## REVIEW OF OPERATIONS

### Overview

Xstate Resources Limited is listed on the Australian Stock Exchange (ASX: XST). The Group is primarily involved in oil and natural gas exploration.

At 31 December 2016, Xstate had 621,792,718 shares on issue and 1,640 shareholders. Its Top 20 holders held 284,593,029 shares or 45.41% of the Company's issued capital.

### The Financial Year

On 13 April 2016, the Company issued 58,265,423 fully paid shares at 0.5 cents per share via a private placement to raise \$291,327 before costs.

On 14 April 2016, the Company entered into a Letter of Intent (LOI) with Sunset Exploration Inc to acquire various interests in three conventional onshore fields in California. The Company decided not to proceed with the acquisition due to risks identified during the due diligence period.

On 14 June 2016, the Company issued 300,000,000 fully paid shares at 1.0 cent per share to raise \$3 million for working capital purposes as approved by shareholders on 31 May 2016.

On 29 June 2016, the Company issued 25,465,600 fully paid shares at 0.5 cents per share for conversion of a \$125,000 Convertible Note and interest payable (\$2,328) as approved by shareholders on 31 May 2016.

### Sacramento Basin Farm-out

On 10 August 2016, the Company entered into an agreement to farm out part of its working interest in the onshore California Area of Mutual Interest held by Xstate ("XST") and its partner Sacgasco ("SGC") Limited (the "AMI") to private company Bombora Natural Energy Pty Ltd ("BNE"). BNE will fund the licensing of additional oil and gas leases over highly prospective prospects in the Northern Sacramento Basin.

BNE will earn a 20% Working Interest ("WI") in up to 9 natural gas prospects that have already been mapped in the AMI by providing staged funding of up to \$400,000.

Xstate has agreed to sell down a 6% WI, with the remaining 14% interest provided by Sacgasco Limited.

BNE will provide funding in two stages, with funds being utilised by the AMI partners to acquire additional acreage of highly prospective leases containing prospects and leads identified by AMI partner SGC from seismic. XST anticipates making progress announcements after material leases have been secured.

Initial funding of \$200,000 from BNE will focus on securing 3 Prospects in which Bombora will earn 20%.

BNE will have the option to fund a further A\$200,000 of leasing to earn a 20% interest in an additional 6 prospects (6% from Xstate and 14% from Sacgasco).

Upon Bombora funding A\$400,000 in lease costs, the Working Interests in the AMI will be:

Entity	Before	After
Xstate Resources Limited (ASX: XST)	30%	24%
Sacgasco Limited (ASX: SGC)	70%	56%
Bombora Natural Energy Pty Ltd	0%	20%

### LA Basin Oil Field Acquisition

On 4 November 2016 Xstate (“Xstate” or the “Company”) announced that it had entered into a Letter of Intent “LOI” subject to funding and due diligence to acquire a working interest in two Los Angeles Basin oil fields- the Sansinena oil field located nearby the City of La Habra, and the East LA oil field located in Los Angeles.

The acquisition secured existing production, production enhancement and associated development drilling potential as well as appraisal opportunities within the Sansinena Field. The fields are operated by Matrix Oil Corp (“Matrix”), which holds a 50% equity interest in the fields. Xstate intends to acquire its working interest from a private investor group that will retain a 25.5% gross working interest in the oil fields.

Xstate previously announced a strategic shift to focus on low risk conventional production opportunities onshore USA targeting underperforming at or near the bottom of the oil price cycle. The Sansinena field is the first step towards transforming Xstate into a USA conventional oil and gas producer and explorer focused on building a material cash flow and production asset base with the potential for significant growth to complement its existing exploration portfolio.

The Sansinena field represents an ideal investment opportunity for Xstate that is well suited to its growth strategy. The field already has economic production with numerous low risk well recompletion and development drilling opportunities as well as exploration potential. The current production and future development opportunities exist in proven reservoirs between 1,500 to 5,000 feet containing 15 - 32 degree API oil. The fields contain a large independently assessed undeveloped reserve potential as well as a large acreage position of approximately 3,450 gross acres. The economics of the field are enhanced by low royalties (approximately 15%) low well decline rates (2-3% per annum). The reserve and resource potential including the forecast production profile will be fully described at the conclusion of Phase 1 due diligence.

This acquisition with associated drilling investment options provides an excellent platform from which Xstate can grow. Expected cash flow from the workover program can be used for further development and appraisal activities and other projects that are currently under review. The location of the assets adjacent to other oil discoveries also provides opportunities for growth and aggregation.

This acquisition provides cash flow, production infrastructure and more importantly access to growth opportunities consistent with Xstate’s revised business strategy to generate value for shareholders through low risk field development, appraisal and production enhancement opportunities.

It is vitally important when working in the USA for joint venture interests to be aligned. Xstate will have the opportunity to work with an experienced onshore Californian operator, Matrix Oil Corp. who has partnered with a sophisticated financial investor. The joint venture will benefit from the operator’s management team’s past activities at the adjacent Whittier Main and West fields, providing economies of scale in operating costs and production operations.

As a result of this transaction Xstate will develop on the ground operational capability and gain access to commercially aligned operational relationships in California, which will enable the identification, purchase and enhancement of additional production opportunities in line with the Company’s investment strategy.

**Los Angeles Basin – Field Location Map**

Source: Californian Division of Oil, Gas, and Geothermal

**Forward Plan**

- Completion was initially targeted for February 2017
- Effective date is January 1, 2016
- Acquisition was subject to customary due diligence and mutually satisfactory Purchase and Sales Agreement
- Reserves to be booked following completion of financial close

Due diligence was completed on 22 December 2016 and Xstate executed a Purchase and Sales Agreement (PSA) on 22 December 2016.

During due diligence, Xstate was extremely impressed with the quality of the asset and Matrix Oil Corp. (“Matrix”) the operator. Matrix has accomplished significant recent productivity gains and cost reductions leveraging their own experience from the successful optimisation of adjacent fields, which are in analogous reservoir settings. Importantly a significant percentage of the productivity gains and cost reductions are sustainable in the long term thereby providing an excellent platform from which the joint venture can pursue Sansinena’s multi-well inventory of proven undeveloped drilling locations.

The unique nature of the multilayered reservoirs in the North East position of the LA basin where oil pay is encountered at depths from 200 - 500 metres with up to 1500 meters of gross pay, means that wells recover substantial reserves on a per well basis from a relatively small drainage area. As a result, a substantial reserve of undrained oil potential exists within close proximity to existing well bores with low technical risk. Importantly the commerciality of proven but yet to be developed reserves (“PUDs”) is enhanced by the shallow and predictable nature of drilling, the ability to use existing well bores, as well as existing drilling pads and surface facilities.

## **XSTATE RESOURCES LIMITED REVIEW OF OPERATIONS**

**For the year ended 31 December 2016**

---

Netherland Sewell & Associates Inc. ("NSA") has completed its analysis of the Sansinena field, which supports the Company's prior analysis. The Proven reserves are in line with prior estimates, however the Probable and Possible reserve categories have been revised downwards (between 5-10%, mostly due to more conservative oil pricing assumption) which the Company considers immaterial to the overall transaction given the large premium of asset value to acquisition cost.

On 19 December 2016, the company advised that it had agreed to enter into a series of subscription agreements to raise \$25,000,000 before costs at 3.8 cps, representing a premium of more than 2.0x the last traded price of 1.8cps. The Company entered into binding letters of offer with four sophisticated Asian investors who are subscribing for shares. No investor will hold more than 15% of the company on a diluted capital basis post raising.

In total the capital raising will result in Xstate issuing 657,894,736 fully paid shares at \$0.038 cps to raise \$25,000,000 representing 51.4% of the issued capital on a post issue basis. The issue of the shares pursuant to the subscription agreement was approved by shareholders on 31 January 2017.

On 28 March 2017, the Company advised the market that funds under the subscription agreement had still not been received, and that the vendor of the Los Angeles Basin assets being acquired by the Company had agreed to extend the time for settlement of the acquisition whilst the transfer of funds out of Indonesia is being finalised.

### **Company strategy**

Xstate currently has a solid base from which to build a successful E&P company onshore in the USA. Accordingly, the company is focussed on longer term strategic value creation than short-term activity.

Specifically, the company's strategy is as follows:

- to secure a suitable farminee(s) to drill or otherwise evaluate its existing high impact multi-TCF appraisal and exploration assets in the Sacramento Basin
- to continue to screen and pursue the acquisition of low risk production assets in multiple proven hydrocarbon basins
- to build a production portfolio with diversity, materiality and follow-up potential focused on low risk conventional production enhancement and development drilling
- to prudently manage cash in order to keep operating and administrative costs to a minimum

### **Project review**

#### New Ventures

Concurrent with the Company's existing Sacramento Basin gas assets, Xstate announced a strategic shift to focus on low risk conventional production opportunities onshore USA targeting underperforming or distressed assets at or near the bottom of the oil price cycle.

The Company remains focused on assets with proven upside which are in production rather than shut in. This ensures that the facilities are functioning, all required environmental and regulatory approvals are in place and importantly, in the case of onshore production acquisitions, a viable water disposal solution is in place.

California is one of the world's most prolific oil and gas provinces, with well over 100 years of continuous oil and gas production. The state of California has extensive infrastructure and support facilities with abundant opportunities that Xstate Board believe the Company is well positioned to acquire and enhance.

Xstate has an active business evaluation program targeting producing assets and is advancing discussions in relation to other potential transactions, such discussions at advanced stages. The agreement for the acquisition of the Sansinena and East LA Oil Fields is the commencement of this program.

Exploration

**Sacramento Basin Joint Venture – Onshore Northern California**

Exploration leases have continued to be maintained within the Sacramento Basin during the quarter. Xstate has a working interest (WI) of between 10% and 25% in lease areas, which cover conventional gas prospects.

**Dempsey Conventional Gas Prospect (XST 10% WI)**

The Dempsey prospect remains the current focus of the Joint Venture's exploration activities, primarily because of the potential for near term production given the prospect's location beneath the joint ventures existing production facilities.

The Dempsey well's proposed depth is 3,200m and is estimated to cost between US\$3.5 and US\$4.0mm to drill (based on a 100% equity with Xstate's share between US\$350,000 and US\$400,000).

**Alvares Conventional Gas Prospect (XST 25% WI)**

The Alvares gas appraisal project provides the opportunity to appraise a large anticline originally drilled in 1982, which encountered extensive gas, shows and flowed gas to surface.

Production

**Sacramento Basin**

**Rancho - Capay Gas Field (XST 10% WI in 4 wells) & Los Medanos Gas Field (XST 10% WI in 3 wells)**

Xstate acquired a working interest in minor gas production rights in the Sacramento Basin onshore California in 2013. The purpose of the acquisition was to acquire the leases for further exploration and to access an extensive 3D seismic database from which to generate new exploration opportunities.

Production for the year was as follows:

<b>Production</b>	<b>2016</b>	<b>2015</b>
Gross mcf (Thousand Cubic Feet of Gas)	57,143	155,483
Net XST mcf (after royalty)	3,929	10,674

Production was reduced during 2016 due to reduced availability of pipelines while maintenance was performed, and natural production decline.

David McArthur	31-Jan-17	9,000,000	5	31-Dec-20

These options were provided at no cost to the recipients. Issue of these options was approved by shareholders at a General Meeting on 31 January 2017.

**Unissued shares under options**

At the date of this report unissued ordinary shares of the Company under option are:

Expiry date	Exercise price cents	Number of shares
31-Dec-20	5	42,000,000

All unissued shares are ordinary shares of the Company.

These options do not entitle the holder to participate in any share issue of the Company.

Further details in relation to the share-based payments to directors are included in the Remuneration Report.

**Shares issued on exercise of options**

During or since the end of the financial year, no shares were issued as a result of the exercise of options.

**Options expired**

22,000,000 options expired during the reporting period (31 December 2015: 17,000,000 options expired).

**11. INDEMNIFICATION AND INSURANCE OF OFFICERS AND AUDITORS**

During the financial year, the Company paid an insurance premium of \$35,382 (2015: \$20,548) to insure the directors and key management of the Group.

The liabilities insured are legal costs that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as officers of the Group, and any other payments arising from liabilities incurred by the officers in connection with such proceedings. This does not include such liabilities that arise from conduct involving a wilful breach of duty by the officers or the improper use by the officers of their position or of information to gain advantage for themselves or someone else or to cause detriment to the Group. It is not possible to apportion the premium between amounts relating to the insurance against legal costs and those relating to other liabilities.

**XSTATE RESOURCES LIMITED  
DIRECTORS' REPORT**

**For the year ended 31 December 2016**

---

**11. INDEMNIFICATION AND INSURANCE OF OFFICERS AND AUDITORS (continued)**

The Group has agreed to indemnify each of the directors and the company secretary of the Company and its controlled entity, against all liabilities to another person (other than the Company or a related body corporate) that may arise from their position as directors and company secretary of the company and its controlled entities, except where the liability arises out of conduct involving a lack of good faith. The agreement stipulates that the Company will meet the full amount of any such liabilities, including costs and expenses.

No agreements have been entered into to indemnify the Group's auditors against any claims by third parties arising from their report on the Annual Financial Statements.

**12. NON-AUDIT SERVICES**

The Group may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Group are important.

The Board has considered the non-audit services provided during the year by the auditor and is satisfied that the provision of these non-audit services during the year by the auditor is compatible with, and did not compromise, the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services were subject to the corporate governance procedures adopted by the Company; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants*, as they did not involve reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the Company, acting as an advocate for the Company or jointly sharing risks and rewards.

Details of the amounts paid to the auditor of the Company, BDO Audit (WA) Pty Ltd, and its related practices for non-audit services provided during the year are set out below:

	2016 \$	2015 \$
<b>Taxation services</b>

**14. REMUNERATION REPORT - AUDITED**

The Directors present the Company's 2016 Remuneration Report prepared in accordance with the Corporations Act 2001. The Report sets out the detailed remuneration information for Non-executive Directors, Executive Directors and other Key Management Personnel (KMP) of the Group.

The report contains the following sections:

- (a) Remuneration governance
- (b) Executive remuneration strategy and framework
- (c) Board and management changes
- (d) Service contracts
- (e) Non-executive director remuneration
- (f) Key management personnel remuneration
- (g) Other KMP disclosures
- (h) Voting and comments made at the Company's 2015 Annual General Meeting

**(a) Remuneration governance**

The remuneration of directors and key management is the responsibility of the Remuneration and Nomination Committee.

**(b) Executive remuneration strategy and framework**

Remuneration is referred to as compensation throughout this report.

Compensation levels for key management personnel of the Group are set to attract, retain and motivate appropriately qualified and experienced Directors and Executives. As the Group's principal activities during the year were new ventures and exploration / evaluation, measurement of remuneration policies against financial performance is not considered relevant. The measurement of remuneration policies considered a range of factors including budget performance, delivery of results and timely completion of development programmes.

The objective of the Group's reward framework is to ensure that remuneration policies and structures are fair and competitive. The Board ensures that remuneration satisfies the following criteria for reward:

- competitiveness and reasonableness;
- transparency;
- attracts and retains high calibre executives; and
- rewards capability and experience.

***Executive remuneration mix***

The remuneration of the Managing Director and other KMP can be structured as a mix of fixed remuneration and variable "at risk" remuneration through short-term and long-term incentive components.

***Fixed compensation***

Fixed compensation consists of base compensation plus employer contributions to superannuation funds (unless otherwise stated). Compensation levels are reviewed annually by the Board through a process that considers individual and overall performance of the Group, and compares compensation to ensure it is comparable and competitive within the market in which the Group operates.

Fixed compensation is not "at risk" but is appropriately benchmarked and set with reference to role, responsibilities, skills and experience.

***Performance-linked compensation***

Performance-linked compensation can consist of both short-term and longer-term remuneration. Performance-linked remuneration is not based on specific financial indicators such as earnings or dividends as the Group is at the exploration and development stage. Vesting of long term incentives is based on the share price performance of the Group, which is considered an appropriate measure of the outcome of overall performance. There is no separate profit-share plan.

**14. REMUNERATION REPORT – AUDITED (continued)**

**(b) Executive remuneration strategy and framework (continued)**

***Long-term incentive***

Long-term incentives (LTI) can comprise share options and/or performance rights (PR), which are granted from time to time to encourage sustained performance in the realisation of strategic outcomes and growth in shareholder value. Options and rights are granted for no consideration and do not carry voting rights or dividend entitlements.

The Company adopted an Employee Share Options Scheme (ESOS) effective 31 January 2014. Under the ESOS, the Company may grant options to Company eligible employees to motivate and reward their performance in their respective roles up to a maximum of 10% of the Company's total issued ordinary shares at the date of the grant. The fair value of share options granted is estimated using the Black-Scholes Simulation model.

The Company has awarded options to directors and consultants.

***Consequences of performance on shareholder wealth***

The overall level of key management personnel compensation takes into account the performance of the Company over a number of years, although no remuneration is directly linked with financial performance.

Financial performance in respect of the current financial year and the previous four financial years is detailed below:

<b>Shareholder returns</b>	<b>2016</b>	<b>2015</b>	<b>2014</b>	<b>2013</b>	<b>2012 Restated</b>
Net loss attributable to equity holders (\$)	(1,036,166)	(1,530,025)	(1,485,283)	(1,368,998)	(2,562,319)
Basic EPS (cents)	(0.23)	(0.77)	(0.88)	(1.17)	(2.54)
Share price at year end (cents)	2.40	0.5	1.0	3.5	1.5
Market capitalisation (\$)	14,923,025	1,190,308	1,821,292	4,911,460	1,513,220
Net tangible (liabilities) / assets (NTA) (\$)	1,295,307	(79,484)	387,186	272,605	759,174
NTA Backing (cents)	0.21	(0.03)	0.21	0.19	0.75

During the financial years noted above, there were no dividends paid or other returns of capital made by the Company to shareholders. The Group's financial performance is impacted by a number of factors.

As the Group is still in the exploration phase of its operations, and as such does not generate revenue, the share price and thus the Company's market capitalisation is the only indicator of the Group's overall performance.

**(c) Board and management changes**

On 31 May 2016 Xstate announced a Board restructure to reflect an alignment with the Company's strategic positioning and proposed future activities in California. The key change was the appointment of Cosimo Damiano as Managing Director. Mr Damiano, who has been a Director of the Company since 27 October 2015, has extensive commercial and finance experience and asset familiarity on the ground in the Company's cores areas of interest in the USA. His appointment to the role of Managing Director will assist the Company to pursue, assess and secure funding for a strategy of adding low operating cost conventional oil and gas production as well as undeveloped reserves to the Company's portfolio.

Mr Chris Hodge, who was previously Managing Director, remains on the Board as a non-executive Director.

**(d) Service contracts**

On appointment to the Board, all non-executive directors enter into a letter of appointment with the Company specifying their functions and duties as a Director.

Executive remuneration and other terms of employment are formalised in service agreements. The service agreements outline the components of compensation paid to the Executives and key management personnel (KMPs) but do not prescribe how compensation levels are modified year by year. Compensation levels are reviewed each year to take into account cost of living changes, any change in the scope of the role performance by KMPs and any changes required to meet the principles of the compensation policy. The major provisions of the agreement relating to remuneration are set out below.

<b>Name</b>	<b>Term of agreement</b>	<b>Employee notice period</b>	<b>Employer notice period</b>	<b>Base salary</b>	<b>Termination Benefit <sup>(iii)</sup></b>
Cosimo Damiano	Ongoing from 1 January 2017	3 months	12 months	\$150,000 <sup>(i)</sup>	12 months' base
David McArthur	Ongoing from 1 January 2017	12 months	12 months	\$50,000 <sup>(ii)</sup>	12 months' base

(i) Base salary is inclusive of superannuation and quoted as at the year ended 31 December 2016;

(ii) Base salary is exclusive of superannuation and quoted as at the year ended 31 December 2016;

(iii) Termination benefits are payable upon early termination by the Company, other than for gross misconduct. They are equal to base salary for the notice period;

**(e) Non-executive directors**

Total compensation for all non-executive directors, last voted upon by shareholders on 19 May 2011, is not to exceed \$400,000 per annum and is based on comparative roles in the external market. The base fee for all non-executive directors, including the Chairman, for the year ended 31 December 2016 was \$32,500 per annum. Fees and payments to non-executive directors reflect the demands which are made on, and the responsibilities of, the directors. Non-executive directors' fees and payments are reviewed by the Remuneration and Nomination Committee and they do not receive cash performance related compensation.

The base fees were increased to \$36,000 per annum, effective from 1 January 2017. The revised fees, which were approved by the Board on 11 January 2017, are inclusive of the statutory superannuation amount and cover all main board activities and memberships of sub-committees.

In addition to their base fees, non-executive directors may also receive payment for consultancy services at \$1,500 per day plus reimbursable expenses. The contracts have a 12 months' termination clause.

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001, is included in the Directors' Report for the financial year ended 31 December 2016.

This Directors' Report is made in accordance with a resolution of the Directors.

**COSIMO DAMIANO**

Managing Director

Dated at Perth, Western Australia this 29<sup>th</sup> day of March 2017.

## DECLARATION OF INDEPENDENCE BY DEAN JUST TO THE DIRECTORS OF XSTATE RESOURCES LIMITED

As lead auditor of Xstate Resources Limited for the year ended 31 December 2016, I declare that, to the best of my knowledge and belief, there have been:

1. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
2. No contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Xstate Resources Limited and the entities it controlled during the period.

## **CORPORATE GOVERNANCE STATEMENT**

The 2016 Corporate Governance Statement is dated as at 31 December 2016 and reflects the corporate governance practices in place throughout the 2016 financial year.

Xstate Resources Limited (the Company) is committed to achieving and demonstrating the highest standards of Corporate Governance. The Board continues to review the framework and practices to ensure that they meet the best interests of shareholders. The Company and its controlled entities together are referred to as the Group in this statement.

A description of the Group's main corporate governance practices is set out below. All these practices, unless otherwise stated, were in place for the entire year. Additionally, they comply with the 3<sup>rd</sup> edition of the ASX Corporate Governance Principles and Recommendations.

### **Board of Directors**

#### **Role of the Board**

The primary responsibilities of the Board of Directors are set out in a written policy and include:

- Establishment of long-term goals of the Group and strategic plans to achieve these goals;
- Monitoring the achievement of these goals;
- Review of the management accounts and reports to monitor the progress of the Group;
- Review and adoption of budgets for the financial performance of the Group and monitoring the results on a regular basis to assess performance;
- Review and approval of the annual and interim financial reports;
- Nominating and monitoring the external auditor;
- Approving all significant business transactions;
- Appointing and monitoring senior management;
- All remuneration, development and succession issues;
- Ensuring the Group has implemented adequate systems of risk management and internal control together with appropriate monitoring of compliance activities;
- Overseeing the process for making timely and balanced disclosure of all material information that a reasonable person would expect to have a material effect on the price or value of the Company's securities;
- Ensuring that the Company has a suitably qualified Company Secretary who shall be accountable directly to the Board, through the chair, on all matters to do with the proper functioning of the Board; and
- Ensuring that the Company reports on its measurable objectives in relation to gender diversity and assesses annually both the objectives and progress in achieving gender diversity.

The Board evaluates this policy on an ongoing basis.

#### **Board composition**

The Directors' Report contains details of the Directors' skills, experience and education. The Board seeks to establish a Board that consists of Directors with an appropriate range of experience, skill, knowledge and vision to enable it to operate the Group's business with excellence. To maintain this, the Group's policy is that Executive Directors should serve at least 3 years. At the completion of the first 3 years, the position of the Director is reviewed to ascertain if circumstances warrant a further term.

The specific skills that the Board collectively bring to the Company include:

- Industry Experience / technical qualification
- Commercial experience

## **XSTATE RESOURCES LIMITED CORPORATE GOVERNANCE STATEMENT**

---

### **Board composition (continued)**

- Public company experience
- Analytical expertise
- Financial expertise
- Risk management experience
- Strategic planning experience
- Strategic leadership experience
- Corporate Governance expertise
- Communications experience
- Inter personal experience

The Board comprises an Executive Director, one Non-Executive Director and two Non-Executive Independent directors. A written agreement is entered into with each Director and Senior Executive of the Company setting out the terms of their employment.

The chair of each of the sub committees formed by the Board has specific skills in the area for which they are responsible.

The Board does not have a Director with legal experience, as any legal work required is out sourced to external lawyers.

Directors' details are set out in the Directors' Report.

The Board, through the Nomination Committee, is primarily responsible for identifying potential new Directors and has the option to use an external consulting firm to identify and approach possible new candidates for Directorship. When a vacancy exists, or where it is considered that the Board would benefit from the services of a new director with particular skills, candidates with the appropriate experience, expertise and diversity are considered. Each incumbent Director is given the opportunity to meet with each candidate on a one to one basis. The full Board then appoints the most suitable candidate.

The Board undertakes appropriate checks before appointing a person as a Director or putting forward to shareholders a candidate for election as a Director.

The Board ensures that shareholders are provided with all material information in the Board's possession relevant to a decision on whether or not to elect or re-elect a Director.

The appointment of the Directors must be approved by the majority of the Shareholders at the first Annual General Meeting after the appointment.

### **Retirement and re-election of directors**

The Constitution of the Company requires one third of Directors (or the number nearest one third, rounded up), other than the Managing Director, to retire from office at each Annual General Meeting. Directors who have been appointed by the Board are required to retire from office at the next Annual General Meeting and are not taken into account in determining the number of Directors to retire at that Annual General Meeting. Retiring Directors are eligible for re-election by Shareholders. No Director shall hold office for a period of three years without seeking re-election.

### **Independence of directors**

The Board has reviewed the position and association of each of the Directors in the office at the date of this report and considers that two Directors are independent. In considering whether a Director is independent, the Board has regard to the independence criteria in ASX Corporate Governance Principles and Recommendations Principle 2 and other facts, information and circumstances that the Board considers relevant. The Board assesses the independence of new Directors upon appointment and reviews their independence, and the independence of the other Directors, as appropriate.

## **XSTATE RESOURCES LIMITED CORPORATE GOVERNANCE STATEMENT**

---

### **Independence of directors (continued)**

The Board considers that Messrs Chris Hodge and Ian Tchacos meet the criteria in Principle 2. They have no material business or contractual relationship with the Group, other than as Directors, and no conflicts which could interfere with the exercise of independent judgement. Accordingly, they are considered to be independent.

### **Director education**

All new Directors complete an induction process. The non-executive directors are given every opportunity to gain a better understanding of the business, the industry, and the environment within which the Group operates, and are given access to continuing education opportunities to update and enhance their skills and knowledge. The Board are specifically provided the opportunity to enhance their financial, regulatory and compliance skills in relation to public companies through external courses.

### **Independent professional advice**

With prior approval of the Chairman, each Director has the right to seek independent legal and other professional advice at the Group's expense concerning any aspect of the Group's operations or undertakings in order to fulfil their duties and responsibilities as Directors.

### **Board performance review**

The performance of all Directors is assessed through review by the Board as a whole of a Director's attendance at and involvement in Board meetings, their performance and other matters identified by the Board or other Directors. Significant issues are actioned by the Board. Due to the Board's assessment of the effectiveness of these processes, the Board has not otherwise formalised measures of a Director's performance.

The Directors conducted an internal performance evaluation of the Members of the Board during the reporting period. External advisers were not used.

### **Director remuneration**

Details of the Group's remuneration policies are included in the "Remuneration Report" section of the Directors Report.

- (a) Non-Executive Directors are remunerated by cash payments (including statutory superannuation) and will not be provided with any benefits for ceasing to be a Director. Non-executive directors may be offered performance based remuneration by way of options or Incentive share rights. The Board acknowledges the grant of options or incentive share rights to non- executive directors is contrary to Recommendation 8.3 of The Corporate Governance Principles and Recommendations, however the Board considers the grant of such options and share rights is reasonable in the circumstances for the following reasons:
- (i) the grant of options or incentive shares to non- executive directors will align the interests of the non-executive directors with those of Shareholders;
  - (ii) the grant of the options or incentive shares is a reasonable and appropriate method to provide cost effective remuneration as the non-cash form of this benefit will allow the Company to spend a greater proportion of its cash reserves on its operations than it would if alternative cash forms of remuneration were given to the non-executive directors; and
  - (iii) it is not considered that there are any significant opportunity costs to the Company or opportunities foregone by the Company in granting the non-executive directors options or incentive shares.
- (b) The Executive Director is remunerated by both fixed remuneration and equity performance based remuneration, subject to obtaining all regulatory approvals from shareholders. A reasonable period of notice of termination is required and is detailed in the Executive's employment contract.

## **XSTATE RESOURCES LIMITED CORPORATE GOVERNANCE STATEMENT**

### **Managing Business Risk**

The Group maintains policies and practices designed to identify and manage significant risks including:

- regular budgeting and financial reporting;
- procedures and controls to manage financial exposures and operational risks;
- the Group's business plan;
- corporate strategy guidelines and procedures to review and approve the Group's strategic plans; and
- establish and assess a Group Risk profile which identifies all significant risks to the group and controls in place to minimise or mitigate risk.

The Board reviews these systems and the effectiveness of their implementation annually and considers the management of risk at its meetings. The Board may consult with the Group's external auditors on external risk matters or other appropriately qualified external consultants on risk generally, as required.

The Board receives regular reports about the financial condition and operating results of the consolidated Group. The Managing Director (or in his absence the Chairman) and Chief Financial Officer (or someone who fulfils the role that would otherwise be performed by a CFO) annually provide a formal statement to the Board that in all material respects and to the best of their knowledge and belief:

- the Group's financial reports present a true and fair view of the Group's financial condition and operational results and are in accordance with relevant accounting standards; and
- the Group's risk management and internal control systems are sound, appropriate and operating efficiently and effectively.

The Company assesses its exposure to economic, environmental and social sustainability risks as part of the Group Risk profile. The Board assesses the likely impact of changes and implements strategies to minimise exposure to these specific risks.

Due to its size and activities the Company does not have an internal audit function. The Board has determined that the established internal controls for the Company, combined with the work of the audit committee and the risk management committee, at this stage satisfactorily address the function that would otherwise be dealt with by an internal audit function.

### **Internal Controls**

Procedures have been established at the Board and Executive management levels that are designed to safeguard the assets and interests of the Group, and to ensure the integrity of reporting. These include accounting, financial reporting and internal control policies and procedures. To ensure these established procedures are being followed, the Directors:

- ensure appropriate follow-up of significant audit findings and risk areas identified;
- review the scope of the external audit to align it with Board requirements; and
- conduct a detailed review of published accounts.

### **Audit and Risk Management Committee**

The role of the Audit and Risk Management Committee is documented in a Charter which is approved by the Board of Directors. In accordance with this Charter, all members of the Committee must be Non-Executive Directors.

The primary role of the Audit Committee is to:

- Assist the Board in fulfilling its overview of the audit process;
- Assist the Board in overseeing financial reporting;
- Assist the Board in fulfilling its overview of the systems of internal control which the Board and management have established;
- Monitor, review and recommend the adoption of the financial statements of the Company;

## **XSTATE RESOURCES LIMITED CORPORATE GOVERNANCE STATEMENT**

---

### **Audit and Risk Management Committee (continued)**

- Regularly review the adequacy of accounting, internal controls, reporting and other financial management systems and practices of the Company;
- Review the financial report and other financial information distributed externally;
- Review any new accounting policies to ensure compliance with Australian Accounting Standards and generally accepted accounting principles;
- Improve the quality of the accounting function;
- Review audit reports to ensure that if major deficiencies or breakdowns in controls or procedures are identified, appropriate and prompt remedial action is taken by management;
- Review the nomination and performance of the auditor;
- Liaise with external auditors and ensure that the annual and half-year statutory audits are conducted in an effective manner;
- Monitor the establishment of appropriate ethical standards;
- Monitor the procedures in place to ensure compliance with the *Corporations Act 2001*, Australian Accounting Standards and Australian Securities Exchange Listing Rules and all other regulatory requirements; and
- Address any matters outstanding with the auditors, the Australian Taxation Office, the Australian Securities and Investments Commission, the Australian Securities Exchange and financial institutions.

The members of the Audit and Risk Management Committee for the Company at the date of this report were:

- Mr David McArthur – non-executive director (Chair)
- Mr Ian Tchacos – independent non-executive director
- Mr Chris Hodge – independent non-executive director

The auditors and the Managing Director are invited to attend Audit Committee meetings at the discretion of the Committee. The Committee met two times during the year.

### **Remuneration and Nomination Committee**

The Remuneration and Nomination Committee operates in accordance with its Charter. The main responsibilities of the Remuneration Committee are:

- Determine remuneration policies and remuneration of Directors;
- Determine remuneration and incentive policies of Key Executives;
- Determine the Group recruitment, retention and termination policies and procedures for senior management;
- Determine and review incentive schemes;
- Ensure all Directors and senior executives have a written agreement setting out the terms of their appointment;
- Evaluate senior executive performance on an annual basis. This occurred during the 2016 financial year;
- Determine and review superannuation arrangements of the Group;
- Determine and review professional indemnity and liability insurance for Directors and senior management;
- Review the Board composition to ensure the Board has the correct balance of skills and expertise;
- Appointment of the Managing Director and the Company Secretary;
- Approve the recommendation for the appointment of key management personnel presented to the Committee by the Managing Director;
- Performance appraise the Board members and the Managing Director;
- Succession planning for Board members and the Managing Director;
- Approve the recommended succession planning for key management personnel presented to the Committee by the Managing Director; and
- Identify, evaluate and recommend candidates for the Board, the position of Managing Director and the position of Company Secretary.

## **XSTATE RESOURCES LIMITED CORPORATE GOVERNANCE STATEMENT**

---

### **Remuneration and Nomination Committee (continued)**

If required, the committee can seek independent external advice from consultants with specific industry experience relevant to the Company's remuneration assessment. External advice was not obtained during the 2016 year.

Specific policies and procedures regarding remuneration determination are contained within the Directors Report.

The members of the Remuneration and Nomination Committee for the Company at the date of this report were:

- Mr Ian Tchacos – independent non-executive director (Chair)
- Mr David McArthur – non-executive director
- Mr Chris Hodge – independent non-executive director

The Committee did not meet during the year.

### **Ethical Standards**

In pursuit of the highest level of ethical standards, the Group has adopted a Code of Conduct which establishes the standards of behaviour required of Directors and employees in the conduct of the Group's affairs. This code is provided to all Directors and employees. Unethical behaviour is to be reported to the Group's Managing Director (or in his absence, the Chairman) as soon as possible.

The Code of Conduct is based on respect for the law, and acting accordingly, dealing with conflicts of interest appropriately, using the consolidated entity's assets responsibly and in the best interests of the Company, acting with integrity, being fair and honest in dealings, treating other people with dignity and being responsible for actions and accountable for the consequences.

### **Trading in the Company's Securities by Directors and Employees**

The Board has adopted a policy in relation to dealings in the securities of the Group which applies to all Directors and employees. Under the policy, Directors are prohibited from short-term or "active" trading in the Group's securities and Directors and employees are prohibited from dealing in the Group's securities whilst in the possession of price sensitive information. The Company's Managing Director (or in his place the Chairman) must be notified of any proposed transactions in the Company's shares.

This policy is provided to all Directors and employees. Compliance with it is reviewed on an on-going basis in accordance with the Company's risk management systems.

### **Continuous Disclosure**

The Group has in place a continuous disclosure policy, a copy of which is provided to all Group officers and employees who may from time to time be in possession of undisclosed information that may be material to the price or value of the Group's securities.

The continuous disclosure policy aims to ensure timely compliance with the Company's continuous disclosure obligations under the Corporations Act 2001 and ASX Listing Rules and to ensure officers and employees of the Group understand these obligations.

The procedure adopted by the Group is essentially that any information which may need to be disclosed must be brought to the attention of the Chairman, who, in consultation with the Board (where practicable) and any other appropriate personnel (including external advisors if deemed appropriate) will consider the information and whether disclosure is required. If disclosure is deemed necessary, an appropriate announcement will be prepared for release to the market as soon as possible.

At least once every 12 months' period, the Board will review the company's compliance with this continuous disclosure policy and update it from time to time, if necessary.

### **Shareholders**

The Board aims to ensure that Shareholders are kept fully informed of all major developments affecting the Group. Information is communicated to Shareholders as follows:

- As the Company is a disclosing entity, regular announcements are made to the Australian Securities Exchange in accordance with the Group's disclosure policy, including the half-year review, the year-end audited accounts and an Annual Report;
- The Board ensures the Annual Report includes relevant information about the operations of the Group during the year, changes in the state of affairs and details of future developments;
- Shareholders are advised in writing of key issues affecting the Group by effective use of the Group's share registry or electronically via the website;
- Shareholders are provided the opportunity to receive communications electronically through the Company's share registry;
- Any proposed major changes in the Group's affairs are submitted to a vote of Shareholders, as required by the Corporations Act 2001 and the Australian Securities Exchange Listing Rules;
- The Board encourages full participation of Shareholders at the Annual General Meeting to ensure a high level of accountability and identification of the Group's strategies and goals. All Shareholders who are unable to attend these meetings are encouraged to communicate or ask questions by writing to the Group; and
- The external auditor is requested to attend the Annual General Meetings to answer any questions concerning the audit and the content of the auditor's report.

The Board reviews this policy and compliance with it on an ongoing basis.

### **Diversity Policy**

The Group is committed to workplace diversity at all levels and recognises the benefits arising from employee and Board diversity. The benefits include a broader pool of high quality employees, improved employee retention, accessing different perspectives and ideas, and benefitting from all available talent.

The Group recognises that diversity includes matters of age, disability, ethnicity, marital and family status, religion and culture, sexual orientation and gender identity.

The Group strives to:

- Recruit and manage on the basis of an individual's competence, qualification and skills and performance;
- Create a workplace culture characterised by inclusive practices and behaviours for the benefit of all staff;
- Appreciate and respect the unique aspects that an individual brings to the workplace;
- Where possible and practicable, increase participation and employment opportunities for indigenous people;
- Create a work environment that values and utilises the contributions of employees with diverse backgrounds, experiences and perspectives through improved awareness of the benefits of workplace diversity and successful management of diversity, and at all times recognising that employees may have restrictions placed on them by domestic responsibilities outside the workplace;
- Take action to prevent discrimination, harassment, vilification or victimisation;
- Create awareness in all staff of their rights and responsibilities with regards to fairness, equity and respect for all aspects of diversity; and
- Identify and implement programs that will assist in the development of a broader and more diverse pool of skilled and experienced employees, and to offer employees opportunities to reach management levels with the Group.

## XSTATE RESOURCES LIMITED CORPORATE GOVERNANCE STATEMENT

### Diversity Policy (continued)

The Board is committed to workplace diversity and has developed measurable objectives and strategies to support the framework and objectives of the Diversity Policy, and the Board is responsible for monitoring the progress of the measurable objectives through various monitoring, evaluation and reporting mechanisms. For the 2016 financial year the Boards' objectives were met by the Group. The Board assesses annually the progress and achievement of the objectives.

### ASX Corporate Governance principles and recommendations not followed - "if not, why not" approach

Pursuant to the ASX Listing Rules, the Company advises that it does not comply with the following Corporate Governance Principles and Recommendations, issued by the ASX Corporate Governance Council. Reasons for the Company's non-compliance are detailed below.

#### Recommendation 2.1

*A majority of the Board should be independent directors*

#### Recommendation 4.2

*The audit and risk management committee should be structured so that it:*

- *consists only of non-executive directors*
- *consists of a majority of independent directors*
- *is chaired by an independent chair, who is not chair of the Board*
- *has at least three members*

#### Recommendation 8.2

*The remuneration and nomination committee should be structured so that it:*

- *consists of a majority of independent directors*
- *is chaired by an independent chair*
- *has at least three members*

Only two of the four directors are considered independent. In view of the size of the Company and the nature of its activities, the Board considers that the current Board structure is a cost effective and practical means of directing and managing the Company.

While the ASX Principles recommend an ideal structure for the audit and risk management and remuneration and nomination committees, they recognise that for smaller Boards it may not be possible to implement such a structure.

Given the size, scale and nature of the Company's business, the Board does not consider the non-compliance with these ASX Principles to be materially detrimental to the Company.

This statement is current as at 31 December 2016 and has been approved by the Board.

Director - David McArthur

Director - Cosimo Damiano

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2016**

**SECTION 1 BASIS OF PREPARATION**

In preparing the 2016 financial statements, the Company has made a number of changes in structure, layout and wording in order to make the financial statements less complex and more relevant for shareholders and other users. We have grouped notes into sections under six key categories:

1. Basis of preparation
2. Results for the year
3. Assets and liabilities relating to exploration and evaluation
4. Working capital disclosures
5. Equity and funding
6. Other disclosures

Significant accounting policies specific to one note are included within that note and where possible, wording has been simplified to provide clearer commentary on the financial report of the Group. Accounting policies determined non-significant are not included in the financial statements. There have been no changes to the Group's accounting policies that are no longer disclosed in the financial statements.

**1.1 GENERAL INFORMATION**

The Company is a for-profit, listed public company domiciled in Australia. The Company's registered office is located at Level 2, 55 Carrington Street, Nedlands, WA, 6009.

The Group is primarily involved in oil and natural gas exploration in the United States of America.

The consolidated financial statements of the Group as at and for the year ended 31 December 2016 comprise the Company and its subsidiaries (together referred to as the "Group" and individually as "Group entities") and were authorised for issue by the Board of Directors on 29 March 2017. The financial statements are general purpose financial statements which:

- have been prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standards ("AASBs") and other authoritative pronouncements of the Accounting Standards Board ("AASB"). The consolidated financial statements comply with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB);
- have been prepared on a historical cost basis, except for share-based payments which are measured at fair value. The basis of measurement is discussed further in the individual notes;
- are presented in Australian Dollars, being the Company's functional currency. Calog LLC functional currency is United States dollar;
- adopt all new and revised Australian Accounting Standards and Interpretations issued by the AASB that are relevant to the operations of the Group and effective for reporting periods beginning on or after 1 January 2016. Refer to note 6.9 for further details; and
- do not early adopt any Australian Accounting Standards and Interpretations that have been issued or amended but not yet effective. Refer to note 6.10 for further details.

**1.2 GOING CONCERN**

The consolidated financial statements have been prepared on a going concern basis which contemplates continuity of normal business activities and realisation of assets and settlement of liabilities in the normal course of business. The Directors are satisfied the Company is a going concern, as whilst it incurred a total comprehensive loss of \$1,036,166 for the period, it has a net asset position of \$2,036,933 and a cash balance of \$1,457,298 as at 31 December 2016.

# **XSTATE RESOURCES LIMITED**

## **NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

---

### **1.3 BASIS OF CONSOLIDATION**

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries) made up to 31 December each year.

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

### **1.4 FOREIGN CURRENCIES**

The primary economic environment in which the Group operates is Australia. The consolidated financial statements are therefore presented in Australian dollars.

Transactions in foreign currencies are initially recorded in Australian dollars at the exchange rate on that day. Foreign currency monetary assets and liabilities are translated into Australian dollars at the year end exchange rate. Where there is a movement in the exchange rate between the date of the transaction and the year end, a foreign exchange gain or loss may arise. Any such differences are recognised in the income statement. Non-monetary assets and liabilities measured at historical cost are translated into Australian dollars at the exchange rate on the date of the transaction.

### **1.5 IMPAIRMENT**

#### **Non-financial assets**

At each reporting date, the Group reviews the carrying amount of its non-financial assets, other than DTA's, to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in profit or loss.

### **1.6 ACCOUNTING JUDGEMENTS AND ESTIMATES**

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the consolidated financial statements and information about assumptions and estimation uncertainties that have a significant risk of resulting in material adjustment are included in the following notes:

- *Note 1.2* - *Going concern*
- *Note 2.5* - *Income tax expense*
- *Note 3.2* - *Site restoration*
- *Note 6.1* - *Share-based payments*

**XSTATE RESOURCES LIMITED**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**SECTION 2 RESULTS FOR THE YEAR**

This section focuses on the results and performance of the Group, with disclosures including segmental information, components of the operating profit, taxation and earnings per share.

**Key estimates and assumptions in this section**

**Deferred taxation**

The Group has unrecognised carry forward tax losses which can be utilised against future taxable profits. Given that the Group is not yet in production, the tax asset has not yet been recognised.

**2.1 OPERATING SEGMENTS**

**Information about reportable segments**

The Group has identified its operating segments on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Group currently operates in one operating segment being oil and gas exploration and evaluation.

Reportable segments disclosed are based on aggregating leases where the evaluation and exploration interests are considered to form a single project. This is indicated by:

- having the same ownership structure;
- exploration being focused on the same petroleum resource or type of petroleum resource; and
- exploration programs targeting the leases as a group, indicated by the use of the same exploration team, shared geological data and knowledge across the leases.

Unless otherwise stated, all amounts reported to the Board of Directors as the chief decision maker with respect to operating leases, are determined in accordance with *AASB 8 Operating Segments*.

There have been no changes to the basis of segmentation or the measurement basis for the segment profit or loss since 31 December 2015.

**2.2 OTHER INCOME**

**Accounting Policy**

Other income is recognised when the amount can be reliably measured and control of the right to receive the income be passed to the Group.

**Finance income**

Interest is recognised using the effective interest method.

	Note	2016 \$	2015 \$
Other operating income	(i)	18,611	52,158
Finance income		17,099	3,850
Other		749	-

(i) A by-product of exploration leases acquired in the Capay and Los Medanos gas fields is a working interest in minor gas production rights in the Sacramento Basin onshore California.

**XSTATE RESOURCES LIMITED**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**2.3 PERSONNEL EXPENSES AND EMPLOYEE BENEFITS**

**Accounting Policy**

**Short-term employee benefits**

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

**Other long-term employee benefits**

The Group's net obligation in respect of long-term employee benefits is the amount of the future benefit that employees have earned in return for their services in the current and prior periods. That benefit is discounted to determine its present value. Re-measurements are recognised in profit or loss in the period in which they arise.

**Share-based payments**

The policy relating to share-based payments is set out in note 6.1.

The table below sets out personnel costs expensed during the year.

	Note	2016 \$	2015 \$
Directors remuneration	6.3	350,961	178,795
Other wages and salaries		-	5,618
Employee contributions to defined contribution plans		-	1,677
Other associated personnel expenses		-	196
		350,961	186,286

**2.4 FINANCE COSTS**

**Accounting Policy**

Finance costs comprise interest expense on borrowings. Interest expense on short term borrowings is recognised as it accrues in profit or loss, using the effective interest method.

	Note	2016 \$	2015 \$
<b>Interest expense on financial liabilities measured at amortised cost</b>

**2.5 INCOME TAX EXPENSE**

**Accounting Policy**

Income tax expense comprises current and deferred tax. Current tax assets and liabilities are measured at the amount expected to be recovered from, or paid to, the taxation authorities. Current tax is based on tax rates enacted or substantively enacted at the reporting date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax base used for calculating taxable profits. Deferred tax balances are disclosed net to the extent that they relate to taxes levied by the same authority and the Group has the right of set-off.

Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probably that taxable profits will be available against which deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on substantively enacted rates at the reporting date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in the income statement.

Potential tax benefit at 28.5% (2015: 30%)	674,522	564,814

All unused tax losses were incurred by Australian entities.

Potential future income tax benefits of up to \$674,522 (2015: \$564,814) attributed to tax losses have not been brought to account because the directors do not believe it is appropriate to regard realisation of the future income tax benefits as probable.

The benefit of these tax losses will only be obtained if:

- i) future assessable income is derived of a nature and of an amount sufficient to enable the benefit to be realised;
- ii) the conditions for deductibility imposed by tax legalisation continue to be complied with;

DTAs not brought to account	<b>683,422</b>	<b>577,553</b>

There were no unregistered deferred tax liabilities.

**2.6 LOSS PER SHARE**

**(a) Basic loss per share**

Earnings / (loss) per share (EPS) is the amount of post-tax profit or loss attributable to each share.

The calculation of basic loss per share at 31 December 2016 has been based on the loss attributable to ordinary shareholders and weighted average number of ordinary shares outstanding.

Diluted EPS takes into account the dilutive effect of all potential ordinary shares, being share options on issue.

***Loss per share attributable to ordinary shareholders***

Basic loss per share (cents)	(0.23)	(0.77)
Diluted loss per share (cents) *	(0.23)	(0.77)

\* At 31 December 2016, no options (2015: 22,000,000 options) were excluded from diluted weighted average number of ordinary shares calculation as their effect would have been anti-dilutive.

**SECTION 3 ASSETS AND LIABILITIES SUPPORTING EXPLORATION AND EVALUATION**

This section focuses on the assets and liabilities which form the core of the ongoing business, including those assets and liabilities which support ongoing exploration and evaluation as well as capital and other commitments existing at the year end.

**Key estimates and assumptions in this section**

**Site restoration**

Provisions for the costs of rehabilitation, decommissioning and restoration of the area disturbed during mining activities depends on the legal requirements at the date of decommissioning, the costs and timing of work and the discount rate to be applied.

**3.1 PREPAYMENT – OIL AND GAS PROPERTIES**

**Accounting Policy**

Oil and gas properties are stated at cost less accumulated depreciation and impairment charges. Oil and gas properties include construction, installation or completion of production and infrastructure facilities such as pipelines and platforms, development wells and the cost of dismantling and restoration. Subsequent capital costs, including major maintenance, are included in the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. Otherwise, costs are charged to the statement of profit or loss during the financial year in which they are incurred.

When production commences, the accumulated costs for the relevant area of interest are amortised on a unit of production method based on the ratio of actual production to remaining proved reserves (P1) as estimated by independent petroleum engineers over the life of the area according to the rate of depletion of the economically recoverable reserves.

The carrying amount of producing assets is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount of an asset is the greater of its fair value less costs to sell and its value in use. In assessing value in use, an asset's estimated future cash flows are discounted to their present value using a post-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash flows that are largely independent from other assets or groups of assets, the recoverable amount is determined for the cash generating unit to which the asset belongs. For producing assets, the estimated future cash flows for the value-in-use calculation are based on estimates, the most significant of which are 2P hydrocarbon reserves. Estimates of future commodity prices are based on the Group's best estimate of future market prices with reference to external market analysts' forecasts, current spot prices and forward curves. Future commodity prices are reviewed at least annually.

An assets carrying amount is written down to the recoverable amount if the assets carrying amount is greater than its estimated recoverable amount.

Prepayment for 24.5% WI in Sansinena & East LA Basin oil and gas fields	741,626	-

On 22 December 2016, the Company paid \$670,980 (US\$500,000) as a non-refundable deposit to acquire a 24.5% working interest for US\$13 million in the Sansinena and East Los Angeles oil and gas fields. Under the revised terms of the PSA, the effective date of the agreement is 1 January 2017.

In addition to the deposit, associated expenses related to the deal have been capitalised.

**XSTATE RESOURCES LIMITED**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3.2 PROVISIONS**

**Accounting Policy**

**Provisions**

Provisions are determined by discounting the expected future cash flow at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance costs.

**Site restoration**

In accordance with the Group's published environment policy and applicable legal requirements, a provision for site restoration in respect of contaminated and disturbed land, and the related expense, is recognised when the land is contaminated or disturbed.

At each reporting date the site rehabilitation provision is re-measured to reflect any changes in discount rates and timing or amounts of the costs to be incurred. Such changes in the estimated liability are accounted for prospectively from the date of the change and re-added to, or deducted from, the related asset where it is possible that future economic benefits will flow to the entity.

The non-current site restoration provision of \$58,653 (2015: \$70,961) is in respect of the Group's on-going obligation for the environmental rehabilitation of the Sacramento Basin onshore California area of interest. The timing of rehabilitation expenditure is dependent on the life of the oil field which may vary in the future. The nature of restoration activities includes restoration, reclamation and revegetation of affected areas. The Company continues to work with the Californian authorities with regards to the planning and timing of the rehabilitation.

**4.2 TRADE AND OTHER RECEIVABLES**

**Accounting Policy**

Trade receivables are recognised initially at the value of the invoice sent to the counter-party and subsequently at the amounts considered recoverable (amortised cost). Where there is evidence that the receivable is not recoverable, it is impaired with a corresponding charge to the consolidated statement of profit or loss.

**Nature and purpose of reserves**

**Options reserve**

The options reserve represents the fair value of shares to be issued to directors, consultants and employees. This reserve will be transferred to capital once the shares have been issued or reversed through retained earnings if the options expire or are cancelled.

**Performance shares reserve**

The performance shares reserve represents the fair value of shares to be issued to directors, consultants and employees. This reserve will be transferred to capital once the shares have been issued.

**Translation reserve**

Exchange differences relating to the translation of the results and net assets of the Group's foreign operations from their functional currencies to the Group's presentation currency (i.e. Australian dollars) are recognised directly in other comprehensive income and accumulated in the foreign currency translation reserve. Exchange differences previously accumulated in the foreign currency translation reserve are reclassified to profit or loss on the disposal of the foreign operations.

**5.2 LOANS AND BORROWINGS (continued)**

**Convertible Note**

On 6 April 2016, the Company issued 25,000,000 8% convertible notes with a face value of 0.5 cents each, for total proceeds of \$125,000. Interest was payable quarterly in arrears at a rate of 8% per annum based on the face value. The notes were convertible into ordinary shares of the parent entity, at any time at the option of the holder, or repayable within 6 months of the issue date. The conversion rate was 1 ordinary fully paid share for each note held which was based on the market price per share at the date of issue of the notes, but subject to adjustments for reconstructions of equity. The convertible notes were unsecured.

On 29 June 2016, the Company issued 25,465,600 shares at 0.5 cents each for conversion of the \$125,000 convertible note and the interest payable of \$2,328. The transaction was approved by shareholders on 31 May 2016.

**Loan received from a director**

During the year, a director provided the Company with a \$50,000 loan with an interest rate of 7% pa. The loan plus interest was repaid on 3 May 2016.

## **SECTION 6 OTHER DISCLOSURES**

The disclosures in this section focus on share schemes in operation and financial risk management of the Group. Other mandatory disclosures, such as details of related party transactions, can also be found here.

### **Key estimates and assumptions in this section**

#### **Share-based payments**

The fair value of share options is measured using the binomial options pricing model. Measurement inputs include share price on measurement date, exercise price of the instrument, expected volatility (based on an evaluation of the company's historic volatility, particularly over the historic period commensurate with the expected term) and weighted average expected life of the instruments (based on historical experience), expected dividends (if any) and the risk-free interest rate (based on government bonds). Service and non-market conditions are not taken into account in determining fair value.

### **6.1 SHARE-BASED PAYMENTS**

#### **Accounting Policy**

The share option programme allows Group employees to receive rights to acquire shares of the Company. The grant date fair value of share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do not meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

Where the fair value of an employee share option has been recognised as a share-based payment and the option lapses on expiry, the total amount of the share-based payment expense is transferred from the share-based payment reserve to accumulated losses.

The share-based payment expense included within the consolidated statement of profit or loss can be broken down as follows:

	<b>2016</b>	<b>2015</b>
	<b>\$</b>	<b>\$</b>
<b>Expensed in personnel expenses (director remuneration)</b>		
Performance shares to be issued to a director	65,000	-
<b>Expensed in professional fees</b>		
Shares issued in part consideration for consultancy fees	-	8,000

## **6.1 SHARE-BASED PAYMENTS**

### ***Performance shares***

On 27 October 2015, the Company signed a consultancy agreement with the Managing Director, Cosimo Damiano, whereby remuneration would include 5 million shares if, and when, the following criteria are satisfied:

- Source, evaluate, negotiate and assist in securing finance for an asset or assets which are secured by the Company that leads to a 300% increase in the Company's market capitalisation (to exclude any capital appreciation from any deal relating to the existing California assets); Or
- Source in excess of \$3 million of new equity capital at terms acceptable to the Board; And
- 3 years' service with the Company.

The criteria could be amended at the discretion of the Board should the base market capitalisation prior to a suitable asset being sourced not provide an equitable performance incentive.

On 14 June 2016, the Company announced a \$3 million capital raising. On this date, one of the discretionary clauses attached to the consultancy agreement with Cosimo Damiano passed resulting in the granting of 5 million shares to Cosimo Damiano, subject to shareholder approval.

Under Australian Accounting Standards AASB 2, this transaction is deemed a share-based payment and the fair value of the shares is the market price on the date the discretionary clause passed being 1.3 cents each.

**XSTATE RESOURCES LIMITED**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**6.1 SHARE-BASED PAYMENT PLANS (continued)**

***Equity-settled share option programme***

The Company adopted an Employee Share Options Scheme (ESOS) effective 31 January 2014. Under the ESOS, the Company may grant options and rights to Company eligible employees to acquire securities to a maximum of 10% of the Company's total issued ordinary shares at the date of the grant. The fair value of share options granted is estimated using the Black-Scholes option pricing model.

The options and rights vest on a time scale as specified in the ESOS and is granted for no consideration. Options and rights granted under the plan carry no dividend or voting rights. When exercisable, each option is converted into one ordinary share. The maximum term of an option is 5 years from grant date and are settled in cash.

Options may not be transferred other than to an associate of the holder.

## **6.2 FINANCIAL RISK MANAGEMENT**

### **Accounting Policy**

#### **Classification of financial instruments**

The financial assets and liabilities of the Group are classified into the following financial statement captions in the statement of financial position in accordance with AASB 139 *Financial Instruments*:

- Loans and receivables – separately disclosed as cash and cash equivalents and trade and other receivables;
- Financial liabilities measured at amortised cost – separately disclosed as borrowings and trade and other payables

Judgement is required when determining the appropriate classification of the Group's financial instruments. Details on the accounting policies for measurement of the above instruments are set out in the relevant note.

#### **Recognition and de-recognition of financial assets and liabilities**

The Group recognises a financial asset or liability when it becomes a party to the contract. Financial instruments are no longer recognised in the statement of financial position when contractual cash flows expire or when the Group no longer retains control of substantially all the risks and rewards under the instrument.

### **Overview**

The Group has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Group's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital.

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board is responsible for developing and monitoring the Group's risk management policies.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Group Audit and Risk Management Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group.

### **Credit risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investments in debt securities.

The carrying amount of financial assets represents the maximum credit exposure.

### **Cash and cash equivalents**

The Group held cash and cash equivalents of \$1,457,298 at 31 December 2016 (2015: \$38,039). The cash and cash equivalents are held with authorised banking institutions and only with counterparties that have an acceptable credit rating.

**6.2. FINANCIAL RISK MANAGEMENT (continued)**

**Credit risk (continued)**

***Other receivables***

As the Group operates primarily in exploration activities, it does not have trade receivables and therefore is not exposed to credit risk in relation to trade receivables.

At 31 December 2016, the maximum exposure to credit risk for other receivables by geographic region was as follows:

	<b>Carrying amount</b>	
	<b>2016</b>	<b>2015</b>
	<b>\$</b>	<b>\$</b>
Australia	7,176	24,296
USA	11,708	43,590
	<b>18,884</b>	<b>67,886</b>

Currently, the Group undertakes exploration and evaluation activities exclusively in the USA. As the Group is not trading there are no financial assets past due and there is no management of credit risk through performing an aging analysis; therefore, an aging analysis has not been disclosed.

**Liquidity risk**

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group ensures that it has sufficient cash on demand to meet expected operational expenses. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

The following are the contractual maturities of financial liabilities excluding the impact of netting arrangements:

	<b>Carrying amount</b>	<b>Contractual cash flows</b>	<b>12 months or less</b>
	<b>\$</b>	<b>\$</b>	<b>\$</b>
<b>31 December 2016</b>			
<b>Non-derivative financial liabilities</b>			
Trade and other payables	(146,886)	(146,886)	(146,886)
Employee entitlements	(25,000)	(25,000)	(25,000)
	<b>(171,886)</b>	<b>(171,886)</b>	<b>(171,886)</b>
<b>31 December 2015</b>			
<b>Non-derivative financial liabilities</b>			
Trade and other payables	(129,360)	(129,360)	(129,360)
Employee entitlements	(16,252)	(16,252)	(16,252)

	<b>(190,735)</b>	<b>(190,735)</b>	<b>(190,735)</b>

The balances above will not always agree to the financial statements as the contractual cash flows above are undiscounted. The carrying amount is the balance as recognised in the statement of financial position.

**XSTATE RESOURCES LIMITED**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**6.2. FINANCIAL RISK MANAGEMENT (continued)**

**Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, commodity prices and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. There has been no change to the manner in which the Group manages market risk from the previous year.

**Currency risk**

The Group undertakes certain transactions denominated in foreign currencies, hence exposure to exchange rate fluctuations arise.

The carrying amount of the Group's foreign currency denominated monetary assets and liabilities at the reporting date is as follows:

	Assets		Liabilities	
	2016	2015	2016	2015
	\$	\$	\$	\$
US dollar	201,489	49,485	(57,842)	(24,121)

Foreign currency sensitivity analysis

The Group is mainly exposed to US dollars (USD). The following table details the Group's sensitivity to a 2% (31 December 2015: 10%) increase and decrease in the Australian dollar against the relevant foreign currencies and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the yearend for a 2% (31 December 2015: 10%) change in foreign currency rates. A positive number indicates an increase in profit or loss where the Australian dollar strengthens against the respective currency.

	Impact on profit or loss	
	2016	2015
	\$	\$
<b>If AUD strengthens by 2% (31 December 2015: 10%)</b>		
USD	(2,816)	(2,306)
<b>If AUD weakens by 2% (31 December 2015: 10%)</b>		
USD	2,932	2,818

There would be no impact on other equity of the company and the Group.

**XSTATE RESOURCES LIMITED**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**6.2. FINANCIAL RISK MANAGEMENT (continued)**

**Market risk (continued)**

***Interest rate risk***

The Group only has interest rate risk relating to its funds on deposit with banking institutions. Accordingly, the Group does not hedge its interest rate risk exposure.

Exposure to interest rate risk

The interest rate profile of the Group's interest bearing financial instruments as reported to management of the Group is as follows:

	<b>Carrying amount</b>	
	<b>2016</b>	<b>2015</b>
	<b>\$</b>	<b>\$</b>
<b>Variable rate instruments</b>		
Cash and cash equivalents	1,457,298	38,039
Interest bearing assets	-	59,919
	<b>1,457,298</b>	<b>97,958</b>

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have increased / (decreased) profit and loss by the amounts shown below. This analysis assumes that all other variables remain constant. The analysis is performed on the same basis as for twelve months ended 31 December 2015.

	<b>Profit or loss</b>	
	<b>100 bp increase</b>	<b>100 bp decrease</b>
	<b>\$</b>	<b>\$</b>
<b>31 December 2016</b>		
Variable rate instruments	14,572	(12,833)
Cash flow sensitivity	14,572	(12,833)
<b>31 December 2015</b>		
Variable rate instruments	380	(80)
Cash flow sensitivity	380	(80)

At the reporting date the Group did not hold any variable rate financial liabilities.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 6.2. FINANCIAL RISK MANAGEMENT (continued)

#### Fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurable date. Fair value for measurement and / or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of AASB 2, leasing transactions that are within the scope of AASB 117, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in AASB 2 or value in use in AASB 136.

Fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurable date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Cash and cash equivalents, trade and other receivables, trade creditors, other creditors, accruals and employee entitlements have been excluded from the above analysis as their fair values are equal to the carrying values.

### 6.3 RELATED PARTIES

Key management personnel compensation included in 'Directors' remuneration' (note 2.3) and 'share-based payments' (note 6.1), comprises the following:

	Note	2016 \$	2015 \$

**6.3 RELATED PARTIES (continued)**

**Other key management personnel transactions**

A number of key management personnel, or their related parties, hold positions in other companies that result in them having control or significant influence over the financial or operating policies of those entities.

A number of these companies transacted with the Company during the year. The terms and conditions of these transactions were no more favourable than those available, or which might reasonably be expected to be available, in similar transactions to non-key management personnel related companies on an arm's length basis.

The aggregate value of transactions and outstanding balances relating to key management personnel and entities over which they have control or significant influence were as follows:

<i>Key management person</i>	<i>Transaction</i>	<i>Note</i>	<b>Transactions value</b>		<b>Balance outstanding</b>

Xstate (USA) Corp	20 January 2017	Incorporated in Delaware as a USA holding company
XGas LLC	10 February 2017	Application submitted to set up a California based subsidiary to hold the exploration permits

At a general meeting held on 31 January 2017, shareholders approved the adoption of an Employee Incentive Option Plan and on 3 February 2017 the Company issued 5,000,000 fully paid shares to Mr Cosimo Damiano and 42,000,000 options to directors and consultants pursuant to the Employee Incentive Option Plan. The 42,000,000 options are exercisable at 5 cents each on or before 31 December 2020.

On 31 January 2017, shareholders also approved the placement of up to 657,894,736 shares at an issue price of 3.8 cents per share to raise approximately \$25,000,000.

On 28 March 2017, the Company advised the market that funds under the subscription agreement had still not been received, and that the vendor of the Los Angeles Basin assets being acquired by the Company had agreed to extend the time for settlement of the acquisition whilst the transfer of funds out of Indonesia is being finalised.

On 29 March 2017, the Company announced that it had exercised an option to acquire various working interests ranging from 10% to 30% of wells in five producing gas fields.

Other than as disclosed above, there have been no matters or circumstances that have arisen since the end of the financial year that have significantly affected, or may significantly affect, the operations of the Group, the results of these operations, or the state of affairs of the Group in future financial years.

## INDEPENDENT AUDITOR'S REPORT

To the members of Xstate Resources Limited

### Report on the Audit of the Financial Report

#### Opinion

We have audited the financial report of Xstate Resources Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2016, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2016 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

#### Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined there are no Key Audit Matters to be communicated in our report.

### **Other information**

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 31 December 2016, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of the directors for the Financial Report**

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

### **Auditor's responsibilities for the audit of the Financial Report**

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<http://www.auasb.gov.au/Home.aspx>) at:
