1. Business Results

(1) Consolidated Financial Results for FY2009

Financial Results

The disorder in the financial markets originating from the subprime mortgage crisis in the United States has become more serious during the second half of FY2009 and spread not only to Europe but also to resource-rich countries and emerging countries, causing a global financial crisis. As a result, the real economy weakened and the world economy fell into a severe recession.

The automotive industry is experiencing a rapid contraction of markets globally, particularly in Japan, the United States, and Europe where the market declined by 20% to more than 30% in the second half of FY2009. The automotive market in resource-rich countries and emerging countries, which were growing continuously, encountered a sudden slowdown and resulted in extremely severe condition.

Under these conditions, consolidated vehicle sales in Japan and overseas decreased by 1,346 thousand units, or 15.1%, to 7,567 thousand units in FY2009 compared with FY2008 (April 1, 2007 through March 31, 2008). Vehicle sales in Japan decreased by 243 thousand units, or 11.1%, to 1,945 thousand units in FY2009 compared with FY2008 under the declined market in Japan compared to FY2008. However, with the efforts of dealers nationwide, Toyota and Lexus brands' market share excluding mini-vehicles was 46.0%, and market share (including Daihatsu and Hino brands) including mini-vehicles was 42.4%, each representing a record high. Meanwhile, overseas vehicle sales decreased by 1,103 thousand units, or 16.4%, to 5,622 thousand units in FY2009 compared with FY2008, because of the sales decline, especially in North America and Europe.

As for the results of operations, net revenues decreased by 5,759.7 billion yen, or 21.9%, to 20,529.5 billion yen in FY2009 compared with FY2008, and operating income decreased by 2,731.3 billion yen to an operating loss of 461.0 billion yen in FY2009 compared with FY2008. Factors resulting in the decrease in operating income include the effects of marketing activities of 1,480.0 billion yen, the effects of changes in exchange rates of 760.0 billion yen, and an increase in expenses of 491.3 billion yen. Income before income taxes, minority interest and equity in earnings of affiliated companies decreased by 2,997.6 billion yen to a loss of 560.4 billion yen in FY2009 compared with FY2008. Net income decreased by 2,154.8 billion yen to a loss of 437.0 billion yen in FY2009 compared with FY2008.

(3) Basic Policy on the Distribution of Profits and the Distribution of Profits for FY2009

Toyota Motor Corporation ("TMC") deems the benefit of its shareholders as one of its priority management policies, and it is working to implement reforms to establish a corporate structure that can achieve continuous growth in order to enhance its corporate value.

TMC will strive to continue to pay dividends while giving due consideration to factors such as business results for each term, investment plans and its cash reserves.

With respect to the dividends for FY2009, TMC has determined that, since TMC is facing the most difficult business environment in its history, it is extremely difficult to maintain the level of dividends paid in FY2008. Therefore, TMC plans to propose a year-end dividend of 35 yen per share, a decrease of 40 yen compared with that in FY2008, and an annual dividend of 100 yen per share, combined with the interim dividend of 65 yen per share.

In order to flexibly respond to the changing economic conditions, TMC will utilize its internal funds (1) to secure a solid management foundation, (2) to improve product performance to respond to customer needs, (3) to make efforts to commercialize next-generation technologies such as environment, energy and safety technologies at an early stage, and (4) to establish a structure for development, production and sales in both the domestic and overseas markets.

TMC pays dividends twice a year – an interim dividend and a year-end dividend –, and in order to secure an opportunity to directly seek shareholders' opinions, TMC will treat payments of year-end dividends as a matter to be resolved at the 105th Ordinary General Shareholders' Meeting, even though TMC's articles of incorporation stipulate that retained earnings can be distributed as dividends pursuant to the resolution of the board of directors.

In FY2009, TMC repurchased approximately 14 million shares, an aggregate purchase price of approximately JPY 70.0 billion in August 2008, excluding shares constituting less than one unit that were purchased by TMC upon request. However, in response to the global financial crisis, which occurred after the above-mentioned repurchase, TMC decided to prioritize securing its cash reserves and refrained from further repurchasing its own shares. Going forward, TMC will not repurchase its own shares for the time being.

(4) Forecast of Consolidated Financial Results for FY2010

As for our future business environment, there is a rising concern of a further downside in the world economy caused by an even more vicious cycle of the financial crisis and the weakening of the real economy. Japanese economy also has risks that the recession deepens further and lasts longer, reflecting a decline in corporate profits due to drops in exports and industrial production, and lower consumer confidence. Although the automotive market is expected to expand over the medium- to long-term particularly in resource-rich countries and emerging countries, those markets are undergoing a rapid contraction because of the worldwide economic deceleration. In addition, the competition in the automotive market is more intense globally, as shown in the fierce competition with respect to compact cars and low-price cars, and the acceleration in development of technologies and introduction of new products while environmental awareness is growing throughout the world.

Under these unprecedented severe circumstances, the current forecast of consolidated financial results for the next fiscal year ending March 31, 2010 is set forth below. This forecast assumes average exchange rates through the fiscal year of 95 yen per US\$1 and 125 yen per 1 Euro.

Forecast of consolidated results for FY2010

(2) Medium- and Long-term Management Strategy

Toyota is working to create a structure that can respond flexibly to short-term changes in demand and eliminate waste, while implementing reforms to establish a strong yet flexible corporate structure to achieve steady growth in the medium- to long-term. To carry out these reforms, Toyota Group as a whole will make an even greater effort to address the following agenda.

First, we intend to reinforce our customer-oriented products by listening to the opinions and demands of customers in each country and region, based on Genchi Genbutsu (going to the source), to provide attractive high-quality products at a low price and to respond to changing customer needs. As we expect customer demand for fuel-efficient vehicles such as hybrid vehicles and compact vehicles to increase in the future, we will accelerate development to improve quality and performance of such vehicles while reducing cost. We will also work to improve our lineup of commercial vehicles and low-priced vehicles, which are expected to be in greater demand in resource-rich and emerging countries.

Second, we will promote to commercialize next-generation environmental, energy and safety technologies at an early stage. In the area of environmental responses, which is one of our priority management issues, we are focusing on the use of diverse energy sources that can replace oil through the practical use of plug-in hybrid vehicles that can be charged from household power supplies, mass production of electric vehicles, development of next-generation batteries, use of biofuel as an alternative fuel source, and development of fuel cell vehicles.

Third, we are creating a structure for efficient development, production and sales that can respond flexibly to changes in the external environment. Such measures include working with suppliers to dramatically increase the efficiency of development, creating a production structure that can withstand changes in demand and currency exchange rates, reducing lead times from development to sales, and strengthening sales capabilities in line with local conditions.

By addressing these agenda, Toyota is working to enhance its corporate value as a company that maintains growth in harmony with society by revisiting its fundamental principles of "Customer First," "Genchi Genbutsu," and "Continuous Improvement," which are the sources of its growth, and responding flexibly and promptly to the changes in the market environment. Toyota fulfills its social responsibilities by carrying out its Corporate Social Responsibility (CSR) through philanthropic activities undertaken through corporate ethics including full compliance with applicable laws and regulations.

(6) Summary of significant accounting policies

“Summary of significant accounting policies” has been omitted, as there were no significant changes from the most recent Securities Report (filed on June 25, 2008). Changes in accounting principles, procedures, and disclosures for consolidated financial statements by newly issued accounting pronouncements are set forth below.

In September 2006, the Financial Accounting Standards Board (“FASB”) issued FAS No. 157, Fair Value Measurements (“FAS 157”), which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Toyota and its consolidated subsidiaries (“Toyota”) adopted FAS 157 from the fiscal year begun after November 15, 2007. The adoption of FAS 157 did not have material impact on Toyota’s consolidated financial statements.

In September 2006, FASB issued FAS No. 158, Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans — an amendment of FASB Statements No. 87, 88, 106, and 132(R) (“FAS 158”). FAS 158 requires employers to measure the funded status of their defined benefit postretirement plans as of the date of their year-end statement of financial position. Toyota adopted this provision in FAS 158 regarding a measurement date from the fiscal year ended after December 15, 2008. The adoption of this provision in FAS 158 did not have material impact on Toyota’s consolidated financial statements.

In February 2007, FASB issued FAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities — Including an amendment of FASB Statement No. 115 (“FAS 159”). FAS 159 permits entities to measure many financial instruments and certain other assets and liabilities at fair value on an instrument-by-instrument basis and subsequent change in fair value must be recorded in earnings at each reporting date. Toyota adopted FAS 159 from the fiscal year begun after November 15, 2007. The adoption of FAS 159 did not have material impact on Toyota’s consolidated financial statements.

In March 2008, FASB issued FAS No. 161, Disclosures about Derivative Instruments and Hedging Activities — an amendment of FASB Statement No. 133 (“FAS 161”). FAS 161 changes and enhances the current disclosure requirements for derivative instruments and hedging activities under FAS 133. Toyota adopted FAS 161 from the fiscal year ended March 31, 2009. The adoption of FAS 161 did not have material impact on Toyota’s consolidated financial statements.
