ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 26, 2020

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission File No. 001-37425

WINGSTOP INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

**5501 LBJ Freeway, 5th Floor,
Dallas, Texas**

(Address of principal executive offices)

47-3494862

(IRS Employer Identification No.)

75240

(Zip Code)

(972) 686-6500

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.01 per share	WING	NASDAQ Global Select Market

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark whether the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of June 27, 2020, the aggregate market value of the registrant's outstanding common equity held by non-affiliates was approximately \$4.0 billion, based on the closing price of the registrant's common stock on June 27, 2020, the last trading day of the registrant's most recently completed second fiscal quarter.

As of February 16, 2021, there were 29,688,007 shares of common stock, par value of \$0.01 per share, outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the proxy statement for the registrant's 2021 annual meeting of stockholders, which will be filed no later than 120 days after the end of the registrant's fiscal year ended December 26, 2020, are incorporated by reference into Part III of this report.

Cautionary Note Regarding Forward-Looking Statements

This report includes statements of our expectations, intentions, plans and beliefs that constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and are intended to come within the safe harbor protection provided by those sections. These statements, which involve risks and uncertainties, relate to the discussion of our business strategies and our expectations concerning future operations, margins, profitability, trends, liquidity and capital resources and to analyses and other information that are based on forecasts of future results and estimates of amounts not yet determinable. These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms “may,” “will,” “should,” “expect,” “intend,” “plan,” “anticipate,” “believe,” “think,” “estimate,” “seek,” “expect,” “predict,” “could,” “project,” “potential” or, in each case, their negative or other variations or comparable terminology, although not all forward-looking statements are accompanied by such terms. Examples of forward-looking statements in this Annual Report on Form 10-K include, but are not limited to, our expectations with respect to our future liquidity, expenses, and consumer appeal. These forward-looking statements are made based on expectations and beliefs concerning future events affecting us and are subject to uncertainties, risks, and factors relating to our operations and business environments, all of which are difficult to predict and many of which are beyond our control, that could cause our actual results to differ materially from those matters expressed or implied by these forward-looking statements. Such risks and other factors include those listed in Item 1A., “Risk Factors,” and elsewhere in this report.

When considering forward-looking statements in this report or that we make in other reports or statements, you should keep in mind the cautionary statements in this report and future reports we file with the Securities and Exchange Commission (the “SEC”). New risks and uncertainties arise from time to time, and we cannot predict when they may arise or how they may affect us. Any forward-looking statement in this report speaks only as of the date on which it was made. Except as required by law, we assume no obligation to update or revise any forward-looking statements for any reason, or to update the reasons actual results could differ materially from those anticipated in any forward-looking statements, even if new information becomes available in the future.

PART I

Item 1. Business

Throughout this report, unless the context indicates otherwise, Wingstop Inc. (NASDAQ: WING) and its consolidated subsidiaries are referred to as the "Company," "Wingstop," or in the first-person notations of "we," "us" and "our."

Overview

Wingstop is the largest fast casual chicken wings-focused restaurant chain in the world, with over 1,500 locations worldwide. We are dedicated to serving the world flavor through an unparalleled guest experience and offering of classic wings, boneless wings and tenders, always cooked to order, and hand-sauced-and-tossed in 11 bold, distinctive flavors.

The Company is primarily a franchisor, with approximately 98% of Wingstop's restaurants currently owned and operated by independent franchisees. Wingstop generates revenues by charging royalties, advertising fees, and franchise fees to our franchisees and by operating a number of our own restaurants. We believe our asset-light, highly-franchised business model generates strong operating margins and requires low capital expenditures, creating stockholder value through strong and consistent free cash flow and capital-efficient growth.

Historically, the Company had two reporting segments: franchise operations and company restaurant operations. In accordance with Accounting Standards Codification 280 "Segment Reporting", the Company uses the management approach for determining its reportable segments. The management approach is based upon the way management reviews performance and allocates resources. During the second fiscal quarter of 2020, the Company reevaluated its operating segments and determined it has one operating segment and one reporting segment due to changes in how the Company's chief operating decision maker assesses the Company's performance and allocates resources.

Our History

The first Wingstop restaurant opened in Garland, Texas in 1994. We began franchising Wingstop restaurants in 1997, and in 2009 we opened our first international location in Mexico.

Wingstop Inc. was incorporated in Delaware on March 18, 2015. On June 15, 2015, we completed our initial public offering, and our stock became listed on the NASDAQ Global Select Market under the symbol "WING."

Our Industry

We operate in the rapidly-growing, and intensely competitive, fast casual segment of the restaurant industry. We believe that fast casual concepts, which are a segment of limited service restaurants ("LSRs"), such as Wingstop, attract customers away from other restaurant segments and, accordingly, are generating faster growth than the overall restaurant industry and increasing their market share relative to other segments.

We compete on the basis of taste, quality, price of food offered, guest service, ambiance, location, and overall dining experience. We also compete with many restaurant and retail establishments for site locations and restaurant-level employees.

We believe we compete primarily with fast casual establishments and quick service restaurants, local and regional sports bars, and casual dining restaurants. Many of these direct and indirect competitors are well-established national, regional, or local chains. We believe that our attractive price-value relationship, our flexible service model, and the quality and distinctive flavor of our food enables us to differentiate ourselves from our competitors.

Our Menu

It is our mission to serve the world flavor. We offer our guests fresh, cooked-to-order wings with bold, layered flavors that touch all of the senses and complement our wings with fresh-cut, seasoned fries and fresh, hand-cut carrots and celery. We round out the flavor experience with ranch and bleu cheese dips that are made in-house daily. We never use heat lamps or microwaves in the preparation of our food.

Our 11 flavor offerings create a differentiated experience that drives demand across multiple day parts and occasions. Paired with our numerous order options (eat-in (to the extent available) / to go / delivery; individual / combo meals / family packs) that allow guests to eat Wingstop during any occasion, whether it is a quick carry-out snack, a party size order for their favorite group occasion, or delivery for a family dinner, we believe this customizable unique experience drives repeat business and brand loyalty.

Our Vision

Our vision is to become a top 10 global restaurant brand. Based on our internal analysis, we believe there is opportunity for our brand to grow to more than 3,000 restaurants across the United States and to more than 3,000 restaurants internationally. Our approach to becoming a top 10 global restaurant brand centers around the following key strategic priorities:

- sustaining long-term same store sales growth through brand awareness and innovation;
- maintaining best in class unit economics; and
- expanding our global footprint.

This approach is built upon the foundation of our investments in the people and infrastructure necessary to build our organization for the next level.

Sustaining Long-Term Same Store Sales Growth through Brand Awareness and Innovation

In February 2017, we launched our national advertising program. Our transition from advertising cooperatives, a more locally driven advertising approach, to national advertising provided us with more reach and frequency in existing media markets and expanded our coverage to smaller and newer markets where we did not previously utilize television advertising. We fund our national advertising program through the Wingstop Restaurants Advertising Fund (the “Ad Fund”), a consolidated not-for-profit advertising fund for which a percentage of gross sales is collected from Wingstop restaurant domestic franchisees and company-owned restaurants to be used for various forms of advertising for the Wingstop brand. Beginning in fiscal year 2019, we increased the contribution rate that domestic franchisees are required to contribute to the Ad Fund from 3% to 4% of gross sales. Our national advertising program focuses on two key messaging windows and utilizes an extensive range of social media and digital marketing tools, including search engine, digital video, and social media advertising, to allow us to target core customers and increase brand awareness.

We are making focused investments in technology to provide a convenient and engaging brand experience, with the goal of digitizing every transaction. We developed a custom website and mobile ordering application that we believe position Wingstop for further digital expansion. Delivery also continues to drive our digital sales.

In 2017, we partnered with DoorDash to provide delivery to our customers, and substantially all of our domestic restaurants offered delivery as of the end of the 2020 fiscal year. We believe our DoorDash partnership and delivery strategy will continue to drive domestic same store sales growth. Our digital sales increased to 62.5% of sales during the fourth quarter of 2020, compared to 38.2% of sales during the fourth quarter of 2019.

Maintaining Best-in-Class Unit Economics

We believe the growing popularity of the Wingstop experience and the operational simplicity of our restaurants translate into attractive economics at our franchised and company-owned locations. Existing franchisees accounted for approximately 94% of franchised restaurants opened in 2020 and approximately 90% of franchised restaurants opened in 2019, which we believe further underscores our restaurant model’s financial appeal.

Upon opening, our restaurant volume generally builds year after year. Our domestic average unit volume (“AUV”) has grown consistently, approaching \$1.5 million during fiscal year 2020. Our operating model targets a low average estimated initial investment of approximately \$390,000, excluding real estate purchase or lease costs and pre-opening expenses. In year two of operation, we target a franchisee unlevered cash-on-cash return of approximately 35% to 40%. We believe low entry costs and high returns provide a compelling investment opportunity for our franchisees that has helped drive the continued growth of our system.

Expanding Our Global Footprint

We believe that there is significant opportunity to expand globally, and we intend to focus our efforts on increasing our geographic penetration in both existing and new domestic markets, as well as international markets. We believe our highly-franchised model positions us for continued strong unit growth over the medium- and long-term. We expect franchisee demand for our brand, supported by compelling unit economics, operational simplicity, low entry costs, and flexible real estate profile, to drive global restaurant growth.

We believe we can achieve our domestic restaurant potential by expanding in our existing markets where we believe we can more than double our current restaurant count, as well as continuing to expand into emerging markets. Our “inside out” domestic market expansion strategy focuses our initial development in urban centers where our core demographic is most densely populated and then builds outward into suburban areas as our brand awareness grows in the market. We have a robust domestic development pipeline and over 80% of our domestic commitments as of December 26, 2020 were from existing franchisees, supporting the attractiveness of our restaurant business model as well as our positive franchisor-franchisee relationships.

We also believe that there is a significant opportunity to grow our business internationally. As of December 26, 2020, we had 179 international restaurants located in nine countries, all of which were franchised. In fiscal year 2020, we opened 26 international locations. We believe that our restaurant operating model translates well internationally based on our small real estate footprint, our simplicity of operations, the universal and broad appeal of chicken, and our ability to customize our wide variety of flavors to local tastes.

Our Franchise

Franchise Overview

Our franchisees operated a total of 1,506 restaurants in 44 states and ten countries as of December 26, 2020. We have rigorous qualification criteria and training programs for our franchisees and require them to adhere to strict operating standards. We work hard to ensure that every Wingstop franchise location meets the same quality and customer service benchmarks in order to preserve the consistency and reliability of the Wingstop brand.

Franchisees (along with their managers) must attend and successfully complete a four-week training program prior to opening a new franchise restaurant. Our training program covers various topics including Wingstop culture, food preparation and storage, food safety, cleaning and sanitation, marketing and advertising, point of sale (“POS”) systems, accounting, and hospitality, among others.

All of our franchise agreements require that each franchised restaurant be operated in accordance with our defined operating procedures, adhere to the menu we establish, and meet applicable quality, service, health, and cleanliness standards. We may terminate the franchise rights of any franchisee who does not comply with our standards and requirements. We believe that maintaining superior food quality, an inviting and energetic atmosphere, and excellent guest service are critical to the reputation and success of our concept. Therefore, we enforce the contractual requirements of our franchise agreements.

We have a broad and diversified domestic franchisee base. Since 2014, the number of franchisees who own ten or more restaurants has more than doubled. This increase is consistent with our strategy to grow with our existing franchisees. As of December 26, 2020, our domestic franchise base had an average restaurant ownership of approximately six restaurants per franchisee and an average tenure of seven years.

U.S. Franchise Agreements

We enter into franchise agreements with U.S. franchisees under which the franchisee is generally granted the right to operate a restaurant in a particular location, typically providing for a 10-year initial term, with an opportunity to enter into one or more renewal franchise agreements subject to certain conditions. We generally update and/or revise our franchise agreement on an annual basis and, as a result, the agreements we enter into with individual franchisees may vary. Our franchise documents currently provide that franchisees must pay a franchise fee of \$20,000 for each restaurant opened. If a franchisee has entered into an area development agreement to develop restaurants in a defined market area with us (which occurs, in most cases, even if a franchisee wants to develop only one restaurant), the aggregate initial fee is \$30,000 for each restaurant, which includes a \$10,000 development fee per restaurant. The \$10,000 development fee per restaurant to-be-developed is paid in full at the time a development agreement is signed for the grant of development rights and is not refundable.

Under our current standard franchise agreement, each franchisee is required to pay us a royalty of 6% of their gross sales net of discounts. Each restaurant also contributes 4% of gross sales net of discounts to fund national marketing and advertising campaigns. These funds are managed by the Ad Fund and are primarily used to create advertising content and purchase digital and television advertising on a national level. In addition to the national and market-level advertising contributions, U.S. stores generally spend additional funds on local restaurant marketing activities. For example, our current form of franchise agreement requires franchisees to spend a percentage of their gross sales on local advertising and promotions.

International Franchise Agreements

Our markets outside of the United States are operated by master franchisees with franchise and distribution rights for entire regions or countries. The master franchise agreement typically requires the franchisees to open a minimum number of restaurants within a specified period. The master franchisee is generally required to pay an initial, upfront development fee for the territory as well as a franchise fee for each restaurant opened. Under our current standard master franchise agreement, each master franchisee is also required to pay a continuing royalty fee as a percentage of sales, which varies among international markets, but is currently set at 6%.

Suppliers and Distribution

Our franchisees are required to purchase all chicken, groceries, produce, beverages, equipment and signage, furniture, fixtures, logo-imprinted paper goods, and cleaning supplies solely from suppliers that we designate and approve. Our supply partners are required to meet strict quality standards to ensure food safety. We regularly inspect vendors to ensure our standards are being met and that prices offered are competitive.

The principal raw materials for a Wingstop restaurant operation are bone-in and boneless chicken wings. Therefore, chicken is our largest product cost item and represented approximately 65% of all purchases for the 2020 fiscal year. Company-owned and franchised restaurants purchase their bone-in and boneless chicken wings from suppliers that we designate and approve. We designate sources for potatoes to ensure that they are grown to our specifications. We also require franchisees to use our proprietary sauces, seasonings, and spice blends and to purchase them and other proprietary products only from designated sources.

All food items and packaging goods for Wingstop restaurants are sourced through one distributor, Performance Food Group ("PFG"). There are sixteen geographically diverse PFG distribution centers, which carry all products required for a Wingstop restaurant and service all of Wingstop's domestic restaurants. PFG is contractually obligated to deliver products to our restaurants at least twice weekly. PFG provides consolidated deliveries with a tightly controlled and monitored cold chain. Its national distribution system has a documented recovery plan to handle any disruption. Wingstop contracts directly with manufacturers to sell products to PFG, who in turn receives a fee for delivering these items to our restaurants. The majority of Wingstop's highest-spend items are formula or fixed-contract priced. Wingstop has also negotiated agreements with its soft drink suppliers to offer soft drink dispensing systems, along with associated branded products, in all Wingstop restaurants.

Information / Technology Systems

We have core information systems in place that, together with focused investments we are making in technology, we believe are designed to scale and support our future growth plans. We specify a standard point of sale ("POS") system and restaurant management system in all domestic restaurants that helps facilitate the operation of the restaurants by recording sales, purchasing and inventory of goods, managing of labor and assessing restaurant performance. Our POS system and restaurant management system is configured to record and store financial information in a manner that we specify, and we require franchisees to provide us with continual and unlimited independent access to all information on each POS system.

We have an online ordering platform and mobile ordering applications that integrate with third party delivery providers and our POS system, which makes it easy for our guests to order-ahead, and which we believe leads to higher check averages.

We require our franchisees' electronic information systems, including POS systems, comply with and maintain established network security standards, including applicable Payment Card Industry ("PCI") and data privacy standards.

Human Capital Resources

As of December 26, 2020, we employed 819 employees, affectionately referred to as team members, of whom 238 were full-time corporate-based and regional personnel. The remainder were part-time or restaurant-level team members. None of our team members are represented by a labor union or covered by a collective bargaining agreement, and we believe that we have good relations with our team members. Our franchise owners are independent business owners, so they and their team members are not included in our team member count and are not our team members.

Our human capital objectives include attracting, training, motivating, rewarding and retaining team members. To support these objectives, our team member programs are designed to develop talent and prepare team members for advancement and leadership positions in the future; provide market-competitive pay and benefits; focus on team members' health, safety and well-being; enhance our culture through our continuing efforts to make our workplace more engaging and inclusive; and acquire talent and facilitate internal talent mobility to create a high-performing and diverse workforce.

We are committed to fostering an environment of diversity and inclusion, including among our board members, and having diverse representation across all levels of our workforce. Examples of some of our recent efforts and metrics include:

- we implemented unconscious bias training for all our corporate team members;
- currently 50% of our board of directors classify as diverse;
- we are a member of the Women's Foodservice Forum; and
- our Chief Executive Officer joined the CEO Action for Diversity and Inclusion.

We are also committed to providing competitive pay to compensate and reward our team members. All corporate management and staff and restaurant management positions, including hourly assistant managers and shift leaders, are eligible for performance-based cash incentives. Our incentive plan reinforces and rewards individuals for achievement of specific company and/or restaurant business goals.

We offer comprehensive benefit programs to eligible team members. Our core health and welfare benefits are supplemented with a variety of voluntary benefits and paid time away from work programs. Since the onset of the COVID-19 pandemic, we have continued a strong focus on team member well-being, health and safety.

Another area of focus for us is investing in people and infrastructure to build the organization for the next level. In addition to seeking to acquire new talent in the marketplace that share our values and goals, we recognize and support the growth and development of our team members and offer opportunities to participate in regular talent and development planning reviews to assist us with growing our internal restaurant teams, resulting in a majority of current managers of company-owned restaurants being promoted from within.

COVID-19 Response

We took early action regarding team member well-being in response to the COVID-19 pandemic, implementing comprehensive protocols to protect the health and safety of our team members and guests. Remote work for corporate management and staff was adopted ahead of state and county requirements. We did not reduce scheduled hours for team members in our company-owned restaurants. For team members of our company-owned restaurants, we also enhanced our benefits programs to offer expanded supplemental paid sick leave ahead of state and county mandates and in counties where sick leave was not mandated, as well as distributed COVID-19 related incentive payments to our restaurant team members.

Government Regulation

We and our franchisees are subject to various federal regulations affecting the operation of our business. We and our franchisees are subject to the U.S. Fair Labor Standards Act, the U.S. Immigration Reform and Control Act of 1986, the Occupational Safety and Health Act, and various other federal and state laws governing matters such as minimum wage requirements, overtime, fringe benefits, workplace safety and other working conditions and citizenship requirements. A significant number of our and our franchisees' food service personnel are paid at rates related to the applicable minimum wage, and past increases in the minimum wage have increased our and our franchisees' labor costs, as would future increases. Our distributors and suppliers also may be affected by higher minimum wage and benefit standards, which could result in higher costs for goods and services supplied to us and our franchisees.

We are subject to extensive and varied state and local government regulation affecting the operation of our business, as are our franchisees, including regulations relating to public and occupational health and safety, sanitation, fire prevention, and franchise operation. Each restaurant is subject to licensing and regulation by a number of governmental authorities, including with respect to zoning, health, safety, sanitation, nutritional information disclosure, environmental, and building and fire safety, in the jurisdiction in which the restaurant is located. Our and our franchisees' licenses to sell alcoholic beverages must be renewed

annually and may be suspended or revoked at any time for cause, including violation by us or our employees, or our franchisees or their employees, of any law or regulation pertaining to alcoholic beverage control, such as those regulating the minimum age of patrons or employees, advertising, wholesale purchasing, and inventory control.

In addition, we are subject to the rules and regulations of the Federal Trade Commission (the "FTC") and various state laws regulating the offer and sale of franchises. The FTC and various state franchise laws require that we furnish a franchise disclosure document containing certain information to prospective franchisees in advance of any franchise sale or the receipt of any consideration for the franchise, and a number of states require registration of the franchise disclosure document at least annually with state authorities. We are operating under exemptions from registration (though not disclosure) in several states based on our qualifications for exemption as set forth in each such state's laws. Substantive state laws that regulate the franchisor-franchisee relationship, including in the areas of termination and non-renewal, presently exist in a substantial number of states. We believe that our franchise disclosure document and franchising procedures comply in all material respects with both the FTC guidelines and all applicable state laws regulating franchising in those states in which we have offered franchises.

Our international franchised restaurants are subject to national and local laws and regulations that are often similar to those affecting our U.S. restaurants. We believe that we have established procedures at our international franchised restaurants that provide reasonable assurance that our international franchised restaurants comply in all material respects with the laws of the applicable foreign jurisdiction.

Environmental Matters

We are not aware of any federal, state or local environmental laws or regulations that we would expect to materially affect our earnings or competitive position or result in material capital expenditures. However, we cannot predict the effect of possible future environmental legislation or regulations. During the 2020 fiscal year, there were no material environmental compliance-related capital expenditures.

Community Involvement

We are committed to strengthening the neighborhoods that we serve by being strong, active, corporate citizens and good neighbors. In fiscal year 2020, we donated \$1 million to the National Restaurant Association Educational Foundation's Restaurant Employee Relief Fund and, along with our franchisees, provided more than 1 million meals to frontline workers and COVID first responders. In 2016, we created Wingstop Charities, a non-profit organization dedicated to enhancing and elevating the community work of our franchisees to make a difference in the lives of our youth, which has donated over \$600,000 through local grants and team member assistance since its inception. You can find more about the involvement of Wingstop Charities in its local communities at www.wingstopcharities.org.

Additional Information about the Company

We make available, free of charge, through our internet website www.wingstop.com, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after such material is electronically filed with or furnished to the SEC. Materials filed with the SEC are also available at www.sec.gov.

References to our website addresses or the website addresses of third parties in this report do not constitute incorporation by reference of the information contained on such websites and should not be considered part of this report.

Item 1A. Risk Factors

Risks Related to Our Business and Our Industry

If we fail to successfully implement our growth strategy, which includes opening new restaurants, our ability to increase our revenue and operating profits could be materially adversely affected.

Our growth strategy relies substantially upon new restaurant development by existing and new franchisees and we are continuously seeking to identify target markets where we can enter or expand. We and our franchisees face many challenges in opening new restaurants, including:

- availability of financing;
- selection and availability of and competition for suitable restaurant locations;
- negotiation of acceptable lease and financing terms;
- securing required governmental permits and approvals, including zoning approvals;
- employment and training of and wage rates for qualified personnel;
- general economic and business conditions;
- unanticipated increases in construction and development costs; and
- the legal and regulatory requirements applicable to our industry.

In particular, because substantially all of our new restaurant development is funded by franchisee investment, our growth strategy is dependent on our franchisees' (or prospective franchisees') ability to access funds to finance such development. We do not provide our franchisees with direct financing and therefore if our franchisees (or prospective franchisees) are not able to obtain independent financing at commercially reasonable rates, or at all, they may be unwilling or unable to invest in the development of new restaurants, and our future growth could be adversely affected. To the extent our franchisees are unable to open new restaurants at the level that we anticipate, our revenue growth would come primarily from growth in same store sales. Our failure to add a significant number of new restaurants or grow domestic same store sales would adversely affect our ability to increase our revenue and operating income and could materially adversely affect our operating results. As a result of the foregoing, we cannot predict whether our growth strategy will be successful.

Changes in food and supply costs could materially adversely affect our results of operations.

Our profitability depends in part on our ability to anticipate and react to changes in food and supply costs. There are no established fixed price markets for bone-in chicken wings. As a result, we are subject to prevailing market conditions and remain susceptible to volatility in food costs. Any increase in the prices of the ingredients most critical to our menu, particularly chicken, could materially adversely affect our operating results. Food costs may also increase as a result of factors beyond our control, such as inflation, general economic conditions, seasonal fluctuations, weather conditions, demand, food safety concerns, product recalls and government regulations. Additionally, avian influenza, or similar poultry-related diseases, may negatively affect the supply chain by increasing costs and limiting availability of chicken. As a result, we may not be able to anticipate or successfully react to changing food costs, including the price of bone-in chicken wings, by adjusting our purchasing practices, increasing our menu prices to pass along commodity price increases to our customers or making other operational adjustments, which could materially adversely affect our operating results.

Our success depends in significant part on the future performance of existing and new franchise restaurants, and we are subject to a variety of additional risks associated with our franchisees.

A substantial portion of our revenue comes from royalties generated by our franchised restaurants. Accordingly, we are reliant on the performance of our franchisees in successfully operating their restaurants and paying royalties to us on a timely basis. Our franchise system subjects us to a number of risks, any one of which may impact our ability to collect royalty payments from our franchisees, may harm the goodwill associated with our franchise, and may materially adversely affect our business and results of operations.

Our franchisees are an integral part of our business. We may be unable to successfully implement our growth strategy without the participation of our franchisees and the adherence by our franchisees to our restaurant operation guidelines. Because our ability to control our franchisees is limited, our franchisees may fail to focus on the fundamentals of restaurant operations, such as quality, service, and cleanliness, which would have a negative impact on our success. In addition, our franchisees may fail to participate in our marketing initiatives, which could materially adversely affect their sales trends, average weekly sales, and

results of operations. Although we provide frequent training opportunities to our franchisees to ensure consistency among our operations, there may be differences in the quality of operations at our franchised restaurants that impact the profitability of those restaurants. In addition, if our franchisees fail to renew their franchise agreements, our royalty revenue may decrease, which in turn could materially adversely affect our business and operating results.

Furthermore, a bankruptcy of any multi-unit franchisee could negatively impact our ability to collect payments due under such franchisee's franchise agreements. In a franchisee bankruptcy, the bankruptcy trustee may reject its franchise agreements under the applicable bankruptcy code, in which case there would be no further royalty payments from such franchisee. The amount of the proceeds, if any, that may ultimately be recovered in a bankruptcy proceeding of such franchisee may not be sufficient to satisfy a damage claim resulting from such rejection.

If we fail to identify, recruit and contract with a sufficient number of qualified franchisees, our ability to open new franchised restaurants and increase our revenue could be materially adversely affected.

The opening of additional franchised restaurants depends, in part, upon the availability of prospective franchisees who meet our criteria. We may not be able to identify, recruit or contract with suitable franchisees in our target markets on a timely basis or at all. Although we have developed criteria to evaluate and screen prospective franchisees, our franchisees may not ultimately have the business acumen or be able to access the financial or management resources that they need to open and successfully operate the restaurants contemplated by their agreements with us, or they may elect to cease restaurant development for other reasons and state franchise laws may limit our ability to terminate or modify these license agreements. If any of these situations occur, our growth may be slower than anticipated, which could materially adversely affect our ability to increase our revenue and materially adversely affect our business, financial condition and results of operations.

Also, the number of new franchised Wingstop restaurants that actually open in the future may differ materially from the number of signed commitments from potential existing and new franchisees. Historically, a portion of our signed commitments have not ultimately opened as new franchised Wingstop restaurants. The historic conversion rate of signed commitments to new franchised Wingstop locations may not be indicative of the conversion rates we will experience in the future, and the total number of new franchised Wingstop restaurants actually opened in the future may differ materially from the number of signed commitments disclosed at any point in time.

Our stated sales to investment ratio and target unlevered cash-on-cash return may not be indicative of future results of any new franchised restaurant.

Initial investment levels, AUV levels, restaurant-level operating costs and restaurant-level operating profit of any new restaurant may differ from average levels experienced by franchisees in prior periods due to a variety of factors, and these differences may be material. Accordingly, our stated sales to investment ratio and average unlevered cash-on-cash return may not be indicative of future results of any new franchised restaurant. In addition, estimated initial investment costs and restaurant-level operating costs are based on information self-reported by our franchisees and have not been verified by us. Furthermore, performance of new restaurants is impacted by a range of risks and uncertainties beyond our or our franchisees' control, including those described by other risk factors described in this report.

Food safety and food-borne illness concerns may have a material adverse effect on our business.

Food safety is a top priority, and we dedicate substantial resources to ensure that our customers enjoy safe, quality food products. However, food-borne illnesses, such as salmonella, E. coli infection, or hepatitis A, and food safety issues, including food tampering or contamination, have occurred in the food industry in the past, and could occur in the future. Any report or publicity linking our restaurants to instances of food-borne illness or food safety issues could materially adversely affect our brand and reputation as well as our revenue and profits. Even instances of food-borne illness or food safety issues occurring solely at our competitors' restaurants could result in negative publicity about the food service industry or fast casual restaurants generally and adversely impact our restaurants.

In addition, our reliance on third-party food suppliers and distributors increases the risk that food-borne illness incidents could be caused by factors outside of our control and that multiple restaurants would be affected rather than a single restaurant. We cannot ensure that all food items are properly maintained during transport throughout the supply chain or that our employees and our franchisees and their employees will identify all products that may be spoiled and should not be used. Our industry has also long been subject to the threat of food tampering by suppliers, employees, and others such as the addition of foreign objects in the food that we sell. Reports, whether or not true, of injuries caused by food tampering have in the past severely injured the reputations and brands of restaurant chains in the quick service restaurant segment and could affect us in the future as well. If our customers become ill from food-borne illnesses or injured from food tampering, we could also be forced to

temporarily close some restaurants. Moreover, any instances of food contamination, whether or not at our restaurants, could subject our restaurants or our suppliers to a food recall pursuant to the Food and Drug Administration Food Safety Modernization Act.

Public health epidemics or outbreaks, such as COVID-19, could materially adversely impact our business.

Federal, state and local government responses to a pandemic, such as COVID-19, and our Company's response to the pandemic have in the past disrupted and in the future may disrupt our business. Because of COVID-19, in the United States and throughout much of the world, individuals are currently being encouraged to practice social distancing, restricted from gathering in groups and, in some areas, placed on complete restriction from non-essential movements outside of their homes. In response to the COVID-19 pandemic and these changing conditions, we closed the dining rooms in all of our domestic restaurants, which at the time represented approximately 20% of our domestic system sales, and also closed the dining rooms in some of our international restaurants. We also incurred additional operating expenses at our company-owned restaurants due to the payment of increased incentive compensation to our full-time team members and increased selling, general and administrative expense due to COVID-19-related support provided to international franchisees. The COVID-19 pandemic and these responses to date have adversely affected and will continue to adversely affect our international guest traffic and sales and operating costs for our company-owned restaurants, and we cannot predict how long the pandemic will last or what other government responses may occur.

Continuing disruptions in operations due to pandemics, such as COVID-19-related social distancing, or other movement restricting policies put in place, could impact our revenues or result in our providing payment relief or other forms of support to franchisees, and could materially adversely affect our business and results of operations. Restaurant operations could be further disrupted if any employees are diagnosed with a pandemic illness, such as COVID-19, since this could require some or all of a restaurant's employees to be quarantined and restaurant facilities to be closed to disinfect. If a significant percentage of the workforce is unable to work, whether because of illness, quarantine, limitations on travel, or other government restrictions in connection with a pandemic, including COVID-19, operations may be negatively impacted, potentially materially adversely affecting our liquidity, financial condition or results of operations. In addition, any report or publicity linking our restaurants to instances of pandemic illness exposure could adversely impact our brand and reputation as well as our revenue and profits. Our suppliers could also be adversely impacted by a pandemic, such as COVID-19. If our suppliers' employees are unable to work or our suppliers' operations are disrupted, we and our franchisees could face shortages of food items or other supplies, and our and our franchisees' operations and sales could be materially adversely impacted by such supply interruptions.

If the business interruptions caused by a pandemic, including COVID-19, last longer than we expect, we or our franchisees may need to seek additional sources of liquidity. There can be no guarantee that additional liquidity, whether through the credit markets or government programs, will be readily available or available on favorable terms to our franchisees or us. The ultimate impact of the COVID-19 pandemic, or pandemics in the future, on the Company's operations is unknown and will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the duration of the COVID-19 or other pandemic, the rate at which vaccinations become available, and any additional preventative and protective actions that governments, or the Company, may direct, which may result in an extended period of continued business disruption, reduced customer traffic, and reduced operations.

Our expansion into new and existing markets may present increased risks.

Some of our new restaurants are located in markets where there may be limited or no market recognition of our brand. Those markets may have competitive conditions, consumer tastes and discretionary spending patterns that are different from those in our existing markets, and we may encounter well-established competitors with substantially greater financial resources than us. As a result, those new restaurants may be less successful than restaurants in our existing markets.

We may need to build brand awareness in new markets through greater investments in advertising and promotional activity than we originally planned, which could negatively impact the profitability of our operations in such new markets. Our franchisees may find it more difficult in new markets to hire, motivate and keep qualified employees who can project our vision, passion and culture. In addition, we may have difficulty finding reliable suppliers or distributors or ones that can provide us, either initially or over time, with adequate supplies of ingredients meeting our quality standards. Restaurants opened in new markets may also have lower average restaurant sales than restaurants opened in existing markets and may take longer to, or fail to, ramp up and reach expected sales and profit levels. Additionally, new markets may have higher rents and labor rates. These factors could negatively impact our unit economics and overall profitability.

We also intend to continue opening new franchised restaurants in our existing markets as a core part of our growth strategy. As a result, the opening of a new restaurant in or near markets in which our restaurants already exist could adversely affect the sales of our existing restaurants.

Our success depends on our ability to compete with many other restaurants.

The restaurant industry in general, and the fast casual category in particular, are intensely competitive, and we compete with many well-established restaurant companies on the basis of food taste and quality, price, service, value, location, convenience, and overall customer experience. Our competitors include individual restaurants and restaurant chains that range from independent local operators to well-capitalized national and regional restaurant companies, including restaurants offering chicken wing products, as well as dine-in, carry-out, and delivery services offering other types of food.

As our competitors expand their operations or as new competitors enter the industry, we expect competition to intensify. Should our competitors increase their spending on advertising and promotions or if their advertising and promotions are more effective, we could experience a loss of customer traffic to our competitors and a material adverse effect on our results of operations. We compete with other restaurant chains and other retail businesses for quality site locations, management, hourly employees, and qualified franchisees. We also face the risk that new or existing competitors will copy our business model, menu options, presentation, or ambiance, among other things. Consumer tastes, nutritional and dietary trends, traffic patterns, and the type, number, and location of competing restaurants often affect the restaurant business, and our competitors may react more efficiently and effectively to those conditions.

Moreover, we may also compete with companies outside the fast casual, quick service, and casual dining segments of the restaurant industry, such as deli sections and in-store cafés of several major grocery store chains and from home delivery meal plan services, as well as from convenience stores and other dining outlets. These competitors may have, among other things, a more diverse menu, lower operating costs, better locations, better facilities, better management, more effective marketing, more efficient operations, stronger brand recognition, loyal customer base and more convenient offerings than we have. If we are unable to compete effectively, it could decrease our traffic, sales and profit margins, which could materially adversely affect our business, financial condition, and results of operations.

Interruptions in the supply of product to company-owned restaurants and franchisees could materially adversely affect our revenue.

In order to maintain quality-control standards and consistency among restaurants, we require through our franchise agreements that our franchisees obtain food and other supplies from preferred suppliers approved by us in advance. In this regard, we and our franchisees depend on a group of suppliers for food ingredients, beverages, paper goods, and distribution. We and our franchisees bear risks associated with the timeliness, solvency, reputation, labor relations, freight costs, price of raw materials, and compliance with health and safety standards of each supplier. We have little control over such suppliers. Disruptions in these relationships may reduce company-owned restaurant and franchisee sales and, in the case of reduced franchisee sales, our royalty income. Overall difficulty of suppliers meeting restaurant product demand, interruptions in the supply chain, obstacles or delays in the process of renegotiating or renewing agreements with preferred suppliers, financial difficulties experienced by suppliers, or the deficiency, lack, or poor quality of alternative suppliers could adversely impact company-owned restaurant and franchisee sales, which could materially adversely affect our business and operating results and, in the case of reduced franchisee sales, would reduce our royalty income and revenue. In addition, our focus on a limited menu could make these consequences more severe.

Our operating results may fluctuate significantly and could fall below the expectations of securities analysts and investors due to certain factors, some of which are beyond our control, resulting in a decline in our stock price.

Our operating results may fluctuate significantly because of a number of factors, including:

- the timing of new restaurant openings;
- profitability of our restaurants, especially in new markets;
- changes in interest rates;
- increases and decreases in average weekly sales and same store sales, including due to the timing and popularity of sporting and other events;
- macroeconomic conditions, globally, nationally and locally;
- changes in consumer preferences and competitive conditions;
- increases in infrastructure costs; and

- fluctuations in commodity prices.

Accordingly, results for any one fiscal quarter or year are not necessarily indicative of results to be expected for any other fiscal quarter or year and our results for any particular future period may decrease compared to the prior period. In the future, operating results may fall below the expectations of securities analysts and investors. In that event, the price of our common stock would likely decrease.

Cyber incidents or deficiencies in cybersecurity could negatively impact our business by causing data loss, a disruption to our operations, a compromise or corruption of confidential or personal information, damage to our employee and business relationships and reputation, and/or litigation and liability, all of which could subject us to loss and harm our brand.

As our reliance on technology has increased, so have the risks posed to our systems, both internal and those we have outsourced. Additionally, there has been an increase in data integration and complexity of our technology systems, particularly in our international markets. The use of electronic payment methods and the collection and storage of personal information from individuals expose us and our franchisees to increased risk of cyber incidents, privacy and/or security breaches, and other risks. We rely on commercially available systems, software, tools and monitoring to provide security for processing, transmitting, and storing such information. The use of personally identifiable information by us is regulated by foreign, federal, and state laws, which continue to evolve, as well as by certain third-party agreements. As privacy and information security laws and regulations change, we may incur additional costs to ensure that we remain in compliance with those laws and regulations. See “*Changing regulations relating to privacy, information security, and data protection could increase our costs, affect or limit how we collect and use personal information*” below for a further discussion on privacy, information security, and data protection regulations.

Our franchisees, contractors and third parties with whom we do business have experienced cyber incidents and security breaches in which confidential or personal information could have been stolen and we, our franchisees, contractors and third parties with whom we do business may experience cyber incidents and security breaches in which confidential or personal information is stolen in the future. Third parties may have the technology or know-how to breach the security of confidential or personal information collected, stored or transmitted by us or our franchisees, and our and their security measures and those of third parties with whom we do business, including technology vendors, solution providers, software manufacturers and supply chain vendors, may not effectively prohibit others from obtaining improper access to this information. Third parties also may be able to develop and deploy viruses, worms and other malicious software programs, such as ransomware, that attack our, our franchisees’ and third parties with whom we do business’s systems or otherwise exploit any security vulnerabilities. The techniques used to obtain unauthorized access, disable or degrade service, or sabotage systems change frequently and are often difficult to detect for long periods of time, which may cause a breach to go undetected for an extensive period of time. Advances in computer and software capabilities, technology, new tools, and other developments may increase the risk of such a breach. If a person is able to circumvent the security measures of our business, our franchisees’ businesses or those of other third parties, he or she could destroy or steal valuable information or disrupt the operations of our business. In addition, our franchisees, contractors or third parties with whom we do business or to whom we outsource business operations may attempt to circumvent our security measures in order to misappropriate confidential information and may purposefully or inadvertently cause a breach involving such information. Furthermore, due to the COVID-19 pandemic, we have allowed our team members in our corporate headquarters to work from home. The significant increase in remote working, particularly for an extended period of time, could increase certain risks to our business, including an increased risk of cybersecurity events, vulnerability of our systems and improper dissemination of confidential or personal information, if our physical and cybersecurity measures or our corporate policies are not effective. The costs to us to eliminate any of the foregoing cybersecurity vulnerabilities or to address a cyber incident could be significant and have material adverse impact on our financial condition, results of operations and cash flows.

If our employees, franchisees, or vendors fail to comply with applicable laws, regulations, or contract terms, and this information is obtained by unauthorized persons, used inappropriately, or destroyed, it could adversely affect our reputation, could disrupt our operations and result in costly litigation, judgments, or penalties resulting from violation of laws and payment card industry regulations. Any such claim or proceeding could cause us to incur significant unplanned expenses and significantly harm our reputation, which could have a material adverse impact on our financial condition, results of operations and cash flows. A cyber incident could also require us to provide notifications, result in adverse publicity, loss of sales and profits, increase fees payable to third parties, and result in penalties or remediation and other costs that could materially adversely affect the operation of our business and results of operations. In addition, our cyber liability coverage may be inadequate or may not be available in the future on acceptable terms, or at all, and defending a suit, regardless of its merit, could be costly and divert management’s attention.

Our increasing reliance on debit or credit cards for payment increases the risk of regulatory compliance and security breaches, which could materially adversely impact our business or results of operations.

The majority of our restaurant sales are paid by credit or debit cards. In connection with credit or debit card transactions in-restaurant, we and our franchisees collect and transmit confidential information to card processors. The systems currently used for transmission and approval of electronic payment transactions, and the technology utilized in electronic payments themselves, all of which can put electronic payment at risk, are determined and controlled by the payment card industry, not by us, through enforcement of compliance with the Payment Card Industry - Data Security Standards (as modified from time to time, "PCI DSS"). We and our franchisees must abide by the PCI DSS in order to accept electronic payment transactions. If we or our franchisees fail to abide by the PCI DSS, we or our franchisees could be subject to fines, penalties or litigation, which could adversely impact our results of operations. Furthermore, the payment card industry is requiring vendors to become compatible with smart chip technology for payment cards, or EMV-Compliant, or else bear full responsibility for certain fraud losses, referred to as the EMV Liability Shift. To become EMV-Compliant, merchants often utilize EMV-Compliant payment card terminals at the POS and obtain a variety of certifications. At present, many of our company-owned and franchised restaurants have not upgraded their POS systems to include such EMV-Compliant payment card terminals and as a result, may be at increased risk for breaches, which could materially adversely affect our business and operating results. We may become subject to claims for purportedly fraudulent transactions arising out of the actual or alleged theft of credit or debit card information, and we may also be subject to lawsuits or other proceedings relating to these types of incidents.

Changing regulations relating to privacy, information security and data protection could increase our costs and affect or limit how we collect and use personal information.

The United States, the European Union, and other countries in which we operate are increasingly adopting or revising privacy, information security, and data protection laws and regulations that could have a significant impact on our current and planned privacy, data protection, and information security-related practices, our collection, use, sharing, retention, and safeguarding of consumer and/or employee information, and some of our current or planned business activities. In the United States, these include rules and regulations promulgated under the authority of the FTC, the Health Insurance Portability and Accountability Act of 1996, federal and state labor and employment laws, state data breach notification laws, and state privacy laws such as the California Consumer Privacy Act of 2018. Many of these laws and regulations provide consumers and employees with a private right of action if a covered company suffers a data breach related to a failure to implement reasonable data security measures. In the European Union, this includes the General Data Protection Regulation. The legal framework around privacy issues is rapidly evolving, as various federal and state government bodies are considering adopting new privacy laws and regulations. These laws and regulations could result in significant limitations on or changes to the ways in which we can collect, use, host, store, or transmit personal information and other data. Compliance with privacy, data protection, and information security laws to which we are subject could result in additional costs, and our failure to comply with such laws could result in potentially significant regulatory investigations or government actions, penalties or remediation, and other costs, as well as adverse publicity, loss of sales and profits, and an increase in fees payable to third parties. Each of these implications could materially adversely affect our revenues, results of operations, business, and financial condition.

We and our franchisees rely on computer systems to process transactions and manage our business, and a disruption or a failure of such systems or technology could harm our ability to effectively manage our business.

Network and information technology systems are integral to our business. We utilize various computer systems, including our franchisee reporting system, by which our franchisees report their weekly sales and pay their corresponding royalty fees and required Ad Fund contributions. This system is critical to our ability to accurately track sales and compute and receive royalties and Ad Fund contributions due from our franchisees. We also rely on computer systems and network infrastructure across other areas of our operations, including marketing programs, employee engagement, management of our supply chain and POS processing in our restaurants.

Our operations depend upon our ability to protect our computer equipment and systems against damage from physical theft, fire, power loss, computer, network and telecommunications failure or other catastrophic events, as well as from internal and external security breaches, viruses and other disruptive software, worms, improper usage by employees and other disruptive problems. Any damage or failure of our computer systems or network infrastructure that causes an interruption in our operations could have a material adverse effect on our business and subject us to litigation or actions by regulatory authorities. In addition, such events could result in a need for a costly repair, upgrade or replacement of systems, or a decrease in, or in the collection of, royalties and Ad Fund contributions paid to us by our franchisees. To the extent that any disruption or security breach were to result in a loss of, or damage to, our data or applications, or inappropriate disclosure of confidential or proprietary information, we could incur liability which could materially affect our results of operations. It is also critical that we

establish and maintain certain licensing and software agreements for the software we use in our day-to-day operations. A failure to procure or maintain these licenses could have a material adverse effect on our business operations.

There are risks associated with our increasing dependence on digital commerce platforms to maintain and grow sales, and limitations, disruptions or unavailability of our digital commerce platforms, or our ability to distribute our apps, could harm our ability to compete and conduct our business.

Customers are increasingly using e-commerce websites and apps, both domestically and internationally, like wingstop.com and our mobile ordering application, to order and pay for our products and select optional delivery and curbside services. As a result, we and our franchisees are increasingly reliant on digital ordering and payment for such sales, and portions of our digital commerce platforms depend on third party services, including cloud-based technologies and platforms. Our apps and other digital ordering and payment platforms could be damaged or interrupted by power loss, technological failures, cyber-attacks, other forms of sabotage or acts of God. In addition, the availability, distribution and functionality of our apps and updates to our apps are dependent on mobile app stores and their related policies, terms and conditions. Because we and our franchisees rely on digital orders for a significant portion of our sales, any limitations in functionality, interruptions or unavailability of any of our digital ordering or payment platforms could limit or delay customers' ability to order through such platforms. Further, if our digital ordering and payment platforms do not meet customers' expectations in terms of security, speed, attractiveness, or ease of use, customers may be less inclined to return to such platforms. Any such limitation, damage, interruption or unavailability of our digital commerce platforms or failure of those platforms to meet customers' expectations could materially adversely affect our and our franchisees' sales and our results of operations and financial condition.

Any failure by us or our third-party delivery providers to provide timely and reliable delivery services may materially adversely affect our business and reputation.

As of December 26, 2020, delivery services were available at substantially all Wingstop restaurants throughout the United States. Interruptions or failures in our delivery services could prevent the timely or successful delivery of our products. These interruptions may be due to unforeseen events that are beyond our control or the control of our delivery providers, such as inclement weather, natural disasters, transportation disruptions, sabotage by an outside party, civil protests or labor unrest. In addition, changes in business practices of our delivery providers and governmental regulations could materially adversely impact delivery services and/or profitability.

If our products are not delivered on time and in safe and proper condition, customers may refuse to accept our products and have less confidence in our services, in which case our business and reputation may suffer. If our third-party delivery service providers fail to follow the quality standards or other terms that they agreed to with us, it could result in harm to our business and reputation and could force us to pursue arrangements with alternative delivery service providers, which could result in an interruption to our delivery services. These factors may materially adversely impact our sales and our brand reputation. We also incur additional costs associated with delivery orders, and it is possible that these orders could cannibalize more profitable carry-out or in-restaurant orders.

Uncertainty in the law with respect to the assignment of liabilities in the franchise business model could materially adversely impact our profitability.

One of the legal foundations fundamental to the franchise business model has been that, absent special circumstances, a franchisor is generally not responsible for the acts, omissions, or liabilities of its franchisees, whether with respect to the franchisees' employees or otherwise. In the last several years, this principle has been the subject of differing and inconsistent interpretations at the National Labor Relations Board and in the courts, and the question of whether a franchisor can be held liable for the actions or liabilities of a franchisee under a vicarious liability theory, sometimes called "joint employer," has become highly fact dependent and generally uncertain. A determination that we are a "joint employer" with our franchisees or that our franchisees are part of one unified system subject to joint and several liability could subject us and/or our franchisees to liability for employment-related and other liabilities of our franchisees and could cause us to incur other costs that have a material adverse effect on our results of operations.

Our business activities subject us and our franchisees to litigation risk that could subject us to significant money damages and other remedies or by increasing our and our franchisees' litigation expense.

We and our franchisees are, from time to time, the subject of, or potentially the subject of, complaints or litigation, including customer claims, class-action lawsuits, personal-injury claims, environmental claims, intellectual property claims, employee allegations of improper termination and discrimination and claims related to violations of laws, such as the Americans with

Disabilities Act of 1990 ("ADA"), religious freedom laws, the Fair Labor Standards Act, other employment-related laws, the Occupational Safety and Health Act, the Employee Retirement Income Security Act of 1974, as amended, advertising laws and state and local "dram shop" laws. Each of these claims may increase our and our franchisees' costs, limit the funds of our franchisees available to make royalty payments and reduce the execution of new franchise agreements. Litigation against a franchisee or its affiliates by third parties or regulatory agencies, whether in the ordinary course of business or otherwise, may also include claims against us by virtue of our relationship with the defendant-franchisee, whether under vicarious liability, joint employer, or other theories.

Regardless of whether any claim brought against us or a franchisee in the future is valid or whether we or they are liable, such a claim would be expensive to defend and may divert time, money and other valuable resources away from our or their operations and, thereby, hurt our business. In addition, the ability of a defendant-franchisee to make royalty payments in the event of such claims may be decreased and adverse publicity resulting from such allegations may materially adversely affect us and our brand, regardless of whether these allegations are valid or whether we or they are liable. Our international business may be subject to additional risks related to litigation, including difficulties in enforcement of contractual obligations governed by foreign law due to differing interpretations of rights and obligations, compliance with multiple and potentially conflicting laws, new and potentially untested laws and judicial systems, and reduced or diminished protection of intellectual property. A substantial judgment against us could materially adversely affect our business and operating results. Insurance may not be available at all or in sufficient amounts to cover any liabilities with respect to any of these or other matters. A substantial judgment, or judgment or other liability in excess of our or our franchisees' insurance coverage, resulting from claims could materially adversely affect our business and results of operations.

We may engage in litigation with our franchisees.

Although we believe we generally enjoy a positive working relationship with the vast majority of our franchisees, the nature of the franchisor-franchisee relationship may give rise to litigation with our franchisees. In the ordinary course of business, we are the subject of complaints or litigation from franchisees, usually related to alleged breaches of contract or wrongful termination under the franchise arrangements. We may also engage in future litigation with franchisees to enforce the terms of our franchise agreements and compliance with our brand standards as determined necessary to protect our brand, the consistency of our products and the customer experience, or to enforce our contractual indemnification rights if we are brought into a matter involving a third party due to the franchisee's alleged acts or omissions. In addition, we may be subject to claims by our franchisees relating to our Franchise Disclosure Document ("FDD"), including claims based on financial information contained in our FDD. Engaging in such litigation may be costly and time-consuming and may distract management and materially adversely affect our relationships with franchisees and our ability to attract new franchisees. Any negative outcome of these or any other claims could materially adversely affect our results of operations as well as our ability to expand our franchise system and may damage our reputation and brand. Furthermore, existing and future franchise-related legislation could subject us to additional litigation risk in the event we terminate or fail to renew a franchise relationship.

Our success depends in part upon effective advertising and marketing campaigns, which may not be successful, and franchisee support of such advertising and marketing campaigns.

We believe the Wingstop brand is critical to our business and expend resources in our marketing efforts using a variety of media outlets. We expect to continue to conduct brand awareness programs and customer initiatives to attract and retain customers. Should our advertising and promotions not be effective, our business, financial condition and results of operations could be materially adversely affected.

The support of our franchisees is critical for the success of the advertising and marketing campaigns we seek to undertake, and the successful execution of these campaigns will depend on our ability to maintain alignment with our franchisees. Our franchisees are currently required to contribute specified percentages of their gross sales to certain advertising funds and programs. There can be no assurances that these funds will be sufficient to meet our marketing needs or that additional funds will be provided by our franchisees in the future. The lack of continued financial support for our advertising activities could hinder our marketing efforts, which may adversely affect our business and operating results. While we maintain control over advertising and marketing materials and can mandate certain strategic initiatives pursuant to our franchise agreements, we need the active support of our franchisees if the implementation of these initiatives is to be successful. If our initiatives are not successful, resulting in expenses incurred without the benefit of higher revenue, our business, financial condition and results of operations could be materially adversely affected.

We are vulnerable to changes in consumer preferences and regulation of consumer eating habits that could harm our business, financial condition, results of operations and cash flow.

Consumer preferences and eating habits often change rapidly and without warning, moving from one trend to another among many product or retail concepts. We depend on some of these trends, including the trend regarding away-from-home or take-out dining. Consumer preferences towards away-from-home and take-out dining or certain food products might shift as a result of, among other things, new information, attitudes regarding diet and health concerns or dietary trends related to cholesterol, carbohydrate, fat and salt content of certain food items, including chicken wings, in favor of foods that are perceived as healthier. Our menu is currently comprised primarily of chicken wings and fries, and a change in consumer preferences away from these offerings would have a material adverse effect on our business. Negative publicity over the health aspects of, or animal welfare or other social or environmental concerns related to, the food items we sell may adversely affect demand for our menu items and could have a material adverse effect on traffic, sales and results of operations.

Regulations may also continue to change as a result of new information and attitudes regarding diet and health. These changes may include regulations that impact the ingredients and nutritional content of our menu items. The federal government and a number of states, counties and cities, have enacted laws requiring multi-unit restaurant operators to make certain nutritional information available to customers and/or legislation prohibiting the sales of certain types of ingredients in restaurants. If our customers perceive our menu items to contain unhealthy caloric, sugar, sodium, or fat content, our results of operations could be adversely affected. The success of our restaurant operations depends, in part, upon our ability to effectively respond to changes in consumer preferences and eating habits, negative publicity and consumer health and disclosure regulations and to adapt our menu offerings to fit the dietary needs, preferences and eating habits of our customers without sacrificing flavor. To the extent we are unable to respond with appropriate changes to our menu offerings, it could materially adversely affect customer traffic and our results of operations. Furthermore, any change in our menu could result in a decrease in existing customer traffic.

Because many of our restaurants are concentrated in certain geographic areas, we are susceptible to economic and other trends and developments, including adverse weather conditions, in these areas.

As of December 26, 2020, 55% of our 1,359 domestic restaurants were spread across Texas (28%), California (21%) and Illinois (6%). Given our geographic concentrations, economic conditions and other unforeseen events, including but not limited to negative publicity, local strikes, terrorist attacks, increases in energy prices, natural or man-made disasters, adverse weather conditions or the enactment of more stringent state and local laws and regulations in these areas, could have a disproportionate adverse effect on our business and results of operations.

Our business is subject to various laws and regulations and changes in such laws and regulations, and/or our failure to comply with existing or future laws and regulations, could materially adversely affect us.

We are subject to certain state franchise registration requirements, the rules and regulations of the FTC and various state laws regulating the offer and sale of franchises in the United States through the provision of franchise disclosure documents containing certain mandatory disclosures, various state laws regulating the franchise relationship, and certain rules and requirements regulating franchising arrangements in foreign countries. Noncompliance with applicable laws, regulatory requirements and governmental guidelines regulating franchising could reduce anticipated royalty income, which in turn could materially adversely affect our business and operating results.

We and our franchisees are subject to various existing U.S. federal, state, local, and foreign laws affecting the operation of restaurants and the sale of food and alcoholic beverages, including various license and permit requirements, health, sanitation, fire, and safety standards. We and our franchisees may in the future become subject to regulation (or further regulation) seeking to tax or regulate high-fat foods, to limit the serving size of beverages containing sugar, to ban the use of certain packaging materials, or to require the display of detailed nutrition information. Each of these regulations would be costly to comply with and/or could result in reduced demand for our products. The failure of our restaurants to comply with applicable regulations and obtain and maintain required licenses, permits, and approvals (including those for the sale of alcoholic beverages) could adversely affect our existing restaurants and delay or result in our decision to cancel the opening of new restaurants, which would materially adversely affect our results of operations.

We and our franchisees may also have a substantial number of hourly employees who are required to be paid pursuant to applicable federal or state minimum wage laws. From time to time, various federal and state legislators have proposed or approved changes to the minimum wage requirements, especially for fast-food workers. These and any future similar increases in other regions in which our restaurants operate will increase the cost of labor and may negatively affect our and our franchisees profit margins as we and our franchisees may be unable to increase our menu prices in order to pass future

increased labor costs on to our guests. Also, reduced margins of franchisees could make it more difficult to sell franchises. If menu prices are increased by us and our franchisees to cover increased labor costs, the higher prices could adversely affect transactions which could lower sales and thereby reduce our margins and the royalties that we receive from franchisees.

Although we require all workers in our company-owned restaurants and in our corporate support office to provide us with government-specified documentation evidencing their employment eligibility, some of our employees may, without our knowledge, be unauthorized workers. We currently participate in the “E-Verify” program, an Internet-based, free program run by the U.S. government to verify employment eligibility, in all of our company-owned restaurants and in our corporate support office. However, use of the “E-Verify” program does not guarantee that we will successfully identify all applicants who are ineligible for employment. Unauthorized workers may subject us to fines or penalties, and if any of our workers are found to be unauthorized, we could experience adverse publicity that negatively impacts our brand and it may be more difficult to hire and keep qualified employees. We could also become subject to fines, penalties and other costs related to claims that we did not fully comply with all recordkeeping obligations of federal and state employment eligibility or immigration compliance laws. Failure by our franchisees to comply with employment eligibility or immigration laws may also result in adverse publicity and reputational harm to our brand and could subject them to fines, penalties and other costs. These factors could materially adversely affect our business, financial condition or results of operations.

The impact of current laws and regulations, the effect of future changes in laws or regulations that impose additional requirements and the consequences of litigation relating to current or future laws and regulations, or our inability to respond effectively to significant regulatory or public policy issues, could increase our compliance and other costs of doing business and therefore have an adverse effect on our results of operations. Failure to comply with the laws and regulatory requirements of federal, state, local and foreign authorities could result in, among other things, revocation of required licenses, administrative enforcement actions, fines and civil and criminal liability. In addition, certain laws, including the ADA, could require us or our franchisees to expend significant funds to make modifications to our restaurants if we fail to comply with applicable standards. Compliance with all of these laws and regulations can be costly and can increase our exposure to litigation or governmental investigations or proceedings.

Our current insurance and the insurance of our franchisees may not provide adequate levels of coverage against claims.

We currently maintain insurance customary for businesses of our size and type. However, there are types of losses we may incur that cannot be insured against or that we believe are not economically reasonable to insure. Such losses could have a material adverse effect on our business and results of operations.

Our franchise agreements require each franchisee to maintain certain insurance types and levels. Certain extraordinary hazards, however, may not be covered, and insurance may not be available (or may be available only at prohibitively expensive rates) with respect to many other risks. Moreover, any loss incurred could exceed policy limits and policy payments made to franchisees may not be made on a timely basis. Any such loss or delay in payment could have a material adverse effect on a franchisee’s ability to satisfy obligations under the franchise agreement, including the ability to make royalty payments.

We also require franchisees to maintain general liability insurance coverage to protect against the risk of product liability and other risks and demand strict franchisee compliance with health and safety regulations. However, franchisees may receive or produce defective food or beverage products, which may materially adversely affect our brand’s goodwill and our business. Further, a franchisee’s failure to comply with health and safety regulations, including requirements relating to food quality or preparation, could subject them, and possibly us, to litigation. Any litigation, including the imposition of fines or damage awards, could exceed or be excluded from insurance coverage, and, as a result, adversely affect the ability of a franchisee to make royalty payments or could generate negative publicity or otherwise adversely affect us.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

We believe we have built our reputation on the high quality and bold, distinctive, and craveable flavors of our food, value, and service, and we must protect and grow the value of our brand to continue to be successful in the future. Any incident that erodes consumer affinity for our brand could significantly reduce its value and damage our business. For example, our brand value could suffer and our business could be adversely affected if customers perceive a reduction in the quality of our food, value, or service or otherwise believe we have failed to deliver a consistently positive experience. We may also be adversely affected by customers’ experiences with third-party delivery from our restaurants.

We may be adversely affected by news reports or other negative publicity, regardless of their accuracy, regarding food quality issues, public health concerns, illness, safety, injury, security breaches of confidential guest or employee information, employee related claims relating to alleged employment discrimination, wage and hour violation, labor standards or health care and

benefit issues, or government or industry findings concerning our restaurants, restaurants operated by other food service providers, or others across the food industry supply chain. The risks associated with such negative publicity cannot be eliminated or completely mitigated and may materially affect our business.

The availability of information on social media platforms is virtually immediate as is its impact. Many social media platforms immediately publish the content their subscribers and participants can post, often without filters or checks on accuracy of the content posted. The opportunity for dissemination of information, including inaccurate information, is seemingly limitless and readily available. Information concerning us may be posted on such platforms at any time. Information posted may be adverse to our interests and may be inaccurate, each of which may harm our performance, prospects, brand, or business. The harm may be immediate without affording us an opportunity for redress or correction. Negative publicity or incorrect information may materially adversely affect our reputation, business, financial condition and results of operations.

Our expansion into international markets exposes us to a number of risks that may differ in each country where we have franchise restaurants.

As of December 26, 2020, we have franchised restaurants in nine international countries and plan to continue to grow internationally. However, international operations are in early stages. Expansion in international markets may be affected by local economic, market and cultural conditions. Therefore, as we expand internationally, our franchisees may not experience the operating margins we expect, and our results of operations and growth may be materially adversely affected. Our financial condition and results of operations may be adversely affected if the global markets in which our franchised restaurants compete are affected by changes in political, economic, or other factors. These factors, over which neither our franchisees nor we have control, may include:

- recessionary or expansive trends in international markets;
- changing labor conditions and difficulties in staffing and managing our foreign operations;
- increases in the taxes we pay and other changes in applicable tax laws;
- legal and regulatory changes, and the burdens and costs of our compliance with a variety of foreign laws;
- changes in inflation rates;
- changes in exchange rates and the imposition of restrictions on currency conversion or the transfer of funds;
- difficulty in protecting our brand, reputation, and intellectual property;
- difficulty in collecting our royalties and longer payment cycles;
- expropriation of private enterprises;
- anti-American sentiment in certain locations and the identification of the Wingstop brand as an American brand;
- the impact of the United Kingdom's exit from the European Union;
- political and economic instability;
- the U.S. Foreign Corrupt Practices Act and other similar anti-bribery and anti-kickback laws; and
- other external factors.

Our international expansion efforts may require considerable management time as well as start-up expenses for market development before any significant revenues and earnings are generated. Operations in new foreign markets may achieve low margins or may be unprofitable, and expansion in existing markets may be affected by local economic and market conditions. Therefore, as we continue to expand internationally, we or our franchisees may not experience the operating margins we expect, our results of operations may be negatively impacted, and our common stock price may decline.

We depend upon our executive officers and other key employees and may not be able to retain or replace these individuals or recruit additional personnel, which could harm our business.

We believe that we have already benefited and expect to benefit substantially in the future from the leadership and experience of our executive officers and management team. Additionally, our business strategy includes successfully attracting and retaining talented employees. The market for highly skilled employees and leaders in the restaurant industry is extremely competitive. Our inability to successfully recruit and retain highly-skilled and talented executive officers and other key employees, or successfully execute succession planning, could have a material adverse effect on our business and prospects and impair our growth, as we may not be able to find suitable individuals to replace such personnel on a timely basis. In addition, the departure of any of our executive officers or key employees could be viewed in a negative light by investors and analysts, which could cause the price of our common stock to decline.

Our failure or inability to enforce our trademarks or other proprietary rights could adversely affect our competitive position or the value of our brand.

We believe that our trademarks and other proprietary rights are important to our success and our competitive position, and, therefore, we devote resources to the protection of our trademarks and proprietary rights. The protective actions that we take, however, may not be enough to prevent unauthorized use or imitation by others, which could harm our image, brand or competitive position. If we commence litigation to enforce our rights, we will incur significant legal fees.

We cannot assure you that third parties will not claim infringement by us of their proprietary rights in the future. Any such claim, whether or not it has merit, could be time-consuming and distracting for executive management, result in costly litigation, cause changes to existing menu items or delays in introducing new menu items, or require us to enter into royalty or licensing agreements. As a result, any such claim could have a material adverse effect on our business, results of operations, and financial condition.

Risks Related to our Indebtedness

The terms of our securitized debt financing through certain of our wholly-owned subsidiaries include restrictive terms, and our failure to comply with any of these terms could result in a default, which would have a material adverse effect on our business and prospects.

Unless and until we repay all outstanding borrowings under our securitized debt facility, we will remain subject to the restrictive terms of these borrowings. The securitized debt facility, under which certain of our wholly-owned subsidiaries issued and guaranteed fixed rate notes and variable funding notes, contain a number of covenants, with the most significant financial covenant being a debt service coverage calculation. These covenants limit our ability and the ability of certain of our subsidiaries to, among other things:

- incur additional indebtedness;
- alter the business we conduct;
- make certain changes to the composition of our management team;
- pay dividends and make other restrictive payments beyond specified levels;
- create or permit liens;
- dispose of certain assets;
- make certain investments;
- engage in certain transactions with affiliates; and
- consolidate, merge or transfer all or substantially all of our assets.

The securitized debt facility also requires us to maintain specified financial ratios. Our ability to meet these financial ratios can be affected by events beyond our control, and we may not satisfy such a test. A breach of these covenants could result in a rapid amortization event or default under the securitized debt facility. If amounts owed under the securitized debt facility are accelerated because of a default and we are unable to pay such amounts, the investors may have the right to assume control of substantially all of the securitized assets. In the event that a rapid amortization event occurs under the indenture governing the securitized debt (including, without limitation, upon an event of default under the indenture or the failure to repay the securitized debt at the end of the applicable term), the funds available to us would be reduced or eliminated, which would in turn reduce our ability to operate or grow our business and materially adversely affect our results of operations.

If we are unable to refinance or repay amounts under the securitized debt facility prior to the expiration of the applicable term, our cash flow would be directed to the repayment of the securitized debt and, other than management fees sufficient to cover minimal selling, general and administrative expenses, would not be available for operating our business. No assurance can be given that any refinancing or additional financing will be possible when needed or that we will be able to negotiate acceptable terms. In addition, our access to capital is affected by prevailing conditions in the financial and capital markets and other factors beyond our control. There can be no assurance that market conditions will be favorable at the times that we require new or additional financing.

We may be unable to generate sufficient cash flow to satisfy our significant debt service obligations, which would materially adversely affect our financial condition and results of operations.

Our ability to make principal and interest payments on and to refinance our indebtedness will depend on our ability to generate cash in the future, which, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory, and other factors that are beyond our control. If our business does not generate sufficient cash flow from operations, in the amounts projected or at all, or if future borrowings are not available to us under our variable funding notes in amounts sufficient to fund our other liquidity needs, our financial condition and results of operations may be materially adversely affected. If we cannot generate sufficient cash flow from operations to make scheduled principal amortization and interest payments on our debt obligations in the future, we may need to refinance all or a portion of our indebtedness on or before maturity, sell assets, delay capital expenditures, or seek additional equity investments.

Risks Related to Ownership of our Common Stock

Our stock price may be volatile or may decline regardless of our operating performance.

The market price of our common stock may fluctuate significantly in response to a number of factors, most of which we cannot control, including those described under “Risks Related to Our Business and Our Industry” and the following:

- potential fluctuation in our annual or quarterly operating results;
- changes in capital market conditions that could affect valuations of restaurant companies in general or our goodwill in particular or other adverse economic conditions;
- changes in financial estimates by any securities analysts who follow our common stock, our failure to meet these estimates or failure of those analysts to initiate or maintain coverage of our common stock;
- downgrades by any securities analysts who follow our common stock;
- future sales of our common stock by our officers, directors and significant stockholders;
- global economic, legal and regulatory factors unrelated to our performance;
- investors’ perceptions of our prospects;
- announcements by us or our competitors of significant contracts, acquisitions, joint ventures or capital commitments; and
- investor perceptions of the investment opportunity associated with our common stock relative to other investment alternatives.

In addition, the stock markets, and in particular Nasdaq, have experienced extreme price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many food service companies. In the past, stockholders have instituted securities class action litigation following periods of market volatility. If we were involved in securities litigation, we could incur substantial costs and our resources and the attention of management could be diverted from our business.

Anti-takeover provisions in our charter documents and under Delaware law could make an acquisition of us more difficult, limit attempts by our stockholders to replace or remove our current management and limit the market price of our common stock.

Provisions in our amended and restated certificate of incorporation and amended and restated bylaws may have the effect of delaying or preventing a change of control or changes in our management. Our amended and restated certificate of incorporation and amended and restated bylaws include provisions that:

- authorize our board of directors to issue, without further action by the stockholders, up to 15,000,000 shares of undesignated preferred stock;
- require that any action to be taken by our stockholders be effected at a duly called annual or special meeting and not by written consent;
- specify that special meetings of our stockholders can be called only upon the request of a majority of our board of directors or by the chairman of the board of directors;
- establish an advance notice procedure for stockholder proposals to be brought before an annual meeting, including proposed nominations of persons for election to our board of directors;
- establish that our board of directors is divided into three classes, with each class serving staggered three-year terms; and
- prohibit cumulative voting in the election of directors.

These provisions may frustrate or prevent any attempts by our stockholders to replace or remove our current management by making it more difficult for stockholders to replace members of our board of directors, which is responsible for appointing the members of our management, and may discourage, delay or prevent a transaction involving a change of control of our company that is in the best interest of our minority stockholders. Even in the absence of a takeover attempt, the existence of these provisions may adversely affect the prevailing market price of our common stock if stockholders view them as discouraging future takeover attempts. In addition, we have opted out of the Delaware General Corporation Law (“DGCL”) Section 203, relating to business combinations with interested stockholders, but our amended and restated certificate of incorporation provides that engaging in any of a broad range of business combinations with any “interested” stockholder (any stockholder with 15% or more of our capital stock) for a period of three years following the date on which the stockholder became an “interested” stockholder is prohibited, subject to certain exceptions.

Our amended and restated certificate of incorporation designates the Court of Chancery of the State of Delaware as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our stockholders, which could limit our stockholders’ ability to obtain a favorable judicial forum for disputes with us or our directors, officers or employees.

Our amended and restated certificate of incorporation provides that, unless we consent in writing to an alternative forum, the Court of Chancery of the State of Delaware will be the sole and exclusive forum, to the fullest extent permitted by law, for (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any of our directors, officers and employees to us or our stockholders, (iii) any action asserting a claim arising pursuant to any provision of the DGCL, our amended and restated certificate of incorporation or our amended and restated bylaws or (iv) any action asserting a claim that is governed by the internal affairs doctrine, in each case subject to the Court of Chancery having personal jurisdiction over the indispensable parties named as defendants therein. Any person purchasing or otherwise acquiring any interest in any shares of our capital stock shall be deemed to have notice of and to have consented to this provision of our amended and restated certificate of incorporation. This choice of forum provision may limit our stockholders’ ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers or employees, which may discourage such lawsuits against us and our directors, officers and employees even though an action, if successful, might benefit our stockholders. Stockholders who do bring a claim in the Court of Chancery could face additional litigation costs in pursuing any such claim. The Court of Chancery may also reach different judgments or results than would other courts, including courts where a stockholder considering an action may be located or would otherwise choose to bring the action, and such judgments or results may be more favorable to us than to our stockholders. In addition, the enforceability of similar choice of forum provisions in other companies’ certificates of incorporation has been challenged in legal proceedings, and it is possible that, in connection with any applicable action brought against us, a court could find the choice of forum provisions contained in our amended and restated certificate of incorporation to be inapplicable or unenforceable in such action.

We may not continue to declare cash dividends in the future.

In August 2017, we announced that our board of directors authorized a regular dividend program under which we have paid, and intend to continue paying, quarterly dividends on our common stock, subject to quarterly declarations by our board of directors. In addition, we have paid special dividends in connection with refinancings of our indebtedness. Any future declarations of dividends, as well as the amount and timing of such dividends, are subject to capital availability and the discretion of our board of directors, which must evaluate, among other things, whether cash dividends are in the best interest of our stockholders and are in compliance with all applicable laws and any agreements containing provisions that limit our ability to declare and pay cash dividends.

Our ability to pay dividends in the future will depend upon, among other factors, our cash balances and potential future capital requirements, debt service requirements, earnings, financial condition, the general economic and regulatory climate and other factors beyond our control that our board of directors may deem relevant. Our dividend payments may change from time to time, and we may not continue to declare dividends in the future. A reduction in or elimination of our dividend payments could have a negative effect on our stock price.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

During fiscal year 2019, we purchased an office building in Addison, Texas, which contains approximately 78,000 square feet of office space. The building is currently undergoing renovation in order to prepare it for use as our corporate headquarters. We also lease approximately 43,000 square feet of office space located in Dallas, Texas under an operating lease with a third-party landlord.

All company-owned restaurants are leased by us, typically under five- to ten-year leases with one or two five-year renewal options, often contain rent escalation provisions, and generally require us to pay a proportionate share of real estate taxes, insurance and common area and other operating costs in addition to base or fixed rent. All domestic and international franchise restaurants are leased or owned directly by the respective franchisees. We believe that our existing headquarters and other leased and owned facilities are adequate to meet our current requirements.

Due to lower square footage requirements, our restaurants can be located in a variety of locations. They tend to be located primarily in shopping centers, as in-line or end-cap locations. Our restaurants generally occupy approximately 1,700 square feet of leased retail space. As of December 26, 2020, we and our franchisees operated 1,538 restaurants in 44 states and 10 countries.

Item 3. Legal Proceedings

From time to time we may be involved in claims and legal actions that arise in the ordinary course of business. To our knowledge, there are no material pending legal proceedings to which we are a party or of which any of our property is the subject.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our common stock trades on the NASDAQ Global Select Market under the symbol “WING”.

As of February 16, 2021, there were 5 stockholders of record of our common stock. This number excludes stockholders whose stock is held in nominee or street name by brokers.

Recent Sales of Unregistered Securities

There were no sales of unregistered securities during the fiscal year ended December 26, 2020 that were not previously reported on a Quarterly Report on Form 10-Q or a Current Report on Form 8-K.

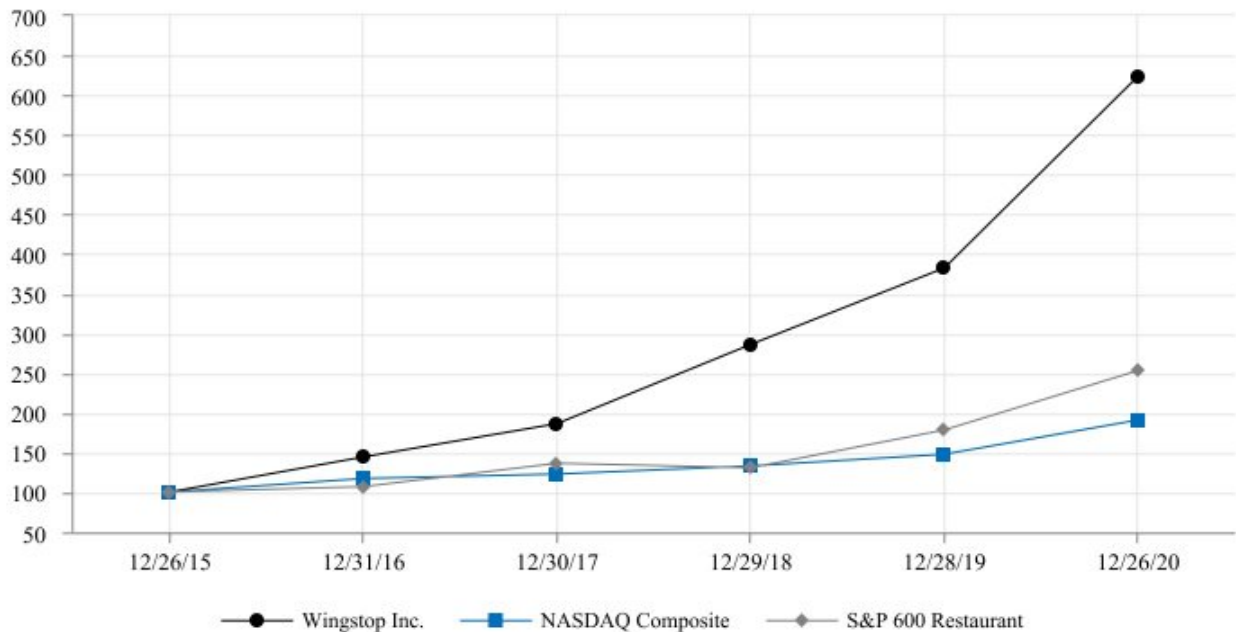

Issuer Purchases of Equity Securities

We did not repurchase any of our equity securities during the fourth quarter of the fiscal year ended December 26, 2020.

Performance Graph

The following performance graph compares the dollar change in the cumulative stockholder return on our common stock with the cumulative total returns of the NASDAQ Composite Index and the S&P 600 Restaurants Index. This graph assumes a \$100 investment in our common stock and in each of the foregoing indices on December 26, 2015, and assumes the reinvestment of dividends, if any. The indices are included for comparative purposes only. They do not necessarily reflect management’s opinion that such indices are an appropriate measure of the relative performance of our common stock, and historical stock price performance should not be relied upon as an indication of future stock price performance. This graph is furnished and not “filed” with the SEC and it is not “soliciting material”, and should not be incorporated by reference in any of our filings under the Securities Act or the Exchange Act, whether made before or after the date hereof and irrespective of any general incorporation language in such filing.

Comparison of Cumulative Total Return

Dividends on Common Stock

Please refer to “Note 3 - Dividends” of the Notes to the Consolidated Financial Statements for information on dividends declared and paid in the fiscal years ended December 26, 2020 and December 28, 2019.

On February 16, 2021, the Company’s board of directors declared a quarterly dividend of \$0.14 per share of common stock, to be paid on March 26, 2021 to stockholders of record as of March 5, 2021, totaling approximately \$4.2 million.

We evaluate dividend payments on common stock within the context of our overall capital allocation strategy with our board of directors on an ongoing basis, giving consideration to our current and forecast earnings, financial condition, cash requirements and other factors. There can be no assurance that we will continue to pay such dividends or the amount of such dividends.

Item 6. Selected Financial Data

Pursuant to the early adoption of SEC Final Rule Release No. 33-10890, *Management's Discussion and Analysis, Selected Financial Data, and Supplementary Financial Information*, the Company has elected to omit Item 6. Selected Financial Data.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the accompanying audited consolidated financial statements and notes. Forward-looking statements in this MD&A are not guarantees of future performance and may involve risks and uncertainties that could cause actual results to differ materially from those projected. Refer to "Cautionary Note Regarding Forward-Looking Statements" elsewhere in this report and Item 1A. Risk Factors for a discussion of these risks and uncertainties.

A comparison of our results of operations and cash flows for fiscal year 2019 compared to fiscal year 2018 can be found under "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended December 28, 2019, filed with the SEC on February 19, 2020.

Overview

Wingstop is the largest fast casual chicken wings-focused restaurant chain in the world and has demonstrated strong, consistent growth. As of December 26, 2020, we had a total 1,538 restaurants in our system. Our restaurant base is 98% franchised, with 1,506 franchised locations (including 179 international locations) and 32 company-owned restaurants as of December 26, 2020. We generate revenues by charging royalties, advertising fees and franchise fees to our franchisees and by operating a number of our own restaurants.

Historically, the Company had two reporting segments: franchise operations and company restaurant operations. In accordance with Accounting Standards Codification 280 "Segment Reporting", the Company uses the management approach for determining its reportable segments. The management approach is based upon the way management reviews performance and allocates resources. During the second fiscal quarter of 2020, the Company reevaluated its operating segments and determined it has one operating segment and one reporting segment due to changes in how the Company's chief operating decision maker assesses the Company's performance and allocates resources.

We plan to grow our business by opening new franchised restaurants and increasing our same store sales, while leveraging our franchise model to create shareholder value. Domestic same store sales have increased for 17 consecutive years beginning in 2004, which includes 5-year cumulative domestic same stores sales growth of 44.8% since the beginning of fiscal year 2016. We believe our asset-light, highly-franchised business model generates strong operating margins and requires low capital expenditures, creating shareholder value through strong and consistent free cash flow and capital-efficient growth.

Impact of COVID-19

In March 2020, the novel coronavirus ("COVID-19") outbreak was declared a pandemic by the World Health Organization, significantly changing consumer behaviors as individuals are being encouraged to practice social distancing. This pandemic led to restaurants reducing restaurant seating capacity, and in some cases restaurant closures, due to various restrictions mandated by governments around the world. As of March 16, 2020, we made the decision to close our domestic dining rooms and limit our service to carryout and delivery only. Several of our international franchisees also closed their dining rooms as a result of the outbreak. Our domestic business was well-positioned for the transition to largely off-premise dining that has resulted from the outbreak. As a result of the required changes to consumer behavior to largely off-premise dining, as well as promotional activities associated with delivery, we experienced an increase in domestic same store sales growth through the end of the fourth quarter of 2020. Our international markets, which have historically had a higher mix of dine-in sales, have seen an overall decline in same store sales growth due to the required closure of dining rooms and, in some cases, temporary restaurant closures.

Highlights for Fiscal Year 2020:

- System-wide restaurant count increased 11.0% over the prior fiscal year to a total of 1,538 worldwide locations, driven by 153 net unit openings;
- Domestic same store sales increased 21.4% over the prior fiscal year;
- Company-owned restaurant same store sales increased 14.2% over the prior fiscal year;
- Digital sales increased to 62.5% over the prior fiscal year;
- Domestic restaurant AUV increased to approximately \$1.5 million;
- System-wide sales increased 28.8% over the prior fiscal year to approximately \$2.0 billion;
- Total revenue increased 24.6% over the prior fiscal year to \$248.8 million; and
- Net income increased 13.8% over the prior fiscal year to \$23.3 million, or \$0.78 per diluted share, compared to \$20.5 million, or \$0.69 per diluted share in the prior fiscal year. Adjusted net income and adjusted earnings per diluted share

increased 49.7% over the prior fiscal year to \$32.5 million, or \$1.09 per diluted share, compared to \$21.7 million and \$0.73 per diluted share in the prior fiscal year.

- Adjusted EBITDA increased 26.1% over the prior fiscal year to \$71.9 million.

Key Performance Indicators

Key measures that we use in evaluating our restaurants and assessing our business include the following:

Number of restaurants. Management reviews the number of new restaurants, the number of closed restaurants, and the number of acquisitions and divestitures of restaurants to assess net new restaurant growth, system-wide sales, royalty and franchise fee revenue and company-owned restaurant sales.

	Year Ended	
	December 26, 2020	December 28, 2019
Domestic Franchised Activity:		
Beginning of period	1,200	1,095
Openings	131	114
Closures	(5)	(8)
Acquired by Company	(6)	(1)
Re-franchised by Company	7	—
Restaurants end of period	1,327	1,200
Domestic Company-Owned Activity:		
Beginning of period	31	29
Openings	2	1
Closures	—	—
Acquired from franchisees	6	1
Re-franchised to franchisees	(7)	—
Restaurants end of period	32	31
Total Domestic Restaurants	1,359	1,231
International Franchised Activity:		
Beginning of period	154	128
Openings	26	31
Closures	(1)	(5)
Restaurants end of period	179	154
Total System-wide Restaurants	1,538	1,385

System-wide sales. System-wide sales represents net sales for all of our company-owned and franchised restaurants. This measure allows management to better assess changes in our royalty revenue, our overall store performance, the health of our brand and the strength of our market position relative to competitors. Our system-wide sales growth is driven by new restaurant openings as well as increases in same store sales.

Domestic average unit volume (“AUV”). Domestic AUV consists of the average annual sales of all restaurants that have been open for a trailing 52-week period or longer. This measure is calculated by dividing sales during the applicable period for all restaurants being measured by the number of restaurants being measured. Domestic AUV includes revenue from both company-owned and franchised restaurants. Domestic AUV allows management to assess our domestic company-owned and franchised restaurant economics. Our domestic AUV growth is primarily driven by increases in same store sales and is also influenced by opening new restaurants.

Domestic same store sales. Domestic same store sales reflects the change in year-over-year sales for the same store base. We define the same store base to include those restaurants open for at least 52 full weeks. This measure highlights the performance of existing restaurants, while excluding the impact of new restaurant openings and closures. We review same store sales for

domestic company-owned restaurants as well as system-wide domestic restaurants. Domestic same store sales growth is driven by increases in transactions and average transaction size. Transaction size increases are driven by price increases or favorable mix shift from either an increase in items purchased or shifts into higher priced items.

EBITDA and Adjusted EBITDA. We define EBITDA as net income before interest expense, net, income tax expense, and depreciation and amortization. We define Adjusted EBITDA as net income before interest expense, net, income tax expense, and depreciation and amortization, with further adjustments for losses on debt extinguishment and refinancing transactions, transaction costs, costs and fees associated with investments in our strategic initiatives, gains and losses on the disposal of assets, and stock-based compensation expense. Adjusted EBITDA may not be comparable to other similarly titled captions of other companies due to differences in methods of calculation. For a reconciliation of net income to EBITDA and Adjusted EBITDA and for further discussion of EBITDA and Adjusted EBITDA as non-GAAP measures and how we utilize them, see footnote 2 below.

Adjusted Net Income and Adjusted Earnings Per Diluted Share. We define Adjusted net income as net income adjusted for losses on debt extinguishment and refinancing transactions, transaction costs, costs and fees associated with investments in our strategic initiatives, gains and losses on the disposal of assets, and related tax adjustments. We define Adjusted earnings per diluted share as Adjusted net income divided by weighted average diluted share count. For a reconciliation of net income to Adjusted net income and for further discussion of Adjusted net income and Adjusted earnings per diluted share as non-GAAP measures and how we utilize them, see footnote 3 below.

The following table sets forth our key performance indicators for the fiscal years ended December 26, 2020 and December 28, 2019 (in thousands, except unit data):

	Year ended	
	December 26, 2020	December 28, 2019
Number of system-wide restaurants at period end	1,538	1,385
System-wide sales ⁽¹⁾	\$ 1,950,570	\$ 1,514,590
Domestic restaurant AUV	\$ 1,489	\$ 1,246
Domestic same store sales growth	21.4 %	11.1 %
Company-owned domestic same store sales growth	14.2 %	9.8 %
Total revenue	\$ 248,811	\$ 199,676
Net income	\$ 23,306	\$ 20,476
Adjusted EBITDA ⁽²⁾	\$ 71,882	\$ 56,989
Adjusted net income ⁽³⁾	\$ 32,500	\$ 21,716

(1) The percentage of system-wide sales attributable to company-owned restaurants was 3.2% and 3.7% for the fiscal years ended December 26, 2020 and December 28, 2019, respectively. The remainder was generated by franchised restaurants, as reported by our franchisees.

(2) EBITDA and Adjusted EBITDA are supplemental measures of our performance that are not required by, or presented in accordance with, accounting principles generally accepted in the United States ("GAAP"). EBITDA and Adjusted EBITDA should not be considered as an alternative to net income or any other performance measure derived in accordance with GAAP, or as an alternative to cash flows from operating activities as a measure of our liquidity.

We caution investors that amounts presented in accordance with our definitions of EBITDA and Adjusted EBITDA may not be comparable to similar measures disclosed by our competitors, because not all companies and analysts calculate EBITDA and Adjusted EBITDA in the same manner. We present EBITDA and Adjusted EBITDA because we consider them to be important supplemental measures of our performance and believe they are frequently used by securities analysts, investors, and other interested parties in the evaluation of companies in our industry. Management believes that investors' understanding of our performance is enhanced by including these non-GAAP financial measures as a reasonable basis for comparing our ongoing results of operations. Many investors are interested in understanding the performance of our business by comparing our results from ongoing operations on a period-over-period basis and would ordinarily add back non-cash expenses such as depreciation and amortization, as well as items that are not part of normal day-to-day operations of our business.

Management uses EBITDA and Adjusted EBITDA:

- as a measurement of operating performance because they assist us in comparing the operating performance of our restaurants on a consistent basis, as they remove the impact of items not directly resulting from our core operations;
- for planning purposes, including the preparation of our internal annual operating budget and financial projections;
- to evaluate the performance and effectiveness of our operational strategies;
- to evaluate our capacity to fund capital expenditures and expand our business; and
- to calculate incentive compensation payments for our employees, including assessing performance under our annual incentive compensation plan and determining the vesting of performance-based equity awards.

By providing these non-GAAP financial measures, together with a reconciliation to the most comparable GAAP measure, we believe we are enhancing investors' understanding of our business and our results of operations, as well as assisting investors in evaluating how well we are executing our strategic initiatives. In addition, the instruments governing our indebtedness use EBITDA (with additional adjustments) to measure our compliance with covenants, such as our fixed charge coverage, lease adjusted leverage, and debt incurrence. EBITDA and Adjusted EBITDA have limitations as analytical tools and should not be considered in isolation, or as an alternative to, or a substitute for net income or other financial statement data presented in our consolidated financial statements as indicators of financial performance. Some of the limitations are:

- such measures do not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;
- such measures do not reflect changes in, or cash requirements for, our working capital needs;
- such measures do not reflect the interest expense or the cash requirements necessary to service interest or principal payments on our debt;
- such measures do not reflect our tax expense or the cash requirements to pay our taxes;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future and such measures do not reflect any cash requirements for such replacements; and
- other companies in our industry may calculate such measures differently than we do, limiting their usefulness as comparative measures.

Due to these limitations, EBITDA and Adjusted EBITDA should not be considered as measures of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using these non-GAAP measures only supplementally. As noted in the table below, Adjusted EBITDA includes adjustments for losses on debt extinguishment and refinancing transactions, transaction costs, costs and fees associated with investments in our strategic initiatives, gains and losses on the disposal of assets, and stock-based compensation expense. It is reasonable to expect that these items will occur in future periods. However, we believe these adjustments are appropriate because the amounts recognized can vary significantly from period to period, do not directly relate to the ongoing operations of our restaurants, and complicate comparisons of our internal operating results and operating results of other restaurant companies over time. Each of the normal recurring adjustments and other adjustments described in this paragraph and in the reconciliation table below help management measure our core operating performance over time by removing items that are not related to day-to-day operations.

The following table reconciles net income to EBITDA and Adjusted EBITDA for the fiscal years ended December 26, 2020 and December 28, 2019 (in thousands):

	Year ended	
	December 26, 2020	December 28, 2019
Net income	\$ 23,306	\$ 20,476
Interest expense, net	16,782	17,136
Income tax expense	3,637	5,289
Depreciation and amortization	7,518	5,484
EBITDA	\$ 51,243	\$ 48,385
Additional adjustments:		
Loss on debt extinguishment and refinancing transactions ^(a)	13,816	—
Gain on disposal of assets, net ^(b)	(3,093)	—
Consulting fees ^(c)	1,358	1,630
Stock-based compensation expense ^(d)	8,558	6,974
Adjusted EBITDA	\$ 71,882	\$ 56,989

^(a) Represents costs and expenses related to the refinancing of our securitized financing facility and payment of a special dividend; all transaction costs are included in Loss on debt extinguishment and refinancing transactions on the Consolidated Statements of Operations, with the exception of \$151,000 during the year ended December 26, 2020 that is included in Selling, general and administrative expense on the Consolidated Statements of Operations.

^(b) Represents a gain resulting from the re-franchise of company-owned restaurants to franchisees, which is included in Gain on sale of restaurants and other expenses, net on the Consolidated Statements of Operations.

^(c) Represents costs and expenses related to consulting projects to support the Company's strategic initiatives, which are included in Selling, general and administrative expense on the Consolidated Statements of Operations.

^(d) Includes non-cash, stock-based compensation.

(3) Adjusted net income and adjusted earnings per diluted share are supplemental measures of operating performance that do not represent and should not be considered alternatives to net income and earnings per share, as determined by GAAP. These measures have not been prepared in accordance with Article 11 of Regulation S-X promulgated under the Securities Act. Management believes adjusted net income and adjusted earnings per diluted share supplement GAAP measures and enable management to more effectively evaluate the Company's performance period-over-period and relative to competitors.

The following table reconciles net income to Adjusted net income and calculates adjusted earnings per diluted share for the fiscal years ended December 26, 2020 and December 28, 2019 (in thousands):

	Year Ended	
	December 26, 2020	December 28, 2019
Numerator:		
Net income	\$ 23,306	\$ 20,476
Adjustments:		
Loss on debt extinguishment and refinancing transactions ^(a)	13,816	—
Gain on disposal of assets, net ^(b)	(3,093)	—
Consulting fees ^(c)	1,358	1,630
Tax effect of adjustments ^(d)	(2,887)	(390)
Adjusted net income	\$ 32,500	\$ 21,716
Denominator:		
Weighted-average shares outstanding - diluted	29,804	29,670
Adjusted earnings per diluted share	\$ 1.09	\$ 0.73

^(a) Represents costs and expenses related to the refinancing of our securitized financing facility and payment of a special dividend; all transaction costs are included in Loss on debt extinguishment and refinancing transactions with the exception of \$151,000 during the year ended December 26, 2020 that is included in Selling, general and administrative expense on the Consolidated Statements of Operations.

^(b) Represents a gain resulting from the re-franchise of company-owned restaurants to franchisees which is included in Gain on sale of restaurants and other expenses, net on the Consolidated Statements of Operations.

^(c) Represents costs and expenses related to a consulting project to support the Company's strategic initiatives, which are included in Selling, general and administrative expense on the Consolidated Statements of Operations.

^(d) Represents the tax effect of the aforementioned adjustments to reflect corporate income taxes at an assumed effective tax rate of 24% for the periods ended December 26, 2020 and December 28, 2019, which includes provisions for U.S. federal income taxes, and assumes the respective statutory rates for applicable state and local jurisdictions.

Results of Operations

Year ended December 26, 2020 compared to year ended December 28, 2019

The following table sets forth the Consolidated Statements of Operations for fiscal year 2020 and fiscal year 2019 (in thousands, except for percentages):

	Year ended		Increase / (Decrease)	
	December 26, 2020	December 28, 2019	\$	%
Revenue:				
Royalty revenue, franchise fees and other	\$ 108,883	\$ 88,291	\$ 20,592	23.3 %
Advertising fees	74,930	55,932	18,998	34.0 %
Company-owned restaurant sales	64,998	55,453	9,545	17.2 %
Total revenue	248,811	199,676	49,135	24.6 %
Costs and expenses:				
Cost of sales ⁽¹⁾	48,583	41,105	7,478	18.2 %
Advertising expenses	69,428	52,891	16,537	31.3 %
Selling, general and administrative	68,985	57,295	11,690	20.4 %
Depreciation and amortization	7,518	5,484	2,034	37.1 %
Gain on sale of restaurants and other expenses, net	(3,093)	—	(3,093)	N/A
Total costs and expenses	191,421	156,775	34,646	22.1 %
Operating income	57,390	42,901	14,489	33.8 %
Interest expense, net	16,782	17,136	(354)	(2.1)%
Loss on debt extinguishment and refinancing transactions	13,665	—	13,665	N/A
Income before income tax expense	26,943	25,765	1,178	4.6 %
Income tax expense	3,637	5,289	(1,652)	(31.2)%
Net income	\$ 23,306	\$ 20,476	\$ 2,830	13.8 %

⁽¹⁾ Cost of sales includes all operating expenses of company-owned restaurants, including advertising expenses, and excludes depreciation and amortization, which are presented separately.

Total Revenue. Total revenue consists of the collection of development fees, franchise fees, royalties, and other fees associated with franchise and development rights, contributions to the Ad Fund, and sales of wings and other food and beverage products by our company-owned restaurants. Total revenue was \$248.8 million in fiscal year 2020, an increase of \$49.1 million, or 24.6%, compared to \$199.7 million in the prior fiscal year. These changes in revenues are more fully described below.

Royalty revenue, franchise fees and other. Royalty revenue and franchise fees were \$108.9 million in fiscal year 2020, an increase of \$20.6 million, or 23.3%, compared to \$88.3 million in the prior fiscal year. Royalty revenue increased by \$23.4 million primarily due to 152 net franchise restaurant openings since December 28, 2019 as well as domestic same store sales growth of 21.4%. Other revenue decreased \$2.4 million primarily due to contributions received for our franchisee convention that occurred in the fourth quarter of 2019.

Advertising fees. Ad Fund contributions are earned from domestic franchisees based on a percentage of gross sales net of discounts. Ad Fund contributions were equal to 4% in fiscal years 2019 and 2020.

Advertising fees were \$74.9 million in fiscal year 2020, an increase of \$19.0 million, or 34.0%, compared to \$55.9 million in the comparable period in 2019. Advertising fees increased primarily due to the increase in domestic system-wide sales in fiscal year 2020 compared to the prior fiscal year.

Company-owned restaurant sales. Company-owned restaurant sales were \$65.0 million in fiscal year 2020, an increase of \$9.5 million, or 17.2%, compared to \$55.5 million in the prior fiscal year. The increase was primarily due to an increase in company-owned same store sales of 14.2%, which was driven by both an increase in transaction size and transactions, as well as an

increase in the number of company-owned restaurants. Since the beginning of the prior fiscal year period, we acquired seven company-owned restaurants from franchisees, opened three new company-owned restaurants, and refranchised seven company-owned restaurants to franchisees.

Cost of sales. The table below presents the major components of Cost of sales (in thousands, except for percentages):

	Year ended		Year ended	
	December 26, 2020	As a % of company- owned restaurant sales	December 28, 2019	As a % of company- owned restaurant sales
Cost of sales:				
Food, beverage and packaging costs	23,303	35.9 %	20,317	36.6 %
Labor costs	15,801	24.3 %	12,582	22.7 %
Other restaurant operating expenses	10,821	16.6 %	9,794	17.7 %
Vendor rebates	(1,342)	(2.1) %	(1,588)	(2.9) %
Total cost of sales	<u>\$ 48,583</u>	<u>74.7 %</u>	<u>\$ 41,105</u>	<u>74.1 %</u>

Food, beverage and packaging costs as a percentage of company-owned restaurant sales were 35.9% in fiscal year 2020 compared to 36.6% in the prior fiscal year. The decrease is primarily due to a 3.3% decrease in the cost of bone-in chicken wings compared to the prior fiscal year.

Labor costs as a percentage of company-owned restaurant sales were 24.3% in fiscal year 2020 compared to 22.7% in the prior fiscal year. The increase as a percentage of company-owned restaurant sales was primarily due to incentive pay provided to team members in response to the COVID-19 pandemic. This increase was partially offset by the increase in company-owned domestic same store sales of 14.2%.

Other restaurant operating expenses as a percentage of company-owned restaurant sales were 16.6% in fiscal year 2020 compared to 17.7% in the prior fiscal year. The decrease as a percentage of company-owned restaurant sales was due to sales leverage achieved as a result of the increase in company-owned same store sales of 14.2%. This decrease was slightly offset by an increase in delivery fees payable to third-party delivery providers due to the growth in delivery mix as a percent of total sales during fiscal year 2020.

Advertising expenses. Advertising expenses were \$69.4 million in fiscal year 2020, an increase of \$16.5 million, or 31.3%, compared to \$52.9 million in the prior fiscal year, primarily due to domestic system-wide sales growth. Advertising expenses are recognized at the same time the related revenue is recognized, which does not necessarily correlate to the actual timing of the related advertising spend.

Selling, general and administrative ("SG&A"). SG&A expense was \$69.0 million in fiscal year 2020, an increase of \$11.7 million, or 20.4%, compared to \$57.3 million in the prior fiscal year. The increase in SG&A expense was primarily due to approximately \$5.5 million in higher variable performance-based compensation expense, inclusive of stock-based compensation expense, and \$1.9 million in headcount-related expenses to support the growth in our business, and an increase of \$1.4 million associated with additional expenses to support our national advertising campaign, which has an equal and offsetting contribution in revenue. We also incurred expenses of \$2.8 million related to COVID-19 and support provided to international franchisees, \$1.4 million in consulting fees related to support for strategic initiatives, and a one-time donation to the National Restaurant Employee Relief Fund of \$1.0 million to support restaurant workers in times of need. These increases were slightly offset by a \$2.1 million decrease in travel expenses, as well as a \$1.8 million decrease in convention expenses related to the franchisee convention that occurred in the fourth quarter of 2019.

Depreciation and amortization. Depreciation and amortization was \$7.5 million in fiscal year 2020, an increase of \$2.0 million, or 37.1%, compared to \$5.5 million in the prior fiscal year. The increase in depreciation and amortization expense was primarily due to accelerated depreciation on certain assets.

Gain on sale of restaurants and other expense, net. Gain on sale of restaurants and other expense, net increased primarily due to the gain recognized due to the sale of seven company-owned restaurants to franchisees.

Interest expense, net. Interest expense, net was \$16.8 million in fiscal year 2020, a decrease of \$0.4 million, or 2.1%, compared to \$17.1 million in the prior fiscal year. The decrease was due to the refinancing of our securitized financing facility on October 30, 2020, which increased our outstanding debt by \$162.4 million and reduced our interest rate from 4.97% to 2.84%.

Loss on debt extinguishment and refinancing transactions. Loss on debt extinguishment and refinancing transactions was \$13.7 million due to costs and fees associated with the refinancing of our securitized financing facility on October 30, 2020.

Income tax expense. Income tax expense was \$3.6 million in fiscal year 2020, yielding an effective tax rate of 13.5%, compared to an effective tax rate of 20.5% in the prior fiscal year. The decrease in the effective tax rate was primarily due to the impact of excess tax benefits associated with stock options exercised during fiscal year 2020.

Liquidity and Capital Resources

General. Our primary sources of liquidity and capital resources are cash provided from operating activities, cash and cash equivalents on hand, and proceeds from the incurrence of debt. Our primary requirements for liquidity and capital are working capital and general corporate needs. Historically, we have operated with minimal positive working capital or with negative working capital. We have in the past, and may in the future, refinance our existing indebtedness with new debt arrangements and utilize a portion of borrowings to return capital to our stockholders. We believe that our sources of liquidity and capital will be sufficient to finance our continued operations and growth strategy for at least the next twelve months.

The following table shows summary cash flows information for the fiscal years 2020 and 2019 (in thousands):

	Year ended	
	December 26, 2020	December 28, 2019
Net cash provided by (used in):		
Operating activities	\$ 65,530	\$ 38,583
Investing activities	(7,987)	(23,731)
Financing activities	(19,448)	(14,617)
Net change in cash and cash equivalents	\$ 38,095	\$ 235

Operating activities. Our cash flows from operating activities are principally driven by sales at both franchise restaurants and company-owned restaurants, as well as franchise and development fees. We collect franchise royalties from our franchise owners on a weekly basis. Restaurant-level operating costs at our company-owned restaurants, unearned franchise and development fees, and corporate overhead costs also impact our cash flows from operating activities.

Net cash provided by operating activities was \$65.5 million in fiscal year 2020, an increase of \$26.9 million from cash provided by operating activities of \$38.6 million in the prior fiscal year. The increase is primarily due to the timing of changes in working capital as well as an increase in royalties and advertising fees due to the increase in system-wide sales.

Investing activities. Our net cash used in investing activities was \$8.0 million in fiscal year 2020, a decrease of \$15.7 million, from \$23.7 million in fiscal year 2019. The decrease in cash used in investing activities was primarily due to the purchase of a new corporate headquarters building for \$18.3 million during fiscal year 2019.

Financing activities. Our net cash used in financing activities was \$19.4 million in fiscal year 2020, an increase of \$4.8 million, from cash used in financing activities of \$14.6 million in fiscal year 2019. The increase was primarily due to an increase in the regular quarterly dividend, which totaled \$14.3 million in fiscal year 2020, compared to \$11.7 million in fiscal year 2019. Additionally, in fiscal year 2020, we paid a special dividend in connection with the refinancing of our debt totaling \$148.4 million and incurred deferred financing and other debt related costs of \$18.6 million, which were funded by additional net borrowings of \$162.4 million.

Securitized financing facility. On October 30, 2020, the Company completed a transaction to refinance its existing securitized financing facility with a new securitized financing facility, pursuant to which Wingstop Funding LLC (the "Issuer"), a limited-purpose, bankruptcy-remote, wholly-owned indirect subsidiary of the Company, issued \$480.0 million of its Series 2020-1 2.84% Fixed Rate Senior Notes, Class A-2 (the "2020 Class A-2 Notes"). The Issuer also entered into a revolving financing facility of Series 2020-1 Variable Funding Senior Notes, Class A-1 (the "2020 Variable Funding Notes," and together with the 2020 Class A-2 Notes, the "2020 Notes") which permits borrowings of up to a maximum principal amount of \$50.0 million, which may be used to issue letters of credit. A portion of the proceeds of the 2020 Class A-2 Notes was used to repay the \$332.8 million of principal outstanding on the existing Series 2018-1 4.97% Fixed Rate Senior Secured Notes, Class A-2 and Series 2018-1 Variable Funding Senior Secured Notes, Class A-1 and to pay a special cash dividend of approximately \$148.4 million to our stockholders.

The 2020 Class A-2 Notes are generally subject to 1% annual amortization, bear interest at a fixed rate of 2.84% per annum, and have an anticipated repayment date of December 2027.

Dividends. We paid quarterly cash dividends of \$0.11 per share of common stock aggregating \$6.5 million for the first two quarters of 2020. We paid quarterly cash dividends of \$0.14 per share of common stock aggregating \$8.3 million for the third and fourth quarters of 2020. On February 16, 2021, the Company's board of directors approved a dividend of \$0.14 per share, to be paid on March 26, 2021 to stockholders of record as of March 5, 2021, totaling approximately \$4.2 million.

Separate from our regular dividend program, in December 2020, we paid a special cash dividend of \$5.00 per share in connection with the refinancing of our existing securitized financing facility in October of 2020.

We do not currently expect the restrictions in our debt instruments to impact our ability to make regularly quarterly dividends pursuant to our quarterly dividend program. However, any future declarations of dividends, as well as the amount and timing of such dividends, is subject to capital availability and the discretion of our board of directors, which must evaluate, among other things, whether cash dividends are in the best interest of our stockholders.

Impact of Inflation

Historically, inflation has not had a material effect on our results of operations. However, increases in food and beverage, labor and energy costs, as well as the costs and materials used in the construction of new restaurants could affect our results. Our restaurant operations are subject to federal and state minimum wage laws governing such matters as working conditions, overtime and tip credits. Significant numbers of our and our franchisees' restaurant personnel are paid at rates related to the federal and/or state minimum wage and, accordingly, increases in the minimum wage increase our and our franchisees' labor costs. In addition, severe increases in inflation could affect the global and U.S. economies and could have an adverse impact on our business, financial condition, and results of operations. Further discussion on the impact of commodities and other cost pressures is included above as well as in "Item 7A. *Quantitative and Qualitative Disclosures About Market Risk.*"

Contractual Obligations

The following table sets forth our contractual obligations and commercial commitments as of December 26, 2020 (in thousands):

	Payments due by period			
	Fiscal year 2021	Fiscal years 2022-2023	Fiscal years 2024-2025	Thereafter
2020 Notes	\$ 3,600	\$ 9,600	\$ 9,600	\$ 457,200
Operating leases ^(a)	2,614	3,636	1,633	594
Interest payments	15,060	27,054	13,323	25,963
Total	\$ 21,274	\$ 40,290	\$ 24,556	\$ 483,757

^(a) Includes base lease terms and certain optional renewal periods that are included in the lease term in accordance with accounting guidance related to leases.

Indemnifications. We are parties to certain indemnifications to third parties in the ordinary course of business. We believe the probability of incurring an actual liability under such indemnifications is sufficiently remote so that no liability has been recorded.

Off-Balance Sheet Arrangements

The Company is required to provide standby letters of credit related to our securitized financing facility. Although the letters of credit are off-balance sheet, the obligations to which they relate are reflected as liabilities in the Consolidated Balance Sheet. Outstanding letters of credit totaled \$4.9 million at December 26, 2020. We do not believe that these arrangements have or are likely to have a material effect on our results of operations, financial condition, revenues or expenses, capital expenditures or liquidity.

Critical Accounting Policies and Estimates

Our consolidated financial statements and accompanying notes are prepared in accordance with GAAP. Preparing consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities,

revenues and expenses. These estimates and assumptions are affected by the application of our accounting policies. Critical accounting estimates are those that require application of management's most difficult, subjective or complex judgments, often as a result of matters that are inherently uncertain and may change in subsequent periods. While we apply our judgment based on assumptions believed to be reasonable under the circumstances, actual results could vary from these assumptions. It is possible that materially different amounts would be reported using different assumptions. Our critical accounting policies and estimates are more fully described in Note 1 to our consolidated financial statements. However, we believe the accounting policies described below are particularly important to the portrayal and understanding of our financial position and results of operations.

Revenue Recognition

Revenue from contracts with customers consists primarily of royalties, Ad Fund contributions, initial and renewal franchise fees and upfront fees from development agreements and international territory agreements. Our performance obligations under franchise agreements consist of (a) a franchise license, (b) pre-opening services, such as training, and (c) ongoing services, such as management of the Ad Fund, development of training materials and menu items and restaurant monitoring. These performance obligations are highly interrelated, so we do not consider them to be individually distinct and therefore account for them as a single performance obligation, which is satisfied by providing a right to use our intellectual property over the term of each franchise agreement.

Royalties, including franchisee contributions to the Ad Fund, are calculated as a percentage of franchise restaurant sales over the term of the franchise agreement. Initial and renewal franchise fees are payable by the franchisee prior to the restaurant opening or at the time of a renewal of an existing franchise agreement. Our franchise agreement royalties, inclusive of Ad Fund contributions, represent sales-based royalties that are related entirely to our performance obligation under the franchise agreement and are recognized as franchise sales occur. Additionally, initial and renewal franchise fees are recognized as revenue on a straight-line basis over the term of the respective agreement. Our performance obligation under development agreements and international territory agreements generally consists of an obligation to grant exclusive development rights over a stated term. These development rights are not distinct from franchise agreements, so upfront fees paid by franchisees for development rights are deferred and apportioned to each franchise restaurant opened by the franchisee. The pro rata amount apportioned to each restaurant is accounted for as an initial franchise fee.

Item 7A. Quantitative and Qualitative Disclosures of Market Risks

Commodity Price Risk. We are exposed to market risks from changes in commodity prices. Many of the food products purchased by us are affected by weather, production, availability, and other factors outside our control. Although we attempt to minimize the effect of price volatility by negotiating fixed price contracts for the supply of key ingredients, there are no established fixed price markets for bone-in chicken wings, and as a result we are subject to prevailing market conditions. Bone-in chicken wings accounted for approximately 27.4% and 28.2% of our company-owned restaurant costs of sales in fiscal years 2020 and 2019. A hypothetical 10.0% increase in the bone-in chicken wing costs in fiscal year 2020 would have increased costs of sales by approximately \$1.3 million during the year. We do not engage in speculative financial transactions nor do we hold or issue financial instruments for trading purposes.

Interest Rate Risk. Our long-term debt, including current portion, consisted entirely of the \$480.0 million incurred under the 2020 Notes as of December 26, 2020 (excluding unamortized debt issuance costs). The Company's predominantly fixed-rate debt structure has reduced its exposure to interest rate increases that could adversely affect its earnings and cash flows, but the Company remains exposed to changes in market interest rates reflected in the fair value of the debt and to the risk that the Company may need to refinance maturing debt with new debt at a higher rate. The Company is exposed to interest rate increases under the 2020 Variable Funding Notes; however, the Company had no outstanding borrowings under its 2020 Variable Funding Notes as of December 26, 2020, net of letters of credit issued of \$4.9 million.

Item 8. Financial Statements and Supplementary Data

Information with respect to this Item is set forth beginning on page F-1. See "*Item 15 - Exhibits and Financial Statement Schedules*" below.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A.

Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures, pursuant to Rule 13a-15 under the Exchange Act, as of the end of the period covered by this Annual Report on Form 10-K. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of December 26, 2020 to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control over Financial Reporting

The management of Wingstop Inc. is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the Exchange Act. Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of our financial reporting for external purposes in accordance with accounting principles generally accepted in the United States. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management, including our Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of our internal control over financial reporting as of December 26, 2020. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control-Integrated Framework (2013)*. Based on such assessment our management has concluded that, as of December 26, 2020, our internal control over financial reporting is effective based on those criteria.

KPMG LLP, an independent registered public accounting firm, has issued an attestation report, included herein, on the effectiveness of our internal control over financial reporting as of December 26, 2020.

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors
Wingstop Inc.:

Opinion on Internal Control Over Financial Reporting

We have audited Wingstop Inc. and subsidiaries' (the Company) internal control over financial reporting as of December 26, 2020, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 26, 2020, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of December 26, 2020 and December 28, 2019, the related consolidated statements of operations, stockholders' deficit, and cash flows for each of the years in the two-year period ended December 26, 2020, and the related notes (collectively, the consolidated financial statements), and our report dated February 17, 2021, expressed an unqualified opinion on those consolidated financial statements.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors
Wingstop Inc.:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Wingstop Inc. and subsidiaries (the Company) as of December 26, 2020 and December 28, 2019, the related consolidated statements of operations, stockholders' deficit, and cash flows for each of the years in the two-year period ended December 26, 2020, and the related notes (collectively, the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 26, 2020 and December 28, 2019, and the results of its operations and its cash flows for each of the years in the two-year period ended December 26, 2020, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 26, 2020, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated February 17, 2021 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Change in Accounting Principle

As discussed in Note 1 to the consolidated financial statements, the Company has changed its method of accounting for leases as of December 30, 2018, due to the adoption of Accounting Standards Update (ASU) No. 2016-02, Leases (Topic 842), as amended.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Evaluation of the sufficiency of audit evidence obtained over royalty revenue and advertising fees

As discussed in Notes 1 and 16 to the consolidated financial statements, the Company recognized \$98.6 million of royalty revenue and \$74.9 million of advertising fees for the year ended December 26, 2020. Royalty revenue and advertising fees are calculated as a percentage of franchise restaurant sales over the term of the franchise agreement.

We identified the evaluation of the sufficiency of audit evidence obtained over royalty revenue and advertising fees as a critical audit matter. This evaluation required especially challenging auditor judgement because such revenue streams are dependent upon the franchise restaurant sales reported by the franchised restaurants through the franchisees' point-of-sale systems.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls over the Company's revenue process, including controls over (1) the royalty and advertising fund contribution rates and (2) the reconciliation of royalty revenue and advertising fees recognized with the amount of cash received from franchisees for royalty and advertising fees. We involved IT professionals with specialized skills and knowledge who assisted in testing the information systems used in the revenue process. We compared revenue recognized to cash received for the year for royalty revenue and advertising fees. We sent third-party confirmations to a sample of franchisees regarding the amount of royalties and advertising fees that they owed to the Company. In addition, we evaluated the overall sufficiency of the audit evidence obtained over royalty revenue and advertising fees.

/s/ KPMG LLP

We have served as the Company's auditor since 2019.

Dallas, Texas
February 17, 2021

Report of Independent Registered Public Accounting Firm

To the Stockholders and the Board of Directors of Wingstop Inc. and Subsidiaries

Opinion on the Financial Statements

We have audited the accompanying consolidated statements of operations, stockholders' deficit and cash flows for the fiscal year ended December 29, 2018, and the related notes (collectively referred to as the "consolidated financial statements") (not presented separately herein). In our opinion, the consolidated financial statements present fairly, in all material respects, the results of its operations and its cash flows for the fiscal year ended December 29, 2018, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

/s/ ERNST & YOUNG LLP

We served as the Company's auditor from 2014 to 2019.

WINGSTOP INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements

(1)
Basis of Presentation and Summary of Significant Accounting Policies

Overview

Wingstop Inc., together with its consolidated subsidiaries (collectively, “Wingstop” or the “Company”), is in the business of franchising and operating Wingstop restaurants. As of December 26, 2020, the Company had a total of 1,538 restaurants in its system. The Company's restaurant base is 98% franchised, with 1,506 franchised locations (including 179 international locations) and 32 company-owned restaurants as of December 26, 2020.

Summary of Significant Accounting Policies

(a) Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Wingstop Inc. and its wholly owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

(b) Fiscal Year End

The Company uses a 52/53-week fiscal year that ends on the last Saturday of the calendar year. Fiscal years 2020, 2019, and 2018 each consisted of 52 weeks.

(c) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions, primarily related to long-lived asset valuation, indefinite and finite lived intangible asset valuation, income taxes, leases, stock-based compensation, contingencies, and common stock equity valuations. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the period. Although management bases its estimates on historical experience and assumptions that are believed to be reasonable under the circumstances, actual results could differ from those estimates.

(d) Comprehensive Income (Loss)

Comprehensive income (loss) is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. Comprehensive income is the same as net income for all periods presented. Therefore, a separate statement of comprehensive income (loss) is not included in the accompanying consolidated financial statements.

(e) Cash, Cash Equivalents, and Restricted Cash

The Company continually monitors its positions with, and the credit quality of, the financial institutions in which it maintains its deposits and investments. As of December 26, 2020 and December 28, 2019, the Company maintained balances in various cash accounts in excess of federally insured limits. All highly liquid instruments purchased with an original maturity of three months or less are considered cash equivalents.

Restricted cash includes cash and cash equivalents held for future principal and interest payments as required by the Company's debt agreements (see Note 10). The Company also has Advertising fund restricted cash, which can only be used for activities that promote the Wingstop brand. Cash, cash equivalents, and restricted cash within the Consolidated Balance Sheets that are included in the Consolidated Statements of Cash Flows as of December 26, 2020 and December 28, 2019 were as follows (in thousands):

	December 26, 2020	December 28, 2019
Cash and cash equivalents	\$ 40,858	\$ 12,849
Restricted cash	4,815	4,790
Restricted cash, included in Advertising fund assets, restricted	13,597	3,536
Total cash, cash equivalents, and restricted cash	<u>\$ 59,270</u>	<u>\$ 21,175</u>

(f)

Accounts Receivable

Accounts receivable, net of allowance for doubtful accounts, consists primarily of accrued royalty fee receivables, collected weekly in arrears, and vendor rebates. Management determines the allowance for doubtful accounts based on historical losses and current economic conditions. On a continuing basis, management analyzes delinquent receivables, which are charged off against the existing allowance account when determined to be uncollectible.

(g)

Inventories

Inventories, which consist of food and beverage products, paper goods and supplies, are valued at the lower of cost (first-in, first-out) or market.

(h)

Property and Equipment

Property and equipment is recorded at cost less accumulated depreciation. Property and equipment is depreciated based on the straight-line method over the following estimated useful lives:

Property and Equipment	Estimated Useful Lives
Building	40 years
Leasehold and other improvements	Lesser of the expected lease term or useful life
Equipment, furniture and fixtures	3 to 7 years
Computer software	3 years

At the time property and equipment are retired, the asset and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in earnings. The Company expenses repair and maintenance costs that maintain the appearance and functionality of the restaurant but do not extend the useful life of any restaurant asset. Improvements to leased properties are depreciated over the shorter of their useful life or the lease term, which includes a fixed, non-cancelable lease term plus any reasonably assured renewal periods.

(i)

Impairment or Disposal of Long-Lived Assets

Property and equipment and finite-life intangible assets are reviewed for impairment periodically and whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. The Company's assessment of recoverability of property and equipment and finite-lived intangible assets is performed at the component level, which is generally an individual restaurant and requires judgment and an estimate of future restaurant generated cash flows. The Company's estimates of fair values are based on the best information available and require the use of estimates, judgments, and projections. The Company did not record any impairment losses on long-lived assets in fiscal years 2020, 2019, or 2018.

(j)

Goodwill and Indefinite-Lived Intangible Assets

The Company's indefinite-lived intangible assets consist of goodwill and trademarks, which are not subject to amortization. On an annual basis (October 1st of each fiscal year) and whenever events or changes in circumstances indicate that the carrying

amounts may not be recoverable, the Company reviews the recoverability of goodwill and indefinite-lived intangible assets. No indications of impairment were identified during fiscal years 2020, 2019, or 2018.

It is possible that changes in circumstances or changes in management's judgments, assumptions and estimates could result in an impairment charge of a portion or all of its goodwill or other intangible assets.

(k)

Revenue Recognition

Revenues consist primarily of royalties, national advertising fund (the "Ad Fund") contributions, initial and renewal franchise fees, and upfront fees from development agreements and international territory agreements. The Company's performance obligations under its franchise agreements consist of (a) a franchise license, (b) pre-opening services, such as training, and (c) ongoing services, such as management of the Ad Fund contributions, development of training materials and menu items, and restaurant monitoring. These performance obligations are highly interrelated, so they are not considered to be individually distinct and therefore are accounted for as a single performance obligation, which is satisfied by providing a right to use the Company's intellectual property over the term of each franchise agreement. Franchise fee, development fee and international territory fee payments received by the Company before the restaurant opens are recorded as deferred revenue in the Consolidated Balance Sheets.

Royalties, including franchisee contributions to the Ad Fund, are calculated as a percentage of franchise restaurant sales over the term of the franchise agreement. Initial and renewal franchise fees are payable by the franchisee prior to the restaurant opening or at the time of a renewal of an existing franchise agreement. The Company's franchise agreement royalties, inclusive of Ad Fund contributions, represent sales-based royalties that are related entirely to the Company's performance obligation under the franchise agreement and are recognized as franchised restaurant sales occur. Additionally, initial and renewal franchise fees are recognized as revenue on a straight-line basis over the term of the respective agreement. The Company's performance obligation under development agreements and international territory agreements generally consists of an obligation to grant exclusive development rights over a stated term. These development rights are not distinct from franchise agreements, so upfront fees paid by franchisees for development rights are apportioned to each franchised restaurant opened and accounted for as an initial franchise fee.

The Company records food and beverage revenues from company-owned restaurants upon sale to the customer. The Company collects and remits sales, food and beverage, alcoholic beverage, and hospitality taxes on transactions with customers and reports such amounts under the net method in its Consolidated Statements of Operations. Accordingly, these taxes are not included in gross revenue.

The Company records a liability in the period in which a gift card is sold. As gift cards are redeemed, the liability is reduced. When gift cards are redeemed at a franchisee-operated restaurant, the revenue and related administrative costs are recognized by the franchisee. The Company recognizes revenue and related administrative costs when gift cards are redeemed at company-owned restaurants.

(l)

Consideration from Vendors

The Company has entered into food and beverage supply agreements with certain major vendors. Pursuant to the terms of these arrangements, rebates are provided to the Company from the vendors based upon the dollar volume of purchases for company-owned restaurants and franchised restaurants. Additionally, the Company receives certain incentives from vendors to sponsor its annual franchisee convention. These incentives are recognized as earned throughout the year and are classified as a reduction in Cost of sales with any consideration received in excess of the total expense of the vendor's products included within Royalty revenue, franchise fees and other within the Consolidated Statements of Operations. The incentives recognized were approximately \$7.9 million, \$10.6 million, and \$8.2 million, during fiscal years 2020, 2019, and 2018, respectively, of which \$1.3 million, \$1.6 million, and \$1.2 million was classified as a reduction in Cost of sales during fiscal years 2020, 2019, and 2018, respectively.

(m)

Advertising Expenses

The Company administers the Ad Fund, for which a percentage of gross sales is collected from domestic restaurant franchisees and company-owned restaurants to be used for various forms of advertising for the Wingstop brand. Under this program, domestic franchisees contributed 4% of gross sales for fiscal years 2020 and 2019, and 3% for fiscal year 2018.

The Company administers and directs the development of all advertising and promotion programs in the Ad Fund for which it collects advertising contributions in accordance with the provisions of its franchise agreements. The Company has a contractual obligation with regard to these advertising contributions. The Company consolidates and reports all assets and liabilities of the Ad Fund as restricted assets of the Ad Fund and liabilities of the Ad Fund within current assets and current liabilities, respectively, in the Consolidated Balance Sheets. The assets and liabilities of the Ad Fund consist primarily of cash, receivables, accrued expenses, and other liabilities. Pursuant to the Company's franchise agreements, use of Ad Fund contributions is restricted to advertising, public relations, merchandising, similar activities, and administrative expenses to increase sales and further enhance the public reputation of the Wingstop brand. The aforementioned administrative expenses may also include personnel expenses and allocated costs incurred by the Company that are directly associated with administering the Ad Fund, as outlined in the provisions of the applicable franchise agreements.

The Company expenses the production costs of advertising in the period in which the advertising first occurs. All other advertising and promotional costs are expensed in the period incurred. When contributions to the Ad Fund exceed the related advertising expenses, advertising costs are accrued up to the amount of the related contributions. Ad Fund contributions and expenditures are reported on a gross basis in the Consolidated Statements of Operations, which are largely offsetting and therefore do not impact the Company's reported net income in years when contributions to the Ad Fund exceed advertising expenses incurred. Administrative support services and compensation expenses of employees that provide services directly to the Ad Fund, are included in Selling, general and administrative expenses ("SG&A") in the Consolidated Statements of Operations. Advertising expenses incurred by company-owned restaurants are included within Cost of sales in the Consolidated Statements of Operations. Company-owned restaurants incurred advertising expenses of \$3.3 million, \$2.9 million, and \$1.9 million in fiscal years 2020, 2019, and 2018, respectively.

(n)

Leases

The Company determines whether an arrangement is a lease at inception and leases restaurants and office space under operating leases. Most lease agreements contain tenant improvement allowances, rent holidays, rent escalation clauses, and/or contingent rent provisions. For leases with renewal periods at the Company's option, the Company determines the expected lease period based on whether the renewal of any options are reasonably certain at the inception of the lease. For purposes of measurement and amortization of the right-of-use asset and associated lease liability over the terms of the leases, the Company uses the date it takes possession of the leased space for construction purposes at the beginning of the lease term, which is generally two to three months prior to a restaurant's opening date. As most leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available on the commencement date in determining the present value of lease payments. The Company has lease agreements that contain both lease and non-lease components which are not separated. Certain leases require the Company to pay a portion of real estate taxes, utilities, building operating expenses, insurance and other charges in addition to rent.

(o)

Stock-Based Compensation

The Company measures stock-based compensation cost at fair value on the date of grant for all share-based awards and recognizes compensation expense over the service period that the awards are expected to vest. The Company has elected to recognize compensation cost for graded-vesting awards subject only to a service condition over the requisite service period of the entire award. For performance awards, the Company recognizes expense in the period in which vesting becomes probable. The Company accounts for forfeitures as they occur.

(p)

Income Taxes

Income taxes are accounted for under the asset and liability method. Under this method, a deferred tax asset or liability is recognized for the estimated future tax effects attributable to temporary differences between the financial statement basis and the tax basis of assets and liabilities as well as tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period of the change. The Company files a consolidated federal income tax return including all of its subsidiaries.

Judgment is required in evaluating the Company's uncertain tax positions and determining the Company's income tax expense. The Company assesses the income tax position and records the liabilities for all years subject to examination based upon management's evaluation of the facts, circumstances, and information available at the reporting date.

(q)

Business Segments

Historically, the Company had two reporting segments: franchise operations and company restaurant operations. In accordance with Accounting Standards Codification 280 “Segment Reporting”, the Company uses the management approach for determining its reportable segments. The management approach is based upon the way management reviews performance and allocates resources. During the second fiscal quarter of 2020, the Company reevaluated its operating segments and determined it has one operating segment and one reporting segment due to changes in how the Company’s chief operating decision maker assesses the Company’s performance and allocates resources.

(r)

Recent Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) 2016-02, Leases (Topic 842), as amended (“ASU 2016-02”). ASU 2016-02 amended the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. The new guidance also required additional disclosures about leases. The Company adopted the requirements of the new standard as of the first day of fiscal year 2019 using the modified retrospective approach without restating comparative periods. As part of our adoption, we elected the package of practical expedients, as well as the hindsight practical expedient, permitted under the new guidance, which, among other things, allowed the Company to continue utilizing historical classification of leases. In addition, we elected not to separate non-lease components for our real estate leases.

The adoption of the new standard resulted in the recording of a right-of-use asset of approximately \$8.5 million and lease liabilities of approximately \$10.3 million, and had an immaterial impact on retained earnings as of the beginning of fiscal year 2019. The standard did not materially impact our Consolidated Statements of Operations and had no impact on cash flows.

(2) Earnings Per Share

Basic earnings per share is computed by dividing income available to common stockholders by the weighted average number of shares of common stock outstanding for the reporting period. Diluted earnings per share reflects the potential dilution that could occur if securities convertible into, or other contracts to issue, common stock were exercised or converted into common stock. For the calculation of diluted earnings per share, the basic weighted average number of shares is increased by the dilutive effect of the exercise and vesting of stock options and restricted stock units, respectively, determined using the treasury stock method.

Basic weighted average shares outstanding is reconciled to diluted weighted average shares outstanding as follows (in thousands):

	Fiscal Year		
	December 26, 2020	December 28, 2019	December 29, 2018
Basic weighted average shares outstanding	29,601	29,415	29,231
Dilutive shares	203	255	356
Diluted weighted average shares outstanding	29,804	29,670	29,587

We had approximately 1,000 equity awards outstanding at December 26, 2020 and 3,000 equity awards outstanding at December 28, 2019, and December 29, 2018, respectively, that were excluded from the dilutive earnings per share calculation because the effect would have been anti-dilutive.

(3) Dividends

In connection with the Company's regular dividend program, the Company declared and paid dividends of \$14.8 million, or \$0.50 per common share, in fiscal year 2020, \$11.7 million, or \$0.40 per common share in fiscal year 2019, and \$9.4 million, or \$0.32 per common share in fiscal year 2018.

Subsequent to the end of fiscal year 2020, on February 16, 2021, the Company’s board of directors declared a quarterly dividend of \$0.14 per share of common stock, to be paid on March 26, 2021 to stockholders of record as of March 5, 2021, totaling approximately \$4.2 million.

Separate from the Company's regular dividend program, the Company declared and paid special dividends of \$148.4 million, or \$5.00 per share of common stock, in fiscal year 2020 and \$182.8 million, or \$6.22 per share of common stock, in fiscal year 2018. No special dividends were declared or paid during fiscal year 2019.

(4) Fair Value Measurements

Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. Assets and liabilities are classified using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value as follows:

Level 1 - Unadjusted quoted prices for identical instruments traded in active markets.

Level 2 - Observable market-based inputs or unobservable inputs corroborated by market data.

Level 3 - Unobservable inputs reflecting management's estimates and assumptions.

The carrying values of cash and cash equivalents, accounts receivable and accounts payable approximate fair value due to their short-term nature. Fair value of debt is determined on a non-recurring basis, which results are summarized as follows (in thousands):

	Fair Value Hierarchy	December 26, 2020		December 28, 2019	
		Carrying Value	Fair Value	Carrying Value	Fair Value
Securitized Financing Facility:					
2020-1 Class A-2 Senior Secured Notes ⁽¹⁾	Level 2	\$ 480,000	\$ 483,365	\$ —	\$ —
2018-1 Class A-2 Senior Secured Notes ⁽¹⁾	Level 2	\$ —	\$ —	\$ 317,600	\$ 331,247

⁽¹⁾ The fair value of long-term debt was estimated using available market information.

(5)

Accounts Receivable, net

Accounts receivables, net, consist of the following (in thousands):

	December 26, 2020	December 28, 2019
Vendor rebates receivable	\$ 1,944	\$ 2,530
Royalties receivable (net of allowance for doubtful accounts of \$1,053 and \$24, respectively)	2,097	1,870
Gift card receivable	78	477
Other receivables, net	810	298
Accounts receivable, net	\$ 4,929	\$ 5,175

(6) Property and Equipment

Property and equipment, net consisted of the following (in thousands):

	December 26, 2020	December 28, 2019
Building	15,405	—
Construction in progress	2,853	16,188
Equipment, furniture and fixtures	14,633	15,568
Leasehold and other improvements	9,876	9,021
Land	2,828	2,828
Property and equipment, gross	45,595	43,605
Less: accumulated depreciation	(17,647)	(15,763)
Property and equipment, net	\$ 27,948	\$ 27,842

Depreciation expense was \$5.2 million, \$3.1 million, and \$2.1 million for the fiscal years ended December 26, 2020, December 28, 2019, and December 29, 2018, respectively.

In fiscal year 2019, the Company used cash on hand to purchase an office building for \$18.3 million. The building is located in Addison, Texas and is currently undergoing renovation to prepare it for use as the Company's corporate headquarters. As of December 28, 2019, the building was included in construction in process within Property and equipment, net on the Consolidated Balance Sheets.

(7) Intangible Assets and Goodwill

The Company's goodwill and other intangible assets arose from Wingstop's acquisition of the equity interests of Wingstop Holdings, Inc. in April 2010, as well as the acquisition of restaurants from franchisees in 2020 and 2019. Goodwill represents the excess of purchase consideration transferred for the respective reporting unit over the fair value of the business at the time of the acquisition.

The following is a summary of goodwill balances and activity (in thousands):

	December 26, 2020	December 28, 2019
Balance, beginning of period	\$ 50,188	\$ 49,655
Acquisition of restaurants, net	3,502	533
Balance, end of period	\$ 53,690	\$ 50,188

Intangible assets, excluding goodwill, consisted of the following (in thousands):

	December 26, 2020	December 28, 2019	Weighted Average Amortization Period (in years)
Intangible assets:			
Trademarks	\$ 32,700	\$ 32,700	
Indefinite-lived assets	32,700	32,700	
Customer relationships	26,300	26,300	20.0
Franchise rights ⁽¹⁾	8,121	5,638	6.3
Proprietary software ⁽¹⁾	115	115	5.0
Noncompete agreements ⁽¹⁾	250	250	2.8
Less: accumulated amortization	(18,155)	(15,855)	
Definite-lived assets	16,631	16,448	16.7
Intangible assets, net	<u>\$ 49,331</u>	<u>\$ 49,148</u>	

⁽¹⁾Included within Other non-current assets net of associated accumulated amortization within the Consolidated Balance Sheets.

Amortization expense for definite-lived intangibles was \$2.3 million, \$2.4 million, and \$2.2 million for fiscal years 2020, 2019, and 2018, respectively. Estimated amortization expense, principally related to customer relationships, for the five succeeding fiscal years and the aggregate thereafter is (in thousands):

Fiscal year 2021	\$ 2,602
Fiscal year 2022	2,385
Fiscal year 2023	2,095
Fiscal year 2024	1,817
Fiscal year 2025	1,683
Thereafter	6,049
Total	<u>\$ 16,631</u>

(8)

Prepaid Expenses and Other Current Assets and Other Current Liabilities

Prepaid expenses and other current assets consisted of the following (in thousands):

	December 26, 2020	December 28, 2019
Prepaid expenses	\$ 1,534	\$ 1,467
Federal income tax receivable	3,602	667
Inventories	396	315
Total	<u>\$ 5,532</u>	<u>\$ 2,449</u>

Other current liabilities consisted of the following (in thousands):

	December 26, 2020	December 28, 2019
Accrued payroll and incentive compensation	\$ 11,175	\$ 7,512
Current portion of deferred revenues	3,221	2,622
Short term lease liability	2,385	1,806
Accrued interest	2,222	1,055
Gift card liability	1,363	1,758
Other accrued liabilities	6,363	6,701
Total	\$ 26,729	\$ 21,454

(9) Income Taxes

Income tax expense for the fiscal years 2020, 2019, and 2018 consisted of the following (in thousands):

	Fiscal Year		
	December 26, 2020	December 28, 2019	December 29, 2018
Current expense			
Federal	\$ 2,454	\$ 4,286	\$ 4,932
State	996	1,170	1,089
Foreign	191	259	241
Deferred expense (benefit)			
Federal	42	(579)	(946)
State	(46)	153	(108)
Income tax expense	\$ 3,637	\$ 5,289	\$ 5,208

A reconciliation of income tax at the U.S. federal statutory tax rate (using a statutory tax rate of 21%) to income tax expense for fiscal years 2020, 2019, and 2018 in dollars is as follows (in thousands):

	Fiscal Year		
	December 26, 2020	December 28, 2019	December 29, 2018
Expected income tax expense at statutory rate	\$ 5,658	\$ 5,411	\$ 5,655
Excess tax benefits from equity compensation	(3,963)	(1,777)	(1,669)
Non-deductible expenses	690	942	207
State tax expense, net of federal benefit	620	985	520
Foreign tax expense	191	259	241
Foreign tax credits	(191)	(259)	(241)
Increase (decrease) in unrecognized tax benefit	102	(128)	322
Other	530	(144)	173
Income tax expense	\$ 3,637	\$ 5,289	\$ 5,208

The components of deferred tax assets (liabilities) were as follows (in thousands):

	December 26, 2020	December 28, 2019
Deferred tax assets:		
Deferred revenue	\$ 4,873	\$ 4,510
Accrued incentive compensation	1,089	262
Stock based compensation	738	776
Deferred rent	358	394
Intangible assets	82	99
Other	628	1,467
Net operating loss carryforwards and credits	987	869
Valuation allowance	(577)	(577)
	<u>8,178</u>	<u>7,800</u>
Deferred tax liabilities:		
Intangible assets	(10,599)	(10,820)
Property and equipment	(2,059)	(1,465)
	<u>(12,658)</u>	<u>(12,285)</u>
Net deferred tax liability	<u>\$ (4,480)</u>	<u>\$ (4,485)</u>

The Company had a state net operating loss carry-forward of \$23.3 million at December 26, 2020 and December 28, 2019. The state net operating loss carry forwards begin to expire in 2030.

The Company had a valuation allowance of \$577,000 against its deferred tax assets as of December 26, 2020 and December 28, 2019. In assessing whether a deferred tax asset will be realized, the Company considers whether it is more likely than not that either some portion or all of the deferred tax assets will not be realized. The Company considers the reversal of existing taxable temporary differences, projected future taxable income and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, the Company believes it is more likely than not that it will realize a portion of the benefits of the federal and state deductible differences.

The Company files income tax returns, which are periodically audited by various federal and state jurisdictions. In fiscal year 2019, the Internal Revenue Service commenced an examination of the Company's U.S. income tax return for fiscal years 2016 and 2017.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (in thousands):

Balance as of December 30, 2017	\$ 680
Additions for tax positions of prior years	78
Subtractions for tax positions of prior years	—
Additions for tax positions of current year	155
Subtractions for tax positions of current year	—
Balance as of December 29, 2018	<u>913</u>
Additions for tax positions of prior years	187
Subtractions for tax positions of prior years	(330)
Additions for tax positions of current year	929
Subtractions for tax positions of current year	—
Balance as of December 28, 2019	<u>1,699</u>
Additions for tax positions of prior years	—
Subtractions for tax positions of prior years	(959)
Additions for tax positions of current year	54
Subtractions for tax positions of current year	—
Balance as of December 26, 2020	<u>\$ 794</u>

As of December 26, 2020 and December 28, 2019, the accrued interest and penalties on the unrecognized tax benefits were \$325,000 and \$316,000, respectively, excluding any related income tax benefits. The Company recorded accrued interest related to the unrecognized tax benefits and penalties as a component of the provision for income taxes recognized in the Consolidated Statement of Operations.

At December 26, 2020 and December 28, 2019, the amount of unrecognized tax benefits was \$794,000 and \$1,699,000, respectively, which, if ultimately recognized, would reduce the Company's effective tax rate.

(10) Debt Obligations

Long-term debt consisted of the following components (in thousands):

	December 26, 2020	December 28, 2019
2020-1 Class A-2 Senior Secured Notes	\$ 480,000	\$ —
2018-1 Class A-2 Senior Secured Notes	—	317,600
Debt issuance costs, net of amortization	(9,467)	(6,731)
Less: current portion of debt	(3,600)	(3,200)
Long-term debt, net	<u>\$ 466,933</u>	<u>\$ 307,669</u>

As of December 26, 2020, the scheduled principle payments on debt were as follows (in thousands):

Fiscal year 2021	\$ 3,600
Fiscal year 2022	4,800
Fiscal year 2023	4,800
Fiscal year 2024	4,800
Fiscal year 2025	4,800
Thereafter	457,200
Total	<u>\$ 480,000</u>

Securitized Financing Facility

In November 2018, Wingstop Funding LLC (the "Issuer"), a limited-purpose, bankruptcy-remote, wholly-owned indirect subsidiary of the Company, issued Series 2018-1 4.97% Fixed Rate Senior Secured Notes, Class A-2 (the "2018 Class A-2 Notes") with an anticipated term of five years and an initial principal amount of \$320 million. In addition, the Issuer issued Series 2018-1 Variable Funding Senior Secured Notes, Class A-1 (the "2018 Variable Funding Notes", and together with the 2018 Class A-2 Notes, the "2018 Notes"), which allowed the Issuer to borrow up to \$20 million on a revolving basis. A portion of the proceeds of the 2018 Class A-2 Notes were to repay approximately \$215 million borrowed under the Company's senior credit facility.

In October 2020, the Company completed a transaction to refinance its existing securitized financing facility with a new securitized financing facility, pursuant to which the Issuer issued \$480.0 million of its Series 2020-1 2.84% Fixed Rate Senior Notes, Class A-2 (the "2020 Class A-2 Notes") with an anticipated term of seven years. The Issuer also entered into a revolving financing facility of Series 2020-1 Variable Funding Senior Notes, Class A-1 (the "2020 Variable Funding Notes," and together with the 2020 Class A-2 Notes, the "2020 Notes"), which permits borrowings of up to a maximum principal amount of \$50 million, which may be used to issue letters of credit. A portion of the proceeds of the 2020 Class A-2 Notes was used to repay the principal outstanding on the existing 2018 Notes and to pay related transaction fees and expenses. The additional net proceeds were used to strengthen the Company's liquidity position and for general corporate purposes, which included a return of capital to the Company's stockholders in 2020. No borrowings were outstanding under the 2020 Variable Funding Notes as of December 26, 2020.

The 2018 and 2020 Notes were each issued in a securitization transaction, which is guaranteed by certain limited-purpose, bankruptcy-remote, wholly owned indirect subsidiaries of the Company and secured by a security interest in substantially all of their assets, including certain domestic and foreign revenue-generating assets, consisting principally of franchise-related agreements and intellectual property.

The 2018 Notes and 2020 Notes were issued pursuant to a base indenture and related supplemental indentures (collectively, the “Indenture”). Interest and principal payments on the 2020 Class A-2 Notes are payable on a quarterly basis. The requirement to make such quarterly principal payments on the 2020 Class A-2 Notes is subject to certain financial conditions set forth in the Indenture. The legal final maturity date of the 2020 Notes is in December of 2050, but, unless earlier prepaid to the extent permitted under the Indenture, the anticipated repayment date of the 2020 Class A-2 Notes is December 2027. If the Issuer has not repaid or refinanced the 2020 Class A-2 Notes prior to the anticipated repayment date, additional interest will accrue on the Notes.

The 2020 Variable Funding Notes accrue interest at a variable rate based on (i) the prime rate, (ii) the Eurodollar rate for U.S. Dollars (or a benchmark replacement), or (iii) with respect to advances made by conduit investors, the weighted average cost of, or related to, the issuance of commercial paper allocated to fund or maintain such advances, in each case plus any applicable margin, as more fully set forth in the 2020 Variable Funding Note Purchase Agreement, dated October 30, 2020. There is a commitment fee on the unused portion of the 2020 Variable Funding Notes facility, which is 30 basis points based on the utilization under the 2020 Variable Funding Notes facility. As of December 26, 2020, \$4.9 million of letters of credit were outstanding against the 2020 Variable Funding Notes, which relate primarily to interest reserves required under the indenture. There were no amounts drawn down on the letters of credit as of December 26, 2020.

Total debt issuance costs incurred and capitalized in connection with the issuance of the 2018 Notes were \$8.8 million. Previously capitalized financing costs of \$1.5 million were expensed as a result of the refinancing in fiscal year 2018.

During the fourth quarter of 2020, as a result of the repayment of the remaining \$332.8 million of principal outstanding on the existing 2018 Notes, the Company recorded a loss on debt extinguishment of \$13.7 million, consisting of a \$5.4 million write-off of previously capitalized financing costs associated with the 2018 Notes and \$8.2 million of make-whole interest premium costs associated with the early repayment of the 2018 Class A-2 Notes. Total debt issuance costs incurred and capitalized in connection with the issuance of the 2020 Notes were \$10.4 million.

The 2020 Notes are subject to a series of covenants and restrictions customary for transactions of this type, including (i) that the Issuer maintains specified reserve accounts to be used to make required payments in respect of the 2020 Notes, (ii) provisions relating to optional and mandatory prepayments and the related payment of specified amounts, including specified make-whole payments in the case of the 2020 Class A-2 Notes under certain circumstances, (iii) certain indemnification payments in the event, among other things, that the assets pledged as collateral for the 2020 Notes are in stated ways defective or ineffective, and (iv) covenants relating to recordkeeping, access to information, and similar matters. The 2020 Notes are also subject to customary rapid amortization events provided for in the indenture, including events tied to failure to maintain stated debt service coverage ratios, the sum of global gross sales for specified restaurants being below certain levels on certain measurement dates, certain change of control and manager termination events, an event of default, and the failure to repay or refinance the 2020 Class A-2 Notes on the applicable scheduled maturity date. The 2020 Notes are also subject to certain customary events of default, including events relating to non-payment of required interest, principal or other amounts due on or with respect to the 2020 Notes, failure to comply with covenants within certain time frames, certain bankruptcy events, breaches of specified representations and warranties, failure of security interests to be effective, and certain judgments. As of December 26, 2020, the Company was in compliance with all financial covenants.

(11) Leases

The Company determines whether an arrangement is a lease at inception. The Company has operating leases for office and retail space, as well as equipment. The Company's leases have remaining terms of 0.3 years to 8.8 years, some of which include options to extend the lease term for up to ten years. Lease terms may include options to renew when it is reasonably certain that the Company will exercise that option. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

As most of the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available on the commencement date in determining the present value of lease payments. The Company has lease agreements that contain both lease and non-lease components. For real estate leases, The Company accounts for lease components together with non-lease components (e.g., common-area maintenance).

Components of lease expense were as follows (in thousands):

	Year Ended	
	December 26, 2020	December 28, 2019
Operating lease cost ^(a)	\$ 2,439	\$ 2,113
Variable lease cost ^(b)	609	507
Total lease cost	\$ 3,048	\$ 2,620

^(a) Includes short-term leases, which are immaterial.

^(b) Primarily related to adjustments for inflation, common area maintenance, and property tax.

Supplemental cash flow information related to leases is as follows (in thousands):

	Year Ended	
	December 26, 2020	December 28, 2019
Operating cash flow information:		
Cash paid for amounts included in the measurement of lease liabilities	\$ 2,426	\$ 2,263
Non-cash activity:		
Right-of-use assets obtained in exchange for new operating lease liabilities	\$ 3,011	\$ 1,352

Supplemental balance sheet information related to our operating leases is as follows (in thousands):

	Balance Sheet Classification	Year Ended	
		December 26, 2020	December 28, 2019
Right-of-use assets	Other non-current assets	\$ 6,294	\$ 8,242
Current lease liabilities	Other current liabilities	2,385	1,806
Non-current lease liabilities	Other non-current liabilities	5,476	7,976

Weighted average lease term and discount rate information related to leases was as follows:

	Year Ended	
	December 26, 2020	December 28, 2019
Weighted average remaining lease term of operating leases	4.0 years	5.4 years
Weighted average discount rate of operating leases	3.58 %	4.77 %

Maturities of lease liabilities by fiscal year are as follows (in thousands):

Fiscal year 2021	\$	2,614
Fiscal year 2022		1,902
Fiscal year 2023		1,734
Fiscal year 2024		935
Fiscal year 2025		698
Thereafter		594
Total future minimum lease payments		8,477
Less: imputed interest		(616)
Total lease liabilities	\$	7,861

(12) Commitments and Contingencies

The Company is subject to legal proceedings, claims and liabilities, such as employment-related claims and other cases, which arise in the ordinary course of business and are generally covered by insurance. In the opinion of management, the amount of ultimate liability with respect to those actions should not have a material adverse impact on financial position, results of operations or cash flows.

Many of the food products the Company purchases are subject to changes in the price and availability of food commodities, including chicken. The Company works with its suppliers and uses a mix of forward pricing protocols for certain items under which we agree with our supplier on fixed prices for deliveries at some time in the future, fixed pricing protocols under which we agree on a fixed price with our supplier for the duration of that protocol, and formula pricing protocols under which the prices we pay are based on a specified formula related to the prices of the goods, such as spot prices.

The Company's use of any forward pricing arrangements varies substantially from time to time and these arrangements tend to cover relatively short periods (i.e., typically twelve months or less). Such contracts are used in the normal purchases of our food products and not for speculative purposes. The Company does not enter into futures contracts or other derivative instruments.

(13) Employee Benefit Plan

The Company sponsors a 401(k) profit sharing plan for all employees who are eligible based upon age and length of service. The Company made matching contributions of approximately \$735,000, \$594,000, and \$556,000 for fiscal years 2020, 2019, and 2018, respectively.

(14) Stock-Based Compensation

The Wingstop Inc. 2015 Omnibus Equity Incentive Plan (the "2015 Plan"), was adopted in June 2015 and is currently the only plan under which the Company currently grants awards. The 2015 Plan provides for the grant or award of stock options, stock appreciation rights, restricted stock awards, restricted stock units, performance unit awards, performance share awards, cash-based awards and other stock-based awards to employees, directors, and other eligible persons. As of December 26, 2020, there were approximately 1.6 million shares available for future grants under the 2015 Plan. Prior to the 2015 Plan, the Company granted awards under the Wing Stop Holding Corporation 2010 Stock Option Plan.

The options and restricted stock awards granted under the 2015 Plan are subject to either service-based or performance-based vesting. Service-based awards contain a service-based, or time-based, vesting provision. Performance-based options contain performance-based vesting provisions based on the Company meeting certain Adjusted EBITDA profitability targets or sales targets for the vesting period. In the event of a change in control of the Company (as defined in the 2015 Plan), unless otherwise determined by the board of directors or the Compensation Committee of the board of directors, each outstanding award will become fully vested immediately prior to the change in control and shall be exchanged for cash.

Stock-based compensation is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the requisite employee service period (generally the vesting period of the grant). The Company recognized approximately \$8.6 million, \$7.0 million, and \$3.7 million in stock compensation expense for fiscal years 2020, 2019, and 2018, respectively, with a corresponding increase to additional paid-in-capital. Stock compensation expense is included in Selling, general and administrative expenses in the Consolidated Statements of Operations.

Stock Options

The following table summarizes stock option activity (in thousands, except per share data):

	Stock Options	Weighted Average Exercise Price	Aggregate Intrinsic Value	Weighted Average Remaining Term
Outstanding - December 28, 2019	134	\$ 5.72	\$ 10,801	3.8
Options granted	68	79.41		
Options exercised	(133)	5.52		
Outstanding - December 26, 2020	69	\$ 78.40	\$ 4,291	9.1

The total grant-date fair value of stock options vested during each of the fiscal years 2020, 2019, and 2018 was \$0.2 million, \$0.5 million, and \$0.5 million, respectively. The total intrinsic value of stock options exercised was \$15.8 million, \$6.7 million, and \$7.6 million for fiscal years 2020, 2019, and 2018, respectively.

A summary of the status of non-vested options as of December 26, 2020 and the changes during the period then ended is presented below (in thousands, except per share data):

	Stock Options	Weighted average grant-date fair value
Non-vested options - December 28, 2019	17	\$ 10.20
Granted	68	22.99
Vested	(17)	10.00
Non-vested options - December 26, 2020	68	\$ 23.01

As of December 26, 2020, there was \$1.3 million of total unrecognized stock compensation expense related to non-vested stock options, which will be recognized over a weighted average period of approximately 2.2 years.

The estimated fair value of each option granted is calculated using the Black-Scholes option-pricing model. Expected volatilities are based on volatilities from publicly traded companies operating in the Company's industry. The expected life of options granted is management's best estimate using recent and expected transactions. The risk-free rate for periods within the expected life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. The weighted-average assumptions used in the model were as follows:

	2020
Risk-free interest	0.7%
Expected life	4.2 years
Expected dividend yield	0.5%
Volatility	34.4%

The Company used the simplified method for determining the expected life of the options. In addition, assumptions made regarding forfeitures in determining the remaining unamortized share-based compensation are re-evaluated periodically.

Restricted Stock Units and Performance Stock Units

The following table summarizes activity related to restricted stock units and performance stock units (“PSUs”) (in thousands, except per share data):

	<u>Restricted Stock Units</u>	<u>Weighted Average Grant Date Fair Value</u>	<u>Performance Stock Units</u>	<u>Weighted Average Grant Date Fair Value</u>
Outstanding - December 28, 2019	82	\$ 52.73	169	\$ 55.92
Units granted	27	94.12	44	86.03
Units vested	(41)	44.62	(52)	41.54
Units canceled	(14)	64.59	(8)	66.04
Outstanding - December 26, 2020	<u>54</u>	<u>\$ 76.27</u>	<u>153</u>	<u>\$ 69.08</u>

The fair value of restricted stock units and PSUs is based on the closing price on the date of grant. The restricted stock units granted during fiscal year 2020 vest over a three year service period. As of December 26, 2020, total unrecognized compensation expense related to unvested restricted stock units was \$2.8 million, which is expected to be recognized over a weighted-average period of 1.5 years. During fiscal year 2019, there was a modification to certain awards resulting in additional compensation expense of \$0.7 million over the remaining term of the awards.

The Company granted 44,458 PSUs during fiscal year 2020 that are based on the outcome of certain performance criteria. Of the total PSUs granted, 3,259 are subject to a service condition and a performance vesting condition based on the achievement of certain Adjusted EBITDA targets, as defined by the 2015 Plan, over a performance period of three years. The remaining 41,199 PSUs are subject to the achievement of certain Adjusted EBITDA targets over a performance period of three years. The maximum vesting percentage that could be realized for each of these PSUs is 250%, based on the level of performance achieved for the respective awards, as well as a market vesting condition linked to the level of total stockholder return received by the Company’s stockholders during the performance period measured against the companies in the S&P 600 Restaurant Index (“TSR PSUs”). The TSR PSUs were valued based on a Monte Carlo simulation model to reflect the impact of the total stockholder return market condition, resulting in a grant-date fair value range of \$0.00 to \$311.72 per unit based on the outcome of the performance condition. The probability of satisfying a market condition is considered in the estimation of the grant-date fair value for TSR PSUs and the compensation cost is not reversed if the market condition is not achieved, provided the requisite service has been provided.

During fiscal year 2019, the Company granted 86,333 PSUs that are based on the outcome of certain performance criteria. Of the total PSUs granted, 46,333 are subject to a service condition and a performance vesting condition based on the achievement of certain Adjusted EBITDA targets, as defined by the 2015 Plan, over a performance period of one to three years. The remaining 40,000 PSUs are subject to a service condition and a performance vesting condition based on certain operational metrics. The amount of all PSU units granted in 2019 that can be earned ranges from 0% to 100%.

During fiscal year 2018, the Company granted 15,290 PSUs that are subject to a service condition and a performance vesting condition based on the level of new sales growth achieved over the performance period. The maximum vesting percentage that could be realized for each of these PSUs is 500%, based on the level of performance achieved for the respective awards, as well as a market vesting condition linked to the level of total stockholder return. These awards had a grant-date fair value range of \$0.00 to \$179.27 per unit based on the outcome of the performance condition.

The compensation expense related to these PSUs is recognized over the vesting period when the achievement of the performance conditions becomes probable. The total compensation cost for the PSUs is determined based on the most likely outcome of the performance condition and the number of awards expected to vest. As of December 26, 2020, total unrecognized compensation expense related to unvested PSUs was \$8.2 million.

(15) Restaurant Transactions

During fiscal year 2020, the Company completed the sale of seven company-owned restaurants to two existing franchisees for aggregate proceeds of \$4.8 million. In connection with the sale of the restaurants, the Company recorded a \$3.2 million pre-tax gain on the sale of the related assets and liabilities, which was net of a \$58,000 reduction in goodwill. The net gain on these restaurant sales was recorded in Gain on sale of restaurants and other expense, net in the Consolidated Statements of Operations.

The Company acquired six restaurants from franchisees during each of the fiscal years ended December 26, 2020 and December 29, 2018, and one restaurant during the fiscal year ended December 28, 2019. The total purchase prices are reflected in the table below and were all funded by cash flows from operations.

The following table summarizes the allocations of the purchase prices to the estimated fair values of assets acquired and liabilities assumed as a result of these acquisitions (in thousands):

	Fiscal Year		
	December 26, 2020	December 28, 2019	December 29, 2018
Working capital	\$ 40	\$ —	\$ 49
Property and equipment	652	90	664
Reacquired franchise rights	2,483	610	2,705
Goodwill	3,560	533	3,098
Total purchase price	<u>\$ 6,735</u>	<u>\$ 1,233</u>	<u>\$ 6,516</u>

The results of operations of these locations are included in the Consolidated Statements of Operations since the date of acquisition. The acquisitions were accounted for as business combinations.

The excess of the purchase price over the aggregate fair value of assets acquired was allocated to goodwill and is attributable to the benefits expected as a result of the acquisition, including sales and growth opportunities. All of the goodwill from the acquisitions is expected to be deductible for federal income tax purposes.

Pro-forma financial information of the combined entities is not presented due to the immaterial impact of the financial results of the acquired restaurants on our consolidated financial statements.

The fair value measurement of tangible and intangible assets and liabilities as of the acquisition date is based on significant inputs not observed in the market and thus represents a Level 3 fair value measurement. Fair value measurements for reacquired franchise rights were determined using the income approach. Fair value measurements for property and equipment were determined using the cost approach.

(16)

Revenue from Contracts with Customers

The following table represents a disaggregation of revenue from contracts with customers for the fiscal years 2020, 2019, and 2018 (in thousands):

	Fiscal Year		
	December 26, 2020	December 28, 2019	December 29, 2018
Royalty revenue	\$ 98,554	\$ 75,106	\$ 61,882
Advertising fees	74,930	55,932	34,484
Franchise fees	3,656	4,087	2,924

Franchise fee, development fee, and international territory fee payments received by the Company are recorded as deferred revenue on the Consolidated Balance Sheets, which represents a contract liability. Deferred revenue is reduced as fees are recognized in revenue over the term of the franchise license for the respective restaurant. As the term of the franchise license is typically ten years, substantially all of the franchise fee revenue recognized in the current fiscal year was included in the

deferred revenue balance as of December 28, 2019. Approximately \$9.8 million and \$8.3 million of deferred revenue as of December 26, 2020 and December 28, 2019, respectively, relates to restaurants that have not yet opened, so the fees are not yet being amortized. The weighted average remaining amortization period for deferred franchise and renewal fees related to open restaurants is 7.2 years. The Company did not have any material contract assets as of December 26, 2020.

DESCRIPTION OF WINGSTOP INC. COMMON STOCK

The following description of the capital stock of Wingstop Inc. (the “Company,” “we,” “our,” or “us”) is a summary of the rights of our common stock and certain provisions of our amended and restated certificate of incorporation and amended and restated bylaws as currently in effect. This summary does not purport to be complete and is qualified in its entirety by the provisions of our amended and restated certificate of incorporation and our amended and restated bylaws, copies of which are filed as exhibits to this Annual Report on Form 10-K and are incorporated by reference herein. We encourage you to read our amended and restated certificate of incorporation, our amended and restated bylaws, and the applicable provisions of the Delaware General Corporation Law, as amended (the “DGCL”), for additional information.

Common Stock

General. Our amended and restated certificate of incorporation authorizes the issuance of 100,000,000 shares of our common stock, par value \$0.01 per share. All of our outstanding shares of our common stock are fully paid and nonassessable.

Voting rights. Except as required by law or matters relating solely to the terms of preferred stock, the holders of our common stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders, including the election of directors, and do not have cumulative voting rights. Unless otherwise required by law, matters submitted to a vote of our stockholders require the affirmative vote of the holders of a majority in voting power of the shares of our common stock that are present in person or by proxy and who are entitled to vote on such matter, except that directors are elected by a plurality of votes cast. Accordingly, the holders of a majority of the shares of common stock entitled to vote in any election of directors are able to elect all of the directors standing for election, if they so choose.

Dividend rights. Holders of common stock are entitled to receive ratably dividends if, as and when dividends are declared from time to time by our board of directors out of funds legally available for that purpose, subject to any preferential dividend rights of any then outstanding preferred stock. Our ability to pay dividends is subject to compliance with certain covenants in our outstanding debt instruments.

Other matters. Upon our liquidation, dissolution or winding up, the holders of common stock will be entitled to share ratably in the net assets legally available for distribution to stockholders after the payment of all of our debts and other liabilities, subject to any other distribution rights granted to holders of any outstanding preferred stock. Holders of common stock have no preemptive or conversion rights or other subscription rights, and no redemption or sinking fund provisions are applicable to our common stock.

Preferred Stock

Our amended and restated certificate of incorporation permits our board of directors, without further action of stockholders, to issue up to 15,000,000 shares of preferred stock from time to time in one or more classes or series. Our board of directors also may fix the relative rights and preferences of those shares, including dividend rights, conversion rights, voting rights,

redemption rights, terms of sinking funds, liquidation preferences and the number of shares constituting any class or series or the designation of the class or series. Terms selected by our board of directors in the future could decrease the amount of earnings and assets available for distribution to holders of common stock or adversely affect the rights and powers, including voting rights, of the holders of common stock without any further vote or action by the stockholders. As a result, the rights of holders of our common stock will be subject to, and may be adversely affected by, the rights of the holders of any preferred stock that may be issued by us in the future, which could have the effect of decreasing the market price of our common stock. Currently, there are no shares of preferred stock outstanding.

Anti-takeover Effects of Provisions of our Certificate of Incorporation and Bylaws and Delaware Law

The provisions of the DGCL and our amended and restated certificate of incorporation and amended and restated bylaws could have the effect of discouraging others from attempting an unsolicited offer to acquire the Company. Such provisions may also have the effect of preventing changes in our management. It is possible that these provisions could make it more difficult to accomplish transactions that stockholders may otherwise deem to be in their best interests.

Election and removal of directors. Our board of directors is divided into three classes, Class I, Class II and Class III, with members of each class serving staggered three-year terms. Our directors may be removed only by the affirmative vote of at least 66 2/3% of our then outstanding common stock and only for cause. This system of electing and removing directors generally makes it more difficult for stockholders to replace a majority of our directors.

Authorized but unissued shares. The authorized but unissued shares of our common stock and our preferred stock are available for future issuance without any further vote or action by our stockholders. These additional shares may be utilized for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions, and employee benefit plans. The existence of authorized but unissued shares of our common stock and our preferred stock could render more difficult or discourage an attempt to obtain control over us by means of a proxy contest, tender offer, merger or otherwise.

Stockholder action; advance notification of stockholder nominations and proposals. Our amended and restated certificate of incorporation and amended and restated bylaws require that any action required or permitted to be taken by our stockholders be affected only at a duly called annual or special meeting of stockholders and not by written consent. Our amended and restated certificate of incorporation also requires that special meetings of stockholders be called only by a majority of our board of directors or by the chairman of the board of directors. In addition, our amended and restated bylaws provide that, subject to limited circumstances, candidates for director may be nominated and other business brought before an annual meeting only by the board of directors or by a stockholder who gives written notice to us no later than 90 days prior to nor earlier than 120 days prior to the first anniversary of the last annual meeting of stockholders. These provisions may have the effect of deterring unsolicited offers to acquire the Company or delaying changes in control of our management, which could depress the market price of our common stock. These provisions could also have the effect of delaying until the next

stockholder meeting any stockholder actions, even if they are favored by the holders of a majority of our outstanding voting securities.

Amendment to certificate of incorporation and bylaws. The DGCL provides generally that the affirmative vote of a majority of the outstanding stock entitled to vote on amendments to a corporation's certificate of incorporation or bylaws is required to approve such amendment, unless a corporation's certificate of incorporation or bylaws, as the case may be, requires a greater percentage. Our amended and restated bylaws may be amended or repealed by a majority vote of our board of directors or, in addition to any other vote otherwise required by law, the approval by holders of at least 66 2/3% of the voting power of all of the then outstanding shares of the capital stock at a meeting of stockholders called for such purpose, voting together as a single class. Additionally, the approval by holders of at least 66 2/3% of the voting power of all of the then outstanding shares of the capital stock entitled to vote generally in the election of directors, voting together as a single class, is required to amend or repeal or to adopt any provision inconsistent with the "Board of Directors," "Limitation of Director Liability," "Action by Written Consent," "Annual Meetings of Stockholders," "Special Meetings of Stockholders," "Business Combinations," "Exclusive Jurisdiction for Certain Actions," and "Amendments" provisions described in our amended and restated certificate of incorporation. These provisions may have the effect of deferring, delaying, or discouraging the removal of any anti-takeover defenses provided for in our amended and restated certificate of incorporation and our amended and restated bylaws.

No cumulative voting. The DGCL provides that stockholders are not entitled to the right to cumulate votes in the election of directors unless our certificate of incorporation provides otherwise. Our amended and restated certificate of incorporation expressly prohibits cumulative voting.

Exclusive jurisdiction of certain actions. Our amended and restated certificate of incorporation requires, to the fullest extent permitted by law, that derivative actions brought in the name of the Company, actions against directors, officers and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware. Although we believe this provision benefits the Company by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may have the effect of discouraging lawsuits against our directors and officers.

The enforceability of similar choice of forum provisions in other companies' certificates of incorporation has been challenged in legal proceedings, and it is possible that, in connection with any applicable action brought against us, a court could find the choice of forum provisions contained in our amended and restated certificate of incorporation to be inapplicable or unenforceable in such action. Specifically, the choice of forum provision requiring that the Court of Chancery in the State of Delaware be the exclusive forum for certain suits would (i) not be enforceable with respect to any suits brought to enforce any liability or duty created by the Securities Exchange Act of 1934, as amended, and (ii) have uncertain enforceability with respect to claims under the Securities Act of 1933, as amended. The choice of forum provision in our amended and restated certificate of incorporation does not have the effect of causing our stockholders to have waived our obligation to comply with the federal securities laws and the rules and regulations thereunder.

Business combinations. We have opted out of Section 203 of the DGCL. However, our amended and restated certificate of incorporation contains similar provisions providing that we may not engage in certain “business combinations” with any “interested stockholder” for a three-year period following the time that the stockholder became an interested stockholder, unless:

- prior to such time, our board of directors approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, excluding certain shares; or
- at or subsequent to that time, the business combination is approved by our board of directors and by the affirmative vote of holders of at least 66 2/3% of the outstanding voting stock that is not owned by the interested stockholder.

Generally, a “business combination” includes a merger, asset or stock sale or other transaction resulting in a financial benefit to the interested stockholder. Subject to certain exceptions, an “interested stockholder” is a person who, together with that person’s affiliates and associates, owns, or within the previous three years owned, 15% or more of our voting stock.

Under certain circumstances, this provision will make it more difficult for a person who would be an “interested stockholder” to effect various business combinations with a corporation for a three-year period. This provision may encourage companies interested in acquiring the Company to negotiate in advance with our board of directors because the stockholder approval requirement would be avoided if our board of directors approves either the business combination or the transaction which results in the stockholder becoming an interested stockholder. These provisions also may have the effect of preventing changes in our board of directors and may make it more difficult to accomplish transactions which stockholders may otherwise deem to be in their best interests.

Limitation of Liability and Indemnification

Our amended and restated bylaws limit the liability of our directors to the fullest extent permitted by applicable law and provide that we will indemnify them to the fullest extent permitted by such law. We have entered into indemnification agreements with our current directors and executive officers and expect to enter into a similar agreement with any new directors or executive officers. We also maintain directors’ and officers’ liability insurance coverage.

Listing

Our common stock is listed on Nasdaq under the symbol “WING.”

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Computershare Trust Company, N.A.

CERTIFICATION PURSUANT TO EXCHANGE ACT RULE 13a-14(a)/15d-14(a) AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-
OXLEY ACT OF 2002

I, Charles R. Morrison, certify that:

1. I have reviewed this Annual Report on Form 10-K of Wingstop Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
