. Kennedy
Ralph G. Lawrence

August 25, 2015

This report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933, as amended (the "Securities Act") or under the Exchange Act, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under the Securities Act and the Exchange Act and shall not be deemed soliciting material.

B. Audit Fees and Audit Committee Pre-Approval Policy

Audit Fees

The following table sets forth the approximate aggregate fees billed to the Company for the fiscal years ended June 30, 2015 and June 30, 2014 by the Company's independent auditors, Grant Thornton LLP, in each of the last two fiscal years:

<u>Fee Category</u>	<u>Fiscal 2015 Fees</u>	<u>Fiscal 2014 Fees</u>
Audit Fees	\$1,056,500	\$1,073,725
Audit-Related Fees	-	-
Tax Fees	96,310	76,900
All Other Fees	-	-
 Total Fees	 \$1,152,810	 \$1,150,625

"Audit Fees" were for professional services rendered for the audit of the Company's consolidated financial statements and review of the interim consolidated financial statements included in quarterly reports and services that are normally provided by Grant Thornton LLP in connection with statutory and regulatory filings or engagements. Audit fees for fiscal 2015 and fiscal 2014 also included services related to the Company's compliance with Section 404 of the Sarbanes-Oxley Act regarding internal control over financial reporting.

"Audit-Related Fees" are for assurance and related services that are reasonably related to the performance of the audit or review of Company's consolidated financial statements and are not reported under "Audit Fees." There were no such fees in fiscal 2015 and fiscal 2014.

-

“Tax Fees” were for professional services for federal, state and international tax compliance, tax advice and tax planning.

“All Other Fees” were for services other than the services reported above. There were no services provided by Grant Thornton LLP in fiscal 2015 or fiscal 2014 other than the services included in “Audit Fees” and “Tax Fees.”

In making its determination regarding the independence of Grant Thornton LLP, the Audit Committee considered whether the provision of the services covered in the sections entitled “Audit-Related Fees” and “Tax Fees” was compatible with maintaining such independence. All of the work performed by Grant Thornton LLP was performed by full-time employees of the firm.

No fees were paid to Grant Thornton LLP for financial information systems design or implementation services during fiscal 2015 or fiscal 2014.

Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditors

The Audit Committee’s policy is to pre-approve all audit and permissible non-audit services provided by the independent auditors in order to ensure that the provision of such services does not impair the auditors’ independence. These services may include audit services, audit-related services, tax services and other services. In addition to generally pre-approving, on a case-by-case basis, services provided by the independent auditors, the Audit Committee has adopted a policy for the pre-approval of certain specified services which may be provided by the independent auditors. Under this policy, the Audit Committee has pre-approved the auditors’ engagement letter for the provision of certain services. These services set forth in the engagement letter have been identified in a sufficient level of detail so that management will not be called upon to make judgment as to whether a proposed service fits within the scope of the engagement letter. Pursuant to the policy, the Audit Committee is informed of the auditors’ provision, if any, of a pre-approved service on a periodic basis and the auditor’s report to the Audit Committee the fees for any services performed under this pre-approval policy.

C. Executive Officers of the Company

The following table sets forth the names of the executive officers of the Company, their positions and ages as of August 28, 2015:

Name	Age	Position
Douglas A. Starrett.....	63	President, Chief Executive Officer and Director
Francis J. O’Brien	68	Chief Financial Officer and Treasurer
Anthony M. Aspin.....	62	Vice President Sales
Stephen F. Walsh.....	69	Senior Vice President Operations and Director (retired June 30, 2015)
James B. Taylor	49	Vice President of Operations

Francis J. O’Brien has been the Company’s Chief Financial Officer and Treasurer since 2009. Previously he served as Chief Financial Officer at Delta Education, LLC, an elementary school education company, from 2005 to 2009. Prior to Delta Education, he was Chief Financial Officer at StockerYale Corporation, a publicly traded technology company, from 2001 to 2004 and Director of Finance and Business Development at Analogic Corporation, a publicly traded manufacturer of medical and security systems, from 1998 to 2000. Mr. O’Brien served as Corporate Vice President of Finance & Administration for Addison Wesley, a global education company, from 1982 to 1997 and as Senior Manager at Coopers & Lybrand, an international public accounting firm, from 1976 to 1982. Mr. O’Brien holds a BA from the University of Massachusetts and an MBA from Suffolk University and is a Certified Public Accountant.

Anthony M. Aspin has served as Vice President Sales since 2000. He previously served as a divisional sales manager with the Company.

James B. Taylor has served as Vice President of Operations since June 2015. Mr. Taylor, age 49, joined the Company on June 22, 2015. He was previously Division Vice President, Operations for Zygo Corporation, a unit of Ametek’s Ultra Precision Technologies Division, from 2014 to 2015, Director of Optical Components Manufacturing of Zygo Corporation from 2010 to 2014, and Vice President of JML Optical Industries, Inc. from 2014 to 2010. Mr. Taylor holds a Bachelor’s degree, a Master’s degree, and a Doctorate in Industrial Engineering from Purdue University.

Mr. Starrett’s and Mr. Walsh’s background is described above under “I. Election of Directors.”

The President and Treasurer hold office until the first meeting of the directors following the next annual meeting of stockholders and until their respective successors are chosen and qualified, and each other officer holds office until the first meeting of directors

following the next annual meeting of stockholders, unless a shorter period shall have been specified by the terms of his election or appointment or, in each case, until he sooner dies, resigns, is removed or becomes disqualified. There have been no events under any bankruptcy act, no criminal proceedings and no judgments or injunctions material to the evaluation of the ability and integrity of any executive officer during the past ten years.

Compensation Discussion and Analysis

Overview and Objectives

The Company is engaged in the business of manufacturing industrial, professional and consumer products. The total number of different items made and sold by the Company exceeds 5,000. The Company is a preeminent global brand in the field of measuring tools and saw products. The Company's tools and instruments are sold throughout the United States and over 100 foreign countries around the world. The largest consumer of these products is the metalworking industry, but other important customers are automotive, aerospace, medical, marine and farm equipment, do-it-yourselfers, and tradesmen such as builders, carpenters, plumbers and electricians. The Company's principal plant is located in Athol, Massachusetts. In addition, the Company operates manufacturing plants in Ohio, North Carolina, Minnesota, California, Georgia, Brazil, Scotland and China.

Although the Company is a small to mid-sized manufacturer, the Compensation Committee understands that the Company's breadth of product, global operating presence and brand equity demands that the business be managed by highly competent personnel in order to meet the challenges and the continual changing landscape of today's global economy. The Company's executives require the same talents as much larger organizations and must be motivated, versatile and experienced in order for the Company to prosper in the future. To that end, the Company must recruit, retain and reward qualified executive talent in order to build long-term shareholder value and a sustainable business for the benefit of all stakeholders.

Compensation Committee

The Compensation Committee of the Company consists of three independent directors and is chaired by Richard B. Kennedy. The members of the Compensation Committee are Messrs. Kennedy, Lawrence and Piper. The Committee operates in accordance with a written charter adopted by the Board of Directors and reviewed annually by the Compensation Committee. The Compensation Committee is responsible for reviewing and setting the compensation of the Company's Chief Executive Officer and for recommending to the full Board of Directors the compensation for the Company's other executive officers. The Compensation Committee has the authority under its Charter to engage the services of outside consultants.

The Compensation Committee engaged Radford, an executive compensation consultant, during fiscal 2012 to benchmark total executive compensation against the competitive marketplace using a peer group of similarly situated companies.

Radford selected a peer group of other tool and equipment manufacturing companies using the following criteria:

- Primary Criteria:
 - Last fiscal year revenues of 1/3 to three times the Company's revenues of approximately \$250 million (\$80 million – \$800 million)
- Secondary Criteria:
 - Market capitalization between \$50 million and \$300 million based on the Company's then-current capitalization of approximately \$90 million
 - Employee size of 1/4 to four times the Company's fiscal 2011 headcount of 1,951 employees (500 – 8,000)
 - Geography outside of major metropolitan/high cost of living areas
 - Global footprint with multi-national operations

Radford considered the following survey sources in its benchmark analysis:

- 2011 Radford Global Technology Survey using a select group of public U.S. manufacturing-focused companies with revenue between \$50 million and \$1.5 billion (operating in the non-high tech space and not based in California) and
- Towers Watson General Industry Top Management Survey – Durable goods manufacturing companies with between \$100 million and \$450 million in revenue

Based on the selection criteria, Radford proposed, and the Compensation Committee approved, the following group of peer companies:

Altra Holdings	GSI Group	Measurement Specialists
Blount International	Hardinge	Newport
Cascade	Hurco	NN, Inc.
Columbus McKinnon	Kadant	ROFIN-SINAR
Douglas Dynamics	Key Technology	Smith & Wesson
Eastern Company	LeCroy	Twin Disc
Flow International	Lydall	Zygo

The Compensation Committee has the opportunity to work closely with each executive officer during the year at various board and committee meetings and has a good understanding and working knowledge of each individual's contributions and talents. However, the Compensation Committee discusses with the CEO the performance and contributions of each executive officer and seeks his advice and recommendations when setting compensation. The CEO is not present when the Compensation Committee discusses his compensation.

Compensation Philosophy

Our compensation practices are relatively simple, straightforward and transparent. Setting compensation is not done by a strict formula. It is a subjective judgment based on a number of factors. We do not look at the performance for just one year, but for a number of years, and consider the economic climate in all areas of the world where we operate. We look at how stockholders, employees and stakeholders at all locations have fared during these periods. In particular, we look at measures affecting stockholders' equity such as sales revenues and net profit margins, which are key indicators of stockholder value. We also consider stock price movement, bearing in mind that the stock market is generally short-term oriented and subject to pressures that are not under the control of executive officers.

Our executive officers currently do not have employment contracts or company-paid memberships or professional services. For fiscal year 2015, compensation consisted primarily of base salary, cash incentive compensation, and grants of awards under the 2012 Long Term Incentive Plan. In addition, in fiscal year 2015, long-term equity (stock) incentives were available to our executives and employees on the same basis through our employee stock purchase plan.

We make judgments based on the considerations listed above and on competitive compensation at companies of similar size and in similar fields. We use specific peer comparisons listed above and we draw on our knowledge of the market cost of any executive who might have to be replaced. The Compensation Committee also periodically reviews various publicly available sources of compensation data. We believe that our executive compensation is generally lower than executive compensation paid by companies of similar size and in similar fields for comparable positions. There is a need to close this gap through base salary increases and performance-based incentive plans in order to retain and attract qualified management talent. We intend to increase executive compensation to the 50% percentile over a three to five year period.

Components of Executive Compensation

The five elements of our executive compensation program are:

- Base salary
- Cash incentive compensation
- Long-term incentives
- Retirement benefits
- Other compensation

These components are intended to encourage and achieve the purpose and philosophies of our compensation programs set forth above. We have not adopted formal policies for allocation between long- and short-term, and cash- and non-cash, compensation. We seek a mix between all elements of compensation to achieve a total compensation package that is commensurate with the executive officer's position, responsibility and performance relative to his peers in other companies of similar size and in similar fields.

At the 2014 annual meeting of stockholders, the stockholders approved, on a non-binding, advisory basis, the compensation of the Company's named executive officers ("NEOs"). At the 2011 annual meeting of stockholders of the Company the stockholders of the Company voted in favor of holding an advisory vote every three years. The Compensation Committee considered the results of this vote and determined that, consistent with the majority vote of the Company's stockholders at the 2011 annual meeting of stockholders, the Company will hold future non-binding stockholder advisory votes on the compensation of the Company's NEOs every three years at the Company's annual meeting of stockholders. Accordingly, the Company submitted a non-binding, advisory vote on executive compensation to the stockholders at the 2017 annual meeting of stockholders.

Base Salary

Base salary is the fixed component of the executive's cash compensation and should reflect the individual's position and scope of responsibility, taking into consideration experience, tenure, long-term potential and the ability to assume additional responsibility.

The Compensation Committee reviews base salaries for the executive officers in June of each year or in connection with promotions. The Compensation Committee approved the following officer salaries for fiscal 2013, effective July 1, 2012, based on our executive compensation philosophy: Mr. Starrett \$394,000; Mr. Walsh \$263,000; Mr. O'Brien \$213,000; and Mr. Aspin \$185,000. The Compensation Committee granted no base salary increases for fiscal 2014; therefore, the fiscal 2014 salaries remained the same as fiscal 2013, effective July 1, 2013. The Compensation Committee approved the following officer salaries for fiscal 2015, effective July 1, 2014, based on our executive compensation philosophy: Mr. Starrett \$402,000; Mr. Walsh \$283,000; Mr. O'Brien \$240,000; and Mr. Aspin \$205,000. The Compensation Committee approved the following officer salaries for fiscal 2016, effective July 1, 2015, based on our executive compensation philosophy: Mr. Starrett \$425,000; Mr. O'Brien \$254,400; and Mr. Aspin \$216,000. Mr. James B. Taylor joined the Company as Vice President of Operations in June 2015. Mr. Taylor's base salary is \$215,000.

Cash Incentive Compensation

Annual cash incentive compensation is variable pay for the NEOs to reward them for overall Company and individual performance in the key areas of sales, operational, and financial results. This component of incentive compensation is important to attract highly motivated and skilled executives.

The Company maintains a cash bonus plan for its executive officers (the "Cash Bonus Plan").

Under the Cash Bonus Plan, awards are based on achievement of financial goals, which are reviewed and recommended by the Compensation Committee and are approved by the Board of Directors. Targets for the NEOs are established on three financial measures—consolidated sales, operating profit and cash flow. Under this Cash Bonus Plan, income before taxes equal to 4% of revenue must be achieved before any cash bonuses for the NEOs are awarded. Once the 4% threshold is achieved, the participant earns a percentage of salary based upon the percentage level of achievement against the three financial measures of consolidated sales, operating profit and cash flow. Each participant's financial measures are weighted on a percentage basis to reflect their specific responsibilities.

The percentage weighted for each financial measure is applied on a sliding scale to calculate the percentage of salary upon which the bonus is earned. The scale begins, upon achievement of 90% of a financial measure, at 15% of salary. The percentage of salary increases 2% for each 1% increase in achievement of the financial measure up to 95%; 3% of salary for each 1% increase in achievement of financial measures up to 100%; and 2% increase in salary for each 1% increase in achievement of financial measures up to 110%. Bonuses under the Cash Bonus Plan for fiscal 2015 were capped at 60% of salary.

The Cash Bonus Plan covers our four named executive officers, who are responsible for the Company's worldwide results: Douglas A. Starrett, Stephen F. Walsh, Anthony M. Aspin and Francis J. O'Brien. Based on fiscal 2015 results, cash incentives were earned, and are reflected in the summary compensation table.

Long Term Equity Incentives

The Board adopted the Company's 2012 Long-Term Incentive Plan, which was approved by the stockholders at the October 17, 2012 annual meeting, under which equity-based and cash-incentive awards may be granted to employees, directors, consultants and advisors of the Company. We plan to provide long-term equity compensation opportunities under the 2012 Long-Term Incentive Plan to our NEOs to provide a link between compensation and shareholder value and as a valuable retention component as, generally, the executive forfeits any unvested portion of the long-term equity component if the executive is not employed by the Company at the time of vesting. Radford, in conducting a competitive review of executive compensation in fiscal 2013, found the Company's NEOs were lacking in competitive long-term incentive opportunity and recommended a first year strategy of making long term equity grants

that would position the Company in the 25th percentile of the market using a combination of options and restricted stock units. Market data for long term incentive compensation at the 25th percentile ranged up to \$248,000 in value for chief executive officers and \$55,000 to \$136,000 for other NEOs. The Compensation Committee determined the mix of options and stock comprising the long-term equity awards based upon benchmarking with peer groups with the initial goal of bringing the Company to the 25th percentile initially with a long-term goal of 50th percentile.

There are also other opportunities for our employees, including our NEOs, to invest in Company stock through the 401(k) Plan, the Company's 1952 Employees' Stock Purchase Plan and the 2012 Employee Stock Purchase Plan.

Retirement Benefits

The Compensation Committee and Company management believe that it is important to provide retirement benefits to employees who reach retirement age. Company retirement benefits consist of the following components:

- The 401(k) Plan. The Company's 401(k) Plan is a defined contribution plan intended to be qualified under the Internal Revenue Code. Our executive officers are eligible to participate in the 401(k) plan on the same terms as our other employees. For additional information regarding the Company's 401(k) Plan, please see section "F. Employee Stock Ownership and 401(k) Savings Plans" of this proxy below.
- The Retirement Plan. The Company's Retirement Plan is a defined benefit pension plan intended to be qualified under the Internal Revenue Code. Participants in this plan are generally eligible to retire with unreduced pension benefit at age 65. Our executive officers participate in the Retirement Plan on the same basis as our other employees with similar years of service at the Company. Further detail concerning the Retirement Plan is contained in the Pension Benefits Table and the related narrative below.
- The ESOPs. The Company's 1984 Employee Stock Ownership Plan (the "1984 ESOP") and the 2013 Employee Stock Ownership Plan (the "2013 ESOP" and collectively with the 1984 ESOP, the "ESOPs") are employee stock ownership plans intended to be qualified under the Internal Revenue Code. An employee's vested balance, if any, under the ESOPs will generally be distributed at the same time that the employee is eligible to begin receiving a benefit under the Retirement Plan. Our executive officers participate in the ESOPs on the same terms as our other employees with similar years of service at the Company. For additional information regarding the Company's ESOPs, please see section "F. Employee Stock Ownership and 401(k) Savings Plans" of this proxy below.
- The Supplemental Executive Retirement Plan (the "SERP"). Certain members of management and highly compensated employees, including the Company's executive officers, participate in the SERP. The SERP provides supplemental retirement benefits out of the general assets of the Company that are otherwise denied to participants due to legislation limiting the amount of compensation that may be taken into account in computing the benefit payable under the Company's Retirement Plan. Further detail concerning the SERP is contained in the Pension Benefits Table and the related narrative below.

Other Compensation

The Company strives to maintain a reasonable relationship between executive pay and average non-executive employee pay. Mr. Aspin has a company-provided car, commensurate with his sales position and requirements for travel on behalf of the Company. However, the Company does not otherwise provide its executives with perks such as club memberships or access to company-paid professional services that are not uniformly available to non-executive officer employees of the Company.

Compensation Committee Report

The Compensation Committee reviewed and discussed the Company's Compensation Discussion and Analysis with the Company's management. Based on this review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2015.

Compensation Committee:

Richard B. Kennedy, Chairman
Ralph G. Lawrence
Terry A. Piper

Compensation Committee Interlocks and Insider Participation

During fiscal 2015, decisions with respect to the compensation of the Company's executive officers were made by, or upon the recommendation of, the Compensation Committee. During fiscal 2015, the Compensation Committee consisted of independent directors, as defined by the New York Stock Exchange rules. No member of the Compensation Committee was an officer of the Company nor was any officer of the Company a member of the Compensation Committee (or similar body) for any employer of the Company's Compensation Committee members.

D. Remuneration

	2014	263,000	-0-	-0-	-0-	52,600	69,059	N/A	385,059
	2013	263,000	N/A	15,120	14,325	-0-	-0-	N/A	292,445
James B. Taylor (e) <i>Vice President of Operations</i>	2015	4,135	-0-	-0-	-0-	-0-	-0-	50,000	54,135

(a) This column represents the grant date fair value of restricted stock units granted. For a detailed description of the assumptions used for purposes of determining fair value, see Note 4 to our Consolidated Financial Statements included in our Form 10-K for the fiscal year ended June 30, 2015. No restricted stock units were granted in fiscal 2014.

(b) This column represents the grant date fair value of stock options granted. For a detailed description of the assumptions used for purposes of determining fair value, see Note 4 to our Consolidated Financial Statements included in our Form 10-K for the fiscal year ended June 30, 2015. No stock options were granted in fiscal 2014.

(c) This column represents the annual incentive bonuses earned by our Named Executive Officers under our Cash Bonus Plan. Because Company performance targets were not met for fiscal 2013, no incentive bonuses were paid for that fiscal year.

(d) Amounts reflect the change in the actuarial present value of the accumulated pension benefits for Messrs. Starrett, O'Brien, Aspin and Walsh for each of fiscal 2015, 2014 and 2013. In fiscal 2013, the actuarial present value of the accumulated pension benefits for Messrs. Starrett, Aspin and Walsh were reduced by \$76,867, \$12,432 and \$1,300, respectively.

- (e) Mr. Taylor joined the Company in June 2015. His salary is \$215,000 and he is eligible for Non-equity Incentive Plan Compensation in fiscal 2016. Mr. Taylor will not be eligible for stock or option awards until fiscal 2017.
- (f) Mr. Taylor received \$50,000 in compensation in lieu of forfeiture of a cash bonus and stock options from his prior employer.

Grants of Plan-Based Awards Table

The following table sets forth information regarding estimated future payouts under non-equity incentive plan awards and grants of plan-based awards made to our NEOs during fiscal 2013 and 2015. There were no grants of plan-based rewards made to our NEOs in fiscal 2014.

Name	Grant Date	Threshold \$(a)	Target \$(a)	Maximum \$(a)	Based	Time Based	All other	Exercise	Grant date fair value of awards \$(e)
					stock awards number of shares or units \$(b)	stock awards number of shares or units \$(b)	option awards number of securities underlying options \$(c)	or Base Price of Option awards (\$/Sh) (d)	
Douglas A. Starrett	7/1/2012	60,300	160,800	241,200					
	12/17/2012					3,000			30,240
	12/17/2012						7,500	10.08	28,650
	9/2/2014					6,500			118,495
	9/2/2014				10,000				182,300
Francis J. O'Brien	7/1/2012	36,000	96,000	144,000					
	12/17/2012					1,500			15,120
	12/17/2012						3,750	10.08	14,325
	9/2/2014					2,500			45,575
	9/2/2014				4,000				72,920
Anthony M. Aspin	7/1/2012	30,750	82,000	123,000					
	12/17/2012					1,000			10,080
	12/17/2012						2,500	10.08	9,550
	9/2/2014					1,500			27,345
	9/2/2014				2,500				45,575
Stephen. F. Walsh	7/1/2012	42,450	113,200	169,800					
	12/17/2012					1,500			15,120
	12/17/2012						3,750		14,325
	9/2/2014					2,500			45,575
	9/2/2014				4,000				72,920
James B. Taylor		0	0	0	0	0	0	0	0

(a) This column represents the estimated future payouts for each named executive officer in fiscal 2015 under the Cash Bonus Plan. Upon 90% achievement of the Company's performance goals, an executive is entitled to an award equal to 15% of base salary. The award increases by 2% of base salary for each 1% increase in achievement of the Company's performance goals up to 95%, by 3% of base salary for each 1% increase in achievement of the Company's performance goals up to 100%, and by 2% of base salary for each 1% increase in achievement of the Company's performance goals up to 110%. Awards under the Cash Bonus Plan for fiscal 2015 were capped at 60% of base salary. For additional information, see "Cash Incentive Compensation" in the Compensation Discussion and Analysis. Based on the Company's performance, cash incentives were earned in fiscal 2015. These amounts are reflected in the "Non-Equity Incentive Plan Compensation" column under the Summary Compensation Table above.

(b) This column represents the number of restricted stock units awarded in fiscal years 2013 and 2015 under the 2012 Long-Term Incentive Plan. The restricted stock units vest in two categories. December 17, 2012 restricted stock units vest ratably over a three year period from the grant date. The September 2, 2014 restricted stock units vest in two categories. The first category vests on a time basis over a three year period. The second category vests on a performance basis whereby 50% vests in the subsequent fiscal year. Performance is by achieving 100% of the current year operating income.

(c) This column represents the number of stock options awarded in fiscal 2013 under the 2012 Long-Term Incentive Plan. These stock options vest ratably over a three year period from the grant date.

(d) This column represents the per-share exercise price of the stock options on the grant date of December 17, 2012.

(e) This column represents the grant date fair value of stock options and restricted stock units granted in fiscal years 2013 and 2015. See Note 4 to our Consolidated Financial Statements included in our Form 10-K for the fiscal year ending June 30, 2015.

Outstanding Equity Awards as of Fiscal-Year End

The following table summarizes the number of shares of common stock underlying outstanding equity incentive plan awards for each named executive officer as of June 30, 2015:

Name	Stock Awards				Number of Shares or Units of Stock That Have Not Vested (#)(d)	Market Value of Shares or Units of Stock That Have Not Vested (\$)(e)
	Number of Securities Underlying Unexercised Stock Options (Exercisable) (#)(a)	Number of Securities Underlying Unexercised Stock Options (Unexercisable) (#)(a)	Option Exercise Price (\$)(b)	Option Expiration Date (c)		
Douglas A. Starrett	5,000	7,500	10.08	12/17/2022	1,000	15,000
Francis J. O'Brien	2,500	3,750	10.08	12/17/2022	500	7,500
Anthony M. Aspin	1,667	2,500	10.08	12/17/2022	333	4,995
Stephen F. Walsh	2,500	3,750	10.08	12/17/2022	500	7,500
James B. Taylor	-	-	-	-	-	-

(a) Stock options vest ratably over a three year period commencing on the grant date of December 17, 2012.

(b) Represents the stock price (fair market value) on the grant date of December 17, 2012.

(c) Stock options expire, if not exercised, on the ten year anniversary of the grant.

(d) Restricted stock units vest equally over a three year period commencing with the grant date of December 17, 2012.

(e) The market value of the restricted stock units is determined by multiplying the number of shares subject to the award by \$15.00, which represents the closing price of the Company's common stock on June 30, 2015.

Stock Vested Table

The following table provides information regarding restricted stock units to our named executive officers during fiscal 2015. No stock options awarded to our named executive officers were exercised in fiscal 2015.

	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$)	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting (\$) (1)
Douglas A. Starrett	-	-	2,000	34,720
Francis J. O'Brien	-	-	1,000	17,360
Anthony M. Aspin	-	-	667	11,579
Stephen F. Walsh	-	-	1,000	17,360
James B. Taylor	-	-	-	-

(1) Represents the fair market value of the common stock based on the closing price on the applicable vesting date, December 17, 2014, multiplied by the number of shares of restricted stock that vested on that date.

Pension Benefits

The Company's Retirement Plan covers all eligible employees who have at least one year of service and have attained age 21. An "eligible employee" is an employee of the Company (or an affiliate of the Company that participates in the Plan) other than a union employee, leased employee, independent contractor, or, except as determined by the Company, a nonresident alien. Benefits under the Retirement Plan are determined by reducing a formula amount calculated under the Retirement Plan by 90% of the annuity value of the employee's vested account balance, if any, under the 1984 ESOP. See "Employee Stock Ownership and 401(k) Savings Plans" below. At no time will the benefit of any participant under the Retirement Plan be less than such participant's benefits, if any, under the Retirement Plan before establishment of the 1984 ESOP. The formula amount calculated under the Retirement Plan is based on the sum of 1.25% of the employee's average base salary up to the employee's Social Security covered compensation plus 1.70% of the employee's average base salary over covered compensation, times the number of years of credited service up to but not exceeding

35 years. An employee's average base salary is his average base salary for the five consecutive highest paid of his last ten years of employment.

Pursuant to provisions of the Internal Revenue Code of 1986, as amended, in general, annual compensation that may be taken into account in computing a participant's benefit under the Retirement Plan is limited (to \$260,000 for the plan year beginning on July 1, 2014) and annual annuity benefits may not exceed a specified dollar limit (currently \$210,000). The Company has established a Supplemental Executive Retirement Plan ("SERP") to provide on an unfunded basis out of the general assets of the Company benefits earned under the Retirement Plan formula that are in excess of Internal Revenue Code limits. At June 30, 2014, the retirement benefits are outlined in the Pension Benefits table below.

PENSION BENEFITS

Name	Plan Name	Number of Years Credited Service (#)(a)	Present Value of Accumulated Benefit \$(b)	Payments During Last Fiscal Year (\$)
Douglas A. Starrett	Retirement Plan	35.0	1,584,170	- 0 -
	SERP	35.0	778,171	- 0 -
Francis J. O'Brien	Retirement Plan	4.5	225,087	- 0 -
	SERP	-	-	- 0 -
Anthony M. Aspin	Retirement Plan	23.5	674,299	- 0 -
	SERP	23.5	-	- 0 -
Stephen F. Walsh	Retirement Plan	12.5	541,309	- 0 -
	SERP	12.5	-	- 0 -

(a) This column represents the number of years of service credited to each executive officer under the Retirement Plan and SERP. Mr. Starrett's actual years of service with the Company are 37.5 years; however, the number of years of credited service under the Retirement Plan and SERP is limited to 35 years.

(b) This column represents the actuarial present value of the executive officer's accumulated benefit under Retirement Plan and SERP. For a detailed description of the assumptions used for purposes of determining fair value, see Note 12 to our Consolidated Financial Statements included in our Form 10-K for the fiscal year ended June 30, 2014.

Summary of Director Compensation

Our non-management directors in fiscal 2015 received:

- Annual cash retainers ranging from \$35,000 to \$40,000.
- Reimbursement for Company-related out-of-pocket expenses, including travel expenses.

DIRECTOR COMPENSATION FOR FISCAL 2015

The table below summarizes the compensation earned by our directors/and or paid by the Company to our directors for fiscal 2015.

Name	Fees Earned or Paid in Cash (Meeting Fees and Retainers) \$(a)	Stock Awards \$(b)	Option Awards \$(c)	Total (\$)
Ralph G. Lawrence	37,000	26,345	-	63,345
Salvador de Camargo, Jr. ^(d)	-	-	-	-
Richard B. Kennedy	38,000	26,345	-	64,345
Terry A. Piper	35,000	26,345	-	61,345
David A. Lemoine	40,000	26,345	-	66,345

(a) This column represents retainer fees paid for services as a director during the fiscal year ended June 30, 2015. Each of the Company's non-management directors is paid a retention fee of \$35,000. Each non-management director who serves as a committee chairperson receives an additional amount for their service as a chairperson. In addition to each of their retention fees, Mr. Lawrence received \$2,000 for serving as corporate governance and nominating committee chair, Mr. Kennedy received \$3,000 for serving as compensation committee chair, and Mr. Lemoine received \$5,000 for serving as audit committee chair.

(b) This column represents the grant date fair value of restricted stock units granted in fiscal 2015.

(c) There were no grants of plan-based option awards to our non-management directors in fiscal 2015.

(d) Salvador de Camargo, Jr.'s total compensation in fiscal 2015 was \$171,406. He was not separately compensated as a member of the Board. Mr. de Camargo, Jr.'s compensation in Brazilian Reals was R538,333.

F. Employee Stock Ownership and 401(k) Savings Plans

The Company also maintains the 1984 ESOP, established in 1984, a 401(k) Savings Plan, established in 1986, and the 2013 ESOP, established in fiscal 2013. All plans are designed to supplement retirement benefits provided under the Company's Retirement Plan and to enable employees to share in the growth of the Company.

The 1984 ESOP covers eligible domestic employees who have at least one year of service and have attained age 21. However, as of June 30, 1994, all of the shares of Common Stock in the 1984 ESOP were allocated to participant accounts, and future 1984 ESOP contributions by the Company (if any) are discretionary. Employees who retire, die, or otherwise terminate employment will be entitled to receive their vested account balance, if any, under the 1984 ESOP, which will generally be distributed at the same time that the employee is eligible to begin receiving a benefit under the Retirement Plan. An amount equal to 90% of an employee's 1984 ESOP account balance, if any, expressed in annuity form, will be used to offset the employee's benefit under the Retirement Plan. See "Pension Benefits" above.

The 2013 ESOP covers eligible domestic employees who have at least one year of service and have attained age 21. The 2013 ESOP plan year ends on June 30. The plan is funded exclusively by Company contributions, and employees will neither be required nor permitted to make contributions to the plan. Each year, the Company will determine the extent of its contribution to the plan. For fiscal 2013, the Company made a contribution to the plan totaling \$773,000, equal to 2% of each eligible participant's annual compensation. Participants will become vested in the plan over a six year period at 20% per year beginning in the second year. In fiscal 2014, the Company amended the 2013 ESOP plan to provide that participants will become vested over a five year period at 20% per year beginning in the first year, rather than the second year. There were no contributions to the 2013 ESOP in fiscal years 2014 and 2015.

The 401(k) Savings Plan is a savings and salary deferral plan that is intended to qualify for favorable tax treatment under Section 401(a) of the Internal Revenue Code. To be a participant in the 401(k) Savings Plan (a "Participant"), an eligible employee must have completed six months of service and be at least 18 years old. Participants may authorize deferral of a percentage of their compensation through payroll deductions, subject to any limitations imposed by the 401(k) Savings Plan administrator, which the Company will contribute to a trust fund established for the 401(k) Savings Plan (the "401(k) Trust").

The Company contributes to the 401(k) Savings Plan for the benefit of each Participant a matching contribution equal to one-third of the first 5% of the Participant's compensation (as determined under the 401(k) Savings Plan) that the Participant contributes as a salary deferral for each month. The Company may prospectively increase or decrease the matching contribution formula. Under current vesting rules, matching contributions vest after three years of service (as determined under the 401(k) Savings Plan) and salary deferral contributions vest immediately. Participants may, among other investment choices, invest their contributions and matching contributions in the Company stock fund.

Participants are not subject to federal or state income tax on salary deferral contributions or on Company matching contributions or the earnings thereon until such amounts are withdrawn from the 401(k) Savings Plan.

Assets of the Plan, including Company stock, are held in trust. Company stock is held in a unitized fund that includes both Company stock and cash. Counsel Trust Company is the trustee of the 401(k) Trust.

A Participant's accounts may be invested (along with any earnings) as the Participant directs in one or more of the investments made available by the Plan administrator, including the Company stock fund. Withdrawals from the 401(k) Savings Plan may only be made upon termination of employment, attainment of age 59 1/2 or in connection with certain provisions of the Plan that permit hardship withdrawals. The 401(k) Savings Plan also permits loans to Participants.

For fiscal 2015 and 2014, Company matching contributions for all executive officers of the Company as a group were \$16,186 and \$14,437, respectively, and for all employees of the Company as a group were \$229,338 and \$201,112 respectively.

G. Employees' Stock Purchase Plans

The 2012 Employees' Stock Purchase Plan (the "2012 Plan"), which was approved in 2012, provides that the options may cover shares of Class A or Class B Stock as the Company shall determine. The principal difference between the Class A Stock and the Class B Stock is their respective voting rights. Class B Stock is otherwise identical to the Class A Stock except (i) that it is generally non-transferable except to lineal descendants, (ii) cannot receive more dividends per share than the Class A Stock and (iii) can be converted to Class A Stock at any time. Under the 2012 Plan, the option price to purchase shares of the Company's Common Stock was the lower of 85% of the market price on the date of grant or 85% of the market price on the date of exercise (two years from the date of grant).

The 2012 Plan gives new employees an opportunity to participate in the success of the Company and allows present employee stockholders to invest further if they so desire. The Company's management feels that a further financial interest of this type on the part of those who work for the Company and its subsidiaries gives it an added edge that makes a difference in Company performance. At June 30, 2015, 877 employees were eligible to participate in the 2012 Plan. Based on the closing market price for the Company's

Common Stock on July 31, 2015 of \$15.00 per share, the aggregate market value of the 500,000 shares of Common Stock issuable under the 2012 Plan would be approximately \$7,500,000.

The Company also sells shares to employees under an Employees' Stock Purchase Plan adopted in 1952 (the "1952 Plan"). The Company, from time to time, purchases these shares in the open market to be held in treasury. The Company pays brokerage and other expenses incidental to purchases and sales under the 1952 Plan and employees may authorize regular payroll deductions for purchases of shares.

H. Potential Payments upon Termination or Change of Control

The Company entered into Change in Control Agreements ("CIC Agreements") with Douglas A. Starrett and Stephen F. Walsh on January 16, 2009, with Francis J. O'Brien on July 15, 2010 and with Anthony M. Aspin on March 5, 2014. Under the CIC Agreements, Messrs. Starrett, O'Brien, Walsh and Aspin are entitled to certain payments in connection with a "change in control" (as defined in the CIC Agreements) of the Company. Among other triggering events set forth in the definition, a change in control of the Company will occur if any person is or becomes the beneficial owner, directly or indirectly, of securities of the Company representing 30% or more of the combined voting power of the Company's then outstanding voting securities or more than 50% of the total fair market value of the Company. The material terms of the CIC Agreements are summarized below.

CIC Agreement with Douglas A. Starrett

Under Mr. Starrett's CIC Agreement, Mr. Starrett is entitled to certain payments and benefits if there is a change in control of the Company. In the event of a change in control of the Company (and notwithstanding any change in employment with the Company), Mr. Starrett is entitled to:

- A lump sum payment of three times his annual base salary immediately prior to the change in control plus three times the average of his annual bonus for the past three years. As of the date of this Proxy Statement, this amount is estimated to be approximately \$1,297,905.
- Full acceleration of his options to purchase stock of the Company (including the right to participate in any stage of a tender offer) and full acceleration of his restricted stock units. Mr. Starrett was granted 7,500 stock options and 3,000 time based restricted stock units on December 5, 2012 pursuant to the Company's 2012 Long-Term Incentive Plan. Mr. Starrett was granted an additional 6,500 time based restricted stock units on September 2, 2014 pursuant to the Company's Long Term Incentive Plan. The value of full acceleration as of June 30, 2015 for the stock options and restricted stock units would be \$12,300 and \$112,500, respectively.
- Continued coverage under existing medical, dental, and prescription drug plans for Mr. Starrett and his family for 36 months following the change in control. In the event that coverage under such a plan is not available, the Company will pay the premium costs for COBRA health care continuation coverage for him and his spouse and/or dependents or, to the extent that COBRA coverage is not available, monthly lump sum cash payments equal to the monthly COBRA premiums directly to him for such 36 month period. This is estimated to be approximately \$80,000.
- Continued coverage under a director and officer liability policy.
- A "gross up payment" for excise and related taxes in the event that payments or distributions to him under his CIC Agreement would constitute "excess parachute payments" under Section 280G of the Internal Revenue Code. The value of such "gross up payment" as of June 30, 2015 would be approximately \$616,800. For purposes of this calculation, the Company took into account the full value of the restricted stock units and stock options, rather than the acceleration value of such awards.
- In the event that he is terminated for any reason within 36 months of a change in control, a lump sum payment equal to the value of any additional benefits that would have accrued to him under the Company's retirement plan from the date of his termination if he had remained employed with the Company for 36 months following the change in control. No estimate of this payment is available at this time.
- The Company's covenant to continue in effect all retirement plans in which he is a participant immediately prior to the change in control. No estimate of this payment is available at this time.

CIC Agreements with Francis J. O'Brien, Stephen F. Walsh and Anthony M. Aspin

Under their CIC Agreements, Messrs. O'Brien and Aspin are entitled to certain payments and benefits if (1) there is a change in control of the Company and (2) they are terminated in connection with the change in control. Mr. Walsh is no longer eligible for

compensation under the CIC Agreement based upon his retirement, effective June 30, 2015 and, in connection with his retirement he did not receive any severance pay or termination benefits. He will remain a part-time employee through September 2015. In the event of a termination in connection with a change in control, each of Messrs. O'Brien and Aspin are entitled to:

- A lump sum payment equal to one and one half times his annual base salary immediately prior to the change in control and one and one half times the average of his annual bonus over the past three years. As of the date of this Proxy Statement, this amount is estimated to be \$385,628 and \$301,405 for Messrs. O'Brien and Aspin, respectively.
- Continued coverage under existing medical, dental, and prescription drug plans for him and his family for 18 months following the change in control and termination of employment. In the event that coverage under such a plan is not available, the Company will pay the premium costs for COBRA health care continuation coverage for him and his spouse and/or dependents or, to the extent that COBRA coverage is not available, monthly lump sum cash payments equal to the monthly COBRA premiums directly to him for such 18 month period. This is estimated to be approximately \$40,000 for each of Messrs. O'Brien and Aspin.
- Continued coverage under a director and officer liability policy.
- A "gross up payment" for excise and related taxes in the event that payments or distributions to them under their CIC Agreements would constitute "excess parachute payments" under Section 280G of the Internal Revenue Code. None of Messrs. O'Brien or Aspin would receive a "gross up payment" as of June 30, 2015.
- A lump sum payment equal to any additional benefits that would have accrued to him under the Company's retirement plan from the date of his termination if he had remained employed with the Company for 18 months following the change in control. No estimate of this payment is available at this time.
- In the event that his employment is not terminated following a change in control, the Company's covenant to continue in effect all retirement plans in which he is a participant immediately prior to a change in control. No estimate of this payment is available at this time.

In the event of a change in control of the Company (and notwithstanding any change in employment with the Company), each of Messrs. O'Brien and Aspin are entitled to, full acceleration of his options to purchase stock of the Company (including the right to participate in any stage of a tender offer) and full acceleration of his restricted stock units. Mr. O'Brien was granted 3,750 stock options and 1,500 restricted stock units pursuant to the Company's 2012 Long-Term Incentive Plan. Mr. Aspin was granted 2,500 stock options and 1,000 restricted stock units pursuant to the Company's 2012 Long-Term Incentive Plan. The value of full acceleration as of June 30, 2015 for the stock options and restricted stock units would be \$18,450 and \$60,000 respectively for Mr. O'Brien and \$12,300 and \$37,500 respectively for Mr. Aspin.

I. Security Ownership of Certain Owners and Management

1. Security Ownership of Management

The following table and accompanying footnotes set forth certain information about the beneficial ownership of the Company's Common Stock as of August 28, 2015 by the directors, the executive officers named in the Summary Compensation Table and all directors and executive officers as a group.

Name of Beneficial Owner	Title of Class of Common Stock	Amount and Nature of Beneficial Ownership ¹	Percent of Class
Douglas A. Starrett ²	Class A	34,678	*
	Class B	49,099	6.2%
Anthony M. Aspin ³	Class A	3,207	*
	Class B	284	*
Stephen F. Walsh ⁴	Class A	5,394	*
	Class B	9,228	*
Francis J. O'Brien	Class A	1,590	*
	Class B	-	*
Salvador de Camargo, Jr.	Class A	700	*
	Class B	-	*
Richard B. Kennedy ⁵	Class A	325	*
	Class B	-	*
Ralph G. Lawrence	Class A	1,900	*
	Class B	-	*
Terry A. Piper	Class A	400	*
	Class B	-	*
David A. Lemoine	Class A	1,200	*
	Class B	-	*
All Directors and Executive Officers (as a Group 9 persons)	Class A	49,394	*
	Class B	58,611	7.4%

* Less than one percent (1%)

¹ Shares are held with sole voting and investment power except as indicated below.

² Includes 138 Class A and 1,050 Class B shares held with shared voting and investment power and 3,009 Class A and 46,404 Class B shares held with sole voting power only. Does not include shares of Common Stock held by Mr. Starrett as Trustee under the 1984 ESOP except for 5,283 Class A and 1,545 Class B shares allocated to Mr. Starrett's 1984 ESOP account. See Note 5 under "Security Ownership of Certain Beneficial Owners" below.

³ Includes 218 Class A shares with shared voting and investment power and 2,323 Class A and 284 Class B shares with sole voting power only.

⁴ Includes 2,400 Class A shares and 9,228 Class B shares held with shared voting and investment power and 2,994 Class A shares with sole voting power only.

⁵ Shares are held with shared voting and investment power.

2. Security Ownership of Certain Beneficial Owners

The following table and accompanying footnotes sets forth the persons or groups known by the Company to be beneficial owners of more than 5% of the Company's Common Stock as of August 28, 2015.

Name and Address of Beneficial Owners	Title of Class of Common Stock	Amount and Nature of Beneficial Ownership	Percent of Class
Gamco Investors, Inc. ¹ 1 Corporate Center Rye, NY 10580	Class A	863,400	13.9%
	Class B	-	*
Royce & Associates, LLC ² 1414 Avenue of the Americas New York, NY 10019	Class A	529,400	8.5%

Harold J. Bacon, Douglas A. Starrett and Francis J. O'Brien, as Trustees under The L.S. Starrett Company's Employees Stock Ownership Plan ⁵ c/o The L.S. Starrett Company 121 Crescent Street Athol, MA 01331	Class A	492,204	7.9%
	Class B	142,731	18.1%

* Less than one percent (1%)

¹ Share information is based on information set forth in the Amendment on Schedule 13D filed by Gamco Investors, Inc. with the SEC on March 2, 2015.

² Share information is based on information set forth in the Amendment on Schedule 13G filed by Royce & Associates, LLC with the SEC on December 31, 2014.

³ Share information based on information set forth in the Schedule 13G filed by Dimensional Fund Advisors LP with the SEC on December 31, 2014.

⁴ Counsel Trust Company acts as Trustee of the Company's 401(k) Savings Plan and in that capacity shares voting power with respect to the shares of Common Stock with and subject to direction from participants in the 401(k) Savings Plan. Counsel Trust Company disclaims beneficial ownership as to all of the shares in the 401(k) Savings Plan.

⁵ Harold J. Bacon, Douglas A. Starrett and Francis J. O'Brien in their capacity as Trustees under the ESOPs (the "ESOPs Trustees") hold the shares with sole dispositive power subject to the terms of the ESOPs. The ESOPs Trustees disclaim beneficial ownership of the ESOPs shares except with respect to their own vested shares in the ESOPs.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires directors and executive officers of the Company and persons who own more than 10% of any class of equity securities of the Company registered under the Exchange Act to file with the SEC, the New York Stock Exchange and the Company initial reports of ownership and reports of changes in ownership of such securities. Based on information provided to the Company by the individual officers and directors, the Company believes that all such reports were timely filed in fiscal 2015 by such directors and officers.

IV. RELATIONSHIP WITH INDEPENDENT AUDITORS

During the fiscal year ended June 30, 2015, Grant Thornton LLP was engaged to perform the annual audit. Representatives of Grant Thornton LLP are expected to be present at the Annual Meeting and will have the opportunity to make a statement if they desire to do so. They will also be available to respond to appropriate questions.

The Audit Committee has appointed Grant Thornton LLP as the independent registered public accounting firm of the Company for fiscal 2016 and intends to submit such recommendation to the Company's stockholders for ratification (but not for approval) at the Company's 2015 Annual Meeting of Stockholders.

V. GENERAL

A. Solicitation and Voting

In case any person or persons named herein for election as a director should not be available for election at the Annual Meeting, proxies in the enclosed form (in the absence of express contrary instructions) may be voted for a substitute or substitutes as well as for other persons named herein.

As of the date of this Proxy Statement, management knows of no business that will be presented to the Annual Meeting that is not referred to in the accompanying notice, other than the approval of the minutes of the last meeting of stockholders, which action will not be construed as approval or disapproval of any of the matters referred to in such minutes.

As to other business, if any, that may properly come before the Annual Meeting, it is intended that proxies in the attached form that do not contain specific instructions to the contrary will be voted in respect thereof in accordance with the judgment of the persons voting the proxies.

The enclosed proxy is solicited by the Board of Directors of the Company. The cost of solicitation will be borne by the Company. Such solicitation will be made by mail and may also be made by the Company's officers and employees personally or by telephone or telegram. The Company will, on request, reimburse brokers, custodians and nominees for their expenses in sending proxies and proxy material to beneficial owners. A proxy that is executed but that does not specify a vote for, against or in abstention will be voted in accordance with the recommendation of the Board of Directors contained herein.

Consistent with Massachusetts law and under the Company's By-laws, a majority of the shares entitled to be cast on a particular matter, present in person or represented by proxy, constitutes a quorum as to such matter. Votes cast by proxy or in person at the Annual Meeting will be counted by persons appointed by the Company to act as election tellers for the Annual Meeting. The two nominees for election as directors at the Annual Meeting who receive the greatest number of votes properly cast for the election of directors will be elected directors. Should any of the nominees not remain a candidate at the end of the Annual Meeting (a situation which is not expected), proxies solicited hereunder will be voted in favor of those who remain as candidates and may be voted for substitute nominees, unless the Board determines to reduce the number of directors. The ratification of Grant Thornton LLP as the Company's independent auditor requires the affirmative vote of a majority of the votes properly cast. However, a vote in favor or against the ratification of Grant Thornton LLP as the Company's independent auditor is not binding on the Board of Directors.

The election tellers will count shares represented by proxies that withhold authority to vote for a nominee for election as a director or that reflect abstentions and "broker non-votes" (i.e., shares represented at the meeting held by brokers or nominees as to which (i) instructions have not been received from the beneficial owners or persons entitled to vote and (ii) the broker or nominee does not have the discretionary voting power on a particular matter) only as shares that are present and entitled to vote on the matter for purposes of determining the presence of a quorum. Abstentions and broker non-votes will not be counted in favor of or against, and will have no other effect on the election of directors.

B. Communication with the Board of Directors

Stockholders and other interested parties can communicate directly with the Board by writing to: Board of Directors, c/o Clerk, The L.S. Starrett Company, 121 Crescent Street, Athol, Massachusetts 01331. The Company will forward such communications to the Board at, or prior to, the next meeting of the Board.

Stockholders and other interested parties wishing to communicate only with the Company's independent directors (i.e., non-management directors) can address their communications to "Independent Directors, c/o Corporate Governance and Nominating Committee" at the same address as above. These communications will be handled by the Corporate Governance and Nominating Committee and forwarded to the independent directors at or prior to the next meeting of the independent directors. The Board or the

independent directors will determine, in such group's sole discretion, the method by which any such communications will be reviewed and considered.

Communications to the Board (including to the independent directors) should not exceed 200 words in length, excluding the information required to accompany the communication. All such communications must be accompanied by the following information: (i) a statement of the type and amount of the securities of the Company that the person holds and (ii) the address, telephone number and e-mail address, if any, of the person submitting the communication. Interested parties that do not hold any securities of the Company may omit the information required by item (i) above in communications with the Board.

C. Corporate Governance

The Company's Corporate Governance Policy, and its Policy on Business Conduct and Ethics ("Ethics Policy") for all directors, officers and employees of the Company, including executive officers, as well as any waivers under the Ethics Policy granted to directors and executive officers, are available on the Company's web site at www.starrett.com. The Company's website is included in this Proxy Statement as a textual reference only and the information in the website is not incorporated by reference into this Proxy Statement. Stockholders may also obtain free of charge printed copies of these policies as well as the committee charters for the Company's Board of Directors by writing to the Clerk of the Company at the Company's headquarters.

D. Submission of Stockholder Proposals

In order to be included in the Company's proxy materials for presentation at the 2016 Annual Meeting of stockholders, a stockholder proposal pursuant to Rule 14a-8 as promulgated under the Exchange Act must be received by the Company not less than 120 days prior to September 12, 2016 and must comply with the requirements of Rule 14a-8. Such proposals should be sent to the Board of Directors, c/o Clerk, at 121 Crescent Street, Athol, Massachusetts 01331.

Under the Company's By-laws, stockholders who wish to make a proposal at the 2016 Annual Meeting, other than a stockholder proposal submitted pursuant to Rule 14a-8 as promulgated under the Exchange Act, must notify the Company not less than 120 days nor more than 150 days prior to the meeting; provided that in the event that less than 130 days' notice or prior public disclosure of the date of meeting is given or made to stockholders, the notice must be received no later than the close of business on the 10th day following the day on which such notice of the date of the meeting was mailed or such public disclosure is made. If a stockholder who wishes to present a proposal fails to notify the Company in accordance with the procedure set forth in the Company's By-laws, the stockholder would not be entitled to present the proposal at the meeting. If, however, notwithstanding the requirements of the Company's By-laws, the proposal is brought before the meeting, then under the SEC's proxy rules the proxies solicited by management with respect to the Annual Meeting will confer discretionary voting authority with respect to the stockholder's proposal on the persons selected by management to vote the proxies. If a stockholder makes a timely notification, the proxies may still exercise discretionary voting authority under circumstances consistent with the SEC's proxy rules.

E. Additional Information

The Company makes available through its web site, www.starrett.com, its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed pursuant to Section 13(a) and 15(d) of the Exchange Act.

IN ORDER THAT THE PRESENCE OF A QUORUM MAY BE ASSURED IT IS IMPORTANT THAT THE PROXIES BE RETURNED PROMPTLY. THEREFORE, STOCKHOLDERS ARE URGED TO EXECUTE AND RETURN THE ENCLOSED PROXY CARD IN THE STAMPED ENVELOPE ADDRESSED TO COMPUTERSHARE, INC., THE COMPANY'S TRANSFER AGENT, OR TO VOTE BY TELEPHONE OR OVER THE INTERNET AS PROVIDED ON THE ENCLOSED INSTRUCTIONS. Stockholders who execute proxies, but attend the Annual Meeting in person, may withdraw their proxies and vote directly if they prefer. The Company's transfer agent will assist the Company in tabulating the stockholder vote.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

The election of two directors is proposed by the Board of Directors, each to hold office for a term of three years and until his successor is chosen and qualified. The Company's Board of Directors proposes for election: David A. Lemoine and Douglas A. Starrett. All of the nominees are current members of the Company's Board of Directors.

In accordance with the Board of Directors' recommendation, the proxy holders will vote the shares of the Company's Common Stock covered by the respective proxies for the election of each of the two director nominees, unless the stockholder gives instructions to the contrary. If, for any reason, any of the director nominees become unavailable for election, the proxy holders may exercise discretion to vote for substitute nominees proposed by the Board of Directors. Each of the director nominees has indicated that he will be able to serve if elected and has agreed to do so.

For details regarding qualifications, experience and specific skills of each of our director nominees, please see "I. Election of Directors" included elsewhere in this Proxy Statement.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE **FOR** THE ELECTION OF ALL THE NOMINATED DIRECTORS.

PROPOSAL NO. 2

RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FOR FISCAL YEAR 2016

The Audit Committee of the Board of Directors has appointed Grant Thornton LLP to serve as the Company's independent registered public accountants for fiscal year 2016. The Audit Committee and the Board of Directors seek to have the stockholders ratify the Audit Committee's appointment. The Company expects representatives of Grant Thornton LLP will be present at the Annual Meeting and will have the opportunity to make a statement, if they desire to do so, and to respond to appropriate questions. If the appointment of Grant Thornton LLP is not ratified by the stockholders, the Audit Committee may appoint another independent registered public accounting firm or may decide to maintain its appointment of Grant Thornton LLP.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE **FOR** THE RATIFICATION OF THE APPOINTMENT OF GRANT THORNTON LLP AS INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FOR THE FISCAL YEAR 2016.

PART I

Item 1 - Business

General

Founded in 1880 by Laroy S. Starrett and incorporated in 1929, The L.S. Starrett Company (the “Company”) is engaged in the business of manufacturing over 5,000 different products for industrial, professional and consumer markets. The Company has a long history of global manufacturing experience and currently operates 5 major global manufacturing plants. Domestic locations are Athol, Massachusetts (1880) and Mt. Airy, North Carolina (1985) with international operations located in Itu, Brazil (1956) Jedburgh, Scotland (1958) and Suzhou, China (1997). All subsidiaries principally serve the global manufacturing industrial base with concentration in the metalworking, construction, machinery, equipment, aerospace and automotive markets.

The Company offers its broad array of measuring and cutting products to the market through multiple channels of distribution throughout the world. The Company’s products include precision tools, electronic gages, gage blocks, optical vision and laser measuring equipment, custom engineered granite solutions, tape measures, levels, chalk products, squares, band saw blades, hole saws, hacksaw blades, jig saw blades, reciprocating saw blades, M1® lubricant and precision ground flat stock. The Company primarily distributes its precision hand tools, saw and construction products through distributors or resellers both domestically and internationally. The Company’s financial reporting is based on one business segment. Starrett® is brand recognized around the world for precision, quality and innovation.

Products

The Company’s tools and instruments are sold throughout North America and in over 100 other countries. By far the largest consumer of these products is the manufacturing industry including metalworking, aerospace, medical, and automotive but other important consumers are marine and farm equipment shops, do-it-yourselfers and tradesmen such as builders, carpenters, plumbers and electricians.

For 135 years the Company has been a recognized leader in providing measurement and cutting solutions to industry. Measurement tools consist of precision instruments such as micrometers, vernier calipers, height gages, depth gages, electronic gages, dial indicators, steel rules, combination squares, custom, non-contact and in-process gaging such as optical, vision and laser measurement systems. The Company has expanded its product offering in the field of test and measurement equipment, with force measurement and material test equipment. Skilled personnel, superior products, manufacturing expertise, innovation and unmatched service has earned the Company its reputation as the “Best in Class” provider of measuring application solutions for industry. During fiscal 2014, the Company introduced material test systems consisting of hardware and cutting edge software with capacities up to 50KN, in addition to new manual and automated FOV (Field of View) measurement systems. These systems we believe will be attractive to industry to reduce measurement and inspection time and are ideal for quality assurance, inspection labs, manufacturing and research facilities.

The Company’s saw product lines enjoy strong global brand recognition and market share. These products encompass a breadth of uses. The Company introduced several new products in the recent past including a new line of hand tools for measuring, marking and layout that include tapes, levels, chalk lines and other products for the building trades. In fiscal 2015, the Company introduced a new line of drills, knives and tool bags to broaden its hand tool product line. The continued focus on high performance, production band saw applications has resulted in the development of two new ADVANZ carbide tipped products MC5 and MC7 ideal for cutting ferrous materials (MC7) and non-ferrous metals and castings (MC5). These actions are aimed at positioning Starrett for global growth in wide band products for production applications.

As one of the premier industrial brands, the Company continues to be focused on every touch point with its customers. To that end, the Company now offers modern, easy-to-use interfaces for distributors and end-users including interactive catalogs and several online applications.

Personnel

At June 30, 2015, the Company had 1,804 employees, approximately 52% of whom were domestic. This represents a net decrease from June 30, 2014 of 7 employees. The headcount change included an increase of 1 domestically and a decrease of 8 internationally.

None of the Company’s operations are subject to collective bargaining agreements. In general, the Company considers relations with its employees to be excellent. Domestic employees hold a large share of Company stock resulting from various stock purchase plans and employee stock ownership plans. The Company believes that this dual role of owner-employee has strengthened employee morale over the years.

Competition

The Company competes on the basis of its reputation as the best in class for quality, precision and innovation combined with its commitment to customer service and strong customer relationships. To that end, Starrett is increasingly focusing on providing customer centric solutions. Although the Company is generally operating in highly competitive markets, the Company's competitive position cannot be determined accurately in the aggregate or by specific market since none of its competitors offer all of the same product lines offered by the Company or serve all of the markets served by the Company.

The Company is one of the largest producers of mechanics' hand measuring tools and precision instruments. In the United States, there are three major foreign competitors and numerous small companies in the field. As a result, the industry is highly competitive. During fiscal 2015, there were no material changes in the Company's competitive position. The Company's products for the building trades, such as tape measures and levels, are under constant margin pressure due to a channel shift to large national home and hardware retailers. The Company is responding to such challenges by expanding its manufacturing operations in China. Certain large customers also offer their own private labels ("own brand") that compete with Starrett branded products. These products are often sourced directly from low cost countries.

Saw products encounter competition from several domestic and international sources. The Company's competitive position varies by market and country. Continued research and development, new patented products and processes, strategic acquisitions and investments and strong customer support have enabled the Company to compete successfully in both general and performance oriented applications.

Foreign Operations

The operations of the Company's foreign subsidiaries are consolidated in its financial statements. The subsidiaries located in Brazil, Scotland and China are actively engaged in the manufacturing and distribution of precision measuring tools, saw blades, optical and vision measuring equipment and hand tools. Subsidiaries in Canada, Australia, New Zealand, Mexico, Germany and Singapore are engaged in distribution of the Company's products. The Company expects its foreign subsidiaries to continue to play a significant role in its overall operations. A summary of the Company's foreign operations is contained in Note 15 to the Company's fiscal 2015 financial statements under the caption "OPERATING DATA" found in Item 8 of this Form 10-K.

Orders and Backlog

The Company generally fills orders from finished goods inventories on hand. Sales order backlog of the Company at any point in time is not significant. Total inventories amounted to \$63.0 million at June 30, 2015 and \$65.6 million at June 30, 2014.

Intellectual Property

When appropriate, the Company applies for patent protection on new inventions and currently owns a number of patents. Its patents are considered important in the operation of the business, but no single patent is of material importance when viewed from the standpoint of its overall business. The Company relies on its continuing product research and development efforts, with less dependence on its current patent position. It has for many years maintained engineers and supporting personnel engaged in research, product development and related activities. The expenditures for these activities during fiscal years 2015, 2014, and 2013 were approximately \$1.7 million, \$1.4 million, and \$1.3 million, respectively.

The Company uses trademarks with respect to its products and considers its trademark portfolio to be one of its most valuable assets. All of the Company's important trademarks are registered and rigorously enforced.

Environmental

Compliance with federal, state, local, and foreign provisions that have been enacted or adopted regulating the discharge of materials into the environment or otherwise relating to protection of the environment is not expected to have a material effect on the capital expenditures, earnings and competitive position of the Company. Specifically, the Company has taken steps to reduce, control and treat water discharges and air emissions. The Company takes seriously its responsibility to the environment, has embraced renewable energy alternatives and received approval from federal and state regulators in fiscal 2013 to begin using its new hydro – generation facility on line at its Athol, MA plant to reduce its carbon footprint and energy costs, an investment in excess of \$1.0 million.

Strategic Activities

Globalization has had a profound impact on product offerings and buying behaviors of industry and consumers in North America and around the world, forcing the Company to adapt to this new, highly competitive business environment. The Company continuously evaluates most aspects of its business, aiming for new world-class ideas to set itself apart from its competition.

Our strategic concentration is on global brand building and providing unique customer value propositions through technically supported application solutions for our customers. Our job is to recommend and produce the best suited standard product or to design and build custom solutions. The combination of the right tool for the job with value added service gives us a competitive advantage. The Company continues its focus on lean manufacturing, plant consolidations, global sourcing, new software and hardware technologies, and improved logistics to optimize its value chain.

The execution of these strategic initiatives has expanded the Company's manufacturing and distribution in developing economies, resulting in international sales revenues totaling 48% of consolidated sales for fiscal 2015.

SEC Filings and Certifications

The Company makes its public filings with the Securities and Exchange Commission ("SEC"), including its Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and all exhibits and amendments to these reports, available free of charge at its website, www.starrett.com, as soon as reasonably practicable after the Company files such material with the SEC. Information contained on the Company's website is not part of this Annual Report on Form 10-K.

Item 1A – Risk Factors

SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This Annual Report on Form 10-K and the Company's 2015 Annual Report to Stockholders, including the President's letter, contain forward-looking statements about the Company's business, competition, sales, gross margins, capital expenditures, foreign operations, plans for reorganization, interest rate sensitivity, debt service, liquidity and capital resources, and other operating and capital requirements. In addition, forward-looking statements may be included in future Company documents and in oral statements by Company representatives to security analysts and investors. The Company is subject to risks that could cause actual events to vary materially from such forward-looking statements, including the following risk factors:

Economic and world events could affect our operating results.

The Company's results of operations may be materially affected by the conditions in the global economy. These include both world - wide and regional economic conditions and geo-political events. These conditions may affect financial markets, consumer and customer confidence. The recovery from the recession has been slow in North America. Latin America has experienced inflation resulting in weaker local currencies compared to the U. S. dollar. China's growth has slowed and Europe and the Middle – East remain under geo-political threat. The Company can provide no assurance that these economic trends will not continue.

Technological innovation by competitors could adversely affect financial results.

Although the Company's strategy includes investment in research and development of new and innovative products to meet technology advances, there can be no assurance that the Company will be successful in competing against new technologies developed by competitors.

International operations and our financial results in those markets may be affected by legal, regulatory, political, currency exchange and other economic risks.

During 2015, international sales revenues were \$116 million, representing approximately 48% of total net sales. In addition, a significant amount of our manufacturing and production operations are located, or our products are sourced from, outside the United States. As a result, our business is subject to risks associated with international operations. These risks include the burdens of complying with foreign laws and regulations, unexpected changes in tariffs, taxes or regulatory requirements, and political unrest and corruption. Regulatory changes could occur in the countries in which we sell, produce or source our products or significantly increase the cost of operating in or obtaining materials originating from certain countries. Restrictions imposed by such changes can have a particular impact on our business when, after we have moved our operations to a particular location, new unfavorable regulations are enacted in that area or favorable regulations currently in effect are changed.

Countries in which our products are manufactured or sold may from time to time impose additional new regulations, or modify existing regulations, including:

- changes in duties, taxes, tariffs and other charges on imports;
- limitations on the quantity of goods which may be imported into the United States from a particular country;
- requirements as to where products and/or inputs are manufactured or sourced;
- creation of export licensing requirements, imposition of restrictions on export quantities or specification of minimum export pricing and/or export prices or duties;
- limitations on foreign owned businesses; or
- government actions to cancel contracts, re-denominate the official currency, renounce or default on obligations, renegotiate terms unilaterally or expropriate assets.

In addition, political and economic changes or volatility, geopolitical regional conflicts, terrorist activity, political unrest, civil strife, acts of war, public corruption and other economic or political uncertainties could interrupt and negatively affect our business operations. All of these factors could result in increased costs or decreased revenues and could materially and adversely affect our product sales, financial condition and results of operations.

We are also subject to the U.S. Foreign Corrupt Practices Act, in addition to the anti-corruption laws of the foreign countries in which we operate. Although we implement policies and procedures designed to promote compliance with these laws, our employees, contractors and agents, as well as those companies to which we outsource certain of our business operations, may take actions in violation of our policies. Any such violation could result in sanctions or other penalties and have an adverse effect on our business, reputation and operating results.

Economic weakness in the industrial manufacturing sector could adversely affect the Company's financial results.

The market for most of the Company's products is subject to economic conditions affecting the industrial manufacturing sector, including the level of capital spending by industrial companies and the general movement of manufacturing to low cost foreign countries where the Company does not have a substantial market presence. Accordingly, economic weakness in the industrial manufacturing sector may, and in some cases has, resulted in decreased demand for certain of the Company's products, which adversely affects sales and performance. Economic weakness in the consumer market will also adversely impact the Company's performance. In the event that demand for any of the Company's products declines significantly, the Company could be required to recognize certain costs as well as asset impairment charges on long-lived assets related to those products.

Volatility in the price of energy and raw materials could negatively affect our margins.

Steel is the principal raw material used in the manufacture of the Company's products. The price of steel has historically fluctuated on a cyclical basis and has often depended on a variety of factors over which the Company has no control. The cost of producing the Company's products is also sensitive to the price of energy. The selling prices of the Company's products have not always increased in response to raw material, energy or other cost increases, and the Company is unable to determine to what extent, if any, it will be able to pass future cost increases through to its customers. The Company's inability to pass increased costs through to its customers could materially and adversely affect its financial condition or results of operations.

The inability to meet expected investment returns and changes to interest rates could have a negative impact on Pension plan assets.

Currently, the Company's U.S. defined benefit pension plan is underfunded primarily due to lower discount rates. The Company made contributions in fiscal 2015 of \$4.8 million and will be required to make additional contributions in fiscal 2016 of \$3.3 million. The Company could be required to provide more funding to the domestic plan in the future. The Company's UK plan, which is also underfunded, required Company contributions of \$1.2 million, \$1.2 million and \$1.2 million during fiscal 2015, 2014 and 2013 respectively. The Company will be required to make a \$1.1 million contribution to its UK pension plan in fiscal 2016.

Businesses that we may acquire may fail to perform to expectations.

Acquisitions involve special risks, including the potential assumption of unanticipated liabilities and contingencies, difficulty in assimilating the operations and personnel of the acquired businesses, disruption of the Company's existing business, dissipation of the Company's limited management resources, and impairment of relationships with employees and customers of the acquired business as a result of changes in ownership and management. While the Company believes that strategic acquisitions can improve its competitiveness and profitability, the failure to successfully integrate and realize the expected benefits of such acquisitions could have an adverse effect on the Company's business, financial condition and operating results.

We are subject to certain risks as a result of our financial borrowings.

Under the Company's credit facility with TD Bank, N.A., the Company is required to comply with certain financial covenants, including: 1) funded debt to EBITDA, excluding non-cash and retirement benefit expenses ("maximum leverage"), cannot exceed 2.25 to 1; 2) annual capital expenditures cannot exceed \$15.0 million; 3) maintain a Debt Service Coverage Rate of a minimum of 1.25 to 1 and 4) maintain consolidated cash plus liquid investments of not less than \$10.0 million at any time. The Company believes that it will be able to service its debt and comply with the financial covenants in future periods; however, it can be not be assured of results of operations or future credit and financial markets conditions. An event of default under the credit facility, if not waived, could prevent additional borrowing and could result in the acceleration of the Company's debt. As of June 30, 2015, the Company was in compliance with all the covenants. The credit facility expires in April of 2018.

Any inadequacy, interruption, integration failure or security failure with respect to our information technology could harm our ability to effectively operate our business.

The efficient operation of the Company's business is dependent on its information systems, including its ability to operate them effectively and to successfully implement new technologies, systems, controls and adequate disaster recovery systems. In addition, the Company must protect the confidentiality of data of its business, employees, customers and other third parties. The failure of the Company's information systems to perform as designed or its failure to implement and operate them effectively could disrupt the Company's business or subject it to liability and thereby harm its profitability. The Company continues to enhance the applications contained in the Enterprise Resource Planning (ERP) system as well as improvements to other operating systems.

Failure to comply with laws, rules and regulations could negatively affect our business operations and financial performance.

Our business is subject to federal, state, local and international laws, rules and regulations, such as state and local wage and hour laws, the U.S. Foreign Corrupt Practices Act, the False Claims Act, the Employee Retirement Income Security Act (“ERISA”), securities laws, import and export laws (including customs regulations) and many others. The complexity of the regulatory environment in which we operate and the related cost of compliance are both increasing due to changes in legal and regulatory requirements, increased enforcement and our ongoing expansion into new markets and new channels. In addition, as a result of operating in multiple countries, we must comply with multiple foreign laws and regulations that may differ substantially from country to country and may conflict with corresponding U.S. laws and regulations. We may also be subject to investigations or audits by governmental authorities and regulatory agencies, which can occur in the ordinary course of business or which can result from increased scrutiny from a particular agency towards an industry, country or practice. If we fail to comply with laws, rules and regulations or the manner in which they are interpreted or applied, we may be subject to government enforcement action, class action litigation or other litigation, damage to our reputation, civil and criminal liability, damages, fines and penalties, and increased cost of regulatory compliance, any of which could adversely affect our results of operations and financial performance.

Our tax rate is dependent upon a number of factors, a change in any of which could impact our future tax rates and net income.

Our future tax rates may be adversely affected by a number of factors, including the enactment of certain tax legislation being considered in the U.S.; other changes in tax laws or the interpretation of such tax laws; changes in the estimated realization of our net deferred tax assets; the jurisdictions in which profits are determined to be earned and taxed; the repatriation of non-U.S. earnings for which we have not previously provided for U.S. income and non-U.S. withholding taxes; adjustments to estimated taxes upon finalization of various tax returns; increases in expenses that are not deductible for tax purposes, including impairment of goodwill in connection with acquisitions; changes in available tax credits; and the resolution of issues arising from tax audits with various tax authorities. Losses for which no tax benefits can be recorded could materially impact our tax rate and its volatility from one quarter to another. Any significant change in our jurisdictional earnings mix or in the tax laws in those jurisdictions could impact our future tax rates and net income in those periods.

Item 1B – Unresolved Staff Comments

None.

Item 2 - Properties

The Company’s principal plant and its corporate headquarters are located in Athol, MA on approximately 15 acres of Company-owned land. The plant consists of 25 buildings, mostly of brick construction of varying dates, with approximately 535,000 square feet.

The Company’s Webber Gage Division in Cleveland, OH, owns and occupies two buildings totaling approximately 50,000 square feet.

The Company-owned facility in Mt. Airy, NC consists of one building totaling approximately 320,000 square feet. It is occupied by the Company’s Saw Division, Ground Flat Stock Division and a distribution center.

The Company’s subsidiary in Itu, Brazil owns and occupies several buildings totaling 209,000 square feet.

The Company’s subsidiary in Jedburgh, Scotland owns and occupies a 175,000 square foot building.

A wholly owned manufacturing subsidiary in The People’s Republic of China leases a 133,000 square foot building in Suzhou and leases a sales office in Shanghai.

The Tru-Stone Division owns and occupies a 106,000 square foot facility in Waite Park, MN.

The Kinematic Engineering Division occupies a 18,000 square foot leased facility in Laguna Hills, CA.

The Bytewise Division occupies a 10,000 square foot leased facility in Columbus, GA.

In addition, the Company operates warehouses and/or sales-support offices in the U.S., Canada, Australia, New Zealand, Mexico, Germany, Singapore and Japan.

In the Company’s opinion, all of its property, plant and equipment are in good operating condition, well maintained and adequate for its current and foreseeable needs.

Item 3 - Legal Proceedings

In the ordinary course of business the Company is involved from time to time in litigation that is not considered material to its financial condition or operations.

Item 4 – Mine Safety Disclosures

Not applicable.

PART II

Item 5 - Market for the Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The Company’s Class A common stock is traded on the New York Stock Exchange. Quarterly dividend and high/low closing market price information is presented in the table below. The Company’s Class B common stock is generally nontransferable, except to lineal descendants of stockholders, and thus has no established trading market, but it can be converted into Class A common stock at any time. The Class B common stock was issued on October 5, 1988, and the Company has paid the same dividends thereon as have been paid on the Class A common stock since that date. On June 30, 2015, there were approximately 1,224 registered holders of Class A common stock and approximately 1,015 registered holders of Class B common stock.

<u>Quarter Ended</u>	<u>Dividends</u>	<u>High</u>	<u>Low</u>
September 2013	\$ 0.10	\$ 11.77	\$ 10.07
December 2013	0.10	14.57	10.99
March 2014	0.10	19.21	14.41
June 2014	0.10	17.01	13.73
September 2014	0.10	18.23	13.84
December 2014	0.10	19.99	13.15
March 2015	0.10	21.80	18.88
June 2015	0.10	20.30	14.75

The Company’s dividend policy is subject to periodic review by the Board of Directors. Based upon economic conditions, the Board of Directors decided to maintain the quarterly dividend at \$0.10 for all quarters of fiscal 2015.

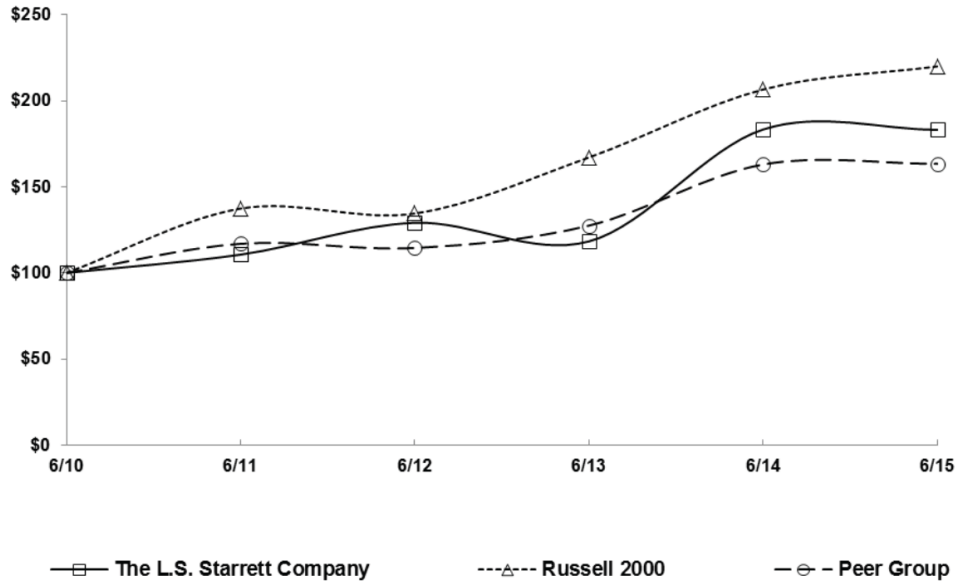

The Company repurchased 263 shares of class B stock in the fourth quarter of fiscal 2015.

PERFORMANCE GRAPH

The following graph sets forth information comparing the cumulative total return to holders of the Company’s Class A common stock based on the market price of the Company’s Class A common stock over the last five fiscal years with (1) the cumulative total return of the Russell 2000 Index (“Russell 2000”) and (2) a peer group index (the “Peer Group”) reflecting the cumulative total returns of certain small cap manufacturing companies as described below. The peer group is comprised of the following companies: Acme United, Q.E.P. Co. Inc., Badger Meter, Federal Screw Works, National Presto Industries, Regal-Beloit Corp., Tecumseh Products Co., Tennant Company, The Eastern Company and WD-40.

Items 7 and 7A- Management's Discussion and Analysis of Financial Condition and Results of Operations and Quantitative and Qualitative Disclosure about Market Risk

RESULTS OF OPERATIONS

Fiscal 2015 Compared to Fiscal 2014

Overview

L. S. Starrett is a global manufacturing company impacted by economic and geo-political conditions worldwide. North America was the strongest market for the Company in FY 2015. This was driven by a U.S economy that exhibited the most buoyance of any of the major global economies. This was driven by an improved labor market and a steady recovery in overall economic performance coupled with new product introductions and new and enhanced channel partner relationships. This resulted in increased demand for precision hand tools and continued growth in shipments for high-end capital equipment. Internationally, sales declined as result of the strong U.S. dollar. This negatively impacted most all international operating facilities. Other significant factors hurting international performance were accelerating inflation and a deepening recession in Brazil, a European market still suffering with Eurozone financial instability and a Chinese economy experiencing slower expansion. Net sales for fiscal 2015 declined \$5.6 million, or 2%, compared to fiscal 2014, as gains in North America were offset by lower International sales, principally caused by the strong U.S. dollar. Price increases, particularly in Brazil and new products, representing sales gains of \$6.5 million and \$2.7 million respectively, were offset by unfavorable exchange rates of \$14.1 million and volume declines of \$0.77 million. Gross margins declined \$4.4 million from \$81.1 million, or 32.8 % of sales, in fiscal 2014 to \$76.7 million or 31.8% of sales in fiscal 2015 as a \$3.7 million improvement in North America was offset by an \$8.1 million decline in International. Selling, general and administrative expenses decreased \$1.1 million or 2% from \$69.2 million in fiscal 2014 to \$68.1 million in fiscal 2015 principally due to reduced International expenses expressed in U.S. dollars. Operating income declined \$3.3 million, from \$11.9 million in fiscal 2014, to \$8.6 million in fiscal 2015.

Net Sales

Net sales in North America increased \$7.9 million, or 6%, from \$129.4 million in fiscal 2014 to \$137.3 million in fiscal 2015 with precision hand tools and capital equipment posting gains of 6% and 13%, respectively. International sales decreased \$13.4 million, or 11%, from \$117.8 million in fiscal 2014 to \$104.4 million in fiscal 2015 with the weak Brazilian Real translated to the strong U.S. dollar representing \$12.1 million, or 90%, of the decline.

Gross Margin

Gross margin in North America increased \$3.8 million, or 10%, from \$39.8 million in fiscal 2014 to \$43.6 million in fiscal 2015 and improved as a percentage of sales from 30.8% in fiscal 2014 to 31.8% in fiscal 2015. The improvement was due to a favorable product mix and increased sales volume. International gross margins decreased \$8.2 million, or 20%, from \$41.3 million in fiscal 2014 to \$33.1 million in fiscal 2015 with unfavorable exchange rates representing \$4.4 million and reduced sales volume \$3.7 million.

Selling, General and Administrative Expenses

North American selling, general and administrative expenses increased \$0.5 million, or 1%, as higher travel and entertainment, professional fees and commissions more than offset savings in salaries and employee benefits. International selling, general and administrative expenses decreased \$1.6 million, or 5%, with a \$4.0 million savings due to the stronger U. S. dollar. Higher spending in local currencies for salaries and benefits, commissions, professional fees and marketing expenses represented the major factors for a \$2.4 million cost increase as measured if currency exchange rate remained constant.

Operating Profit

The operating profit declined \$3.3 million from \$11.9 million in fiscal 2014 to \$8.6 million in fiscal 2015 as a \$3.2 million North American profit improvement was more than offset by \$6.5 million reduction in International.

Other Income, Net

Other income in fiscal 2015 increased \$1.2 million compared to fiscal 2014 principally due to a strong dollar in fiscal 2015 that increased the local currency value of dollar denominated assets, especially export receivables in Brazil, compared to fiscal 2014 when the Brazilian Real was consistent with fiscal 2013 and the strength of the Pound Sterling to the U. S. dollar resulted in foreign exchange losses in Scotland.

Income Taxes

The effective tax rate was 47.2% for fiscal 2015 and 44.3% for fiscal 2014. The rate reflects federal, state and foreign adjustments for permanent book to tax differences. The principal reason for the rate being significantly greater than the US normalized combined federal and state tax rate of approximately 38% was significant losses in foreign operations which could not reduce tax expense based upon the uncertainty of future profits in those entities.

The Company continues to recognize the benefit of most U.S. deferred tax assets as, after weighing the positive and negative evidence, it believes it is more likely than not that those benefits will be recognized. The valuation allowances relating to carryforwards of foreign net operating losses (NOLs) increased by \$0.7 million and to foreign tax credits increased by \$0.5 million. There was no change in the valuation allowance related to certain state NOLs.

Fiscal 2014 Compared to Fiscal 2013.

Overview

L. S. Starrett is a global manufacturing company impacted by economic conditions worldwide. In North America, an improved labor market and a steady recovery in overall economic performance resulted in increased demand for precision hand tools and a resurgence of shipments for high-end capital equipment. Internationally, sales declined as an economic recovery in Europe and strong gains in Asia was offset by a continued weakening of the Brazilian Real against the U. S. dollar.

Net sales for fiscal 2014 increased \$3.3 million, or 1.4%, compared to fiscal 2013, as gains in North America, Europe and Asia more than offset unfavorable foreign currency exchange rates in South America. Price increases, particularly in Brazil, and new products represented sales gains of \$9.6 and \$7.0 million respectively offsetting volume declines of \$6.0 million and unfavorable exchange rates of \$7.3 million. Gross margins increased \$9.3 million from \$71.8 million, or 29.5 %, of sales in fiscal 2013 to \$81.1 million, or 32.8%, of sales in fiscal 2014 as a favorable product mix of increased sales of higher margin products, a successful launch of new products and reduced manufacturing overhead costs all contributed to an improved performance. Selling, general and administrative expenses decreased \$3.9 million, or 5.3%, from \$73.1 million in fiscal 2013 to \$69.2 million in fiscal 2014 principally due to cost reductions implemented in the fourth quarter of fiscal 2013. Operating income improved \$13.2 million, from a loss of \$1.3 million in fiscal 2013, to a profit of \$11.9 million in fiscal 2014.

Net Sales

Net sales in North America increased \$5.9 million, or 4.8%, from \$123.5 million in fiscal 2013 to \$129.4 million in fiscal 2014 with an increase in capital equipment sales representing \$4.3 million, or 73%, of the growth. International sales decreased \$2.6 million, or 2.2%, from \$120.3 million in fiscal 2013 to \$117.7 million in fiscal 2014. Foreign currency exchange rate fluctuations represented an unfavorable impact of \$7.3 million, more than offsetting than revenue increases in Europe and Asia of \$2.1 and \$1.4 million, respectively.

Gross Margin

Gross margin in North America increased \$7.4 million, or 22%, from \$33.1 million in fiscal 2013 to \$40.5 million in fiscal 2014 and improved as a percentage of sales from 26.8% in fiscal 2013 to 31.3% in fiscal 2014. The improvement was due to a favorable product mix, reduced manufacturing overhead and lower LIFO reserves in North America. International gross margins increased \$1.8 million, or 4.7%, from \$38.8 million in fiscal 2013 to \$40.6 million in fiscal 2014 as improved margins in Europe and Asia, of \$0.9 million and \$2.5 million, respectively, more than offset a \$2.7 million negative impact due to foreign exchange rate changes.

Selling, General and Administrative Expenses

North American selling, general and administrative expenses decreased \$1.0 million, or 2.8%, due to lower salaries, travel and professional fees. International selling, general and administrative expenses decreased \$3.0 million, or 8.4%, with a \$1.9 million savings due to the stronger U. S. dollar. Lower salaries and employee benefits, commissions, Information Technology, professional fees and marketing expenses combined for a \$2.7 million savings expressed in U. S. dollars.

Operating Profit

Operating profit improved \$13.2 million from a loss of \$1.3 million in fiscal 2013 to a profit of \$11.9 million in fiscal 2014 as a result of improved gross margins and lower selling, general and administrative expenses.

Other Income, Net

Other income declined \$1.9 million due to \$0.8 million in foreign exchange losses in fiscal 2014 compared to \$1.1 in foreign exchange gains in fiscal 2013.

Income Taxes

The Company recorded \$5.3 million of tax expense (44.3%) on \$12.0 million of pretax income and \$1.0 million of tax expense (120.3%) on \$0.8 million of pretax income for the fiscal years ended June 30, 2014 and June 30, 2013, respectively. The significant items impacting tax expense in fiscal 2014 include the following:

The Company recorded \$0.3 million of deferred income tax expense to reflect a reduction of three percentage points in the tax rate applied to deferred tax assets in the U.K. In addition, as a result of a tax audit in China, the Company's tax loss carryforwards were reduced increasing tax expense by \$0.2 million. Tax benefits include a reduction of the valuation allowance in China as the subsidiary was profitable in fiscal 2014 and fully utilized its tax loss carryforward and the tax benefit of a revised calculation of the U.S. deduction for losses related to receivables and investments in foreign subsidiaries as a return to provision adjustment.

The Company continues to recognize the benefit of most U.S. deferred tax assets as, after weighing the positive and negative evidence, it believes it is more likely than not that those benefits will be recognized. In fiscal 2014, the valuation allowance decreased by \$1.2 million primarily related to profits in China (as noted above) and to the portion of foreign tax credits which expired in 2014 and which were also written off.

FINANCIAL INSTRUMENT MARKET RISK

Market risk is the potential change in a financial instrument's value caused by fluctuations in interest and currency exchange rates, and equity and commodity prices. The Company's operating activities expose it to risks that are continually monitored, evaluated and managed. Proper management of these risks helps reduce the likelihood of earnings volatility.

The Company does not engage in tracking, market-making or other speculative activities in derivatives markets. The Company does not enter into long-term supply contracts with either fixed prices or quantities. The Company engages in an immaterial amount of hedging activity to minimize the impact of foreign currency fluctuations and had \$1.3 million in forward currency contracts outstanding at June 30, 2015. Net foreign monetary assets are approximately \$25.7 million as of June 30, 2015.

A 10% change in interest rates would not have a significant impact on the aggregate net fair value of the Company's interest rate sensitive financial instruments or the cash flows or future earnings associated with those financial instruments. A 10% change in interest rates would not have a material impact on our borrowing costs. See Note 12 to the Consolidated Financial Statements for details concerning the Company's long-term debt outstanding of \$18.6 million.

LIQUIDITY AND CAPITAL RESOURCES

	Years ended June 30 (\$000)		
	2015	2014	2013
Cash provided by operating activities	\$ 6,800	\$ 11,175	\$ 20,716
Cash used in investing activities	(5,544)	(8,347)	(9,829)
Cash provided by (used in) financing activities	(3,547)	(6,669)	(7,590)

The Company has a working capital ratio of 5.7 as of June 30, 2015 as compared to 4.1 as of June 30, 2014. The working capital ratio improvement is principally due to the reclassification of our Line of Credit from short-term debt to long-term debt as the credit facility was renewed for three years in April of 2015. Cash, short-term investments, accounts receivable and inventories represent 92% of current assets in both fiscal 2015 and fiscal 2014. The Company had accounts receivable turnover of 5.8 in fiscal 2015 and 6.1 in fiscal 2014, and had an inventory turnover ratio of 2.6 in fiscal 2015 and 2.7 in fiscal 2014.

Net cash provided by operations of \$6.8 million in fiscal 2015 was the result of contributions on earning, depreciation and amortization and an increase in tax liabilities of \$16.4 million partially offset by increased working capital requirements of \$8.5 million. The negative impact of increased working capital on cash flows was primarily the result of a strong U. S. dollar reducing the value of foreign working capital when denominated in U. S. dollars

The Company incurred a \$5.1 million cash flow deficit in fiscal 2015, as the \$6.8 million provided by operations was offset by investments in plant and equipment of \$5.6 million, net debt repayments of \$1.2 million, dividends of \$2.8 million and \$2.8 million in currency changes.

Effects of translation rate changes on cash primarily result from the movement of the U.S. dollar against the British Pound, the Euro and the Brazilian Real. The Company uses a limited number of forward contracts to hedge some of this activity and a natural hedge strategy of paying for foreign purchases in local currency when economically advantageous.

Liquidity and Credit Arrangements

The Company believes it maintains sufficient liquidity and has the resources to fund its operations in the near term. In addition to its cash and short-term investments, the Company has maintained a \$23.0 million line of credit, of which, \$0.8 million is reserved for letters of credit and \$9.3 million was outstanding as of June 30, 2015.

On June 30, 2009, The L.S. Starrett Company (the “Company”) and certain subsidiaries of the Company (the “Subsidiaries”) entered into a Loan and Security Agreement (the “Credit Facility”) with TD Bank, N.A.. The amended Credit Facility is scheduled to mature on April 30, 2018 and bears interest at LIBOR plus 1.50%.

The obligations under the Credit Facility are unsecured. However, in the event of certain triggering events, the obligations under the Credit Facility will become secured by the assets of the Company and the subsidiaries party to the Credit Facility. Triggering events are two consecutive quarters of failure to achieve the financial covenants outlined in Note 12.

Availability under the Credit Facility is subject to a borrowing base comprised of accounts receivable and inventory. The Company believes that the borrowing base will consistently produce availability under the Credit Facility in excess of \$23.0 million. As of July 31, 2015, the Company had borrowings of \$9.3 million under the Credit Facility.

The Credit Facility contains financial covenants with respect to leverage, tangible net worth, and interest coverage, and also contains customary affirmative and negative covenants, including limitations on indebtedness, liens, acquisitions, asset dispositions, and fundamental corporate changes, and certain customary events of default. Upon the occurrence and continuation of an event of default, the lender may terminate the revolving credit commitment and require immediate payment of the entire unpaid principal amount of the Credit Facility, accrued interest and all other obligations. As of June 30, 2015, the Company was in compliance with the financial covenants under the Credit Facility.

OFF-BALANCE SHEET ARRANGEMENTS

The Company does not have any material off-balance sheet arrangements as defined under the Securities and Exchange Commission rules.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make judgments, assumptions and estimates that affect the amounts reported in the consolidated financial statements and accompanying notes. The second footnote to the Company’s Consolidated Financial Statements describes the significant accounting policies and methods used in the preparation of the consolidated financial statements.

Judgments, assumptions, and estimates are used for, but not limited to, the allowance for doubtful accounts receivable and returned goods; inventory allowances; income tax reserves; long lived assets; goodwill; and employee turnover, discount and return rates used to calculate pension obligations.

Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the Company’s Consolidated Financial Statements. The following sections describe the Company’s critical accounting policies.

Revenue Recognition and Accounts Receivable: Sales of merchandise and freight billed to customers are recognized when products are shipped, title and risk of loss has passed to the customer, no significant post-delivery obligations remain and collection of the resulting receivable is reasonably assured. Sales are net of provisions for cash discounts, returns, customer discounts (such as volume or trade discounts), and other sales related discounts. Cooperative advertising payments made to customers are included as advertising expense in selling, general and administrative in the Consolidated Statements of Operations. While the Company does allow its customers the right to return in certain circumstances, revenue is not deferred, but rather a reserve for sales returns is provided based on experience, which historically has not been significant.

The allowance for doubtful accounts of \$0.6 million and \$0.7 million at the end of fiscal 2015 and 2014 respectively, is based on our assessment of the collectability of specific customer accounts and the aging of our accounts receivable. While the Company

believes that the allowance for doubtful accounts is adequate, if there is a deterioration of a major customer's credit worthiness, actual write-offs are higher than our previous experience, or actual future returns do not reflect historical trends, the estimates of the recoverability of the amounts due the Company and net sales could be adversely affected.

Inventory Valuation: The Company values inventories at the lower of the cost of inventory or net realizable value, with cost determined by either the last-in, first-out ("LIFO") method for most U.S. inventories or the first-in, first-out ("FIFO") method for all other inventories. We establish reserves for excess, slow moving, and obsolete inventory based on inventory levels, expected product life, and forecasted sales demand. In assessing the ultimate realization of inventories, we are required to make judgments as to future demand requirements compared with inventory levels. Reserve requirements are developed according to our projected demand requirements based on historical demand, competitive factors, and technological and product life cycle changes. It is possible that an increase in our reserve may be required in the future if there is a significant decline in demand for our products and we do not adjust our production schedule accordingly.

Property Plant and Equipment: The Company accounts for property, plant and equipment (PP&E) at historical cost less accumulated depreciation. Impairment losses are recorded when indicators of impairment, such as plant closures, are present and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amount. The Company continually reviews for such impairment and believes that PP&E is being carried at its appropriate value.

The Company groups PP&E for impairment analysis by division and/or product line. PP&E are reviewed for impairment whenever events or changes in circumstances indicate the carrying amount of such an asset may not be recoverable. Such events or circumstances include, but are not limited to, a significant decrease in the fair value of the underlying business or change in utilization of property and equipment.

Recoverability of the net book value of property, plant and equipment is determined by comparison of the carrying amount to estimated future undiscounted net cash flows the assets are expected to generate. Those cash flows include an estimated terminal value based on a hypothetical sale at the end of the assets' depreciation period. Estimating these cash flows and terminal values requires management to make judgments about the growth in demand for our products, sustainability of gross margins, and our ability to achieve economies of scale. If assets are considered to be impaired, the impairment to be recognized is measured as the amount by which the carrying amount of the long-lived asset exceeds its fair value. No events or circumstances arose in fiscal 2015 which required management to perform an impairment analysis.

Depreciation is included in cost of goods sold or selling, general and administrative expenses in the Consolidated Statement of Operations based upon the function or use of the specific asset. Depreciation of equipment used in the manufacturing process is a component of inventory and included in costs of goods sold. Depreciation of equipment used for office and administrative functions is an expense in selling, general and administrative expenses.

Intangible Assets: Identifiable intangible assets are recorded at cost and are amortized on a straight-line basis over a 5-15 year period. The estimated useful lives of the intangible assets subject to amortization are: 15 years for patents, 14 years for trademarks and trade names, 10 years for completed technology, 8 years for non-compete agreements, 8 years for customer relationships and 5 years for software development.

Recoverability of the net book value of intangible assets is determined by comparison of the carrying amount to estimated future undiscounted net cash flows the assets are expected to generate. Estimating these cash flows requires management to make judgments about the growth in demand for our products, sustainability of gross margins, and our ability to achieve economies of scale. If assets are considered to be impaired, the impairment to be recognized is measured as the amount by which the carrying amount of the long-lived asset exceeds its fair value. No events or circumstances arose in fiscal 2015 which required management to perform an impairment analysis.

Goodwill: The Company assesses the fair value of its goodwill to determine if the carrying amount of the goodwill is greater than the fair value. An impairment charge would be recognized to the extent the recorded goodwill exceeds the implied fair value of goodwill.

The Company annually tests the goodwill associated with the November 2011 acquisition of Bytewise in October. As of October 1, 2014, the Company performed a two-step impairment assessment analysis. The first step requires a comparison of the implied fair value of the reporting unit to its carrying value. If the carrying value were higher than the fair value, there would have been an indication that impairment may have existed and a second step would have been performed to calculate the potential impairment. The first step of the 2015 goodwill assessment concluded that the fair value of goodwill exceeded the carrying amount by approximately 37.4%. Therefore no goodwill impairment was recorded and the second step was not required. If future results significantly vary from current estimates, related projections, or business assumptions in the future due to changes in industry or market conditions, the Company may be required to record impairment charges.

Income Taxes: Accounting for income taxes requires estimates of future benefits and tax liabilities. Due to temporary differences in the timing of recognition of items included in income for accounting and tax purposes, deferred tax assets or liabilities are recorded to reflect the impact arising from these differences on future tax payments. With respect to recorded tax assets, the Company assesses the likelihood that the asset will be realized by evaluating the positive and negative evidence to determine whether realization is more likely than not to occur. Realization of our deferred tax assets is primarily dependent on future taxable income, the timing and amount of which are uncertain, in part, due to the variable profitability of certain subsidiaries. A valuation allowance is recognized if it is “more likely than not” that some or all of a deferred tax asset will not be realized. In the event that we were to determine that we would not be able to realize our deferred tax assets in the future, an increase in the valuation allowance would be required. In the event we were to determine that we are able to use our deferred tax assets and a valuation allowance had been recorded against the deferred tax assets, a decrease in the valuation allowance would be required. Should any significant changes in the tax law or the estimate of the necessary valuation allowance occur, the Company would record the impact of the change, which could have a material effect on our financial position or results of operations. See also Income Taxes (Note 10 to the Consolidated Financial Statements.)

Defined Benefit Plans: The Company has two defined benefit pension plans, one for U.S. employees and another for U.K. employees. The Company also has a postretirement medical and life insurance benefit plan for U.S. employees.

Under our current accounting method, both plans use fair value as the market-related value of plan assets and continue to recognize actuarial gains or losses within the corridor in other comprehensive income but instead of amortizing net actuarial gains or losses in excess of the corridor in future periods, excess gains and losses are recognized in net periodic benefit cost as of the plan measurement date, which is the same as the fiscal year end of the Company (*MTM adjustment*). This accounting method is a permitted option which results in immediate recognition of excess net actuarial gains and losses in net periodic benefit cost instead of in other comprehensive income. Immediate recognition in net periodic benefit cost could potentially increase the volatility of net periodic benefit cost. The MTM adjustments to net periodic benefit cost for 2015, 2014 and 2013 were \$0.3, \$0.0, and \$0.0 million, respectively.

Calculation of pension and postretirement medical costs and obligations are dependent on actuarial assumptions. These assumptions include discount rates, healthcare cost trends, inflation, salary growth, long-term return on plan assets, employee turnover rates, retirement rates, mortality and other factors. These assumptions are made based on a combination of external market factors, actual historical experience, long-term trend analysis, and an analysis of the assumptions being used by other companies with similar plans. Significant differences in actual experience or significant changes in assumptions would affect pension and other postretirement benefit costs and obligations. Effective December 31, 2013, the Company terminated eligibility for employees 55-64 years old in the Postretirement Medical Plan. See also Employee Benefit Plans (Note 11 to the Consolidated Financial Statements).

Cost of Goods Sold: The Company includes costs of materials, direct and indirect labor and manufacturing overhead in cost of goods sold. Included in these costs are inbound freight, personnel (manufacturing plants only), receiving costs, internal transferring, employee benefits (including pension expense) and inspection costs.

Selling General and Administrative Expenses: The Company includes distribution expenses in selling, general and administrative expenses. Distribution expenses include shipping labor and warehousing costs associated with the storage of finished goods at each manufacturing facility. The Company also includes costs for our dedicated distribution centers as selling expenses. Employee benefits, including pension expense attributable to personnel not involved in the manufacturing process, are also included in selling, general and administrative expenses.

CONTRACTUAL OBLIGATIONS

The following table summarizes future estimated payment obligations by period.

	Total	Payments due by period (in millions)			
		<1yr.	1-3yrs.	3-5yrs.	>5yrs.
Debt obligations	\$ 20.1	\$ 1.5	\$ 12.5	\$ 3.5	\$ 2.6
Estimated interest on debt obligations	2.1	0.6	1.0	0.4	0.1
Capital lease obligations	0.1	0.1	-	-	-
Operating lease obligations	9.3	1.3	2.9	2.6	2.5
Purchase obligations	13.2	13.2	-	-	-
Total	\$ 44.8	\$ 16.7	\$ 16.4	\$ 6.5	\$ 5.2

Estimated interest on debt obligations are based on a standard 10 year loan amortization schedule for the \$15.5 million term loan, and the current outstanding balance of the Company's credit line at the current effective interest rate through April 2018 when the current credit line agreement ends. See Note 12 for additional details on these debt instruments.

While our purchase obligations are generally cancellable without penalty, certain vendors charge cancellation fees or minimum restocking charges based on the nature of the product or service.

ANNUAL NYSE CEO CERTIFICATION AND SARBANES-OXLEY SECTION 302 CERTIFICATIONS

In fiscal 2015, the Company submitted an unqualified “Annual CEO Certification” to the New York Stock Exchange as required by Section 303A.12(a) of the New York Stock Exchange Listed Company Manual. Further, the Company is filing with the Securities and Exchange Commission the certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 as exhibits to the Company’s Annual Report on Form 10-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
The L.S. Starrett Company

We have audited the accompanying consolidated balance sheets of The L.S. Starrett Company (a Massachusetts corporation) and subsidiaries (the “Company”) as of June 30, 2015 and 2014, and the related consolidated statements of operations, comprehensive income (loss), stockholders’ equity, and cash flows for each of the three years in the period ended June 30, 2015. Our audits of the basic consolidated financial statements included the financial statement schedule listed in the index appearing under Item 15 (2) of this Form 10-K. These financial statements and financial statement schedule are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of The L.S. Starrett Company and subsidiaries as of June 30, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended June 30, 2015 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company’s internal control over financial reporting as of June 30, 2015, based on criteria established in the 2013 *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated August 25, 2015 expressed an unqualified opinion.

THE L.S. STARRETT COMPANY
Notes to Consolidated Financial Statements
June 30, 2015 and 2015

1. DESCRIPTION OF BUSINESS

The L. S. Starrett Company (the “Company”) is incorporated in the Commonwealth of Massachusetts and is in the business of manufacturing industrial, professional and consumer measuring and cutting tools and related products. The Company’s manufacturing operations are primarily in North America, Brazil, China and the United Kingdom. The largest consumer of these products is the metalworking industry, but others include automotive, aviation, marine, farm, do-it-yourselfers and tradesmen such as builders, carpenters, plumbers and electricians.

2. SIGNIFICANT ACCOUNTING POLICIES

Principles of consolidation: The consolidated financial statements include the accounts of The L. S. Starrett Company and its subsidiaries, all of which are wholly-owned. All significant intercompany items have been eliminated in consolidation.

Financial instruments and derivatives: The Company’s financial instruments include cash, investments and debt and are valued using level 1 inputs. Investments are stated at cost which approximates fair market value. The carrying value of debt, which is at current market interest rates, also approximates its fair value. The Company’s U.K. subsidiary utilizes forward exchange contracts to reduce currency risk. The fair value of contracts outstanding as of June 30, 2015 and June 30, 2014 amounted to \$1.3 million and \$1.1 million, respectively.

Accounts receivable: Accounts receivable consist of trade receivables from customers. The expense for bad debts amounted to \$0.2, \$0.0, and \$0.1 million in fiscal 2015, 2014 and 2013, respectively. In establishing the allowance for doubtful accounts, management considers historical losses, the aging of receivables and existing economic conditions.

Inventories: Inventories are stated at the lower of cost or market. Substantially all United States inventories are valued using the last-in-first-out (“LIFO”) method. All non-U.S. subsidiaries use the first-in-first-out (“FIFO”) method or the average cost method. LIFO is not a permissible method of inventory costing for tax purposes outside the U.S.

Property Plant and Equipment: The cost of buildings and equipment is depreciated using straight-line and accelerated methods over their estimated useful lives as follows: buildings and building improvements 10 to 50 years, machinery and equipment 3 to 12 years. Leases are capitalized under the criteria set forth in Accounting Standards Codification (ASC) 840, “Leases” which establishes the four criteria of a capital lease. At least one of the four following criteria must be met for a lease to be considered a capital lease: a transfer of ownership of the property to the lessee by the end of the lease term; a bargain purchase option; a lease term that is greater than or equal to 75 percent of the economic life of the leased property; present value of the future minimum lease payments equals or exceeds 90 percent of the fair market value of the leased property. If none of the aforementioned criteria are met, the lease will be treated as an operating lease. Property plant and equipment to be disposed of are reported at the lower of carrying amount or fair value less cost to sell. A gain or loss is recorded on individual fixed assets when retired or disposed of. Included in buildings and building improvements and machinery and equipment at June 30, 2015 and June 30, 2014 were \$1.3 million and \$1.2 million, respectively, of construction in progress. Repairs and maintenance of equipment are expensed as incurred. No events or circumstances arose in fiscal 2015 which required management to perform an impairment analysis.

Intangible assets and goodwill: Identifiable intangibles are recorded at cost and are amortized on a straight-line basis over a 5-15 year period. The estimated useful lives of the intangible assets subject to amortization are: 15 years for patents, 14 years for trademarks and trade names, 10 years for completed technology, 8 years for non-compete agreements, 8 years for customer relationships and 5 years for software development. Goodwill represents costs in excess of fair values assigned to the underlying net assets of acquired businesses. Goodwill is not subject to amortization but is tested for impairment annually and at any time when events suggest impairment may have occurred. The Company annually tests the goodwill associated with the November 2011 acquisition of Bytewise in October. As of October 1, 2014, the Company performed a two-step impairment assessment analysis. The first step requires a comparison of the implied fair value of the reporting unit to its carrying value. If the carrying value were higher than the fair value, there would have been an indication that impairment may have existed and a second step would have been performed to calculate the potential impairment. The first step of the 2015 goodwill assessment concluded that the fair value of goodwill exceeded the carrying amount by approximately 37.4%. Therefore no goodwill impairment was recorded and the second step was not performed. If future results significantly vary from current estimates, related projections, or business assumptions in the future due to changes in industry or market conditions, the Company may be required to record impairment charges. The Company tests identifiable intangible assets for impairment whenever events or circumstances indicate they may be impaired. No such events or circumstances occurred during fiscal 2015.

Revenue recognition: Sales of merchandise and freight billed to customers are recognized when title and risk of loss has passed to the customer, no significant post-delivery obligations remain and collection of the resulting receivable is reasonably assured. Sales are presented net of provisions for cash discounts, returns, customer discounts (such as volume or trade discounts), and other sales related discounts. Cooperative advertising payments made to customers are included in selling, general and administrative expenses in the Consolidated Statements of Operations. While the Company does allow its customers the right to return in certain circumstances, revenue is not deferred, but rather a reserve for sales returns is provided based on experience, which historically has not been significant.

Advertising costs: The Company's policy is to generally expense advertising costs as incurred, except catalogs costs, which are deferred until mailed. Advertising costs were expensed as follows: \$5.7 million in fiscal 2015, \$5.5 million in fiscal 2014 and \$6.0 million in fiscal 2013 and are included in selling, general and administrative expenses.

Freight costs: The cost of outbound freight and the cost for inbound freight included in material purchase costs are both included in cost of sales.

Warranty expense: The Company's warranty obligation is generally one year from shipment to the end user and is affected by product failure rates, material usage, and service delivery costs incurred in correcting a product failure. Historically, the Company has not incurred significant warranty expense and consequently its warranty reserves are not material.

Pension and Other Postretirement Benefits: The Company has two defined benefit pension plans, one for U.S. employees and another for U.K. employees. The Company also has defined contribution plans. The Company amended its Postretirement Medical Plan effective December 31, 2013, whereby the Company terminated eligibility for employees ages 55-64.

The Company sponsors funded U.S. and non-U.S. defined benefit pension plans covering the majority of our U.S. and U.K. employees. The Company also sponsors an unfunded postretirement benefit plan that provides health care benefits and life insurance coverage to eligible U.S. retirees. Under the Company's current accounting method, both pension plans use fair value as the market-related value of plan assets and continue to recognize actuarial gains or losses within the corridor in other comprehensive income (loss) but instead of amortizing net actuarial gains or losses in excess of the corridor in future periods, such excess gains and losses, if any, are recognized in net periodic benefit cost as of the plan measurement date, which is the same as the fiscal year end of the Company (MTM adjustment). This method is a permitted option which results in immediate recognition of excess net actuarial gains and losses in net periodic benefit cost instead of in other comprehensive income (loss). Such immediate recognition in net periodic benefit cost increases the volatility of net periodic benefit cost. The MTM adjustments to net periodic benefit cost for 2015, 2014 and 2013 were \$0.3, \$0.0, and \$0.0 million, respectively.

Income taxes: Deferred tax expense results from differences in the timing of certain transactions for financial reporting and tax purposes. Deferred taxes have not been recorded on approximately \$70 million of undistributed earnings of foreign subsidiaries as of June 30, 2015 and the related unrealized translation adjustments because such amounts are considered permanently invested. In addition, it is possible that remittance taxes, if any, would be reduced by U.S. foreign tax credits to the extent available. Valuation allowances are recognized if, based on the available evidence, it is more likely than not that some portion of the deferred tax assets will not be realized.

Research and development: Research and development costs are expensed, primarily in selling, general and administrative expenses, and were as follows: \$1.7 million in fiscal 2015, \$1.4 million in fiscal 2014, and \$1.3 million in fiscal 2013 and are included in selling general and administrative expenses in the Consolidated Statements of Operations.

Earnings per share (EPS): Basic EPS is computed by dividing earnings (loss) available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution by securities that could share in the earnings. The Company had 40,214, 29,951, and 48,455, of potentially dilutive common shares in fiscal 2015, 2014 and 2013, respectively, resulting from shares issuable under its stock option plans. These shares had no impact on the calculated per share amounts. These additional shares are not used in the diluted EPS calculation in loss years.

Translation of foreign currencies: The financial statements of our foreign subsidiaries, where the local currency is the functional currency, are translated at exchange rates in effect on reporting dates, and income and expense items are translated at average rates or rates in effect on transaction dates as appropriate. The resulting foreign currency translation adjustments are charged or credited directly to the other comprehensive income (loss) as noted in the Consolidated Statements of Comprehensive Income (Loss). Net foreign currency gains (losses) are disclosed in Note 9.

Use of accounting estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net sales and expenses during the reporting period. Judgments, assumptions and estimates are used for, but not limited to: the allowances for doubtful accounts receivable and

returned goods; inventory allowances; income tax valuation allowances, uncertain tax positions and pension obligations. Amounts ultimately realized could differ from those estimates.

Recent Accounting Pronouncements:

In May 2014, the FASB issued a new standard related to the “Revenue from Contracts with Customers” which amends the existing accounting standards for revenue recognition. The standard requires entities to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration the entity expects to be entitled to in exchange for those goods or services. This standard is applicable for fiscal years beginning after December 15, 2017 and for interim periods within those years and early adoption is not permitted. The Company expects to adopt this standard on July 1, 2017. The Company is currently evaluating the impact of the adoption of this standard on its consolidated financial statements.

3. INVESTMENT

In fiscal 2010, the Company entered into an agreement with a private software development company to invest \$1.5 million in exchange for a 36% equity interest therein. The Company recorded other income of \$0.2 million in fiscal 2015, \$0.3 million in fiscal 2014 and \$0.5 million in fiscal 2013 based on the earnings of this entity as allocated under the equity method of accounting. The net carrying value of the investment included in other long-term assets in the Consolidated Balance Sheet as of June 30, 2015 and June 30, 2014 is \$2.1 million and \$1.9 million, respectively. In August 2011, the Company guaranteed a loan of \$0.5 million. The guarantee remains outstanding, between the private software development company and Starrett. There was no debt outstanding as of June 30, 2015.

4. STOCK-BASED COMPENSATION

Long-Term Incentive Plan

During the quarter ended December 31, 2012, the Company implemented The L.S. Starrett Company 2012 Long-Term Incentive Plan (the “2012 Stock Incentive Plan”), which was adopted by the Board of Directors September 5, 2012 and approved by shareholders October 17, 2012. The 2012 Stock Incentive Plan permits the granting of the following types of awards to officers, other employees and non-employee directors: stock options; restricted stock awards; unrestricted stock awards; stock appreciation rights; stock units including restricted stock units; performance awards; cash-based awards; and awards other than previously described that are convertible or otherwise based on stock. The 2012 Stock Incentive Plan provides for the issuance of up to 500,000 shares of common stock.

Options granted vest in periods ranging from one year to three years and expire ten years after the grant date. Restricted stock units (“RSU”) granted generally vest from one year to three years. Vested restricted stock units will be settled in shares of common stock. As of June 30, 2015, there were 20,000 stock options and 42,234 restricted stock units outstanding. In addition, there were 431,800 shares available for grant under the 2012 Stock Incentive Plan as of June 30, 2015.

For the stock option grant, the fair value of each grant was estimated at the date of grant using the Binomial Options pricing model. The Binomial Options pricing model utilizes assumptions related to stock volatility, the risk-free interest rate, the dividend yield and employee exercise behavior. Expected volatilities utilized in the model are based on the historic volatility of the Company’s stock price. The risk free interest rate is derived from the U.S. Treasury yield curve in effect at the time of the grant. The expected life is determined using the average of the vesting period and contractual term of the options (short-cut method).

There were no stock options granted during fiscal years 2015 or 2014. The fair value of stock options granted during fiscal year 2013 of \$3.82 was estimated using the following weighted-average assumptions:

Risk-free interest rate	1.0%
Expected life (years)	6.0
Expected stock volatility	52.3%
Expected dividend yield	4.0%

The weighted average contractual term for stock options outstanding as of June 30, 2015 was 7.5 years. The aggregate intrinsic value of stock options outstanding as of June 30, 2015 was \$0.1 million. There were 13,167 options exercisable as of June 30, 2015. In recognizing stock compensation expense for the 2012 Stock Incentive Plan management has estimated that there will be no forfeitures of options.

The Company accounts for RSU awards by recognizing the expense of the intrinsic value at award date ratably over vesting periods generally ranging from one year to three years. The related expense is included in selling, general and administrative expenses. During the year ended June 30, 2015, the Company granted 39,500 RSU awards with fair values of \$17.49 per RSU

award. There were no RSU awards during the year ended June 30, 2014. During the year ended June 30, 2013, the Company granted 8,200 RSU awards with fair values of \$10.08 per RSU award. There were no RSU awards prior to December 17, 2012.

There were 2,733 RSU awards settled in each of the fiscal years 2015 and 2014. The aggregate intrinsic value of RSU awards outstanding as of June 30, 2015 was \$0.8 million. As of June 30, 2015 all vested RSU awards had been issued and settled.

Compensation expense related to the 2012 Stock Incentive Plan was \$146,000, \$54,000 and \$31,000 for fiscal 2015, 2014 and 2013 respectively. As of June 30, 2015 there was \$0.6 million of total unrecognized compensation costs related to outstanding stock-based compensation arrangements.

Of this cost \$0.4 million relates to performance based RSU grants that are not expected to be awarded. The remaining \$0.2 million is expected to be recognized over a weighted average period of 2.1 years.

Employee Stock Purchase Plan

The Company's Employee Stock Purchase Plans (ESPP) give eligible employees an opportunity to participate in the success of the Company. The Board of Directors renews each Employee Stock Purchase Plan every five years. Under these plans the purchase price of the optioned stock is 85% of the lower of the market price on the date the option is granted or the date it is exercised. Options become exercisable exactly two years from the date of grant and expire if not exercised on such date. No options were exercisable at fiscal year ends. The Board of Directors last approved an ESPP renewal in 2012. No additional options will be granted under the previous 2007 plan. A summary of option activity is as follows:

	<u>Shares On Option</u>	<u>Weighted Average Exercise Price</u>	<u>Shares Available For Grant</u>
Balance, June 30, 2012	102,490		352,185
2007 Plan expired	-		(352,185)
2012 Plan authorized	-		500,000
Options granted	61,382	8.77	(61,382)
Options exercised	(34,128)	8.28	-
Options canceled	(41,016)		9,926
Balance, June 30, 2013	88,728		448,544
Options granted	43,643	10.91	(43,643)
Options exercised	(26,225)	9.83	-
Options canceled	(30,758)		19,711
Balance, June 30, 2014	75,388		424,612
Options granted	35,208	13.97	(35,208)
Options exercised	(30,718)	8.82	
Options canceled	(25,571)		25,571
Balance, June 30, 2015	54,307		414,975

The following information relates to outstanding options as of June 30, 2015:

Weighted average remaining life (years)	1.3
Weighted average fair value on grant date of options granted in:	
2013	\$ 2.73
2014	3.37
2015	4.68

The fair value of each option grant was estimated on the date of grant based on the Black-Scholes option pricing model with the following weighted average assumptions: expected volatility – 33.28% – 34.86%, interest – 0.54% – 0.58%, and expected lives - 2 years. Compensation expense of \$139,006, \$138,677 and \$166,368 has been recorded for fiscal 2015, 2014 and 2013, respectively.

Employee Stock Ownership Plan

On February 5, 2013, the Board of Directors adopted The L.S. Starrett Company 2013 Employee Stock Ownership Plan (the “2013 ESOP”). The purpose of the plan is to supplement existing Company programs through an employer funded individual account plan dedicated to investment in common stock of the Company, thereby encouraging increased ownership of the Company while providing an additional source of retirement income. The plan is intended as an employee stock ownership plan within the meaning of Section 4975 (e) (7) of the Internal Revenue Code of 1986, as amended. U.S. employees who have completed a year of service as of December 31, 2012 are eligible to participate.

On June 5, 2013 the Board of Directors approved a contribution to the 2013 ESOP for fiscal 2013 in the amount of two percent of each participant’s compensation (as defined in the Plan). The 2013 contribution was funded in July 2013 in the amount of \$0.8 million. There was no ESOP contribution in 2014 or 2015.

There was no compensation expense for the ESOP in 2014 or 2015. There was no ESOP Liability in 2014 or 2015. Shares of Class B common stock were contributed to the 2013 ESOP on July 30, 2013 in order to fund the 2013 liability.

5. CASH AND SHORT-TERM INVESTMENTS

Cash and investments held by foreign subsidiaries amounted to \$12.0 million and \$21.0 million at June 30, 2015 and June 30, 2014, respectively. Of the June 30, 2015 balance, \$9.8 million in U.S. dollar equivalents was held in British Pounds Sterling and \$0.8 million in U.S. dollar equivalents was held in Brazilian Reals.

The Company plans to permanently reinvest cash held in foreign subsidiaries. Cash held in foreign subsidiaries is not available for use in the U.S. without the likely incurrence of U.S. federal and state income tax consequences.

As of June 30, 2015 and June 30, 2014, the Company’s U.K. subsidiary held a \$7.9 million 12 month fixed term deposit and a \$8.7 million 95 day fixed rate deposit, respectively, with a financial institution.

6. INVENTORIES

Inventories consist of the following (in thousands):

	June 30, 2015	June 30, 2014
Raw materials and supplies	\$ 32,784	\$ 31,303
Goods in process and finished parts	18,569	19,148
Finished goods	39,689	42,459
	91,042	92,910
LIFO reserve	(28,039)	(27,328)
	<u>\$ 63,003</u>	<u>\$ 65,582</u>

LIFO inventories were \$14.6 million and \$14.1 million at June 30, 2015 and June 30, 2014, respectively, such amounts being approximately \$28.0 million and \$27.3 million, respectively, less than if determined on a FIFO basis. The use of LIFO compared to FIFO on an annual basis resulted in a \$0.7 million increase in cost of goods sold in fiscal 2015 compared to a decrease in cost of goods sold of \$3.5 million in fiscal 2014.

7. GOODWILL AND INTANGIBLES

The following tables present information about the Company's goodwill and identifiable intangible assets on the dates indicated (in thousands):

	June 30, 2015			June 30, 2014		
	Cost	Accumulated Amortization	Net	Cost	Accumulated Amortization	Net
Goodwill	\$ 3,034	\$ -	\$ 3,034	\$ 3,034	\$ -	\$ 3,034
Identifiable intangible assets	11,368	(4,243)	7,125	10,720	(2,960)	7,760

Identifiable intangible assets consist of the following (in thousands):

	June 30, 2015	June 30, 2014
Non-compete agreements	\$ 600	\$ 600
Trademarks and trade names	1,480	1,480
Completed technology	2,358	2,358
Customer relationships	4,950	4,950
Software development	1,655	1,007
Other intangible assets	325	325
Total	11,368	10,720
Accumulated amortization	(4,243)	(2,960)
Total net balance	\$ 7,125	\$ 7,760

Identifiable intangible assets are being amortized on a straight-line basis over the period of expected economic benefit.

The estimated aggregate amortization expense for each of the next five years, and thereafter, is as follows (in thousands):

Fiscal Year	
2016	\$ 1,434
2017	1,432
2018	1,364
2019	1,285
2020	761
Thereafter	849

Goodwill is measured as the excess of the cost of acquisition over the sum of the amounts assigned to identifiable tangible and intangible assets acquired less liabilities assumed. The Company's acquisition of Bytewise in 2011 gave rise to goodwill. The Company performs an impairment assessment on an annual basis as of the end of our October month end or more frequently if circumstances warrant. For fiscal year 2015, the impairment assessment was a two-step process. The first step requires a comparison of the implied fair value of the reporting unit to its carrying value. If the carrying value of the reporting unit is higher than its fair value, there is an indication that impairment may exist and the second step of the evaluation must be performed. In the second step, the potential impairment is calculated by comparing the implied fair value of the reporting unit's goodwill with the carrying value of the goodwill. If the carrying value of the reporting unit's goodwill is greater than the implied fair value of its goodwill, an impairment loss will be recognized for the excess.

Determining the fair value of a reporting unit is subjective and requires the use of significant estimates and assumptions. With the assistance of an independent third-party appraisal firm, the Company estimates the fair value using an income approach based on the present value of future cash flows. The Company believes this approach yields the most appropriate evidence of fair value. The Company also utilizes the comparable company multiples method and market transaction fair value method to validate the fair value amount it obtains using the income approach. The key assumptions utilized in the discounted cash flow model includes estimates of future cash flows from operating activities offset by estimated capital expenditures of the reporting unit, the estimated terminal value for the reporting unit, a discount rate based on a weighted average cost of capital, overall economic conditions, and an assessment of current market capitalization. Any unfavorable material changes to these key assumptions could potentially impact the Company's fair value determinations.

The fair value of the 2015 goodwill assessment exceeded the carrying amount by approximately 37.4%. Therefore no goodwill impairment was recorded. If future results significantly vary from current estimates, related projections, or business assumptions in the future due to changes in industry or market conditions, the Company may be required to record impairment charges.

8. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment consists of the following as of June 30, 2015 and 2014 (in thousands):

	<u>As of June 30, 2015</u>		
	<u>Cost</u>	<u>Accumulated Depreciation</u>	<u>Net</u>
Land	\$ 1,320	\$ -	\$ 1,320
Buildings and building improvements	45,434	(25,210)	20,224
Machinery and equipment	132,788	(109,919)	22,869
Total	<u>\$ 179,542</u>	<u>\$ (135,129)</u>	<u>\$ 44,413</u>

	<u>As of June 30, 2014</u>		
	<u>Cost</u>	<u>Accumulated Depreciation</u>	<u>Net</u>
Land	\$ 1,376	\$ -	\$ 1,376
Buildings and building improvements	47,793	(25,994)	21,799
Machinery and equipment	142,579	(114,217)	28,362
Total	<u>\$ 191,748</u>	<u>\$ (140,211)</u>	<u>\$ 51,537</u>

Included in machinery and equipment are assets under capital leases of \$0.7 million as of June 30, 2015 and June 30, 2014. The accumulated amortization relating to these leases was \$0.6 million and \$0.6 million as of June 30, 2015 and 2014, respectively.

Operating lease expense was \$2.2 million, \$1.9 million and \$1.9 million in fiscal 2015, 2014 and 2013, respectively. Future commitments under operating leases are as follows (in thousands):

<u>Fiscal Year</u>	
2016	\$ 1,305
2017	1,552
2018	1,330
2019	1,400
2020	1,204
Thereafter	<u>2,512</u>
	<u>9,303</u>

9. OTHER INCOME AND EXPENSE

Other income and expense consists of the following (in thousands):

	<u>2015</u>	<u>2014</u>	<u>2013</u>
Interest income	\$ 828	\$ 951	\$ 786
Interest expense	(713)	(800)	(968)
Foreign currency gain (loss), net	705	(840)	1,086
Gain from equity investment	203	257	470
Brazil recovery of export taxes	232	-	-
Sale of scrap material	93	126	167
Gain on resolution of contingency	-	89	501
Other income (expense), net	(9)	359	32
	<u>\$ 1,339</u>	<u>\$ 142</u>	<u>\$ 2,074</u>

The gain on resolution of contingency represents damages awarded in a Brazilian lawsuit which the Company had filed as plaintiff in 2003.

10. INCOME TAXES

Components of earnings (loss) before income taxes are as follows (in thousands):

	<u>2015</u>	<u>2014</u>	<u>2013</u>
Domestic operations	\$ 8,118	\$ 5,793	\$ (2,633)
Foreign operations	1,824	6,264	3,429
	<u>\$ 9,942</u>	<u>\$ 12,057</u>	<u>\$ 796</u>

The provision for income taxes consists of the following (in thousands):

	<u>2015</u>	<u>2014</u>	<u>2013</u>
Current:			
Federal	\$ 1,744	\$ 155	\$ 124
Foreign	1,855	3,284	1,243
State	114	86	(48)
Deferred:			
Federal	670	2,175	(1,472)
Foreign	(71)	(426)	503
State	386	71	608
	<u>\$ 4,698</u>	<u>\$ 5,345</u>	<u>\$ 958</u>

Reconciliations of expected tax expense at the U.S. statutory rate to actual tax expense (benefit) are as follows (in thousands):

	<u>2015</u>	<u>2014</u>	<u>2013</u>
Expected tax expense	\$ 3,380	\$ 4,099	\$ 271
State taxes, net of federal effect	378	269	26
Foreign taxes, net of federal credits	235	123	353
Change in valuation allowance	(51)	(428)	(127)
Tax reserve adjustments	361	465	141
Return to provision and other adjustments	(332)	(265)	(764)
Losses not benefited	701	350	370
Dividend from subsidiary (net of foreign tax credit)	1	-	201
Tax rate change applied to deferred tax balances	-	278	880
Other permanent items	25	454	(393)
Actual tax expense (benefit)	<u>\$ 4,698</u>	<u>\$ 5,345</u>	<u>\$ 958</u>

Significant changes in tax expense reconciliation in the year ended June 30, 2015 relate primarily to losses in foreign subsidiaries. In fiscal 2015, several of the subsidiaries in foreign countries reported financial losses. In most cases, no tax benefit from those losses was recognized since future income is not more likely than not to be recognized. Tax expense in fiscal 2015 was higher than previous years both because the losses that were not able to be benefited for tax purposes were significantly higher and because the Company received no benefit from the lower statutory tax rate in those countries. There was a dividend of \$2.3 million paid from the Company's subsidiary in Brazil to the U.S. parent company out of the subsidiary's fiscal 2015 earnings. While the dividend is fully taxable in the U.S., the impact to tax expense was negligible due to the use of foreign tax credits. Also, there were adjustments made to deferred tax assets due to provision to return adjustments and deferred tax balance adjustments of \$0.3 million.

In the year ended June 30, 2014, the changes in the tax provision related to the following items, including additional reserves related to the settlement of an audit in China; change in the valuation allowance related to operations in China; an additional tax rate change enacted in the U.K.; and return to provision adjustments.

In fiscal 2014, the tax authorities in China reviewed the intercompany transfer pricing of Chinese subsidiary and made adjustments to the prices for tax purposes to the calendar years 2010 through 2012. The net result was a substantial reduction in the Company's carryforward tax losses and a small payment of tax and penalties; the net effect was to increase tax expense by \$0.2 million which is included in the tax reserve adjustments. Since the Company had a history of tax losses, there was a full valuation allowance reflected against the tax impact of the loss carryforward at June 30, 2013. The entity also had substantial profits in fiscal 2014. As a result, the full amount of its carryforward tax losses, after audit adjustments, were utilized and the valuation allowance reducing the deferred tax assets for those losses and other temporary differences was released. The effect was a reduction in the valuation allowance of \$0.4 million.

The Company recorded a \$0.3 million deferred income tax expense in the year ended June 30, 2014 to reflect the impact of a corporate tax rate reduction in the United Kingdom. The tax rate reduction from 23 percent to 20 percent received royal assent during fiscal 2014 and the impact of that reduction on our deferred tax assets was recorded in the first quarter of that year.

A return to provision adjustment reducing tax expense by \$0.3 million was booked in fiscal 2014. The amount relates primarily to a revision of the estimated deduction on the U.S. tax return filed for fiscal 2013 for losses on the intercompany receivable from and investment in the Dominican Republic subsidiary which had ceased operations in a previous year.

No benefit is reflected for losses in subsidiaries outside the U.S. which do not have the ability to carry the losses back for a tax refund and which do not have sufficient positive evidence supporting that the losses will be more likely than not to be used to reduce future taxes.

Significant changes in the tax expense reconciliation in the year ended June 30, 2013 relate to the following items: For the year ended June 30, 2013 the Company reported an income tax benefit of \$0.8 million related to differences between the Company's tax returns filed in fiscal 2013 for earlier periods and the corresponding original estimates used for financial statement purposes. This benefit was primarily driven by the following four significant return to provision adjustments:

- a. \$0.3 million reduction to tax expense related to foreign tax returns primarily related to our estimates of required Brazilian statutory transfer pricing adjustments compared to actual amounts imposed by the Brazilian government.
- b. \$0.2 million reduction to U.S. tax expense primarily related to changes in U.S. state taxes from the 2012 estimate to the amounts reflected on the actual state tax returns filed.
- c. \$0.2 million reduction to tax expense related to Company's decision to claim foreign tax credits for foreign taxes deducted in the fiscal 2012 provision and on selected tax returns for earlier years. The reduction in tax expense is the net benefit after considering the Company's corresponding valuation allowance on portions of its foreign tax credit carryforward.
- d. \$0.1 million reduction to tax expense related to the Company's decision to elect to use the Simplified Alternative Method of calculating the federal tax credit for research expenses on its 2012 tax return.

The Company also recorded \$0.9 million of deferred income tax expense in the year ended June 30, 2013 to reflect the year over year change in the tax rates the Company applies to our deferred tax balances. Of this amount, \$0.8 million is attributable to a decrease in the Company's state effective tax rate due to changes in state tax rates and apportionment of profits in the jurisdictions the Company operates in. The remaining \$0.1 million of deferred tax expense relates to a corporate tax rate reduction in the United Kingdom, which received royal assent during fiscal 2013.

Total deferred tax assets net of deferred tax liabilities at June 30, 2015 are \$21.8 million. While these deferred tax assets reflect the tax effect of temporary differences between book and taxable income in all jurisdictions in which the Company has operations, the majority of the assets relate to operations in the U.S. where the Company had book losses in several recent years prior to fiscal 2014. The Company has considered the positive and negative evidence to determine the need for a valuation allowance offsetting the deferred tax assets in the U.S. and has concluded that it is more likely than not that the deferred tax assets net of the recorded valuation allowance will be realized.

Key positive evidence considered include: a) Significant domestic book profits in 2014 and 2015; b) losses in prior recent years are primarily due to the recession and one-time events including a \$16 million pension expense in fiscal 2012; c) cost saving plans have been implemented by the Company; d) earnings of a company acquired in fiscal 2012 have created additional domestic income; and e) the Company has had more domestic taxable income than losses in the last four years; The negative evidence considered include: a) before fiscal 2014, the 5 most recent years showed domestic book losses; and b) fiscal 2013 reflects both a book loss and a tax loss.

A valuation allowance has been provided on certain foreign NOLs due to the uncertainty of generating future taxable income in those jurisdictions. Similarly, a valuation allowance has been provided on certain state NOLs as a result of their much shorter carryforward periods and the uncertainty of generating adequate taxable income at the entity and state level. In addition, a valuation allowance has been provided for foreign tax credit carryforwards due to the uncertainty of generating sufficient foreign source income in the future. In fiscal 2015, the valuation allowance increased by \$1.2 million - \$0.7 million due to the increase in foreign carryforward losses and \$0.5 million due to the increase in foreign tax credits in excess of the foreign source income limitation in fiscal 2015. In fiscal 2014, the allowance decreased by \$1.2 million primarily related to operations in China where the Company had sufficient profit in fiscal 2014 to fully utilize its tax loss carryforward and to the portion of foreign tax credits which expired in 2014. The need for a valuation allowance is reevaluated as facts and assumptions change over time.

Accounting Standards Update 2013-11 was approved by the FASB in July 2013 and requires that companies report their tax reserves net of the impact of tax loss and credit carryforwards by its year beginning after December 15, 2013. The Company has implemented this pronouncement in Q1, fiscal 2015 with retrospective application as permitted by the standard; amounts presented for prior periods have been reclassified to conform. There is no effect to tax expense; on the balance sheet, there is a

reduction in Deferred Tax Assets of \$6.6 million and a reduction in Other Tax Obligations of \$6.6 million on the June 30, 2015 Consolidated Balance Sheet and \$7.8 million reduction in each of those accounts as of June 30, 2014.

Deferred income taxes at June 30, 2015 and 2014 are attributable to the following (in thousands):

	<u>2015</u>	<u>2014</u>
Deferred tax assets (current):		
Inventories	\$ 2,597	\$ 3,596
Employee benefits (other than pension)	1,016	1,331
Book reserves	818	1,244
Other	687	385
Total current deferred tax assets	<u>5,118</u>	<u>6,556</u>
Valuation allowance	(564)	(519)
Current deferred tax asset	<u>\$ 4,554</u>	<u>\$ 6,037</u>
Deferred tax assets (long-term):		
	\$	\$
State NOL, various carryforward periods	801	1,181
Foreign NOL, various carryforward periods	1,908	1,042
Foreign tax credit carryforward, expiring 2017 – 2025	2,405	2,480
Pension benefits	13,224	10,098
Retiree medical benefits	2,499	2,218
Intangibles	1,713	2,178
Other	190	155
Total long-term deferred tax assets	<u>22,740</u>	<u>19,352</u>
Valuation allowance	(3,937)	(2,815)
Long-term deferred tax asset	<u>\$ 18,803</u>	<u>\$ 16,537</u>
Deferred tax liabilities (long-term):		
Depreciation	<u>(1,548)</u>	<u>(2,037)</u>
Long-term deferred tax liabilities	<u>(1,548)</u>	<u>(2,037)</u>
Net deferred tax assets	<u>\$ 21,809</u>	<u>\$ 20,537</u>

As of June 30, 2015 and 2014, the net long-term deferred tax asset and deferred tax liabilities on the balance sheet are as follows (in thousands):

	<u>2015</u>	<u>2014</u>
Long-term assets	\$ 18,803	\$ 16,537
Long-term liabilities	<u>(1,548)</u>	<u>(2,037)</u>
	<u>\$ 17,255</u>	<u>\$ 14,500</u>

Foreign operations deferred assets relate primarily to inventory and book reserves (current) and pension benefits (long term). Amounts related to foreign operations included in the long-term portion of deferred liabilities relate to depreciation.

The Company is subject to U.S. federal income tax and various state, local and foreign income taxes in numerous jurisdictions. The Company's domestic and international tax liabilities are subject to the allocation of revenues and expenses in different jurisdictions and the timing of recognizing revenues and expenses. Additionally, the amount of income taxes paid is subject to the Company's interpretation of applicable tax laws in the jurisdictions in which it files.

Reconciliations of the beginning and ending amount of unrecognized tax benefits are as follows (in thousands):

Balance at June 30, 2012	\$ (10,590)
Increases for tax positions taken during a prior period	(212)
Increases for tax positions taken during the current period	(381)
Effect of exchange rate changes	140
Decrease relating to settlement	32
Balance at June 30, 2013	<u>(11,011)</u>
Increases for tax positions taken in prior years	(204)
Increases for tax positions taken during the current period	(268)
Effect of exchange rate changes	(9)
Decrease relating to settlement	241
Balance at June 30, 2014	<u>(11,251)</u>
Increases for tax positions taken during the current period	(423)
Effect of exchange rate changes	440
Decrease relating to lapse of applicable statute of limitations	42
Balance at June 30, 2015	<u>\$ (11,192)</u>

The long-term tax obligations on the balance sheet as of June 30, 2015 and 2014 relate primarily to transfer pricing adjustments. The Company has also recorded a non-current tax receivable for \$3.4 million and \$3.8 million at June 30, 2015 and 2014, respectively, representing the corollary effect of transfer pricing competent authority adjustments.

During the next 12 months, it is possible that the Company will recognize a reduction of \$0.4 million in its long term tax obligations due to the lapse of the applicable statute of limitations. The Company recognizes interest and penalties related to income tax matters in income tax expense.

The Company's U.S. federal tax returns for years prior to fiscal 2012 are no longer subject to U.S. federal examination by the Internal Revenue Service; however, tax losses carried forward from earlier years are still subject to review and adjustment. In fiscal 2014, the tax authorities in China audited the transfer pricing of Starrett's subsidiary in that country for calendar years 2010 through 2012. Adjustments reduced the tax loss carryforward and required a tax and penalty payment for calendar 2011. As of June 30, 2015, the Company has resolved all open income tax audits. In international jurisdictions: Australia, Brazil, Canada, China, Germany, Japan, Mexico, New Zealand, Singapore and the United Kingdom, the years that may be examined vary by country. The Company's most significant foreign subsidiary in Brazil is subject to audit for the calendar years 2010 through 2014.

The state tax loss carryforwards tax effected benefit of \$0.8 million expires at various times over the next 4 to 19 years. The foreign tax credit carryforward of \$2.4 million expires in the years 2017 through 2025.

At June 30, 2015, the estimated amount of total unremitted earnings of foreign subsidiaries is \$70 million. The Company received a cash dividend from a foreign subsidiary from current year earnings of \$2.3 million in fiscal 2015. The Company has no plans to repatriate additional prior year earnings of its foreign subsidiaries and, accordingly, no estimate of the unrecognized deferred taxes related to these earnings has been made. Cash held in foreign subsidiaries is not available for use in the U.S. without the likely incurrence of U.S. federal and state income tax consequences.

11. EMPLOYEE BENEFIT AND RETIREMENT PLANS

The Company has two defined benefit pension plans, one for U.S. employees and another for U.K. employees. The UK plan was closed to new entrants in fiscal 2009. The Company has a postretirement medical and life insurance benefit plan for U.S. employees. The Company also has defined contribution plans.

The Company amended its Postretirement Medical Plan effective December 31, 2013 whereby the Company terminated eligibility for employees ages 55-64. For retirees 65 and older, the Company's contribution is fixed at \$28.50 or \$23.00 per month depending upon the plan the retiree has chosen.

The total cost of all such plans for fiscal 2015, 2014 and 2013 \$4.6 million, \$5.0 million and \$4.4 million, respectively. Included in these amounts are the Company's contributions to the defined contribution plans amounting to \$0.8 million, \$1.2 million and \$1.0 million in fiscal 2015, 2014 and 2013, respectively.

Under both U.S. and U.K. defined benefit plans, benefits are based on years of service and final average earnings. Plan assets consist primarily of investment grade debt obligations, marketable equity securities and shares of the Company's common stock. The asset allocation of the Company's domestic pension plan is diversified, consisting primarily of investments in equity and debt securities. The Company seeks a long-term investment return that is reasonable given prevailing capital market expectations. Target allocations are 40% to 70% in equities (including 10% to 20% in Company stock), and 30% to 60% in cash and debt securities.

In fiscal 2016 the Company will use an expected long-term rate of return assumption of 5.5% for the U.S. domestic pension plan, and 4.8% for the U.K. plan. In determining these assumptions, the Company considers the historical returns and expectations for future returns for each asset class as well as the target asset allocation of the pension portfolio as a whole. In fiscal 2015 and 2014, the Company used a discount rate assumption of 4.49% and 4.29% for the U.S. plan and 3.90% and 4.30% for the U.K. plan, respectively. In determining these assumptions, the Company considers published third party data appropriate for the plans.

Other than the discount rate, pension valuation assumptions are generally long-term and not subject to short-term market fluctuations, although they may be adjusted as warranted by structural shifts in economic or demographic outlooks. Long-term assumptions are reviewed annually to ensure they do not produce results inconsistent with current market conditions. The discount rate is adjusted annually based on corporate investment grade (rated AA or better) bond yields, the maturities of which are correlated with the expected timing of future benefit payments, as of the measurement date.

Based upon the actuarial valuations performed on the Company's defined benefit plans as of June 30, 2015, the U.S. plan will require a \$3.3 million contribution in fiscal 2016 and the U.K. plan will require a \$1.1 million contribution in fiscal 2016.

The table below sets forth the actual asset allocation for the assets within the Company's plans.

	<u>2015</u>	<u>2014</u>
Asset category:		
Cash equivalents	1 %	1 %
Fixed income	17 %	14 %
Equities	25 %	24 %
Mutual and pooled funds	57 %	61 %
	<u>100 %</u>	<u>100 %</u>

The Company determines its investments strategies based upon the composition of the beneficiaries in its defined benefit plans and the relative time horizons that those beneficiaries are projected to receive payouts from the plans. The Company engages an independent investment firm to manage the U.S. pension assets.

Cash equivalents are held in money market funds.

The Company's fixed income portfolio includes mutual funds that hold a combination of short-term, investment-grade fixed income securities and a diversified selection of investment-grade, fixed income securities, including corporate securities and U.S. government securities.

The Company invests in equity securities, which are diversified across a spectrum of value and growth in large, medium and small capitalization as appropriate to achieve the objective of a balanced portfolio and optimize the expected returns and volatility in the various asset classes.

Other assets include pooled investment funds whose underlying assets consist primarily of property holdings as well as financial instruments designed to offset the long-term impact of inflation and interest rate fluctuations.

In accordance with “ASC 820 Fair Value Measurement”, the Company has categorized its financial assets (including its pension plan assets), based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy as set forth below. If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets are categorized based on the inputs to the valuation techniques as follows:

- o Level 1 – Financial assets whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market which the Company has the ability to access at the measurement date.
- o Level 2 – Financial assets whose value are based on quoted market prices in markets where trading occurs infrequently or whose values are based on quoted prices of instruments with similar attributes in active markets.
- o Level 3 – Financial assets whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management’s own view about the assumptions a market participant would use in pricing the asset.

The tables below show the portfolio by valuation category as of June 30, 2015 and June 30, 2014 (in thousands).

June 30, 2015

Asset Category	Level 1	Level 2	Level 3	Total	%
Cash Equivalent	\$ 1,064	\$	\$	\$ 1,064	1%
Fixed Income		21,058		21,058	17%
Equities	27,960	3,210		31,170	25%
Mutual & Pooled Funds	31,873	33,538	4,084	69,495	57%
Total	\$ 60,897	\$ 57,806	\$ 4,084	\$ 122,787	100%

June 30, 2014

Asset Category	Level 1	Level 2	Level 3	Total	%
Cash Equivalent	\$ 1,105	\$	\$	\$ 1,105	1%
Fixed Income		16,791		16,791	14%
Equities	26,210	3,428		29,638	24%
Mutual & Pooled Funds	37,563	33,932	3,895	75,390	61%
Total	\$ 64,878	\$ 54,151	\$ 3,895	\$ 122,924	100%

Included in equity securities at June 30, 2015 and 2014 are shares of the Company’s common stock having a fair value of \$12.5 million and \$13.2 million, respectively.

A reconciliation of the beginning and ending balances of Level 3 assets is as follows (in thousands):

	Fair Value Measurement Using Significant Unobservable Inputs (Level 3)	
	<u>2015</u>	<u>2014</u>
Beginning balance	\$ 3,895	\$ 3,008
Actual returns on assets	507	490
Translation gain (loss)	<u>(318)</u>	<u>397</u>
Ending balance	<u>\$ 4,084</u>	<u>\$ 3,895</u>

The Level 3 assets consist of units of a pooled investment fund which invests in a mix of properties selected from across retail, office, industrial and other sectors predominantly located in the U.K. In addition to direct investments, the fund may also invest indirectly in property through investment vehicles such as quoted and unquoted property companies or collective investment trusts. Redemptions from the fund are not readily available given the illiquid nature of its assets.

U.S. and U.K. Plans Combined:

Healthcare cost trend rate assumed for next year	8.50%	8.30%	7.80%
Rate to which the cost trend rate gradually declines	4.50%	4.50%	4.50%
Year that the rate reaches the rate at which it is assumed to remain	2026	2026	2026

Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plans. A one percentage point change in assumed health care cost trend rates would have the following effects (in thousands):

	1% Increase		
	2015	2014	2012
Effect on total of service and interest cost	\$ 0	\$ 35	\$ 91
Effect on postretirement benefit obligation	4	7	1,041

	1% Decrease		
	2015	2014	2013
Effect on total of service and interest cost	\$ 0)	\$ (30)	\$ (77)
Effect on postretirement benefit obligation	(4)	(7)	(881)

For fiscal 2016, the Company expects to make a \$3.3 million contribution to the qualified domestic pension plan, \$37,000 to the nonqualified domestic pension plan, \$1.1 million to the U.K. pension plan, and \$441,000 to the postretirement medical and life insurance plan.

Future pension and other benefit payments are as follows (in thousands):

Fiscal Year	Pension	Other Benefits
2016	\$ 6,647	\$ 441
2017	7,008	370
2018	7,328	340
2019	7,685	336
2020	8,033	340
2021-2025	45,429	1,786

12. DEBT

Debt, including capitalized lease obligations, is comprised of the following (in thousands):

	<u>June 30, 2015</u>	<u>June 30, 2014</u>
<u>Short-term and current maturities</u>		
Loan and Security Agreement	\$ 1,474	\$ 10,410
Capitalized leases	78	138
	<u>\$ 1,552</u>	<u>\$ 10,548</u>
<u>Long-term debt</u>		
Loan and Security Agreement, net of current portion	\$ 18,552	\$ 10,726
Capitalized leases	-	78
	<u>18,552</u>	<u>10,804</u>
Total debt	<u>\$ 20,104</u>	<u>\$ 21,352</u>

Future maturities of debt are as follows (in thousands):

Fiscal Year	
2016	\$ 1,552
2017	1,543
2018	10,914
2019	1,688
2020	1,765
Thereafter	2,642
Total	<u>\$ 20,104</u>

The Company completed the negotiations for an amended Loan and Security Agreement and executed the new agreement as of April 25, 2015. Borrowings under this agreement may not exceed \$23.0 million. The agreement expires on April 30, 2018 and has an interest rate of LIBOR plus 1.5%. The effective interest rate under the agreement for fiscal 2015 was 2.03%.

The material financial covenants of the amended Loan and Security Agreement are: 1) funded debt to EBITDA, excluding non-cash and retirement benefit expenses (“maximum leverage”), cannot exceed 2.25 to 1; 2) annual capital expenditures cannot exceed \$15.0 million; 3) maintain a Debt Service Coverage Rate of a minimum of 1.25 to 1 and 4) maintain consolidated cash plus liquid investments of not less than \$10.0 million at any time. As of June 30, 2015, the Company was in compliance with all the covenants. The Company expects to be able to meet the covenants in future periods.

On November 22, 2011, in conjunction with the Bytewise acquisition, the Company entered into a new \$15.5 million term loan (the “Term Loan”) under the then existing Loan and Security Agreement. The term loan is a ten year loan bearing a fixed interest rate of 4.5% and is payable in fixed monthly payments of principal and interest of \$160,640. The \$15.5 million term loan is subject to the same financial covenants as the Loan and Security Agreement. As of June 30, 2015, \$10.7 million of the term loan was outstanding.

Availability under the Line of Credit is subject to a borrowing base comprised of accounts receivable and inventory. The Company believes that the borrowing base will consistently produce availability under the Line of Credit in excess of \$23.0 million. As of June 30, 2015, the Company had borrowings of \$9.3 million under this facility. A 0.25% commitment fee is charged on the unused portion of the Line of Credit.

The Company has one standby letter of credit totaling \$0.8 million which reduce the \$23.0 million available Line of Credit to \$22.2 million. As of June 30, 2015, the Company has approximately \$12.9 million available in the Line of Credit.

The obligations under the Credit Facility are unsecured. In the event of certain triggering events, such obligations would become secured by the assets of the Company’s domestic subsidiaries. A triggering event occurs when the Company fails to achieve any of the financial covenants noted above in consecutive quarters.

13. COMMON STOCK

Class B common stock is identical to Class A except that it has 10 votes per share, is generally nontransferable except to lineal descendants of stockholders, cannot receive more dividends than Class A, and can be converted to Class A at any time. Class A common stock is entitled to elect 25% of the directors to be elected at each meeting with the remaining 75% being elected by Class A and Class B voting together.

14. CONTINGENCIES

The Company is involved in certain legal matters which arise in the normal course of business, which are not expected to have a material impact on the Company’s financial condition, results of operations and cash flows.

15. OPERATING DATA

The Company believes it has no significant concentration of credit risk as of June 30, 2015. Trade receivables are dispersed among a large number of retailers, distributors and industrial accounts in many countries, with none exceeding 10% of consolidated sales.

The Company is engaged in the single business segment of producing and marketing industrial, professional and consumer products. It manufactures over 5,000 tools, including precision measuring tools, tape measures, gages and saw blades. Operating segments are identified as components of an enterprise about which separate discrete financial information is used by the chief operating decision maker in determining how to allocate assets and assess performance of the Company.

The Company has (and is managed through) nine manufacturing plants, which are in Jedburgh, Scotland, Itu, Brazil, Athol, MA, Cleveland, OH, Mt. Airy, NC, Suzhou, China, Waite Park, MN, Laguna Hills, CA, and Columbus, GA. Internal operating statements used by the chief operating decision maker (the CEO) are prepared on the basis of the operating results of each of these units, and the Company believes these reporting units meet the aggregation criteria as stated in ASC 280 Segment Reporting.

The Company has concluded that its principal operations in North America, Scotland and Brazil have similar economic characteristics and therefore similar long-term financial prospects because they operate in worldwide markets, produce and market the same or similar finished products in the same way, generate comparable gross margins, have comparable return on equity, and sell primarily through distribution as opposed to directly to the end user of the product. Because the units operate in different countries, the economic climate in each country may affect the short-term results of each unit differently; however, over the long run, the units in general are expected to operate similarly and generate similar returns.

Other reporting unit similarities include:

- a. All the Company's units produce tools and related products used primarily by the metal-working and construction trades. These include rules and tape measures, levels, dial indicators, band saw and hole saw blades, gage blocks, ground flat stock, granite surface plates, micrometers and calipers, etc. All the Company's products are included in a single catalog regardless of where manufactured.
- b. The production processes for all products (regardless of where manufactured) are the same or similar in that they use metal or granite as a raw material.
- c. The Company's products are sold from its manufacturing units through a customer base of resellers, primarily industrial distributors.
- d. The Company and its individual units are not materially affected by the regulatory environment.

For these reasons, the Company believes it is appropriate to report on the basis of one reporting segment.

The Company's operations are primarily in North America, Brazil the United Kingdom and China. Geographic information about the Company's sales and long-lived assets are as follows (in thousands):

	<u>2015</u>	<u>2014</u>	<u>2013</u>
Net Sales			
United States	\$ 147,589	\$ 143,803	\$ 133,129

16. QUARTERLY FINANCIAL DATA (unaudited)

(in thousands except per share data)

Quarter Ended	Net Sales	Gross Margin	Earnings Before Income Taxes	Net Earnings / (Loss)	Basic and Diluted Earnings / (Loss) Per Share
September 2013	\$ 57,487	\$ 17,809	\$ 845	\$ 216	\$ 0.03
December 2013	61,841	20,345	2,941	1,782	0.26
March 2014	58,281	19,259	2,667	1,682	0.24
June 2014	69,525	23,683	5,604	3,032	0.44
	<u>\$ 247,134</u>	<u>\$ 81,096</u>	<u>\$ 12,057</u>	<u>\$ 6,712</u>	<u>\$ 0.97</u>
September 2014	\$ 60,172	\$ 19,143	\$ 1,741	\$ 923	\$ 0.13
December 2014	63,821	22,164	4,323	2,447	0.35
March 2015	56,116	18,694	3,508	2,437	0.35
June 2015	61,441	16,694	370	(563)	(0.08)
	<u>\$ 241,550</u>	<u>\$ 76,695</u>	<u>\$ 9,942</u>	<u>\$ 5,244</u>	<u>\$.75</u>

Fourth quarter sales in fiscal 2015 declined were \$8.1 million lower than in the fourth quarter of fiscal 2014. Unfavorable exchange rates represented \$7.8 million of the difference. The Brazilian real declined 28% against the U.S. dollar in the fourth quarter of fiscal 2015 compared to fiscal 2014. Gross margins declined \$7.0 million with North American declining \$2.4 million and international sliding \$4.6 million. Reduced sales and higher cost were the prime factors impacting North America. Foreign currency and pension represented \$2.5 million and \$1.0 million respectively of the international gross margin deficit.

Item 9 - Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A - Controls and Procedures

Pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934, we carried out an evaluation, with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined under Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this annual report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of such date in ensuring that information required to be filed in this annual report was recorded, processed, summarized and reported within the time period required by the rules and regulations of the Securities and Exchange Commission, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

During the fourth quarter of fiscal 2015, the Company effectively remediated the material weakness within its financial reporting process related to revenue transactions and the information technology system at its Bytewise subsidiary. The steps taken to achieve remediation included cooperation between Corporate management and Bytewise staff in the implementation of a Global Finance Policy defining control procedures relevant to the issues identified at Bytewise. There were no other changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) during the fourth quarter of fiscal 2015 identified in connection with our Chief Executive Officer's and Chief Financial Officer's evaluation that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. Internal control over financial reporting includes those written policies and procedures that:

- Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and acquisitions and dispositions of the assets of the Company;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America;
- Provide reasonable assurance that receipts and expenditures of the Company are being made only in accordance with authorization of management and directors of the Company; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting as of June 30, 2015. Management based this assessment on criteria established in the 2013 *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Management's assessment included an evaluation of the design of the Company's internal control over financial reporting and testing of the operational effectiveness of its internal control over financial reporting. Management reviewed the results of its assessment with the Audit Committee of the Board of Directors.

Based on our assessment, management concluded that as of June 30, 2015 our internal control over financial reporting was effective based on those criteria.

The Company's internal control over financial reporting as of June 30, 2015 has been audited by Grant Thornton LLP, an independent registered public accounting firm, as stated in their report included herein.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
The L.S. Starrett Company

We have audited the internal control over financial reporting of The L.S. Starrett Company (a Massachusetts corporation) and subsidiaries (the “Company”) as of June 30, 2015, based on criteria established in the 2013 *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying “Management’s Report on Internal Control Over Financial Reporting.” Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, The L.S. Starrett Company and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of June 30, 2015, based on criteria established in the 2013 *Internal Control—Integrated Framework* issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of the Company as of and for the year ended June 30, 2015 and our report dated August 25, 2015 expressed an unqualified opinion on those financial statements.

Item 9B - Other Information

None.

PART III

Item 10 – Directors, Executive Officers and Corporate Governance

The information concerning the Directors of the Registrant will be contained immediately under the heading “Election of Directors” and prior to Section A of Part I in the Company’s definitive Proxy Statement for the Annual Meeting of Stockholders to be held on October 15, 2015 (the “2015 Proxy Statement”), which will be mailed to stockholders on or about September 9, 2015. The information in that portion of the 2015 Proxy Statement is hereby incorporated by reference.

Executive Officers of the Registrant

<u>Name</u>	<u>Age</u>	<u>Held Present Office Since</u>	<u>Position</u>
Douglas A. Starrett	63	2001	President and CEO and Director
Francis J. O’Brien	68	2009	Chief Financial Officer and Treasurer
Anthony M. Aspin	62	2000	Vice President Sales
Stephen F. Walsh (1)	69	2001	Senior Vice President Operations and Director
James B. Taylor	49	2015	Vice President Operations

⁽¹⁾ Mr. Walsh retired effective June 30, 2015.

Douglas A. Starrett has been President of the Company since 1995 and became CEO in 2001.

Francis J. O’Brien was previously Chief Financial Officer at Delta Education, LLC, an elementary school education company, from 2005 to 2009. Prior to Delta Education, he was Chief Financial Officer at StockerYale Corporation, a publicly traded technology company, from 2001 to 2004 and Director of Finance and Business Development at Analogic Corporation, a publicly traded manufacturer of medical and security systems, from 1998 to 2000. Mr. O’Brien served as Corporate Vice President of Finance & Administration for Addison Wesley, a global education company, from 1982 to 1997 and as Senior Manager at Coopers & Lybrand, an international public accounting firm, from 1976 to 1982. Mr. O’Brien holds a BA from the University of Massachusetts and an MBA from Suffolk University and is a Certified Public Accountant.

Anthony M. Aspin was previously a divisional sales manager with the Company.

Stephen F. Walsh was previously President of the Silicon Carbide Division of Saint-Gobain Industrial Ceramics before joining the Company in 2001 as Vice President Operations.

Mr. Taylor, age 49, joined the Company on June 22, 2015. He was previously Division Vice President, Operations for Zygo Corporation, a unit of Ametek’s Ultra Precision Technologies Division, from 2014 to 2015, Director of Optical components Manufacturing of Zygo Corporation from 2010 to 2014, and Vice President of JML Optical Industries, Inc. from 2004 to 2010. Mr. Taylor holds a Bachelor’s degree, a Master’s degree, and a Doctorate in Industrial Engineering from Purdue University.

The positions listed above represent their principal occupations and employment during the last five years.

The President and Treasurer hold office until the first meeting of the directors following the next annual meeting of stockholders and until their respective successors are chosen and qualified, and each other officer holds office until the first meeting of directors following the next annual meeting of stockholders, unless a shorter period shall have been specified by the terms of his election or appointment or, in each case, until he sooner dies, resigns, is removed or becomes disqualified.

There have been no events under any bankruptcy act, no criminal proceedings and no judgments or injunctions material to the evaluation of the ability and integrity of any executive officer during the past ten years.

Code of Ethics

The Company has adopted a Policy on Business Conduct and Ethics (the “Ethics Policy”) applicable to all directors, officers and employees of the Company. The Code is intended to promote honest and ethical conduct, full and accurate reporting, and compliance with laws as well as other matters. The Ethics Policy is available on the Company’s website at www.starrett.com. Stockholders may also obtain free of charge a printed copy of the Ethics Policy by writing to the Clerk of the Company at The L.S. Starrett Company, 121 Crescent Street, Athol, MA 01331. We intend to disclose any future amendments to, or waivers from, the Ethics Policy within four business days of the waiver or amendment through a website posting or by filing a Current Report on Form 8-K with the Securities and Exchange Commission.

Item 11 - Executive Compensation

The information concerning management remuneration will be contained under the heading “General Information Relating to the Board of Directors and Its Committees,” and in Sections C-H of Part I of the Company’s 2015 Proxy Statement, and is hereby incorporated by reference.

On July 15, 2010, the Company entered into a Change of Control Agreement with Francis J. O’Brien. The terms of Mr. O’Brien’s Agreement are identical to those contained in the Change of Control Agreement between the Company and Stephen F. Walsh dated as of January 16, 2009, a form of which is incorporated by reference as Exhibit 10k to this Form 10-K. Such terms are described in the Company’s Form 10-Q filed for the quarter ended December 27, 2008 and are incorporated herein by reference.

Item 12 - Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

(a) The following table gives information about the Company’s common stock that may be issued upon the exercise of options, warrants and rights under the Company’s 2012 Employees’ Stock Purchase Plan (“2012 Plan”) as of June 30, 2015. The 2012 Plan was approved by stockholders at the Company’s 2012 annual meeting and shares of Class A or Class B common stock may be issued under the 2012 Plan. Options are not issued under the Company’s Employees’ Stock Purchase Plan that was adopted in 1952.

Plan Category	Number of Securities to be issued Upon Exercise of Outstanding Options, Warrants and Rights (a)	Weighted Average Exercise Price of Outstanding Options, Warrants and Rights (b)	Number of Securities Remaining Available For Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column (a)) (c)
Equity compensation plans approved by security holders	54,307	\$ 12.79	414,975
Equity compensation plans not approved by security holders	—	—	—
Total	54,307	\$ 12.79	414,975

(b) Security ownership of certain beneficial owners:

The information concerning a more than 5% holder of any class of the Company’s voting shares will be contained under the heading “Security Ownership of Certain Beneficial Owners” in Section I of Part I of the Company’s 2015 Proxy Statement, and is hereby incorporated by reference.

(c) Security ownership of management:

The information concerning the beneficial ownership of each class of equity securities by all directors, and all directors and officers of the Company as a group, will be contained under the heading “Security Ownership of Management” in Section I of Part I in the Company’s 2015 Proxy Statement. These portions of the 2015 Proxy Statement are hereby incorporated by reference.

(d) The Company knows of no arrangements that may, at a subsequent date, result in a change in control of the Company.

Item 13 - Certain Relationships and Related Transactions, and Director Independence

The information required by this Item 13 will be contained in the Company’s 2015 Proxy Statement, and is hereby incorporated by reference.

Item 14 - Principal Accountant Fees and Services

The information required by this Item 14 will be contained in the Audit Fee table in Section B of Part I in the Company's 2015 Proxy Statement. These portions of the Proxy Statement are hereby incorporated by reference.

PART IV

Item 15 – Exhibits, Financial Statement Schedules

(a) 1. Financial statements filed in Item 8 of this annual report:

Consolidated Balance Sheets at June 30, 2015 and June 30, 2014.

Consolidated Statements of Operations for each of the years in the three year period ended June 30, 2015.

Consolidated Statements of Comprehensive Income (Loss) for each of the years in the three year period ended June 30, 2015.

Consolidated Statements of Stockholders' Equity for each of the years in the three year period ended June 30, 2015.

Consolidated Statements of Cash Flows for each of the years in the three year period ended June 30, 2015.

Notes to Consolidated Financial Statements

2. The following consolidated financial statement schedule of the Company included in this annual report on Form 10-K is filed herewith pursuant to Item 15(c) and appears immediately before the Exhibit Index:

SCHEDULE II – VALUATION AND QUALIFYING ACCOUNTS

Schedule II

Valuation and Qualifying Accounts Allowance for Doubtful Accounts

<i>(in 000)</i>	<u>Balance at Beginning of Period</u>	<u>Provisions</u>	<u>Charges to Other Accounts</u>	<u>Write-offs</u>	<u>Balance at End of Period</u>
Allowance for Doubtful Accounts:					
Year Ended June 30, 2015	\$ 704	\$ 179	\$ (163)	\$ (108)	\$ 612
Year Ended June 30, 2014	697	27	27	(47)	704
Year Ended June 30, 2013	965	7	(42)	(233)	697

Valuation Allowance on Deferred Tax Asset

<i>(in 000)</i>	<u>Balance at Beginning of Period</u>	<u>Provisions</u>	<u>Charges to Other Accounts</u>	<u>Write-offs</u>	<u>Balance at End of Period</u>
Year Ended June 30, 2015	\$ 3,334	\$ 1,242	\$ (24)	\$ (51)	\$ 4,501
Year Ended June 30, 2014	4,539	302	(355)	(1,152)	3,334
Year Ended June 30, 2013	2,560	685	1,595	(301)	4,539

All other financial statement schedules are omitted because they are inapplicable, not required under the instructions, or the information is reflected in the financial statements or notes thereto.

3. See Exhibit Index below. Compensatory plans or arrangements are identified by an “*.”

(b) See Exhibit Index below.

(c) Not applicable.
