Dear Stockholders,

In my statement in the Fund's Semi-Annual Report earlier this year, I made reference to macroeconomic factors that had influenced Taiwan's markets in the first half of our financial year. These included worries over the Chinese leadership transition and the US "fiscal cliff". More recently, investors have turned their attention to the likely duration of the Federal Reserve's asset-purchasing program and a credit squeeze in China, among other developments. Happily though, despite the resulting volatility, the Taiwan Stock Exchange Index ("TAIEX") has been able to add to its strong gains of the first half of the year. Over the full 12 months of the Fund's fiscal year, the TAIEX (Total Return) index rose by a healthy 11.7% in US dollar terms.

I am also pleased to report that the Fund performed well in both absolute terms and relative to its benchmark. The reasons for this are discussed later in this report, so I won't comment further other than to congratulate the Investment Manager on good performance in sometimes highly volatile conditions.

Aside from this, I have several items of news to share with you relating to the administration of the Fund. First, the Board of Directors voted in July to bring to an end the Fund's discount-management program and implement instead a managed distribution program, under which it is envisaged that quarterly distributions will be paid at a target annual rate of 5% of market price. To this end, the Fund stopped repurchasing its common shares on July 30, 2013. Adoption of the new program is subject to necessary regulatory approval. This may take six months or more to obtain, at which point the target distribution rate will be reassessed.

Secondly, Bill Kirby joined as a new independent director in April. As well as his role with the Fund, Mr. Kirby holds a number of prominent China-related roles at Harvard University and sits on the boards of The China Fund Inc. and the Cabot Corporation. The other important piece of news, which has emerged since the end of the year under review, is that APS Asset Management Pte Ltd. ("APS") has given notice that the company will resign from its role as Sub-Adviser to the Fund's

Investment Adviser, Martin Currie Inc. Although the terms of the Sub-Advisory agreement stipulate only a 90-day notice period, APS has indicated that it is willing to continue to act as Sub-Adviser until February 22, 2014. This should leave sufficient time to ensure that a suitably well-qualified replacement is installed ahead of that date. Please be assured that the Board is already working hard to make this happen, and I have every confidence that the transition will be seamless in terms of investment capability.

On behalf of the Board, I would like to thank you for your continuing support of the Fund.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe O. Rogers". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Joe O. Rogers

Chairman

### Review

Overall, it has been a strong, albeit volatile, period for Taiwan equities. For the 12 months ending August 2013, the TAIEX (Total Return) index rose by 11.7% in US dollar terms. The increase came against a background of significant global macroeconomic activity, including the implementation of further quantitative easing (and later, intense speculation as to its possible withdrawal), economic and political instability in the eurozone and concerns over a political transition, economic slow-down and a recent credit squeeze in China.

After the US Federal Reserve announced a third round of quantitative easing in September, global markets rallied in anticipation of a fresh wave of liquidity flooding into riskier assets. The Taiwan market was no exception, rising 6.6% for the month. In October though, all those gains were eroded. Anticipation of Taiwan's capital gains tax, which was slated for introduction at the beginning of 2013, and extra tax on stock transactions reduced the general appetite for stock trading. But things improved markedly in November; Taiwan equities staged a strong rebound thanks to market-supporting initiatives by the government, and went on to edge upwards in each of the next three months.

After a subdued March, the Taiwan market resumed its ascent, but stumbled slightly in June as concerns regarding a credit crunch in China and an end to quantitative easing in the US negatively affected market sentiment. However, as Taiwan is far more exposed to the broader global economy – including the strengthening US economy – than other markets, the TAIEX performed better than some of its regional counterparts; fears of the credit squeeze in China eased towards the end of the reporting period and Taiwan equities finished the 12 months on an upward trajectory.

The Fund outperformed the index over the period, rising 12.1%\* in US dollar terms against the 11.7% rise in the benchmark. Stock selection within the electronics sector made the biggest contribution to relative returns, although the substantial underweight to the sector also helped to a lesser degree. At the stock level, the top contributor was clothing manufacturer Makalot Industrial. Other notable outperformers included Advantech, which manufactures and sells a variety of automation and IT-related products worldwide, pharmaceutical group YungShin Global Holding, and Ruentex Development, the supermarket operator and property developer. Not holding the refiner Formosa Petrochemical was another key positive contribution to relative returns.

By contrast, our stock choices in the construction sector were the least successful over the year. In terms of individual stocks, shipping company and department-store chain First Steamship was the largest detractor from portfolio performance. Other holdings that were detrimental to returns included Mercuries & Associates, which operates retail stores as well as securities and insurance businesses, electronic component distributor WT Microelectronics, and wireless technology manufacturer Wistron NeWeb.

In terms of portfolio activity in the six months since our last report, we have bought Taiwan Semiconductor, having reassessed the stock following meetings with the company and attendance at the Computex IT exhibition in Taipei. Given its dominant position in foundry services, we expect TSMC to benefit from the proliferation of smartphones. Capacity should remain tight for the rest of 2013, and revenue growth is expected to continue into 2014 on the back of strong smartphone demand and new orders from US customers. With regard to sales, we decided to exit the Fund's entire position in Wistron NeWeb, where we saw limited potential for further growth in the satellite-TV market and margin-erosion from intensified competition.

## **Outlook**

A number of events that took place during the year under review bode well for strengthened cross-strait economic ties – and ultimately, we think, for Taiwan equities. As mentioned in our report earlier this year, financial regulators in the two countries have reached agreement on a series of measures to open China's mainland markets for investment, with China permitting investment quotas of 100 billion yuan. Brokers in Taiwan may own up to 51% of joint ventures under the new rules, while Taiwan raised the limit for Chinese investment in Taiwan to US\$1 billion. Subsequently, Taiwan's Financial Supervisory Commission and mainland's China Banking Regulatory Commission met in April to work out further cross-strait initiatives. Chinese investors will now be able to hold up to 10% of listed banks and financial holding companies (FHCs) in Taiwan, 15% of unlisted banks and FHCs, and 20% of an FHC's unlisted bank subsidiary.

One important development with a direct bearing on the outlook for the Taiwan stock market has been the amendment by legislators in June of the controversial capital gains tax. Small individual investors will now be exempt from the tax, with only transactions exceeding NT\$1 billion subject to the levy; the clause stating that individual domestic investors

would be taxed once the TAIEX crosses 8,500 was also removed. Our view is that the amendment is positive for Taiwan equities: trading volumes that have declined significantly in 2013 should gradually recover as investors both domestic and foreign are tempted back into the market.

As 'bottom-up' investors, we make our stock choices based on the fundamental outlook for individual companies rather than for sectors. That said, some areas are currently offering up a greater number of promising ideas than others. These include Taiwan companies that have been successful in their domestic businesses making inroads into China with competitive products and services. The rapid growth in lower-spec smartphones and tablets in China and other emerging markets provides another fertile source of stock ideas. Also, many Taiwan companies benefiting from further cross-strait liberalization, namely the Economic Cooperation Framework Agreement, US economic recovery and the pick up in China's growth are our potential investment ideas.

Over the long term, though, our broad investment philosophy remains unchanged: we are convinced that the best way to outperform a market that is easily swayed by sentiment and short-term macro factors is by constructing a diversified portfolio of fundamentally strong companies, with good growth prospects and attractive valuations. As the Chairman mentions in his statement on page 2, we at APS will have ceased managing the portfolio by the time the interim report is written at the end of February 2014. We will hand over the portfolio in as strong a shape as possible.

Sincerely,

Wong Kok Hoi  
Co-Portfolio Manager

James Liu  
Co-Portfolio Manager

---

\* Returns for the Fund are historical total returns that reflect changes in NAV per share during each period and assume that dividends and capital gains, if any, were reinvested. Returns for the TAIEX Index are not total returns and reflect only changes in share price but do not assume that cash dividends, if any, were reinvested, and thus are not strictly comparable to the Fund returns. Past performance is not indicative of future results of the Fund.

### **Wong Kok Hoi — Co-Portfolio Manager of the Fund**

Wong Kok Hoi, is the chairman and chief investment officer at APS. He has 30 years of investment experience in Asian Pacific equity markets. He co-manages the APS Greater China, Taiwan and Asian accounts and is based in Singapore. Prior to the setting up of APS, Kok Hoi worked as Senior Investment Officer, Asia Pacific Equities Department, of the Government of Singapore Investment Corporation (GIC) from 1981 to 1985. He then joined Citicorp Investment Management HK as Vice-President and was promoted to CIO of Cititrust, Japan. Kok Hoi, a Japan Mombusho scholar, obtained his B. Commerce (Honors) degree from Hitotsubashi University. He also attended the Harvard University's Investment Appraisal and Management Program and is a CFA Holder.

### **James Liu — Co-Portfolio Manager of the Fund**

APS's lead China portfolio manager, Deputy Chairman and Deputy Chief Investment Officer is James Liu. James is the portfolio manager of the China 'A' Share accounts and co-manager of Greater China and Taiwan accounts. Prior to joining APS in January 1996, he was senior manager at Shanghai International Securities, the then largest stock brokerage firm and investment bank in China. He has 20 years of investment experience in Greater China markets and has successfully managed money for the last 10 years. James is based in Shanghai and Singapore.

### **APS Taiwan Team**

In total, APS has eight investment professionals involved in investing in Taiwan. As well as the experience of the co-managers, APS has one dedicated Taiwan analyst who has been covering the region for seven years and one specialist tech analyst who covers both Taiwan and Korea.

The APS macro-economist Dr. Tan Kong Yam is also part of the team. Dr. Tan has 29 years investment experience including roles with the Monetary Authority of Singapore, Ministry of Trade and Industry, The National University of Singapore and the World Bank Office in Beijing. Dr. Tan identifies and verifies mid-to-long-term structural and business trends across the region for the investment team to take into their investigative company specific research.

<b>Ratio and Supplemental Data:</b>					
Net assets, end of year (000s)	\$158,690	\$154,594	\$375,172	\$303,412	\$257,062
Ratio of expenses before fee waiver(c)	1.96%	1.65%	1.43%	1.49%	1.79%
Ratio of expenses after fee waiver	1.96%	1.61%	1.43%	1.49%	1.63%
Ratio of net investment income	0.72%	0.12%	0.71%	1.03%	1.61%
Portfolio turnover rate	14%	75%	54%	101%	109%

(a) Based on average shares outstanding during the period.

(b) Total investment return at net asset value ("NAV") is based on changes in the NAV of Fund shares and assumes reinvestment of dividends and distributions, if any. Total investment return at market value is based on changes in the market price at which the Fund's shares traded on the stock exchange during the period and assumes reinvestment of dividends and distributions, if any, at actual prices pursuant to the Fund's dividend reinvestment program. Because the Fund's shares trade in the stock market based on investor demand, the Fund may trade at a price higher or lower than its NAV. Therefore, returns are calculated based on share price and NAV. During the years ended August 31, 2012 and 2009, the adviser reimbursed certain fund expenses. If the adviser had not reimbursed the Fund, the return would have been lower.

(c) Expense ratio includes 20% tax paid on stock dividends received by the Fund. For the years ended August 31, 2013, 2012, 2011, 2010 and 2009, the Fund's ratio of expenses before fee waiver and excluding taxes paid on stock dividends was 1.80%, 1.58%, 1.28%, 1.40%, and 1.66%, respectively.

<sup>^</sup> As of May 8, 2010, Martin Currie Inc. succeeded HSBC Global Asset Management (Taiwan) Limited ("HSBC") as the Fund's investment adviser.

# NOTES TO FINANCIAL STATEMENTS

## AUGUST 31, 2013

### 1. Organization

The Taiwan Fund, Inc. (the “Fund”), a Delaware corporation, is registered under the Investment Company Act of 1940, as amended (the “Act”), as a diversified closed-end management investment fund.

The Fund concentrates its investments in the securities listed on the Taiwan Stock Exchange. Because of this concentration, the Fund may be subject to additional certain risks not typically associated with investing in securities of U.S. companies or the U.S. government, including (1) volatility of the Taiwan securities market, (2) restrictions on repatriation of capital invested in Taiwan, (3) fluctuations in the rate of exchange between the NT dollar and the U.S. dollar, and (4) political and economic risks. In addition, ROC accounting, auditing, financial and other reporting standards are not equivalent to U.S. standards and, therefore, certain material disclosures may not be made, and less information may be available to investors investing in Taiwan than in the United States. There is also generally less regulation by governmental agencies and self-regulatory organizations with respect to the securities industry in Taiwan than there is in the United States.

### 2. Significant Accounting Policies

The financial statements are prepared in accordance with U.S. generally accepted accounting principles (“GAAP”), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities. Actual results could differ from those estimates. Management has evaluated the impact of all events or transactions occurring after year end through the date these financial statements were issued, and has determined that there were no subsequent events requiring recognition or disclosure. The following summarizes the significant accounting policies of the Fund:

**Security Valuation.** All securities, including those traded over-the-counter, for which market quotations are readily

available are valued at the last sales price prior to the time of determination of the Fund’s net asset value per share or, if there were no sales on such date, at the closing price quoted for such securities (but if bid and asked quotations are available, at the mean between the last current bid and asked prices, rather than such quoted closing price). These securities are generally categorized as Level 1 securities in the fair value hierarchy. In certain instances where the price determined above may not represent fair market value, the value is determined in such manner as the Board of Directors (the “Board”) may prescribe. Foreign securities may be valued at fair value according to procedures approved by the Board if the closing price is not reflective of current market values due to trading or events occurring in the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. These securities may be categorized as Level 2 or Level 3 securities in the fair value hierarchy, depending on the valuation inputs. Short-term investments, having a maturity of 60 days or less are valued at amortized cost, which approximates market value, with accrued interest or discount earned included in interest receivable.

The Fund has adopted fair valuation accounting standards which establish a definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

- Level 1 – quoted unadjusted prices for identical instruments in active markets to which the Fund has access at the date of measurement.
- Level 2 – quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model

**2. Significant Accounting Policies – continued**

derived valuations in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers.

- Level 3 – model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund’s own assumptions that market participants would use to price the asset or liability based on the best available information.

Investments in Securities	Level 1	Level 2	Level 3	Total
Common Stocks <sup>^</sup> . . .	\$149,607,305	\$—	\$—	\$149,607,305
<b>Total</b> . . . . .	<u>\$149,607,305</u>	<u>\$—</u>	<u>\$—</u>	<u>\$149,607,305</u>

<sup>^</sup> See schedule of investments for industry breakout.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Fund’s policy is to disclose transfers between Levels based on valuations at the end of the reporting period. As of August 31, 2013, there were no transfers between Levels 1, 2, or 3 based on the valuation input levels.

**Repurchase Agreements.** In connection with transactions in repurchase agreements, it is the Fund’s policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

**Foreign Currency Translation.** The financial accounting records of the Fund are maintained in U.S. dollars.

Investment securities, other assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the current exchange rate. Purchases and sales of securities, income receipts and expense payments are translated into U.S. dollars at the exchange rate on the dates of the transactions.

Reported net realized gains and losses on foreign currency transactions represent net gains and losses from disposition of foreign currencies, currency gains and losses realized between the trade dates and settlement dates of security transactions, and the difference between the amount of net investment income accrued and the U.S. dollar amount actually received. The effects of changes in foreign currency exchange rates on investments in securities are not segregated in the Statement of Operations from the effects of changes in market prices of those securities, but are included in realized and unrealized gain or loss on investments.

**Forward Foreign Currency Transactions.** A forward foreign currency contract (“Forward”) is an agreement between two parties to buy or sell currency at a set price on a future date. The Fund may enter into Forwards in order to hedge foreign currency risk or for other risk management purposes. Realized gains or losses on Forwards include net gains or losses on contracts that have matured or which the Fund has terminated by entering into an offsetting closing transaction. Unrealized appreciation or depreciation on Forwards is included in the Statement of Assets and Liabilities and is carried on a net basis. The portfolio could be exposed to risk of loss if the counterparty is unable to meet the terms of the contract or if the value of the currency changes unfavorably. As of August 31, 2013 the Fund had no open Forwards.

**Indemnification Obligations.** Under the Fund’s organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business the Fund enters into contracts

## 2. Significant Accounting Policies – *continued*

that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

**Taxes.** As a qualified Regulated Investment Company ("RIC") under Subchapter M of the Internal Revenue Code, the Fund is not subject to income taxes to the extent that it distributes all of its taxable income and net realized capital gains for its fiscal year. In addition to federal income tax for which the Fund is liable on undistributed amounts, the Fund is subject to federal excise tax on undistributed taxable income and net realized capital gains. The Fund is organized in Delaware and as such is required to pay Delaware an annual franchise tax. Also, the Fund is currently subject to a Taiwan security transaction tax of 0.3% on sales of equities and 0.1% on sales of mutual fund shares based on the transaction amount.

The Fund's functional currency for tax reporting purposes is the New Taiwan dollar.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for prior three fiscal years. The Fund identifies its major tax jurisdictions as U.S. Federal, Delaware and Taiwan where the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

**Investment Income.** Dividend income is recorded on the ex-dividend date; except, where the ex-dividend date may have passed, certain dividends from foreign securities are recorded as soon as the Fund is informed of the ex-dividend date.

Taiwanese companies typically declare dividends in the Fund's third fiscal quarter of each year. As a result, the Fund receives substantially less dividend income in the first half of its year. Interest income, which includes accretion of original discount, is accrued as earned.

Dividend and interest income generated in Taiwan is subject to a 20% withholding tax. Stock dividends received (except those which have resulted from capitalization of capital surplus) are taxable at 20% of the par value of the stock dividends received.

**Distributions to Shareholders.** The Fund distributes to shareholders at least annually, substantially all of its taxable ordinary income and expects to distribute its taxable net realized gains. Certain foreign currency gains (losses) are taxable as ordinary income and, therefore, increase (decrease) taxable ordinary income available for distribution. Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the "Plan"), stockholders may elect to have all cash distributions automatically reinvested in Fund shares. (See the summary of the Plan described later.) Unless the Board elects to make a distribution in shares of the Fund's common stock, stockholders who do not participate in the Plan will receive all distributions in cash paid by check in U.S. dollars. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. GAAP. No capital gain distributions shall be made until any capital loss carryforwards have been fully utilized or expired.

Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from the composition of net assets reported under GAAP. Accordingly, for the year ended August 31, 2013, the effects of certain differences were reclassified. The Fund increased undistributed net investment income by \$16,227,142, decreased accumulated net realized gain by \$860,649, and decreased paid in capital by \$15,366,493.

These differences are primarily due to differing treatments for foreign currency transactions, net operating loss and

**2. Significant Accounting Policies – *continued***

post October capital and late-year ordinary loss deferrals. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to paid in capital.

**Security Transactions.** Security transactions are accounted as of the trade date. Gains and losses on securities sold are determined on the basis of identified cost.

**3. Purchases and Sales of Securities**

For the year ended August 31, 2013, purchases and sales of securities, other than short-term securities, aggregated \$20,962,611 and \$35,437,536, respectively.

**4. Management Fees and Other Service Providers**

**Management Fee.** As the Fund's investment adviser, Martin Currie, Inc., ("Martin Currie" or "Investment Adviser") receives a fee for its services, computed daily and payable monthly in U.S. dollars, at the annual rate of 0.90% on the first \$150 million in total net assets under management, 0.80% on the next \$150 million in total net assets under management and 0.70% on total net assets under management over \$300 million.

For the year ended August 31, 2013 the management fee was equivalent to an annual rate of 0.90% of average net assets.

Martin Currie has entered into a sub-advisory agreement with APS Asset Management Pte Ltd. ("APS"), subject to supervision by Martin Currie and the Board. APS receives compensation for its services from Martin Currie, not from the Fund.

**Administration Fees.** State Street Bank and Trust Company ("State Street") provides, or arranges for the provision of certain administrative and accounting services for the Fund, including maintaining the books and records of the Fund,

and preparing certain reports and other documents required by federal and/or state laws and regulations. The Fund pays State Street a fee at the annual rate of 0.11% of the Fund's average daily net assets up to \$150 million, 0.08% of the next \$150 million, and 0.05% of those assets in excess of \$300 million, subject to certain minimum requirements. The Fund also pays State Street \$130,000 per year for certain legal administrative services, including corporate secretarial services and preparing regulatory filings. State Street also serves as custodian (the "Custodian") to the Fund. For this service, the Fund pays State Street asset-based fees that vary according to the number of positions and transactions plus out of pocket fees.

**Director's and Officer's Fees and Expenses.** The Fund pays each of its directors who is not a director, officer or employee of the investment adviser an annual fee of \$20,000 plus \$2,500 for each Board meeting or Committee meeting attended, and \$2,500 for each meeting attended by telephone. In addition, the Fund will reimburse each of the directors for travel and out-of-pocket expenses incurred in connection with Board meetings.

**Other Service Providers.** Pursuant to a Compliance Services Agreement, Foreside Compliance Services, LLC ("FCS") provides the Fund with a Chief Compliance Officer. FCS is paid customary fees for its services. Foreside Management Services, LLC ("FMS") provides the Fund with a Treasurer. Martin Currie pays FMS customary fees for its services pursuant to the Treasury Services Agreement between the Fund and FMS. Neither FCS, FMS, nor their employees that serve as officers of the Fund, have a role in determining the investment policies or which securities are purchased or sold by the Fund.

**General.** Certain directors and officers of the Fund may also be directors or employees of the aforementioned companies that provide services to the Fund, and during their terms of office, receive no compensation from the Fund.

## NOTES TO FINANCIAL STATEMENTS *(continued)*

AUGUST 31, 2013

### 5. Fund Shares

At August 31, 2013, there were 100,000,000 shares of \$0.01 par value capital stock authorized, of which 8,221,259 were issued and outstanding.

For the year ended August 31, 2013, the Fund repurchased 761,127 shares of its common stock, valued at \$12,357,169 from shareholders under the Fund's Discount Management Program.

	For the Year Ended August 31, 2013	For the Year Ended August 31, 2012
Shares outstanding at beginning of year . . . .	8,982,386	18,575,214
Shares issued from reinvestment of distributions . . . . .	—	876
Shares repurchased . . . .	(761,127)	(305,659)
Shares tendered . . . . .	—	(9,288,045)
Shares outstanding at end of year . . . . .	<u>8,221,259</u>	<u>8,982,386</u>

### 6. Discount Management Program

On February 1, 2012, the Fund announced that the Board has voted to approve a Discount Management Program (the "Program"). On July 30, 2013, the Program was discontinued. Under the Program, the Fund repurchased its common shares in the open market on any given trading day that the Fund's shares were trading at a discount of 9% or more to the Fund's net asset value from the prior day and there was a daily average discount of 9% or more from net asset value over the previous five-day period ending the prior day. On each day that shares were repurchased, the Fund repurchased its shares to the maximum extent permitted by law unless Fund management determines that such a repurchase would be detrimental to the Fund and its shareholders. Under the Program, the Fund was authorized to repurchase in each twelve month period ending

August 31, up to 10% of its common shares outstanding as of August 31 of the prior year.

The Program was intended to enhance shareholder value, as repurchases made at a discount have the effect of increasing the net asset value per share of the Fund's remaining shares. There is no assurance that the market price of the Fund's shares, either absolutely or relative to net asset value, will increase as a result of any share repurchases.

During the current period ended July 30, 2013, under the Program the Fund repurchased 761,127 of its shares at an average price of \$16.24 per share (including brokerage commissions) at a weighted average discount of 9.74%. These repurchases had a total cost of \$12,357,169.

### 7. Managed Distribution Program

The Fund intends to implement a managed distribution program with quarterly distributions payable at a target annual distribution rate of 5% of market price. Implementation of the program is subject to obtaining regulatory approvals, which may take six months or more. The target distribution rate will be reevaluated upon obtaining regulatory approvals and prior to the implementation of the managed distribution program.

### 8. Tender Offer

On February 1, 2012, the Fund announced that the Board has voted to approve in principle a one-time tender offer program (the "Tender Offer"), the offer commenced on May 15, 2012 and expired on June 13, 2012. The offer was oversubscribed. The Fund accepted 9,288,045 shares for payment on June 19, 2012 at \$15.55 per share, which were equal to 99% of the Fund's net asset value per share as of the close of regular trading on the New York Stock Exchange on June 14, 2012. The 9,288,045 shares represented 50% of the Fund's outstanding shares. On a pro rated basis, approximately 60.4% of the shares so tendered were accepted for payment.

## NOTES TO FINANCIAL STATEMENTS *(continued)*

AUGUST 31, 2013

### 9. Federal Tax Information

The tax character of distributions paid by the Fund during the year ended August 31, 2012 is as follows:

	<u>Year Ended August 31, 2012</u>
Capital Gains . . . . .	\$10,411,965
Total . . . . .	<u>\$10,411,965</u>

As of August 31, 2013, the tax components of accumulated net earnings (losses) were \$18,538,255 of Unrealized Appreciation, \$(8,062,385) of post October capital and late-year ordinary losses, and \$(8,676,568) of

capital loss carryover. The capital loss carryover retains its original short term character and has no expiration date.

The difference between book basis and tax basis unrealized appreciation and depreciation is attributable primarily to the tax deferral of losses on wash sales. At August 31, 2013, the aggregate cost basis of the Fund's investment securities for income tax purposes was \$131,071,063. Net unrealized appreciation of the Fund's investment securities was \$18,536,242 of which \$29,688,263 related to appreciated investment securities and \$(11,152,021) related to depreciated investment securities.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

**To the Shareholders and  
The Board of Directors of  
The Taiwan Fund, Inc.**

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of The Taiwan Fund, Inc. (the "Fund"), as of August 31, 2013 and the related statement of operations and the statement of cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's

internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of August 31, 2013, by correspondence with the custodian. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of The Taiwan Fund, Inc. as of August 31, 2013, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Philadelphia, Pennsylvania  
October 30, 2013

## OTHER INFORMATION *(unaudited)*

**Federal Tax Information.** The Fund has made an election under Internal Revenue Code Section 853 to pass through foreign taxes paid by the Fund to its shareholders. For the year ended August 31, 2013, the total amount of foreign taxes paid that will be passed through to its shareholders and foreign source income, for information reporting purposes, will be \$647,071 (representing taxes withheld plus taxes on stock dividends) and \$5,255,727, respectively.

### Results of the Annual Meeting of Stockholders held on April 23, 2013:

1. *Election of Directors* – The stockholders of the Fund elected Michael F. Holland, Joe O. Rogers, Bing Shen, M. Christopher Canavan, Jr., Anthony Kai Yiu Lo and William C. Kirby to the Board to hold office until their successors are elected and qualified.

	<u>For</u>	<u>Withheld</u>
Michael F. Holland	6,600,476	287,202
Joe O. Rogers	6,685,724	201,954
Bing Shen	6,671,236	216,442
M. Christopher Canavan, Jr.	4,534,259	2,353,419
Anthony Kai Yiu Lo	2,419,469	4,468,209
William C. Kirby	6,675,192	212,486

### Privacy Policy

#### Privacy Notice

The Taiwan Fund, Inc. collects non-public personal information about its shareholders from the following sources:

- Information it receives from shareholders on applications or other forms;
- Information about shareholder transactions with the Fund, its affiliates, or others; and
- Information it receives from a consumer reporting agency.

**The Fund's policy is to not disclose nonpublic personal information about its shareholders to nonaffiliated third parties (other than disclosures permitted by law).**

The Fund restricts access to nonpublic personal information about its shareholders to those agents of the Fund who need to know that information to provide products or services to shareholders. The Fund maintains physical, electronic, and procedural safeguards that comply with federal standards to guard its shareholders' nonpublic personal information.

## OTHER INFORMATION *(unaudited) (continued)*

---

### Proxy Voting Policies and Procedures

A description of the policies and procedures that are used by the Fund's investment adviser to vote proxies relating to the Fund's portfolio securities is available (1) without charge, upon request, by calling 1-877-864-5056; and (2) as an exhibit to the Fund's annual report on Form N-CSR which is available on the website of the Securities and Exchange Commission (the "Commission") at <http://www.sec.gov>. Information regarding how the investment adviser voted these proxies during the most recent 12-month period ended June 30 is available without charge, upon request, by calling the same number or by accessing the Commission's website.

### Quarterly Portfolio of Investments

The Fund files with the Securities and Exchange Commission its complete schedule of portfolio holdings on Form N-Q for the first and third quarters of each fiscal year. The Fund's Form N-Q's are available on the Commission's website at <http://www.sec.gov>. Additionally, the Portfolio of Investments may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The most recent Form N-Q is available without charge, upon request, by calling 1-877-864-5056.

### Certifications

The Fund's chief executive officer has certified to the New York Stock Exchange that, as of April 11, 2013, he was not aware of any violation by the Fund of applicable New York Stock Exchange corporate governance listing standards. The Fund also has included the certifications of the Fund's chief executive officer and chief financial officer required by Section 302 and Section 906 of the Sarbanes-Oxley Act of 2002 in the Fund's Form N-CSR filed with the Securities and Exchange Commission, for the period of this report.

## SUMMARY OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

### What is the Dividend Reinvestment and Cash Purchase Plan?

The Dividend Reinvestment and Cash Purchase Plan (the “Plan”) offers shareholders of the Fund, a prompt and simple way to reinvest their dividends and capital gains distributions in shares of the Fund. The Fund will distribute to shareholders, at least annually, substantially all of its net income and expects to distribute annually its net realized capital gains. Computershare Trust Company, N.A. (the “Plan Administrator”), acts as Plan Administrator for shareholders in administering the Plan. The Plan also allows you to make optional cash investments in Fund shares through the Plan Administrator.

### Who Can Participate in the Plan?

If you own shares in your own name, you can elect to participate directly in the Plan. If you own shares that are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to arrange for them to participate on your behalf.

### What Does the Plan Offer?

The Plan has two components; reinvestment of dividends and capital gains distributions, and a voluntary cash purchase feature.

#### Reinvestment of dividends and capital gains distributions

If you choose to participate in the Plan, your dividends and capital gains distributions will be promptly invested for you, automatically increasing your holdings in the Fund. If the Fund declares a dividend or capital gains distribution payable in cash, you will automatically receive shares purchased by the Plan Administrator on the open market. You will be charged a per share fee (currently \$0.05) incurred with respect to the Plan Administrator’s open market purchases.

If a distribution is declared which is payable in shares or cash at the option of the shareholder and if on the valuation date (generally the payable date) the market price of shares is equal to or exceeds their net asset value, the Fund will issue new shares to you at the greater of the following: (a) net asset value per share or (b) 95% of the market price per share. If the market price per share on the valuation date is less than the net asset value per share, the Fund will issue new shares to you at the market price per share on the valuation date.

All reinvestments are in full and fractional shares, carried to three decimal places. In the case of foreign (non-U.S.) shareholders, reinvestment will be made net of applicable withholding tax.

The Plan will not operate if a distribution is declared in shares only, subject to an election by the shareholders to receive cash.

#### Voluntary cash purchase option

Plan participants have the option of making investments in Fund shares through the Plan Administrator. You may invest any amount from \$100 to \$3,000 semi-annually. The Plan Administrator will purchase shares for you on the New York

## SUMMARY OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN *(continued)*

Stock Exchange or otherwise on the open market on or about February 15 and August 15. If you hold shares in your own name, you should deal directly with the Plan Administrator. Checks in U.S. dollars and drawn in U.S. banks should be made payable to “Computershare”. The Plan Administrator will not accept cash, traveler’s checks, money orders, or third party checks. We suggest you send your check, along with a completed transaction form which is attached to each statement you receive, to the following address to be received at least two business days before the investment date:

Computershare, c/o The Taiwan Fund, Inc. at P.O. Box 43078, Providence, RI 02940-3078. The Plan Administrator will return any cash payments received more than thirty days prior to February 15 or August 15, and you will not receive interest on uninvested cash payments. If you own shares that are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to arrange for them to participate in the cash purchase option on your behalf.

If your check is returned unpaid for any reason, the Plan Administrator will consider the request for investment of such funds null and void, and shall immediately remove these shares from your account. The Plan Administrator shall be entitled to sell shares to satisfy any uncollected amount plus any applicable fees. If the net proceeds of the sale are insufficient to satisfy the balance of any uncollected amounts, the Plan Administrator shall be entitled to sell such additional shares from your account as may be necessary to satisfy the uncollected balance.

### **Is There a Cost to Participate?**

For purchases from the reinvestment of dividends and capital gains distributions, you will pay a pro rata portion of brokerage commissions payable with respect to purchases of shares by the Plan Administrator on the open market. You will also be charged a per share fee (currently \$0.05) incurred with respect to the Plan Administrator’s open market purchases in connection with the reinvestment of dividends and capital gains distributions. Brokerage charges for purchasing shares through the Plan are expected to be less than the usual brokerage charges for individual transactions, because the Plan Administrator will purchase stock for all participants in blocks, resulting in lower commissions for each individual participant. The Plan Administrator’s transaction fees for handling capital gains distributions or income dividends will be paid by the Fund.

For purchases from voluntary cash payments, participants are charged a service fee (currently \$0.75 per investment) and a per fee (currently \$0.05) for each voluntary cash investment. Per share fees include any brokerage commissions the Plan Administrator is required to pay.

Brokerage commissions and service fees, if any, will be deducted from amounts to be invested.

### **What Are the Tax Implications for Participants?**

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax which may be payable on dividends or distributions. For further information as to the tax consequences of participating in the Plan, you should consult with your tax advisors.

If the Fund issues shares upon reinvestment of a dividend or capital gains distribution, for U.S. federal income tax purposes, the amount reportable in respect of the reinvested amount of the dividend or distribution will be the fair

## SUMMARY OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN *(continued)*

market value of the shares received as of the payment date, which will be reportable as ordinary dividend income and/or long term capital gains. The shares will have a tax basis equal to such fair market value, and the holding period for the shares will begin on the day after the payment date. State, local and foreign taxes may also be applicable.

### **Once Enrolled in the Plan, May I Withdraw From It?**

You may withdraw from the Plan without penalty at any time by calling the Plan Administrator at 1-800-426-5523, by accessing your Plan account at the Plan Administrator's web site, [www.computershare.com/investor](http://www.computershare.com/investor) or by written notice to the Plan Administrator.

If you withdraw, you will receive, without charge, stock certificates issued in your name for all full shares, and a check for any fractional share (valued at the market value of the shares at the time of withdrawal or termination) less any applicable fees. You may also request that the Plan Administrator sell your shares and send you the proceeds, less a transaction fee of \$2.50 and a per share fee of \$0.15 for any request for withdrawal or termination. The per share fee includes any brokerage commissions the Plan Administrator is required to pay. Alternatively, you may also request that the Plan Administrator move your whole shares to the Direct Management System, which would allow you to maintain ownership of those whole shares in book entry form on the records of the Fund.

All sale requests having an anticipated market value of \$100,000.00 or more are expected to be submitted in written form. In addition, all sale requests within thirty (30) days of an address change are expected to be submitted in written form.

### **Whom Should I Contact for Additional Information?**

If you hold shares in your own name, please address all notices, correspondence, questions, or other communications regarding the Plan to: Computershare, c/o The Taiwan Fund, Inc. at P.O. Box 43078, Providence, RI 02940-3078, by telephone at 1-800-426-5523 or through the Internet at [www.computershare.com/investor](http://www.computershare.com/investor). If your shares are not held in your name, you should contact your brokerage firm, bank, or other nominee for more information and to arrange for them to participate in the Plan on your behalf.

*Either the Fund or the Plan Administrator may amend or terminate the Plan. Except in the case of amendments necessary or appropriate to comply with applicable law, rules or policies or a regulatory authority, participants will be mailed written notice at least 30 days before the effective date of any amendment. In the case of termination, participants will be mailed written notice at least 30 days before the record date of any dividend or capital gains distribution by the Fund.*

## DIRECTORS AND OFFICERS *(unaudited)*
